PROXY STATEMENT

ANNUAL MEETING OF STOCKHOLDERS TO BE HELD ON MAY 16, 2006

The accompanying proxy is solicited by the Board of Directors of National Presto Industries, Inc. (the Company), for use at the Annual Meeting of Stockholders to be held at 3925 North Hastings Way, Eau Claire, Wisconsin 54703 on May 16, 2006 at 2:00 p.m. (CDT) (the Annual Meeting), and any adjournment thereof. When such proxy is properly executed and returned, the shares it represents will be voted at the meeting and at any adjournment thereof. Any stockholder giving a proxy has the power to revoke it at any time before it is voted. Presence at the meeting of a stockholder who has signed a proxy does not alone revoke that proxy; the proxy may be revoked by returning a later dated proxy, giving written notice to the Secretary of the Company, or attending the Annual Meeting and voting in person.

At the Annual Meeting stockholders will be asked:

- (1) to elect one director for a three year term ending in 2009 and until her successor is elected,
- (2) to authorize the Board of Directors and officers of the Company to enter into any transaction, or series of transactions, the effect of which might be deemed under Section 13 of the Investment Company Act of 1940 to, ...change the nature of its business so as to cease to be an investment company¹, and
- (3) to transact such other business as may properly come before the meeting.

Only stockholders of record as of the close of business on March 8, 2006, will be entitled to vote at the Annual Meeting. The presence in person or by proxy of holders of a majority of the shares of stock entitled to vote at the Annual Meeting shall constitute a quorum for the transaction of business. Abstentions and proxies submitted by brokers who do not have authority to vote on certain matters will be considered present at the Annual Meeting for purposes of determining a quorum. The approximate date on which this proxy statement and form of proxy were first mailed to stockholders is March 31, 2006.

Directors are elected by a plurality of the votes cast, which means the individual receiving the largest number of votes will be elected a director as chosen in the election. Therefore, shares voted as withhold authority to vote will have no effect on the election of the director. The vote required on proposal (2) above is described at page 13.

- ¹ The language of the proposal is that dictated by statute. It is thus not a request to change the nature of the business, but merely an authorization to continue to administer and nurture its operating businesses. Nor is it an admission that the Company was or is an investment company.

NOMINEES AND DIRECTORS

One director is to be elected at the Annual Meeting for a term of three years. The Restated Articles of Incorporation as amended and the Bylaws of the Company currently provide for five directors, divided into three classes with two classes of two directors and one class of one director and the term of office of one class expiring each year. At each Annual Meeting, successors of the class whose term of office expires in that year are elected for a three-year term. The nominee who receives the highest number of votes will be elected director of the Company for the three-year term commencing at the Annual Meeting. Upon recommendation of the Nominating/Corporate Governance Committee, the Board of Directors propose as the nominee Maryjo Cohen, Chair of the Board, President and Chief Executive Officer of the Company, whose term expires at the meeting. Each of the directors, except Ms. Cohen and Mr. Bartl, has been determined

by the Board of Directors to qualify as an independent director as defined by the rules of the New York Stock Exchange. In addition, the Board has determined that Messrs. Cardozo, Quinn and Stienessen do not have a material relationship with the Company, other than as a Director.

Unless otherwise directed, the proxies solicited by the Board of Directors will be voted for the election of the director nominee named above. The Company believes that the nominee named above will be able to serve; but should the nominee be unable to serve as a director, the persons named in the proxies have advised that they will vote for the election of such substitute nominee as the Board may propose.

During 2005 there were six Board of Directors meetings. Each of the Directors attended all of the meetings of the Board of Directors and all meetings of committees on which that Director served. All Directors attended the 2005 Annual Meeting. The attendance policy for members of the Board of Directors may be reviewed in the corporate governance section of the Company's website located at www.gopresto.com. Directors of the Company, other than those who are also executive officers, currently receive annual compensation of \$25,000. This amount includes \$1,000 for each Board meeting and \$500 for each Committee meeting attended. Executive officers are not compensated for services as Board members.

The Company has Audit, Compensation, and Nominating/Corporate Governance Committees consisting of Messrs. Cardozo, Quinn, and Stienessen, each an independent director as defined by the rules of the New York Stock Exchange. See the Audit Committee Report for a description of the functions performed by the Audit Committee. During 2005, the Audit Committee held five meetings. Mr. Stienessen has been designated as the Audit Committee Financial Expert. The Compensation and Nominating/Corporate Governance Committees had one meeting in 2005.

The purpose of the Compensation Committee is to discharge the Board's responsibilities relating to executive compensation and other executive compensation matters, including review of the succession plans for the chief executive officer and other senior executives. Activities of the Compensation Committee shall be consistent with the Company's overall direction and purpose regarding executive compensation as set forth in its charter. See also Compensation Committee and Board Report on Executive Compensation for a further description of the functions performed by the Compensation Committee. The purpose of the Nominating/Corporate Governance Committee is to identify individuals qualified to become Board members in accordance with the criteria described below, and to take such other action consistent with provisions in its charter. The Nominating/Corporate Governance Committee is also responsible for advising the Board on corporate governance matters, which include developing and recommending to the Board corporate governance principles, overseeing the self evaluation process for the Board and its committees, and such other functions as set forth in its charter.

Charters of the Nominating/Corporate Governance, Compensation, and Audit Committees; the Corporate Governance Guidelines; and the Corporate Code of Conduct are set forth in the Corporate Governance section of the Company's website located at www.gopresto.com, and are available in print upon request.

The Company's Board of Directors has established a process whereby shareholders may send communications to the Board of Directors, as well as to the presiding Director (Mr. Cardozo) of executive sessions attended by only non-management Directors. The manner in which shareholders can send communications to the Board is set forth in the corporate governance section of the Company's website located at www.gopresto.com.

In identifying prospective director candidates, the Nominating/Corporate Governance Committee (herein the Nominating Committee) considers its personal contacts, recommendations from shareholders, and

recommendations from business and professional sources, but does not pay a fee to any third party. The Nominating Committee's policy is to consider qualified candidates for positions on the Board recommended in writing by shareholders. Shareholders wishing to recommend candidates for Board membership should submit the recommendations in writing to the Secretary of the Company at least ninety (90) days prior to May 15, 2007, with the submitting shareholder's name and address and pertinent information about the proposed nominee similar to that set forth for the nominee named herein. When evaluating the qualifications of potential new Directors, or the continued service of existing Directors, the Nominating Committee considers a variety of criteria, including the individual's reputation for honesty and integrity; respect from leaders and the general citizenry in the community in which the individual resides; the individual's knowledge of business principles and intellectual capacity to quickly grasp and understand the intricacies of the Company's businesses; attainment of official status with a leading company, agency, educational institution, or other form of enterprise; accessibility geographically and otherwise for meetings; specialized skills or expertise; diversity of background; independence; financial expertise; freedom from conflicts of interest; ability to understand the role of a Director; and ability to fully perform the duties of a Director. While candidates recommended by shareholders will generally be considered in the same manner as any other candidate, special consideration will be given to existing Directors desiring to stand for re-election given their history of service and their knowledge of the Company, as well as the Board's knowledge of their level of contribution resulting from such service. Shareholders wishing to recommend for nomination or nominate a Director should contact the Company's Secretary for a copy of the relevant procedure for submitting nominations and a full delineation of the criteria considered by the Nominating Committee when evaluating potential new Directors or the continued service of existing Directors.

Audit Committee Report

Members of the Audit Committee are independent as defined by the rules of the New York Stock Exchange and the Board of Directors has determined that no member has a relationship to the Company that may interfere with the exercise of their independence from management of the Company. It is the purpose of the Audit Committee to assist the Board of Directors in fulfilling its oversight responsibilities relating to: (1) the integrity of the Company's financial statements, (2) the Company's compliance with legal and regulatory requirements, (3) the independent auditor's qualifications and independence, and (4) the performance of the Company's internal audit function and independent auditors. Committee members have conducted an open and comprehensive dialogue with the Company's auditors regarding the 2005 year-end audited financial statements and have reviewed and discussed those statements with management.

The Audit Committee members reviewed, discussed and ratified the nature and the extent of the services to be provided by Grant Thornton LLP, including services rendered in 2005, the costs and fees for such services, and the effect of such fee arrangements on the independence of the auditors. The Committee has also discussed with the auditors matters related to SAS 61, received written disclosures from the auditors required by ISB Standard No. 1, and discussed with the auditors their independence. As a consequence of its evaluation and review, the Committee recommended to the full Board that the audited financial statements be included in the Company's annual report on Form 10-K for the 2005 calendar year based upon the aforementioned review and discussion.

Compensation Committee Interlocks and Insider Participation

As described below in the report on executive compensation, the Compensation Committee determines the compensation of the chief executive officer and makes recommendations to the Board with respect to the compensation of the other executive officers of the Company, including those listed in the above Summary Compensation Table. Board members Ms. Cohen and Mr. Bartl do not participate in decisions regarding their own compensation.

Executive officers of the Company, including Ms. Cohen and Mr. Bartl, also serve as directors and executive officers of the Company's subsidiaries.

Compensation Committee and Board Report on Executive Compensation

The purpose of the Compensation Committee is to discharge the Board's responsibilities relating to executive compensation and other executive officer matters. The Committee is specifically charged with the authority to determine the compensation of the chief executive officer and also makes recommendations to the Board with respect to the compensation of the other executive officers of the company. A more complete description of the Committee's functions and responsibilities are set forth in its written charter, which can be accessed through the Company's website at www.gopresto.com.

Edgar Filing: NATIONAL PRESTO INDUSTRIES INC - Form PRE 14A

Historically, salaries for the Company's executive officers have been maintained at a level that is considered to be below salaries for executives of comparable companies. That provided a more conservative approach to base compensation if the Company experienced significant adverse operating results that the Board of Directors, at the direction and recommendation of the Compensation Committee, believed should have resulted in a reduction in total compensation. Salaries were supplemented by amounts characterized as bonus compensation, which were paid in cash as described in the above Summary Compensation Table. The Compensation Committee and the Board considered, however, salaries and bonuses together to determine if total compensation, irrespective of how characterized, was reasonably related to the services provided. As of January 1, 2005, the amount characterized as bonus compensation was consolidated into the salary payments.

The Company historically and the Compensation Committee through the present time, have not relied upon stock incentives as a principal part of the compensation program for executive officers. However in

8

the past, the Company has made available stock purchase arrangements for executive officers. The last such arrangement for any of the executive officers named in the foregoing table was in 1997.

The Compensation Committee and the Board believe that the total salary and (prior to 2005) bonus compensation paid to executive officers is appropriate in relationship to the size and nature of the Company's business, total compensation of other executives of similar businesses, the longevity of such officers' service with the Company, the limited number of senior executives employed by the Company, and the results that have been achieved by its management group (the amounts previously characterized as bonus compensation have not been based upon a percentage or other formula utilizing revenues, income, or other financial data or measures of Company performance as predicates). As of this time, no compensation or other consultant has been retained by the Compensation Committee or the Board to evaluate executive compensation. Consideration is given, however, to data generally made available on executive compensation by such organizations.

The basis for the compensation of Ms. Cohen as Chair of the Board, President and Chief Executive Officer is determined by the Compensation Committee in a manner similar to determining the compensation for the other executive officers. In establishing Ms. Cohen's compensation, the Compensation Committee considered her demonstrated competence over many years, the scope of responsibilities assumed, and her expertise in a variety of significant niches within the business. No specific weight was assigned to any one or more of these factors in determining her total compensation.

Section 162(m) of the Internal Revenue Code imposes an annual deduction limitation of \$1.0 million on the compensation of certain executive officers of publicly held companies. The Compensation Committee and the Board do not believe that the Section 162(m) limitation will materially affect the Company in the near future based on the level of the compensation of the executive officers. If the limitation would otherwise apply, the Compensation Committee in cooperation with the Board of Directors could defer payment of a portion of the compensation to remain under the \$1.0 million annual deduction limitation.

Summary of Current Status and Proposed Authorization

On December 23, 2005, the Company's request to suspend a federal District Court's Order requiring it to register as an investment company pending an appeal of that decision was denied. Strictly for the purpose of complying with the Court's Order and in turn to avoid contempt proceedings and a bar to engaging in interstate commerce, the Company filed a formal investment company registration document with the Securities and Exchange Commission (the "SEC") on December 27, 2005. As part of the registration, the Company explained that it was filing solely to comply with the Court's order which it had appealed to the United States Court of Appeals for the Seventh Circuit. It also stated that its filing was inconsistent with the provisions of the Investment Company Act of 1940 (the "Act") which required that a company meet the definition of an investment company at the time of filing, and indicated that it would be filing shortly an application for deregistration.

Subsequently, on January 19, 2006, the Company filed a formal Section 8(f) application with the SEC requesting deregistration as an investment company. The SEC has not yet acted on the deregistration application. Historically, the deregistration process is a lengthy one. In the interim, the Company is operating under a cloud of uncertainty. One of the provisions of the Act (Section 13) prohibits a registered investment company until it secures shareholder approval from changing, ... the nature of its business so as to cease to be an investment company. The application of the section to a business like the Company's is unclear. It is the Company's view and belief that it did not meet the definition of an investment company at the time that it filed. As a result, although it has not changed the nature of its business, its policies and actions then and now are those of an operating company, not an investment company. On one hand, since there has been no change, one reasonable interpretation is that the provision does not apply. On the other hand, the provision could be read as a mandate for the Company to change the nature of its business, to cease administering and nurturing its operating businesses which provide most of the Company's income, and instead limit its primary activity to investing. Although the Company does not think such an interpretation is a correct reading of the law, in light of the potential serious ramifications stemming from such an interpretation, the Company believes the prudent course of action is to secure shareholder approval

to continue to act as an operating company. Accordingly, the Company is seeking approval by shareholders of a proposal using the language of the statute, which authorizes the Board of Directors and officers to enter into any transaction, or series of transactions, that might have the effect of changing ...the nature of its business so as to cease to be an investment company. Such approval will enable the Company to continue to pursue means to build and increase the ongoing value of the Company's operating businesses, a course of action which it believes is in the best interests of our shareholders. **Consequently, the Board of Directors and management of the Company unanimously recommend that shareholders vote FOR the proposed authorization.**

¹ The language of the proposal is that dictated by statute. It is thus not a request to change the nature of the business, but merely an authorization to continue to administer and nurture its operating businesses. Nor is it an admission that the Company was or is an investment company.

Pending Litigation

The District Court's December 23, 2005, denial of the Company's request to suspend its earlier Order stems from the Court's October 31, 2005, Decision granting the SEC's pre-trial motion for summary judgment resulting from a July 2002 lawsuit in which the SEC alleged that the Company was an investment company under the Act. This decision has since been appealed by the Company to the United States Court of Appeals for the Seventh Circuit. Both the Company and its counsel believe that the District Court Decision will be reversed on appeal. It is the Company's view and belief that it is not now and has never been an investment company. Rather, throughout its 100 year history the Company has consistently been, and held itself out as being, an operating Company.

Definition of an Investment Company

The Act defines an Investment Company to include any corporation which (i) is or holds itself out as being engaged primarily in the business of investing, reinvesting or trading in securities or (ii) a corporation that is engaged in the business of investing, reinvesting, owning, holding or trading in securities; owns certain securities that, on an unconsolidated basis, have a value exceeding 40% of the value of its total assets; and is not primarily engaged, directly or through a wholly-owned subsidiary or subsidiaries, in a business or business other than that of investing, reinvesting, owning, holding or trading in securities. Thus, an investment company is primarily engaged in investing and reinvesting funds in, and acquiring and disposing of, securities and deriving dividends, interest and gain from such securities transactions. An investment company is significantly different from an operating company that focuses on running a business or businesses rather than making passive investments. The Act regulates and restricts a registered investment company, but does not apply to an operating company.

The Company believes that it has not been and is not now an investment company as defined in (i) or (ii) above. The Company is not and does not hold itself out as being primarily engaged in the business of investing, reinvesting, or trading in securities. Instead, it is primarily engaged in running its operating businesses.

The Company's Operating Businesses

Since the Company's creation in 1905, and throughout its 100 year history, including the present time, it has been a designer and marketer of pressure cookers and small household appliances. Through 2002, it also manufactured most of these products. Those products have been marketed nationally and internationally under the PRESTO brand name for more than 65 years. In addition, at various time periods during its century as an operating business, the Company has been engaged in manufacturing defense items for the United States Government and its prime contractors. At the present time its defense activities focus on medium caliber ammunition programs for the Department of the Army and its prime contractors which include the key elements for tactical and training ammunition as well as specialized items, such as, fuzes, firing devices, initiators, load, assemble, pack (LAP) services and cartridge cases. In recent years the Company has also become a manufacturer of absorbent products, producing baby diapers, adult incontinent products, and puppy pads primarily for the private label market. Based on its operations in housewares/small appliances,

defense and absorbent products, the Board of Directors and management believe that there is no question that it is an operating company and not an investment company.

Board Recommendation

For the past one hundred years, the housewares/small appliance business has been the main stay of the Company's overall profitability. In recent years the defense and absorbent product operations have steadily increased their contributions to the overall corporate revenues. The defense operations have also become an important contributor to bottomline corporate profitability. Accordingly, not only does the housewares/small appliance business, but also the defense and absorbent product segments have the potential to make significant contributions to sales and earnings in the current and future years. To insure that there is no question that the Company is able to continue to administer and nurture these operating businesses, the shareholders are being asked to vote in favor of the proposed authorization. The Board of Directors unanimously recommends that shareholders vote **FOR** the proposed authorization.

Vote Required

The authorization being requested from our shareholders, namely,

to authorize the Board of Directors and officers of the Company to enter into any transaction, or series of transactions, the effect of which might be deemed under Section 13 of the Investment Company Act of 1940 to ...change the nature of its business so as to cease to be an investment company¹

requires an affirmative vote of the lesser of (a) 67% of the Company's outstanding voting securities present at the Meeting, if the holders of more than 50% of the Company's outstanding voting securities are present in person or represented by proxy, or (b) more than 50% of the Company's outstanding voting securities.

Proxies solicited herewith will be voted in accordance with the instructions given. **When Specific Instructions are Not Given, Such Proxies Will Be Voted in Favor of the Proposed Authorization.**

¹ The language of the proposal is that dictated by statute. It is thus not a request to change the nature of the business, but merely an authorization to continue to administer and nurture its operating businesses. Nor is it an admission that the Company was or is an investment company.
