**Item 2.05 Costs Associated with Exit or Disposal Activities**

On November 15, 2005, Avon Products, Inc. (the "Company") issued a press release announcing its multi-year restructuring initiatives, which are expected to include: (i) enhancement of organizational effectiveness, including efforts to flatten the organization and bring senior management closer to consumers through a substantial organization downsizing; (ii) implementation of a global manufacturing strategy through facilities realignment; (iii) additional supply chain efficiencies in the areas of procurement and distribution; and (iv) streamlining of transactional and other services through outsourcing and moves to low-cost countries. The Company expects to incur costs to implement these initiatives over the next several years, with a significant portion of the total costs to be incurred during 2006. Costs are expected to total \$300 to \$500 million before taxes, and the Company projects that initial pre-tax costs of \$20 to \$40 million could be incurred in the fourth quarter 2005.

The Company's analysis is preliminary and therefore is subject to change. The Company plans to announce further details as initiatives are finalized. At this time, the Company is not able in good faith to make a determination of the estimated amount or range of amounts to be incurred for each major type of cost nor the charges and future cash expenditures associated therewith. The Company will file an amendment to this report after it makes a determination of such amounts.
