The following is a financial results report issued by OceanFreight Inc. for the third quarter of 2011.

OceanFreight Inc. Reports Financial Results
for the Third Quarter of 2011

November 2, 2011, Athens, Greece. OceanFreight Inc. (NASDAQ: OCNF)(the "Company"), a global provider of marine transportation services, today announced its financial results for the three months ended September 30, 2011.

Financial Highlights

For the three months ended September 30, 2011, the Company reported a Net Loss of \$19.2 million, or basic and diluted earnings equal to a loss of \$3.23 per share. Included in these results are non-recurring costs associated with the proposed merger with a subsidiary of Dryships Inc. of \$20.5 million.

Excluding this non-recurring costs, Net Income for the three months ended September 30, 2011 was \$1.3 million, or basic and diluted earnings equal to \$0.22 per share.

Third Quarter 2011 Results

For the three months ended September 30, 2011, the Company reported Voyage Revenues of \$13.1 million, Operating Loss of \$18.3 million and Net Loss of \$19.2 million. During the same period, Net cash provided by operating activities was \$4.8 million and Adjusted EBITDA was a loss of \$7.9 million. Please see the reconciliation of Adjusted EBITDA to net cash provided by operating activities below.

The Company owns a fleet of eleven vessels, comprised of six drybulk vessels (four Capesize and two Panamax) and five under construction Very Large Ore Carriers (VLOC). The fleet has a combined deadweight tonnage of about 1.9 million tons. During the three months ended September 30, 2011, the Company operated an average of six drybulk vessels that earned an average time charter equivalent rate, or TCE, of \$23,287 per day.

Fleet Data

	Three Months Ended September 30,	
	2010	2011
Average number of vessels (1)	12	6
Total voyage days for fleet (2)	1,063	534
Total calendar days for fleet (3)	1,104	552
Time charter equivalent rate (TCE) (4)	\$ 22,097	\$ 23,287
Fleet utilization (5)	96.3 %	96.7 %

- (1) Average number of vessels is the number of vessels that comprised our operating fleet for the relevant period, as measured by the sum of the number of days each vessel was a part of our fleet during the period divided by the number of calendar days in that period.
- (2) Total voyage days for fleet are the total days the vessels were in our possession for the relevant period net of off-hire.
- (3) Calendar days are the total days our operating vessels were in our possession for the relevant period including off-hire days.
- (4) Time charter equivalent rate, or TCE, is a measure of the average daily revenue performance of a vessel on a per voyage basis. Our method of calculating TCE is consistent with industry standards and is determined by dividing gross revenues (net of voyage expenses) by voyage days for the relevant time period. Voyage expenses primarily consist of port, canal and fuel costs that are unique to a particular voyage, which would otherwise be paid by the charterer under a time charter contract, as well as commissions. TCE is a standard shipping industry performance measure used primarily to compare period-to-period changes in a shipping company's performance despite changes in the mix of charter types (i.e., spot charters, time charters and bareboat charters) under which the vessels may be employed between the periods.
- (5) Fleet utilization is the percentage of time that our vessels were available for revenue generating voyage days, and is determined by dividing voyage days by fleet calendar days for the relevant period.

The following table reflects the calculation of the TCE for the periods then ended:

Adjusted EBITDA Reconciliation

The Company considers EBITDA to represent net income before interest, taxes, depreciation and amortization. Adjusted EBITDA excludes loss on sale of vessels and impairment on vessels. EBITDA and Adjusted EBITDA do not represent and should not be considered as an alternative to net income or cash flow from operations, as determined by U.S. GAAP and our calculation of EBITDA may not be comparable to that reported by other companies. Adjusted EBITDA is included in this earnings release because it is a basis upon which we assess our liquidity position, because it is used by our lenders as a measure of our compliance with certain loan covenants and because we believe that it presents useful information to investors regarding our ability to service and/or incur indebtedness.

The following table reconciles Net cash provided by operating activities to EBITDA as adjusted for the effect of the loss from the sale of vessels and impairment loss:

(amounts in thousands of U.S. dollars)	Three Months Ended	
	September 30,	
	2010	2011
Net cash provided by operating activities	8,043	4,782

Net interest expense (*)	2,764	2,387
Amortization of deferred financing costs included in interest expense	(130)	(71)
Adjusted EBITDA	11,525	(7,911)

(*) Net interest expense includes the realized loss of interest rate swaps included in "Loss on interest rate swaps" in the interim consolidated unaudited statements of operations.
