Item 2.03. Creation of a Direct Financial Obligation or an Obligation under an

Off-Balance Sheet Arrangement of a Registrant.

On October 11, 2006, Alexander & Baldwin, Inc. ("A&B"), MLR Golf Partners LLC ("MLR"), and BH/JP Hawaii Holdings LLC ("Brookfield") entered into an Indemnification Agreement (the "Agreement"). The Agreement was entered into in connection with Brookfield's execution of an indemnity agreement or agreements (collectively, "Indemnity Agreement") in favor of The Guarantee Company of North America ("The Guarantee"). The Indemnity Agreement relates to, among other things, The Guarantee's execution of an agreement with MLR for the delivery of one or more bonds. MLR is a real-estate development joint venture that is developing a 30.5-acre residential project in the Mauna Lani Resort on the island of Hawaii (the "Project"). The joint venture is more fully described in A&B's most recently filed Form 10-K. Under the Indemnity Agreement, Brookfield agrees to indemnify The Guarantee from all loss and expense in connection with any bonds for which it serves as surety for MLR.

Under the Agreement, the parties agree that MLR shall be responsible for 100% of all payments related to the Project required to be made under the Indemnity Agreement, and Brookfield and A&B shall each be proportionately liable (50% for Brookfield and 50% for A&B) for all payments related to the Project required to be made under the Indemnity Agreement if MLR fails to timely pay amounts due to The Guarantee. Under the Indemnity Agreement, the maximum potential amount of aggregate future payments is a function of the amount covered by outstanding bond(s) at the time of default, reduced by the amount of work completed. Based on current projections, bonds with an aggregate value of approximately \$71 million are anticipated to be issued and retired over the construction period. However, the total amount of bonds outstanding at any point in time is not currently anticipated to exceed approximately \$33 million. In other words, assuming an event of default where the maximum amount of bonds are issued and no work is completed, the maximum potential amount of aggregate future payments under the Indemnity Agreement for the Project is currently projected at approximately \$33 million. In that instance, the maximum potential amount of aggregate future payments for A&B under the Agreement would be approximately \$16.5 million.

Statements in this Form 8-K that are not historical facts are "forward-looking statements" that involve a number of risks and uncertainties that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. Factors that could cause actual results to differ materially from those contemplated in the statements include, without limitation, those described in the most recently filed Form 10-K.
