Forward-Looking Statements

Statements contained in this filing and certain other written or oral statements made from time to time by the company and its representatives that are not historical facts are forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements relate to current expectations regarding our future financial condition and results of operations and are often identified by the use of words and phrases such as anticipate, believe, continue, could, estimate, expect, intend, may, plan, predict, project, show, to, is expected to or will continue, or the negative of these terms or other comparable terminology. These forward-looking statements are based upon assumptions we believe are reasonable.

Forward-looking statements are based on current information and are subject to risks and uncertainties that could cause our actual results to differ materially from those projected. Certain factors that may cause actual results, performance, and achievements to differ materially from those projected are discussed in this report and may include, but are not limited to:

- unexpected changes in any of the following: (i) general economic and business conditions; (ii) the competitive setting in which we operate, including, advertising or promotional strategies by us or our competitors, as well as changes in consumer demand; (iii) interest rates and other terms available to us on our borrowings; (iv) energy and raw materials costs and availability and hedging counter-party risks; (v) relationships with our employees, independent distributors and third party service providers; and (vi) laws and regulations (including environmental and health-related issues), accounting standards or tax rates in the markets in which we operate;
- the loss or financial instability of any significant customer(s);
- our ability to execute our business strategy, which may involve integration of recent acquisitions or the acquisition or disposition of assets at presently targeted values;
- our ability to operate existing, and any new, manufacturing lines according to schedule;
- the level of success we achieve in developing and introducing new products and entering new markets;
- changes in consumer behavior, trends and preferences, including health and whole grain trends, and the movement toward more inexpensive store-branded products;
- our ability to implement new technology as required;
- the credit and business risks associated with our independent distributors and customers which operate in the highly competitive retail food and foodservice industries, including the amount of consolidation in these industries;
- changes in pricing, customer and consumer reaction to pricing actions, and the pricing environment among competitors within the industry;
- any business disruptions due to political instability, armed hostilities, incidents of terrorism, natural disasters or the responses to or repercussions from any of these or similar events or conditions and our ability to insure against such events; and
- regulation and legislation related to climate change that could affect our ability to procure our commodity needs or that necessitate additional unplanned capital expenditures.

The foregoing list of important factors does not include all such factors, nor necessarily present them in order of importance. In addition, you should consult other disclosures made by the company (such as in our other filings with the Securities and Exchange Commission (SEC) or in company press releases) for other factors that may cause actual results to differ materially from those projected by the company. Please refer to Part I, Item 1A., *Risk Factors*, of the company's Form 10-K filed on March 3, 2010 for additional information regarding factors that could affect the company's results of operations, financial condition and liquidity.

We caution you not to place undue reliance on forward-looking statements, as they speak only as of the date made and are inherently uncertain. The company undertakes no obligation to publicly revise or update such statements, except as required by law. You are advised, however, to consult any further public disclosures by the company (such as in our filings with the SEC or in company press releases) on related subjects.

Table of Contents**FLOWERS FOODS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)****1. BASIS OF PRESENTATION**

INTERIM FINANCIAL STATEMENTS The accompanying unaudited condensed consolidated financial statements of Flowers Foods, Inc. (the company) have been prepared by the company s management in accordance with generally accepted accounting principles in the United States of America (GAAP) for interim financial information and applicable rules and regulations of the Securities Exchange Act of 1934, as amended. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for annual financial statements. In the opinion of management, the unaudited condensed consolidated financial statements included herein contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the company s financial position, the results of its operations and its cash flows. The results of operations for the twelve and forty week periods ended October 9, 2010 and October 10, 2009 are not necessarily indicative of the results to be expected for a full fiscal year. The balance sheet at January 2, 2010 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. These financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the company s Annual Report on Form 10-K for the fiscal year ended January 2, 2010.

ESTIMATES The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The company believes the following critical accounting estimates affect its more significant judgments used in the preparation of its condensed consolidated financial statements: revenue recognition, derivative instruments, valuation of long-lived assets, goodwill and other intangibles, self-insurance reserves, income tax expense and accruals and pension obligations. These estimates are summarized in the company s Annual Report on Form 10-K for the fiscal year ended January 2, 2010.

REPORTING PERIODS The company operates on a 52-53 week fiscal year ending the Saturday nearest December 31. Fiscal 2010 consists of 52 weeks, with the company s quarterly reporting periods as follows: first quarter ended April 24, 2010 (sixteen weeks), second quarter ended July 17, 2010 (twelve weeks), third quarter ended October 9, 2010 (twelve weeks) and fourth quarter ending January 1, 2011 (twelve weeks).

SEGMENTS The company consists of two business segments: direct-store-delivery (DSD) and warehouse delivery. The DSD segment focuses on producing and marketing bakery products to U.S. customers in the Southeast, Mid-Atlantic, and Southwest, as well as, selected markets in California and Nevada. The warehouse delivery segment produces snack cakes for sale to retail, vending and co-pack customers nationwide as well as frozen bread, rolls and buns for sale to retail and foodservice customers primarily through warehouse distribution.

SIGNIFICANT CUSTOMER Following is the effect our largest customer, Wal-Mart/Sam s Club, had on the company s sales for the twelve and forty weeks ended October 9, 2010 and October 10, 2009. No other customer accounted for 10% or more of the company s sales.

	FOR THE TWELVE WEEKS ENDED		FOR THE FORTY WEEKS ENDED	
	OCTOBER 9, 2010	OCTOBER 10, 2009	OCTOBER 9, 2010	OCTOBER 10, 2009
	(Percent of Sales)		(Percent of Sales)	
DSD	18.1%	17.8%	18.4%	18.1%
Warehouse delivery	4.2	3.0	3.5	2.9
Total	22.3%	20.8%	21.9%	21.0%

SIGNIFICANT ACCOUNTING POLICIES The following discussion provides the significant changes to our significant accounting policies from those disclosed in our Form 10-K filed for the year ended January 2, 2010.

Variable Interest Entities. In 2009, the Financial Accounting Standards Board (FASB) amended the consolidation principles associated with variable interest entities (VIE). The new accounting guidance caused a change in our accounting policy effective January 3, 2010. Generally, the new qualitative approach replaced the quantitative-based risks and rewards calculation for determining

Table of Contents

which enterprise, if any, has a controlling financial interest in the VIE. The qualitative approach is focused on identifying which company has both the power to direct the activities of a VIE that most significantly impact the entity's economic performance and the obligation to absorb losses of the entity or the right to receive benefits from the entity. As a result of applying this qualitative analysis, effective January 3, 2010, the company is no longer required to consolidate the VIE that delivers a significant portion of its fresh bakery products from the company's production facilities to outlying distribution centers under a transportation agreement. The company has elected to prospectively deconsolidate the VIE. Please see Note 8, *Variable Interest Entity*, for additional disclosure.

2. COMPREHENSIVE INCOME (LOSS)

The company's total comprehensive income presently consists of net income, adjustments for our derivative financial instruments accounted for as cash flow hedges, and various pension and other postretirement benefit related items. Total comprehensive income attributable to Flowers Foods, Inc., determined as net income adjusted by other comprehensive income and net income attributable to noncontrolling interest, was \$52.0 million and \$138.6 million for the twelve and forty weeks ended October 9, 2010, respectively. Total comprehensive income attributable to Flowers Foods, Inc. was \$26.2 million and \$111.8 million for the twelve and forty weeks ended October 10, 2009, respectively.

During the forty weeks ended October 9, 2010, changes to accumulated other comprehensive loss, net of income tax, were as follows (amounts in thousands):

Accumulated other comprehensive loss, January 2, 2010	\$ (64,672)
Derivative transactions:	
Net deferred gains (losses) on closed contracts, net of income tax of \$(417)	(667)
Reclassified to earnings, net of income tax of \$10,085	16,110
Effective portion of change in fair value of hedging instruments, net of income tax of \$10,338	16,515
Amortization of actuarial loss, net of income tax of \$628	1,002
Minimum pension liability, net of income tax of \$42	68
Amortization of prior service credits, net of income tax of \$(52)	(82)
Accumulated other comprehensive loss, October 9, 2010	\$ (31,726)

3. ACQUISITIONS

On October 17, 2009, the company acquired 100% of the outstanding shares of capital stock of Leo's Foods, Inc. (Leo's). Leo's operates one tortilla facility in Ft. Worth, Texas and makes an extensive line of flour and corn tortillas and tortilla chips that are sold to foodservice and institutional customers nationwide. This acquisition is recorded in the company's warehouse delivery segment and resulted in goodwill of \$2.6 million, none of which is deductible for tax purposes.

On May 15, 2009, the company acquired substantially all the assets of a bakery mix operation in Cedar Rapids, Iowa. Based on the purchase price allocation, the fair value of the identifiable assets acquired and liabilities assumed exceeded the fair value of the consideration paid. As a result, we recognized a gain of \$3.0 million in the second quarter of fiscal 2009, which is included in the line item "Gain on acquisition" within income from operations in the condensed consolidated statement of income for the forty weeks ended October 10, 2009. We believe the gain on acquisition resulted from the seller's strategic intent to exit a non-core business operation. This acquisition is recorded in the company's warehouse delivery segment.

4. GOODWILL AND OTHER INTANGIBLES

The changes in the carrying amount of goodwill for the forty weeks ended October 9, 2010, are as follows (amounts in thousands):

	DSD	Warehouse delivery	Total
Balance as of January 2, 2010	\$ 194,581	\$ 7,101	\$ 201,682

Edgar Filing: FLOWERS FOODS INC - Form 10-Q

Adjustment for deconsolidation of VIE (Note 8)	(1,529)		(1,529)
Balance as of October 9, 2010	\$ 193,052	\$	7,101 \$ 200,153

Table of Contents

As of October 9, 2010 and January 2, 2010, the company had the following amounts related to amortizable intangible assets (amounts in thousands):

Asset	October 9, 2010 Accumulated			January 2, 2010 Accumulated		
	Cost	Amortization	Net Value	Cost	Amortization	Net Value
Trademarks	\$ 35,268	\$ 4,331	\$ 30,937	\$ 35,268	\$ 3,144	\$ 32,124
Customer relationships	75,434	12,766	62,668	75,434	9,738	65,696
Non-compete agreements	1,874	1,343	531	1,874	1,309	565
Distributor relationships	2,600	373	2,227	2,600	240	2,360
Supply agreement	1,050	485	565	1,050	215	835
Total	\$ 116,226	\$ 19,298	\$ 96,928	\$ 116,226	\$ 14,646	\$ 101,580

There is an additional \$1.5 million indefinite life intangible asset separately identified from goodwill.

Net amortization expense for the twelve and forty weeks ended October 9, 2010 and October 10, 2009 were as follows (amounts in thousands):

	FOR THE TWELVE WEEKS ENDED		FOR THE FORTY WEEKS ENDED	
	OCTOBER 9, 2010	OCTOBER 10, 2009	OCTOBER 9, 2010	OCTOBER 10, 2009
Amortizable intangible assets expense	\$ 1,396	\$ 1,404	\$ 4,652	\$ 4,509
Amortizable intangible liabilities (income)	(10)	(10)	(34)	(34)
Total, net	\$ 1,386	\$ 1,394	\$ 4,618	\$ 4,475

Estimated net amortization of intangibles for the remainder of fiscal 2010 and the next four years is as follows (amounts in thousands):

	Amortization of Intangibles, net
Remainder of 2010	\$ 1,385
2011	\$ 5,948
2012	\$ 5,677
2013	\$ 5,488
2014	\$ 5,389

5. FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying value of cash and cash equivalents, accounts receivable and short-term debt approximates fair value because of the short-term maturity of the instruments. Notes receivable are entered into in connection with the purchase of distributors territories by independent distributors. These notes receivable are recorded in the condensed consolidated balance sheet at carrying value which represents the closest approximation of fair value. In accordance with GAAP, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As a result, the appropriate interest rate that should be used to estimate the fair value of the distributor notes is the prevailing market rate at which similar loans

would be made to distributors with similar credit ratings and for the same maturities. However, the company utilizes approximately 3,600 independent distributors all with varied financial histories and credit risks. Considering the diversity of credit risks among the independent distributors, the company has no method to accurately determine a market interest rate to apply to the notes. The territories are generally financed over ten years bearing an interest rate of 12% and the distributor notes are collateralized by the independent distributors territories.

Table of Contents

Interest income for the distributor notes receivable was as follows (amounts in thousands):

	Interest Income
For the twelve weeks ended October 9, 2010	\$ 2,918
For the twelve weeks ended October 10, 2009	\$ 2,956
For the forty weeks ended October 9, 2010	\$ 9,773
For the forty weeks ended October 10, 2009	\$ 9,996

At October 9, 2010 and January 2, 2010, respectively, the carrying value of the distributor notes was as follows (amounts in thousands):

	October 9, 2010	January 2, 2010
Distributor notes receivable	\$ 104,471	\$ 107,067
Current portion of distributor notes receivable recorded in accounts and notes receivable, net	12,583	12,610
Long-term portion of distributor notes receivable	\$ 91,888	\$ 94,457

At October 9, 2010 and January 2, 2010, the company evaluated the collectibility of the distributor notes and determined that a reserve is not necessary. Payments on these distributor notes are collected by the company weekly in the distributor settlement process.

6. DERIVATIVE FINANCIAL INSTRUMENTS

In the first fiscal quarter of fiscal 2008, the company began measuring the fair value of its derivative portfolio using the fair value as the price that would be received to sell an asset or paid to transfer a liability in the principal market for that asset or liability. These measurements are classified into a hierarchy by the inputs used to perform the fair value calculation as follows:

Level 1: Fair value based on unadjusted quoted prices for identical assets or liabilities in active markets

Level 2: Modeled fair value with model inputs that are all observable market values

Level 3: Modeled fair value with at least one model input that is not an observable market value

This change in measurement technique had no material impact on the reported value of our derivative portfolio.

COMMODITY PRICE RISK

The company enters into commodity derivatives, designated as cash-flow hedges of existing or future exposure to changes in commodity prices. The company's primary raw materials are flour, sweeteners and shortening, along with pulp, paper and petroleum-based packaging products. Natural gas, which is used as oven fuel, is also an important commodity input to production.

As of October 9, 2010, the company's hedge portfolio contained commodity derivatives with a net fair value of \$24.5 million, which is recorded in the following accounts with fair values measured as indicated (amounts in millions):

	Level 1	Level 2	Level 3	Total
Assets:				
Other current	\$ 23.0	\$ 4.3	\$	\$ 27.3
Other long-term	0.4			0.4
Total	23.4	4.3		27.7
Liabilities:				
Other current		(2.6)		(2.6)

Edgar Filing: FLOWERS FOODS INC - Form 10-Q

Other long-term		(0.6)		(0.6)
Total		(3.2)		(3.2)
Net Fair Value	\$ 23.4	\$ 1.1	\$	\$ 24.5

The positions held in the portfolio are used to hedge economic exposure to changes in various raw material prices and effectively fix the price, or limit increases in prices, for a period of time extending into fiscal 2012. These instruments are designated as cash-flow hedges. The effective portion of changes in fair value for these derivatives is recorded each period in other comprehensive income (loss),

Table of Contents

and any ineffective portion of the change in fair value is recorded to current period earnings in selling, marketing and administrative expenses. The company held no commodity derivatives at October 9, 2010 or January 2, 2010 that did not qualify for hedge accounting.

As of October 9, 2010, the balance in accumulated other comprehensive loss related to commodity derivative transactions was \$(25.1) million. Of this total, approximately \$(2.2) million, \$(13.1) million and \$0.2 million were related to instruments expiring in 2010, 2011 and 2012, respectively, and \$(10.0) million was related to deferred losses on cash flow hedge positions.

INTEREST RATE RISK

The company entered interest rate swaps with initial notional amounts of \$85.0 million and \$65.0 million to fix the interest rate on the \$150.0 million term loan entered into on August 1, 2008 to fund the acquisitions of ButterKrust and Holsum. The notional amounts match the scheduled quarterly principal payments on the \$150.0 million term loan so that the remaining outstanding term loan balance at any reporting date is fully covered by the swap arrangements through the August 2013 maturity of the term loan. In addition, on October 27, 2008, the company entered an interest rate swap with a notional amount of \$50.0 million to fix the interest rate through September 30, 2009 on \$50.0 million of borrowings outstanding under the company's unsecured credit facility.

The interest rate swap agreements result in the company paying or receiving the difference between the fixed and floating rates at specified intervals calculated based on the notional amount. The interest rate differential to be paid or received will be recorded as interest expense. These swap transactions are designated as cash-flow hedges. Accordingly, the effective portion of changes in the fair value of the swaps is recorded each period in other comprehensive income. Any ineffective portions of changes in fair value are recorded to current period earnings in selling, marketing and administrative expenses.

As of October 9, 2010, the fair value of the interest rate swaps was \$(8.1) million, which is recorded in the following accounts with fair values measured as indicated (amounts in millions):

	Level 1	Level 2	Level 3	Total
Assets:				
Other current	\$	\$	\$	\$
Other long-term				
Total				
Liabilities:				
Other current		(4.1)		(4.1)
Other long-term		(4.0)		(4.0)
Total		(8.1)		(8.1)
Net Fair Value	\$	\$ (8.1)	\$	\$ (8.1)

During the twelve weeks ended October 9, 2010 and October 10, 2009, interest expense of \$1.0 million and \$1.3 million, respectively, was recognized due to periodic settlements of the swaps. During the forty weeks ended October 9, 2010 and October 10, 2009, interest expense of \$3.6 million and \$4.0 million, respectively, was recognized due to periodic settlements of the swaps.

As of October 9, 2010, the balance in accumulated other comprehensive loss related to interest rate derivative transactions was \$4.9 million. Of this total, approximately \$0.6 million, \$2.3 million, \$1.6 million, and \$0.4 million were related to instruments expiring in fiscal 2010 through 2013, respectively.

The company has the following derivative instruments located on the condensed consolidated balance sheet, utilized for risk management purposes detailed above (amounts in thousands):

Designated as	Derivative Assets				Derivative Liabilities			
	October 9, 2010		January 2, 2010		October 9, 2010		January 2, 2010	
	Balance Sheet location	Fair Value	Balance Sheet location	Fair Value	Balance Sheet location	Fair Value	Balance Sheet location	
Other current assets		\$ 27,274	Other current assets	\$ 2,501	Other current liabilities	\$ 4,085	Other current liabilities	
Other long term assets		393	Other long term assets		Other long term liabilities	4,017	Other long term liabilities	
					Other current liabilities	2,627	Other current liabilities	
					Other long term liabilities	535	Other long term liabilities	
		\$ 27,667		\$ 2,501		\$ 11,264		

Table of Contents

The company has the following derivative instruments located on the condensed consolidated statements of income, utilized for risk management purposes detailed above (amounts in thousands and net of tax):

Derivatives in Cash Flow Hedge Relationships	Amount of Gain or (Loss)		Location of Gain or (Loss) Reclassified from AOCI into Income (Effective Portion)	Amount of Gain or (Loss) Reclassified from Accumulated OCI into Income (Effective Portion)	
	Recognized in OCI on Derivative (Effective Portion) For the twelve weeks ended			For the twelve weeks ended

Interest rate contracts	Selling, distribution and administrative expenses	\$	\$
Commodity contracts	Selling, distribution and administrative expenses		(617)
Total		\$	\$ (617)

As of October 9, 2010, the company had the following outstanding financial contracts that were entered to hedge commodity and interest rate risk:

Derivative in Cash Flow Hedge Relationship	Notional amount (millions)
Interest rate contracts	\$ 120.0
Wheat contracts	139.2
Soybean oil contracts	14.8
Natural gas contracts	14.2
Total	\$ 288.2

The interest rate contracts have multiple settlements to match the amortization of the term loan. The notional amount of \$120.0 million represents the current settlement notional amount. Note 7, *Debt and Other Obligations*, below provides details on the term loan. The company's derivative instruments contain no credit-risk-related contingent features at October 9, 2010.

Table of Contents**7. DEBT AND OTHER OBLIGATIONS**

Long-term debt and capital leases consisted of the following at October 9, 2010 and January 2, 2010 (amounts in thousands):

	OCTOBER 9, 2010	JANUARY 2, 2010
Unsecured credit facility	\$ 9,500	\$ 89,000
Unsecured term loan	120,000	131,250
Capital lease obligations	11,376	26,555
Other notes payable	2,486	4,863
	143,362	251,668
Less current maturities	26,817	25,763
Total long-term debt and capital leases	\$ 116,545	\$ 225,905

On August 1, 2008, the company entered into a Credit Agreement (term loan) with various lending parties for the purpose of completing acquisitions. The term loan provides for an amortizing \$150.0 million of borrowings through the maturity date of August 4, 2013. Principal payments are due quarterly under the term loan beginning on December 31, 2008 at an annual amortization of 10% of the principal balance for the first two years, 15% during the third year, 20% during the fourth year, and 45% during the fifth year. The term loan includes certain customary restrictions, which, among other things, require maintenance of financial covenants and limit encumbrance of assets and creation of indebtedness. Restrictive financial covenants include such ratios as a minimum interest coverage ratio and a maximum leverage ratio. The company believes that, given its current cash position, its cash flow from operating activities and its available credit capacity, it can comply with the current terms of the term loan and can meet presently foreseeable financial requirements. As of October 9, 2010 and January 2, 2010, the company was in compliance with all restrictive financial covenants under the term loan.

Interest is due quarterly in arrears on outstanding borrowings at a customary Eurodollar rate or the base rate plus the applicable margin. The underlying rate is defined as the rate offered in the interbank Eurodollar market or the higher of the prime lending rate or federal funds rate plus 0.5%. The applicable margin ranges from 0.0% to 1.375% for base rate loans and from 0.875% to 2.375% for Eurodollar loans and is based on the company's leverage ratio. The company paid financing costs of \$0.8 million in connection with the term loan, which is being amortized over the life of the term loan.

The company has a five-year, \$250.0 million unsecured revolving loan facility (the credit facility) expiring October 5, 2012. Proceeds from the credit facility may be used for working capital and general corporate purposes, including acquisition financing, refinancing of indebtedness and share repurchases. The credit facility includes certain customary restrictions, which, among other things, require maintenance of financial covenants and limit encumbrance of assets and creation of indebtedness. Restrictive financial covenants include such ratios as a minimum interest coverage ratio and a maximum leverage ratio. The company believes that, given its current cash position, its cash flow from operating activities and its available credit capacity, it can comply with the current terms of the credit facility and can meet presently foreseeable financial requirements. As of October 9, 2010 and January 2, 2010, the company was in compliance with all restrictive financial covenants under its credit facility.

Interest is due quarterly in arrears on any outstanding borrowings at a customary Eurodollar rate or the base rate plus the applicable margin. The underlying rate is defined as rates offered in the interbank Eurodollar market or the higher of the prime lending rate or federal funds rate plus 0.5%. The applicable margin ranges from 0.0% to 0.30% for base rate loans and from 0.40% to 1.275% for Eurodollar loans. In addition, a facility fee ranging from 0.10% to 0.35% is due quarterly on all commitments under the credit facility. Both the interest margin and the facility fee are based on the company's leverage ratio. Financing costs of \$0.9 million were deferred and are being amortized over the term of the credit facility.

Book overdrafts occur when checks have been issued but have not been presented to the bank for payment. These bank accounts allow us to delay funding of issued checks until the checks are presented for payment. The delay in funding results in a temporary source of financing from the bank. The activity related to book overdrafts is shown as a financing activity in our condensed consolidated statements of cash flows. Book overdrafts are included in other current liabilities on our condensed consolidated balance sheets. As of October 9, 2010 and January 2, 2010, the book overdraft balance was \$12.3 million and \$11.1 million, respectively.

Table of Contents**8. VARIABLE INTEREST ENTITY**

The company maintains a transportation agreement with an entity that transports a significant portion of the company's fresh bakery products from the company's production facilities to outlying distribution centers. The company represents a significant portion of the entity's revenue. This entity qualifies as a VIE. Under previous accounting guidance, we consolidated the VIE in our condensed consolidated financial statements from the first quarter of 2004 through the fourth quarter of 2009 because during that time the company was considered to be the primary beneficiary. Under the revised principles, which became effective January 3, 2010, we have determined that the company is no longer the primary beneficiary and we deconsolidated the VIE in our financial statements. The VIE does not affect the line item *Net income attributable to Flowers Foods, Inc.* since the company has no interest in any net earnings or losses of the VIE through equity participation. The VIE has collateral that is sufficient to meet its capital lease and other debt obligations and the owner of the VIE personally guarantees the obligations of the VIE. The VIE's creditors have no recourse against the general credit of the company.

The company has no exposure to gains or losses of the VIE in reporting its net income. In addition, the company does not have explicit or implied power over any of the significant activities to operate the VIE. The primary beneficiary of the VIE realizes the economic benefits and losses incurred and has the power to direct most of the significant activities. The VIE is permitted to pass along increases in their costs, with company approval, at a capped increase of 2% per year. The company and the VIE also agree on a rebate paid or credited to the company depending on the profitability of the VIE in the preceding year. We do not guarantee the VIE's specific returns or performance benchmarks. In addition, if a manufacturing facility closes or there is a loss of market share causing the VIE to have to move their equipment the company will make an effort to move the equipment to another manufacturing facility. If the company is unable to do so, we will reimburse the VIE for any losses incurred in the disposal of the equipment and will pay the cost to transfer the equipment. The company's maximum loss exposure for the truck disposals is the difference in the estimated fair value of the trucks from the book value.

As part of the deconsolidation of the VIE, the company concluded that certain of the trucks and trailers the VIE uses for distributing our products from the manufacturing facilities to the distribution centers qualify as right to use leases. The amount for property, plant and equipment and capital lease obligations was \$11.9 million at January 3, 2010. As of October 9, 2010, there was \$10.4 million in net property, plant and equipment and capital lease obligations associated with the right to use leases.

Following is the effect of the VIE during the twelve and forty weeks ended October 10, 2009:

	TWELVE WEEKS ENDED OCTOBER 10, 2009		FORTY WEEKS ENDED OCTOBER 10, 2009	
	VIE	% OF TOTAL	VIE	% OF TOTAL
	(Dollars in thousands)			
Assets as of respective period ends	\$33,715	2.5%	\$33,715	2.5%
Sales	\$ 3,851	0.6%	\$ 8,466	0.4%
Income before income taxes	\$ 1,098	2.1%	\$ 2,306	1.4%

The assets consisted primarily of \$22.9 million of transportation equipment on October 10, 2009 recorded as capital lease obligations.

9. LITIGATION

The company and its subsidiaries from time to time are parties to, or targets of, lawsuits, claims, investigations and proceedings, which are being handled and defended in the ordinary course of business. While the company is unable to predict the outcome of these matters, it believes, based upon currently available facts, that it is remote that the ultimate resolution of any such pending matters will have a material adverse effect on its overall financial condition, results of operations or cash flows in the future. However, adverse developments could negatively impact earnings in a particular future fiscal period.

On July 23, 2008, a wholly-owned subsidiary of the company filed a lawsuit against Hostess Brands, Inc. (Hostess) (formerly Interstate Bakeries Corporation) in the United States District Court for the Northern District of Georgia. The complaint alleges that Hostess is infringing upon Flowers *Nature s Own* trademarks by using or intending to use the *Nature s Pride* trademark. Flowers asserts that Hostess sale or intended sale of baked goods under the *Nature s Pride* trademark is likely to cause confusion with, and likely to

Table of Contents

dilute the distinctiveness of, the *Nature's Own* mark and constitutes unfair competition and deceptive trade practices. Flowers is seeking actual damages, an accounting of Hostess' profits from its sales of *Nature's Pride* products, and injunctive relief. Flowers sought summary judgment for its claims, which was denied by the court. Unless our motion for reconsideration is granted and changes that ruling, we expect this case to proceed to trial in 2011.

The company's facilities are subject to various federal, state and local laws and regulations regarding the discharge of material into the environment and the protection of the environment in other ways. The company is not a party to any material proceedings arising under these regulations. The company believes that compliance with existing environmental laws and regulations will not materially affect the consolidated financial condition or the competitive position of the company. The company is currently in substantial compliance with all material environmental regulations affecting the company and its properties.

10. EARNINGS PER SHARE

The following is a reconciliation of net income attributable to Flowers Foods, Inc. and weighted average shares for calculating basic and diluted earnings per common share for the twelve and forty weeks ended October 9, 2010 and October 10, 2009 (amounts in thousands, except per share data):

	FOR THE TWELVE WEEKS ENDED		FOR THE FORTY WEEKS ENDED	
	OCTOBER 9, 2010	OCTOBER 10, 2009	OCTOBER 9, 2010	OCTOBER 10, 2009
Net income attributable to Flowers Foods, Inc.	\$ 31,166	\$ 31,926	\$ 105,609	\$ 99,648
Dividends on restricted shares not expected to vest*				
Net income attributable to common and participating shareholders	\$ 31,166	\$ 31,926	\$ 105,609	\$ 99,648
Basic Earnings Per Common Share:				
Weighted average shares outstanding for common stock	91,426	91,581	91,348	91,917
Weighted average shares outstanding for participating securities	203	414	228	413
Basic weighted average shares outstanding per common share	91,629	91,995	91,576	92,330
Basic earnings per common share attributable to Flowers Foods, Inc. common shareholders	\$ 0.34	\$ 0.35	\$ 1.15	\$ 1.08
Diluted Earnings Per Common Share:				
Basic weighted average shares outstanding per common share	91,629	91,995	91,576	92,330
Add: Shares of common stock assumed issued upon exercise of stock options and vesting of restricted stock	647	602	665	497

Diluted weighted average shares outstanding per common share	92,276	92,597	92,241	92,827
Diluted earnings per common share attributable to Flowers Foods, Inc. common shareholders	\$ 0.34	\$ 0.34	\$ 1.14	\$ 1.07

* The company expects all restricted share awards outstanding at October 9, 2010 and October 10, 2009 to vest.

Stock options to purchase 1,129,817 shares and 1,841,417 shares of common stock were not included in the computation of diluted earnings per share for the twelve weeks ended October 9, 2010 and October 10, 2009, respectively, because their effect would have been anti-dilutive. Stock options to purchase 2,119,163 shares and 1,841,417 shares of common stock were not included in the computation of diluted earnings per share for the forty weeks ended October 9, 2010 and October 10, 2009, respectively, because their effect would have been anti-dilutive.

11. STOCK BASED COMPENSATION

Our 2001 Equity and Performance Incentive Plan, as amended and restated as of April 1, 2009, (EPIP) authorizes the compensation committee of the Board of Directors to make awards of options to purchase our common stock, restricted stock,

Table of Contents

performance stock and units and deferred stock. Our officers, key employees and non-employee directors (whose grants are generally approved by the full Board of Directors) are eligible to receive awards under the EPIP. The aggregate number of shares that may be issued or transferred under the EPIP is 18,625,000 shares. Over the life of the EPIP, the company has only issued options, restricted stock and deferred stock. The following is a summary of stock options, restricted stock, and deferred stock outstanding under the EPIP. Information relating to the company's stock appreciation rights which are not issued under the EPIP is also disclosed below.

Stock Options

The following non-qualified stock options (NQSOs) have been granted under the EPIP with service period remaining. The Black-Scholes option-pricing model was used to estimate the grant date fair value (amounts in thousands, except price data and as indicated):

Grant date	2/9/2010	2/9/2009	2/4/2008
Shares granted	1,136	993	850
Exercise price	25.01	23.84	24.75
Vesting date	2/9/2013	2/9/2012	2/4/2011
Fair value per share (\$)	5.54	5.87	5.80
Dividend yield (%) ⁽¹⁾	3.00	2.20	1.90
Expected volatility (%) ⁽²⁾	30.60	31.80	27.30
Risk-free interest rate (%) ⁽³⁾	2.35	2.00	2.79
Expected option life (years) ⁽⁴⁾	5.00	5.00	5.00
Outstanding at October 9, 2010	1,130	989	844

1. Dividend yield – estimated yield based on the historical dividend payment for the four most recent dividend payments prior to the grant date.
2. Expected volatility – based on historical volatility over the expected term using daily stock prices.
3. Risk-free interest rate – United States Treasury Constant Maturity rates as of the grant date over the expected term.
4. Expected option life – The 2008, 2009, and 2010 grant assumptions are based on the simplified formula determined in accordance with Staff Accounting Bulletin No. 110. The company does not have sufficient historical exercise behavior data to reasonably estimate the expected option life.

The stock option activity for the forty weeks ended October 9, 2010 pursuant to the EPIP is set forth below (amounts in thousands, except price data):

	Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding at January 2, 2010	3,734	\$ 20.34		
Granted	1,136	\$ 25.01		
Exercised	(473)	\$ 16.10		
Forfeited	(13)	\$ 24.58		
Outstanding at October 9, 2010	4,384	\$ 21.99	4.57	\$ 15,169
Exercisable at October 9, 2010	1,420	\$ 16.66	2.77	\$ 12,488

As of October 9, 2010, there was \$6.7 million of total unrecognized compensation expense related to outstanding stock options. This cost is expected to be recognized on a straight-line basis over a weighted-average period of 1.7 years.

Table of Contents

The cash received, the windfall tax benefits, and intrinsic value from stock option exercises for the forty weeks ended October 9, 2010 and October 10, 2009 were as follows (amounts in thousands):

	OCTOBER 9, 2010	OCTOBER 10, 2009
Cash received from option exercises	\$ 7,609	\$ 2,560
Cash tax windfall, net	\$ 777	\$ 910
Intrinsic value of stock options exercised	\$ 4,311	\$ 2,933

Generally, if the employee dies, becomes disabled or retires, the nonqualified stock options immediately vest and must be exercised within two years. In addition, nonqualified stock options will vest if the company undergoes a change in control.

Performance-Contingent Restricted Stock

Certain key employees have been granted performance-contingent restricted stock. The 2009 and 2010 awards generally vest two years from the date of grant and the 2009 award requires the return on invested capital to exceed the weighted average cost of capital by 2.5% (the ROI Target) over the two fiscal years immediately preceding the vesting date. The 2010 award requires the ROI target to be 3.75% over the two fiscal years immediately preceding the vesting date. If the ROI Target is not met the awards are forfeited. Furthermore, each grant of performance-contingent restricted stock will be adjusted as set forth below:

If the ROI Target is satisfied, then the performance-contingent restricted stock grant may be adjusted based on the company's total return to shareholders (Company TSR) percent rank as compared to the total return to shareholders of the S&P Packaged Food & Meat Index (S&P TSR) in the manner set forth below:

If the Company TSR rank is equal to the 50th percentile of the S&P TSR, then no adjustment;

If the Company TSR rank is less than the 50th percentile of the S&P TSR, the grant shall be reduced by 1.3% for each percentile below the 50th percentile that the Company TSR is less than the 50th percentile of S&P TSR, but in no event shall such reduction exceed 20%; or

If the Company TSR rank is greater than the 50th percentile of the S&P TSR, the grant shall be increased by 1.3% for each percentile above the 50th percentile that Company TSR is greater than the 50th percentile of S&P TSR, but in no event shall such increase exceed 20%.

In connection with the vesting of 209,950 shares of restricted stock granted in February 2008, during the forty weeks ended October 9, 2010, an additional 41,990 common shares were issued in the aggregate to these certain key employees because the company exceeded the S&P TSR by the maximum amount.

The performance-contingent restricted stock generally vests immediately if the grantee dies or becomes disabled. However, at retirement the grantee will receive a pro-rata number of shares through the grantee's retirement date at the normal vesting date. In addition, the performance-contingent restricted stock will immediately vest at the grant date award level without adjustment if the company undergoes a change in control. During the vesting period, the grantee is treated as a normal shareholder with respect to dividend and voting rights on the restricted shares for the 2009 grant. The 2010 grant does not include the right to receive dividends until vesting. Dividends declared and paid during the vesting period will accrue and will be paid at vesting. The fair value estimate was determined using a *Monte Carlo* simulation model, which utilizes multiple input variables to determine the probability of the company achieving the market condition discussed above. Inputs into the model included the following for the company and comparator companies: (i) total stockholder return from the beginning of the performance cycle through the measurement date; (ii) volatility; (iii) risk-free interest rates; and (iv) the correlation of the comparator companies' total stockholder return. The inputs are based on historical capital market data.

Table of Contents

The following restricted stock awards have been granted under the EPIP since fiscal 2007 (amounts in thousands, except price data):

Grant date	2/9/2010	2/9/2009	2/4/2008
Shares granted	179	204	210
Vesting date	2/9/2012	2/9/2011	2/4/2010
Fair value per share	\$ 26.38	\$ 24.96	\$ 27.03

A summary of the status of the company's nonvested shares as of October 9, 2010, and changes during the forty weeks ended October 9, 2010, is presented below (amounts in thousands, except price data):

	Shares	Weighted Average Grant Date Fair Value
Nonvested at January 2, 2010	414	\$ 26.01
Granted*	221	\$ 21.36
Vested*	(252)	\$ 22.53
Forfeited	(4)	\$ 25.92
Nonvested at October 9, 2010	379	\$ 25.62

* Includes 41,990 additional shares for the 2008 grant that exceeded the S&P TSR by the maximum amount as discussed above.

As of October 9, 2010, there was \$4.0 million of total unrecognized compensation cost related to nonvested restricted stock granted by the EPIP. That cost is expected to be recognized over a weighted-average period of 0.8 years. The total fair value of shares vested during the forty weeks ended October 9, 2010 was \$6.1 million which includes the incremental shares issued when the 2008 award exceeded the S&P TSR maximum amount discussed above.

Stock Appreciation Rights

Prior to 2007, the company allowed non-employee directors to convert their retainers and committee chairman fees into rights. These rights vest after one year and can be exercised over nine years. The company records compensation expense for these rights at a measurement date based on changes between the grant price and an estimated fair value of the rights using the *Black-Scholes* option-pricing model.

The fair value of the rights at October 9, 2010 ranged from \$8.95 to \$21.55. The following assumptions were used to determine fair value of the rights discussed above using the *Black-Scholes* option-pricing model at October 9, 2010: dividend yield 3.0%; expected volatility 30.0%; risk-free interest rate 1.14% and expected life of 0.45 years to 2.85 years. During the twelve weeks ended October 9, 2010 and October 10, 2009 the company recorded expense of \$0.2 million and \$0.4 million, respectively, related to these rights. During the forty weeks ended October 9, 2010 and October 10, 2009 the company recorded expense of \$0.3 million and \$0.2 million, respectively, related to these rights.

The rights activity for the forty weeks ended October 9, 2010 is set forth below (amounts in thousands except price data):

Rights	Weighted Average Grant Date Fair Value	Weighted Average Remaining Contractual Term	Aggregate Current Intrinsic Value
---------------	---	--	--

Edgar Filing: FLOWERS FOODS INC - Form 10-Q

Outstanding at January 2, 2010	231	\$	11.14		
Rights exercised					
Rights forfeited					
Outstanding at October 9, 2010	231	\$	11.14	3.15	\$ 3,326

Table of Contents*Deferred Stock*

Pursuant to the EPIP, the company allows non-employee directors to convert their retainers into deferred stock. The deferred stock has a minimum two year vesting period and will be distributed to the individual at a time designated by the individual at the date of conversion. During the first quarter of fiscal 2010 an aggregate of 17,960 shares were converted. The company records compensation expense for this deferred stock over the two-year minimum vesting period based on the closing price of the company's common stock on the date of conversion. During the first and second quarter of fiscal 2010 a total of 5,540 shares were exercised for non-employee retainer conversions granted in 2008.

Pursuant to the EPIP non-employee directors also receive annual grants of deferred stock. This deferred stock vests over one year from the grant date. During the second quarter of fiscal 2010, non-employee directors were granted an aggregate of 44,220 shares of deferred stock. There was an additional grant of 1,860 shares during the first quarter of fiscal 2010 based on a pro-rated share amount for a new director whose term began on January 1, 2010. The deferred stock will be distributed to the grantee at a time designated by the grantee at the date of grant. Compensation expense is recorded on this deferred stock over the one year minimum vesting period. During the first and second quarter of fiscal 2010 a total of 28,380 shares were exercised for deferred shares issued under the fiscal 2009 grant.

The deferred stock activity for the forty weeks ended October 9, 2010 is set forth below (amounts in thousands, except price data):

	Shares	Weighted Average Grant Price	Weighted Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value
Outstanding at January 2, 2010	130	\$ 21.90		
Deferred stock issued	64	\$ 23.11		
Deferred stock exercised	(34)	\$ 20.57		
Outstanding at October 9, 2010	160	\$ 22.66	0.36	\$ 4,072

The following table summarizes the company's stock based compensation expense (income) for the twelve and forty week periods ended October 9, 2010 and October 10, 2009, respectively (amounts in thousands):

	FOR THE TWELVE WEEKS ENDED		FOR THE FORTY WEEKS ENDED	
	OCTOBER 9, 2010	OCTOBER 10, 2009	OCTOBER 9, 2010	OCTOBER 10, 2009
Stock options	\$ 1,447	\$ 1,205	\$ 5,401	\$ 3,866
Performance-contingent restricted stock	955	1,243	3,624	4,117
Stock appreciation rights	200	407	308	173
Deferred stock	258	311	1,010	1,051
Total stock based compensation	\$ 2,860	\$ 3,166	\$ 10,343	\$ 9,207

12. POST-RETIREMENT PLANS

The following summarizes the company's balance sheet related pension and other postretirement benefit plan accounts at October 9, 2010 as compared to accounts at January 2, 2010 (amounts in thousands):

AS OF	
OCTOBER 9,	JANUARY 2,

	2010	2010
Noncurrent benefit asset	\$	\$
Current benefit liability	\$ 841	\$ 841
Noncurrent benefit liability	\$66,515	\$ 68,140
Accumulated other comprehensive loss	\$51,821	\$ 52,808

Defined Benefit Plans

The company has trustee, noncontributory defined benefit pension plans covering certain employees. The benefits are based on years of service and the employees' career earnings. The plans are funded at amounts deductible for income tax purposes but not less than the minimum funding required by the Employee Retirement Income Security Act of 1974 (ERISA). As of October 9, 2010, the assets of the plans included certificates of deposit, marketable equity securities, mutual funds, corporate and government debt securities, private and public real estate partnerships, other diversifying investments (e.g. absolute return strategy funds and hedged equity funds) and annuity contracts. Effective January 1, 2006, the company

Table of Contents

curtailed the defined benefit plan that covered the majority of its workforce. Benefits under this plan were frozen, and no future benefits will accrue under this plan. The company continues to maintain a plan that covers a small number of union employees. During the forty weeks ended October 9, 2010 the company contributed \$0.8 million to company pension plans.

The net periodic pension cost (income) for the company's plans include the following components (amounts in thousands):

	FOR THE TWELVE WEEKS ENDED		FOR THE FORTY WEEKS ENDED	
	OCTOBER 9, 2010	OCTOBER 10, 2009	OCTOBER 9, 2010	OCTOBER 10, 2009
	Service cost	\$ 89	\$ 72	\$ 298
Interest cost	4,308	4,309	14,359	14,359
Expected return on plan assets	(4,769)	(4,370)	(15,895)	(14,565)
Amortization of net loss	503	629	1,675	2,098
Total net periodic benefit cost	\$ 131	\$ 640	\$ 437	\$ 2,132

The company also has several smaller defined benefit plans associated with recent acquisitions that will be merged into the Flowers Foods defined benefit plans after receipt of final determination letters. The benefits under these plans were frozen with no future benefit accruals.

Post-retirement Benefit Plan

The company provides certain medical and life insurance benefits for eligible retired employees. The medical plan covers eligible retirees under the active medical plans. The plan incorporates an up-front deductible, coinsurance payments and retiree contributions at various premium levels. Eligibility and maximum period of coverage is based on age and length of service.

The net periodic postretirement benefit cost for the company includes the following components (amounts in thousands):

	FOR THE TWELVE WEEKS ENDED		FOR THE FORTY WEEKS ENDED	
	OCTOBER 9, 2010	OCTOBER 10, 2009	OCTOBER 9, 2010	OCTOBER 10, 2009
	Service cost	\$ 146	\$ 198	\$ 486
Interest cost	202	257	673	856
Amortization of prior service (credit) cost	(40)	77	(134)	256
Amortization of net (gain) loss	(14)	8	(45)	26
Total net periodic benefit cost	\$ 294	\$ 540	\$ 980	\$ 1,800

401(k) Retirement Savings Plan

The Flowers Foods 401(k) Retirement Savings Plan (the Plan) covers substantially all of the company's employees who have completed certain service requirements. The cost and contributions for those employees who also participate in the defined benefit pension plan is 25% of the first \$400 contributed by the employee. Prior to January 1, 2006, the costs and contributions for employees who do not participate in the defined benefit pension plan was 2% of compensation and 50% of the employees' contributions, up to 6% of compensation. Effective January 1, 2006, the costs and contributions for employees who do not participate in the defined benefit pension plan increased to 3% of compensation and 50% of the employees' contributions, up to 6% of compensation. During the twelve weeks

ended October 9, 2010 and October 10, 2009, the total cost and contributions were \$4.0 million and \$3.3 million, respectively. During the forty weeks ended October 9, 2010 and October 10, 2009, the total cost and contributions were \$13.4 million and \$12.0 million, respectively.

The company also has several smaller 401(k) Plans associated with recent acquisitions that will be merged into the Flowers Foods 401(k) Retirement Savings Plan after receipt of final determination letters.

13. INCOME TAXES

The company's effective tax rate for the twelve and forty weeks ended October 9, 2010 was 34.9% and 35.3% respectively. This rate is lower than the fiscal 2009 annual effective tax rate of 35.6% which included the benefit of favorable discrete items and the non-taxable earnings of the previously consolidated variable interest entity. The company's current effective rate is favorably impacted by the increase in the Section 199 production activities deduction. The difference in the effective rate and the statutory rate is primarily due to state income taxes, and the Section 199 qualifying production activities deduction.

Table of Contents

During the twelve and forty weeks ended October 9, 2010, the company's activity with respect to its uncertain tax positions and the related interest expense accrual was immaterial. At this time, we do not anticipate significant changes to the amount of gross unrecognized tax benefits over the next twelve months.

14. SEGMENT REPORTING

The DSD segment produces fresh and frozen packaged bread and rolls and the warehouse delivery segment produces frozen bread and rolls and fresh and frozen snack products. The company evaluates each segment's performance based on income or loss before interest and income taxes, excluding unallocated expenses and charges which the company's management deems to be an overall corporate cost or a cost not reflective of the segments' core operating businesses. Information regarding the operations in these reportable segments is as follows (amounts in thousands):

	FOR THE TWELVE WEEKS ENDED		FOR THE FORTY WEEKS ENDED	
	OCTOBER 9, 2010	OCTOBER 10, 2009	OCTOBER 9, 2010	OCTOBER 10, 2009

15. SUBSEQUENT EVENTS

The company has evaluated subsequent events since October 9, 2010, the date of these financial statements. There were no events or transactions discovered during this evaluation that require recognition or disclosure in the financial statements.

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following discussion of the financial condition and results of operations of the company as of and for the twelve and forty week periods ended October 9, 2010 should be read in conjunction with the company's Annual Report on Form 10-K for the fiscal year ended January 2, 2010.

OVERVIEW:

Flowers Foods is one of the nation's leading producers and marketers of packaged bakery foods for retail and foodservice customers. The company produces breads, buns, rolls, tortillas, snack cakes and pastries that are distributed fresh to U.S. customers in the Southeast, Mid-Atlantic, and Southwest as well as select markets in California and Nevada and frozen to customers nationwide. Our businesses are organized into two reportable segments: direct-store-delivery (DSD) and warehouse delivery. The DSD segment focuses on the production and marketing of bakery products to U.S. customers in the Southeast, Mid-Atlantic, and Southwest as well as select markets in California and Nevada. The warehouse delivery segment produces snack cakes for sale to co-pack, retail and vending customers nationwide as well as frozen bread, rolls, buns and tortillas for sale to retail and foodservice customers nationwide primarily through warehouse distribution.

We aim to achieve consistent and sustainable growth in sales and earnings by focusing on improvement in the operating results of our existing businesses and, after detailed analysis, acquiring businesses and properties that add value to the company. We believe this consistent and sustainable growth will build value for our shareholders.

Sales are principally affected by pricing, quality, branded recognition, new product introductions and product line extensions, marketing and service. The company manages these factors to achieve a sales mix favoring its higher-margin branded products, while using store branded products to absorb overhead costs and maximize use of production capacity. Throughout 2010, our sales have been negatively impacted by the competitive landscape and higher promotional activity within the baking industry. Sales for the quarter ended October 9, 2010 decreased 0.8% from the quarter ended October 10, 2009. This decrease was primarily due to negative pricing and mix shifts of 2.4% and the effect of the variable interest entity (VIE) deconsolidation, which negatively impacted sales by 0.6%. Acquisitions contributed 0.8% and volume increased 1.4%, partially offsetting these decreases. For the forty weeks ended October 9, 2010 sales decreased 1.2% from the same period of fiscal 2009. The decrease was primarily due to negative pricing and mix shifts of 2.7% and the effect of the VIE deconsolidation which negatively impacted sales 0.4%. These decreases were partially offset by acquisition sales and volume increases of 1.2% and 0.7%, respectively.

Commodities, such as our baking ingredients, periodically experience price fluctuations, and, for that reason, we continually monitor the market for these commodities. The cost of these inputs may fluctuate widely due to government policy and regulation, weather conditions, domestic and international demand or other unforeseen circumstances. We enter into forward purchase agreements and derivative financial instruments to reduce the impact of such volatility in raw materials prices. Any decrease in the availability of these agreements and instruments could increase the price of these raw materials and significantly affect our earnings.

For the twelve weeks ended October 9, 2010, diluted net income per share was \$0.34 as compared to \$0.34 per share for the twelve weeks ended October 10, 2009. For the twelve weeks ended October 9, 2010, net income attributable to Flowers Foods, Inc. was \$31.2 million, a 2.4% decrease from the \$31.9 million reported for the twelve weeks ended October 10, 2009.

For the forty weeks ended October 9, 2010, diluted net income per share was \$1.14 as compared to \$1.07 per share for the forty weeks ended October 10, 2009, a 6.5% increase. For the forty weeks ended October 9, 2010, net income attributable to Flowers Foods, Inc. was \$105.6 million, a 6.0% increase over \$99.6 million reported for the forty weeks ended October 10, 2009.

CRITICAL ACCOUNTING POLICIES:

Our financial statements are prepared in accordance with generally accepted accounting principles (GAAP). These principles are numerous and complex. Our significant accounting policies are summarized in the company's Annual Report on Form 10-K for the fiscal year ended January 2, 2010. In many instances, the application of GAAP requires management to make estimates or to apply subjective principles to particular facts and circumstances. A variance in the estimates used or a variance in the application or interpretation of GAAP could yield a materially different

accounting result. Please see our Form 10-K for the fiscal year ended January

Table of Contents

2, 2010, for a discussion of the areas where we believe that the estimates, judgments or interpretations that we have made, if different, could yield the most significant differences in our financial statements. The following discussion provides the significant changes to our critical accounting policies from those disclosed in our Form 10-K filed for the year ended January 2, 2010.

Variable Interest Entities. In 2009, the Financial Accounting Standards Board (FASB) amended the consolidation principles associated with VIE. The new accounting principles resulted in a change in our accounting policy effective January 3, 2010. The new qualitative approach, generally, replaced the quantitative-based risks and rewards calculation for determining which enterprise, if any, has a controlling financial interest in the VIE. The qualitative approach is focused on identifying which company has both the power to direct the activities of a VIE that most significantly impact the entity's economic performance and the obligation to absorb losses of the entity or the right to receive benefits from the entity. As a result of this qualitative analysis, the company is no longer required to consolidate the VIE that delivers a significant portion of its fresh bakery products from the company's production facilities to outlying distribution centers under a transportation agreement. The company has elected to prospectively deconsolidate the VIE. Please see Note 8, *Variable Interest Entity*, of Notes to Condensed Consolidated Financial Statements of this Form 10-Q for additional disclosure.

RESULTS OF OPERATIONS:

Results of operations, expressed as a percentage of sales and the dollar and percentage change from period to period, for the twelve week periods ended October 9, 2010 and October 10, 2009, are set forth below (dollars in thousands):

	For the twelve weeks ended				Increase (Decrease)

Pricing/Mix	(2.4)%
Volume	1.4%
VIE deconsolidation	(0.6)%
Acquisitions	0.8%
Total Percentage Change in Sales	(0.8)%

Sales category discussion

Branded retail sales declined primarily due to volume decreases. Volume declines in branded multi-pak cake and branded white bread were partially offset by increases in branded soft variety and branded sandwich rounds. The increase in store branded retail was largely due to volume increases in store branded cake as some of the companies customers introduced store branded cake programs earlier in this fiscal year. The decrease in non-retail and other sales was due to the deconsolidation of the VIE and declines in food service and contract manufacturing, partially offset by the 2009 acquisition contribution.

Percentage Point Change in Sales Attributed to:	Favorable (Unfavorable)
Pricing/Mix	2.2%
Volume	0.2%
Acquisition	4.1%
Total Percentage Change in Sales	6.5%

Sales category discussion

The decrease in branded retail sales was primarily the result of lower branded multi-pak cake volume as a result of store branded cake programs introduced earlier in the year by some of the company's customers, which resulted in the increase in store branded retail sales. The increase in non-retail and other sales, which include contract production and vending, was primarily due to an acquisition. The acquisition was cycled at the end of the third quarter of fiscal 2010.

Materials, Supplies, Labor and Other Production Costs (exclusive of depreciation and amortization shown separately). The decrease as a percent of sales was primarily due to significant decreases in ingredient costs, partially offset by lower sales and higher packaging and workforce-related costs as a percent of sales. In addition, an acquisition during the fourth quarter of fiscal 2009 has higher costs as a percent of sales. Start-up costs for new production lines at several of our manufacturing facilities also contributed to the increase in workforce-related costs.

The DSD segment decrease as a percent of sales was primarily the result of decreases in ingredient costs. These were partially offset by sales declines and higher workforce-related and packaging costs as a percent of sales.

The warehouse delivery segment increase as a percent of sales was primarily the result of higher workforce-related costs, as well as, higher packaging and ingredient costs as a percent of sales. Ingredient costs were the result of higher cocoa and sugar costs, partially offset by lower flour costs as a percent of sales. Start-up costs for new production lines at several of our manufacturing facilities also contributed to the increases in workforce-related costs.

Selling, Distribution and Administrative Expenses. The increase as a percent of sales was due to lower sales and higher workforce-related and distribution costs as a percent of sales. These were partially offset by lower costs from

the acquisition as a percent of sales.

The DSD segment's selling, distribution and administrative expenses increased as a percent of sales primarily due to lower sales and higher workforce-related, distribution and rent expenses as a percent of sales.

Table of Contents

The warehouse delivery segment's selling, distribution and administrative expenses decreased as a percent of sales primarily due to lower advertising costs as a percent of sales.

Depreciation and Amortization. Depreciation and amortization increased primarily due to increased depreciation expense related to assets placed in service subsequent to the third quarter of fiscal 2009 and the 2009 acquisition.

The DSD segment's depreciation and amortization expense increase was due to assets placed in service subsequent to the third quarter of fiscal 2009. The warehouse delivery segment's depreciation and amortization expense increase was due to the acquisitions.

Income from Operations. The decrease in the DSD segment income from operations was primarily attributable to lower sales and higher workforce-related costs, partially offset by lower ingredient costs. The decrease in the warehouse delivery segment income from operations was primarily a result of higher workforce-related costs. The decrease in unallocated corporate expenses was primarily due to lower pension and postretirement plan costs.

Net Interest Income. The increase was related to lower interest expense due to lower debt outstanding under the credit facility and the term loan used for acquisitions during fiscal 2008. The credit facility and term loan had outstanding borrowings of \$84.6 million and \$135.0 million, respectively, at October 10, 2009 and \$9.5 million and \$120.0 million, respectively at October 9, 2010.

Income Taxes. The effective tax rate for the third quarter of fiscal 2010 was 34.9% compared to 35.5% in the third quarter of the prior year. The decrease in the rate is due mainly to the increase in the Section 199 qualifying production activities deduction in the current quarter compared to the prior year quarter. The difference in the effective rate and the statutory rate is primarily due to state income taxes, and the Section 199 qualifying production activities deduction.

Net Income Attributable to Noncontrolling Interest. The company maintains a transportation agreement with an entity that transports a significant portion of the company's fresh bakery products from the company's production facilities to outlying distribution centers. The company represents a significant portion of the entity's revenue. This entity qualified as a VIE for reporting periods prior to January 3, 2010 under previous accounting guidance and all the earnings of the VIE were eliminated through noncontrolling interest because the company did not have an equity ownership interest in the VIE. In 2009, the FASB amended the consolidation principles associated with VIE accounting by replacing the quantitative-based risks and rewards calculation for determining which enterprise, if any, has a controlling financial interest in the VIE with a qualitative approach. The qualitative approach is focused on identifying which company has both the power to direct the activities of a VIE that most significantly impact the entity's economic performance and the obligation to absorb losses of the entity or the right to receive benefits from the entity. As a result of this qualitative analysis, the company is no longer required to consolidate the VIE beginning on January 3, 2010 at adoption. Please see Note 8, *Variable Interest Entity*, of this Form 10-Q for additional disclosure.

FORTY WEEKS ENDED OCTOBER 9, 2010 COMPARED TO FORTY WEEKS ENDED OCTOBER 10, 2009

Consolidated Sales.

Sales category	For the Forty Weeks Ended October 9, 2010		For the Forty Weeks Ended October 10, 2009		%(Decrease)

Percentage Point Change in Sales Attributed to:	Favorable (Unfavorable)
Pricing/Mix	(2.7)%
Volume	0.7%
VIE deconsolidation	(0.4)%
Acquisitions	1.2%
Total Percentage Change in Sales	(1.2)%

Sales category discussion

Branded retail sales declined due to pricing/mix and volume decreases. Declines in branded multi-pak cake and branded white bread were partially offset by increases in branded soft variety and branded sandwich rounds introduced early in this fiscal year. Competitive pricing and heavy promotional activity continued to impact the category. The increase in store branded retail was primarily due to volume increases in store branded cake as some of the company's customers introduced store branded cake programs earlier in this fiscal year. Decreases in store branded white bread and store branded variety bread partially offset the increase. The decrease in non-retail and other sales was due to declines in food service and the deconsolidation of the VIE, partially offset by contributions from the 2009 acquisitions.

The 7.9% increase in sales was attributable to the following for all sales categories:

Percentage Point Change in Sales Attributed to:	Favorable (Unfavorable)
Pricing/Mix	(0.3)%
Volume	1.1%
Acquisition	7.1%
 Total Percentage Change in Sales	 7.9%

Sales category discussion

The decrease in branded retail sales was primarily the result of lower multi-pak cake volume as a result of store branded cake programs introduced earlier in the year by some of the company's customers, which resulted in the increase in store branded retail sales. The increase in non-retail and other sales, which include contract production and vending, was due primarily to the acquisitions. The acquisitions were cycled at the end of the third quarter of fiscal 2010.

Materials, Supplies, Labor and Other Production Costs (exclusive of depreciation and amortization shown separately). The decrease as a percent of sales was primarily due to significant decreases in ingredient costs. These were partially offset by sales declines and higher workforce-related costs as a percent of sales and higher costs as a percent of sales for the companies acquired in 2009.

The DSD segment decrease as a percent of sales was primarily a result of significant decreases in ingredient costs. These were partially offset by sales declines and higher workforce-related costs as a percent of sales.

The warehouse delivery segment increase as a percent of sales was primarily as a result of higher workforce-related and ingredients costs as a percent of sales. The higher ingredient costs are partially due to the acquisitions.

Selling, Distribution and Administrative Expenses. The increase as a percent of sales was due to lower sales and higher workforce-related, distribution, and advertising costs as a percent of sales, partially offset by lower costs for the companies acquired in 2009.

The DSD segment's selling, distribution and administrative expenses increased as a percent of sales primarily due to lower sales and higher workforce-related, advertising and distribution expenses as a percent of sales.

The warehouse delivery segment's selling, distribution and administrative expenses decreased as a percent of sales primarily due to lower distribution costs as a percent of sales.

Gain on Acquisition. On May 15, 2009, the company acquired substantially all the assets of a bakery mix operation in Cedar Rapids, Iowa. Based on the purchase price allocation, the fair value of the identifiable assets acquired and liabilities assumed exceeded the fair value of the consideration paid. As a result, we recognized a gain of \$3.0 million, which is included in the line item "Gain on acquisition" to derive income from operations in the condensed consolidated statement of income for the forty weeks ended October 10, 2009. The gain on acquisition resulted due to the seller's strategic intent to exit a non-core business operation. This acquisition is recorded in the warehouse delivery segment.

Depreciation and Amortization. Depreciation and amortization increased primarily due to assets placed into service after the third quarter of fiscal 2009 and, to a lesser extent, the acquisitions.

The DSD segment's depreciation and amortization expense increased primarily due to assets placed into service subsequent to the third quarter of fiscal 2009. The warehouse delivery segment's depreciation and amortization expense increased primarily as a result of the 2009 acquisitions.

Income from Operations. The increase in the DSD segment income from operations was attributable to significantly lower ingredient costs, partially offset by sales declines. The decrease in the warehouse delivery segment income from operations was primarily a result of the gain on acquisition recorded in 2009 discussed above. The decrease in unallocated corporate expenses was primarily due to lower pension and postretirement plan costs.

Table of Contents

Net Interest Income. The increase was related to lower interest expense due to lower debt outstanding under the credit facility and term loan used for the acquisitions during fiscal 2008.

Income Taxes. The effective tax rate for the forty weeks ended October 9, 2010 was 35.3% compared to 36.2% for the forty weeks ended October 10, 2009. The decrease in the rate is due mainly to the increase in the Section 199 qualifying production activities deduction in the current period compared to the prior year period. The difference in the effective rate and the statutory rate is primarily due to state income taxes, and the Section 199 qualifying production activities deduction.

Net Income Attributable to Noncontrolling Interest. The company maintains a transportation agreement with an entity that transports a significant portion of the company's fresh bakery products from the company's production facilities to outlying distribution centers. The company represents a significant portion of the entity's revenue. This entity qualified as a VIE for reporting periods prior to January 3, 2010 under previous accounting guidance and all the earnings of the VIE were eliminated through noncontrolling interest because the company did not have an equity ownership interest in the VIE. In 2009, the FASB amended the consolidation principles associated with VIE accounting by replacing the quantitative-based risks and rewards calculation for determining which enterprise, if any, has a controlling financial interest in the VIE with a qualitative approach. The qualitative approach is focused on identifying which company has both the power to direct the activities of a VIE that most significantly impact the entity's economic performance and the obligation to absorb losses of the entity or the right to receive benefits from the entity. As a result of this qualitative analysis, the company is no longer required to consolidate the VIE beginning on January 3, 2010 at adoption. Please see Note 8, *Variable Interest Entity*, of this Form 10-Q for additional disclosure.

LIQUIDITY AND CAPITAL RESOURCES:

Liquidity represents our ability to generate sufficient cash flows from operating activities to meet our obligations and commitments as well as our ability to obtain appropriate financing and convert into cash those assets that are no longer required to meet existing strategic and financing objectives. Therefore, liquidity cannot be considered separately from capital resources that consist primarily of current and potentially available funds for use in achieving long-range business objectives. Currently, the company's liquidity needs arise primarily from working capital requirements and capital expenditures. The company's strategy for use of its cash flow also includes paying dividends to shareholders, making acquisitions, growing internally and repurchasing shares of its common stock when appropriate. The company has generated the cash flow necessary for these purposes primarily from operations during fiscal 2009 and currently in fiscal 2010. Additional liquidity is available from our credit facility, discussed below, for working capital and general corporate purposes.

Cash Flows

Flowers Foods' cash and cash equivalents decreased to \$7.1 million at October 9, 2010 from \$18.9 million at January 2, 2010. The decrease resulted from \$228.8 million provided by operating activities, offset by \$79.7 million and \$160.9 million disbursed for investing activities and financing activities, respectively. Included in cash and cash equivalents at January 2, 2010 was \$8.8 million related to the company's VIE which was not available for use by the company. The company deconsolidated the VIE on January 3, 2010 as discussed in Note 8, *Variable Interest Entity*, of this Form 10-Q.

Cash Flows Provided by Operating Activities. Net cash of \$228.8 million provided by operating activities during the forty weeks ended October 9, 2010 consisted primarily of \$105.6 million in net income, adjusted for the following non-cash items (amounts in thousands):

Depreciation and amortization	\$ 65,436
Non cash effect of derivative activity	22,589
Stock-based compensation	10,343
Deferred income taxes	(2,637)
Provision for inventory obsolescence	967
Allowances for accounts receivable	1,093
Pension and postretirement plans expense	1,417
Other	(89)

Total

\$ 99,119

31

Table of Contents

Cash provided by working capital and other activities was \$24.1 million. As of October 9, 2010, the company had \$4.2 million recorded in other current liabilities representing collateral for hedged positions. As of January 2, 2010, the company had \$7.0 million recorded in other current assets representing collateral for hedged positions.

Cash Flows Disbursed for Investing Activities. Net cash disbursed for investing activities during the forty weeks ended October 9, 2010 of \$79.7 million consisted primarily of capital expenditures of \$74.2 million. Capital expenditures in the DSD segment and the warehouse delivery segment were \$49.8 million and \$20.7 million, respectively. The company estimates capital expenditures of approximately \$95.0 million to \$100.0 million during fiscal 2010. The company also leases certain production machinery and equipment through various operating leases.

Cash Flows Disbursed for Financing Activities. Net cash disbursed for financing activities of \$160.9 million during the forty weeks ended October 9, 2010 consisted primarily of dividends paid of \$52.7 million, stock repurchases of \$22.8 million, and net debt repayments of \$95.3 million, partially offset by proceeds of \$7.6 million from the exercise of stock options and the related share-based payments income tax benefit of \$1.0 million.

Credit Facility and Term Loan

Credit Facility. The company has a five-year, \$250.0 million unsecured revolving loan facility (the credit facility) that expires October 5, 2012. Proceeds from the credit facility may be used for working capital and general corporate purposes, including acquisition financing, refinancing of indebtedness and share repurchases. The credit facility includes certain customary restrictions, which, among other things, require maintenance of financial covenants and limit encumbrance of assets and creation of indebtedness. Restrictive financial covenants include such ratios as a minimum interest coverage ratio and a maximum leverage ratio. The company believes that, given its current cash position, its cash flow from operating activities and its available credit capacity, it can comply with the current terms of the credit facility and can meet presently foreseeable financial requirements. As of October 9, 2010 and January 2, 2010, the company was in compliance with all restrictive financial covenants under its credit facility.

Interest is due quarterly in arrears on any outstanding borrowings at a customary Eurodollar rate or the base rate plus the applicable margin. The underlying rate is defined as the rate offered in the interbank Eurodollar market or the higher of the prime lending rate or federal funds rate plus 0.5%. The applicable margin ranges from 0.00% to 0.30% for base rate loans and from 0.40% to 1.275% for Eurodollar loans. In addition, a facility fee ranging from 0.10% to 0.35% is due quarterly on all commitments under the credit facility. Both the interest margin and the facility fee are based on the company's leverage ratio. There were \$9.5 million and \$89.0 million in outstanding borrowings under the credit facility at October 9, 2010 and January 2, 2010, respectively.

Amounts outstanding under the credit facility vary daily. Changes in the gross borrowings and repayments can be caused by cash flow activity from operations, capital expenditures, acquisitions, dividends, share repurchases, tax payments, as well as derivative transactions which are part of the company's overall risk management strategy as discussed in Note 6, Derivative Financial Instruments, of this Form 10-Q. For the forty weeks ended October 9, 2010, the company borrowed \$409.0 million in revolving borrowings under the credit facility and repaid \$488.5 million in revolving borrowings. On October 9, 2010, the company had \$235.7 million available under the credit facility for working capital and general corporate purposes.

Term Loan. On August 1, 2008, the company entered into a credit agreement (term loan) with various lending parties for the purpose of completing acquisitions. The term loan provides for an amortizing \$150.0 million of borrowings through the maturity date of August 4, 2013. Principal payments are due quarterly under the term loan beginning on December 31, 2008 at an annual amortization of 10% of the principal balance for each of the first two years, 15% during the third year, 20% during the fourth year, and 45% during the fifth year. The term loan includes certain customary restrictions, which, among other things, require maintenance of financial covenants and limit encumbrance of assets and creation of indebtedness. Restrictive financial covenants include such ratios as a minimum interest coverage ratio and a maximum leverage ratio. The company believes that, given its current cash position, its cash flow from operating activities and its available credit capacity, it can comply with the current terms of the term loan and can meet presently foreseeable financial requirements. As of October 9, 2010 and January 2, 2010, the company was in compliance with all restrictive financial covenants under the term loan. As of October 9, 2010 and January 2, 2010, the amounts outstanding under the term loan were \$120.0 million and \$131.3 million, respectively.

Interest is due quarterly in arrears on outstanding borrowings at a customary Eurodollar rate or the base rate plus the applicable margin. The underlying rate is defined as the rate offered in the interbank Eurodollar market or the higher of the prime lending rate or federal funds rate plus 0.5%. The applicable margin ranges from 0.0% to 1.375% for base rate loans and from 0.875% to 2.375% for

Table of Contents

Eurodollar loans and is based on the company's leverage ratio. The company paid financing costs of \$0.8 million in connection with the term loan, which is being amortized over the life of the term loan.

Currently, the company's credit ratings by Fitch Ratings, Moody's, and Standard & Poor's are BBB, Baa2, and BBB-, respectively. Changes in the company's credit ratings do not trigger a change in the company's available borrowings or costs under the credit facility or term loan, but could affect future credit availability.

Uses of Cash

On February 16, 2010, the Board of Directors declared a dividend of \$0.175 per share on the company's common stock that was paid on March 16, 2010 to shareholders of record on March 2, 2010. This dividend payment was \$16.0 million. On June 4, 2010, the Board of Directors declared a dividend of \$0.20 per share on the company's common stock that was paid on July 2, 2010 to shareholders of record on June 18, 2010. This dividend payment was \$18.3 million. On August 24, 2010, the Board of Directors declared a dividend of \$0.20 per share on the company's common stock that was paid on September 21, 2010 to shareholders of record on September 7, 2010. This dividend payment was \$18.4 million.

Our Board of Directors has approved a plan that authorizes share repurchases of up to 30.0 million shares of the company's common stock. Under the plan, the company may repurchase its common stock in open market or privately negotiated transactions at such times and at such prices as determined to be in the company's best interest. These purchases may be commenced or suspended without prior notice depending on then-existing business or market conditions and other factors. During the first quarter of fiscal 2010, 87,271 shares, at a cost of \$2.1 million of the company's common stock were purchased under the plan. No repurchases were made by the company during the second quarter of fiscal 2010. During the third quarter of fiscal 2010, 822,200 shares, at a cost of \$20.6 million of the company's common stock were purchased under the plan. From the inception of the plan through October 9, 2010, 23.6 million shares, at a cost of \$387.8 million, have been purchased.

During the first quarter of fiscal 2010, the company paid \$16.2 million in performance-based cash awards under the company's bonus plan.

During fiscal 2010, the company paid \$0.8 million as contributions to company sponsored pension plans. It is expected an additional \$0.1 million will be contributed in the fourth quarter of fiscal 2010; however, the company may decide to make additional discretionary contributions.

In addition, during the first quarter of fiscal 2011, the company may be required to make a contingent consideration payment of up to \$5.0 million for an acquisition that occurred during fiscal 2008 if the company's stock price does not trade over a target price for ten consecutive trading days during the two year period that began on February 11, 2009. Any potential contingent payment made will affect the company's equity and not goodwill.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The company uses derivative financial instruments as part of an overall strategy to manage market risk. The company uses forward, futures, swap and option contracts to hedge existing or future exposure to changes in interest rates and commodity prices. The company does not enter into these derivative financial instruments for trading or speculative purposes. If actual market conditions are less favorable than those anticipated, raw material prices could increase significantly, adversely affecting the margins from the sale of our products.

COMMODITY PRICE RISK

The company enters into commodity forward, futures and option contracts and swap agreements for wheat and, to a lesser extent, other commodities in an effort to provide a predictable and consistent commodity price and thereby reduce the impact of market volatility in its raw material and packaging prices. As of October 9, 2010, the company's hedge portfolio contained commodity derivatives with a net fair value of \$24.5 million. Of this net fair value, \$23.4 million is based on quoted market prices and \$1.1 million is based on models and other valuation methods. Approximately \$3.6 million, \$21.2 million and \$(0.3) million of this net fair value relates to instruments that will be utilized in fiscal 2010, 2011 and 2012, respectively.

Table of Contents

A sensitivity analysis has been prepared to quantify the company's potential exposure to commodity price risk with respect to the derivative portfolio. Based on the company's derivative portfolio as of October 9, 2010, a hypothetical ten percent increase (decrease) in commodity prices would increase (decrease) the net fair value of the derivative portfolio by \$19.2 million. The analysis disregards changes in the exposures inherent in the underlying hedged items; however, the company expects that any increase (decrease) in the net fair value of the portfolio would be substantially offset by increases (decreases) in raw material and packaging prices.

INTEREST RATE RISK

The company has interest rate swaps with initial notional amounts of \$85.0 million, and \$65.0 million, respectively, to fix the interest rate on the \$150.0 million term loan entered into on August 1, 2008 to fund the acquisitions of ButterKrust and Holsum. As of October 9, 2010, the net fair value of these interest rate swaps was \$(8.1) million. All of this net fair value is based on valuation models and \$(1.0) million, \$(3.9) million, \$(2.6) million and \$(0.6) million of this net fair value is related to instruments expiring in 2010 through 2013, respectively.

A sensitivity analysis has been prepared to quantify the company's potential exposure to interest rate risk with respect to the interest rate swaps. As of October 9, 2010, a hypothetical ten percent increase (decrease) in interest rates would increase (decrease) the net fair value of the interest rate swap by \$0.1 million. The analysis disregards changes in the exposures inherent in the underlying debt; however, the company expects that any increase (decrease) in payments under the interest rate swap would be substantially offset by increases (decreases) in interest expense.

ITEM 4. CONTROLS AND PROCEDURES**Management's Evaluation of Disclosure Controls and Procedures**

We have established and maintain a system of disclosure controls and procedures that is designed to ensure that material information relating to the company, which is required to be timely disclosed by us in reports that we file or submit under the Securities Exchange Act of 1934, as amended (the Exchange Act), is accumulated and communicated to management in a timely fashion and is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms. An evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) was performed as of the end of the period covered by this quarterly report. This evaluation was performed under the supervision and with the participation of management, including our Chief Executive Officer (CEO), Chief Financial Officer (CFO) and Chief Accounting Officer (CAO). Based upon that evaluation, our CEO, CFO and CAO have concluded that these disclosure controls and procedures were effective as of the end of the period covered by this quarterly report.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during our fiscal quarter ended October 9, 2010 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION**ITEM 1. LEGAL PROCEEDINGS**

The company and its subsidiaries from time to time are parties to, or targets of, lawsuits, claims, investigations and proceedings, which are being handled and defended in the ordinary course of business. While the company is unable to predict the outcome of these matters, it believes, based upon currently available facts, that it is remote that the ultimate resolution of any such pending matters will have a material adverse effect on its overall financial condition, results of operations or cash flows in the future. However, adverse developments could negatively impact earnings in a particular future fiscal period.

On July 23, 2008, a wholly-owned subsidiary of the company filed a lawsuit against Hostess in the United States District Court for the Northern District of Georgia. The complaint alleges that Hostess is infringing upon Flowers *Nature's Own* trademarks by using or intending to use the *Nature's Pride* trademark. Flowers asserts that Hostess sale or intended sale of baked goods under the *Nature's Pride* trademark is likely to cause confusion with, and likely to dilute the distinctiveness of, the *Nature's Own* mark and constitutes unfair competition and deceptive trade practices. Flowers is seeking actual damages, an accounting of Hostess' profits from its sales of

Table of Contents

Nature s Pride products, and injunctive relief. Flowers sought summary judgment for its claims, which was denied by the court. Unless our motion for reconsideration is granted and changes that ruling, we expect this case to proceed to trial in 2011.

The company's facilities are subject to various federal, state and local laws and regulations regarding the discharge of material into the environment and the protection of the environment in other ways. The company is not a party to any material proceedings arising under these regulations. The company believes that compliance with existing environmental laws and regulations will not materially affect the consolidated financial condition or the competitive position of the company. The company is currently in substantial compliance with all material environmental regulations affecting the company and its properties.

ITEM 1A. RISK FACTORS

Please refer to Part I, Item 1A., *Risk Factors*, in the company's Form 10-K for the year ended January 2, 2010 for information regarding factors that could affect the company's results of operations, financial condition and liquidity. There have been no changes to our risk factors during the first three quarters of fiscal 2010.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Our Board of Directors has approved a plan that authorizes share repurchases of up to 30.0 million shares of the company's common stock. Under the plan, the company may repurchase its common stock in open market or privately negotiated transactions at such times and at such prices as determined to be in the company's best interest. These purchases may be commenced or suspended without prior notice depending on then-existing business or market conditions and other factors. The following chart sets forth the amounts of our common stock purchased by the company during the third quarter of fiscal 2010 under the stock repurchase plan.

Period	Total Number of Shares Purchased	Weighted Average Price Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plan or Programs
(Amounts in thousands, except price data)				
July 18, 2010 – August 14, 2010		\$		7,262
August 15, 2010 – September 11, 2010	130	\$ 25.72	130	7,132
September 12, 2010 – October 9, 2010	692	\$ 25.00	692	6,440
Total	822	\$ 25.11	822
