Without this gain, the Company would have net earnings of \$408,845 or \$0.15 per basic share.

Net sales increased in the second quarter of 2004 as compared to the same quarter in 2003 due to an increase in commissions received by the Company. For the six month period ended June 30, 2004, sales increased slightly as a

result of the decreased sales due to the levelling off of certain product lines These decreases were offset by increases in sales of Spiderman product lines and the Art X-press product line and the receipt of commissions.

Operating expenses decreased in the quarter and the six-month period as a result of the continuing benefit of the Company's restructuring plan which was implemented in fiscal 2002. For the second quarter of 2004, operating expenses decreased by \$271,807, or 24%; and for the six month period ended June 30, 2004, operating expenses were reduced by \$232,833, or 12%.

In this Press Release, Grand discusses financial measures in accordance with GAAP and also on a non-GAAP basis. Grand's definition of EBITDA is earnings before interest, income taxes, depreciation and amortization. EBITDA does not include gains or losses from the sale of subsidiaries. All references in this press release to EBITDA are to a non-GAAP financial measure. EBITDA, a measure widely used among toy related businesses, is used because management believes that it is an effective way of monitoring the operating performance of our company relative to the industry. Additionally, Grand believes that the use of non-GAAP financial measures enables it and investors to evaluate, and compare from period to period, the results from ongoing operations in a more meaningful and consistent manner.

Reconciliations of GAAP to Non-GAAP financial measures are provided below.
