PROXY STATEMENT

PROXY AND VOTING INFORMATION

Our Board of Directors (our Board) has provided you with these proxy materials in connection with its solicitation of proxies to be voted at the 2009 Annual Meeting of Shareholders (the 2009 Annual Meeting). We will hold the 2009 Annual Meeting on Tuesday, April 28, 2009 in the Amphitheater at The Chubb Corporation, 15 Mountain View Road, Warren, New Jersey 07059, beginning at 8:00 a.m., local time. Please note that throughout these proxy materials we may refer to The Chubb Corporation as Chubb, we, us or our. We mailed the instructions for accessing our annual meeting materials, which include this proxy statement, the 2009 voting instructions and proxy card and our Annual Report on Form 10-K for the year ended December 31, 2008 (the 2008 10-K), on or before March 19, 2009.

Information About the Delivery of our Annual Meeting Materials

As permitted by rules adopted by the Securities and Exchange Commission (the SEC), we have made our annual meeting materials available to our shareholders electronically via the internet. On or before March 19, 2009, we mailed to our shareholders a notice containing instructions on how to access our annual meeting materials, how to request paper copies of these materials and how to vote online or by telephone. Unless you affirmatively request a paper copy of our annual meeting materials by following the instructions set forth in the notice, you will not receive a paper copy of our annual meeting materials in the mail. However, due to an ambiguity in the regulations promulgated under the Employee Retirement Income Security Act of 1974, as amended (ERISA), unless we have previously received a written consent to deliver materials electronically, we have assumed that participants in the Capital Accumulation Plan of The Chubb Corporation (the CCAP) have affirmatively requested paper copies of our annual meeting materials and, therefore, have mailed or will mail copies of the annual meeting materials to each participant in the CCAP.

The SEC's rules also permit us to deliver a single notice or set of annual meeting materials to one address shared by two or more of our shareholders. This delivery method is referred to as householding and can result in significant cost savings. To take advantage of this opportunity, we have delivered only one notice or set of annual meeting materials to multiple shareholders who share an address, unless we received contrary instructions from such impacted shareholders prior to our mailing date. We agree to deliver promptly, upon written or oral request, a separate copy of the notice or set of annual meeting materials, as requested, to any shareholder at the shared address to which a single copy of those documents was delivered. For future meetings, if you prefer to receive separate copies of our annual meeting materials, please contact Broadridge Financial Solutions, Inc. at 800-542-1061 or in writing at Broadridge, Household Department, 51 Mercedes Way, Edgewood, New York 11717. If you are currently a shareholder sharing an address with another shareholder and wish to receive only one copy of our future annual meeting materials for your household, please contact Broadridge at the above phone number or address.

Who Can Vote

Our Board has set March 9, 2009 as the record date for the 2009 Annual Meeting. Shareholders of record of our common stock at the close of business on March 9, 2009 may vote at the 2009 Annual Meeting.

Table of Contents

How Many Shares Can Be Voted

Each shareholder has one vote for each share of common stock owned at the close of business on the record date. On the record date, 352,178,299 shares of our common stock were outstanding.

How You Can Vote

Record Holders

If your shares are registered in your name with BNY Mellon Shareowner Services, our dividend agent, transfer agent and registrar, you are considered a shareholder of record, and the notice containing instructions on accessing our annual meeting materials online or requesting a paper copy thereof is being sent directly to you by us. Shareholders of record can vote in person at the 2009 Annual Meeting or give their proxy to be voted at the 2009 Annual Meeting in any one of the following ways:

over the internet;

by telephone; or

for shareholders requesting a paper copy of our annual meeting materials, by completing, signing, dating and returning the proxy card accompanying the paper copy.

CCAP Participants

If you are a participant in the CCAP, your proxy will include all shares allocated to you in the CCAP (Plan Shares), which you may vote in person at the 2009 Annual Meeting or over the internet, by telephone or, provided that you have not delivered a written consent to receive our materials electronically, by completing and mailing the proxy card accompanying your paper copy of the annual meeting materials. Your proxy will serve as a voting instruction for the trustee of the CCAP. If your voting instructions are not received by April 23, 2009, any Plan Shares you hold will be voted in proportion to the way the other participants in the CCAP vote their shares.

Brokerage and Other Account Holders

You are considered to be the beneficial owner of shares you hold in an account maintained by a broker, bank or other nominee, which may be referred to as shares held in street name. For shares held in street name, your broker, bank or nominee, who is the shareholder of record, has forwarded you the instructions for accessing, or requesting paper copies of, our annual meeting materials. You have the right to direct your broker, bank or nominee on how to vote these shares, and you may also attend the 2009 Annual Meeting. Your broker, bank or nominee has enclosed a voting instruction card. Beneficial owners of shares who wish to vote at the 2009 Annual Meeting must obtain a legal proxy from their broker, bank or nominee and present it at the 2009 Annual Meeting. The availability of telephone and internet voting for beneficial owners will depend on the voting processes of their broker, bank or nominee. Please refer to the voting instructions of your broker, bank or nominee for directions as to how to vote shares that you beneficially own.

Voting

Whether you vote over the internet, by telephone or by mail, you can specify whether you vote your shares for or against each of the nominees for election as a director (Proposal 1 on the proxy card). You can also specify whether you vote for or against or abstain from the adoption of The Chubb Corporation Long-Term Incentive Plan (2009) (Proposal 2 on the proxy card) and the ratification of Ernst & Young LLP as independent auditor (Proposal 3 on the proxy card).

If you duly execute the proxy card but do not specify how you want to vote, your shares will be voted as our Board recommends, which is FOR the election of each of the nominees for director as set forth under Proposal 1 below, FOR the adoption of The Chubb Corporation Long-Term Incentive Plan (2009) described in Proposal 2 below and FOR ratification of the appointment of Ernst & Young LLP as independent auditor as described in Proposal 3 below.

Table of Contents

Revocation of Proxies

If you are a shareholder of record or a holder of Plan Shares, you may revoke your proxy at any time before it is exercised in any of four ways:

by notifying our Corporate Secretary of the revocation in writing;

by delivering a duly executed proxy card bearing a later date;

by properly submitting a new timely and valid proxy via the internet or by telephone after the date of the revoked proxy; or

by voting in person at the 2009 Annual Meeting.

You will not revoke a proxy merely by attending the 2009 Annual Meeting. To revoke a proxy, you must take one of the actions described above.

If you hold your shares in a brokerage or other account, you may submit new voting instructions by contacting your broker, bank or nominee.

Required Votes

The presence, in person or by proxy, of the holders of a majority of all outstanding shares of our common stock entitled to vote at the 2009 Annual Meeting is necessary to constitute a quorum. Each of the proposals to be voted upon at the 2009 Annual Meeting requires the affirmative vote of a majority of the votes cast on the proposal at the 2009 Annual Meeting. Abstentions are counted as shares present at the 2009 Annual Meeting for purposes of determining a quorum. Similarly, shares which brokers do not have the authority to vote in the absence of timely instructions from beneficial owners (broker non-votes) also are counted as shares present at the 2009 Annual Meeting for purposes of determining a quorum. Abstentions and broker non-votes are not considered votes cast and will not be counted either for or against these proposals and, accordingly, will have no effect on the outcome of the vote for Proposals 1, 2 or 3.

Adjournments and Postponements

Any action on the items of business described above may be considered at the 2009 Annual Meeting at the time and on the date specified above or at any time and date to which the 2009 Annual Meeting may be properly adjourned or postponed.

2008 10-K

The 2008 10-K is not a part of the proxy soliciting materials. However, the instructions for accessing the 2008 10-K online and for requesting a paper copy are included in the notice you received regarding our annual meeting materials. **The 2008 10-K is available on our website at www.chubb.com/investors, as well as on a website maintained by Broadridge at www.proxyvote.com. It also is available without charge by sending a written request to our Corporate Secretary at 15 Mountain View Road, Warren, New Jersey 07059.**

Important Notice about Security

All 2009 Annual Meeting attendees may be asked to present a valid, government-issued photo identification (federal, state or local), such as a driver's license or passport, and proof of beneficial ownership if you hold your shares through a broker, bank or other nominee before entering the 2009 Annual Meeting. Attendees may be subject to security inspections. Video and audio recording devices and other electronic devices will not be permitted at the 2009 Annual Meeting.

CORPORATE GOVERNANCE

Commitment to Corporate Governance

Our Board and management have a strong commitment to effective corporate governance. We have in place a comprehensive corporate governance framework for our operations which, among other things, takes into account the requirements of the Sarbanes-Oxley Act of 2002, the SEC and the New York Stock Exchange (NYSE). The key components of this framework are set forth in the following documents:

- our Restated Certificate of Incorporation;
- our By-Laws;
- our Audit Committee Charter;
- our Corporate Governance & Nominating Committee Charter;
- our Organization & Compensation Committee Charter;
- our Corporate Governance Guidelines;
- our Code of Business Conduct; and
- our Code of Ethics for CEO and Senior Financial Officers.

Copies of these documents are available on our website at www.chubb.com/investors. Copies also are available without charge by sending a written request to our Corporate Secretary.

Corporate Governance Guidelines

Our Corporate Governance Guidelines address a number of policies and principles employed in the operation of our Board and our business generally, including our policies with respect to:

- the size of our Board;
- director independence and minimum qualifications;
- factors to be considered in selecting candidates to serve on our Board;
- director nominating procedures, including the procedures by which shareholders may propose director candidates;
- incumbent directors who do not receive a majority of the votes cast in uncontested elections;
- term limits, director retirement, director resignations upon job change and Board vacancies;
- directors' outside directorships and outside audit committee service;

Director Qualifications and Candidate Considerations

Our Board has established our Governance Committee which is comprised solely of directors satisfying the independence requirements of the NYSE. A copy of the charter of our Governance Committee is available on our website at www.chubb.com/investors. Copies also are available by sending a written request to our Corporate Secretary. Our Governance Committee is responsible, among other things, for:

recruiting qualified independent directors, consisting of persons with diverse backgrounds and skills who have the time and ability to exercise independent judgment and perform our Board's function effectively and who meet the needs of our Board; and

identifying the respective qualifications needed for directors serving on our Board committees and serving as chairmen of such committees, recommending to our Board the nomination of persons meeting such respective qualifications to the appropriate committees of our Board and as chairmen of such committees and taking a leadership role in shaping our corporate governance policies.

We require that a majority of the directors on our Board meet the criteria for independence under applicable law and the requirements of the NYSE. We believe that variety in the lengths of service among the directors benefits us and our shareholders. Accordingly, we do not have term limits for service on our Board. As an alternative to term limits, all director nominations are considered annually by our Governance Committee. Individuals who would be age 72 or older at the time of election are ineligible for nomination to serve on our Board. While our Board does not require that in every instance directors who retire or change from the position they held when they were elected to our Board resign, it does require that our Governance Committee consider the desirability of continued Board membership under the circumstances.

Our Governance Committee considers a number of factors in selecting director candidates, including:

the personal and professional ethics, integrity and values of the candidate;

the independence of the candidate under legal, regulatory and other applicable standards, including the ability of the candidate to represent all of our shareholders without any conflicting relationship with any particular constituency;

the diversity of the existing Board, so that we maintain a diverse body of directors, with diversity reflecting gender, ethnic background and geographic and professional experience;

whether the professional experience and industry expertise of the candidate will complement that of the existing Board;

the compatibility of the candidate with the existing Board;

the length of tenure of the members of the existing Board;

the number of other public company boards of directors on which the candidate serves or intends to serve, with the general expectation that the candidate would not serve on the boards of directors of more than four other public companies;

the number of public company audit committees on which the candidate serves or intends to serve, with the general expectation that, if the candidate is to be considered for service on our Audit Committee, the candidate would not serve on the audit committees of more than two other public companies;

Table of Contents

the candidate's service on the boards of directors of other for-profit companies, not-for-profit organizations, trade associations or industry associations;

the ability and willingness of the candidate to devote sufficient time to carrying out his or her Board duties and responsibilities effectively;

the commitment of the candidate to serve on our Board for an extended period of time; and

such other attributes of the candidate and external factors as our Governance Committee deems appropriate.

Our Governance Committee has the discretion to weight these factors as it deems appropriate. The importance of these factors may vary from candidate to candidate.

Nominating Procedures

The primary purpose of our nominating procedures is to identify and recruit outstanding individuals to serve on our Board. Our Board has delegated responsibility for identifying director candidates to our Governance Committee, which meets periodically to consider the slate of nominees for election at our next annual meeting of shareholders. If appropriate, our Governance Committee schedules follow-up meetings and interviews with potential candidates. Our Governance Committee submits its recommended nominee slate to our Board for approval.

Our Governance Committee will consider candidates recommended by directors, members of management and our shareholders. In addition, our Governance Committee is authorized to engage one or more search firms to assist in the recruitment of director candidates.

The procedures for shareholders to propose director candidates are set forth in Article I, Section 10 of our By-Laws. Our Governance Committee may make such additional inquiries of the candidate or the proposing shareholder as our Governance Committee deems appropriate. This information is necessary to allow our Governance Committee to evaluate the shareholder's proposed candidate on the same basis as those candidates referred through directors, members of management or by consultants retained by our Governance Committee.

Shareholders wishing to propose a candidate for consideration should refer to Article I, Section 10 of our By-Laws, the information set forth under the heading "2010 Shareholder Proposals and Nominations" and the SEC rules applicable to shareholder proposal submission procedures.

Director Election Procedures

In uncontested elections, our directors are elected by the affirmative vote of a majority of the votes cast. In the event that an incumbent director receives less than the affirmative vote of a majority of the votes cast and the director would otherwise remain in office by operation of New Jersey law, the affected director is required to tender his or her resignation. Our Governance Committee is required to promptly consider the resignation and make a recommendation to our Board as to whether or not to accept such resignation. Our Board is required to take action with respect to our Governance Committee's recommendation within 90 days after the date of the election. These procedures are described in full in our Corporate Governance Guidelines.

Director Independence

Our Governance Committee reviews each director's independence annually in accordance with the standards set forth in our Corporate Governance Guidelines and the requirements of the NYSE. No member of our Board will be considered independent unless our Governance Committee determines that the director has no material relationship with us that would affect the director's independence and that the director satisfies the independence requirements of all applicable laws, rules and regulations. To facilitate the analysis of whether a director has a relationship with us that could affect his or her independence, our Board has identified in our Corporate Governance Guidelines the following categories of relationships which should not affect a director's independence or are

Table of Contents

deemed immaterial and, therefore, are not considered by our Governance Committee in determining director independence:

charitable contributions made by us to any organization:

pursuant to our Matching Gifts Program on terms of general applicability to employees and directors;

in amounts that do not exceed \$25,000 per year; or

that have been approved by our Governance Committee;

commercial relationships with any entity or organization where the annual sales to, or purchases from, us are less than two percent of our annual revenue and less than two percent of the annual revenue of the other entity or organization; and

insurance, reinsurance and other risk transfer arrangements entered into in the ordinary course of business on an arm's length basis.

Our Board reviewed director independence in 2008 based on the assessment of our Governance Committee. As a result of this review, our Board determined that each of our directors, other than John D. Finnegan, who is our Chairman, President and Chief Executive Officer, was independent as defined in the listing standards of the NYSE and, in the case of the members of our Audit Committee, Section 10A(m)(3) of the Exchange Act.

Related Person Transactions

Our Governance Committee has adopted a written policy governing the review and approval of transactions in which we are a participant and in which any of our officers, our directors, holders of five percent or more of our common stock or any of their respective immediate family members (as defined by the SEC) has a material direct or indirect interest. These individuals collectively are referred to as related persons. This policy prohibits us from participating in any transaction in which a related person has a direct or indirect material interest unless:

the transaction is a permitted transaction (as defined below);

in the case of our executive officers and holders of five percent or more of our common stock, the transaction is reported to and approved by our Board, our Governance Committee or another Board committee comprised of disinterested directors; or

in the case of our directors and nominees for director, the transaction is reported to and approved by a majority of the disinterested members of our Governance Committee or, if less than a majority of our Governance Committee is disinterested, a majority of the disinterested members of our Board.

In the event that a related person inadvertently fails to obtain the appropriate approvals prior to engaging in a transaction in which the related person has a material direct or indirect interest and in which we are a participant, the related person is required to seek ratification of the transaction by the appropriate decision maker referenced above as soon as reasonably practicable after discovery of such failure.

Our Governance Committee has identified categories of transactions that are appropriate and generally do not give rise to conflicts of interest or the appearance of impropriety, which, accordingly, do not require approval or ratification. These categories of transactions, referred to as permitted transactions under the policy, are:

the purchase of insurance products or services from us on an arms length basis in the ordinary course of business and on terms and conditions generally available to other insureds;

claims activity relating to insurance policies administered on an arms length basis in the ordinary course of business and consistent with the administration of the claims of other insureds;

any transaction or series of transactions with an aggregate dollar amount involved of \$100,000 or less;

Table of Contents

transactions within the scope of a related person's ordinary business duties to us, where the benefits inuring to the related person relate solely to our performance review process (and resulting compensation and advancement decisions);

our payment or reimbursement of a related person's expenses incurred in performing his or her Chubb-related responsibilities;

the receipt of compensation and benefits from us, provided that such arrangements are approved in accordance with the policies and procedures established by our Board or a committee thereof;

the purchase or sale of our securities in the open market or pursuant to any equity compensation plan approved by our Board and our shareholders;

any transaction with an entity or organization with whom the related person is serving or affiliated solely at our request;

any transaction in which the related person's interest arises only: (i) from the related person's position as a director of another corporation or organization that is a party to the transaction; (ii) from the direct or indirect ownership by the related person and all other related persons, in the aggregate, of less than a ten percent equity interest in another person (other than a partnership) which is a party to the transaction; or (iii) from both such position and ownership; and

any transaction in which the related person's interest arises only from the related person's position as a limited partner in a partnership in which the related person and all other related persons have an interest of less than ten percent and the person is not a general partner of and does not have another position in the partnership.

Related person transactions during 2008 are discussed under the heading "Certain Transactions and Other Matters."

Lead Director

Our Board annually elects an independent director to serve as Lead Director to ensure our Board's independence and proper functioning when, as is currently the case, the offices of Chief Executive Officer and Chairman of the Board are combined. The Lead Director has the following authority:

to act as a liaison between the Chairman and the independent directors;

to call special meetings of our Board;

to call special meetings of any committee of our Board;

with the consent of a majority of the members of our Executive Committee, to call special meetings of our shareholders;

in the absence of the Chairman of the Board, to preside at meetings of our Board;

to preside at all executive sessions of the non-employee directors and the independent directors;

in the absence of the Chairman of the Board, to preside at meetings of our shareholders;

Meeting Attendance and Related Matters

their responsibilities. In 2008, our Board met ten times. All of our incumbent directors attended at least 75% of the meetings of our Board and the committees on which they serve.

Audit Committee

Our Audit Committee is directly responsible for the appointment, compensation and retention (or termination) of our independent auditor. Our Audit Committee also is responsible for the oversight of the integrity of our financial statements, our compliance with legal and regulatory requirements, the independence and qualifications of our independent auditor, the performance of our internal audit function and independent auditor and other significant financial matters. For 2008, our Board designated Joel J. Cohen, Martin G. McGuinn and Daniel E. Somers as our audit committee financial experts (as defined by SEC rules). In 2008, our Audit Committee met nine times. The Audit Committee Report for 2008 is set forth under the heading **Audit Committee Report**.

Compensation Committee

Composition; Scope of Authority

Each member of our Compensation Committee satisfies the independence requirements of the NYSE and the independence standards set forth in our Corporate Governance Guidelines. Our Compensation Committee's primary responsibilities include establishing our general compensation philosophy and overseeing the development, implementation and administration of our compensation, benefit and perquisite programs. It also evaluates the performance and sets all aspects of the compensation paid to our Chief Executive Officer and reviews and approves the compensation paid to our other executive officers. In addition, our Compensation Committee is responsible for recommending the form and amount of compensation for our non-employee directors to our Governance Committee. The principle duties and responsibilities of our Compensation Committee are set forth in its charter, which is available on our website at www.chubb.com/investors.

Processes and Procedures

In 2008, our Compensation Committee met eight times.

During the first quarter of each year, our Compensation Committee evaluates our performance relative to the pre-established goals under The Chubb Corporation Annual Incentive Compensation Plan (2006) (the Annual Incentive Plan), in the case of annual incentive compensation, The Chubb Corporation Long-Term Stock Incentive Plan (2004) (the 2004 Employee Plan), in the case of long-term incentive awards, and for certain other plans in which our named executive officers identified under the heading **Executive Compensation Summary Compensation Table** (our NEOs) do not participate. In addition, our Compensation Committee evaluates our Chief Executive Officer's overall individual performance and contributions over the prior year. Our Chief Executive Officer presents our Compensation Committee with his evaluation of each of the other NEOs, which includes a review of contributions and performance during the prior year, strengths, weaknesses, development plans, succession potential and compensation recommendations. Our Compensation Committee then makes a final determination of compensation amounts for each NEO with respect to each of the elements of the executive compensation program for both compensation based on prior year performance and target compensation for the current year.

Mid-year, typically in June, our Compensation Committee considers each NEO's total compensation as compared with that of the named executive officers of a peer group of companies. Information regarding this peer group analysis is set forth under the heading **Compensation Discussion and Analysis Setting of Executive Compensation**. This peer group review provides our Compensation Committee with an external basis to evaluate our overall compensation program, including an assessment of its pay to performance relationship. Following this presentation of competitive

market data, our Compensation Committee makes decisions, in consultation with our Chief Executive Officer regarding the other NEOs, assessing the need for any modifications to executive compensation opportunities and overall program design for implementation in the following year. Final approval of any program or individual changes typically occurs in the first quarter of the following year, at or around the same

Table of Contents

time that our Compensation Committee is evaluating overall performance for the just-completed year to determine actual award amounts payable under our incentive-based plans.

Role of Executive Officers

Our Compensation Committee, and through it our Board, retains final authority with respect to our compensation, benefit and perquisite programs and all actions taken thereunder. However, as noted above, our Chief Executive Officer recommends to our Compensation Committee compensation actions for each of the other NEOs. Our other NEOs evaluate the performance of and recommend compensation actions for other members of our senior management team to our Chief Executive Officer. Our Chief Executive Officer, after making any adjustments he deems appropriate, presents these recommendations to our Compensation Committee for consideration and compensation action. Compensation actions for the rest of our employees are determined by management, with our Compensation Committee receiving and approving aggregated information (e.g., aggregate incentive compensation and equity awards) by employee level with respect to such actions. None of our employees has a role in determining or recommending the amount or form of non-employee director compensation.

Delegation of Authority

Subject to an aggregate limit of 400,000 shares of our common stock, our Compensation Committee has delegated authority to our Chief Executive Officer to make equity grants to employees at or below the level of Senior Vice President. In accordance with the terms of this delegation of authority, our Compensation Committee periodically reviews all such awards. If our Compensation Committee ratifies the awards, the number of shares so ratified is restored to our Chief Executive Officer's pool of awardable shares. Our Chief Executive Officer uses this authority to grant performance, promotion, retention and new hire awards. Our Compensation Committee has retained exclusive authority for granting equity awards to employees above the level of Senior Vice President, as well as for certain of our Senior Vice Presidents, including those subject to the reporting requirements of Section 16 of the Exchange Act.

Role of Executive Compensation Consultant

In 2008, our Compensation Committee retained the services of a compensation consulting firm, Mercer (US) Inc.'s Executive Remuneration Services group (the Consultant), to assist our Compensation Committee in reviewing our overall compensation strategy and total compensation package. At the request of our Compensation Committee, the Consultant provided input on the competitive market for executive talent, evolving executive compensation market practices, program design and regulatory compliance.

Our Compensation Committee determined that there was substantial overlap between the structuring of our compensation programs by our Compensation Committee and their implementation and administration by certain members of management pursuant to the direction and oversight of our Compensation Committee. Our Compensation Committee also determined that requiring management to utilize a separate consultant to assist in such implementation and administration would result in an inefficient use of corporate resources. Accordingly, our Compensation Committee authorized our management to utilize the services provided by other consulting groups within Mercer (US) Inc. To ensure that these management level services do not impair the Consultant's objectivity, all such services require the pre-approval of our Compensation Committee. In addition, our Compensation Committee periodically reviews the nature of the services rendered together with the Consultant's aggregate fees for such services. During 2008, these services included advice regarding our medical, prescription and dental benefit plans, as well as pension consulting services in connection with our qualified and nonqualified retirement plans. These consulting services include providing actuarial calculations for incurred but not reported claims for our voluntary employees' beneficiary association and serving as the actuary for our qualified and nonqualified defined benefit pension plans.

Pursuant to its charter, our Compensation Committee has the sole authority to retain and terminate any compensation consultant to be used to assist in the evaluation of executive compensation and to approve the Consultant's fees and retention terms.

Table of Contents

Executive Committee

Our Executive Committee, which consists of the Chairman of the Board, our Lead Director and the Chairmen of our Audit, Compensation and Governance Committees, is responsible for overseeing our business, property and affairs during the intervals between the meetings of our Board, if necessary. Our Executive Committee met once during 2008.

Finance Committee

Our Finance Committee oversees and regularly reviews the purchase and sale of securities in our investment portfolio. In 2008, our Finance Committee met four times.

Governance Committee

Our Governance Committee assists our Board in identifying individuals qualified to become members of our Board and oversees the annual evaluation of our Board and each committee. As provided in its charter, our Governance Committee also makes recommendations to our Board on a variety of corporate governance and nominating matters, including recommending standards of independence, director nominees, appointments to committees of our Board, designees for chairmen of each of our Board committees, non-employee director compensation and corporate governance guidelines. In 2008, our Governance Committee met six times.

Pension & Profit Sharing Committee

Prior to its dissolution in April 2008, our Pension & Profit Sharing Committee oversaw and regularly reviewed our retirement and profit sharing plans. It met once during 2008. After its dissolution, the responsibilities of our Pension & Profit Sharing Committee were reallocated between our Compensation Committee, our Finance Committee and a management-level committee.

Compensation Committee Interlocks and Insider Participation

During our 2008 fiscal year, each of Sheila P. Burke, Martin G. McGuinn, Daniel E. Somers, Karen Hastie Williams, James M. Zimmerman and Alfred W. Zollar served on our Compensation Committee. None of these individuals has at any time been an officer or employee of Chubb. During our 2008 fiscal year, none of our executive officers served as a member of the board of directors or compensation committee of any entity for which a member of our Board or Compensation Committee served as an executive officer.

Directors Compensation

Our Governance Committee, with the assistance of our Compensation Committee, is responsible for establishing and overseeing non-employee director compensation. The Compensation and Governance Committees consult periodically with the Consultant to evaluate and, if appropriate, adjust non-employee director compensation. To benchmark the competitiveness of our non-employee director compensation, the Compensation and Governance Committees utilize the same peer group of companies described below under the heading Compensation Discussion and Analysis Setting of Executive Compensation. Consistent with our compensation philosophy for our NEOs, our non-employee director compensation program is designed to target total non-employee director compensation in the second quartile of the compensation paid to non-employee directors in this peer group.

(1) Compensation for Mr. Finnegan is not included in this table because he does not receive compensation for services that he renders as a member of our Board. Information regarding Mr. Finnegan's compensation is set forth below under the headings "Compensation Discussion and Analysis" and "Executive Compensation."

(2) Pursuant to The Chubb Corporation Long-Term Stock Incentive Plan for Non-Employee Directors (2004) (the 2004 Director Plan), on April 29, 2008, each non-employee director other than Mr. Zimmerman (who joined our Board in June 2008) and Sir David Scholey (who retired from our Board on April 29, 2008) received a target award of 1,407 performance units valued at \$54.83 per share. These awards vested immediately upon grant. Accordingly, the grant date fair value of each of these awards, calculated in accordance with Financial Accounting Standards Board Statement of Financial Accounting Standards No. 123 (revised 2004) *Share Based Payment* (FAS 123R), is the same as the amount of compensation expense we reflected in our financial statements with respect to each of these awards (\$77,146 per non-employee director). The grant date fair value of each of these awards is estimated based on the fair market value of our common stock on the date of grant adjusted to reflect (i) the anticipated appreciation of our common stock over the three-year performance period and (ii) that these awards do not receive dividend equivalents during the performance period. In addition, on April 29, 2008, each non-employee director other than Mr. Zimmerman and Sir David Scholey received stock

units representing the right to receive 469 shares of our common stock valued at \$53.30 per share. These awards vested immediately upon grant. Accordingly, the grant date fair value of each of these awards, calculated in accordance with FAS 123R, is the same as the amount of compensation expense we reflected in our financial statements with respect to each of these awards (\$24,998 per non-employee director). The grant date fair value of each of these awards is estimated based on the fair market value of our common stock on the date of grant.

Additional information regarding non-employee director cash compensation is set forth under the heading Directors Compensation Fees Earned or Paid in Cash. On the date of his election, Mr. Zimmerman also received an equity grant of 1,301 performance units valued at \$54.66 per share and stock units representing the right to receive 433 shares of our common stock valued at \$52.84 per share. These awards have the same general terms as those described in footnote (2) above. The performance unit award vested immediately upon grant. Accordingly, the grant date fair value of this award, calculated in accordance with FAS 123R, is the same as the amount of compensation expense we reflected in our financial statements with respect to this award (\$71,113). The grant date fair value of this award is estimated based on the fair market value of our common stock on the date of grant adjusted to reflect the anticipated appreciation of our common stock over the performance period and to reflect that this award does not receive dividend equivalents during the performance period. The stock unit award vested immediately upon grant. Accordingly, the grant date fair value of this award, calculated in accordance with FAS 123R, is the same as the amount of compensation expense we reflected in our financial statements with respect to this award (\$22,880). Stock Awards

Background. The 2004 Director Plan is administered by our Governance Committee with the assistance of our Compensation Committee. Subject to adjustment upon the occurrence of certain events described below, a maximum of 500,000 shares of our common stock may be issued under the 2004 Director Plan.

Pursuant to the 2004 Director Plan, each non-employee director receives an annual equity grant valued at approximately \$90,000 (or such higher amount as our Governance Committee may determine, not to exceed the value of 3,000 shares of our common stock). Each annual award consists of performance units and stock units, with performance units comprising 75% of the award and stock units comprising the remaining 25% of the award.

The 2004 Director Plan also authorizes our Governance Committee to make grants to non-employee directors in addition to the annual grants described in the preceding paragraph. We anticipate that discretionary grants will be made only to address special circumstances, such as when a director is elected to our Board mid-term or when one or more non-employee directors are called upon to provide services to us above and beyond those services required of non-employee directors generally. In 2008, the Governance Committee exercised this discretionary authority in making a grant to Mr. Zimmerman, who was elected to our Board in June 2008.

2008 Stock Awards. Based upon its market analysis, peer group comparison and the recommendation of the Compensation Consultant, our Governance Committee increased the amount of 2008 equity compensation by \$10,000. Accordingly, following our 2008 Annual Meeting of Shareholders on April 29, 2008, each of our non-employee directors other than Mr. Zimmerman and Sir David Scholey received an equity grant in the amount of approximately \$100,000 comprised of 1,407 performance units and stock units representing the right to receive 469 shares of our common stock. Mr. Zimmerman was elected to our Board on June 11, 2008 and, on that date, received an equity grant of 1,301 performance units and stock units representing the right to receive 433 shares of our common stock. Sir David Scholey retired from our Board on April 29, 2008.

As with performance units awarded to our NEOs under the 2004 Employee Plan described under the heading Compensation Discussion and Analysis Components of Executive Compensation, the actual number of shares payable to each of our non-employee directors under performance unit awards can vary from 0% to 200% of the original target award based on our total shareholder return relative to total shareholder returns over a three-year performance period for the other companies in the S&P 500 Index. For information regarding the actual number of performance units that a non-employee director can earn over the performance period, see the table set forth under

Table of Contents

the heading Compensation Discussion and Analysis Components of Executive Compensation. The performance period for all performance units granted to our non-employee directors in 2008 commenced on January 1, 2008 and ends on December 31, 2010. The ultimate value of the performance unit awards also will depend on the value of our common stock at the end of the performance period. Unlike the performance units awarded to our NEOs, non-employee directors vested immediately in their performance unit awards. Accordingly, a non-employee director whose service as a member of our Board terminates during a performance period will be entitled to receive the same payment in respect of performance units without proration that would have been payable had his or her service continued until the end of the applicable performance period. Any amount payable to a former non-employee director generally would be paid at the same time as amounts in respect of similar awards are paid to other participants in the 2004 Director Plan. However, if a non-employee director is removed from our Board for cause (or resigns in anticipation of such removal), the non-employee director would forfeit all rights to receive any payment in respect of his or her outstanding performance units.

The stock units vested immediately upon grant and will settle at the earlier of the third anniversary of the grant date or termination of the recipient's Board service. However, if a non-employee director is removed from our Board for cause (or resigns in anticipation of such removal), the non-employee director would forfeit all rights to receive any payment in respect of his or her outstanding stock units.

Option Awards

Since the adoption of the 2004 Director Plan, the practice of our Governance Committee has been to refrain from granting stock options to non-employee directors. The only stock options that have been granted to non-employee directors since that time were not granted on a discretionary basis, but rather pursuant to a restoration stock option feature that was included in the terms of stock options granted under predecessor plans to the 2004 Director Plan. The restoration stock option feature provides for an automatic grant of a new stock option if, upon exercise of the original stock option, shares are exchanged in a stock-for-stock exercise. The restoration stock option feature only applies if the original stock option is exercised within seven years of the grant date and if the fair value market of our common stock on the date of exercise is at least 25% higher than the exercise price of the original stock option. The grant date of the restoration stock option is the date of exercise of the original option and the exercise price is the average of the high and low prices of our common stock on the date that the original option is exercised.

Change in Pension Value and Nonqualified Deferred Compensation Earnings

Cash Compensation. Under the Director Deferred Compensation Program, non-employee directors may defer receipt of all or a portion of their cash compensation. Amounts of deferred compensation are payable at the option of the non-employee director either upon the non-employee director's termination of service or at a specified date chosen by the non-employee director at the time the deferral election is made. The Director Deferred Compensation Program provides that amounts deferred may be invested in:

an interest bearing account;

a market value account; or

a shareholders' equity account.

A non-employee director participating in the Director Deferred Compensation Program may elect to receive the compensation deferred in either a lump sum or in annual installments. All amounts are paid in cash, except for the market value accounts which we pay in shares of our common stock. Deferred compensation represents an unsecured obligation payable out of our general corporate assets.

Cash Accounts. Interest bearing accounts (cash accounts) bear interest at the lesser of 120% of the applicable long-term federal interest rate and Citibank, N.A.'s prime rate in effect on the first day of each January, April, July and October during the deferral period. At December 31, 2008, we maintained a cash account for one non-employee director pursuant to the Director Deferred Compensation Program.

Table of Contents

Market Value Accounts. Market value accounts, which are denominated in units with one unit having the equivalent value of one share of our common stock, track the value of shares of our common stock. On each date compensation otherwise would have been paid in accordance with our normal practice (the credit date), non-employee directors deferring cash compensation into market value accounts are credited with the number of market value units equal to the quotient of:

the amount of compensation deferred by the non-employee director, divided by

the closing share price of our common stock on the NYSE on the credit date or on the trading day preceding the credit date if the credit date is not a trading day.

When we pay cash dividends on our common stock, the market value account of each participating non-employee director is credited with the number of market value units equal to:

the product of (i) the amount of the dividend per share, multiplied by (ii) the number of units in the non-employee director's market value account on the dividend payment date, divided by

the closing share price of our common stock on the NYSE on the dividend payment date or on the trading day preceding the dividend payment date if the dividend payment date is not a trading day.

At December 31, 2008, we maintained market value accounts for seven non-employee directors, three of whom deferred 2008 compensation into a market value account pursuant to the Director Deferred Compensation Program.

Shareholders' Equity Accounts. Shareholders' equity accounts, which are denominated in units, track the book value per share of our common stock. On each date compensation otherwise would have been paid in accordance with our normal practice, non-employee directors deferring cash compensation into shareholders' equity accounts are credited with the number of shareholders' equity units equal to the quotient of:

the amount of compensation deferred by the non-employee director, divided by

the shareholders' equity per share as reported in our annual report to shareholders for the immediately preceding year.

When we pay cash dividends on our common stock, the shareholders' equity account of each participating non-employee director is credited with the number of shareholders' equity units equal to:

the product of (i) the amount of the dividend per share, multiplied by (ii) the number of units in the non-employee director's shareholders' equity account on the dividend payment date, divided by

the closing share price of our common stock on the NYSE on the dividend payment date or on the trading day preceding the dividend payment date if the dividend payment date is not a trading day.

At December 31, 2008, we did not maintain shareholders' equity accounts for any of our non-employee directors.

Equity Compensation. We offer non-employee directors the option of deferring receipt of all or a portion of their equity compensation. Amounts of voluntarily deferred equity are payable at the option of the non-employee director either upon the non-employee director's termination of service or at a specified date chosen by the non-employee director at the time the deferral election is made. Non-employee directors receive current payment of dividend equivalents on their deferred equity. We declare and pay dividend equivalents on equity held in director deferral

accounts at the same rate and at the same time as we declare and pay dividends on our common stock generally. At December 31, 2008, we maintained deferred equity accounts for nine non-employee directors, six of whom deferred 2008 equity compensation.

All Other Compensation

Director's Charitable Award Program. Effective January 1, 1992, we established the Director's Charitable Award Program. Under this program, each non-employee director, following his or her first election to our Board by

our shareholders, may request that we direct one or more charitable contributions totaling up to \$500,000 to eligible tax exempt organizations. We have elected to fund the Director's Charitable Award Program through the proceeds of second-to-die life insurance policies that we have purchased on the lives of the participating non-employee directors. We are the owner and beneficiary of these policies. Non-employee directors have no rights in these policies or the benefits thereunder.

Under the terms of these policies, participating non-employee directors are paired and, upon the death of the second paired non-employee director, we use the proceeds of these policies to fund the contributions to the organizations selected by the non-employee directors. At December 31, 2008, ten non-employee directors were participating in the program. For seven of these non-employee directors, we paid the full premium on the life insurance policies through which we fund the program prior to 2008. For the remaining three non-employee directors who were participating in this program as of December 31, 2008, the premiums paid in 2008, which also are reflected in the All Other Compensation column of the Director Compensation Table set forth under the heading Corporate Governance Directors Compensation, are as follows:

Name	Amount
Martin G. McGuinn	\$ 26,234
Jess Söderberg	27,632
Daniel E. Somers	33,629

In March 2008, our Board voted to close the Director's Charitable Award Program to future participants (with currently eligible participants under the Director's Charitable Award Program being grandfathered). In addition, we may further amend or terminate the Director's Charitable Award Program at our election at any time. Participating non-employee directors are entitled to change their designated charities at any time.

Changes in Director Compensation Policies for 2009

In February 2009, our Board approved The Chubb Corporation Long-Term Stock Incentive Plan (2009) (the 2009 Stock Plan) subject to shareholder approval at the 2009 Annual Meeting. If our shareholders approve the 2009 Stock Plan, beginning in 2009, we expect that each of our non-employee directors will receive an annual equity award in the form of deferred stock units, instead of the performance units and stock units awarded under the 2004 Director Plan discussed above. Information regarding the deferred stock units is set forth under the heading Proposal 2 Adoption of The Chubb Corporation Long-Term Incentive Plan (2009). We expect that the fair market value of these awards will remain approximately \$100,000 per non-employee director.

AUDIT COMMITTEE REPORT

Purpose

Our Board has formed our Audit Committee to assist our Board in monitoring:

- the integrity of our financial statements;
- our compliance with legal and regulatory requirements;
- the independence and qualifications of our independent auditor;
- the performance of our internal auditors and independent auditor; and
- other significant financial matters.

Composition and Meetings

At December 31, 2008, our Audit Committee was comprised of five directors, each of whom our Board determined to be independent and each of whom satisfied the applicable legal and regulatory independence requirements. Mr. Somers served as the Chairman of our Audit Committee during 2008 and our Board designated him, together with Messrs. Cohen and McGuinn, as the audit committee financial experts. Information regarding the respective experience of Messrs. Cohen, McGuinn and Somers is set forth under the heading *Our Board of Directors*.

Our Governance Committee and the full Board consider Audit Committee membership annually. Committee appointments are effective as of the date of the annual meeting of shareholders. In addition to Messrs. Cohen, McGuinn and Somers, Ms. Baird and Mr. Zollar currently serve on our Audit Committee. Our Audit Committee met nine times during 2008.

Charter and Self-Assessment

Our Audit Committee operates pursuant to its written charter, which is available on our website at www.chubb.com/investors. The Audit Committee Charter has been approved by our Audit Committee and our Board and it is subject to review at least annually. It was last revised in February 2005.

Pursuant to its charter, our Audit Committee performs an annual self-assessment. For 2008, our Audit Committee concluded that, in all material respects, it had fulfilled its responsibilities and satisfied the requirements of its charter and applicable laws and regulations.

Appointment of Independent Auditor

Under its charter, our Audit Committee, among other things, is directly responsible for the appointment, compensation, retention and oversight of the work of the independent auditor engaged for the purpose of preparing or issuing an audit report or related work or performing other audit, review or attest services for us. Our Audit Committee has appointed Ernst & Young LLP to serve as independent auditor. Our Audit Committee has recommended to our Board that Ernst & Young's appointment as independent auditor be submitted for ratification by our shareholders. This matter is described under the heading *Proposal 3 Ratification of Appointment of Independent*

Auditor.

Review of Financial Information

Management is responsible for our internal controls over the financial reporting process and the independent auditor is responsible for performing an independent audit of our consolidated financial statements in accordance with generally accepted auditing standards and for issuing a report on its audit. Our Audit Committee is charged with overseeing and monitoring these activities on behalf of our Board. During 2008 and the first quarter of 2009, our Audit Committee reviewed and discussed with management and the independent auditor our quarterly financial statements and our audited consolidated financial statements for the year ended December 31, 2008. COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis describes the 2008 compensation program for our NEOs.

Changes to Senior Management

Our senior management team experienced several changes that impacted our NEOs during 2008. Thomas F. Motamed retired from Chubb as Vice Chairman and Chief Operating Officer, effective June 6, 2008, and Michael O Reilly retired from Chubb as Vice Chairman, effective December 31, 2008. On June 19, 2008, we made the following promotions, which took effect immediately:

John J. Degnan was promoted to Chief Operating Officer;

Paul J. Krump was promoted to Chief Underwriting Officer;

Harold L. Morrison, Jr. was promoted to Chief Global Field Officer; and

Dino E. Robusto was promoted to Chief Administrative Officer.

On September 4, 2008, our Board elected Richard G. Spiro as our Executive Vice President and Chief Financial Officer. Mr. Spiro's election as Executive Vice President was effective as of his October 1, 2008 start date and he succeeded Mr. O Reilly as Chief Financial Officer effective November 10, 2008.

Overall Executive Compensation Philosophy and Objectives

The property and casualty insurance industry is comprised of hundreds of companies vying for part of the multibillion-dollar market for personal, commercial and specialty lines of insurance coverage. Within this competitive environment, we are considered to be one of the world's preeminent insurers, offering extensive business and personal insurance solutions globally. We distinguish ourselves with an approach that focuses on providing premier customer service, quality underwriting and highly disciplined cost management. It is imperative to our success and long-term viability that our business continues to be managed by highly experienced, focused and capable executives who possess the dedication to oversee our global organization on a day-to-day basis and the vision to anticipate and respond to market developments. It is also important that we concentrate on retaining and developing the capabilities of our emerging leaders to ensure that we continue to have an appropriate depth of executive talent.

Our executive compensation program is intended to attract, reward and retain a management team with the collective and individual abilities that fit our profile described above. With this philosophy in mind, our executive compensation program is intended to motivate our employees to achieve the following objectives:

enhance our market reputation as a provider of the highest quality customer service;

attain superior financial performance, in both the short- and long-term;

take accountability for the performance of the business units and functions for which they are responsible; and

make decisions about our business that will maximize long-term shareholder value.

As discussed more fully below, a substantial portion of an executive's compensation incorporates performance criteria that support and reward achievement of our annual operating plan and long-term business goals. Specifically, compensation decisions for our NEOs are linked to corporate goals based on financial results (merit-based salary increases and Annual Incentive Plan awards), absolute stock price appreciation (restricted stock unit (RSU) and performance unit awards) and total shareholder return relative to companies in the S&P 500 Index (performance unit awards). For 2008, approximately 71% of Mr. Finnegan's total target compensation was performance-based. Mr. Spiro's 2008 compensation package was established in his offer letter and included a guaranteed bonus for 2008, payable in 2009. The percentage of performance-based pay relative to total target compensation for the NEOs other than Messrs. Finnegan and Spiro was, on average, 63%. Going forward, we expect that Mr. Spiro's percentage of performance-based compensation relative to his total compensation will be comparable to that of our NEOs other than Mr. Finnegan.

Table of Contents**Setting of Executive Compensation**

Our Compensation Committee is responsible for establishing the philosophy and objectives that underlie our executive compensation program and guiding its design and administration. Additional information on the structure, scope of authority and operation of our Compensation Committee and the role of the Consultant and management in determining compensation is set forth under the heading Corporate Governance Compensation Committee.

Market Data

Our Compensation Committee, with the assistance of the Consultant, reviews the compensation of similarly situated officers of a representative peer group of companies on an annual basis to ensure that our executive compensation program is competitive with the companies with which we believe we compete for executive talent. The peer group is comprised of companies similar in size and scope to us within the property and casualty and broader insurance industries, as well as the financial services industry. In 2008, the 21 companies comprising our peer group were:

ACE Ltd.	Cigna Corp.	Progressive Corp.
Aetna, Inc.	CNA Financial Corp.	Prudential Financial, Inc.
Aflac, Inc.	Genworth Financial, Inc.	Principal Financial Group, Inc.
Allstate Corp.	Hartford Financial Services Group Inc.	Safeco Corp.
American International Group Inc.	Lincoln National Corp.	State Street Corp.
Bank of New York Mellon Corp.	MetLife, Inc.	The Travelers Companies, Inc.
BB&T Corp.	PNC Financial Svcs Grp, Inc.	XL Capital Ltd.

Our Compensation Committee has established what it believes to be challenging performance goals both on an absolute basis and relative to our peers. Accordingly, total compensation for our NEOs is targeted between the 50th and 75th percentiles of our peer group of companies, combined salary and annual incentive compensation is targeted at the median of our peer group and long-term incentive awards are targeted between the 50th and 75th percentiles. Our emphasis on long-term performance-based compensation supports our need for executives to maintain a longer-term focus on our business, while merit-based salary increases and annual incentive compensation reward the delivery of strong annual results. For 2008, approximately 70% of Mr. Finnegan's total target compensation represented long-term equity incentive awards. The percentage of long-term equity incentive awards relative to total target compensation for the other NEOs was, on average, 51% (excluding Mr. Spiro as during 2008 his only equity grant was an RSU award that he received upon commencement of his employment with us to compensate him for lost equity from his prior employer).

Individual Performance

Our executive compensation program provides our Compensation Committee with the flexibility to make annual compensation decisions based on individual performance. Specifically, our program is designed to provide our Compensation Committee with the ability to adjust individual compensation, significantly in some cases, to the extent the executive achieves individual annual performance goals and strengthens his or her competencies, performance and potential over a longer period. Our Compensation Committee believes that this flexibility is imperative to reward and recognize the key skills, talents and contributions to annual performance and overall long-term company success. Each year, our Compensation Committee evaluates Mr. Finnegan's performance. Mr. Finnegan, in turn, presents our Compensation Committee with his evaluation of each of the other NEOs, which includes a review of contributions and performance over the prior year, strengths, weaknesses, development plans, succession potential and

compensation recommendations. Our Compensation Committee then makes a final determination of compensation amounts for each NEO with respect to each of the elements of the executive compensation program for actual compensation relative to the preceding year and target compensation for the current year.

Table of Contents

Tally Sheets

Our Compensation Committee reviews tally sheets prepared by management and the Consultant on an annual basis. The tally sheets set forth all components of the NEOs' compensation, including base salary, annual incentive compensation, equity incentive awards, benefits and perquisites, retirement plan accruals and total payments upon various termination scenarios. Our Compensation Committee uses these tally sheets to confirm that it has a full understanding of our NEOs' comprehensive compensation packages.

Tax Policies

Section 162(m) of the Internal Revenue Code limits to \$1 million per year the federal income tax deduction to public corporations for compensation paid for any fiscal year to the CEO and the three most highly compensated executive officers (other than the CFO) as of the end of the fiscal year as determined in accordance with the Exchange Act. This limitation does not apply to qualifying performance-based compensation. Our Compensation Committee has designed our annual incentive compensation awards and performance unit awards to qualify for the performance-based compensation exception to the \$1 million limit. In establishing targets for meeting the performance-based compensation exception, our Compensation Committee anticipated using negative discretion in calculating final incentive payouts. In addition, our NEOs (other than Mr. Spiro) generally are required to defer compensation that would not otherwise be deductible. Due to guidance issued in 2007 by the Internal Revenue Service (IRS), the compensation of Messrs. Spiro and O'Reilly, our Principal Financial Officers for 2008, was not subject to the Section 162(m) limitation on deductibility.

Our Compensation Committee believes that our shareholders are best served by not restricting our Compensation Committee's discretion and flexibility in crafting compensation plans and arrangements, such as annual salaries, restricted stock and RSU awards, even though such plans and arrangements may result in certain non-deductible compensation expenses. Accordingly, our Compensation Committee may from time to time approve elements of compensation for one or more of our NEOs that are not fully deductible and reserves the right to do so in the future, in appropriate circumstances.

Components of Executive Compensation

Our executive compensation program consists of annual and long-term compensation and company-sponsored benefit plans. Each component is designed for a specific purpose and contributes to an overall total compensation package that is competitive, predominantly performance-based and valued by our executives.

Annual Salary

Annual salary is designed to provide a fixed level of compensation to our NEOs based on their skill, background, and market data, as well as to retain their services. Annual salaries are generally targeted at the median of our peer group because we want to provide attractive and competitive levels of base compensation to ensure our ability to attract and retain superior talent. In addition to considering peer group data, individual performance and contributions, our Compensation Committee determines annual salaries based upon the skills, knowledge and competencies of each NEO, as reviewed and recommended annually by Mr. Finnegan (for all NEOs other than himself). Setting of annual salaries is important because each NEO's target annual incentive compensation is then developed based on annual salary levels.

In March 2008, our Compensation Committee reviewed annual salaries for each of our NEOs other than Mr. Spiro. Based upon the above factors (in particular, the achievement of another year of excellent performance), these NEOs, other than Mr. Finnegan, received a 6.20% increase in 2008 annual salary, on average. Messrs. Degnan, Krump, Morrison and Robusto also received salary increases in June 2008 that were commensurate with their respective promotions. Mr. Finnegan's original employment agreement provides for a minimum annual salary of \$1,200,000 per year. In 2005, Mr. Finnegan's annual salary was increased to \$1,275,000, which became his new minimum annual salary pursuant to the terms of his employment agreement. As reflected in Mr. Finnegan's 2008 performance-based compensation payouts, our Compensation Committee determined that Mr. Finnegan's performance placed him at the top of our peer group. However, our Compensation Committee also determined that his

Table of Contents

existing annual salary was competitive with annual salaries paid to other chief executive officers in our peer group. Accordingly, his 2008 annual salary remained at \$1,275,000. Pursuant to his offer letter, the Compensation Committee fixed Mr. Spiro's annual salary at \$750,000 for 2008.

Annual Incentive Compensation

Our Annual Incentive Plan was designed to support our compensation strategy by linking a significant portion of total annual cash compensation to the achievement of critical business goals on an annual basis. All of our salaried employees, including our NEOs, are eligible to participate in the Annual Incentive Plan.

Incentive Opportunity. As discussed under the heading "Compensation Discussion and Analysis - Setting of Executive Compensation," baseline opportunities for annual incentive compensation awards (combined with salary) are generally set at the median for executives with commensurate positions at our peer group of companies. Our Compensation Committee establishes the range of potential payments for Mr. Finnegan's annual incentive compensation based upon its analysis of market data from our peer group of companies and subject to the minimum annual incentive compensation award target of \$1.6 million as provided for in his employment agreement. For the other NEOs, our Compensation Committee establishes the annual incentive compensation payment range after taking into consideration Mr. Finnegan's recommendations and market data from our peer group of companies. For information regarding the potential ranges of awards under the Annual Incentive Plan for our NEOs in 2008, see the information set forth under the heading "Executive Compensation - Grants of Plan-Based Awards."

Performance Goals. For 2008, our Compensation Committee determined that the annual incentive compensation award pool would not be funded unless we achieved 2008 adjusted operating income greater than 50% of our 2007 adjusted operating income. Adjusted operating income refers to net income excluding after-tax realized investment gains and adjusted to account for the loss of investment income attributable to our buyback of shares of our common stock since 2007. Our Compensation Committee determined 2008 actual incentive compensation awards for our NEOs (other than for Mr. Spiro who was guaranteed a bonus in connection with the commencement of his employment in October 2008 as discussed in more detail below) by applying a performance multiplier (established pursuant to a predetermined formula described below) to the NEOs' total baseline opportunities. In March 2008, our Compensation Committee determined that the performance multiplier for our NEOs (other than for Mr. Spiro) would be calculated in two steps.

First, our Compensation Committee determined that 2008 adjusted operating income would be the performance goal utilized in determining the 2008 annual incentive compensation award pool for all participants covered by the Annual Incentive Plan, including the NEOs. This was a continuation of the program that we first implemented in 2007. Our Compensation Committee established adjusted operating income as the performance goal because our Compensation Committee believed that tying annual incentive compensation awards to an operating income goal provided an effective means of directly linking executive compensation to our shareholders' interests. The investment income adjustment (used in calculating adjusted operating income) was premised on the notion that the calculation should not be impacted by our continuing commitment to return capital to shareholders through our share buyback programs. Under the performance goal established by our Compensation Committee, each percentage increase or decrease in 2008 adjusted operating income relative to 2007 adjusted operating income resulted in a proportional increase or decrease in the 2008 annual incentive compensation award pool. For example, if 2008 adjusted operating income was \$2,732.8 million (5% higher than the adjusted operating income in 2007), the actual incentive compensation award pool would be 5% higher than in 2007. Conversely, if 2008 adjusted operating income was \$2,472.5 million (5% lower than the adjusted operating income in 2007), the actual incentive compensation award pool would be 5% lower than the annual incentive compensation award pool in 2007.

Second, our Compensation Committee determined that the performance multiplier for calculating the 2008 annual incentive awards for our NEOs (up to the maximum permitted award) would be derived by dividing the 2008 annual incentive compensation award pool described in the preceding paragraph by the total baseline opportunities for all participants covered by the Annual Incentive Plan. The total baseline opportunities for Messrs. Degnan, Krump, Morrison and Robusto, were increased in June 2008 to reflect their respective promotions.

Table of Contents

Pursuant to his offer letter, Mr. Spiro received a guaranteed cash bonus paid in March 2009 in the amount of \$1.42 million (which would have been reduced to the extent he had received any 2008 bonus from his previous employer) and a cash payment in the amount of \$315,000 paid on his start date of October 1, 2008.

Incentive Payouts. Adjusted operating income in 2008 was \$2.2 billion, which created a 2008 award pool of \$189.3 million. Based upon this award pool and total baseline opportunities, awards to Messrs. Finnegan, O Reilly and Degnan were set at \$3.4 million, \$1.5 million and \$1.8 million, respectively. The bonus amounts paid to these three executives reflect our formulaic approach to calculating bonuses and the Compensation Committee did not make any adjustments based on individual performance.

Our Compensation Committee decided to adjust the formulaic approach for Messrs. Krump, Morrison and Robusto to reflect their respective achievements against pre-established goals in the areas of financial performance, people management and customer service. With these adjustments, the awards to Krump, Morrison and Robusto were set at \$775,000, \$682,000 and \$675,000, respectively.

The incentive payouts for our NEOs who are subject to the \$1 million compensation limit under Section 162(m) of the Internal Revenue Code are below their respective targets established by our Compensation Committee to meet the performance-based compensation exception.

Long-Term Equity Incentive Awards

Equity Incentive Awards. Long-term equity incentive awards made pursuant to the 2004 Employee Plan were designed to support several of our compensation objectives, including:

- placing a significant portion of total compensation at risk;
- linking long-term performance-based awards with shareholder value; and
- retaining our highly-skilled and valued senior management.

All employees at or above the level of Assistant Vice President (approximately 1,700 employees), including our NEOs, participate in our long-term equity incentive award program. Target long-term equity incentive awards are designed to achieve our desired competitive market position of being between the 50th and 75th percentiles of our peer group of companies and are commensurate with the individual's level within our organization. For 2008, the target long-term equity incentive award for Mr. Finnegan was \$7,600,000. The target long-term equity incentive awards for the other NEOs averaged \$1,261,000 (excluding Mr. Spiro as he only received equity as part of his sign-on agreement). These target levels were determined based on analysis of data from our peer group of companies.

Annual equity incentive awards to our NEOs are in the form of performance units and RSUs. Consistent with our emphasis on performance-based compensation, for officers at or above the level of Senior Vice President, including our NEOs, performance units generally constitute 75% of the annual equity award, while RSUs generally constitute the remaining 25%. We believe our emphasis on performance based long-term equity incentive awards is consistent with the practice of our peer group companies.

Our Compensation Committee manages the potential dilutive effect of equity incentive awards by monitoring this run rate—the number of shares granted as a percentage of our fully diluted common shares outstanding—relative to our peer companies. Our Compensation Committee also evaluates guidelines used by certain institutional advisory services and considers advice from the Consultant. Our annual run rate was approximately 0.5% in 2008, which we believe is conservative relative to the practices of our peer group companies. Our conservative run rate is primarily attributable

to the fact that fewer full-value shares are needed to provide a target award value in the form of performance units and RSUs than would be required for an award of stock options as well as our limited participation levels.

Performance Units. Performance units are intended to motivate our senior officers to achieve superior total shareholder return share price appreciation plus reinvested dividends (TSR) versus companies in the Standard & Poor 500 Index (S&P 500) over a three-year performance period. We view the other companies in the S&P 500 as the competition for our shareholders investment dollars. The value of performance units is directly linked to the

Table of Contents

total return delivered to our investors, thus motivating our senior officers to deliver superior returns over an extended performance period. Performance units also support retention, as they are subject to forfeiture if the recipient's employment terminates before the shares are settled for any reason other than death, disability, retirement or with the consent of our Compensation Committee.

The number of performance units earned for each three-year performance period can vary from 0% to 200% of the original target award based on our relative TSR versus S&P 500 companies as follows:

TSR Percentile Ranking	Percent of Target Shares Earned
85 th & higher	200%
50 th	100%
25 th	50%
Below 25 th	0%

For relative performance between the 25th and 85th percentiles, the number of shares earned is determined by multiplying the relative percentile of comparative performance achieved by two. The final dollar value of each recipient's performance unit award is also dependent on the price of our common stock at the end of the three-year performance period, thus providing an additional link to shareholders' interests and providing our senior officers with significant value potential based on our results.

The performance period for the performance units granted in March 2006 ended on December 31, 2008. Our TSR over the performance period was 8.4%, which positioned us at the 84.3 percentile of companies in the S&P 500. Based on the performance scale above, each of our NEOs (other than Mr. Spiro), like all recipients of 2006 performance units who did not forfeit such awards due to termination of their employment, received the number of shares of common stock in February 2009 equal to 168.6% of the respective target number of performance units granted in 2006. Information regarding the vesting of each NEO's respective 2006 performance unit award is set forth under the heading *Executive Compensation* *Option Exercises and Stock Vested*.

The number and grant date fair value of performance units granted to our NEOs in 2008 for the performance period running from January 1, 2008 to December 31, 2010 is set forth under the heading *Executive Compensation* *Grants of Plan-Based Awards*.

RSUs. RSUs are intended to align management's interests with those of our shareholders and serve as a strong retention tool for key employees. Like performance units, RSUs support retention because they generally cliff vest on the third anniversary of the date of grant, provided the recipient remains employed by us over that period. The number and grant date value of RSUs granted to NEOs in 2008 is set forth under the heading *Executive Compensation* *Grants of Plan-Based Awards*.

Stock Options. We discontinued the use of stock options as part of our core long-term equity incentive award program in 2004. However, we still utilize stock option grants as a means of providing tax-efficient equity awards to certain internationally-based employees. In addition, stock options granted to all participants, including participating NEOs, under predecessor plans to the 2004 Employee Plan included a restoration option feature that provides the optionee with the right to receive a restoration stock option upon exercise of the original option if shares are exchanged in a stock-for-stock exercise within seven years of the grant date and our stock price is at least 25% above the exercise price on the exercise date. Restoration stock options are granted on the same date the original stock option award is

exercised, have an exercise price equal to the average of the high and low prices of our common stock on the grant date and have a term equal to the remaining term of the original option.

Equity Grant Practices. Our Compensation Committee approves and grants annual equity awards at its regularly scheduled meeting in the first quarter of each year based on market data from our peer group of companies and recommendations from Mr. Finnegan for the other NEOs. There is no relationship between the timing of equity incentive award grants and our release of material, non-public information. Although our Compensation Committee has the discretion to do so under the 2004 Employee Plan, our Compensation Committee generally does not make interim equity award grants to employees at or above the level of Executive Vice President, including our NEOs. An

Table of Contents

exception was made when we hired Mr. Spiro in 2008. In recognition of Mr. Spiro's loss of equity compensation granted by his previous employer, he was granted an RSU award on October 1, 2008 with a value of approximately \$3.7 million, which vests ratably in three annual installments beginning January 31, 2009.

As discussed under the heading "Corporate Governance - Compensation Committee," our Compensation Committee has delegated authority to Mr. Finnegan to grant equity awards under the 2004 Employee Plan to employees up to and including the level of Senior Vice President pursuant to guidelines that specify the range of award values an employee could receive based on his or her level within our organization. These guidelines are adjusted on a periodic basis as warranted by competitive market conditions. Grants made by Mr. Finnegan pursuant to this authority are effective on the last business day of the month, with the number of shares awarded determined by dividing the award value by the average of the high and low prices of our common stock on the grant date. These grants are reported to our Compensation Committee at its next regularly scheduled meeting following the date of grant.

Restrictive Covenants and Recoupment Provisions. To protect our competitive position, since 2005, individual equity award agreements for each of our employees, including our NEOs, have contained non-disclosure, non-solicitation and invention assignment covenants. In addition, the NEO equity award agreements and those of certain other senior officers contain non-competition provisions. Failure to comply with these provisions, among other potential consequences, results in the forfeiture of unsettled awards. Our Compensation Committee also may require repayment of any awards that are settled within one year prior to the breach of the applicable covenant and within one year after termination of employment. Additionally, we may seek an injunction, restraining order or such other equitable relief restraining the officer from committing any violation of the covenants.

On February 26, 2009, our Board, upon recommendation of our Compensation Committee, approved the adoption of a policy on the recoupment of performance-based compensation in restatement situations. The policy provides that if we are required to restate our financial statements due to material noncompliance with any financial reporting requirement under the securities laws, as a result of misconduct of a senior executive, the independent members of the Board, in their sole discretion, have the right to cause such senior executive to reimburse us for (1) any bonus or other incentive-based or equity-based compensation received by that senior executive during the 12-month period following the first public issuance or filing with the SEC (whichever first occurs) of the financial document embodying such financial reporting requirement; and (2) any profits realized from the sale of our stock during that 12-month period. A senior executive means any of our officers who are subject to Section 16 of the Exchange Act and any of our other officers who the Board designates.

Perquisites

We provide certain executives, including each of our NEOs, with a limited range of perquisites. The incremental cost and valuation of these perquisites for the NEOs is set forth under the heading "Executive Compensation - Summary Compensation Table."

Corporate Aircraft. During 2008, we owned two corporate aircraft and leased a third. Senior executives use these aircraft to minimize and more efficiently utilize their travel time, protect the confidentiality of their travel and our business and enhance their personal security. Our Board also permits Messrs. Finnegan and Degnan, and prior to his retirement, Mr. O'Reilly, limited use of the corporate aircraft for personal travel. The annual personal use of the corporate aircraft for Messrs. Finnegan and Degnan is limited to 35 hours and 20 hours, respectively. Prior to his retirement, Mr. O'Reilly's personal use of the corporate aircraft was also limited to 20 hours.

Automobile Use/Allowance. As required pursuant to his employment agreement, we provide Mr. Finnegan with a car and driver for all of his business travel needs to minimize and more efficiently utilize his travel time and enhance his personal security. Mr. Finnegan's personal use of the car and driver is primarily for his commute to and from the

office. We provide all domestic employees at or above the level of Vice President, including our NEOs other than Mr. Finnegan, a monthly automobile allowance of \$500. Recipients of this benefit bear the applicable income taxes with respect thereto.

Financial Counseling. We offer all of our employees at or above the level of Senior Vice President and who are also in pay band 12 or above, including our NEOs, financial counseling services. These services include income

Table of Contents

tax preparation, portfolio management and estate planning. Recipients of this benefit bear the applicable income taxes with respect thereto.

Company-Sponsored Benefit Plans

We maintain company-sponsored retirement and deferred compensation plans for the benefit of all of our salaried employees, including our NEOs. These benefits are designed to assist employees, including our NEOs, in providing for their financial security and personal needs in a manner that recognizes individual goals and preferences.

Retirement Plans. We maintain the Pension Plan of The Chubb Corporation (the Pension Plan), which is our tax-qualified defined benefit plan, and the Pension Excess Benefit Plan of The Chubb Corporation (the Pension Excess Benefit Plan), which is our nonqualified excess defined benefit plan, to help us attract and retain our employees. Our NEOs participate in the Pension Plan on the same terms and conditions as other employees. Our NEOs participate in the Pension Excess Benefit Plan on the same terms and conditions as other highly compensated employees, except that Mr. Finnegan is entitled to a supplemental pension benefit under his employment agreement (the Pension SERP). Information about our retirement plans is set forth under the heading **Executive Compensation Pension Benefits**.

We also maintain the CCAP, which is a qualified 401(k) savings plan, for all eligible employees. The CCAP provides employees with an opportunity to voluntarily defer pre-tax or after-tax dollars into a 401(k) account. Chubb provides matching contributions on an annual basis equal to the lesser of 4% or the actual percentage deferred by the participant.

Nonqualified Defined Contribution and Deferred Compensation Plans. We maintain The Chubb Corporation Key Employee Deferred Compensation Plan (2005) (the 2005 Deferred Compensation Plan) and The Chubb Corporation Executive Deferred Compensation Plan (collectively, the Deferred Compensation Plans), which are our nonqualified deferred compensation plans for our employees at or above the level of Vice President, including our NEOs, to provide them with additional tools to enhance their retirement planning and wealth management. These plans allow participants to defer receipt, and thus the tax liability, of income (salary, annual incentive compensation and equity compensation) to a later specified date. We also maintain the Defined Contribution Excess Benefit Plan of The Chubb Corporation (the CCAP Excess Benefit Plan), which is our nonqualified excess defined contribution plan, and the CCAP-related supplemental executive retirement plan for Mr. Finnegan pursuant to his employment agreement (the CCAP SERP). None of these plans provide for above-market returns. Information about our nonqualified defined contribution and deferred compensation plans is set forth under the heading **Executive Compensation Nonqualified Defined Contribution and Deferred Compensation Plans**.

Employment and Severance Agreements

In general, it is our Board's policy not to enter into employment agreements with, or provide executive severance benefits to, our executive officers beyond those generally available to our salaried employees, other than the change in control agreements discussed below. As a result, our NEOs serve at the will of our Board. The only exception to this policy is the employment agreement with Mr. Finnegan that we entered into when he was hired in 2002. Our Compensation Committee believed, and continues to believe, that it is in our best interest and the best interests of our shareholders to have a specific compensation package with incentives and guarantees in order to retain Mr. Finnegan's services. A description of, and the amount of the estimated payments and benefits payable to Mr. Finnegan upon a termination of employment under, his employment agreement is set forth under the heading **Executive Compensation Potential Payments upon Termination**.

Change in Control Agreements

Our Board has determined that it is in our best interest and the best interests of our shareholders to assure that we will have the continued dedication of Messrs. Finnegan, Spiro and Degnan in the event of a threat or occurrence of a change in control. Our Board continues to believe that change in control agreements diminish the inevitable distraction of these individuals by virtue of the personal uncertainties and risks created by a pending or threatened

Table of Contents

change in control and encourage their full attention and dedication to our business in the event of any pending or threatened change in control. As such, we have individual change in control agreements with Messrs. Finnegan, Spiro and Degnan. The change in control agreements for Messrs. Spiro and Degnan require both a change in control event as well as a termination event to trigger benefits. A description of, and the amount of the estimated payments and benefits payable upon a change in control under, these agreements is set forth under the heading Executive Compensation Potential Payments upon Termination. Due to Mr. O Reilly's retirement on December 31, 2008, his change in control agreement is no longer in effect. Only Mr. Finnegan's change in control agreement provides for a gross-up payment in connection with the determination that a payment would be subject to the excise tax under Section 280G of the Internal Revenue Code.

Share Ownership Guidelines

Our Board, based upon our Compensation Committee's recommendation, adopted executive share ownership guidelines in 2004. Our Compensation Committee believes that these guidelines promote our objective of increasing shareholder value by encouraging senior officers to acquire and maintain a meaningful equity stake in Chubb.

The guidelines were designed to maintain share ownership at levels high enough to assure our shareholders of our senior officers' commitment to value creation, while taking into account each individual officer's need for portfolio diversification. Under these guidelines, senior officers, including each of our NEOs, are expected, over time, to acquire and hold shares of our common stock equal in value to a multiple of their annual salaries. Owned shares, unvested restricted stock, unvested RSUs, shares allocated in our retirement plans and shares deferred until termination of employment count toward satisfying the guidelines. Unexercised stock options and unearned performance units do not count toward satisfaction of the guidelines. There is a five-year phase-in period beginning on the later of becoming an officer subject to the share ownership guidelines and the date the guidelines were adopted in February 2004. Our current share ownership guidelines are as follows:

Pay Band	Officer Titles Included	Ownership Level
15	Chief Executive Officer	5x Salary
14	Chief Operating Officer/Chief Financial Officer	3x Salary
13	Executive Vice President/Senior Vice President	2x Salary
12	Senior Vice President	1x Salary

Our Compensation Committee reviews the guidelines on a periodic basis and monitors the officers' progress toward meeting their target ownerships levels. The share ownership of our NEOs at the end of 2008 was:

Name	Target Ownership Level	Target Number of Shares⁽¹⁾	Number of Shares Deemed Owned
John D. Finnegan	5x Salary	125,000	480,410
Richard G. Spiro	3x Salary	44,118	72,434
John J. Degnan	3x Salary	48,529	190,794
Paul J. Krump	2x Salary	21,569	72,118
Harold L. Morrison, Jr.	2x Salary	18,824	19,691
Dino E. Robusto	2x Salary	17,647	22,835

- (1) Based on a per share price of \$51.00, which was the closing price of our common stock on December 31, 2008, and the respective salaries of our NEOs as of that date.

As shown in the above table, each of our NEOs has met his required number of shares.

- (1) \$275,000 of Mr. Finnegan's salary for 2008, 2007 and 2006 was deferred under the 2005 Deferred Compensation Plan. Additional information regarding the 2005 Deferred Compensation Plan is set forth under the heading Executive Compensation Nonqualified Defined Contribution and Deferred Compensation Plans. For 2008, salaries earned by our NEOs account for the following percentages of their total compensation: Mr. Finnegan (7.6%), Mr. Spiro (5.8%), Mr. O'Reilly (9.1%), Mr. Degnan (11.6%), Mr. Krump (22.0%), Mr. Morrison (20.3%) and Mr. Robusto (20.4%).
- (2) Pursuant to his offer letter, Mr. Spiro received a guaranteed cash bonus in the amount of \$1,420,000 paid in March 2009 (which would have been reduced to the extent he had received any 2008 bonus from his previous employer) and a cash payment in the amount of \$315,000 paid on his start date of October 1, 2008.
- (3) The grant date fair values of the RSUs, restricted stock and performance unit awards are estimated based on the fair market value of our common stock on the date of grant. The fair value of the performance unit awards is adjusted to reflect (i) the anticipated appreciation of our common stock over the performance period and (ii) that these awards do not receive dividend equivalents during such period. For the 2008, 2007 and 2006 performance unit awards granted to our retirement-eligible NEOs (Messrs. O'Reilly and Degnan), amounts recognized equal the full grant date fair value for the grants made to such NEOs, as required pursuant to FAS 123R. Information regarding our FAS 123R calculations is set forth in footnote 12 to the financial statements included in the 2008 10-K. For additional details regarding equity expensing see the information set forth under the heading Equity Award Expense Amortization.
- (4) In 2004, we eliminated stock options from our core long-term equity incentive program. Amounts in this column reflect the dollar amount recognized for financial statement reporting purposes during 2008, 2007 and 2006 for each of Messrs. Finnegan (2006 only), O'Reilly (2008 and 2007), and Krump (2007 and 2006) as computed pursuant to FAS 123R, in respect of non-discretionary restoration stock options granted to Messrs. Finnegan, O'Reilly and Krump, respectively, upon their exercise of vested stock options. The restoration stock option feature is described under the heading Compensation Discussion and Analysis Components of Executive Compensation. Restoration stock options are fully vested on the grant date. Accordingly, the grant date fair value of these awards is the same as the amount of compensation expense we reflect in our financial statements with respect to

Table of Contents

these awards. The grant date fair value of each restoration stock option was estimated using the Black-Scholes option pricing model. Information regarding our FAS 123R calculations is set forth in footnote 12 to the financial statements included in the 2008 10-K.

- (5) Reflects 2008, 2007 and 2006 incentive compensation paid in March 2009, March 2008 and March 2007, respectively, under our Annual Incentive Plan. Additional information regarding annual incentive compensation is set forth under the headings Compensation Discussion and Analysis Components of Executive Compensation and Executive Compensation Grants of Plan-Based Awards.
- (6) Reflects solely the aggregate change in pension value for 2008 under our defined benefit plans as follows: Mr. Finnegan's benefits under the Pension Plan, Pension Excess Benefit Plan and Pension SERP, \$14,305, \$275,167 and \$4,122,895, respectively; Mr. O'Reilly's benefits under the Pension Plan and Pension Excess Benefit Plan, \$183,434 and \$2,257,311, respectively; Mr. Degnan's benefits under the Pension Plan and Pension Excess Benefit Plan, \$89,912 and \$1,334,745, respectively; Mr. Krump's benefits under the Pension Plan and Pension Excess Benefit Plan, \$57,697 and \$464,783, respectively; Mr. Morrison's benefits under the Pension Plan and Pension Excess Benefit Plan, \$64,010 and \$499,227, respectively; and Mr. Robusto's benefits under the Pension Plan and Pension Excess Benefit Plan, \$56,774 and \$375,346, respectively. Since Mr. Spiro joined us on October 1, 2008, he has not accrued any benefits under the Pension Plan or Pension Excess Benefit Plan. Information regarding our calculations of pension values is set forth in footnote 13 to the financial statements included in the 2008 10-K.
- (7) The following table reflects the components for the All Other Compensation column for 2008:

Dino E. Robusto		7,750	6,000	33,321	47,071	

(a) The incremental cost of the personal use of corporate aircraft expense for each of the NEOs is calculated by multiplying the direct operating cost per hour by the NEO's personal use hours. Direct operating cost of the aircraft is comprised of fuel, landing/parking fees, crew fees and expenses, custom fees, flight services/charts, variable maintenance costs, catering, aircraft supplies and other miscellaneous expenses.

(b) The incremental cost of financial planning represents the actual cost incurred by us.

(c)

The incremental cost to us relating to automobile expense is the amount of the automobile allowance provided to our NEOs (other than Mr. Finnegan). The incremental cost of Mr. Finnegan's automobile and driver was calculated by multiplying the variable expenses of owning and operating the car that Mr. Finnegan uses by the personal use percentage of the total vehicle miles in 2008. The variable expenses are comprised of gas, maintenance, driver overtime and miscellaneous driving expenses. Mr. Finnegan's personal use percentage for 2008 was approximately 19.7% of the total vehicle miles.

- (d) Reflects 2008 matching contributions under the CCAP and the CCAP Excess Benefit Plan. For Mr. Degnan \$1,425 represents a Qualified Non-elective Contribution (QNEC). None of the other NEOs were eligible for the QNEC.

As stipulated in Mr. Finnegan's employment agreement, we pay the club dues and membership fees associated with his country club membership but do not recognize any incremental cost due to his personal use because club dues and membership fees are generally fixed. For 2008, the club dues and membership fees were \$11,325. Mr. Finnegan paid income tax on his personal use of the country club and any additional costs resulting from his personal use were paid directly by him.

- (8) Mr. O'Reilly retired effective December 31, 2008.

- (1) Represents the range of potential awards to each NEO under our Annual Incentive Plan. The plan is designed so that the Compensation Committee can apply negative discretion to annual awards of each NEO. Maximum awards reflect the maximum annual incentive compensation awards established by our Compensation Committee pursuant to Section 162(m) of the Internal Revenue Code. Information regarding the actual payouts under the Annual Incentive Plan is set forth in the Non-Equity Incentive Plan Compensation column of the table included under the heading Executive Compensation Summary Compensation Table. Information regarding the structure of the Annual Incentive Plan is set forth under the heading Compensation Discussion and Analysis Components of Executive Compensation.
- (2) Represents payouts under the Annual Incentive Plan assuming that 2008 adjusted operating income was 50% of 2007 adjusted operating income. No payouts would have been awarded if 2008 adjusted operating income had been less than 50% of 2007 adjusted operating income.
- (3) Represents grants to each NEO other than Mr. Spiro during 2008 of performance units under our 2004 Employee Plan. Performance units are earned, if at all, based on our TSR over a three-year performance period relative to the TSR over the same period for the companies in the S&P 500 Index. No dividend equivalents are paid on performance unit awards during the performance period. Information regarding performance targets, vesting and additional performance unit award details are set forth under the heading Executive Compensation Components of Executive Compensation.
- (4) Represents RSU grants to each NEO during 2008. Except in the case of Mr. Spiro, the RSUs will vest, subject to continued employment, on the third anniversary of the grant date. RSUs pay dividend equivalents at the same time and in the same amount as dividends are paid on our common stock. Pursuant to his offer letter, Mr. Spiro received an RSU award of 72,434 units valued at approximately \$3.7 million on the date of grant. The RSU award will vest ratably in three annual installments beginning January 31, 2009. Additional information

regarding RSUs is set forth under the heading Executive Compensation Components of Executive Compensation.

- (5) Represents restoration stock option grants to Mr. O Reilly during 2008. The restoration stock options were fully vested on the grant date. Additional information regarding restoration stock option grants is set forth under the heading Executive Compensation Components of Executive Compensation.
- (6) Pursuant to the terms of the predecessor plans to the 2004 Employee Plan under which these restoration stock options were granted, the exercise price is calculated based on the average of the high and low prices of our common stock on the date of grant. For Mr. O Reilly, the average of the high and low prices resulted in lower exercise prices than if we had used the closing price of our common stock on the date of grant.
- (7) Represents full grant date fair value of stock awards and restoration stock option awards granted to each NEO in 2008, as computed in accordance with FAS 123R. The grant date fair value of each stock award is estimated based on the fair market value of our common stock on the date of grant adjusted, in the case of performance units, to reflect (i) the anticipated appreciation of our common stock over the performance period and (ii) that these awards do not receive dividend equivalents during the performance period. The grant date fair value of each restoration stock option was estimated using the Black-Scholes option pricing model. Information regarding our FAS 123R calculations is set forth in footnote 12 to the financial statements included in the 2008 10-K.

Pension Benefits

Pension Plan

Our eligible employees, and certain eligible employees of our subsidiaries, participate in the Pension Plan. Our NEOs participate on the same terms and conditions as other eligible employees, except as noted below. The Pension Plan, as in effect during 2008, provides each eligible employee with annual retirement income beginning at age 65 equal to the product of:

the total number of years of participation in the Pension Plan; and

13/4% of average compensation for the highest five years in the last ten years of participation prior to retirement during which the employee was most highly paid or, if higher, the last 60 consecutive months (final average earnings).

Average compensation under the Pension Plan includes salary and annual incentive compensation. A social security offset is subtracted from this benefit. The social security offset is equal to the product of:

the total number of years of participation in the Pension Plan (for years prior to February 1, 2008, this number was capped at 35 years); and

an amount related to the participant's primary social security benefit.

Benefits can commence as early as age 55. However, if pension benefits commence prior to age 65, they may be actuarially reduced. The reduction in the gross benefit (prior to offset for social security benefits) is based on the participant's age at retirement and years of Pension Plan participation as follows:

If the participant has at least 25 years of Pension Plan participation, benefits are unreduced at age 62. They are reduced 2.5% per year from 62 to 60 (5% reduction at 60) and 5% per year from 60 to 55 (30% reduction at 55).

If the participant has at least 15 but less than 25 years of Pension Plan participation, benefits are unreduced at age 65. They are reduced 2% per year from 65 to 62 (6% reduction at 62) and 4% per year from 62 to 61 (10% reduction at 61) and 5% per year from 61 to 55 (40% reduction at 55).

If the participant has less than 15 years of Pension Plan participation, or if the participant terminates employment with us before age 55, benefits are unreduced at age 65. They are reduced 6.67% per year from 65 to 60 (33.3% reduction at 60) and 3.33% per year from 60 to 55 (50% reduction at 55).

The participant's social security benefit is reduced based on factors relating to the participant's year of birth and age at retirement.

Benefits are generally paid in the form of an annuity. If a participant retires and elects a joint and survivor annuity, the Pension Plan provides a 10% subsidy. The portion of the benefit attributable to the cash balance account, as described in the following paragraph, may be paid in the form of a lump sum upon termination of employment.

Effective January 1, 2001, we amended the Pension Plan to provide a cash balance benefit, in lieu of the benefit described above, to reduce the rate of increase in the Pension Plan costs. This benefit provides for a participant to receive a credit to his or her cash balance account every six months. The amount of the cash balance credit increases as the sum of a participant's age and years of service credit increases from 2.5% to 5% of compensation. The maximum credit of 5% of compensation (subject to the maximum limitation on compensation permitted by the Internal Revenue Code) earned over the preceding six months is made when the sum of a participant's age and years of service credit equals or exceeds 55 (which is the case for each NEO). Amounts credited to a participant's cash balance account earn interest at a rate based on the 30-year U.S. treasury bond rate. Participants who were hired by us prior to January 1, 2001 (including Messrs. Degan, O'Reilly, Krump, Morrison and Robusto) will receive a benefit under the Pension Plan equal to the greater of the pension benefit described in the preceding paragraphs or the amount calculated under the cash balance formula.

Table of Contents

ERISA and the Internal Revenue Code impose maximum limitations on the recognized compensation and the amount of a pension which may be paid under a funded defined benefit plan such as the Pension Plan. The Pension Plan complies with these limitations.

Pension Excess Benefit Plan

We also maintain the Pension Excess Benefit Plan, which is a supplemental, nonqualified, unfunded plan. The Pension Excess Benefit Plan uses essentially the same benefit formula, early retirement reduction factors and other features as the Pension Plan, except that the Pension Excess Benefit Plan recognizes compensation (salary and annual incentive plan compensation) above IRS compensation limits. The Pension Excess Benefit Plan also recognizes deferred compensation for purposes of determining applicable retirement benefits. Benefits under both the Pension Plan and the Pension Excess Benefit Plan are provided by us on a noncontributory basis.

Benefits payable under the Pension Excess Benefit Plan are generally paid in the form of a lump sum, calculated using an interest discount rate of 5%. However, the portion of the benefit that was earned and vested as of December 31, 2004 may be payable in certain other forms, including installment payments and life annuities, if properly elected by the participant and if the participant satisfies the requirements of the Pension Excess Benefit Plan.

Pension SERP Mr. Finnegan

Under the terms of Mr. Finnegan's employment agreement, he is entitled to a Pension SERP, which provides a nonqualified and unfunded benefit in addition to those provided under the Pension Plan and the Pension Excess Benefit Plan. The benefit will equal 6% of his final average compensation for each full year of service up to a maximum of 60% of final average compensation offset by benefits under the Pension Plan and Pension Excess Benefit Plan, previous employer pension benefits and social security benefits. The Pension Plan provisions described above with respect to the early retirement discount and joint and survivor benefits apply to the Pension SERP. Under the Pension SERP, Mr. Finnegan's compensation means the sum of his annual salary plus annual incentive compensation earned for the relevant year (whether or not any such compensation is deferred).

Pension Benefits Table

The following table sets forth information regarding participation by our NEOs in our pension plans as of December 31, 2008:

(1) Represents the present value of the NEO's accumulated pension benefit computed as of the same Pension Plan measurement date we used for 2008 financial statement reporting. The following actuarial assumptions were used:

Interest discount rate: 6.00%;
 Future interest crediting rate on cash balance accounts: 5.00%;
 Mortality table: 2008 PPA separate static annuitant and non-annuitant mortality tables; and
 Payment Form:

 Pension Excess Benefit Plan 100% take benefit as a lump sum; and
 Pension SERP lump sum.

- (2) The figures shown in the table above assume retirement benefits commence at the earliest unreduced retirement age, reflecting the assumptions described in the preceding footnote. However, if the NEO's employment terminated or he retired on December 31, 2008 (which is the assumption underlying the figures set forth in the Voluntary Resignation/Retirement column in the tables under the heading Executive Compensation Potential Payments upon Termination), and plan benefits were immediately payable as lump sums (calculated using the 5% discount rate specified in the plans), the Pension Excess Benefit Plan and Pension SERP benefits, as applicable, would have been as follows:

Name	Plan Name	Lump Sum Amount
John D. Finnegan	Pension Excess Benefit Plan	\$ 1,030,612
	Pension SERP	17,213,426
Richard G. Spiro	Pension Excess Benefit Plan	0
Michael O. Reilly	Pension Excess Benefit Plan	11,628,071
John J. Degnan	Pension Excess Benefit Plan	5,091,578
Paul J. Krump	Pension Excess Benefit Plan	1,887,912
Harold L. Morrison, Jr.	Pension Excess Benefit Plan	1,356,265
Dino E. Robusto	Pension Excess Benefit Plan	1,010,179

- (3) The amount payable from the Pension Plan will be offset by the benefit payable from the Pension Plan for Employees of Chubb Insurance Company of Canada, under which Mr. Robusto is no longer accruing additional service. The amount is estimated to be C\$14,407 per year commencing at age 65. In addition to the amounts shown above, Mr. Robusto also is entitled to a benefit from the Supplemental Income Plan for Employees of Chubb Insurance Company of Canada in the amount of C\$1,800 per year commencing at age 65.

Nonqualified Defined Contribution and Deferred Compensation Plans***Deferred Compensation Plans***

Pursuant to the Deferred Compensation Plans, we provide certain of our employees, including our NEOs, with the opportunity to electively defer the payment of certain components of compensation (annual salary, annual incentive compensation, RSUs and performance unit awards) that would otherwise be payable to them. Deferred RSUs and performance unit awards are deemed to be invested in our common stock. Deferred annual salary and annual incentive compensation are credited with earnings based on the deemed returns that would have been received had such amounts been invested in one of the investment options available under the Deferred Compensation Plans that are generally available for investment in the marketplace and as selected by the participant. Dividends on deferred RSUs and performance unit awards are treated the same as an annual salary or annual incentive compensation deferral. The investment options available under the Deferred Compensation Plans are the same as those investment alternatives that are available under the CCAP Plan except for the Chubb Stock Fund. Investment elections may be changed by the

participant at any time, at his or her discretion.

CCAP Excess Benefit Plan

We also maintain the CCAP Excess Benefit Plan which is a supplemental, nonqualified, unfunded excess defined contribution plan. The CCAP Excess Benefit Plan recognizes compensation in excess of IRS limits for the CCAP and provides the participants with the applicable company match on eligible compensation. Matching

Table of Contents

contributions for each of the NEOs equal 4% of plan compensation. Each of our NEOs has elected to defer receipt of matching contribution amounts attributable to the CCAP Excess Benefit Plan. Balances are invested in the Fidelity Stable Value Fund, which is one of the investment funds available under the CCAP. For 2008, the Fidelity Stable Value Fund had a 4.54% return.

CCAP SERP Mr. Finnegan

Mr. Finnegan's employment agreement also provides that he is entitled to the CCAP SERP. The CCAP Excess Benefit Plan, like the CCAP, requires a one-year waiting period before a participant becomes eligible for our company matching contributions and has a six-year graded vesting schedule. Mr. Finnegan's employment agreement, however, provides that he is entitled to the matching contributions for eligible deferrals from his employment date and provides that the CCAP SERP will pay any otherwise unvested company match dollars forfeited under the CCAP and CCAP Excess Benefit Plan if his employment with us terminates prior to his becoming being 100% vested. Amounts credited to the CCAP SERP account earn 5% interest per annum.

ESOP Excess Benefit Plan

In 2004, we merged the Employee Stock Ownership Plan (the ESOP) and the ESOP Excess Benefit Plan into the respective CCAP and CCAP Excess Plans. No new shares or contributions are credited to balances under the ESOP and the ESOP Excess Benefit Plan. Annual earnings for the ESOP Excess Benefit Plan include only the change in account balance attributable to change in stock price and any dividends.

ESOP SERP Mr. Finnegan

Mr. Finnegan's employment agreement also provides that he is entitled to the ESOP SERP. The ESOP and ESOP Excess Benefit Plan included a one-year waiting period prior to entry as well as five years of vesting service. Mr. Finnegan's employment agreement, however, provides that he was credited with an amount equal to the stock that he would have been entitled under the ESOP and ESOP Excess Benefit Plan from his date of employment and provides that the ESOP SERP account is immediately vested and the balance credited thereunder earns 5% interest per annum.

Nonqualified Defined Contribution and Deferred Compensation Table

The following table sets forth information regarding participation by our NEOs in our nonqualified defined contribution and deferred compensation plans as of December 31, 2008:

Mr. Finnegan's amount also includes the deferral of \$275,000 of his 2008 annual salary. This amount is included in the Salary column of the table set forth under the heading Executive Compensation Summary Compensation Table. All of these deferrals were made under the 2005 Deferred Compensation Plan.
- (2) Represents the company match for the CCAP Excess Benefit Plan.

(b) For Mr. Finnegan, represents ESOP Excess earnings of (\$6,685) and ESOP SERP earnings of \$3,888. For all other participants represents ESOP Excess benefit only.

(4) Represents dividends paid on deferred vested RSUs for Messrs. Finnegan and Degnan.

Potential Payments upon Termination or a Change in Control***Accrued Compensation and Benefits***

As of December 31, 2008, each of our NEOs was fully vested in the amounts set forth under the heading Executive Compensation Pension Benefits and the amounts set forth under the heading Executive Compensation Nonqualified Defined Contribution and Deferred Compensation Plans. In addition, at that date, each NEO was entitled to receive all earned but unpaid salary, other vested long-term equity awards (as set forth under the heading Executive Compensation Outstanding Equity Awards at Fiscal Year-End and the other applicable tables set forth under the heading Executive Compensation), amounts held in his account under the CCAP and employee welfare plans. During 2008, Mr. O Reilly retired and his termination of employment was treated in the same manner as retirements of our other retirement-eligible salaried employees.

Termination Events

Disability or Death. With the exception of Mr. Finnegan, a termination of employment due to disability or death does not entitle our NEOs to payments or benefits that are not generally available to salaried employees.

Equity Awards. With respect to equity awards, under the terms of the 2004 Employee Plan, upon the disability or death of a participant, including each of our NEOs, the participant or the participant's estate, as applicable, would receive pro-rata vesting of the unvested portion of outstanding RSUs and continuation of the exercise period within

which the participant or the participant's estate may exercise outstanding options through the stated expiration date of such options. With respect to performance unit awards, if a participant's employment terminates due to disability or death on or after the completion of the first calendar year of any performance period, the participant or the participant's estate, as applicable, would receive all of the performance units for the performance period that would have been earned had the participant continued employment for the full period (with payments contingent on our relative TSR over the performance period).

Mr. Finnegan. In addition to the equity vesting provisions described in the preceding paragraph, Mr. Finnegan's employment agreement calls for us to provide him with a death benefit equal to five times his annual salary as of the time of his death. We provide all of our salaried employees, including Mr. Finnegan, with cash in an amount equal to the premiums associated with the cost of life insurance coverage for the employee's annual salary under our group life plan. The remainder of Mr. Finnegan's death benefit (four times his annual salary) is in the form of an unsecured, uninsured claim against our general corporate assets. In the event of Mr. Finnegan's

Table of Contents

disability, his employment agreement provides that he is entitled to receive a disability benefit equal to 60% of his annual salary as of the date of disability until he reaches age 65. We provide this coverage in the form of an unsecured, uninsured disability benefit. Mr. Finnegan's employment agreement also provides that he or his estate, as applicable, would be entitled to a pro-rata portion of the annual incentive compensation award he would have received for the year of his disability or death. For purposes of Mr. Finnegan's employment agreement, disability means Mr. Finnegan's inability to perform his duties on a full-time basis for six consecutive months as a result of incapacity due to mental or physical illness.

Retirement. Mr. Degnan is eligible for retirement under many of our compensation and benefit plans and arrangements. Accordingly, other than in connection with a termination for cause or a change in control, the termination of employment of Mr. Degnan would be treated as a retirement, as is the case for all of our retirement-eligible salaried employees. As such, pursuant to the terms of the 2004 Employee Plan and its predecessor plans, upon termination of his employment, other than for cause or in connection with a change in control, Mr. Degnan would receive pro-rata vesting of the unvested portion of outstanding RSUs, continued vesting of all performance units for which the first calendar year of the performance period has been completed (with payments contingent on actual performance for the performance period). Mr. O'Reilly's retirement during 2008 was treated in the same manner as retirements of our other retirement-eligible salaried employees under our compensation and benefit plans and arrangements.

For Cause Termination. Under Mr. Finnegan's employment agreement, in the event of his termination for cause, he is entitled to receive retiree health benefits pursuant to our retiree health plans that would be available to an employee with 32 years of service with us. None of our other NEOs is entitled to any additional payments or benefits, and each of our NEOs would forfeit his unvested equity awards, in the event we terminate his employment for cause. Under the 2004 Employee Plan, cause means:

the willful failure of a participant to perform his or her employment-related duties or gross negligence in the performance of such duties;

a participant's willful or serious misconduct that has caused or could reasonably be expected to result in material injury to our business or reputation;

a participant's indictment for a crime constituting a felony; or

a material breach by a participant of any written covenant or agreement with us or any of our written policies.

The 2004 Employee Plan provides that the definition of cause in an employment or severance agreement will govern in lieu of the foregoing definition. Accordingly, the definition of cause in Mr. Finnegan's employment agreement applies to Mr. Finnegan for purposes of the 2004 Employee Plan. Therefore, in his case, cause means:

Mr. Finnegan's willful and continued failure to perform his duties under the terms of his employment agreement;

Mr. Finnegan's willful engagement in any malfeasance, fraud, dishonesty or gross misconduct in connection with his position as our President and Chief Executive Officer or as a member of our Board that causes us material damage;

Mr. Finnegan's conviction of, or plea of guilty or nolo contendere to, a felony; or

Mr. Finnegan's breach of certain representations, warranties and covenants contained in his employment agreement that materially damage or could reasonably be expected to materially damage us.

Voluntary Resignation. Messrs. Spiro, Krump, Morrison and Robusto are not entitled to any payments or benefits that are not available to salaried employees generally upon voluntary resignation. As discussed above, Mr. Degnan is retirement-eligible for purposes of many of our plans. Accordingly, a resignation by Mr. Degnan would be treated as a retirement under such plans. Under Mr. Finnegan's employment agreement, in the event of his voluntary resignation, he is entitled to receive retiree health benefits pursuant to our retiree health plans that would be available to an employee with 32 years of service with us.

Table of Contents

Involuntary Termination without Cause. Except for Mr. Finnegan and as discussed below for Messrs. Spiro and Degnan in connection with a change in control, neither a termination of employment by us without cause nor a demotion or other constructive termination would entitle our NEOs to any payments or benefits that are not available to salaried employees generally. The severance policy applicable to all of our salaried employees generally provides two weeks of severance pay for each year of service up to a maximum of 52 weeks. As discussed above, Mr. Degnan is retirement-eligible for purposes of many of our plans. Accordingly, an involuntary termination by Mr. Degnan without cause would be treated as a retirement under such plans. As mentioned above, Mr. O Reilly retired during 2008.

Mr. Finnegan's employment agreement provides that, upon the termination of his employment without cause, his constructive termination or in the event we elect not to renew his employment agreement in accordance with its terms, he is entitled to receive the following benefits beyond those generally available to our salaried employees:

current annual salary (without proration)

pro-rated annual incentive compensation for the year of his termination;

a severance payment equal to the sum of up to 2.5 times (with the 2.5 multiple being subject to reduction as described below) the sum of his then-current annual salary and the average amount of his annual incentive compensation paid in the preceding three years;

up to 2.5 years of additional age and service credit for purposes of his supplemental retirement benefits (with the 2.5 multiple being subject to reduction as described below);

up to 2.5 years of continued health and welfare benefits (with the 2.5 multiple being subject to reduction as described below) under our employee welfare plans and then retiree benefits; and

if any payments or benefits that Mr. Finnegan receives are subject to the excise tax imposed under Section 4999 of the Internal Revenue Code on golden parachute payments, an additional payment to him to restore him to the after-tax position that he would have been in if the excise tax had not been imposed.

In addition, any outstanding equity awards would accelerate and vest in full (subject to the achievement of the performance goals in the case of performance units) and his stock options would continue to be exercisable until the earlier of the fifth anniversary of the date of termination of his employment or the expiration of the option term.

In the case of our non-renewal of his employment agreement only, the 2.5 multiplier decreases by 0.5 when Mr. Finnegan attains age 58 and decreases by an additional 0.5 on each of anniversary of such date so that when Mr. Finnegan turns 62, this multiplier will be zero. In addition, the obligation to continue to provide health and welfare benefits would cease if Mr. Finnegan receives such benefits from a new employer. As of December 31, 2008, Mr. Finnegan's severance multiplier was equal to 2.5 because there has been no non-renewal of his employment agreement.

Under Mr. Finnegan's employment agreement, constructive termination means his voluntary termination of employment following:

a reduction in Mr. Finnegan's annual salary or target annual incentive compensation;

our failure to appoint Mr. Finnegan as our President and Chief Executive Officer and as a member of our Board or his removal from any of these positions;

a material diminution in Mr. Finnegan's duties or responsibilities or the assignment to him of duties or responsibilities materially inconsistent with his position and status as our President and Chief Executive Officer;

a material change in Mr. Finnegan's reporting relationship so that he no longer reports solely to our Board in his positions as President and Chief Executive Officer;

our breach of any of material obligations to Mr. Finnegan under the terms of his employment agreement;

Table of Contents

our breach of certain representations, warranties and covenants set forth in Mr. Finnegan's employment agreement; or

our requiring that Mr. Finnegan's principal location of employment to be at any office or location more than 50 miles from our corporate headquarters in Warren, New Jersey.

Mr. Finnegan's employment agreement requires Mr. Finnegan to comply with confidentiality, non-competition and non-solicitation covenants. The non-competition and non-solicitation provisions run during the term of Mr. Finnegan's employment through the second anniversary of the termination thereof.

Change in Control

Equity Awards. Under the terms of the 2004 Employee Plan, if outstanding equity awards are assumed by an acquirer in accordance with the terms of the 2004 Employee Plan, the awards would remain outstanding and vesting would not accelerate unless the employee was terminated without cause or experienced a constructive termination. In the event of a change in control in which the acquirer did not assume outstanding equity awards in accordance with the 2004 Employee Plan, RSUs would immediately vest in full (but paid out in accordance with the terms of the awards) and performance unit awards would become earned and payable at 100% of the applicable target award. These provisions would apply to the outstanding RSUs and performance unit awards held by Messrs. Spiro, O'Reilly, Degnan, Krump, Morrison and Robusto as of December 31, 2008. The impact of a change in control on Mr. Finnegan's equity awards is discussed below. For purposes of the 2004 Employee Plan, a change in control is defined as:

the acquisition of 20% or more of our shares by any person;

a change in a majority of the members of our Board due to a proxy contest or tender or exchange offer; or

a merger, reorganization or similar transaction (including a sale of substantially all assets), where our shareholders immediately prior to such transaction do not control more than 50% of the surviving entity immediately after the transaction.

Mr. Finnegan. Upon the occurrence of a change in control (as defined below), Mr. Finnegan's employment agreement would be superseded by his change in control employment agreement with us. Mr. Finnegan's change in control employment agreement provides generally that the terms and conditions of his employment (including position, location and benefits) may not be adversely changed during the three-year period after a change in control. The change in control employment agreement contains a double trigger mechanism such that (i) if a change in control occurs, and (ii) Mr. Finnegan's employment is terminated (other than for cause, death or disability), or constructively terminated, during the three-year period following a change in control, Mr. Finnegan would be entitled to receive:

pro-rated annual incentive compensation through the date of termination for the year in which the termination of employment occurs;

three times the sum of his then-current annual salary and highest annual bonus over the past three years, including any bonus payable for the current year;

three years of additional age and service credit for purposes of the supplemental retirement benefits;

three years of continued health and welfare benefits (or, if shorter, until a new employer provides these benefits) under our employee welfare plans and thereafter retiree benefits;

up to \$100,000 of outplacement services; and

if any payments or benefits that Mr. Finnegan receives are subject to the excise tax imposed under Section 4999 of the Internal Revenue Code on golden parachute payments, an additional payment to him to restore him to the after-tax position that he would have been in if the excise tax had not been imposed.

Table of Contents

In addition, any outstanding equity awards would vest and his stock options would continue to be exercisable until the earlier of the fifth anniversary of the date of termination of his employment or the expiration of the option term. Mr. Finnegan also is entitled to reimbursement for legal fees he incurs as a result of the termination of his employment.

For purposes of Mr. Finnegan's change in control employment agreement, change in control means:

the acquisition of 20% or more of our outstanding common stock by any person;

continuing directors (or their approved successors) ceasing to constitute a majority of our Board;

a merger, reorganization or similar transaction (including a sale of substantially all assets), where our shareholders immediately prior to such transaction do not control more than 50% of the surviving entity immediately after the transaction; or

shareholder approval of any plan or proposal for our liquidation or dissolution.

Mr. Finnegan's change in control employment agreement requires Mr. Finnegan to comply with confidentiality, non-competition and non-solicitation covenants. The non-competition and non-solicitation provisions run during the term of Mr. Finnegan's employment through the second anniversary of the termination thereof.

Messrs. Spiro, Degnan and O Reilly. In addition to the above terms with respect to equity awards, we have entered into change in control agreements with Messrs. Spiro and Degnan. Mr. O Reilly's change in control agreement ceased to be effective after December 31, 2008 due to his retirement. The agreements with Messrs. Spiro and Degnan come into effect in the event that the employment of any of these individuals is terminated (other than as a result of death, disability, retirement, voluntary termination by the individual or for cause) or is constructively terminated within two years after the effective date of the change in control (as defined below). Upon actual or constructive termination following a change in control, the affected individual is entitled to receive a severance payment equal to two times the sum of:

the individual's then-current annual salary; and

the average amount of the individual's annual incentive compensation for the last three years;

provided that the amount of the severance payment cannot exceed the amount the individual would have received had he remained in our employment until his normal retirement age under the Pension Plan. In addition to severance, the individual also is entitled to reimbursement for legal fees incurred by the individual as a result of the termination and continuation of health and other welfare benefits for a period of two years after the date of termination. Neither agreement provides for a gross-up of any excise taxes that might be triggered by these payments.

For purposes of Mr. Spiro's agreement, the definition of a change in control is the same definition of a change in control used in the 2004 Employee Plan.

For purposes of both agreements with Messrs. Spiro and Degnan, cause means:

the individual's willful and continued failure to perform his duties;

the individual's willful engagement in misconduct which is materially injurious to us.

For purposes of Mr. Degnan's agreement, a change in control means:

following a tender or exchange offer, a proxy contest or a merger, consolidation or sale of substantially all of our business or our assets, the members of our Board immediately prior to the event do not constitute a majority of our Board following such event and for one year thereafter; or

any person acquires more than 25% of our outstanding common stock.

For purposes of both agreements with Messrs. Spiro and Degnan, constructive termination means the individual's voluntary termination of employment following the occurrence of certain events, including:

the assignment to the individual, without his express written consent, of any duties inconsistent with his positions, duties, responsibilities, authority and status immediately prior to the change in control;

Table of Contents

a change in reporting responsibilities, titles or offices as in effect immediately prior to the change in control or any removal of, or any failure to re-elect, the individual to any of such positions, except in limited circumstances;

a reduction in the individual's annual salary as in effect at the time of the change in control;

our failure to continue the individual's participation in certain compensation plans in effect at the time of the change in control; or

our requiring the individual to maintain his principal office or conduct his principal activities anywhere other than our corporate headquarters located within the New York Metropolitan area (including Warren, New Jersey).

Messrs. Krump, Morrison and Robusto. Messrs. Krump, Morrison and Robusto are not entitled to any payments or benefits beyond those available to salaried employees generally upon a change in control.

Estimate of Incremental Potential Payment

The following tables quantify the additional payments and benefits under the compensation and benefit plans and arrangements to which our NEOs would be entitled upon termination of employment on December 31, 2008 under the termination scenarios described above that are beyond those generally available to our salaried employees. Because the payments to be made to an NEO depend on several factors, the actual amounts to be paid out upon a triggering event can only be determined at the time of the triggering event.

- (1) Figure included in the **Death** column represents an incremental death benefit of four times annual salary as of December 31, 2008 (\$1,275,000). Figure included in the **Disability** column represents the present value of payments equal to 60% of annual salary until age 65. Figure included in the **Involuntary Termination** column represents a multiple of annual salary as of December 31, 2008 and the average of Mr. Finnegan's last three annual incentive compensation awards (\$3,016,833). Figure included in the **Involuntary Termination or Constructive Termination after Change in Control** column represents a multiple of annual salary and the highest of his last three annual incentive compensation awards (\$3,569,900).
- (2) These amounts do not include any amounts attributable to Mr. Finnegan's 2008 annual incentive compensation award to be paid in March 2009 and disclosed under the heading **Executive Compensation Summary Compensation Table**.
- (3) Reflects fair market value of accelerated unvested RSUs based on our closing stock price of \$51.00 per share on December 31, 2008. Figure included in the **Change in Control** column assumes the RSUs were not assumed by the acquirer.

Table of Contents

- (4) Reflects fair market value of accelerated unearned performance units based on our closing stock price of \$51.00 per share on December 31, 2008. In the case of a termination of Mr. Finnegan's employment without cause or due to death or disability, the number of performance units that vest would be based on our actual performance at the end of the performance period and, for purposes of this calculation, reflects the same performance assumptions used for Mr. Finnegan's outstanding performance unit awards set forth under the heading Executive Compensation Outstanding Equity Awards at Fiscal Year-End. In the event of an involuntary termination or constructive termination after a change in control or upon a change in control, the number of performance units that vest would be based on target performance. Figure included in the Change in Control column assumes the performance units were not assumed by the acquirer.
- (5) Reflects the value attributable to additional age and service credit under Mr. Finnegan's Pension SERP.
- (6) Mr. Finnegan's employment agreement provides for retiree medical benefits assuming that Mr. Finnegan had 33 years of service at retirement. None of our other employees hired on or after January 1, 1999 receives company-subsidized retiree medical benefits. The present value of these benefits is calculated based on the assumptions used for financial reporting purposes at year-end 2008, including a discount rate of 6.0%, medical trend of 8.75% in 2008 grading down 0.75% per year to 6.5% in 2012, then grading 0.5% per year to an ultimate rate of 5% in 2015 and assuming retirement at December 31, 2008.
- (7) Represents \$100,000 in outplacement benefits (in the case of a termination in connection with a change in control), the difference between active health insurance rates versus retiree subsidized rates for three years of continued health coverage (\$2,880) and executive financial counseling (\$25,260).
- (8) This calculation is an estimate for proxy disclosure purposes only. Payments upon a change in control may differ based on factors such as transaction price, timing of employment termination and payments, changes in compensation and reasonable compensation analyses. For purposes of this calculation, no portion of the performance units that would accelerate upon a change in control have been treated as reasonable compensation for services rendered prior to the change in control or no value has been attributed to non-competition covenants.

Table of Contents**EQUITY COMPENSATION PLAN INFORMATION**

The following table shows certain information with respect to our equity compensation plans as of December 31, 2008:

Plan Category	Number of Securities to Be Issued upon Exercise of Outstanding Options, Warrants and Rights (a)	Weighted-Average Exercise Price of Outstanding Options, Warrants and Rights (b)	Number of Securities Remaining Available for Future Issuance under Equity Compensation Plans (excluding securities reflected in column (a)) (c)

Total	13,107,100	\$ 34.92⁽⁴⁾⁽⁵⁾	23,204,733

- (1) These plans are the CCAP Excess Benefit Plan and the Director Deferred Compensation Program, under which 146,581 shares of common stock and 211,666 shares of common stock, respectively, are available for future issuance.

The CCAP Excess Benefit Plan is a nonqualified, defined contribution plan and covers those participants in the CCAP and the ESOP whose total benefits under those plans are limited by certain provisions of the Internal Revenue Code. A participant in the CCAP Excess Benefit Plan is entitled to a benefit equaling the difference between the participant's benefits under the CCAP and the ESOP, without considering the applicable limitations of the Internal Revenue Code, and the participant's actual benefits under such plans. A participant's excess ESOP benefit is expressed as shares of our common stock. Payments under the CCAP Excess Benefit Plan are generally made: (i) for excess benefits related to the CCAP in cash annually as soon as practical after the amount of excess benefit can be determined; and (ii) for excess benefits related to the ESOP, in common stock as soon as practicable after the earlier of the participant's 65th birthday or termination of employment. Allocations under the ESOP ceased in 2004. Accordingly, other than dividends, no new contributions are made to the ESOP or the CCAP Excess Benefit Plan with respect to excess ESOP benefits. Additional information regarding the CCAP and the CCAP Excess Benefit Plan is set forth under the heading "Compensation Discussion and Analysis - Company-Sponsored Benefit Plans." The material terms of the Director Deferred Compensation Program are described under the heading "Corporate Governance - Directors' Compensation."

- (2) Includes 3,580,157 shares, representing 200% of the aggregate target for the performance unit awards for the three-year performance periods ending December 31, 2009 and December 31, 2010, which is the maximum number of shares issuable under these awards and 1,120,679 shares for the performance period ended December 31, 2008. The December 31, 2008 performance units are shown at the actual payout percentage of 168.6% of target. Shortly after the end of each performance period, our Compensation Committee will determine the actual number of shares to be received by 2004 Employee Plan participants for the awards that vest on

December 31, 2009 and December 31, 2010.

- (3) Includes an aggregate of 16,681 shares issuable upon exercise of the special option grants awarded to two independent directors in 2002 as individual compensation for their service on our CEO search committee.
- (4) Weighted average exercise price excludes shares issuable under outstanding performance unit awards, RSU awards and director stock unit awards.
- (5) Weighted average exercise price consists of exercise price of special option grants described in note (3) above, and excludes shares issuable in connection with the CCAP Excess Benefit Plan and the Director Deferred Compensation Program.
- (6) Includes 14,139,932 shares available for issuance under the Global Employee Stock Purchase Plan (2001), 8,388,870 shares available for issuance under the 2004 Employee Plan (which includes 208,701 shares previously reserved for issuance in connection with the 2006 performance unit awards) and 317,684 shares available for issuance under the 2004 Director Plan. After December 31, 2008 the number of shares available for issuance under the 2004 employee plan was reduced by approximately 2.4 million net shares due to grants made to participants in the 2004 Employee Plan during the first quarter of 2009 (partially offset by shares returned to the status of available for issuance due to forfeitures and shares cancelled in connection with tax withholdings).

Our Board expects that each of the nominees named in this proxy statement will be available for election and, if elected, will be willing to serve as a director. PROPOSAL 2

ADOPTION OF THE CHUBB CORPORATION LONG-TERM INCENTIVE PLAN (2009)

Introduction

We have long had in effect stock-based incentive plans that have allowed us to grant management, other key employees, and our non-employee directors various types of awards, including stock options, performance units, stock awards, and stock units. These programs reflected our Board's belief that encouraging stock ownership by management, other key employees, and our non-employee directors served to attract, retain and motivate them by providing a direct, personal financial interest in our continued success. Our Board continues to believe that the best way to encourage our management, other key employees, and our non-employee directors to create and enhance value for our shareholders is through a compensation program that encourages stock ownership.

Our Board believes that it would be beneficial to retain the current equity compensation program for our key employees—that is, TSR-based performance units and stock units. Our Board believes this program closely aligns key employees' interests with those of our shareholders and provides a strong incentive for plan participants to remain in our service. Our Board intends to grant stock options to plan participants only in limited circumstances, including, without limitation, where the grant of other kinds of awards to employees in certain foreign jurisdictions would have negative tax consequences (relative to U.S. tax consequences) for the recipients of such awards.

Our Board has also concluded that it would be beneficial to change the structure of our equity program for our non-employee directors from TSR-based performance units to deferred stock units. Accordingly, our Board concluded that it was appropriate to allow greater flexibility in award types issuable to non-employee directors than provided for under the 2004 Director Plan, which generally mandated the types of awards that could be granted to non-employee directors.

With these goals in mind, both the Compensation Committee and the Governance Committee (the Compensation Committee and the Governance Committee, as applicable, may be referred to in this Proposal 2 as the Administrative Committee) recommended, and in February 2009 our Board adopted, subject to shareholder approval, the 2009 Stock Plan, which covers both our eligible employees and our non-employee directors. The 2009 Stock Plan generally authorizes the use of the same types of awards as were available for grant under the 2004 Employee Plan.

Upon approval of the 2009 Stock Plan by our shareholders, the shares remaining available for grant under the 2004 Employee Plan and 2004 Director Plan (collectively with the 2004 Employee Plan, the 2004 Plans) will be available to make grants of all types of awards under the 2009 Stock Plan, and no new grants will be made under the 2004 Plans.

Summary of the 2009 Stock Plan

The following summary of the 2009 Stock Plan is qualified in its entirety by reference to the complete text of the 2009 Stock Plan, which is attached to this proxy statement as Annex A.

Shares Available for Issuance

Subject to adjustment upon the occurrence of certain events described below, a maximum of 3,750,000 newly authorized shares, plus the shares remaining available for issuance (or that become subsequently available for

issuance) under the 2004 Employee Plan (approximately 6,025,000 shares as of March 9, 2009) may be issued under the 2009 Stock Plan to our employees and a maximum of 250,000 newly authorized shares, plus any shares remaining available for issuance (or that become subsequently available for issuance) under the 2004 Director Plan (approximately 318,000 shares as of March 9, 2009) may be issued under the 2009 Stock Plan to our directors. The total number of shares available for grant reflects a reduction in the number of shares historically available under prior plans in light of our emphasis on granting full value share awards rather than stock option grants since the adoption of the 2004 Plans. To satisfy awards under the 2009 Stock Plan, we may use authorized but unissued shares or shares in treasury.

Table of Contents

Shares subject to awards under the 2009 Stock Plan, the 2004 Plans and our other predecessor stock plans that lapse, are forfeited or cancelled or are settled without the issuance of stock, in each case, after the effective date of the 2009 Stock Plan will be available for awards under the 2009 Stock Plan and will be credited to the applicable pool of shares for our employees or non-employee directors. This includes shares that are withheld from an award to satisfy any exercise price or tax obligations.

In addition to aggregate share limits, the 2009 Stock Plan establishes individual limits that provide that no participant may receive in any calendar year:

stock options and stock appreciation rights on more than 2,000,000 shares;

stock awards and stock unit awards related to more than 300,000 shares;

performance shares related to more than 600,000 shares; or

performance units with a value of more than \$15,000,000.

In the context of performance shares and performance units, where the number of shares of our common stock issuable or the dollar value earned may be up to twice the number of performance shares or units granted, this limit pertains to the target number granted.

If the Administrative Committee determines that any stock dividend, stock split, share combination, extraordinary cash dividend, recapitalization, reorganization, merger, consolidation, split-up, spin-off, combination, exchange of shares, warrants or rights offering to purchase shares at a price substantially below fair market value, or other similar corporate event affects the shares such that an adjustment is required to preserve the benefits intended under the 2009 Stock Plan, the Administrative Committee shall make such adjustments as it deems equitable in the number and kind of shares that thereafter may be awarded or optioned under the 2009 Stock Plan (including making appropriate adjustments in the individual award limits referred to above), the number and kind of shares subject to outstanding options and awards, and the respective grant or exercise prices and/or, if appropriate, to provide for the payment of cash to a participant who has an outstanding option or award.

Administration

With respect to awards made to eligible employees, the 2009 Stock Plan will be administered by the Compensation Committee. With respect to awards made to our non-employee directors, the 2009 Stock Plan will be administered by the Governance Committee. The respective Administrative Committee will have the sole and complete authority to adopt, alter and repeal such administrative rules, guidelines and practices governing the operation of the 2009 Stock Plan as it deems advisable, and to interpret the terms and provisions of the 2009 Stock Plan. To the extent permitted by law, the Compensation Committee may delegate to one or more executive officers the power to make awards to participants who are not executive officers, provided that the Compensation Committee shall fix the maximum amount of such awards that its delegates can make in the aggregate and to any one participant.

Subject to the express terms of the 2009 Stock Plan, the respective Administrative Committee has discretion as to the specific terms and conditions of each award and any rules applicable thereto, including but not limited to the effect thereon of the death, retirement or other termination of employment or service of the participant. Awards may not be assigned or transferred, except by will or the laws of descent and distribution or to the participant's immediate family and to other permitted transferees under rules established by the Administrative Committee. Incentive stock option awards may not be assigned or transferred, except by will or the laws of descent and distribution only.

The Compensation Committee may make grants to any of our eligible employees or any of the eligible employees of our subsidiaries, and to any natural person who provides services to us or a subsidiary as a consultant, agent, or advisor who the Compensation Committee determines to have the capacity to contribute to our success. It is anticipated that the Compensation Committee will make these determinations based on each individual's present and potential contribution to our success. It is estimated that approximately 1,700 employees will be eligible to participate in the 2009 Stock Plan, although it is not contemplated that every eligible employee will receive each of the different types of awards available under the 2009 Stock Plan. The Governance Committee may make grants to

Table of Contents

any of our eligible non-employee directors. Each of the 12 non-employee directors who we expect will continue serving on our Board after the 2009 Annual Meeting will be eligible to receive awards under the 2009 Stock Plan.

Performance Shares or Units

The 2009 Stock Plan affords the Administrative Committee discretion to grant performance shares and performance units, the payment of which is conditioned upon meeting one or more performance goals established by the Administrative Committee. Our current expectation is that performance units will constitute a substantial majority of the long-term incentive compensation opportunity made available to our NEOs and other members of senior management; however, it is the current intent of the Governance Committee to discontinue the use of performance units in favor of deferred stock units (described below) with respect to non-employee directors.

The Administrative Committee currently intends to use our TSR relative to the TSR of a broad-based group of companies (such as those in the Standard & Poor's 500 Index), as the performance goal in respect of performance shares and performance units. However, as different goals may be more appropriate for specific individuals or classes of employees or under different circumstances, the 2009 Stock Plan permits the Administrative Committee to establish performance goals based on the following criteria, whether in absolute terms or relative to performance at other companies: stock price, operating income, net income, return on equity, income, market share, combined ratio, level of expenses, gross revenue, net revenue, book value, net premiums written, return on capital, investment income, any claim metric, loss ratio, expense ratio, and, for awards not intended to qualify as other performance-based compensation within the meaning of Section 162(m)(4) of the Internal Revenue Code, such other criteria as may be established by the Administrative Committee. The Administrative Committee also has the discretion to condition payment of amounts in respect of performance shares and performance units on such factors in addition to the performance goals as it shall determine on the grant date.

The Administrative Committee will determine the value of each performance share and unit, the number of such shares and units for each performance cycle, the duration of each performance cycle, and the number of performance shares and units that have been earned based on performance relative to the performance goals discussed above. Performance shares and units also may be deemed earned upon the occurrence of certain events, such as a change in control. Unless the Administrative Committee otherwise determines, performance shares and units for in-progress performance cycles will be forfeited and terminated if a participant's employment or service terminates. However, unless the Administrative Committee otherwise determines, if a participant's employment or service terminates due to death, disability or retirement on or after the completion of the first calendar year of a performance cycle, the participant or his representative will receive all of the performance shares and units for the performance cycle that would have been earned had the participant continued employment or service for the full period.

The Administrative Committee may provide on the grant date that, depending on actual performance measured against the stated performance goals, the amount payable in respect of performance shares and units will range from 0% to 200% of the target grant for each such award. Payment of earned performance share and unit awards may, at the discretion of the Administrative Committee, be distributed in the form of cash, shares of our stock or a combination thereof. The Administrative Committee also has the authority to adjust the applicable performance goals as it deems equitable to reflect unusual or non-recurring events affecting us or changes in tax law or accounting principles or other factors that it deems appropriate.

The Administrative Committee may permit or require participants who receive performance shares or performance units to defer receipt of such awards upon the terms and conditions the Administrative Committee establishes from time to time.

Stock Awards or Units

It is our current expectation that stock awards and stock units with a three-year cliff vesting schedule will be used in combination with performance shares and units for our NEOs and other members of senior management, but will be secondary to such performance-based awards. Stock awards and stock units will be the primary component of awards under the 2009 Stock Plan to other eligible employees. It is our current expectation that stock units also

Table of Contents

will be the primary award type granted to our non-employee directors. Stock unit awards to our non-employee directors will vest immediately but settlement will be mandatorily deferred until the earlier of a change in control of Chubb or the non-employee director's termination of service. Non-employee directors will have the right to further defer settlement of stock unit awards. Stock awards and stock units may not be sold, assigned, transferred, pledged, or otherwise encumbered until any restrictions have lapsed and, in the case of stock units, the award has been settled. Subject to the forfeiture and transfer restrictions applicable to a stock award, a participant will have the right to vote the shares underlying such stock award. There are no voting rights associated with stock unit awards. The Administrative Committee may permit a participant to receive dividends or dividend equivalents on a stock or stock unit award and whether such dividends or dividend equivalents are distributed currently or on a deferred basis. The Administrative Committee has authority to determine the length of the restricted period, if any, the conditions under which the stock award and stock units may be forfeited, as well as the other terms and conditions of such awards, including the establishment of performance goals for the grant of such awards based on one or more of the performance criteria described above for performance shares and units. Stock units may be paid, at the discretion of the Administrative Committee, in cash or shares or a combination of both. The lapse of the restricted period may accelerate upon the occurrence of certain events specified in the 2009 Stock Plan, such as a change in control of Chubb or the termination of a participant's employment or service due to death, disability, retirement or other qualifying termination. Unless the Administrative Committee otherwise determines, in the event that a participant's employment or service terminates other than due to death, disability or retirement prior to vesting in any stock award or stock unit, such stock award or stock unit will be forfeited.

The Administrative Committee may permit or require participants who receive stock awards or stock units to defer receipt of such awards upon the terms and conditions the Administrative Committee establishes from time to time. Due to Section 162(m) of the Internal Revenue Code, we expect that the receipt of all shares issuable upon the expiration of the restriction period applicable to any stock award or stock unit made to Mr. Finnegan will be deferred until termination of his employment. Likewise, we expect that the receipt of all of a portion of the shares issuable upon the expiration of the restriction period applicable to any stock award or stock unit made to Mr. Degnan will be deferred until termination of his employment.

Stock Options and Stock Appreciation Rights

It is our expectation that stock options and stock appreciation rights will be used sparingly. Options granted under the 2009 Stock Plan may be either non-statutory options or incentive stock options. Incentive stock options may be granted to eligible employee participants only. The exercise price of any stock option granted may not be less than 100% of the fair market value of the underlying shares at the time of grant, and the Administrative Committee is not permitted to subsequently reduce the exercise price or otherwise reprice granted options. Stock appreciation rights may be granted in tandem with or unrelated to options granted under the 2009 Stock Plan and, if in tandem with an option, will be granted at the time of such option grant. Upon the exercise of a stock appreciation right, the participant is entitled to receive the excess of the fair market value of a share over the base value applicable to such right. The Administrative Committee has the authority to determine whether the value of a stock appreciation right is paid in cash or shares or a combination of both.

The Administrative Committee has discretion as to the terms and conditions upon which options and stock appreciation rights will be exercisable, but under no circumstances may an option or stock appreciation right have a term exceeding ten years from the date of grant. Unless the Administrative Committee establishes another exercise schedule, options and stock appreciation rights generally will become exercisable in three approximately equal installments on each of the first three anniversaries of the date of grant. Unless the Administrative Committee otherwise determines, any option or stock appreciation right that has not been exercised prior to the termination of the participant's employment or service will cease to be exercisable, regardless of whether exercisable at that time. However, if a participant's employment or service terminates due to death, disability, or retirement on or after the first

anniversary of the grant date of an option or stock appreciation right, then the participant or his or her representative may exercise such option or stock appreciation right for the remainder of its term, regardless of the extent to which such awards were exercisable at the date of such termination. An option holder may satisfy the

Table of Contents

exercise price in cash or, at the discretion of the Administrative Committee, by exchanging shares owned by the optionee, by net issue settlement or by a combination thereof.

Change in Control

If the respective Administrative Committee (as constituted before the change in control) determines that each of the following conditions are satisfied (i) there will be no acceleration of the vesting, or lapsing of restrictions, of any options, stock appreciation rights, stock awards, stock units, (ii) performance shares and performance units will not be deemed earned, and (iii) there will be no payment made in respect of such awards by reason of a change in control (as defined in the 2009 Stock Plan):

outstanding awards will be honored or assumed by the surviving corporation;

the honored or assumed awards will relate to securities that are or will shortly be publicly traded on an established U.S. securities market;

the terms and conditions (such as vesting and exercisability) of the honored or assumed awards are at least equal to or better than the terms of the awards related to our common stock;

the honored or assumed awards will have substantially equivalent economic value, at the time of the change in control, to the awards in respect of our common stock; and

the honored or assumed awards must provide that, upon the involuntary termination of the award recipient's employment or service, the awards will be deemed vested or exercisable, as the case may be.

For purposes of the 2009 Stock Plan, change in control includes:

an acquisition of 20% or more of our shares by a person other than us, our subsidiaries or our employee benefit plans;

a change in a majority of the members of our Board due to a proxy contest or tender or exchange offer; and

a merger, reorganization, or similar transaction (including a sale of substantially all assets), where our shareholders immediately prior to such transaction do not control more than 50% of the surviving entity immediately after the transaction.

If we experience a change in control and the foregoing conditions are not satisfied, each option and stock appreciation right and each stock award and each stock unit grant will be treated as fully vested and will no longer be subject to forfeiture and transfer restrictions. Additionally, each option and stock appreciation right will be cancelled in exchange for an amount equal to the excess, if any, of the fair market value on the date of the change in control transaction over the exercise price or base value of such award, and all outstanding performance shares and performance units will be deemed earned and be immediately payable, in an amount equal to 100% of the applicable target grant for each such award, regardless of the portion of the applicable performance period that will have elapsed prior to the date of such change in control. Stock awards and stock units will similarly be cancelled in exchange for an amount equal to the per share consideration received by our shareholders in connection with the change in control transaction. However, when Section 409A of the Internal Revenue Code applies to any stock award or stock unit, payment of such award to an employee will not be accelerated and payment of such award to a director will be accelerated only if the change in control also qualifies as a change in control event under Section 409A of the Internal Revenue Code.

Awards to Non-U.S. Participants

Although performance units and restricted stock units will be the primary awards granted to our employees and deferred stock units will be the primary award granted to our directors, our Board intends to structure equity awards granted in foreign jurisdictions to minimize any negative tax consequences to recipients (relative to U.S. tax consequences), as well as leverage any tax advantage available in such foreign jurisdiction. For example, we intend to continue granting stock options to plan participants in Canada in lieu of performance units or restricted stock unit awards because of the preferential tax treatment of stock options in Canada.

Term of the 2009 Stock Plan and Amendments

No award may be granted under the 2009 Stock Plan after December 31, 2019 and no incentive stock option may be granted after the tenth anniversary of the effective date of the 2009 Stock Plan. The 2009 Stock Plan may be amended or terminated at any time by our Board or Administrative Committee, except that no amendment may be made without shareholder approval if such approval is necessary to comply with any tax or regulatory requirement, including any approval requirement that is imposed by the rules of the NYSE, that the Administrative Committee determines to be applicable. Participant consent will be needed for an amendment that may adversely affect existing awards in a material manner unless the Administrative Committee determines that such amendment is necessary or advisable for us to comply with applicable law, regulation, rule or accounting standard.

Description of Federal Income Tax Consequences under the 2009 Stock Plan

The following discussion summarizes the Federal income tax consequences of the 2009 Stock Plan based on current provisions of the Internal Revenue Code, which are subject to change. The summary does not cover any state, local, foreign or other tax consequences of participation in the 2009 Stock Plan. Participants in the 2009 Stock Plan should consult with their tax advisors as to the federal, state, local, foreign and other tax consequences of their receipt of awards under the 2009 Stock Plan.

Performance Shares

When payment is made to a participant in respect of earned performance shares granted under the 2009 Stock Plan, the participant will have taxable ordinary income in an amount equal to the amount of cash and the fair market value of any shares of our stock that such participant receives in payment on such award. We will receive a Federal income tax deduction in an amount equal to the amount paid to the participant, unless the amount is paid by a subsidiary or affiliate that is not part of our consolidated Federal return, in which case, the subsidiary or affiliate, as the case may be, will receive the deduction.

Stock Awards

Unless a participant makes the election described below, a grant of stock awards will not result in taxable income to the participant or a deduction to us (or the unconsolidated subsidiary or affiliate employing the participant) in the year of grant. The value of such stock award will be taxable to a participant as ordinary income in the year in which the award vests. Alternatively, a participant may elect to treat as income in the year of grant the fair market value of the stock award on the date of grant, provided the participant makes the election within 30 days after the date of such grant. If such an election were made, the participant would not be allowed to deduct at a later date the amount included as taxable income if the participant should forfeit the shares of stock award. The amount of ordinary income recognized by a participant is deductible by us (or the unconsolidated subsidiary or affiliate employing the participant) in the year such income is recognized by the participant, provided such amount constitutes reasonable compensation to the participant. If the election described above is not made, then prior to the lapse of restrictions, dividends paid on the shares subject to such restrictions will be taxable to the participant as additional compensation in the year received, and we (or the unconsolidated subsidiary or affiliate employing the participant) will be allowed a corresponding deduction.

Non-Statutory Options

When an optionee exercises an option, the excess of the fair market value of the shares on the date of exercise over the exercise price will be ordinary income to the optionee and will be allowed as a deduction for Federal income tax purposes to us (or the unconsolidated subsidiary or affiliate employing the participant). When an optionee disposes of

shares acquired by the exercise of the option, any amount received in excess of the market value of the shares on the date of exercise will be treated as long or short-term capital gain, depending upon the holding period of the shares. If the amount received upon disposition of the shares is less than the market value of the shares on the date of exercise, the loss will be treated as long or short-term capital loss, depending upon the holding period of the shares. If pursuant to the authority of the Administrative Committee an optionee transfers an option by

Table of Contents

gift, the optionee will still have ordinary income upon the exercise of the option by the transferee equal to the excess of the fair market value of the shares on the date of exercise over the exercise price.

Incentive Stock Options

When an optionee exercises an incentive stock option while employed by us or a subsidiary or within the three month (one year for disability) period after termination of employment by reason of retirement or death, no ordinary income will be recognized by the optionee at that time but the excess (if any) of the fair market value of the shares acquired upon such exercise over the exercise price will be an adjustment to taxable income for purposes of the Federal alternative minimum tax applicable to individuals. If the shares acquired upon exercise are not disposed of prior to the expiration of one year after the date of transfer and two years after the date of grant of the option, the excess (if any) of the sales proceeds over the aggregate exercise price of such shares will be long-term capital gain. We will not be entitled to any tax deduction with respect to the amount treated as long-term capital gain, and neither will any unconsolidated subsidiary or affiliate employing the participant. If the shares are disposed of prior to the expiration of such periods (a disqualifying disposition), the excess of the fair market value of such shares at the time of exercise over the aggregate exercise price (but not more than the gain on the disposition if the disposition is a transaction on which a loss, if realized, would be recognized) will be ordinary income at the time of such disqualifying disposition and we (or the unconsolidated subsidiary or affiliate employing the participant) will be entitled to a Federal tax deduction in a like amount. If an incentive stock option is exercised by the optionee more than three months (one year for disability) after termination of employment, the tax consequences are the same as described above for non-statutory options.

Stock Appreciation Rights, Performance Units, and Stock Units

Generally, when a participant exercises stock appreciation rights granted under the 2009 Stock Plan or receives payment with respect to earned performance units or stock units granted under the 2009 Stock Plan, the amount of cash and the fair market value of the shares received will be ordinary income to such participant, and we (or the unconsolidated subsidiary or affiliate employing the participant) will be allowed a corresponding deduction for Federal income tax purposes.

New Plan Benefits Table

The following table sets forth the awards that the Governance Committee has authorized to be made in 2009 pursuant to the 2009 Stock Plan to our non-employee directors if our shareholders approve the adoption of the 2009 Stock Plan. Each non-employee director will receive deferred stock units with an aggregate fair value of approximately \$100,000 on the date of the 2009 Annual Meeting. The units will vest immediately and will be mandatorily deferred until the earlier of a change in control of Chubb or the non-employee director's termination of service. A non-employee director will have the right to further defer settlement of the award.

Name and Position	Dollar Value	Number of Units⁽¹⁾	Types of Award
Non-Employee Director Group (12 total)	\$ 1,200,000	33,984	Deferred stock units

(1) Represents the number of units for all directors based on the average of our high and low stock price on March 9, 2009 (\$35.31 per share).

In the event that our shareholders do not approve the 2009 Stock Plan, we expect that each of our non-employee directors will receive a combination of performance units and stock units with an aggregate fair value of approximately \$100,000 pursuant to the terms of the 2004 Director Plan on the date of the 2009 Annual Meeting.

Table of Contents

The following table shows awards that the Compensation Committee granted in 2009 to our NEOs, to all executive officers (including the NEOs) as a group and to all non-executive officer employees as a group under the 2004 Employee Plan. While the Administrative Committee has not yet determined what grants will be made under the 2009 Stock Plan if it is approved by shareholders, we expect that the awards under the 2009 Stock Plan would have been substantially similar to the 2009 grants.

Stock Appreciation Right means a right to receive payment from the Corporation, in cash or Stock, granted under Section 8.

Stock Award means a share of Stock contingently granted to a Participant under Section 6 of the Plan, which may be subject to a Restriction Period.

SECTION 3. POWERS OF THE COMMITTEE

(a) Eligibility. Each Employee, Consultant, and Director who, in the opinion of the Committee, has the capacity to contribute to the successful performance of the Corporation is eligible to be a Participant in the Plan.

(b) Power to Grant and Establish Terms of Awards. The Committee shall have the discretionary authority, subject to the terms of the Plan, to determine which Employees, Consultants, and Directors, if any, to whom Awards shall be granted, the type or types of Awards to be granted, and the terms and conditions of any and all Awards including, without limitation, the number of shares of Stock subject to an Award, the time or times at which Awards shall be granted, and the terms and conditions of applicable award agreements. The Committee may establish different terms and conditions for different types of Awards, for different Participants receiving the same type of Award, and for the same Participant for each type of Award such Participant may receive, whether or not granted at the same or different times.

(c) Administration. The Plan shall be administered by the Committee. The Committee shall have sole and complete authority and discretion to adopt, alter and repeal such administrative rules, guidelines and practices governing the

operation of the Plan as it shall from time to time deem advisable, and to interpret the terms and provisions of the Plan. The Committee's decisions (including any failure to make decisions) shall be binding upon all persons, including the Corporation, shareholders, each Company, each Employee, each Consultant, each Director, each Participant, and each Designated Beneficiary, and shall be given deference in any proceeding with respect thereto.

(d) *Delegation by the Committee.* To the extent permitted by state law, the Committee may delegate to one or more executive officers of the Corporation the power to make Awards to Participants other than Directors or any

Table of Contents

of the Corporation's executive officers (including the chief executive officer), provided that when so delegating, the Committee shall fix the aggregate maximum amount of such Awards and the maximum Award for any one Participant that may be awarded by such delegate(s).

(e) *Participants Located Outside the United States.* To conform with the provisions of local laws and regulations, or with local compensation practices and policies, in foreign countries in which the Corporation or any of its Subsidiaries or Affiliates operate or the Participant resides, but subject to the limitations set forth herein regarding the maximum number of shares issuable hereunder and the maximum award to any single Participant, the Committee may (i) modify the terms and conditions of Awards granted to Participants employed or residing outside the United States (Non-US Awards), (ii) establish subplans with modified exercise procedures and such other modifications as may be necessary or advisable under the circumstances (Subplans), and (iii) take any action which it deems advisable to obtain, comply with or otherwise reflect any necessary governmental regulatory procedures, exemptions, or approvals with respect to the Plan. The Committee's decision to grant Non-US Awards or to establish Subplans is entirely voluntary, and at the complete discretion of the Committee. The Committee may amend, modify, or terminate any Subplans at any time, and such amendment, modification, or termination may be made without prior notice to the Participants. The Corporation, Subsidiaries, Affiliates, and members of the Committee shall not incur any liability of any kind to any Participant as a result of any change, amendment, or termination of any Subplan at any time. The benefits and rights provided under any Subplan or by any Non-US Award (i) are wholly discretionary and, although provided by either the Corporation, a Subsidiary or Affiliate, do not constitute regular or periodic payments and (ii) are not to be considered part of the Participant's salary or compensation under the Participant's employment with the Participant's local employer for purposes of calculating any severance, resignation, redundancy or other end of service payments, vacation, bonuses, long-term service awards, indemnification, pension, or retirement benefits, or any other payments, benefits, or rights of any kind. If a Subplan is terminated, the Committee may direct the payment of Non-US Awards (or direct the deferral of payments whose amount shall be determined) prior to the dates on which payments would otherwise have been made, and, in the Committee's discretion, such payments may be made in a lump sum or in installments, provided such payments are made in accordance with Section 409A of the Code, if applicable.

SECTION 4. MAXIMUM AMOUNT AVAILABLE FOR AWARDS

(a) *Number.* Subject in all cases to the provisions of this Section 4, the maximum number of shares of Stock that are available for Awards made to Employees (the Employee Pool) shall be 3,750,000, plus that number of shares of Stock that are not subject to an outstanding award under the Prior Employee Plans on the Effective Date but were otherwise available for issuance under the Prior Employee Plans. Subject in all cases to the provisions of this Section 4, the maximum number of shares of Stock that are available for Awards made to Directors (the Director Pool) shall be 250,000, plus that number of shares of Stock that are not subject to an outstanding award under the Prior Director Plan on the Effective Date but were otherwise available for issuance under the Prior Director Plan. Notwithstanding the provisions of Section 4(b), the maximum number of shares of Stock that may be issued to Employees in respect of Incentive Stock Options shall not exceed 600,000 shares. Shares of Stock may be made available from Stock held in treasury or authorized but unissued shares of the Corporation not reserved for any other purpose.

(b) *Canceled, Terminated, or Forfeited Awards, etc.* If, after the Effective Date, (i) any Award granted hereunder or any award granted under the Prior Plans expires or is terminated unexercised, or is settled for cash or otherwise settled without the issuance of Stock (including where any such shares are withheld to satisfy a Participant's tax withholding obligations), or (ii) any shares of Stock are tendered by a Participant to pay the exercise price of, or are delivered to satisfy tax obligations in respect of, any Award under this Plan or any award under any Prior Plan, then any shares of Stock covered by such lapsed, cancelled, expired, or settled portion of such Award or Prior Plan award and any such tendered shares of Stock shall be available for grant under this Plan and shall be credited to the applicable Employee Pool or Director Pool according to which pool or Prior Plan it originated, provided that, in each case, such Stock is not used for Prior Plan awards. Any shares that become available for grant under this Section 4(b) may be used for any

type of Award.

A-5

(c) *Individual Award Limitations.* No Participant may be granted under the Plan in any calendar year more than 600,000 Performance Shares. No Participant may be granted under the Plan in any calendar year more than 300,000 Stock Awards and Stock Units in total. No Participant may be granted in total Options or Stock Appreciation Rights on more than 2,000,000 shares of Stock under the Plan in any calendar year. No Participant may be granted Performance Units under the Plan in any calendar year with a value of more than \$15,000,000 (or the equivalent of such amount denominated in the Participant's local currency).

(d) *Adjustment in Capitalization.* In the event that the Committee shall determine that any stock dividend, stock split, share combination, extraordinary cash dividend, recapitalization, reorganization, merger, consolidation, split-up, spin-off, combination, exchange of shares, warrants or rights offering to purchase Stock at a price substantially below fair market value, or other similar corporate event affects the Stock such that an adjustment is required in order to preserve, or to prevent the enlargement of, the benefits or potential benefits intended to be made available under this Plan, then the Committee shall, in its sole discretion, and in such manner as the Committee may deem equitable, adjust any or all of (i) the number and kind of shares which thereafter may be awarded or optioned and sold or made the subject of Stock Appreciation Rights under the Plan, including, without limitation, the individual limitations described in Section 4(c) above and any limits on the types of Awards that may be made under the Plan, (ii) the number and kind of shares subject to outstanding Options and other Awards, and (iii) the grant, exercise or conversion price with respect to any Award. In addition, the Committee may, if deemed appropriate, make provision for cash payment to a Participant or a person who has an outstanding Award, provided that any payment exchanged for an Option or Stock Appreciation Right (on a per share basis) shall not exceed the difference between the Fair Market Value of the Stock on the date of payment and the exercise price for the Award. Unless the Committee shall otherwise determine, following any such adjustment, the number of shares subject to any Option or other Award shall always be a whole number. Notwithstanding anything in this Section 4(d) to the contrary, an adjustment to an Option or Stock Appreciation Right under this Section shall be made in a manner that will not result in the grant of a new Option or Stock Appreciation Right under Section 409A of the Code.

SECTION 5. PERFORMANCE SHARES AND PERFORMANCE UNITS

(a) *Generally.* The Committee shall have the authority to determine the Participants who shall receive Performance Shares and Performance Units, the number of Performance Shares and the number and value of Performance Units each Participant receives for each or any Performance Cycle, and the Performance Goals applicable in respect of such Performance Shares and Performance Units for each Performance Cycle. The Committee shall determine the duration of each Performance Cycle (the duration of Performance Cycles may differ from each other), and there may be more than one Performance Cycle in existence at any one time. Unless the Committee determines otherwise, a Performance Cycle shall mean a period of at least one year. Performance Shares and Performance Units shall be evidenced by an award agreement that shall specify the number of Performance Shares and the number and value of Performance Units awarded to the Participant, the Performance Goals applicable thereto, and such other terms and conditions not inconsistent with the Plan as the Committee shall determine. No shares of Stock will be issued at the time an Award of Performance Shares is made, and the Corporation shall not be required to set aside a fund for the payment of Performance Shares or Performance Units.

(b) *Earned Performance Shares and Performance Units.* Performance Shares and Performance Units shall become earned, in whole or in part, based upon the attainment of specified Performance Goals or the occurrence of any event or events, including a Change in Control, as the Committee shall determine, either at or after the grant date. In addition to the achievement of the specified Performance Goals, the Committee may, at the grant date, condition payment of Performance Shares and Performance Units on the Participant attaining a certain age, or on such other conditions as the Committee shall specify. The Committee may provide, at the time of any grant of Performance Shares or Performance Units, that if performance relative to the Performance Goals exceeds targeted levels, then the Payment Value of each affected Performance Share or the value payable in respect of each Performance Unit shall be

adjusted by such multiple not in excess of 200% as the Committee shall specify at the time of grant. Notwithstanding the foregoing, the Committee also may require the completion of a minimum period of service (in addition to the achievement of any applicable Performance Goals) or the satisfactory completion of

A-6

Table of Contents

specified work assignments (in the case of Consultants) as a condition to the vesting of any Performance Share or Performance Unit Award.

(c) Performance Goals. At the discretion of the Committee, Performance Goals may be based on the total return to the Corporation's shareholders, inclusive of dividends paid, during the applicable Performance Cycle (determined either in absolute terms or relative to the performance of one or more similarly situated companies or a published index covering the performance of a number of companies), or upon the relative or comparative attainment of one or more of the following criteria, whether in absolute terms or relative to the performance of one or more similarly situated companies or a published index covering the performance of a number of companies: stock price, operating earnings, net earnings, return on equity, income, market share, combined ratio, level of expenses, growth in revenue, book value, net premiums written, return on capital, investment income, a claims metric, loss ratio, expense ratio, and, for Awards not intended to qualify as other performance based compensation within the meaning of Section 162(m)(4) of the Code, such other criteria as may be determined by the Committee. Performance Goals may be established on a Corporation-wide basis or with respect to one or more business units, divisions, Subsidiaries, or Affiliates. When establishing Performance Goals for a Performance Cycle, the Committee may exclude any or all extraordinary items as determined under U.S. generally accepted accounting principles including, without limitation, the charges or costs associated with restructurings of the Corporation or any Company, discontinued operations, other unusual or non-recurring items, and the cumulative effects of accounting changes. The Committee also may adjust the Performance Goals for any Performance Cycle as it deems equitable in recognition of unusual or non-recurring events affecting the Corporation, changes in applicable tax laws or accounting principles, or such other factors as the Committee may determine.

(d) Special Rule for Performance Goals. If, at the time of grant, the Committee intends a Performance Share Award or Performance Unit to qualify as other performance based compensation within the meaning of Section 162(m)(4) of the Code, the Committee must establish Performance Goals for the applicable Performance Cycle no later than the 90th day after the Performance Cycle begins (or by such other date as may be required under Section 162(m) of the Code).

(e) Certification of Attainment of Performance Goals. As soon as practicable after the end of a Performance Cycle and prior to any payment in respect of such Performance Cycle, the Committee shall certify in writing the number of Performance Shares and the number and value of Performance Units which have been earned on the basis of performance in relation to the established Performance Goals.

(f) Payment of Awards. Payment Values of earned Performance Shares and the value of earned Performance Units shall be distributed to the Participant or, if the Participant has died, to the Participant's Designated Beneficiary no later than March 15 of the year following the expiration of the Performance Cycle. The Committee shall determine whether Payment Values of Performance Shares and the value of earned Performance Units are to be distributed in the form of cash, shares of Stock or in a combination thereof, with the value or number of shares payable to be determined based on the Fair Market Value of Stock on the date of the Committee's certification under Section 5(e) above.

(g) Newly Eligible Participants. Notwithstanding anything in this Section 5 to the contrary, the Committee shall be entitled to make such rules, determinations and adjustments as it deems appropriate with respect to any Participant who becomes eligible to receive Performance Shares or Performance Units after the commencement of a Performance Cycle.

(h) Termination.

(i) Qualifying Termination. Unless otherwise determined by the Committee at or after the grant date, a Participant whose employment or service terminates by reason of a Qualifying Termination on or after December 31 of the first

year in which the relevant Performance Cycle commenced (or such other period as the Committee shall specify at the time of the award of the Performance Shares or Performance Units) shall be entitled to the same Payment Values of Performance Shares and the value of Performance Units (without pro-ration) that would have been payable for the Performance Cycle had his or her employment or service continued until the end of the applicable Performance Cycle. Any Payment Values of Performance Shares or

A-7

Table of Contents

value of Performance Units becoming payable in accordance with the preceding sentence shall be paid at the same time as Payment Values of Performance Shares and the value of Performance Units are paid to other Participants. Any rights that a Participant or Designated Beneficiary may have in respect of any Performance Shares or Performance Units outstanding at the date of the Qualifying Termination that are not available to be earned or that are not earned in accordance with this Section 5(h)(i) shall be forfeited and canceled, effective as of the date of the Participant's termination of employment or service.

(ii) Termination for any Other Reason. Unless otherwise determined by the Committee at or after the grant date, if a Participant's employment or service is terminated for any reason other than a Qualifying Termination during a Performance Cycle, all of the Participant's rights to Performance Shares and Performance Units related to such Performance Cycle shall be immediately forfeited and canceled as of the date of such termination of employment or service. Notwithstanding anything else contained in the Plan to the contrary, with respect to Participants other than Directors, a Participant's rights in respect of unearned Performance Shares and Performance Units shall in all events be immediately forfeited and canceled as of the date of the Participant's termination of employment or service for Cause. Notwithstanding anything else contained in the Plan to the contrary, if a Director is removed from the Board for Cause or resigns in anticipation of his or her removal from the Board for Cause, all of the Director's Performance Shares and Performance Units shall be forfeited, and the Director shall not be entitled to receive any payment or distribution in respect thereof.

(i) Change in Control. Notwithstanding anything to the contrary in this Section 5, Section 9 shall determine the treatment of Performance Shares and Performance Units upon a Change in Control.

SECTION 6. STOCK AWARDS AND STOCK UNITS

(a) Grant. Stock Awards and Stock Units may be granted to Participants at such time or times as shall be determined by the Committee. The grant date of any Stock Award or Stock Unit under the Plan shall be the date on which such Stock Award or Stock Unit is awarded by the Committee, or on such other date as the Committee shall determine. Stock Awards and Stock Units shall be evidenced by an award agreement that shall specify (i) the number of Stock Awards and the number of Stock Units to be granted to each Participant, (ii) the Restriction Period(s), if any, and (iii) such other terms and conditions not inconsistent with the Plan as the Committee shall determine, including customary representations, warranties and covenants with respect to securities law matters. Grants of Stock Awards shall be evidenced by a bookkeeping entry in the Corporation's records (or by such other reasonable method as the Corporation shall determine from time to time). No shares of Stock will be issued at the time an Award of Stock Units is made and the Corporation shall not be required to set aside a fund for the payment of any such Awards.

(b) Vesting. Stock Awards and Stock Units granted to Participants under the Plan may be subject to a Restriction Period. Except as otherwise determined by the Committee, the Restriction Period for awards made to Participants who are not Directors shall lapse upon the third anniversary of the grant date. A Restriction Period also shall lapse, in whole or in part, upon the occurrence of any event or events, including a Change in Control, specified in the Plan, or specified by the Committee, in its discretion, either at or after the grant date of the applicable Award. In its discretion, the Committee also may establish performance conditions with respect to Stock Awards and Stock Units based on one or more of the Performance Goals listed in Section 5(c), during a performance period selected by the Committee.

(i) Qualifying Termination. Unless otherwise determined by the Committee at or after the date of grant, if the employment of a Participant other than a Director terminates by reason of a Qualifying Termination during a Restriction Period, a pro rata portion of any Stock related to a Stock Award or a Stock Unit held by such Participant shall vest at the date of such termination, based on the number of full months of such Participant's employment relative to the number of full months in the relevant Restriction Period. Unless otherwise determined by the Committee at or after the date of grant, if a Director's service terminates during a Restriction Period by reason of a Qualifying

Termination or because the Director becomes an employee of the Corporation or a Subsidiary, any Stock related to a Stock Award or Stock Unit held by such Participant shall

A-8

Table of Contents

vest at the date of such termination. Notwithstanding the foregoing, unless otherwise determined by the Committee at or after the date of grant, a Qualifying Termination due to Retirement shall have no effect on the vesting of a Stock Award.

(ii) Termination for any Other Reason. Unless otherwise determined by the Committee at or after the date of grant, no Stock Award or Stock Unit that is subject to a Restriction Period shall vest when a Participant's employment or service terminates for any reason other than a Qualifying Termination during the Restriction Period. Notwithstanding the immediately preceding sentence, a Participant's rights in respect of an unvested Stock Award or Stock Unit shall in all events be immediately forfeited and canceled as of the date of the Participant's employment is terminated for Cause or the Participant is removed from the Board for Cause or resigns in anticipation of his or her removal from the Board for Cause.

(c) Dividends and Voting. The Committee shall determine whether and to what extent dividends payable on Stock shall be credited to the account of, or paid currently, to a Participant in respect of a Stock Award or Stock Unit, provided the payment of any current dividends shall be made as soon as practicable after dividends are paid on the common stock (but in no event later than March 15 of the year following the end of the year in which the dividends are paid) and any accumulated dividends shall be paid at the same time as settlement of the Stock Award or Stock Unit. A Participant holding Stock Awards shall be entitled to exercise any voting rights and any other rights as a shareholder with respect to shares of Stock underlying such Award. A Participant holding Stock Units shall not be entitled to exercise any voting rights and any other rights as a shareholder with respect to shares of Stock underlying such Award.

(d) Settlement of Stock Awards and Stock Units. Unless otherwise determined by the Committee at or after the date of grant, within 90 days after the expiration of any Restriction Period for a Stock Award, the Corporation shall remove the restrictions applicable to the bookkeeping entry evidencing the vested Stock Award, and shall, upon request, deliver the stock certificates evidencing such Stock Award to the Participant or the Participant's legal representative (or otherwise evidence the issuance of such shares free of any restrictions imposed under the Plan).

Unless otherwise determined by the Committee at or after the date of grant, within 90 days after the earlier of (i) death, (ii) Disability, (iii) Separation from Service, or (iv) the expiration of any Restriction Period, for each vested Stock Unit, the Participant shall receive, in the Committee's discretion, (x) the Fair Market Value of one share of Stock as of such payment date, (y) one share of Stock, or (z) any combination of cash and shares of Stock.

For purposes of this Section 6(d), a Separation from Service means a separation from service within the meaning of Section 409A of the Code whereby the Participant and the Corporation (or such other member of the Corporation's controlled group of entities, within the meaning of Section 414(c) of the Code, for whom the Participant provides services) reasonably anticipate that (i) no further services would be performed by the Participant for the Corporation or other members of its controlled group after a certain date, or (ii) the level of bona fide services after such date would permanently decrease to no more than 49% of the average level of services performed in the prior 36-month period (or, if less, the full period of service with the Corporation or its other members of its controlled group) for any reason other than death or Disability.

Notwithstanding the foregoing, any settlement of an award that is subject to Section 409A of the Code to a Key Employee due to a Separation from Service shall be delayed for six months following the Key Employee's Separation from Service (or, if earlier, the date of death of the Key Employee).

(e) Restrictions on Transfer. Except as provided herein or in an award agreement, Stock Awards and Stock Units may not be sold, assigned, transferred, pledged, or otherwise encumbered during the Restriction Period. Any such attempt by the Participant to sell, assign, transfer, pledge, or encumber shares of Stock Awards and Stock Units without

complying with the provisions of the Plan shall be void and of no effect.

(f) Change in Control. Notwithstanding anything to the contrary in this Section 6, Section 9 shall determine the treatment of Stock Awards and Stock Units upon a Change in Control.

SECTION 7. STOCK OPTIONS

(a) Grant. Options may be granted to Participants at such time or times as shall be determined by the Committee. The Committee shall have the authority to grant Incentive Stock Options, or to grant Non-statutory Stock Options, or to grant both types of Options. Each Option shall be evidenced by an award agreement that shall specify the grant date, the type of Option granted, the exercise price, the duration of the Option, the number of shares of Stock to which the Option pertains, the conditions upon which the Option or any portion thereof shall become vested or exercisable, and such other terms and conditions not inconsistent with the Plan as the Committee shall determine, including customary representations, warranties, and covenants with respect to securities law matters. For the avoidance of doubt, Incentive Stock Options may be granted to Participants who are treated as common law employees of the Corporation or any Subsidiary Corporation (as defined in Section 424(f) of the Code) only.

(b) Exercise Price. The Committee shall establish the exercise price at the time each Option is granted, which price shall not be less than 100% of the Fair Market Value of the Stock on the date of grant.

(c) Vesting and Exercisability. Unless otherwise determined by the Committee at or after grant, and subject to the Participant's continued employment or service with the Company on such date, each Option awarded to a Participant under the Plan shall become vested and exercisable in three approximately equal installments on each of the first three anniversaries of the grant date. Options also may become exercisable, in whole or in part, upon the occurrence of any event or events, including a Change in Control, specified in the Plan, or specified by the Committee, in its discretion, either at or after the grant date of the applicable Option. In its discretion, the Committee also may establish performance conditions with respect to the exercisability of any Option based on one or more of the Performance Goals listed in Section 5(c) or such other performance condition as determined by the Committee, during a performance period selected by the Committee. No Option shall be exercisable on or after the tenth anniversary of its grant date. The Committee may impose such conditions with respect to the exercise of Options, including without limitation, any relating to the application of federal or state securities laws, as it may deem necessary or advisable.

(d) Payment. No Stock shall be delivered pursuant to any exercise of an Option until payment in full of the option price therefore is received by the Corporation. Such payment may be made in cash or its equivalent or, if permitted by the Committee, (i) by exchanging shares of Stock owned by the optionee and that are not the subject of any pledge or other security interest, (ii) through an arrangement with a broker approved by the Corporation whereby payment of the exercise price is accomplished with the proceeds of the sale of Stock, (iii) withholding shares of Stock subject to the Option with a Fair Market Value on the date of exercise equal to the exercise price, or (iv) by a combination of the foregoing, provided that the combined value of all cash and cash equivalents and the Fair Market Value of any such Stock so tendered to the Corporation, valued as of the date of such tender, is at least equal to such exercise price. The Corporation may not make a loan to a Participant to facilitate such Participant's exercise of any of his or her Options or payment of taxes.

(e) Incentive Stock Option Status. Notwithstanding anything in this Plan to the contrary, no term of this Plan relating to Incentive Stock Options shall be interpreted, amended or altered, nor shall any discretion or authority granted under the Plan be so exercised, so as to disqualify the Plan under Section 422 of the Code.

(f) Termination.

(i) Qualifying Termination. Unless otherwise determined by the Committee at or after the date of grant, if a Participant's employment or service terminates by reason of a Qualifying Termination on or after the first anniversary of the grant date of an Option or because the Participant's service as a Director terminates by reason of becoming an Employee, the Participant (or the Participant's beneficiary or legal representative) may exercise the Option (regardless of whether then exercisable) until the date the Option would expire otherwise. Any rights that a Participant or

Designated Beneficiary may have in respect of any Option not remaining exercisable in accordance with the preceding sentence shall be forfeited and cancelled as of the date of the Qualifying Termination.

(ii) Termination for any Other Reason. Unless otherwise determined by the Committee at or after the date of grant, if Section 7(f)(i) does not apply, any Option that is not exercised on or prior to the date of

Table of Contents

termination of employment or service (including, without limitation, any portion of such Option that is not exercisable as of the date of such termination) shall be forfeited and cancelled as of the date of such termination.

(iii) Removal for Cause. Notwithstanding anything else contained in the Plan to the contrary, if the employment of a Participant other than a Director is terminated for Cause (or, following the date the Participant's employment terminates, the Committee determines that circumstances exist such that the Participant's employment could have been terminated for Cause), any Options granted to such Participant, whether or not then vested or exercisable, shall be forfeited and cancelled as of the date of such termination of employment and shall not be exercisable on such date. Notwithstanding anything else contained in the Plan to the contrary, if a Director is removed from the Board for Cause or resigns in anticipation of his or her removal from the Board for Cause, any Option held by such Director shall be forfeited and cancelled as of the date of such termination of service, and the Corporation shall have the right to rescind any exercise of any Option by such Director effected within 90 days of the date of his or her termination of service as a member of the Board.

(g) Change in Control. Notwithstanding anything to the contrary in this Section 7, Section 9 shall determine the treatment of Options upon a Change in Control.

(h) Dividend Equivalents. No dividends payable on Stock shall be credited to the account of, or paid currently, to a Participant in respect of an Award of Options.

SECTION 8. STOCK APPRECIATION RIGHTS

(a) Grant. Stock Appreciation Rights may be granted to Participants at such time or times as shall be determined by the Committee. Stock Appreciation Rights may be granted in tandem with Options, in addition to Options, or freestanding and unrelated to Options. Stock Appreciation Rights granted with or in addition to an Option may be granted either at the same time as the Option or at a later time. No Stock Appreciation Right shall be exercisable on or after the tenth anniversary of its grant date. Stock Appreciation Rights shall be evidenced in writing, whether as part of the award agreement governing the terms of the Options, if any, to which such Stock Appreciation Right relates, or pursuant to a separate award agreement with respect to freestanding Stock Appreciation Rights, in each case, containing the grant date and such provisions not inconsistent with the Plan as the Committee shall determine, including customary representations, warranties and covenants with respect to securities law matters. Notwithstanding anything in the Plan to the contrary, any Stock Appreciation Right granted in tandem with an Option shall be granted at the same time as the Option, and the exercise of a tandem Option shall terminate the related Stock Appreciation Right and the exercise of a tandem Stock Appreciation Right shall terminate the related Option.

(b) Vesting and Exercisability; Termination. The rules governing the vesting and exercisability of Options shall equally apply to the vesting and exercisability of Stock Appreciation Rights, regardless of whether granted in tandem with any Option. Unless otherwise determined by the Committee at or after the date of grant, upon a Participant's termination of employment or service, Stock Appreciation Rights shall be treated in substantially the same manner as provided for Options in Section 7(f).

(c) Settlement. Upon exercise of a Stock Appreciation Right, the Participant shall be entitled to receive a payment determined by multiplying:

(i) the excess, if any, of the Fair Market Value of a share of Stock on the date of exercise (or such lesser amount that the Committee shall specify at the time of grant) over the Fair Market Value of a share of Stock on the date of grant (or such greater amount that the Committee shall specify at the time of grant), by

(ii) the number of shares of Stock with respect to which the Stock Appreciation Right is exercised.

The Committee shall determine whether payment in respect of Stock Appreciation Rights is made in cash, shares of Stock, or a combination thereof.

(d) Change in Control. Notwithstanding anything to the contrary in this Section 8, Section 9 shall determine the treatment of Options upon a Change in Control.

A-11

Table of Contents

(e) Dividend Equivalents. No dividends payable on Stock shall be credited to the account of, or paid currently, to a Participant in respect of an Award of Stock Appreciation Rights.

SECTION 9. CHANGE IN CONTROL

(a) Alternative Awards. No cancellation, acceleration of exercisability or vesting, lapse of any Restriction Period or settlement or other payment shall occur with respect to any outstanding Award (including, without limitation, Performance Shares and Performance Units) upon a Change in Control if the Committee reasonably determines, in good faith, prior to the Change in Control that such outstanding Awards shall be honored or assumed, or new rights substituted therefor (such honored, assumed, or substituted Award being hereinafter referred to as an Alternative Award) by the New Company, provided that any Alternative Award must:

(i) be based on securities that are traded on an established United States securities market, or which will be so traded within 60 days of the Change in Control;

(ii) provide the Participant (or each Participant in a class of Participants) with rights and entitlements substantially equivalent to or better than the rights, terms and conditions applicable under such Award, including, but not limited to, an identical or better exercise or vesting schedule and identical or better timing and methods of payment;

(iii) have substantially equivalent economic value to such Award (determined at the time of the Change in Control);

(iv) have terms and conditions which provide that if the Participant's employment or service is involuntarily terminated or constructively terminated, any conditions on a Participant's rights under, or any restrictions on transfer or exercisability applicable to, each such Alternative Award shall be waived or shall lapse, as the case may be; and

(v) not subject the Participant to the assessment of additional taxes or interest under Section 409A of the Code.

For Participant's with an employment or individual severance agreement with a constructive termination, Good Reason or similar definition, constructive termination shall have the meaning set forth therein, and for all other Participants, the occurrence of a constructive termination shall be determined in good faith by the Committee (as constituted prior to the Change in Control).

(b) Accelerated Vesting and Payment.

(i) In General. In the event Section 9(a) does not apply, upon a Change in Control (A) all outstanding Options and Stock Appreciation Rights shall become vested and exercisable immediately prior to the Change in Control and (B) all outstanding unvested Stock Awards and Stock Units shall become vested immediately prior to the Change in Control.

(ii) Additionally, in the event Section 9(a) does not apply, the Committee (as constituted prior to the Change in Control) shall provide that in connection with the Change in Control (A) each Option and Stock Appreciation Right shall be cancelled in exchange for an amount (payable in accordance with Section 9(b)(iv)) equal to the excess, if any, of the Fair Market Value of a share of Stock on the date of the Change in Control over the exercise price for such Option or the base value applicable to such Stock Appreciation Right and (B) each Stock Award and Stock Unit shall be cancelled in exchange for an amount (payable in accordance with Section 9(b)(iv)) equal to the Change in Control Price multiplied by the number of shares of Stock covered by such Award.

(iii) Performance Shares and Performance Units. In the event Section 9(a) does not apply, upon a Change in Control, (A) each outstanding Performance Share shall be cancelled in exchange for a payment equal to the product of the Payment Value that would have been payable had each such Performance Share been deemed equal to 100% (or such

greater or lesser percentage as the Committee shall specify at grant or such greater percentage as the Committee shall specify after grant) of its Payment Value and (B) each

outstanding Performance Unit shall be cancelled in exchange for a payment equal to the product of the value that would have payable had each such Performance Unit been deemed equal to 100% (or such greater or lesser percentage as the Committee shall specify at grant or such greater percentage as the Committee shall specify after grant) of its initially established dollar or local currency denominated value.

(iv) Payments. Payment of any amounts calculated in accordance with Section 9 shall be made in cash or, if determined by the Committee (as constituted prior to the Change in Control), in shares of the stock of the New Company having an aggregate fair market value equal to such amount or in a combination of such shares of stock and cash. All amounts payable hereunder shall be payable in full, as soon as reasonably practicable, but in no event later than 10 business days, following the Change in Control. For purposes hereof, the fair market value of one share of stock of the New Company shall be determined in good faith by the Committee (as constituted prior to the Change in Control).

(c) Termination Prior to Change in Control. In the event that any Change in Control occurs as a result of any transaction described in clause (iii) or (iv) of the definition of such term, any Participant whose employment or service is involuntarily terminated by a Company other than for Cause or is terminated due to death or Disability, in either case, on or after the date on which the shareholders of the Corporation approve the transaction giving rise to the Change in Control, but prior to the consummation thereof, shall be treated, solely for purposes of this Plan (including, without limitation, this Section 9), as continuing in the Corporation's employment or service until the occurrence of such Change in Control, and to have been terminated immediately thereafter.

(d) Notwithstanding the foregoing provisions of Section 9, in connection with the payment to a Participant other than a Director of an amount subject to Section 409A of the Code, Sections 9(b) and 9(c) shall have no effect on the payment date of such amount. Notwithstanding the foregoing provisions of Section 9, in connection with the payment to a Director of an amount subject to Section 409A of the Code, Sections 9(b) and 9(c) shall have no effect on the payment date of such amount unless the Change in Control also satisfies the definition of change in control event under Section 409A of the Code and Treasury Regulation Section 1.409A-3(i)(5).

SECTION 10. EFFECTIVE DATE, AMENDMENT, MODIFICATION,
AND TERMINATION OF THE PLAN

The Plan shall be effective on the Effective Date, and shall continue in effect, unless sooner terminated pursuant to this Section 10, until December 31, 2019. The Board or the Committee may at any time in its sole discretion, for any reason whatsoever, terminate or suspend the Plan, and from time to time may amend or modify the Plan; provided that without the approval by a majority of the votes cast at a duly constituted meeting of shareholders of the Corporation, no amendment or modification to the Plan may materially modify the Plan in any way that would require shareholder approval under any regulatory requirement that the Committee determines to be applicable, including, without limitation, the rules of the New York Stock Exchange. No amendment, modification, or termination of the Plan shall have a materially adverse effect on any Award theretofore granted under the Plan, without the consent of the Participant. Notwithstanding the foregoing, no Participant consent shall be needed for an amendment, modification, or termination of the Plan if the Committee determines such amendment, modification, or termination is necessary or advisable for the Corporation to comply with applicable law (including Section 409A of the Code), regulation, rule, or accounting standard. No Incentive Stock Option may be granted after the tenth anniversary of the Effective Date.

SECTION 11. GENERAL PROVISIONS

(a) Section 409A of the Code. This Plan is intended to be interpreted, operated, and administered in a manner so as not to subject Participants to the assessment of additional taxes or interest under Section 409A of the Code.

(b) Withholding. The Company shall have the right to deduct from all amounts paid to a Participant in cash (whether under this Plan or otherwise) any amount of taxes required by law to be withheld in respect of Awards under this Plan as may be necessary in the opinion of the Company to satisfy the minimum tax withholding required under the laws of any country, state, province, city, or other jurisdiction, including but not limited to income taxes,

A-13

capital gains taxes, transfer taxes, and social security contributions that are required by law to be withheld. In the case of payments of Awards in the form of Stock, at the Committee's discretion, the Participant shall be required to either pay to the Company the minimum amount of any taxes required to be withheld with respect to such Stock or, in lieu thereof, the Company shall have the right to retain the number of shares of Stock whose Fair Market Value equals such minimum amount required to be withheld.

(c) Nontransferability of Awards. No Award shall be assignable or transferable except by will or the laws of descent and distribution; provided that the Committee may permit (on such terms and conditions as it shall establish) a Participant to transfer an Award (other than an Incentive Stock Option) for no consideration to the Participant's child, stepchild, grandchild, parent, stepparent, grandparent, spouse, former spouse, sibling, niece, nephew, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law, including adoptive relationships, any person sharing the Participant's household (other than a tenant or employee), a trust in which these persons have more than fifty percent (50%) of the beneficial interest and any other entity in which these persons (or the Participant) own more than fifty percent (50%) of the voting interests (Permitted Transferees). Except to the extent required by law, no right or interest of any Participant shall be subject to any lien, obligation, or liability of the Participant. All rights with respect to Awards granted to a Participant under the Plan shall be exercisable during the Participant's lifetime only by such Participant or, if applicable, his or her Permitted Transferee(s). The rights of a Permitted Transferee shall be limited to the rights conveyed to such Permitted Transferee, who shall be subject to and bound by the terms of the agreement or agreements between the Participant and the Corporation.

(d) No Limitation on Compensation. Nothing in the Plan shall be construed to limit the right of the Company to establish other plans or to pay compensation to its Directors or Employees or Consultants, in cash or property, in a manner which is not expressly authorized under the Plan.

(e) No Additional Rights. No person shall have any claim or right to be granted an Award, and the grant of an Award shall not be construed as giving a Participant the right to be retained in the employ or service of the Company. The grant of an Award hereunder, and any future grant of Awards under the Plan is entirely voluntary, and at the complete discretion of the Corporation. Neither the grant of an Award nor any future grant of Awards by the Corporation shall be deemed to create any obligation to grant any further Awards, whether or not such a reservation is explicitly stated at the time of such a grant. The Plan shall not be deemed to constitute, and shall not be construed by the Participant to constitute, part of the terms and conditions of employment and participation in the Plan shall not be deemed to constitute, and shall not be deemed by the Participant to constitute, an employment or labor relationship of any kind with the Company. The Company expressly reserves the right at any time to dismiss a Participant free from any liability, or any claim under the Plan, except as provided herein and in any agreement entered into with respect to an Award. The Corporation expressly reserves the right to require, as a condition of participation in the Plan, that Award recipients agree and acknowledge the above in writing. Further, the Corporation expressly reserves the right to require Award recipients, as a condition of participation, to consent in writing to the collection, transfer from the Company to the Corporation and third parties, storage and use of personal data for purposes of administering the Plan.

(f) No Rights as Shareholder. Subject to the provisions of the applicable Award contained in the Plan and in the award agreement, no Participant, Permitted Transferee or Designated Beneficiary shall have any rights as a shareholder with respect to any shares of Stock to be distributed under the Plan until he or she has become the holder thereof.

(g) Construction of the Plan. The validity, construction, interpretation, administration and effect of the Plan and of its rules and regulations, and rights relating to the Plan, shall be determined solely in accordance with the laws of the State of New Jersey (without reference to the principles of conflicts of law).

(h) Compliance with Legal and Exchange Requirements. The Plan, the granting and exercising of Awards thereunder, and any obligations of the Corporation under the Plan, shall be subject to all applicable federal, state, and foreign country laws, rules, and regulations, and to such approvals by any regulatory or governmental agency as may be required, and to any rules or regulations of any exchange on which the Stock is listed. The Corporation, in its discretion, may postpone the granting and exercising of Awards, the issuance or delivery of Stock under any Award

A-14

or any other action permitted under the Plan to permit the Corporation, with reasonable diligence, to complete such stock exchange listing or registration or qualification of such Stock or other required action under any federal, state or foreign country law, rule, or regulation and may require any Participant to make such representations and furnish such information as it may consider appropriate in connection with the issuance or delivery of Stock in compliance with applicable laws, rules, and regulations. The Corporation shall not be obligated by virtue of any provision of the Plan to recognize the exercise of any Award or to otherwise sell or issue Stock in violation of any such laws, rules, or regulations, and any postponement of the exercise or settlement of any Award under this provision shall not extend the term of such Awards. Neither the Corporation nor its directors or officers shall have any obligation or liability to a Participant with respect to any Award (or Stock issuable thereunder) that shall lapse because of such postponement.

(i) Indemnification. Each person who is or shall have been a member of the Committee and each delegate of such Committee shall be indemnified and held harmless by the Corporation against and from any loss, cost, liability, or expense that may be imposed upon or reasonably incurred by him or her in connection with or resulting from any claim, action, suit, or proceeding to which he or she may be made a party or in which he or she may be involved in by reason of any action taken or failure to act under the Plan and against and from any and all amounts paid by him or her in settlement thereof, with the Corporation's approval, or paid by him or her in satisfaction of any judgment in any such action, suit, or proceeding against him or her, provided that the Corporation is given an opportunity, at its own expense, to handle and defend the same before he or she undertakes to handle and defend it personally. The foregoing right of indemnification shall not be exclusive and shall be independent of any other rights of indemnification to which such persons may be entitled under the Corporation's Articles of Incorporation or By-laws, by contract, as a matter of law, or otherwise.

(j) Amendment of Award. In the event that the Committee shall determine that such action would, taking into account such factors as it deems relevant, be beneficial to the Corporation, the Committee may affirmatively act to amend, modify, or terminate any outstanding Award at any time prior to payment or exercise in any manner not inconsistent with the terms of the Plan, including without limitation, to change the date or dates as of which (i) an Option or Stock Appreciation Right becomes exercisable, (ii) a Performance Share or Performance Unit is deemed earned, or (iii) a Stock Award or Stock Unit becomes nonforfeitable, except that no outstanding Award may be amended or otherwise modified or exchanged (other than in connection with a transaction described in Section 4(d)) in a manner that would have the effect of reducing its original exercise price or otherwise constitute repricing. Any such action by the Committee shall be subject to the Participant's consent if the Committee determines that such action would have a materially adverse effect on the Participant's rights under such Award, whether in whole or in part. Notwithstanding the foregoing, the Committee, in its sole discretion, may amend an Award if it determines such amendment is necessary or advisable for the Corporation to comply with applicable law (including Section 409A of the Code), regulation, rule, or accounting standard.

(k) Deferrals. The Committee may postpone the exercising of Awards, the issuance or delivery of Stock under, or the payment of cash in respect of, any Award or any action permitted under the Plan, upon such terms and conditions as the Committee may establish from time to time, provided such deferral is consistent with Section 409A of the Code and the Treasury Regulations promulgated thereunder.

(i) Employees. A Participant who is an Employee may electively defer receipt of the shares of Stock or cash otherwise payable in respect of any Award (other than amounts payable under an Option or a Stock Appreciation Right) under the terms of The Chubb Corporation Key Employee Deferred Compensation Plan (2005) or its successor.

(ii) Directors. A Director may electively defer receipt of the shares of Stock or cash otherwise payable in respect of any Award (other than amounts payable under an Option or Stock Appreciation Right) to a specified date in accordance with this Section 11(k)(ii) and terms established by the Committee. If a Director makes an election to defer an Award or a portion thereof to a specified date, such vested portion of the Award shall be paid in a lump sum

on the specified date. Notwithstanding any deferral election made by the Director, any deferred vested Award shall be distributed in a lump sum payment to the Director or beneficiary within 90 days following the date the Director becomes Disabled or dies. Disabled means a Director (x) is unable to

engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or can be expected to last for a continuous period of not less than 12 months or (y) is determined to be totally disabled by the Social Security Administration. A Director may designate his beneficiary in a writing delivered to the Committee prior to death in accordance with procedures established by the Committee. If a Director has not properly designated a beneficiary or if no designated beneficiary is living on the date of distribution, such amount shall be distributed to the Director's estate. Notwithstanding any deferral election made by a Director, in the event of a Change in Control, vested Awards shall be distributed within 10 business days of the Change in Control, provided such Change in Control also satisfies the definition of "change in control event" under Section 409A of the Code and Treasury Regulation Section 1.409A-3(i)(5).

(A) Timing of Deferral Elections. To make a deferral election, a Director shall file an irrevocable deferral form with the Committee before the beginning of the year in which such Award would be granted. Notwithstanding the foregoing, (1) if the Committee determines that an Award qualifies as "performance-based compensation" under Section 409A of the Code, a Director may elect to defer a portion of the Award by filing a deferral form at such later time up until the date six months before the end of the performance period as permitted by the Committee, and (2) in the first year in which a Director becomes eligible to make a deferral election under the Plan, a deferral election may be made with respect to services to be performed subsequent to the election within 30 days after the date the Director becomes eligible to participate in the Plan to the extent permitted under Section 409A of the Code. Once a deferral election has become irrevocable under Section 409A of the Code, payment of the deferred amount shall be made in accordance with the terms of this Section 11(k)(ii) and not the other terms of the Plan or the Award.

(B) Changes in Deferral Elections. A Director may make one or more subsequent elections to change the time of distribution for a deferred Award, but such an election shall be effective only if the following conditions are satisfied: (1) the election may not take effect until at least twelve (12) months after the date on which such subsequent election is made; (2) the distribution may not be made earlier than at least five (5) years from the date the distribution would have otherwise been made; and (3) the election must be made at least twelve (12) months before the date the distribution is scheduled to be paid.

(l) No Impact on Benefits. Except as may otherwise be specifically stated under any employee benefit plan, policy or program, no amount payable in respect of any Award shall be treated as compensation for purposes of calculating a Participant's right under any such plan, policy or program.

(m) No Constraint on Corporate Action. Nothing in this Plan shall be construed (i) to limit, impair, or otherwise affect the Corporation's right or power to make adjustments, reclassifications, reorganizations, or changes of its capital or business structure, or to merge or consolidate, or dissolve, liquidate, sell, or transfer all or any part of its business or assets or (ii) to limit the right or power of the Corporation, or any Subsidiary, to take any action which such entity deems to be necessary or appropriate, subject to Sections 10 and 11(j).

(n) Headings and Captions. The headings and captions herein are provided for reference and convenience only, shall not be considered part of this Plan, and shall not be employed in the construction of this Plan.

ANNEX B

THE CHUBB CORPORATION

POLICY ON PRE-APPROVAL OF INDEPENDENT AUDITOR SERVICES

I. Statement of Principles

The Audit Committee of the Board of Directors is responsible for the appointment, compensation, retention, and oversight of the work of the independent auditor. The Chubb Corporation and the Audit Committee are committed to ensuring the independence of the auditor, both in appearance and in fact. Accordingly, significant attention is directed toward ensuring that services provided by the auditor are consistent with the SEC's rules on auditor independence.

The Audit Committee is required to pre-approve the audit and non-audit services performed by the independent auditor or its affiliates on behalf of The Chubb Corporation or any of its subsidiaries (collectively, the Corporation) in order to assure that the provision of such services does not impair the auditor's independence from the Corporation. In the case of audit services, pre-approval by the Audit Committee is required for such services provided to all consolidated subsidiaries of the Corporation, whether provided by the principal independent auditor or other firms.

II. Delegation

The Audit Committee has delegated to the Chairman of the Audit Committee authority to pre-approve specific services not to exceed \$25,000 per engagement. Any services pre-approved by the Chairman shall be reported to the Audit Committee at its next scheduled meeting.

The Audit Committee may consult with management but does not delegate its responsibilities to pre-approve services performed by the independent auditor to management.

III. Audit Services

Audit services include all services to be performed to comply with generally accepted auditing standards and those services that generally only the Corporation's independent auditor can provide, such as comfort letters, statutory audits, attest services, consents and assistance with and review of documents filed with the SEC.

IV. Audit-Related Services

Audit-related services are assurance and related services that are reasonably related to the performance of the audit or review of the Corporation's financial statements and that are traditionally performed by the independent auditor. The Audit Committee believes that the provision of audit-related services does not impair the independence of the auditor and is consistent with the SEC's rules on auditor independence. Audit-related services include, among other services, audits of employee benefit plans; due diligence related to mergers and acquisitions; internal control reviews; attest services that are not required by statute or regulation; and consultations related to financial accounting or reporting standards.

V. Tax Services

The Audit Committee believes that the provision of tax services to the Corporation including tax planning, compliance, and advice does not impair the independence of the auditor and is consistent with the SEC's rules on auditor independence. Tax services include tax planning, compliance, and advice; preparation and review of original and amended tax returns; assistance with claims for refund and tax payment-planning services, tax audits and appeals before the IRS and similar state, local and foreign agencies; and advice related to mergers and acquisitions, employee benefit plans and requests for rulings or technical advice for taxing authorities. The Corporation shall not record a transaction or transactions, the primary business purpose of which may be tax avoidance and the tax treatment of which may not be supported in the Internal Revenue Code and related

B-1

Table of Contents

regulations; the rendering of services to the Corporation, its executive officers and its directors by the independent auditor in connection with the auditor's recommendation of such transaction or transactions is prohibited.

VI. All Other Services

The Audit Committee believes that certain specific non-audit services do not impair the auditor's independence. Accordingly, the Audit Committee may grant pre-approval to specific, permissible non-audit services classified as All Other Services that it believes are routine and recurring services that would not impair the independence of the auditor. All Other Services may include preparation of actuarial reports in accordance with regulatory requirements provided that the Audit Committee reasonably concludes that the results of these services will not be subject to audit procedures during an audit of the Corporation's financial statements.

VII. Procedures

Requests for services to be rendered by the independent auditor will be provided annually to the Audit Committee for specific pre-approval. The requests will include a description of the particular services to be rendered and the expected fee range. On a periodic basis at subsequent Audit Committee meetings, an update on independent auditor services and all other audit services will be provided to the Audit Committee and any proposed new services, increases in engagement scope, and increases in engagement fees will be provided for specific pre-approval by the Audit Committee. Requests for pre-approval will be submitted to the Audit Committee by both the independent auditor and management and must include a written statement by the independent auditor as to whether, in its view, the request is consistent with the SEC's rules on auditor independence.

The Audit Committee will consider whether such service requests are consistent with the SEC rules on auditor independence. The Audit Committee will also consider whether the independent auditor is best positioned to provide the most effective and efficient service, for reasons such as its familiarity with the Corporation's business, people, culture, accounting systems, risk profile and other factors.

The term of any pre-approval is the period beginning on the date of pre-approval and ending on the last day of the first full calendar year after the date of pre-approval, unless the Corporation specifically provides for a different period.

The Audit Committee is also mindful of the overall relationship of fees for audit and non-audit services in determining whether to pre-approve any such services. For each fiscal year, the Audit Committee may determine the appropriate ratio between the total amount of fees for Audit, Audit-related, Tax, and All Other Services.

VIII. Prohibited Non-Audit Services

Provision of the following non-audit services by the independent auditor is prohibited in accordance with the SEC's rules. The SEC's rules and relevant guidance should be consulted to determine the precise definitions of these services and the applicability of exceptions to certain of the prohibitions.

Bookkeeping or other services related to the accounting records or financial statements of the Corporation;

Financial information systems design and implementation;

Appraisal or valuation services, fairness opinions or contribution-in-kind reports;

Actuarial services;

Internal audit outsourcing services;

Management functions or human resources;

Broker-dealer, investment adviser, or investment banking services;

Legal services and expert services unrelated to the audit; and

Any other service that the Public Company Accounting Oversight Board determines, by regulation, is impermissible.
