-

Item 2.05 Costs Associated with Exit or Disposal Activities

On December 3, 2008, in response to the challenging economic environment, DuPont committed to a global initiative to reduce costs and improve profitability across its businesses. The plan will result in one-time pretax charges to earnings of about \$500 million in the fourth quarter 2008, comprised of approximately \$300 million of severance and related benefits costs, about \$120 million of asset write-offs and about \$80 million of impairment charges. DuPont expects to incur approximately \$60 million of other costs between 2009 and 2010, primarily related to dismantlement and removal costs and accelerated depreciation associated with implementation of the plan. Future cash expenditures are anticipated to be approximately \$330 million related to this initiative, comprised of about \$300 million for the payment of severance and related benefits and approximately \$30 million primarily related to dismantlement and removal costs.

Under the plan, DuPont will eliminate approximately 2,500 positions, principally from those in Western Europe and the United States serving motor vehicle and construction markets. DuPont will also reduce the number of contract personnel by about 4,000. DuPont expects this initiative to be substantially complete in 2010.
