ITEM 5. OTHER ITEMS

On July 3, 2001, General Motors Corporation (GM) issued a news release

Edgar Filing: GENERAL MOTORS CORP - Form 8-K

announcing June production results and third quarter forecast remains unchanged. The release is as follows:

GM Truck Sales Continue Strong Momentum: Industry Stays on Pace for Third-Best Sales Year

- GM Truck Sales Up 9%; Passenger Cars down 13%
- Overall June Sales Down 3%

GM Announces June Production Results; Third Quarter Forecast Unchanged

DETROIT -- General Motors dealers sold 456,855 new cars and trucks in June in the United States, down 3 percent from June 2000. Strong pickup and utility sales for the month gave GM a 9 percent increase in truck sales.

"We continue to see strong consumer demand and we're very encouraged that the market remains on track for the industry's third-best sales year," said Bill Lovejoy, group vice president of North America Vehicle Sales, Service and Marketing. "Our June sales results show that we continue to build momentum, led by the industry's leading lineup of truck brands, where GM is making gains in key segments. Through the outstanding sales efforts of our dealers and our commitment to quality, productivity and customer satisfaction, we are moving in the right direction."

GM Truck Sales Highlights

GM's strongest results in June came once again from sport utility vehicle (SUV) sales, putting GM on pace to set an all-time industry SUV calendar year sales record. GM's total utility sales of 99,027 and medium utility sales of 47,612 are the best months ever. GM's full-size utilities and pickups continued to post strong sales numbers, 46,284 and 71,256 respectively. Cadillac Escalade also had an impressive month with 2,522 sales in June helping GM again lead the industry in full-size utilities. The all-new Chevrolet TrailBlazer, GMC Envoy and Oldsmobile Bravada all saw sales build significantly.

Along with the three new midsize utilities, GM expects to continue its strong truck sales performance as several other new and innovative entries increase in availability, including the Buick Rendezvous, Chevrolet Avalanche and Cadillac Escalade.

GM Car Sales Highlights

Saturn as a division and the L-Series posted record calendar year-to-date sales and record second quarter sales.

Chevrolet's Impala continued strong sales momentum posting record calendar year-to-date and second quarter numbers.

The Chevrolet Impala, Malibu and Cavalier all rank on the top-10 list of best-selling cars in America, making Chevrolet the only brand in the auto industry with three top-10 best sellers.

GM Announces June and 2nd-Quarter Production Totals, 3rd-Quarter 2001 Estimates

In June, GM produced 466,000 vehicles (211,000 cars and 255,000 trucks) in North America, down from 549,000 vehicles (276,000 cars and 273,000 trucks) produced in June 2000. (Production totals include joint venture production of 10,000 vehicles in June 2001 and 12,000 vehicles in June 2000.)

GM announced second-quarter 2001 North American production totaled 1.363 million vehicles (631,000 cars and 732,000 trucks). The increased production in the second quarter is attributed to the excellent build-out of 2001 models and the better-than-expected start-up of 2002 models. In the second quarter of 2000, GM produced 1.568 million vehicles (787,000 cars and 781,000 trucks).

Edgar Filing: GENERAL MOTORS CORP - Form 8-K

Additionally, GM announced that the third-quarter production estimate of 1.235 million vehicles (572,000 cars and 663,000 trucks) will remain unchanged. It is a 6.4 percent decline from the 1.319 million vehicles (689,000 cars and 630,000 trucks) GM produced in the third quarter of 2000.

GM also announced the following production estimates for its international regions:

- GM Europe - The third-quarter estimate is 385,000 vehicles, down from the previous estimate of 386,000.
- GM Asia Pacific - The third-quarter estimate is 77,000 vehicles, down from the previous estimate of 79,000.
- GM Latin America, Africa and the Middle East - The third-quarter estimate is 166,000 vehicles, down from the previous estimate of 174,000.

Note: GM sales and production results are available on GM Media Online at <http://media.gm.com> by clicking on the Sales/Production icon.

In this press release and related comments by General Motors management, our use of the words "expect," "anticipate," "estimate," "forecast," "objective," "plan," "goal" and similar expressions is intended to identify forward looking statements. While these statements represent our current judgement on what the future may hold, and we believe these judgements are reasonable, actual results may differ materially due to numerous important factors that are described in GM's most recent report on SEC Form 10-K (at page II-20) which may be revised or supplemented in subsequent reports on SEC Forms 10-Q and 8-K. Such factors include, among others, the following: changes in economic conditions, currency exchange rates or political stability; shortages of fuel, labor strikes or work stoppages; market acceptance of the corporation's new products; significant changes in the competitive environment; changes in laws, regulations and tax rates; and, the ability of the corporation to achieve reductions in cost and employment levels to realize production efficiencies and implement capital expenditures at levels and times planned by management.

@ Numbers may vary due to rounding

* NUMMI units included in GMNA Car, CAMI units included in GMNA Car and Truck figures.

** GME Production includes Saab back to 1999

Denotes estimate for GME, GMLAAM and GMAP; actual for GMNA

Denotes estimate

Edgar Filing: GENERAL MOTORS CORP - Form 8-K

Note: Beginning with Q1 2001, a reclassification has been made in the International regions to count vehicles as production in the region of final assembly. 1999 and 2000 data has been adjusted to reflect this reclassification.
