

Kosmos Energy Ltd.
Form 10-Q
November 05, 2013
Table of Contents

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION**

Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2013

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number: 001-35167

Kosmos Energy Ltd.

(Exact name of registrant as specified in its charter)

Bermuda
(State or other jurisdiction of
incorporation or organization)

98-0686001
(I.R.S. Employer
Identification No.)

Clarendon House
2 Church Street
Hamilton, Bermuda
(Address of principal executive offices)

HM 11
(Zip Code)

Registrant's telephone number, including area code: **+1 441 295 5950**

Not applicable

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer
(Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Edgar Filing: Kosmos Energy Ltd. - Form 10-Q

Class
Common Shares, \$0.01 par value

Outstanding at October 28, 2013
387,559,187

TABLE OF CONTENTS

Unless otherwise stated in this report, references to Kosmos, we, us or the company refer to Kosmos Energy Ltd. and its subsidiaries. We have provided definitions for some of the industry terms used in this report in the Glossary and Selected Abbreviations beginning on page 3.

	Page
PART I. FINANCIAL INFORMATION	
<u>Glossary and Select Abbreviations</u>	3
Item 1. Financial Statements	
<u>Consolidated Balance Sheets as of September 30, 2013 and December 31, 2012</u>	6
<u>Consolidated Statements of Operations for the three and nine months ended September 30, 2013 and 2012</u>	7
<u>Consolidated Statements of Comprehensive Loss for the three and nine months ended September 30, 2013 and 2012</u>	8
<u>Consolidated Statements of Shareholders' Equity for the nine months ended September 30, 2013</u>	9
<u>Consolidated Statements of Cash Flows for the nine months ended September 30, 2013 and 2012</u>	10
<u>Notes to Consolidated Financial Statements</u>	11
<u>Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations</u>	22
<u>Item 3. Quantitative and Qualitative Disclosures about Market Risk</u>	31
<u>Item 4. Controls and Procedures</u>	33
PART II. OTHER INFORMATION	
<u>Item 1. Legal Proceedings</u>	34
<u>Item 1A. Risk Factors</u>	34
<u>Item 2. Unregistered Sales of Equity Securities and Use of Proceeds</u>	34
<u>Item 3. Defaults Upon Senior Securities</u>	34
<u>Item 4. Mine Safety Disclosures</u>	34
<u>Item 5. Other Information</u>	34
<u>Item 6. Exhibits</u>	35
<u>Signatures</u>	36
<u>Index to Exhibits</u>	37

Table of Contents**KOSMOS ENERGY LTD.****GLOSSARY AND SELECTED ABBREVIATIONS**

The following are abbreviations and definitions of certain terms that may be used in this report. Unless listed below, all defined terms under Rule 4-10(a) of Regulation S-X shall have their statutorily prescribed meanings.

<i>2D seismic data</i>	Two-dimensional seismic data, serving as interpretive data that allows a view of a vertical cross-section beneath a prospective area.
<i>3D seismic data</i>	Three-dimensional seismic data, serving as geophysical data that depicts the subsurface strata in three dimensions. 3D seismic data typically provides a more detailed and accurate interpretation of the subsurface strata than 2D seismic data.
<i>API</i>	A specific gravity scale, expressed in degrees, that denotes the relative density of various petroleum liquids. The scale increases inversely with density. Thus lighter petroleum liquids will have a higher API than heavier ones.
<i>ASC</i>	Financial Accounting Standards Board Accounting Standards Codification.
<i>ASU</i>	Financial Accounting Standards Board Accounting Standards Update.
<i>Barrel or Bbl</i>	A standard measure of volume for petroleum corresponding to approximately 42 gallons at 60 degrees Fahrenheit.
<i>BBbl</i>	Billion barrels of oil.
<i>BBoe</i>	Billion barrels of oil equivalent.
<i>Bcf</i>	Billion cubic feet.
<i>Boe</i>	Barrels of oil equivalent. Volumes of natural gas converted to barrels of oil using a conversion factor of 6,000 cubic feet of natural gas to one barrel of oil.
<i>Boepd</i>	Barrels of oil equivalent per day.
<i>Bopd</i>	Barrels of oil per day.
<i>Bwpd</i>	Barrels of water per day.
<i>Debt cover ratio</i>	The debt cover ratio is broadly defined, for each applicable calculation date, as the ratio of (x) total long-term debt less cash and cash equivalents and restricted cash, to (y) the aggregate EBITDAX (see below) of the Company for the previous twelve months.
<i>Developed acreage</i>	The number of acres that are allocated or assignable to productive wells or wells capable of production.
<i>Development</i>	The phase in which an oil or natural gas field is brought into production by drilling development wells and installing appropriate production systems.
<i>Dry hole</i>	

Edgar Filing: Kosmos Energy Ltd. - Form 10-Q

A well that has not encountered a hydrocarbon bearing reservoir expected to produce in commercial quantities.

EBITDAX

Net income (loss) plus (1) exploration expense, (2) depletion, depreciation and amortization expense, (3) equity-based compensation expense, (4) (gain) loss on commodity derivatives, (5) (gain) loss on sale of oil and gas properties, (6) interest (income) expense, (7) income taxes, (8) loss on extinguishment of debt, (9) doubtful accounts expense, and (10) similar items.

Edgar Filing: Kosmos Energy Ltd. - Form 10-Q

Table of Contents

<i>E&P</i>	Exploration and production.
<i>FASB</i>	Financial Accounting Standards Board.
<i>Farm-in</i>	An agreement whereby an oil company acquires a portion of the participating interest in a block from the owner of such interest, usually in return for cash and for taking on a portion of the drilling costs of one or more specific wells or other performance by the assignee as a condition of the assignment.
<i>Farm-out</i>	An agreement whereby the owner of the participating interest agrees to assign a portion of its participating interest in a block to another party for cash or for the assignee taking on a portion of the drilling costs of one or more specific wells and/or other work as a condition of the assignment.
<i>FPSO</i>	Floating production, storage and offloading vessel.
<i>Ghana Obligors</i>	Kosmos Energy Operating, Kosmos Energy International, Kosmos Energy Finance International, Kosmos Energy Development, Kosmos Energy Ghana HC and an Obligor from time to time, as defined under the Facility Agreement, as amended and restated.
<i>Interest cover ratio</i>	The interest cover ratio is broadly defined, for each applicable calculation date, as the ratio of (x) the aggregate EBITDAX (see above) of the Company for the previous twelve months, to (y) interest expense less interest income for the Company for the previous twelve months.
<i>Loan life cover ratio</i>	The loan life cover ratio is broadly defined, for each applicable forecast period, as the ratio of (x) net present value of net cash flow through the final maturity date of the Facility plus the net present value of capital expenditures incurred in relation to the Jubilee Field and certain other fields in Ghana, to (y) the aggregate loan amounts outstanding under the Facility.
<i>MBbl</i>	Thousand barrels of oil.
<i>Mcf</i>	Thousand cubic feet of natural gas.
<i>Mcfpd</i>	Thousand cubic feet per day of natural gas.
<i>MMBbl</i>	Million barrels of oil.
<i>MMBoe</i>	Million barrels of oil equivalent.
<i>MMcf</i>	Million cubic feet of natural gas.
<i>Natural gas liquid or NGL</i>	Components of natural gas that are separated from the gas state in the form of liquids. These include propane, butane, and ethane, among others.
<i>Petroleum contract</i>	A contract in which the owner of hydrocarbons gives an E&P company temporary and limited rights, including an exclusive option to explore for, develop, and produce hydrocarbons from the lease area.
<i>Petroleum system</i>	A petroleum system consists of organic material that has been buried at a sufficient depth to allow adequate temperature and pressure to expel hydrocarbons and cause the movement of oil and natural gas from the area in which it was formed to a reservoir rock where it can accumulate.
<i>Plan of development or PoD</i>	A written document outlining the steps to be undertaken to develop a field.
<i>Productive well</i>	An exploratory or development well found to be capable of producing either oil or natural gas in sufficient quantities to justify completion as an oil or natural gas well.

Table of Contents

<i>Prospect(s)</i>	A potential trap that may contain hydrocarbons and is supported by the necessary amount and quality of geologic and geophysical data to indicate a probability of oil and/or natural gas accumulation ready to be drilled. The five required elements (generation, migration, reservoir, seal and trap) must be present for a prospect to work and if any of them fail neither oil nor natural gas will be present, at least not in commercial volumes.
<i>Proved reserves</i>	Estimated quantities of crude oil, natural gas and natural gas liquids that geological and engineering data demonstrate with reasonable certainty to be economically recoverable in future years from known reservoirs under existing economic and operating conditions, as well as additional reserves expected to be obtained through confirmed improved recovery techniques, as defined in SEC Regulation S-X 4-10(a)(2).
<i>Proved developed reserves</i>	Proved developed reserves are those proved reserves that can be expected to be recovered through existing wells and facilities and by existing operating methods.
<i>Proved undeveloped reserves</i>	Proved undeveloped reserves are those proved reserves that are expected to be recovered from future wells and facilities, including future improved recovery projects which are anticipated with a high degree of certainty in reservoirs which have previously shown favorable response to improved recovery projects.
<i>Reconnaissance contract</i>	A contract in which the owner of minerals gives an E&P company rights to perform evaluation of existing data or potentially acquire additional data but does not convey an exclusive option to explore for, develop, and/or produce minerals from the lease area.
<i>Shelf margin</i>	The path created by the change in direction of the shoreline in reaction to the filling of a sedimentary basin.
<i>Structural trap</i>	A structural trap is a topographic feature in the earth's subsurface that forms a high point in the rock strata. This facilitates the accumulation of oil and gas in the strata.
<i>Structural-stratigraphic trap</i>	A structural-stratigraphic trap is a combination trap with structural and stratigraphic features.
<i>Stratigraphy</i>	The study of the composition, relative ages and distribution of layers of sedimentary rock.
<i>Stratigraphic trap</i>	A stratigraphic trap is formed from a change in the character of the rock rather than faulting or folding of the rock and oil is held in place by changes in the porosity and permeability of overlying rocks.
<i>Submarine fan</i>	A fan-shaped deposit of sediments occurring in a deep water setting where sediments have been transported via mass flow, gravity induced, processes from the shallow to deep water. These systems commonly develop at the bottom of sedimentary basins or at the end of large rivers.
<i>Three-way fault trap</i>	A structural trap where at least one of the components of closure is formed by offset of rock layers across a fault.
<i>Trap</i>	A configuration of rocks suitable for containing hydrocarbons and sealed by a relatively impermeable formation through which hydrocarbons will not migrate.
<i>Undeveloped acreage</i>	Lease acreage on which wells have not been drilled or completed to a point that would permit the production of commercial quantities of natural gas and oil regardless of whether such acreage contains discovered resources.
