GAIN FROM OUR PERSPECTIVE(R)

Franklin Templeton's distinct multi-manager structure combines the specialized expertise of three world-class investment management groups--Franklin, Templeton and Mutual Series.

SPECIALIZED EXPERTISE

Each of our portfolio management groups operates autonomously, relying on its own research and staying true to the unique investment disciplines that underlie its success.

FRANKLIN. Founded in 1947, Franklin is a recognized leader in fixed income investing and also brings expertise in growth- and value-style U.S. equity investing.

TEMPLETON. Founded in 1940, Templeton pioneered international investing and, in 1954, launched what has become the industry's oldest global fund. Today, with offices in over 25 countries, Templeton offers investors a truly global perspective.

MUTUAL SERIES. Founded in 1949, Mutual Series is dedicated to a unique style of value investing, searching aggressively for opportunity among what it believes are undervalued stocks, as well as arbitrage situations and distressed securities.

TRUE DIVERSIFICATION

Because our management groups work independently and adhere to different investment approaches, Franklin, Templeton and Mutual Series funds typically have distinct portfolios. That's why our funds can be used to build truly diversified allocation plans covering every major asset class.

RELIABILITY YOU CAN TRUST

At Franklin Templeton Investments, we seek to consistently provide investors with exceptional risk-adjusted returns over the long term, as well as the reliable, accurate and personal service that has helped us become one of the most trusted names in financial services.

ANNUAL REPORT

FRANKLIN UNIVERSAL TRUST

YOUR FUND'S GOALS AND MAIN INVESTMENTS: Franklin Universal Trust's primary investment objective is to provide high, current income consistent with preservation of capital. Its secondary objective is growth of income through dividend increases and capital appreciation.

Dear Shareholder:

This annual report for Franklin Universal Trust covers the fiscal year ended August 31, 2005. Also in the report is new information about the Board of Trustees' approval of the Fund's investment advisory contract in the past six months. It is designed to give you an understanding of several factors considered before the Board approved the Fund's contract with the Investment Manager. The disclosure is in the "Shareholder Information" section beginning on page 37.

PERFORMANCE OVERVIEW

For the 12 months under review, the Fund's cumulative total returns were +17.20% based on change in net asset value and +17.51% based on change in market price on the New York Stock Exchange, as shown in the Performance Summary on page 6. For comparison, the Credit Suisse First Boston (CSFB) High Yield Index returned 8.98%, and utilities stocks, as measured by the Standard & Poor's 500 (S&P 500) Electric Utilities Index, returned 34.50% for the year ended August 31, 2005.(1)

- (1) Sources: Credit Suisse First Boston; Standard & Poor's Micropal. The CSFB High Yield Index is designed to mirror the investible universe of the U.S. dollar denominated high yield debt market. The S&P 500 Electric Utilities Index is a market capitalization-weighted index that includes electric utility stocks in the S&P 500. The indexes are unmanaged and include reinvestment of any income or distributions. One cannot invest directly in an index, nor is an index representative of the Fund's portfolio.

THE DOLLAR VALUE, NUMBER OF SHARES OR PRINCIPAL AMOUNT, AND NAMES OF ALL PORTFOLIO HOLDINGS ARE LISTED IN THE FUND'S STATEMENT OF INVESTMENTS (SOI). THE

ECONOMIC AND MARKET OVERVIEW

Overall domestic economic growth remained healthy during the reporting period. Approximately two-thirds of U.S. gross domestic product (GDP) is generated by consumer spending, and almost one-fifth by business spending. Since consumer spending relies on consumers' ability to remain gainfully employed, many analysts study the employment picture for indications of consumer spending. Over the past year, nonfarm payroll data, as well as other indexes, showed growing employment. This along with other factors helped consumer spending increase 6.6% in August 2005 compared with the same month a year earlier, which supported U.S. economic growth.(2)

Business spending also rose during the reporting period, contributing to economic growth. Nonresidential investment spending rose in each of the last four quarters, resulting in 9.1% growth for the year ended June 30, 2005.(2) Historically low interest rates continued to allow many companies easy access to capital, and ample cash also helped some companies to support their spending plans. Productivity continued to grow, which helped businesses generate more goods and services without substantially raising prices.

Energy prices rose significantly, as oil prices hit a record of \$69.81 per barrel on August 30, exacerbated by a sharp spike following widespread oil and gas disruptions stemming from the Hurricane Katrina disaster.(3) Inflation remained relatively contained for the 12 months ended August 31, 2005, as measured by the 2.1% rise for the core Consumer Price Index (CPI), excluding volatile food and energy costs, which was below the core CPI's 10-year average of 2.3%.(4) However, acknowledging the economy's strength as well as potential inflationary pressure from high energy prices, the Federal Reserve Board (Fed) raised the federal funds target rate to 3.50% from 1.50% during the 12-month

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

period and continued to hold the opinion that monetary policy remains accommodative, that the risks to growth and inflation remain equally balanced, and that future Fed policy will be tightened in a measured way. During the period, the yield curve flattened, as the 10- and 30-year U.S. Treasury yields fell while those of shorter-maturity Treasuries rose. At period-end, the 10-year Treasury yielded 4.02%.

INVESTMENT STRATEGY

We invest primarily in two asset classes: high yield bonds and utility stocks. Within the high yield portion of the portfolio, we use fundamental research to invest in a diversified portfolio of bonds. Within the utility portion of the portfolio, we focus on companies with attractive dividend yields and with a history of increasing their dividends.

MANAGER'S DISCUSSION

During the year under review, the Fund benefited from positive returns in each of its primary asset classes. High yield bond returns were driven by the ongoing favorable credit cycle, as economic growth generally enabled companies to improve their credit profiles. In turn, improving credit quality helped the default rate decline further below historical averages during the period. Utility stocks benefited from the continued low interest rate environment, as yields on the 10-year Treasury remained at historically low levels. In addition, many utility companies generated improved earnings, which they used as an opportunity to increase dividend payments and repurchase shares.

HIGH YIELD CORPORATE BONDS

The Fund benefited from its overweighted positions in wireless telecommunications and chemicals relative to the CSFB High Yield Index.⁽⁵⁾ The wireless telecommunications industry benefited from merger and acquisition activity, in particular the merger of Fund holding Nextel Communications with Sprint, whose bonds were rated investment grade. In addition, industry growth remained positive and the feared demise of roaming charges failed to materialize. The chemicals industry experienced renewed pricing power, as demand for plastics and other chemical end-products improved along with the economy. Since very little new capacity was built during the recent industry downturn, the increase in demand led to higher operating rates, which enabled companies to expand margins in spite of high oil and natural gas costs. In this favorable fundamental environment, several companies, including fund holdings Nalco, Celanese (BCP Caylux Holding in the SOI), and Huntsman International Holdings (no longer held by period-end), issued equity via initial public offerings.

- (5) In the SOI, the wireless telecommunications industry is part of communications; the chemicals industry is part of process industries.

Annual Report | 3

Our underweighted position relative to the CSFB High Yield Index in the utility sector and overweighted position in the industrials sector impeded the Fund's performance in the high yield bond asset class.(6) Bonds in the utility sector generated returns greater than that of the overall index. As noted in the Fund's 2005 semiannual report, we intentionally kept the high yield utility exposure fairly low given the portfolio's large exposure to that sector through utility stocks. In the industrials sector's case, we had an above-index allocation, yet the sector generated returns below that of the index. We were attracted to the diversified nature of the industrials sector, as well as the exposure it can provide to an improving economy. However, the industrial manufacturing sector

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

faced headwinds over the course of the fiscal year, primarily in the form of higher energy and raw material costs that lowered profit margins and caused the group to generally underperform the broader CSFB High Yield Index.

UTILITY STOCKS

We increased the Fund's exposure to utility stocks, from 22.2% of gross assets at the beginning of the fiscal year to 26.6% on August 31, 2005. On average, our utility exposure hovered around the middle of the targeted 20%-30% range outlined in the Fund's prospectus. Utility stocks' strong results were driven by a combination of factors. These included improved industry growth prospects as regulators encouraged investment to shore up reliability following the 2000-2001 California energy crisis and the Northeastern/Midwestern U.S. blackout of 2003. Also, high energy prices, in particular those for natural gas, benefited utilities that use nuclear power or coal. Finally, interest rates remained relatively low over the course of the fiscal year. Given the support offered by such strong industry fundamentals, a number of utility companies were able to increase their dividends or repurchased shares during the year.

- (6) In the SOI, the industrials sector comprises industrial services and producer manufacturing.

PERFORMANCE SUMMARY AS OF 8/31/05

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

Your dividend income will vary depending on dividends or interest paid by securities in the Fund's portfolio, adjusted for operating expenses. Capital gain distributions are net profits realized from the sale of portfolio securities. Total return reflects reinvestment of the Fund's dividends and capital gain distributions, if any, and any unrealized gains or losses. All total returns include reinvested distributions according to the terms specified in the Fund's dividend reinvestment and cash purchase plan and do not reflect any sales charges paid at inception or brokerage commissions paid on secondary market purchases. The performance table does not reflect any taxes due on Fund dividends, capital gains distributions, if any, or realized gains on the sale of Fund shares.

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

The Fund's Dividend Reinvestment and Cash Purchase Plan (the "Plan") offers you a prompt and simple way to reinvest dividends and capital gain distributions in shares of the Fund. The Plan also allows you to purchase additional shares of the Fund by making voluntary cash payments. PFPC Inc. (the "Plan Agent"), P.O. Box 9223, Chelsea, MA 02150-9223, acts as your Plan Agent in administering the Plan. The complete Terms and Conditions of the Dividend Reinvestment and Cash Purchase Plan are contained in the Fund's Dividend Reinvestment and Cash Purchase Plan Brochure. A copy of that Brochure may be obtained from the Fund at the address on the back cover of this report.

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

You are automatically enrolled in the Plan unless you elect to receive dividends or distributions in cash. If you own shares in your own name, you should notify the Plan Agent, in writing, if you wish to receive dividends or distributions in cash.

If the Fund declares a dividend or capital gain distribution payable either in cash or in stock of the Fund and the market price of shares on the valuation date equals or exceeds the net asset value, the Fund will issue new shares to you at the higher of net asset value or 95% of the then current market price. Whenever the Fund declares a distribution from capital gains or an income dividend payable in either cash or shares, if the net asset value per share of the Fund's common stock exceeds the market price per share on the valuation date, the Plan Agent shall apply the amount of such dividend or distribution payable to participants to the purchase of shares (less their pro rata share of brokerage commissions incurred with respect to open market purchases in connection with the reinvestment of such dividend or distribution). If the price exceeds the net asset value before the Plan Agent has completed its purchases, the average purchase price may exceed the net asset value, resulting in fewer shares being acquired than if the Fund had issued new shares. All reinvestments are in full and fractional shares, carried to three decimal places. The Fund will not issue shares under the Plan at a price below net asset value.

The Plan permits you on a voluntary basis to submit in cash payments of not less than \$100 each up to a total of \$5,000 per month to purchase additional shares of the Fund. It is entirely up to you whether you wish to buy additional shares with voluntary cash payments, and you do not have to send in the same amount each time if you do. These payments should be made by check or money order payable to PFPC Inc. and sent to PFPC Inc., Attn: Franklin Universal Trust, P.O. Box 9223, Chelsea, MA 02150-9223.

Your cash payment will be aggregated with the payments of other participants and invested on your behalf by the Plan Agent in shares of the Fund that are purchased in the open market.

8 | Annual Report

The Plan Agent will invest cash payments on approximately the 5th of each month in which no dividend or distribution is payable and, during each month in which a dividend or distribution is payable, will invest cash payments beginning on the dividend payment date. UNDER NO CIRCUMSTANCES WILL INTEREST BE PAID ON YOUR FUNDS HELD BY THE PLAN AGENT. Accordingly, you should send any voluntary cash payments you wish to make shortly before an investment date but in sufficient time to ensure that your payment will reach the Plan Agent not less than two business days before an investment date. Payments received less than two business days before an investment date will be invested during the next month or, if there are more than 30 days until the next investment date, will be returned to you. You may obtain a refund of any cash payment by written notice, if the Plan Agent receives the written notice not less than 48 hours before an investment date.

There is no direct charge to participants for reinvesting dividends and capital gain distributions, since the Plan Agent's fees are paid by the Fund. However, when shares are purchased in the open market, each participant will pay a pro rata portion of any brokerage commissions incurred. The Plan Agent will deduct a \$5.00 service fee from each of your voluntary cash payments.

The automatic reinvestment of dividends and capital gain distributions does not relieve you of any taxes which may be payable on dividends or distributions. In connection with the reinvestment of dividends and capital gain distributions, if

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

the Fund issues new shares, shareholders receiving such shares generally will be treated as having a distribution equal to the market value of the shares received, and if shares are purchased on the open market, shareholders generally will be treated as having received a distribution equal to the cash distribution that would have been paid.

The Fund does not issue new shares in connection with voluntary cash payments. All investments are in full and fractional shares, carried to three decimal places. If the market price exceeds the net asset value at the time the Plan Agent purchases the additional shares, you will receive shares at a price greater than the net asset value.

You will receive a monthly account statement from the Plan Agent showing total dividends and capital gain distributions, date of investment, shares acquired and price per share, and total shares of record held by you and by the Plan Agent for you. You are entitled to vote all shares of record, including shares purchased for you by the Plan Agent, and, if you vote by proxy, your proxy will include all such shares.

Annual Report | 9

As long as you participate in the Plan, the Plan Agent will hold the shares it has acquired for you in safekeeping, in its name or in the name of its nominee. This convenience provides added protection against loss, theft or inadvertent destruction of certificates. However, you may request that a certificate representing your Plan shares be issued to you.

You may withdraw from the Plan without penalty at any time by notifying the Plan Agent, in writing, at the address above. If you withdraw, you will receive, without charge, stock certificates issued in your name for all full shares. The Plan Agent will convert any fractional shares you hold at the time of your withdrawal to cash at current market price and send you a check for the proceeds.

If you hold shares in your own name, please address all notices, correspondence, questions, or other communications regarding the Plan to the Plan Agent at the address noted above. If your shares are not held in your name, you should contact your brokerage firm, bank, or other nominee for more information and to determine if your nominee will participate in the Plan on your behalf.

The Fund or the Plan Agent may amend or terminate the Plan. You will receive written notice at least 90 days before the effective date of termination or of any amendment. In the case of termination, you will receive written notice at least 90 days before the record date of any dividend or capital gain distribution by the Fund.

FRANKLIN UNIVERSAL TRUST

NOTES TO FINANCIAL STATEMENTS

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Franklin Universal Trust (the Fund) is registered under the Investment Company Act of 1940 as a diversified, closed-end investment company. The Fund has two classes of securities: senior fixed-rate notes (the Notes) and shares of beneficial interest (the Shares).

The following summarizes the Fund's significant accounting policies.

A. SECURITY VALUATION

Securities listed on a securities exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Over-the-counter securities and listed securities for which there is no reported sale are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Investments in open-end mutual funds are valued at the closing net asset value.

Corporate debt securities and government securities generally trade in the over-the-counter market rather than on a securities exchange. The Fund may utilize independent pricing services, quotations from bond dealers, and information with respect to bond and note transactions, to assist in determining a current market value for each security. The Fund's pricing services may use valuation models or matrix pricing which considers information with respect to comparable bond and note transactions, quotations from bond dealers, or by reference to other securities that are considered comparable in such characteristics as rating, interest rate and maturity date, option adjusted spread models, prepayment projections, interest rate spreads and yield curves, to determine current value.

Foreign securities are valued as of the close of trading on the foreign stock exchange on which the security is primarily traded, or the NYSE, whichever is earlier. If no sale is reported at that time, the foreign security will be valued within the range of the most recent quoted bid and ask prices. The value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect at the close of the NYSE on the day that the value of the foreign security is determined.

The Fund has procedures to determine the fair value of individual securities and other assets for which market prices are not readily available or which may not be reliably priced. Methods for valuing these securities may include: fundamental analysis, matrix pricing, discounts from market prices of similar

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

securities, or discounts applied due to the nature and duration of restrictions on the disposition of the securities. Due to the inherent uncertainty of valuations of such securities, the fair values may differ significantly from the values that would have been used had a ready market for such investments existed. Occasionally, events occur between the time at which trading in a security is completed and the close of the NYSE that might call into question the availability (including the reliability) of the value of a portfolio security held by the Fund. If such an event occurs, the securities may be valued using fair value procedures, which may include the use of independent pricing services. All security valuation procedures are approved by the Fund's Board of Trustees.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. FOREIGN CURRENCY TRANSLATION

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies against U.S. dollars on the date of valuation. Purchases and sales of securities, income and expense items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date. Occasionally, events may impact the availability or reliability of foreign exchange rates used to convert the U.S. dollar equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Fund's Board of Trustees.

The Fund does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments on the Statement of Operations.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

C. FOREIGN CURRENCY CONTRACTS

When the Fund purchases or sells foreign securities it may enter into foreign exchange contracts to minimize foreign exchange risk from the trade date to the settlement date of the transactions. A foreign exchange contract is an agreement between two parties to exchange different currencies at an agreed upon exchange rate on a specified date. Realized and unrealized gains and losses on these contracts are included in the Statement of Operations.

The risks of these contracts include movement in the values of the foreign currencies relative to the U.S. dollar and the possible inability of the counterparties to fulfill their obligations under the contracts, which may be in excess of the amount reflected in the Statement of Assets and Liabilities.

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

D. INCOME TAXES

No provision has been made for U.S. income taxes because the Fund's policy is to continue to qualify as a regulated investment company under the Internal Revenue Code and to distribute to shareholders substantially all of its taxable income and net realized gains.

Foreign securities held by the Fund may be subject to foreign taxation. Foreign taxes, if any, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Fund invests.

FRANKLIN UNIVERSAL TRUST

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. SECURITY TRANSACTIONS, INVESTMENT INCOME, EXPENSES AND DISTRIBUTIONS

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis. Interest income and estimated expenses are accrued daily. Amortization of premium and accretion of discount on debt securities are included in interest income. Dividend income is recorded on the ex-dividend date. Distributions to shareholders are recorded on the ex-dividend date and are determined according to income tax regulations (tax basis). Distributable earnings determined on a tax basis may differ from earnings recorded in accordance with generally accepted accounting principles. These differences may be permanent or temporary. Permanent differences are reclassified among capital accounts to reflect their tax character. These reclassifications have no impact on net assets or the results of operations. Temporary differences are not reclassified, as they will reverse in subsequent periods.

F. ACCOUNTING ESTIMATES

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

G. GUARANTEES AND INDEMNIFICATIONS

Under the Fund's organizational documents, its officers and trustees are indemnified by the Fund against certain liabilities arising out of the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts with service providers that contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

2. SHARES OF BENEFICIAL INTEREST

At August 31, 2005, there were an unlimited number of shares authorized (\$0.01 par value). During the year ended August 31, 2005, there were no share transactions; all reinvested distributions were satisfied with previously issued

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

shares purchased in the open market.

3. SENIOR FIXED RATE NOTES

On August 29, 2003, the Fund issued \$55 million principal amount of a new class of five-year senior fixed rate notes. The Notes are general unsecured obligations of the Fund and rank senior to trust shares and all existing or future unsecured indebtedness of the Fund.

Annual Report | 23

FRANKLIN UNIVERSAL TRUST

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

3. SENIOR FIXED RATE NOTES (CONTINUED)

The Notes bear interest, payable semi-annually, at the rate of 4.14% per year, to maturity on August 29, 2008. The Fund may prepay the Notes at any time; therefore, market value approximates the principal amount of the Notes. The Fund is required to maintain on a monthly basis a specified discounted asset value for its portfolio in compliance with guidelines established by Standard & Poor's Corporation, and is required to maintain asset coverage for the Notes of at least 300%. The Fund has met these requirements during the year ended August 31, 2005.

The issuance costs of \$200,000 incurred by the Fund are deferred and amortized on an interest method basis over the term of the Notes.

4. TRANSACTIONS WITH AFFILIATES

Franklin Resources, Inc. is the holding company for various subsidiaries that together are referred to as Franklin Templeton Investments. Certain officers and trustees of the Fund are also officers or directors of the following subsidiaries:

SUBSIDIARY	AFFILIATION
Franklin Advisers Inc. (Advisers)	Investment Manager
Franklin Templeton Services LLC (FT Services)	Administrative Manager

A. MANAGEMENT FEES

The Fund pays an investment management fee to Advisers of 0.75% per year of the average weekly net assets plus the principal amount of the Notes.

B. ADMINISTRATIVE FEES

Under an agreement with Advisers, FT Services provides administrative services to the Fund. The fee is paid by Advisers based on average daily net assets, and is not an additional expense of the Fund.

5. EXPENSE OFFSET ARRANGEMENT

The Fund has entered into an arrangement with its custodian whereby credits realized as a result of uninvested cash balances are used to reduce a portion of the Fund's custodian expenses. During the year ended August 31, 2005, the custodian fees were reduced as noted in the Statement of Operations.

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

FRANKLIN UNIVERSAL TRUST

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

6. INCOME TAXES

At August 31, 2005, the Fund had tax basis capital losses which may be carried over to offset future capital gains, if any. At August 31, 2005, the capital loss carryforwards were as follows:

Capital loss carryovers expiring in:

2008	\$ 5,088,195
2009	1,167,255
2010	6,827,086
2011	34,372,527
2012	18,676,213
2013	3,246,257

	\$69,377,533
	=====

For tax purposes, realized capital losses, occurring subsequent to October 31, may be deferred and treated as occurring on the first day of the following fiscal year. At August 31, 2005, the Fund deferred realized capital losses of \$10,937,370.

The tax character of distributions paid during the years ended August 31, 2005 and 2004, was as follows:

	2005	2004
Distributions paid from ordinary income	\$11,169,717	\$10,052,746

Net investment income and net realized gains (losses) differ for financial statement and tax purposes primarily due to differing treatments of defaulted securities, foreign currency transactions, and bond discounts and premiums.

At August 31, 2005, the cost of investments, net unrealized appreciation (depreciation), and undistributed ordinary income for income tax purposes were as follows:

Cost of investments	\$ 229,605,656
	=====
Unrealized appreciation	\$ 36,374,049
Unrealized depreciation	(14,223,503)

Net unrealized appreciation (depreciation)	\$ 22,150,546
	=====
Distributable earnings - undistributed ordinary income	\$ 3,249,410
	=====

7. INVESTMENT TRANSACTIONS

Purchases and sales of investments (excluding short term securities) for the year ended August 31, 2005, aggregated \$83,851,525 and \$83,626,475, respectively.

8. INVESTMENTS IN FRANKLIN INSTITUTIONAL FIDUCIARY TRUST MONEY MARKET PORTFOLIO

The Fund may invest in the Franklin Institutional Fiduciary Trust Money Market Portfolio (the Sweep Money Fund), an open-end investment company managed by Advisers. Management fees paid by the Fund are reduced on assets invested in the Sweep Money Fund, in an amount not to exceed the management fees paid by the Sweep Money Fund.

9. CREDIT RISK AND DEFAULTED SECURITIES

The Fund has 68.40% of its portfolio invested in below investment grade and comparable quality unrated high yield securities, which tend to be more sensitive to economic conditions than higher rated securities. The risk of loss due to default by the issuer may be significantly greater for the holders of high yielding securities because such securities are generally unsecured and are often subordinated to other creditors of the issuer.

The Fund held defaulted securities and/or other securities for which the income has been deemed uncollectible. At August 31, 2005, the value of these securities was \$2,651,422, representing 1.05% of the Fund's portfolio. The Fund discontinues accruing income on securities for which income has been deemed uncollectible and provides an estimate for losses on interest receivable. The securities have been identified on the accompanying Statement of Investments.

10. RESTRICTED AND ILLIQUID SECURITIES

At August 31, 2005, investments in securities included issues that are restricted and illiquid. Restricted securities are often purchased in private placement transactions, and cannot be sold without prior registration under the Securities Act of 1933, unless the sale is pursuant to an exemption under the 1933 Act. The Fund has registration rights for certain restricted securities held at period end. The issuer generally incurs all registration costs.

10. RESTRICTED AND ILLIQUID SECURITIES (CONTINUED)

A security may be considered illiquid if it lacks a readily available market or if its valuation has not changed for a certain period of time. At August 31, 2005, the Fund held investments in restricted and illiquid securities, valued in accordance with procedures approved by the Fund's Board of Trustees as reflecting fair value, as follows:

11. OTHER CONSIDERATIONS

Subject to certain terms and conditions, the Fund has agreed to sell its holdings in Asia Pulp & Paper Co. Ltd. and Pindo Deli Finance Mauritius Ltd. in November 2006. Until the completion of the sale, the transaction is being accounted for as a secured borrowing with a pledge of collateral and any preliminary sales proceeds or other interest and cash distributions received are deferred until the completion of the transaction and are recorded as part of the net sales proceeds.

12. REGULATORY MATTERS

INVESTIGATIONS AND SETTLEMENTS

As part of various investigations by a number of federal, state, and foreign regulators and governmental entities, including the Securities and Exchange Commission ("SEC"), the California Attorney General's Office ("CAGO"), and the National Association of Securities Dealers, Inc. ("NASD"), relating to certain practices in the mutual fund industry, including late trading, market timing and marketing support payments to securities dealers who sell fund shares, Franklin Resources, Inc. and certain of its subsidiaries (as used in this section, together, the "Company"), as well as certain current or former executives and employees of the Company, provided documents and information in response to subpoenas and/or requests for documents, information and/or testimony. Beginning in August 2004, the Company entered into settlements with certain of the regulators and a governmental entity investigating the mutual fund industry practices noted above. The Company believes that settlement of each of the matters is in the best interest of the Company and shareholders of the Franklin, Templeton, and Mutual Series mutual funds (the "funds").

marketing support payments, provide that the distribution of settlement monies are to be made to the relevant funds, not to individual shareholders. The CAGO has approved the distribution plan pertaining to the distribution of the monies owed under the CAGO settlement agreement and, in accordance with the terms and conditions of that settlement, the monies were disbursed to the participating funds and are recorded as other income in the current period. The SEC has not yet approved the distribution plan pertaining to the SEC settlement. When approved, disbursements of settlement monies under the SEC's settlement will be made promptly in accordance with the terms and conditions of that order.

OTHER LEGAL PROCEEDINGS

On April 12, 2005, the Attorney General of West Virginia filed a complaint in the Circuit Court of Marshall County, West Virginia against a number of companies engaged in the mutual fund industry, including Franklin Resources, Inc. and its subsidiary, Franklin Advisers, Inc., and certain other parties alleging violations of the West Virginia Consumer Credit and Protection Act and seeking, among other things, civil penalties and attorneys' fees and costs. Defendants have since removed the matter to the United States District Court for the Northern District of West Virginia. To the extent applicable to the Company, the complaint arises from activity that occurred in 2001 and duplicates, in whole or in part, the allegations asserted in the February 4, 2004 Massachusetts Administrative Complaint concerning one instance of market timing (the "Administrative Complaint") and the SEC's findings regarding market timing in its August 2, 2004 Order (the "SEC Order"), both of which matters were previously reported.

The Company, in addition to certain funds, and certain current and former officers, employees, and directors have been named in multiple lawsuits in different courts alleging violations of various federal securities and state laws and seeking, among other relief, monetary damages, restitution, removal of fund trustees, directors, advisers, administrators, and distributors, rescission of management contracts and 12b-1 plans, and/or attorneys' fees and costs. Specifically, the lawsuits claim breach of duty with respect to alleged arrangements to permit market timing and/or late trading activity, or breach of duty with respect to the valuation of the portfolio securities of certain Templeton funds managed by Franklin Resources, Inc. subsidiaries, allegedly resulting in market timing activity. The majority of these lawsuits duplicate, in whole or in part, the allegations asserted in the Administrative Complaint and the SEC's findings regarding market timing in the SEC Order. The lawsuits are styled as class actions, or derivative actions on behalf of either the named funds or Franklin Resources, Inc.

OTHER LEGAL PROCEEDINGS (CONTINUED)

The Company, in addition to certain funds, and certain current and former officers, employees, and directors have been named in multiple lawsuits alleging violations of various securities laws and pendent state law claims relating to the disclosure of marketing support payments and/or payment of allegedly excessive commissions and/or advisory or distribution fees, and seeking, among other relief, monetary damages, restitution, rescission of advisory contracts, including recovery of all fees paid pursuant to those contracts, an accounting

of all monies paid to the named advisers, declaratory relief, injunctive relief, and/or attorneys' fees and costs. These lawsuits are styled as class actions or derivative actions brought on behalf of the named funds.

The Company and fund management strongly believe that the claims made in each of the lawsuits described above are without merit and intends to defend against them vigorously. The Company cannot predict with certainty the eventual outcome of these lawsuits, nor whether they will have a material negative impact on the Company. Public trust and confidence are critical to the Company's business and any material loss of investor and/or client confidence could result in a significant decline in assets under management by the Company, which would have an adverse effect on future financial results. If it is determined that the Company bears responsibility for any unlawful or inappropriate conduct that caused losses to the Fund, it is committed to making the Fund or its shareholders whole, as appropriate. The Company is committed to taking all appropriate actions to protect the interests of its funds' shareholders.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

TO THE BOARD OF TRUSTEES AND SHAREHOLDERS OF FRANKLIN UNIVERSAL TRUST

In our opinion, the accompanying statement of assets and liabilities, including the statement of investments, and the related statements of operations, of changes in net assets, and of cash flows and financial highlights present fairly, in all material respects, the financial position of Franklin Universal Trust (the "Fund") at August 31, 2005, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at August 31, 2005 by correspondence with the custodian, provide a reasonable basis for our opinion.

BOARD REVIEW OF INVESTMENT ADVISORY CONTRACT

At a meeting held February 28, 2005, the Board of Trustees ("Board"), including a majority of non-interested or independent Trustees, approved renewal of the investment advisory contract for Franklin Universal Trust (the "Fund"). In reaching this decision, the Board took into account information furnished throughout the year at regular Board meetings, as well as information prepared specifically in connection with the annual renewal review process. Information furnished and discussed throughout the year included reports on the Fund, the share price premium or discount to net asset value, the results of investment performance and related financial information for the Fund, as well as periodic reports on legal, compliance, pricing, brokerage commissions and execution and other services provided by the Investment Manager ("Manager") and its affiliates. Information furnished specifically in connection with the renewal process included a report prepared by Lipper Financial Services ("Lipper"), an independent organization, as well as a Fund profitability analysis report prepared by management. The Lipper report compared the Fund's investment performance and expenses with those of other funds deemed comparable to the Fund as selected by Lipper. The Fund profitability analysis report discussed the profitability to Franklin Templeton Investments from its overall U.S. fund operations, as well as on an individual fund-by-fund basis. Included with such profitability analysis report was information on a fund-by-fund basis listing

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

portfolio managers and other accounts they manage, as well as information on management fees charged by the Manager including management's explanation of differences where relevant, and a three-year expense analysis with an explanation for any increase in expense ratios. Additional information accompanying such report was a memorandum prepared by management describing enhancements to the services provided to the Fund by the Franklin Templeton Investments organization, as well as a memorandum relating to economies of scale.

In considering such materials, the independent Trustees received assistance and advice from and met separately with independent counsel. In approving continuance of the investment advisory contract for the Fund, the Board, including a majority of independent Trustees, determined that the existing management fee structure was fair and reasonable and that continuance of the investment advisory contract was in the best interests of the Fund and its shareholders. While attention was given to all information furnished, the following discusses the primary factors relevant to the Board's decision.

NATURE, EXTENT AND QUALITY OF SERVICE. The Board was satisfied with the nature and quality of the overall services provided by the Manager and its affiliates to the Fund and its shareholders. In addition to investment performance and expenses discussed later, the Board's opinion was based, in part, upon periodic reports furnished them showing that the investment policies and restrictions for the Fund were consistently complied with as well as other reports periodically furnished the Board covering matters such as the compliance of portfolio managers and other management personnel with the code of ethics adopted throughout the Franklin Templeton fund complex, the adherence to fair value pricing procedures established by the Board, and the accuracy of net asset value calculations. Favorable consideration was given to management's efforts and expenditures in establishing back-up systems and recovery procedures to function in the event of a natural disaster, it being noted by the Board that such systems and procedures had functioned

BOARD REVIEW OF INVESTMENT ADVISORY CONTRACT (CONTINUED)

smoothly during the hurricanes and blackout experienced last year in Florida. Other factors taken into account by the Board were the Manager's best execution trading policies, as well as the compliance procedures and qualifications of the Chief Compliance Officer established in accordance with recently adopted SEC requirements. Consideration was also given to the experience of the Fund's portfolio management team, the number of accounts managed and general method of compensation. In this latter respect, the Board noted that a primary factor in management's determination of the level of a portfolio manager's bonus compensation was the relative investment performance of the funds he or she managed so as to be aligned with the interests of Fund shareholders.

INVESTMENT PERFORMANCE. The Board placed significant emphasis on the investment performance of the Fund in view of its importance to shareholders. Consideration was given to performance reports and discussions with portfolio managers at Board meetings during the year, as well as the Lipper reports furnished for the contract renewals. The Lipper report prepared for the Fund showed its investment performance in comparison with a performance universe consisting of the Fund and all closed-end leveraged high yield funds as selected by Lipper during 2004, as well as the previous ten years ended December 31, 2004. Such report considered

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

both income return and total return on a net asset value basis without regard to market discounts or premiums in order to accurately reflect investment performance. The Lipper report showed the Fund's income return to be in the lowest quintile of such performance universe for the one-year period and on an annualized basis for each of the previous three-, five- and ten-year periods. The Lipper report also showed that the Fund's total return was in the second highest quintile of such universe during 2004 and on an annualized basis was in the lowest quintile for the previous three-year period and at the median of the performance universe for the previous five- and ten-year periods. In discussing such performance, management pointed out the Fund's mandate to invest between 20 and 30 percent of its assets in utilities stocks differed from the Lipper performance universe, which consisted of pure high yield funds, and that its relative performance within such universe reflected such difference. Management further pointed out that the Fund's favorable investment performance in comparison to a blend of the Credit Suisse First Boston High Yield Index and the Standard & Poors Electric Utilities Index was a more meaningful measure of performance. The Board believed the Fund's investment performance was satisfactory in view of such explanation.

COMPARATIVE EXPENSES. Consideration was given to a comparative analysis of the management fees and total expense ratios of the Fund compared with a Lipper expense group consisting of the Fund and 14 closed-end leveraged high current yield funds as selected by Lipper. Prior to making such comparison, the Board relied upon a survey showing that the scope of management advisory services covered under the Fund's investment advisory contract was similar to those provided by fund managers to other fund groups that would be used as a basis of comparison in the Lipper reports. In reviewing comparative costs, emphasis was given to each Fund's management fee in comparison with the effective management fee rate that would have been charged by other funds within its Lipper expense group assuming they were the same size as the Fund, as well as the actual total expenses of the Fund in comparison with those of its Lipper expense group. The Lipper

38 | Annual Report

FRANKLIN UNIVERSAL TRUST

report showed the Fund's effective management fee rate was in the highest third of the Lipper expense group being five basis points above the median for such group. The report showed the Fund's actual total expenses computed on a basis that included investment related expenses and taxes, which, according to Lipper primarily relates to leveraging, were in the highest third of its expense group, but computed on a basis excluding investment related expenses and taxes were in the lowest third of its Lipper expense group and 30 basis points below the median for such group. The Board found such expenses to be acceptable.

MANAGEMENT PROFITABILITY. The Board also considered the level of profits realized by the Manager and its affiliates in connection with the operation of the Fund. In this respect, the Board reviewed the fund profitability analysis that addresses the overall profitability of Franklin Templeton's U.S. fund business, as well as its profits in providing management and other services to each fund. The Board also considered the extent to which the Manager and its affiliates might derive ancillary benefits from fund operations, as well as potential benefits resulting from allocation of fund brokerage and the use of "soft" commission dollars to pay for research. Specific attention was given to the methodology followed in allocating costs to each fund, it being recognized

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

that allocation methodologies are inherently subjective and various allocation methodologies may each be reasonable while producing different results. In this respect, the Board noted that the cost allocation methodology was consistent with that followed in profitability report presentations made in prior years and that it had engaged on a biennial basis the Fund's independent accountants to perform certain procedures specified by the Board solely for its purpose and use. It was also noted that legal costs and payments incurred by Franklin Templeton in resolving various legal proceedings arising from its U.S. fund operations had not been allocated to the Fund for purposes of determining profitability. Included in the analysis were the revenue and related costs involved in managing the Fund, as well as its relative contribution to the profitability of the Manager's parent. In reviewing and discussing such analysis, management discussed with the Board its belief that costs incurred in establishing the infrastructure necessary to the type of fund operations conducted by the Manager and its corporate affiliates may not be fully reflected in the expenses allocated to the Fund in determining its profitability, as well as the fact that the level of profits, to a certain extent, reflected operational cost savings and efficiencies initiated by management. In addition, the Board considered a third-party study comparing the profitability of the Manager's parent on an overall basis as compared to other publicly held managers broken down to show profitability from management operations exclusive of distribution expenses, as well as profitability including distribution expenses. Based upon their consideration of all these factors, the Board determined that the level of profits realized by the Manager under its investment advisory contract with the Fund was not excessive in view of the nature, quality and extent of services provided.

ECONOMIES OF SCALE. The Board also considered whether the Manager realizes economies of scale as the Fund grows larger and the extent to which any such benefit is shared with the Fund and its shareholders. The Board believed that a manager's ability to realize economies of scale and the sharing of such benefit is a more relevant consideration in the case of an open-end fund whose

Annual Report | 39

BOARD REVIEW OF INVESTMENT ADVISORY CONTRACT (CONTINUED)

size increases as a result of the continuous sale of its shares. A closed-end investment company such as the Fund does not continuously offer shares and growth following its initial public offering will primarily result from market appreciation, which benefits its shareholders. While believing economies of scale to be less of a factor in the context of a closed-end fund, the Board believes at some point an increase in size may lead to economies of scale which should be shared with the Fund and its shareholders and intends to monitor future growth of the Fund accordingly.

PROXY VOTING POLICIES AND PROCEDURES

The Fund has established Proxy Voting Policies and Procedures ("Policies") that the Fund uses to determine how to vote proxies relating to portfolio securities. The Fund files a complete statement of investments with the U.S. Securities and Exchange Commission for the first and third quarters for each fiscal year on Form N-Q. Shareholders may view the filed Form N-Q by visiting the Commission's website at sec.gov. The filed form may also be viewed and copied at the Commission's Public Reference Room in Washington, DC. Information regarding the operations of the Public Reference Room may be obtained by calling 1-800/SEC-0330.

CERTIFICATIONS

The Fund's Chief Executive Officer - Finance and Administration is required by the New York Stock Exchange's Listing Standards to file annually with the Exchange a certification that he is not aware of any violation by the Fund of the Exchange's Corporate Governance Standards applicable to the Fund. The Fund has filed such certification.

In addition, the Fund's Chief Executive Officer - Finance and Administration and Chief Financial Officer and Chief Accounting Officer are required by the rules of the SEC to provide certain certifications with respect to the Fund's Form N-CSR and Form N-CSRS (which include the Fund's annual and semiannual reports to shareholders) that are filed semiannually with the SEC. The Fund has filed such certifications with its Form N-CSRS for the six months ended February 28, 2005. Additionally, the Fund expects to file, on or about October 31, 2005, such certifications with its Form N-CSR for the year ended August 31, 2005.

(h) The registrant's audit committee of the board of trustees has considered whether the provision of non-audit services that were rendered to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

registrant that were not pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant's independence.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS. Members of the Audit Committee are: Robert F. Carlson, S. Joseph Fortunato and Frank W. T. LaHaye.

ITEM 6. SCHEDULE OF INVESTMENTS. N/A

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The board of trustees of the Trust has delegated the authority to vote proxies related to the portfolio securities held by the Fund to the Fund's manager Franklin Advisers, Inc. in accordance with the Proxy Voting Policies and Procedures (Policies) adopted by the manager.

The manager has delegated its administrative duties with respect to the voting of proxies to the Proxy Group within Franklin Templeton Companies, LLC (Proxy Group), an affiliate and wholly owned subsidiary of Franklin Resources, Inc. All proxies received by the Proxy Group will be voted based upon the manager's instructions and/or policies.

To assist it in analyzing proxies, the manager subscribes to Institutional Shareholder Services (ISS), an unaffiliated third party corporate governance research service that provides in-depth analyses of shareholder meeting agendas, vote recommendations, recordkeeping and vote disclosure services. In addition, the manager subscribes to Glass, Lewis & Co., LLC (Glass Lewis), an unaffiliated third party analytical research firm, to receive analyses and vote recommendations on the shareholder meetings of publicly held U.S. companies. Although ISS' and/or Glass Lewis' analyses are thoroughly reviewed and considered in making a final voting decision, the manager does not consider recommendations from ISS, Glass Lewis or any other third party to be determinative of the manager's ultimate decision. The manager votes proxies solely in the interests of the Fund and its shareholders. As a matter of policy, the officers, directors/trustees and employees of the Fund, the manager and the Proxy Group will not be influenced by outside sources whose interests conflict with the interests of the Fund and its shareholders. All conflicts are resolved in the interests of the manager's clients. In situations where the manager perceives a material conflict of interest, the manager may: disclose the conflict to the Fund's board of trustees; defer to the voting recommendation of the Fund's board of trustees, ISS, Glass Lewis or those of another independent third party provider of proxy services; or take such other action in good faith (in consultation with counsel) which would protect the interests of the Fund and its shareholders. The recommendation of management on any issue is a factor which the manager considers in determining how proxies should be voted, but is not determinative of the manager's ultimate decision. As a matter of practice, the votes with respect to most issues are cast in accordance with the position of the company's management. Each issue, however, is considered on its own merits, and the manager will not support the position of the company's management in any situation where it deems that the ratification of management's position would adversely affect the investment merits of owning that company's shares.

MANAGER'S PROXY VOTING POLICIES AND PRINCIPLES The manager has adopted general proxy voting guidelines, which are summarized below. These guidelines are not an exhaustive list of all the issues that may arise and the manager cannot anticipate all future situations. In all cases, each proxy will be considered based on the relevant facts and circumstances.

BOARD OF DIRECTORS. The manager supports an independent board of directors, and prefers that key committees such as audit, nominating, and compensation

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

committees be comprised of independent directors. The manager will generally vote against management efforts to classify a board and will generally support proposals to declassify the board of directors. The manager may withhold votes from directors who have attended less than 75% of meetings without a valid reason. While generally in favor of separating Chairman and CEO positions, the manager will review this issue as well as proposals to restore or provide for cumulative voting on a case-by-case basis, taking into consideration factors such as the company's corporate governance guidelines or provisions and performance.

RATIFICATION OF AUDITORS OF PORTFOLIO COMPANIES. In light of several high profile accounting scandals, the manager will closely scrutinize the role and performance of auditors. On a case-by-case basis, the manager will examine proposals relating to non-audit relationships and non-audit fees. The manager will also consider, on a case-by-case basis, proposals to rotate auditors, and will vote against the ratification of auditors when there is clear and compelling evidence of accounting irregularities or negligence.

MANAGEMENT AND DIRECTOR COMPENSATION. A company's equity-based compensation plan should be in alignment with its shareholders' long-term interests. The manager evaluates plans on a case-by-case basis by considering several factors to determine whether the plan is fair and reasonable, including the ISS quantitative model utilized to assess such plans and/or the Glass Lewis evaluation of the plans. The manager will generally oppose plans that have the potential to be excessively dilutive, and will almost always oppose plans that are structured to allow the repricing of underwater options, or plans that have an automatic share replenishment "evergreen" feature. The manager will generally support employee stock option plans in which the purchase price is at least 85% of fair market value, and when potential dilution is 10% or less.

Severance compensation arrangements will be reviewed on a case-by-case basis, although the manager will generally oppose "golden parachutes" that are considered to be excessive. The manager will normally support proposals that require a percentage of directors' compensation to be in the form of common stock, as it aligns their interests with those of shareholders. The manager will review on a case-by-case basis any shareholder proposals to adopt policies on expensing stock option plans.

ANTI-TAKEOVER MECHANISMS AND RELATED ISSUES. The manager generally opposes anti-takeover measures since they tend to reduce shareholder rights. On occasion, the manager may vote with management when the research analyst has concluded that the proposal is not onerous and would not harm the Fund or its shareholders' interests. The manager generally supports proposals that require shareholder rights' plans ("poison pills") to be subject to a shareholder vote and will closely evaluate such plans on a case-by-case basis to determine whether or not they warrant support. The manager will generally vote against any proposal to issue stock that has unequal or subordinate voting rights. The manager generally opposes any supermajority voting requirements as well as the payment of "greenmail." The manager generally supports "fair price" provisions and confidential voting.

CHANGES TO CAPITAL STRUCTURE. The manager will review, on a case-by-case basis, proposals by companies to increase authorized shares and the purpose for the increase and proposals seeking preemptive rights. The manager will generally not vote in favor of dual-class capital structures to increase the number of authorized shares where that class of stock would have superior voting rights. The manager will generally vote in favor of the issuance of preferred stock in cases where the company specifies the voting, dividend, conversion and other rights of such stock and the terms of the preferred stock issuance are deemed reasonable.

MERGERS AND CORPORATE RESTRUCTURING. Mergers and acquisitions will be subject to

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

careful review by the research analyst to determine whether each will be beneficial to shareholders. The manager will analyze various economic and strategic factors in making the final decision on a merger or acquisition. Corporate restructuring and reincorporation proposals are also subject to a thorough examination on a case-by-case basis.

SOCIAL AND CORPORATE POLICY ISSUES. The manager will generally give management discretion with regard to social, environmental and ethical issues, although the manager may vote in favor of those that are believed to have significant economic benefits or implications for the Fund and its shareholders.

GLOBAL CORPORATE GOVERNANCE. Many of the tenets discussed above are applied to proxy voting decisions for international companies. However, the manager must be more flexible in these instances and must be mindful of the varied market practices of each region.

The manager will attempt to process every proxy it receives for all domestic and foreign proxies. However, there may be situations in which the manager cannot process proxies, for example, where a meeting notice was received too late, or sell orders preclude the ability to vote. The manager may abstain from voting under certain circumstances or vote against items such as "Other Business" when the manager is not given adequate information from the company.

Shareholders may view the complete Policies online at franklintempleton.com. Alternatively, shareholders may request copies of the Policies free of charge by calling the Proxy Group collect at 1-954/847-2268 or by sending a written request to: Franklin Templeton Companies, LLC, 500 East Broward Boulevard, Suite 1500, Fort Lauderdale, FL 33394, Attention: Proxy Group. Copies of the Fund's proxy voting records are available online at franklintempleton.com and posted on the SEC website at WWW.SEC.GOV and reflect the twelve-month period beginning July 1, 2004, and ending June 30, 2005.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES. N/A

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS. N/A

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS. There have been no changes to the procedures by which shareholders may recommend nominees to the Registrant's Board of Trustees that would require disclosure herein.

ITEM 11. CONTROLS AND PROCEDURES.

(A) **EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES.** The Registrant maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Registrant's filings under the Securities Exchange Act of 1934 and the Investment Company Act of 1940 is recorded, processed, summarized and reported within the periods specified in the rules and forms of the Securities and Exchange Commission. Such information is accumulated and communicated to the Registrant's management, including its principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. The Registrant's management, including the principal executive officer and the principal financial officer, recognizes that any set of controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

Within 90 days prior to the filing date of this Shareholder Report on Form N-CSR, the Registrant had carried out an evaluation, under the supervision and with the participation of the Registrant's management, including the Registrant's principal executive officer and the Registrant's principal financial officer, of the effectiveness of the design and operation of the

Edgar Filing: FRANKLIN UNIVERSAL TRUST - Form N-CSR

Registrant's disclosure controls and procedures. Based on such evaluation, the Registrant's principal executive officer and principal financial officer concluded that the Registrant's disclosure controls and procedures are effective.

(B) CHANGES IN INTERNAL CONTROLS. There have been no significant changes in the Registrant's internal controls or in other factors that could significantly affect the internal controls subsequent to the date of their evaluation in connection with the preparation of this Shareholder Report on Form N-CSR.
