 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
 (Tabular amounts in thousands, except per share data)

Note 1 – Summary of Significant Accounting Policies

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) for interim financial information and SEC Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In our opinion, the interim condensed consolidated financial statements reflect all adjustments necessary for a fair presentation of the results of operations and financial position for such periods. All such adjustments reflected in the interim condensed consolidated financial statements are considered to be of a normal recurring nature. The results of operations for any interim period are not necessarily indicative of results for the full year. Accordingly, these financial statements should be read in conjunction with the financial statements and notes thereto contained in our 2013 Annual Report on Form 10-K. Unless otherwise noted, the term “year” and references to a particular year pertain to our fiscal year, which begins on July 1 and ends on June 30; for example, 2014 refers to fiscal 2014, which is the period from July 1, 2013 to June 30, 2014.

Property, Plant and Equipment

Property, plant and equipment are stated at cost less accumulated depreciation. Purchases of property, plant and equipment included in accounts payable and excluded from the property additions and the change in accounts payable in the Condensed Consolidated Statements of Cash Flows were as follows:

	September 30,	
	2013	2012
Construction in progress in accounts payable	\$292	\$721

Earnings Per Share

Earnings per share (“EPS”) is computed based on the weighted average number of shares of common stock and common stock equivalents (restricted stock and stock-settled stock appreciation rights) outstanding during each period. Unvested shares of restricted stock granted to employees are considered participating securities since employees receive nonforfeitable dividends prior to vesting and, therefore, are included in the earnings allocation in computing EPS under the two-class method. Basic EPS excludes dilution and is computed by dividing income available to common shareholders by the weighted average number of common shares outstanding during the period. Diluted EPS is computed by dividing income available to common shareholders by the diluted weighted average number of common shares outstanding during the period, which includes the dilutive potential common shares associated with nonparticipating restricted stock and stock-settled stock appreciation rights.

Basic and diluted net income per common share were calculated as follows:

	Three Months Ended September 30,	
	2013	2012
Net income	\$24,801	\$26,662
Net income available to participating securities	(34) (53
Net income available to common shareholders	\$24,767	\$26,609
Weighted average common shares outstanding – basic	27,268	27,229
Incremental share effect from:		
Nonparticipating restricted stock	5	5
Stock-settled stock appreciation rights	39	30

Edgar Filing: LANCASTER COLONY CORP - Form 10-Q

Weighted average common shares outstanding – diluted	27,312	27,264
Net income per common share – basic and diluted	\$0.91	\$0.98

Significant Accounting Policies

There were no changes to our Significant Accounting Policies from those disclosed in our 2013 Annual Report on Form 10-K.

Note 2 – Impact of Recently Issued Accounting Standards

There were no recently issued accounting pronouncements that impact our consolidated financial statements.

Note 3 – Goodwill and Other Intangible Assets

Goodwill attributable to the Specialty Foods segment was approximately \$89.8 million at September 30, 2013 and June 30, 2013.

The following table summarizes our identifiable other intangible assets, all included in the Specialty Foods segment:

Amortization expense for our intangible assets was as follows:

	Three Months Ended September 30,	
	2013	2012
Amortization expense	\$236	\$236

Total annual amortization expense for each of the next five years is estimated to be as follows:

2015	\$946
2016	\$775
2017	\$604
2018	\$604
2019	\$604

Note 4 – Long-Term Debt

At September 30, 2013 and June 30, 2013, we had an unsecured credit agreement under which we may borrow, on a revolving credit basis, up to a maximum of \$120 million at any one time, with potential to expand the total credit availability to \$200 million based on obtaining consent of the issuing banks and certain other conditions. The facility expires on April 18, 2017, and all outstanding amounts are then due and payable. Interest is variable based upon formulas tied to LIBOR or an alternative base rate defined in the credit agreement, at our option. We must also pay facility fees that are tied to our then-applicable consolidated leverage ratio. Loans may be used for general corporate purposes. Based on the long-term nature of this facility, when we have outstanding borrowings under this facility, we will classify the outstanding balance as long-term debt.

At September 30, 2013 and June 30, 2013, we had no borrowings outstanding under this facility. At September 30, 2013, we had approximately \$3.7 million of standby letters of credit outstanding, which reduced the amount available for borrowing under the credit agreement. We paid no interest for the three months ended September 30, 2013 and 2012. At September 30, 2013 and June 30, 2013, we were in compliance with all applicable provisions and covenants of this facility, and we exceeded the requirements of the financial covenants by substantial margins. At September 30, 2013, we were not aware of any event that would constitute a default under the facility.

The facility contains certain restrictive covenants, including limitations on indebtedness, asset sales and acquisitions. There are two principal financial covenants: an interest expense test that requires us to maintain an interest coverage ratio not less than 2.5 to 1 at the end of each fiscal quarter; and an indebtedness test that requires us to maintain a consolidated leverage ratio not greater than 3 to 1 at all times. The interest coverage ratio is calculated by dividing Consolidated EBIT (as defined more specifically in the credit agreement) by Consolidated Interest Expense (as defined more specifically in the credit agreement), and the leverage ratio is calculated by dividing Consolidated Debt (as defined more specifically in the credit agreement) by Consolidated EBITDA (as defined more specifically in the credit agreement).

Note 5 – Income Taxes

Accrued Federal income taxes included in accrued liabilities were \$6.2 million and \$0 at September 30, 2013 and June 30, 2013, respectively. The increase was due to the timing of tax payments.

The gross tax contingency reserve at September 30, 2013 was approximately \$0.9 million and consisted of tax liabilities of approximately \$0.5 million and penalties and interest of approximately \$0.4 million. We have classified none of the gross tax contingency reserve as current liabilities as none of these amounts are expected to be resolved

within the next 12 months. The entire liability of approximately \$0.9 million was included in other noncurrent liabilities. We expect that the amount of these liabilities will change within the next 12 months; however, we do not expect the change to have a significant effect on our financial position or results of operations. We recognize interest and penalties related to these tax liabilities in income tax expense.

LANCASTER COLONY CORPORATION AND SUBSIDIARIES
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Tabular amounts in thousands, except per share data)

Note 6 – Stock-Based Compensation

Our shareholders approved the adoption of and subsequent amendments to the Lancaster Colony Corporation 2005 Stock Plan (the “2005 Plan”). The 2005 Plan reserved 2,000,000 common shares for issuance to our employees and directors, and all awards granted under the 2005 Plan will be exercisable at prices not less than fair market value as of the date of the grant. The vesting period for awards granted under the 2005 Plan varies as to the type of award granted, but generally these awards have a maximum term of five years.

Stock-Settled Stock Appreciation Rights

We use periodic grants of stock-settled stock appreciation rights (“SSSARs”) as a vehicle for rewarding certain employees with long-term incentives for their efforts in helping to create long-term shareholder value. We calculate the fair value of SSSARs grants using the Black-Scholes option-pricing model. Our policy is to issue shares upon SSSARs exercise from new shares that had been previously authorized.

In August 2013, we granted SSSARs under the terms of our 2005 Plan. There were no grants in the three months ended September 30, 2012. The following table summarizes information relating to the 2014 grant:

	2014	
SSSARs granted	2	
Weighted average grant date fair value per right	\$ 10.14	
Assumptions used in fair value calculations:		
Risk-free interest rate	0.61	%
Dividend yield	2.01	%
Volatility factor of the expected market price of our common stock	23.00	%
Weighted average expected life in years	2.68	
Estimated forfeiture rate	—	%

For this grant, the volatility factor was estimated based on actual historical volatility of our stock for a time period equal to the term of the SSSARs. The expected average life was determined based on historical exercise experience for this type of grant. The SSSARs from each grant vest one-third on the first anniversary of the grant date, one-third on the second anniversary of the grant date and one-third on the third anniversary of the grant date. No SSSARs vested during the three months ended September 30, 2013 and 2012.

We recognize compensation expense over the requisite service period. Compensation expense was reflected in Cost of Sales or Selling, General and Administrative Expenses based on the grantees’ salaries expense classification and was allocated to each segment appropriately. We recorded tax benefits and gross windfall tax benefits related to SSSARs. These windfall tax benefits were included in the financing section of the Condensed Consolidated Statements of Cash Flows. The following table summarizes SSSARs compensation expense and tax benefits recorded:

	Three Months Ended September 30,	
	2013	2012
Compensation expense	\$307	\$461
Tax benefits	\$107	\$161
Intrinsic value of exercises	\$18	\$690
Gross windfall tax benefits	\$6	\$241

LANCASTER COLONY CORPORATION AND SUBSIDIARIES
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Tabular amounts in thousands, except per share data)

The following table summarizes the activity relating to SSSARs granted under the 2005 Plan for the three months ended September 30, 2013:

	Number of Rights	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life in Years	Aggregate Intrinsic Value
Outstanding at beginning of period	374	\$66.42		
Exercised	(2) \$61.80		
Granted	2	\$79.78		
Forfeited	—	\$—		
Outstanding at end of period	374	\$66.51	3.27	\$4,408
Exercisable and vested at end of period	110	\$60.87	2.21	\$1,910
Vested and expected to vest at end of period	365	\$66.51	3.27	\$4,302

At September 30, 2013, there was approximately \$1.2 million of unrecognized compensation expense related to SSSARs that we will recognize over a weighted-average period of approximately 1.82 years.

Restricted Stock

We use periodic grants of restricted stock as a vehicle for rewarding our nonemployee directors and certain employees with long-term incentives for their efforts in helping to create long-term shareholder value.

In August 2013, we granted 200 shares of restricted stock under the terms of the 2005 Plan. The grant date fair value was approximately \$16,000 and the grant date fair value per award was \$79.78. The restricted stock under this employee grant vests on the third anniversary of the grant date. Under the terms of our grants, employees receive dividends on unforfeited restricted stock regardless of their vesting status. There were no grants of restricted stock to employees in the three months ended September 30, 2012. No restricted stock vested during the three months ended September 30, 2013 and 2012.

We recognize compensation expense over the requisite service period. Compensation expense was reflected in Cost of Sales or Selling, General and Administrative Expenses based on the grantees' salaries expense classification and was allocated to each segment appropriately. We recorded tax benefits and gross windfall tax benefits related to restricted stock. These windfall tax benefits were included in the financing section of the Condensed Consolidated Statements of Cash Flows. The following table summarizes restricted stock compensation expense and tax benefits recorded:

	Three Months Ended September 30,	
	2013	2012
Compensation expense	\$340	\$410
Tax benefits	\$119	\$144
Gross windfall tax benefits	\$2	\$1

The following table summarizes the activity relating to restricted stock granted under the 2005 Plan for the three months ended September 30, 2013:

11

LANCASTER COLONY CORPORATION AND SUBSIDIARIES
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Tabular amounts in thousands, except per share data)

At September 30, 2013, there was approximately \$1.3 million of unrecognized compensation expense related to restricted stock that we will recognize over a weighted-average period of approximately 1.65 years.

Note 7 – Pension Benefits

We sponsor multiple defined benefit pension plans that have covered certain union workers. However, as a result of prior-years' restructuring activities, for all periods presented, we no longer have any active employees continuing to accrue service cost or otherwise eligible to receive plan benefits. Benefits being paid under the plans are primarily based on negotiated rates and years of service. We contribute to these plans at least the minimum amount required by regulation.

The following table summarizes the components of net periodic benefit income for our pension plans:

	Three Months Ended September 30,	
	2013	2012
Components of net periodic benefit income		
Interest cost	\$438	\$408
Expected return on plan assets	(614) (595
Amortization of unrecognized net loss	115	172
Net periodic benefit income	\$(61) \$(15

For the three months ended September 30, 2013, we made no pension plan contributions and we expect to make no contributions to our pension plans during 2014.

Note 8 – Postretirement Benefits

We and certain of our operating subsidiaries provide multiple postretirement medical and life insurance benefit plans. We recognize the cost of benefits as the employees render service. Postretirement benefits are funded as incurred.

The following table summarizes the components of net periodic benefit cost for our postretirement plans:

	Three Months Ended September 30,	
	2013	2012
Components of net periodic benefit cost		
Service cost	\$8	\$8
Interest cost	32	28
Amortization of unrecognized net gain	(7) (5
Amortization of prior service asset	(1) (1
Net periodic benefit cost	\$32	\$30

For the three months ended September 30, 2013, we made approximately \$25,000 in contributions to our postretirement medical and life insurance benefit plans. We expect to make approximately \$0.1 million more in contributions to our postretirement medical and life insurance benefit plans during the remainder of 2014.

Note 9 – Commitments and Contingencies

At September 30, 2013, we were a party to various claims and litigation matters arising in the ordinary course of business. Such matters did not have a material effect on the current-year results of operations and, in our opinion, their ultimate disposition will not have a material effect on our consolidated financial statements.

The Continued Dumping and Subsidy Offset Act of 2000 (“CDSOA”) provides for the distribution of monies collected by U.S. Customs from anti-dumping cases to qualifying domestic producers. Our CDSOA receipts totaled approximately \$0.3 million in the second quarter of 2013.

LANCASTER COLONY CORPORATION AND SUBSIDIARIES
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Tabular amounts in thousands, except per share data)

CDSOA remittances relate to certain candles being imported from the People's Republic of China. CDSOA provisions for remittances apply only to duties collected on products imported prior to October 2007. Accordingly, we may receive some level of annual distributions for an undetermined period of years in the future as the monies collected that relate to entries filed prior to October 2007 are administratively finalized by U.S. Customs. Without further legislative action, we expect these distributions will eventually cease.

Cases have been brought in U.S. courts challenging certain aspects of CDSOA. In two separate cases, the U.S. Court of International Trade ("CIT") ruled that the procedure for determining recipients eligible to receive CDSOA distributions is unconstitutional. The U.S. Court of Appeals for the Federal Circuit reversed both CIT decisions and the U.S. Supreme Court did not hear either case. This allowed the appellate court decisions to stand, but other legal challenges to CDSOA are still pending.

We are unable to determine, at this time, what the ultimate outcome of the other legal challenges will be, and it is possible that further legal actions, potential additional changes in the law and other factors could affect the amount of funds available for distribution, including funds relating to entries prior to October 2007. Accordingly, we cannot predict the amount of future distributions, if any, we may receive. U.S. Customs has advised affected domestic producers that it is possible that CDSOA distributions could be subject to clawback until the resolution of outstanding litigation. We believe that the likelihood of clawback is remote. Any change in CDSOA distributions could affect our earnings and cash flow.

Note 10 – Business Segments Information

The following summary of financial information by business segment is consistent with the basis of segmentation and measurement of segment profit or loss presented in our June 30, 2013 consolidated financial statements. The September 30, 2013 identifiable assets by reportable segment are generally consistent with that of June 30, 2013.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

Our fiscal year begins on July 1 and ends on June 30. Unless otherwise noted, references to "year" pertain to our fiscal year; for example, 2014 refers to fiscal 2014, which is the period from July 1, 2013 to June 30, 2014.

The following discussion should be read in conjunction with our condensed consolidated financial statements and the notes thereto, all included elsewhere in this report. The forward-looking statements in this section and other parts of this report involve risks, uncertainties and other factors, including statements regarding our plans, objectives, goals, strategies, and financial performance. Our actual results could differ materially from the results anticipated in these forward-looking statements due to these factors. For more information, see the section below entitled "Forward-Looking Statements."

OVERVIEW

Business Overview

Lancaster Colony Corporation is a diversified manufacturer and marketer of consumer products focusing primarily on specialty foods for the retail and foodservice markets. We also manufacture and market candles for the food, drug and mass markets. While much less significant, we have also sold candles, glassware and various other products to customers in certain commercial markets. These commercial product lines were sold in May 2013. Our operations are organized in two reportable segments: "Specialty Foods" and "Glassware and Candles." The sales of each segment are predominately domestic.

In recent years, our strategy has shifted away from operating businesses in a variety of industries towards emphasizing the growth and success we have achieved in our Specialty Foods segment.

We intend to periodically reassess the strategic fit and contribution of our remaining nonfood operation in light of market conditions, capital needs and other factors. Our long-term strategy focuses our efforts on the most profitable part of our business and minimizes the amount of financial and management resources devoted to our nonfood operation.

We view our food operations as having the potential to achieve future growth in sales and profitability due to attributes such as:

- leading retail market positions in several branded products with a high-quality perception;
- a broad customer base in both retail and foodservice accounts;
- well-regarded culinary expertise among foodservice accounts;
- recognized leadership in foodservice product development;
- experience in integrating complementary business acquisitions; and
- historically strong cash flow generation that supports growth opportunities.

Within the Specialty Foods segment, our goal is to grow both retail and foodservice sales over time by:

- leveraging the strength of our retail brands to increase current product sales, introduce new products and expand to new channels;
- growing our foodservice sales through the strength of our reputation in product development and quality; and
- pursuing acquisitions that meet our strategic criteria.

We have made substantial capital investments to support our existing food operations and future growth opportunities. Based on our current plans and expectations, we believe that our total capital expenditures for 2014 could total approximately \$18 million, depending on the timing and approval of certain food-related projects currently being evaluated.

Summary of 2014 Results

The following is a comparative overview of our consolidated operating results for the three months ended September 30, 2013 and 2012.

Net sales for the three months ended September 30, 2013 decreased 2% to approximately \$285.9 million from the prior-year total of \$291.0 million. This sales decrease reflects lower sales in both operating segments. The Specialty Foods segment's decrease reflects improved foodservice volumes offset by flat retail volumes and increased trade promotion costs. Glassware and Candles net sales declined as a result of lower candle volumes. The first quarter gross margin decreased 6% to approximately \$61.6 million from the prior-year total of \$65.7 million. The lower level of net sales, higher trade promotion

costs and an increased foodservice sales mix in the Specialty Foods segment contributed to the lower gross margin. Net income for the three months ended September 30, 2013 totaled approximately \$24.8 million, or \$0.91 per diluted share. Net income totaled approximately \$26.7 million in the first quarter of the prior year, or \$0.98 per diluted share.

RESULTS OF CONSOLIDATED OPERATIONS

Net Sales and Gross Margin

(Dollars in thousands)	Three Months Ended		Change		
	September 30, 2013	September 30, 2012			
Net Sales					
Specialty Foods	\$248,137	\$248,881	\$(744)	—	%
Glassware and Candles	37,719	42,095	(4,376)	(10)	%
Total	\$285,856	\$290,976	\$(5,120)	(2)	%
Gross Margin	\$61,638	\$65,717	\$(4,079)	(6)	%
Gross Margin as a Percentage of Net Sales	21.6	% 22.6		%	

Consolidated net sales for the first quarter ended September 30, 2013 decreased 2%, reflecting lower sales in both operating segments.

For the three months ended September 30, 2013, net sales of the Specialty Foods segment decreased by less than 1%. The segment's sales volume is estimated to have improved by less than 2% with improved foodservice and branded retail volumes partially offset by lower private label retail sales. However, the benefit of the higher sales volumes was offset by an increase in trade promotion costs that reduced segment net sales by approximately 2%. The impact of pricing to the quarter was not significant.

Net sales of the Glassware and Candles segment for the three months ended September 30, 2013 decreased by 10% on lower candle volumes reflecting challenging retail conditions, lower sales of contract-manufactured products and the impact of customer planogram changes in the prior year.

As a percentage of net sales, our consolidated gross margin for the three months ended September 30, 2013 was 21.6% as compared to 22.6% achieved in the prior-year comparative period.

In the Specialty Foods segment, gross margin percentages declined slightly for the three months ended September 30, 2013, reflecting factors such as a less favorable sales mix and higher trade promotion costs. The impact of material costs was not significant. Looking forward, under current market conditions, we foresee modestly more favorable material-cost comparisons beginning in our second fiscal quarter and continuing into calendar 2014.

Gross margin percentages in the Glassware and Candles segment improved, as a more favorable product mix and somewhat lower wax costs offset the effects of lower net sales. Looking forward to the second fiscal quarter within this segment, we anticipate further reductions in the sales of contract-manufactured product lines, as well as comparatively lower sales of seasonal products.

Selling, General and Administrative Expenses

(Dollars in thousands)	Three Months Ended		Change		
	September 30, 2013	September 30, 2012			
SG&A Expenses	\$24,038	\$25,145	\$(1,107)	(4)	%
SG&A Expenses as a Percentage of Net Sales	8.4	% 8.6		%	

Consolidated selling, general and administrative costs of approximately \$24.0 million for the three months ended September 30, 2013 decreased by 4% from the \$25.1 million incurred for the three months ended September 30, 2012, and were generally comparable as a percentage of net sales compared to the same period in the prior year.

Operating Income

The foregoing factors contributed to consolidated operating income totaling approximately \$37.6 million for the three months ended September 30, 2013. By segment, our operating income can be summarized as follows:

(Dollars in thousands)	Three Months Ended		
	September 30, 2013	2012	Change
Operating Income			
Specialty Foods	\$39,543	\$42,758	\$(3,215) (8)%
Glassware and Candles	1,169	608	561 92 %
Corporate Expenses	(3,112)	(2,794)	(318) 11 %
Total	\$37,600	\$40,572	\$(2,972) (7)%
Operating Income as a Percentage of Net Sales			
Specialty Foods	15.9	% 17.2	%
Glassware and Candles	3.1	% 1.4	%
Total	13.2	% 13.9	%

Interest Income and Other – Net

Interest income and other was less than \$0.1 million for the three months ended September 30, 2013 and 2012.

Income Before Income Taxes

As impacted by the factors discussed above, income before income taxes for the three months ended September 30, 2013 decreased by approximately \$3.0 million to \$37.6 million from the prior-year total of \$40.6 million. Our effective tax rate of 34.0% for the three months ended September 30, 2013 was comparable to the prior-year rate of 34.3%.

Net Income

First quarter net income for 2014 of approximately \$24.8 million decreased from the preceding year's net income for the quarter of \$26.7 million, as influenced by the factors noted above. Net income per share for the first quarter of 2014 totaled \$0.91 per basic and diluted share, as compared to \$0.98 per basic and diluted share recorded in the prior year.

FINANCIAL CONDITION

For the three months ended September 30, 2013, net cash provided by operating activities totaled approximately \$26.5 million as compared to \$16.4 million in the prior-year period. The increase resulted from the relative changes in working capital, particularly accounts receivable and inventory. The increase in receivables since June 2013 primarily related to seasonal influences on sales within the Glassware and Candles segment.

Cash used in investing activities for the three months ended September 30, 2013 was approximately \$2.6 million as compared to \$5.7 million in the prior year. This decrease reflected a lower level of capital expenditures in 2014.

Cash used in financing activities for the three months ended September 30, 2013 of approximately \$14.2 million increased from the prior-year total of \$9.6 million. This increase was due to a higher level of share repurchases in the current year and higher dividend payments. At September 30, 2013, approximately 1,428,000 shares remained authorized for future buyback under the existing share repurchase program.

Under our unsecured revolving credit facility, we may borrow up to a maximum of \$120 million at any one time.

Loans may be used for general corporate purposes. We had no borrowings outstanding under this facility at September 30, 2013. At September 30, 2013, we had approximately \$3.7 million of standby letters of credit outstanding, which reduced the amount available for borrowing on the unsecured revolving credit facility. The facility expires in April 2017, and all outstanding amounts are then due and payable. Interest is variable based upon formulas tied to LIBOR or an alternative base rate defined in the credit agreement, at our option. We must also pay facility fees that are tied to our then-applicable consolidated leverage ratio. Based on the long-term nature of this facility, when we have outstanding borrowings under this facility, we will classify the outstanding balance as long-term debt.

The facility contains certain restrictive covenants, including limitations on indebtedness, asset sales and acquisitions, and financial covenants relating to interest coverage and leverage. At September 30, 2013, we were in compliance with all

16

applicable provisions and covenants of the facility, and we exceeded the requirements of the financial covenants by substantial margins.

We currently expect to remain in compliance with the facility's covenants for the foreseeable future. A default under the facility could accelerate the repayment of any outstanding indebtedness and limit our access to additional credit available under the facility. Such an event could require curtailment of cash dividends or share repurchases, reduce or delay beneficial expansion or investment plans, or otherwise impact our ability to meet our obligations when due. At September 30, 2013, we were not aware of any event that would constitute a default under the facility.

We believe that internally generated funds and our existing balances in cash and equivalents, in addition to our currently available bank credit arrangements, should be adequate to meet our cash requirements through 2014. If we were to borrow outside of our credit facility under current market terms, our average interest rate may increase significantly and have an adverse effect on our results of operations.

For additional information regarding our credit facility, see Note 4 to the condensed consolidated financial statements.

CONTRACTUAL OBLIGATIONS

We have various contractual obligations that are appropriately recorded as liabilities in our condensed consolidated financial statements. Certain other items, such as purchase obligations, are not recognized as liabilities in our condensed consolidated financial statements. Examples of items not recognized as liabilities in our condensed consolidated financial statements are commitments to purchase raw materials or inventory that has not yet been received as of September 30, 2013 and future minimum lease payments for the use of property and equipment under operating lease agreements. Aside from expected changes in raw-material needs due to changes in product demand, there have been no significant changes to the contractual obligations disclosed in our 2013 Annual Report on Form 10-K.

CRITICAL ACCOUNTING POLICIES

There have been no changes in critical accounting policies from those disclosed in our 2013 Annual Report on Form 10-K.

RECENTLY ISSUED ACCOUNTING STANDARDS

There were no recently issued accounting pronouncements that impact our consolidated financial statements.

RECENTLY ADOPTED ACCOUNTING STANDARDS

In February 2013, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") No. 2013-02, "Comprehensive Income: Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income" ("ASU 13-02") which added new disclosure requirements for items reclassified out of accumulated other comprehensive income. ASU 13-02 effectively replaced the requirements outlined in previous ASUs. The requirements of ASU 13-02 were effective for fiscal years, and interim periods within those years, beginning after December 15, 2012. We adopted this guidance in the quarter ended September 30, 2013. The adoption did not have an impact on our financial position, results of operations or cash flows because it related to disclosures only.

FORWARD-LOOKING STATEMENTS

We desire to take advantage of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995 (the "PSLRA"). This Quarterly Report on Form 10-Q contains various "forward-looking statements" within the meaning of the PSLRA and other applicable securities laws. Such statements can be identified by the use of the forward-looking words "anticipate," "estimate," "project," "believe," "intend," "plan," "expect," "hope" or similar words. These statements disclose future expectations; contain projections regarding future developments, operations or financial conditions; or state other forward-looking information. Such statements are based upon assumptions and assessments made by us in light of our experience and perception of historical trends, current conditions, expected future developments and other factors we believe to be appropriate. These forward-looking statements involve various important risks, uncertainties and other factors that could cause our actual results to differ materially from those expressed in the forward-looking statements. Actual results may differ as a result of factors over which we have no, or limited, control including, without limitation, the specific influences outlined below. Management believes these forward-looking statements to be reasonable; however, you should not place undue reliance on such statements that are based on current

expectations. Forward-looking statements speak only as of the date they are made, and we undertake no obligation to update such forward-looking statements, except as required by law.

Items which could impact these forward-looking statements include, but are not limited to:

- the potential for loss of larger programs or key customer relationships;
- the effect of consolidation of customers within key market channels;
- the success and cost of new product development efforts;
- the lack of market acceptance of new products;
- the reaction of customers or consumers to the effect of price increases we may implement;
- changes in demand for our products, which may result from loss of brand reputation or customer goodwill;
- the extent to which future business acquisitions are completed and acceptably integrated;
- the possible occurrence of product recalls or other defective or mislabeled product costs;
- efficiencies in plant operations, including the ability to optimize overhead utilization in candle operations;
- price and product competition;
- the uncertainty regarding the effect or outcome of any decision to explore further strategic alternatives for our nonfood operation;
- fluctuations in the cost and availability of raw materials;
- adverse changes in energy costs and other factors that may affect costs of producing, distributing or transporting our products;
- the impact of fluctuations in our pension plan asset values on funding levels, contributions required and benefit costs;
- maintenance of competitive position with respect to other manufacturers, including global sources of production;
- dependence on key personnel;
- stability of labor relations;
- dependence on contract copackers and limited or exclusive sources for certain goods;
- legislation and litigation affecting the future administration of the Continued Dumping and Subsidy Offset Act of 2000;
- access to any required financing;
- changes in estimates in critical accounting judgments;
- the outcome of any litigation or arbitration; and
- certain other factors, including the information disclosed in our discussion of risk factors under Item 1A of our 2013 Annual Report on Form 10-K.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Our market risks have not changed materially from those disclosed in our 2013 Annual Report on Form 10-K.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures. As of the end of the period covered by this Quarterly Report on Form 10-Q, our Chief Executive Officer and Chief Financial Officer evaluated, with the participation of management, the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the "Exchange Act")). Based upon this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of September 30, 2013 to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is 1) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and 2) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, in a manner that allows timely decisions regarding required disclosure.

(b) Changes in Internal Control Over Financial Reporting. No changes were made to our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1A. Risk Factors

There have been no material changes to the risk factors disclosed under Item 1A in our 2013 Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(c) In November 2010, our Board of Directors approved a share repurchase authorization of 2,000,000 shares, of which approximately 1,428,000 shares remained authorized for future repurchases at September 30, 2013. This share repurchase authorization does not have a stated expiration date. In the first quarter, we made the following repurchases of our common stock:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans	Maximum Number of Shares that May Yet be Purchased Under the Plans
July 1-31, 2013	—	\$—	—	1,467,846
August 1-31, 2013	—	\$—	—	1,467,846
September 1-30, 2013	40,070	\$73.79	40,070	1,427,776
Total	40,070	\$73.79	40,070	1,427,776
