MACK-CALI REALTY CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS *(unaudited)*

1. ORGANIZATION AND BASIS OF PRESENTATION

ORGANIZATION

Mack-Cali Realty Corporation, a Maryland corporation, together with its subsidiaries (collectively, the “Company”), is a fully-integrated, self-administered, self-managed real estate investment trust (“REIT”) providing leasing, management, acquisition, development, construction and tenant-related services for its properties and third-parties. As of March 31, 2007, the Company owned or had interests in 300 properties plus developable land (collectively, the “Properties”). The Properties aggregate approximately 34.3 million square feet, which are comprised of 289 buildings, primarily office and office/flex buildings, totaling approximately 33.9 million square feet (which include 44 buildings, primarily office buildings, aggregating 5.4 million square feet owned by unconsolidated joint ventures in which the Company has investment interests), six industrial/warehouse buildings totaling approximately 387,400 square feet, two retail properties totaling approximately 17,300 square feet, a hotel (which is owned by an unconsolidated joint venture in which the Company has an investment interest) and two parcels of land leased to others. The Properties are located in seven states, primarily in the Northeast, plus the District of Columbia.

BASIS OF PRESENTATION

The accompanying consolidated financial statements include all accounts of the Company, its majority-owned and/or controlled subsidiaries, which consist principally of Mack-Cali Realty, L.P. (the “Operating Partnership”) and variable interest entities for which the Company has determined itself to be the primary beneficiary, if any. See Note 2: Significant Accounting Policies - Investments in Unconsolidated Joint Ventures for the Company’s treatment of unconsolidated joint venture interests. Intercompany accounts and transactions have been eliminated.

The preparation of financial statements in conformity with generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. SIGNIFICANT ACCOUNTING POLICIES

Rental

Property Rental properties are stated at cost less accumulated depreciation and amortization. Costs directly related to the acquisition, development and construction of rental properties are capitalized. Capitalized development and construction costs include pre-construction costs essential to the development of the property, development and construction costs, interest, property taxes, insurance, salaries and other project costs incurred during the period of development. Included in total rental property is construction and development in-progress of \$130,950,000 and \$116,151,000 (including land of \$64,405,000 and \$63,136,000) as of March 31, 2007 and December 31, 2006, respectively. Ordinary repairs and maintenance are expensed as incurred; major replacements and betterments, which improve or extend the life of the asset, are capitalized and depreciated over their estimated useful lives. Fully-depreciated assets are removed from the accounts.

The Company considers a construction project as substantially completed and held available for occupancy upon the completion of tenant improvements, but no later than one year from cessation of major construction activity (as distinguished from activities such as routine maintenance and cleanup). If portions of a rental project are substantially completed and occupied by tenants, or held available for occupancy, and other portions have not yet reached that stage, the substantially completed portions are accounted for as a separate project. The Company allocates costs

incurred between the portions under construction and the portions substantially completed and held available for occupancy, and capitalizes only those costs associated with the portion under construction.

Properties are depreciated using the straight-line method over the estimated useful lives of the assets. The estimated useful lives are as follows:

Leasehold interests	Remaining lease term
Buildings and improvements	5 to 40 years
Tenant improvements	The shorter of the term of the related lease or useful life
Furniture, fixtures and equipment	5 to 10 years

Upon acquisition of rental property, the Company estimates the fair value of acquired tangible assets, consisting of land, building and improvements, and identified intangible assets and liabilities, generally consisting of the fair value of (i) above and below market leases, (ii) in-place leases and (iii) tenant relationships. The Company allocates the purchase price to the assets acquired and liabilities assumed based on their relative fair values. In estimating the fair value of the tangible and intangible assets acquired, the Company considers information obtained about each property as a result of its due diligence and marketing and leasing activities, and utilizes various valuation methods, such as estimated cash flow projections utilizing appropriate discount and capitalization rates, estimates of replacement costs net of depreciation, and available market information. The fair value of the tangible assets of an acquired property considers the value of the property as if it were vacant.

Above-market and below-market lease values for acquired properties are recorded based on the present value, (using a discount rate which reflects the risks associated with the leases acquired) of the difference between (i) the contractual amounts to be paid pursuant to each in-place lease and (ii) management's estimate of fair market lease rates for each corresponding in-place lease, measured over a period equal to the remaining term of the lease for above-market leases and the initial term plus the term of any below-market fixed rate renewal options for below-market leases. The capitalized above-market lease values are amortized as a reduction of base rental revenue over the remaining term of the respective leases, and the capitalized below-market lease values are amortized as an increase to base rental revenue over the remaining initial terms plus the terms of any below-market fixed rate renewal options of the respective leases.

Other intangible assets acquired include amounts for in-place lease values and tenant relationship values, which are based on management's evaluation of the specific characteristics of each tenant's lease and the Company's overall relationship with the respective tenant. Factors to be considered by management in its analysis of in-place lease values include an estimate of carrying costs during hypothetical expected lease-up periods considering current market conditions, and costs to execute similar leases. In estimating carrying costs, management includes real estate taxes, insurance and other operating expenses and estimates of lost rentals at market rates during the expected lease-up periods, depending on local market conditions. In estimating costs to execute similar leases, management considers leasing commissions, legal and other related expenses. Characteristics considered by management in valuing tenant relationships include the nature and extent of the Company's existing business relationships with the tenant, growth prospects for developing new business with the tenant, the tenant's credit quality and expectations of lease renewals. The value of in-place leases are amortized to expense over the remaining initial terms of the respective leases. The value of tenant relationship intangibles are amortized to expense over the anticipated life of the relationships.

On a periodic basis, management assesses whether there are any indicators that the value of the Company's real estate properties held for use may be impaired. A property's value is impaired only if management's estimate of the aggregate future cash flows (undiscounted and without interest charges) to be generated by the property is less than the carrying value of the property. To the extent impairment has occurred, the loss shall be measured as the excess of the carrying amount of the property over the fair value of the property. The Company's estimates of aggregate future cash flows expected to be generated by each property are based on a number of assumptions that are subject to economic and

market uncertainties including, among others, demand for space, competition for tenants, changes in market rental rates, and costs to operate each property. As these factors are difficult to predict and are subject to future events that may alter management's assumptions, the future cash flows estimated by management in its impairment analyses may not be achieved. Management does not believe that the value of any of the Company's rental properties is impaired.

***Rental Property
Held for Sale and
Discontinued***

Operations When assets are identified by management as held for sale, the Company discontinues depreciating the assets and estimates the sales price, net of selling costs, of such assets. If, in management's opinion, the estimated net sales price of the assets which have been identified as held for sale is less than the net book value of the assets, a valuation allowance is established. Properties identified as held for sale and/or sold are presented in discontinued operations for all periods presented. See Note 6: Discontinued Operations.

If circumstances arise that previously were considered unlikely and, as a result, the Company decides not to sell a property previously classified as held for sale, the property is reclassified as held and used. A property that is reclassified is measured and recorded individually at the lower of (a) its carrying amount before the property was classified as held for sale, adjusted for any depreciation (amortization) expense that would have been recognized had the property been continuously classified as held and used, or (b) the fair value at the date of the subsequent decision not to sell.

***Investments in
Unconsolidated***

J o i n t Ventures The Company accounts for its investments in unconsolidated joint ventures for which Financial Accounting Standards Board ("FASB") Interpretation No. 46 (revised December 2003), Consolidation of Variable Interest Entities ("FIN 46") does not apply under the equity method of accounting as the Company exercises significant influence, but does not control these entities. These investments are recorded initially at cost, as Investments in Unconsolidated Joint Ventures, and subsequently adjusted for equity in earnings and cash contributions and distributions.

FIN 46 provides guidance on the identification of entities for which control is achieved through means other than voting rights ("variable interest entities" or "VIEs") and the determination of which business enterprise, if any, should consolidate the VIE (the "primary beneficiary"). Generally, FIN 46 applies when either (1) the equity investors (if any) lack one or more of the essential characteristics of a controlling financial interest, (2) the equity investment at risk is insufficient to finance that entity's activities without additional subordinated financial support or (3) the equity investors have voting rights that are not proportionate to their economic interests and the activities of the entity involve or are conducted on behalf of an investor with a disproportionately small voting interest.

On a periodic basis, management assesses whether there are any indicators that the value of the Company's investments in unconsolidated joint ventures may be impaired. An investment is impaired only if management's estimate of the value of the investment is less than the carrying value of the investment, and such decline in value is deemed to be other than temporary. To the extent impairment has occurred, the loss shall be measured as the excess of the carrying amount of the investment over the value of the investment. Management does not believe that the value of any of the Company's investments in unconsolidated joint ventures is impaired. See Note 4: Investments in Unconsolidated Joint Ventures.

Cash and Cash

Equivalents All highly liquid investments with a maturity of three months or less when purchased are considered to be cash equivalents.

Marketable

Securities The Company classifies its marketable securities among three categories: Held-to-maturity, trading and available-for-sale. Unrealized holding gains and losses relating to available-for-sale securities are excluded from earnings and reported as other comprehensive income (loss) in stockholders' equity until realized. A decline in the market value of any marketable security below cost that is deemed to be other than temporary results in a reduction in the carrying amount to fair value. Any impairment would be charged to earnings and a new cost basis for the security established.

Deferred

Financing Costs Costs incurred in obtaining financing are capitalized and amortized on a straight-line basis, which approximates the effective interest method, over the term of the related indebtedness. Amortization of such costs is included in interest expense and was \$708,000 and \$721,000 for the three months ended March 31, 2007 and 2006, respectively.

Deferred

Leasing Costs Costs incurred in connection with leases are capitalized and amortized on a straight-line basis over the terms of the related leases and included in depreciation and amortization. Unamortized deferred leasing costs are charged to amortization expense upon early termination of the lease. Certain employees of the Company are compensated for providing leasing services to the Properties. The portion of such compensation, which is capitalized and amortized, approximated \$1,137,000 and \$849,000 for the three months ended March 31, 2007 and 2006, respectively.

Derivative

Instruments The Company measures derivative instruments, including certain derivative instruments embedded in other contracts, at fair value and records them as an asset or liability, depending on the Company's rights or obligations under the applicable derivative contract. For derivatives designated and qualifying as fair value hedges, the changes in the fair value of both the derivative instrument and the hedged item are recorded in earnings. For derivatives designated as cash flow hedges, the effective portions of the derivative are reported in other comprehensive income ("OCI") and are subsequently reclassified into earnings when the hedged item affects earnings. Changes in fair value of derivative instruments not designated as hedging and ineffective portions of hedges are recognized in earnings in the affected period.

Revenue

Recognition Base rental revenue is recognized on a straight-line basis over the terms of the respective leases. Unbilled rents receivable represents the amount by which straight-line rental revenue exceeds rents currently billed in accordance with the lease agreements. Above-market and below-market lease values for acquired properties are recorded based on the present value (using a discount rate which reflects the risks associated with the leases acquired) of the difference between (i) the contractual amounts to be paid pursuant to each in-place lease and (ii) management's estimate of fair market lease rates for each corresponding in-place lease, measured over a period equal to the remaining term of the lease for above-market leases and the initial term plus the term of any below-market fixed-rate renewal options for below-market leases. The capitalized above-market lease values for acquired properties are amortized as a reduction of base rental revenue over the remaining term of the respective leases, and the capitalized below-market lease values are amortized as an increase to base rental revenue over the remaining initial

terms plus the terms of any below-market fixed-rate renewal options of the respective leases. Escalations and recoveries from tenants are received from tenants for certain costs as provided in the lease agreements. These costs generally include real estate taxes, utilities, insurance, common area maintenance and other recoverable costs. See Note 13: Tenant Leases. Construction services revenue includes fees earned and reimbursements received by the Company for providing construction management and general contractor services to clients. Construction services revenue is recognized on the percentage of completion method. Using this method, profits are recorded on the basis of estimates of the overall profit and percentage of completion of individual contracts. A portion of the estimated profits is accrued based upon estimates of the percentage of completion of the construction contract. This revenue recognition method involves inherent risks relating to profit and cost estimates. Real estate services revenue includes property management, facilities management, leasing commission fees and other services, and payroll and related costs reimbursed from clients. Other income includes income from parking spaces leased to tenants, income from tenants for additional services arranged for by the Company and income from tenants for early lease terminations.

Allowance for

Doubtful Accounts Management periodically performs a detailed review of amounts due from tenants and clients to determine if accounts receivable balances are impaired based on factors affecting the collectibility of those balances. Management's estimate of the allowance for doubtful accounts requires management to exercise significant judgment about the timing, frequency and severity of collection losses, which affects the allowance and net income.

Income and

Other Taxes The Company has elected to be taxed as a REIT under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended (the "Code"). As a REIT, the Company generally will not be subject to corporate federal income tax (including alternative minimum tax) on net income that it currently distributes to its shareholders, provided that the Company satisfies certain organizational and operational requirements including the requirement to distribute at least 90 percent of its REIT taxable income to its shareholders. The Company has elected to treat certain of its corporate subsidiaries as taxable REIT subsidiaries (each a "TRS"). In general, a TRS of the Company may perform additional services for tenants of the Company and generally may engage in any real estate or non-real estate related business (except for the operation or management of health care facilities or lodging facilities or the providing to any person, under a franchise, license or otherwise, rights to any brand name under which any lodging facility or health care facility is operated). A TRS is subject to corporate federal income tax. If the Company fails to qualify as a REIT in any taxable year, the Company will be subject to federal income tax (including any applicable alternative minimum tax) on its taxable income at regular corporate tax rates. The Company is subject to certain state and local taxes.

The Company adopted the provisions of FASB Interpretation No. 48 ("FIN 48), Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109 ("FAS No. 109") on January 1, 2007. As a result of the implementation of FIN 48, the Company recognized no material adjustments regarding its tax accounting treatment. The Company expects to recognize interest and penalties related to uncertain tax positions, if any, as income tax expense, which is included in general and administrative expense.

Earnings

Per Share The Company presents both basic and diluted earnings per share ("EPS"). Basic EPS excludes dilution and is computed by dividing net income available to common shareholders by the weighted average number of shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock, where such exercise or conversion would result in a lower EPS amount.

Income Costs incurred in connection with the Company's stock issuances are reflected as a reduction of additional paid-in capital.

Stock

Compensation The Company accounts for stock options and restricted stock awards granted prior to 2002 using the intrinsic value method prescribed in Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees," and related Interpretations ("APB No. 25"). Under APB No. 25, compensation cost for stock options is measured as the excess, if any, of the quoted market price of the Company's stock at the date of grant over the exercise price of the option granted. Compensation cost for stock options is recognized ratably over the vesting period. The Company's policy is to grant options with an exercise price equal to the quoted closing market price of the Company's stock on the business day preceding the grant date. Accordingly, no compensation cost has been recognized under the Company's stock option plans for the granting of stock options made prior to 2002. Restricted stock awards granted prior to 2002 are valued at the vesting dates of such awards with compensation cost for such awards recognized ratably over the vesting period.

In 2002, the Company adopted the provisions of FASB No. 123, and in 2006, the Company adopted the provisions of FASB No. 123(R), which did not have a material effect on the Company's financial position and results of operations. These provisions require that the estimated fair value of restricted stock ("Restricted Stock Awards") and stock options at the grant date be amortized ratably into expense over the appropriate vesting period. For the three months ended March 31, 2007 and 2006, the Company recorded restricted stock and stock options expense of \$898,000 and \$730,000 for the three months ended March 31, 2007 and 2006, respectively.

MEADOWLANDS XANADU

On November 25, 2003, the Company and affiliates of The Mills Corporation (“Mills”) entered into a joint venture agreement (“Meadowlands Xanadu Venture Agreement”) to form Meadowlands Mills/Mack-Cali Limited Partnership (“Meadowlands Venture”) for the purpose of developing a \$1.3 billion family entertainment, recreation and retail complex with an office and hotel component to be built at the Meadowlands sports complex in East Rutherford, New Jersey (“Meadowlands Xanadu”). The First Amendment to the Meadowlands Xanadu Venture Agreement was entered into as of June 30, 2005. Meadowlands Xanadu’s approximately 4.76 million-square-foot complex is expected to feature a family entertainment, recreation and retail destination comprising five themed zones: sports; entertainment; children’s education; fashion; and food and home, in addition to four office buildings, aggregating approximately 1.8 million square feet, and a 520-room hotel.

The Company and Mills owned a 20 percent and 80 percent interest, respectively, in the Meadowlands Venture. The Meadowlands Xanadu Venture Agreement required the Company to make an equity contribution up to a maximum of \$32.5 million, which it fulfilled in April 2005.

Mills was to develop, lease and operate the entertainment phase of the Meadowlands Xanadu project (“ERC”). Upon the Company’s exercise of its rights under the Meadowlands Xanadu Venture Agreement to develop the office and hotel phases, the Meadowlands Venture was to convey ownership of the component ventures to the Company and Mills or its affiliate, and the Company or its affiliate was to own an 80 percent interest and Mills or its affiliate was to own a 20 percent interest in such component ventures.

On August 21, 2006, Mills announced that it had signed a non-binding letter of intent with Colony Capital Acquisitions, LLC (“Colony”) and Kan Am USA Management XXII Limited Partnership (“Kan Am”) under which Colony would arrange for construction financing for Meadowlands Xanadu and make a significant equity infusion into the Meadowlands Venture, and Mills would not have any financial obligations post closing (“Colony Transaction”). Kan Am has been a partner with Mills in the Meadowlands Venture.

On November 22, 2006, the Company entered into and consummated a Redemption Agreement (the “Redemption Agreement”) with the Meadowlands Venture, Meadowlands Developer Holding Corp., a limited partner in the Meadowlands Venture, and the Meadowlands Limited Partnership (f/k/a Meadowlands/Mills Limited Partnership, and hereafter “MLP”), a general partner and a limited partner in the Meadowlands Venture. Immediately prior to entering into the Redemption Agreement, the investors in MLP undertook a restructuring of MLP whereby Colony became an indirect owner of MLP.

In connection with the Colony Transaction and pursuant to the Redemption Agreement, the Meadowlands Venture redeemed (the “Redemption”) the Company’s entire interest in the Meadowlands Venture and its right to participate in the development of the ERC component in exchange for (i) \$22.5 million in cash and (ii) a non-economic partner interest in each of the office and hotel components of Meadowlands Xanadu. In connection with the Redemption, the Operating Partnership also received a non-interest bearing promissory note for an additional \$2.5 million, which note is payable in full by MLP only at such time as the Operating Partnership exercises one of its options to develop the first of the office and hotel components of Meadowlands Xanadu. The Company’s remaining investment of approximately \$11.9 million is included in deferred charges and other assets, net, as of December 31, 2006 and March 31, 2007.

Concurrent with the execution of the Redemption Agreement, the Company also entered into the Mack-Cali Rights, Obligations and Option Agreement (the “Rights Agreement”) by and among the Meadowlands Venture, MLP, Meadowlands Mack-Cali GP, L.L.C., Mack-Cali, Baseball Meadowlands Limited Partnership, A-B Office Meadowlands Mack-Cali Limited Partnership, C-D Office Meadowlands Limited Partnership, Hotel Meadowlands Mack-Cali Limited Partnership and ERC Meadowlands Mills/Mack-Cali Limited Partnership. Upon the exercise of an initial Take Down Option, the Operating Partnership will receive economic interests in each of the office or hotel component partnerships as both a general partner and a limited partner in the applicable office or hotel component, and following receipt of \$2.5 million in full payment of the note from MLP, the Operating Partnership’s ownership interest in each of the office or hotel component partnerships will be reduced from 80 percent (as provided in the Meadowlands Xanadu Venture Agreement) to 75 percent.

The joint venture's current plans for the development of the Filenes Property include approximately 1.2 million square feet consisting of office, retail, condominium apartments, hotel and a garage. The project is subject to governmental approvals.

8. UNSECURED REVOLVING CREDIT FACILITY

The Company has an unsecured revolving credit facility with a borrowing capacity of \$600 million, (expandable to \$800 million). The interest rate on outstanding borrowings (not electing the Company's competitive bid feature) under the unsecured facility is currently LIBOR plus 65 basis points. The facility has a competitive bid feature, which allows the Company to solicit bids from lenders under the facility to borrow up to \$300 million at interest rates less than the current LIBOR plus 65 basis point spread. The Company may also elect an interest rate representing the higher of the lender's prime rate or the Federal Funds rate plus 50 basis points. The unsecured facility, which also requires a 15 basis point facility fee on the current borrowing capacity payable quarterly in arrears, is scheduled to mature in November 2009 and has an extension option of one year, which would require a payment of 25 basis points of the then borrowing capacity of the facility upon exercise.

The interest rate and the facility fee are subject to adjustment, on a sliding scale, based upon the operating partnership's unsecured debt ratings. In the event of a change in the Operating Partnership's unsecured debt rating, the interest and facility fee rates will be adjusted in accordance with the following table:

Operating Partnership's Unsecured Debt Ratings: S&P Moody's/Fitch (a)	Interest Rate - Applicable Basis Points Above LIBOR	Facility Fee Basis Points
No ratings or less than BBB-/Baa3/BBB-	112.5	25.0
BBB-/Baa3/BBB-	80.0	20.0
BBB/Baa2/BBB (current)	65.0	15.0
BBB+/Baa1/BBB+	55.0	15.0
A-/A3/A- or higher	50.0	15.0

(a) If the Operating Partnership has debt ratings from two rating agencies, one of which is Standard & Poor's Rating Services ("S&P") or Moody's Investors Service ("Moody's"), the rates per the above table shall be based on the lower of such ratings. If the Operating Partnership has debt ratings from three rating agencies, one of which is S&P or Moody's, the rates per the above table shall be based on the lower of the two highest ratings. If the Operating Partnership has debt ratings from only one agency, it will be considered to have no rating or less than BBB-/Baa3/BBB- per the above table.

The terms of the unsecured facility include certain restrictions and covenants which limit, among other things, the payment of dividends (as discussed below), the incurrence of additional indebtedness, the incurrence of liens and the disposition of real estate properties (to the extent that: (i) such property dispositions cause the Company to default on any of the financial ratios of the facility described below, or (ii) the property dispositions are completed while the Company is under an event of default under the facility, unless, under certain circumstances, such disposition is being carried out to cure such default), and which require compliance with financial ratios relating to the maximum leverage ratio, the maximum amount of secured indebtedness, the minimum amount of tangible net worth, the minimum amount of fixed charge coverage, the maximum amount of unsecured indebtedness, the minimum amount of unencumbered property interest coverage and certain investment limitations. The dividend restriction referred to above provides that, except to enable the Company to continue to qualify as a REIT under the Code, the Company will not during any four consecutive fiscal quarters make distributions with respect to common stock or other common equity interests in an aggregate amount in excess of 90 percent of funds from operations (as defined in the facility agreement) for such period, subject to certain other adjustments.

The lending group for the credit facility consists of: JPMorgan Chase Bank, N.A., as administrative agent; Bank of America, N.A., as syndication agent; The Bank of Nova Scotia, New York Agency; Wachovia Bank, National Association; and Wells Fargo Bank, National Association, as documentation agents; SunTrust Bank, as senior managing agent; US Bank National Association; Citicorp North America, Inc.; and PNC Bank National Association, as managing agents; and Bank of China, New York Branch; The Bank of New York; Chevy Chase Bank, F.S.B.; The Royal Bank of Scotland, plc; Mizuho Corporate Bank, Ltd.; UFJ Bank Limited, New York Branch; The Governor and Company of the Bank of Ireland; Bank Hapoalim B.M.; Comerica Bank; Chang Hwa Commercial Bank, Ltd., New York Branch; First Commercial Bank, New York Agency; Chiao Tung Bank Co., Ltd., New York Agency; Deutsche Bank Trust Company Americas; and Hua Nan Commercial Bank, New York Agency.

10. MINORITY INTERESTS

OPERATING PARTNERSHIP

Minority interests in the accompanying consolidated financial statements relate to (i) preferred units ("Preferred Units") and common units in the Operating Partnership, held by parties other than the Company, and (ii) interests in consolidated joint ventures for the portion of such properties not owned by the Company.

PREFERRED UNITS

In connection with the Company's issuance of \$25 million of Series C cumulative redeemable perpetual preferred stock, the Company acquired from the Operating Partnership \$25 million of Series C Preferred Units (the "Series C Preferred Units"), which have terms essentially identical to the Series C preferred stock. See Note 14: Stockholders' Equity - Preferred Stock.

COMMON UNITS

Certain individuals and entities own common units in the Operating Partnership. A common unit and a share of common stock of the Company have substantially the same economic characteristics in as much as they effectively share equally in the net income or loss of the Operating Partnership. Common units are redeemable by the common unitholders at their option, subject to certain restrictions, on the basis of one common unit for either one share of common stock or cash equal to the fair market value of a share at the time of the redemption. The Company has the option to deliver shares of common stock in exchange for all or any portion of the cash requested. The common unitholders may not put the units for cash to the Company or the Operating Partnership. When a unitholder redeems a common unit, minority interest in the Operating Partnership is reduced and the Company's investment in the Operating Partnership is increased.

UNIT TRANSACTIONS

The following table sets forth the changes in minority interest which relate to the common units in the Operating Partnership for the three months ended March 31, 2007: *(dollars in thousands)*

CONSOLIDATED JOINT VENTURES

The Company has ownership interests in certain joint ventures which it consolidates. Various entities and/or individuals hold minority interests in these ventures.

11. EMPLOYEE BENEFIT 401(k) PLANS

Employees of the Company, other than those assigned to the Gale Company and affiliated employers, who meet certain minimum age and period of service requirements are eligible to participate in a 401(k) defined contribution plan (the "401(k) Plan"). The 401(k) Plan allows eligible employees to defer from 1 to 30 percent of their annual compensation, subject to certain limitations imposed by federal law. The amounts contributed by employees are immediately vested and non-forfeitable. The Company, at management's discretion, may match employee contributions and/or make discretionary contributions. Total expense recognized by the Company for the 401(k) Plan for the three months ended March 31, 2007 and 2006 was \$100,000 and \$100,000, respectively.

All employees of the Gale Company and other affiliated participating employers, other than certain employees who are represented for collective bargaining purposes by a labor organization, who meet certain minimum age and period of service requirements are eligible to participate in a 401(k) defined contribution plan (the "Gale Plan"). The Gale Plan

allows eligible employees to defer from their annual compensation, the maximum amount permitted under federal law. The amounts contributed by employees are immediately vested and non-forfeitable. The Gale Company or the participant's employer matches the employee's deferral at the rate of 50 percent on the first six percent of the employee's annual compensation for employees who have at least 1,000 hours of service and are employed on the last day of the plan year. In addition, the Company, at management's discretion, may make discretionary contributions. Participants become 50 percent vested in employer contributions after two years of service and become 100 percent vested after three years of service. Total expense recognized by the Company for the Gale Plan for the three months ended March 31, 2007 was \$67,000.

12. COMMITMENTS AND CONTINGENCIES

TAX ABATEMENT AGREEMENTS

Pursuant to agreements with the City of Jersey City, New Jersey, the Company is required to make payments in lieu of property taxes ("PILOT") on certain of its properties located in Jersey City, as follows:

The Harborside Plaza 5 agreement, as amended, which commenced in 2002 upon substantial completion of the property, as defined, is for a term of 20 years. The PILOT is equal to two percent of Total Project Costs. Total Project Costs, as defined, are \$159.6 million. The PILOT totaled \$798,000 and \$798,000 for the three months ended March 31, 2007 and 2006.

The Harborside Plaza 4-A agreement, which commenced in 2000, is for a term of 20 years. The PILOT is equal to two percent of Total Project costs, as defined, and increases by 10 percent in years 7, 10 and 13 and by 50 percent in year 16. Total Project costs, as defined, are \$45.5 million. The PILOT totaled \$250,000 and \$227,000 for the three months ended March 31, 2007 and 2006, respectively.

At the conclusion of the above-referenced PILOT agreements, it is expected that the properties will be assessed by the municipality and be subject to real estate taxes at the then prevailing rates.

LITIGATION

The Company is a defendant in litigation arising in the normal course of its business activities. Management does not believe that the ultimate resolution of these matters will have a materially adverse effect upon the Company's financial condition taken as whole.

OTHER

The Company may not dispose of or distribute certain of its properties, currently comprising 50 properties with an aggregate net book value of approximately \$1.3 billion, which were originally contributed by members of either the Mack Group (which includes William L. Mack, Chairman of the Company’s Board of Directors; David S. Mack, director; Earle I. Mack, a former director; and Mitchell E. Hersh, president, chief executive officer and director), the Robert Martin Group (which includes Robert F. Weinberg, director; Martin S. Berger, a former director; and Timothy M. Jones, former president), the Cali Group (which includes John R. Cali, director, and John J. Cali, a former director) or certain other common unitholders without the express written consent of a representative of the Mack Group, the Robert Martin Group, the Cali Group or the specific certain other common unitholders, as applicable, except in a manner which does not result in recognition of any built-in-gain (which may result in an income tax liability) or which reimburses the appropriate Mack Group, Robert Martin Group, Cali Group members or the specific certain other common unitholders for the tax consequences of the recognition of such built-in-gains (collectively, the “Property Lock-Ups”). The aforementioned restrictions do not apply in the event that the Company sells all of its properties or in connection with a sale transaction which the Company’s Board of Directors determines is reasonably necessary to satisfy a material monetary default on any unsecured debt, judgment or liability of the Company or to cure any material monetary default on any mortgage secured by a property. The Property Lock-Ups expire periodically through 2016. Upon the expiration of the Property Lock-Ups, the Company is generally required to use commercially reasonable efforts to prevent any sale, transfer or other disposition of the subject properties from resulting in the recognition of built-in gain to the appropriate Mack Group, Robert Martin Group, Cali Group members or the specific certain other common unitholders. 87 of our properties, with an aggregate net book value of approximately \$805.8 million, have lapsed restrictions and are subject to these conditions.

13. TENANT LEASES

The Properties are leased to tenants under operating leases with various expiration dates through 2026. Substantially all of the leases provide for annual base rents plus recoveries and escalation charges based upon the tenant’s proportionate share of and/or increases in real estate taxes and certain operating costs, as defined, and the pass-through of charges for electrical usage.

Future minimum rentals to be received under non-cancelable operating leases at March 31, 2007 are as follows:

2008	522,677
2009	475,183
2010	420,510
2011	353,218
2012 and thereafter	1,048,898
Total	\$3,235,660

14. STOCKHOLDERS’ EQUITY

To maintain its qualification as a REIT, not more than 50 percent in value of the outstanding shares of the Company may be owned, directly or indirectly, by five or fewer individuals at any time during the last half of any taxable year of the Company, other than its initial taxable year (defined to include certain entities), applying certain constructive ownership rules. To help ensure that the Company will not fail this test, the Company's Articles of Incorporation provide for, among other things, certain restrictions on the transfer of common stock to prevent further concentration of stock ownership. Moreover, to evidence compliance with these requirements, the Company must maintain records that disclose the actual ownership of its outstanding common stock and demands written statements each year from the holders of record of designated percentages of its common stock requesting the disclosure of the beneficial owners of such common stock.

COMMON STOCK

On February 7, 2007, the Company completed an underwritten offer and sale of 4,650,000 shares of its common stock and used the net proceeds, which totaled approximately \$252 million (after offering costs), primarily to pay down its outstanding borrowings under the Company's revolving credit facility and for general corporate purposes.

PREFERRED STOCK

On March 14, 2003, in a publicly registered transaction with a single institutional buyer, the Company completed the sale and issuance of 10,000 shares of eight-percent Series C cumulative redeemable perpetual preferred stock ("Series C Preferred Stock") in the form of 1,000,000 depositary shares (\$25 stated value per depositary share). Each depositary share represents 1/100th of a share of Series C Preferred Stock. The Company received net proceeds of approximately \$24.8 million from the sale.

The Series C Preferred Stock has preference rights with respect to liquidation and distributions over the common stock. Holders of the Series C Preferred Stock, except under certain limited conditions, will not be entitled to vote on any matters. In the event of a cumulative arrearage equal to six quarterly dividends, holders of the Series C Preferred Stock will have the right to elect two additional members to serve on the Company's Board of Directors until dividends have been paid in full. At March 31, 2007, there were no dividends in arrears. The Company may issue unlimited additional preferred stock ranking on a parity with the Series C Preferred Stock but may not issue any preferred stock senior to the Series C Preferred Stock without the consent of two-thirds of its holders. The Series C Preferred Stock is essentially on an equivalent basis in priority with the Preferred Units.

Except under certain conditions relating to the Company's qualification as a REIT, the Series C Preferred Stock is not redeemable prior to March 14, 2008. On and after such date, the Series C Preferred Stock will be redeemable at the option of the Company, in whole or in part, at \$25 per depositary share, plus accrued and unpaid dividends.

SHARE REPURCHASE PROGRAM

The Company has authorization to repurchase up to \$45.5 million of its outstanding common stock, which it may repurchase from time to time in open market transactions at prevailing prices or through privately negotiated transactions.

STOCK OPTION PLANS

In May 2004, the Company established the 2004 Incentive Stock Plan under which a total of 2,500,000 shares have been reserved for issuance. No options have been granted through March 31, 2007 under this plan. In September 2000, the Company established the 2000 Employee Stock Option Plan ("2000 Employee Plan") and the Amended and Restated 2000 Director Stock Option Plan ("2000 Director Plan"). In May 2002, shareholders of the Company approved amendments to both plans to increase the total shares reserved for issuance under both of the 2000 plans from 2,700,000 to 4,350,000 shares of the Company's common stock (from 2,500,000 to 4,000,000 shares under the 2000 Employee Plan and from 200,000 to 350,000 shares under the 2000 Director Plan). In 1994, and as subsequently amended, the Company established the Mack-Cali Employee Stock Option Plan ("Employee Plan") and the Mack-Cali Director Stock Option Plan ("Director Plan") under which a total of 5,380,188 shares (subject to adjustment) of the Company's common stock had been reserved for issuance (4,980,188 shares under the Employee Plan and 400,000 shares under the Director Plan). As the Employee Plan and Director Plan expired in 2004, stock options may no longer be issued under those plans. Stock options granted under the Employee Plan in 1994 and 1995 became exercisable over a three-year period. Stock options granted under the 2000 Employee Plan and those options granted subsequent to 1995 under the Employee Plan become exercisable over a five-year period. All stock options granted under both the 2000 Director Plan and Director Plan become exercisable in one year. All options were granted at the fair market value at the dates of grant and have terms of ten years. As of March 31, 2007 and December 31, 2006, the stock options outstanding had a weighted average remaining contractual life of approximately 4.5 and 4.7 years, respectively. Stock options exercisable at March 31, 2007 and December 31, 2006 had a weighted average remaining

contractual life of approximately 4.1 and 4.5 years, respectively.

As of March 31, 2007, the Company had \$4.2 million of total unrecognized compensation cost related to unvested stock compensation granted under the Company's stock compensation plans. That cost is expected to be recognized over a weighted average period of 1.8 years.

STOCK COMPENSATION

The Company has granted stock awards ("Restricted Stock Awards") to officers, certain other employees, and non-employee members of the Board of Directors of the Company, which allow the holders to each receive a certain amount of shares of the Company's common stock generally over a one to five-year vesting period and generally based on time and service, of which 153,211 shares were outstanding at March 31, 2007. Of the outstanding Restricted Stock Awards granted to executive officers and senior management, 46,873 are contingent upon the Company meeting certain performance and/or stock price appreciation objectives. All Restricted Stock Awards provided to the officers and certain other employees were granted under the 2000 Employee Plan and the Employee Plan. Restricted Stock Awards granted to directors were granted under the 2000 Director Plan.

DEFERRED STOCK COMPENSATION PLAN FOR DIRECTORS

The Deferred Compensation Plan for Directors, which commenced January 1, 1999, allows non-employee directors of the Company to elect to defer up to 100 percent of their annual retainer fee into deferred stock units. The deferred stock units are convertible into an equal number of shares of common stock upon the directors' termination of service

from the Board of Directors or a change in control of the Company, as defined in the plan. Deferred stock units are credited to each director quarterly using the closing price of the Company's common stock on the applicable dividend record date for the respective quarter. Each participating director's account is also credited for an equivalent amount of deferred stock units based on the dividend rate for each quarter.

During the three months ended March 31, 2007 and 2006, 1,643 and 1,635 deferred stock units were earned, respectively. As of March 31, 2007 and December 31, 2006, there were 38,799 and 37,263 deferred stock units outstanding, respectively.

16. IMPACT OF RECENTLY-ISSUED ACCOUNTING STANDARDS

FINANCIAL ACCOUNTING STANDARDS BOARD (FASB) Statement No. 159 (“FASB No. 159”), *The Fair Value Option for Financial Assets and Financial Liabilities—Including an amendment of FASB Statement No. 115*

FASB No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. FASB No. 159 is expected to expand the use of fair value measurement, which is consistent with FASB’s long-term measurement objectives for accounting for financial instruments. This Statement applies to all entities, including not-for-profit organizations. Most of the provisions of this Statement apply only to entities that elect the fair value option. However, the amendment to FASB Statement No. 115, *Accounting for Certain Investments in Debt and Equity Securities*, applies to all entities with available-for-sale and trading securities. Some requirements apply differently to entities that do not report net income.

The following are eligible items for the measurement option established by FASB No. 159.

1. Recognized financial assets and financial liabilities except:
 - a. An investment in a subsidiary that the entity is required to consolidate;
 - b. An interest in a variable interest entity that the entity is required to consolidate;
- c. Employers’ and plans’ obligations (or assets representing net overfunded positions) for pension benefits, other postretirement benefits (including health care and life insurance benefits), postemployment benefits, employee stock option and stock purchase plans, and other forms of deferred compensation arrangements, as defined in FASB Statements No. 35, *Accounting and Reporting by Defined Benefit Pension Plans*, No. 87, *Employers’ Accounting for Pensions*, No. 106, *Employers’ Accounting for Postretirement Benefits Other Than Pensions*, No. 112, *Employers’ Accounting for Postemployment Benefits*, No. 123 (revised December 2004), *Share-Based Payment*, No. 43, *Accounting for Compensated Absences*, No. 146, *Accounting for Costs Associated with Exit or Disposal Activities*, and No. 158, *Employers’ Accounting for Defined Benefit Pension and Other Postretirement Plans*, and APB Opinion No. 12, *Omnibus Opinion—1967*;
- d. Financial assets and financial liabilities recognized under leases as defined in FASB Statement No. 13, *Accounting for Leases* (This exception does not apply to a guarantee of a third-party lease obligation or a contingent obligation arising from a cancelled lease.);
- e. Deposit liabilities, withdrawable on demand, of banks, savings and loan associations, credit unions, and other similar depository institutions; and
- f. Financial instruments that are, in whole or in part, classified by the issuer as a component of shareholder’s equity (including “temporary equity”). An example is a convertible debt security with a noncontingent beneficial conversion feature.
2. Firm commitments that would otherwise not be recognized at inception and that involve only financial instruments.
3. Nonfinancial insurance contracts and warranties that the insurer can settle by paying a third party to provide those goods or services.
4. Host financial instruments resulting from separation of an embedded nonfinancial derivative instrument from a nonfinancial hybrid instrument.

The fair value option established by FASB No. 159 permits all entities to choose to measure eligible items at fair value at specified election dates. A business entity shall report unrealized gains and losses on items for which the fair value option has been elected in earnings (or another performance indicator if the business entity does not report earnings) at each subsequent reporting date. FASB No. 159 is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. The Company does not expect that the implementation of FASB No. 159 will have a material effect on the Company's consolidated financial position or results of operations.

FASB Statement No. 157 ("FASB NO. 157"), *Fair Value Measurements*

FASB No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. FASB No. 157 applies under other accounting pronouncements that require or permit fair value measurements, FASB having previously concluded in those accounting pronouncements that fair value is their relevant measurement attribute. Accordingly, this FASB No. 157 does not require any new fair value measurements. However, for some entities, the application of this FASB No. 157 will change current practice. This statement is effective for financial statements for fiscal years beginning after November 15, 2007. The Company does not expect that the implementation of FASB No. 157 will have a material effect on the Company's consolidated financial position or results of operations.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

GENERAL

The following discussion should be read in conjunction with the Consolidated Financial Statements of Mack-Cali Realty Corporation and the notes thereto (collectively, the "Financial Statements"). Certain defined terms used herein have the meaning ascribed to them in the Financial Statements.

Executive Overview

Mack-Cali Realty Corporation (the "Company") is one of the largest real estate investment trusts (REITs) in the United States, with a total market capitalization of approximately \$6.0 billion at March 31, 2007. The Company has been involved in all aspects of commercial real estate development, management and ownership for over 50 years and has been a publicly-traded REIT since 1994. The Company owns or has interests in 300 properties (collectively, the "Properties"), primarily class A office and office/flex buildings, totaling approximately 34.3 million square feet, leased to approximately 2,200 tenants. The properties are located primarily in suburban markets of the Northeast, some with adjacent, Company-controlled developable land sites able to accommodate up to 11.5 million square feet of additional commercial space.

The Company's strategy is to be a significant real estate owner and operator in its core, high-barriers-to-entry markets, primarily in the Northeast.

As an owner of real estate, almost all of the Company's earnings and cash flow is derived from rental revenue received pursuant to leased space at the Properties. Key factors that affect the Company's business and financial results include the following:

- the general economic climate;
- the occupancy rates of the Properties;
- rental rates on new or renewed leases;
- tenant improvement and leasing costs incurred to obtain and retain tenants;
- the extent of early lease terminations;
- operating expenses;
- cost of capital; and
- the extent of acquisitions, development and sales of real estate.

Any negative effects of the above key factors could potentially cause a deterioration in the Company's revenue and/or earnings. Such negative effects could include: (1) failure to renew or execute new leases as current leases expire; (2) failure to renew or execute new leases with rental terms at or above the terms of in-place leases; and (3) tenant defaults.

A failure to renew or execute new leases as current leases expire or to execute new leases with rental terms at or above the terms of in-place leases may be affected by several factors such as: (1) the local economic climate, which may be adversely impacted by business layoffs or downsizing, industry slowdowns, changing demographics and other factors; and (2) local real estate conditions, such as oversupply of office and office/flex space or competition within the market.

The Company's core markets continue to be weak. The percentage leased in the Company's consolidated portfolio of stabilized operating properties was 92.2 percent at March 31, 2007 as compared to 92.0 percent at December 31, 2006 and 90.4 percent at March 31, 2006. Percentage leased includes all leases in effect as of the period end date, some of which have commencement dates in the future (including, at March 31, 2007, a lease with a commencement date substantially in the future consisting of 8,590 square feet scheduled to commence in 2009), and leases that expire at the period end date. Leases that expired as of March 31, 2007, December 31, 2006 and March 31, 2006 aggregate 286,298, 103,477 and 95,861 square feet, respectively, or 1.0, 0.4 and 0.3 percentage of the net rentable square footage, respectively. Rental rates on the Company's space that was re-leased (based on first rents payable) during the three months ended March 31, 2007 decreased an average of 1.2 percent compared to rates that were in effect under the prior leases, as compared to a 4.8 percent decrease for the three months ended March 31, 2006. The Company believes that vacancy rates may continue to increase in some of its markets in 2007. As a result, the Company's future earnings and cash flow may continue to be negatively impacted by current market conditions.

The remaining portion of this Management's Discussion and Analysis of Financial Condition and Results of Operations should help the reader understand:

- property transactions during the period;
- critical accounting policies and estimates;
- results of operations for the three months ended March 31, 2007 as compared to the three months ended March 31, 2006; and
- liquidity and capital resources.

Summary of Transactions

On February 27, 2007, the Company exercised its option to acquire approximately 43 acres of land sites adjacent to its Capital Office Park complex in Greenbelt, Maryland able to accommodate the development of up to 600,000 square feet of office space for \$13 million. The option was acquired as part of the acquisition of the office complex in February 2006.

On March 21, 2007, the Company announced that it reached an agreement to purchase condominium interests in 125 Broad Street ("Broad Street Condo"), a downtown Manhattan office tower, for \$273 million. The condominium units being acquired include floors 2 through 16 of the 40-story building, and collectively comprise 39.6 percent, or 524,500 square feet, of the property. The condominium interests to be acquired are currently 100 percent leased. In a related transaction, the Company also signed a contract to sell 500 West Putnam Avenue, a 121,500 square-foot office building located in Greenwich, Connecticut to the seller of the Broad Street Condo, for \$56 million. The completion of each of these transactions is contingent upon the other.

On April 10, 2007, the Company entered into an agreement to sell its 133,000 square-foot office building located at 1000 Bridgeport Avenue in Shelton, Connecticut for \$16.8 million.

The Company expects to complete the above transactions in the second quarter 2007.

Critical Accounting Policies and Estimates

The Financial Statements have been prepared in conformity with generally accepted accounting principles. The preparation of the Financial Statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Financial Statements, and the reported amounts of revenues and expenses during the reported period. These estimates and assumptions are based on management's historical experience that are believed to be reasonable at the time. However, because future events and their effects cannot be determined with certainty, the determination of estimates requires the exercise of judgment. The Company's critical accounting policies are those which require assumptions to be made about matters that are highly uncertain. Different estimates could have a material effect on the Company's financial results. Judgments and uncertainties affecting the application of these policies and estimates may result in materially different amounts being reported under different conditions and circumstances.

Rental Property:

Rental properties are stated at cost less accumulated depreciation and amortization. Costs directly related to the acquisition, development and construction of rental properties are capitalized. Capitalized development and construction costs include pre-construction costs essential to the development of the property, development and construction costs, interest, property taxes, insurance, salaries and other project costs incurred during the period of

development. Interest capitalized by the Company for the three months ended March 31, 2007 and 2006 was \$1.3 million and \$1.5 million, respectively. Ordinary repairs and maintenance are expensed as incurred; major replacements and betterments, which improve or extend the life of the asset, are capitalized and depreciated over their estimated useful lives. Fully-depreciated assets are removed from the accounts.

The Company considers a construction project as substantially completed and held available for occupancy upon the completion of tenant improvements, but no later than one year from cessation of major construction activity (as distinguished from activities such as routine maintenance and cleanup). If portions of a rental project are substantially completed and occupied by tenants, or held available for occupancy, and other portions have not yet reached that stage, the substantially completed portions are accounted for as a separate project. The Company allocates costs incurred between the portions under construction and the portions substantially completed and held available for occupancy and capitalizes only those costs associated with the portion under construction.

Properties are depreciated using the straight-line method over the estimated useful lives of the assets. The estimated useful lives are as follows:

Leasehold interests	Remaining lease term
Buildings and improvements	5 to 40 years
Tenant improvements	The shorter of the term of the related lease or useful life
Furniture, fixtures and equipment	5 to 10 years

Upon acquisition of rental property, the Company estimates the fair value of acquired tangible assets, consisting of land, building and improvements, and identified intangible assets and liabilities generally consisting of the fair value of (i) above and below market leases, (ii) in-place leases and (iii) tenant relationships. The Company allocates the purchase price to the assets acquired and liabilities assumed based on their relative fair values. In estimating the fair value of the tangible and intangible assets acquired, the Company considers information obtained about each property as a result of its due diligence and marketing and leasing activities, and utilizes various valuation methods, such as estimated cash flow projections utilizing appropriate discount and capitalization rates, estimates of replacement costs net of depreciation, and available market information. The fair value of the tangible assets of an acquired property considers the value of the property as if it were vacant.

Above-market and below-market lease values for acquired properties are recorded based on the present value (using a discount rate which reflects the risks associated with the leases acquired) of the difference between (i) the contractual amounts to be paid pursuant to each in-place lease and (ii) management's estimate of fair market lease rates for each corresponding in-place lease, measured over a period equal to the remaining term of the lease for above-market leases and the remaining initial term plus the term of any below-market fixed rate renewal options for below-market leases. The capitalized above-market lease values are amortized as a reduction of base rental revenue over the remaining term of the respective leases, and the capitalized below-market lease values are amortized as an increase to base rental revenue over the remaining initial terms plus the terms of any below-market fixed rate renewal options of the respective leases.

Other intangible assets acquired include amounts for in-place lease values and tenant relationship values which are based on management's evaluation of the specific characteristics of each tenant's lease and the Company's overall relationship with the respective tenant. Factors to be considered by management in its analysis of in-place lease values include an estimate of carrying costs during hypothetical expected lease-up periods considering current market conditions, and costs to execute similar leases. In estimating carrying costs, management includes real estate taxes, insurance and other operating expenses and estimates of lost rentals at market rates during the expected lease-up periods, depending on local market conditions. In estimating costs to execute similar leases, management considers leasing commissions, legal and other related expenses. Characteristics considered by management in valuing tenant relationships include the nature and extent of the Company's existing business relationships with the tenant, growth prospects for developing new business with the tenant, the tenant's credit quality and expectations of lease renewals.

The value of in-place leases are amortized to expense over the remaining initial terms of the respective leases. The value of tenant relationship intangibles will be amortized to expense over the anticipated life of the relationships.

On a periodic basis, management assesses whether there are any indicators that the value of the Company's rental properties may be impaired. A property's value is impaired only if management's estimate of the aggregate future cash flows (undiscounted and without interest charges) to be generated by the property is less than the carrying value of the property. To the extent impairment has occurred, the loss shall be measured as the excess of the carrying amount of the property over the fair value of the property. The Company's estimates of aggregate future cash flows expected to be generated by each property are based on a number of assumptions that are subject to economic and market uncertainties including, among others, demand for space, competition for tenants, changes in market rental rates, and costs to operate each property. As these factors are difficult to predict and are subject to future events that may alter management's assumptions, the future cash flows estimated by management in its impairment analyses may not be achieved. Management does not believe that the value of any of the Company's rental properties is impaired.

Rental Property Held for Sale and Discontinued Operations:

When assets are identified by management as held for sale, the Company discontinues depreciating the assets and estimates the sales price, net of selling costs, of such assets. If, in management's opinion, the net sales price of the assets which have been identified as held for sale is less than the net book value of the assets, a valuation allowance is established. Properties identified as held for sale and/or sold are presented in discontinued operations for all periods presented.

If circumstances arise that previously were considered unlikely and, as a result, the Company decides not to sell a property previously classified as held for sale, the property is reclassified as held and used. A property that is reclassified is measured and recorded individually at the lower of (a) its carrying amount before the property was classified as held for sale, adjusted for any depreciation (amortization) expense that would have been recognized had the property been continuously classified as held and used, or (b) the fair value at the date of the subsequent decision not to sell.

Revenue Recognition:

Base rental revenue is recognized on a straight-line basis over the terms of the respective leases. Unbilled rents receivable represents the amount by which straight-line rental revenue exceeds rents currently billed in accordance with the lease agreements. Above-market and below-market lease values for acquired properties are recorded based on the present value (using a discount rate which reflects the risks associated with the leases acquired) of the difference between (i) the contractual amounts to be paid pursuant to each in-place lease and (ii) management's estimate of fair market lease rates for each corresponding in-place lease, measured over a period equal to the remaining term of the lease for above-market leases and the initial term plus the term of any below-market fixed-rate renewal options for below-market leases. The capitalized above-market lease values for acquired properties are amortized as a reduction of base rental revenue over the remaining term of the respective leases, and the capitalized below-market lease values are amortized as an increase to base rental revenue over the remaining initial terms plus the terms of any below-market fixed-rate renewal options of the respective leases. Escalations and recoveries from tenants are received from tenants for certain costs as provided in the lease agreements. These costs generally include real estate taxes, utilities, insurance, common area maintenance and other recoverable costs.

Construction services revenue includes fees earned and reimbursements received by the Company for providing construction management and general contractor services to clients. Construction services revenue is recognized on the percentage of completion method. Using this method, profits are recorded on the basis of our estimates of the overall profit and percentage of completion of individual contracts. A portion of the estimated profits is accrued based upon estimates of the percentage of completion of the construction contract. This revenue recognition method involves inherent risks relating to profit and cost estimates. Real estate services revenue includes property management, facilities management, leasing commission fees and other services, and payroll and related costs reimbursed from clients. Other income includes income from parking spaces leased to tenants, income from tenants for additional services arranged for the Company and income from tenants for early lease terminations.

Allowance for Doubtful Accounts:

Management periodically performs a detailed review of amounts due from tenants to determine if accounts receivable balances are impaired based on factors affecting the collectibility of those balances. Management's estimate of the allowance for doubtful accounts requires management to exercise significant judgment about the timing, frequency and severity of collection losses, which affects the allowance and net income.

Base rents for the Same-Store Properties increased \$5.8 million, or 4.5 percent, for 2007 as compared to 2006, due primarily to an increase in the percentage of space leased at the properties in 2007 from 2006. Escalations and recoveries from tenants for the Same-Store Properties increased \$4.4 million, or 20.9 percent, for 2007 over 2006, due primarily to an increased amount of total property expenses in 2007. Other income for the Same-Store Properties decreased \$0.4 million, or 15.2 percent, due primarily to a decrease in lease breakage fees.

Real estate taxes on the Same-Store Properties increased \$1.8 million, or 8.5 percent, for 2007 as compared to 2006, due primarily to property tax rate increases in certain municipalities in 2007. Utilities for the Same-Store Properties increased \$2.2 million, or 15.3 percent, for 2007 as compared to 2006, due primarily to increased electric rates in 2007 as compared to 2006. Operating services for the Same-Store Properties increased \$2.2 million, or 10.9 percent due primarily to increased snow removal costs of \$0.7 million, increased maintenance costs of \$0.7 million, increased insurance costs of \$0.5 million and an increase in salaries and related expenses of \$0.5 million, for 2007 as compared to 2006.

Construction services revenue amounted to \$22.3 million in 2007, due to the effect of the Company's acquisitions of The Gale Company and its related businesses (the "Gale/Green Transactions") completed in May 2006. Real estate services increased by \$2.1 million, for 2007 as compared to 2006, due primarily to the effect of the Gale/Green Transactions.

Direct construction costs totaled \$20.9 million in 2007, due primarily to the effect of the Gale/Green Transactions. General and administrative expense increased by \$2.3 million, or 26.2 percent, for 2007 as compared to 2006 due primarily to the effect of the Gale/Green Transactions.

Depreciation and amortization increased by \$4.9 million, or 13.5 percent, for 2007 over 2006. Of this increase, \$4.0 million, or 11.1 percent, is attributable to the Acquired Properties, and \$0.9 million, or 2.4 percent, is attributable to the Same-Store Properties.

Interest expense decreased \$0.1 million, or 0.4 percent, for 2007 as compared to 2006. This decrease was due primarily to lower average debt balances in 2007 as compared to 2006.

Interest and other investment income increased \$0.2 million, or 11.9 percent, for 2007 as compared to 2006. This increase was due primarily to higher cash balances invested during the period as well as an overall increase in interest rates.

Equity in earnings of unconsolidated joint ventures decreased \$2.5 million, or 1,003.2 percent, for 2007 as compared to 2006. The decrease was due primarily to a loss of \$1.7 million in the Mack-Green joint venture, and a loss of \$0.9 million in the Route 93 Portfolio.

The Company recognized a gain on sale of investment in marketable securities of \$15.1 million in 2006.

Income from continuing operations before minority interest in Operating Partnership decreased to approximately \$23.1 million in 2007 from \$37.2 million in 2006. The decrease of approximately \$14.1 million is due to the factors discussed above.

Net income available to common shareholders decreased by approximately \$14.0 million, from \$32.6 million in 2006 to \$18.6 million in 2007. This decrease was the result of a decrease in income from continuing operations before minority interest in Operating Partnership of \$14.1 million, and a decrease in income from discontinued operations of \$2.5 million for 2007 as compared to 2006, partially offset by a decrease in minority interest in Operating Partnership of approximately \$2.6 million.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity

Overview:

Historically, rental revenue has been the principal source of funds to pay operating expenses, debt service, capital expenditures and dividends, excluding non-recurring capital expenditures. To the extent that the Company's cash flow from operating activities is insufficient to finance its non-recurring capital expenditures such as property acquisitions, development and construction costs and other capital expenditures, the Company has and expects to continue to finance such activities through borrowings under its revolving credit facility and other debt and equity financings.

The Company believes that with the general downturn in the Company's markets in recent years, it is reasonably likely that vacancy rates may continue to increase, effective rental rates on new and renewed leases may continue to decrease and tenant installation costs, including concessions, may continue to increase in most or all of its markets in 2007. As a result of the potential negative effects on the Company's revenue from the overall reduced demand for office space, the Company's cash flow could be insufficient to cover increased tenant installation costs over the short-term. If this situation were to occur, the Company expects that it would finance any shortfalls through borrowings under its revolving credit facility and other debt and equity financings.

The Company expects to meet its short-term liquidity requirements generally through its working capital, net cash provided by operating activities and from its revolving credit facility. The Company frequently examines potential property acquisitions and development projects and, at any given time, one or more of such acquisitions or development projects may be under consideration. Accordingly, the ability to fund property acquisitions and development projects is a major part of the Company's financing requirements. The Company expects to meet its financing requirements through funds generated from operating activities, proceeds from property sales, long-term and short-term borrowings (including draws on the Company's revolving credit facility) and the issuance of additional debt and/or equity securities.

Gale Company Earn-Out:

The agreement to acquire the Gale Company (“Gale Agreement”), which was acquired for initial purchase consideration of approximately \$22.3 million on May 9, 2006, contains earn-out provisions providing for the payment of contingent purchase consideration of up to \$18 million in cash based upon the achievement of Gross Income and NOI (as such terms are defined in the Gale Agreement) targets and other events for the three years following the closing date.

Construction Projects:

On February 22, 2007, the Company announced that it agreed to develop a 250,000 square-foot class A office building for Wyndham Worldwide Corporation for its corporate headquarters. The building, which Wyndham Worldwide pre-leased for 15 years, will be developed on a land site located in the Company's Mack-Cali Business Campus in Parsippany, New Jersey. The building is expected to be completed in the fourth quarter 2008 at a total estimated cost of approximately \$64.8 million.

The Company entered into a 15-year lease with AAA Mid-Atlantic ("AAA") for a 120,000 square foot office building being constructed by the Company in its Horizon Center Business Park located in Hamilton Township, New Jersey. The building is expected to be completed during the early part of 2007 at an estimated cost of approximately \$19.2 million (of which the Company has incurred \$16.5 million through April 27, 2007), which is expected to be funded through borrowings on the Company's unsecured credit facility. Concurrent with the signing of the lease, the Company executed a purchase and sale agreement with AAA pursuant to which the Company, upon the commencement of the 120,000 square foot lease, will acquire from AAA two office buildings, totaling approximately 70,000 square feet and certain vacant, developable land, all located in Hamilton Township, New Jersey, for a total purchase price of approximately \$8.8 million, subject to certain conditions.

Additionally, the Company, through a joint venture with the PRC Group, is constructing a 92,878 square-foot office property, to be known as Red Bank Corporate Plaza, located in Red Bank, New Jersey, on land contributed by its joint venture partner. The project is fully leased to Hovnanian Enterprise, Inc. for a 10-year term. The total cost of the project, which is expected to be completed in the third quarter 2007, is estimated to be approximately \$27 million, of which the Company currently expects to fund approximately \$3 million. On October 20, 2006, the venture entered into a \$22.0 million construction loan with a commercial bank. The loan (with a balance as of March 31, 2007, of \$12.7 million) carries an interest rate of LIBOR plus 130 basis points and matures in April 2008. The loan currently has three one-year extension options subject to certain conditions, each of which require payment of a fee.

The Company owns a 15 percent indirect interest in a joint venture which plans to develop approximately 1.2 million square foot mixed-use project in downtown Boston consisting of office and retail space, condominium apartments, a hotel and garage. The development project, which is subject to government approval, is currently projected to cost approximately \$630 million, of which the Company is currently projected to invest a total of approximately \$20.3 million (of which the Company has invested \$14.9 million through April 27, 2007).

REIT Restrictions:

To maintain its qualification as a REIT, the Company must make annual distributions to its stockholders of at least 90 percent of its REIT taxable income, determined without regard to the dividends paid deduction and by excluding net capital gains. Moreover, the Company intends to continue to make regular quarterly distributions to its common stockholders which, based upon current policy, in the aggregate would equal approximately \$173.9 million on an annualized basis. However, any such distribution, whether for federal income tax purposes or otherwise, would only be paid out of available cash, including borrowings and other sources, after meeting operating requirements, preferred stock dividends and distributions, and scheduled debt service on the Company's debt.

Property Lock-Ups:

The Company may not dispose of or distribute certain of its properties, currently comprising 50 properties with an aggregate net book value of approximately \$1.3 billion, which were originally contributed by members of either the Mack Group (which includes William L. Mack, Chairman of the Company's Board of Directors; David S. Mack, director; Earle I. Mack, a former director; and Mitchell E. Hersh, president, chief executive officer and director), the Robert Martin Group (which includes Robert F. Weinberg, director; Martin S. Berger, a former director; and Timothy M. Jones, former president), the Cali Group (which includes John R. Cali, director, and John J. Cali, a former director) or certain other common unitholders, without the express written consent of a representative of the Mack Group, the

Robert Martin Group, the Cali Group or the specific certain other common unitholders, as applicable, except in a manner which does not result in recognition of any built-in-gain (which may result in an income tax liability) or which reimburses the appropriate Mack Group, Robert Martin Group, Cali Group members or the specific certain other common unitholders for the tax consequences of the recognition of such built-in-gains (collectively, the “Property Lock-Ups”). The aforementioned restrictions do not apply in the event that the Company sells all of its properties or in connection with a sale transaction which the Company’s Board of Directors determines is reasonably necessary to satisfy a material monetary default on any unsecured debt, judgment or liability of the Company or to cure any material monetary default on any mortgage secured by a property. The Property Lock-Ups expire periodically through 2016. Upon the expiration of the Property Lock-Ups, the Company generally is required to use commercially reasonable efforts to prevent any sale, transfer or other disposition of the subject properties from resulting in the recognition of built-in gain to the appropriate Mack Group, Robert Martin Group, Cali Group members or the specific certain other common unitholders. 87 of our properties, with an aggregate net book value of approximately \$805.8 million, have lapsed restrictions and are subject to these conditions.

Unencumbered Properties:

As of March 31, 2007, the Company had 237 unencumbered properties, totaling 25.2 million square feet, representing 87.1 percent of the Company's total portfolio on a square footage basis.

Credit Ratings:

The Company has three investment grade credit ratings. Standard & Poor's Rating Services ("S&P") and Fitch, Inc. ("Fitch") have each assigned their BBB rating to existing and prospective senior unsecured debt of the Operating Partnership. S&P and Fitch have also assigned their BBB- rating to existing and prospective preferred stock offerings of the Company. Moody's Investors Service ("Moody's") has assigned its Baa2 rating to existing and prospective senior unsecured debt of the Operating Partnership and its Baa3 rating to its existing and prospective preferred stock offerings of the Company.

Cash Flows

Cash and cash equivalents increased by \$48.9 million to \$150.2 million at March 31, 2007, compared to \$101.2 million at December 31, 2006. The increase is comprised of the following net cash flow items:

- (1) \$39.2 million provided by operating activities.
- (2) \$30.6 million used in investing activities, consisting primarily of the following:
 - (a) \$19 million used for additions to rental property and related intangibles; plus
 - (b) \$10.8 million used in investing in unconsolidated joint ventures; plus
- (3) \$40.4 million provided by financing activities, consisting primarily of the following:
 - (a) \$251.7 million in proceeds from the offering of Common Stock; plus
 - (b) \$76 million from borrowings under the Company's unsecured credit facility; minus
- (c) \$221 million used for the repayment of borrowings under the Company's unsecured credit facility; minus
- (d) \$19.1 million used for the repayment of mortgages, loans payable and other obligations; minus
- (e) \$50.6 million used for the payment of dividends and distributions.

Senior Unsecured Notes:

The terms of the Company's senior unsecured notes (which totaled approximately \$1.6 billion as of March 31, 2007) include certain restrictions and covenants which require compliance with financial ratios relating to the maximum amount of debt leverage, the maximum amount of secured indebtedness, the minimum amount of debt service coverage and the maximum amount of unsecured debt as a percent of unsecured assets.

Unsecured Revolving Credit Facility:

The Company has an unsecured revolving credit facility with a borrowing capacity of \$600 million (expandable to \$800 million). The interest rate on outstanding borrowings (not electing the Company's competitive bid feature) under the unsecured facility is currently LIBOR plus 65 basis points. The facility has a competitive bid feature, which allows the Company to solicit bids from lenders under the facility to borrow up to \$300 million at interest rates less than the current LIBOR plus 65 basis point spread. The Company may also elect an interest rate representing the higher of the lender's prime rate or the Federal Funds rate plus 50 basis points. The unsecured facility, which also requires a 15 basis point facility fee on the current borrowing capacity payable quarterly in arrears, is scheduled to mature in November

2009 and has an extension option of one year, which would require a payment of 25 basis points of the then borrowing capacity of the facility upon exercise. As of March 31, 2007, the Company had no outstanding borrowings under its unsecured facility.

The interest rate and the facility fee are subject to adjustment, on a sliding scale, based upon the operating partnership's unsecured debt ratings. In the event of a change in the Operating Partnership's unsecured debt rating, the interest and facility fee rates will be adjusted in accordance with the following table:

Operating Partnership's Unsecured Debt Ratings: S&P Moody's/Fitch (a)	Interest Rate - Applicable Basis Points Above LIBOR	Facility Fee Basis Points
No ratings or less than BBB-/Baa3/BBB-	112.5	25.0
BBB-/Baa3/BBB-	80.0	20.0
BBB/Baa2/BBB (current)	65.0	15.0
BBB+/Baa1/BBB+	55.0	15.0
A-/A3/A- or higher	50.0	15.0

(a) If the Operating Partnership has debt ratings from two rating agencies, one of which is Standard & Poor's Rating Services ("S&P") or Moody's Investors Service ("Moody's"), the rates per the above table shall be based on the lower of such ratings. If the Operating Partnership has debt ratings from three rating agencies, one of which is S&P or Moody's, the rates per the above table shall be based on the lower of the two highest ratings. If the Operating Partnership has debt ratings from only one agency, it will be considered to have no rating or less than BBB-/Baa3/BBB- per the above table.

The terms of the unsecured facility include certain restrictions and covenants which limit, among other things, the payment of dividends (as discussed below), the incurrence of additional indebtedness, the incurrence of liens and the disposition of real estate properties (to the extent that: (i) such property dispositions cause the Company to default on any of the financial ratios of the facility described below, or (ii) the property dispositions are completed while the Company is under an event of default under the facility, unless, under certain circumstances, such disposition is being carried out to cure such default), and which require compliance with financial ratios relating to the maximum leverage ratio, the maximum amount of secured indebtedness, the minimum amount of tangible net worth, the minimum amount of fixed charge coverage, the maximum amount of unsecured indebtedness, the minimum amount of unencumbered property interest coverage and certain investment limitations. The dividend restriction referred to above provides that, except to enable the Company to continue to qualify as a REIT under the Code, the Company will not during any four consecutive fiscal quarters make distributions with respect to common stock or other common equity interests in an aggregate amount in excess of 90 percent of funds from operations (as defined in the facility agreement) for such period, subject to certain other adjustments.

The lending group for the unsecured facility consists of: JPMorgan Chase Bank, N.A., as administrative agent; Bank of America, N. A., as syndication agent; The Bank of Nova Scotia, New York Agency; Wachovia Bank, National Association; and Wells Fargo Bank, National Association, as documentation agents; SunTrust Bank, as senior managing agent; US Bank National Association; Citicorp North America, Inc.; and PNC Bank National Association, as managing agents; and Bank of China, New York Branch; The Bank of New York; Chevy Chase Bank, F.S.B.; The Royal Bank of Scotland, plc; Mizuho Corporate Bank, Ltd.; UFJ Bank Limited, New York Branch; The Governor and Company of the Bank of Ireland; Bank Hapoalim B.M.; Comerica Bank; Chang Hwa Commercial Bank, Ltd., New York Branch; First Commercial Bank, New York Agency; Chiao Tung Bank Co., Ltd., New York Agency; Deutsche Bank Trust Company Americas; and Hua Nan Commercial Bank, New York Agency.

Mortgages, Loans Payable and Other Obligations:

The Company has mortgages, loans payable and other obligations which consist of various loans collateralized by certain of the Company's rental properties. Payments on mortgages, loans payable and other obligations are generally due in monthly installments of principal and interest, or interest only.

On February 5, 2007, the Company repaid its \$9.4 million loan with Allstate Life Insurance Company collateralized by 200 Riser Road, which was scheduled to mature on April 1, 2007, at par, using available cash.

On February 15, 2007, the Company repaid its \$5.9 million loan with State Farm Life Insurance Company collateralized by 6303 Ivy Lane, which was scheduled to mature on July 1, 2007, at par, using available cash.

Debt Strategy:

The Company does not intend to reserve funds to retire the Company's senior unsecured notes or its mortgages, loans payable and other obligations upon maturity. Instead, the Company will seek to refinance such debt at maturity or retire such debt through the issuance of additional equity or debt securities on or before the applicable maturity dates. If it cannot raise sufficient proceeds to retire the maturing debt, the Company may draw on its revolving credit facility to retire the maturing indebtedness, which would reduce the future availability of funds under such facility. As of April 27, 2007, the Company had no outstanding borrowings under its \$600 million unsecured revolving credit facility. The Company is reviewing various refinancing options, including the purchase of its senior unsecured notes in privately-negotiated transactions, the issuance of additional, or exchange of current, unsecured debt, preferred stock, and/or obtaining additional mortgage debt, some or all of which may be completed during 2007. The Company anticipates that its available cash and cash equivalents and cash flows from operating activities, together with cash available from borrowings and other sources, will be adequate to meet the Company's capital and liquidity needs both in the short and long-term. However, if these sources of funds are insufficient or unavailable, the Company's ability to make the expected distributions discussed below may be adversely affected.

The Company and the Operating Partnership also have an effective shelf registration statement on Form S-3 filed with the SEC for an aggregate amount of \$2.5 billion in common stock, preferred stock, depositary shares and guarantees of the Company and debt securities of the Operating Partnership, under which \$600 million of securities have been sold through April 27, 2007 and \$1.9 billion remains available for future issuances.

*Off-Balance Sheet Arrangements***Unconsolidated Joint Venture Debt:**

The debt of the Company's unconsolidated joint ventures aggregating \$582.8 million at March 31, 2007, is non-recourse to the Company except for customary exceptions pertaining to such matters as intentional misuse of funds, environmental conditions and material misrepresentations. The Company has also posted a \$7.3 million letter of credit in support of the Harborside South Pier joint venture, \$3.6 million of which is indemnified by Hyatt.

The Company's off-balance sheet arrangements are further discussed in Note 4: Investments in Unconsolidated Joint Ventures to the Financial Statements.

Contractual Obligations

The following table outlines the timing of payment requirements related to the Company's debt (principal and interest), PILOT agreements, and ground lease agreements as of March 31, 2007:

<i>(dollars in thousands)</i>	Total	Payments Due by Period

Inflation

The Company's leases with the majority of its tenants provide for recoveries and escalation charges based upon the tenant's proportionate share of, and/or increases in, real estate taxes and certain operating costs, which reduce the Company's exposure to increases in operating costs resulting from inflation.

DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

We consider portions of this information, including the documents incorporated by reference, to be forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in Section 21E of such act. Such forward-looking statements relate to, without limitation, our future economic performance, plans and objectives for future operations and projections of revenue and other financial items. Forward-looking statements can be identified by the use of words such as "may," "will," "plan," "should," "expect," "anticipate," "estimate," "continue" or comparable terminology. Forward-looking statements are inherently subject to risks and uncertainties, many of which we cannot predict with accuracy and some of which we might not even anticipate. Although we believe that the expectations reflected in such forward-looking statements are based upon reasonable assumptions at the time made, we can give no assurance that such expectations will be achieved. Future events and actual results, financial and otherwise, may differ materially from the results discussed in the forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements.

Among the factors about which we have made assumptions are:

- changes in the general economic climate and conditions, including those affecting industries in which our principal tenants compete;
- the extent of any tenant bankruptcies or of any early lease terminations;
- our ability to lease or re-lease space at current or anticipated rents;

- changes in the supply of and demand for office, office/flex and industrial/warehouse properties;
- changes in interest rate levels;
- changes in operating costs;
- our ability to obtain adequate insurance, including coverage for terrorist acts;
- the availability of financing;
- changes in governmental regulation, tax rates and similar matters; and
- other risks associated with the development and acquisition of properties, including risks that the development may not be completed on schedule, that the tenants will not take occupancy or pay rent, or that development or operating costs may be greater than anticipated.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk is the exposure to loss resulting from changes in interest rates, foreign currency exchange rates, commodity prices and equity prices. In pursuing its business plan, the primary market risk to which the Company is exposed is interest rate risk. Changes in the general level of interest rates prevailing in the financial markets may affect the spread between the Company's yield on invested assets and cost of funds and, in turn, its ability to make distributions or payments to its investors.

Approximately \$2.0 billion of the Company's long-term debt and other obligations bears interest at fixed rates and therefore the fair value of these instruments is affected by changes in market interest rates. The following table presents principal cash flows based upon maturity dates of the debt obligations and the related weighted-average interest rates by expected maturity dates for the fixed rate debt.

(dollars in thousands)

March 31, 2007	Maturity Date						Total Fair Value
	04/1/07 - 12/31/07	2008	2009	2010	2011	Thereafter	
Debt, including current portion							
Fixed Rate	\$13,461	\$29,345	\$309,841	\$336,398	\$302,766	\$1,004,206	\$1,996,017
Average Interest Rate	5.01%	5.25%	7.41%	5.26%	7.91%	5.57%	6.14%

While the Company has not experienced any significant credit losses, in the event of a significant rising interest rate environment and/or economic downturn, defaults could increase and result in losses to the Company which could adversely affect its operating results and liquidity.

Item 4. Controls and Procedures

Disclosure Controls and Procedures. The Company's management, with the participation of the Company's president and chief executive officer and chief financial officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this report. Based on such evaluation, the Company's president and chief executive officer and chief financial officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures are effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act.

Internal Control Over Financial Reporting. There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
