RADA Electronic Industries Announces Q2 2006 Results

Friday September 15, 4:00 pm ET

NETANYA, Israel, September 15 /PRNewswire-FirstCall/ -- RADA Electronic Industries Ltd. (Nasdaq SmallCap: RADI - News) today reported its financial results for the six month period ended June 30, 2006. The company reported revenues in the six month period of \$4.6 million, compared to revenues of \$6.6 million for the same period in 2005. For the six months ended June 30, 2006 cost of revenues increased to \$5.5 million from \$5.4 million in the comparable period in 2005, while operating expenses decreased to \$1.3 million from \$1.5 million in the first six months of 2005. As a result, the company reported a net loss of \$2.5 million for the six months ended June 30, 2006 compared to a net loss of \$0.6 million in the first six months of 2005.

Commenting on the results, Major General (Ret.) Herzle Bodinger, RADA's CEO said, "The loss in the first half of 2006 was greater than originally expected due to delays in the receipt of orders that the company still anticipates that it will receive in 2006. The company continues to believe that there will be an improvement in its financial results in the second half of 2006. As a result of the timing delays in the receipt of the anticipated orders, and in order to bridge the gap, the company received a \$850K three month loan from its controlling shareholders. This loan further demonstrates the confidence and continuing support by our shareholders. As indicated in our financials, we maintain a relative steady cost structure and we are continuing to monitor and tighten our expenses. We believe that we have the right cost structure and that any increase of revenue will generate increased profit margins

MR. Bodinger noted, "We are continuing to see an increasing demand for our products, in particular the Net Centric Digital Recorder (NCDR). RADA has already won new program awards this year for additional NCDR programs that were not included in our 2006 forecast. We are also receiving additional Requests For Proposals (RFPs). During the last six months we have increased our backlog by over \$9 million and expect to further increase our backlog during the remainder of the year from a number of significant programs."

"We continue to focus our marketing efforts on our strategic markets in the US, India, and Israel. Reflected in our backlog this year are key contracts in the US with Lockheed Martin, Smiths, and Boeing. In India, we won a contract for the NCDR and we expect to further increase our presence in that market," concluded Mr. Bodinger
