Item 2. Management's Discussion and Results or Plan of Operation.

General

The Company operates several Internet web sites in three segments: Business to Business; Business to Consumers and Technology. The Company's goal is to bring buyers and sellers together in an efficient and easy format and generate income based on the transactions. This approach to customer acquisition and retention has provided the Company with a strong following of users. The Company is an innovator in developing proprietary technologies needed for easy navigation for business-to-business-and business-to-consumer environments. The Company's technologies coupled with its unique customer approach continue to strengthen relationships with its customers. These technologies are providing the foundation needed to scale and grow the e-commerce businesses profitably across geographic regions and multiple product lines.

The Company is the home of many Internet shoppers. It offers shoppers a convenient way to navigate easily among hundreds of stores. The portal offers incentives to visit continuously the site through promotions and giveaways. The Company funds TV advertising in over 50 cities around the world.

Sites operated by the Company include a shopping portal, RothmanCloseouts.com, InternetWebGuide.com, FileShooter.com, InShop.com and eBiz4biz.com.

Results of Operations

Quarter Ended June 30, 2001 Compared to Quarter Ended June 30, 2000.

The Company had revenues of \$5,001,972 for the quarter ended June 30, 2001 compared to revenues of \$3,188,641 for the quarter ended June 30, 2000. Net income for the quarter ended June 30, 2001 was \$2,444,613 compared to net income of \$243,465 for the quarter ended June 30, 2000. Total operating expenses for the quarter ended June 30, 2001 were \$1,847,251 resulting in operating income for the quarter of \$3,154,721. This compares to total operating expenses of \$2,895,208 for the quarter ended June 30, 2000, resulting in operating income of \$293,433. The Company has instituted a policy of not paying rebates as of January 1, 2001 and hence represented none of the total operating expenses. This compared to customer rebates of \$2,209,441 for the quarter ended June 30, 2000 that represented approximately 76% of total operating expenses. Because of the Company's limited operating history with its various web sites, management cannot predict, based upon past performance, whether the above listed cost and expense categories are relatively stable or subject to a substantial degree of volatility. Management continues to expect that advertising costs will be a significant part of its operating structure. With the addition of an office in Beijing China the revenues of RothmansCloseouts, one of the Company's most profitable web sites, have been greatly enhanced. Management expects that revenues from Business to Consumers divisions will slightly decrease in the

Edgar Filing: 800AMERICA COM INC - Form 10QSB

third quarter. This is in line with the national trend. Management expects that all other divisions will have increased revenues and profits.

Liquidity And Capital Resources

Net cash provided by operating activities was \$4,217,920 for the quarter ended June 30, 2001 compared to net cash provided by operating activities of \$363,145 for the quarter ended June 30, 2000. Net cash used in investing activities was \$2,078,161 for the quarter ended June 30, 2001 compared to \$367,363 for the quarter ended June 30, 2000.

The Company's cash and cash equivalents as of June 30, 2001 were \$5,370,912. At June 30, 2001, the Company had current assets of \$6,291,584 and current liabilities of \$1,496,895 resulting in working capital at June 30, 2001 (current assets less current liabilities) of \$5,794,689.

During the quarter the Company completed the purchase of Ebiz4biz.com and acquired the remaining interest in Filehooter, Inc. it did not already own. The Company paid a total of approximately \$1,500,000 in cash and common stock in connection with these transactions. The Company expects that these operations will add revenues to the Company's operations.

The Company believes that its current capital resources and liquidity are adequate for at least the next twelve months. Other than costs in connection with the further development of its web sites, the Company does not have any plans for significant capital or operating expenditures above its current level unless it determines to develop additional web sites that could result in additional development costs. The Company may also make additional acquisitions which might be financed at least in part with Company funds.

Six Months Ended June 30, 2001 Compared With June 30, 2000

Results of Operations

The Company had revenues of \$9,302,749 for the six months ended June 30, 2001 compared with revenues of \$5,579,463 for the six months ended June 30, 2000. This represents a 67% increase. The increase was primarily the result of increased sales and the elimination of the Company's rebate program, beginning in January of 2001. Net income was \$4,299,939 for the six months ended June 30, 2001 compared with net income of \$522,647 for the six months ended June 30, 2000. Total operating expenses were \$3,281,416 for the six months ended June 30, 2001 compared with \$4,821,005 for the six months ended June 30, 2000. This is a decrease of 32% and is primarily a result of the discontinuance of the rebate program.

Liquidity And Capital Resources

Net cash provided for operating activities was \$5,917,944 for the six months ended June 30, 2001 compared with net cash of \$725,741 for the six months ended June 30, 2000. The increase in net cash was primarily attributable to an increase in revenues and a decrease in operating costs as a result of ending the rebate program. During the six month period ended June 30, 2001, the Company sold assets for \$500,000 and purchased two companies for approximately \$1,500,000 in cash and common stock. During the six months ended June 30, 2000, the Company obtained \$250,000 through the sale of equity securities in a private placement.
