Managed Distribution Policy

The Board of Directors of Royce Focus Trust has authorized a managed distribution policy (MDP). Under the MDP, Royce Focus Trust pays quarterly distributions at an annual rate of 5% of the average of the prior four quarter-end net asset values, with the fourth quarter being the greater of this annualized rate or the distribution required by IRS regulations. With each distribution, the Fund will issue a notice to its stockholders and an accompanying press release that provides detailed information regarding the amount and composition of the distribution (including whether any portion of the distribution represents a return of capital) and other information required by the Fund's MDP. You should not draw any conclusions about the Fund's investment performance from the amount of distributions or from the terms of the Fund's MDP. The Fund's Board of Directors may amend or terminate the MDP at any time without prior notice to stockholders. On February 26, 2015, stockholders will consider approving a new investment advisory agreement for the Fund with Sprott Asset Management, L.P. (Sprott). If such approval is obtained, the MDP will terminate, however, Sprott has indicated its intention to propose to the new Fund board the prompt adoption of a new managed distribution policy.

Important Performance and Risk Information

All performance information in this *Review and Report* reflects past performance, is presented on a total return basis, and reflects the reinvestment of distributions. Past performance is no guarantee of future results. Investment return and principal value of an investment will fluctuate, so that shares may be worth more or less than their original cost when sold. Current performance may be higher or lower than performance quoted. Current month-end performance may be obtained at www.roycefunds.com. The Fund is a closed-end registered investment company whose respective shares of common stock may trade at a discount to the net asset value. Shares of the Fund's common stock is also subject to the market risk of investing in the underlying portfolio securities held by the Fund. All indexes referenced are unmanaged and capitalization-weighted. Each index's returns include net reinvested dividends and/or interest income. Russell Investment Group is the source and owner of the trademarks, service marks and copyrights related to the Russell Indexes. Russell® is a trademark of Russell Investment Group. The Russell 2500 Index is an index of the 2,500 smallest publicly traded U.S. companies in the Russell 3000 Index. The performance of an index does not represent exactly any particular investment, as you cannot invest directly in an index. Index returns include net reinvested dividends and/or interest income. Royce Focus Trust is a closed-end fund whose shares of common stock trade on the Nasdaq. Royce Fund Services, Inc (RFS) is a member of FINRA and has filed this *Review and Report* with FINRA on behalf of the Fund. RFS is not an underwriter or distributor of the Fund.

MANAGER'S DISCUSSION **Royce Focus Trust**

Whitney George

FUND PERFORMANCE After a strong first half, 2014 became a disappointing year for Royce Focus Trust (FUND) on both an absolute and relative basis. **For the calendar year, the Fund was up 0.3% on an NAV (net asset value) basis and 0.6% based on market price, both returns well behind the 7.1% gain for its benchmark, the Russell 2500 Index, over the same period.** The first half saw the Fund easily outpacing its benchmark. FUND rose an impressive 12.7% on an NAV basis and 15.0% on a market price basis for the six-month period ended June 30, 2014 while the Russell 2500 advanced 5.8%.

Although large-cap stocks made slight net gains, small-caps began to slide in the third quarter when FUND's limited portfolio of stocks slipped 7.3% on an NAV basis and 6.7% on a market price basis, placing it behind its benchmark, which declined 5.3%. At this stage of the year, however, the Fund remained ahead of the benchmark for the nine-month period ended September 30, 2014. It was during the fourth quarter, then, that FUND lost its relative advantage. For many stocks, large and small, the year's final quarter was a solidly bullish period. It was certainly a good one for the Fund's benchmark, which advanced 6.8% for the period. FUND, on the other hand, suffered losses of 4.0% on an NAV basis and 6.3% on a market price basis. This was mostly due to net losses in the Energy sector and, to a lesser degree, in the metals & mining industry (from the Materials sector). There was some better news for longer-term periods. The Fund outpaced the Russell 2500 on an NAV basis for the 15-year period ended December 31, 2015. **The Fund's average annual NAV total return for the since inception of our management (11/1/96) period ended December 31, 2014 was 10.0%.**

WHAT WORKED... AND WHAT DIDN'T The Energy and Materials sectors suffered losses in the third and fourth quarter, making them the first- and second-largest detractors from 2014 performance. This came after Energy had posted the largest net gains of all the Fund's sectors in the first half while Materials had the third most. They were joined by Industrials and Consumer Staples on the list of sectors that detracted from calendar-year results. The nearly 50% decline in crude oil prices during the year's second half hurt the share price of long-time holding Trican Well Service. The company is the largest pressure pumping service provider in Canada and a leading fracturing company in Russia. We built our position in TGS-NOPEC Geophysical, a Norwegian company that provides geoscientific data products and services to oil and gas companies. Earnings and revenues were hurt by the drop in commodity prices. We were confident in the long-term prospects for the industry, so we increased our already overweight exposure to Energy in 2014. With the exception of Exxon-Mobil, our holdings were exclusively in the energy equipment & services industry.

In a similar vein, we also added shares of Nu Skin Enterprises as its stock price fell through the year. A personal skin care product maker and distributor based in Utah, Nu Skin resolved some distribution issues in China by paying a small fine early in the year while it also improved training, restructured its debt covenants, and reversed a cash flow problem. This was all good news. We remain confident in its long-term rebound potential, which will likely be driven by a recovery in its most important market, China. Seeing an opportunity as its share price was falling, we also built our stake in London-based Ashmore Group, which is one of the world's leading emerging markets asset management companies. Its shares were challenged by concerns about the debt cycle and worrisome news from Russia and other emerging markets in 2014. Earnings have been hurt, though revenues have remained mostly consistent. We liked its long-term prospects enough for it to be a top-20 holding at the end of the period. Finally, we also modestly added to our position in GameStop Corporation, a video game retailer that sells new and pre-owned gaming products, including hardware and software. Its shares were volatile through much of the year, but trended downward in November after the firm reported lower-than-expected earnings.

We remained pleased with the comeback of Myriad Genetics. A molecular diagnostic company that specializes in genetic testing for cancer, its share price fell rapidly in the wake of a mixed ruling from the Supreme Court in June 2013, which held that human genes cannot be patented. The stock began to recover in the first quarter of 2014, and the firm remains a leader in genetic testing with a variety of industry-standard tools for detecting hereditary cancer risk. We took some gains in April and December.

CURRENT POSITIONING AND OUTLOOK We ended 2014 with much the same sector weightings as we began, keeping the portfolio diversified in terms of market capitalization, industries, and geographies. Our exposure was geared heavily toward both economically sensitive cyclical areas and commodity-based businesses.

Edgar Filing: ROYCE FOCUS TRUST INC - Form N-CSR

The **Morningstar Style Map** is the **Morningstar Style BoxTM** with the center 75% of fund holdings plotted as the **Morningstar Ownership ZoneTM**. The Morningstar Style Box is designed to reveal a fund's investment strategy. The Morningstar Ownership Zone provides detail about a portfolio's investment style by showing the range of stock sizes and styles. The Ownership Zone is derived by plotting each stock in the portfolio within the proprietary Morningstar Style Box. Over time, the shape and location of a fund's ownership zone may vary. See page 19 for additional information.

1 Geometric Average. This weighted calculation uses each portfolio holding's market cap in a way designed to not skew the effect of very large or small holdings; instead, it aims to better identify the portfolio's center, which Royce believes offers a more accurate measure of average market cap than a simple mean or median. **2 Harmonic Average.** This weighted calculation evaluates a portfolio as if it were a single stock and measures it overall. It compares the total market value of the portfolio to the portfolio's share in the earnings or book value, as the case may be, of its underlying stocks. **3** The Fund's P/E ratio calculation excludes companies with zero or negative earnings (10% of portfolio holdings as of 12/31/14). **4 Active Share** is the sum of the absolute values of the different weightings of each holding in the Fund versus each holding in the benchmark, divided by two.

Important Performance and Risk Information All performance information reflects past performance, is presented on a total return basis, and reflects the reinvestment of distributions. Past performance is no guarantee of future results. Current performance may be higher or lower than performance quoted. Returns as of the most recent month-end may be obtained at www.roycefunds.com. The market price of the Fund's shares will fluctuate, so that shares may be worth more or less than their original cost when sold. The Fund normally invests primarily in small-cap companies, which may involve considerably more risk than investing in a larger-cap companies. The Fund also generally invests a significant portion of its assets in a limited number of stocks, which may involve considerably more risk than a broadly diversified portfolio because a decline in the value of any one of these stocks would cause the Fund's overall value to decline to a greater degree. Regarding the Top Contributors and Top Detractors tables shown on page 2, the sum of all contributors to, and all detractors from, performance for all securities in the portfolio would approximate the Fund's performance for 2014.

2014 Annual Report to Stockholders | 3

History Since Inception

The following table details the share accumulations by an initial investor in the Funds who reinvested all distributions and participated fully in primary subscriptions for each of the rights offerings. Full participation in distribution reinvestments and rights offerings can maximize the returns available to a long-term investor. This table should be read in conjunction with the Performance and Portfolio Reviews of the Funds.

Royce Focus Trust

Notes to Financial Statements

Summary of Significant Accounting Policies:

Royce Focus Trust, Inc. (the Fund), is a diversified closed-end investment company incorporated under the laws of the State of Maryland. The Fund commenced operations on March 2, 1988, and Royce & Associates, LLC (Royce) assumed investment management responsibility for the Fund on November 1, 1996.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standard Codification Topic 946 Financial Services-Investment Companies.

At December 31, 2014, officers, employees of Royce, Fund directors, the Royce retirement plans and other affiliates owned 30% of the Fund.

VALUATION OF INVESTMENTS:

Securities are valued as of the close of trading on the New York Stock Exchange (NYSE) (generally 4:00 p.m. Eastern time) on the valuation date. Securities that trade on an exchange, and securities traded on Nasdaq's Electronic Bulletin Board, are valued at their last reported sales price or Nasdaq official closing price taken from the primary market in which each security trades or, if no sale is reported for such day, at their highest bid price. Other over-the-counter securities for which market quotations are readily available are valued at their highest bid price, except in the case of some bonds and other fixed income securities which may be valued by reference to other securities with comparable ratings, interest rates and maturities, using established independent pricing services. The Fund values its non-U.S. dollar denominated securities in U.S. dollars daily at the prevailing foreign currency exchange rates as quoted by a major bank. Securities for which market quotations are not readily available are valued at their fair value in accordance with the provisions of the 1940 Act, under procedures approved by the Fund's Board of Directors, and are reported as Level 3 securities. As a general principle, the fair value of a security is the amount which the Fund might reasonably expect to receive for the security upon its current sale. However, in light of the judgment involved in fair valuations, there can be no assurance that a fair value assigned to a particular security will be the amount which the Fund might be able to receive upon its current sale. In addition, if, between the time trading ends on a particular security and the close of the customary trading session on the NYSE, events occur that are significant and may make the closing price unreliable, the Fund may fair value the security. The Fund uses an independent pricing service to provide fair value estimates for relevant non-U.S. equity securities on days when the U.S. market volatility exceeds a certain threshold. This pricing service uses proprietary correlations it has developed between the movement of prices of non-U.S. equity securities and indices of U.S.-traded securities, futures contracts and other indications to estimate the fair value of relevant non-U.S. securities. When fair value pricing is employed, the prices of securities used by the Fund may differ from quoted or published prices for the same security. Investments in money market funds are valued at net asset value per share.

Various inputs are used in determining the value of the Fund's investments, as noted above. These inputs are summarized in the three broad levels below:

Level 1 quoted prices in active markets for identical securities. **Level 2** other significant observable inputs (including quoted prices for similar securities, foreign securities that may be fair valued and repurchase agreements). The table below includes all Level 2 securities. Any Level 2 securities with values based on quoted prices for similar securities would be noted in the Schedule of Investments. **Level 3** significant unobservable inputs (including last trade price before trading was suspended, or at a discount thereto for lack of marketability or otherwise, market price information regarding other securities, information received from the company and/or published documents, including SEC filings and financial statements, or other publicly available information).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used to value the Fund's investments as of December 31, 2014. For a detailed breakout of common stocks by sector classification, please refer to the Schedule of Investments.

LEVEL 1	LEVEL 2	LEVEL 3	TOTAL					
Equivalents	2,829,000	2,829,000		Common Stocks	\$161,263,839	\$23,636,633	\$184,900,472	Cash

Edgar Filing: ROYCE FOCUS TRUST INC - Form N-CSR

For the year ended December 31, 2014, certain securities have transferred in and out of Level 1 and Level 2 measurements. The Fund recognizes transfers between levels as of the end of the reporting period. At December 31, 2014, securities valued at \$17,183,768 were transferred from Level 1 to Level 2 within the fair value hierarchy.

12 | 2014 Annual Report to Stockholders

Royce Focus Trust

Notes to Financial Statements (continued)

REPURCHASE AGREEMENTS:

The Fund may enter into repurchase agreements with institutions that the Fund's investment adviser has determined are creditworthy. The Fund restricts repurchase agreements to maturities of no more than seven days. Securities pledged as collateral for repurchase agreements, which are held until maturity of the repurchase agreements, are marked-to-market daily and maintained at a value at least equal to the principal amount of the repurchase agreement (including accrued interest). Repurchase agreements could involve certain risks in the event of default or insolvency of the counter-party, including possible delays or restrictions upon the ability of the Fund to dispose of its underlying securities.

FOREIGN CURRENCY:

Net realized foreign exchange gains or losses arise from sales and maturities of short-term securities, sales of foreign currencies, expiration of currency forward contracts, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the value of assets and liabilities, including investments in securities at the end of the reporting period, as a result of changes in foreign currency exchange rates.

SECURITIES LENDING:

The Fund loans securities through a lending agent to qualified institutional investors for the purpose of realizing additional income. Collateral for the Fund on all securities loaned is accepted in cash and cash equivalents and invested temporarily by the custodian. The collateral maintained is at least 100% of the current market value of the loaned securities. The market value of the loaned securities is determined at the close of business of the Fund and any additional required collateral is delivered to the Fund on the next business day. The Fund retains the risk of any loss on the securities on loan as well as incurring the potential loss on investments purchased with cash collateral received for securities lending. The Fund's securities lending income consists of the income earned on investing cash collateral, plus any premium payments received for lending certain securities, less any rebates paid to borrowers and lending agent fees associated with the loan. The lending agent is not affiliated with Royce.

TAXES:

As a qualified regulated investment company under Subchapter M of the Internal Revenue Code, the Fund is not subject to income taxes to the extent that it distributes substantially all of its taxable income for its fiscal year. The Schedule of Investments includes information regarding income taxes under the caption "Tax Information".

DISTRIBUTIONS:

The Fund pays quarterly distributions on the Fund's Common Stock at the annual rate of 5% of the rolling average of the prior four calendar quarter-end NAVs of the Fund's Common Stock, with the fourth quarter distribution being the greater of 1.25% of the rolling average or the distribution required by IRS regulations. Prior to November 15, 2012, distributions to Preferred Stockholders were accrued daily and paid quarterly. Distributions to Common Stockholders are recorded on ex-dividend date. Distributable capital gains and/or net investment income were first allocated to Preferred Stockholder distributions, with any excess allocable to Common Stockholders. If capital gains and/or net investment income were allocated to both Preferred and Common Stockholders, the tax character of such allocations was proportional. To the extent that distributions are not paid from long-term capital gains, net investment income or net short-term capital gains, they will represent a return of capital. Distributions are determined in accordance with income tax regulations that may differ from accounting principles generally accepted in the United States of America. Permanent book and tax differences relating to stockholder distributions will result in reclassifications within the capital accounts. Undistributed net investment income may include temporary book and tax basis differences, which will reverse in a subsequent period. Any taxable income or gain remaining undistributed at fiscal year end is distributed in the following year.

INVESTMENT TRANSACTIONS AND RELATED INVESTMENT INCOME:

Investment transactions are accounted for on the trade date. Dividend income is recorded on the ex-dividend date. Non-cash dividend income is recorded at the fair market value of the securities received. Interest income is recorded on an accrual basis. Premium and discounts on debt securities are amortized using the effective yield-to-maturity method. Realized gains and losses from investment transactions are determined on the basis of identified cost for book and tax purposes.

EXPENSES:

Edgar Filing: ROYCE FOCUS TRUST INC - Form N-CSR

The Fund incurs direct and indirect expenses. Expenses directly attributable to the Fund are charged to the Fund's operations, while expenses applicable to more than one of the Royce Funds are allocated equitably. Certain personnel, occupancy costs and other administrative expenses related to the Funds are allocated by Royce under an administration agreement and are included in
2014 Annual Report to Stockholders | 13

Royce Focus Trust

Notes to Financial Statements (continued)

EXPENSES (continued):

administrative and office facilities and professional fees. The Fund has adopted a deferred fee agreement that allows the Directors to defer the receipt of all or a portion of directors' fees otherwise payable. The deferred fees are invested in certain Royce Funds until distributed in accordance with the agreement.

COMPENSATING BALANCE CREDITS:

The Fund has an arrangement with its custodian bank, whereby a portion of the custodian's fee is paid indirectly by credits earned on the Fund's cash on deposit with the bank. This deposit arrangement is an alternative to purchasing overnight investments. Conversely, the Fund pays interest to the custodian on any cash overdrafts, to the extent they are not offset by credits earned on positive cash balances.

Capital Stock:

The Fund issued 675,314 and 691,786 shares of Common Stock as reinvestment of distributions for the years ended December 31, 2014 and December 31, 2013, respectively.

Investment Advisory Agreement:

The Investment Advisory Agreement between Royce and the Fund provides for fees to be paid at an annual rate of 1.0% of the Fund's average daily net assets. For the year ended December 31, 2014, the Fund accrued and paid Royce investment advisory fees totaling \$1,990,090. On December 16, 2014, the Fund's Board of Directors approved, subject to stockholder approval, a new investment advisory agreement with Sprott Asset Management, LP and a new sub-investment advisory agreement with Sprott Asset Management U.S.A., Inc. A stockholder meeting seeking stockholder approval of these agreements is scheduled to take place on February 26, 2015.

Purchases and Sales of Investment Securities:

For the year ended December 31, 2014, the costs of purchases and proceeds from sales of investment securities, other than short-term securities, amounted to \$55,679,944 and \$56,846,748, respectively.

Distributions to Stockholders:

The tax character of distributions paid to common stockholders during 2014 and 2013 was as follows:

DISTRIBUTIONS PAID FROM:	2014	2013	Ordinary income	\$1,809,538	\$1,372,026	Long-term capital gain	7,556,547
	7,278,830	\$9,366,085	\$8,650,856				

As of December 31, 2014, the tax basis components of distributable earnings included in stockholders' equity were as follows:

Net unrealized appreciation (depreciation)	\$ 35,767,156	Post October loss*	(2,286)	Undistributed ordinary income	
537,406	Undistributed capital gains	3,811,143	\$ 40,113,419		

*Under the current tax law, capital losses and foreign currency losses after October 31 may be deferred and treated as occurring on the first day of the following fiscal year. As of December 31, 2014, the Fund had \$2,286 of post October currency losses.

The difference between book and tax basis unrealized appreciation (depreciation) is attributable primarily to partnership investments.

For financial reporting purposes, capital accounts and distributions to stockholders are adjusted to reflect the tax character of permanent book/tax differences. These differences are primarily due to differing treatments of income and gains on various investment securities and foreign currency transactions held by the Fund, timing differences and different characterization of distributions made by the Fund. For the year ended December 31, 2014, the Fund recorded the following permanent reclassifications. Results of operations and net assets were not affected by these reclassifications.

UNDISTRIBUTED NET	ACCUMULATED NET	INVESTMENT INCOME	REALIZED GAIN (LOSS)	\$356,855
\$(356,855)				

Edgar Filing: ROYCE FOCUS TRUST INC - Form N-CSR

Management has analyzed the Fund's tax positions taken on federal income tax returns for all open tax years (2011-2014) and has concluded that as of December 31, 2014, no provision for income tax is required in the Fund's financial statements.
14 | 2014 Annual Report to Stockholders

Royce Focus Trust

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of
Royce Focus Trust, Inc.
New York, New York

We have audited the accompanying statement of assets and liabilities of Royce Focus Trust, Inc., (Fund) including the schedule of investments, as of December 31, 2014, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2014, by correspondence with the custodian. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Royce Focus Trust, Inc. at December 31, 2014, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

1 Interested Director. Director will hold office until their successors have been duly elected and qualified or until their earlier resignation or removal.

16 | 2014 Annual Report to Stockholders

Board Approval of Investment Advisory Agreements

Board Approval of New Investment Advisory and Subadvisory Agreements for Royce Focus Trust, Inc.

The Board of Directors of Royce Focus Trust, Inc. (the Board) met in person at a regularly scheduled meeting on December 15-16, 2014, for purposes of, among other things, considering whether it would be in the best interests of Royce Focus Trust, Inc. (the Fund) and its stockholders to approve a new investment advisory agreement by and between the Fund and Sprott Asset Management L.P. (the New Investment Advisory Agreement) and a new investment subadvisory agreement by and among the Fund, Sprott Asset Management L.P., and Sprott Asset Management USA Inc. (the New Investment Subadvisory Agreement) and, together with the New Investment Advisory Agreement, the New Agreements).

The implementation of the New Agreements is contingent on separate stockholder approval of each New Agreement and the election of a new slate of Directors to the Board as set forth in more detail in the Fund's Proxy Statement dated January 6, 2015 (the Proxy Statement). In the event all of the proposals described in the Proxy Statement do not receive

the required stockholder approvals, the New Agreements will not be implemented and Royce & Associates, LLC (R&A) will remain the investment adviser to the Fund.

In connection with the Board's review of the New Agreements, the current directors who are not interested persons of the Fund within the meaning of the Investment Company Act of 1940 (collectively, the Current Independent Directors) requested, and Sprott provided the Board with, information about a variety of matters, including, without limitation, the following information:

Information regarding the financial condition of Sprott Asset Management L.P. (Sprott Asset) and Sprott Asset Management USA Inc. (Sprott USA) and, together with Sprott Asset, Sprott) and any related future business initiatives; the expected investment advisory compensation to be payable by the Fund to Sprott Asset under the New Investment Advisory Agreement; The expected investment Subadvisory compensation, if any, to be payable by Sprott Asset to Sprott USA under the New Investment Subadvisory Agreement; Comparative fee and expense information for registered investment companies similar to the Fund as identified by Morningstar Associates, LLC (Morningstar); Background information on the qualifications and experience of Sprott senior management and the key professional personnel that are expected to provide services to the Fund; A description of the nature, extent, and quality of services Sprott expects to provide to the Fund and how such services may differ from those provided to the Fund by R&A; Information on compliance matters, including background information on the qualifications and experience of the expected Chief Compliance Officer for the Fund and a summary of Sprott compliance programs that will be applicable to the Fund;

Comparative investment performance information for registered investment companies similar to the Fund as identified by Morningstar; Information regarding broker selection, trade allocation, brokerage recapture, and soft dollars; and information on current legal matters.

In connection with the Board's review of the New Agreements, the Current Independent Directors considered the matters set forth above along with the following information: W. Whitney George, the Fund's portfolio manager since 2002, is leaving R&A and has entered into a one-year employment agreement with Sprott Asset, to go into effect upon the effective date of the New Agreements; Mr. George's long portfolio management tenure with the Fund and its historical investment performance, which included past periods of significantly outperforming its then-current benchmark index and Morningstar peer group; Sprott's assurance that there will not be any diminution in the nature, quality, and extent of services provided to the Fund following implementation of the New Agreements; Sprott's expectation that the Fund will be managed in substantially the same manner after implementation of the New Agreements as it has been under the Current Investment Advisory Agreement; Sprott's indication that it has no present intention to increase the investment advisory fee rate set forth in the current investment advisory agreement by and between the Fund and R&A (the Current Investment Advisory Agreement); That the Fund's portfolio is unlike that of any other Royce Fund; Mr. George's significant ownership stake in the Fund; Sprott's experience in managing pooled investment vehicles and accounts; and Sprott and R&A have agreed to pay all: (i) fees and expenses of the Fund in connection with the Board's consideration of the New Agreements and (ii) costs of seeking stockholder approval of the New Agreements and the new slate of Directors.

At the December 15-16, 2014 meeting, the Board and the Current Independent Directors, voting separately, determined that the New Agreements are in the best interests of the Fund in light of the services, personnel, expenses and such other matters as the Board considered to be relevant in the exercise of its reasonable business judgment and approved them for their initial terms.

To reach this determination, the Board considered its duties under the Investment Company Act of 1940 (the 1940 Act) as well as under the general principles of state law in reviewing and approving advisory contracts; the requirements of the 1940 Act in such matters; the fiduciary duty of investment advisers with respect to advisory agreements and the receipt of investment advisory compensation; the standards used by courts in determining whether investment company boards have fulfilled their duties; and the factors to be considered by the Board in voting on such agreements. To assist the Board in its evaluation of each of the New Agreements, the Current Independent Directors received materials in advance of the Board meeting from Sprott and R&A. The Directors also met with a senior executive of Sprott and Mr. George. The Current Independent Directors also met separately with their independent legal counsel to discuss the information provided by Sprott and R&A. The Board applied its business judgment to determine whether the arrangements by and among the Fund, Sprott Asset, and Sprott USA are reasonable business arrangements from the Fund's perspective as well as from the perspective of its stockholders.

The nature, extent, and, quality of services to be provided by Sprott Asset and Sprott USA.

The Board considered the following factors to be of fundamental importance to its consideration of whether to approve the New Agreements: (i) Mr. George's long tenure as the portfolio manager of the Fund; (ii) Mr. George's 33 years of value investing experience and related track record; (iii) Mr. George's focus on mid-cap, small-cap, and micro-cap value investing; (iv) background information on the qualifications and experience of Sprott senior management and the key professional personnel that are expected to provide services to the Fund; and (v) Sprott's experience in managing pooled investment vehicles and accounts and its related organizational capabilities.

Edgar Filing: ROYCE FOCUS TRUST INC - Form N-CSR

The Board found that the investment advisory services provided by R&A to the Fund under the Current Investment Advisory Agreement are substantially identical to the investment advisory services to be provided by Sprott to the Fund under the New Agreements. The Board also considered the fact that R&A provided, and Sprott is expected to provide, certain administrative services to the Fund at cost pursuant to the relevant administration agreement. The Board determined that the overall services to be provided to the Fund by Sprott would

Board Approval of Investment Advisory Agreements (continued)

be substantially identical to those previously provided to the Fund by R&A. As it had in its previous considerations of the renewal of the Current Investment Advisory Agreement in respect of R&A's management of the Fund, the Board concluded that the nature and quality of the services to be provided by Sprott to the Fund would be suitable for the Fund.

Investment performance.

The Fund, like other R&A managed funds, uses a risk-averse, value approach to investing. In light of that approach, the Board believes that risk-adjusted performance continues to be the most appropriate measure of the Fund's investment performance. One measure of risk-adjusted performance the Board has historically used in its review of the Fund's performance is the Sharpe Ratio. The Sharpe Ratio is a risk-adjusted measure of performance developed by Nobel Laureate William Sharpe. It is calculated by dividing a fund's annualized excess returns by its annualized standard deviation to determine reward per unit of risk. The higher the Sharpe Ratio, the better a fund's historical risk-adjusted performance. The Board attaches primary importance to risk-adjusted performance over relatively long periods of time, typically 3 to 10 years.

The Fund's use of preferred stock leverage from November 1997 to mid-November 2012, however, served to offset R&A's risk-averse, value approach by increasing return volatility (i.e., standard deviation). The Fund's recent over-weighting of metals and mining stocks, its focus on more cyclical quality stocks, and the greater proportion of yield-oriented securities (e.g., master limited partnerships, real estate investment trusts, and utilities) in the Russell 2500 Index, the Fund's current benchmark index, also adversely affected the Fund's absolute and relative investment performance. Using Morningstar data, the Board noted that the Fund's Sharpe Ratio placed in the fourth quartile in the Mid Cap Growth category assigned by Morningstar for the 3-year, 5-year, and 10-year periods ended December 31, 2013.

The Board also noted that the Fund's relative performance has improved significantly since short-term interest rates hit their lows on May 2, 2013. The Board further noted the Fund's annualized total returns for the 3-year, 5-year, and 10-year periods ended October 31, 2014 were 9.16%, 11.32%, and 8.34%, respectively while those of the Russell 2500 Index for those same periods were 19.03%, 18.40%, and 9.18%, respectively.

The Board noted that Mr. George has served as the Fund's portfolio manager since 2002 and that the Fund had enjoyed periods of significant investment outperformance relative to its then-current benchmark index and Morningstar peer group during his tenure. The Board further noted that the portfolio management strategy and methods used in managing the Fund are not expected to change as a result of implementation of the New Agreements. Finally, the Board noted that Mr. George had also served as a portfolio manager or assistant portfolio manager on a number of R&A managed funds that invest in micro-cap, small-cap, and mid-cap issuers.

Although the Board recognized that past performance is not necessarily an indicator of future results, it found that Mr. George, Sprott Asset, and Sprott USA had the necessary qualifications, experience and track record in managing micro-cap, small-cap, and mid-cap securities to manage the Fund. In light of the foregoing, the Directors determined that Sprott Asset was an appropriate investment adviser for the Fund and that Sprott USA was an appropriate investment subadviser for the Fund.

Cost of the services provided and profits realized by Sprott from its relationships with the Fund.

Because the engagement of Sprott Asset and Sprott USA for the provision of investment management services to the Fund is new, there was no related historical cost or profitability information for the Board to review in connection with its consideration of each of the New Agreements. As a result, this factor was generally not considered by the Board.

The extent to which economies of scale would be realized as the Fund grows and whether fee levels would reflect such economies of scale.

The Board noted that the investment advisory fee rate payable by the Fund would not change in connection with the transition of investment management services from R&A to Sprott. As it had in its previous considerations of the renewal of the Current Investment Advisory Agreement, the Board considered whether there have been economies of scale in respect of the management of the Fund, whether the Fund has appropriately benefited from any economies of scale and whether there is potential for realization of any further economies of scale. The Board again noted the time and effort involved in managing portfolios of micro-, small-, and mid-cap stocks and that they did not involve the same efficiencies as do portfolios of large-cap stocks. As it had in its

previous approvals of the renewal of the Current Investment Advisory Agreement, the Board concluded that the current fee structure for the Fund was reasonable, that stockholders sufficiently participated in economies of scale, and that no changes were currently necessary.

Comparison of services to be rendered and fees to be paid to those under other investment advisory contracts, such as contracts of the same and other investment advisers or other clients.

The Board noted that: (i) the rate of investment advisory compensation payable by the Fund to R&A under the Current Investment Advisory Agreement is the same as the rate of investment advisory compensation to be payable by the Fund to Sprott Asset under the New Investment Advisory Agreement; (ii) neither the Fund nor Sprott Asset will compensate Sprott USA for the services provided by Sprott USA under the New Investment Subadvisory Agreement; (iii) Sprott did not manage any pooled investment vehicles or accounts with an investment objective or investment strategy similar to those used to manage the Fund; and (iv) Sprott did not manage any investment companies registered under the 1940 Act.

As it had in its previous considerations of the renewal of the Current Investment Advisory Agreement, the Board compared the investment advisory fee payable by the Fund under the New Investment Advisory Agreement to contracts of other investment advisers to registered investment companies investing in micro-, small-, and mid-cap stocks, as provided by Morningstar. The Board noted that the Fund's investment advisory fee based on its average net asset level for the year ended December 31, 2013 fell within the 4th quartile (88th percentile) of its Morningstar-assigned open-end peer group. The Board also noted that the Fund's net expense ratio based on average net assets for the year ended December 31, 2013 fell within the 3rd quartile (69th percentile) of its Morningstar-assigned open-end peer group, 8 basis points above the Morningstar peer group median (1.09%). Finally, the Board noted that the Fund's net expense ratio based on average net assets for the 10-month period ended October 31, 2014 was 1.14%.

Conclusion

It was noted that no single factor was cited as determinative to the decision of the Directors. Rather, after weighing all of the considerations and conclusions discussed above, the entire Board, including all of the Current Independent Directors, approved the New Investment Advisory Agreement and the New Investment Subadvisory Agreement, concluding that having the Fund enter into the New Agreements was in the best interest of the stockholders of the Fund and that the investment advisory fee rate was reasonable in relation to the services provided.

Notes to Performance and Other Important Information

The thoughts expressed in this *Review and Report* concerning recent market movements and future prospects for small company stocks are solely the opinion of Royce at December 31, 2014, and, of course, historical market trends are not necessarily indicative of future market movements. Statements regarding the future prospects for particular securities held in the Fund's portfolio and Royce's investment intentions with respect to those securities reflect Royce's opinions as of December 31, 2014 and are subject to change at any time without notice. There can be no assurance that securities mentioned in this *Review and Report* will be included in any Royce-managed portfolio in the future. Investments in securities of micro-cap, small-cap and/or mid-cap companies may involve considerably more risk than investments in securities of larger-cap companies. All publicly released material information is disclosed by the Funds on the website at www.roycefunds.com.

Sector weightings are determined using the Global Industry Classification Standard (GICS). GICS was developed by, and is the exclusive property of, Standard & Poor's Financial Services LLC (S&P) and MSCI Inc. (MSCI). GICS is the trademark of S&P and MSCI. Global Industry Classification Standard (GICS) and GICS Direct are service marks of S&P and MSCI.

All indexes referred to are unmanaged and capitalization weighted. Each index's returns include net reinvested dividends and/or interest income. Russell Investment Group is the source and owner of the trademarks, service marks, and copyrights related to the Russell Indexes. Russell® is a trademark of Russell Investment Group. The Russell 2500 is an index of 2,500 smallest publicly traded U.S. companies in the Russell 3000 Index. The performance of an index does not represent exactly any particular investment, as you cannot invest directly in an index. Returns for the market indexes used in this report were based on information supplied to Royce by Russell Investments.

The Price-Earnings, or P/E, Ratio is calculated by dividing a company's share price by its trailing 12-month earnings-per share (EPS). The Price-to-Book, or P/B, Ratio is calculated by dividing a company's share price by its book value per share. The Morningstar Style Map uses proprietary scores of a stock's value and growth characteristics to determine its placement in one of the five categories listed on the horizontal axis. These characteristics are then compared to those of other stocks within the same market capitalization band. Each is scored from zero to 100 for both value and growth attributes. The value score is subtracted from the growth score to determine the overall style score. For the vertical, market cap axis, Morningstar subdivides into size groups. Giant-cap stocks are defined as those that account for the top 40% of the capitalization of each style zone; large-cap stocks represent the next 30%; mid-cap stocks the next 20%; small-cap stocks the next 7%; micro-cap stocks the smallest 3%. Forward-Looking Statements

This material contains forward-looking statements within the meaning of the Securities Exchange Act of 1934, as amended (the Exchange Act), that involve risks and uncertainties, including, among others, statements as to:

the Fund's future operating results, the prospects of the Fund's portfolio companies, the impact of investments that the Fund has made or may make, the dependence of the Fund's future success on the general economy and its impact on the companies and industries in which the Fund invests, and the ability of the Fund's portfolio companies to achieve their objectives.

This *Review and Report* uses words such as anticipates, believes, expects, future, intends, and similar expressions to identify forward-looking statements. Actual results may differ materially from those projected in the forward-looking statements for any reason.

The Fund has based the forward-looking statements included in this *Review and Report* on information available to us on the date of the report, and we assume no obligation to update any such forward-looking statements. Although the Fund undertakes no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise, you are advised to consult any additional disclosures that we may make through future stockholder communications or reports.

Authorized Share Transactions

Royce Focus Trust is authorized to offer its common stockholders an opportunity to subscribe for additional shares of its common stock through rights offerings at a price per share that may be less than the share's then current net asset value. The timing and terms of any such offerings are within the Board's discretion.

Annual Certifications

As required, the Fund has submitted to the Nasdaq for Royce Focus Trust, the annual certification of the Fund's Chief Executive Officer that he is not aware of any violation of the Nasdaq's Corporate Governance listing standards. The Fund also has included the certification of the Fund's Chief Executive Officer and Chief Financial Officer required by section 302 of the Sarbanes-Oxley Act of 2002 as exhibits to the Fund form N-CSR for the period ended December 31, 2014, filed with the Securities and Exchange Commission.

Proxy Voting

A copy of the policies and procedures that The Royce Funds use to determine how to vote proxies relating to portfolio securities and information regarding how each of The Royce Funds voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available, without charge, on The Royce Funds' website at www.roycefunds.com, by calling (800) 221-4268 (toll-free) and on the website of the Securities and Exchange Commission (SEC), at www.sec.gov.

Form N-Q Filing

The Fund files its complete schedule of investments with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Fund's Form N-Q is available on the SEC's website at www.sec.gov. The Fund's holdings are also on the Fund's website approximately 15 to 20 days after each calendar quarter end and remain available until the next quarter's holdings are posted. The Fund's Form N-Q may also be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. To find out more about this public service, call the SEC at (800) 732-0330. The Fund's complete schedule of investments is updated quarterly, and is available at www.roycefunds.com.

About The Royce Funds [Contact Us](#)

Wealth of Experience

With approximately \$32 billion in total assets under management, Royce & Associates is committed to the same investment principles that have served us well for more than 40 years. Chuck Royce, our Chief Executive Officer, enjoys one of the longest tenures of any active mutual fund manager. Royce's investment staff also includes 24 portfolio managers and analysts and nine traders.

GENERAL INFORMATION

Consistent Discipline

Our approach emphasizes paying close attention to risk and maintaining the same discipline, regardless of market movements and trends. The price we pay for a security must be below our appraisal of its current worth. This requires a thorough analysis of the financial and business dynamics of an enterprise, as though we were purchasing the entire company.

Co-Ownership of Funds

It is important that our employees and shareholders share a common financial goal. Our officers, employees, and their families currently have more than \$185 million invested in The Royce Funds and are often among the largest individual shareholders.

roycefunds.com

Item 2. Code(s) of Ethics. As of the end of the period covered by this report, the Registrant had adopted a code of ethics, as defined in Item 2 of Form N-CSR, applicable to its principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. A copy of this code of ethics is filed as an exhibit to this Form N-CSR. No substantive amendments were approved or waivers were granted to this code of ethics during the period covered by this report.

Item 3. Audit Committee Financial Expert.

(a)(1) The Board of Directors of the Registrant has determined that it has an audit committee financial expert. (a)(2) Arthur S. Mehlman and Patricia W. Chadwick were designated by the Board of Directors as the Registrant's Audit Committee Financial Experts, effective April 15, 2004 and April 8, 2010, respectively. Mr. Mehlman and Ms. Chadwick are independent as defined under Item 3 of Form N-CSR.

Item 4. Principal Accountant Fees and Services.

(a) Audit Fees: Year ended December 31, 2014 - \$30,000 Year ended December 31, 2013 - \$29,000 (b) Audit-Related Fees: Year ended December 31, 2014 - \$0 Year ended December 31, 2013 - \$0 (c) Tax Fees: Year ended December 31, 2014 - \$7,200 - Preparation of tax returns Year ended December 31, 2013 - \$7,100 - Preparation of tax returns (d) All Other Fees: Year ended December 31, 2014 - \$0 Year ended December 31, 2013 - \$0

(e)(1) Annual Pre-Approval: On an annual basis, the Registrant's independent auditor submits to the Audit Committee a schedule of proposed audit, audit-related, tax and other non-audit services to be rendered to the Registrant and/or investment adviser(s) for the following year that require pre-approval by the Audit Committee. This schedule provides a description of each type of service that is expected to require pre-approval and the maximum fees that can be paid for each such service without further Audit Committee approval. The Audit Committee then reviews and determines whether to approve the types of scheduled services and the projected fees for them. Any subsequent revision to already pre-approved services or fees (including fee increases) are presented for consideration at the next regularly scheduled Audit Committee meeting, as needed.

If subsequent to the annual pre-approval of services and fees by the Audit Committee, the Registrant or one of its affiliates determines that it would like to engage the Registrant's independent auditor to perform a service not already pre-approved, the request is to be submitted to the Registrant's Chief Financial Officer, and if he or she determines that the service fits within the independence guidelines (e.g., it is not a prohibited service), he or she will then arrange for a discussion of the proposed service and fee to be included on the agenda for the next regularly scheduled Audit Committee meeting so that pre-approval can be considered.

Interim Pre-Approval: If, in the judgment of the Registrant's Chief Financial Officer, a proposed engagement needs to commence before the next regularly scheduled Audit Committee meeting, he or she shall submit a written summary of the proposed engagement to all members of the Audit Committee, outlining the services, the estimated maximum cost, the category of the services (e.g., audit, audit-related, tax or other) and the rationale for engaging the Registrant's independent auditor to perform the services. To the extent the proposed engagement involves audit, audit-related or tax services, any individual member of the Audit Committee who is an independent Board member is authorized to pre-approve the engagement. To the extent the proposed engagement involves non-audit services other than audit-related or tax, the Chairman of the Audit Committee is authorized to

pre-approve the engagement. The Registrant's Chief Financial Officer will arrange for this interim review and coordinate with the appropriate member(s) of the Committee. The independent auditor may not commence the engagement under consideration until the Registrant's Chief Financial Officer has informed the auditor in writing that pre-approval has been obtained from the Audit Committee or an individual member who is an independent Board member. The member of the Audit Committee who pre-approves any engagements in between regularly scheduled Audit Committee meetings is to report, for informational purposes only, any pre-approval decisions to the Audit Committee at its next regularly scheduled meeting.

(e)(2) Not Applicable (f) Not Applicable (g) Year ended December 31, 2014 - \$7,200 Year ended December 31, 2013 - \$7,100
(h) No such services were rendered during 2014 or 2013.

Item 5. Audit Committee of Listed Registrants. The Registrant has a separately designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. Patricia W. Chadwick, Richard M. Galkin, Stephen L. Isaacs, Arthur S. Mehlman, David L. Meister, and G. Peter O'Brien are members of the Registrant's audit committee.

Item 6. Investments.

(a) See Item 1.
(b) Not applicable.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

June 5, 2003, as amended through October 22, 2009

Royce & Associates Proxy Voting Guidelines and Procedures

These procedures apply to Royce & Associates, LLC (Royce) and all funds and other client accounts for which it is responsible for voting proxies, including all open and closed-end registered investment companies (The Royce Funds), limited partnerships, limited liability companies, separate accounts, other accounts for which it acts as investment adviser and any accounts for which it acts as sub-adviser that have delegated proxy voting authority to Royce. Such authority is determined at the inception of each client account and generally: (i) is specifically authorized in the applicable investment management agreement or other written instrument or (ii) where not specifically authorized, is granted to Royce where general investment discretion is given to it in the applicable investment management agreement. The Boards of Trustees/Directors of The Royce Funds (the Boards) have delegated all proxy voting decisions to Royce subject to these policies and procedures. Notwithstanding the above, from time to time the Boards may reserve voting authority for specific securities.

Receipt of Proxy Material. Under the continuous oversight of the Head of Administration, an Administrative Assistant designated by him is responsible for monitoring receipt of all proxies and ensuring that proxies are received for all securities for which Royce has proxy voting responsibility. All proxy materials are logged in upon receipt by Royce's Librarian.

Voting of Proxies. Once proxy material has been logged in by Royce's Librarian, it is then promptly reviewed by the designated Administrative Assistant to evaluate the issues presented. Regularly recurring matters are usually voted as recommended by the issuer's board of directors or management. The Head of Administration or his designee, in consultation with the Chief Investment Officer, develops and updates a list of matters Royce treats as regularly recurring and is responsible for ensuring that the designated Administrative Assistant has an up-to-date

list of these matters at all times, including instructions from Royce's Chief Investment Officer on how to vote on those matters on behalf of Royce clients. Examples of regularly recurring matters include non-contested elections of directors and non-contested approval of independent auditors. Non-regularly recurring matters are brought to the attention of the portfolio manager(s) for the account(s) involved by the designated Administrative Assistant, and, after giving some consideration to advisories from Glass Lewis & Co., an independent third party research firm, the portfolio manager directs that such matters be voted in a way that he or she believes should better protect or enhance the value of the investment. If the portfolio manager determines that information concerning any proxy requires analysis, is missing or incomplete, he or she then gives the proxy to an analyst or another portfolio manager for review and analysis.

a.

From time to time, it is possible that one Royce portfolio manager will decide (i) to vote shares held in client accounts he or she manages differently from the vote of another Royce portfolio manager whose client accounts hold the same security or (ii) to abstain from voting on behalf of client accounts he or she manages when another Royce portfolio manager is casting votes on behalf of other Royce client accounts.

The designated Administrative Assistant reviews all proxy votes collected from Royce's portfolio managers prior to such votes being cast. If any difference exists among the voting instructions given by Royce's portfolio managers, as described above, the designated Administrative Assistant then presents these proposed votes to the Head of Administration, or his designee, and the Chief Investment Officer. The Chief Investment Officer, after consulting with the relevant portfolio managers, either reconciles the votes or authorizes the casting of differing votes by different portfolio managers. The Head of Administration, or his designee, maintains a log of all votes for which different portfolio managers have cast differing votes, that describes the rationale for allowing such differing votes and contains the initials of both the Chief Investment Officer and Head of Administration, or his designee, allowing such differing votes. The Head of Administration, or his designee, performs a weekly review of all votes cast by Royce to confirm that any conflicting votes were properly handled in accordance with the above-described procedures.

b.

There are many circumstances that might cause Royce to vote against an issuer's board of directors or management proposal. These would include, among others, excessive compensation, unusual management stock options, preferential voting and poison pills. The portfolio managers decide these issues on a case-by-case basis as described above.

c.

A portfolio manager may, on occasion, determine to abstain from voting a proxy or a specific proxy item when he or she concludes that the potential benefit of voting is outweighed by the cost, when it is not in the client account's best interest to vote.

d.

When a client has authorized Royce to vote proxies on its behalf, Royce will generally not accept instructions from the clients regarding how to vote proxies.

e.

If a security is on loan under The Royce Funds' Securities Lending Program with State Street Bank and Trust Company (Loaned Securities), the Head of Administration, or his designee, will recall the Loaned Securities and request that they be delivered within the customary settlement period after the notice, to permit the exercise of their voting rights if the number of shares of the security on loan would have a material effect on The Royce Funds' voting power at the up-coming stockholder meeting. A material effect is defined as any case where the Loaned Securities are 1% or more of a class of a company's outstanding equity securities. Monthly, the Head of Administration or his designee will review the summary of this activity by State Street. A quarterly report detailing any exceptions that occur in recalling Loaned Securities will be given to the Boards.

Custodian banks are authorized to release all proxy ballots held for Royce client account portfolios to Glass Lewis & Co. for voting, utilizing the Viewpoint proxy voting platform. Substantially all portfolio companies utilize Broadridge to collect their proxy votes.

Edgar Filing: ROYCE FOCUS TRUST INC - Form N-CSR

Under the continuous oversight of the Head of Administration, or his designee, the designated Administrative Assistant is responsible for voting all proxies in a timely manner. Votes are returned to Broadridge using Viewpoint as ballots are received, generally two weeks before the scheduled meeting date. The issuer can thus see that the shares were voted, but the actual vote cast is not released to the company until 4:00 pm on the day before the meeting. If proxies must be mailed, they go out at least ten business days before the meeting date.

Conflicts of Interest. The designated Administrative Assistant reviews reports generated by Royce's portfolio management system (Quest PMS) that set forth by record date, any security held in a Royce client account which is issued by a (i) public company that is, or a known affiliate of which is, a separate account client of Royce (including sub-advisory relationships), (ii) public company, or a known affiliate of a public company, that has invested in a privately-offered pooled vehicle managed by Royce or (iii) public company, or a known affiliate of a public company, by which the spouse of a Royce employee or an immediate family member of a Royce employee living in the household of such employee is employed, for the purpose of identifying any potential proxy votes that could present a conflict of interest for Royce. The Head of Administration, or his designee, develops and updates the list of such public companies or their known affiliates which is used by Quest PMS to generate these daily reports. This list also contains information regarding the source of any potential conflict relating to such companies. Potential conflicts identified on the conflicts reports are brought to the attention of the Head of Administration or his designee by the designated Administrative Assistant. An R&A Compliance Officer then reviews them to determine if business or personal relationships exist between Royce, its officers, managers or employees and the company that could present a material conflict of interest. Any such identified material conflicts are voted by Royce in accordance with the recommendation given by an independent third party research firm (Glass Lewis & Co.). The Head of Administration or his designee maintains a log of all such conflicts identified, the analysis of the conflict and the vote ultimately cast. Each entry in this log is signed by the Chief Investment Officer before the relevant votes are cast.

Recordkeeping. A record of the issues and how they are voted is stored in the Viewpoint system. Copies of all physically executed proxy cards, all proxy statements (with it being permissible to rely on proxy statements filed and available on Edgar) and any other documents created or reviewed that are material to making a decision on how to vote proxies are retained in the Company File maintained by Royce's Librarian in an easily accessible place for a period of not less than six years from the end of the fiscal year during which the last entry was made on such record, the first two years at Royce's office. In addition, copies of each written client request for information on how Royce voted proxies on behalf of that client, and a copy of any written response by Royce to any (written or oral) client request for information on how Royce voted proxies on behalf of that client will be maintained by Royce's Head of Administration and/or Royce's Director of Alternative Investments, or their designee (depending on who received such request) for a period of not less than six years from the end of the fiscal year during which the last entry was made on such record, the first two years at Royce's office. Royce's Compliance Department shall maintain a copy of any proxy voting policies and procedures in effect at any time within the last five years.

Disclosure. Royce's proxy voting procedures will be disclosed to clients upon commencement of a client account. Thereafter, proxy voting records and procedures are generally disclosed to those clients for which Royce has authority to vote proxies as set forth below:

Edgar Filing: ROYCE FOCUS TRUST INC - Form N-CSR

- The Royce Funds proxy voting records are disclosed annually on Form N-PX (with such voting records also available at www.roycefunds.com). Proxy voting procedures are available in the Statement of Additional Information for the open-end funds, in the annual report on Form N-CSR for the closed-end funds and at www.roycefunds.com. - Limited Liability Company and Limited Partnership Accounts proxy voting records are disclosed to members/partners upon request and proxy voting procedures (along with a summary thereof) are provided to members/partners annually (and are available at www.roycefunds.com). - Separate Accounts proxy voting records and procedures are disclosed to separate account clients annually.

*Other accounts include all other accounts managed by the Portfolio Manager in either a professional or personal capacity except for personal accounts subject to pre-approval and reporting requirements under the Registrant's Rule 17j-1 Code of Ethics.

Conflicts of Interest

The fact that the Portfolio Manager has day-to-day management responsibility for more than one client account may create actual, potential or only apparent conflicts of interest. For example, the Portfolio Manager may have an opportunity to purchase securities of limited availability. In this circumstance, the Portfolio Manager is expected to review each account's investment guidelines, restrictions, tax considerations, cash balances, liquidity needs and other factors to determine the suitability of the investment for each account and to ensure that his managed accounts are treated equitably. The Portfolio Manager may also decide to purchase or sell the same security for multiple managed accounts at approximately the same time. To address any conflicts that this situation may create, the Portfolio Manager will generally combine managed account orders (i.e., enter a bunched order) in an effort to obtain best execution or a more favorable commission rate. In addition, if orders to buy or sell a security for multiple accounts managed by common Portfolio Managers on the same day are executed at different prices or commission rates, the transactions will generally be allocated by Royce & Associates, LLC (Royce) to each of such managed accounts at the weighted average execution price and commission. In circumstances where a pre-allocated bunched order is not completely filled, each account will normally receive a pro-rated portion of the securities based upon the account's level of participation in the order. Royce may under certain

Edgar Filing: ROYCE FOCUS TRUST INC - Form N-CSR

circumstances allocate securities in a manner other than pro-rata if it determines that the allocation is fair and equitable under the circumstances and does not discriminate against any account.

As described below, there is a revenue-based component of the Portfolio Manager's Performance-Related Variable Compensation and the Portfolio Manager also receives Firm-Related Variable Compensation based on revenues (adjusted for certain imputed expenses) generated by Royce. In addition, the Portfolio Manager receives variable compensation based on Royce's retained pre-tax profits from operations. As a result, the Portfolio Manager may receive a greater relative benefit from activities that increase the value to Royce of The Royce Funds and/or other Royce client accounts, including, but not limited to, increases in sales of the Registrant's shares and assets under management.

Also, as described above, the Portfolio Manager manages more than one client account, including, among others, registered investment company accounts, separate accounts and private pooled accounts managed on behalf of institutions (e.g., pension funds, endowments and foundations) and for high-net-worth individuals. The appearance of a conflict of interest may arise where Royce has an incentive, such as a performance-based management fee (or any other variation in the level of fees payable by The Royce Funds or other Royce client

accounts to Royce), which relates to the management of one or more of The Royce Funds or accounts with respect to which the Portfolio Manager has day-to-day management responsibilities. None of the registered investment company accounts for which the Portfolio Manager serves as a portfolio manager pay a performance-based fee to Royce.

Finally, conflicts of interest may arise when the Portfolio Manager personally buys, holds or sells securities held or to be purchased or sold for the Registrant or other Royce client account or personally buys, holds or sells the shares of one or more of The Royce Funds. To address this, Royce has adopted a written Code of Ethics designed to prevent and detect personal trading activities that may interfere or conflict with client interests (including Registrant's stockholders' interests). Royce generally does not permit its Portfolio Managers to purchase small- or micro-cap securities in their personal investment portfolios.

Royce and The Royce Funds have adopted certain compliance procedures which are designed to address the above-described types of conflicts. However, there is no guarantee that such procedures will detect each and every situation in which a conflict arises.

(a)(3) Description of Portfolio Manager Compensation Structure (information as of December 31, 2014)

Royce seeks to maintain a compensation program that is competitively positioned to attract and retain high-caliber investment professionals. The Portfolio Manager receives from Royce a base salary, Performance-Related Variable Compensation, Firm-Related Variable Compensation based primarily on registered investment company and other client account revenues generated by Royce and a benefits package. Portfolio Manager compensation is reviewed and may be modified from time to time as appropriate to reflect changes in the market, as well as to adjust the factors used to determine variable compensation. Except as described below, the Portfolio Manager's compensation consists of the following elements:

- **BASE SALARY.** The Portfolio Manager is paid a base salary. In setting the base salary, Royce seeks to be competitive in light of the Portfolio Manager's experience and responsibilities.

- **PERFORMANCE-RELATED VARIABLE COMPENSATION.** The Portfolio Manager receives quarterly Performance-Related Variable Compensation that is either asset-based, or revenue-based and therefore in part based on the value of the net assets of the account for which he is being compensated, determined with reference to each of the registered investment company and other client accounts he is managing. The Performance-Related Variable Compensation applicable to the registered investment company accounts managed by the Portfolio Manager is subject to downward adjustment or elimination based on a combination of 3-year, 5-year and 10-year risk-adjusted pre-tax returns of such accounts relative to all small-cap objective funds with three years of history tracked by Morningstar (as of December 31, 2014 there were 395 such Funds tracked by Morningstar), the 5-year absolute returns of such accounts relative to 5-year U.S. Treasury Notes and absolute returns over the prior full market cycle and current cycle to date vs. the accounts' benchmark. The Performance-Related Variable Compensation applicable to non-registered investment company accounts managed by the Portfolio Manager is not subject to performance-related adjustment.

Payment of the Performance-Related Variable Compensation may be deferred, and any amounts deferred are forfeitable, if the Portfolio Manager is terminated by Royce with or without cause or resigns. The amount of the deferred Performance-Related Variable Compensation will appreciate or depreciate during the deferral period, based on the total return performance of one or more Royce-managed registered investment company accounts selected by the Portfolio Manager at the beginning of the deferral period. The amount deferred will depend on the Portfolio Manager's total direct, indirect beneficial and deferred unvested investments in the Royce registered investment company account for which he or she is receiving portfolio management compensation.

Edgar Filing: ROYCE FOCUS TRUST INC - Form N-CSR

- FIRM-RELATED VARIABLE COMPENSATION. The Portfolio Manager receives quarterly variable compensation based on Royce's net revenues. - BENEFIT PACKAGE. The Portfolio Manager also receives benefits standard for all Royce employees, including health care and other insurance benefits, and participation in Royce's 401(k) Plan and Money

Purchase Pension Plan. From time to time, on a purely discretionary basis, the Portfolio Manager may also receive options to acquire stock in Royce's parent company, Legg Mason, Inc. Those options typically represent a relatively small portion of the Portfolio Manager's overall compensation.

The Portfolio Manager, in addition to the above-described compensation, also receives variable compensation based on Royce's retained pre-tax operating profit. This variable compensation, along with the Performance-Related Variable Compensation and Firm-Related Variable Compensation, generally represents the most significant element of the Portfolio Manager's compensation.

(a)(4) Dollar Range of Equity Securities in Registrant Beneficially Owned by Portfolio Manager (information as of December 31, 2014)
