PART I. Item 1. - FINANCIAL INFORMATION (cont'd.) 9/01-10QSB

Chesapeake Financial Shares, Inc.

Notes to Consolidated Financial Statements

1. Chesapeake Financial Shares, Inc. ("CFS") is a Virginia based financial services holding company which traces its roots to a national bank founded in Irvington, Virginia in 1900. The Company has two operating subsidiaries, Chesapeake Bank (the "Bank"), which constitutes the majority of its business activity, and Chesapeake Investment Group, Inc., an entity that has as its subsidiaries, Chesapeake Financial Group, Inc., Chesapeake Insurance Agency, Inc., d/b/a Chesapeake Investment Services, and Chesapeake Trust Company, Inc. Chesapeake Bank also is the 100% owner of CNB Properties, Inc. The consolidated financial statements include the accounts of CFS and its wholly owned subsidiaries. All significant intercompany accounts have been eliminated.

2. The accounting and reporting policies of the registrant conform to generally accepted accounting principles and to the general practices within the banking industry. The interim financial statements have not been audited; however, in the opinion of management, all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the consolidated financial statements have been included.

The results of operations for the three and nine months ended September 30, 2001 are not necessarily indicative of the results expected for the full year. These financial statements should be read in conjunction with the financial statements and the footnotes included in the registrant's 2000 Annual Report to Shareholders.

3. The following data shows the amounts used in computing earnings per share and the effect on the weighted average number of shares of potential dilutive common stock. The potential common stock will not have a significant impact on net income.

	September 30, 2001	September 30, 2000
	-----	-----
Weighted average number of common shares, basic	1,241,171	1,229,019

Edgar Filing: CHESAPEAKE FINANCIAL SHARES INC - Form 10-Q

	-----	-----
Weighted number of common shares and dilutive potential common stock used in diluted EPS	1,271,889	1,268,459
	=====	=====

4. Recent accounting pronouncements

In July 2001, the Financial Accounting Standards Board issued two statements - Statement 141, Business Combinations, and Statement 142, Goodwill and Other Intangible Assets, which will potentially impact the accounting for goodwill and other intangible assets. Statement 141 eliminates the pooling method of accounting for business combinations and requires that intangible assets that meet certain criteria be reported separately from goodwill. The Statement also requires negative goodwill arising from a business combination to be recorded as an extraordinary gain. Statement 142 eliminates the amortization of goodwill and other intangibles that are determined to have an indefinite life. The Statement requires, at a minimum, annual impairment tests for goodwill and other intangible assets that are determined to have an indefinite life.

Upon adoption of these Statements, an organization is required to re-evaluate goodwill and other intangible assets that arose from business combinations entered into before July 1, 2001. If the recorded other intangible assets do not meet the criteria for recognition, they should be classified as goodwill. Similarly, if there are other intangible assets that meet the criteria for recognition but were not separately recorded from goodwill, they should be reclassified from goodwill. An organization also must reassess the useful lives of intangible assets and adjust the remaining amortization periods accordingly. Any negative goodwill must be written off.

The standards generally are required to be implemented by the Company in its 2002 financial statements. The adoption of these statements will not have a material impact on the financial statements of the Company.

Page: 8

PART I. Item 2. - FINANCIAL INFORMATION (cont'd.) 9/01-10QSB

Chesapeake Financial Shares, Inc.

Management's Discussion and Analysis of Financial

Condition or Plan of Operation

(Unaudited)

A. Summary - liquidity and capital resources

Sufficient short-term assets are maintained at Chesapeake Financial Shares to meet cash needs anticipated by management. Management's primary sources of liquidity continue to be federal funds sold, short term borrowings from Federal Home Loan Bank Atlanta, securities maturing within one year, and principal payments from mortgage securities. The repayment and sale of loans also provides liquidity. The total of federal funds sold, securities maturing within one year, and estimated principal payments on mortgage-backed securities within one year at September 30, 2001 was approximately \$10,705,000, compared to \$4,731,000 one year ago and \$4,034,000 at December 31, 2000.

The liquidity ratio at September 30, 2001 was 19.2%, compared with 23.3% one year ago. This ratio is arrived at by dividing net liquid assets (sum of total Cash and Due from Banks, including Federal Reserve, unpledged and over pledged portions of Investment Securities at market value, and federal funds sold less reserves required at the Federal Reserve Bank) by net liabilities

Edgar Filing: CHESAPEAKE FINANCIAL SHARES INC - Form 10-Q

(total liabilities excluding valuation reserves and capital). Management has found in the past that 18% represents a sufficient level of liquidity to meet cash needs. Lower asset liquidity ratios are to be expected as management has positioned the Company to be more liability liquid to meet the demand for scarce deposits in the current market environment.

Management believes capital is adequate to meet current needs. Unencumbered capital (total capital net of accumulated other comprehensive income less intangibles plus reserves) as a percent of total adjusted assets (total assets less intangibles plus reserves) was 9.3% at September 30, 2001 and 8.7% at December 31, 2000, for CFS.

Chesapeake Financial Shares and Chesapeake Bank must have a ratio of Tier 1 capital (common equity, retained earnings less certain goodwill) to risk-adjusted assets of at least 4.0%. At September 30, 2001 and December 31, 2000 the consolidated ratio of Tier 1 risk-based capital to risk-adjusted assets was 10.3% and 9.1%, respectively. Total risk-based capital to risk weighted assets was 11.5% and 10.3% at September 30, 2001 and December 31, 2000, respectively. Tier one leverage capital was 8.3% and 7.6% at September 30, 2001 and December 31, 2000, respectively.

During the first quarter of 2002, the Bank expects to open a new office in an existing market, Gloucester County, Virginia. Funding for this office will come from existing capital reserves and general operations.

Page: 9

PART I. Item 2. - FINANCIAL INFORMATION (cont'd.) 9/01-10QSB

Chesapeake Financial Shares, Inc.

Management's Discussion and Analysis of Financial

Condition or Plan of Operation

(Unaudited)

B. Results of operations:

Earnings Summary:

Net income was \$1,955,718 for the nine months ended September 30, 2001, compared with income of \$1,599,801 for the same period in 2000. On a fully diluted per share basis, the net income was \$1.54 for the first nine months of 2001. Fully diluted earnings per share for the first nine months of 2000 were \$1.26. Net interest income before provision increased to \$6,767,307 for the nine months ended September 30, 2001, a 16.6% increase and noninterest income increased to \$4,250,287, an 11.4% increase for the same period. The Company experienced a net increase in noninterest expense (which includes other expense) of \$688,802 or 9.5%.

Net Interest Income:

Chesapeake Financial Shares' results of operation are significantly affected by its ability to manage effectively the interest rate sensitivity and maturity of its interest-earning assets and interest-bearing liabilities. At September 30, 2001, the Company's interest-earning assets exceeded its interest-bearing liabilities by approximately \$34.7 million, compared with a \$29.8 million excess one year ago.

Net interest margins are 4.73% at September 30, 2001 compared to 4.43% at September 30, 2000. Margins had generally improved through the first quarter of 2000, but since then compression of margins actually occurred as short term rates continued upward, creating a flat yield curve through the end of 2000 and

Edgar Filing: CHESAPEAKE FINANCIAL SHARES INC - Form 10-Q

the competition with the brokerage firms for deposits through the last quarter of 2000 intensified. In the current falling rate environment of 2001 and steepening of the yield curve, management expects margins to improve slightly during the balance of the year due to higher priced deposits maturing in this lower rate environment. However, management believes margins will compress during 2002 due to assets repricing in this low rate environment.

There has been reasonable growth in deposits in all trade areas of the bank and total deposits increased 6.0% since December 31, 2000 and 7.9% from one year ago. Total certificates of deposit have increased 3.8% from one year ago, but are down 4.7% from December 31, 2000.

Page: 10

PART I. Item 2. - FINANCIAL INFORMATION (cont'd.) 9/01-10QSB
Chesapeake Financial Shares, Inc.
Management's Discussion and Analysis of Financial
Condition or Plan of Operation (Unaudited)

Provision for Loan Losses:

The loan loss provision is a charge against earnings necessary to maintain the allowance for loan losses at a level consistent with management's evaluation of the credit quality and risk adverseness of the portfolio. Management makes a quarterly evaluation as to the adequacy of the current loan loss reserve. Management's detailed analysis as of September 30, 2001 supports the adequacy of the current loan loss level of \$2.5 million.

Chesapeake Bank's management maintains a reserve for loan loss that they feel represents a conservative estimate of potential losses in the Bank's loan portfolio. The methodology incorporates subjective factors into the evaluation of the adequacy of the ALLL such as:

- The effect of volume and trends in delinquencies and nonaccrual loans.
- The effect of trends in portfolio volume, maturity, and composition.
- An estimate of future loss on all significant loans and assessment of underwriting and lending policies and procedures including those for charge off, collection and recovery.
- Experience, ability and depth of lending management and staff.
- The effect of national and local economic conditions and downturns in specific industries.
- Concentrations of credit that might affect loss experience across one or more components of the portfolio.
- The results of any independent reviews of the portfolio.

Noninterest Income:

Noninterest income is up 11.4% or \$434,284 from the same period last year. Chesapeake Bank's Cash Management product generated \$1,385,375 in gross revenue for the first nine months ended September 30, 2001, compared to the same period last year of \$1,101,135. Managed assets in the Cash Management program were \$11,199,573 at September 30, 2001, and \$8,272,850 at September 30, 2000. Service Charges on deposit accounts were up 24.6%, or \$123,132, from one year ago due to increased account volume.

The Other Income category was \$454,049, up 5.9%, or \$25,379 from one year ago.

 Condition or Plan of Operation (Unaudited)

 Noninterest Expenses:

Employee salary expense amounted to \$2,977,367 and \$2,628,831 for the nine months ended September 30, 2001 and 2000, respectively. Benefits expense is up 22.3% or \$120,022 from September 30, 2000. These increases are directly related to new hires and increases for existing staff. Occupancy expenses were up \$106,482 or 8.8% from the same period one year ago due to general increases in prices of services used by the Bank.

Cash Management expense was \$478,305 for the nine months ended September 30, 2001, down 11.3% from the same period one year ago. This decrease is mainly due to the timing of expense receipts related to the business activity and reduced costs of services.

PART I. Item 2. - FINANCIAL INFORMATION (cont'd.) 9/01-10QSB
 Chesapeake Financial Shares, Inc.
 Management's Discussion and Analysis of Financial
 Condition or Plan of Operation (Unaudited)

 Assets and Loans:

At September 30, 2001, Chesapeake Financial Shares had total assets of \$ 234.0 million, up 4.4% from \$224.2 million at December 31, 2000 and up 7.7% from \$217.3 million of one year ago. Management has budgeted a 7.0% growth in total assets for 2001.

Total loans (gross) at September 30, 2001 were \$164.5 million, representing an increase of 3.8% from December 31, 2000, when loans were \$158.5 million. Chesapeake Bank's loan quality is good as the following table shows. Management is confident that no serious delinquency trends are developing.

	9/30/01	12/31/00
	-----	-----
Nonaccrual loans	\$1,019,077	\$ 562,813
90 days past due	166,905	28,234
Restructured loans	0	0
	-----	-----
Totals	\$1,185,982	\$ 591,047

Management is also confident there will be no loss incurred as the Bank is well secured on these assets. There are no impaired loans outstanding at the end of either period.

Charged off loans through September 30, 2001, amounted to \$26,759 and charged off loans through September 30, 2000, were \$131,072. Recoveries through September 30, 2001 were \$13,019 as compared to \$2,676 as of September 30, 2000.

Edgar Filing: CHESAPEAKE FINANCIAL SHARES INC - Form 10-Q

Concentrations of credit in loans are compiled quarterly by management and reviewed with the Board of Director's Loan Review Committee. There have been no material changes in the concentrations of credit within the past three months that would warrant above average additions to the reserve. The Bank's only concentrations of credit greater than 70% of capital are individual consumer loans (224% of capital). Bank management feels that the current levels are consistent with the objectives of the Bank and do not represent unwarranted risk.

The Bank's Other Real Estate Owned (OREO) portfolio currently has two properties with a total carrying value of \$55,000. Bank management is currently marketing these properties. The Bank also has one repossessed asset valued at \$395.

Deposits:

Deposits were \$ 205.8 million at September 30, 2001 and \$194.0 million at December 31, 2000. Deposits were \$190.8 million at September 30, 2000. The Bank's mix of deposit dollars has changed from September 30, 2000 with net increases in all categories. However, there have been greater increases in transaction accounts than certificates of deposit. It is management's opinion that this trend will continue in the current economic and interest rate environment.

During the fourth quarter of 2000, the Company satisfactorily completed a Combined Safety and Soundness Examination performed by the Federal Reserve Bank of Richmond. As of December 2000, the Bank and the Company satisfactorily completed a Transfer Agent Examination, also performed by the

Edgar Filing: CHESAPEAKE FINANCIAL SHARES INC - Form 10-Q

Federal Reserve Bank. As a result of these examinations management is not aware of any current recommendations of the regulatory authorities, which, if they were implemented, would have a material effect on liquidity, capital resources, or operations of the Bank or Holding Company.

Forward-Looking Statements: The foregoing discussion may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act with respect to the plans, objectives, future performance and business of the Company. These forward-looking statements involve certain risks and uncertainties. Factors that may cause actual results to differ materially from those contemplated by such forward-looking statements include, among others, the following possibilities: (1) competitive pressure in the banking industry increases significantly; (2) changes in the interest rate environment reduce margins; (3) general economic conditions, either nationally or regionally, are less favorable than expected, resulting in, among other things, a deterioration in credit quality; (4) changes in the regulatory environment; (5) changes in business conditions, impacting, among others, the Company's customers and vendors; and (6) changes in the securities market.
