REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To The Board of Directors and Stockholders of
Universal Insurance Holdings, Inc. and Subsidiaries
Fort Lauderdale, Florida

We have reviewed the accompanying condensed consolidated balance sheet of UNIVERSAL INSURANCE HOLDINGS, INC. AND SUBSIDIARIES as of March 31, 2008 and the related condensed consolidated statements of operations and cash flows for each of the three-month periods ended March 31, 2008 and 2007. These interim financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

7

UNIVERSAL INSURANCE HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2008
(UNAUDITED)

1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements include the accounts of Universal Insurance Holdings, Inc. ("Company"), its wholly owned property and casualty insurance subsidiary, Universal Property & Casualty Insurance Company ("UPCIC"), and other wholly owned subsidiaries of the Company including the Universal Insurance Holdings, Inc. Stock Grantor Trust. All intercompany accounts and transactions have been eliminated in consolidation.

The accompanying unaudited condensed consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the

Edgar Filing: UNIVERSAL INSURANCE HOLDINGS, INC. - Form 10-Q

United States of America ("GAAP") that differ from statutory accounting practices prescribed or permitted for insurance companies by regulatory authorities. In addition, the accompanying financial statements have been prepared in accordance with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X of the Securities and Exchange Commission (the "SEC"). Accordingly, they omit or condense certain footnotes and other information normally included in financial statements prepared in conformity with GAAP and thus should be read in conjunction with the audited consolidated financial statements and notes included in the Company's annual report on Form 10-KSB, as amended, for the year ended December 31, 2007.

The condensed consolidated balance sheet of the Company as of March 31, 2008, the related condensed consolidated statements of operations for the three-month periods ended March 31, 2008 and 2007, and condensed consolidated statements of cash flows for the three-month periods ended March 31, 2008 and 2007 are unaudited. There were no items comprising comprehensive income for the three-month periods ended March 31, 2008 and 2007. Accordingly, consolidated statements of comprehensive income are not presented. The significant accounting policies followed for quarterly financial reporting are the same as those disclosed in the Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-KSB, as amended, for the year ended December 31, 2007, except for the adoption of a new accounting pronouncement as noted below.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The accompanying financial statements reflect all adjustments (consisting primarily of normal and recurring accruals and adjustments) which are, in the opinion of management, necessary for a fair statement of the results for the interim periods presented.

Results of operations for the three months ended March 31, 2008 are not necessarily indicative of the results for the year ending December 31, 2008.

To conform to the 2008 presentation, certain amounts in the prior periods' consolidated financial statements and notes have been reclassified.

8

2. NEW ACCOUNTING PRONOUNCEMENTS

In June 2006, the Financial Accounting Standards Board ("FASB") issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes - an Interpretation of FASB Statement No. 109" ("FIN 48"). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an entity's financial statements in accordance with FASB Statement No. 109, "Accounting for Income Taxes." FIN 48 prescribes that a company should use a more-likely-than-not recognition threshold based on the technical merits of the tax position taken. Tax positions that meet the more-likely-than-not threshold should be measured in order to determine the tax benefit to be recognized in the financial statements. This Interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company adopted FIN 48 as of January 1, 2007 and the adoption had a negligible impact on the Company's results of operation and financial position. In December 2007, the Company paid interest and penalties for the underpayment of estimated federal and state income tax in accordance with the provisions of

Edgar Filing: UNIVERSAL INSURANCE HOLDINGS, INC. - Form 10-Q

the relevant tax law. Interest and penalties are classified in the Company's condensed consolidated financial statements as income taxes.

9

In September 2006, the FASB issued Statement of Financial Accounting Standards ("SFAS") No. 157 which redefines fair value, establishes a framework for measuring fair value in GAAP, and expands disclosures about fair value measurements. SFAS No. 157 applies where other accounting pronouncements require or permit fair value measurements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. The effects of adoption were determined by the types of instruments carried at fair value in the Company's financial statements at the time of adoption as well as the method utilized to determine their fair values prior to adoption. Based on the Company's current use of fair value measurements, the adoption of SFAS No. 157 did not have a material effect on the results of operations or financial position of the Company.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" ("SFAS 159") which permits entities to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. SFAS 159 became effective for the Company on January 1, 2008. SFAS 159 has not had a material effect on the Company's financial position, cash flows and results of operations.

3. INSURANCE OPERATIONS

UPCIC commenced its insurance activity in February 1998 by assuming policies from the Florida Residential Property and Casualty Joint Underwriting Association ("JUA"). UPCIC received the unearned premiums of the assumed policies and began servicing such policies. Since then, UPCIC has developed its business by actively soliciting business in the open market through independent agents.

Unearned premiums represent amounts that UPCIC would be required to refund policyholders if their policies were canceled. UPCIC determines unearned premiums by calculating the pro-rata amount that would be due to the policyholders at a given point in time based upon the premiums due for the full policy term. At March 31, 2008, UPCIC had direct unearned premiums totaling \$256,545,928 and in-force premiums of approximately \$504,000,000. At December 31, 2007, UPCIC had direct unearned premiums totaling \$254,741,198 and in-force premiums of approximately \$504,500,000.

Premiums earned are included in earnings on a pro-rata basis over the terms of the policies. UPCIC does not have policies that provide for retroactive premium adjustments.

Policy acquisition costs, consisting of commissions and other costs that vary with and are directly related to the production of business, net of ceding commissions, are deferred and amortized over the terms of the policies, but only to the extent that unearned premiums are sufficient to cover all related costs and expenses. Deferred policy acquisition costs are reviewed to determine if they are recoverable from unearned premiums and, if not, are charged to expense. As of March 31, 2008 and December 31, 2007, respectively, no amounts of deferred policy acquisition costs were charged to expense as a result of the

10

Edgar Filing: UNIVERSAL INSURANCE HOLDINGS, INC. - Form 10-Q

recoverability testing. As of March 31, 2008 and December 31, 2007, deferred ceding commissions exceeded deferred policy acquisition costs and were recorded as net liabilities in the amounts of \$2,220,989 and \$2,122,269, respectively.

An allowance for doubtful accounts is established when it becomes evident that collection is doubtful, typically after 90 days past due. As of March 31, 2008 and December 31, 2007, UPCIC had recorded allowances for doubtful accounts in the amounts of \$1,489,928 and \$832,660, respectively.

Loss and loss adjustment expenses ("LAE"), less related reinsurance, are recorded as claims are incurred. The provision for unpaid loss and LAE includes: (1) the accumulation of individual case estimates for loss and LAE reported, but not paid prior to the close of the accounting period; (2) estimates for incurred but unreported claims based on past experience modified for current trends; and (3) estimates of expenses for investigating and adjusting claims based on past experience.

Management continues to take action to try to strengthen UPCIC's financial condition. On the Company's Homeowner's program ("HO"), premium rate increases averaging 9.9% and 13.2% statewide were approved by the Florida Office of Insurance Regulation ("OIR") and implemented with effective dates in May 2006 and October 2006, respectively. On the Company's Dwelling Fire program ("DP"), premium rate increases averaging 11.2% and 30.6% statewide were also approved by the OIR and implemented with effective dates in May 2006 and September 2006, respectively. However, a rate filing mandated by the Florida legislature in 2007 due to a new law presumed to reduce insurers' reinsurance costs resulted in rate decreases averaging 11.1% statewide (HO) and 2.3% statewide (DP) and was approved by the OIR and implemented in UPCIC's rates on June 1, 2007. This had an adverse effect on the Company's premium volume. The effect of these rate decreases have been flowing through the Company's book of business as it renews such that the full impact of the premium decreases on direct premium written should be completed by May 31, 2008. In addition, the Company believes premium discounts resulting from mitigation efforts implemented by the Florida legislature, which became effective June 1, 2007 for new business, and August 1, 2007 for renewal business, should diminish during the third quarter of 2008 as a number of insureds have previously qualified. Additionally, a rate decrease of 4.1% statewide (HO) and a rate decrease of 0.2% statewide (DP) were approved by the OIR and implemented with effective dates in January 2008 for the HO program and March 2008 for the DP program. The effect of these rate decreases have begun to flow through the Company's book of business such that the full impact of the premium decreases on direct premiums written should be completed by January 2009 for the HO program and March 2009 for the DP program.

UPCIC uses proprietary systems for policy issuance and administration. This has enhanced UPCIC's operating results through its ability to improve and better control underwriting and loss adjusting activities. In addition, UPCIC monitors the geographic and coverage mix of the property insurance it writes, which is a key determinant in the amount and pricing of reinsurance procured by UPCIC. Management believes these processes, and results attributable to them, will continue to allow UPCIC to operate profitably. However, there can be no assurance of the ultimate success of the Company's plans, or that the Company will be able to maintain profitability.

4. REINSURANCE

In the normal course of business, UPCIC seeks to reduce the loss that may arise from catastrophes or other events that cause unfavorable underwriting results by reinsuring certain levels of risk in various areas of exposure with other insurance enterprises or reinsurers. Amounts recoverable from reinsurers are estimated in a manner consistent with the reinsurance contracts. Reinsurance

Edgar Filing: UNIVERSAL INSURANCE HOLDINGS, INC. - Form 10-Q

premiums, losses and LAE are accounted for on bases consistent with those used in accounting for the original policies issued and the terms of the reinsurance contracts. Reinsurance ceding commissions received are deferred and netted against policy acquisition costs and amortized over the effective period of the related insurance policies.

UPCIC limits the maximum net loss that can arise from large risks or risks in concentrated areas of exposure by reinsuring (ceding) certain levels of risks with other insurers or reinsurers, either on an automatic basis under general reinsurance contracts known as "treaties" or by negotiation on substantial individual risks. The reinsurance arrangements are intended to provide UPCIC with the ability to maintain its exposure to loss within its capital resources. Such reinsurance includes quota share, excess of loss and catastrophe forms of reinsurance. While ceding premiums to reinsurers reduces UPCIC's risk of exposure in the event of catastrophic losses, it also reduces UPCIC's potential for greater profits should such catastrophic events fail to occur. The Company submits the UPCIC reinsurance program for regulatory review to the OIR.

In light of the four windstorm catastrophes Florida experienced in 2004, and three windstorm catastrophes Florida experienced in 2005, there was a significant increase in the cost of catastrophe reinsurance coverage commencing with the June 1, 2006 renewal which the Company had planned and factored into its policy pricing. Effective June 1, 2006, UPCIC reduced the rate of cession on its quota share reinsurance. Quota share reinsurance is used primarily to increase UPCIC's underwriting capacity and to reduce exposure to losses. Quota share reinsurance refers to a form of reinsurance under which the reinsurer participates in a specified percentage of the premiums and losses on all reinsured policies in a given class of business. As a result of this reduction of UPCIC's quota share reinsurance from 80% to 50%, UPCIC has retained and earned more premiums UPCIC writes, but has also retained more related losses. UPCIC's increased exposure to potential losses could have a material adverse effect on the business, financial condition and results of operations of UPCIC and the Company. UPCIC did not experience any catastrophic events during the three-month periods ended March 31, 2008 and 2007, respectively.

Effective June 1, 2007, UPCIC entered into a quota share reinsurance treaty and excess per risk agreements with various reinsurers. Under the quota share treaty, through May 31, 2008, UPCIC cedes 50% of its gross written premiums, losses and LAE for policies with coverage for wind risk with a ceding commission payable to UPCIC equal to 31% of ceded gross written premiums. In addition, the quota share treaty has a limitation for any one occurrence of 40% of gross premiums earned, not to exceed \$100,000,000 (of which UPCIC's net liability in a first event scenario is \$45,000,000, in a second event scenario is \$9,300,000 and in a third event scenario is \$9,300,000) and a limitation from losses arising out of events that are assigned a catastrophe serial number by the Property Claims Services ("PCS") office of 112% of gross premiums earned, not to exceed \$280,000,000.

Effective June 1, 2007 through May 31, 2008, UPCIC entered into a multiple line excess per risk agreement with various reinsurers. Under the multiple line excess per risk agreement, UPCIC obtained coverage of \$1,300,000 in excess of \$500,000 ultimate net loss for each risk and each property loss, and \$1,000,000 in excess of \$300,000 for each casualty loss. A \$5,200,000 aggregate limit applies to the term of the contract. Effective June 1, 2007 through May 31, 2008, UPCIC entered into a property per risk excess agreement covering ex-wind only policies. Under the property per risk excess agreement, UPCIC obtained coverage of \$300,000 in excess of \$200,000 for each property loss. A \$2,100,000 aggregate limit applies to the term of the contract.

Edgar Filing: UNIVERSAL INSURANCE HOLDINGS, INC. - Form 10-Q

Effective June 1, 2007 through May 31, 2008, under an excess catastrophe contract, UPCIC obtained catastrophe coverage of \$576,000,000 in excess of \$100,000,000 covering certain loss occurrences including hurricanes. The contract contains a provision for one reinstatement in the event coverage is exhausted; additional premium is calculated pro rata as to amount and 100% as to time. Effective June 1, 2007 through May 31, 2008, UPCIC purchased a reinstatement premium protection contract which reimburses UPCIC for its cost to reinstate the catastrophe coverage of the first \$426,000,000 in excess of \$100,000,000. Effective June 1, 2007, UPCIC also obtained subsequent catastrophe event excess of loss reinsurance to cover certain levels of UPCIC's net retention through three catastrophe events including hurricanes. UPCIC also obtained coverage from the Florida Hurricane Catastrophe Fund ("FHCF"). The approximate coverage is estimated to be for 90% of \$1,065,387,373 in excess of \$208,693,813. Also at June 1, 2007, the FHCF made available, and UPCIC obtained, \$10,000,000 of additional catastrophe excess of loss coverage with one free reinstatement of coverage to carriers qualified as Limited Apportionment Companies or companies that participated in the Insurance Capital Build-Up Incentive Program offered by the FHCF (the "ICBUI Program"), such as UPCIC. This particular layer of coverage is \$10,000,000 in excess of \$18,600,000. UPCIC also purchased Florida Hurricane Catastrophe Fund Recovery Shortfall Reinsurance ("FHCF Recovery Shortfall Reinsurance") in the event FHCF cannot fulfill its payment obligations for the 2007-2008 Hurricane Season.

The total cost of UPCIC's underlying catastrophe private reinsurance program effective June 1, 2007 through May 31, 2008 is \$113,178,000 of which UPCIC's cost is 50%, or \$56,589,000, and the quota share reinsurers' cost is the remaining 50%. In addition, UPCIC purchases reinstatement premium protection as described above which amounts to \$14,213,402 of cost. The cost of subsequent event catastrophe reinsurance is \$11,184,125. The estimated premium UPCIC plans to cede to the FHCF for the 2007 hurricane season is \$42,853,590 of which UPCIC's cost is 50%, or \$21,426,795, and the quota share reinsurers' cost is the remaining 50%. UPCIC is also participating in the additional coverage option for Limited Apportionment Companies or companies that participated in the ICBUI Program, the premium for which is \$5,000,000, of which UPCIC's cost is 50%, or \$2,500,000, and the quota share reinsurers' cost is the remaining 50%. The total cost of UPCIC's FHCF Recovery Shortfall Reinsurance is \$7,715,520, of which UPCIC's cost is 50%, or \$3,857,760.

Effective June 1, 2007, the Company obtained \$30,000,000 of coverage via a catastrophe risk-linked transaction product in the event UPCIC's catastrophe coverage and FHCF Recovery Shortfall Insurance coverage are exhausted. The total cost of the Company's risk-linked transaction product is \$3,525,000.

UPCIC is responsible for losses related to catastrophic events with incurred losses in excess of coverage provided by UPCIC's reinsurance program, which could have a material adverse effect on UPCIC's and the Company's business, financial condition and results of operations. At the start of the hurricane season on June 1, 2008, UPCIC believes it will have coverage to approximately the 125-year Probable Maximum Loss (PML). For the 2007 hurricane season, UPCIC had coverage to approximately the 150-year PML. PML is a general concept applied in the insurance industry for defining high loss scenarios that should be considered when underwriting insurance risk. Catastrophe models produce loss estimates that are qualified in terms of dollars and probabilities. Probability of Exceedance or the probability that the actual loss level will exceed a particular threshold is a standard catastrophe model output. For example, the 100-year PML represents a 1.00% Annual Probability of Exceedance (the 125-year PML represents a 0.80% Annual Probability of Exceedance). It is estimated that the 100-year PML is likely to be equaled or exceeded in one year out of 100 on average, or 1 percent of the time. It is the 99th percentile of the annual loss distribution.

Edgar Filing: UNIVERSAL INSURANCE HOLDINGS, INC. - Form 10-Q

The reinsurance arrangements had the following effect on certain items in the accompanying consolidated financial statements:

13

	Three Months Ended March 31, 2008			Three Months March 31,	
	Premiums Written -----	Premiums Earned -----	Loss and Loss Adjustment Expenses -----	Premiums Written -----	Prem Ear -----
Direct	\$126,667,669	\$124,862,938	\$24,421,144	\$130,989,353	\$100,5
Ceded	(89,770,703)	(89,769,543)	(11,695,282)	(94,076,043)	(61,0
Net	<u>\$36,896,966</u>	<u>\$35,093,395</u>	<u>\$12,725,862</u>	<u>\$36,913,310</u>	<u>\$39,</u>

OTHER AMOUNTS:

	March 31, 2008 -----
Reinsurance recoverable on unpaid losses and loss adjustment expenses	\$35,986,506
Reinsurance recoverable on paid losses	20,208,305
Reinsurance recoverables	<u>\$56,194,811</u>
Prepaid reinsurance premiums	<u>\$172,673,955</u>
Reinsurance payable, net	<u>\$72,963,598</u>

Reinsurance payable, as of March 31, 2008, has been reduced by \$25,342,815, which represents ceding commissions due from reinsurers and \$64,627,888 which represents inuring premiums receivable. The Company has determined that a right of offset, as defined in FASB interpretation No. 39, "Offsetting of Amounts Related to Certain Contracts," exists between the Company and its reinsurers, under its quota share reinsurance treaties.

UPCIC's reinsurance contracts do not relieve UPCIC from its obligations to policyholders. Failure of reinsurers to honor their obligations could result in losses to UPCIC; consequently, allowances are established for amounts deemed uncollectible. No allowance is deemed necessary at March 31, 2008. UPCIC evaluates the financial condition of its reinsurers and monitors concentrations of credit risk arising from similar geographic regions, activities, or economic characteristics of the reinsurers to minimize its exposure to significant losses from reinsurer insolvencies. UPCIC currently has reinsurance contracts with various reinsurers located throughout the United States and internationally. UPCIC believes that ceding risks to reinsurers whom it considers to be financially sound combined with the distribution of reinsurance contracts to an array of reinsurers adequately minimizes UPCIC's risk from any potential

Edgar Filing: UNIVERSAL INSURANCE HOLDINGS, INC. - Form 10-Q

operating difficulties of its reinsurers.

UPCIC may also be subject to assessments by Citizens Property Insurance Corporation ("Citizens"), Florida's state-run insurer of last resort, and the FHCF as a result of operating deficiencies related to windstorm catastrophes. In addition, the Company is subject to assessments by the Florida Insurance Guaranty Association ("FIGA"). FIGA services pending claims by or against Florida policyholders of member insurance companies which become insolvent and are ordered liquidated. FIGA's membership is composed of all Florida licensed direct writers of property or casualty insurance. Under current regulations, insurers may recoup the amount of their assessments from policyholders, or in

14

some cases collect the amount of the assessments from policyholders as surcharges for the benefit of the assessing entity.

On June 12, 2006, the OIR ordered an emergency FHCF assessment of 1% of direct premiums written for policies with effective dates beginning January 1, 2007, which UPCIC is currently collecting from policyholders, as the assessment is to policyholders, not UPCIC. This assessment was a result of catastrophe losses Florida experienced in 2004 and 2005. The assessments collected from policyholders are remitted to FHCF quarterly.

During its meeting on June 16, 2006, the Board of Directors of FIGA determined the need for an assessment upon its member companies. FIGA decided on an assessment on member companies of 2% of the Florida net direct premiums for the calendar year 2005. Based on the 2005 net direct premium of \$11.2 billion, this would generate approximately \$225 million. The Company's participation in this assessment totaled \$1,772,861. Pursuant to Florida statutes, insurers are permitted to recoup the assessment by adding a surcharge to policies in an amount not to exceed the amount paid by the insurer to FIGA. The Company recouped this assessment in 2006.

On September 14, 2006, the Board of Governors of Citizens authorized the levying of a regular assessment on assessable insurers to recoup the 2005 Plan Year Deficit incurred in the High Risk Account. The assessment is based upon UPCIC's share of direct written premium for the subject lines of business in the State of Florida for the calendar year preceding the plan year in which the deficit occurred. UPCIC's participation in this assessment totaled \$263,650. Pursuant to Florida law, insurers are permitted to recoup the assessment by adding a surcharge to policies in an amount not to exceed the amount paid by the insurer to Citizens. As a result, UPCIC recorded this assessment as an expense during the year ended December 31, 2006 and began implementing the recoupment in connection with this assessment in 2007.

During its meeting on December 14, 2006, the Board of Directors of FIGA (the "FIGA Board") determined the need for an emergency assessment upon its member companies. The FIGA Board decided on an emergency assessment on member companies of 2% of the Florida net direct premiums for the calendar year 2005. Based on the 2005 net direct premiums of \$11.2 billion, this assessment would generate approximately \$225 million. UPCIC's participation in this assessment totaled \$1,772,861. Pursuant to Florida law, insurers are permitted to recoup the assessment by adding a surcharge to policies in an amount not to exceed the amount paid by the insurer to FIGA. As a result, UPCIC recorded this assessment as an expense during the year ended December 31, 2006 and began implementing the recoupment in connection with this assessment in 2007.

On January 11, 2007, the OIR ordered an emergency Citizens assessment of 1.4% of certain direct written premiums for policies with effective dates beginning July 1, 2007. This assessment was a result of catastrophic losses the state of

Edgar Filing: UNIVERSAL INSURANCE HOLDINGS, INC. - Form 10-Q

Florida experienced in 2005. This assessment will be in effect for 10 years. UPCIC assesses this surcharge to policyholders at the policy effective date and remits to Citizens the assessments collected on a monthly basis.

During its meeting on October 11, 2007, the FIGA Board again determined the need for an assessment upon its member companies, which the OIR approved on October 29, 2007. The FIGA Board decided on an assessment on member companies of 2% of the Florida net direct premiums for the calendar year 2006. Based on the 2006 net direct premiums of \$ 15.8 billion, this assessment would generate approximately \$315 million. UPCIC's participation in this assessment totaled \$7,435,090. Pursuant to Florida law, insurers are permitted to recoup the assessment by adding a surcharge to policies in an amount not to exceed the amount paid by the insurer to FIGA. As a result, UPCIC recorded this assessment as an expense during the year ended December 31, 2007 and has begun implementing the recoupment in connection with this assessment in 2008.

5. EARNINGS PER SHARE

Earnings per share ("EPS") amounts are calculated in accordance with SFAS No. 128, EARNINGS PER SHARE. Basic EPS is based on the weighted average number of shares outstanding for the period, excluding any dilutive common share equivalents. Diluted EPS reflects the potential dilution that could occur if securities to issue common stock were exercised.

A reconciliation of shares used in calculating basic and diluted EPS for the three-month periods ended March 31, 2008 and 2007, respectively, follows:

15

	Three Months Ended	
	March 31, 2008	March 31, 2007
Number of shares used in calculating basic EPS	36,946,000	34,999,000
Effect of assumed conversion of common stock equivalents	4,381,000	6,104,000
	41,327,000	41,103,000
Number of shares used in calculating diluted EPS	41,327,000	41,103,000

Options to purchase 1,575,000 and 400,000 shares of common stock for the three-month periods ended March 31, 2008 and 2007, respectively, were not included in the computation of diluted earnings per share because the exercise price of the options was greater than the average market price during the relevant period.

6. STOCK-BASED COMPENSATION PLANS AND WARRANTS

Effective January, 2006, the Company adopted SFAS No. 123 (R), "Share-Based Payments," and began recognizing compensation expense in its Consolidated Statements of Operations for its stock option grants based on the fair value of the awards. Under SFAS No.123 (R), the compensation expense for the stock compensation plans that has been charged against income before income taxes was \$1,109,042 and \$657,822 for the three-month periods ended March 31, 2008 and 2007, respectively, with a corresponding income tax benefit of \$681,229 and \$404,067, respectively. As of March 31, 2008 the total unrecognized compensation cost related to nonvested share-based compensation granted under the stock compensation plans was \$1,367,277. The cost is expected to be recognized over a weighted average period of 0.43 year.

Edgar Filing: UNIVERSAL INSURANCE HOLDINGS, INC. - Form 10-Q

Cash received from option exercises under all stock compensation plans for the three-month periods ended March 31, 2008 and 2007 was \$130,530 and \$0, respectively. The actual tax benefit realized for tax deductions from option exercises of share-based compensation was \$3,039,083 and \$0 for the three-month periods ended March 31, 2008 and 2007, respectively.

16

At March 31, 2008 and 2007, there were options outstanding to purchase 6,154,000 and 6,880,000 shares of common stock, respectively, with intrinsic values of \$13,026,150 and \$16,807,100, respectively, weighted average remaining contract terms of 2.98 and 3.23 years, respectively, and weighted exercise prices of \$2.36 and \$1.09, respectively. Of the total options outstanding, options to purchase 2,829,000 and 5,130,000 shares of common stock, respectively, were currently exercisable with intrinsic values of \$8,266,150 and \$12,502,100, respectively, weighted average remaining contract terms of 3.00 and 3.38 years, respectively, and weighted average exercise prices of \$0.86 and \$1.10, respectively. During the three-month period ended March 31, 2008, no options to purchase shares of common stock were granted, and during the same period in 2007, options to purchase 435,000 shares of common stock were granted. Options to purchase 916,000 shares of common stock were exercised during the three-month period ended March 31, 2008, while none were exercised during the same period in 2007. Options to purchase 35,000 shares of common stock expired during the three-month period ended March 31, 2008.

At March 31, 2008, there were no warrants outstanding to purchase shares of common stock, and during the same period in 2007, there were warrants outstanding and exercisable to purchase 850,000 shares of common stock. Warrants to purchase 600,000 shares of common stock were exercised during the three-month period ended March 31, 2008, while none were exercised during the same period in 2007.

The Company estimated the fair value of all stock options awards as of the grant date by applying the Black-Scholes-Merton option pricing model. The use of this valuation model involves assumptions that are judgmental and highly sensitive in the determination of compensation expense and include the expected life of the option, stock price volatility, risk-free interest rate, dividend yield, exercise price, and forfeiture rate. Under SFAS 123(R), forfeitures are estimated at the time of valuation and reduce expense ratably over the vesting period. The forfeiture rate is adjusted periodically based on the extent to which actual forfeitures differ, or are expected to differ, from the previous estimate. Under SFAS 123 and APB 25, the Company elected to account for forfeitures when awards were actually forfeited and reflect the forfeitures as a cumulative adjustment to the pro forma expense.

The fair value of options granted during the three-month period ended March 31, 2007 was estimated assuming the following: weighted average expected life of 2.5 years, dividend yield of 4.0 percent, risk-free interest rate of 4.75 percent, and expected volatility of 65.1 percent. There were no options granted during the quarter ended March 31, 2008. In accordance with SFAS 123(R), fair values of options granted prior to adoption and determined for purposes of disclosure under SFAS 123 have not been changed. The fair value of options granted prior to adoption of SFAS 123(R) was estimated assuming the following: weighted average expected life of five years, dividend yield of 0.0 percent, risk-free interest rate of 6.5 percent, and expected volatility as calculated at the date of grant.

7. RELATED PARTY TRANSACTIONS

Edgar Filing: UNIVERSAL INSURANCE HOLDINGS, INC. - Form 10-Q

All underwriting, rating, policy issuance, reinsurance negotiations and administration functions for UPCIC are performed by UPCIC, Universal Risk Advisors, Inc., a wholly owned subsidiary of the Company, Blue Atlantic Reinsurance Corporation, a wholly-owned subsidiary of the Company, and unaffiliated third parties. Claims adjusting functions are performed by Universal Adjusting Corporation, a wholly owned subsidiary of the Company, Blue Atlantic Reinsurance Corporation, a wholly owned subsidiary of the Company, and affiliated and unaffiliated third parties.

17

Downes and Associates, a multi-line insurance adjustment corporation based in Deerfield Beach, Florida, performs certain claims adjusting work for UPCIC. Downes and Associates is owned by Dennis Downes, who is the father of Sean P. Downes, Chief Operating Officer and Senior Vice President of UPCIC. During the three-month periods ended March 31, 2008 and 2007, the Company expensed claims adjusting fees of \$60,000 and \$390,000, respectively, to Downes and Associates.

The Company acquired all of the outstanding common stock of Atlas Florida Financial Corporation, which owned all of the outstanding common stock of Sterling Premium Finance Company, Inc. ("Sterling"), from the Company's Chief Executive Officer and Chief Operating Officer for \$50,000, which approximated Sterling's book value. On March 6, 2008, the Company received approval of the acquisition from the OIR. Sterling has been renamed Atlas Premium Finance Company and commenced offering premium finance services in November 2007.

8. STOCK AND WARRANTS ISSUANCES

On January 2, 2008, the Company issued 15,000 shares of restricted common stock at a price of \$0.90 per share to Mr. Harris Siskind, a former Director of a subsidiary of the Company, pursuant to Mr. Siskind's exercise of stock options. Also on January 2, 2008, the Company issued 518,919 shares of common stock at a price of \$1.00 per share, to a private investor, pursuant to the exercise, on a "cashless" basis, of warrants to purchase common stock. On January 7, 2008, the Company issued 9,254, 16,716, 8,955 and 75,672 shares of restricted common stock at prices of \$0.50, \$1.10, \$0.70 and \$1.63 per share, respectively, to Dr. Irwin Kellner, a former Director of the Company, pursuant to Dr. Kellner's exercise, on a "cashless" basis, of stock options. On January 11, 2008, the Company issued 10,445, 66,316 and 93,208 shares of restricted common stock at prices of \$1.10, \$0.50 and \$3.80 per share, respectively, to Mr. Sean P. Downes, Senior Vice President and Chief Operating Officer of the Company, pursuant to Mr. Downes' exercise, on a "cashless" basis, of stock options. Also on January 11, 2008, the Company issued 14,359, 9,861, 67,970 and 7,785 shares of restricted common stock at prices of \$1.10, \$0.70, \$0.50 and \$3.80 per share, respectively, to Mr. James M. Lynch, Chief Financial Officer and Executive Vice President of the Company, pursuant to Mr. Lynch's exercise, on a "cashless" basis, of stock options. Also on January 11, 2008, the Company issued 23,135, 6,574, 31,195 and 3,064 shares of restricted common stock at prices of \$0.50, \$0.70, \$1.00 and \$1.10 per share, respectively, to an employee, pursuant to the employee's exercise, on a "cashless" basis, of stock options. On March 18, 2008, the Company issued 31,000 shares of restricted common stock at a price of \$1.63 per share to Mr. Reed Slogoff, a Director of the Company, pursuant to Mr. Slogoff's exercise of stock options. During the three-month period ended March 31, 2008, the aggregate number of stock options and warrants exercised was 1,516,000. Of that total, 1,009,428 shares of common stock were issued to those individuals exercising stock options and warrants and 506,572 shares of common stock were retained by the Company as treasury stock, respectively. The shares retained by the Company were in payment for the exercise price of certain options and the satisfaction of statutory tax liability associated with such exercise. Unless otherwise specified, such as in the case of the exercise of stock options or warrants, the per share prices were determined using the closing price of the Company's common

Edgar Filing: UNIVERSAL INSURANCE HOLDINGS, INC. - Form 10-Q

stock as quoted on the American Stock Exchange ("AMEX") and the shares were issued in private transactions pursuant to Section 4(2) of the Securities Act of 1933, as amended.

9. PROVISION FOR INCOME TAX EXPENSE

Federal and state income taxes decreased 7.9% to \$9,040,921 for the three-month period ended March 31, 2008 from \$9,813,404 for the three-month period ended March 31, 2007. Federal and state income taxes were 38.7% of pretax income for the three-month period ended March 31, 2008, and 44.2% for the three-month period ended March 31, 2007. The decrease is primarily due to certain expenses that were not allowed as tax deductible expenses for the three-month period ended March 31, 2007. The disallowance had the effect of increasing taxable income and, therefore, income taxes, during the 2007 period. There were no similar expenses disallowed for income tax purposes for the three-month period ended March 31, 2008.

18

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis by management of the Company's consolidated financial condition and results of operations should be read in conjunction with the Company's Condensed Consolidated Financial Statements and Notes thereto.

FORWARD-LOOKING STATEMENTS

Certain statements made by the Company's management may be considered to be "forward-looking statements" within the meaning of the Private Securities Reform Litigation Act of 1995. Forward-looking statements are based on various factors and assumptions that include known and unknown risks and uncertainties. The words "believe," "expect," "anticipate," and "project," and similar expressions, identify forward-looking statements, which speak only as of the date the statement was made. Such statements may include, but not be limited to, projections of revenues, income or loss, expenses, plans, as well as assumptions relating to the foregoing. Forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified. Future results could differ materially from those described in forward-looking statements as a result of the risks set forth in the following discussion and in the section below entitled "Factors Affecting Operation Results and Market Price of Stock," among others.

OVERVIEW

The Company is a vertically integrated insurance holding company. The Company, through its subsidiaries, is currently engaged in insurance underwriting, distribution and claims. UPCIC generates revenue from the collection and investment of premiums. The Company's agency operations, which include Universal Florida Insurance Agency and Coastal Homeowners Insurance Specialists, Inc., generate income from commissions. Universal Risk Advisors, Inc., the Company's managing general agent, generates revenue through policy fee income and other administrative fees from the marketing of UPCIC's and third-party insurance products through the Company's distribution network and UPCIC. Universal Risk Life Advisors, Inc. was formed to be the Company's managing general agent for life insurance products. In addition, the Company has formed an independent claims adjusting company, Universal Adjusting Corporation, which adjusts UPCIC claims, and an inspection company, Universal Inspection Corporation, which performs property inspections for homeowners' policies underwritten by UPCIC.

Edgar Filing: UNIVERSAL INSURANCE HOLDINGS, INC. - Form 10-Q

Blue Atlantic Reinsurance Corporation ("BA") was incorporated in Florida on November 9, 2007 as a wholly owned subsidiary of the Company to be a reinsurance intermediary broker. BA became licensed by the Florida Department of Financial Services as a reinsurance intermediary broker on January 4, 2008.

The Company acquired all of the outstanding common stock of Atlas Florida Financial Corporation, which owned all of the outstanding common stock of Sterling Premium Finance Company, Inc. ("Sterling"), from the Company's Chief Executive Officer and Chief Operating Officer for \$50,000, which approximated Sterling's book value. On March 6, 2008 the Company received approval of the acquisition from the OIR. Sterling has been renamed Atlas Premium Finance Company and commenced offering premium finance services in November 2007.

19

UPCIC has applied to write homeowners' insurance policies in five additional states besides the State of Florida. Those states are Texas, Hawaii, Georgia, South Carolina and North Carolina. In addition, UPCIC filed a request with the National Flood Insurance Program ("NFIP") to become authorized to write and service NFIP's Write Your Own Program ("WYO Program") flood insurance policies. The WYO Program began in 1983 and is a cooperative undertaking of the insurance industry and the Federal Emergency Management Agency (FEMA). The WYO Program allows participating property and casualty insurance companies to write and service the Standard Flood Insurance Policy in their own names. The companies receive an expense allowance for policies written and claims processed while the federal government retains responsibility for underwriting losses. The WYO Program operates as part of the NFIP. The Company will not be able to begin writing WYO policies until the NFIP initiates its new policy administration and reporting system, which is currently under development and testing, and the Company demonstrates that it complies with the new requirements.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Management has reassessed the critical accounting policies as disclosed in the Company's 2007 Annual Report to Stockholders on Form 10-KSB, as amended, and determined that no changes, additions or deletions are needed to the policies as disclosed. Also there were no significant changes in the Company's estimates associated with those policies.

The Company's financial statements are combined with those of its subsidiaries and are presented on a consolidated basis in accordance with GAAP. UPCIC makes estimates and assumptions that can have a significant effect on amounts and disclosures reported in the Company's financial statements. The most significant estimate relates to the reserves for property and casualty insurance unpaid losses and loss adjustment expenses. While we believe the estimates are appropriate, the ultimate amounts may differ from the estimates provided. We regularly review these estimates and reflect any adjustment considered necessary in our current results of operations.

ANALYSIS OF FINANCIAL CONDITION - AS OF MARCH 31, 2008 COMPARED WITH DECEMBER 31, 2007

The source of liquidity for possible claim payments consists of the collection of net premiums after deductions for expenses, reinsurance recoverables and short-term loans. The Company held cash and cash equivalents at March 31, 2008 and December 31, 2007 of \$263,860,785 and \$214,745,606, respectively. During the three-month period ended March 31, 2008, the Company purchased a US Treasury bond at a cost of \$1,584,473. As of December 31, 2007, the Company held no bonds. The Company has not had, nor does it currently have, any exposure to sub-prime related holdings.

Edgar Filing: UNIVERSAL INSURANCE HOLDINGS, INC. - Form 10-Q

The Company believes that premiums will be sufficient to meet the Company's working capital requirements for at least the next twelve months. The Company's policy is to invest amounts considered to be in excess of current working capital requirements. At March 31, 2008 and December 31, 2007, the Company's investments were comprised of \$7,700,203 and \$176,350,298, respectively, in cash and overnight repurchase agreements, \$256,160,582 and \$38,395,308, respectively, in short-term investments, \$1,584,473 and \$0, respectively, in bonds, and \$3,473,542 and \$3,392,827, respectively, in real estate consisting of a building purchased by UPCIC that the Company is currently using as its home office.

The Company's Property and Equipment, net of accumulated depreciation, increased to \$1,027,184 as of March 31, 2008 from \$874,430 as of December 31, 2007. The increase was primarily due to the acquisition of automobiles and furniture and fixtures.

20

As of March 31, 2008, the Company had a liability for Accounts Payable of \$3,248,280 as compared to \$2,972,147 as of year-end 2007. The net increase in Accounts Payable is due to an increase of approximately \$600,000 in assessments payable and a decrease of approximately \$300,000 in amounts due to vendors. The Company's liability for Reinsurance Payable increased approximately \$39,000,000 to \$72,963,598 during the three-month period ended March 31, 2008 from \$33,888,350 as of year-end 2007 due to the timing of payments to reinsurers.

The amount payable for Federal and state income taxes was \$7,059,962 at March 31, 2008. As of December 31, 2007, the Company had an overpayment of \$460,225 due to estimated income tax installment payments exceeding the Company's provision for Federal and state income taxes for the 2007 tax year. The change in the liability consisted primarily of the current year provision for income taxes in the amount of \$10,557,716 and the tax benefit on the exercise of stock options in the amount of \$3,039,081.

RESULTS OF OPERATIONS - THREE MONTHS ENDED MARCH 31, 2008 COMPARED TO THREE MONTHS ENDED MARCH 31, 2007

Net income increased 15.6% to \$14,308,316 for the three-month period ended March 31, 2008 from \$12,374,829 for the three-month period ended March 31, 2007. The Company's earnings per diluted share were \$0.35 for the period versus \$0.30 in the same period last year.

In January 2007, the Florida legislature passed a law designed to reduce residential catastrophe reinsurance costs and requiring insurance companies to offer corresponding rate reductions to policyholders. The new law expanded the amount of reinsurance available from the Florida Hurricane Catastrophe Fund (FHCF), which is a state-run entity providing hurricane reinsurance to residential insurers at premiums less than the private reinsurance market. The legislature intended for the new law to reduce residential insurers' reinsurance costs by allowing them to directly replace some of their private market reinsurance with less costly FHCF reinsurance. In addition, prices in the private reinsurance market have fallen as reinsurers have had capital displaced by the expanded FHCF. Notwithstanding an increase in the policies in force, gross premiums written decreased 3.3% percent to \$126,667,669 in the first quarter of 2008 from \$130,989,353 in the same period of 2007 primarily because of a decline in premium rates. As of March 31, 2008 and December 31, 2007, UPCIC was servicing approximately 399,000 and 374,000, respectively, homeowners' and dwelling fire insurance policies with in-force premiums of approximately \$504,000,000 and \$504,500,000, respectively.

Edgar Filing: UNIVERSAL INSURANCE HOLDINGS, INC. - Form 10-Q

UPCIC purchased the maximum additional coverage available to the Company under the expanded FHCF, allowing UPCIC to maximize its cost savings from the new law. UPCIC's mid-2007 rate reductions therefore reflected actual reductions in UPCIC's operating costs. In addition, UPCIC's private reinsurance costs in 2007 and its expected costs in 2008 are lower than were included in its rates prior to the 2007 legislation. Because UPCIC's reduction in rate levels has been commensurate with reduced expenses, the Company has been able to continue increasing its in-force policies at acceptable profit margin levels.

21

The legislature also has implemented strategies to improve the ability of residential structures to withstand hurricanes. New construction must meet stronger building codes, and existing homes are eligible for an inspection program that allows homeowners to determine how their homes may be upgraded to mitigate storm damage. An increasing number of insureds are likely to qualify for insurance premium discounts as new homes are built and existing homes are retrofitted. These premium discounts result from homes' reduced vulnerability to hurricane losses due to the mitigation efforts, which UPCIC takes into account in its underwriting and profitability models.

Net premiums earned decreased 11.0% to \$35,093,395 for the three-month period ended March 31, 2008 from \$39,438,263 for the three-month period ended March 31, 2007. The decrease is due to a decrease in direct premiums written and an increase in ceded premiums earned related to changes in the reinsurance program as described in Note 3 - Reinsurance to the Company's unaudited condensed consolidated financial statements in Part I, Item 1 above.

Net investment income decreased 54.5% to \$1,240,878 for the three-month period ended March 31, 2008 from \$2,726,221 for the three-month period ended March 31, 2007. The decrease is primarily due to a lower interest rate environment during the three-month period ended March 31, 2008.

Commission revenue increased 191.9% to \$6,867,187 for three-month period ended March 31, 2008 from \$2,352,856 for the three-month period ended March 31, 2007. Commission revenue is comprised principally of the managing general agent's policy fee income and service fee income on all new and renewal insurance policies, reinsurance commission sharing agreements, and commissions generated from agency operations. The increase is primarily attributable to an increase in reinsurance commission sharing of approximately \$3.9 million and an increase in managing general agent's policy fee income of approximately \$600,000.

Other revenue increased to \$1,083,013 for the three-month period ended March 31, 2008 from \$51,702 for the three-month period ended March 31, 2007. The increase is primarily due to fees earned on new payment plans offered to policyholders. The Company was not offering such payment plans during the 2007 period.

Net losses and LAE increased 3.0% to \$12,725,862 for the three-month period ended March 31, 2008 from \$12,355,583 for the three-month period ended March 31, 2007. The net loss ratio, or net losses and LAE as a percentage of net earned premiums, were 36.3% and 31.3% during the three-month periods ended March 31, 2008 and 2007, respectively. The change in the net loss ratio is attributable to three primary factors: (1) greater losses and LAE, on a direct basis, in the 2008 period as compared to the 2007 period; (2) lower net earned premium, the denominator of the ratio, due to higher reinsurance costs in the 2008 period as compared to the 2007 period which were mitigated by (3) less prior-year adverse loss and LAE development in the 2008 period as compared to the 2007 period. Although reinsurance rates have decreased, the Company's total reinsurance costs are higher as the Company purchased additional coverage in the 2008 period as compared to the 2007 period. Losses and LAE are influenced by loss severity and frequency. Losses and LAE, the Company's most significant expenses, represent

Edgar Filing: UNIVERSAL INSURANCE HOLDINGS, INC. - Form 10-Q

actual payments made, net of reinsurance, and changes in estimated future net payments to be made to or on behalf of its policyholders, including expenses required to settle claims and losses.

Catastrophes are an inherent risk of the property-liability insurance business which may contribute to material year-to-year fluctuations in UPCIC's and the Company's results of operations and financial position. During the three-month periods ended March 31, 2008 and 2007, respectively, neither UPCIC nor the Company experienced any catastrophic events. The level of catastrophe loss

22

experienced in any year cannot be predicted and could be material to the results of operations and financial position of UPCIC and the Company. While management believes UPCIC's and the Company's catastrophe management strategies will reduce the severity of future losses, UPCIC and the Company continue to be exposed to catastrophic losses, including catastrophic losses that may exceed the limits of the Company's reinsurance program.

General and administrative expenses decreased 18.1% to \$8,209,374 for the three-month period ended March 31, 2008 from \$10,025,226 for the three-month period ended March 31, 2007. The decrease in general and administrative expenses was due to several factors, including changes in commission expense and ceding commissions. Commission expenses decreased 8.3% to \$14,326,894 for the three-month period ended March 31, 2008 from \$15,628,485 for the three-month period ended March 31, 2007. Ceding commissions earned increased by approximately \$1,600,000 to \$19,475,160 for the three-month period ended March 31, 2008 from \$17,854,068 for the three-month period ended March 31, 2007. This increase in ceding commissions was due to an increase in the ceding commission rate to 31% for the three-month period ended March 31, 2008 as compared to 28% for the three-month period ended March 31, 2007. The increase in ceding commissions decreased general and administrative expenses by an equal amount.

Federal and state income taxes decreased 7.9% to \$9,040,921 for the three-month period ended March 31, 2008 from \$9,813,404 for the three-month period ended March 31, 2007. Federal and state income taxes were 38.7% of pretax income for the three-month period ended March 31, 2008, and 44.2% for the three-month period ended March 31, 2007. The decrease is primarily due to certain expenses that were not allowed as a tax deductible expense for the three-month period ended March 31, 2007. The disallowance had the effect of increasing taxable income and, therefore, income taxes, during the 2007 period. There were no similar expenses disallowed for income tax purposes for the three-month period ended March 31, 2008.

LIQUIDITY AND CAPITAL RESOURCES

OVERVIEW

The Company's primary sources of cash flow are the receipt of premiums, commissions, policy fees, investment income, reinsurance recoverables and short-term loans.

For the three-month periods ended March 31, 2008 and 2007, cash flows provided by operating activities were \$49,443,272 and \$44,285,991, respectively. Cash flows from operating activities are expected to be positive in both the short-term and reasonably foreseeable future. In addition, the Company's investment portfolio is highly liquid as it consists entirely of cash, bonds, overnight repurchase agreements and a money market account.

The Company believes that its current capital resources are sufficient to support current operations and expected growth for at least twelve months.

Edgar Filing: UNIVERSAL INSURANCE HOLDINGS, INC. - Form 10-Q

COMPANY BORROWINGS

In June 2005, the Company borrowed monies from two private investors and issued two promissory notes for the aggregate principal sum of \$1,000,000 payable in 10 monthly installments of \$100,000. Payment on one note commenced in July 31, 2006 and commenced on the other note on November 30, 2006. As of March 28, 2007, these loans were fully paid. The loan proceeds were subsequently contributed to UPCIC as additional paid-in-capital. In conjunction with the notes, the Company

23

granted a warrant to one of the investors to purchase 200,000 shares of restricted common stock at an exercise price of \$.05 per share, which have since been exercised. These transactions were approved by the Company's Board of Directors.

On November 9, 2006, UPCIC entered into a \$25.0 million surplus note with the Florida State Board of Administration under the ICBUI Program. Under the ICBUI Program, which was implemented by the Florida legislature to encourage insurance companies to write additional residential insurance coverage in Florida, the Florida State Board of Administration matched UPCIC's funds of \$25.0 million that were earmarked for participation in the program. The surplus note brings the current capital and surplus of UPCIC to approximately \$108.5 million. The \$25.0 million is invested in a treasury money market account.

The surplus note has a twenty-year term and accrues interest at a rate equivalent to the 10-year U.S. Treasury Bond rate, adjusted quarterly based on the 10-year Constant Maturity Treasury rate. For the first three years of the term of the surplus note, UPCIC is required to pay interest only, although principal payments can be made during this period. Any payment of principal or interest by UPCIC on the surplus note must be approved by the Commissioner of the OIR.

An event of default will occur under the surplus note if UPCIC: (i) defaults in the payment of the surplus note; (ii) fails to meet at least a 2:1 ratio of net premium to surplus ("Minimum Writing Ratio") requirement by June 1, 2007; (iii) fails to submit quarterly filings to the OIR; (iv) fails to maintain at least \$50 million of surplus during the term of the surplus note, except for certain situations; (v) misuses proceeds of the surplus note; (vi) makes any misrepresentations in the application for the program; or (vii) pays any dividend when principal or interest payments are past due under the surplus note. As of March 31, 2008, the Company is in compliance with each of the aforementioned loan covenants except for the Minimum Writing Ratio.

If UPCIC failed to increase its writing ratio for two consecutive quarters prior to June 1, 2007, failed to obtain the 2:1 Minimum Writing Ratio by June 1, 2007, or drops below the 2:1 Minimum Writing Ratio once it is obtained for two consecutive quarters, the interest rate on the surplus note will increase during such deficiency by 25 basis points if the resulting writing ratio is between 1.5:1 and 2:1 and the interest rate will increase by 450 basis points if the writing ratio is below 1.5:1. If the writing ratio remains below 1.5:1 for three consecutive quarters after June 1, 2007, UPCIC must repay a portion of the surplus note so that the Minimum Writing Ratio will be obtained for the following quarter. As of September 30, 2007 and December 31, 2007, the Company's net written premium to surplus ratios were 1.83:1 and 1.39:1 respectively, as defined under the terms of the surplus note agreement. Under the terms of the surplus note agreement, at December 31, 2007, the interest rate on the note was increased by 450 basis points. As of March 31, 2008 and December 31, 2007, respectively, the Company's net written premium to surplus ratio, as defined

Edgar Filing: UNIVERSAL INSURANCE HOLDINGS, INC. - Form 10-Q

under the surplus note agreement, was below 1.5:1. If the Company's net written premium to surplus ratio remains below 1.5:1 for the quarter ended June 30, 2008, the Company will be required to repay a portion of the principal balance under the surplus note agreement. The Company expects to meet or exceed a ratio of 1.5:1 by June 30, 2008 and, therefore, does not expect to repay any portion of the \$25,000,000 principal balance of the surplus note during 2008. However, there is no guaranty the Company will accomplish this. In May 2008, the Florida legislature passed a bill providing participants in the Program an opportunity to amend the terms of their surplus notes based on law changes. The bill contains methods for calculating compliance with the writings ratio requirements that might be more favorable to the Company than current law and the terms of the existing surplus note. If the bill becomes law, the Company will evaluate the desirability of amending its surplus note to reflect these law changes.

24

To meet its matching obligation under the ICBUI Program, on November 3, 2006, the Company entered into a Secured Promissory Note with Benfield Greig (Holdings), Inc. in the aggregate principal amount of \$12 million. Interest on the note accrued at the rate of 12.75% per annum. The outstanding principal was due in six monthly installments of \$1.5 million and a final seventh monthly installment of the remaining balance plus all accrued interest under the terms of the note starting on January 31, 2007 and ending on July 31, 2007. In connection with the loan, the Company and its subsidiaries appointed Benfield Inc. as their reinsurance intermediary for all of their reinsurance placements for the contract year beginning on June 1, 2007. The Company made all payments in a timely manner and paid the final installment on July 18, 2007. Under the terms of the Secured Promissory Note, Benfield Greig (Holdings), Inc. agreed to refund a portion of the interest paid on the note if the Company fulfilled all its material obligations under the related broker agreements. On July 27, 2007, the Company received a refund of interest from Benfield Greig (Holdings), Inc. in the amount of \$280,500 that reduced the effective interest rate on the note to 8.25% per annum.

There can be no assurance that the above described transactions will be sufficient to ensure UPCIC's future compliance with Florida insurance regulations, or that the Company will be able to maintain profitability. Failure by UPCIC to maintain the required level of statutory capital and surplus could result in the suspension of UPCIC's authority to write new or renewal business, other regulatory actions or ultimately, in the revocation of UPCIC's certificate of authority by the OIR.

AVAILABLE CASH

The balance of cash and cash equivalents at March 31, 2008 was \$263,860,785, and \$256,160,582 of this amount is in UPCIC, most of which is available to pay claims or relates to policyholder surplus. Accordingly, cash and cash equivalents in UPCIC are not available to buy back Company stock or pay Company dividends. A portion of those claims paid by the Company would be recoverable through the Company's catastrophic reinsurance upon presentation to the reinsurer of evidence of claim payment. As of December 31, 2007, the balance of cash and cash equivalents was \$214,745,606.

GAAP differs in some respects from reporting practices prescribed or permitted by the OIR. To retain its certificate of authority, the Florida insurance laws and regulations require that UPCIC maintain capital and surplus equal to the statutory minimum capital and surplus requirement defined in the Florida Insurance Code as the greater of 10% of the insurer's total liabilities or \$4,000,000. UPCIC's statutory capital and surplus was \$108,508,141 at March 31, 2008 and exceeded the minimum capital and surplus requirements. UPCIC is also

Edgar Filing: UNIVERSAL INSURANCE HOLDINGS, INC. - Form 10-Q

required to adhere to prescribed premium-to-capital surplus ratios.

The maximum amount of dividends, which can be paid by Florida insurance companies without prior approval of the Commissioner of the OIR, is subject to restrictions relating to statutory surplus. The maximum dividend that may be paid by UPCIC to the Company without prior approval is limited to the lesser of statutory net income from operations of the preceding calendar year or statutory unassigned surplus as of the preceding year end. Statutory unassigned surplus (deficit) at December 31, 2007 was \$35,580,159. During 2007 and the three month period ended March 31, 2008, UPCIC did not pay dividends to the Company.

25

The Company is required annually to comply with the National Association of Insurance Commissioners' ("NAIC") Risk-Based Capital ("RBC") requirements. RBC requirements prescribe a method of measuring the amount of capital appropriate for an insurance company to support its overall business operations in light of its size and risk profile. NAIC's RBC requirements are used by regulators to determine appropriate regulatory actions relating to insurers who show signs of weak or deteriorating condition. As of December 31, 2007, based on calculations using the appropriate NAIC RBC formula, the Company's reported total adjusted capital was in excess of the requirements.

CASH DIVIDENDS

On January 23, 2008, the Company's Board of Directors declared a dividend of \$0.10 per share on its outstanding common stock. The dividend is payable on August 7, 2008 to stockholders of record as of July 9, 2008. On April 8, 2008, the Company paid a dividend of \$0.09 per share of outstanding common stock that was accrued at December 31, 2007. The aggregate amount of the dividend was \$3,329,204.

IMPACT OF INFLATION

Property and casualty insurance premiums are established before the Company knows the amount of loss and LAE and the extent to which inflation may affect such expenses. Consequently, the Company attempts to anticipate the future impact of inflation when establishing rate levels. While the Company attempts to charge adequate rates, the Company may be limited in raising its premium levels for competitive and regulatory reasons. Inflation also affects the market value of the Company's investment portfolio and the investment rate of return. Any future economic changes which result in prolonged and increasing levels of inflation could cause increases in the dollar amount of incurred loss and LAE and thereby materially adversely affect future liability requirements.

OFF-BALANCE SHEET ARRANGEMENTS

There were no off-balance sheet arrangements during the three-month periods ended March 31, 2008 and 2007, respectively.

CONTRACTUAL OBLIGATIONS

The following table represents the Company's total contractual obligations for which cash flows are fixed or determinable.

FACTORS AFFECTING OPERATION RESULTS AND MARKET PRICE OF STOCK

The Company and its subsidiaries operate in a rapidly changing environment that involves a number of uncertainties, some of which are beyond the Company's control. This report contains, in addition to historical information, forward-looking statements that involve risks and uncertainties. The words "expect," "estimate," "anticipate," "believe," "intend," "plan" and similar expressions and variations thereof are intended to identify forward-looking statements. The Company's actual results could differ materially from those set forth in or implied by any forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those uncertainties discussed below as well as those discussed elsewhere in this report.

NATURE OF THE COMPANY'S BUSINESS

Factors affecting the sectors of the insurance industry in which the Company operates may subject the Company to significant fluctuations in operating results. These factors include competition, catastrophe losses and general economic conditions including interest rate changes, as well as legislative initiatives, the regulatory environment, the frequency of litigation, the size of judgments, severe weather conditions, climate changes or cycles, the role of federal or state government in the insurance market, judicial or other authoritative interpretations of laws and policies, and the availability and cost of reinsurance. Specifically, the homeowners' insurance market, which comprises the bulk of the Company's current operations, is influenced by many factors, including state and federal laws, market conditions for homeowners' insurance and residential plans. Additionally, an economic downturn could result in fewer home sales and less demand for new homeowners seeking insurance.

Historically, the financial performance of the property and casualty insurance industry has tended to fluctuate in cyclical patterns of soft markets followed by hard markets. Although an individual insurance company's financial performance is dependent on its own specific business characteristics, the profitability of most property and casualty insurance companies tends to follow this cyclical market pattern.

The Company believes that a substantial portion of its future growth will depend on its ability, among other things, to successfully implement its business strategy, including expanding the Company's product offering by underwriting and marketing additional insurance products and programs through its distribution network, further penetrating the Florida market by establishing relationships with additional independent agents in order to expand its distribution network and to further disperse its geographic risk and expanding into other geographical areas outside the State of Florida. Any future growth is contingent on various factors, including the availability of adequate capital, the

Edgar Filing: UNIVERSAL INSURANCE HOLDINGS, INC. - Form 10-Q

Company's ability to hire and train additional personnel, regulatory requirements, the competitive environment, and rating agency considerations. There is no assurance that the Company will be successful in expanding its business, that the existing infrastructure will be able to support additional expansion or that any new business will be profitable. Moreover, as the Company expands its insurance products and programs and the Company's mix of business changes, there can be no assurance that the Company will be able to maintain or improve its profit margins or other operating results. There can also be no assurance that the Company will be able to obtain the required regulatory approvals to offer additional insurance products. UPCIC also is required to maintain minimum surplus to support its underwriting program. The surplus requirement affects UPCIC's potential growth.

27

MANAGEMENT OF EXPOSURE TO CATASTROPHIC LOSSES

UPCIC is exposed to potentially numerous insured losses arising out of single or multiple occurrences, such as natural catastrophes. As with all property and casualty insurers, UPCIC expects to and will incur some losses related to catastrophes and will price its policies accordingly. UPCIC's exposure to catastrophic losses arises principally out of hurricanes and windstorms. Through the use of standard industry modeling techniques that are susceptible to change, UPCIC manages its exposure to such losses on an ongoing basis from an underwriting perspective. UPCIC also protects itself against the risk of catastrophic loss by obtaining reinsurance coverage as of the beginning of hurricane season on June 1 of each year. UPCIC's reinsurance program consists of excess of loss, quota share and catastrophe reinsurance for multiple hurricanes. UPCIC's catastrophe reinsurance program currently covers three events, subject to the terms and limitations of the reinsurance contracts. However, UPCIC may not buy enough reinsurance to cover multiple storms going forward or be able to timely obtain reinsurance. In addition, UPCIC is responsible for losses related to catastrophic events with incurred losses in excess of coverage provided by UPCIC's reinsurance program, and such losses could have a material adverse effect on the business, financial condition and results of operations of UPCIC and the Company.

RELIANCE ON THIRD PARTIES AND REINSURERS

UPCIC is dependent upon third parties to perform certain functions including, but not limited to the purchase of reinsurance and risk management analysis. UPCIC also relies on reinsurers to limit the amount of risk retained under its policies and to increase its ability to write additional risks. UPCIC's intention is to limit its exposure and therefore protect its capital, even in the event of catastrophic occurrences, through reinsurance agreements. For the 2007 hurricane season, UPCIC's reinsurance agreements transferred the risk of loss in excess of \$45,000,000 for the first event and \$9,300,000 for the second and third events up to approximately the 150 year PML as of the beginning of hurricane season on June 1. These amounts may change in the future. For the 2008 hurricane season, UPCIC believes it will have coverage to approximately the 125-year PML and will not be able to place coverage to up to approximately the 150 year PML, as they did in 2007. The Company is responsible for losses related to catastrophic events with incurred losses in excess of coverage provided by the Company's reinsurance program, which could have a material adverse effect on the Company's business, financial condition and results of operations should catastrophe losses exceed these amounts.

REINSURANCE

The property and casualty reinsurance industry is subject to the same market

conditions as the direct property and casualty insurance market, and there can be no assurance that reinsurance will be available to UPCIC to the same extent and at the same cost as currently in place for UPCIC. Future increases in catastrophe reinsurance costs are possible and could adversely affect UPCIC's results. Reinsurance does not legally discharge an insurer from its primary liability for the full amount of the risks it insures, although it does make the reinsurer liable to the primary insurer. Therefore, UPCIC is subject to credit risk with respect to its reinsurers. In addition, UPCIC obtains a significant portion of its reinsurance coverage from the FHCF. There is no guaranty the FHCF will be able to honor its obligations. In order to mitigate this contingency, the Company will attempt in 2008 to purchase a credit protection policy as it did in 2007 if it is affordable. However, there is no assurance that the Company will be able to obtain such a policy on terms and conditions deemed reasonable by management. Management evaluates the financial condition of its reinsurers and monitors concentrations of credit risk arising from similar geographic regions, activities, or economic characteristics of the reinsurers to minimize its exposure to significant losses from reinsurer insolvencies. A reinsurer's insolvency or inability to make payments under a reinsurance treaty could have a material adverse effect on the financial condition and profitability of UPCIC and the Company. While ceding premiums to reinsurers reduces UPCIC's risk of exposure in the event of catastrophic losses, it also reduces UPCIC's potential

28

for greater profits should such catastrophic events fail to occur. The Company believes that the extent of UPCIC's reinsurance is typical of a company of its size in the homeowners' insurance industry.

ADEQUACY OF LIABILITIES FOR LOSSES

The liabilities for losses and loss adjustment expenses periodically established by UPCIC are estimates of amounts needed to pay reported and unreported claims and related loss adjustment expenses. The estimates necessarily will be based on certain assumptions related to the ultimate cost to settle such claims. There is an inherent degree of uncertainty involved in the establishment of liabilities for losses and loss adjustment expenses and there may be substantial differences between actual losses and UPCIC's liabilities estimates. UPCIC relies on industry data, as well as the expertise and experience of independent actuaries in an effort to establish accurate estimates and adequate liabilities. Furthermore, factors such as storms and weather conditions, climate change and patterns, inflation, claim settlement patterns, legislative activity and litigation trends may have an impact on UPCIC's future loss experience. Accordingly, there can be no assurance that UPCIC's liabilities will be adequate to cover ultimate loss developments. The profitability and financial condition of UPCIC and the Company could be adversely affected to the extent that its liabilities are inadequate.

UPCIC is directly liable for loss and LAE payments under the terms of the insurance policies that it writes. In many cases, several years may elapse between the occurrence of an insured loss and UPCIC's payment of that loss. As required by insurance regulations and accounting rules, UPCIC reflects its liability for the ultimate payment of all incurred losses and LAE by establishing a liability for those unpaid losses and LAE for both reported and unreported claims, which represent estimates of future amounts needed to pay claims and related expenses.

When a claim involving a probable loss is reported, UPCIC establishes a liability for the estimated amount of UPCIC's ultimate loss and LAE payments. The estimate of the amount of the ultimate loss is based upon such factors as the type of loss, jurisdiction of the occurrence, knowledge of the circumstances surrounding the claim, severity of injury or damage, potential for ultimate

Edgar Filing: UNIVERSAL INSURANCE HOLDINGS, INC. - Form 10-Q

exposure, estimate of liability on the part of the insured, past experience with similar claims and the applicable policy provisions.

All newly reported claims received are set up with an initial average liability. That claim is then evaluated and the liability is adjusted upward or downward according to the facts and damages of that particular claim.

In addition, management provides for a liability on an aggregate basis to provide for losses incurred but not reported. UPCIC utilizes independent actuaries to help establish its liability for unpaid losses and LAE. UPCIC does not discount the liability for unpaid losses and LAE for financial statement purposes.

The estimates of the liability for unpaid losses and LAE are subject to the effect of trends in claims severity and frequency and are continually reviewed. As part of this process, UPCIC reviews historical data and considers various factors, including known and anticipated legal developments, changes in social attitudes, inflation and economic conditions. As experience develops and other data become available, these estimates are revised, as required, resulting in increases or decreases to the existing liability for unpaid losses and LAE.

29

Adjustments are reflected in results of operations in the period in which they are made and the liabilities may deviate substantially from prior estimates.

Among the classes of insurance underwritten by UPCIC, the homeowners' liability claims historically tend to have longer time lapses between the occurrence of the event, the reporting of the claim to UPCIC and the final settlement than do homeowners' property claims. Liability claims often involve third parties filing suit and the ensuing litigation. By comparison, property damage claims tend to be reported in a relatively shorter period of time with the vast majority of these claims resulting in an adjustment without litigation.

There can be no assurance that UPCIC's liability for unpaid losses and LAE will be adequate to cover actual losses. If UPCIC's liability for unpaid losses and LAE proves to be inadequate, UPCIC will be required to increase the liability with a corresponding reduction in UPCIC's net income in the period in which the deficiency is identified. Future loss experience substantially in excess of established liability for unpaid losses and LAE could have a material adverse effect on UPCIC's and the Company's business, results of operations and financial condition.

GOVERNMENT REGULATION

Florida insurance companies are subject to regulation and supervision by the OIR. The OIR has broad regulatory, supervisory and administrative powers. Such powers relate, among other things, to the granting and revocation of licenses to transact business; the licensing of agents (through the Florida Department of Financial Services); the standards of solvency to be met and maintained; the nature of, and limitations on, investments; approval of policy forms and rates; review of reinsurance contracts; periodic examination of the affairs of insurance companies; and the form and content of required financial statements. Such regulation and supervision are primarily for the benefit and protection of policyholders and not for the benefit of investors.

In addition, the Florida legislature and the NAIC from time to time consider proposals that may affect, among other things, regulatory assessments and reserve requirements. The Company cannot predict the effect that any proposed or future legislation or regulatory or administrative initiatives may have on

Edgar Filing: UNIVERSAL INSURANCE HOLDINGS, INC. - Form 10-Q

the financial condition or operations of UPCIC or the Company.

UPCIC will become subject to other states' laws and regulations as it seeks authority to transact business in states other than Florida. In addition, UPCIC may be affected by proposals for increased regulatory involvement by the federal government.

LEGISLATIVE INITIATIVES

The State of Florida operates Citizens to provide insurance to Florida homeowners in high-risk areas and others without private insurance options. As of March 31, 2008, there were 1,222,879 Citizens policies in force. In May 2007, the State of Florida passed legislation that freezes property insurance rates for Citizens customers at December 2006 levels through December 31, 2008 and permits insurance customers to opt into Citizens when the price of a private policy is 15% more than the Citizens rate, compared to the previous opt-in threshold of 25%. In May 2008, the Florida legislature extended a freeze on Citizens rates through January 2010. These initiatives, together with any future initiatives that seek to further relax eligibility requirements or reduce premium rates for Citizens customers, could adversely affect the ability of UPCIC and the Company to do business profitably. In addition, the Florida legislature in 2007 expanded the capacity of the FHCF, with the intent of

30

reducing the cost of reinsurance otherwise purchased by residential property insurers. If the expanded FHCF coverage expires or if the law providing for the expanded coverage is otherwise modified, the cost of UPCIC's reinsurance program may increase, which could affect UPCIC's profitability until such time as UPCIC can obtain approval of appropriate rate changes. State and federal legislation relating to insurance is affected by a number of political and economic factors that are beyond the control of UPCIC and the Company, and the Florida legislature and the NAIC from time to time consider proposals that may affect, among other things, regulatory assessments and reserve requirements. The Company cannot predict the effect that any proposed or future legislation or regulatory or administrative initiatives may have on the financial condition or operations of UPCIC or the Company.

DEPENDENCE ON KEY INDIVIDUALS

UPCIC's operations depend in large part on the efforts of Bradley I. Meier, who serves as President of UPCIC. Mr. Meier has also served as President, Chief Executive Officer and Director of the Company since its inception in November 1990. In addition, UPCIC's operations have become materially dependent on the efforts of Sean P. Downes, who serves as Chief Operating Officer of UPCIC. Mr. Downes has also served as Chief Operating Officer, Senior Vice President and Director of the Company since January 2005 and as a Director of UPCIC since May 2003. The loss of the services provided by Mr. Meier or Mr. Downes could have a material adverse effect on UPCIC's and the Company's financial condition and results of operations.

COMPETITION

The insurance industry is highly competitive and many companies currently write homeowners' property and casualty insurance. Additionally, the Company and its subsidiaries must compete with companies that have greater capital resources and longer operating histories as well as start-up companies. Increased competition from other private insurance companies as well as Citizens could adversely affect the Company's ability to do business profitably. Although the Company's pricing is inevitably influenced to some degree by that of its competitors, management of the Company believes that it is generally not in the Company's

Edgar Filing: UNIVERSAL INSURANCE HOLDINGS, INC. - Form 10-Q

best interest to compete solely on price, choosing instead to compete on the basis of underwriting criteria, its distribution network and high quality service to its agents and insureds.

FINANCIAL STABILITY RATING

Financial stability ratings are an important factor in establishing the competitive position of insurance companies and may impact an insurance company's sales. Demotech, Inc. maintains a letter scale financial stability rating system ranging from A** (A double prime) to L (licensed by state regulatory authorities). In October 2007, Demotech, Inc. assigned UPCIC a financial stability rating of A, which is the fourth highest of six rating levels. According to Demotech, Inc., A ratings are assigned to insurers that have "{ellipsis} exceptional ability to maintain liquidity of invested assets, quality reinsurance, acceptable financial leverage and realistic pricing while simultaneously establishing loss and loss adjustment expense reserves at reasonable levels." With a financial stability rating of A, the Company expects that UPCIC's property insurance policies will be acceptable to the secondary mortgage marketplace and mortgage lenders. The rating of UPCIC is subject to at least annual review by, and may be revised downward by, or revoked at, the sole discretion of, Demotech, Inc.

31

UPCIC's failure to maintain a commercially acceptable financial stability rating could have a material adverse effect on the Company's ability to retain and attract policyholders and agents. Many of the Company's competitors have ratings higher than that of UPCIC. A downgrade in the financial stability rating of UPCIC could have an adverse impact on its ability to effectively compete with other insurers with higher ratings. Additionally, a withdrawal of the rating could cause UPCIC's insurance policies to no longer be acceptable to the secondary marketplace and mortgage lenders, which could cause a material adverse effect of the Company's results of operations and financial position.

Demotech, Inc. bases its ratings on factors that concern policyholders and not upon factors concerning investor protection. Such ratings are subject to change and are not recommendations to buy, sell or hold securities.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company's market risk generally represents the risk of gain or loss that may result from the potential change in the fair value of the Company's investment portfolio as a result of fluctuations in prices and interest rates and, to a lesser extent, the Company's debt obligations. Other than the Company's purchase of a US Treasury bond during the three-month period ended March 31, 2008, the Company has maintained approximately the same investment mix from December 31, 2007 to March 31, 2008. As previously described in "Company Borrowings," the Company's surplus note accrues interest at an adjustable rate based on the 10-year Constant Maturity Treasury rate.

There have been no material changes to the Company's quantitative and qualitative market risk exposures from December 31, 2007 through March 31, 2008.

ITEM 4. CONTROLS AND PROCEDURES

The Company carried out an evaluation under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Rule 13a-15 under the Securities Exchange Act of 1934 as of the period covered by this report. Based on that evaluation, the Company's Chief

Edgar Filing: UNIVERSAL INSURANCE HOLDINGS, INC. - Form 10-Q

Executive Officer and Chief Financial Officer have concluded that disclosure controls and procedures were effective as of March 31, 2008 to ensure that information required to be disclosed by the Company in its reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commissions rules and forms. There was no change in the Company's internal controls over financial reporting that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II -- OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Neither the Company nor any of its subsidiaries had any reportable legal proceedings during the three months ended March 31, 2008. Certain claims and complaints have been filed or are pending against the Company or one or more of its subsidiaries with respect to various matters. In the opinion of management, none of these lawsuits is material, and they are adequately provided for or

32

covered by insurance or, if not so covered, are without any or have little merit or involve such amounts that if disposed of unfavorably would not have a material adverse effect on the Company or any of its subsidiaries.

ITEM 1A. RISK FACTORS

None.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On January 2, 2008, the Company issued 15,000 shares of restricted common stock at a price of \$0.90 per share to Mr. Harris Siskind, a former Director of the Company, pursuant to Mr. Siskind's exercise of stock options. Also on January 2, 2008, the Company issued 518,919 shares of common stock at a price of \$1.00 per share, to a private investor, pursuant to the exercise, on a "cashless" basis, of warrants to purchase common stock. On January 7, 2008, the Company issued 9,254, 16,716, 8,955 and 75,672 shares of restricted common stock at prices of \$0.50, \$1.10, \$0.70 and \$1.63 per share, respectively, to Dr. Irwin Kellner, a former Director of the Company, pursuant to Dr. Kellner's exercise, on a "cashless" basis, of stock options. On January 11, 2008, the Company issued 10,445, 66,316 and 93,208 shares of restricted common stock at prices of \$1.10, \$0.50 and \$3.80 per share, respectively, to Mr. Sean P. Downes, Senior Vice President and Chief Operating Officer of the Company, pursuant to Mr. Downes' exercise, on a "cashless" basis, of stock options. Also on January 11, 2008, the Company issued 14,359, 9,861, 67,970 and 7,785 shares of restricted common stock at prices of \$1.10, \$0.70, \$0.50 and \$3.80 per share, respectively, to Mr. James M. Lynch, Chief Financial Officer and Executive Vice President of the Company, pursuant to Mr. Lynch's exercise, on a "cashless" basis, of stock options. Also on January 11, 2008, the Company issued 23,135, 6,574, 31,195 and 3,064 shares of restricted common stock at prices of \$0.50, \$0.70, \$1.00 and \$1.10 per share, respectively, to an employee, pursuant to the employee's exercise, on a "cashless" basis, of stock options. On March 18, 2008, the Company issued 31,000 shares of restricted common stock at a price of \$1.63 per share to Mr. Reed Slogoff, a Director of the Company, pursuant to Mr. Slogoff's exercise of stock options. During the three-month period ended March 31, 2008, the aggregate number of stock options and warrants exercised was 1,516,000. Of that total, 1,009,428 shares of common stock were issued to those individuals exercising stock options and warrants and 506,572 shares of common stock were retained by the Company as treasury stock, respectively. The shares retained by the Company

Edgar Filing: UNIVERSAL INSURANCE HOLDINGS, INC. - Form 10-Q

were in payment for the exercise price of certain options and the satisfaction of statutory tax liability associated with such exercise. Unless otherwise specified, such as in the case of the exercise of stock options or warrants, the per share prices were determined using the closing price of the Company's common stock as quoted on AMEX and the shares were issued in private transactions pursuant to Section 4(2) of the Securities Act of 1933, as amended.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None.

ITEM 5. OTHER INFORMATION

None.
