## A Letter to Shareholders tHIS PAGE NOT PART OF YOUR FUND REPORT

## Dear Shareholder

Over the past several months, financial markets have been buffeted by the housing recession, the credit market unraveling and related liquidity freeze and steadily rising commodity prices. Counterbalancing these difficulties were booming export activity, a robust non-financial corporate sector and, notably, aggressive and timely monetary and fiscal policy actions.

Amid the market tumult, the Federal Reserve Board (the Fed) intervened with a series of moves to bolster liquidity and ensure financial market stability. Since September 2007, the central bank slashed the target federal funds rate 325 basis points (3.25\%), bringing the rate to $2.0 \%$ as of period-end. Of greater magnitude, however, were the Fed s other policy decisions, which included opening the discount window directly to broker dealers and investment banks and backstopping the unprecedented rescue of Bear Stearns.

The Fed s response to the financial crisis helped to improve credit conditions and investor mood. After hitting a low point on March 17 (coinciding with the collapse of Bear Stearns), equity markets found a welcome respite in April, when the S\&P 500 Index of U.S. stocks posted positive monthly performance for the first time since October 2007. International markets, which outpaced those of the U.S. for much of 2007, saw a reversal in that trend, as effects of the credit crisis and downward pressures on growth were far-reaching.

In contrast to equity markets, Treasury securities rallied (yields fell as prices correspondingly rose), as a broad flight-to quality theme persisted. The yield on 10-year Treasury issues, which touched $5.30 \%$ in June 2007 (its highest level in five years), fell to $4.04 \%$ by year-end and to $3.77 \%$ by April 30. Treasury issues relinquished some of their gains in April, however, as investor appetite for risk returned and other high-quality fixed income sectors outperformed.

Problems within the monoline insurance industry and the failure of auctions for auction rate securities plagued the municipal bond market, driving yields higher and prices lower across the curve. However, in conjunction with the more recent shift in sentiment, the sector delivered strong performance in the final month of the reporting period.

Overall, the major benchmark indexes generated results that generally reflected heightened investor risk aversion:

| Total Returns as of April 30, 2008 | 6-month | 12-month |

Trust Summary as of April 30,2008
BlackRock Broad Investment Grade 2009 Term Trust Inc.

## Investment Objective

BlackRock Broad Investment Grade 2009 Term Trust Inc. (BCT) (the Trust ) seeks to manage a portfolio of fixed income securities that will return $\$ 15$ per share (the initial public offering price per share) to investors on or about December 31, 2009 while providing high monthly income.

## Performance

For the six months ended April 30, 2008, the Trust returned $-8.39 \%$ based on market price, with dividends reinvested. The Trust $s$ return based on net asset value ( NAV) was $+2.97 \%$, with dividends reinvested. For the same period, the Lipper U.S. Mortgage Funds category of closed-end funds posted an average return of $-2.00 \%$ on a NAV basis. The Trust s effective duration of 0.15 years was much shorter than its Lipper peers and thus, was beneficial to relative performance. The Trust s market price premium versus its NAV narrowed substantially during the period.

Trust Summary as of April 30,2008

## Investment Objective

BlackRock Core Bond Trust (BHK) (the Trust ) seeks to provide high current income with the potential for capital appreciation.

## Performance

For the six months ended April 30, 2008, the Trust returned $+3.73 \%$ based on market price, with dividends reinvested. The Trust $s$ return based on NAV was $+1.40 \%$, with dividends reinvested. For the same period, the Lipper Corporate Debt Funds BBB-Rated category of closed-end funds posted an average return of $-1.04 \%$ on a NAV basis. In an environment of credit market turmoil, the Trust s high average credit quality enhanced performance relative to the Lipper peer group. More than $55 \%$ of the Trust s net assets were invested in securities rated AA and above.

[^0]Trust Summary as of April 30,2008

## Investment Objective

BlackRock High Yield Trust (BHY) (the Trust ) seeks to provide high current income and, to a lesser extent, capital appreciation.

## Performance

For the six months ended April 30, 2008, the Trust returned $+3.40 \%$ based on market price, with dividends reinvested. The Trust s return based on NAV was $-4.11 \%$, with dividends reinvested. For the same period, the Lipper High Current Yield Funds (Leveraged) category of closed-end funds posted an average return of $-9.95 \%$ on a NAV basis. In a difficult market for high yield securities, the Trust maintained a low leverage position (averaging less than $20 \%$ of net assets) relative to its Lipper peer group, which aided performance. Conversely, a small allocation to bank loans, which underperformed high yield issues, detracted from the relative return.

[^1]Trust Summary as of April 30,2008

## Investment Objective

BlackRock Income Opportunity Trust (BNA) (the Trust ) seeks to provide current income and capital appreciation.

## Performance

For the six months ended April 30, 2008, the Trust returned $+2.07 \%$ based on market price, with dividends reinvested. The Trust s return based on NAV was $+0.74 \%$, with dividends reinvested. For the same period, the Lipper Corporate Debt Funds BBB-Rated category of closed-end funds posted an average return of $-1.04 \%$ on a NAV basis. The Trust $s$ comparative performance benefited from its relatively high credit quality and a significant allocation to mortgages, which outperformed corporate issues during the period. By the end of March 2008, management had reduced the allocation to mortgages in favor of corporates, which subsequently outperformed mortgages in the final weeks of the period.

[^2]Trust Summary as of April 30,2008 BlackRock Income Trust Inc.

## Investment Objective

BlackRock Income Trust Inc. (BKT) (the Trust ) seeks to provide high monthly income while preserving capital.

## Performance

For the six months ended April 30, 2008, the Trust returned $+6.85 \%$ based on market price, with dividends reinvested. The Trust s return based on NAV was $+6.86 \%$, with dividends reinvested. For the same period, the Lipper U.S. Mortgage Funds (closed-end) category posted an average return of $-2.00 \%$ on a NAV basis. During the six months, the Trust was generally more than $80 \%$ invested in government and AAA-rated mortgages, which fared relatively well in a difficult market environment. The Trust maintained a fairly low leverage position (averaging $20 \%$ or less of net assets), which also aided performance for the period.

Trust Summary as of April 30, 2008

## Investment Objective

BlackRock Preferred and Equity Advantage Trust (BTZ) (the Trust ) seeks high current income, current gains and capital appreciation.

## Performance

For the six months ended April 30, 2008, the Trust returned $-7.43 \%$ based on market price, with dividends reinvested. The Trust s return based on NAV was $-11.98 \%$, with dividends reinvested. For the same period, the Lipper Income \& Preferred Stock Funds (closed-end) category posted an average return of $-10.71 \%$ on a NAV basis. The Trust s Lipper category contains both preferred bond and equity funds, which came under pressure as a result of adverse financial market conditions and concerns about credit quality. Financial issuers, which constitute a majority of the preferred market, were especially affected.

Trust Summary as of April 30,2008
BlackRock Strategic Bond Trust

Investment Objective
BlackRock Strategic Bond Trust (BHD) (the Trust ) seeks total return through high current income and capital appreciation.

## Performance

For the six months ended April 30, 2008, the Trust returned $+2.25 \%$ based on market price, with dividends reinvested. The Trust s return based on NAV was $+0.31 \%$, with dividends reinvested. For the same period, the Lipper General Bond Funds (closed-end) category posted an average return of $+1.06 \%$ on a NAV basis. The Trust s relatively low credit quality (allocations to high yield and corporate issues exceeded $60 \%$ and $30 \%$ of net assets, respectively) hindered the comparative performance for most of the period. However, this positioning aided performance in April 2008, as corporate securities rebounded and the high yield market recorded one of the best monthly performances in its history.

| Initial Offering Date | February 26,2002 |
| Yield on Closing Market Price as of April 30, 2008 (\$11.68) |  |

1 Yield on closing market price is calculated by dividing the current annualized distribution per share by the closing market price. Past performance does not guarantee future results.
2 The distribution is not constant and is subject to change. A portion of the distribution may be deemed a tax return of capital or net realized gain.
The table below summarizes the changes in the Trust s market price and net asset value per share:

## The Benefits and Risks of Leveraging

The Trusts may utilize leverage through borrowings or issuance of short-term debt securities or Preferred Shares. The concept of leveraging is based on the premise that the cost of assets to be obtained from leverage will be based on short-term interest rates on borrowings or dividend rates on the Preferred Shares, which normally will be lower than the income earned by each Trust on its longer-term portfolio investments. To the extent that the total assets of each Trust (including the assets obtained from leverage) are invested in higher-yielding portfolio investments, each Trust s Common Shareholders will be the beneficiaries of the incremental yield.

As of April 30, 2008, the Trusts had the following leverage amounts of managed assets:

|  | Percent of <br> Leverage |
| :--- | :--- |
|  | $30 \%$ |
| Core Bond | $10 \%$ |
| High Yield | $30 \%$ |
| Income Opportunity | $15 \%$ |
| Income Trust | $17 \%$ |
| Limited Duration | $33 \%$ |
| Preferred and Equity | 3 |

Leverage creates risks for holders of Common Shares including the likelihood of greater net asset value and market price volatility. In addition, there is the risk that fluctuations in interest rates on borrowings or in the dividend rates on any Preferred Shares may reduce the Common Shares yield and negatively impact its net asset value and market price. If the income derived from securities purchased with assets received from leverage exceeds the cost of leverage, each Trust s net income will be greater than if leverage had not been used. Conversely, if the income from the securities purchased is not sufficient to cover the cost of leverage, each Trust s net income will be less than if leverage had not been used, and therefore the amount available for distribution to Common Shareholders will be reduced.

## Swap Agreements

The Trusts may invest in swap agreements, which are over-the-counter contracts in which one party agrees to make periodic payments based on the change in market value of a specified bond, basket of bonds or index in return for periodic payments based on a fixed or variable interest rate or the change in market value of a different bond, basket of bonds or index. Swap agreements may be used to obtain exposure to a bond or market without owning or taking physical custody of securities. Swap agreements involve the risk that the party with whom the Trust has entered into the swap will default on its obligation to pay the Trust and the risk that the Trust will not be able to meet its obligations to pay the other party to the agreement.

## Notes to Financial Statements (Unaudited)

## Note 1. Significant Accounting Policies

BlackRock Broad Investment Grade 2009 Term Trust Inc. ( Broad Investment Grade ), BlackRock Core Bond Trust ( Core Bond ), BlackRock High Yield Trust ( High Yield ), BlackRock Income Opportunity Trust ( Income Opportunity ), BlackRock Income Trust Inc. ( Income Trust ), BlackRock Limited Duration Income Trust ( Limited Duration ) and BlackRock Strategic Bond Trust ( Strategic Bond ) are registered as diversified, closed-end management investment companies under the Investment Company Act of 1940, as amended (the 1940 Act ). BlackRock Preferred and Equity Advantage Trust ( Preferred and Equity ) is registered as a non-diversified, closed-end management investment company under the 1940 Act. Broad Investment Grade, Income Opportunity and Income Trust are organized as Maryland corporations. Core Bond, High Yield, Limited Duration and Strategic Bond are organized as Delaware statutory trusts. Broad Investment Grade, Core Bond, High Yield, Income Opportunity, Income Trust, Limited Duration, Preferred and Equity and Strategic Bond are individually referred to as a Trust and collectively as the Trusts . The Trusts financial statements are prepared in conformity with accounting principles generally accepted in the United States of America, which may require the use of management accruals and estimates. Actual results may differ from these estimates. The Trusts determine and make available for publication the net asset value of its Common Shares on a daily basis.

On December 3, 1999, Broad Investment Grade transferred a substantial portion of its total assets to a 100\% owned registered investment company subsidiary called BCT Subsidiary, Inc. The financial statements and these notes to the financial statements for Broad Investment Grade are consolidated and include the operations of both Broad Investment Grade and its wholly owned subsidiary after elimination of all intercompany transactions and balances.

On November 29, 2007, Broad Investment Grade s Board of Directors approved a Plan of Liquidation and Dissolution. Accordingly, Broad Investment Grade will liquidate substantially all of its assets on or about the close of business on December 31, 2009.

The following is a summary of significant accounting policies followed by the Trusts:
Valuation of Investments: The Trusts value their corporate bond investments on the basis of last available bid price or current market quotations provided by dealers or pricing services selected under the supervision of each Trust s Board of Directors or Trustees, as appropriate (the Board ). Floating rate loan interests are valued at the mean between the last available bid prices from one or more brokers or dealers as obtained from a pricing service. In determining the value of a particular investment, pricing services may use certain information with respect to transactions in such investments, quotations from dealers, pricing matrixes, market transactions in comparable investments, various relationships observed in the market between investments, and calculated yield measures based on valuation technology commonly employed in the market for such investments. Financial futures contracts are traded on exchanges and are valued at their last sale price. Swap agreements are valued by quoted fair values received daily by the Trusts pricing service. Short-term securities are valued at amortized cost. Investments in open-end investment companies are valued at net asset value each business day.

Equity investments traded on a recognized securities exchange or the NASDAQ Global Market System are valued at the last reported sale price that day or the NASDAQ official closing price, if applicable. Equity investments traded on a recognized exchange for which there were no sales on that day are valued at the last available bid (long positions) or ask (short positions) price. Exchange-traded options are valued at the mean between the last bid and ask prices at the close of the options market in which the options trade and previously were valued at the last sales price as of the close of options trading on applicable exchanges. Over-the-counter ( OTC ) options are valued by an independent pricing service using a mathematical model which incorporates a number of market data factors.

In the event that application of these methods of valuation results in a price for an investment which is deemed not to be representative of the market value of such investment, the investment will be valued by a method approved by the Board as reflecting fair value ( Fair Value Assets ). When determining the price for Fair Value Assets, the investment advisor and/or sub-advisor seeks to determine the price that each Trust might reasonably expect to receive from the current sale of that asset in an arm s-length transaction. Fair value determinations shall be based upon all available factors that the investment advisor and/or sub-advisor deems relevant. The pricing of all Fair Value Assets is subsequently reported to the Board or a committee thereof.

Generally, trading in foreign securities is substantially completed each day at various times prior to the close of business on the New York Stock Exchange ( NYSE ). The values of such securities used in computing the net asset value of each Trust are determined as of such times. Foreign currency exchange rates will be determined as of the close of business on the NYSE. Occasionally, events affecting the values of such securities and such exchange rates may occur between the times at which they are determined and the close of business on the NYSE that may not be reflected in the computation of each Trust s net asset value. If events (for example, a company announcement, market volatility or a natural disaster) occur during such periods that are expected to materially affect the value of such securities, those securities may be valued at their fair value as determined in good faith by the Board or by the investment advisor using a pricing service and/or procedures approved by the Board.

Derivative Financial Instruments: Each Trust may engage in various portfolio investment strategies to increase the return of the Trust and to hedge, or protect, its exposure to interest rate movements and movements in the securities markets. Losses may arise if the value of the contract decreases due to an unfavorable change in the price of the underlying security, or if the counterparty does not perform under the contract.

Financial futures contracts Each Trust may purchase or sell financial futures contracts and options on such financial futures contracts. Financial futures contracts are contracts for delayed delivery of securities at a specific future date and at a specific price or yield. Upon entering into a contract, the Trust deposits and maintains as collateral such

## Notes to Financial Statements (continued)

initial margin as required by the exchange on which the transaction is effected. Pursuant to the contract, the Trust agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in value of the contract. Such receipts or payments are known as variation margin and are recognized by the Trust as unrealized gains or losses.

When the contract is closed, the Trust records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

Forward Foreign Exchange Contracts Each Trust may enter into forward foreign exchange contracts as a hedge against either specific transactions or portfolio positions. Forward foreign exchange currency contracts, when used by the Trust, help to manage the overall exposure to the foreign currency backing some of the investments held by the Trust. The contract is marked-to-market daily and the change in market value is recorded by the Trust as an unrealized gain or loss. When the contract is closed, the Trust records a realized gain or loss equal to the difference between the value at the time it was opened and the value at the time it was closed.

Options Each Trust may purchase and write call and put options. When the Trust writes an option, an amount equal to the premium received by the Trust is reflected as an asset and an equivalent liability. The amount of the liability is subsequently marked-to-market to reflect the current market value of the option written. When a security is purchased or sold through an exercise of an option, the related premium paid (or received) is added to (or deducted from) the basis of the security acquired or deducted from (or added to) the proceeds of the security sold. When an option expires (or the Trust enters into a closing transaction), the Trust realizes a gain or loss on the option to the extent of the premiums received or paid (or gain or loss to the extent the cost of the closing transaction exceeds the premium received or paid). If an option is exercised, the premium paid or received is added to the cost of the purchase or the proceeds from the sale in determining whether a Trust has realized a gain or a loss on investment transactions. European options are exercised at maturity date only.

A call option gives the purchaser of the option the right (but not the obligation) to buy, and obligates the seller to sell (when the option is exercised), the underlying position at the exercise price at any time or at a specified time during the option period. A put option gives the holder the right to sell and obligates the writer to buy the underlying position at the exercise price at any time or at a specified time during the option period.

Swaps Each Trust may enter into swap agreements, which are OTC contracts in which the Trust and a counterparty agree to make periodic net payments on a specified notional amount. These periodic payments received or made by the Trust are recorded in the accompanying Statements of Operations as realized gains or losses, respectively. Gains or losses are realized upon termination of the swap agreements. Swaps are marked-to-market daily and changes in value are recorded as unrealized appreciation (depreciation).

Credit Default Swaps Credit default swaps are agreements in which one party pays fixed periodic payments to a counterparty in consideration for a guarantee from the counterparty to make a specific payment should a negative credit event take place.

Interest Rate Swaps Interest rate swaps are agreements in which one party pays a floating rate of interest on a notional principal amount and receives a fixed rate of interest on the same notional principal amount for a specified period of time. Alternatively, a party may pay a fixed rate and receive a floating rate. Interest rate swaps are efficient as asset/liability management tools. In more complex swaps, the notional principal amount may decline (or amortize) over time.

Total Return Swaps Total return swaps are agreements in which one party commits to pay interest in exchange for a market-linked return. To the extent the total return of the security or index underlying the transaction exceeds or falls short of the offsetting interest rate obligation, the Trust will receive a payment from or make a payment to the counterparty.

Swaptions The Trusts may purchase and write call and put swaptions. Swaption contracts written by the Trusts represent an option that gives the purchaser the right, but not the obligation, to enter into a new swap agreement, or to shorten, extend, cancel or modify an existing swap agreement, on a future date on specified terms. Depending on the terms of the particular option agreement, a Trust will generally incur a greater degree of risk when it writes a swaption than it will incur when it purchases a swaption. When a Trust purchases a swaption, it risks losing only the amount of the premium it has paid should it decide to let the option expire unexercised. However, when a Trust writes a swap-tion, upon exercise of the option the Trust will become obligated according to the terms of the underlying agreement.

## Edgar Filing: BLACKROCK PREFERRED \& EQUITY ADVANTAGE TRUST - Form N-CSRS

When a Trust writes a swaption, the premium received is recorded as a liability and is subsequently adjusted to the current market value of the swaption. When a security is purchased or sold through an exercise of a swaption, the related premium paid (or received) is added to (or deducted from) the basis of the security acquired or deducted from (or added to) the proceeds of the security sold. Changes in the value of the swaption are recognized as unrealized gains or losses. Gain or loss is recognized when the swaption contract expires or is closed. Premiums received from writing swaptions that expire or are exercised are treated by the Trust as realized gains from investments. The difference between the premium and the amount paid on effecting a closing purchase transaction is also treated as a realized gain or, if the premium is less than the amount paid for the closing purchase, as a realized loss.

Entering into a swaption contract involves, to varying degrees, the elements of credit, market and interest rate risk associated with both option contracts and swap contracts. To reduce credit risk from potential counterparty default, the Trusts enter into swaption contracts with coun-terparties whose creditworthiness has been evaluated by the investment advisor. The Trusts bear the market risk arising from any change in index values or interest rates.

Borrowed Bond Agreements: In a borrowed bond agreement, each Trust borrows securities from a third party, with the commitment that they will be returned to the lender on an agreed-upon date. Borrowed bond agreements are primarily entered into settle short positions. In a borrowed bond agreement, the Trust s prime broker or third party broker takes possession of cash as collateral. The Trust s receive interest income on the cash collateral relating to the borrowed bond agreement and are obligated to pay the prime broker or third party broker payments received on such borrowed securities. The cash collateral approximates the principal amount of the bonds borrowed transaction. To the extent that the bonds borrowed transactions exceed one business day, the value of the collateral with any counter-party is marked-to-market on a daily basis to ensure the adequacy of the collateral. If the lender defaults and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the lender of the security, realization of the collateral by the Trust may be delayed or limited.

Capital Trusts: These securities are typically issued by corporations, generally in the form of interest-bearing notes with preferred securities characteristics, or by an affiliated business trust of a corporation, generally in the form of beneficial interests in subordinated debentures or similarly structured securities. The securities can be structured as either fixed or adjustable coupon securities that can have either a perpetual or stated maturity date. Dividends can be deferred without creating an event of default or acceleration, although maturity cannot take place unless all cumulative payment obligations have been met. The deferral of payments does not affect the purchase or sale of these securities in the open market. Payments on these securities are treated as interest rather than dividends for Federal income tax purposes. These securities can have a rating that is slightly below that of the issuing company s senior debt securities.

Floating Rate Loans: The Trusts may invest in floating rate loans, which are generally non-investment grade, made by banks, other financial institutions and privately and publicly offered corporations. Floating rate loans generally pay interest at rates that are periodically determined by reference to a base lending rate plus a premium. The base lending rates are generally (i) the lending rate offered by one or more European banks, such as LIBOR (London InterBank Offered Rate), (ii) the prime rate offered by one or more U.S. banks or (iii) the certificate of deposit rate. The Trust considers these investments to be investments in debt securities for purposes of its investment policies.

A Trust earns and/or pays facility and other fees on floating rate loans. Other fees earned/paid include commitment, amendment, consent, commissions and prepayment penalty fees. Facility, amendment and consent fees are typically amortized as premium and/or accreted as discount over the term of the loan. Commitment, commission and various other fees are recorded as income. Prepayment penalty fees are recorded as gains or losses. When the Trust buys a floating rate loan it may receive a facility fee and when it sells a floating rate loan it may pay a facility fee. On an ongoing basis, the Trust may receive a commitment fee based on the undrawn portion of the underlying line of credit portion of a floating rate loan. In certain circumstances, the Trust may receive a prepayment penalty fee upon the prepayment of a floating rate loan by a borrower. Other fees received by the Trust may include covenant waiver fees and covenant modification fees.

A Trust may invest in multiple series or tranches of a loan. A different series or tranche may have varying terms and carry different associated risks.

Floating rate loans are usually freely callable at the issuer s option. The Trusts may invest in such loans in the form of participations in loans ( Participations ) and assignments of all or a portion of loans from third parties. Participations typically will result in the Trust having a contractual relationship only with the lender, not with the borrower. The Trust will have the right to receive payments of principal, interest and any fees to which it is entitled only from the lender selling the Participation and only upon receipt by the lender of the payments from the borrower.

In connection with purchasing Participations, the Trust generally will have no right to enforce compliance by the borrower with the terms of the loan agreement relating to the loans, nor any rights of offset against the borrower, and the Trust may not benefit directly from any collateral supporting the loan in which it has purchased the Participation.

As a result, the Trust will assume the credit risk of both the borrower and the lender that is selling the Participation. The Trust s investments in loan participation interests involve the risk of insolvency of the financial intermediaries who are parties to the transactions. In the event of the insolvency of the lender selling the Participation, the Trust may be treated as a general creditor of the lender and may not benefit from any offset between the lender and the borrower.

Mortgage Dollar Rolls: Each Trust may sell mortgage-backed securities for delivery in the current month and simultaneously contract to repurchase substantially similar (same type, coupon and maturity) securities on a specific future date at an agreed-upon

## Edgar Filing: BLACKROCK PREFERRED \& EQUITY ADVANTAGE TRUST - Form N-CSRS

price. The market value of the securities that the Trust is required to purchase may decline below the agreed upon repurchase price of those securities. Pools of mortgages collateralizing those securities may have different prepayment histories than those sold. During the period between the sale and the repurchase, the Trust will not be entitled to receive interest and principal payments on the securities sold. Proceeds of the sale will be invested in additional instruments for the Trust, and the income from these investments will generate income for the Trust.

If such income does not exceed the income, capital appreciation and gain or loss that would have been realized on the securities sold as part of the dollar roll, the use of this technique will diminish the investment performance of the Trusts compared with what the performance would have been without the use of dollar rolls.

Preferred Shares: The Trusts may invest in Preferred Shares. Preferred Shares have a preference over Common Shares in liquidation (and generally in receiving dividends as well) but are subordinated to the liabilities of the issuer in all respects. As a general rule, the market value of Preferred Shares with a fixed dividend rate and no conversion element varies inversely with interest rates and perceived credit risk, while the market price of convertible Preferred Shares generally also reflects some element of conversion value. Because Preferred Shares are junior to debt securities and other obligations of the issuer, deterioration in the credit quality of the issuer will cause greater changes in the value of a Preferred Shares than in a more senior debt security with similar stated yield characteristics. Unlike interest payments on debt securities, Preferred Shares dividends are payable only if

## Notes to Financial Statements (continued)

declared by the issuer s Board of Directors or Trustees. Preferred Shares also may be subject to optional or mandatory redemption provisions.

Reverse Repurchase Agreements: The Trusts may enter into reverse repurchase agreements with qualified third party broker-dealers. Interest on the value of the reverse repurchase agreements issued and outstanding is based upon competitive market rates at the time of issuance and is included within the related liability on the Statements of Assets and Liabilities. At the time the Trust enters into a reverse repurchase agreement, it identifies for segregation certain liquid securities having a value not less than the repurchase price, including accrued interest, of the reverse repurchase agreement. The Trust may utilize reverse repurchase agreements when it is anticipated that the interest income to be earned from the investment of the proceeds of the transaction is greater than the interest expense of the transaction.

Borrowed Bonds: Each Trust may engage in short selling of securities as a method of managing potential price declines in similar securities owned by the Trust. When a Trust engages in short selling, it may enter into a borrowed bond agreement to borrow the security sold short and deliver it to the broker-dealer with which it engaged in the short sale. A gain, limited to the price at which a Trust sold the security short or pursuant to the borrowed bond agreement, or a loss, unlimited as to dollar amount, will be recognized upon the termination of a short sale or borrowed bond agreement if the market price is greater or less than the proceeds originally received.

TBA Commitments: The Trusts may enter into to-be-announced (TBA ) commitments to purchase or sell securities for a fixed price at a future date. TBA commitments are considered securities in themselves, and involve a risk of loss if the value of the security to be purchased or sold declines or increases prior to settlement date, which is in addition to the risk of decline in the value of the Trust sother assets. Unsettled TBA commitments are valued at the current market value of the underlying securities, according to the procedures described under Valuation of Investments.

Foreign Currency Transactions: Foreign currency amounts are translated into United States dollars on the following basis: (i) market value of investment securities, assets and liabilities at the current rate of exchange; and (ii) purchases and sales of investment securities, income and expenses at the rates of exchange prevailing on the respective dates of such transactions.

The Trusts report foreign currency related transactions as components of realized gains for financial reporting purposes, whereas such components are treated as ordinary income for federal income tax purposes.

Zero Coupon Bonds: The Trusts may invest in zero-coupon bonds, which are normally issued at a significant discount from face value and do not provide for periodic interest payments. Zero-coupon bonds may experience greater volatility in market value than similar maturity debt obligations which provide for regular interest payments.

Segregation: In cases in which the 1940 Act and the interpretive positions of the Securities and Exchange Commission (SEC ) require that the Trust segregate assets in connection with certain investments (e.g., reverse repurchase agreements, swaps or futures contracts), each Trust will, consistent with certain interpretive letters issued by the SEC, designate on its books and records cash or other liquid debt securities having a market value at least equal to the amount that would otherwise be required to be physically segregated.

Investment Transactions and Investment Income: Investment transactions are recorded on the dates the transactions are entered into (the trade dates). Realized gains and losses on security transactions are determined on the identified cost basis. Dividend income is recorded on the ex-dividend dates. Dividends from foreign securities where the ex-dividend date may have passed are subsequently recorded when the Trust has determined the ex-dividend date. Interest income is recognized on the accrual basis.

Dividends and Distributions: Dividends from net investment income are declared and paid daily. Distributions of capital gains are recorded on the ex-dividend dates. If the total dividends and distributions made in any tax year exceed net investment income and accumulated realized capital gains, a portion of the total distribution may be treated as a tax return of capital.

Income Taxes: It is each of the Trust s policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

Effective April 30, 2008, each Trust implemented Financial Accounting Standards Board ( FASB ) Interpretation No. 48, Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109 ( FIN 48 ). FIN 48 prescribes the minimum recognition threshold a tax position must meet in connection with accounting for uncertainties in income tax positions taken or expected to be taken by an entity, including investment companies, before being measured and recognized in the financial statements. The investment advisor has evaluated the application of FIN 48 to each Trust, and has determined that the adoption of FIN 48 does not have a material impact on each Trust s financial statements. Each Trust files U.S. and various state tax returns. No income tax returns are currently under examination. The statute of limitations on each Trust stax returns remains open for the years ended October 31, 2004 through October 31, 2006.The statutes of limitations on each Trust s state and local tax returns may remain open for an additional year depending upon the jurisdiction.

Recent Accounting Pronouncements: In September 2006, Statement of Financial Accounting Standards No. 157, Fair Value Measurements ( FAS 157 ), was issued and is effective for fiscal years beginning after November 15, 2007. FAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. The impact on each of the Trust s financial statement disclosures, if any, is currently being assessed.

In addition, in February 2007, Statement of Financial Accounting Standards No. 159, The Fair Value Option for Financial Assets and Financial Liabilities ( FAS 159 ), was issued and is effective for fiscal years beginning after November 15, 2007. Early adoption is permitted as of the beginning of a fiscal year that begins on or before November 15, 2007, provided the entity also elects to apply the provisions of FAS 157. FAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. FAS 159 also establishes presentation and disclosure requirements designed to

facilitate comparisons between entities that choose different measurement attributes for similar types of assets and liabilities. The impact on each of the Trust s financial statement disclosures, if any, is currently being assessed.

In March 2008, Statement of Financial Accounting Standards No. 161, Disclosures about Derivative Instruments and Hedging Activities an amendment of FASB Statement No. 133 ( FAS 161 ) was issued and is effective for fiscal years beginning after November 15, 2008. FAS 161 is intended to improve financial reporting for derivative instruments by requiring enhanced disclosure that enables investors to understand how and why an entity uses derivatives, how derivatives are accounted for, and how derivative instruments affect an entity s results of operations and financial position. The investment advisor is currently evaluating the implications of FAS 161 and the impact on each of the Trust s financial statement disclosures, if any, is currently being assessed.

Deferred Compensation and BlackRock Closed-End Share Equivalent Investment Plan: Under the deferred compensation plan approved by each Trust s Board, non-interested Directors or Trustees ( Independent Directors or Trustees ) may defer a portion of their annual complex-wide compensation. Deferred amounts earn an approximate return as though equivalent dollar amounts have been invested in common shares of other certain BlackRock Closed-End Funds selected by the Independent Directors or Trustees. This has approximately the same economic effect for the Independent Directors or Trustees as if the Independent Directors or Trustees had invested the deferred amounts directly in other certain BlackRock Closed-End Funds.

The deferred compensation plan is not funded and obligations thereunder represent general unsecured claims against the general assets of the Trust. Each Trust may, however, elect to invest in common shares of other certain BlackRock Closed-End Funds selected by the Independent Directors or Trustees in order to match its deferred compensation obligations. Investments to cover each Trust s deferred compensation liability are included in other assets on the Statement of Assets and Liabilities.

Other: Expenses directly related to one of the Trusts are charged to that Trust. Other operating expenses shared by several Trusts are pro-rated among those Trusts on the basis of relative net assets or other appropriate methods.

## 2. Investment Advisory Agreement and Other Transactions with Affiliates:

Each Trust has entered into an Investment Advisory Agreement with BlackRock Advisors, LLC (the Advisor ), an indirect, wholly owned subsidiary of BlackRock, Inc., to provide investment and administration services. Merrill Lynch \& Co., Inc. and The PNC Financial Services Group, Inc. are principal owners of BlackRock, Inc.

Each Trust s investment advisory fee paid to the Advisor is computed weekly and payable monthly based on an annual rate, $0.55 \%$ for Broad Investment Grade, $0.60 \%$ for Income Opportunity and $0.65 \%$ for Income Trust, of each Trust s average net assets and $0.55 \%$ for Core Bond and Limited Duration, $0.65 \%$ for Preferred and Equity, 1.05\% for High Yield and 0.75\% for Strategic Bond, of each Trust s average total assets (including any assets attributable to Preferred Shares) minus the sum of accrued liabilities (other than debt representing financial leverage). The Advisor has voluntarily agreed to waive a portion of the investment advisory fees or other expenses on Strategic Bond as a percentage of its average weekly managed assets as follows: $0.20 \%$ for the first five years of the Trust s operations from 2002 through February 28, 2007, 0.15\% through February 28, 2008, $0.10 \%$ through February 28, 2009 and $0.05 \%$ through February 28, 2010. In addition, effective November 1, 2007, the Advisor agreed to waive the advisory and administration fees for Broad Investment Grade for the period November 1, 2007 to the Trust s termination in 2009.

Broad Investment Grade, High Yield, Income Opportunity and Income Trust each have an Administration Agreement with the Advisor. The Investment Advisory Agreement for Core Bond, Limited Duration, Preferred and Equity and Strategic Bond covers both investment advisory and administration services. The administration fee paid to the Advisor is computed weekly and payable monthly based on an annual rate, $0.15 \%$ for Broad Investment Grade, $0.10 \%$ for Income Opportunity, and $0.15 \%$ for Income Trust, of each Trust s average net assets and $0.10 \%$ for High Yield of the Trust s average managed assets.

Effective January 1, 2008, certain Trusts reimbursed the Advisor the following amounts for certain accounting services, which are included in accounting services expenses in the Statements of Operations:

BlackRock Financial Management, Inc. ( BFM ), a wholly owned subsidiary of BlackRock, Inc., serves as sub-advisor to Core Bond, Limited Duration, Preferred and Equity and Strategic Bond. BlackRock Investment Management, LLC ( BIM ), a wholly owned subsidiary of BlackRock, Inc., also serves as sub-advisor to Preferred and Equity. The Advisor pays BFM and BIM for services they provide, a monthly fee that is a percentage of the investment advisory fee paid by each Trust to the Advisor.

During the six months ended, Merrill Lynch, Pierce, Fenner \& Smith Incorporated ( MLPF\&S ), a wholly owned subsidiary of Merrill Lynch, earned commissions on transactions of securities as follows:

For the six months ended April 30, 2008, the Limited Duration Income s average amount of reverse repurchase agreements outstanding was approximately $\$ 134,275,000$ and the daily weighted average interest rate was $3.62 \%$.

For the six months ended April 30, 2008, the Preferred and Equity s average amount borrowed was approximately $\$ 27,807,000$ and the daily weighted average interest rate was $4.74 \%$.

## Notes to Financial Statements (continued)

## 5. Commitments:

Limited Duration may invest in floating rate loans. In connection with these investments, the Trust may, with its Advisor, also enter into unfunded corporate loans ( commitments ). Commitments may obligate the Trust to furnish temporary financing to a borrower until permanent financing can be arranged. At April 30, 2008, the Trust had outstanding commitments of approximately $\$ 2,088,000$. In connection with these commitments, the Trust earns a commitment fee, typically set as a percentage of the commitment amount. Such fee income, which is classified in the Statements of Operations as facility and other fees, is recognized ratably over the commitment period. As of April 30, 2008, the Trust had the following unfunded loan commitments:

| Borrower | Commitment <br> (000) |  | Value of Underlying Loan (000) |  |
| :---: | :---: | :---: | :---: | :---: |

## 7. Capital Share Transactions:

There are 200 million of $\$ 0.01$ par value Common Shares authorized for Broad Investment Grade, Income Opportunity and Income Trust. There are an unlimited number of $\$ 0.001$ par value Common Shares authorized for Core Bond, High Yield, Limited Duration, Preferred and Equity and Strategic Bond. At April 30, 2008, the shares owned by an affiliate of the Advisor of Limited Duration and Preferred and Equity were 6,021 and 4,817 , respectively.

Preferred and Equity, which commenced on December 27, 2006, issued 47,004,817 common shares under the initial public offering. On February 1, 2007, an additional $4,750,000$ shares were issued by the underwriters exercising their over-allotment option. Offering costs incurred in connection with the offering of Common Shares have been charged against the proceeds from the initial Common Share offering in the amount of $\$ 1,367,957$.

## Common Shares

During the six months ended April 30, 2008 and year ended October 31, 2007, the following Trusts issued additional shares under their respective dividend reinvestment plan:

Preferred Shares

As of April 30, 2008, Preferred and Equity has the following series of Preferred Shares outstanding as listed in the table below. The Preferred Shares have a liquidation value of $\$ 25,000$ per share plus any accumulated unpaid dividends.

| Series | Shares |
| :--- | ---: |
|  |  |
| T7 | 4,620 |
| W7 | 4,620 |
| R7 | 4,620 |
| F7 | 4,620 |

Shares issued and outstanding for the six months ended April 30, 2008 remained constant.

Preferred and Equity pays commissions to certain broker-dealers at the end of each auction at an annual rate of $0.25 \%$ calculated on the aggregate principal amount. For the six months ended April 30, 2008, MLPF\&S received \$265,286 in commissions from Preferred and Equity.

Dividends on seven-day Preferred Shares are cumulative at a rate which is reset every seven days based on the results of an auction. If the Preferred Shares fail to clear the auction on an auction date, Preferred and Equity is required to pay the maximum applicable rate on the Preferred Shares to holders of such Shares for each successive dividend period until such time as the stock is successfully auctioned. The maximum applicable rate on the Preferred Shares is $150 \%$ times or $1.25 \%$ plus the Telerate/BBA LIBOR rate. During the six months ended April 30, 2008, the Preferred Shares of

## Notes to Financial Statements (concluded)

Preferred and Equity was successfully auctioned at each auction date until February 13, 2008. The low, high and average dividend rates on the Preferred Shares for Preferred and Equity for the six months ended April 30, 2008 were as follows:

| Series | Low | High | Average |  |
| :--- | :--- | :--- | :--- | :--- |
|  |  |  |  |  |
| T7 | $3.950 \%$ | $5.850 \%$ | $4.764 \%$ |  |
| W7 | $4.023 \%$ | $5.400 \%$ | $4.763 \%$ |  |
| R7 | $3.880 \%$ | $6.000 \%$ | $4.742 \%$ |  |
| F7 | $3.600 \%$ | $5.750 \%$ | $4.666 \%$ |  |

Since February 13, 2008 the Preferred Shares of Preferred and Equity failed to clear any of it auctions. As a result, the Preferred Shares dividend rates were reset to the maximum applicable rate which ranged from $3.94 \%$ to $4.73 \%$. A failed auction is not an event of default for Preferred and Equity but it is a liquidity event for the holders of the Preferred Shares. A failed auction occurs when there are more sellers of a fund s auction rate Preferred Shares than buyers. It is impossible to predict how long this imbalance will last. An auction for the Fund s Preferred Shares may not occur for some time, if ever, and even if liquidity does resume, holders of the Preferred Shares may not have the ability to sell the Preferred Shares at its liquidation preference.

Preferred and Equity may not declare dividends or make other distributions on common shares or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding Preferred Shares is less than $200 \%$.

The Preferred Shares are redeemable at the option of Preferred and Equity, in whole or in part, on any dividend payment date at $\$ 25,000$ per share plus any accumulated unpaid dividends whether or not declared. The Preferred Shares are also subject to mandatory redemption at $\$ 25,000$ per share plus any accumulated or unpaid dividends, whether or not declared, if certain requirements relating to the composition of the assets and liabilities of Preferred and Equity, as set forth in the Trust s Statement of Preferences, are not satisfied.

The holders of Preferred Shares have voting rights equal to the holders of Common Shares (one vote per share) and will vote together with holders of Common Shares (one vote per share) as a single class. However, holders of Preferred Shares, voting as a separate class, are also entitled to elect two Trustees for Preferred and Equity. In addition, the 1940 Act requires that, along with approval by shareholders that might otherwise be required, the approval of the holders of a majority of any outstanding Preferred Shares, voting separately as a class would be required to (a) adopt any plan of reorganization that would adversely affect the Preferred Shares (b) change a Trust s subclassification as a closed-end investment company or change its fundamental investment restrictions or (c) change its business so as to cease to be an investment company.

## Additional Information

Availability of Quarterly Schedule of Investments
Each Trust files their complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. Each Trust s Forms N-Q are available on the SEC s website at http://www.sec.gov and may also be reviewed and copied at the SEC s Public Reference Room in Washington, DC.

Information on the operation of the Public Reference Room may be obtained by calling (800) SEC-0330. Each Trust s Forms N-Q may also be obtained upon request and without charge by calling (800) 441-7762.

## Electronic Delivery

Electronic copies of most financial reports are available on the Trusts website or shareholders can sign up for e-mail notifications of quarterly statements, annual and semi-annual reports and prospectuses by enrolling in the Trusts electronic delivery program.

## Shareholders Who Hold Accounts with Investment Advisors, Banks or Brokerages:

Please contact your financial advisor to enroll. Please note that not all investment advisors, banks or brokerages may offer this service.

## General Information

The Trusts will mail only one copy of shareholder documents, including annual and semi-annual reports and proxy statements, to shareholders with multiple accounts at the same address. This practice is commonly called householding and it is intended to reduce expenses and eliminate duplicate mailings of shareholder documents. Mailings of your shareholder documents may be householded indefinitely unless you instruct us otherwise. If you do not want the mailing of these documents to be combined with those for other members of your household, please contact the Trusts at (800) 441-7762

Quarterly performance, semi-annual and annual reports and other information regarding each Trust may be found on BlackRock s website, which can be accessed at http://www.blackrock.com. This reference to BlackRock s website is intended to allow investors public access to information regarding each Trust and does not, and is not intended to, incorporate BlackRock s website into this report.

Deposit Securities
Effective May 30, 2008, following approval by the BlackRock Preferred and Equity Advantage Trust (the Trust ) Board and the applicable ratings agencies, the definition of Deposited Securities in the Trust s Statement of Preferences was amended in order to facilitate the redemption of the Trust s Preferred Stock. The following phrase was added to the definition of Deposit Securities found in the Trust s Statement of Preferences:
; provided, however, that solely in connection with any redemption of AMPS, the term Deposit Securities shall include (i) any committed financing pursuant to a credit agreement, reverse repurchase agreement facility or similar credit arrangement, in each case which makes available to the Corporation, no later than the day preceding the applicable redemption date, cash in an amount not less than the aggregate amount due to Holders by reason of the redemption of their shares of AMPS on such redemption date; and (ii) cash amounts due and payable to the Corporation out of a sale of its securities if such cash amount is not less than the aggregate amount due to Holders by reason of the redemption of their shares of AMPS on such redemption date and such sale will be settled not later than the day preceding the applicable redemption date.

## BlackRock Privacy Principles

BlackRock is committed to maintaining the privacy of its current and former fund investors and individual clients (collectively, Clients ) and to safeguarding their nonpublic personal information. The following information is provided to help you understand what personal information BlackRock collects, how we protect that information and why in certain cases we share such information with select parties.

If you are located in a jurisdiction where specific laws, rules or regulations require BlackRock to provide you with additional or different privacy-related rights beyond what is set forth below, then BlackRock will comply with those specific laws, rules or regulations.

BlackRock obtains or verifies personal nonpublic information from and about you from different sources, including the following: (i) information we receive from you or, if applicable, your financial intermediary, on applications, forms or other documents; (ii) information about your transactions with us, our affiliates, or others; (iii) information we receive from a consumer reporting agency; and (iv) from visits to our websites.

BlackRock does not sell or disclose to nonaffiliated third parties any nonpublic information about its Clients, except as permitted by law or as necessary to service Client accounts. These nonaffiliated third parties are required to protect the confidentiality and security of this information and to use it only for its intended purpose.

We may share information with our affiliates to service your account or to provide you with information about other BlackRock products or services that may be of interest to you. In addition, BlackRock restricts access to nonpublic personal information about its Clients to those BlackRock employees with a legitimate business need for the information. BlackRock maintains physical, electronic and procedural safeguards that are designed to protect the nonpublic personal information of its Clients, including procedures relating to the proper storage and disposal of such information.

## Section 19 Notices

The amounts and sources of distributions reported are only estimates and are not being provided for tax reporting purposes. The actual amounts and sources for tax reporting purposes will depend upon the Trust s investment experience during the remainder of its fiscal year and may be subject to changes based on the tax regulations. The Trust will send you a Form 1099-DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes.

Each Trust estimates that it has distributed more than its income and net realized gains; therefore, a portion of the distribution may be a return of capital. A return of capital may occur, for example, when some or all of the money that you invested in the Fund is paid back to the shareholder. A return of capital does not necessarily reflect the Fund s investment performance and should not be confused with yield or income.

This report is transmitted to shareholders only. It is not a prospectus. Past performance results shown in this report should not be considered a representation of future performance. The Trusts have leveraged their Common Shares, which creates risks for Common Shareholders, including the likelihood of greater volatility of net asset value and market price of the Common Shares and the risk that fluctuations in the short-term dividend rates of the Preferred Shares, currently set at the maximum reset rate as a result of failed auctions, may affect the yield to Common Shareholders. Statements and other information herein are as dated and are subject to change.

A description of the policies and procedures that the Trusts use to determine how to vote proxies relating to portfolio securities is available (1) without charge, upon request, by calling toll-free (800) 411-7762; (2) at www.blackrock.com; and (3) on the Securities and Exchange Commission s website at http://www.sec.gov. Information about how each Trust voted proxies relating to securities held in each Trust s portfolio during the most recent 12-month period ended June 30 is available upon request and without charge (1) at www.blackrock.com or by calling (800) 441-7762 and (2) on the Securities and Exchange Commission s website at http://www.sec.gov.
