2. Company name: Advanced Semiconductor Engineering, Inc.

3. Relationship to the Company (please enter "head office" or "affiliate company"): Head office

4. Reciprocal shareholding ratios: NA

5. Name of the reporting media: Radio Taiwan International Electronic paper

6. Content of the report: ASE Group advertised its denial of the wastewater pollution and is condemned by 50 international organizations

7. Cause of occurrence: The disposal of contaminated wastewater from the ASE Group's (the Company) Kaohsiung K7 plant on October 1 was an isolated incident and all measures to rectify the situation have been completed. The Company has set up a centralized wastewater control room in K7 plant and installed additional comprehensive sensors to monitor in real-time the levels of copper ion and nickel ion in the effluent tank and the pH levels in all the wastewater tanks. In addition, an instant alert system and electronic billboard have been in place in the public area of K7 plant to disclose all the monitored data. The 20,000-ton wastewater recycling system is under construction now, and will start to operate in the middle of this year. The Company submitted a formal plan for operation resumption on December 26, and will respect the authorities' decision on whether and when the operation can be resumed.
