ensure the adequacy of operating practices, procedures and controls. The Company's Nominating Committee is responsible for the nomination of Board of Director members, establishing the tenure and the retirement policies for members of the Board of Directors and reviewing the Board of Directors' overall effectiveness. Each of the members of the Nominating Committee is independent as defined under the listing standards of the Nasdaq stock market.

Compensation Committee. The Company's Compensation Committee is a standing committee of the Bank's Board of Directors since all executive compensation is paid by the Bank. The Committee consists of Stuart G. Smith-Chair, Carl S. Poole, Jr., Mark N. Rosborough and Bruce B. Tindal. This committee met twice during 2005. None of the members of this committee served on a similar committee for any other company. The function of this committee is to establish the compensation of the Chief Executive Officer and to review the compensation of other senior executive officers.

In addition to the Compensation Committee, there are five other standing committees of the Bank's Board of Directors: Executive, Audit, Asset/Liability, Trust and Directors' Loan. Certain members of management also serve on some committees of the Bank.

Director Independence

The Board reviewed the independence of the Company's directors in January 2006 on the basis of the standards adopted by the Nasdaq. In this review, the Board considered transactions and relationships between each director, and any member of his or her immediate family and of the Company or the Bank and between certain entities in which any director or any immediate family member has certain interests, on the one hand, and the Company or the Bank, on the other hand. The purpose of this review was to determine which of such transactions or relationships were inconsistent with a determination that the director is independent under the Nasdaq rules.

As a result of the review, the Board affirmatively determined that as of January 2006 all of the directors are independent of the Company, the Bank and under the Nasdaq rules with the exception of President Daigneault, EVP McKim and Chairman Gregory.

Director Compensation

In 2005, each of the outside directors of the Bank, with the exception of the Chairman of the Board, received a director's fee in the amount of \$650 for each meeting attended and \$300 for each meeting attended of a committee of which the director is a member. The Chairman of the Board received an annual fee of \$28,000. In addition to meeting fees paid for meetings attended, the Chairman of the Executive Committee received a stipend of \$6,000 and the Chairman of the Audit Committee received a stipend of \$8,000. In addition to the above referenced fees, each of the outside directors was reimbursed for 85% of the cost of his or her health insurance premiums. This reimbursement amount is equivalent to the average rate provided to employees of the Company. Certain Board members were also paid fees for consulting services and legal services, and such fees are on terms no more favorable to the recipient than are generally paid by the Bank for such services to other providers in the area. Fees and health insurance premiums paid by the Bank to its Directors as a group totaled \$188,971.64 in 2005, but no fees are paid to Directors of the Company. President Daigneault and EVP McKim, who are the only directors who are also employees of the Company, receive no additional compensation for serving on the Board of Directors of the Company or the Bank.

The Federal Reserve Act permits the Bank to contract for or purchase property from any of its Directors only when such purchase is made in the regular course of business upon terms not less favorable to the Bank than those offered by others unless the purchase has been authorized by a majority of the Board of Directors not interested in the transaction. Similarly, the Federal Reserve Act prohibits loans to Executive Officers of the Bank unless such loans are on terms not more favorable than those afforded other borrowers and certain other prescribed conditions have been met.

The Bank has had, and expects to have in the future, banking transactions in the ordinary course of its business with Directors, Officers and principal shareholders of the Company and their affiliates. All such transactions have been made upon substantially the same terms, including interest rates and collateral, as those prevailing at the same time for comparable transactions with others. In the opinion of management, such loans have not involved more than the normal risk of collectibility nor have they presented other unfavorable features. The total amount of loans outstanding at December 31, 2005 to the Company's Directors, Executive Officers and their associates was \$17,016,981, which constituted 2.19% of the Bank's total loans outstanding at that date.

Report of Compensation Committee on Executive Compensation

The Compensation Committee consists of four independent members of the Board of Directors. This Committee has the responsibility for conducting the annual performance evaluation of the Chief Executive Officer. The Committee is also responsible for determining the compensation of the Chief Executive Officer and approving the compensation of the other senior executive officers of the Company and Bank.

The Company is committed to providing competitive compensation packages to attract and retain quality high performance executives who can and do make major contributions to the Company's overall success. The compensation package generally includes base salary, cash bonuses, stock option grants and other benefits which the Committee may deem appropriate to remain competitive and reward an executive officer for high performance.

Base Salaries

The amount of base compensation potentially payable to the Chief Executive Officer and other senior executive officers is determined by reviewing independent salary surveys of compensation of executives for similar financial institutions located primarily in the New England region. Base salaries are targeted at market levels taking into consideration the executive's level of responsibility, experience, knowledge, leadership and attainment of performance goals and objectives.

Annual Performance Compensation

In 1994, the Company instituted a formal performance-based compensation program called "Performance Compensation for Stakeholders". The objective of the program is to align the performance of all employees with the Company's short term and long term objectives. In 2005, total cash payout under this Stakeholder Performance Compensation program was 15.00% of the participating employees' base salaries paid to all eligible employees. This was lower than in previous years as a result of the integration of the two banks during 2005.

The performance compensation program's overall objective is to maximize the long-term viability of the Company and increase shareholder value. It addresses this by tying the performance payout to multiple goals which include profitability, growth, productivity and loan quality. The guiding principle is to reach a balance of profitability, growth, productivity and loan quality which should collectively have a positive impact on maximizing long-term shareholder value. The Committee believes that this performance based program provides a reward for high levels of current performance without sacrificing the achievement of long-term goals. Each year specific key performance indicators are chosen along with company wide financial performance trigger levels. In 2005 some of the indicators were: loan volume, deposit volume, nonperforming loan levels, past due loan percentages, non-interest income, Investment Division revenues, net interest income and the efficiency ratio. Since its introduction in 1994, in the opinion of Management, the Board and this Committee, the program has been successful in meeting its objectives as measured by the Company's exceptional performance over the last eleven years.

In addition to this "Stakeholder" bonus program, the Committee, with the approval of the Board of Directors, may also establish a discretionary bonus fund. The CEO working in conjunction with the Compensation Committee may grant additional cash bonuses to selected executive officers and employees in recognition of their outstanding performance during the year. The Chief Executive Officer is excluded for eligibility under this particular discretionary bonus fund. The Compensation Committee may from time to time grant the Chief Executive Officer a cash bonus in addition to the formal Stakeholder Performance Compensation program based upon the CEO surpassing previously established performance goals or work accomplishments above and beyond the stakeholder program.

Compensation of Chief Executive Officer

As previously noted, the amount of base salary potentially payable to the Chief Executive Officer is determined by reviewing independent salary surveys of CEOs of similar financial institutions located primarily in New England. The Committee takes into consideration the actual salaries paid to CEOs of these banks in relationship to the performance of the Company in comparison to the selected peer group.

The Chief Executive Officer and the Board of Directors at the beginning of each year agree to a set of performance objectives for the Bank as a whole and the CEO individually. Throughout the year the attainment of the performance objectives is carefully monitored. These performance objectives are a combination of Company financial targets such as attainment of certain profitability levels, return on equity, and increases in earnings per share. In addition, goals are set for asset growth as well as loan quality targets. Goals are also set for non-financial performance items such as implementation of strategic plan initiatives and compliance with regulatory matters.

For the year ended December 31, 2005, the Company posted outstanding performance results with a 14.0% increase in earnings per share on a fully diluted basis and a return on average tangible equity of 17.81%. In addition to these strong earning results the Chief Executive Officer also did an excellent job at meeting all of his other performance objectives. In 2004, the Company posted comparable performance results with a 14.6% increase in net income and a return on average tangible equity of 17.36%.

In 2004 the independent directors of the Board also hired an outside consultant to review the compensation package of the CEO. The consultant provided the independent directors a comprehensive report addressing all aspects of the compensation package for the CEO. Based on the review of the information provided by the independent consultant as well as the review of base salaries of CEOs of peer group companies and taking into consideration the record performance of the Company, the Chief Executive Officer's base salary for 2005 was set at \$290,000.

During 2005 the Company posted another year of record earnings with net income increasing \$4.3 million or 50.9% over the prior year. In addition, loan growth was exceptional and loan quality remained very good with loan losses being at record lows.

Under the Performance Compensation program for all employees the Chief Executive Officer earned the same Stakeholder bonus of 15.00% paid to all employees which calculated on his base salary amounted to \$43,500. Despite the strong performance of the Company in 2005, in a cost containment effort the Committee did not provide any additional bonus to the CEO or other Executive Officers in 2005 other than the 15% Stakeholder Payout.

Compensation Committee Interlocks and Insider Participation in Compensation Decisions

During 2005, Directors, Poole, Smith, Rosborough and Tindal served as members of the Compensation Committee. No member of the Committee was, or ever has been, an officer or employee of the Company or the Bank. All Committee members are customers of and engage in transactions with the Bank in the ordinary course of business. As described in the section entitled "Certain Relationships and Related Transactions", all loans to such individuals were made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other persons and, in the opinion of Management, did not involve more than the normal risk of collectability or present other unfavorable features.

Executive Compensation

The following table sets forth the cash and non-cash compensation for each of the last three fiscal years awarded to or earned by the Chief Executive Officer of the Corporation and the Bank as well as and the other four highest paid Executive Officers of the Corporation and the Bank whose salary and bonus earned in 2005 exceeded \$100,000.

² (a) Amounts shown include contributions paid by the Company to the respective accounts of the named Executive Officers in the 401(k) Plan. In 2005 the Company and the Bank contributed to the Bank's 401(k) Plan a matching amount for the salary deferred by Messrs. Daigneault, McKim, Ward Wootton and Lay equal to 3.0% of their respective earnings and a profit-sharing component of 2.0% for 2005. In addition the Company and the Bank contributed to the Bank's 401(k) Plan a matching amount for the salary deferred by Messrs. Daigneault, Ward and Wootton equal to 3.0% of their respective earnings and a profit-sharing component of 2.5% for 2004 and 2003, of their respective earnings, which were subject to IRS regulations limiting the maximum amount of an officer's earnings eligible for matching or profit-sharing 401(k) contributions to \$210,000. These percentages were equivalent to the 401(k) Plan match and profit sharing contributions made for all eligible employees.

(b) This figure also recognizes the value to the officers of a Company-owned vehicle to Messrs. Daigneault, Ward and Wootton which were \$3,640, \$5,200 and \$2,704 respectively for 2005.

(c) Also included in 2005 is the economic value of split dollar life insurance benefits provided to Messrs. Daigneault, McKim, Ward and Lay under the Life Insurance Endorsement Split Dollar Plan agreement for Bank Owned Life Insurance. This value was \$797 for Mr. Daigneault, \$266 for Mr. McKim \$558 for Mr. Ward and \$210 for Mr. Lay.

³ Messrs. McKim's and Lay's compensation is only listed for 2005 as they became executives of the Company upon the merger transaction closed on January 14, 2005.

Stock Option Plan

In April 1995, the stockholders approved a Stock Option Plan. The purpose of the Plan is to encourage the retention of key employees by facilitating their purchase of a stock interest in the Company and to align their interest with those of the shareholders. The Plan provides for grants of options to purchase Company common stock and is administered by an Options Committee, which consists of four outside directors. During 2005, 42,000 options were granted under the 1995 Stock Option Plan. The following table sets forth the status of the Plan as of December 31, 2005:

Options approved by Shareholders	600,000
Options granted	(624,000)
Options forfeited	24,000
Ungranted options remaining	-

In addition to the Stock Option Plan above, as a result of the FNB merger, options to acquire 40,630 FNB shares were converted in accordance with the merger agreement into options to acquire an aggregate of 95,479 common shares of FNLC at a purchase price of \$3.80 per share.

The following table sets forth the status of all options as of December 31, 2005:

Long-Term Compensation

Long-term compensation may be distinguished from annual compensation by the time frame for which performance results are measured to determine awards. While annual compensation covers a calendar year, long-term compensation is provided through the Company's stock option plan, which covers a period of two to ten years. The following table sets forth information with respect to the named executives and all other employees concerning grants of stock options during 2005:

Option Grants During the Year Ended December 31, 2005

	Number of securities underlying options granted	% of total options granted in fiscal year	Exercise price per Share ¹	Expiration Date	Potential realizable value at assumed rates of stock appreciation for option term ²

¹ The dollar gains under these columns result from calculations assuming 5% and 10% growth rates compounded over a 10-year period as set by the Securities and Exchange Commission and are not intended to forecast future price appreciation of the Company's common stock. The gains reflect a future value based upon growth at these prescribed rates. The values have not been discounted to present value. It is important to note that options have value to the listed executive and to all option recipients only if the stock price advances beyond the exercise price shown on the table during the effective option period.

² Under the Stock Option Plan, the exercise price may not be less than the fair market value of the common stock on the date the option is granted; 50% of the options granted are typically exercisable two years from the date of grant and 100% are typically exercisable five years from the date of grant.

Description of the Company's Benefit Plans

Overview

The Company has reserved 480,000 shares of its common stock to be made available to directors and employees who elect to participate in the stock purchase or savings and investment plans. As of December 31, 2005, 410,719 shares had been issued pursuant to these plans, leaving 69,281 shares available for future use. The issuance price is based on the market price of the stock at issuance date. All shares issued under the 401(k) savings and investment plans are issued pursuant to an exemption from registration under the Securities Act of 1933, as amended (the Securities Act), contained in Section 3(a)(11) thereof and Rule 147 promulgated thereunder. During the period ending nine months after the date of issuance of these shares, these shares may be transferred only to residents of the State of Maine. Each certificate issued for these plan shares bears a legend referring to this restriction.

Shares issued under the employee stock purchase plan prior to September 11, 1998, were issued pursuant to exemptions from registration under Section 3(a)(11) and Rule 147 of the Securities Act. Shares issued under the employee stock purchase plan on or after September 11, 1998, have been issued pursuant to a registration statement filed under the Securities Act. The members of the Board of Directors and certain officers of the Company, who may be deemed to be affiliates, may resell shares of the Company's common stock purchased or acquired under this plan only in accordance with certain restrictions imposed by the Securities Act and Rule 144 promulgated thereunder.

401(K) Plan

The Bank's 401(k) Plan (The First Savings and Investment Plan) is the Bank's sole retirement plan, and was modified in 1996 after termination of the Bank's traditional defined benefit pension plan. It is available to any employee who has attained the age of 21 and completed six months of continuous service. Employees may contribute up to 50.0% of their compensation (in 2005, not to exceed \$14,000 if under age 50 and \$18,000 if over age 50), and the Bank may provide a match of up to 3.0% of compensation. Subject to a vote of the Board of Directors, the Bank may also make a profit-sharing contribution to the Plan, and in 2005 this contribution equaled 2.0% of each eligible employee's compensation.

Employee contributions are 100% vested at all times, while employer contributions are vested over a five-year period. Upon termination of employment for any reason, a plan participant may receive his or her contribution account and earnings allocated to it, as well as the vested portion of his or her employer-matching account and earnings allocated to it. Non-vested amounts are forfeited and are used by the Bank to help defray plan administration expenses incurred by the Bank. The Bank paid \$174,000 in matching contributions and \$124,000 in profit-sharing contributions to this plan in 2005. Plan participants may direct the trustees of the 401(k) Plan to purchase specific assets for their accounts from a selection which includes seven mutual funds as well as the Company's stock. As of December 31, 2005, 226,469 shares of the Company's stock had been purchased by the 401(k) Plan at the direction of plan participants.

Stock Purchase Plan

The Bank instituted an employee and director stock purchase plan effective February 1, 1987, and the Board of Directors has allocated 240,000 shares of stock to be available for purchase under this plan. Employees who have been employed by the Bank for three consecutive calendar months are eligible to purchase shares through payroll deduction. The price per share for shares sold pursuant to the plan is defined as the closing price on the day the shares are purchased. As of December 31, 2005, 184,250 shares of the Company's stock had been purchased pursuant to the plan.

Employee Benefits

The Bank provides all full-time employees with group life, health, and long-term-disability insurance through the Independent Bankers' Trust of Maine and Bankers Health Trust. A Flexible Benefits Plan is available to all full-time employees after satisfying eligibility requirements and to part-time employees scheduled to work 20 or more hours a week.

Supplemental Executive Retirement Plan

The Bank also sponsors an un-funded, non-qualified supplemental retirement plan for certain executive officers. The plan provides supplemental retirement benefits payable in installments over 20 years upon retirement or death. The costs for this plan are recognized over the service lives of the participating executive officers. The projected retirement benefit for Mr. Daigneault, assuming he remains employed by the Bank until normal retirement age of 65, is \$169,329 per year, with such payments beginning in the year 2017. The projected retirement benefit for Mr. Ward, assuming he remains employed by the Bank until normal retirement age of 65, is \$61,127 per year, with such payments beginning in the year 2018. The benefits are capped at the above amounts and are subject to being substantially less should the named executive officer not remain employed until the normal retirement age of 65. The Plan also contains a restrictive covenant that may result in the executive officer forfeiting all accrued benefits should he accept employment with a competing financial institution within five years after his termination of employment with the Company. The expense for all participants in this supplemental plan was \$166,000 in 2005, \$147,000 in 2004, and \$135,000 in 2003. As of December 31, 2005 and 2004, the accrued liability of this plan was \$967,000 and \$839,000, respectively.

Stock Option Plan

On December 15, 1994, the Company's board of directors adopted a Stock Option Plan (the "Option Plan") for the benefit of officers and other full-time employees of the Company and the Bank. This plan was approved by the Company's shareholders at the 1995 Annual Meeting. Under the Option Plan, 600,000 shares (subject to adjustment to reflect stock splits and similar events) are reserved from the authorized but unissued common stock of the Company for future issuance by the Company for exercise of stock options granted to certain key employees of the Company and the Bank from time to time. The purpose of the Option Plan is to encourage the retention of such key employees by facilitating their purchase of a stock interest in the Company. The Option Plan is intended to provide for the granting of incentive stock options under Section 422 of the Internal Revenue Code of 1986, as amended (the "Code") to employees of the Company or the Bank.

The Option Plan is administered by the Options Committee of the Company's board of directors, which is comprised solely of directors who are ineligible to receive grants of stock options under the Option Plan and who have not received grants of options within the 12 months preceding their appointment to the Options Committee. The Options Committee selects the employees of the Bank and the Company to whom options are to be granted and designates the number of options to be granted. The Option Plan may be amended only by the vote of the holders of a majority of the Company's outstanding common stock if such amendment would increase the number of shares available for issuance under the Option Plan, change the eligibility criteria for grants of options under the Option Plan, change the minimum option exercise price or increase the maximum term of options. Other amendments may be effected by the Options Committee.

Employees selected by the Options Committee receive, at no cost to them, options under the Option Plan. The option exercise prices are equal to or exceed the fair market value of the shares on the date of the grant, and no option is exercisable after the expiration of ten years from the date it is granted. The fair market value of the shares is determined by the Options Committee as specified in the Option Plan. The optionee cannot transfer or assign any option other than by will or in accordance with the laws of descent and distribution, and the option may be exercised only by the employee during the employee's lifetime. After an employee's death, options may be exercised by the employee's estate or heirs up to one year following the date of death. Code Section 422 limits option grants by providing that during the term of the Option Plan, no grant may be made to any employee owning more than 10% of the Company's outstanding shares unless the exercise price is at least 110% of the underlying shares' fair market value and such option is not exercisable more than five years following the option grant. The aggregate fair market value of the stock for which any employee may be granted incentive stock options which are first exercisable in any calendar year may generally not exceed \$100,000.

While generally no options may be exercisable before the second anniversary of the grant date, in the event of a change in control involving the Company all options (other than those held by officers or directors of the Company or the Bank for less than six months) shall become immediately exercisable. Also, an employee whose employment is terminated in connection with or within two years after such a change in control event shall be entitled to exercise all options for up to three months following the date of termination; provided that options held by officers or directors shall not be exercisable until six months after the grant date. Employees

whose services are terminated, other than following a change in control as described above, shall thereupon forfeit any options held; provided, however, that following termination due to disability an employee shall be entitled to exercise options for up to one year (provided, further, that officers may exercise only with respect to options held for at least six months).

The Company receives no monetary consideration for the granting of incentive stock options. Upon the exercise of options, the Company receives payment in cash from optionees in exchange for shares issued. No federal income tax consequences are incurred by the Company at the time incentive stock options are granted or exercised, unless the optionee incurs liability for ordinary income tax treatment upon exercise of the option, as discussed below, in which event the Company would be entitled to a deduction equal to the optionee's ordinary income attributable to the options. Provided the employee holds the shares received on exercise of a stock option for the longer of two years after the option was granted or one year after it was exercised, the optionee will realize capital gains income (or loss) in the year of sale in an amount equal to the difference between the sale price and the option exercise price paid for shares. If the employee sells the shares prior to the expiration of the period, the employee realizes ordinary income in the year of disposition equal to the difference between the fair market value of the shares on the date of exercise and the exercise price and capital gains income (or loss) equal to the difference (if any) between the sale price of the shares and the fair market value of the shares on the date of exercise.

In addition to the tax consequences discussed above, the excess of the option price over the fair market value of the optioned stock at the time of option exercise is required to be treated by an incentive optionee as an item of tax preference for purposes of the alternative minimum tax.

As a result of the FNB merger, options to acquire 40,630 FNB shares were converted in accordance with the merger agreement into options to acquire an aggregate of 95,479 common shares of FNLC at a purchase price of \$3.80 per share, all of which were fully vested at the date of the merger. These options are separate from the Company's Stock Option Plan described above. Upon exercise, the Company receives payment in cash from optionees in exchange for shares issued, and the Company is entitled to a deduction for federal tax purposes equal to the difference between the exercise price of the options and current market price of the Company's stock.

Employment Continuity Agreements

As a result of the FNB merger, the Company assumed certain Employment Continuity Agreements with Messrs. McKim, Lay, Wrobel and Dalrymple, which provide that if the employment of the executive officer is terminated, or he elects to resign, within 24 months following the merger, the executive will receive a lump sum severance payment equal to 299% of his base salary as of December 31, 2004, provided that if such payment, alone or together with other payments the executive is entitled to receive on account of a "change in control" (as defined therein) would constitute a "parachute payment" under federal income tax law, the payment would be reduced to the largest amount that would not be subject to the excise tax applied to parachute payments. Under the terms of the Employment Continuity Agreements as amended, each executive agrees that if he receives payments thereunder he will not accept employment with any financial institution which has an office or branch in any of Knox, Lincoln, Hancock or Washington counties, Maine for a period of one year from the date of his termination or resignation.

On January 25, 2006, an amendment to the agreements of Messrs. McKim and Wrobel removes the executive's right to receive the above stated lump sum severance payment if he elects to resign, in exchange for an amount equal to 10% of the lump sum severance payment as defined above, payable immediately. In addition, the executive will be entitled to a lump sum severance payment for a period of up to ten years from the January 14, 2005, if the employment of the executive is terminated by the Registrant. The amount of this lump sum severance payment will decrease by 10% each year until the end of the ten-year period.
