MTS Reports Second Quarter 2004 Results

Wednesday August 4, 9:45 am ET

Continues Investments in Sales, Marketing and R&D

RA'ANANA, Israel, Aug. 4 /PRNewswire-FirstCall/ -- MTS - Mer Telemanagement Solutions Ltd. (Nasdaq: MTSL - News), a global provider of Operations Support Systems (OSS) for comprehensive Telecommunication Management and Customer Care & Billing solutions, today reported its financial results for the second quarter of 2004.

Revenues for the second quarter were \$2.0 million compared with \$2.2 million for the second quarter of 2003. Revenues for the first six months of 2004 were relatively flat compared to the prior year's period at \$4.4 million.

Net loss for the quarter was \$0.9 million or \$(0.20) per share, compared with a net loss of \$10,000, or \$0.00 per share, for the second quarter of 2003. Net loss for the six-month period of 2004 was \$1.1 million or \$(0.24) per share compared to net income of \$4,000 or \$0.00 per share for the same period in 2003.

Eytan Bar, MTS's President and Chief Executive Officer commented: "Although disappointing, the decrease in revenues for the quarter was a result of the continued implementation of our turnaround plan. The Company's new focus on larger and higher revenues generating enterprise and service provider solutions has extended our sales cycle. This revenue decrease and our continued investments in sales, marketing and research and development have impacted bottom line results for the quarter."

The Company's gross profit for the second quarter was \$1.5 million compared to \$1.8 million in the second quarter of 2003. Six-month gross profit was \$3.3 million compared to \$3.5 million in the prior year's period.

During the second quarter, the Company's investment in research and development totaled \$0.6 million, an increase from \$0.4 million for the second quarter of 2003. Research and development expenses for the first six-months of 2004 were \$1.1 million compared to \$0.8 million in the 2003 period.

Selling and marketing expenses for the quarter increased to \$1.4 million from \$1.1 million in the prior year's quarter. Six-month selling and marketing expenses were \$2.5 million compared to \$2.0 million for the first six months of 2003.

"We have added a total of 27 new employees across research and development, sales and professional services over the course of the quarter," noted Mr. Bar. "Our continued investments in these areas are part of our strategy to achieve a robust and comprehensive product offering, a sales force targeted to our key markets and enhanced customer service capabilities."

During the quarter, MTS announced the expansion of its product offering to include billing, rating and customer care. Operating loss for the quarter totaled \$970,000 compared with \$88,000 for the second quarter of 2003. Operating loss for the six-month period totaled \$1.2 million compared to \$0.3 million for the same period in 2003.

Yossi Brikman, Corporate COO & CFO, noted that the Company ended the quarter with approximately \$10.0 million in cash and cash equivalents, including marketable securities.

"We continue to execute our turnaround strategy and invest in the business," concluded Mr. Bar. "We are adding to our global sales force, extending our product capabilities, building upon our professional services platform and expanding partner and reseller agreements. We remain committed to the enterprise and service provider markets and pursuing new contracts. We are optimistic as we look to the future for MTS."
