ITEM 2.06 Material Impairments

On December 15, 2010, Praxair, Inc. (the Company) issued a press release announcing a decision to sell the U.S. homecare portion of its North American healthcare business which is expected to result in an earnings charge of approximately \$40 million, representing an adjustment to estimated fair value.

ITEM 8.01 Other Events

Praxair also announced on December 15, 2010 that it will take a charge to its earnings in the fourth quarter. The charge is expected to reduce fourth quarter and full-year 2010 net income and earnings per share by approximately \$290 million, and 93 cents, respectively. Excluding the charge, the company reaffirms its previous fourth-quarter diluted EPS earnings per share guidance of \$1.18 to \$1.23 on an adjusted basis*, and its ongoing effective tax rate of about 28%.

The charge is primarily the result of a decision to settle various income tax disputes with the Spanish Government which is expected to result in a charge to earnings of approximately \$250 million and cash payments of approximately \$500 million. Additionally, as referenced in Item 2.06 above, the Company intends to sell the U.S. homecare portion of its North American healthcare business which is expected to result in an earnings charge of approximately \$40 million, representing an adjustment to estimated fair value.

* *Adjusted diluted EPS guidance is a non-GAAP measure that excludes the impact of the charges described above. The adjusted diluted EPS is a measure used by investors, financial analysts and management to help evaluate on-going historical and future business trends on a consistent basis. Definitions of non-GAAP measures may not be comparable to similar definitions used by other companies and are not a substitute for similar GAAP measures. Following is a calculation of the fourth quarter adjusted diluted EPS guidance:*

	<i>Low End</i>	<i>High End</i>
<i>Expected fourth quarter 2010 diluted EPS</i>	<i>\$ 0.25</i>	<i>\$ 0.30</i>
<i>Add: Spain settlement and other charges</i>	<i>0.93</i>	<i>0.93</i>
<i>Adjusted diluted EPS Guidance</i>	<i>\$ 1.18</i>	<i>\$ 1.23</i>
