**BOWNE & CO., INC. AND SUBSIDIARIES**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**(Unaudited)**

**(In thousands, except share information and where noted)**

**Note 1. Basis of Presentation**

The financial information as of June 30, 2010 and for the three and six month periods ended June 30, 2010 and 2009 has been prepared without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC). In the opinion of management, all adjustments (consisting of only normal recurring adjustments) necessary for a fair presentation of the consolidated financial position, results of operations and of cash flows for each period presented have been made on a consistent basis. Certain information and footnote disclosures normally included in consolidated financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. These financial statements should be read in conjunction with the Company's annual report on Form 10-K and consolidated financial statements as of and for the year ended December 31, 2009. Operating results for the three and six months ended June 30, 2010 may not be indicative of the results that may be expected for the full year.

**Note 2. Merger Agreement with R.R. Donnelley**

On February 23, 2010, Bowne & Co., Inc. (the Company) entered into an Agreement and Plan of Merger (the Merger Agreement) with R.R. Donnelley & Sons Company, a Delaware corporation (R.R. Donnelley), and Snoopy Acquisition, Inc., a Delaware corporation and a wholly owned subsidiary of R.R. Donnelley (Merger Sub). The Merger Agreement was approved by the Boards of Directors of the parties to the Merger Agreement. The merger was also approved by the Company's shareholders in May 2010.

Pursuant to the terms of the Merger Agreement, Merger Sub will merge with and into the Company, with the Company surviving the merger (the Merger) as a wholly-owned subsidiary of R.R. Donnelly. In the Merger, each outstanding share of common stock of the Company, other than those held by the Company or its subsidiaries, or owned by R.R. Donnelley or Merger Sub and those with respect to which dissenters rights are properly exercised, will be cancelled and converted into the right to receive cash in the amount of \$11.50 per share.

Consummation of the merger is subject to various customary conditions, including the approval of the Federal Trade Commission under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, other applicable regulatory approvals and the absence of certain legal impediments to the consummation of the Merger.

The Merger Agreement contains certain termination rights for both the Company and R.R. Donnelley and further provides that, upon termination of the Merger Agreement under specified circumstances, the Company may be obligated to pay R.R. Donnelley a termination fee of \$14.5 million. In addition, in the event that the Merger Agreement is terminated in certain circumstances involving a failure to obtain antitrust approval, R.R. Donnelley will be obligated to pay the Company a termination fee of \$20.0 million plus up to \$2.5 million of legal expenses.

The Merger Agreement also contains covenants with respect to the operation of the Company's business between signing of the Merger Agreement and closing of the Merger. Pending consummation of the Merger, the Company will operate its business in the ordinary and usual course, except for certain actions which would require R.R. Donnelley's approval. Such actions include mergers and acquisitions, issuance of stock, incurring debt in excess of agreed upon amounts, payment of dividends other than the regular quarterly dividend, incurring capital expenditures in excess of budgeted amounts, entering into long-term arrangements, amending or terminating contracts, establishing new

employee benefits or amending existing employee benefits, and certain other spending limits.

During the three and six months ended June 30, 2010, the Company recorded approximately \$3.2 million and \$6.1 million of expenses related to the Merger, respectively. These expenses primarily consist of advisory fees, estimated legal fees, a \$0.6 million provision for estimated settlement costs associated with shareholder litigation and other transition related costs. These amounts are included in the Company's results of operations for the three and six months ended June 30, 2010, respectively.

**Table of Contents**

**BOWNE & CO., INC. AND SUBSIDIARIES**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**Note 3. Recent Accounting Pronouncements**

In January 2010, the Financial Accounting Standards Board ( FASB ) issued an accounting standards update ( ASU ) regarding improving disclosure about fair value measurements, which amends the existing disclosure requirements under fair value measurements and disclosures by adding required disclosure about items transferring into and out of Levels 1 and 2 fair value measurements; adding separate disclosure about purchases, sales, issuances, and settlements relative to the Level 3 fair value measurements; and clarifying certain aspects of the existing disclosure requirements. This ASU was effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in the roll-forward of activity in Level 3 fair value measurements, which is effective for years beginning after December 15, 2010, and for interim periods within those fiscal years. This ASU does not require disclosures for earlier periods presented for comparative purposes at initial adoption. In periods after initial adoption, the ASU requires comparative disclosures only for periods ending after the initial adoption. The Company adopted the first component of the disclosure requirement under this ASU during the first quarter of 2010. Its adoption did not have a significant impact on the Company s financial statements. In addition, the Company will adopt the latter part of the disclosure requirement under this ASU in the first quarter of 2011, and does not anticipate its adoption will have a significant impact on the Company s financial statements.

In February 2010, the FASB issued an ASU regarding amendments to certain recognition and disclosure requirements related to subsequent events, which amends the previously issued standard regarding the accounting for subsequent events. This ASU removes the requirement for an SEC filer to disclose a date through which subsequent events have been evaluated. This ASU was effective immediately, which the Company adopted in its Consolidated Financial Statements in the Company s annual report on Form 10-K for the year ended December 31, 2009. Its adoption did not have a significant impact on the Company s financial statements.

In October 2009, the FASB issued an ASU to amend and provide updated guidance for certain multiple deliverable revenue arrangements on whether multiple deliverables exist, how the deliverables in an arrangement should be separated, and how the consideration should be allocated. This amendment requires an entity to allocate revenue in an arrangement using the best estimated selling price of deliverables if a vendor does not have vendor-specific objective evidence or third party evidence of selling price. In addition, this amendment requires an entity to eliminate the use of the residual method and to allocate revenue using the relative selling price method. This accounting standard is effective prospectively for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010, with permission of early adoption. The Company will adopt this accounting standard in January 2011 on a prospective basis, and currently does not anticipate that its adoption will have a significant impact on the Company s financial statements.

**Note 4. Fair Value of Financial Instruments**

The Company defines the fair value of a financial instrument as the amount at which the instrument could be exchanged in a current transaction between willing parties. The fair value estimates presented in the table below are based on information available to the Company as of June 30, 2010.

The FASB standard regarding fair value measurements discusses valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow), and the cost approach (cost to replace the service capacity of an asset or replacement cost). The standard utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The following is a

brief description of those three levels:

*Level 1:* Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.

**Table of Contents****BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

*Level 2:* Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.

*Level 3:* Unobservable inputs that reflect the reporting entity's own assumptions.

The carrying value and fair value of the Company's significant financial assets and liabilities and the necessary disclosures for the periods are presented as follows:

	Carrying Value	June 30, 2010 Fair Value Measurements			Level 3
		Total	Level 1	Level 2	
<b>Financial Assets:</b>					
Cash and cash equivalents <sup>(1)</sup>	\$ 17,514	\$ 17,514	\$ 17,514	\$	\$
Marketable securities, current	249	249	249		
Marketable securities, noncurrent <sup>(2)</sup>					
Total financial assets	\$ 17,763	\$ 17,763	\$ 17,763	\$	\$
<b>Financial Liabilities:</b>					
Convertible subordinated debentures (the Notes <sup>(3)</sup> )	\$ 8,190	\$ 8,319	\$	\$ 8,319	\$
Senior revolving credit facility <sup>(4)</sup>	15,000	15,000		15,000	
Total financial liabilities	\$ 23,190	\$ 23,319	\$	\$ 23,319	\$

<sup>(1)</sup> Included in cash and cash equivalents is money market funds of \$3,556 as of June 30, 2010.

<sup>(2)</sup> In May 2010, the Company liquidated its investments in auction rate securities, which is discussed in more detail in the reconciliation below and in Note 5 to the Condensed Consolidated Financial Statements.

<sup>(3)</sup> The carrying value of the Notes has been adjusted to reflect the adoption of accounting guidance for convertible debt instruments, which is discussed in more detail in Note 1 to the Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2009. In addition, the carrying value of the Notes is shown net of debt discounts, and is classified as current liabilities as of June 30, 2010.

<sup>(4)</sup> The carrying value represents the borrowings outstanding under the Company's revolving credit facility, which is discussed in more detail in Note 10 to the Condensed Consolidated Financial Statements.

A reconciliation of the beginning and ending balance for the Company's investments in marketable securities using significant unobservable inputs (Level 3) for the three and six months ended June 30, 2010 was as follows:

	<b>June 30, 2010</b>	
	<b>Three Months Ended</b>	<b>Six Months Ended</b>
Beginning balance	\$ 2,883	\$ 2,920
Unrealized loss included in accumulated other comprehensive loss (before income taxes)		(37)
Reclassification adjustment of unrealized loss previously included in accumulated other comprehensive loss (before income taxes)	217	217
Proceeds received from sale of the investments in auction rate securities	(2,636)	(2,636)
Loss from sale of the investments included in income from continuing operations before income taxes	(464)	(464)
Ending balance	\$	\$

**Table of Contents****BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The following assumptions were used by the Company in order to measure the estimated fair value of its financial assets and liabilities as of June 30, 2010: (i) the carrying value of cash and cash equivalents approximates fair value because of the short term maturity of those instruments; (ii) the carrying value of the liabilities under the Company's revolving credit agreement approximates fair value as of June 30, 2010, since this facility has a variable interest rate similar to those that are currently available to the Company, and is reflective of current market conditions; and (iii) the fair value of the Notes was calculated using a discounted cash flow model (income approach) based on published corporate bond rates for similar debt without conversion features as of June 30, 2010.

**Note 5. Marketable Securities**

The Company classifies its investments in marketable securities as available-for-sale. Available-for-sale securities are carried at fair value, with the unrealized gains and losses, net of tax, reported as a separate component of stockholders equity.

During the second quarter of 2010, the Company liquidated its remaining investments in auction rate securities, which had a par value of approximately \$3.1 million, for approximately \$2.6 million and recognized a loss of approximately \$0.5 million upon the sale. The loss recognized on the sale of these securities is included in the Company's results of operations for the three and six months ended June 30, 2010. Upon the sale of these securities, the Company also reclassified unrealized losses of \$0.2 million (\$0.1 million after tax) related to the auction rate securities which were previously reported as a component of the Company's accumulated other comprehensive loss.

**Note 6. Stock-Based Compensation**

In accordance with the FASB standard regarding share-based payments, the Company measures the share-based compensation expense for stock options granted based upon the estimated fair value of the award on the date of grant and recognizes the compensation expense over the award's requisite service period. The Company has not granted stock options with market or performance conditions. There were no stock options granted during the three and six months ended June 30, 2010, respectively. The weighted-average fair value of stock options granted during the three and six months ended June 30, 2009 was \$1.51 and \$1.42, respectively. The weighted-average fair value was calculated using the Black-Scholes-Merton option pricing model. The following assumptions were used to determine the weighted-average fair value of the stock options granted during the three and six months ended June 30, 2009:

	<b>June 30, 2009</b>	
	<b>Three Months Ended</b>	<b>Six Months Ended</b>
Expected dividend yield	3.5%	3.5%
Expected stock price volatility	78.0%	67.2%
Risk-free interest rate	2.0%	2.3%
Expected life of options	5 years	5 years

The Company uses historical data to estimate the expected dividend yield and expected volatility of the Company's stock in determining the fair value of the stock options. The risk-free interest rate is based on the U.S. Treasury yield in effect at the time of grant and the expected life of the options represents the estimated length of time the options are

expected to remain outstanding, which is based on the history of exercises and cancellations of past grants made by the Company. In accordance with the FASB standard, the Company recorded compensation expense for the three and six months ended June 30, 2010 and 2009, net of pre-vesting forfeitures for the options granted, which was based on the historical experience of the vesting and forfeitures of stock options granted in prior years.

**Table of Contents****BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The Company recorded compensation expense related to stock options of \$234 and \$461 for the three and six months ended June 30, 2010, respectively, and \$168 and \$831 for the three and six months ended June 30, 2009, respectively, which is included in selling and administrative expenses in the Condensed Consolidated Statement of Operations. As of June 30, 2010, there was approximately \$1,197 of total unrecognized compensation cost related to non-vested stock option awards which is expected to be recognized over a weighted-average period of 1.4 years.

As discussed in more detail in Note 18 to the Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2009, the Company recognized approximately \$457 of compensation expense in March 2009 related to the accelerated vesting of the nonvested portion of the stock options voluntarily surrendered by certain executive officers of the Company during the first quarter of 2009. No additional compensation was provided to these officers in return for surrendering these stock options.

***Stock Option Plans***

The Company has two stock incentive plans, a 1999 Plan (which was amended in May 2009) and a 2000 Plan, which are described in more detail in Note 18 to the Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2009. The Company uses treasury shares to satisfy stock option exercises from the 2000 Plan, deferred stock units and restricted stock awards. To the extent treasury shares are not used, shares are issued from the Company's authorized and unissued shares.

The details of the stock option activity for the six months ended June 30, 2010 is as follows:

	<b>Number of Options</b>	<b>Weighted- Average Exercise Price</b>	<b>Aggregate Intrinsic Value</b>
Outstanding as of January 1, 2010	2,071,501	\$ 8.59	
Granted		\$	
Exercised	(3,750)	\$ 3.23	
Forfeited/Cancelled	(40,500)	\$ 11.75	
Outstanding as of March 31, 2010	2,027,251	\$ 8.54	
Granted		\$	
Exercised	(3,750)	\$ 3.06	
Forfeited/Cancelled	(11,750)	\$ 12.60	
Outstanding as of June 30, 2010	2,011,751	\$ 8.53	\$ 7,620
Exercisable as of June 30, 2010	1,077,626	\$ 11.64	\$ 1,716

The total intrinsic value of the stock options exercised during the three and six months ended June 30, 2010 was \$31 and \$61, respectively. There were no stock options exercised during the three and six months ended June 30, 2009. The amount of cash received from the exercise of stock options was \$24 for the six months ended June 30, 2010. The tax benefit recognized related to compensation expense for stock options amounted to \$50 and \$97 for the three and

six months ended June 30, 2010, respectively, and \$50 and \$106 for the three and six months ended June 30, 2009, respectively. The actual tax benefits realized from stock option exercises was \$15 and \$25 for the three and six months ended June 30, 2010, respectively. The excess tax benefits related to stock option exercises resulted in cash flows from financing activities of \$21 for the six months ended June 30, 2010.

**Table of Contents****BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The following table summarizes weighted-average option exercise price information as of June 30, 2010:

Range of Exercise Prices	Options Outstanding		Weighted-Average Exercise Price	Options Exercisable	
	Number Outstanding	Weighted-Average Remaining Life		Number Exercisable	Weighted-Average Exercise Price
\$ 1.49 - \$10.31	1,277,145	5 years	\$ 5.28	350,520	\$ 6.39
\$ 10.32 - \$11.99	41,232	3 years	\$ 10.69	41,232	\$ 10.69
\$ 12.00 - \$14.00	432,289	1 years	\$ 13.72	430,789	\$ 13.72
\$ 14.01 - \$15.77	227,165	3 years	\$ 15.19	223,665	\$ 15.19
\$ 15.78 - \$19.72	33,920	6 years	\$ 17.53	31,420	\$ 17.58
	2,011,751	4 years	\$ 8.53	1,077,626	\$ 11.64

The following table summarizes information about nonvested stock option awards as of June 30, 2010:

	Number of Options	Weighted-Average Grant-Date Fair Value
Nonvested stock options as of January 1, 2010	964,500	\$ 2.26
Granted		\$
Vested	(27,875)	\$ 2.13
Forfeited		\$
Nonvested stock options as of March 31, 2010	936,625	\$ 2.26
Granted		\$
Vested	(2,500)	\$ 1.51
Forfeited		\$
Nonvested stock options as of June 30, 2010	934,125	\$ 2.26

Total compensation expense recognized for stock options that vested during the three and six months ended June 30, 2010 amounted to \$1 and \$5, respectively. Total compensation expense recognized for stock options that vested during the three and six months ended June 30, 2009 amounted to \$15 and \$551. The decrease in compensation expense recognized for stock options that vested during the six months ended June 30, 2010 as compared to the same period in 2009 is primarily related to the compensation expense associated with the accelerated vesting of the voluntarily surrendered stock options in 2009, as previously discussed.

*Deferred Stock Awards*

The Company maintains a program for certain key executives and directors that provides for the conversion of a portion of their cash bonuses or directors' fees into deferred stock units. These units are convertible into the Company's common stock on a one-for-one basis, generally at the time of retirement or earlier under certain specific circumstances and are included as shares outstanding in computing the Company's basic and diluted earnings per share. As of June 30, 2010 and December 31, 2009, the amounts included in stockholders' equity for these units were \$6,735 and \$6,241, respectively. As of June 30, 2010 and December 31, 2009, there were 707,619 and 648,399 units outstanding, respectively.

Additionally, the Company has a Deferred Sales Compensation Plan for certain sales personnel. This plan allows a salesperson to defer payment of commissions to a future date. Participants may elect to defer commissions to be paid in either cash, a deferred stock equivalent (the value of which is based upon the value of the Company's common stock), or a combination of cash or deferred stock equivalents. The amounts deferred, plus any matching

Table of Contents**BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

contribution made by the Company, will be paid upon retirement, termination or in certain hardship situations. Amounts accrued which the employees participating in the plan have elected to be paid in deferred stock equivalents amounted to \$1,654 and \$1,874 as of June 30, 2010 and December 31, 2009, respectively. In January 2004, the Plan was amended to require that the amounts to be paid in deferred stock equivalents would be paid solely in the Company's common stock. As of June 30, 2010 and December 31, 2009, these amounts are a component of additional paid in capital in stockholders' equity. The payment of certain vested employer matching amounts due under the plan may be accelerated in the event of a change of control, as defined in the plan. As of June 30, 2010 and December 31, 2009, there were 144,517 and 160,287 deferred stock equivalents, respectively, outstanding under this Plan. These awards are included as shares outstanding in computing the Company's basic and diluted earnings per share.

Compensation expense related to deferred stock awards amounted to \$277 and \$577 for the three and six months ended June 30, 2010, respectively and \$312 and \$315 for the three and six months ended June 30, 2009, respectively. During the first quarter of 2009, the portion of directors' compensation that was previously deferred in stock was credited as a cash-based deferral rather than stock. The deferral of directors' compensation in stock was reinstated during the second quarter of 2009.

*Restricted Stock Units*

In accordance with the 1999 Incentive Compensation Plan, the Company granted certain senior executives restricted stock units (RSUs). These awards have various vesting conditions and are subject to certain terms and restrictions in accordance with the agreements. The fair value of the awards is determined based on the fair value of the Company's stock at the date of grant and is charged to compensation expense over the requisite service periods.

As of June 30, 2010, there were 239,000 total RSUs outstanding, which includes 181,500 nonvested RSUs and 57,500 vested but unissued RSUs. The vested RSUs will be issued upon the earliest of either the vesting of the final tranche of each grant or the employee's termination of employment (under certain circumstances). As of December 31, 2009, there were 239,000 RSUs outstanding, which included 209,625 nonvested RSUs and 29,375 vested but unissued RSUs.

A summary of the restricted stock activity as of June 30, 2010 is as follows:

	Number of Awards	Weighted- Average Grant-Date Fair Value
Nonvested restricted stock and restricted stock awards as of January 1, 2010	209,625	\$ 9.39
Granted		\$
Vested	(24,375)	\$ 12.91
Forfeited		\$
Nonvested restricted stock and restricted stock awards as of March 31, 2010	185,250	\$ 8.93
Granted		\$
Vested	(3,750)	\$ 16.58

Forfeited		\$	
Nonvested restricted stock and restricted stock awards as of June 30, 2010	181,500	\$	8.77

There are 2,020 stock equivalents that have been earned through dividend reinvestments on the RSUs through June 30, 2010. These stock equivalents are unvested, and will only be paid upon the vesting of the final tranche of each RSU grant. These amounts are not included in the totals above.

Compensation expense related to restricted stock awards amounted to \$165 and \$358 for the three and six months ended June 30, 2010, respectively, and \$94 and \$289 for the three and six months ended June 30, 2009,

**Table of Contents****BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

respectively. As of June 30, 2010, unrecognized compensation expense related to restricted stock grants amounted to \$829, which will be recognized over a weighted-average period of 1.4 years.

*Long Term Incentive Plan*

As discussed in Note 14 to the Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2009, the Company's Board of Directors approved a Long-Term Incentive Plan (the 2009 LTIP) on March 5, 2009. The 2009 LTIP includes certain officers and key employees. The actual amount to be earned under the 2009 LTIP is based on the level of performance achieved related to established goals for the three-year performance cycle beginning January 1, 2009 through December 31, 2011, and ranges from 0% to 200%. The total estimated compensation expense that can be recognized related to the 2009 LTIP is \$0 to approximately \$11.5 million, depending on the level of performance achieved during the remaining performance cycle. Amounts earned under the 2009 LTIP, if any, will be paid in cash in March 2012. The Company recorded approximately \$0.3 million and \$0.7 million of compensation expense under the 2009 LTIP based on the results of operations for the three and six months ended June 30, 2010, respectively. There was no such expense recorded by the Company during the three and six months ended June 30, 2009, since the entry level of performance was not reached based on the results of operations for the three and six months ended June 30, 2009.

**Note 7. Earnings (Loss) Per Share**

Shares used in the calculation of basic earnings (loss) per share are based on the weighted-average number of shares outstanding and includes deferred stock units and vested restricted stock units. Shares used in the calculation of diluted earnings (loss) per share are based on the weighted-average number of shares outstanding and deferred stock units adjusted for the assumed exercise of all potentially dilutive stock options and other stock-based awards outstanding. Basic and diluted earnings (loss) per share are calculated by dividing the net income (loss) by the weighted-average number of shares outstanding during each period. The incremental shares from assumed exercise of all potentially dilutive stock options and other stock-based awards that were not included in the calculation of diluted earnings (loss) per share for the three and six months ended June 30, 2010 were 1,660,676 and 1,745,401, respectively, and was 1,961,626 for the three and six months ended June 30, 2009 since their effect would have been anti-dilutive during the respective periods. The weighted-average diluted shares outstanding for all periods presented excludes the effect of the shares that could be issued upon the conversion of the Company's convertible subordinated debentures, since the effect of these shares is anti-dilutive to the earnings per share calculation for those years.

The weighted-average basic and diluted shares for the three and six months ended June 30, 2010 include 12.1 million shares related to the Company's equity offering that was completed in August 2009. The equity offering is discussed in more detail in Note 17 to the Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2009.

The following table sets forth the basic and diluted average share amounts:

<b>Three Months Ended June 30,</b>	
<b>2010</b>	<b>2009</b>

Basic shares	41,001,247	28,511,539
Diluted shares	41,533,822	28,511,539

	<b>Six Months Ended</b>	
	<b>June 30,</b>	
	<b>2010</b>	<b>2009</b>
Basic shares	40,977,093	28,301,931
Diluted shares	41,424,943	28,301,931

**Table of Contents****BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 8. Inventories**

Inventories of \$31,166 as of June 30, 2010 included raw materials of \$7,457 and work-in-process and finished goods of \$23,709. As of December 31, 2009, inventories of \$26,831 included raw materials of \$8,244 and work-in-process and finished goods of \$18,587.

**Note 9. Accrued Restructuring, Integration and Asset Impairment Charges**

The Company continually reviews its business, manages costs and aligns its resources with market demand, especially in light of the volatility of the capital markets and the resulting variability in capital markets services revenue. The Company took several steps over the past several years to reduce fixed costs, eliminate redundancies and better position the Company to respond to market conditions. As a result of these steps, the Company incurred restructuring charges for severance and personnel-related costs related to headcount reductions and costs associated with closing down and consolidating facilities.

During the three and six months ended June 30, 2010, the Company recorded approximately \$0.7 million and \$1.0 million of severance related costs related to additional headcount reductions as a result of the continuation of previous cost savings measures implemented during 2009. In addition, the Company incurred costs of approximately \$3.1 million and \$4.7 million related to vacating certain leased facilities for the three and six months ended June 30, 2010, respectively. Asset impairment charges for the three and six months ended June 30, 2010 were primarily related to impaired assets associated with vacating the aforementioned leased facilities and the impairment of costs incurred for certain software development projects. The asset impairment charges for the three and six months ended June 30, 2010 were offset by a \$2.0 million non-cash adjustment related to the write-off of deferred rent liabilities associated with a leased facility that will be vacated. This resulted in non-cash adjustments and asset impairment charges of approximately (\$1.7) million and \$0.2 million for the three and six months ended June 30, 2010, respectively.

The actions described above resulted in total restructuring, integration and asset impairment charges of \$2,238 and \$6,257 for the three and six months ended June 30, 2010, respectively.

The following information summarizes the costs incurred with respect to restructuring, integration and asset impairment charges during the three and six months ended June 30, 2010, respectively:

	<b>June 30, 2010</b>	
	<b>Three Months Ended</b>	<b>Six Months Ended</b>
Severance and personnel-related costs	\$ 695	\$ 1,047
Occupancy related costs	3,123	4,666
Non-cash adjustments and impairment charges	(1,746)	233
Other	166	311
Total	\$ 2,238	\$ 6,257

Table of Contents**BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The activity pertaining to the Company's accruals related to restructuring and integration charges (excluding non-cash adjustments and asset impairment charges) since December 31, 2008, including additions and payments made are summarized below:

	<b>Severance and Personnel- Related Costs</b>	<b>Occupancy Costs</b>	<b>Other</b>	<b>Total</b>
Balance at December 31, 2008	\$ 8,502	\$ 1,106	\$ 29	\$ 9,637
2009 expenses	11,820	2,870	6,177	20,867
Paid in 2009	(17,254)	(2,761)	(4,547)	(24,562)
Balance at December 31, 2009	3,068	1,215	1,659	5,942
2010 expenses	1,047	4,666	311	6,024
Paid in 2010	(3,017)	(1,211)	(705)	(4,933)
Balance at June 30, 2010	\$ 1,098	\$ 4,670	\$ 1,265	\$ 7,033

The majority of the remaining accrued severance and personnel-related costs are expected to be paid by the end of 2010.

**Note 10. Debt**

The components of debt at June 30, 2010 and December 31, 2009 are as follows:

	<b>June 30, 2010</b>	<b>December 31, 2009</b>
Convertible subordinated debentures	\$ 8,190	\$ 7,938
Borrowings under revolving credit facility	15,000	5,000
Capital lease obligations	1,003	1,340
	\$ 24,193	\$ 14,278

As of June 30, 2010, the Company had \$15.0 million outstanding under its \$123.0 million revolving credit facility ( Revolver ), which is classified as long-term debt since the Revolver expires in May 2013. The Company's ability to borrow under the Revolver is subject to periodic borrowing base determinations. The borrowing base consists primarily of certain accounts receivable and inventories. The Revolver is discussed in more detail in Note 12 to the Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2009. The Company was in compliance with all loan covenants as of June 30, 2010.

For the three and six months ended June 30, 2010, the weighted-average interest rate on the Company's Revolver approximated 4.54% and 4.53%, respectively.

The Company's \$8.3 million convertible subordinated debentures (the Notes) have been reduced by debt discounts of \$130 and \$382 as of June 30, 2010 and December 31, 2009, respectively. The Notes are classified as current debt as of June 30, 2010 and December 31, 2009, respectively, since the earliest that the redemption and repurchase features can occur are on October 1, 2010. The Company's Notes are discussed in more detail in Note 12 to the Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2009.

The Company also has various capital lease obligations which are included in long-term debt.

**Note 11. Postretirement Benefits**

The Company sponsors a qualified defined benefit pension plan (the Plan) which covers certain United States employees not covered by union agreements. The Plan is described in more detail in Note 13 to the

**Table of Contents****BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2009.

The Company also has a non-qualified unfunded supplemental executive retirement plan (SERP) for certain executive management employees. The SERP is described more fully in Note 13 to the Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2009. Also, certain non-union international employees are covered by other retirement plans.

The components of the net periodic cost are as follows:

	<b>Pension Plan</b>		<b>SERP</b>	
	<b>Three Months Ended June 30,</b>		<b>Three Months Ended June 30,</b>	
	<b>2010</b>	<b>2009</b>	<b>2010</b>	<b>2009</b>
Service cost	\$ 726	\$ 739	\$ 139	\$ 146
Interest cost	1,760	1,771	284	315
Expected return on plan assets	(1,790)	(1,588)		
Amortization of transition asset		(68)		
Amortization of prior service (credit) cost	(334)	(357)	166	227
Amortization of actuarial loss	1,094	794	456	408
Curtailement gain		(1,410)		
Net periodic cost (benefit) of defined benefit plans	1,456	(119)	1,045	1,096
Union plans	29	27		
Other retirement plans	331	343		
Total cost	\$ 1,816	\$ 251	\$ 1,045	\$ 1,096

	<b>Pension Plan</b>		<b>SERP</b>	
	<b>Six Months Ended June 30,</b>		<b>Six Months Ended June 30,</b>	
	<b>2010</b>	<b>2009</b>	<b>2010</b>	<b>2009</b>
Service cost	\$ 1,775	\$ 1,534	\$ 278	\$ 292
Interest cost	3,486	3,586	568	630
Expected return on plan assets	(3,652)	(3,164)		
Amortization of transition asset		(148)		
Amortization of prior service (credit) cost	(669)	(728)	332	454
Amortization of actuarial loss	1,755	1,751	912	816
Curtailement gain		(1,573)		

Edgar Filing: BOWNE & CO INC - Form 10-Q

Net periodic cost of defined benefit plans	2,695	1,258	2,090	2,192
Union plans	49	64		
Other retirement plans	688	718		
Total cost	\$ 3,432	\$ 2,040	\$ 2,090	\$ 2,192

The amortization of the prior service (credit) cost and actuarial loss for the three and six months ended June 30, 2010, included in the above tables, has been recognized in the net periodic benefit cost and included in other comprehensive income, net of tax.

During the three and six months ended June 30, 2009, the Company recorded a curtailment gain of approximately \$1.4 million and \$1.6 million, respectively, which primarily represented the accelerated recognition

**Table of Contents****BOWNE & CO., INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

of unrecognized prior service cost resulting from the reduction of the Company's workforce during the first half of 2009. There were no such gains recognized by the Company for the three and six months ended June 30, 2010.

The Company has contributed \$0.6 million to its defined benefit pension plan during the six months ended June 30, 2010 and currently expects to contribute approximately \$2.1 million for the full-year 2010.

The Company expects to contribute approximately \$0.3 million to its unfunded supplemental retirement plan.

The Company is required to remeasure and record the Plans' funded status as of December 31, 2010, the measurement date, and will adjust the balance in accumulated comprehensive income during the fourth quarter of 2010.

**Note 12. Income Taxes**

Income tax expense for the three months ended June 30, 2010 was \$4,459 on pre-tax income from continuing operations of \$10,922 as compared to income tax expense of \$375 on pre-tax loss from continuing operations of (\$3,358) for the same period in 2009.

Income tax expense for the six months ended June 30, 2010 was \$4,353 on pre-tax income from continuing operations of \$10,383 as compared to income tax benefit of \$284 on pre-tax loss from continuing operations of (\$5,885) for the same period in 2009.

The effective tax rates for the three and six months ended June 30, 2010 and 2009 were impacted by the proportionate amount of nondeductible permanent items, including meals and entertainment and Subpart F income.

The total gross amount of unrecognized tax benefits included in the Condensed Consolidated Balance Sheets as of June 30, 2010 and December 31, 2009 was approximately \$1.9 million and \$2.1 million, respectively, which includes estimated interest and penalties of approximately \$0.6 million for both periods. There were no significant changes to the Company's unrecognized tax benefits during the three and six months ended June 30, 2010.

The Company's 2007 and 2008 U.S. federal income tax returns are in the process of being audited by the Internal Revenue Service, as discussed in Note 11 to the Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2009. The Company's income tax returns filed in state and local jurisdictions have been audited at various times.

**Note 13. Other Income (Expense)**

The components of other income (expense) are summarized as follows:

	<b>Three Months Ended June 30,</b>		<b>Six Months Ended June 30,</b>	
	<b>2010</b>	<b>2009</b>	<b>2010</b>	<b>2009</b>
Interest income	\$ 192	\$ 89	\$ 281	\$ 172
Foreign currency gain (loss)	736	(1,049)	242	(278)

Edgar Filing: BOWNE & CO INC - Form 10-Q

Other income (expense)	729	61	813	(50)
Total other income (expense)	\$ 1,657	\$ (899)	\$ 1,336	\$ (156)

Included in other income for the three and six months ended June 30, 2010 is approximately \$1.0 million of income related to the Company's equity investment in a company located in Asia resulting from the sale of a building.

**Table of Contents**

**Item 2. *Management's Discussion and Analysis of Financial Condition and Results of Operations (In thousands, except per share information and where noted)***

**Cautionary Statement Concerning Forward Looking Statements**

The Company desires to take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 (the 1995 Act). The 1995 Act provides a safe harbor for forward-looking statements to encourage companies to provide information without fear of litigation so long as those statements are identified as forward-looking and are accompanied by meaningful cautionary statements identifying important factors that could cause actual results to differ materially from those projected.

This report includes and incorporates by reference forward-looking statements within the meaning of the 1995 Act. These statements are included throughout this report, and in the documents incorporated by reference in this report, and relate to, among other things, projections of revenues, earnings, earnings per share, cash flows, capital expenditures, working capital or other financial items, output, expectations regarding acquisitions, discussions of estimated future revenue enhancements, potential dispositions and cost savings. These statements also relate to the Company's business strategy, goals and expectations concerning the Company's market position, future operations, margins, profitability, liquidity and capital resources. The words anticipate, believe, could, estimate, expect, intend, may, may not, plan, predict, project, will and similar terms and phrases identify forward-looking statements in this report and the documents incorporated by reference in this report.

Although the Company believes the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate and the forward-looking statements based on these assumptions could be incorrect. The Company's operations involve risks and uncertainties, many of which are outside the Company's control, and any one of which, or a combination of which, could materially affect the Company's results of operations and whether the forward-looking statements ultimately prove to be correct.

Actual results and trends in the future may differ materially from those suggested or implied by the forward-looking statements depending on a variety of factors including, but not limited to:

the prolonged continuation or further deterioration of current credit and capital market conditions;

the effect of economic conditions on capital markets and the customers the Company serves;

interest rate fluctuations and changes in capital market conditions or other events affecting the Company's ability to obtain necessary financing on favorable terms to operate and fund its business or to refinance its existing debt;

continuing availability of liquidity from operating performance and cash flows as well as the revolving credit facility;

a weakening of the Company's financial position or operating results could result in noncompliance with its debt covenants;

competition based on pricing and other factors;

fluctuations in the cost of paper, other raw materials and utilities;

changes in air and ground delivery costs and postal rates and regulations;

seasonal fluctuations in overall demand for the Company's services;

changes in the printing market;

the Company's ability to integrate the operations of acquisitions into its operations;

the financial condition of the Company's clients;

the Company's ability to continue to obtain improved operating efficiencies;

the Company's ability to continue to develop product offerings and solutions to service its clients;

changes in the rules and regulations to which the Company is subject;

**Table of Contents**

changes in the rules and regulations to which the Company's clients are subject;

the effects of war or acts of terrorism affecting the overall business climate;

loss or retirement of key executives or employees;

natural events and acts of God such as earthquakes, fires or floods; and

the impact of the proposed merger with R.R. Donnelley on the Company's business.

Many of these factors are described in greater detail in the Company's filings with the SEC, including those discussed elsewhere in this report or incorporated by reference in this report. All future written and oral forward-looking statements attributable to the Company or persons acting on behalf of the Company are expressly qualified in their entirety by the previous statements.

**Overview**

The Company's results for the three and six months ended June 30, 2010 reflect the continued improvement in overall capital markets activity that began during the second half of 2009. Total revenue increased by approximately \$16.9 million, or 9%, to approximately \$205.9 million for the three months ended June 30, 2010 as compared to the same period in 2009, and increased by approximately \$24.9 million, or 7%, to approximately \$382.9 million for the six months ended June 30, 2010, as compared to the same period in 2009. These increases are primarily due to the substantial increase in revenue from the Company's capital markets services, which increased approximately 56% and 68% for the three and six months ended June 30, 2010, respectively, as compared to the same periods in 2009. In addition, the Company's overall profitability improved from the prior year as a result of the favorable impact of the Company's cost savings measures implemented throughout 2009 and the first half of 2010. The Company believes that it is well positioned to further realize the benefits of its more efficient operating model as market conditions continue to recover.

Capital markets services revenue increased approximately \$18.2 million, or 56%, and approximately \$39.3 million, or 68%, for the three and six months ended June 30, 2010 as compared to the same periods in 2009, respectively, primarily due to the significant increase in the level of capital markets activity, and in particular overall initial public offerings (IPOs) activity as compared to the same periods in 2009. Shareholder reporting services revenue, which includes revenue from compliance reporting, investment management services and translation services, decreased approximately \$0.8 million, or 1%, and approximately \$9.8 million, or 5%, for the three and six months ended June 30, 2010, as compared to the same periods in 2009, respectively. Marketing communication services revenue slightly increased for the three months ended June 30, 2010, and decreased by approximately \$2.5 million, or 3%, for the six months ended June 30, 2010, as compared to the same periods in 2009. Diluted earnings per share from continuing operations was \$0.16 and \$0.15 for the three and six months ended June 30, 2010, respectively, as compared to diluted loss per share from continuing operations of (\$0.13) and (\$0.20) for the same periods in 2009, respectively.

On February 23, 2010, the Company entered into an Agreement and Plan of Merger (the Merger Agreement) with R.R. Donnelley & Sons Company, a Delaware corporation (R.R. Donnelley), and Snoopy Acquisition, Inc., a Delaware corporation and a wholly owned subsidiary of R.R. Donnelley. The all-cash deal provides for a purchase price of \$11.50 per share. The Merger Agreement was approved by the Boards of Directors of the parties to the Merger Agreement. The merger was also approved by the Company's shareholders in May 2010. The merger is expected to close during the second half of the year. Consummation of the merger is subject to various customary

conditions, including the approval of the Federal Trade Commission under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, other applicable regulatory approvals and the absence of certain legal impediments to the consummation of the merger. The Merger Agreement also contains covenants with respect to the operation of the Company's business between signing of the Merger Agreement and closing of the merger. Pending consummation of the merger, the Company will operate its business in the ordinary and usual course, except for certain actions which would require R.R. Donnelley's approval. Such actions include mergers and acquisitions, issuance of stock, incurring debt in excess of agreed upon amounts, payment of dividends other than the regular quarterly dividend, incurring capital expenditures in excess of budgeted amounts, entering into long-term arrangements,

**Table of Contents**

amending or terminating contracts, establishing new employee benefits or amending existing employee benefits, and certain other spending limits.

The Company recorded approximately \$3.2 million and \$6.1 million of expenses related to the merger with R.R. Donnelley for the three and six months ended June 30, 2010, respectively. These expenses primarily consist of advisory fees, estimated legal fees, a \$0.6 million provision for estimated settlement costs associated with shareholder litigation and other transition related costs. These amounts are included in the Company's results of operations for the three and six months ended June 30, 2010, respectively.

**Items Affecting Comparability**

The following table summarizes certain expenses that impact comparability of the results for the three and six months ended June 30, 2010 and 2009:

	<b>Three Months Ended June 30,</b>		<b>Six Months Ended June 30,</b>	
	<b>2010</b>	<b>2009</b>	<b>2010</b>	<b>2009</b>
Total restructuring, integration and asset impairment charges	\$ 2,238	\$ 10,379	\$ 6,257	\$ 16,964
Merger related expenses	3,216		6,141	
Before tax impact	5,454	10,379	12,398	16,964
After tax impact	\$ 3,223	\$ 6,163	\$ 7,285	\$ 10,122
Per share impact	\$ 0.08	\$ 0.22	\$ 0.18	\$ 0.36

The Company recorded approximately \$2.2 million (approximately \$1.3 million after tax), or \$0.03 per share, and \$6.3 million (approximately \$3.7 million after tax), or \$0.09 per share, of restructuring, integration and asset impairment charges for the three and six months ended June 30, 2010, respectively. The amounts primarily represent costs related to vacating certain leased facilities, costs associated with headcount reductions, and non-cash adjustments and asset impairment charges. These charges are discussed in more detail in Note 9 to the Condensed Consolidated Financial Statements.

For the three and six months ended June 30, 2010, the Company recorded approximately \$3.2 million (approximately \$1.9 million after tax), or \$0.05 per share, and \$6.1 million (approximately \$3.6 million after tax), or \$0.09 per share, of expenses directly related to the merger with R.R. Donnelley, respectively, as previously discussed.

The Company's revenue by class of service for the three and six months ended June 30, 2009 has been reclassified to conform to the current year presentation.

**Table of Contents****Results of Operations****Three Months ended June 30, 2010 compared to Three Months ended June 30, 2009**

## Revenue

Total revenue increased \$16,906, or 9%, to \$205,882 for the three months ended June 30, 2010, as compared to the same period in 2009. The increase in revenue is primarily attributed to the substantial increase in capital markets revenue during the second quarter of 2010, which reflects the continued improvement in overall capital markets activity resulting primarily from an increased level of IPO activity. As such, revenue from capital markets services increased \$18,196, or 56%, during the three months ended June 30, 2010 as compared to the same period in 2009.

**Table of Contents**

Capital markets services revenue from the U.S. markets increased approximately \$4.3 million, or 16%, during the three months ended June 30, 2010 as compared to the same period in 2009. Capital markets services from our international markets increased approximately \$13.9 million, or 261%, for the three months ended June 30, 2010 as compared to the same period in 2009. The increase in revenue from our international markets is primarily due to the overall increase in capital markets activity during the second quarter of 2010, particularly the increase in the level of IPO activity occurring in Asia and Europe in 2010, as compared to 2009.

Included in capital markets services revenue for the three months ended June 30, 2010 is \$5,937 of revenue related to the Company's VDR services, which increased 89% for the three months ended June 30, 2010 as compared to the same period in 2009, primarily as a result of a large M&A project and the increase in capital markets activity.

Shareholder reporting services revenue decreased \$835, or 1%, to \$116,114 for the three months ended June 30, 2010 as compared to the same period in 2009. Compliance reporting services revenue decreased slightly for the three months ended June 30, 2010 as compared to the same period in 2009. The decrease in revenue from compliance reporting services was primarily attributable to: (i) the loss of certain clients; (ii) non-recurring jobs in 2009 and (iii) competitive pricing pressure. The decrease in compliance reporting services revenue was partially offset by increases in revenue from the Company's new compliance services, particularly Bowne Compliance Drive<sup>®</sup>, Pure Compliance<sup>sm</sup> and XBRL related services. Investment management services revenue also decreased slightly for the three months ended June 30, 2010 as compared to the same period in 2009, primarily resulting from lower revenue due to competitive pricing pressure, reduced print volumes and non-recurring work that occurred in 2009. Partially offsetting the decline in revenue from investment management services was the addition of new clients during 2010 and increased projects from existing clients. Translation services revenue increased 10% for the three months ended June 30, 2010 as compared to the same period in 2009, primarily due to the addition of new clients and increased work from existing clients.

Marketing communications services revenue increased slightly for the three months ended June 30, 2010 as compared to the same period in 2009, primarily due to the favorable impact of foreign currency fluctuations on the Company's Canadian operations, as well as the increased volume and projects from certain existing clients and the addition of new clients during the second quarter of 2010, partially offset by the loss of certain accounts and lower activity levels and volumes from other existing customers, as companies reduced marketing spending in response to the economic downturn.

Commercial printing and other revenue decreased approximately \$649, or 13%, for the three months ended June 30, 2010, as compared to the same period in 2009, primarily due to price pressure and lower volumes and activity levels.

Revenue by Geography:	Three Months Ended June 30,			Quarter Over Quarter		
	2010	Revenue % of (Dollars in thousands)	2009	Revenue % of	Favorable/(Unfavorable) \$ Change	% Change
Domestic (United States)	\$ 161,144	78%	\$ 162,736	86%	\$ (1,592)	(1)%
International	44,738	22	26,240	14	18,498	70
Total revenue	\$ 205,882	100%	\$ 188,976	100%	\$ 16,906	9%

Revenue from the domestic market decreased 1% to \$161,144 for the three months ended June 30, 2010, compared to \$162,736 for the same period in 2009. This decrease is primarily due to the decline in revenue from shareholder reporting services and commercial and other, and is partially offset by an increase in revenue from capital markets services, as discussed above.

Revenue from the international markets increased 70% to \$44,738 for the three months ended June 30, 2010, as compared to \$26,240 for the same period in 2009. Revenue from the international markets primarily reflects the substantial increase in capital markets services revenue from our international markets, particularly increases in activity in Asia and Europe. Also contributing to the increase in revenue from international markets is an increase in revenue from shareholder reporting services in Europe and the favorable impact related to the weakness in the U.S. dollar as compared to the Canadian dollar during the three months ended June 30, 2010 as compared to the same period in 2009. At constant exchange rates, revenue from the international markets increased \$17,765, or 68%, for the three months ended June 30, 2010 as compared to the same period in 2009.

## **Table of Contents**

### **Cost of Revenue**

Cost of revenue increased \$7,148, or 6%, for the three months ended June 30, 2010 as compared to the same period in 2009, primarily due to the increase in total revenue in 2010 as compared to 2009. As a percentage of revenue, the cost of revenue improved approximately 200 basis points to 66% for the three months ended June 30, 2010 from 68% for the three months ended June 30, 2009, primarily due to the substantial increase in capital markets services revenue, which historically has been the Company's most profitable class of service, and the favorable impact of the Company's cost savings measures implemented throughout 2009 and the first half of 2010.

### **Selling and Administrative Expenses**

Selling and administrative expenses increased \$4,364, or 10%, for the three months ended June 30, 2010 as compared to the same period in 2009. The increase is primarily due to an increase in incentive compensation and expenses directly associated with sales, including travel and entertainment and commission expenses related to the increase in activity and the Company's new product offerings. Also contributing to the increase in selling and administrative expenses for the three months ended June 30, 2010 as compared to the same period in 2009 is a curtailment gain of approximately \$1.4 million recognized in 2009 related to the Company's defined benefit pension plan. The curtailment gain is discussed in more detail in Note 11 to the Condensed Consolidated Financial Statements. Partially offsetting the increase in selling and administrative expenses is a decrease in headcount and occupancy related expenses for the three months ended June 30, 2010 as compared to the same period in 2009, primarily due to the cost savings measures that have occurred since the second half of 2009. As a percentage of revenue, overall selling and administrative expenses increased slightly to 23% for the three months ended June 30, 2010, as compared to 22% for the same period in 2009.

### **Other Factors Affecting Net Income**

Depreciation expense was constant for the three months ended June 30, 2010 and 2009. Depreciation expense recognized in 2010 increased slightly due to the development of new service offerings and updates and improvements to existing client solutions and internal solutions. However, these increases were partially offset by less depreciation recognized during the second quarter of 2010 resulting from recent facility reductions and consolidations.

Restructuring, integration and asset impairment charges for the three months ended June 30, 2010 were \$2,238 as compared to \$10,379 for the same period in 2009. The charges incurred during the three months ended June 30, 2010 primarily consist of costs related to the closure and consolidation of certain facilities and costs related to headcount reductions. These costs were partially offset by a non-cash adjustment of approximately \$2.0 million related to the write-off of deferred rent liabilities associated with a leased facility that will be vacated. The charges incurred during the three months ended June 30, 2009 represented costs related to the Company's headcount reductions that occurred in May 2009, the closure and reduction of leased space of certain facilities and integration costs related to the Company's acquisitions that occurred during 2008.

During the three months ended June 30, 2010, the Company recorded approximately \$3.2 million of merger related expenses associated with the merger with R.R. Donnelley. The amount primarily consists of estimated legal fees and other transition related costs. The merger is discussed in more detail in Note 2 to the Condensed Consolidated Financial Statements. There were no such expenses recorded by the Company for the three months ended June 30, 2009.

Interest expense decreased significantly for the three months ended June 30, 2010 as compared to the same period in 2009, primarily due to the decrease in interest expense related to borrowings under the Company's credit facility for the three months ended June 30, 2010 as compared to 2009. The Company's average outstanding debt balance was

significantly lower in 2010 as compared to the same period in 2009, which is primarily due to the repayment of the Company's former term loans and repayment of a portion of the Company's borrowings under its revolving credit facility through the utilization of the net proceeds received from the Company's equity offering, which occurred in August 2009. The repayment of the debt is discussed in more detail in Note 12 to the Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2009. The weighted-average interest rate on the Company's borrowings under its credit facility was approximately 4.54% during the three months ended June 30, 2010. Also contributing to the decrease in interest expense was a

**Table of Contents**

decrease in non-cash amortization expense related to the deferred financing costs directly associated with amending the Company's credit facility during 2009. The Company wrote off the unamortized portion of the deferred financing costs directly attributable to the Company's former term loans upon the repayment of such loans in August 2009, thereby resulting in a decrease in the amortization of the deferred financing costs for the three months ended June 30, 2010 as compared to the same period in 2009.

Other income (expense) increased \$2,556 to income of \$1,657 for the three months ended June 30, 2010, as compared to an expense of (\$899) for the same period in 2009, due to income of approximately \$1.0 million from the Company's equity investment in Asia during the second quarter of 2010, which is discussed in Note 13 to the Condensed Consolidated Financial Statements. Also contributing to the increase are non-cash foreign currency translation gains of approximately \$0.7 million for the three months ended June 30, 2010 as compared to non-cash foreign currency translation losses of approximately (\$1.0) million in 2009. The foreign currency gains in 2010 are primarily a result of the decline in the value of the U.S. dollar as compared to the Canadian dollar for the three months ended June 30, 2010 as compared to the same period in 2009. These increases were partially offset by a loss of approximately \$0.5 million resulting from the sale of the Company's investments in auction rate securities during the second quarter of 2010, which is discussed in more detail in Note 5 to the Condensed Consolidated Financial Statements.

Income tax expense for the three months ended June 30, 2010 was \$4,459 on pre-tax income from continuing operations of \$10,922 as compared to income tax expense of \$375 on pre-tax loss from continuing operations of (\$3,358) for the same period in 2009. The effective tax rate for the three months ended June 30, 2010 and 2009 was impacted by the proportionate amount of nondeductible permanent items, including meals and entertainment and Subpart F income.

Income from discontinued operations for the three months ended June 30, 2010 was \$38 as compared to a loss from discontinued operations of \$79 for the same period in 2009. The results from discontinued operations for the three months ended June 30, 2010 and 2009 primarily reflect adjustments related to the estimated indemnification liabilities associated with the Company's discontinued businesses, interest expense related to the deferred rent associated with leased facilities formerly occupied by discontinued businesses and income taxes associated with the discontinued operations.

As a result of the foregoing, net income for the three months ended June 30, 2010 was \$6,501 as compared to net loss of (\$3,812) for the three months ended June 30, 2009.

***Domestic Versus International Results of Operations***

The Company has operations in the United States, Canada, Europe, Central America, South America and Asia. Domestic and international components of income (loss) from continuing operations before income taxes for the three months ended June 30, 2010 and 2009 are as follows:

	<b>Three Months Ended June 30,</b>	
	<b>2010</b>	<b>2009</b>
Domestic (United States)	\$ 4,302	\$ 517
International	6,620	(3,875)
Income (loss) from continuing operations before income taxes	\$ 10,922	\$ (3,358)

The increase in domestic pre-tax income from continuing operations for the three months ended June 30, 2010 as compared to the same period in 2009 is primarily due to the decrease in restructuring, integration and asset impairment costs. The domestic results for the three months ended June 30, 2010 include approximately \$1.9 million of restructuring, integration and asset impairment costs as compared to \$9.4 million for the same period in 2009. Also contributing to the increase in domestic pre-tax income from continuing operations for the three months ended June 30, 2010 as compared to the same period in 2009 was a decrease in interest expense of approximately \$1.4 million, as previously discussed. Included in the domestic results for the three months ended June 30, 2010 were \$3.2 million of expenses related to the merger with R.R. Donnelly. Domestic results of operations also include shared corporate expenses such as administrative, legal, finance and other support services that primarily are not allocated to the Company's international operations.

**Table of Contents**

The improvement in the international results from continuing operations for the three months ended June 30, 2010 as compared to the same period in 2009 is primarily due to the substantial increase in revenue, as previously discussed. Also contributing to the increase is foreign currency translation gains of approximately \$0.7 million for the three months ended June 30, 2010, as compared to foreign currency translation losses of approximately (\$1.0) million for the same period in 2009, as previously discussed. The international results for the three months ended June 30, 2010 include approximately \$0.3 million of restructuring, integration and asset impairment costs, as compared to \$1.0 million for the same period in 2009.

**Six Months ended June 30, 2010 compared to Six Months ended June 30, 2009**

	Six Months Ended June 30, % of		% of		Period Over Period Favorable/(Unfavorable) %

**Revenue**

Total revenue increased \$24,861, or 7%, to \$382,942 for the six months ended June 30, 2010 as compared to the same period in 2009. The increase in revenue is primarily attributed to the substantial increase in revenue from capital markets services during the first half of 2010, which reflects the continued improvement in overall capital markets activity resulting primarily from increased levels of IPO transactions as compared to the first half of 2009.

**Table of Contents**

As such, revenue from capital markets services increased \$39,315, or 68%, for the six months ended June 30, 2010 as compared to the same period in 2009.

Capital markets services from the U.S. markets increased approximately \$12.6 million, or 27%, during the six months ended June 30, 2010 as compared to the same period in 2009. Capital markets services from our international markets increased approximately \$26.7 million, or 250%, for the six months ended June 30, 2010 as compared to the same period in 2009. The increase in capital markets services revenue from our international markets is primarily due to the overall increase in capital markets activity during the first half of 2010, particularly the increase in the level of IPO activity occurring in Asia and Europe in 2010 as compared to 2009. Also contributing to the increases in capital markets services revenue from international markets was the favorable impact of approximately \$1.3 million primarily related to the weakness in the U.S. dollar as compared to the Canadian dollar during 2010 as compared to 2009.

Included in capital markets revenue for the six months ended June 30, 2010 is \$10,072 of revenue related to the Company's VDR services, which increased approximately 67% for the six months ended June 30, 2010 as compared to the same period in 2009, primarily as a result of a large M&A project and the increase in capital markets activity.

Shareholder reporting services revenue decreased \$9,786, or 5%, to \$199,984 for the six months ended June 30, 2010 as compared to the same period in 2009. Compliance reporting services revenue decreased approximately 3% for the six months ended June 30, 2010 as compared to the same period in 2009. The decrease in revenue from compliance reporting services was primarily attributable to: (i) the loss of certain clients; (ii) non-recurring jobs in 2009; and (iii) competitive pricing pressure. The decrease in compliance reporting services revenue was partially offset by increases in revenue from the Company's new compliance services, particularly Bowne Compliance Drive<sup>SM</sup>, Pure Compliance<sup>SM</sup> and XBRL related services for the six months ended June 30, 2010 as compared to the same period in 2009. In addition there was also an increase in print volumes for certain proxy related work in 2010 as certain clients shifted their focus back to printed proxies for distribution purposes from the utilization of electronic proxies in the prior year in an attempt to improve and obtain more shareholder votes since certain clients experienced a decline in total shareholder votes in the prior year when the focus was on utilizing electronic proxies for distribution purposes. Investment management services revenue decreased approximately 7% for the six months ended June 30, 2010 as compared to the same period in 2009, primarily resulting from lower revenue due to competitive pricing pressure, reduced print volumes and non-recurring work that occurred in 2009. Partially offsetting the decline in revenue from investment management services was the addition of new clients during 2010 and increased projects from existing clients. Translation services revenue decreased 6% for the six months ended June 30, 2010 as compared to the same period in 2009, primarily due to non-recurring jobs in 2009 and was partially offset by the addition of new clients and increased work from certain existing clients.

Marketing communications services revenue decreased \$2,516, or 3%, during the six months ended June 30, 2010 as compared to the same period in 2009, primarily due to a decline in revenue generated by the loss of certain accounts and lower activity levels and volumes from existing customers, as companies reduced marketing spending in response to the economic downturn. These decreases were partially offset by the addition of new clients during the first half of 2010 and increased volumes from existing clients.

Commercial printing and other revenue decreased approximately \$2,152, or 19%, for the six months ended June 30, 2010 as compared to the same period in 2009, primarily due to price pressure and lower volumes and activity levels.

	Six Months Ended June 30,				Period Over Period	
	% of		% of		Favorable/(Unfavorable)	
	2010	Revenue	2009	Revenue	\$ Change	% Change
<b>Revenue by Geography:</b>						

**(Dollars in thousands)**

Domestic (United States)	\$ 301,718	79%	\$ 307,952	86%	\$ (6,234)	(2)%
International	81,224	21	50,129	14	31,095	62
Total revenue	\$ 382,942	100%	\$ 358,081	100%	\$ 24,861	7%

## **Table of Contents**

Revenue from the domestic market decreased 2% to \$301,718 for the six months ended June 30, 2010 as compared to \$307,952 for the six months ended June 30, 2009. This decrease is primarily due to the decline in revenue from shareholder reporting services and marketing communication services, and is partially offset by an increase in revenue from capital markets services, as discussed above.

Revenue from the international markets increased 62% to \$81,224 for the six months ended June 30, 2010 as compared to \$50,129 for the six months ended June 30, 2009. The revenue from international markets primarily reflects the substantial increase in capital markets services revenue from our international markets, particularly the increase in IPO activity in Asia and Europe. Also contributing to the increase in revenue from international markets is an increase in revenue from shareholder reporting services in Europe and the favorable impact related to the weakness in the U.S. dollar as compared to the Canadian dollar during 2010 as compared to 2009. At constant exchange rates, revenue from the international markets increased \$26,747, or 53%, for the six months ended June 30, 2010 as compared to the same period in 2009.

## **Cost of Revenue**

Cost of revenue increased \$11,687, or 5%, for the six months ended June 30, 2010 as compared to the same period in 2009, primarily due to the increase in total revenue in 2010 as compared to 2009. As a percentage of revenue the cost of revenue improved to approximately 65% for the six months ended June 30, 2010 from 66% for the six months ended June 30, 2009, primarily due to the substantial increase in capital markets revenue, which historically has been the Company's most profitable class of service, and the favorable impact of the Company's cost savings measures implemented throughout 2009 and the first half of 2010.

## **Selling and Administrative Expenses**

Selling and administrative expenses increased \$4,811, or 5%, for the six months ended June 30, 2010 as compared to the same period in 2009. The increase is primarily due to an increase in incentive compensation and expenses directly associated with sales, including travel and entertainment and commission expenses related to the increase in activity and the Company's new product offerings. Also contributing to the increase in selling and administrative expenses for the six months ended June 30, 2010 as compared to the same period in 2009 is a curtailment gain of approximately \$1.6 million recognized in 2009 related to the Company's defined benefit pension plan. The curtailment gain is discussed in more detail in Note 11 to the Condensed Consolidated Financial Statements. Partially offsetting the increase in selling and administrative expenses is a decrease in bad debt expenses for the six months ended June 30, 2010 of approximately \$0.7 million as compared to the same period in 2009, primarily as a result of the improvement in overall market conditions and the increased collection of the Company's accounts receivable during the first half of 2010. In addition, the Company continues to realize the favorable impact of the Company's recent cost savings measures which includes a decrease in payroll and certain fringe benefits as a result of the headcount reductions that occurred during the second half of 2009, and decreases in facility costs as a result of recent facility reductions that occurred since the second half of 2009. As a percentage of revenue, overall selling and administrative expense improved to 24% for the six months ended June 30, 2010, as compared to 25% for the same period in 2009.

## **Other Factors Affecting Net Income**

Depreciation expense decreased \$535, or 4%, for the six months ended June 30, 2010 as compared to the same period in 2009, primarily resulting from recent facility reductions and consolidations that occurred during the second half of 2009. Partially offsetting the decrease was increased depreciation expense recognized in 2010 due to the development of new service offerings and updates and improvements to existing client solutions and internal solutions.

Restructuring, integration and asset impairment charges for the six months ended June 30, 2010 were \$6,257 as compared to \$16,964 in 2009. The charges incurred during the six months ended June 30, 2010 primarily consist of costs related to facility closures and consolidations and costs related to headcount reductions. The charges incurred during the six months ended June 30, 2009 represented costs related to the Company's headcount reductions and facilities consolidations and integration costs primarily related to the Company's acquisitions that occurred in 2008.

**Table of Contents**

During the six months ended June 30, 2010, the Company recorded approximately \$6.1 million of merger related expenses associated with the merger with R.R. Donnelley. The amount primarily consists of advisory fees, estimated legal fees, a \$0.6 million provision for estimated settlement costs associated with shareholder litigation and other transition related costs. The merger is discussed in more detail in Note 2 to the Condensed Consolidated Financial Statements. There were no such expenses recorded by the Company for the six months ended June 30, 2009.

Interest expense decreased significantly for the six months ended June 30, 2010 as compared to the same period in 2009, primarily due to a decrease in interest expense related to borrowings under the Company's credit facility for the six months ended June 30, 2010 as compared to the same period in 2009. The Company's average outstanding debt balance was significantly lower in 2010 as compared to 2009, which is primarily due to the repayment of the Company's former term loans and repayment of a portion of the Company's borrowings under its revolving credit facility through the utilization of the net proceeds received from the Company's equity offering, which occurred in August 2009. The repayment of the debt is discussed in more detail in Note 12 to the Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2009. The weighted-average interest rate on the Company's borrowings under its credit facility was approximately 4.53% during the six months ended June 30, 2010.

Other income (expense) increased \$1,492 to income of \$1,336 for the six months ended June 30, 2010 as compared to an expense of (\$156) for the six months ended June 30, 2009, due to income of approximately \$1.0 million from the Company's equity investment in Asia during the second quarter of 2010, which is discussed in Note 13 to the Condensed Consolidated Financial Statements. Also contributing to the increase are non-cash foreign currency translation gains of approximately \$0.2 million for the six months ended June 30, 2010 as compared to non-cash foreign currency translation losses of approximately (\$0.3) million in 2009. The foreign currency gains in 2010 are a result of the fluctuation in the U.S. dollar as compared to other currencies for the six months ended June 30, 2010 as compared to the same period in 2009. These increases are partially offset by a loss of approximately \$0.5 million resulting from the sale of the Company's investments in auction rate securities during the second quarter of 2010, which is discussed more in detail in Note 5 to the Condensed Consolidated Financial Statements.

Income tax expense for the six months ended June 30, 2010 was \$4,353 on pre-tax income from continuing operations of \$10,383 as compared to income tax benefit of \$284 on pre-tax loss from continuing operations of (\$5,885) for the same period in 2009. The effective tax rate for the six months ended June 30, 2010 and 2009 was impacted by the proportionate amount of nondeductible permanent items, including meals and entertainment and Subpart F income.

Loss from discontinued operations for the six months ended June 30, 2010 was \$107 as compared to \$171 for the same period in 2009. The results from discontinued operations for the six months ended June 30, 2010 and 2009 primarily reflect adjustments related to the estimated indemnification liabilities associated with the Company's discontinued businesses, interest expense related to the deferred rent associated with leased facilities formerly occupied by discontinued businesses and income taxes associated with the discontinued operations.

As a result of the foregoing, net income for the six months ended June 30, 2010 was \$5,923 as compared to net loss of (\$5,772) for the six months ended June 30, 2009.

**Table of Contents*****Domestic Versus International Results of Operations***

The Company has operations in the United States, Canada, Europe, Central America, South America and Asia. Domestic and international components of income (loss) from continuing operations before income taxes for the six months ended June 30, 2010 and 2009 are as follows:

	<b>Six Months Ended June 30,</b>	
	<b>2010</b>	<b>2009</b>
Domestic (United States)	\$ 608	\$ (1,071)
International	9,775	(4,814)
Income (loss) from continuing operations before income taxes	\$ 10,383	\$ (5,885)

The increase in domestic pre-tax income from continuing operations for the six months ended June 30, 2010 as compared to the same period in 2009 is primarily due to the decrease in restructuring, integration and asset impairment costs. The domestic results for the six months ended June 30, 2010 include approximately \$6.0 million of restructuring, integration and asset impairment costs as compared to \$15.0 million for the same period in 2009. Also contributing to the increase in domestic pre-tax income from continuing operations for the six months ended June 30, 2010 as compared to the same period in 2009 was a decrease in interest expense of approximately \$1.3 million, as previously discussed. Included in the domestic results for the six months ended June 30, 2010 were \$6.1 million of expenses related to the merger with R.R. Donnelly. Domestic results of operations also include shared corporate expenses such as administrative, legal, finance and other support services that primarily are not allocated to the Company's international operations.

The improvement in the international results from continuing operations for the six months ended June 30, 2010 as compared to the same period in 2009 is primarily due to the substantial increase in revenue, as previously discussed. Also contributing to the increase is foreign currency translation gains of approximately \$0.2 million for the six months ended June 30, 2010, as compared to foreign currency translation losses of approximately (\$0.3) million for the same period in 2009, as previously discussed. The international results for the six months ended June 30, 2010 include approximately \$0.3 million of restructuring, integration and asset impairment costs as compared to \$2.0 million for the same period in 2009.

**Liquidity and Capital Resources**

<b>Liquidity and Cash Flow Information:</b>	<b>June 30,</b>	
	<b>2010</b>	<b>2009</b>
Working capital	\$ 109,204	\$ 108,125
Current ratio	1.87:1	1.93:1
Net cash used in operating activities (for the six months ended)	\$ (1,983)	\$ (11,092)
Net cash used in investing activities (for the six months ended)	\$ (7,423)	\$ (5,719)
Net cash provided by financing activities (for the six months ended)	\$ 5,140	\$ 18,192
Capital expenditures	\$ (10,278)	\$ (5,711)
Average days sales outstanding	63 days	71 days

Overall working capital increased by approximately \$1.1 million at June 30, 2010 as compared to June 30, 2009. The increase in working capital from June 30, 2009 to June 30, 2010 is primarily attributed to the overall improved operating results in 2010 as compared to 2009 and the improved collection of the Company's accounts receivable during the first half of 2010 as a result of system improvements that facilitate a more timely generation of customer invoices, thereby accelerating the collection of cash, and the overall improved market conditions. These increases are partially offset by: (i) the reclassification of the Company's Notes (approximately \$8.2 million) to current debt as of June 30, 2010 from noncurrent liabilities at June 30, 2009, since the earliest that the redemption and repurchase features can occur are on October 1, 2010; (ii) an increase in accrued bonuses and commissions as of June 30, 2010, based on the improved operating results; and (iii) cash used to pay restructuring and integration related expenses, which is discussed in more detail in Note 9 to the Condensed Consolidated Financial Statements.

## **Table of Contents**

As of June 30, 2010, the Company had \$15.0 million outstanding under its \$123.0 million Revolver, which is classified as long-term debt since the Revolver expires in May 2013. The Company's ability to borrow under the Revolver is subject to periodic borrowing base determinations. The borrowing base consists primarily of certain eligible accounts receivable and inventories. The Revolver is discussed in more detail in Note 12 to the Consolidated Financial Statements in the Company's annual report on Form 10-K for the year ended December 31, 2009.

As of June 30, 2010, there were approximately \$88.0 million of borrowings available under the Revolver, which was based on the Company's borrowing base calculation as of June 30, 2010, and reflects outstanding letters of credit of approximately \$4.2 million. As of August 1, 2010, the Company had \$10.0 million outstanding and approximately \$78.4 million borrowings available under the Revolver based on the Company's most recent borrowing base calculation.

The Company was in compliance with all loan covenants as of June 30, 2010 and based on its current projections, the Company believes it will be in compliance with the quarterly loan covenants for the remainder of fiscal year 2010.

It is expected that the cash generated from operations, working capital and the Company's borrowing capacity will be sufficient to fund its development needs (both foreign and domestic), capital expenditures, provide for the payment of cash dividends, and meet its debt service requirements. The Company experiences certain seasonal factors with respect to its working capital; the heaviest demand for utilization of working capital is normally in the first and second quarters. The Company's existing borrowing capacity provides for this seasonal increase.

## **Cash Flows**

Average days sales outstanding was 63 days for the six months ended June 30, 2010 as compared to 71 days for the same period in 2009. The Company had net cash used in operating activities of \$1,983 for the six months ended June 30, 2010 as compared to \$11,092 for the same period in 2009. The improvement in net cash used in operating activities for the six months ended June 30, 2010 as compared to the same period in 2009 is primarily the result of improved profitability in 2010 as compared to 2009. Also contributing to the improvement in cash used in operating activities was the improved collection of the Company's accounts receivable during the first half of 2010 as compared to 2009 and a decrease in restructuring and integration payments during the six months ended June 30, 2010 as compared to the same period in 2009. The decreases in cash used in operating activities were offset by cash bonuses of approximately \$7.5 million paid during the six months ended June 30, 2010, which was based on the Company's 2009 operating results, as compared to no cash bonuses paid during the six months ended June 30, 2009, and a decrease in net cash refunds for income taxes of approximately \$1.1 million during the six months ended June 30, 2010 as compared to same period in 2009. In addition, the cash used in operating activities for the six months ended June 30, 2010 included cash used for merger related costs associated with the merger with R.R. Donnelley, which is discussed in more detail in Note 2 to the Condensed Consolidated Financial Statements. Overall, cash used in operating activities improved by \$9,109 from June 30, 2009 to June 30, 2010.

Net cash used in investing activities was \$7,423 for the six months ended June 30, 2010 as compared to \$5,719 for the six months ended June 30, 2009. The change from 2009 to 2010 was primarily due to an increase in capital expenditures related to the development of new service offerings and upgrades and improvements to existing client solutions and internal solutions during the six months ended June 30, 2010 as compared to the same period in 2009. The increase in net cash used in investing activities in 2010 is partially offset by the proceeds received from sale of the Company's investments in auction rate securities during the second quarter of 2010, which is discussed in more detail in Note 5 to the Condensed Consolidated Financial Statements. Capital expenditures for the six months ended June 30, 2010 were \$10,278 as compared to \$5,711 in 2009.

Net cash provided by financing activities was \$5,140 for the six months ended June 30, 2010 as compared to \$18,192 for the same period in 2009. The decrease in net cash provided by financing activities in 2010 as compared to 2009 is primarily due to a decrease in net borrowings under the Company's Revolver during the six months ended June 30, 2010 as compared to the same period in 2009. The borrowings in 2009 were reported net of debt issuance costs paid for the amendment of the previous credit facility, which occurred in March 2009. Also contributing to the decrease in net cash provided by financing activities for the six months ended June 30, 2010 as compared to the same period in 2009 were cash dividends paid to shareholders of approximately \$4.5 million for the six months

**Table of Contents**

ended June 30, 2010 as compared to non-cash stock dividends paid during the six months ended June 30, 2009. During the six months ended June 30, 2009, the Company issued 786,228 shares of its stock as a result of stock dividends to its shareholders in February and May 2009, which was equivalent to a dividend of \$0.11 per share for the six months ended June 30, 2009. During the first three quarters of 2009, the Company suspended the payment of cash dividends, and issued stock dividends to its shareholders. The payment of cash dividends was restricted under the covenants of the Company's Revolver. In October 2009, the Revolver was amended and the Company reinstated the payment of cash dividends in November 2009.

**Recent Accounting Pronouncements**

A description of the recently issued accounting pronouncements and the accounting pronouncements adopted by the Company during the six months ended June 30, 2010 is included in Note 3 to the Condensed Consolidated Financial Statements.

**Item 3. *Quantitative and Qualitative Disclosures about Market Risk***

The Company's market risk is principally associated with activity levels and trends in the domestic and international capital markets. This includes activity levels in the initial public offerings and mergers and acquisitions markets, both important components of the Company's revenue. The Company also has market risk tied to interest rate fluctuations related to its debt obligations and fluctuations in foreign currency, as discussed below.

**Interest Rate Risk**

The Company's exposure to market risk for changes in interest rates relates primarily to its long-term debt obligations, revolving credit agreement and short-term investment portfolio.

The Company does not use derivative instruments in its short-term investment portfolio. The Company's \$8.3 million Notes consist of fixed rate instruments and therefore would not be significantly impacted by changes in interest rates. As of June 30, 2010, the Company had \$15.0 million of borrowings outstanding under its Revolver. Borrowings under the Revolver have an interest rate based on LIBOR plus 4.00% in the case of Eurodollar loans or a base rate plus 3.00% in the case of Base Rate Loans. During the three and six months ended June 30, 2010, the weighted-average interest rate on the Company's borrowings under its credit facility approximated 4.54% and 4.53%, respectively. A hypothetical 1% change in this interest rate would result in a change in interest expense of approximately \$77 and \$135 for the three and six months ended June 30, 2010, respectively, based on the average outstanding balances under the credit facility during these periods.

**Foreign Exchange Rates**

The Company derives a portion of its revenues from various foreign sources. The exposure to foreign currency movements is limited in most cases because the revenue and expense of its foreign subsidiaries are substantially in the local currency of the country in which they operate. Certain foreign currency transactions, such as intercompany sales, purchases, and borrowings, are denominated in a currency other than the local functional currency. These transactions may produce receivables or payables that are fixed in terms of the amount of foreign currency that will be received or paid. A change in exchange rates between the local functional currency and the currency in which a transaction is denominated increases or decreases the expected amount of local functional currency cash flows upon settlement of the transaction, which results in a foreign currency transaction gain or loss that is included in other income (expense) in the period in which the exchange rate changes.

The Company does not use foreign currency hedging instruments to reduce its exposure to foreign exchange fluctuations. The Company has reflected translation adjustments of \$1,377 and \$2,635 in its Condensed Consolidated Statements of Comprehensive Income for the six months ended June 30, 2010 and 2009, respectively. These adjustments are primarily attributed to the fluctuation in value between the U.S. dollar and the euro, pound sterling, Japanese yen, Singapore dollar and Canadian dollar. The Company has reflected net transaction gains (losses) of \$242 and (\$278) in its Condensed Consolidated Statements of Operations for the six months ended June 30, 2010 and 2009, respectively. These gains (losses) are primarily attributable to fluctuations in value among the U.S. dollar and the aforementioned foreign currencies.

## **Table of Contents**

### **Equity Price Risk**

The Company's defined benefit pension plan (the Plan) holds investments in both equity and fixed income securities. The amount of the Company's annual contribution to the Plan is dependent upon, among other factors, the return on the Plan's investments. Based on current estimates, the Company currently expects to contribute approximately \$2.1 million to its Plan in 2010. However, declines in the market value of the Company's Plan investments may require the Company to make additional contributions in future years.

### **Item 4. *Controls and Procedures***

(a) *Disclosure Controls and Procedures.* The Company maintains a system of disclosure controls and procedures designed to provide reasonable assurance that information required to be disclosed by the Company in reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls are also designed to reasonably assure that such information is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. Disclosure controls include components of internal control over financial reporting, which consist of control processes designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with generally accepted accounting principles in the United States.

As of the end of the period covered by this report, the Company's management, under the supervision of and with the participation of the Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures, pursuant to Exchange Act Rule 13a-15(e) and 15d-15(e) (the Exchange Act). Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective in ensuring that all material information required to be filed or submitted under the Exchange Act has been made known to them in a timely fashion.

(b) *Changes in Internal Control Over Financial Reporting.* There have not been any changes in the Company's internal control over financial reporting during the Company's most recently completed fiscal quarter that have materially affected, or are reasonably likely to affect, the Company's internal control over financial reporting.

## **PART II**

### **OTHER INFORMATION**

#### **Item 1. *Legal proceedings***

The Company, members of our board of directors and management, R.R. Donnelley and Merger Sub have been named as defendants in four purported class action lawsuits brought in the Supreme Court of the State of New York and consolidated under the caption and index number Sartoretti v. Bowne & Co., Inc., et al., Index No. 600531/2010. The consolidated complaint filed on April 12, 2010, alleges breach of fiduciary duty by the directors and officers in connection with the acquisition contemplated by the merger agreement, and asserts aiding and abetting claims against the Company, R.R. Donnelly and Merger Sub. On April 21, 2010, the parties entered into a Memorandum of Understanding, which contemplates, subject to completion of definitive settlement documents and court approval, a settlement of the consolidated cases. The Company has accrued approximately \$0.6 million as of June 30, 2010 related to the estimated settlement costs.

The Company is not involved in any other material pending legal proceedings other than routine litigation incidental to the conduct of its business.

**Item 1A. Risk Factors**

There have been no material changes in our risk factors from those disclosed in Part I, Item 1A to our Annual Report on Form 10-K for the year ended December 31, 2009. The risk factors disclosed in Part I, Item 1A to our Annual Report on Form 10-K for the year ended December 31, 2009 are certain risk factors that could affect our business, financial condition, and results of operations. These risk factors should be considered in conjunction with

evaluating the forward-looking statements contained in our Annual Report on Form 10-K and set forth in this report because these factors could cause the actual results and conditions to differ materially from those projected in forward-looking statements.

**Item 4. *Submission of Matters to a Vote of Security Holders***

On May 26, 2010, Bowne & Co., Inc. (the Company) held a special meeting of stockholders to vote on: (1) a proposal ( Proposal I ) to adopt the Agreement and Plan of Merger (the Merger Agreement ), dated as of February 23, 2010, among the Company, R.R. Donnelley & Sons Company, a Delaware corporation and Snoopy Acquisition, Inc., a Delaware corporation and wholly-owned subsidiary of R.R. Donnelley & Sons Company; and (2) a proposal ( Proposal II ) to adjourn the special meeting, if necessary or appropriate, to solicit additional proxies if there are insufficient votes at the time of the special meeting to adopt the Merger Agreement.

There were 40,100,503 shares of common stock of the Company outstanding as of the record date for the special meeting (April 19, 2010). A quorum was present at the special meeting. Proposal I was approved by the stockholders, with 73.9% of the outstanding shares eligible to vote voting FOR adoption of the Merger Agreement. Because sufficient votes were received to pass Proposal I, Proposal II was not voted upon at the special meeting. The voting results of Proposal I were disclosed in the Company's current report on Form 8-K dated May 26, 2010.
