Currently, the Company operates in 62 markets, and of those markets, 45 markets, or 73%, generated positive Same Community NOI growth fourth quarter 2001 over fourth quarter 2000.

Capital Transactions

In December, the Company closed on a commitment for a \$400 million Fannie Mae Revolving Credit Facility. The facility contains an initial term of ten years, and includes an option to the Company to extend the term an additional five years at the then market rate. The loan will be used to refinance existing secured debt at lower interest rates and will extend maturities and contribute to an improvement in the Company's Fixed Charge Coverage Ratio. The Company's Fixed Charge Coverage Ratio was 1.85x as of December 31, 2000 and has improved by 30 basis points to 2.15x as of December 31, 2001.

The Company sold 4.1 million shares of Common Stock to the public in the Fourth Quarter at a price per share of \$14.40. The proceeds will be used to acquire additional apartment communities.

During the quarter, the Company also sold three tracts of land for a total sales price of \$7.2 million and recognized no gain or loss on these sales.

3

On December 31, 2001, the Company closed on the purchase of three newly completed apartment communities it had developed in a joint venture with Credit Suisse First Boston ("CSFB"); the Meridian I, a 250-unit development in Dallas; the Sierra Canyon, a 236-unit development in Phoenix; and the Mandolin, a 308-unit development in Dallas. The Company purchased CSFB's 75% interest for \$46 million at a cap rate of 8.7%. These properties were 97% leased at average monthly rents of \$967.

Development Activity

The Company began the year with 2,426 apartment units under development and has now delivered 1,964 units with a projected stabilized return on average of 10.5%. The Company currently has two communities under construction containing a total of 462 apartment units (of which 254 units have previously been delivered). Greensview II, a 192-unit apartment community in Denver, Colorado, will be completed by the end of this month. The Meridian II, a 270-unit apartment community in Dallas, Texas, is expected to be completed in the second quarter of 2002. The projected stabilized return on these two communities is 10.6% and 9.8% respectively.

Impairment Charge and Non-Recurring Income

In December, Realeum, a technology venture through which the Company and two other multifamily REIT entities have been co-developing a web-based property management system, successfully completed a secondary equity offering in which it raised approximately \$15 million of new capital in exchange for a 45.6% ownership stake. The additional capital provides Realeum more flexibility as it rolls the product out for beta testing and continues its marketing and system enhancement processes. As a result of the equity offering, the Company's ownership stake was reduced to approximately 4%, and the market valuation of its

Edgar Filing: UNITED DOMINION REALTY TRUST INC - Form 8-K

stake was established at approximately \$1.3 million. Although management believes the potential revenue enhancements and cost efficiencies to be derived from an implementation of this system would enable United Dominion to recover its full investment in Realeum, a more conservative accounting treatment that requires a write-down of this investment to market value is appropriate. As a result, the Company's \$3.5 million aggregate investment was adjusted to \$1.3 million in the fourth quarter.

The Company recognized \$1.4 million of deferred development fees as "Other Income" in the quarter ended December 31, 2001 in connection with the completion of the joint venture projects. Portions of the development fees were not fully recognized until either the completion of construction or sale of the properties.
