Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-Q

The accompanying unaudited consolidated financial statements have been prepared in accordance with United States generally accepted accounting principles ("U.S. GAAP") for interim financial information. Accordingly they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of financial position and results of operations have been included. Operating results for the nine months period ended September 30, 2001 are not necessarily indicative of the results that may be expected for the year ended December 31, 2001. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on form 10-KSB for the year ended December 31, 2000.

The accompanying financial statements have been presented in Swedish Kronor ("SEK") which is the principal currency in which Private Media Group, Inc. generate their cash flows.

Solely for the convenience of the reader, the accompanying consolidated financial statements as of September 30, 2001 and for the nine months then ended have been translated into United States dollars ("USD") at the rate of SEK 10.66 per USD 1.00 the exchange rate of the Swedish Riksbank on September 30, 2001. The translations should not be construed as a representation that the amounts shown could have been, or could be, converted into US dollars at that or any other rate.

Short term investments

The Company considers highly liquid investments which generally have insignificant interest rate risk and original maturities of three months or less to be cash and cash equivalents. Investments with maturities greater than three months are classified as short-term investments. All of the Company's investments are classified as available-for-sale and are reported at fair value with unrealized gains and losses, net of tax, recorded as a component of comprehensive income included in stockholders' equity. Realized gains and losses and declines in value judged to be other-than-temporary on available-for-sale securities are included in investment income. Gross unrealized gains and losses on short-term investments were not significant at September 30, 2001. The Company manages its cash equivalents and short-term investments as a single portfolio of highly marketable securities, all of which are intended to be available for the Company's current operations.

2. Restatement

As previously reported in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2000, in connection with the preparation of the Company's 2000 annual financial statements, management of the Company determined that the previously issued 1996, 1998 and 1999

-4-

financial statements required restatement. Certain of the items requiring restatement also affected certain previously issued interim consolidated financial statements, including the consolidated financial statements contained in the Company's Form 10-QSBs for the quarters ended March 31, June 30 and September 30, 2000. The impact of the restatement on the June 30 and September 30, 2000 net income was a reduction of SEK 2,820 thousand (SEK 0.06 per diluted share) and SEK 3,748 thousand (SEK 0.08 per diluted share) in each quarter respectively. Accordingly, the previously issued interim financial statements for the three and nine months ended September 30, 2000, have been restated.

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-Q

The Company has revised its previously reported basic earnings per share presentation for the three and nine month periods ended September 30, 2000, respectively to properly reflect the issuance of common shares as dividends earned on its outstanding convertible preferred stock. This had the effect of reducing previously reported basic earnings per share by SEK 0.13 per share and SEK 0.35 per share, for the three and nine month periods ended September 30, 2000, respectively. This change had no effect on previously reported diluted earnings per share in any of these periods.

The excess of the purchase price over the fair market value of the net assets acquired has resulted in goodwill of SEK 4,631,259. Goodwill is being amortized on a straight line basis over 10 years.

The allocation of the purchase price is as follows:

6. Recent Accounting Pronouncements

On July 20, 2001, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 141 "Business Combinations" ("SFAS 141") and No. 142 "Goodwill and Other Intangible Assets" ("SFAS 142"). SFAS 141 eliminates the use of the pooling-of interests method of accounting for business combinations and clarifies the criteria used to recognize intangible assets separately from goodwill in accounting for a business combination under the purchase method. SFAS 141 is effective for any business combination accounted for by the purchase method that is completed after June 30, 2001 and this statement supercedes APB Opinion No. 16 "business Combinations" and related interpretations.

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-Q

Under SFAS 142, goodwill and indefinite lived intangible assets will no longer be amortized but will be reviewed annually for impairment (or more frequently if indicators of impairment arise). Further separable intangible assets that are not deemed to have an indefinite life will continue to be amortized over their expected useful lives with no maximum life specified; whereas under prior rules a maximum life of 40 years was required.

The amortization provisions of SFAS 142 apply to goodwill and intangible assets acquired after June 30, 2001. With respect to goodwill and intangible assets acquired prior to July 1, 2001, companies are required to adopt Statement 142 in fiscal years beginning after December 15, 2001 (i.e., January 1, 2002 for calendar year companies). Early adoption is permitted for companies with fiscal years beginning after March 15, 2001 provided that their first quarter financial statements have not been issued. Because of the different transition dates for goodwill and intangible assets acquired on or before June 30, 2001 and those acquired after that date, pre-existing goodwill and intangibles will be amortized during this transition period until adoption whereas new goodwill and indefinite lived intangible assets acquired after June 30, 2001 will not.

Adoption of these new standards will have an impact on the Company's reported goodwill amortization expense and potentially on the carrying value of goodwill. Goodwill amortization expense for the nine months ended September 30, 2001 amounted to SEK 2,156 thousand, and the net carrying value of goodwill as of that date was SEK 26,344 thousand.

In August 2001 the Financial Accounting Standards Board issued Statement of Financial Accounting Standard No. 143 "Asset Retirement Obligations" ("SFAS 143") regarding non-temporary removal of long-lived asset from service, whether by sale, abandonment, recycling or other method of disposal.

Under SFAS 143 qualifying asset retirement obligations resulting from legal obligations associated with retirement are recorded at present fair value when the liability is deemed probable,

-9-

which for assets acquired subject to existing retirement obligations will entail recognition upon acquisition.

The fair present value of the retirement obligations are recorded as an increase to long-lived assets, which is subsequently amortized using a systematic and rational allocation method. Under SFAS 143 the retirement obligation is accreted to future value over time, with the increase in obligation being recorded as interest expense.

SFAS 143 will become effective the first day of fiscal years beginning after June 15, 2002, which for the Company will be January 1, 2003, with early application permitted. The transition impact will be recorded as a cumulative change in accounting policy as of the beginning of the fiscal year. Management does not expect that the adoption of SFAS 143 will have a material impact on the of the Company's results of operations or financial position.

In October 2001 the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 144 "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS 144"). SFAS 144 supercedes Statement of Financial Accounting Standard No. 121, "Accounting for the Impairment of Long-Lived Assets to be Disposed Of ("SFAS 121)" and those sections of Accounting Principle Board Standard No. 30 "Reporting the Results of Operations" ("APB 30"), related to discontinued operations. The scope of SFAS 144 includes long-lived assets, or groups of assets, to be held and used as well as those which

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-Q

are to be disposed of by sale or by other method, but excludes a number of long-lived assets such as goodwill and intangible assets not being amortized under the application of SFAS 142. Under SFAS 144 the impairment test methodologies of SFAS 121 are essentially unchanged as the standard requires testing for impairment when indicators of impairment are in evidence, and that impairment losses are recognized only if the assets carrying value is not recoverable (based on undiscounted cash flows) and the carrying value of the long lived asset (group) is higher than the fair value.

SFAS 144 is effective the first day of fiscal years beginning after December 15, 2001, which for the Company will be January 1, 2002, with early application encouraged. Management does not expect that the adoption of SFAS 144 will have a material impact on the of the Company's results of operations or financial position.

7. Contingent Liability

In December 1999 the Company received final notification from the Swedish Tax Authority assessing its subsidiary in Cyprus for the tax years 1995-1998 for a total amount of SEK 42,000,000 plus fines amounting to SEK 16,800,000 plus interest. The Company believes the assessment is without merit and is in the process of appealing the assessment to the Administrative Court in Stockholm. The final outcome of the appeal is expected to take several years and the Company has asked for a postponement of payment of the taxes and fees until the case is settled. No final decision has been given.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read this section together with the consolidated financial statements and the notes and the other financial data in this Report. The matters that we discuss in this section, with the exception of historical information, are "forward-looking statements" within the meaning of the Private Securities Reform Act of 1995. Such forward-looking statements are subject to risks, uncertainties and other factors which could cause our actual results to differ materially from those expressed or implied by such forward-looking statements. Potential risks and uncertainties relate to factors such as (1) the timing of the introduction of new products and services and the extent of their acceptance in the market; (2) our expectations of growth in demand for our products and services; (3) our ability to successfully implement expansion and acquisition plans; (4) the impact of expansion on our revenue, cost basis and margins; (5) our ability to respond to changing technology and market conditions; (6) the effects of regulatory developments and legal proceedings with respect to our business; (7) the impact of exchange rate fluctuations; and (8) our ability to obtain additional financing.

As previously reported in our Annual Report on Form 10-KSB for the year ended December 31, 2000, in connection with the preparation of our 2000 annual financial statements, our management determined that the previously issued 1996, 1998 and 1999 financial statements required restatement. Certain of the items requiring restatement also affected certain previously issued interim consolidated financial statements, including the consolidated financial statements contained in our Form 10-QSBs for the quarters ended March 31, June 30 and September 30, 2000.

Accordingly, the previously issued interim financial statements for the three and nine months ended September 30, 2000, have been restated in this Report as described in Note 2 to the accompanying Consolidated Financial Statements to reflect (i) increases in previously reported income tax expense in

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-Q

both years related to certain intercompany contractual arrangements which affect the character and amount of taxable income reported in certain countries, and (ii) increased revenues, operating expenses and interest expense in both years as a result of the consolidation of two companies, Private Circle, Inc. and Viladalt S.L., which we may be deemed to have controlled during the periods. All amounts and percentages in the following discussions reflect the effects of such restatements.

We have revised our previously reported basic earnings per share presentation for the three and nine month periods ended September 30, 2000, respectively to properly reflect the issuance of common shares as dividends earned on our outstanding convertible preferred stock. This had the effect of reducing our previously reported basic earnings per share by SEK 0.13 per share and SEK 0.25 per share, for the three and nine month periods ended September 30, 2000, respectively.

-11-

The change had no effect on previously reported diluted earnings per share in any of these periods.

The following discussion should be read in conjunction with the consolidated financial statements and related notes included elsewhere in this Report.

Results of Operations

Three months ended September 30, 2001 compared to the three months ended September 30, 2000

Net sales. For the three months ended September 30, 2001, we had net sales of SEK 86.7 million compared to net sales of SEK 67.4 million for the three months ended September 30, 2000, an increase of 28.6%. We attribute this change mainly to an increase in DVD and Internet (subscriptions and licensing) sales. DVD sales increased 166% to SEK 36.4 million for the three months ended September 30, 2001. Film sales in videocassette format increased slightly during the same period. Internet sales for the same period increased 40% to SEK 17.7 million. We attribute the growth in sales of DVDs to the increasing number of DVD players being sold in all of our markets. We attribute the growth in Internet subscriptions and sales to the increasing number of people who are able to connect to the Internet. Sales from DVD and Internet provide additional net sales from content previously sold on videocassette. We believe that the growth in DVD and Internet sales will continue through the remainder of 2001.

There was no material change in net sales of magazines and broadcasting (cable, satellite and hotel-television programming) during the period compared to the three months ended September 30, 2000.

During the three months ended September 30, 2001, the DVD, Internet and broadcasting sales, taken as a whole, increased 75%, to SEK 59.0 million compared to the three months ended September 30, 2000.

In May, 2001 we sold our interest in our subsidiary, Private Circle, Inc., which engaged in the design, production and marketing of trendy apparel. Accordingly, revenues and expenses associated with Private Circle, Inc. did have a some impact in the third quarter of 2000, but not in 2001.

Cost of Sales. Our cost of sales was SEK 23.7 million for the three months ended September 30, 2001 compared to SEK 22.8 million for the three months ended September 30, 2000, an increase of SEK 0.9 million, or 3.8%. The increase was primarily the result of an increase in sales volume. Cost of sales as a percentage of sales was 27.4% for the three months ended September 30, 2001, a reduction

Edgar Filing: PRIVATE MEDIA GROUP INC - Form 10-Q

-12-

of 6.5% compared to the three months ended September 30, 2000. This improvement was the direct effect of lower costs associated with DVD, Internet and broadcasting sales.

Gross Profit. In the three months ended September 30, 2001, we realized a gross profit of SEK 62.9 million, or 72.6% of net sales compared SEK 44.6 million, or 66.1% of net sales for the three months ended September 30, 2000. This represented an increase of 6.5% in gross profit in relation to net sales. We attribute this increase to increased sales in areas with higher margins such as DVD, Internet and broadcasting.

Selling, general and administrative expenses. Our selling, general and administrative expenses were SEK 38.2 million for the three months ended September 30, 2001 compared to SEK 24.4 million for the three months ended September 30, 2000, an increase of SEK 13.8 million, or 56.8%. We attribute this increase to our continued investment in Internet, DVD and broadcasting related activities and we expect this to continue through 2002.

Operating profit. We reported an operating profit of SEK 24.8 million for the three months ended September 30, 2001 compared to SEK 20.2 million for the three months ended September 30, 2000, an increase of SEK 4.5 million, or 22.5%. We attribute this increase primarily to increased sales and higher margins.

Interest expense. We had no interest expense for the three months ended September 30, 2001, compared to SEK 1.2 million for the three months ended September 30, 2000, a decrease of SEK 1.2 million. We attribute this decrease to payoff of long term debt related to land and building and lower average short-term borrowings outstanding during the three months ended September 30, 2001, compared to the three months ended September 30, 2000.

Income taxes. We estimate income taxes for the interim period based on the effective tax rate expected to be applicable for our full fiscal year. Nine months ended September 30, 2001 compared to the nine months ended September 30, 2000

Net sales. For the nine months ended September 30, 2001, we had net sales of SEK 266.9 million which compared to net sales of SEK 184.2 million for the nine months ended September 30, 2000 represents an increase of 44.9%. We attribute this change mainly to an increase in DVD, Internet (subscriptions and licensing) and broadcasting (cable, satellite and hotel-television programming) sales. Sales from broadcasting increased 51% to SEK 19.2 million compared to the nine months ended September 30, 2000. DVD sales increased 156% to SEK 84.4 million for the nine months ended September 30, 2001. Film sales in videocassette format increased slightly during the same period. Internet sales for the same

period increased 81% to SEK 55.3 million. We attribute the growth in sales of DVDs to the increasing number of DVD players being sold in all of our markets. We attribute the growth in broadcasting sales to the growing digital satellite and cable television market. We attribute the growth in Internet sales to the increasing number of people who are able to connect to the Internet. Sales from broadcasting, DVD and Internet provided additional net sales from content previously sold on videocassette. We believe that the growth in broadcasting, DVD and Internet sales will continue through the remainder of 2001.

Net sales of magazines remained approximately the same during period compared to the nine months ended September 30, 2000.

During the nine months ended September 30, 2001, the DVD, Internet and broadcasting sales, taken as a whole, increased 108%, to SEK 158.9 million compared to the nine months ended September 30, 2000.

In May, 2001 we sold our interest in our subsidiary, Private Circle, Inc., which engaged in the design, production and marketing of trendy apparel. Accordingly, revenues and expenses associated with Private Circle, Inc. did not have a significant impact in the second and third quarter of 2001. Also, during the second quarter of 2001 we acquired the assets of Private USA, our North American distributor. As a result of the change in ownership, revenues associated with Private USA during this quarter declined and operations were briefly suspended, causing a temporary decline in revenues from North American distribution activities. Our distribution activities in North America are now operating normally.

Cost of Sales. Our cost of sales was SEK 86.7 million for the nine months ended September 30, 2001 compared to SEK 74.8 million for the nine months ended September 30, 2000, an increase of SEK 11.8 million, or 15.8%. The increase was primarily the result of an increase in sales volume. Cost of sales as a percentage of sales was 32.5% for the nine months ended September 30, 2001 a reduction of 8.1% compared to the nine months ended September 30, 2000. This improvement was the direct result of lower costs associated with DVD, Internet and broadcasting sales.

Liquidity and Capital Resources

We reported a working capital surplus of SEK 212.5 million at September 30, 2001, an increase of SEK 72.0 million compared to the year ended December 31, 2000. The increase is principally attributable to increased short-term investments, accounts receivable and inventories offset by accounts payable trade, income taxes payable and accrued other liabilities.

Operating Activities

Net cash provided by operating activities was SEK 58.7 million for the nine months ended September 30, 2001, and was primarily the result of net income and adjustments to reconcile net income to net cash flows from operating activities. The net income of SEK 74.7 million and adjustments to reconcile net income to net cash flows from operating activities, representing depreciation of SEK 4.3 million, tax provision on asset held for sale of SEK 4.0 million, amortization of goodwill of SEK 2.2 million, and amortization of photographs and videos of SEK 31.8 million offset by gain on sale of controlled entity of SEK 17.2 million, provided a total of SEK 99.7 million. The total of SEK 99.7 million was then primarily reduced by the increases in trade accounts receivable, related party receivable, inventories and prepaid expenses and other current assets and totaling SEK 61.1 million, offset by SEK 20.1 million from accounts payable trade, income taxes payable and accrued other liabilities. Net cash provided by operating activities was SEK 26.5 million for the nine months ended September 30, 2000. The increase in cash provided by operating activities for the nine months ended September 30, 2001 is principally the result of net income and adjustments to reconcile net income to net cash flows from operating activities.

Investing Activities

Net cash used in investing activities for the nine months ended September 30, 2001 was SEK 52.9 million. The investing activities were principally investment in library of photographs and videos of SEK 53.7 million, which are carried out in order to maintain the 2001 and 2002 release schedules for both video and DVD. by SEK 21.4 million from cash from sale of controlled entity, SEK 21.0 million from asset held for sale and SEK 1.2 million from other assets. The increase over the comparable nine-month 2000 period is principally due to increased short-term investments as a result of cash received from sale of controlled entity, investments in library of photographs and videos in order to maintain inventory levels and expand DVD activities and investments in subsidiary represented primarily by the acquisition of assets from Private USA to be invested in our proprietary distribution operation in the U.S.

We expect that our available cash resources and cash generated from operations will be sufficient to meet our presently anticipated working capital and capital expenditure requirements for at least the next 12 months. However, we may need to raise additional funds to support more rapid expansion or respond to unanticipated requirements. If additional funds are raised through the issuance of equity securities, our shareholders' percentage ownership will be reduced, they may experience additional dilution, or these newly issued equity securities may have rights, preferences, or privileges senior to those of our current shareholders. Additional financing may not be available when needed on terms favorable to us, or at all. If adequate funds are not available or are not available on acceptable terms, we may be unable to develop or enhance our products and services, take advantage of future opportunities or respond to competitive pressures or unanticipated requirements, which could harm our business.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

We transact our business in various foreign currencies and, accordingly, we are subject to exposure from adverse movements in foreign currency exchange rates. The principal currencies in which our revenues and expenses are incurred are the Swedish Kronor, various Euro-zone currencies and the U.S. dollar. To date, the effect of changes in foreign currency exchange rates on revenues and operating expenses has not been material.

We do not use financial instruments or derivatives to hedge our operations in foreign currencies or for speculative trading purposes.
