Independent Auditors Report

The Advisory Committee
Fidelity National Financial, Inc.
401(k) Profit Sharing Plan:

We have audited the accompanying statements of net assets available for benefits of the Fidelity National Financial, Inc. 401(k) Profit Sharing Plan (the Plan) as of December 31, 2001 and 2000, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based upon our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2001 and 2000, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule, Schedule H Line 4i Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects, in relation to the basic financial statements taken as a whole.

Notes to Financial Statements

December 31, 2001 and 2000

(c) Contributions

Each year, participants may contribute up to 15% of their pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company makes matching contributions equal to 50% of participant deferrals up to 6% of eligible compensation. Discretionary employer contributions may be made at the option of the Company's board of directors. No discretionary employer contributions were made during the Plan years ended December 31, 2001 and 2000. Contributions are subject to certain limitations.

(d) Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the employer's contributions and (b) Plan earnings, and is charged with an allocation of losses. Allocations are based on participant earnings or account balances, as defined. Discretionary employer contributions, when made, are allocated in the ratio of participant compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(e) Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of service as follows:

Number of years of service	Vested percentage
Less than 1 year	0%
1 year	34%
2 years	67%
3 years or more	100%

Prior to November 1, 2000, a participant vested 20% per year after one year of service and was 100% vested after five years of service or upon attainment of age 65, death or disability.
