Item 2.02. Results of Operations and Financial Condition.

On October 26, 2010, the Company issued a press release announcing its financial results for the fiscal quarter ended September 30, 2010 and certain other information.

Attached and incorporated by reference as Exhibit 99.1 is a copy of the Company's press release dated October 26, 2010, announcing its financial results for the fiscal quarter ended September 30, 2010 and certain other information.

On October 27, 2010, the Company will hold an investor conference and webcast at 11:00 a.m. Eastern time to disclose and discuss the financial results for the fiscal quarter ended September 30, 2010 and certain other information.

The information furnished in this report under this Item 2.02, including the Exhibit attached hereto, shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, except as shall be expressly set forth by specific reference to such filing.

Item 2.06 Material Impairments.

In connection with the recently reported amendment to our credit facility, management of the Company undertook to reassess its expectations for the appropriate holding period for a pool of 195 industrial properties comprising approximately 16.4 million square feet and land comprising approximately 724 acres. As a result of that reassessment, and in connection with management's quarterly assessment of indicators that the value of its investments in real estate have been impaired in accordance with ASC 360 Property, Plant and Equipment, management of the Company determined, and advised the Board of Directors of the Company, that the value of the Company's investment in 129 of the industrial properties and land parcels comprising 503 acres in the pool is currently impaired. Accordingly, for the fiscal quarter ended September 30, 2010, the Company will record a non-cash impairment charge of approximately \$163.9 million with respect to 129 of the industrial properties comprising approximately 10.6 million square feet and parcels of land comprising approximately 503 acres in the pool. With respect to each of the impaired industrial properties and parcels of land comprising 474 acres, the impairment charge was calculated as the excess of the carrying value of the properties and land parcels over the fair value of such assets. With respect to parcels of land comprising 29 acres, the impairment charge was calculated as the excess of the carrying value over the fair value less costs to sell, since those land parcels met the criteria to be classified as held for sale as of September 30, 2010. In addition, all of the 195 industrial properties comprising approximately 16.4 million square feet and land parcels comprising approximately 695 acres in the pool will qualify to be classified as held for sale in the financial statements of the Company for the fiscal quarter ending December 31, 2010

(unless any of the properties or land parcels in the pool are sold prior to December 31, 2010). As a result, the Company estimates that it will record a non-cash impairment charge of approximately \$3 million for the fiscal quarter ending December 31, 2010 with respect to 11 properties comprising approximately 1.6 million square feet, as these properties will be considered impaired under held for sale accounting. The Company also estimates that it will record a non-cash impairment charge of approximately \$11 million for the fiscal quarter ending December 31, 2010 with respect to 140 industrial properties comprising approximately 12.2 million square feet and those parcels of land comprising 474 acres in the pool relating to the estimated costs to sell. In connection with the sale of the 140 industrial properties comprising approximately 12.2 million square feet and those parcels of land comprising 474 acres, the Company estimates approximately \$11 million in future cash expenditures.
