## Item 2.02 Results of Operations and Financial Condition

NEWARK, N.Y. – July 30, 2015 -- Ultralife Corporation (NASDAQ: ULBI) reported operating income of \$0.8 million on revenue of \$19.0 million for the quarter ended June 28, 2015. For the second quarter of 2014, the Company reported an operating loss of \$1.3 million on revenue of \$15.2 million.

“Our second quarter results demonstrate the operating leverage inherent in our business model and the success of our strategy to invest in new products, customers, markets and geographies. Following a strong first quarter performance, we delivered another quarter of 25% revenue growth, substantial gains in profitability marked by a consolidated gross margin of 31%, an operating margin of 4.3%, and an EPS of \$0.05,” Michael D. Popielec, Ultralife's President and Chief Executive Officer. “At the mid-point of the year with revenue growth of 25% and EPS improvement of \$0.23 over the first half of 2014, we have increasing confidence in our outlook for top-line growth and profitable results for 2015.”

Revenue grew 25%, or \$3.8 million, to \$19.0 million from \$15.2 million for the second quarter of 2014 driven by gains in Battery & Energy Product sales. Battery & Energy Products sales were \$16.0 million, compared to \$12.2 million last year, a 31% increase, primarily due to higher shipments to Government/Defense customers. Communications Systems sales were \$3.0 million, flat with the same period last year.

Gross profit grew 39% to \$5.9 million from \$4.2 million for the second quarter a year ago. As a percentage of revenue, gross profit increased 320 basis points to 30.9% from 27.7% last year, primarily reflecting favorable mix of higher gross margin products and improved overhead absorption on higher sales volumes. Battery & Energy Products' gross margin was 28.4%, compared to 23.6% last year, an increase of 480 basis points. Communications Systems' gross margin was 44.2%, compared to 44.0% last year, an increase of 20 basis points.

Operating expenses declined 9%, or \$0.5 million, to \$5.0 million from \$5.5 million a year ago. As a percentage of revenue, operating expenses were 26.6%, compared to 36.4% a year ago.

Higher revenue combined with the leverage of improved gross margin and lower operating expenses resulted in operating income of \$0.8 million, compared to an operating loss of \$1.3 million for the second quarter of 2014, an improvement of \$2.1 million. Operating margin was 4.3%, compared to (8.7)% for the year-earlier period.

Net income from continuing operations was \$0.8 million, or \$0.05 per share, compared to a net loss of \$1.4 million, or \$0.08 per share, for the second quarter of 2014.
