ENGELHARD CORPORATION

Engelhard Corporation is a surface and materials science company that develops technologies to improve customers' products and processes. We develop,

Edgar Filing: ENGELHARD CORP - Form 424B2

manufacture and market technology-based performance products and engineered materials for a wide spectrum of industrial customers. We also serve our technology segments, our customers and others with precious and base metals and related services. Our businesses are organized into four reportable segments -- Environmental Technologies, Process Technologies, Appearance and Performance Technologies and Materials Services.

The Environmental Technologies segment markets cost-effective compliance with environmental regulations enabled by sophisticated emission-control technologies and systems. Environmental catalysts are used in applications such as the abatement of carbon monoxide, oxides of nitrogen and hydrocarbon emissions from gasoline, diesel and alternate-fueled vehicles. These catalysts also are used to remove odors, fumes and pollutants associated with a variety of process industries, co-generation and gas-turbine power generation, household appliances and lawn and garden power tools.

The Process Technologies segment enables customers to make their processes more productive, efficient, environmentally sound and safer through the supply of advanced chemical-process catalysts, additives and sorbents. Process Technologies' chemical-process catalysts are used in the manufacture of a variety of products and intermediates made by chemical, petrochemical, pharmaceutical and agricultural chemical producers. In addition, they are used in the production of polypropylene which is used in a wide range of products, including food packaging, carpets, toys and automobile bumpers. Sorbents are used to purify and decolorize naturally occurring fats and oils for the manufacture of shortenings, margarines and cooking oils. Petroleum catalysts and additives are used by refiners to provide economies in petroleum processing and to meet increasingly stringent fuel-quality requirements. The segment's catalyst products are based on our proprietary technology and often are application-specific.

The Appearance and Performance Technologies segment provides pigments, effect materials and performance additives that enable its customers to market enhanced image and functionality in their products. This segment serves a broad array of end markets including coatings, plastics, cosmetics, construction and paper. This segment's products help customers improve the look, performance and overall cost of their products. This segment is also the internal supply source of precursors for some of our advanced refining-process catalysts.

The Materials Services segment serves our technology segments, our customers and others with precious and base metals and related services. This is a distribution and materials services business that purchases and sells precious metals, base metals and related products and services. It does so under a variety of pricing and delivery arrangements structured to meet the logistical, financial and price-risk management requirements of Engelhard, our customers and suppliers. Additionally, it offers the related services of precious-metal refining and storage and produces salts and solutions.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth the ratio of earnings to fixed charges for Engelhard for the periods indicated. In the calculation of Engelhard's ratio of earnings to fixed charges, "earnings" consist of income from continuing operations before income taxes and fixed charges (excluding capitalized interest) and "fixed charges" consist of interest expense, including the interest portion of rental obligations deemed representative of the interest factor.

USE OF PROCEEDS

The net proceeds from the sale of the Notes are estimated to be \$147,841,500. We expect to use the net proceeds from this offering of the Notes for general corporate purposes and to repay other indebtedness. Such indebtedness consists of commercial paper borrowings, which bear interest at rates based on LIBOR.

S-3

DESCRIPTION OF NOTES

The following description of the particular terms of the Notes offered hereby supplements and, to the extent inconsistent therewith, supersedes, the description of the general terms and provisions of the Securities (as defined in the accompanying prospectus) set forth under the heading "Description of Securities" in the accompanying prospectus, to which description reference is hereby made. Capitalized terms not otherwise defined herein shall have the same meanings assigned to such terms in the accompanying prospectus.

GENERAL

The Notes offered hereby will be unsecured general obligations of the Company and will constitute a series of Debt Securities to be issued under the Senior Indenture referred to in the accompanying prospectus. The Notes will initially be issued in an aggregate principal amount of \$150 million, will mature on May 15, 2013, and will not be subject to any sinking fund. The Notes will bear interest at the rate per annum stated on the cover page of this prospectus supplement from May 13, 2003 or from the most recent Interest Payment Date to which interest has been paid or provided for, payable semi-annually in arrears on May 15 and November 15 of each year (each, an "Interest Payment Date"), commencing November 15, 2003, to the Person in whose name the Notes are registered at the close of business on the preceding May 1 or November 1, as the case may be (each, a "Regular Record Date"). Interest on the Notes will be computed on the basis of a 360-day year of twelve 30-day months. The Notes are to be issued only in registered form without coupons in denominations of \$1,000 and integral multiples thereof.

Any payment otherwise required to be made in respect of the Notes on a date that is not a business day may be made on the next succeeding business day with the same force and effect as if made on the original due date. No additional interest will accrue as a result of a delayed payment in this case. A business day is defined in the indenture as a day other than a Saturday, Sunday or other day on which banking institutions in New York City are authorized or required by law to close.

FURTHER ISSUES

We may from time to time, without notice to, or the consent of, the registered holders of the Notes, create and issue further notes equal in rank to the Notes offered by this prospectus supplement in all respects (or in all respects except for the payment of interest accruing prior to the issue date of the further notes or except for the first payment of interest following the issue date of the further notes). These further notes may be consolidated and form a single series with the Notes and will have the same terms as to status, redemption or otherwise as the Notes.

Edgar Filing: ENGELHARD CORP - Form 424B2

OPTIONAL REDEMPTION

The Notes will be redeemable, in whole or in part, at our option at any time from time to time at a redemption price equal to the greater of:

- o 100% of the principal amount of the Notes being redeemed, and
- o the sum of the present values of the remaining scheduled payments of principal and interest on the Notes being redeemed (not including any portion of any payments of interest accrued to the redemption date) discounted to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate (as defined below) plus 20 basis points

plus, in each case, accrued and unpaid interest on the Notes to the redemption date.

For purposes of these redemption provisions, the following terms have the following meanings:

"Comparable Treasury Issue" means the United States Treasury security selected by the Reference Treasury Dealer as having a maturity comparable to the remaining term of the Notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of those Notes.

"Comparable Treasury Price" means, with respect to any redemption date, (i) the average of the Reference Treasury Dealer Quotations for the redemption date, after excluding the highest and lowest Reference Treasury Dealer Quotations, or (ii) if the trustee obtains fewer than four Reference Treasury Dealer Quotations, the average of all Reference Treasury Dealer Quotations.

S-4

"Reference Treasury Dealer" means J.P. Morgan Securities Inc. and Merrill Lynch, Pierce, Fenner & Smith Incorporated (or their respective affiliates which are Primary Treasury Dealers (as defined below)), and their respective successors and two additional Primary Treasury Dealers selected by Engelhard, provided, however, that if any of the foregoing cease to be a primary U.S. Government securities dealer in New York City (a "Primary Treasury Dealer"), Engelhard will substitute another Primary Treasury Dealer.

"Reference Treasury Dealer Quotations" means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the trustee, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the trustee by that Reference Treasury Dealer at 5:00 p.m., New York City time, on the third business day preceding that redemption date.

"Treasury Rate" means, with respect to any redemption date, the rate per annum equal to the semi-annual equivalent yield to maturity of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for that redemption date. The Treasury Rate will be calculated on the third business day preceding the redemption date.

Holder of Notes to be redeemed will receive notice by first-class mail at least 30 days but not more than 60 days before the date of redemption. If fewer

Edgar Filing: ENGELHARD CORP - Form 424B2

than all of the Notes are to be redeemed, DTC, in the case of Notes represented by a global security, or the trustee, will select, not more than 60 days prior to the redemption date, the particular Notes or portions thereof for redemption from the outstanding Notes not previously called by such method as DTC or the trustee, as the case may be, deems fair and appropriate. Unless we default in payment of the redemption price, on and after the date of redemption, interest, will cease to accrue on the Notes or portions thereof called for redemption.

GLOBAL SECURITIES

The Notes initially will be issued as Global Securities and will not be available in certificated form except in limited circumstances. See "Description of Securities--Global Securities" in the accompanying prospectus for additional information concerning the Notes, the Indenture and the book-entry system. The Depository Trust Company ("DTC") will be the Depository (as defined in the accompanying prospectus) with respect to the Notes.

SAME-DAY SETTLEMENT AND PAYMENT

Settlement for the Notes will be made by the underwriters in immediately available funds. All payments of principal, premium, if any, and interest will be made by the Company in immediately available funds to the Depository in The City of New York. The Notes will trade in the DTC's Same-Day Funds Settlement System until maturity or earlier redemption, as the case may be, and secondary market trading activity in the Notes will therefore settle in immediately available funds.

S-5

The underwriters have agreed to purchase all of the Notes sold pursuant to the Underwriting Agreement if any of these Notes are purchased. If an underwriter defaults, the Underwriting Agreement provides that the purchase commitments of the nondefaulting underwriters may be increased or the Underwriting Agreement may be terminated.

Edgar Filing: ENGELHARD CORP - Form 424B2

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the Notes, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the Notes, and other conditions contained in the Underwriting Agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

COMMISSIONS AND DISCOUNTS

The underwriters have advised us that they propose initially to offer the Notes to the public at the public offering price on the cover page of this prospectus, and to dealers at that price less a concession not in excess of .4% of the principal amount of the Notes. The underwriters may allow, and the dealers may reallow, a discount not in excess of .25% of the principal amount of the Notes to other dealers. After the initial public offering, the public offering price, concession and discount may be changed.

The expenses of the offering, not including the underwriting discount, are estimated to be \$200,000 and are payable by us.

NEW ISSUE OF NOTES

The Notes are a new issue of securities with no established trading market. We do not intend to apply for listing of the Notes on any national securities exchange or for quotation of the Notes on any automated dealer quotation system. We have been advised by the underwriters that they presently intend to make a market in the Notes after completion of the offering. However, they are under no obligation to do so and may discontinue any market-making activities at any time without any notice. We cannot assure the liquidity of the trading market for the Notes or that an active public market for the Notes will develop. If an active public trading market for the Notes does not develop, the market price and liquidity of the Notes may be adversely affected.

J.P. Morgan Securities Inc. ("JPMorgan") will make the Notes available for distribution on the Internet through a proprietary Web site and/or a third party system operated by Market Axess Inc., an Internet-based communications technology provider. Market Axess Inc. is providing the system as a conduit for communications between JPMorgan and its customers and is not a party to any transactions. Market Axess Inc., a registered broker-dealer, will receive compensation from JPMorgan based on transactions JPMorgan conducts through the system. JPMorgan will make the Notes available to its customers through the Internet distributions, whether made through a proprietary or third-party system, on the same terms as distributions made through other channels.

S-6

PRICE STABILIZATION AND SHORT POSITIONS

In connection with the offering, the underwriters are permitted to engage in transactions that stabilize the market price of the Notes. Such transactions consist of bids or purchases to peg, fix or maintain the price of the Notes. If the underwriters create a short position in the Notes in connection with the offering, i.e., if they sell more Notes than are on the cover page of this prospectus, the underwriters may reduce that short position by purchasing Notes in the open market. Purchases of a security to stabilize the price or to reduce

Edgar Filing: ENGELHARD CORP - Form 424B2

a short position could cause the price of the security to be higher than it might be in the absence of such purchases.

Neither we nor any of the underwriters makes any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the Notes. In addition, neither we nor any of the underwriters makes any representation that the underwriters will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

OTHER RELATIONSHIPS

Some of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us. They have received customary fees and commissions for these transactions. The trustee, JPMorgan Chase Bank, is an affiliate of J.P. Morgan Securities Inc.

LEGAL MATTERS

Cahill Gordon & Reindel LLP of New York, New York, will issue an opinion with respect to certain legal matters in connection with the Notes for Engelhard Corporation. Cravath, Swaine & Moore LLP of New York, New York will act as counsel for the underwriters.

Reference is made to the Prospectus Supplement for the following terms, if applicable, of the Debt Securities offered thereby: (1) the designation, aggregate principal amount, currency or composite currency and denominations; (2) the price at which such Debt Securities will be issued; (3) any index, formula or other method used for determining amounts of principal or interest payable on the Debt Securities; (4) the maturity date and other dates, if any, on which principal will be payable; (5) the interest rate or rates (which may be fixed or variable), if any, and the date or dates from which interest will accrue and on which interest will be payable, and the record dates for the payment of interest; (6) the manner of paying principal or interest; (7) the place or places where principal and interest will be payable; (8) the terms of any mandatory or optional redemption by the Company; (9) the terms of any repayment at the option of holders; (10) whether such Debt Securities are to be issuable as registered Debt Securities, bearer Debt Securities, or both, and whether and upon what terms registered Debt Securities may be exchanged for bearer Debt Securities and vice versa; (11) whether such Debt Securities are to be represented in whole or in part by a Debt Security in global form and, if so, the identity of the depository ("Depository") for any global Debt Security; (12) any tax indemnity provisions; (13) if the Debt Securities provide that payments of principal or interest may be made in a currency other than that in which Debt Securities are denominated, the manner for determining such payments; (14) the portion of principal payable upon acceleration of a Discounted Security; (15) whether and upon what terms Debt Securities may be defeased, (16) any events of default or restrictive covenants in addition to or in lieu of those set forth in the applicable Indenture; (17) provisions for electronic issuance of Debt Securities or for Debt Securities in uncertificated form; (18) the terms, if any, upon which the Debt Securities will be convertible into or exchangeable for Common Stock of the Company; and (19) any additional provisions or other terms not inconsistent with the provisions of the applicable Indenture, including any terms that may be required or advisable under United States or other applicable laws or regulations or advisable in connection with the marketing of the Debt Securities.

RANKING OF DEBT SECURITIES

The Senior Debt Securities will be unsecured and will rank equally and ratably with other unsecured and unsubordinated debt of the Company. The Subordinated Debt Securities will be subordinate in right of payment to all Senior Indebtedness of the Company. "Senior Indebtedness" of the Company is defined to mean the principal of (and premium, if any) and interest on (a) any and all indebtedness and obligations of the Company (including indebtedness of others guaranteed by the Company), whether or not contingent and whether outstanding on the date of the Subordinated Indenture or thereafter created, incurred or assumed, which (i) are for money borrowed; (ii) are evidenced by any bond, note, debenture or similar instrument; (iii) represent the unpaid balance on the purchase price of any property, business, or asset of any kind; (iv) are obligations of the Company as lessee under any and all leases of property, equipment or other assets required to be capitalized on the balance sheet of the lessee under generally accepted accounting principles; (v) are reimbursement obligations of the Company with respect to letters of credit; and (b) any deferrals, amendments, renewals, extensions, modifications and refundings of any indebtedness or obligations of the types referred to above; provided that Senior Indebtedness shall not include (i) Subordinated Debt Securities; (ii) any indebtedness or obligation of the Company which, by its express terms or the express terms of the instrument creating or evidencing it, is not superior in right of payment to the Subordinated Debt Securities; or (iii) any indebtedness or obligation incurred by the Company in connection with the purchase of assets,

Edgar Filing: ENGELHARD CORP - Form 424B2

materials or services in the ordinary course of business and which constitutes a trade payable. The Subordinated Indenture does not contain any limitation on the amount of Senior Indebtedness which may be hereafter incurred by the Company. In the event of any default in the payment of the principal of, or interest on, any Senior Indebtedness in an aggregate principal amount of at least \$50,000,000 or any default permitting the acceleration of Senior Indebtedness in an aggregate amount of at least \$50,000,000 where notice of such default has been given to the Company, no payment with respect to the principal of or interest on the Subordinated Debt Securities will be made by the Company unless and until such default has been cured or waived. Upon any payment or distribution of the Company's assets to creditors of the Company in a liquidation or dissolution of the Company, or in a reorganization, bankruptcy, insolvency, receivership or similar proceeding relating to the Company or its property, whether voluntary or involuntary, the holders of Senior Indebtedness will first be entitled to receive payment in full of all amounts due thereon before the holders of the Subordinated Debt Securities will be entitled to receive any payment upon the principal of or premium, if any, or interest on the Subordinated Debt Securities. By reason of such subordination, in the event of insolvency of the Company, holders of Senior Indebtedness of the Company may receive more, ratably, and holders of the Subordinated Debt Securities may receive less, ratably, than the other creditors of the Company. Such subordination will not prevent the occurrence of any Event of Default in respect of the Subordinated Debt Securities.

COVENANTS

The Senior Indenture contains, among others, the covenants summarized below, which will be applicable (unless waived or amended) so long as any of the Senior Debt Securities are outstanding, unless stated otherwise in the Prospectus Supplement.

LIMITATIONS ON LIENS AND ENCUMBRANCES. The Company covenants that it will not nor will it permit any Subsidiary, directly or indirectly, to incur or create any Lien on any property, assets or stock now owned or hereafter acquired by the Company or any of its Subsidiaries without equally and ratably securing all series of Senior Debt Securities then outstanding with the indebtedness secured by such Lien, other than: (a) Liens for taxes or assessments and similar charges either (i) not delinquent or (ii) being contested in good faith by appropriate proceedings and as to which the Company or such Subsidiary, as the case may be, shall have set aside on its books adequate reserves; (b) Liens incurred or pledges and deposits made in connection with workmen's compensation, unemployment insurance, old-age pensions and social security benefits or securing the performance of bids, tenders, leases, contracts (other than for obligations incurred in connection with the borrowing of money or the obtaining of advances or credit), and statutory obligations of like nature, incurred as an incident to and in the ordinary course of business; (c) materialmen's, mechanics', repairmen's, employees', operators' or other similar Liens or charges arising in the ordinary course of business incidental to construction, maintenance or operation of any property of the Company or any Subsidiary which have not at the time been filed pursuant to law and any such Liens and charges incidental to construction, maintenance or operation of any property of the Company or any Subsidiary, which, although filed, relate to obligations not yet due or the payment of which is being withheld as provided by law, or to obligations the validity of which is being contested in good faith by appropriate proceedings; (d) zoning restrictions, easements, licenses, reservations, provisions, covenants, conditions, waivers, restrictions on the use of property or minor irregularities of title (and with respect to leasehold interests, mortgages, obligations, Liens and other encumbrances incurred, created,

assumed or permitted to exist and arising by, through or under or asserted by a landlord or owner of the leased property, with or without consent of the lessee), which will not individually or in the aggregate interfere materially with the use or operation by the Company or any Subsidiary of the property affected thereby for the purposes for which such property was acquired or is held by the Company or any Subsidiary; (e) Liens created by or resulting from any litigation or proceeding which is being contested in good faith by appropriate proceedings and as to which levy and execution have been stayed and continue to be stayed; (f) Liens consisting of repurchase agreements, swaps or other obligations entered into in the ordinary course of business relating to precious metals purchased, borrowed or otherwise held by the Company or any Subsidiary; (g) Liens incidental to the conduct of its business or the ownership of its property and assets which were not incurred in connection with the borrowing of money or the obtaining of advances or credit and which do not in the aggregate materially detract from the value of the property or assets subject thereto or materially impair the use thereof in the operation of its business; (h) Liens on property or assets of a Subsidiary to secure obligations of such Subsidiary to the Company or another Subsidiary; (i) Liens arising in connection with letter of credit trade transactions, provided that the Company or its Subsidiary, as the case may be, discharges within 60 days its obligation to pay the indebtedness to banks arising from payments made by such banks under such letters of credit; and (j) other Liens, provided that the aggregate of all properties and assets of the Company and the Subsidiaries which are subject to or affected by such Liens and which would properly be classified as assets on a consolidated balance sheet prepared in accordance with generally accepted accounting principles as in effect on the date of the Senior Indenture (including all leases (other than leases of office space and leases of research and development facilities, if any) that would be required to be reflected as capital leases pursuant to such principles) does not at any time have a value on the books of the Company and its Subsidiaries in excess of 25% of the Consolidated Tangible Net Worth of the Company and its Subsidiaries calculated for the quarter most recently ended.

LIMITATIONS ON SALE AND LEASEBACK TRANSACTIONS. The Company covenants that it will not, and will not permit any Significant Subsidiary to, directly or indirectly, sell or transfer (other than to the Company or a Significant Subsidiary) any Principal Property with the intention that the Company or any Significant Subsidiary take back a lease thereof which (i) has a term of more than three years or (ii) is renewable at the option of the Company or such Significant Subsidiary for an aggregate period or periods of more than three years from the date of commencement thereof unless (a) the Company promptly gives notice thereof to the Senior Trustee, and either (b) the Principal Property owned by the Company or a Significant Subsidiary immediately prior to such sale could have been subjected to a Lien to secure indebtedness without being required to equally and ratably secure Senior Debt Securities pursuant to the limitations described under "Limitations on Liens and Encumbrances" or (c) the net proceeds of such sale are applied within 270 days either before or after the effective date of any such transaction (i) to the retirement of indebtedness of the Company or any Subsidiary (other than securities of any series at the time outstanding) or (ii) to the redemption of Senior Debt Securities of any series at the time outstanding, if permissible under the Indenture and the terms of Securities of such series, at a redemption price equal to the principal amount thereof plus the then applicable premium, if any, together with accrued interest, if any, or (iii) to the purchase of property, securities or other assets having a value at least equal to the net proceeds of such sale, or (d) the Company shall deliver to the Senior Trustee for cancellation Senior Debt Securities of any series at the time outstanding in an aggregate principal amount at least equal to the net proceeds of such sale (less any amounts applied in accordance with clause (c)).

Edgar Filing: ENGELHARD CORP - Form 424B2

CERTAIN DEFINITIONS. The term "Consolidated Tangible Net Worth" means the excess of (i) the consolidated net book value of the assets of the Company and its Subsidiaries (other than patents, patent rights, trademarks, trade names, franchises, copyrights, licenses, permits, goodwill and other intangible assets classified as such in accordance with generally accepted accounting principles as in effect on the date of the Senior Indenture) after all appropriate deductions in accordance with generally accepted accounting principles as in effect on the date of the Senior Indenture (including, without limitation, reserves for doubtful receivables, obsolescence, depreciation and amortization) plus the amount, if any, by which the market value of precious metals inventories and investments exceeds the carrying value of those metals on the consolidated books of account of the Company over (ii) the consolidated liabilities (including tax and other proper accruals but excluding the accumulated postretirement benefit obligation resulting from the application of the provisions of FAS No. 106 "Employers' Accounting for Postretirement Benefits Other Than Pensions") of the Company and its Subsidiaries, in each case computed and consolidated in accordance with generally accepted accounting principles as in effect on the date of the Senior Indenture. The term "Lien" means any mortgage, pledge, security interest, encumbrance, lien or charge of any kind whatsoever (including any conditional sale or other title retention agreement, any lease in the nature thereof, and the filing of or agreement to give any financing statement under the Uniform Commercial Code of any jurisdiction), but in no event shall "Lien" include any

6

defeasance pursuant to Article 8 of the Senior Indenture. The term "Principal Property" means, with certain exceptions, any manufacturing plant or warehouse owned at the date hereof or hereafter acquired by the Company or any Significant Subsidiary which is located within the United States and the gross book value of which (before deduction of any applicable depreciation reserves) is in excess of 5% of the Company's Consolidated Tangible Net Worth. The term "Significant Subsidiary" shall have the meaning assigned to such term in Regulation S-X promulgated under the Securities Act of 1933, as amended. The term "Subsidiary" means any corporation, association or other business entity, a majority (by number of votes) of the voting stock or control of which is at the time owned or controlled by the Company or another Subsidiary of the Company.

GLOBAL SECURITIES

The Debt Securities of a series may be issued in whole or in part in the form of one or more global securities ("Global Securities") that will be deposited with, or on behalf of, the Depositary identified in the Prospectus Supplement relating to such series. Global Securities will be issued in registered form and in either temporary or permanent form. Unless and until it is exchanged in whole or in part for Debt Securities in permanent form, a Global Security may not be transferred except as a whole by the Depositary for such Global Security to a nominee of such Depositary or by a nominee of such Depositary to such Depositary or another nominee of such Depositary or by such Depositary or any such nominee to a successor of such Depositary or a nominee of such successor.

The specific terms of the depositary arrangement with respect to Debt Securities of a series will be described in the Prospectus Supplement relating to such series. The Company anticipates that the following provisions will apply to all depositary arrangements.

Upon the issuance of a Global Security, the Depositary for such Global Security will credit, on its book-entry registration and transfer system, the

Edgar Filing: ENGELHARD CORP - Form 424B2

respective principal amounts of the Debt Securities represented by such Global Security to the accounts of institutions that have accounts with such Depository ("Participants"). The accounts to be credited shall be designated by the underwriters of such Debt Securities, by certain agents of the Company or by the Company, if such Debt Securities are offered and sold directly by the Company. Ownership of beneficial interests in a Global Security will be limited to Participants or persons that may hold interests through Participants. Ownership of beneficial interests in such Global Security will be shown on, and the transfer of that ownership will be effected only through, records maintained by the Depository with respect to Participants' beneficial interests. The laws of some states require that certain purchasers of securities take physical delivery of such securities in definitive form. Such ownership limits and such laws may impair the ability to transfer beneficial interests in a Global Security.

So long as the Depository for a Global Security, or its nominee, is the holder of such Global Security, such Depository or such nominee, as the case may be, will be considered the sole owner or holder of the Debt Securities represented by such Global Security for all purposes under the Indenture governing such Debt Securities. Except as set forth below, owners of beneficial interests in a Global Security will not be entitled to have Debt Securities of the series represented by such Global Security registered in their names, will not receive or be entitled to receive physical delivery of Debt Securities of such series in definitive form and will not be considered the owners or holders thereof under the Indenture governing such Debt Securities.

Principal, premium, if any, and interest payments on Debt Securities registered in the name of or held by a Depository or its nominee will be made to the Depository or its nominee, as the case may be, as the registered holder of the Global Security representing such Debt Securities. The Company expects that the Depository for Debt Securities of a series, upon receipt of any payment of principal, premium, if any, or interest in respect of a Global Security, will immediately credit Participants' accounts with payments in amounts proportionate to their respective beneficial interest in the principal amount of such Global Security as shown on the records of such Depository. The Company also expects that payments by Participants to owners of beneficial interests in such Global Security held through such Participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participants. None of the Company, the Trustee for such Debt Securities or any paying agent or any registrar for such Debt Securities will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interest in a Global Security for such Debt Securities or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

7

If a Depository for Debt Securities of a series is at any time unwilling or unable to continue as a Depository and a successor Depository is not appointed by the Company within 90 days, the Company will issue Debt Securities of such series in definitive form in exchange for the Global Security or Debt Securities representing the Debt Securities of such series represented by one or more Global Securities.

INTEREST AND FOREIGN CURRENCY

Principal, premium, if any, and interest will be payable, and the Debt Securities will be transferable, in the manner described in the Prospectus Supplement relating to such Debt Securities. If the principal of, or premium, if any, or any interest on, any of the Debt Securities is payable in any foreign or

Edgar Filing: ENGELHARD CORP - Form 424B2

composite currency, the restrictions, elections, tax consequences, specific terms and other information with respect to such Debt Securities and such foreign or composite currency will be specified in the applicable Prospectus Supplement.

CONSOLIDATION, MERGER, SALE OR CONVEYANCE

The Indentures provide that the Company may not consolidate with or merge into any other person or transfer all or substantially all of its assets to any person, unless (i) the person is organized under the laws of the United States or a State thereof; (ii) the person assumes by supplemental indenture all obligations of the Company under the applicable Indenture and the Debt Securities and any coupons issued under such Indenture; (iii) immediately after giving effect to such transaction, no Event of Default, and no event which, after notice or passage of time would become an Event of Default, exists; and (iv) if, as a result of any such transaction, any property or assets of the Company would become subject to a mortgage, pledge, lien, security interest or other encumbrance which would not be permitted by the Senior Indenture, then the Company or such person, as the case may be, secures the Senior Debt Securities equally and ratably with or prior to all obligations secured by such Lien. The successor shall be substituted for the Company and thereafter all obligations of the Company under the applicable Indenture and the Debt Securities issued under such Indenture shall terminate.

EVENTS OF DEFAULT

The following shall constitute Events of Default with respect to Debt Securities of any series: (i) default for a period of 30 days in payment of any interest on the Debt Securities of that series when due; (ii) default in payment of principal of (or premium, if any, on) the Debt Securities of that series when due (whether at maturity, upon redemption or otherwise or in the making of any required sinking fund payment); (iii) default in performance of any other covenant, condition or agreement in the Debt Securities of that series or in the applicable Indenture continued for 60 days after written notice as provided in the Indenture; (iv) a default under any instrument or other evidence of indebtedness for money borrowed by the Company (including a default with respect to Debt Securities of any series other than that series) or under any instrument (including the applicable Indenture) under which there may be issued or by which there may be evidenced or secured any indebtedness for money borrowed by the Company, which default shall involve an amount in excess of \$50,000,000 and shall constitute a failure to pay such indebtedness when due and payable after the expiration of any grace period and shall have resulted in the acceleration of such indebtedness, if such accelerated indebtedness is not discharged, or such acceleration is not annulled, within 30 days after written notice as provided in the Indenture; and (v) certain events of bankruptcy, insolvency or reorganization.

If an Event of Default with respect to Debt Securities of any series at the time outstanding shall occur and be continuing, the Trustee or the holders of at least 25% in principal amount of the outstanding Debt Securities of that series may declare the principal and accrued interest of all of the Debt Securities of that series to be due and payable immediately.

Each Indenture provides that the Trustee will, within 90 days after the occurrence of a default, give to holders of the Debt Securities of the series with respect to which a default has occurred notice of all uncured defaults known to it; but, except in the case of a default in the payment of principal or interest on Debt Securities of that series, the Trustee shall be protected in withholding such notice if it in good faith determines that the withholding of such notice is in the interest of the holders.

Each Indenture contains a provision entitling the Trustee, subject to the

Edgar Filing: ENGELHARD CORP - Form 424B2

duty of the Trustee during a default to act with the required standard of care, to be indemnified by the holders of Debt Securities of the series with respect to which a default has occurred before proceeding to exercise any right or power under such Indenture at the request of such holders. Subject to such right of indemnification, each Indenture provides that the holders of a majority in principal amount of the outstanding Debt Securities of a series may direct the time, method and place of conducting

8

any proceeding for any remedy available to the Trustee or exercising any trust or power conferred upon the Trustee with respect to such series.

The Company will be required to furnish to the Trustee annually a statement as to the fulfillment by the Company of all of its obligations under the applicable Indenture.

MODIFICATION OF INDENTURES

Unless the resolution establishing the terms of a series otherwise provides, the applicable Indenture and the Debt Securities of any series may be amended and any default may be waived as follows: the Debt Securities and the applicable Indenture may be amended with the consent of holders of a majority in principal amount of the Debt Securities of all series affected voting as one class. A default with respect to the Debt Securities of a series may be waived with the consent of the holders of a majority in principal amount of the Debt Securities of such series. However, without the consent of each holder affected, no amendment or waiver may (1) reduce the amount of Debt Securities whose holders must consent to an amendment or waiver, (2) reduce the interest on or change the time for payment of interest on any Debt Security, (3) change the fixed maturity of any Debt Security, (4) reduce the principal of any non-Discounted Security or reduce the amount of principal of any Discounted Security that would be due on acceleration thereof, (5) change the currency in which principal or interest on a Debt Security is payable, (6) waive any default in payment of interest on or principal of a Debt Security or (7) change certain provisions of the applicable Indenture regarding waiver of past defaults and amendments with the consent of holders other than to increase the principal amount of Debt Securities required to consent. Without the consent of any holder, the applicable Indenture or the Debt Securities may be amended to cure any ambiguity, omission, defect or inconsistency; to provide for the assumption of Company obligations to holders in the event of a merger or consolidation requiring such assumption; to provide that specific provisions in the applicable Indenture not apply to a series of Debt Securities not previously issued; to create a series and establish its terms; to provide for a separate Trustee for one or more series; or to make any change that does not materially adversely affect the rights of any holder.

DEFESANCE

Debt Securities of a series may be defeased in accordance with their terms and, unless the resolution establishing the terms of the series otherwise provides, as set forth below. The Company at any time may terminate as to a series all of its obligations (except for certain obligations with respect to the defeasance trust, bearer securities, securityholder lists, compensation and indemnity and replacement of the Trustee and obligations to register the transfer or exchange of a Debt Security, to replace destroyed, lost or stolen Debt Securities and to maintain agencies in respect of the Debt Securities) with respect to the Debt Securities of a series and the applicable Indenture ("legal defeasance"). The Company at any time may terminate its obligations with respect to the Debt Securities of a series under the covenants described under

Edgar Filing: ENGELHARD CORP - Form 424B2

"Covenants" ("covenant defeasance").

The Company may exercise its legal defeasance option notwithstanding its prior exercise of its covenant defeasance option. If the Company exercises its legal defeasance option, the Debt Securities of a series may not be accelerated because of an Event of Default. If the Company exercises its covenant defeasance option, the Debt Securities of a series may not be accelerated as a result of noncompliance with the covenants described under "Covenants."

To exercise either option as to the Debt Securities of a series, the Company must irrevocably deposit in the trust (the "defeasance trust") with the applicable Trustee money or U.S. Government Obligations for the payment of principal, premium, if any, and interest on the Debt Securities of the series to redemption or maturity and must comply with certain other conditions. In particular, if the defeasance occurs more than twelve months prior to the earlier of the maturity or the date fixed for redemption of the series to be defeased, the Company must obtain an opinion of tax counsel that the defeasance will not result in recognition for Federal income tax purposes of any gain or loss to holders of the Debt Securities of the series. "U.S. Government Obligations" are direct obligations of the United States of America which have the full faith and credit of the United States of America pledged for payment and which are not callable at the issuer's option, or certificates representing an ownership interest in such obligations.

CONVERSION RIGHTS OF DEBT SECURITIES

If so indicated in the applicable Prospectus Supplement with respect to a particular series of Debt Securities, holders of such series of Debt Securities will be entitled, at any time prior to the date set forth in the Prospectus Supplement relating to such series, subject to prior redemption, to convert such Debt Securities or portions thereof (which are \$1,000 or integral multiples thereof) into or for Common Stock of the Company, at the conversion rate

9

stated in the Prospectus Supplement, subject to adjustment as described below or in the applicable Prospectus Supplement. The right to convert Debt Securities called for redemption will terminate at the close of business on the redemption date, and will be lost if not exercised prior to that time unless the Company defaults in making the payments due upon redemption.

To convert a Debt Security, a holder must (i) complete and manually sign the conversion notice (the "Conversion Notice") on the back of the Debt Security (or complete and manually sign a facsimile thereof) and deliver such notice to the Conversion Agent or any other office or agency maintained for such purpose, (ii) surrender the Debt Security to the Conversion Agent or at such other office or agency by physical delivery, (iii) if required, furnish appropriate endorsements and transfer documents, and (iv) if required, pay all transfer or similar taxes. The date by which such notice shall have been received and the Debt Security shall have been so surrendered to the Conversion Agent is the Conversion Date. Such Conversion Notice shall be irrevocable and may not be withdrawn by a holder for any reason.

Unless otherwise provided in the applicable Prospectus Supplement, the conversion rate is subject to adjustment upon the occurrence of certain events, including the issuance of Common Stock as a dividend or distribution on the Common Stock; subdivisions, combinations and certain reclassifications of Common Stock; the issuance to all holders of Common Stock of shares or certain rights or warrants to subscribe for shares of Common Stock at less than the then current market price per share; and the distribution to all holders of Common

Edgar Filing: ENGELHARD CORP - Form 424B2

Stock of any assets (other than cash dividends paid out of retained earnings) or debt securities or any rights or warrants to purchase assets or debt securities. The Company may also increase the conversion rate at any time, temporarily or otherwise, by any amount so long as the conversion rate does not cause Common Stock to be issued at less than its par value.

No adjustment in the conversion rate will be required unless such adjustment would require a change of at least 1% of the conversion rate then in effect; provided, however, that any adjustment that would otherwise be required to be made shall be carried forward and taken into account in any subsequent adjustment.

If any Debt Security is converted between the record date for the payment of interest and the next succeeding interest payment date, such Debt Security must be accompanied by funds equal to the interest payable on such next succeeding interest payment date on the principal amount so converted (unless such Debt Security shall have been called for redemption during such period, in which case no such payment shall be required), and the interest on the principal amount of the Debt Security being converted will be paid on such next succeeding interest payment date to the registered holder of such Debt Security on the immediately preceding record date. A Debt Security converted on an interest payment date need not be accompanied by any payment, and the interest on the principal amount of the Debt Security being converted will be paid on such interest payment date to the registered holder of such Debt Security on the immediately preceding record date, except as otherwise provided above. Subject to the aforesaid right of the registered holder to receive interest, no payment or adjustment will be made on conversion for interest accrued on the converted Debt Security or for dividends on the Common Stock issued on conversion.

GOVERNING LAW

The Indentures and the Debt Securities will be governed by, and construed in accordance with, the laws of the State of New York.

DESCRIPTION OF CAPITAL STOCK

GENERAL

The Company is authorized to issue 350,000,000 shares of Common Stock, par value \$1.00 per share, and 5,000,000 shares of Preferred Stock, without par value. All outstanding shares of Common Stock are fully paid and non-assessable. As of July 10, 1998, there were 144,507,161 shares of Common Stock outstanding.

COMMON STOCK

Subject to the rights of the holders of Preferred Stock, the holders of the Common Stock of the Company are entitled to receive dividends from funds legally available therefor when, as and if declared by the Board of Directors, and are entitled upon liquidation to share ratably in all assets of the Company after satisfaction in full of the prior rights of creditors of the Company and holders of any Preferred Stock.

The holders of the Common Stock are entitled to one vote for each share held on all matters as to which shareholders are entitled to vote. The holders of the Common Stock do not have cumulative voting rights, any preferential or preemptive right with respect to any securities of the Company, or any conversion rights. The Common Stock is not subject to redemption. The outstanding shares of Common Stock are fully paid and non-assessable.

Edgar Filing: ENGELHARD CORP - Form 424B2

The Common Stock is listed on the following stock exchanges: New York, Chicago (options), London, Zurich, Basel and Geneva. The transfer agent for the Common Stock is Chase Mellon Shareholder Services L.L.C.

PREFERRED STOCK

The Company is authorized to issue 5,000,000 shares of Preferred Stock which may be issued from time to time in one or more series with such rights, preferences and limitations as are determined by the Company's Board of Directors. Satisfaction of any dividend preferences of outstanding Preferred Stock would reduce the amount of funds available for the payment of dividends on Common Stock. Also, holders of Preferred Stock would normally be entitled to receive a preference payment before any payment is made to holders of Common Stock in the event of any liquidation, dissolution or winding-up of the Company. As of the date of this Prospectus, no shares of Preferred Stock are issued or outstanding.

SUPERMAJORITY VOTING REQUIREMENTS AND CLASSIFIED BOARD OF DIRECTORS

The Company's Restated Certificate of Incorporation provides that, in order to approve a merger or consolidation with or into, or a sale or other transfer of all or a portion of the assets of the Company other than in the ordinary course of business to, or the issuance or transfer of voting securities of the Company as part of an exchange or acquisition of the securities or assets (including cash) of, any entity which is the beneficial owner of 5% or more of the outstanding shares of the Company entitled to vote in the election of Directors, the affirmative vote of not less than 80% of the outstanding shares of Common Stock (including at least 50% of the outstanding shares of Common Stock held by stockholders other than such 5% beneficial owner) is required. The foregoing provision would not be applicable if the proposed transaction was approved by a majority of the Board of Directors of the Company who had been duly elected and acting as members of the Board prior to the time such 5% beneficial owner became the beneficial owner of 5% or more of the outstanding shares of Common Stock.

The Company's Restated Certificate of Incorporation also provides for a classified Board of Directors divided into three classes. All classes shall be as nearly equal in number as possible and no class shall include less than two Directors, with one class of Directors to be elected each year for a three-year term.

Neither provision described in the foregoing paragraphs can be amended without the affirmative vote of the holders of at least 80% of the outstanding shares of Common Stock (including at least 50% of the outstanding shares of Common Stock held by stockholders other than a 5% beneficial owner).

The Company believes that the classified Board and such 80% voting requirements are desirable to assure continuity in Board membership and in policy formulated by the Board. Such provisions will serve to moderate the pace of any change in control of the Company by extending the time required to elect a majority of the Directors and will better enable the Board to protect the interests of shareholders in the event that any person or corporation should attempt to obtain control of the Company.

It is recognized, however, that the effect of such provisions is to make it more difficult to change Directors even should this be desired by a majority of the Company's stockholders, and may be to render more difficult or to discourage a merger, tender offer or proxy contest or the assumption of control by a holder of a large block of Company securities.

The aforementioned 80% voting requirement for approval of specified

Edgar Filing: ENGELHARD CORP - Form 424B2

transactions with 5% beneficial owners, absent Board approval, provides the Board and minority stockholders with a veto power over such transactions. Such provision would be beneficial to Company management when confronted with a hostile tender offer and may deter such offers, thus depriving a stockholder of the opportunity to dispose of his or her shares to a hostile tender offeror at a price substantially in excess of market value. The deterrence of such offers also has the effect of supporting existing management in its present position.

DIRECTORS' LIABILITY

The Company's Restated Certificate of Incorporation, as amended, provides that, to the fullest extent permitted by Delaware law ("DGCL"), no Director of the Company will be liable to the Company or its stockholders for monetary

11

damages for breach of fiduciary duty as a Director, except for liability (i) for any breach of the Director's duty of loyalty to the Company or its shareholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) in respect of certain unlawful dividend payments or stock redemptions or repurchases, or (iv) for any transaction from which the Director derived an improper personal benefit.
