Item 8.01. Other Events.

See MANAGEMENT'S DISCUSSION AND ANALYSIS - FUTURE EARNINGS POTENTIAL - Income Tax Matters - Leveraged Lease Transactions of The Southern Company (Southern Company) in Item 7 of the Annual Report on Form 10-K for the year ended December 31, 2007 (the Form 10-K) and MANAGEMENT'S DISCUSSION AND ANALYSIS - FUTURE EARNINGS POTENTIAL - Income Tax Matters - Leveraged Lease Transactions of Southern Company in the Quarterly Report on Form 10-Q for the quarter ended March 31, 2008 (the Form 10-Q) for information regarding pending litigation and proposed legislation related to the sale-in-lease-out (SILO) transactions. Also see Note 1 to the financial statements of Southern Company under Income and Other Taxes, Note 3 to the financial statements of Southern Company under Income Tax Matters and Note 5 to the financial statements of Southern Company under Unrecognized Tax Benefits in Item 8 of the Form 10-K and Note (B) to the Condensed Financial Statements of Southern Company under Income Tax Matters - Leveraged Lease Transactions of the Form 10-Q for information regarding Southern Company's unrecognized tax benefit related to the SILO transactions.

During the second quarter 2008, decisions in favor of the Internal Revenue Service were reached in several court cases involving other tax payers with similar leveraged lease investments. Pursuant to the application of Financial Accounting Standards Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48) and FASB Staff Position No. 13-2, Accounting for a Change in the Timing of Cash Flows Relating to Income Taxes Generated by a Leveraged Lease

Transaction (FSP 13-2), management is required to assess, on a periodic basis, the likely outcome of the uncertain tax positions related to the SILO transactions. Based on these accounting standards and management's review of the recent court decisions, Southern Company expects to record an after tax charge of approximately \$70 million to \$90 million in the second quarter 2008. Of the total, approximately \$20 million to \$30 million is associated with the application of FIN 48 and represents additional interest expense related to tax returns for years 2000 through 2007 and approximately \$50 million to \$60 million represents non-cash charges related to the application of FSP 13-2. The charges related to FSP 13-2 reflect the reallocation of lease income and will be recognized as income over the remaining term of the affected leases. The tax benefit associated with the lease transactions represents timing differences that do not impact total net income over the life of the transactions. The ultimate impact on Southern Company's net income and cash flow will be dependent on the outcome of its pending litigation with the government and proposed legislation and cannot be determined at this time.

Cautionary Note Regarding Forward-Looking Statements:

Certain information contained in this Current Report on Form 8-K is forward-looking information based on current expectations and plans that involve risks and uncertainties. Forward-looking information includes, among other things, statements concerning pending litigation and proposed legislation related to SILO transactions and expected charges for the second quarter 2008.
