The proxies may also be voted at any adjournment or postponement of the Annual Meeting. Only stockholders of record at the close of business on March 10, 2008, the Record Date, are entitled to vote. Each owner of record on the Record Date is entitled to one vote for each share of common stock held. On the Record Date, the Company had 39,536,847 shares of common stock outstanding.

This proxy statement and the enclosed form of proxy were mailed to stockholders on or about March 28, 2008. A copy of the Company's Annual Report is provided with this proxy statement.

The Company will pay the cost of solicitation of proxies. In addition to this mailing, proxies may be solicited, without extra compensation, by our officers and employees, by mail, telephone, facsimile, electronic mail and other methods of communication. The Company reimburses banks, brokerage houses and other custodians, nominees and fiduciaries for their reasonable out-of-pocket expenses in forwarding solicitation materials to the beneficial owners of the Company's common stock.

QUESTIONS AND ANSWERS

1. What is a proxy ?

It is your way of legally designating another person to vote for you. That other person is called a proxy. If you designate another person as your proxy in writing, the written document is called a proxy or proxy card.

2. What is a proxy statement ?

It is a document required by the Securities and Exchange Commission (the SEC) that contains information about the matters that stockholders will vote upon at the Annual Meeting. The proxy statement also includes other information required by SEC regulations.

3. What is a quorum ?

A quorum is the minimum number of stockholders who must be present or voting by proxy in order to conduct business at the meeting. A majority of the outstanding shares, whether present in person or represented by proxy, will constitute a quorum at the Annual Meeting. Shares represented by proxies marked to abstain from voting for a proposal or to withhold voting for one or more nominees and broker non-votes are counted for purposes of determining the presence of a quorum.

4. What is a broker non-vote ?

A broker non-vote occurs when a nominee, such as a broker or bank, holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that item and has not received instructions from the beneficial owner.

5. How many votes are required to approve the proposals?

A plurality of the votes cast at the meeting is required to elect directors; that is, the four nominees receiving the highest number of votes for the class whose term expires at the 2011 Annual Meeting will be elected.

The affirmative vote of a majority of outstanding shares present, in person or by proxy, and entitled to vote is necessary to approve the 2008 Stock Incentive Plan, to ratify the appointment of PricewaterhouseCoopers LLP and to approve any other proposal.

Abstentions will be included in the vote count and have the same effect as voting against a proposal. Broker non-votes will not be included in the vote count and will have no effect on the vote with respect to the proposal concerning the ratification of the appointment of the Company's independent registered public accounting firm.

6. How do I vote?

You may vote through any of the following methods:

attend the Annual Meeting in person and submit a ballot,

Edgar Filing: TELEFLEX INC - Form DEF 14A

sign and date each proxy card you receive and return it in the prepaid envelope included in your proxy package,

vote by telephone by calling 1-800-PROXIES (776-9437) or

vote via the internet at www.voteproxy.com.

The shares represented by each proxy will be voted in accordance with the instructions you provide in the proxy card or that you may submit via telephone or the internet, unless the proxy is revoked before it is exercised. Any proxy card which is signed and returned without any markings

Table of Contents

indicating how you wish to vote will be counted as a vote FOR the election of directors, FOR the proposal to approve the 2008 Stock Incentive Plan and FOR the ratification of PricewaterhouseCoopers LLP as independent registered public accounting firm for 2008.

If your shares are held by a broker, bank or other holder of record, please refer to the instructions it provides for voting your shares. If you want to vote those shares in person at the Annual Meeting, you must bring a signed proxy from the broker, bank or other holder of record giving you the right to vote the shares.

7. How can I revoke my proxy?

You may revoke your proxy at any time before the proxy is exercised by submitting a notice of revocation or submitting an executed proxy card bearing a later date to the Secretary of the Company at the Company's principal executive offices, at 155 South Limerick Road, Limerick, Pennsylvania 19468. You may also revoke your proxy by attending the Annual Meeting in person and giving notice of your intention to vote at the Annual Meeting. Attendance at the Annual Meeting will not by itself revoke a previously granted proxy.

**PROPOSAL 1:
ELECTION OF DIRECTORS**

Our Board of Directors (the Board) currently consists of eleven members divided into three classes, with one class being elected each year for a three-year term. At the Annual Meeting, four directors will be elected for terms expiring at our Annual Meeting of Stockholders in 2011 and until their successors are elected and qualified. The Board, upon the recommendation of the Governance Committee, has nominated George Babich, Jr., William R. Cook, Stephen K. Klasko and Benson F. Mr. Sickler is not standing for reelection to the Board. The Board is grateful for Mr. Sickler's many contributions to the Company over the course of his career. Mr. Klasko is a new nominee standing for election as director in this class.

The persons named in the enclosed proxy intend to vote properly executed proxies for the election of Messrs. Babich, Cook, Klasko and Smith. Board Independence

The Board has affirmatively determined that George Babich, Jr., Patricia C. Barron, William R. Cook, Jeffrey A. Graves, Stephen K. Klasko, Sigismundus W.W. Lubsen, Judith M. von Seldeneck, Benson F. Smith, Harold L. Yoh III and James W. Zug are independent within the meaning of the rules of the New York Stock Exchange (the NYSE). All of such independent directors meet the categorical standards set forth in the Corporate Governance Principles, which have been adopted by the Board to assist it in making determinations of independence. The Board has further determined that the members of the Audit Committee, the Compensation Committee and the Governance Committee are independent within the meaning of NYSE rules, and that the members of the Audit Committee meet the additional independence requirements of the NYSE applicable to Audit Committee members.

To assist the Board in making determinations of independence, the Board has adopted the following categorical standards. The Board will determine the materiality of any relationship which a director has with us by considering all relevant facts and circumstances. The Board may determine that a director is not independent notwithstanding that none of the following categorical disqualifications apply. However, if any of the following categorical disqualifications apply, a director may not be considered independent.

- A director who is an employee, or whose immediate family member is an executive officer of our company, is not independent until the expiration of the three years after the end of such employment.
- A director who receives, or if an immediate family member of the director is an executive employee of ours and has received, more than \$100,000 per year indirect compensation from us, other than director and committee fees, pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service) and compensation received by a director for former service as an interim Chairman or CEO during the immediately preceding three-year period, may not be considered independent until the expiration of the three years after such director or family member ceases to receive more than \$100,000 per year in compensation or such person ceases to be an immediate family member or becomes incapacitated, as may be applicable.
- A director who is employed by, or whose immediate family member is a current partner of a firm that is our internal or external auditor or a current employee of such a firm and who participates in the firm's audit, assurance or tax compliance (but not tax planning) practice may not be considered independent.
- A director who was, or whose immediate family member was a partner or employee of a firm that is our internal or external auditor and personally worked on our audit during the immediately preceding three-year period may not be considered independent until the expiration of the three years after the end of

employment or auditing relationship or such

person ceases to be an immediate family member or becomes incapacitated, as may be applicable.

A director who is employed, or whose immediate family member is employed, as an executive officer of another company where any of our present executives serve on such other company's compensation committee may not be considered independent until the expiration of three years after the end of such service or employment relationship or such person ceases to be an immediate family member or becomes incapacitated, as may be applicable.

A director who is an employee, or whose immediate family member is an executive officer, of a company that makes payments to us, or receives payments from us, for property or services in an amount which, in any single fiscal year, exceeds the greater of \$1 million or 2% of such other company's consolidated gross revenues may not be considered independent until the expiration of the three years after such receipts or payments fall below such threshold or after such person ceases to be an immediate family member or becomes incapacitated, as may be applicable.

Lead Director

In March 2006, the Board established the position of Lead Director. The Lead Director is an independent director of the Board whose duties and responsibilities include:

- coordinating and developing the agenda for, and presiding over, executive sessions of the Board's independent directors;
- facilitating communications among and between our directors and senior executives, including with respect to any concerns they may have about us and our performance;
- collaborating with the Chairman of the Board to ensure appropriate information flow to the Board;
- interviewing, along with the Governance Committee Chair, and making recommendations to the Governance Committee and the Board concerning Board candidates; and
- providing input to the members of the Compensation Committee regarding the Chief Executive Officer's performance, and, along with the Compensation Committee Chair, meeting with the Chief Executive Officer to discuss the Board's evaluation.

The independent directors of the Board have the authority to make decisions concerning the Lead Director, including the power to appoint and remove the Lead Director and the authority to modify the Lead Director's duties and responsibilities. The Lead Director is appointed annually by the independent directors of the Board. Mr. Cook currently serves as the Lead Director.

Executive Sessions of Non-Management Directors

Directors who are not executive officers or otherwise employed by us or any of our subsidiaries, who we refer to as the non-management directors, meet regularly in accordance with a schedule adopted at the beginning of each year and on such additional occasions as a non-management director may request. Such meetings are held in executive session, without the presence of any directors who are executive officers. The Lead Director presides over such meetings.

Stockholders or other interested persons wishing to communicate with members of the Board should send such communications to Teleflex Incorporated, 155 South Limerick Road, Limerick, Pennsylvania 19468, Attention: Corporate Communications. These communications will be forwarded to specified individual directors, or, if applicable, to all the members of the Board as deemed appropriate. Stockholders or other interested persons may also communicate directly and confidentially with the Lead Director, the non-management directors as a group or the Chairman or other members of the Audit Committee through the Teleflex Ethics Hotline at 1-888-883-1499 or, for international calls, 1-203-557-8604.

The Board and Board Committees

The Board held eleven meetings in 2007. Each of the directors attended at least seventy-five percent of the total number of Board meetings held in 2007. The Board does not have a formal policy concerning attendance at its Annual Meeting of Stockholders but encourages all directors to attend. All of the Board members attended the 2007 Annual Meeting of Stockholders.

The Board has established a Governance Committee, a Compensation Committee and an Audit Committee.

Governance Committee

The Governance Committee is responsible for identifying qualified individuals for board membership and recommending individuals for nomination to the Board and its committees. In addition, the Governance Committee reviews and makes recommendations to the Board as to the size and composition of the Board and Board committees and eligibility criteria for Board and Board committee membership. The Governance Committee is also responsible for developing and recommending corporate governance principles to the Board and overseeing the evaluation of the Board and management.

The Governance Committee considers candidates for Board membership. Our Corporate Governance Principles provide that directors are expected to possess the highest character and integrity, and to have business, professional, academic, government or other experience which is relevant to our business and operations. In addition, directors must be able to devote substantial time to our affairs. The charter of the Governance Committee provides that in evaluating nominees, the Governance Committee should consider the attributes set forth above. Under our Corporate Governance Principles, a director must retire from the Board at the expiration of his or her term following attainment of age 70, except in special circumstances which shall be described in a resolution adopted by the Board requesting such director to defer retirement.

The Governance Committee will consider recommendations for director candidates from stockholders. Stockholders can recommend candidates for nomination by delivering or mailing written recommendations to Teleflex Incorporated, 155 South Limerick Road, Limerick, Pennsylvania 19468, Attention: Secretary. In order to enable consideration of the candidate in connection with our 2009 Annual Meeting, a stockholder must submit the following information by December 1, 2008:

- the name of the candidate and information about the candidate that would be required to be included in a proxy statement under the rules of the Securities and Exchange Commission;
- information about the relationship between the candidate and the recommending stockholder;
- the consent of the candidate to serve as a director; and
- proof of the number of shares of our common stock that the recommending stockholder owns and the length of time the shares have been owned.

In considering any candidate proposed by a stockholder, the Governance Committee will reach a conclusion based on the criteria described above. The Governance Committee may seek additional information regarding the candidate. After full consideration, the stockholder proponent will be notified of the decision of the Governance Committee. The Governance Committee will consider all potential candidates in the same manner regardless of the source of the recommendation.

The current members of the Governance Committee are Mrs. Barron and Messrs. Graves and Cook. Mrs. Barron currently serves as the chair of the Governance Committee. The Governance Committee held five meetings in 2007. Each of the members of the Governance Committee attended at least seventy-five percent of the total number of Governance Committee meetings held in 2007.

Director Stock Ownership Guidelines

In February 2008, our Board established stock ownership guidelines for our directors to further align the interests of our directors with those of our stockholders. The ownership guidelines require our directors to own shares of our common stock, shares of restricted stock and shares underlying stock options with an aggregate value equal to two times the annual compensation paid to our directors. Directors have until the later of February 2013 or five years from the date they are first elected to the Board to meet the required ownership level.

AUDIT COMMITTEE REPORT

The Audit Committee of the Board of Directors is comprised of three non-management directors, each of whom has been determined by the Board to be independent under the rules of the NYSE and the SEC. The Audit Committee's responsibilities are set forth in its amended and restated charter, which was adopted by the Board on March 7, 2005.

Generally, the Audit Committee oversees and reviews with the full Board any issues with respect to the Company's financial statements, the structure of our legal and regulatory compliance, the performance and independence of our independent registered public accounting firm and the performance of our internal audit function. The Committee retains our independent registered public accounting firm to undertake appropriate reviews and audits of our consolidated financial statements and our internal control over financial reporting, determines the compensation of the independent registered public accounting firm and pre-approves all of their services. The preparation of our consolidated financial statements is the responsibility of our management. The Audit Committee maintains oversight of the independent registered public accounting firm by discussing the overall scope and specific plans for their audits, the results of their examinations and the overall quality of our financial reporting.

The Audit Committee maintains oversight of our internal audit function by reviewing the appointment and replacement of our director of internal auditing and periodically meets with the director of internal auditing to receive and review reports of the work of our internal audit department. The Audit Committee meets with management on a regular basis to discuss any significant matters, internal audit recommendations, policy or procedural changes, and risks or exposures, if any, that may have a material effect on our financial statements.

COMPENSATION DISCUSSION AND ANALYSIS

INTRODUCTION

In this Compensation Discussion and Analysis, we address the compensation paid or awarded to our executive officers listed in the Summary Compensation Table that follows this discussion. We refer to these executive officers as our named executive officers.

EXECUTIVE COMPENSATION OVERVIEW

Compensation Objectives

Our executive compensation program is designed principally to promote the achievement of specific annual, long-term and strategic goals by our executive management team and to align our executives' interests with those of our stockholders. In this regard, the components of the compensation program for our executives, including the named executive officers, are intended to meet the following objectives:

- Provide compensation that enables us to attract and retain highly-skilled executives. We refer to this objective as competitive compensation.
- Create a compensation structure that in large part is based on the achievement of performance goals. We refer to this objective as performance incentives.
- Provide long-term incentives to align executive and stockholder interests. We refer to this objective as stakeholder incentives.
- Provide an incentive for long-term continued employment with us. We refer to this objective as retention incentives.

We have fashioned the components of our 2007 executive compensation program to meet these objectives as follows:

<i>Type of Compensation</i>	<i>Objectives Addressed</i>
Salary	Competitive Compensation
Annual Bonus	Performance Incentives Competitive Compensation
Long-Term Compensation Stock Option Grants	Stakeholder Incentives Performance Incentives Competitive Compensation Retention Incentives
Long-Term Compensation Cash Awards	Performance Incentives Stakeholder Incentives Competitive Compensation Retention Incentives

With respect to the 2008 program, our Compensation Committee decided to modify a component of our long-term compensation to award shares of restricted stock subject to time-based vesting to our named executive officers in lieu of the long-term compensation cash awards. We address the reasons for this determination below under Long-Term Incentive Compensation. However, our Compensation Committee may decide to issue cash award opportunities under our long-term compensation program in the future.

Role of Compensation Committee and Executive Officers

The Compensation Committee of our Board of Directors is responsible for the oversight of our executive compensation program. The Compensation Committee makes all decisions concerning compensation awarded to our executive officers, other than Jeffrey P. Black, our Chairman, Chief

Table of Contents

Executive Officer and President. Determinations concerning Mr. Black's compensation are made by our Board of Directors upon the recommendation of the Compensation Committee.

Mr. Black, with the assistance of our human resources department and our compensation consultant, Mercer (US) Inc., which we refer to below as Mercer, provides statistical data to the Compensation Committee to assist it in determining appropriate compensation levels for our executives. Mr. Black also provides the Compensation Committee with recommendations as to components of the compensation of our executives. Mr. Black does not make recommendations as to his own compensation. While the Compensation Committee utilizes this information, and values Mr. Black's observations with regard to other executive officers, the ultimate decisions regarding executive compensation are made by the Compensation Committee.

Determination of Compensation

Introduction

In 2007, we executed a number of acquisitions and divestitures designed to provide greater consistency of performance, improved profitability and sustainable growth. The most significant of these transactions was our acquisition of Arrow International, a leading global provider of catheter-based access and therapeutic products for critical and cardiac care, and the divestiture of our automotive and industrial businesses. Together, these transactions changed the nature of our businesses from a diversified industrial company to a company principally engaged in the medical technology business. As a result, in 2008, our Compensation Committee engaged in a review of our compensation program for executive officers and determined that certain adjustments to our compensation practices were appropriate to reflect these changes in our business. The following discussion summarizes the compensation determinations made with respect to compensation of our named executive officers in 2007 and the subsequent changes to our compensation practices approved for 2008.

2007 Compensation Determinations

In making our compensation determinations, we periodically reference reports provided by Mercer that include compensation data Mercer derives from several published compensation surveys. These surveys provide information regarding compensation paid by manufacturing companies to executives in functionally comparable positions to our executives. The survey data is size adjusted by Mercer using a regression analysis where available; otherwise, we limited the sample to companies having annual revenues ranging from approximately 0.5 to 2 times our annual revenues. In making our compensation decisions for 2007, we utilized a Mercer report that referenced data from a survey completed in 2005. Mercer provided samplings with respect to functionally comparable executives from 100 to 400 companies, depending on the comparable executive position. We refer to these companies as the general market companies. In light of the fact that we wish to emphasize a performance orientation in our compensation program, we position base salaries to be at a lower level relative to the general market companies than total direct compensation, which includes the target amounts of annual bonus and long-term incentive compensation in addition to base salary. In assessing our compensation against the market, we use survey data as a general reference point. Specifically, we generally seek to position executive salaries to fall within the competitive range of the median of the salaries paid to comparable executives by the general market companies, while positioning total direct compensation to fall within the competitive range of the 65th percentile of total direct compensation paid by the general market companies. We also seek to position total cash compensation, which includes salary and target amount of annual bonus, to fall within the competitive range of the 65th percentile of the market. While the market data is one reference in our pay determinations, we may set compensation below or above these levels as we deem appropriate. Factors that affected our determination in 2007 included the executive's role within the organization, tenure, individual performance and comparable data relating to a peer group of publicly traded

Table of Contents

manufacturing companies selected by our Compensation Committee, which we refer to as the peer group companies.

We used the peer group companies as a secondary point of evaluation to validate compensation decisions, and in certain instances we have adjusted compensation in response to peer group data. Moreover, as explained in more detail below, the cash incentive opportunities awarded to our executives in 2007 and prior years under our long-term incentive compensation program were based on our total shareholder return as compared to the total shareholder return of the peer group companies.

The peer group companies for 2007 consisted of the following:

AMETEK, Inc.,	Flowserve Corporation,	ITT Industries, Inc.,
Carlisle Companies Incorporated,	GenCorp Inc.,	Pentair, Inc.,
Crane Co.,	Goodrich Corporation,	Roper Industries, Inc. and
Dover Corporation,	IDEX Corporation,	The Timken Company.

These companies were initially selected by our Compensation Committee in 2003 and continued to be referenced through 2007 because they were diversified industrial companies of roughly comparable size to ours, which we believed were considered by analysts to be competitors for investor capital during that period.

In determining executive compensation in 2007, we considered, among other things, Mercer’s advice that compensation that is within 15 percent above or below the 65th percentile market reference point for total direct compensation and total cash compensation and the 50th percentile market reference point for salary is within the competitive range we are seeking.

Changes in Compensation Determinations for 2008

In 2008, our Compensation Committee conducted a review of the peer group companies using data provided by Mercer to determine whether any modifications to the group would be necessary or appropriate in light of the significant changes in our operations that occurred in 2007, as discussed above. Upon conclusion of this review, the Compensation Committee determined that the peer group companies should be adjusted to reflect an increased emphasis on the medical industry. The revised peer group companies selected by the Compensation Committee, which were used as a secondary reference to the general market companies in connection with decisions relating to executive compensation matters for 2008, consist of the following:

AMETEK, Inc.,	Edwards Lifesciences Corp.,	Roper Industries, Inc.,
C.R. Bard, Inc.,	Goodrich Corporation,	St. Jude Medical, Inc. and
Carlisle Companies Incorporated,	Hillenbrand Industries, Inc.,	Zimmer Holdings, Inc.
Dover Corporation,	Pentair, Inc.,	

2007 COMPENSATION

Salaries

Base salary ranges for our executives are determined based on each executive's position and responsibility. As noted above, we generally seek to position salaries for our named executive officers within a competitive range of the median of salaries for positions of comparable responsibility reported by the general market companies. Salary levels are typically considered annually as part of our performance review process. In addition, salary reviews may occur at other times due to events such as a promotion or other change in job responsibility.

Table of Contents

For 2007, salary increases for all named executive officers other than Mr. Gordon did not exceed five percent. Mr. Gordon's salary was increased in March 2007 by approximately 44 percent over his salary in 2006 in connection with his promotion to Executive Vice President and Chief Financial Officer. We determined this increase in salary to be appropriate for Mr. Gordon in light of the duties and responsibilities associated with this position and the fact that it was substantially consistent with the level of salary paid to Mr. Gordon's predecessor. The salaries paid to our named executive officers in 2007 were within the competitive range described above.

Annual Executive Incentive Compensation

Annual Incentive Award Components

We provide annual cash incentive opportunities to subject a meaningful amount of an executive's total cash compensation to the achievement of business performance objectives. In this regard, we assess our total cash compensation, which is the sum of an executive's salary and target amount of annual bonus, to fall within a competitive range of the 65th percentile of total cash compensation for comparable executives in the general market companies, in contrast to the median reference point used in connection with salaries. Nevertheless, the actual amounts of annual bonus paid out to our executives is based on achievement of applicable corporate, business segment or individual performance goals and can vary considerably from the target amount.

Under our annual incentive plan, 80 or 90 percent of the target award opportunity, depending on the executive, is based on corporate or business segment financial performance measures, while the remaining 10 or 20 percent of the target award opportunity is based on individual performance. We have weighted the annual incentive awards largely to the financial performance measures because we believe that emphasizing corporate or business unit financial performance encourages a unified commitment by our executives to performance that we believe more directly affects stockholder value.

2007 Award Components

In 2007, the criteria under our annual incentive program for our named executive officers who do not have responsibility for a specific business segment, namely Messrs. Black, Gordon, Sickler and Miller, were as follows:

40 percent was based on the amount of our earnings per share excluding restructuring and other special charges, which we refer to as EPS;

20 percent was based on cash flow, excluding the impact of certain acquisitions, divestitures and foreign currency fluctuations;

20 percent was based on revenue growth, excluding the impact of certain acquisitions, divestitures and foreign currency fluctuations; and

20 percent was based on the achievement of individual performance objectives.

We continue to use EPS as a performance measure because we believe that a fundamental objective of an executive officer is to significantly increase stockholder value, and for a large, well established industrial enterprise like ours, EPS is a key metric affecting share price and, thus, stockholder value. We excluded restructuring and other special charges from our EPS target because such charges are not contained within our earnings guidance and adjusted results reported to investors and are generally disregarded in assessing whether stockholder value has been generated. For 2007, we decided to add cash flow as a performance measure because we believe it is an important indicator of our ability to service our indebtedness, make capital expenditures and provide flexibility with regard to the pursuit of

other operating initiatives. We excluded the effect of acquisitions and divestitures because they reflect events that do not affect the day-to-day management of our business. For 2007, we also decided to add revenue growth without giving effect to acquisitions or divestitures because we wanted to emphasize sales growth with respect to our core operations. We excluded the impact of foreign currency fluctuations from both cash flow and revenue growth because

Table of Contents

they are factors that generally are outside of our control. We continued to include individual performance as a performance measure in order to provide these executives with an award opportunity based upon their overall performance during the preceding fiscal year, including their satisfaction of individual performance objectives that are established at the beginning of the preceding fiscal year.

For Messrs. Waaser and Northfield, who each have responsibility with respect to one of our business segments, the criteria under our 2007 annual incentive program were as follows:

60 percent was based on segment operating income before the allocation of corporate costs to the business segment and excluding the impact of foreign currency fluctuations, which we refer to as profit before financial items or PBFi;

20 percent of their target award was based upon asset velocity index, or AVI, which is the sum of reported accounts receivable and inventories net of accounts payable and deferred revenue for the business segment expressed as a percentage of annualized quarterly revenues at the balance sheet date (the average of the asset velocity index at the end of each quarter is used for purposes of determining achievement of the stated goal);

10 percent was based on the amount of our EPS; and

10 percent was based upon the achievement of individual performance objectives.

We believe that PBFi is a reliable overall measure of the performance of a business segment. Therefore, we believe that a significant portion of the financial performance-based component for an executive who is responsible for a business segment should be based on this measure. We excluded the impact of foreign currency fluctuations from this measure for the reason stated above. We use AVI as a performance measure because we believe that an important factor in our performance is the effective utilization of our cash resources and other working capital items. Executives with responsibility for individual business segments are most directly involved in managing these assets; therefore, we applied this performance measure to them. We included EPS as a performance measure in order to attribute a certain portion of their opportunity to the overall financial performance of our company. For 2007, we decided to add individual performance as a performance criteria for Messrs. Waaser and Northfield because we believed it was important to emphasize certain individual performance objectives established for these executives at the beginning of the preceding fiscal year.

For 2007, an executive's award payout related to EPS could range from 50 percent of the target award, if threshold levels of performance equivalent to approximately 93 percent of the EPS target were achieved, to 200 percent of the target award, if the maximum performance level equivalent to approximately 105 percent of the EPS target was achieved or exceeded. Award payouts related to other financial performance-based measures, other than cash flow and AVI, could similarly range from 50 percent to 200 percent of the target award, if achievement were below or exceeded threshold levels, respectively. With respect to the cash flow and AVI measures, an executive's opportunity ranged from 100 percent of the target award if the target levels were achieved to 200 percent if certain maximum performance targets were achieved or exceeded. In addition, depending on the extent to which the executive satisfies the objectives, he may receive no payment or a payment of up to 200 percent of the individual performance component of the target award opportunity.

For 2007, the individual performance objectives established for Mr. Black included achievement of our financial and growth targets, execution on certain elements of our strategic plan, continued development of management across the company, continued development and improvement with respect to the processes involving strategic planning and implementation and continuing to provide support for our Board of Directors. The individual performance objectives established for each of our other named executive officers included various matters related to their specific functions, including matters relating to the development and implementation of our overall strategy.

The actual award payments are reflected in the *Bonus* column of the Summary Compensation Table. As a result of his retirement prior to the end of our fiscal year, Mr. Sickler was not eligible to receive an award under the 2007 annual incentive program.

Senior Executive Recognition Bonus Awards

In February 2008, our Board of Directors, upon the recommendation of our Compensation Committee, approved one-time recognition bonus awards for each of our named executive officers. The amount of the bonus award approved for each named executive officer is set forth below.

<i>Name</i>	<i>2007 Recognition Bonus Award</i>
Jeffrey P. Black	\$ 325,000
Kevin K. Gordon	\$ 195,232
John J. Sickler	\$ 150,000
Laurence G. Miller	\$ 184,608
Ernest Waaser	\$ 171,000
Vince Northfield	\$ 167,325

The awards were approved by the Board in recognition of the executives' contributions in our achievement of certain key initiatives in 2007. Chief among these initiatives was the completion of a number of significant strategic acquisitions and divestitures, which included the acquisition of Arrow International and the divestiture of our automotive and industrial businesses. These transactions were instrumental in enabling us to focus our operations on businesses with improved product margins and reduced cyclicity. In addition, we believe these transactions helped to position us for future growth and continued expansion in new products and markets. The awards also reflected the executives' role in successfully securing financing for the Arrow acquisition at aggregate borrowing costs that were in line with our original expectations in the midst of a volatile financing market, and in the implementation of a third party enterprise resource management system across our medical operations in North America.

In addition, in October of 2007, our Compensation Committee approved a cash bonus award of \$250,000 to Mr. Sickler in recognition of his achievement of several objectives specified in a bonus program established for Mr. Sickler in 2006 in connection with his appointment as Interim President of the Company's Medical Segment. These objectives included the successful development of the 2007 operating and strategic plans for the Medical Segment and the successful transition of the leadership of the Medical Segment to its new management team.

The bonus award payments described above are reflected in the *Bonus* column of the Summary Compensation Table.

Long-Term Incentive Compensation

Our long-term incentive compensation program is designed to promote achievement of corporate goals, encourage the growth of stockholder value and enable participation in our long-term growth and profitability. We seek to fashion long-term incentive compensation so that it falls within a competitive range of the 65th percentile of the general industry companies. The long-term incentive compensation opportunity established for each of our named executive officers was designed to be equivalent to 140 percent to 300 percent of a named executive officer's salary because those percentages fell within the competitive range of the 65th percentile of the market, and also reflected each individual's role within the organization, contributions of each position to the organization's objectives, individual performance and other factors. We refer to this percentage of salary as the

Table of Contents

long-term incentive percentage. The 2007 long-term incentive percentage for each named executive officer and the dollar amount of the executive's long-term compensation opportunity is as follows:

<i>Name</i>	<i>Long-Term Incentive Percentage</i>	<i>Total Long-Term Compensation Opportunity</i>
Jeffrey P. Black	300%	\$2,626,500
Kevin K. Gordon	175%	\$700,000
Laurence G. Miller	130%	\$449,904
Ernest Waaser	140%	\$588,000
Vince Northfield	140%	\$485,100

Mr. Sickler did not participate in our 2007 long-term incentive program because we believe that the compensation arrangement set forth in Mr. Sickler's employment agreement, taken together with prior equity awards granted to Mr. Sickler, provided him with an appropriate level of compensation.

Our long-term incentive compensation for 2007 included stock options issued under our 2000 Stock Compensation Plan and cash incentive opportunities awarded under our Executive Incentive Plan. We applied 65 percent of the long-term compensation opportunity to stock options, and the remaining 35 percent to a cash incentive opportunity that is payable based upon the extent to which our total shareholder return during a three year performance period beginning in 2007 exceeds the total shareholder return achieved by the peer group companies. We designed these components and the weighting of our long-term compensation to align the interests of our named executive officers to our stockholders, by providing an incentive to our executives for the favorable performance of our common stock both in absolute terms, in the case of stock options, and in terms of its relative performance as against peer group common stock, in the case of cash awards based on comparative total shareholder return.

In 2007, we allocated 65 percent of the long-term award to stock options because we believed that absolute return should be the principal determinant of the economic return received by our executives from long-term compensation. We did not allocate the entire award to stock options because we believed that if we underperform in relation to the peer group companies, our executives should not realize the total long-term compensation opportunity. Conversely, we provided a cash award component based on total shareholder return because we believed that if our common stock outperforms the common stock of our peers, some economic benefit is appropriate, even if absolute returns do not result in the stock options accruing meaningful value. In addition, we believed this comparative approach to a portion of our long-term compensation supports retention of our executives, as they may be subject to recruiting activity by companies that have not performed as well.

However, in light of the significant changes in our business that occurred in 2007, we have concluded that using total shareholder return relative to the peer group as the basis of a portion of our long-term incentive program is not effective, particularly because the peer group utilized in 2007 and prior years does not reflect the current nature of our business. Moreover, uncertain economic conditions and the need for stability in the management of our business suggest that stronger incentives for long-term executive commitment to our business and to increasing shareholder value are necessary. Therefore, in February 2008, our Board of Directors, upon the recommendation of our Compensation Committee, approved a change in our long-term compensation program for 2008 to allocate 35 percent of the long-term award opportunity to shares of restricted stock rather than a cash award component. In taking this action, our Board determined that it was appropriate to provide an award that has an intrinsic value when granted. The shares of restricted stock granted pursuant to this award vest in their entirety on the third anniversary of the grant date if the executive remains continuously employed by us during the vesting period. We will continue to evaluate and consider the type of awards granted under our long-term incentive program and may, in the future, decide that cash or

other types of awards provide appropriate incentives to promote our then current goals and objectives.

Stock Option Awards

In accordance with the rationale described above, we granted stock options to our named executive officers in 2007 based upon 65 percent of the total long-term incentive compensation opportunity. Using a Black Scholes methodology, we valued the stock options at \$21.05 per underlying share. In calculating this value, we assumed that options are held for their full ten-year term.

As a result of these computations, the named executive officers received stock options for the respective numbers of underlying shares set forth below in the Grants of Plan-Based Awards table under the column heading, All Other Option Awards: Number of Securities Underlying Options. The dollar amount for option awards shown in the Summary Compensation Table generally reflects the dollar amount recognized for financial statement purposes in accordance with Statement of Financial Account Standards 123R. Therefore, it includes amounts with respect to only a portion of the options granted in 2007, while also including amounts from earlier option grants. See note 2 to the Summary Compensation Table for further information.

Stock options awarded under the long-term incentive compensation program are granted in the first quarter of each year and have an exercise price equal to the average of the high and low sales prices of our common stock on the date of grant rounded to the nearest \$0.25 increment. Our options generally vest in equal annual increments on the first three anniversaries of the date of grant. We believe that these vesting terms, together with the new restricted stock component of our long-term incentive program, provide our executives with meaningful incentive for continued employment. For additional information regarding stock option terms, see the footnotes accompanying the Grants of Plan-Based Awards table.

Cash Incentive Awards

The remaining 35 percent of the long-term compensation opportunity for 2007 represents the target award based on total shareholder return as compared to the peer group companies. Total shareholder return is the appreciation in value of a share of stock of a company from the first trading day to the last trading day of the specified performance period, assuming reinvestment of dividends. Payment is based on a sliding scale so that the amount of the payment generally increases to the extent that our total shareholder return exceeds the total shareholder return of the peer group companies. Specifically, if our total shareholder return exceeds the return of five of the peer group companies, the threshold payment equal to 72 percent of the target award will be paid. If our total shareholder return exceeds one-half of the peer group companies, 100 percent of the target amount will be paid. The maximum payout, equal to 200 percent of the target amount, will be paid if our total shareholder return exceeds that of at least ten of the peer group companies. These award levels are subject to adjustment in the event that merger or acquisition activity changes the number of peer group companies. The amount that actually will be paid out with regard to cash incentive opportunities awarded in 2007 will be determined following 2009.

We have used the long-term compensation methodology described above for the past few years, and the three year performance period for the 2005 cash incentive opportunity was completed in 2007. For that period, our total shareholder return did not meet the minimum threshold for payment.

Special Equity Award for Kevin K. Gordon

In 2007, our Compensation Committee granted Mr. Gordon a special equity award of stock options to purchase 30,000 shares of our common stock, which will vest in three equal annual installments, and 5,000 shares of restricted stock, which will vest in two equal annual installments on the first and second anniversaries of the grant date. The Compensation Committee approved these grants in connection with Mr. Gordon's appointment as Executive Vice President and Chief Financial Officer. The equity award is addressed in the All Other Stock Awards: Number of

Shares of Stock or Units and All Other Option Awards: Number of Securities Underlying Options columns of the Grants of Plan Based Awards Table and in the accompanying footnotes.

Personal Benefits

We provide our named executive officers with personal benefits that we believe are appropriate as part of a competitive compensation package that better enables us to attract and retain highly skilled executives. We periodically review the levels of perquisites and other personal benefits provided to our named executive officers. The personal benefits currently provided to our named executive officers include personal use of our corporate aircraft by Mr. Black, a company car, life insurance coverage and club membership fees for certain of our named executive officers. Additional information regarding these benefits is provided in the Summary Compensation Table and the accompanying footnotes.

ONGOING AND POST-EMPLOYMENT ARRANGEMENTS

We have several plans and agreements addressing compensation for our named executive officers that accrue value as the executive continues to work for us, provide special benefits upon certain types of termination events and provide retirement benefits. These plans and agreements were designed to be a part of a competitive compensation package that would encourage our executives to remain employed by us. Not all plans apply to each named executive officer, and the participants are indicated in the discussion below.

Change in Control Arrangements

We have change in control arrangements with each of our named executive officers other than Mr. Sickler. The terms of Mr. Black's change in control arrangement are set forth in Mr. Black's employment agreement, and the terms of our change in control arrangements with each of our other named executive officers is set forth in a change of control agreement that we have entered into with each of the executives. Our agreement with each executive provides for payments and other benefits to the executive if we terminate the executive's employment for any reason other than disability or cause or if the executive terminates employment for good reason within two years following a change in control. The change in control provisions in Mr. Black's employment agreement differ from the change in control provisions for the other named executive officers with respect to the amount of the payments upon the relevant termination following the change in control. For a more detailed discussion of these arrangements, see Potential Payments Upon Termination or Change in Control, below. If an executive becomes liable for payment of any excise tax under Section 4999 of the Internal Revenue Code with respect to any payment received in connection with a change in control, we will make an additional payment to the executive. This payment is designed so that, after payment of all excise taxes and any other taxes payable in respect of the additional payment, the executive will retain the same amount as if no excise tax had been imposed. See Tax Considerations below for further information regarding the additional payment. We entered into these change in control arrangements so that our executives can focus their attention and energies on our business during periods of uncertainty that may occur due to a potential change in control. In addition, we want our executives to support a corporate transaction involving a change in control that is in the best interests of our stockholders, even though the transaction may have an effect on the executive's continued employment with us. We believe these arrangements provide a key incentive for our executives to remain with us.

Executive Severance Arrangements

In addition to the change in control provisions described above, we have also agreed to provide payments and other benefits to our named executive officers, other than Mr. Sickler, if, outside of the context of a change in control, we terminate their employment without cause or they terminate employment for good reason. See Potential Payments Upon Termination or Change in Control for additional information.

Teleflex Incorporated Retirement Income Plan

The Teleflex Incorporated Retirement Income Plan, or TRIP, is a tax qualified defined benefit plan that provides benefits to all salaried employees following retirement based upon a formula relating to years of service and annual compensation. The plan was closed to new participants on January 1, 2006. All of our named executive officers, other than Mr. Waaser, who became an employee after January 1, 2006, participate in this plan. See the Pension Benefits table and accompanying narrative, and Potential Payments Upon Termination or Change-in-Control for additional information.

Supplemental Executive Retirement Plan

We maintain a Supplemental Executive Retirement Plan, or SERP, which is a non-qualified defined benefit plan that provides benefits for executives to the extent that their compensation cannot be taken into account under the TRIP because the compensation exceeds limits imposed under the Internal Revenue Code. We refer to the compensation that exceeds these limits as excess compensation. For 2007, compensation in excess of \$225,000 constitutes excess compensation. Under the SERP, a participant accumulates units of annual pension benefit equal to 2.0% of his or her eligible excess compensation for the first 35 years of service, and 1.833% of such compensation for each additional year of service. All of the named executive officers, other than Mr. Waaser, participate in the SERP. Mr. Waaser does not participate in the plan since he is not eligible to participate in the TRIP due to the fact that his employment commenced after the date on which the TRIP was closed to new participants. See the Pension Benefits table and accompanying narrative, and Potential Payments Upon Termination or Change in Control for additional information.

Deferred Compensation Plan

We maintain a Deferred Compensation Plan, which is a non-qualified plan under which executives may defer certain amounts of their annual and long-term incentive compensation. Salary deferral elections are made annually by eligible executives in respect of salary amounts to be earned in the following year. Participants may direct the investment of deferred amount into a fixed interest fund or one or more notional funds. All of the named executive officers are eligible to participate in the Deferred Compensation Plan. See the Non-qualified Deferred Compensation 2007 table for additional information.

John J. Sickler Employment Agreement

In October 2007, Mr. Sickler retired as Vice Chairman. Under our March 7, 2005 employment agreement with Mr. Sickler, during the three years immediately following his retirement, he will make himself available to us as an independent consultant and will be paid a monthly retainer fee at the rate of his base salary in effect immediately before his retirement, which was \$440,001 per year. In addition, we are required to pay Mr. Sickler compensation for each day he provides consulting services to us at a rate mutually agreed in writing. In the event of Mr. Sickler's death during the three year post-employment consultancy period, he will be entitled to a lump sum payment equal to any unpaid retainer fees to be paid to Mr. Sickler for that period. Moreover, if he becomes disabled during the consultancy period, he will continue to receive the retainer fees and will not be required to provide service beyond those he reasonably is capable of providing. In addition, during the four years immediately following his retirement he is entitled to health insurance at our expense and is subject to a non-competition covenant. See Potential Payments Upon Termination or Change in Control for additional information.

TAX CONSIDERATIONS

Section 162(m) of the Internal Revenue Code limits to \$1 million the deductibility for federal income tax purposes of annual compensation paid by a publicly held company to its chief executive

Table of Contents

officer and other executives named in the summary compensation table, unless certain conditions are met. To the extent feasible, we structure executive compensation to preserve deductibility for federal income tax purposes. In this regard, our stock compensation plans are designed to preserve, to the extent otherwise available, the deductibility of income realized upon the exercise of stock options. Moreover, our Executive Incentive Plan is designed to facilitate the deductibility of the non-discretionary portion of annual bonus awards and the cash portion of long-term incentive awards that meet the conditions for qualified performance-based compensation under Section 162(m). Nevertheless, we retain the discretion to authorize compensation that may not be deductible. The compensation paid to Mr. Black in 2007 exceeded the deductible limit by approximately \$426,858. In addition, it is possible that some portion of compensation paid to our executives in future years will be non-deductible, particularly if a change-in-control occurs or, in the case of Mr. Black, upon vesting of the restricted stock award granted to him in 2006.

As noted above, under our change in control arrangements, we will make an additional payment to our executives if payments to them resulting from a change in control are subject to the excise tax imposed by Section 4999 of the Internal Revenue Code. It is possible that a change in control could result in our making additional payments to our executives, particularly Mr. Black, who is entitled to receive a larger payment than other executives following a change in control if the conditions for payment are satisfied. Nevertheless, we believe that our payments relating to the excise tax are appropriate to preserve the incentive for executives to maintain their employment with us.

STOCK OWNERSHIP GUIDELINES

In February 2008, our Board established stock ownership guidelines for our named executive officers and other executives to further align the interests of management with those of our stockholders and to further encourage long-term performance and growth. The ownership guidelines are expressed in terms of the value of the common stock, restricted stock and stock options, including shares in our 401(k) plan, held by the executive as a multiple of that executive's base salary, which are as follows:

<i>Position</i>	<i>Required Ownership Level (as a multiple of base salary)</i>
Chief Executive Officer	5 x base salary
Other Executive Officers	2 x base salary

Executives who are subject to the ownership guidelines have five years to meet the required ownership level.

PENSION BENEFITS 2007

We sponsor the Teleflex Incorporated Retirement Income Plan (TRIP), a qualified defined benefit pension plan, as well as the Supplemental Executive Retirement Plan (SERP), a non-qualified defined benefit pension plan providing benefits that would otherwise be denied to participants by reason of Internal Revenue Code limitations on compensation that can be taken into account in qualified plans.

A participant accumulates units of annual pension benefit for each year of service. For each of the first thirty-five years of service, a participant's unit is equal to 1.375% of his or her prior year's annual plan compensation not in excess of social security covered compensation, plus 2.0% of such compensation in excess of the social security covered compensation. For each year of service in excess of thirty-five, a participant's unit is equal to 1.833% of his or her prior year's annual plan compensation. The annual earnings taken into account under this formula include base salary and bonus payments. The amount of compensation that can be taken into account in the TRIP is subject to limits imposed by the Internal Revenue Code, and the maximum annual benefits payable under the plan are also subject to Internal Revenue Code limits. The SERP takes into account only base pay in excess of the Internal Revenue Code limit.

Participants in the TRIP generally vest in their plan benefits after they complete five years of qualifying service or, if earlier, upon reaching normal retirement age, which, for purposes of the TRIP, is age 65. In addition to the normal retirement benefit, the TRIP provides reduced benefits upon early retirement, which may occur after a participant has reached age 60 and has completed 10 years of qualifying service. The TRIP also provides limited benefits upon termination due to disability. Eligibility for payment of SERP benefits is dependent on eligibility under the TRIP, and reductions for early payment are calculated in the same way as they would be under the TRIP. However, SERP benefits become fully vested upon a change of control of Teleflex. A participant is generally required to take distributions from the TRIP and the SERP at the same time and in the same payment method, although the timing and form of payment under the SERP may be affected by Section 409A of the Internal Revenue Code, which limits the participant's right to make changes to the timing and form of payment of nonqualified retirement benefits. Payment options include various annuities.

Effective January 1, 2006, the TRIP and SERP were closed to new employees.

All of our named executive officers, other than Mr. Waaser, participate in the TRIP and the SERP. Mr. Waaser does not participate in the plans due to the fact that his employment commenced after the date on which the TRIP was closed to new participants. The table below shows, as of December 31, 2007, the number of years of service credited under the TRIP and the SERP to each named executive officer that participates in those plans and the present value of accumulated benefits payable to each such named executive officer under such plans.

(1) The accumulated benefit is based on service and earnings for the period through December 31, 2007. The present value has been calculated assuming the named executives officers will remain in service until age 65, the age at which retirement may occur without any reduction in benefits, and that the benefit is payable under the available forms of annuity consistent with the assumptions described in note 13 to the audited financial statements appearing in our Form 10-K for the fiscal year ended December 31, 2007, as filed with the SEC. As described in such note, the interest assumption is 5.85%. The mortality assumption is the 1994 Group Annuity Reserve Mortality. Messrs. Black and Sickler are vested in the Teleflex Incorporated Supplemental Executive Retirement Plan as of December 31, 2007.

Table of Contents**NONQUALIFIED DEFERRED COMPENSATION 2007**

We maintain a Deferred Compensation Plan under which executives, including named executive officers, may defer up to 50% of their salary, 75% of their annual incentive award and 75% of their long-term cash incentive award. Salary deferral elections are made by eligible executives in December of each year in respect of salary amounts to be earned in the following year. With respect to deferral elections for annual incentive and long term cash incentive awards, the election must be made no later than six months prior to the end of the performance period applicable to such award.

Participants in our Deferred Compensation Plan may direct the investment of deferred amount into a fixed interest fund or one or more notional funds, and the value of the participants' investments will increase or decrease based on the performance of the underlying securities.

The following table shows the funds available under the Deferred Compensation Plan and their annual rate of return for the calendar year ended December 31, 2007. Account balances in the Teleflex Stock Fund must remain in that fund and cannot be transferred to any other investment option. Additionally, distributions of balances invested in the Teleflex stock fund are made in the form of shares of Teleflex stock; distributions from other funds are payable in cash.

<i>Name of Fund</i>	<i>Rate of Return</i>
Fixed Income Returns	6.0%
Vanguard 500 Index	5.39%
Vanguard Mid-Cap Index	6.02%
Vanguard Small-Cap Index	1.16%
Teleflex Stock Fund	-0.63%

Distributions under the Deferred Compensation Plan may be paid either in the year immediately following the executive's retirement or termination of employment or on such other date during the term of the participant's employment as the participant may elect. Participants may elect to receive payments under the Deferred Compensation Plan either in a lump-sum or in annual installments over five or ten years.

In addition to the Deferred Compensation Plan, we maintain additional deferred compensation accounts for certain of our current and former executives under two deferred compensation programs that were previously offered to those executives. Amounts deferred by participants under these programs earn interest at a rate equal to the Moody's long-term corporate bond-yield average, which we refer to as the Moody's rate, plus a certain percentage. Amounts deferred under the initial program, offered between 1985 and 1988, earn interest at a rate equal to the Moody's rate plus 3%. Amounts deferred under the second of these programs, offered between 1991 and 1994, earn interest at a rate equal to the Moody's rate plus 1.5%. Distributions under the Moody's plans commence once a participant reaches the age of 65. Mr. Sickler is the only current named executive officer that participated in the Moody's plans and, consequently, is the only named executive officer for whom accounts under the Moody's plans are currently maintained.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE OF CONTROL

In this section, we describe payments and benefits that would be provided to our named executive officers upon several events of termination, including termination in connection with a change of control, assuming the termination event occurred on December 31, 2007 (except as otherwise noted). The information in this section does not include information relating to the following:

distributions under our deferred compensation plans. See Nonqualified Deferred Compensation 2007 for information regarding these plans;

distributions under the TRIP and SERP. See Pension Benefits 2007 for information regarding these plans;

restricted shares and shares underlying options that vested prior to the termination event. See the Outstanding Equity Awards at Fiscal Year-End 2007 table;

short term incentive payments that would not be increased due to the termination event;

benefits that would be provided upon death or disability under supplemental life and/or disability insurance policies that we maintain for the benefit of our named executive officers; and

other payments and benefits provided on a nondiscriminatory basis to salaried employees generally upon termination of employment, including under our 401(k) plan.

Employment and Severance Arrangements

Under the terms of our employment agreement with Mr. Black, if we terminate Mr. Black's employment without cause or if Mr. Black terminates his employment for good reason (as defined in the agreement) prior to the time Mr. Black reaches age 62, other than in connection with a change of control (as defined in the agreement), he is entitled to receive the following payments and benefits:

continued payment of his base salary for a period of 36 months after the date of termination;
payment of an annual bonus in each of the first three years immediately following the date of termination equal to the target annual bonus payment fixed for Mr. Black prior to the date of termination;
a prorated portion of any long-term incentive award earned by Mr. Black with respect to a performance period that is scheduled to end on the last day of the year in which Mr. Black's employment is terminated;
reimbursement for a period of 36 months after the date of termination for costs incurred by Mr. Black to maintain health insurance coverage at a level comparable to the coverage he last elected for himself, his spouse and dependents under our health care plan, exclusive of costs that would have been borne by Mr. Black in accordance with our applicable policy then in effect for employee participation in premiums; and
for up to 36 months after the termination date, we will maintain, and reimburse Mr. Black for any premiums he is required to pay in order to maintain, life and accident insurance for his benefit at levels comparable to those last elected by Mr. Black under our life and accident insurance plan, exclusive of costs that would have been borne by Mr. Black in accordance with our applicable policy then in effect for employee participation in premiums.

Any stock options held by Mr. Black that are not exercisable as of the date of his termination of employment will expire on the termination date, and any exercisable stock options held by Mr. Black may be exercised for a period of three months after the date of termination.

Mr. Black's agreement also provides for certain compensation to be paid to Mr. Black in the event of a change of control, as more fully described in the discussion of change of control agreements below.

Table of Contents

Mr. Black's agreement has a term of three years. However, notwithstanding any termination of the agreement by us, the agreement will remain in effect for a period of at least two years following a change of control that occurs during the term of the agreement.

In October 2007, Mr. Sickler retired as Vice Chairman of the Company. Under our March 7, 2005 employment agreement with Mr. Sickler, during the three years immediately following his retirement, he will make himself available to us as an independent consultant and will be paid a monthly retainer fee at the rate of his base salary in effect immediately before his retirement, which was \$440,001 per year. In addition, we are required to pay Mr. Sickler compensation for each day he provides consulting services to us at a rate mutually agreed in writing. Mr. Sickler's agreement provides that he will receive his vested and other benefits to which he is entitled under our benefit plans upon retirement. In addition, during the four years immediately following his retirement, Mr. Sickler is entitled to health insurance at our expense. He is subject to a non-competition covenant during this four-year period.

In March 2007, we entered into agreements with certain of our executive officers, including Messrs. Gordon, Waaser, Miller and Northfield, that provide for specified severance compensation and benefits in the event we terminate their employment without cause or if the executive terminates employment for good reason, other than in connection with a change of control. The severance compensation consists of continued payment of the executive's base salary for a period of 18 months and, in some circumstances, the payment of a pro rated amount of the annual incentive award the executive would have been entitled to for the year in which his employment was terminated. In addition, the executive is entitled to receive continued health, life and accident insurance, exclusive of costs that would have been borne by the executive in accordance with our applicable policy then in effect, until the executive is eligible for such benefits in connection with future employment or until 18 months after termination, whichever occurs first. The executive is also entitled to a vehicle allowance for a period of 18 months after termination and reimbursement of expenses for outplacement services. The 18 month period referred to above is subject to increase by one month for each year of full-time employment by the executive from and after January 1, 2007, up to an additional six months.

The following table sets forth the potential post-termination payments and benefits the named executive officers would be entitled to receive under the agreements described above assuming the triggering event under the agreements occurred on December 31, 2007.

<i>Name</i>	<i>Base Salary/ Consulting Fees (1)</i>	<i>Annual Long-Term Cash Cash</i>		<i>Life and Accident Insurance (5)</i>	<i>Auto- mobile (6)</i>	<i>Executive Outplacement (7)</i>	<i>Total</i>

J. Sickler	\$1,320,000			\$88,422			\$1,408,422
V. Northfield	\$548,625	\$100,025		\$18,422	\$1,995	\$49,362	\$738,429

- (1) The amounts set forth in this column with respect to Messrs. Black, Gordon, Waaser, Miller and Northfield reflect the severance pay they would be entitled to receive based upon salaries in effect as of December 31, 2007. The amount set forth with respect to Mr. Sickler is equal to the minimum amount he is entitled to receive during

the consulting period under his employment agreement based upon his salary in effect as of October 2007, the date of his retirement. Mr. Sickler is also entitled to receive fees for each day he provides consulting services at a rate to be mutually agreed upon.

- (2) The amount set forth in this column for Mr. Black has been calculated using his target award opportunity of \$875,500 under the 2007 annual cash incentive award program. The amounts set forth in this column for Messrs. Gordon, Waaser, Miller and Northfield reflect the annual cash incentive award that they received in 2007, as reflected in the Summary Compensation Table.

Table of Contents

- (3) Since the minimum payment threshold under the long term cash incentive award program for 2005-2007 was not met, Mr. Black would not have been entitled to any long term cash incentive award payments under the terms of his agreement, assuming the effective date of termination occurred on December 31, 2007.
- (4) The amounts set forth in this column have been calculated based upon the health coverage rates in effect as of December 31, 2007.
- (5) The amounts set forth in this column have been calculated based upon the life and accident insurance rates in effect as of December 31, 2007, and, with regards to Messrs. Gordon, Waaser, Miller and Northfield, assumes that the insurance will be provided for a period of 19 months.
- (6) The amounts set forth in this column have been calculated based upon the lease and vehicle insurance rates in effect as of December 31, 2007 for the vehicles used by Messrs. Gordon, Waaser, Miller and Northfield, and assumes that the vehicle allowance will be provided for 19 months.
- (7) The amounts set forth in this column represent the maximum payment we would be required to make to the named executive officer for outplacement services under the agreement.

Change-of-Control Arrangements

Under the terms of Mr. Black's employment agreement and the change in control agreements we entered into with certain of our executive officers, including Messrs. Gordon, Waaser, Miller and Northfield, in the event that a Change in Control (as defined in the agreements) occurs during the term of the agreement, and the executive's employment is terminated within two years after the Change in Control either by the executive for good reason (as defined in the agreement) or by us for any reason other than disability or cause (each as defined in the agreements), then the executive will be entitled to receive the following severance compensation:

- if no amount otherwise is payable with respect to any short-term or long-term bonus plan, the executive will receive a bonus payment equal to the target award;
- the executive's target bonus under each short-term or long-term bonus plan with respect to a performance period that is in its final year at the time of the executive's termination for the fiscal year in which the executive's employment was terminated, pro rated based on the number of days the executive was employed during the applicable performance period under such bonus plans;
- payment of the executive's base salary (based on the highest salary rate in effect for the executive after the Change in Control) for a period of three years after termination of employment with respect to Mr. Black and for a period of two years after termination of employment with respect to each of the other executives (the Severance Period);
- annual payments during the Severance Period, each equal to the sum of the target awards under any short-term or long-term bonus plan with respect to a performance period that is in its final year at the time of the executive's termination;
- immediate vesting of all unvested stock options and shares of restricted stock held by the executive;
- continuation of health insurance during the Severance Period or, at the Company's election, periodic payments of cash in an amount equivalent to the executive's after-tax cost of purchasing comparable health insurance;
- if the executive was provided with the use of an automobile or cash allowance for an automobile, continuation during the Severance Period of the availability of an automobile or a cash allowance;
- a cash payment equivalent to the actuarial present value of three additional years service credit in the case of Mr. Black, and two additional years service credit in the case of the other executives under the Teleflex

Retirement Income Plan and the Supplemental Employee's Retirement Plan; and reimbursement for executive outplacement services in an amount up to \$20,000.

The agreements also provide for payments to reimburse the executive for any excise taxes imposed under Section 4999 of the Internal Revenue Code that may be incurred by the executive if it is determined that any payment or distribution under the agreement would constitute an excess

parachute payment within the meaning of Sections 280G and 4999 of the Internal Revenue Code, as well as for additional taxes resulting from the reimbursement.

The term of Mr. Black's employment agreement is discussed above under Employment and Severance Arrangements. The executive change in control agreements have an initial term of three years, and automatically renew for successive one year periods unless we terminate the agreements. However, notwithstanding any termination by us, the executive change in control agreements will remain in effect for a period of at least two years following a Change in Control that occurs during the term of the agreement.

The following table describes the potential payments and benefits the named executive officers would have been entitled to receive under the agreements described above assuming the triggering event under the agreements occurred on December 31, 2007.

- (1) The amounts set forth in this column represent the sum of the actual cash incentive award payment the named executive officers would be entitled to receive for the fiscal year ended December 31, 2007 and the aggregate target awards payable during the three-year period following the change of control for Mr. Black and the two-year period following the change of control for each of the other named executive officers.
- (2) The amounts set forth in this column represent the value the named executive officers would realize upon the vesting of the unvested stock options and restricted stock held by the named executive officer as of December 31, 2007. The value of the unvested stock options was calculated based upon the difference between the aggregate market value of the shares of common stock underlying the unvested stock options and the aggregate exercise price of those stock options. The value of the unvested shares of restricted stock held by each named executive officer was calculated based upon the aggregate market value of such shares. We used a price of \$63.01 per share to determine market value in both of these calculations, which was the closing price of our common stock on December 31, 2007, as reported by the New York Stock Exchange.
- (3) The amounts set forth in this column have been calculated based upon the health coverage rates for each named executive officer in effect as of December 31, 2007.
- (4)

The amounts set forth in this column represent the benefit to be paid to the named executive officers in respect of additional years of benefit service under our TRIP and SERP plans equal to three years for Mr. Black and two years for each of the other named executive officers.

- (5) The amounts set forth in this column represent the maximum payment we would be required to make to the named executive officer for outplacement services under the agreement.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended (the Exchange Act), requires our directors, executive officers and persons who own more than ten percent of our common stock to file reports of ownership and changes in ownership of our common stock.

Based solely on a review of the copies of such reports furnished to us, or written representations from the reporting persons that no other reports were required, we believe that, during the fiscal year ended December 31, 2007, all required filings under Section 16(a) were made on a timely basis.

**PROPOSAL 2:
APPROVAL OF 2008 STOCK INCENTIVE PLAN**

On February 26, 2008, our Board, upon the recommendation of our Compensation Committee, approved the Teleflex Incorporated 2008 Stock Incentive Plan (the 2008 Plan), subject to stockholder approval.

Background

We currently award stock options and restricted stock awards under the Teleflex Incorporated 2000 Stock Compensation Plan, which we refer to as the 2000 Plan. We also have awards outstanding under the Teleflex Incorporated 1990 Stock Compensation Plan, which we refer to as the 1990 Plan. As of March 10, 2008, the total shares underlying outstanding awards under the 2000 and 1990 Plans were as follows:

2,038,703 shares issuable upon exercise of outstanding stock options; and

238,240 shares issuable upon vesting of outstanding restricted stock awards.

As of March 10, 2008, we had 239,000 shares available for future awards under the 2000 Plan and no shares available for future grants under the 1990 Plan. All of the remaining shares available for future awards under the 2000 Plan may be issued as restricted stock awards. Based on the current average annual rate at which we have issued stock options and restricted stock awards to participants under our 2000 Plan, we estimate that the shares available for future awards under the 2000 Plan will be insufficient to support future awards beginning with grants anticipated for 2009.

We also are seeking stockholder approval of the 2008 Plan so that compensation attributable to grants under the 2008 Plan may qualify for an exemption from the \$1 million deduction limit under section 162(m) of the Internal Revenue Code of 1986, as amended (the Code). See Overview of the 2008 Plan Performance Based Compensation Awards.

Overview of the 2008 Plan

The purpose of the 2008 Plan is to enhance shareholder value by linking the compensation of our officers, non-management directors and key employees to increases in the price of our common stock and the achievement of other performance objectives, and to encourage ownership in our common stock by key personnel whose long-term employment is considered essential to our continued progress and success. The 2008 Plan is also intended to assist us in recruiting new directors and employees and to motivate, retain and encourage such directors and employees to act in the shareholders' interest and share in our success.

The 2008 Plan permits more types of awards and permits awards with more flexible terms than the 2000 Plan, which will provide us with greater flexibility in structure award programs. The 2008 Plan will not impact the 2000 Plan.

The following summary of the material terms of the 2008 Plan is qualified in its entirety by reference to the full text of the 2008 Plan, a copy of which is attached as Appendix A to this proxy statement.

Significant Features of the 2008 Plan

The 2008 Plan is an omnibus plan that provides for several different kinds of awards. Significant features of the 2008 Plan include the following:

A maximum of 2,500,000 shares are proposed to be available for equity and equity-based award grants. The 2008 Plan does not have an evergreen feature. Accordingly, any increase in the number of authorized shares would require stockholder approval.

Table of Contents

Of the maximum shares available under the 2008 Plan, only 875,000 shares may be granted as full value awards, which generally means awards other than stock options and stock appreciation rights, or SARs.

The 2008 Plan limits the number of shares that may be granted as incentive stock options to 1,875,000.

The maximum number of shares underlying awards granted to an individual in a fiscal year may not exceed 400,000.

Re-pricing of stock options and SARs is prohibited without stockholder approval.

All awards granted to employees under the 2008 Plan are subject to a one-year minimum vesting requirement, subject to limited exceptions.

Shares delivered (or withheld upon settlement) in payment of the award purchase price or tax withholding obligations and shares reserved for issuance upon a grant of SARs that are exercised and settled in shares will not be added back to the total shares available under the 2008 Plan. Shares cancelled, forfeited, expired or settled in cash will be added back to the reserved shares available under the 2008 Plan.

Eligible Participants

All of our non-management directors and officers, as well as other key employees selected by the Board or Board committee administering the 2008 Plan, are eligible to receive awards under the 2008 Plan. Incentive stock options may only be granted to our employees and employees of other entities in which we, directly or indirectly, hold more than 50% of the total outstanding voting power.

Administration

The 2008 Plan will be administered by the Board or a committee designated by our Board. It is expected that the 2008 Plan will be administered by our Compensation Committee. The administrator has the authority, among other things, to determine the employees to whom awards may be granted, determine the number of shares subject to each award, determine the type and the terms of any award to be granted, approve forms of award agreements, interpret the terms of the 2008 Plan, adopt rules and procedures for administration of the plan and amend awards, subject to limitations. The administrator may delegate day-to-day administration of the 2008 Plan to one or more individuals set forth in the 2008 Plan.

In order to meet the requirements of Section 162(m) of the Code awards granted to covered individuals, as defined under Section 162(m) of the Code, will be made by a committee consisting of at least two outside directors as defined for purposes of Section 162(m). In addition, in order to meet the requirements imposed under Section 16 of the Exchange Act, awards granted to officers and directors under the 2008 Plan may only be made by the entire Board or a committee of non-employee directors, as defined under Section 16 of the Exchange Act.

Shares Authorized

The 2008 Plan authorizes the issuance or transfer of up to 2,500,000 shares of our common stock, subject to certain limitations discussed below. The 2008 Plan permits grants to be made from time to time as nonqualified stock options, incentive stock options, SARs, stock awards (including restricted shares and restricted share units) and other stock-based awards, each as described below. Shares cancelled, forfeited, expired or settled in cash will be added back to the reserved shares available under the 2008 Plan.

Table of Contents

Term

The 2008 Plan will become effective upon approval by the Company's stockholders, and will terminate ten years after such approval.

Types of Awards

Stock Options and Stock Appreciation Rights

The 2008 Plan authorizes the grant of stock options (which may be either incentive stock options within the meaning of Section 422 of the Code, which are eligible for special tax treatment, or nonqualified stock options) and SARs. No more than 1,875,000 shares in the aggregate may be issued as incentive stock options. In addition, the aggregate fair market value of shares, determined as of the date of grant, for which any employee may be granted incentive stock options that are exercisable for the first time in any calendar year may not exceed \$100,000. To the extent that an incentive stock option exceeds the \$100,000 threshold, the excess will be treated as a non-qualified stock option.

The term a stock option granted under the 2008 Plan cannot be longer than 10 years from the date of grant, and the exercise price may not be less than 100% of the fair market value of the shares of our common stock on the date of grant. With limited exceptions in the case of death or disability of the employee or change of control of Teleflex (as discussed below), stock options granted to employees may not be exercised prior to one year from the date of grant. At the time of exercise of a stock option, the option price must be paid in full in cash, by check or wire transfer, in shares of our common stock that are transferred to or withheld by us, cashless exercise or any combination of these methods. Repricing of options (i.e., reducing the exercise price) is not permitted under the 2008 Plan without approval of our stockholders.

The 2008 Plan permits the grant of SARs related to a stock option, which is commonly referred to as a tandem SAR, either at the time of the option grant or thereafter during the term of the option, or the grant of SARs separate and apart from the grant of an option, which is commonly referred to as a freestanding SAR. Tandem SARs permit an optionee, upon exercise of the SAR and surrender of the related option to the extent of an equivalent number of shares of common stock, to receive a payment equal to the excess of the fair market value (on the date of exercise) of the portion of the option so surrendered over the option exercise price for the shares of common stock underlying the surrendered portion of the option. Freestanding SARs entitle the grantee, upon exercise of SARs, to receive a payment equal to the excess of the fair market value (on the date of exercise) of the designated number of shares of common stock underlying the SAR over the fair market value of such shares of common stock on the date the SARs were granted. Payments by us in respect of tandem SARs or freestanding SARs may be made in shares of our common stock, in cash, or partly in cash and partly in shares of common stock, as the administrator may determine. The term of SARs granted under the 2008 Plan cannot be longer than 10 years from the date of grant.

Stock Awards and Other Stock-Based Awards

Under the 2008 Plan, the administrator may grant participants stock awards, which entitle a participant to receive a certain number of shares of our common stock upon satisfaction of such vesting and other conditions as may be specified by the administrator upon grant. The administrator may also grant participants any other type of equity-based or equity-related award, including the grant of unrestricted shares of common stock.

Stock awards and other stock-based awards are subject to terms and conditions determined by the administrator and set forth in an award agreement, including conditions on vesting. These conditions may include continued employment or achievement of performance conditions specified by the administrator. The period during which a stock award or other stock-based award granted to employees is restricted and subject to forfeiture may not be less

than one year, except in limited

Table of Contents

circumstances, including death or disability of the employee or change of control of Teleflex (as discussed below).

No more than 875,000 shares in the aggregate may be issued under stock awards and other stock-based awards. In the event of any forfeiture or cancellation of any stock awards or other stock-based awards, the shares underlying such awards will be added back to the reserved shares available for issuance as stock awards and other stock-based awards under the 2008 Plan.

Performance-Based Compensation

The administrator will specify if all or a portion of an award is intended to satisfy the requirements for performance-based compensation under Section 162(m) of the Code. Section 162(m) of the Code generally disallows a tax deduction to public companies for compensation in excess of \$1,000,000 paid to the company's chief executive officer and other specified executive officers. Performance-based compensation is specifically excluded from this deduction limit.

The 2008 Plan permits the administrator to impose objective performance criteria that must be met with respect to stock awards and other stock-based awards so that the grants are considered performance-based compensation. If an award (other than stock options and SARs) is intended to qualify as performance-based compensation under Section 162(m) of the Code, the performance criteria must be one of the following:

- | | |
|---|---|
| <ul style="list-style-type: none"> sales or cash return on sales; cash flow or free cash flow or net cash from operating activity; earnings (including gross margin, earnings before or after interest and taxes, earnings before taxes, and net earnings); basic or diluted earnings per share; growth in earnings or earnings per share; stock price; return on equity or average shareholders' equity; total shareholder return; return on capital; return on assets or net assets; return on investments; revenue or gross profits; income before or after interest, taxes, depreciation and amortization, or net income; pretax income before allocation of corporate overhead and bonus; operating income or net operating income; | <ul style="list-style-type: none"> operating profit or net operating profit (whether before or after taxes); operating margin; return on operating revenue; working capital or net working capital; market share; asset velocity index; contract awards or backlog; overhead or other expense or cost reduction; growth in shareholder value relative to the moving average of the Standard & Poors 500 Index or a peer group index; credit rating; strategic plan development and implementation; improvement in workforce diversity; customer satisfaction; employee satisfaction; management succession plan development and implementation; and employee retention. |
|---|---|

The administrator will (within the first quarter of the performance period, but in no event more than ninety (90) days into that period) establish the specific performance criteria (including thresholds for payment and whether to exclude certain extraordinary, non-recurring, or similar items) and amounts to be paid if the performance criteria is met (subject to the right of the administrator to exercise discretion to reduce payment amounts following the conclusion of

the performance period).

Dividends

The administrator may provide for payment of dividends or dividend equivalents on the shares of common stock subject to an award, other than stock options and SARs, prior to vesting. These

Table of Contents

payments may be made in cash, shares or units, or may be credited to an employee's account and settled upon vesting of the underlying award. The administrator may, in its discretion, may provide that payment of dividend equivalents is subject to specified conditions and contingencies.

Transferability

Unless the administrator provides otherwise in the award agreement, awards are not transferable, other than by will or the laws of descent and distribution.

Termination of Board Membership or Employment

The administrator may specify the effect of termination of service as a director or termination of employment on an award at the time of grant, subject to the administrator's right to modify the award terms after the date of grant in accordance with the terms of the 2008 Plan. In the absence of such determination, the following provisions apply.

Stock Options and SARs

All unvested stock options and SARs granted to directors and employees under the 2008 Plan will be immediately cancelled upon the termination of service as a director or termination of employment, as the case may be. In connection with the termination of services as a director, all vested and exercisable stock options and SARs held by that director as of the effective date of termination will remain exercisable for a period of five years after the effective date of termination, or the remaining term of the option or SAR, whichever is less. In the event termination of employment, the following provisions apply.

If the termination is due to the employee's disability, any vested and exercisable options and SARs held by the employee on the effective date of termination will remain exercisable for three months or such longer period as the administrator may determine, which shall not exceed a period of one year after the effective date of termination;

If the termination is due to the employee's death, any vested and exercisable options and SARs held by the employee on the effective date of termination will remain exercisable for six months;

retirement, any vested and exercisable options and SARs held by the employee on the effective date of termination will remain exercisable for the lesser of five years or the remaining term of the option or SAR, as applicable; or

any other reason, any vested and exercisable stock options and SARs held by the employee on the effective date of termination will remain exercisable for ninety days after the date of termination, or their remaining term if less.

Stock and Other Stock-Based Awards

With respect to stock and other stock-based awards, in the event of a termination of employment or service as a director due to death or disability, a pro-rated portion of outstanding unvested stock awards and other stock-based awards will vest, based on the number of full months of the applicable performance or vesting period that have elapsed as of the date of termination. In the event of a termination for any other reason, all outstanding unvested stock awards and other stock-based awards will be cancelled.

Change of Control Benefits

In the event of a change of control of our company (as defined in the 2008 Plan), unless the administrator has determined otherwise:

all outstanding unvested stock options and SARs become fully vested and exercisable; and

Table of Contents

all restrictions and conditions on outstanding unvested stock awards, other stock-based awards and cash awards lapse and these awards become fully vested.

If an employee's employment is terminated within two years after a change of control for any reason other than death, retirement, disability or termination for cause, each outstanding stock option or SAR that is vested at the time of termination will remain exercisable until the earlier of the third anniversary of termination or the expiration of the term of the stock option or SAR.

Amendment and Termination of 2008 Plan

The administrator may at any time amend, alter or discontinue the 2008 Plan or any award made under the plan, subject to approval by our stockholders to the extent required by applicable law. Unless approved by our stockholders, the administrator may not increase the maximum aggregate number of shares of common stock that may be subject to awards granted under the 2008 Plan, reduce the minimum exercise price for stock options or SARs, or reduce the exercise price of outstanding stock options or SARs.

Capitalization Adjustments

Upon the occurrence of an event that affects our capital structure (such as a stock dividend, stock split or recapitalization), or a merger, consolidation, reorganization or similar event affecting us, our Board or the administrator may, in its discretion, make such substitutions or adjustments as it deems appropriate and equitable, including the number of shares issuable under the plan, the limitation on the number of shares issuable under stock-based awards and ISOs and individual limits and the purchase price and number of shares of our common stock subject to outstanding equity or equity-based awards.

Deferred Compensation

Unless the administrator determines otherwise, it is intended that no award granted under the 2008 Plan will be deferred compensation for purposes of Section 409A of the Code. If the administrator determines that an award is subject to Section 409A, the terms and conditions governing that award, including rules for elective or mandatory deferral of delivery of cash or shares of common stock and rules relating to treatment of awards in the event of a change of control of our company, will be set forth in the applicable award agreement and will comply with Code Section 409A.

Grants Under the Plan

As of the date of this proxy statement, no awards had been granted under the 2008 Plan and none will be granted unless and until the 2008 Plan is approved by our stockholders. Grants under the 2008 Plan are discretionary, so it is not possible to predict the number of shares of common stock that will be awarded or who will receive awards under the plan. As noted above under Corporate Governance Director Compensation 2007, a newly elected director receives a stock option to purchase 5,000 shares, and all directors receive an annual grant of 2,000 shares. The closing price of a share of our common stock, as reported on the NYSE on March 10, 2008, was \$51.02.

Tax Matters

The following is a summary of the United States federal income tax consequences that generally apply with respect to awards granted under the 2008 Plan. The following is only a general description intended for the information of stockholders and not as tax guidance for participants as consequences may vary depending on the types of awards

granted, the identity of the participants and the method of payment or settlement. This summary is based on the federal tax laws in effect as of the date of this proxy statement. In addition, this summary assumes that all awards are exempt from, or comply with, the rules under Section 409A of the Internal Revenue Code regarding nonqualified deferred compensation. The plan provides that no award will provide for deferral of

Table of Contents

compensation that does not comply with Section 409A of the Code, unless the Board, at the time of grant, specifically provides that the award is not intended to comply with Section 409A. Changes to these laws could alter the tax consequences described below. In addition, this summary does not address the effects of other federal taxes (including possible golden parachute excise taxes) or taxes imposed under state, local or foreign tax laws.

Incentive Stock Options

A participant will not recognize income upon the grant of an incentive stock option. A participant will recognize income upon the sale of the stock acquired under an incentive stock option at a profit (if sales proceeds exceed the exercise price). The type of income will depend on when the participant sells the stock. If a participant sells the stock more than two years after the option was granted and more than one year after the option was exercised, then all of the profit will be long-term capital gain and we will not be entitled to a tax deduction. If a participant sells the stock prior to satisfying these waiting periods, then the participant will have engaged in a disqualifying disposition will recognize ordinary income at the time of the disposition equal to the difference between the fair market value of the shares on the date of exercise (or the amount realized on the disposition, if less) and the exercise price, and we will be entitled to a tax deduction equal to that amount. The gain, if any, in excess of the amount recognized as ordinary income will be long-term or short-term capital gain, depending upon the length of time a participant holds shares prior to the disposition.

Nonqualified Stock Options

A participant will not recognize income upon the grant of a nonqualified stock option. A participant will recognize income upon the exercise of a nonqualified stock option equal to the fair market value of the stock on the day the participant exercised the option less the exercise price. Upon sale of the stock, the participant will have short-term or long-term capital gain or loss, depending on the length of time the participant held the shares, equal to the difference between the sales proceeds and the value of the stock on the day the option was exercised.

SARs

A participant will not recognize income upon the grant of a SAR. A participant generally will recognize compensation income upon the exercise of a SAR equal to the amount of the cash and the fair market value of any stock received, and we will be entitled to a tax deduction in that amount. Upon the sale of the stock, the participant will have short-term or long-term capital gain or loss, depending on the length of time the participant held the shares, equal to the difference between the sales proceeds and the value of the stock on the day the SAR was exercised.

Stock Awards and Other Stock-Based Awards

As a general rule, a participant will recognize ordinary income at the time of delivery of shares of common stock or payment of cash under the 2008 Plan. Future appreciation on shares of common stock held beyond the ordinary income recognition event will be taxable as long-term or short-term capital gain, depending on the length of time the participant held the shares, when the shares are sold. We, as a general rule, will be entitled to a tax deduction that corresponds in time and amount to the ordinary income recognized by the participant. However, if shares of common stock, when delivered, are subject to substantial risk of forfeiture by reason of any employment or performance related condition, ordinary income taxation and our tax deduction will be delayed until the risk of forfeiture lapses, unless the participant makes a special election to accelerate taxation under section 83(b) of the Code.

Table of Contents

Code Section 162(m)

Section 162(m) of the Code generally disallows a tax deduction to public companies for compensation in excess of \$1,000,000 paid to a company's chief executive officer or other specified officers. Qualified performance-based compensation is specifically exempt from the deduction limit if it otherwise meets the requirements of Section 162(m). Stock options and SARs granted under the 2008 Plan qualify as performance-based compensation. Other awards will be performance-based compensation if they are so designated and if their grant, vesting or settlement is subject to the performance criteria set forth in the 2008 Plan. Stock awards and other stock-based awards that vest solely upon the passage of time do not qualify as performance-based compensation.

Code Section 409A

To the extent that any award under the 2008 Plan is or may be considered to constitute deferred compensation subject to Code Section 409A, the Company intends that the terms and administration of such award shall comply with the provisions of such section, applicable Internal Revenue Service guidance and good faith reasonable interpretations thereof.

References herein to the Administrator in connection with Awards intended to qualify as performance-based compensation shall mean a Committee meeting the outside director requirements of Code Section 162(m). Notwithstanding any other provision of the Plan, the Administrator shall not have any discretion or authority to make changes to any Award that is intended to qualify as performance-based compensation to the extent that the existence of such discretion or authority would cause such Award not to so qualify.

(iii) *Rule 16b-3.* To the extent desirable to qualify transactions hereunder as exempt under Rule 16b-3 promulgated under the Exchange Act (Rule 16b-3), Awards to Officers and Directors shall be made by the entire Board or a Committee of two or more non-employee directors within the meaning of Rule 16b-3.

(ix) to prescribe, amend and rescind rules and regulations relating to the Plan, including rules and regulations relating to sub-plans and Plan addenda;

(x) to modify or amend each Award, including, but not limited to, the acceleration of vesting and/or exercisability, provided, however, that any such modification or amendment (A) is subject to the minimum vesting provisions set forth in Sections 8(e), 11(a) and 12(a) of the Plan and the plan amendment provisions set forth in Section 16 of the Plan, and (B) may not impair any outstanding Award unless agreed to in writing by the Participant, except that such

agreement shall not be required if the Administrator determines in its sole discretion that such

modification or amendment either (Y) is required or advisable in order for the Company, the Plan or the Award to satisfy any Applicable Law or to meet the requirements of any accounting standard, or (Z) is not reasonably likely to significantly diminish the benefits provided under such Award, or that adequate compensation has been provided for any such diminishment, except following a Change of Control;

(xi) to allow or require Participants to satisfy withholding tax amounts by electing to have the Company withhold from the Shares to be issued upon exercise of a Nonqualified Stock Option or vesting of a Stock Award that number of Shares having a Fair Market Value equal to the amount required to be withheld. The Fair Market Value of the Shares to be withheld shall be determined in such manner and on such date that the Administrator shall determine or, in the absence of provision otherwise, on the date that the amount of tax to be withheld is to be determined. (xii) to authorize conversion or substitution under the Plan of any or all stock options, stock appreciation rights or other stock awards held by awardees of an entity acquired by the Company (the Conversion Awards). Any conversion or substitution shall be effective as of the close of the merger or acquisition. (xiii) to authorize any person to execute on behalf of the Company any instrument required to effect the grant of an Award previously granted by the Administrator;

(xiv) to impose such restrictions, conditions or limitations as it determines appropriate as to the timing and manner of any resale by a Participant or of other subsequent transfers by the Participant of any Shares issued as a result of or under an Award or upon the exercise of an Award, including, without limitation, (A) restrictions under an insider trading policy, (B) restrictions as to the use of a specified brokerage firm for such resale or other transfers, and (C) institution of blackout periods on exercises of Awards;

(xv) to provide, either at the time an Award is granted or by subsequent action, that an Award shall contain as a term thereof, a right, either in tandem with the other rights under the Award or as an alternative thereto, of the Participant to receive, without payment to the Company, a number of Shares, cash or a combination thereof, the amount of which is determined by reference to the value of the Award; and

(xvi) to make all other determinations deemed necessary or advisable for administering the Plan and any Award granted hereunder.

(c) *Effect of Administrator's Decision.* All questions arising under the Plan or under any Award shall be decided by the Administrator in its total and absolute discretion. All decisions, determinations and interpretations by the Administrator regarding the Plan, any rules and regulations under the Plan and the terms and conditions of any Award granted hereunder, shall be final and binding on all Participants. The Administrator shall consider such factors as it deems relevant, in its sole and absolute discretion, to making such decisions, determinations and interpretations, including, without limitation, the recommendations or advice of any officer or other employee of the Company and such attorneys, consultants and accountants as it may select.

Subject to the provisions of the Plan, the term of each Award shall be determined by the Administrator and stated in the Award Agreement, and may extend beyond the termination of the Plan. In the case of an Option or a Stock Appreciation Right, the term shall be ten (10) years from the Grant Date or such shorter term as may be provided in the Award Agreement.

8. Options.

The Administrator may grant an Option or provide for the grant of an Option, either from time to time in the discretion of the Administrator or automatically upon the occurrence of specified events, including, without limitation, the achievement of performance goals or the satisfaction of an event or condition within the control of the Awardee or within the control of others.

The Administrator shall have the right to make the timing of the ability to exercise any Option granted under this Plan subject to continued active employment, the passage of time and/or such performance requirements as deemed appropriate by the Administrator. At any time after the grant of an Option, the Administrator may reduce or eliminate any restrictions surrounding any Participant's right to exercise all or part of the Option, subject to the restrictions set forth above.

Option held by such Employee that is vested and exercisable as of the effective date of such Termination of Employment shall remain exercisable for the longer of three (3) months after such Termination of Employment due to Disability or such period, if any, ending not more than one year after such Termination of Employment due to Disability, as determined by the Administrator not later than three (3) months after such Termination of Employment; (x) upon Termination of Employment due to Death, any Option held by such Employee that is vested and exercisable as of the effective date of such Termination of Employment shall remain exercisable for six (6) months thereafter; (y) any Option held by an Awardee at Retirement that is vested and exercisable as of the effective date of such Retirement will remain outstanding for the lesser of five (5) years or the remaining term of the option; and (z) any other Termination of Employment shall result in immediate cancellation and forfeiture of all outstanding Options that have not vested as of the effective date of such Termination of Employment, and any vested and exercisable Options held at the time of such Termination of Employment shall remain exercisable for ninety (90) days thereafter, or the remaining term of the Option, if less.

9. Incentive Stock Option Limitations/Terms.

(a) *Eligibility.* Only employees (as determined in accordance with Section 3401(c) of the Code and the regulations promulgated thereunder) of the Company or any of its Subsidiaries may be granted Incentive Stock Options. No Incentive Stock Option shall be granted to any such employee who as of the Grant Date owns stock possessing more than 10% of the total combined voting power of the Company.

(b) *\$100,000 Limitation.* Notwithstanding the designation Incentive Stock Option in an Option Agreement, if and to the extent that the aggregate Fair Market Value of the Shares with respect to which Incentive Stock Options are exercisable for the first time by the Awardee during any calendar year (under all plans of the Company and any of its Subsidiaries) exceeds U.S. \$100,000, such Options shall be treated as Nonqualified Stock Options. For purposes of this Section 9(b) of the Plan, Incentive Stock Options shall be taken into account in the order in which they were granted. The Fair Market Value of the Shares shall be determined as of the Grant Date.

(c) *Transferability.* The Option Agreement must provide that an Incentive Stock Option is not transferable by the Awardee otherwise than by will or the laws of descent and distribution, and, during the lifetime of such Awardee, must not be exercisable by any other person. If the terms of an Incentive Stock Option are amended to permit transferability, the Option will be treated for tax purposes as a Nonqualified Stock Option.

(e) *Other Terms.* Option Agreements evidencing Incentive Stock Options shall contain such other terms and conditions as may be necessary to qualify, to the extent determined desirable by the Administrator, with the applicable provisions of Section 422 of the Code.

10. Stock Appreciation Rights.

A Stock Appreciation Right is a right that entitles the Awardee to receive, in cash or Shares (as determined by the Administrator), value equal to or otherwise based on the excess of (i) the Fair Market Value of a specified number of Shares at the time of exercise over (ii) the aggregate exercise price of the right, as established by the Administrator on the Grant Date. Stock Appreciation Rights may be granted to Awardees either alone (freestanding) or in addition to or in tandem with other Awards granted under the Plan and may, but need not, relate to a specific Option granted under Section 8 of the Plan. Any Stock Appreciation Right granted in tandem with an Option may be granted at the same time such Option is granted or at any time thereafter before exercise or expiration of such Option. All Stock Appreciation Rights under the Plan shall be granted subject to the same terms and conditions applicable to Options as

Subject to the provisions of Section 8 of the Plan, the Administrator may impose such other conditions or restrictions on any Stock Appreciation Right as it shall deem appropriate. Stock Appreciation Rights may be settled in Shares or cash as determined by the Administrator.

11. Stock Awards.

(a) *Stock Award Agreement.* Each Stock Award Agreement shall contain provisions regarding (i) the number of Shares subject to such Stock Award or a formula for determining such number, (ii) the purchase price of the Shares, if any, and the means of payment for the Shares, (iii) the performance criteria, if any, and level of achievement versus these criteria that shall determine the number of Shares granted, issued, retainable and/or vested, (iv) such terms and conditions on the grant, issuance, vesting and/or forfeiture of the Shares as may be determined from time to time by the Administrator, (v) restrictions on the transferability of the Stock Award, and (vi) such further terms and conditions, in each case not inconsistent with this Plan, as may be determined from time to time by the Administrator. No condition that is based upon performance criteria and level of achievement versus such criteria shall be based on performance over a period of less than one (1) year, and no condition that is based upon continued employment or the passage of time shall provide for vesting in full of a Stock Award to an Employee in less than one (1) year from the date the Stock Award is made, other than (i) with respect to such Stock Awards that are issued upon the exercise or settlement of Options or Stock Appreciation Rights, (ii) upon a Change of Control as specified in Section 15(b) of the Plan or (iii) upon the death, Disability or Retirement of the Awardee, in each case as specified in the Stock Award Agreement.

(b) *Restrictions and Performance Criteria.* The grant, issuance, retention and/or vesting of Stock Awards issued to Employees may be subject to such performance criteria and level of achievement versus these criteria as the Administrator shall determine, which criteria may be based on financial performance, personal performance evaluations and/or completion of service by the Awardee. Notwithstanding anything to the contrary herein, the performance criteria for any Stock Award that is intended to satisfy the requirements for performance-based compensation under Section 162(m) of the Code shall be established by the Administrator based on one or more Qualifying Performance Criteria selected by the Administrator and specified in writing not later than ninety (90) days after the commencement of the period of service (or, if earlier, the elapse of 25% of such period) to which the performance goals relate or otherwise within the time period required by the Code or the applicable Treasury Regulations, provided that the outcome is substantially uncertain at that time.

(c) *Termination of Employment or Board Membership.* The Administrator shall determine as of the Grant Date (subject to modification subsequent to the Grant Date) the effect a termination from membership on the Board by a Director for any reason or a Termination of Employment due to (i) Disability, (ii) Retirement, (iii) death, or (iv) otherwise (including Termination for Cause) shall have on any Stock Award. Unless otherwise provided in the Award Agreement, (y) a Termination of Employment or termination from membership on the Board by a Director due to Disability or death shall result in vesting of a prorated portion of any Stock Award, based upon the full months of the applicable performance period, vesting period or other period of restriction elapsed as of the end of the month in which the Termination of Employment or termination from membership on the Board by a Director due to Disability or death occurs over the total number of months in such period; and (z) any other Termination of Employment or termination from membership on the Board by a Director (including, but not limited to, Retirement) shall result in immediate cancellation and forfeiture of all outstanding, unvested Stock Awards.

(d) *Rights as a Shareholder.* Unless otherwise provided for by the Administrator, the Participant shall have the rights equivalent to those of a shareholder and shall be a shareholder only after Shares are issued (as evidenced by the appropriate entry on the books of the Company or of a duly authorized transfer agent of the Company) to the Participant.

Table of Contents**12. Other Stock-Based Awards.**

(a) *Other Stock-Based Awards.* An Other Stock-Based Award means any other type of equity-based or equity-related Award not otherwise described by the terms of this Plan (including the grant or offer for sale of unrestricted Shares) in such amount and subject to such terms and conditions as the Administrator shall determine. Such Awards may involve the transfer of actual Shares to Participants, or payment in cash or otherwise of amounts based on the value of Shares. Each Other Stock-Based Award will be evidenced by an Award Agreement containing such terms and conditions as may be determined by the Administrator. No condition that is based upon performance criteria and level of achievement versus such criteria shall be based on performance over a period of less than one (1) year and no condition that is based upon continued employment or the passage of time shall provide for vesting in full of an Other Stock-Based Award to an Employee in less than one (1) year from the date the Other Stock-Based Award is made, other than (i) with respect to such Other Stock-Based Awards that are issued upon the exercise or settlement of Options or Stock Appreciation Rights, (ii) upon a Change of Control as specified in Section 15(b) of the Plan or (iii) upon the death, Disability or Retirement of the Awardee, in each case as specified in the Other Stock-Based Award Agreement.

(b) *Value of Other Stock-Based Awards.* Each Other Stock-Based Award shall be expressed in terms of Shares or units based on Shares, as determined by the Administrator. The Administrator may establish performance goals in its discretion. If the Administrator exercises its discretion to establish performance goals, the number and/or value of Other Stock-Based Awards that will be paid out to the Participant will depend on the extent to which the performance goals are met. Notwithstanding anything to the contrary herein, the performance criteria for any Other Stock-Based Award that is intended to satisfy the requirements for performance-based compensation under Section 162(m) of the Code shall be established by the Administrator based on one or more Qualifying Performance Criteria selected by the Administrator and specified in writing not later than ninety (90) days after the commencement of the period of service (or, if earlier, the elapse of 25% of such period) to which the performance goals relate and otherwise within the time period required by the Code and the applicable Treasury Regulations, provided that the outcome is substantially uncertain at that time.

(c) *Payment of Other Stock-Based Awards.* Payment, if any, with respect to Other Stock-Based Awards shall be made in accordance with the terms of the Award, in cash or Shares as the Administrator determines.

(d) *Termination of Employment or Board Membership.* The Administrator shall determine as of the Grant Date (subject to modification subsequent to the Grant Date) the effect a termination from membership on the Board by a Director for any reason or a Termination of Employment due to (i) Disability, (ii) Retirement, (iii) death, or (iv) otherwise (including Termination for Cause) shall have on any Other Stock-Based Award. Unless otherwise provided in the Award Agreement, (y) a Termination of Employment or termination from membership on the Board by a Director due to Disability or death shall result in vesting of a prorated portion of any Other Stock-Based Award, based upon the full months of the applicable performance period, vesting period or other period of restriction elapsed as of the end of the month in which the Termination of Employment or Board membership due to Disability or death occurs over the total number of months in such period; and (z) any other Termination of Employment or termination from Board membership (including, but not limited to, Retirement) shall result in immediate cancellation and forfeiture of all outstanding, unvested Other Stock-Based Awards.

13. Other Provisions Applicable to Awards.

(a) *Non-Transferability of Awards.* Unless determined otherwise by the Administrator, an Award may not be sold, pledged, assigned, hypothecated, transferred or disposed of in any manner other than by beneficiary designation, will or by the laws of descent or distribution. The

Table of Contents

Administrator may make an Award transferable to an Awardee's family member or any other person or entity. If the Administrator makes an Award transferable, either as of the Grant Date or thereafter, such Award shall contain such additional terms and conditions as the Administrator deems appropriate, and any transferee shall be deemed to be bound by such terms upon acceptance of such transfer.

(b) *Qualifying Performance Criteria.* For purposes of this Plan, the term "Qualifying Performance Criteria" shall mean any one or more of the following performance criteria, either individually, alternatively or in any combination, applied to either the Company as a whole or to a business unit, Affiliate or business segment, either individually, alternatively or in any combination, and measured either annually or cumulatively over a period of years, on an absolute basis or relative to a pre-established target, to previous years' results or to a designated comparison group, in each case as specified by the Committee in the Award: (i) sales or cash return on sales; (ii) cash flow or free cash flow or net cash from operating activity; (iii) earnings (including gross margin, earnings before or after interest and taxes, earnings before taxes, and net earnings); (iv) basic or diluted earnings per share; (v) growth in earnings or earnings per share; (vi) stock price; (vii) return on equity or average shareholders' equity; (viii) total shareholder return; (ix) return on capital; (x) return on assets or net assets; (xi) return on investments; (xii) revenue or gross profits; (xiii) income before or after interest, taxes, depreciation and amortization, or net income; (xiv) pretax income before allocation of corporate overhead and bonus; (xv) operating income or net operating income; (xvi) operating profit or net operating profit (whether before or after taxes); (xvii) operating margin; (xviii) return on operating revenue; (xix) working capital or net working capital; (xx) market share; (xxi) asset velocity index; (xxii) contract awards or backlog; (xxiii) overhead or other expense or cost reduction; (xxiv) growth in shareholder value relative to the moving average of the S&P 500 Index or a peer group index; (xxv) credit rating; (xxvi) strategic plan development and implementation; (xxvii) improvement in workforce diversity; (xxviii) customer satisfaction; (xxvix) employee satisfaction; (xxx) management succession plan development and implementation; and (xxxi) employee retention. With respect to any Award that is intended to satisfy the requirements for performance-based compensation under Section 162(m) of the Code, the performance criteria must be Qualifying Performance Criteria, and the Administrator will (within the first quarter of the performance period, but in no event more than ninety (90) days into that period) establish the specific performance targets (including thresholds and whether to exclude certain extraordinary, non-recurring, or similar items) and award amounts (subject to the right of the Administrator to exercise discretion to reduce payment amounts following the conclusion of the performance period).

(c) *Certification.* Prior to the payment of any compensation under an Award intended to qualify as performance-based compensation under Section 162(m) of the Code, the Administrator shall certify in writing the extent to which any Qualifying Performance Criteria and any other material terms under such Award have been satisfied (other than in cases where such criteria relate solely to the increase in the value of the Common Shares).

(d) *Discretionary Adjustments Pursuant to Section 162(m).* Notwithstanding satisfaction or completion of any Qualifying Performance Criteria, to the extent specified as of the Grant Date, the number of Shares, Options or other benefits granted, issued, retainable and/or vested under an Award on account of satisfaction of such Qualifying Performance Criteria may be reduced by the Administrator on the basis of such further considerations as the Administrator in its sole discretion shall determine.

14. Dividends and Dividend Equivalents.

Awards other than Options and Stock Appreciation Rights may provide the Awardee with the right to receive dividend payments or dividend equivalent payments on the Shares subject to the Award, whether or not such Award is vested. Such payments may be made in cash, Shares or Stock Units or may be credited as cash or Stock Units to an Awardee's account and later settled in cash or Shares or a

Table of Contents

combination thereof, as determined by the Administrator. Such payments and credits may be subject to such conditions and contingencies as the Administrator may establish.

15. Adjustments upon Changes in Capitalization, Organic Change or Change of Control.

(a) *Adjustment Clause.* In the event of (i) a stock dividend, stock split, reverse stock split, share combination, or recapitalization or similar event affecting the capital structure of the Company (each, a *Share Change*), or (ii) a merger, consolidation, acquisition of property or shares, separation, spin-off, reorganization, stock rights offering, liquidation, Disaffiliation, or similar event affecting the Company or any of its Subsidiaries (each, an *Organic Change*), the Administrator or the Board may in its discretion make such substitutions or adjustments as it deems appropriate and equitable to (i) the Share limitations set forth in Sections 3, 11(a) and 12(a) of the Plan, (ii) the number and kind of Shares covered by each outstanding Award, and (iii) the price per Share subject to each such outstanding Award. In the case of Organic Changes, such adjustments may include, without limitation, (x) the cancellation of outstanding Awards in exchange for payments of cash, property or a combination thereof having an aggregate value equal to the value of such Awards, as determined by the Administrator or the Board in its sole discretion (it being understood that in the case of an Organic Change with respect to which shareholders receive consideration other than publicly traded equity securities of the ultimate surviving entity, any such determination by the Administrator that the value of an Option or Stock Appreciation Right shall for this purpose be deemed to equal the excess, if any, of the value of the consideration being paid for each Share pursuant to such Organic Change over the exercise price of such Option or Stock Appreciation Right shall conclusively be deemed valid); (y) the substitution of other property (including, without limitation, cash or other securities of the Company and securities of entities other than the Company) for the Shares subject to outstanding Awards; and (z) in connection with any Disaffiliation, arranging for the assumption of Awards, or replacement of Awards with new awards based on other property or other securities (including, without limitation, other securities of the Company and securities of entities other than the Company), by the affected Subsidiary, Affiliate, or division or by the entity that controls such Subsidiary, Affiliate, or division following such Disaffiliation (as well as any corresponding adjustments to Awards that remain based upon Company securities).

(b) *Change of Control.* In the event of a Change of Control, unless otherwise determined by the Administrator as of the Grant Date of a particular Award (or subsequent to the Grant Date), the following acceleration, exercisability and valuation provisions shall apply:

(i) On the date that such Change of Control occurs, any or all Options and Stock Appreciation Rights awarded under this Plan not previously exercisable and vested shall become fully exercisable and vested.

(ii) Except as may be provided in an individual severance or employment agreement (or severance plan) to which an Awardee is a party, in the event of an Awardee's Termination of Employment within two (2) years after a Change of Control for any reason other than because of the Awardee's death, Retirement, Disability or Termination for Cause, each Option and Stock Appreciation Right held by the Awardee (or a transferee) that is vested following such Termination of Employment shall remain exercisable until the earlier of the third (3rd) anniversary of such Termination of Employment (or any later date until which it would remain exercisable under such circumstances by its terms) or the expiration of its original term. In the event of an Awardee's Termination of Employment more than two (2) years after a Change of Control, or within two (2) years after a Change of Control because of the Awardee's death, Retirement, Disability or Termination for Cause, the provisions of Sections 8(h) and 10 of the Plan shall govern (as applicable).

(iii) On the date that such Change of Control occurs, the restrictions and conditions applicable to any or all Stock Awards and Other Stock-Based Awards shall lapse and such

Table of Contents

Awards shall be fully vested. Unless otherwise provided in an Award at the Grant Date, upon the occurrence of a Change of Control, any performance based Award shall be deemed fully earned at the target amount as of the date on which the Change of Control occurs. All Stock Awards, Other Stock-Based Awards and Cash Awards shall be settled or paid within thirty (30) days of vesting hereunder. Notwithstanding the foregoing, if the Change of Control would not qualify as a permissible date of distribution under Section 409A(a)(2)(A) of the Code, and the regulations thereunder, the Awardee shall be entitled to receive the Award from the Company on the date that would have applied absent this provision.

(c) *Section 409A.* Notwithstanding the foregoing: (i) any adjustments made pursuant to Section 15(a) of the Plan to Awards that are considered deferred compensation within the meaning of Section 409A of the Code shall be made in compliance with the requirements of Section 409A of the Code; (ii) any adjustments made pursuant to Section 15(a) of the Plan to Awards that are not considered deferred compensation subject to Section 409A of the Code shall be made in such a manner as to ensure that after such adjustment, the Awards either continue not to be subject to Section 409A of the Code or comply with the requirements of Section 409A of the Code; (iii) the Administrator shall not have the authority to make any adjustments pursuant to Section 15(a) of the Plan to the extent that the existence of such authority would cause an Award that is not intended to be subject to Section 409A of the Code to be subject thereto; and (iv) if any Award is subject to Section 409A of the Code, Section 15(b) of the Plan shall be applicable only to the extent specifically provided in the Award Agreement and permitted pursuant to Section 24 of the Plan in order to ensure that such Award complies with Code Section 409A.

16. Amendment and Termination of the Plan.

(a) *Amendment and Termination.* The Administrator may amend, alter or discontinue the Plan or any Award Agreement, but any such amendment shall be subject to approval of the shareholders of the Company in the manner and to the extent required by Applicable Law. In addition, without limiting the foregoing, unless approved by the shareholders of the Company and subject to Section 16(a), no such amendment shall be made that would:

- (i) increase the maximum aggregate number of Shares which may be subject to Awards granted under the Plan;
- (ii) reduce the minimum exercise price for Options or Stock Appreciation Rights granted under the Plan; or
- (iii) reduce the exercise price of outstanding Options or Stock Appreciation Rights.

(b) *Effect of Amendment or Termination.* No amendment, suspension or termination of the Plan shall impair the rights of any Participant with respect to an outstanding Award, unless mutually agreed otherwise between the Participant and the Administrator, which agreement must be in writing and signed by the Participant and the Company, except that no such agreement shall be required if the Administrator determines in its sole discretion that such amendment either (i) is required or advisable in order for the Company, the Plan or the Award to satisfy any Applicable Law or to meet the requirements of any accounting standard, or (ii) is not reasonably likely to significantly diminish the benefits provided under such Award, or that any such diminishment has been adequately compensated, except following a Change of Control. Termination of the Plan shall not affect the Administrator's ability to exercise the powers granted to it hereunder with respect to Awards granted under the Plan prior to the date of such termination.

(c) *Effect of the Plan on Other Arrangements.* Neither the adoption of the Plan by the Board or a Committee nor the submission of the Plan to the shareholders of the Company for approval shall be construed as creating any limitations on the power of the Board or any Committee to adopt such other incentive arrangements as it or they may deem desirable, including without limitation, the granting of restricted shares or restricted share units or stock options otherwise than under the

Table of Contents

Plan, and such arrangements may be either generally applicable or applicable only in specific cases.

17. Designation of Beneficiary.

(a) An Awardee may file a written designation of a beneficiary who is to receive the Awardee's rights pursuant to Awardee's Award or the Awardee may include his or her Awards in an omnibus beneficiary designation for all benefits under the Plan. To the extent that Awardee has completed a designation of beneficiary while employed with the Company, such beneficiary designation shall remain in effect with respect to any Award hereunder until changed by the Awardee to the extent enforceable under Applicable Law.

(b) Such designation of beneficiary may be changed by the Awardee at any time by written notice. In the event of the death of an Awardee and in the absence of a beneficiary validly designated under the Plan who is living at the time of such Awardee's death, the Company shall allow the legal representative of the Awardee's estate to exercise the Award.

18. No Right to Awards or to Employment.

No person shall have any claim or right to be granted an Award and the grant of any Award shall not be construed as giving an Awardee the right to continue in the employ of the Company or its Affiliates. Further, the Company and its Affiliates expressly reserve the right, at any time, to dismiss any Employee or Awardee at any time without liability or any claim under the Plan, except as provided herein or in any Award Agreement entered into hereunder.

19. Legal Compliance.

Shares shall not be issued pursuant to an Option, Stock Appreciation Right, Stock Award or Other Stock-Based Award unless such Option, Stock Appreciation Right, Stock Award or Other Stock-Based Award and the issuance and delivery of such Shares shall comply with Applicable Law and shall be further subject to the approval of counsel for the Company with respect to such compliance. Unless the Awards and Shares covered by this Plan have been registered under the Securities Act or the Company has determined that such registration is unnecessary, each person receiving an Award and/or Shares pursuant to any Award may be required by the Company to give a representation in writing that such person is acquiring such Shares for his or her own account for investment and not with a view to, or for sale in connection with, the distribution of any part thereof.

20. Inability to Obtain Authority.

To the extent the Company is unable to or the Administrator deems it unfeasible to obtain authority from any regulatory body having jurisdiction, which authority is deemed by the Company's counsel to be advisable or necessary to the lawful issuance and sale of any Shares hereunder, the Company shall be relieved of any liability with respect to the failure to issue or sell such Shares as to which such requisite authority shall not have been obtained.

21. Reservation of Shares.

The Company, during the term of this Plan, will at all times reserve and keep available such number of Shares as shall be sufficient to satisfy the requirements of the Plan.

22. Notice.

Any written notice to the Company required by any provisions of this Plan shall be addressed to the Secretary of the Company and shall be effective when received.

23. Governing Law; Interpretation of Plan and Awards.

(a) This Plan and all determinations made and actions taken pursuant hereto shall be governed by the substantive laws, but not the choice of law rules, of the state of Delaware, except as to matters governed by U.S. federal law.

(b) In the event that any provision of the Plan or any Award granted under the Plan is declared to be illegal, invalid or otherwise unenforceable by a court of competent jurisdiction, such provision shall be reformed, if possible, to the extent necessary to render it legal, valid and enforceable, or otherwise deleted, and the remainder of the terms of the Plan and/or Award shall not be affected except to the extent necessary to reform or delete such illegal, invalid or unenforceable provision.

(c) The headings preceding the text of the sections hereof are inserted solely for convenience of reference, and shall not constitute a part of the Plan, nor shall they affect its meaning, construction or effect.

(d) The terms of the Plan and any Award shall inure to the benefit of and be binding upon the parties hereto and their respective permitted heirs, beneficiaries, successors and assigns.

24. Section 409A.

It is the intention of the Company that no Award shall be deferred compensation subject to Section 409A of the Code, unless and to the extent that the Administrator specifically determines otherwise, and the Plan and the terms and conditions of all Awards shall be interpreted accordingly. The terms and conditions governing any Awards that the Administrator determines will be subject to Section 409A of the Code, including any rules for elective or mandatory deferral of the delivery of cash or Shares pursuant thereto and any rules regarding treatment of such Awards in the event of a Change of Control, shall be set forth in the applicable Award Agreement, deferral election forms and procedures, and rules established by the Administrator, and shall comply in all respects with Section 409A of the Code. The following rules will apply to Awards intended to be subject to Section 409A of the Code (409A Awards):

(a) If a Participant is permitted to elect to defer an Award or any payment under an Award, such election will be permitted only at times in compliance with Code Section 409A, including applicable transition rules thereunder.

(b) The Company shall have no authority to accelerate distributions relating to 409A Awards in excess of the authority permitted under Section 409A.

(c) Any distribution of a 409A Award following a Termination of Employment that would be subject to Code Section 409A(a)(2)(A)(i) as a distribution following a separation from service of a specified employee as defined under Code Section 409A(a)(2)(B)(i), shall occur no earlier than the expiration of the six-month period following such Termination of Employment.

(d) In the case of any distribution of a 409A Award, if the timing of such distribution is not otherwise specified in the Plan or an Award Agreement or other governing document, the distribution shall be made not later than the end of the calendar year during which the settlement of the 409A Award is specified to occur.

(e) In the case of an Award providing for distribution or settlement upon vesting or the lapse of a risk of forfeiture, if the time of such distribution or settlement is not otherwise specified in the Plan or an Award Agreement or other governing document, the distribution or settlement shall be made not later than March 15 of the year following the year in which the Award vested or the risk of forfeiture lapsed.

25. Limitation on Liability.

The Company and any Affiliate which is in existence or hereafter comes into existence shall not be liable to a Participant, an Employee, an Awardee or any other persons as to:

(a) *The Non-Issuance of Shares.* The non-issuance or sale of Shares as to which the Company has been unable to obtain from any regulatory body having jurisdiction the authority deemed by the Company's counsel to be necessary to the lawful issuance and sale of any shares hereunder; and

(b) *Tax or Exchange Control Consequences.* Any tax consequence expected, but not realized, or any exchange control obligation owed, by any Participant, Employee, Awardee or other person due to the receipt, exercise or settlement of any Option or other Award granted hereunder.

26. Unfunded Plan.

Insofar as it provides for Awards, the Plan shall be unfunded. Although bookkeeping accounts may be established with respect to Awardees who are granted Stock Awards or Other Stock-Based Awards under this Plan, any such accounts will be used merely as a bookkeeping convenience. The Company shall not be required to segregate any assets which may at any time be represented by Awards, nor shall this Plan be construed as providing for such segregation. Neither the Company nor the Administrator shall be deemed to be a trustee of stock or cash to be awarded under the Plan. Any liability of the Company to any Participant with respect to an Award shall be based solely upon any contractual obligations which may be created by the Plan; no such obligation of the Company shall be deemed to be secured by any pledge or other encumbrance on any property of the Company. Neither the Company nor the Administrator shall be required to give any security or bond for the performance of any obligation which may be created by this Plan.

27. Foreign Employees.

Awards may be granted hereunder to Employees who are foreign nationals, who are located outside the United States or who are not compensated from a payroll maintained in the United States, or who are otherwise subject to (or could cause the Company to be subject to) legal or regulatory provisions of countries or jurisdictions outside the United States, on such terms and conditions different from those specified in the Plan as may, in the judgment of the Administrator, be necessary or desirable to foster and promote achievement of the purposes of the Plan, and, in furtherance of such purposes, the Administrator may make such modifications, amendments, procedures, or subplans as may be necessary or advisable to comply with such legal or regulatory provisions.

28. Tax Withholding.

Each Participant shall pay to the Company, or make arrangements satisfactory to the Company regarding the payment of, any federal, state, local or foreign taxes of any kind required by law to be withheld with respect to any Award under the Plan no later than the date as of which any amount under such Award first becomes includible in the gross income of the Participant for any tax purposes with respect to which the Company has a tax withholding obligation. Unless otherwise determined by the Company, withholding obligations may be settled with Shares, including Shares that are part of the Award that gives rise to the withholding requirement; provided, however, that not more than the legally required minimum withholding may be settled with Shares. The obligations of the Company under the Plan shall be conditional on such payment or arrangements, and the Company and its Affiliates shall, to the extent permitted by law, have the right to deduct any such taxes from any vested Shares or any other payment due to the participant at that time or at any future time. The Administrator may establish such procedures as it deems appropriate, including making irrevocable elections, for the settlement of withholding obligations with Shares.
