The Board held five meetings during 2002. Each director attended at least 75% of the meetings of the Board and the committees on which they served. The Board has an audit committee, a compensation committee, and a nominating and corporate governance committee. Each committee is composed entirely of directors who are independent as that term is defined in the Nasdaq listing standards and Section 301 of the Sarbanes Oxley Act of 2002. Pursuant to the Company's Corporate Governance Guidelines, each meeting of the Board and committees of the Board includes a session of the directors without the attendance of any officer of the Company. The non-management director sessions of the Board meetings are presided over by the Company's Lead Director, Mr. Momsen. Stockholders and employees who wish to communicate directly with the Company's independent directors may address their letters to the Lead Director, c/o Robert D. Brownell, Secretary, TheraSense, Inc., 1360 South Loop Road, Alameda, CA 94502. The Board no longer has a stock option committee and the stock option committee took no actions in 2002 prior to its termination in August.

The audit committee, which consists of Messrs. Dammeyer (Chairman) and Thompson and Dr. Jaffe, held five meetings during 2002. The audit committee reviews and monitors the Company's consolidated financial statements and assists the Board in fulfilling its responsibility for oversight of the accounting, internal control, auditing and financial reporting practices of the Company. In addition, the Audit Committee makes recommendations to the Board regarding the selection of independent accountants, consults with, and reviews the audit services provided by the Company's independent accountants and preapproves the non-audit services provided by the Company's independent accountants. The audit committee operates pursuant to a written charter that has been approved and adopted by the Board. A copy of the charter is included as Appendix A to this Proxy Statement.

The compensation committee, which consists of Dr. Jaffe (Chairman) and Mr. Momsen, held one meeting and acted three times by unanimous written consent during 2002. The compensation committee reviews and approves the compensation and benefits of our executive officers, reviews the compensation policy for directors and reviews the general compensation guidelines and goals for the Company's employees. The compensation committee operates pursuant to a written charter that has been approved and adopted by the Board.

The nominating and corporate governance committee, which consists of Mr. Momsen (Chairman) and Mr. Gainor, held one meeting during 2002. The nominating and corporate governance committee identifies and recommends individuals for membership on the Board and service on committees of the Board. The nominating and corporate governance committee operates pursuant to a written charter that has been approved and adopted by the Board. The nominating and corporate governance committee will consider for nomination to the Board candidates suggested by the stockholders, provided that such recommendations are delivered to the Company in accordance with Section 2.2 of the Company's amended and restated bylaws and not later than the deadline for submission of stockholder proposals. Compensation of Directors

Non-employee directors are reimbursed for their expenses incurred in connection with attending Board and committee meetings. Directors did not receive any cash compensation for services provided in that capacity in the last fiscal year. Beginning in 2003, each non-employee director will receive \$30,000 per year payable quarterly and each non-employee director who is a committee chairman will receive an additional \$5,000 per year payable quarterly.

The Board has discretion to grant options to non-employee directors from time to time under the Company's 2001 Stock Plan, but the Board has never exercised that right. Each non-employee director who joins the Board will receive a non-discretionary, automatic grant of options to purchase 30,000 shares of our Common Stock upon joining the Board. In addition, each of our non-employee directors will receive yearly non-discretionary automatic grants of options to purchase 5,000 shares of our common stock, pursuant to our 2001 Stock Plan. If Dr. Lord is elected during the 2003 Annual Meeting, the Board will grant him a non-discretionary option to purchase 30,000 shares of Common Stock at a per share price equal to the closing sales price of the Company's Common Stock as reported on the Nasdaq National Market on May 8, 2003 in connection with Dr. Lord becoming a member of the Board. The shares under this option vest ratably on a yearly basis over three years, subject to continued service as a member of the Board. At the conclusion of the 2003 Annual Meeting, Messrs. Dammeyer, McNamara, Momsen and Thompson and Dr. Jaffe will be granted non-discretionary options to purchase 5,000 shares of Common Stock at a per share price equal to the closing sales price of the Company's Common Stock as reported on the Nasdaq National Market on May 8, 2003 in connection with their continued service as members of the Board. The shares under these options vest on the one-year anniversary of the date of grant, subject to continued service as a member of the Board.

PROPOSAL NO. 2

RATIFICATION OF APPOINTMENT OF INDEPENDENT ACCOUNTANTS

General

The audit committee has selected the firm of PricewaterhouseCoopers LLP as the Company's independent accountants to audit the consolidated financial statements of the Company for the fiscal year ending December 31, 2003, and recommends that stockholders vote for ratification of this appointment. PricewaterhouseCoopers LLP has audited the Company's consolidated financial statements since inception in 1997. Representatives of PricewaterhouseCoopers LLP are expected to be present at the meeting and are expected to be available to respond to appropriate questions.

Stockholder ratification of the selection of PricewaterhouseCoopers LLP as the Company's independent accountants is not required by the Company's amended and restated bylaws or otherwise. However, the Board is submitting the selection of PricewaterhouseCoopers LLP to the stockholders for ratification as a matter of good corporate practice. If the stockholders fail to ratify the selection, the audit committee will reconsider whether or not to retain that firm. Even if the selection is ratified, the audit committee in its discretion may direct the appointment of different independent accountants at any time during the year if it determines that such change would be in the best interests of the Company and its stockholders.

Required Vote

The affirmative vote of holders of a majority of the Common Stock represented and voting at the Annual Meeting is required for the ratification of the appointment of PricewaterhouseCoopers LLP as the Company's independent accountants for the fiscal year ending December 31, 2003.

Recommendation of the Board:

THE BOARD RECOMMENDS A VOTE *FOR* RATIFICATION OF THE APPOINTMENT OF PRICEWATERHOUSECOOPERS LLP AS THE COMPANY'S INDEPENDENT ACCOUNTANTS FOR THE FISCAL YEAR ENDING DECEMBER 31, 2003.

The Company's management is responsible for preparing the Company's consolidated financial statements and the independent auditors are responsible for auditing those financial statements. The information contained in this report shall not be deemed to be soliciting material or to be filed with the Securities and Exchange Commission, nor shall such information be incorporated by reference into any future filing under the Securities Act of 1933, as amended, or the 1934 Securities Exchange Act, as amended, except to the extent that the Company specifically incorporates such information by reference in such filing.

The audit committee reviewed and discussed the Company's audited consolidated financial statements for the fiscal year ended December 31, 2002 with the Company's management. Code of Business Conduct and Ethics

In accordance with Section 406 of the Sarbanes-Oxley Act of 2002, the Company has adopted a Code of Business Conduct and Ethics. The Code of Business Conduct and Ethics was adopted by the Company's Board of Directors in February 2003 and is applicable to all of the Company's employees. The Code of Business Conduct and Ethics summarizes standards of conduct that are intended to guide the conduct of each Company employee. Covered categories of conduct include conflicts of interest relating to employment, business activities and related-party relationships, corporate opportunities, records management, quality of public disclosures, protection and proper use of Company assets, fair dealing, industrial espionage, gifts and payments, compliance with laws and reporting of violations of and accountability for adherence to the Code of Business Conduct and Ethics.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The compensation committee of the Board currently consists of Dr. Jaffe (Chairman) and Mr. Momsen, both of whom are independent as that term is defined in the Nasdaq listing standards and Section 301 of the Sarbanes Oxley Act of 2002. The compensation committee reviews and recommends to the Board the compensation and benefits of all executive officers and Board members of the Company and establishes and reviews general policies relating to compensation and benefits of employees of the Company. The following is the report of the compensation committee describing compensation policies and reasons therefore applicable to the Company's executive officers with respect to the compensation paid to such executive officers for the fiscal year ended December 31, 2002. The information contained in this report shall not be deemed to be soliciting material or to be filed with the Securities and Exchange Commission, nor shall such information be incorporated by reference into any future filing under the Securities Act of 1933, as amended, or the 1934 Securities Exchange Act, as amended, except to the extent that the Company specifically incorporates such information by reference in such filing.

Compensation Philosophy and Review

The Company's executive compensation program is designed to align the interests of executives with the interests of stockholders and to reward executives for achieving corporate and individual objectives. The executive compensation program is also designed to attract and retain the services of qualified executives in the highly competitive medical device industry. Executive compensation currently consists of a base salary, long-term equity incentives, annual incentive plans and other compensation and benefit programs generally available to other employees.

The compensation committee has considered the potential impact of Section 162(m) of the Internal Revenue Code on the compensation paid to the Company's executive officers. Section 162(m) disallows a tax deduction for any publicly-held corporation for individual compensation exceeding \$1.0 million in any taxable year for any of the executive officers, unless compensation is performance-based. In general, it is the compensation committee's policy to qualify, to the maximum extent possible, its executives' compensation for deductibility under applicable tax laws.

Base Salaries

Base salary levels for the Chief Executive Officer and other executive officers are intended to compensate executives competitively within the medical device industry. Base salaries are determined on an individual basis by evaluating each executive's scope of responsibility, past performance, prior experience and data on prevailing compensation levels in relevant markets for executive talent. The compensation committee reviews base salaries for executives annually.

Long-Term Equity Incentives

The Company provides long-term equity incentives to its executive officers and to all other employees through the grant of stock options under its stock option plans. The purpose of granting stock options is to create a direct link between compensation and the long-term performance of the Company. Stock options are generally granted at an exercise price equal to 100% of the fair market on the date of grant and have a ten-year term provided that the optionee is still employed by the Company. For the initial stock option grant to an executive officer, the stock option generally vests 25% after the first year of employment with the Company and monthly thereafter for the following 36 months. For subsequent stock option grants to an executive officer, the stock option generally vests in installments over 48 months from the date of grant. Because the

Edgar Filing: THERASENSE INC - Form DEF 14A

receipt of value by an executive officer under a stock option is dependent upon an increase in the price of the Company's Common Stock, this portion of the executive's compensation is directly aligned with an increase in stockholder value. The primary stock options granted to executive officers are generally in conjunction with the executive officer's acceptance of employment with the Company. When determining the number of stock options to be awarded to an executive officer, the compensation committee considers the executive's current contribution to the

Company's performance, the executive officer's anticipated contribution in meeting the Company's long-term strategic performance goals, and comparisons to formal and informal surveys of executive stock option grants made by other medical device and technology companies. The compensation committee also reviews stock option levels upon the promotion of employees to the executive officer level.

Annual Incentive Plans

The Company provides for annual cash bonuses and annual grants of long-term equity incentives. These annual incentives are available to executive officers and all other employees, and are intended to provide a direct link between employee compensation and the achievement of corporate and individual objectives. An additional objective of the annual incentives is to make significant distinctions between the Company's top performers and others. Each individual's target bonus for cash and stock is based on a percentage of base salary and initial stock option grant, respectively. At the beginning of each year the Company sets certain corporate goals including financial performance goals. In addition, each employee has individual goals to support the achievement of the corporate goals. At the end of the year, performance of the Company against the corporate goals is assessed and this determines the total available cash and stock option pools, if any. Individual bonuses from these two pools are determined based on the achievement of individual goals and any additional contributions toward achieving the corporate goals. Assuming the Company meets its objectives: top performers can receive amounts in excess of their target bonus; average performers may receive less than their target bonus; and some employees may not receive a bonus. At the end of 2002 the compensation committee assessed the Company's performance against its goals for the year and recommended to the full Board the distribution of 25% of the targeted cash and stock option pools. The Board authorized this distribution and in February 2003 the Chief Executive Officer was granted a 27,750 share stock option and a \$43,700 cash bonus. The other Named Executive Officers received cash bonuses in the total amount of \$74,000 and stock options exercisable for a total of 49,500 shares. These options vest monthly over 48 months from January 1, 2003.

Other Compensation

The Company's executive officers are also eligible to participate in compensation and benefit programs generally available to other employees, including the Company's Employee Stock Purchase Plan. Mr. Lortz has a life insurance policy, the beneficiary of which is of his choosing. The Company pays Mr. Lortz's life insurance premium on his behalf. In addition, from time to time, executive officers have received sign-on bonuses or other bonuses based on extraordinary effort.

Compensation for Chief Executive Officer

W. Mark Lortz is President, Chief Executive Officer and Chairman of the Board. The compensation committee reviews Mr. Lortz's compensation annually using the same criteria and policies as are employed for other executive officers. Mr. Lortz received an increase in base salary from \$265,465 for 2001 to \$350,000 for 2002. The compensation committee based this increase on a variety of factors including the increasing scope and responsibility of the Chief Executive Officer's position, and comparisons of chief executive officer compensation levels for companies of similar size and maturity. In January 2003 Mr. Lortz received an increase in base salary to \$367,000 for 2003 in recognition of the Company's continued strong performance under his leadership. As described above, Mr. Lortz received a cash bonus of \$43,700 and a stock option for 27,750 shares, in recognition of his contributions in leading the Company to its achievements in the 2002 fiscal year, including launch of the FreeStyle Tracker diabetes management system, commencing pivotal clinical trials for the Company's continuous glucose monitoring product and a significant increase in sales of the FreeStyle blood glucose monitoring system.
