To Our Shareholders:

Our financial results for fiscal 2003 were disappointing, driven by the variability in our same store sales and margin pressures resulting from the dramatic rise in beef costs, an increase in utilities and insurance costs and the de-leveraging effect of decreased sales on fixed costs. We were not able to sustain the sales gains we experienced in fiscal 2002 after the highly successful introduction of frozen custard and we are implementing solutions for this year to drive near term sales while we continue to put in place the elements to support our longer term strategic direction.

Frozen custard continues to grow as a percentage of sales with extremely high satisfaction levels from our customers. Late in fiscal 2003, we successfully introduced major improvements to our core products by upgrading the quality of our produce, reengineering our bun and recipes, switching to Coleman 100% natural beef in all of our hamburgers, and redesigning our packaging. Unfortunately, while the customer continues to give us very high marks on our product and service and we have a very loyal base of customers, our overall awareness in the market remains quite low. Our decline in sales this year is attributable to very difficult comparisons to the prior year increases, aggressive discounting by the competitors, decreased frequency amongst the heaviest fast food consumers who are strongly influenced by discounts and new products and a challenging economy in Colorado. As I mentioned last year, until we can more effectively influence consumer perceptions of our strong conceptual and product direction through higher levels of media advertising, we are caught in the crossfire of the competitors' pricing tactics and larger media expenditures. Our primary objective in fiscal 2004 is to begin to establish consistent growth in same store sales through more aggressive value building communications on-site, supported by higher levels of brand building and signature product focused media advertising beginning in the second and third fiscal quarters. This will be complemented by periodic new product introductions that are tightly focused around our long term brand positioning. While we continue to invest in product and brand development, existing store facilities, merchandising and advertising this year, we are shifting most of our current new store growth to franchise development.

We are continuing to move forward with the deeper repositioning of our brand and concept and recently hired the Sterling-Rice Group, a nationally recognized brand development firm, to assist us in refining and consumer validating the most compelling, long term brand communications opportunity with which to leverage Good Times' individual product differences and historical brand equities. This year, we will be developing and communicating a refined brand "umbrella" that goes beyond individual product advertising and promotion, under which our products, service, design, merchandising, advertising and all points of customer contact will be aligned. We anticipate that over time and with a move to television support this year, we can create positive sales momentum around this new communications platform.

We opened two new stores during the year, one as a drive through only format and one with a 60 seat dining room. Based on the sales results, customer feedback and our longer term concept direction, we plan on developing the dining room format for future stores. Three stores under development were delayed by various planning and zoning issues as well as the redesign necessary to accommodate the dining room format and are expected to open in the spring of 2004. We are negotiating additional sites for development in fiscal 2004 and 2005. With the tightening of the credit markets,

financing for the acceleration of company owned or franchised new store growth is dramatically effected by the variability in our top line sales, even more so than by the current margin pressure. So again, our primary goal for this year is to stabilize our same store sales growth. Our balance sheet remains relatively conservatively leveraged and we have the capacity for additional debt financing once we gain positive momentum in our sales trends.

Late in fiscal 2003, we signed a co-brand development agreement with a large, regional Mexican fast food restaurant chain for the development of up to five co-branded restaurants out of our core Colorado market. We expect the first store to be open by mid-spring of 2004 and we will be refining operating systems and evaluating the sales and profitability of the co-brand format for additional development. We believe the two brands have consistent consumer appeal in our respective segments of quick service restaurants, with both focused on high quality ingredients and unique taste profiles not available anywhere else. If successful, the co-brand format would provide an opportunity for higher unit level sales and a superior return on investment on today's higher real estate and development costs. Strategically, co-branding with the right concept may provide a vehicle for more aggressive franchise expansion outside of the Colorado market. We will evaluate its potential during fiscal 2004.

Our strategic objectives remain the same: to build out the Colorado market with additional franchised and company-owned stores; to increase our average unit sales through higher levels of trial and awareness from an increased media presence; to continue to seed and develop a unique, adult niche in the quick service restaurant segment supported by relevant, compelling products; and to continue to improve upon our competitive advantages of unique, high quality products and fast, friendly, attentive service.

We have definitive initiatives in place for fiscal 2004 to move forward on all of these objectives. I anticipate that the competitive environment will remain challenging and beef costs will pressure our margins, particularly in our first and second quarters, but am confident that we can begin to gain positive sales momentum as we implement each of these initiatives supported by accelerated product development and a new marketing plan. We are continuing to explore additional strategic alternatives to maximize shareholder value and liquidity, particularly in light of the new regulations and the attendant costs for public companies promulgated by the Sarbannes-Oxley Act. I encourage you to read the accompanying Form 10-KSB for further information to consider in connection with any of the forward-looking statements above and for a more detailed review of fiscal 2003 financial results. I look forward to reporting on our progress this year. Thank you for your interest and participation in Good Times.

Only shareholders of record at the close of business on the record date of December 16, 2003 are entitled to receive notice of the annual meeting and to vote the shares of Good Times Restaurants common stock they held on that date. As of December 16, 2003, there were 2,305,171 shares of Good Times Restaurants common stock outstanding. Holders of Good Times Restaurants common stock are entitled to one vote per share and are not allowed to accumulate votes in the election of directors.

The shares represented by all proxies that are properly executed and submitted will be voted at the meeting in accordance with the instructions indicated thereon. Unless otherwise directed, votes will be cast "For" the nominees for election as directors.

Revoking a Proxy:

You may revoke a proxy before the vote is taken at the meeting by:

- Submitting a new proxy with a later date,
- By voting at the meeting, or
- By filing a written revocation with Good Times Restaurants' corporate secretary.

Your attendance at the meeting will not automatically revoke your proxy.

Quorum and Voting Requirements:

A majority of the outstanding shares entitled to vote, represented in person or by proxy, is necessary to constitute a quorum at the annual meeting. If a quorum is present, the election of directors will be determined by a majority of votes cast by the shareholders entitled to vote. If a quorum is not present the meeting may be adjourned until a quorum is obtained. The proxies may be voted at any reconvened meeting after any adjournment or postponement of the annual meeting.

Abstentions and broker "non-votes" will be treated as shares that are present for purposes of determining the existence of a quorum. A broker non-vote occurs when a broker is not permitted to vote on a matter without instruction from the beneficial owner of the shares and no instruction is given. Abstentions and broker non-votes will result in the director nominees receiving fewer votes.

Payment of Proxy Solicitation Costs:

All of the expenses involved in preparing and mailing this proxy statement and the enclosed materials and all costs of soliciting proxies will be paid by Good Times Restaurants. In addition to solicitation by mail, proxies may be solicited by Good Times Restaurants officers and regular employees by telephone or personal interview. These individuals will not receive any compensation for their services other than their regular salaries. Arrangements will also be made with brokerage houses and other custodians and fiduciaries to forward solicitation materials to the beneficial owners of the shares held on the record date, and Good Times Restaurants may reimburse those persons for reasonable out-of-pocket expenses incurred by them in so doing.

However, if any nominee is unable to serve or for good cause will not serve as a director, the person named in the proxy intends to vote in his discretion for a substitute who will be designated by the board of directors.

Audit Committee Policy on Pre-Approval Policies of Auditor Services

Under the provisions of the Audit Committee Charter, all audit services and all permitted non-audit services (unless subject to a de minimis exception allowed by law) provided by our independent auditors, as well as fees and other compensation to be paid to them, must be approved in advance by our Audit Committee. All audit and tax services provided by HEIN + ASSOCIATES LLP during the fiscal year ended September 30, 2003, and the related fees as discussed above, were approved in advance in accordance with SEC rules and the provisions of the Audit Committee Charter. There were no other services or products provided by HEIN + ASSOCIATES LLP to us or related fees during the fiscal year ended September 30, 2003 except as discussed above.

Auditor Independence

The audit committee of the board of directors has considered the effect that the provision of the services described above under the caption "All Other Fees" may have on the independence of HEIN + ASSOCIATES LLP. The audit committee has determined that provision of those services is compatible with maintaining the independence of HEIN + ASSOCIATES LLP as the Company's principal accountants.

Audit Committee Charter

Good Times Restaurants Inc.

The Audit Committee (the "Committee") of the Board of Directors (the "Board") of Good Times Restaurants Inc. (the "Company") will have the oversight responsibility, authority and specific duties as described below.

COMPOSITION

The Committee will be comprised of three or more directors as determined by the Board. Each of the members of the Committee shall at the time of their appointment meet the independence and financial literacy and experience requirements of The Nasdaq Stock Market, Inc. ("Nasdaq"), Section 10A(m)(3) of the Securities Exchange Act of 1934 and the rules and regulations of the Securities and Exchange Commission (the "SEC"). Accordingly, all of the members will be directors who are not officers or employees of the Company or any of its subsidiaries and are free from relationships that, in the opinion of the Board, would interfere with the exercise of independent judgment as a Committee member. No former officer or employee of the Company or any of its subsidiaries may serve on the Committee unless, in the opinion of the Board, the former officer or employee will exercise independent judgment and will significantly assist the Committee to function, and such person otherwise meets the independence requirements and other rules of Nasdaq and the SEC. However, a majority of the Committee will be directors who were not formerly officers or employees of the Company or any of its subsidiaries. The members of the Committee will be elected annually at the meeting of the Board held at the end of each fiscal year, and will be listed in the proxy statement for the annual meeting of shareholders. One of the members of the Committee will be elected Committee Chair by the Board. At least one member of the Committee shall meet the financial sophistication requirements of Nasdaq, and at least one member of the Committee shall possess the attributes of an "audit committee financial expert," as defined by the rules and regulations of the SEC.

RESPONSIBILITY AND PURPOSE

The Committee is appointed by the Board. Its primary function is to assist the Board in fulfilling its oversight responsibilities with respect to (i) the accounting and financial reporting processes of the Company; (ii) financial information to be provided to shareholders and the SEC; (iii) the system of internal controls that management is responsible for establishing; and (iv) the audit process and the qualifications, independence and performance of the Company's independent accountants. In addition, the Committee provides an avenue for communication between the independent accountants, management and the Board. The Committee should have a clear understanding with the independent accountants that the independent accountants must maintain an open and transparent relationship with the Committee. The Committee will make regular reports to the Board concerning its activities.

The Committee, in its capacity as a committee of the Board, shall be directly responsible for the appointment, compensation, retention and oversight of the work of the independent accountants engaged by the Company (including resolution of any disagreements between management and the independent accountant regarding financial reporting) for the purpose of preparing or issuing an audit report or performing other audit, review or attest services for the Company, and such independent accountants shall report directly to the Committee. The independent accountants shall be accountable to the Committee and the Board, as representatives of the Company's shareholders. The Committee shall have the ultimate authority and responsibility to select, evaluate, and, where appropriate, replace the independent accountants (subject, if applicable, to shareholder ratification).

While the Committee has the responsibilities and powers set forth in this charter, it is not the duty of the Committee to plan or conduct audits or to determine that the Company's financial statements are complete and accurate and are in accordance with generally accepted accounting principles. This is the responsibility of management and the

independent accountants.

AUTHORITY

The Committee shall have the authority to investigate any matter or activity involving financial accounting or financial reporting, as well as the internal controls of the Company, and shall have direct access to the independent accountants as well as to any person in the Company (and all employees will be directed to cooperate with respect thereto as requested by members of the Committee). The Committee shall have the authority to approve the retention, at the Company's expense, of independent legal counsel, accounting and other advisers and experts it deems necessary to advise and assist the Committee in the performance of its responsibilities. The Company shall provide appropriate funding, as determined by the Committee, in its capacity as a committee of the Board, for the payment of (i) compensation to any accountants engaged by the Company for the purpose of preparing or issuing any audit report or performing other audit, review or attest services for the Company; (ii) compensation to any counsel or advisers retained by the Committee; and (iii) ordinary administrative expenses of the Committee that are necessary or appropriate in carrying out its duties.

MEETINGS

The Committee is to meet at least four times annually and as many additional times as the Committee deems necessary. Content of the agenda for each meeting should be cleared by the Committee Chair. The Committee is to meet in separate executive sessions with the chief financial officer and independent accountants at least once each year and at other times when considered appropriate.

ATTENDANCE

Committee members will strive to be present at all meetings. As necessary or desirable, the Committee Chair may request that members of management and representatives of the independent accountants be present at Committee meetings.

SPECIFIC DUTIES

In carrying out its oversight responsibilities, the Committee will:

1. Review and reassess the adequacy of this charter annually and recommend any proposed changes to the Board for approval. This should be done in compliance with applicable Nasdaq, SEC and other legal requirements for audit committees.
2. Review with the Company's management and independent accountants the Company's accounting, financial reporting, disclosure and other internal controls.
3. Review with the Company's management and independent accountants significant accounting and reporting principles, practices and procedures applied by the Company in preparing its financial statements. Discuss with the independent accountants their judgments about the quality, not just the acceptability, of the Company's accounting principles used in financial reporting.
4. Review the scope and general extent of the independent accountants' annual audit. The Committee's review should include an explanation from the independent accountants of the factors considered by the accountants in determining the audit scope, including the major risk factors. The independent accountants should confirm to the Committee that no limitations have been placed on the scope or nature of their audit procedures. The Committee will review annually with management the fee arrangement with the independent accountants.
5. Inquire as to the independence of the independent accountants and obtain from the independent accountants at least annually a formal written statement delineating all relationships between the independent accountants and the Company and the letter confirming that in the independent accountants' judgment they are independent of the Company, as required by Independence Standards Board Standard No. 1, Independence

Discussions with Audit Committees. The Committee shall be responsible for actively engaging in a dialogue with the independent accountants with respect to any disclosed relationships or services that may impact the objectivity and independence of the independent accountants and for taking, or recommending that the Board take, appropriate action to oversee the independence of the independent accountants.

6. Have a predetermined arrangement with the independent accountants that they will advise the Committee through its Chair and management of the Company of any matters identified through procedures followed for the review of interim quarterly financial statements, and that such notification as required under standards for communication with audit committees is to be made prior to the related press release or, if not practicable, prior to filing the related Quarterly Report on Form 10-QSB.
7. At the completion of the annual audit, review with management and the independent accountants the following:
 - ◆ The annual financial statements and related footnotes and financial information to be included in the Company's Annual Report on Form 10-KSB for filing with the SEC.
 - ◆ Results of the audit of the financial statements and the related report thereon and, if applicable, a report on changes during the year in accounting principles and their applications.
 - ◆ Significant changes to the audit plan, if any, and any serious disputes or difficulties with management encountered during the audit. Inquire about the cooperation received by the independent accountants during their audit, including access to all requested records, data and information. Inquire of the independent accountants whether there have been any disagreements with management that, if not satisfactorily resolved, would have caused them to issue a nonstandard report on the Company's financial statements.

If deemed appropriate after such review and discussion, recommend to the Board that the financial statements be included in the Company's Annual Report on Form 10-KSB.
8. After preparation by management and review by the independent accountants, approve the audit committee report required under SEC rules to be included in the Company's annual proxy statement. This charter is to be published as an appendix to the proxy statement every three years.
9. Discuss with the independent accountants the quality of the Company's financial and accounting personnel. Also, elicit the comments of management regarding the responsiveness of the independent accountants to the Company's needs.
10. Meet with management and the independent accountants to discuss any relevant significant recommendations that the independent accountants may have, particularly those characterized as "material" or "serious." Typically, such recommendations will be presented by the independent accountants in the form of a Letter of Comments and Recommendations to the Committee. The Committee should review responses of management to the Letter of Comments and Recommendations from the independent accountants and receive follow-up reports on action taken concerning the aforementioned recommendations.
11. Approve the fees and any other significant compensation to be paid to the independent accountants. The Committee shall approve in advance any non-audit services to be performed by the accountants, which non-audit services shall be permissible under law and not impair the independence of the accountants. Such pre-approval requirement shall be waived only if the non-audit services meet a de minimis exception allowed by law.
12. Review with management and the independent accountants the methods used to establish and monitor the Company's policies with respect to unethical or illegal activities by Company employees.
13. Establish procedures for (i) the receipt, retention and treatment of any complaints received from any person regarding accounting, internal accounting controls or auditing matters of the Company; and (ii) the confidential, anonymous submission by employees of the Company of any concerns regarding any questionable accounting or auditing matters.

14. Review and approve all related party transactions of the Company.
15. As the Committee may deem appropriate, obtain, weigh and consider expert advice as to audit committee related rules of the Nasdaq, SEC, and other accounting, legal and regulatory provisions.
