VOTING RIGHTS AND SOLICITATION

The enclosed proxy is being solicited on behalf of the Board of Directors of Cyanotech for use at the Annual Meeting.

The close of business on June 25, 2002 is the record date for stockholders entitled to notice of and to vote at the Annual Meeting. All holders of the Company's Common Stock outstanding on the record date are entitled to vote at the Annual Meeting. Each stockholder has one vote for each share so held. At June 25, 2002, Cyanotech had 17,558,701 shares of Common Stock, \$.005 par value per share, issued and outstanding. The presence in person or by proxy of the holders of record of a majority of the voting power of the outstanding shares entitled to vote constitutes a quorum. A majority of the voting power at a meeting at which a quorum is present, is required for approval of all matters to be voted on. Abstentions are counted only for purposes of determining whether a quorum is present. Broker non-votes are not treated as votes nor are they counted in determining the existence of a quorum.

Shares represented by proxies in the accompanying form which are properly executed and returned to Cyanotech will be voted at the Annual Meeting in accordance with the stockholders' instructions contained therein. In the absence of contrary instructions, shares represented by such proxies will be voted FOR the election of each of the directors as described herein under Proposal One - Election of Directors, and FOR ratification of the selection of accountants as described herein under Proposal Two - Ratification of Selection of Independent Auditor. Management does not know of any matters to be presented at this Annual Meeting other than those set forth in this Proxy Statement and in the Notice accompanying this Proxy Statement. If other matters should properly come before the meeting, the proxy holders will vote on such matters in accordance with their best judgment.

2

The entire cost of soliciting the proxies will be borne by Cyanotech. Proxies will be solicited principally through the use of the mails, but, if deemed desirable, may be solicited personally or by telephone, e-mail, facsimile or letter by officers and regular Cyanotech employees who will receive no additional compensation. Arrangements may be made with brokerage houses and other custodians, nominees and fiduciaries to send proxies and proxy material to the beneficial owners of the Company's Common Stock, and such persons may be reimbursed for their expenses.

REVOCABILITY OF PROXIES

Any person giving a proxy pursuant to this solicitation has the power to revoke it at any time before it is voted. It may be revoked by filing with the Secretary of the Company at the Company's principal executive office, 73-4460 Queen Kaahumanu Hwy, Suite 102, Kailua-Kona, HI 96740, a written notice of revocation or a duly executed proxy bearing a later date, or it may be revoked by attending the meeting, notifying the Secretary of the Meeting of the revocation of the prior proxy, and voting in person. Attendance at the meeting will not, by itself, revoke a proxy.

If any nominee becomes unable or declines to serve as a director or if additional persons are nominated at the meeting, the proxy holders intend to vote all proxies received by them in such a manner as will assure the election of as many nominees listed below as possible (or, if new nominees have been designated by the Board of Directors, in such a manner as to elect such nominees) and the specific nominees to be voted for will be determined by the proxy holders. The Company is not aware of any reason that any nominee will be unable or will decline to serve as a director. In connection with the purchase by Eva R. Reichl (the late wife of director Eric H. Reichl) of 1,800,000 shares of the Company's Common Stock, certain holders (the Holders) of the Company's Common Stock, including Gerald R. Cysewski, presently the Chief Executive Officer and Chairman of the Board of the Company, as well as the Company and Ms. Reichl entered into a Stockholders Agreement dated as of May 17, 1993 (the Stockholders Agreement). Under the Stockholders Agreement, the parties agreed that without approval of a majority of the Holders and Ms. Reichl's shares, the Company would not propose, and the Holders and Ms. Reichl would not vote for, any resolution, Bylaw change or other proposal that would increase the Company's Board of Directors to more than six members. In addition, the Company is obligated under the Stockholders Agreement to notify Mr. Reichl, the successor to Ms. Reichl's rights under the Stockholder Agreement, of any Board elections so that he may nominate one person for election as a director. Mr. Reichl has nominated himself at this election. At each Board election, the Holders and Mr. Reichl have agreed to vote their shares to elect such nominee. The Stockholders Agreement terminates when Mr. Reichl sells, transfers or disposes of any of the 1,800,000 shares so acquired, other than by will, the laws of descent, or to an entity controlled by Mr. Reichl.

Report of the Compensation and Stock Option Committee of the Board of Directors on Executive Compensation

The Compensation and Stock Option Committee of the Board of Directors (the "Committee") is composed of two or more non-employee directors. During fiscal 2002 the Committee was composed of Eric H. Reichl (chair), David I. Rosenthal and John T. Waldron.

The Committee is responsible for setting and administering the compensation policies, annual executive officers' compensation, making recommendations on potential bonus and stock option plans, granting bonuses and recommending to the Board of Directors grants of stock

options to executive officers.

Compensation Philosophy

The goals of the compensation program are to align compensation with business objectives and performance, and to enable the Company to attract, motivate and retain executives of outstanding ability, potential, and drive commensurate with the size and development requirements of the Company. Key elements of this philosophy are:

- The Company pays competitively with comparable small companies with which the Company competes for talent. To ensure that pay is competitive, the Company compares its pay practices with these companies and sets its pay parameters based in part on this review.
- The Company maintains annual incentive opportunities sufficient to provide motivation to achieve specific operating goals and to generate rewards that bring total compensation to competitive levels.
- The Company provides significant equity-based incentives for executives to ensure that they are motivated over the long term to respond to the Company's business challenges.

The Committee endeavors to balance Company needs and values with the employees' needs and believes that it is important that the Committee maintain this relationship.

Cash Compensation

Base Salary. The base salaries of the executive officers are determined initially on the basis of one or more salary surveys conducted by third parties as well as surveys of biopharmaceutical companies both nationally and more specifically in the Western United States obtained from public information such as filings with the Securities and Exchange Commission. Based on such surveys, the executive officers' salaries are set within the ranges of the surveys targeted at the median; the exact level is determined after the Committee considers the experience and capability of the executive officer, the level of responsibility, and the needs of the Company.

Incentive Bonus Compensation. The Committee believes that, as a general rule, annual compensation in excess of base salaries should be dependent on the employee's performance and the Company's performance, and should be awarded based on recommendations of the Committee, and in the discretion of the Board. Accordingly, at the beginning of each fiscal year, the Committee establishes a Management Incentive Plan for executive officers and other key management personnel under which executive officers and other key management personnel may earn bonuses, in amounts ranging up to 100% of the annual salaries, provided the Company achieves or exceeds the pre-tax net income goal established for the year.

11

The net income goal is established in part on the basis of an annual operating plan developed by management and approved by the Board of Directors. The annual operating plan is designed to maximize profitability, within the constraints of economic and competitive conditions, some of which are outside the control of the Company, and is developed on the basis of: (i) the Company's performance in the prior year; (ii) estimates of sales revenue for the plan year based upon recent market conditions and trends and other factors which, based on historical experience, are expected to affect the level of sales that can be achieved; (iii) historical operating cost and cost savings that management believes can be achieved; and (iv) competitive conditions faced by the Company. Taking all of these factors into account, as part of the operating plan, bonus awards are determined under the Management Incentive Plan, and are fixed at what is believed to be a realistic level so as to make the incentives meaningful to executives and to avoid penalizing executives and other key management personnel for conditions outside of their control.

In certain instances, bonuses under the Management Incentive Plan are awarded not only on the basis of the Company's overall profitability, but also on the achievement by an executive of specific objectives within his or her area of responsibility. For example, a bonus may be awarded for an executive's efforts in achieving greater than anticipated cost savings, or establishing new or expanded markets for the Company's products. Typically, the maximum bonus that may be awarded for achievement of specific objectives is determined at the beginning of the year to provide the requisite incentive for such performance.

As a result of this performance-based Management Incentive Plan, executive compensation, and the proportion of each executive's total cash compensation that is represented by incentive or bonus income, increases in those years in which the Company achieves the anticipated level of growth and profitability. On the other hand, in years in which the Company experiences less than anticipated profit growth, bonuses, and therefore also total executive compensation, should tend to be lower.

Long-Term Equity-Based Compensation

The Committee intends to make stock option grants on an annual basis. Each grant is designed to align the interests of the executive officers with those of the stockholders and provide each individual with a significant incentive to manage the Company from the perspective of an owner with an equity stake in the business. Each grant generally allows the executive officer to acquire shares of the Company's Common Stock at a fixed price per share (usually the market price on the grant date) over a specified period of time (up to 10 years), thus providing a return to the executive officer only if he or she remains in the employ of the Company and the market price of the shares appreciate over the option term. The size of the option grant to each executive officer generally is set at a level that is intended to create a meaningful opportunity for stock ownership based upon the individual's current position with the Company, but also taken into account are the size of comparable awards made to individuals in similar positions in the industry as reflected in external surveys, the individual's potential for future responsibility and promotion over the option term, the individual's personal performance in recent periods and the number of options held by the individual at the time of grant. Generally, as an executive officer's level of responsibility increases, a greater portion of his or her total compensation will be dependent upon Company performance and stock price appreciation rather than base salary. The relative weight given to these factors varies with each individual, in the sole discretion of the Committee.

12

Chief Executive Officer's Compensation

The Committee uses the same philosophy and procedures described above with respect to the other executive officers in setting the cash compensation and equity incentives for the Chief Executive Officer.

The compensation payable to Dr. Cysewski, the Company's Chief Executive Officer in fiscal 2002, was determined by the Committee. Dr. Cysewski's base salary was set at a level which the Board felt would be competitive with the base salary levels in effect for chief executive officers at similarly-sized companies within the industry. Based on Dr. Cysewski's performance and on the compensation policy summarized in this report, the Compensation Committee decided that Dr. Cysewski's salary would remain unchanged at \$110,000.

Dr. Cysewski was a participant in the Company's 2002 Management Incentive Plan as described above. During fiscal 2002, the Company did not achieve the annual operating plan targets. As a result, no cash bonus was awarded to Dr. Cysewski.

Dr. Cysewski received a grant of an option to purchase 12,500 shares of Common Stock in fiscal 2002 based on his position as President and Chief Executive Officer, and the desire to provide him with a continuing economic interest in the long term appreciation of the Company's Common Stock.
