**Table of Contents****PROVENA FOODS INC.****NOTES TO CONDENSED FINANCIAL STATEMENTS****September 30, 2002 and 2001****(1) Basis of Presentation**

The accompanying unaudited condensed financial statements have been prepared in accordance with the requirements of Form 10-Q and, therefore, do not include all information and footnotes which would be presented were such financial statements prepared in accordance with generally accepted accounting principles in the United States of America for annual financial statement purposes. These statements should be read in conjunction with the audited financial statements presented in the Company's Form 10-K for the year ended December 31, 2001. In the opinion of management, the accompanying financial statements reflect all adjustments which are necessary for a fair presentation of the results for the interim periods presented. Such adjustments consisted only of normal recurring items. The results of operations for the three months and nine months ended September 30, 2002 are not necessarily indicative of results to be expected for the full year.

**(2) Inventories**

Inventories at September 30, 2002 and December 31, 2001 consist of:

	<u>2002</u>	<u>2001</u>
Raw materials	\$ 1,135,826	1,393,975
Work-in-process	702,345	842,577

**(4) Earnings (Loss) per Share**

Basic earnings (loss) per share are net earnings (loss) divided by the weighted average number of common shares outstanding during the period, and diluted earnings (loss) per share are net earnings (loss) divided by the sum of the weighted average plus an incremental number of shares attributable to outstanding options. Options for 107,111 shares were not used in the calculations for the following periods because their effect would be antidilutive.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2002	2001	2002	2001
Net earnings (loss)	\$ 228,666	(238,504)	377,140	(327,272)

Royal Angelus	2,577	2,969	7,910	8,056

**Forward-Looking Statements**

The following discussion may contain forward-looking statements that express or imply expectations of future performance, developments or occurrences. Actual events may differ materially from these expectations due to uncertainties relating to the economy, competition, demand, commodities, credit markets, energy supplies and other factors.

**Swiss American Sausage Co. Meat Division**

Sales by the processed meat division increased 12% in dollars and 16% in pounds in the 1st nine months of 2002 and were essentially the same in dollars but increased 13% in pounds in the 3rd quarter of 2002, compared to the same periods of 2001. Sales in pounds increased proportionately more than in dollars because of lower selling prices reflecting lower meat costs. Swiss operated at a \$1,187,268 profit for the 1st nine months of 2002 compared to a \$309,544 profit for the 1st nine months of 2001, and at a \$646,299 profit for the 3rd quarter of 2002 compared to a \$176,155 loss for the 3rd quarter of 2001. The profit improvements resulted from a combination of increased sales and favorable meat cost fluctuations. Meat costs were predominately lower and decreasing during 2002 as opposed to higher and increasing during the 1st nine months of 2001.

**Royal-Angelus Macaroni Company Pasta Division**

The pasta division's sales increased about 9% in dollars but decreased 2% in pounds in the 1st nine months of 2002 and decreased 5% in dollars and 13% in pounds in the 3rd quarter of 2002, compared to the same periods of 2001. Sales in pounds decreased without commensurate decreases in dollars because of higher selling prices reflecting higher flour costs. Royal operated at a \$434,633 loss for the 1st nine months of 2002 compared to a \$450,556 loss for the 1st nine months of 2001 and a \$181,148 loss for the 3rd quarter of 2002 compared to a \$100,938 loss for the 3rd quarter of 2001. The increased loss in the 3rd quarter of 2002 resulted from a combination of lower sales and lower gross margins compared to the same period of 2001. Royal continues to struggle as sales and operating results are adversely affected by competition resulting from increased industry capacity, and is intensifying its efforts to seek personnel experienced in pasta sales and production, to aggressively pursue sales opportunities and to improve margins.

## **Table of Contents**

### **The Company**

Company sales were up 12% in the 1st nine months of 2002 compared to the 1st nine months of 2001 and were essentially the same in the 3rd quarter of 2002 compared to the 3rd quarter of 2001. The Company realized net earnings of \$377,140 for the 1st nine months of 2001 compared to a net loss of \$327,272 a year ago and net earnings of \$228,666 for the 3rd quarter of 2002 compared to a net loss of \$238,504 a year ago. Swiss accounted for substantially all of the increased sales and earnings. The Company's gross margins for the 1st nine months and 3rd quarter of 2002 were 11.6% and 13.9%, respectively, compared to 7.9% and 4.3% a year ago. Swiss's gross margins were higher for both periods, whereas Royal's were higher for the nine months but lower for the 3rd quarter, all comparing periods in 2002 to the same periods in 2001. Swiss's margins were higher because of increased sales and favorable meat cost fluctuations. Royal's margins were higher for the 1st nine months because of higher average selling prices, but were lower for the 3rd quarter because of lower plant utilization on lower sales and higher flour costs.

General and administrative expense was up about \$266,000 for the 1st nine months of 2002 and up about \$159,000 in the 3rd quarter of 2002, compared to the same periods in 2001, due in part to increases in bad debt expense, health benefit costs, outside services and bank charges. Distribution expense was up about \$7,000 for the 1st nine months and \$14,000 for the 3rd quarter because of increased freight on increased sales and increased liability insurance expense, offset by lower salesman expense and advertising. Net interest expense decreased about \$124,000 for the 1st nine months and \$17,000 for the 3rd quarter of 2002 because of lower interest rates and lower borrowings. Other income increased for the 1st nine months in part because of increased rental income at Royal, but decreased for the 3rd quarter primarily because of reduced waste product sales at Swiss.

Meat plant employees are represented by United Food and Commercial Workers Union, Local 588, AFL-CIO, CLC under a collective bargaining agreement which expires April 2, 2006. Pasta plant employees are represented by United Food and Commercial Workers Union, Local 1428, AFL-CIO, CLC under a collective bargaining agreement which expired September 29, 2002 and for which a four year extension has been negotiated, subject to ratification. There has been no significant labor unrest at the Company's plants and the Company believes it has a satisfactory relationship with its employees.

### **Liquidity and Capital Resources**

The Company has generally satisfied its normal working capital requirements with funds derived from operations and borrowings under its bank line of credit, which is part of a credit facility with Comerica Bank-California. The line of credit is payable on demand, is subject to annual review, and bears interest at a variable annual rate which is 0.75% over the bank's Base Rate if working capital exceeds \$50,000 and tangible net worth exceeds \$8,750,000 and 1.75% over the Base Rate otherwise. The variable rate decreased from 1.75% to 0.75% over the Base Rate on September 1, 2002. The maximum amount of the line of credit is the lesser of \$4,000,000, or 30% of inventories plus 80% of eligible receivables, with a limit of \$1,000,000 for inventories, determined monthly. At September 30, 2002 the Base Rate was 4.75% per annum,

**Table of Contents**

30% of inventories was \$981,245 and 80% of eligible receivables was \$2,851,148 for a total maximum of \$3,823,393 and the Company had \$3,259,195 of borrowings outstanding under the bank line of credit.

As part of the credit facility, Comerica Bank-California issued a \$4,060,000 letter of credit to support \$4,000,000 of industrial development bonds issued in 1998 for costs relating to the construction of the Company's meat plant. The bonds bear a variable rate of interest payable monthly and set weekly at a market rate 1.7% per annum at September 30, 2002. The Company pays a 1.5% per annum fee on the amount of the letter of credit and fees of the bond trustee estimated at 0.5% of the bond principal per year. Monthly payments of bond principal into a sinking fund began May 1, 2000, totaled \$76,700 the first year and increase about 5.6% each year until May 1, 2022, when \$813,500 of remaining principal is payable in 18 equal monthly payments.

Also as part of the credit facility, the bank made four loans to the Company for the meat plant, a \$1,280,000 real estate loan and three equipment loans totalling \$2,614,788. The real estate loan was made in December 1999, bears a fixed rate of interest of 9.1% per annum and is payable in equal monthly payments of principal and interest over its 25 year term. Each equipment loan bears a variable rate of interest and is payable in equal monthly payments of principal plus interest over its term, with issue date, initial amount, term and rate as follows: July 1999, \$1,000,000, 7 year, bank's Base Rate; September 1999, \$1,200,000, 7 year, bank's Base Rate plus 0.25%; and December 1999, \$414,788, 5 year, bank's Base Rate plus 0.75%.

All parts of the credit facility are secured by substantially all of the Company's assets, including accounts receivable, inventory, equipment and fixtures, the Company's two pasta buildings and the meat plant, none of which is otherwise encumbered. The credit facility prohibits mergers, acquisitions, purchase or disposal of assets, borrowing, granting security interests, and changes of management and requires a tangible net worth greater than \$8,900,000, increasing by \$200,000 each quarter after June 30, 2002; working capital not less than negative \$425,000 increasing by \$200,000 each quarter after June 30, 2002; debt service coverage not less than 1.3; and quarterly dividends not exceeding the net income of the prior quarter. The Company was in compliance with the covenants at September 30, 2002 and expects to be in compliance with all covenants at December 31, 2002.

Cash decreased \$139,851 in the 1st nine months of 2002 compared to a \$37,667 decrease in the 1st nine months of 2001. Operating activities provided \$1,077,197 of cash primarily from net earnings, depreciation and amortization, increases in accounts payable, accrued liabilities and income taxes payable and a decrease in deferred tax assets, partially offset by an increase in accounts receivable and smaller increases in inventories, prepaid expenses, prepaid taxes and other assets. Accounts receivable and inventories increased as a result of increased sales. Investing activities used \$85,773 of cash for modest additions to property and equipment, and financing activities used \$1,131,275 of cash for payments on long term debt and the capital lease obligation and repayments of the bank line of credit.

**Table of Contents****Commitments and Contingencies**

The following table shows the long-term debt principal and capital lease obligation payments due in the specified periods. The lease payments are estimates because they are proportional to pounds of a product sold.

	Three Months Ending December 31,		Year Ending December 31,				Thereafter
	Totals	2002	2003	2004	2005	2006	
	(amounts in thousands)						
Long-Term Debt	\$ 6,605	106	504	504	435	341	4,612
Capital Lease Obligation	516	34	113	113	113	115	-0-
Totals	\$ 7,121	140	617	617	548	456	4,612

The Company expects that its operations and bank line of credit will provide adequate working capital to satisfy the normal needs of its operations for the foreseeable future, including cash flow to service its debt.

The Company believes that it has a good relationship with Comerica Bank-California, as evidenced by the bank's previous over-advances under the line of credit, waivers in prior years of defaults under the financial covenants and modifications of the financial covenants. That relationship is crucial to the Company, because the line of credit is payable on demand, the Company could not make an immediate repayment of the line of credit, and a failure to repay the line after demand would render the entire credit facility in default. As a result, neither a default under a financial covenant nor the bank's waiver of such a default affects the bank's power to cause the credit facility to be in default and require that it be restructured or refinanced. The Company was in compliance with the financial covenants at September 30, 2002.

**Critical Accounting Policies**

In December 2001, the Securities and Exchange Commission requested that all registrants list their most critical accounting policies in Management's Discussion and Analysis of Financial Condition and Results of Operations, and indicated that a critical accounting policy is one which is both important to the portrayal of the registrant's financial condition and results of operations and requires management's most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. Critical for the Company is determining the allowance for doubtful accounts because of the risk of failing to foresee a major credit loss, and inventory valuation when inventory cost may exceed fair value less cost to sell because of the difficulty of determining the latter.

**New Accounting Standards**

The Financial Accounting Standards Board in June 2001 issued Statement of Financial Accounting Standards (SFAS) No. 141, Business Combinations applicable to business combinations initiated after June 30, 2001, SFAS No. 142, Goodwill and Other Intangible Assets effective January 1, 2002 and SFAS No. 143, Accounting for Asset Retirement Obligations effective January 1, 2003; in August 2001 issued SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets effective January 1, 2002; in April 2002 issued SFAS No. 145, Rescission of FASB Statements No. 4, 44, and 64, Amendment of

**Table of Contents**

FASB Statement No. 13, and Technical Corrections effective May 15, 2002; and in July 2002 issued SFAS No. 146 Accounting for Costs Associated with Exit or Disposal Activities effective December 31, 2002. These standards are adopted by the Company as they become effective and, in the opinion of management, have not had and will not have a material effect on the Company's financial position, results of operations or liquidity.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK**

The industrial development bonds, the bank line of credit, and the equipment loans bear variable rates of interest (see **Liquidity and Capital Resources** under **Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**) which tend to follow market interest rates and change the Company's interest expense in the same direction as changes in interest rates. A 1% per annum change in the rate borne by the industrial development bonds would change annual interest expense by almost \$40,000. Assuming an average bank line of credit balance of \$3,200,000 plus \$1,400,000 average principal balance of equipment loans, a 1% per annum change in the rate borne by those borrowings would change annual interest expense by \$46,000.

**ITEM 4. DISCLOSURE CONTROLS AND PROCEDURES**

The Company's Chief Executive Officer and Chief Financial Officer have evaluated the effectiveness of the Company's disclosure controls and procedures within 90 days prior to the filing of this report and have concluded that: there are no significant deficiencies in the design or operation of internal controls which could adversely affect the Company's ability to record, process, summarize and report financial data; there are no material weaknesses in internal controls; and, there is no fraud, whether or not material, that involves management or other employees who have a significant role in the Company's internal controls. There have not been any changes in internal controls or in other factors that could significantly affect internal controls subsequent to the most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

**PART II. OTHER INFORMATION**

**ITEM 1. LEGAL PROCEEDINGS**

No significant litigation.

**ITEM 2. CHANGES IN SECURITIES**

None.

**ITEM 3. DEFAULTS UPON SENIOR SECURITIES**

None.

**ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS**

None.

**ITEM 5. OTHER INFORMATION**
