ITEM 8.01 OTHER EVENTS

Edgar Filing: ATWOOD OCEANICS INC - Form 8-K

On November 1, 2004, the Company announced that the ATWOOD FALCON has been awarded a contract by Japan Energy Development Co., Ltd. ("JED") to drill one firm well with an option to drill one additional well off the coast of Japan. This drilling program will commence immediately upon the rig completing its current contract for Sarawak Shell in Malaysia, which is expected to be completed in February 2005. The JED contract provides for a dayrate of \$88,300 for both firm and option wells and mobilization and demobilization payments of approximately \$1.9 million, respectively.

The Company also announced that the ATWOOD EAGLE has been awarded additional work under an existing contract with Woodside Energy, Ltd. ("Woodside") to drill three (3) firm wells with options to drill three (3) additional wells off the coast of Australia. The rig's current drilling commitments with Woodside and BHP Billiton Petroleum Pty. are expected to be completed around January 15, 2005. The additional work with Woodside is not expected to commence until February 15, 2005. During the planned break in drilling commitments, certain inspections and maintenance work will be performed on the rig.

A copy of the press release announcing these contract awards is filed with the Form 8-K as Exhibit 99.1 and is incorporated herein by reference.

Statements contained in this report with respect to the future are forward-looking statements. These statements reflect management's reasonable judgment with respect to future events. Forward-looking statements involve risks and uncertainties. Actual results could differ materially from those anticipated as a result of various factors: the Company's dependence on the oil and gas industry; the risks involved in the construction and repair of a rig; competition; operating risks; risks involved in foreign operations; risks associated with possible disruption in operations due to terrorism; risks associated with a possible disruption in operations due to war; and governmental regulations and environmental matters. A list of additional risk factors can be found in the Company's annual report on Form 10-K for the year ended September 30, 2003, filed with the Securities and Exchange Commission.

ATWOOD ANNOUNCES CONTRACT FOR
ATWOOD FALCON AND ATWOOD EAGLE

Houston, Texas
01 November 2004

FOR IMMEDIATE RELEASE

Atwood Oceanics, Inc. (Houston-based International Offshore Drilling Contractor - NYSE: ATW) announced today that the ATWOOD FALCON has been awarded a contract by Japan Energy Development Co., LTD. to drill one (1) firm well with an option to drill one (1) additional well off the coast of Japan. The contract provides for a dayrate of \$88,300 for both the firm and option wells and mobilization and demobilization payments of approximately \$1.9 million, respectively. The ATWOOD FALCON is currently drilling a program for Sarawak Shell in Malaysia which is expected to be complete in February 2005. Upon completion of this contract, the rig will be moved to Japan, with an anticipated commencement of drilling operations in Japan in March 2005. The drilling of the firm well as well as the option well, if drilled, are estimated to take 60 to 100 days, respectively, to complete.

The Company also announced that the ATWOOD EAGLE has been awarded additional work under an existing contract with Woodside Energy, Ltd. ("Woodside") to drill three (3) firm wells with options to drill three (3) additional wells off the coast of Australia. The amended contract provides for a dayrate of \$89,000 for wells drilled in water depths below 600 meters and \$109,000 for wells drilled in water depths of 600 meters or more except that the first well drilled in water depths between 600 meters and 700 meters will have a

Edgar Filing: ATWOOD OCEANICS INC - Form 8-K

dayrate of \$99,000. The drilling of the three firm wells is expected to take approximately four months to complete, and if all the option wells are drilled, the contract could extend into September 2005. The rig's current drilling commitments with Woodside and BHP Billiton Petroleum Pty. are expected to be completed around January 15, 2005. The additional work with Woodside will not commence until February 15, 2005. During the planned break in drilling commitments, certain required inspections and maintenance work will be performed on the rig.

Statements contained in this release with respect to the future are forward-looking statements. These statements reflect management's reasonable judgment with respect to future events. Forward-looking statements involve risks and uncertainties. Actual results could differ materially from those anticipated as a result of various factors; the Company's dependence on the oil and gas industry; the risks involved in upgrade to the Company's rigs; competition; operating risks; risks involved in foreign operations; risks associated with possible disruptions in operations due to terrorism; and governmental regulations and environmental matters. A list of additional risk factors can be found in the Company's Annual Report on Form 10-K for the year ended September 30, 2003, filed with the Securities and Exchange Commission.
