We collected \$5.7 million of this amount in July 2011 and expect to collect an additional \$11.7 million in the third quarter of 2011.

**Definitive Merger Agreement with Continucare Corporation:**

On June 27, 2011, the Company announced that it entered into a definitive merger agreement providing for the merger of Continucare Corporation (NYSE: CNU) with and into a wholly-owned subsidiary of the Company in a cash and stock transaction valued at approximately \$416 million at the time of the announcement. The merger is subject to the satisfaction of the closing conditions contained in the merger agreement. The transaction will create a company that is expected to provide care to over 68,000 Medicare Advantage, Medicaid, and commercial customers, operating in 18 Florida counties, including the Daytona, Miami, Ft. Lauderdale, West Palm Beach, and Tampa metropolitan areas. The combined company will initially own 31 primary care medical practices, and utilize a network of more than 450 contracted, independent primary care practices. In addition to Humana, the combined companies will have Medicare Advantage risk and non-risk contracts with other providers as well as contracts with Medicaid providers.

---

Under the terms of the merger agreement, each outstanding share of Continucare common stock will receive \$6.25 per share in cash, and 0.0414 of a share of Metropolitan common stock, which, based upon the share price at the time of announcement, is equal to approximately \$0.20. The exact value of the consideration per share will depend on Metropolitan's share price at closing. Metropolitan expects to issue up to approximately 2.7 million shares in connection with the pending transaction. The merger agreement also provides for the vesting and cancellation of all Continucare stock options and payment of \$6.45 in cash per outstanding option, less the exercise price of the option. Continucare's shareholders are scheduled to vote on the proposed merger on August 22, 2011. If the merger agreement is approved by the Continucare shareholders, the Company expects to complete the merger as soon as possible after the satisfaction of the other conditions to the merger.

**Share Repurchase Program:**

The Company's Board of Directors has previously authorized the repurchase of up to 25 million shares of common stock. From the inception of the program through June 30, 2011, the Company has repurchased 14.0 million shares of its common stock as well as options exercisable to purchase 684,200 shares of its common stock at an average cost of \$1.93 per share. The Company purchased approximately 71,000 shares of common stock under the program during the second quarter of 2011. Approximately 10.3 million shares remain available for purchase under the plan. The number of shares to be repurchased and the timing of the purchases will be influenced by a number of factors, including the then prevailing market price of the common stock of the Company, other perceived opportunities that may become available to the Company, and regulatory requirements. The Company has suspended repurchases under the stock repurchase program while the shareholders of Continucare are considering whether or not to vote in favor of the pending merger.

**Third Quarter 2011 Updates:**

In July 2011, Metropolitan announced that it was expanding operations into Florida's panhandle, specifically in Escambia and Santa Rosa counties, beginning in January 2012. The Company's wholly-owned subsidiary, MetCare of Florida, Inc., will support, on an exclusive basis, Humana's Medicare Advantage ( MA ) HMO products in this demographically attractive market.

Also, MetCare gained 425 new Humana MA customers in its existing markets in the third quarter of 2011. These additional customers were previously cared for by other Humana risk providers.

***The prospects for our business and our industry as a whole remain very bright... states Michael Earley.***

During the second quarter of 2011, we continued to deliver solid financial and operational performance. We are on pace for what we expect will be another excellent year for Metropolitan, commented, Michael Earley, Chairman and CEO of Metropolitan Health Networks, Inc. The highlight for the quarter, of course, was our announcement of the Continucare acquisition. Continucare brings a number of assets and capabilities to the company, including a deep and talented team experienced in delivering and managing high quality care to both Medicare Advantage and Medicaid members. Our increased scale and resource base are expected to provide us additional opportunities to expand our business in our existing markets, in other Florida counties, and potentially beyond Florida.

---

***A fundamental change in health care thinking has occurred...***

Continuing, Earley noted, A fundamental change in health care thinking has occurred as our nation has debated reform during the last three years. As embodied in the landmark Affordable Care Act, accountable care is now being recognized as the necessary replacement of the traditional fee-for-service payment model. With accountable care comes a variety of concepts including payments for bundled services, also known as capitation, management and coordination of care, as well as risk. Both MetCare and Continucare, with patient-centric, primary care-focused business models, have operated effectively and profitably as at-risk providers for the full range of benefits to our customers for many years. In the simplest of terms, we believe that managed care is back and represents the future. As a result, we believe we are very well positioned to grow and prosper in the future.
