**Table of Contents**

**AMERISTAR CASINOS, INC. AND SUBSIDIARIES**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**Note 1 Principles of consolidation and basis of presentation**

The accompanying condensed consolidated financial statements include the accounts of Ameristar Casinos, Inc. ( ACI ) and its wholly owned subsidiaries (collectively, the Company ). Through its subsidiaries, the Company owns and operates eight casino properties in seven markets. The Company s portfolio of casinos consists of: Ameristar St. Charles (serving greater St. Louis, Missouri); Ameristar Kansas City (serving the Kansas City, Missouri metropolitan area); Ameristar Council Bluffs (serving Omaha, Nebraska and southwestern Iowa); Ameristar Vicksburg (serving Jackson, Mississippi and Monroe, Louisiana); Ameristar Black Hawk (serving the Denver, Colorado metropolitan area); Cactus Petes and The Horseshu in Jackpot, Nevada (serving Idaho and the Pacific Northwest); and Resorts East Chicago (serving the Chicagoland area). The Company views each property as an operating segment and all such operating segments have been aggregated into one reporting segment. All significant intercompany transactions have been eliminated.

The Company acquired Resorts East Chicago on September 18, 2007. Accordingly, the condensed consolidated financial statements reflect Resorts East Chicago s operating results only from the acquisition date.

The accompanying condensed consolidated financial statements have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, the condensed consolidated financial statements do not include all of the disclosures required by generally accepted accounting principles. However, they do contain all adjustments (consisting of normal recurring adjustments) that, in the opinion of management, are necessary to present fairly the Company s financial position, results of operations and cash flows for the interim periods included therein. The interim results reflected in these financial statements are not necessarily indicative of results to be expected for the full fiscal year.

Certain of the Company s accounting policies require that the Company apply significant judgment in defining the appropriate assumptions for calculating financial estimates. By their nature, these judgments are subject to an inherent degree of uncertainty. The Company s judgments are based in part on its historical experience, terms of existing contracts, observance of trends in the gaming industry and information obtained from independent valuation experts or other outside sources. There is no assurance, however, that actual results will conform to estimates. To provide an understanding of the methodology the Company applies, significant accounting policies and basis of presentation are discussed where appropriate in Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations of this Quarterly Report. In addition, critical accounting policies and estimates are discussed in Item 7. Management s Discussion and Analysis of Financial Condition and Results of Operations and the notes to the Company s audited consolidated financial statements included in its Annual Report on Form 10-K for the year ended December 31, 2006.

The accompanying condensed consolidated financial statements should be read in conjunction with the financial statements and notes thereto included in the Company s Annual Report on Form 10-K for the year ended December 31, 2006.

**Table of Contents****Note 2 Recently issued accounting pronouncements**

In September 2006, the Financial Accounting Standards Board ( FASB ) issued Statement of Financial Accounting Standards ( SFAS ) No. 157, Fair Value Measurements, which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. SFAS No. 157 clarifies how to measure fair value as permitted under other accounting pronouncements, but does not require any new fair value measurements. The Company is required to adopt SFAS No. 157 as of January 1, 2008. For some entities, the application of this statement will change current practice. The adoption of SFAS No. 157 is not expected to have a material impact on the Company's financial position, results of operations or cash flows.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value, with unrealized gains and losses related to these financial instruments reported in earnings at each subsequent reporting date. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. The adoption of SFAS No. 159 is not expected to have a material impact on the Company's financial position, results of operations or cash flows.

**Note 3 Earnings per share**

The Company calculates earnings per share in accordance with SFAS No. 128, Earnings Per Share. Basic earnings per share are computed by dividing reported earnings by the weighted average number of common shares outstanding during the period. Diluted earnings per share reflect the additional dilution from all potentially dilutive securities such as stock options. For the periods presented, all outstanding options with an exercise price lower than the market price have been included in the calculation of diluted earnings per share.

The weighted average number of shares of common stock and common stock equivalents used in the computation of basic and diluted earnings per share consisted of the following:

	Three Months		Nine Months	
	Ended September 30,	Ended September 30,	Ended September 30,	Ended September 30,
	2007	2006	2007	2006
	(Amounts in Thousands)			
Weighted average number of shares outstanding - basic earnings per share	57,206	56,090	57,043	56,131
Dilutive effect of stock options	1,087	1,094	1,260	1,046
Weighted average number of shares outstanding - diluted earnings per share	58,293	57,184	58,303	57,177

The potentially dilutive stock options excluded from the earnings per share computation, as their effect would be anti-dilutive, totaled 1.4 million and 2.8 million for the three months ended September 30, 2007 and 2006, respectively, and 1.3 million and 1.5 million for the nine months ended September 30, 2007 and 2006, respectively.

**Note 4 Income taxes**

The Company adopted FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes ( FIN 48 ), on January 1, 2007. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement No. 109, Accounting for Income Taxes. FIN 48 also prescribes a recognition threshold and measurement standard for the financial statement recognition and measurement of an income tax position taken or expected to be taken in a tax return. Only tax positions that meet the more-likely-than-not recognition threshold at the effective date may be recognized or continue to be recognized upon adoption. In addition, FIN 48 provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. Upon the adoption of FIN 48, the Company recorded a reduction of \$2.7 million to the

January 1, 2007 retained earnings balance as a cumulative effect adjustment.

**Table of Contents**

The total amount of unrecognized tax benefits as of September 30, 2007 was \$30.8 million, of which \$3.8 million would affect the effective tax rate if recognized. The gross increase in the amount of unrecognized tax benefits during the nine months ended September 30, 2007 was \$9.1 million, including: \$3.3 million relating to the derecognition of certain state income tax benefits in prior periods; \$4.9 million associated with the treatment of certain capital expenditures in prior periods that if recognized would not change the effective tax rate; \$0.5 million relating to the derecognition of certain state income tax benefits in the current period and \$0.4 million associated with the treatment of certain capital expenditures in the current period that if recognized would not change the effective tax rate. The gross decrease in the amount of unrecognized tax benefits during the nine months ended September 30, 2007 was \$1.2 million. This decrease was mostly attributable to the recognition of tax benefits from tax positions taken in a prior period due to the completion of examination by taxing authorities.

Interest and penalties related to income taxes are classified as income tax expense in the Company's financial statements. Accrued interest and penalties totaled \$3.6 million as of September 30, 2007.

In 2005, the IRS completed an examination of the Company's federal income tax returns for all years prior to 2002. The Company believes tax years prior to 2002 are effectively settled. However, the Company's federal income tax returns remain open to examination for the tax years 2002 through 2006. The open tax years for Missouri are 2001 through 2006. For Iowa and Mississippi, the open tax years are 2003 through 2006. For Colorado, the open tax years are 2004 through 2006.

**Note 5 Long-term debt**

On November 10, 2005, the Company obtained a \$1.2 billion senior secured credit facility that provided for a seven-year, \$400.0 million term loan facility and a five-year, \$800.0 million revolving loan facility. The revolving loan facility includes a \$75.0 million letter of credit sub-facility and a \$25.0 million swingline loan sub-facility.

On September 6, 2007, the Company amended its senior credit facility to increase the total amount of permitted incremental loan commitments from \$400.0 million to \$600.0 million. The amendment also increased the maximum permitted leverage ratio and senior leverage ratio (both as defined in the senior credit facility) for fiscal quarters ending on and after September 30, 2007; raised the interest rate add-on for the Company's term loan by 50 basis points; and permitted the Company to acquire Resorts East Chicago for an amount (including related transaction costs and expenses) not to exceed \$700.0 million, without reducing the amount the Company could spend for other permitted acquisitions. The Company paid one-time cash amendment fees totaling approximately \$3.1 million. The incremental loans are subject to the same interest rates and terms of payment as the existing revolving loans. On September 18, 2007, the Company borrowed \$660.0 million of revolving loans to fund the acquisition of Resorts East Chicago.

At September 30, 2007, the Company's principal debt outstanding primarily consisted of \$1.2 billion under the revolving loan facility and \$393.0 million under the term loan facility. As of September 30, 2007, the amount of the revolving loan facility available for borrowing was \$187.7 million, after giving effect to \$5.3 million of outstanding letters of credit. All mandatory principal repayments have been made through September 30, 2007.

As a result of the amendment described above, the borrowing under the term loan facility now bears interest at the London Interbank Offered Rate ( LIBOR ) plus 200 basis points or the base rate plus 100 basis points, at the Company's option. Borrowings under the revolving loan facility currently bear interest at LIBOR plus 100 basis points or the base rate plus 0 basis points. The LIBOR margin is subject to adjustment between 75 and 175 basis points and the base rate margin is subject to adjustment between 0 and 75 basis points, in each case depending on the Company's leverage ratio.

The agreement governing the senior credit facility requires the Company to comply with various affirmative and negative financial and other covenants, including restrictions on the incurrence of additional indebtedness, restrictions on dividend payments and other restrictions and requirements to maintain certain financial ratios and tests. As of September 30, 2007, the Company was required to maintain a leverage ratio, defined as consolidated debt divided by EBITDA, of no more than 6.25:1, and maintain a senior leverage ratio, defined as senior debt divided by EBITDA, of no more than 5.25:1. As of September 30, 2007 and December 31, 2006, the Company's leverage ratio

**Table of Contents**

was 4.72:1 and 3.33:1, respectively. The senior leverage ratio as of September 30, 2007 and December 31, 2006 was 4.71:1 and 3.32:1, respectively. As of September 30, 2007 and December 31, 2006, the Company was in compliance with all other applicable covenants.

On February 15, 2006, the Company redeemed all \$380.0 million outstanding principal amount of its 10.75% senior subordinated notes due 2009 at a redemption price of 105.375% of the principal amount, plus \$20.4 million in accrued and unpaid interest to the redemption date. The redemption of the notes was funded through borrowings under the revolving loan facility. The retirement of the notes resulted in a one-time charge for loss on early retirement of debt in the first quarter of 2006 of approximately \$26.3 million on a pre-tax basis.

In connection with obtaining the senior credit facility on November 10, 2005, each of ACI's subsidiaries (the Guarantors) entered into a guaranty (the Guaranty) pursuant to which the Guarantors guaranteed ACI's obligations under the senior credit facility. The obligations of ACI under the senior credit facility, and of the Guarantors under the Guaranty, are secured by substantially all of the assets of ACI and the Guarantors.

**Note 6 Stock-based compensation**

The Company has various stock incentive plans for directors, officers, employees, consultants and advisers of the Company. The plans permit the grant of options to purchase common stock intended to qualify as incentive stock options or non-qualified stock options and also provide for the award of restricted stock. The maximum number of shares available for issuance under the plans is 16.0 million (net of options that terminate or are canceled without being exercised), subject to certain limitations. The Compensation Committee of the Board of Directors administers the plans and has broad discretion to establish the terms of stock awards, including, without limitation, the power to set the term (up to 10 years), vesting schedule and exercise price of stock options.

Stock-based compensation expense totaled \$3.3 million and \$2.5 million for the three months ended September 30, 2007 and 2006, respectively. During the first nine months of 2007 and 2006, stock-based compensation expense was \$9.0 million and \$6.7 million, respectively. As of September 30, 2007, there was approximately \$22.1 million of total unrecognized compensation cost related to nonvested share-based compensation arrangements granted under the stock incentive plans. This unrecognized compensation cost is expected to be recognized over a weighted-average period of 3.2 years.

**Table of Contents**

The following table sets forth fair value per share information, including related assumptions, used to determine compensation cost for the Company. There were no stock options granted during the quarter ended September 30, 2007. Accordingly, no fair value per share information is presented for that period.

	Three Months Ended		Nine Months Ended	
	September 30, 2007	2006	September 30, 2007	2006
<b>Weighted-average fair value per share of options granted during the period (estimated on grant date using Black-Scholes-Merton option pricing model)</b>	\$	\$6.88	\$10.30	\$6.95

**Weighted-average assumptions:**

Expected stock price volatility	39.0%	36.3%	39.2%
Risk-free interest rate	4.8%	4.8%	4.8%
Expected option life (years)	4.2	4.0	4.1
Expected annual dividend yield	1.8%	1.3%	1.8%

The following table summarizes information about stock option activity for the nine months ended September 30, 2007:

	Options (Amounts in Thousands)	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value (Amounts in Thousands)
Outstanding at December 31, 2006	6,233	\$20.44		
Granted	195	32.49		
Exercised	(969)	17.39		
Forfeited or expired	(188)	22.73		
Outstanding at September 30, 2007	5,271	\$21.37	5.4	\$ 112,627
Options exercisable at September 30, 2007	1,601	\$15.24	5.0	\$ 24,394

The aggregate intrinsic value in the table above represents the total pre-tax intrinsic value that would have been realized by the option holders had all option holders exercised their options on September 30, 2007. The intrinsic value of a stock option is the difference between the Company's closing stock price on September 28, 2007 and the exercise price, multiplied by the number of in-the-money options. The total intrinsic value of options exercised during the nine months ended September 30, 2007 and 2006 was \$15.0 million and \$5.5 million, respectively.

**Note 7 Stock Repurchases**

On July 24, 2006, the Company's Board of Directors approved the repurchase of up to 2.8 million shares of the Company's Common Stock, representing approximately 5% of its issued and outstanding Common Stock, in a stock repurchase program. The shares may be repurchased from time to time during the three-year period ending July 24, 2009 in open market transactions or privately negotiated transactions at the Company's discretion, subject to market conditions and other factors. During the quarter ended September 30, 2007, the Company repurchased 0.4 million shares at an average price of \$25.65 per share. For the three months ended September 30, 2006, the Company

Edgar Filing: - Form

repurchased 0.4 million shares at an average price of \$19.49 per share. As of September 30, 2007, a total of 0.8 million shares have been repurchased at an aggregate cost of \$17.7 million, an average of \$22.43 per share.

**Table of Contents****Note 8 Acquisition of Resorts East Chicago**

On September 18, 2007, the Company acquired all of the outstanding membership interests of RIH Acquisitions IN, LLC, an Indiana limited liability company ( RIH ), from Resorts International Holdings, LLC. RIH owns and operates the Resorts East Chicago casino and hotel in East Chicago, Indiana. Pursuant to the Purchase Agreement dated as of April 3, 2007, as subsequently amended, the purchase price is subject to a post-closing working capital adjustment as provided in the Purchase Agreement.

The Company paid \$671.4 million, net of cash acquired, for RIH. The Company financed the purchase of RIH by borrowing additional revolving loans under its senior credit facility as further described in Note 5. The Company incurred approximately \$4.7 million in acquisition costs that were included in the purchase price and \$3.7 million in capitalized debt issuance costs, which will be amortized as interest expense over the remaining term of the revolving credit facility.

The acquisition was treated as a purchase transaction. Accordingly, the purchase price was allocated to the underlying assets acquired and liabilities assumed based upon their estimated fair values at the date of acquisition. The final allocation of the purchase price will be completed within one year from the date of acquisition. The Company obtained a third-party valuation of the assets acquired and liabilities assumed, and preliminarily assigned the following values based upon the Company's review of the third-party valuation:

	September 18, 2007 (Amounts in Thousands)
Current assets, including \$8,272 of cash acquired	\$ 17,544
Property and equipment	177,270
Goodwill	270,947
Gaming license and other intangible assets	224,330
Assumed liabilities	(10,400)
Net assets acquired	\$ 679,691

The amount allocated to intangible assets includes the recognition of a customer list with an estimated value of \$0.4 million and an estimated useful life of five years and a trade name with an estimated value of \$1.2 million and an estimated useful life of six months. Goodwill and the gaming license, which has an indefinite life, are not amortized.

The pro forma consolidated results of operations, as if the acquisition of Resorts East Chicago had occurred on January 1, 2006, are as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2007	2006	2007	2006
	(Amounts in Thousands, Except Per Share Data)			
Pro Forma				
Net revenues	\$329,446	\$325,016	\$990,303	\$979,342
Operating income	\$ 56,486	\$ 58,962	\$176,790	\$162,975
Net income	\$ 20,205	\$ 20,996	\$ 62,862	\$ 38,399
Basic earnings per common share	\$ 0.35	\$ 0.37	\$ 1.10	\$ 0.68
Diluted earnings per common share	\$ 0.35	\$ 0.37	\$ 1.08	\$ 0.67

**Table of Contents**

**Note 9 Commitments and contingencies**

*Litigation.* From time to time, the Company is a party to litigation, most of which arises in the ordinary course of business. The Company is not currently a party to any litigation that management believes would be likely to have a material adverse effect on the financial position, results of operations or cash flows of the Company.

*Self-Insurance Reserves.* The Company is self-insured for various levels of general liability, workers' compensation and employee medical coverage. Insurance claims and reserves include accruals of estimated settlements for known claims, as well as accrued estimates of incurred but not reported claims. At September 30, 2007 and December 31, 2006, the estimated liabilities for unpaid and incurred but not reported claims totaled \$11.3 million and \$10.4 million, respectively. The Company utilizes actuaries who consider historical loss experience and certain unusual claims in estimating these liabilities, based upon statistical data provided by the independent third party administrators of the various programs. The Company believes the use of this method to account for these liabilities provides a consistent and effective way to measure these highly judgmental accruals; however, changes in health care costs, accident or illness frequency and severity and other factors can materially affect the estimates for these liabilities.

*Guarantees.* In December 2000, the Company assumed several agreements with the Missouri 210 Highway Transportation Development District ( "Development District" ) that had been entered into in order to assist the Development District in the financing of a highway improvement project in the area around the Ameristar Kansas City property prior to the Company's purchase of that property. In order to pay for the highway improvement project, the Development District issued revenue bonds totaling \$9.0 million with scheduled maturities from 2006 through 2011.

The Company has provided an irrevocable standby letter of credit from a bank in support of obligations of the Development District for certain principal and interest on the revenue bonds. The amount outstanding under this letter of credit was \$2.6 million as of September 30, 2007. The Company is obligated to pay any shortfall in the event that amounts on deposit are insufficient to cover the obligations under the bonds, as well as any costs incurred by the Development District that are not payable from the taxed revenues used to satisfy the bondholders. Through September 30, 2007, the Company had paid \$2.3 million in shortfalls and other costs. As required by the agreements, the Company anticipates that it will be reimbursed for these shortfall payments by the Development District from future available cash flow, as defined, and has recorded a corresponding receivable as of September 30, 2007.

**Table of Contents**

*Commitments.* During 2005, a transportation development district ( TDD ) and a community improvement district were organized by the Company in St. Charles, Missouri to acquire land and develop and construct improvements to Riverbluff Drive, which is the roadway providing primary access to Ameristar St. Charles. The approximate estimated cost of the project is \$17 million and is being funded by proceeds of \$3.9 million from tax-exempt bonds issued by the TDD and advances to the TDD by the Company, which will be repaid through an additional 2 percent sales tax on non-gaming revenues at Ameristar St. Charles over a period of 30 years. The tax period can be extended up to 10 additional years if necessary to fully reimburse Ameristar for the project costs advanced. The bonds mature annually on April 1 during the period from 2006 to 2025.

The Company is not a guarantor of the obligations of the TDD as they relate to the bonds. At September 30, 2007, the Company is owed \$9.7 million by the TDD for reimbursable project costs. The costs include land purchases, legal and other professional fees, certain construction costs and relocation costs.

**Table of Contents**

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

**Overview**

We develop, own and operate casinos and related hotel, food and beverage, entertainment and other facilities, with eight properties in operation in Missouri, Iowa, Mississippi, Colorado, Nevada and Indiana. Our portfolio of casinos consists of: Ameristar St. Charles (serving greater St. Louis, Missouri); Ameristar Kansas City (serving the Kansas City, Missouri metropolitan area); Ameristar Council Bluffs (serving Omaha, Nebraska and southwestern Iowa); Ameristar Vicksburg (serving Jackson, Mississippi and Monroe, Louisiana); Ameristar Black Hawk (serving the Denver, Colorado metropolitan area); Cactus Petes and The Horseshu in Jackpot, Nevada (serving Idaho and the Pacific Northwest); and Resorts East Chicago (serving the Chicagoland area).

We acquired Resorts East Chicago on September 18, 2007, and its operating results are included only from the acquisition date.

Our financial results are dependent upon the number of patrons that we attract to our properties and the amounts those patrons spend per visit. Management uses various metrics to evaluate these factors. Key metrics include:

Slots handle / Table games drop      measurements of gaming volume;

Win / Hold      percentages      the percentage of handle or drop that is won by the casino and recorded as casino revenue;

Hotel occupancy rate      the average percentage of available hotel rooms occupied during a period;

Average daily room rate      average price of occupied hotel rooms per day;

REVPAR      revenue per available room is a summary measure of hotel results that combines average daily room rate and hotel occupancy rate;

Market share      share of gross gaming revenues in each of our markets other than Jackpot and our share of gaming devices in the Jackpot market (Nevada does not publish separate gaming revenue statistics for this market);

Fair share percentage      a percentage of gross gaming revenues based on the number of gaming positions relative to the total gaming positions in the market;

Admissions      the number of patrons who enter our casinos in jurisdictions that record admissions; and

Win per admission      the amount of gaming revenues generated per admission.

Our operating results may be affected by, among other things, competitive factors, gaming tax increases, the commencement of new gaming operations, charges associated with debt refinancing or property acquisition and disposition transactions, construction at existing facilities, general public sentiment regarding travel, overall economic conditions affecting the disposable income of our patrons and weather conditions affecting our properties.

Consequently, our operating results for any quarter or year are not necessarily comparable and may not be indicative of future periods' results.

The following significant factors and trends should be considered in analyzing our operating performance:

**Table of Contents**

*Ameristar Black Hawk.* For the sixth consecutive quarter, Ameristar Black Hawk experienced significant growth in business volume and strong financial results following its rebranding in April 2006. Our initial investment to upgrade the property's casino and restaurants, along with our focus on guest service and high quality food and gaming experiences, are key drivers of our continued success at Black Hawk. The property's operating income increased \$1.0 million and the related margin improved 2.9 percentage points over the prior-year third quarter. Our Black Hawk property's market share has increased by 43.9% since the rebranding, improving from an 11.3% market share to a 16.2% market share. Upon their completion scheduled for the second half of 2009, the hotel and spa currently under construction will further position the property as an Ameristar-class facility that offers resort destination amenities and services that we believe are unprecedented in the Denver gaming market.

*Ameristar Kansas City.* During the third quarter of 2007, a combination of effective marketing and the ability to execute on an efficient operating model contributed to our Kansas City property achieving 14.8% operating income growth on a 1.8% increase in net revenues. For the three months and nine months ended September 30, 2007, Ameristar Kansas City's operating income margin increased 2.4 percentage points over the same prior-year periods.

*Ameristar Council Bluffs.* During the third quarter of 2007, our Council Bluffs property reported a 3.4% decline in net revenues and a 5.6% decrease in operating income compared to the 2006 third quarter. The current quarter's financial results were adversely impacted by softening in the Council Bluffs gaming market, which experienced a 3.2% contraction from the prior-year third quarter. The Council Bluffs gaming market shrunk for the second consecutive quarter. The Council Bluffs gaming market shrunk for the second consecutive quarter.

*Ameristar Vicksburg.* At Ameristar Vicksburg, business volumes remained higher relative to pre-Hurricane Katrina periods (2005). However, third quarter 2007 net revenues declined 2.8% and operating income was 5.9% lower than the same period in 2006, mostly as a result of construction-related disruption and, to a lesser extent, the recapture of business by re-opened Gulf Coast casinos.

*Acquisition of Resorts East Chicago.* On September 18, 2007, we completed the acquisition of Resorts East Chicago, a casino-hotel located in northwest Indiana, serving the Chicagoland area. This acquisition has allowed us to enter the third largest commercial gaming market in the United States, and we believe it will create cash flow diversification and enhance our distribution channels. Following the acquisition, we began making initial improvements to the property, including changing the slot machine mix and layout of games and making enhancements to the food and beverage venues. We currently expect that capital expenditures for these upgrades to the property will be in the range of \$20 million to \$25 million. One-time expenses in connection with the integration, enhancement and rebranding are expected to total between \$5 million and \$7 million, inclusive of the \$0.3 million incurred in the 2007 third quarter. We are beginning to redirect the property's marketing and promotional activities to maximize Resorts East Chicago's revenue and profitability, replicating the strategies that have proven successful at Ameristar's other properties. Upon completion of the property upgrades and the implementation of our operating and marketing programs, we anticipate launching the Ameristar brand in the Chicagoland market no later than the third quarter of 2008. The property's competitiveness in this market is expected to progressively increase as the implementation of our operational and marketing approaches and the facility upgrades are completed. Separately, we are also developing preliminary plans for a major expansion of the facility to significantly enlarge and improve the gaming area, enhance access to the casino, provide additional structured parking and upgrade the non-gaming amenities. The timing and scope of such project will depend on various factors, including legislative developments related to the possible expansion of casino gaming in Illinois.

Edgar Filing: - Form

*Capital Investments in Properties.* As discussed under Liquidity and Capital Resources, we currently have major capital improvement projects in progress at our St. Charles, Vicksburg and Black Hawk properties. Additionally, we expect to commence a major capital improvement project at our Council Bluffs property. Upon completion, each of these projects is expected to improve the competitiveness,

-14-

---

**Table of Contents**

revenues and operating cash flow of these respective properties. During construction, the operating performance of these properties may be subject to varying adverse impacts from construction disruption.

**Results of Operations**

The following table sets forth certain information concerning our consolidated cash flows and the results of operations of our properties:

**Net Revenues**

Consolidated net revenues for the quarter ended September 30, 2007 increased \$11.8 million, or 4.7%, over the third quarter of 2006. The increase in consolidated net revenues was primarily attributable to Resorts East Chicago, which contributed \$9.2 million following its acquisition on September 18, 2007. Additionally, consolidated net revenues benefited from third quarter increases over the prior-year third quarter of 11.1% at the Jackpot properties, 8.0% at Ameristar Black Hawk and 1.8% at Ameristar Kansas City. Third quarter 2007 slot revenues increased \$1.9 million at the Jackpot properties and our Black Hawk property continued to benefit from its rebranding. During the third quarter of 2007, net revenues at the Council Bluffs and Vicksburg properties declined 3.4% and 2.8%, respectively, from the same period in 2006. Our Vicksburg property's net revenues were adversely impacted by ongoing construction disruption and, to a lesser extent, by restored Gulf Coast gaming capacity. In Council Bluffs, our net revenues declined mostly as a result of softening gaming market conditions.

For the nine months ended September 30, 2007, consolidated net revenues grew by \$21.5 million, or 2.8%, from the corresponding 2006 period. A 19.0% increase in net revenues at Ameristar Black Hawk was slightly offset by decreases in net revenues at our Vicksburg (2.6%) and Council Bluffs (1.8%) properties. In addition to the rebranding, the Black Hawk property benefited from reduced construction disruption following the completion of the initial phase of our expansion activities in the first quarter of 2006. Our Jackpot properties increased net revenues by 8.5% over the same nine-month period in 2006, mostly due to improved slot performance.

**Operating Income**

In the third quarter of 2007, consolidated operating income was flat compared to the third quarter of 2006. A 0.9 percentage point decrease in consolidated operating income margin from the prior-year third quarter was mostly attributable to the acquisition of Resorts East Chicago. During the third quarter of 2007, operating income increased at

our properties in Black Hawk (26.3%), Jackpot (15.2%), Kansas City (14.8%) and St. Charles (4.3%) over the corresponding 2006 period. The growth in operating

-16-

---

**Table of Contents**

income at these properties was offset by a 19.4% increase in corporate expense and declines in operating income at our Vicksburg (5.9%) and Council Bluffs (5.6%) properties, as compared to the 2006 third quarter.

We continue to implement our effective and efficient targeted marketing programs at all our properties. As a result, at our Missouri properties, operating income growth exceeded net revenue growth during the 2007 third quarter. Operating income decreases at our Vicksburg and Council Bluffs properties were mostly attributable to reduced revenues in markets that have experienced recent contraction. For the quarter ended September 30, 2007, the increase in corporate expense over the corresponding prior-year period was mostly attributable to acquisition-related integration costs, higher stock-based compensation expense and an increase in other benefit-related costs.

Consolidated operating income for the nine months ended September 30, 2007 increased \$9.7 million (7.5%) over the first nine months of 2006. Year to date, all properties (excluding the recently acquired East Chicago property) have increased operating income over the same nine-month period in 2006. The improved operating income was mostly driven by increases of 154.3% at Ameristar Black Hawk and 13.4% at Ameristar Kansas City, for the reasons mentioned above.

Year to date, corporate expense increased \$7.2 million, or 17.1%, compared to the first nine months of 2006, due mostly to higher stock-based compensation expense, professional fees, costs related to our deferred compensation plan and East Chicago integration expenses.

**Interest Expense**

The following table summarizes information related to interest on our long-term debt:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2007	2006	2007	2006
	(Dollars in Thousands)			
Interest cost	\$ 17,819	\$ 14,579	\$ 48,398	\$ 43,413
Less: Capitalized interest	(5,370)	(2,206)	(13,484)	(5,273)
Interest expense, net	\$ 12,449	\$ 12,373	\$ 34,914	\$ 38,140
Cash paid for interest, net of amounts capitalized	\$ 8,435	\$ 11,636	\$ 30,684	\$ 49,332
Weighted-average total debt balance outstanding	\$ 1,016,035	\$ 845,707	\$ 935,239	\$ 829,321
Weighted-average interest rate	6.9%	6.7%	6.8%	6.9%

For the quarter ended September 30, 2007, consolidated interest expense, net of amounts capitalized, was relatively unchanged from the 2006 third quarter. An increase in capitalized interest was offset by an increase in the average interest rate and a higher weighted-average total debt outstanding.

Year to date, consolidated interest expense, net of amounts capitalized, decreased \$3.2 million (8.5%) from the first nine months of 2006. The decrease mostly resulted from higher capitalized interest in 2007 and the February 2006 redemption of our senior subordinated notes with borrowings under our new credit facility at substantially lower interest rates. The interest savings were partially offset by an increase from 2006 of \$105.9 million in the weighted-average total debt outstanding.

**Table of Contents**

We expect our net interest expense to increase for the foreseeable future due to a higher debt balance and larger interest rate add-ons resulting from our financing of the East Chicago acquisition. Additionally, as we continue to progress on our major construction projects, we expect that our debt will increase further. When we place those assets in service over the next two years, we will no longer capitalize the interest on the associated debt, which will also cause our net interest expense to rise.

***Income Taxes***

Our effective income tax rate was 40.3% for the quarter ended September 30, 2007, compared to 39.1% for the same period in 2006. For the nine months ended September 30, 2007 and 2006, the effective income tax rate was 41.6% and 38.0%, respectively. The federal income tax statutory rate was 35% in all periods presented. The increase in our third quarter effective tax rate is primarily due to the state income tax impact from the acquisition of Resorts East Chicago. Year to date, the increase in the effective tax rate is mostly attributable to an adjustment of \$2.3 million recorded in the second quarter of 2007 that resulted in the derecognition of certain state income tax benefits in accordance with FIN 48.

***Net Income***

For the three months ended September 30, 2007, consolidated net income decreased \$1.1 million, or 5.3%, from the third quarter of 2006. Diluted earnings per share were \$0.34 in the quarter ended September 30, 2007, compared to \$0.37 in the corresponding prior-year quarter. Year-to-date 2007 net income increased \$19.5 million, or 46.6%, from the nine-month period ended September 30, 2006. Diluted earnings per share were \$1.05 for the first nine months of 2007, compared to \$0.73 in the corresponding 2006 period. The \$2.3 million adjustment to our state income tax expense adversely impacted diluted earnings per share by \$0.04 for the nine months ended September 30, 2007. For the nine months ended September 30, 2006, we incurred a charge relating to the loss on redemption of our senior subordinated notes of approximately \$26.3 million that adversely impacted diluted earnings per share by \$0.30.

**Table of Contents****Liquidity and Capital Resources*****Cash Flows Summary***

Our cash flows consisted of the following:

	Nine Months Ended September 30,	
	2007	2006
	(In Thousands)	
<b>Net cash provided by operating activities</b>	\$ 171,864	\$ 138,408
<b>Cash flows from investing activities:</b>		
Net cash paid for Resorts East Chicago acquisition	(671,420)	
Capital expenditures	(196,218)	(173,117)
Increase in construction contracts payable	8,492	11,594
Proceeds from sale of assets	281	321
Increase in deposits and other non-current assets	(9,844)	(5,185)
<b>Net cash used in investing activities</b>	(868,709)	(166,387)
<b>Cash flows from financing activities:</b>		
Proceeds from revolving loan facility	737,000	460,000
Principal payments of long-term debt	(18,337)	(383,396)
Premium on early redemption of senior subordinated notes		(20,425)
Cash dividends paid	(17,539)	(15,784)
Proceeds from stock option exercises	16,915	2,603
Purchases of treasury stock	(9,660)	(8,014)
Excess tax benefit from stock option exercises	4,432	1,751
Debt issuance costs	(3,666)	(153)
<b>Net cash provided by financing activities</b>	709,145	36,582
<b>Net increase in cash and cash equivalents</b>	\$ 12,300	\$ 8,603

Our business is primarily conducted on a cash basis. Accordingly, operating cash flows tend to follow trends in our operating income. The increase in operating cash flows from 2006 to 2007 was mostly attributable to the improvement in consolidated operating income and a reduction in debt interest payments.

**Table of Contents**

Capital expenditures during the first nine months of 2007 and 2006 were primarily related to our expansion at Ameristar St. Charles, Ameristar Black Hawk capital improvement projects, our expansion at Ameristar Vicksburg and the acquisition of slot machines. The following table summarizes our capital spending activity for the nine months ended September 30, 2007 and 2006 and our construction in progress as of September 30, 2007:

Capital Expenditures by Project	Nine Months Ended September 30, 2007	Nine Months Ended September 30, 2006	Construction in Progress at September 30, 2007
	(In Thousands)		
St. Charles expansion	\$ 103,048	\$ 60,528	\$ 208,703
Black Hawk expansion	21,233	36,934	50,373
Vicksburg expansion	13,754	19,326	46,307
Other construction projects	17,768	20,564	37,448
Total construction projects	\$ 155,803	\$ 137,352	\$ 342,831
Capitalized interest	13,484	5,273	
Slot machines	8,076	25,628	
Other fixed asset purchases	18,855	4,864	630
Total capital expenditures	\$ 196,218	\$ 173,117	\$ 343,461

Our major development project at Ameristar St. Charles was originally scheduled for a December 2007 completion and opening. However, recent delays have been encountered on the project, which we are addressing through negotiations with our general contractor. Work is continuing on the project, which includes a 25-story, 400-room all-suite hotel with an indoor/outdoor swimming pool and a 7,000 square-foot, full-service spa. Management is focused on resolving the outstanding issues facing the project and is seeking to open the hotel, pool and spa as soon as possible without material impacts on the budget or schedule.

Additionally, construction work continues on the roadway project to improve the primary access to Ameristar St. Charles. When completed, which is anticipated to be in December 2007, the new boulevard will greatly reduce long-standing access constraints to the property by accommodating more traffic at peak periods, as well as upgrading the aesthetics of the approach to the property, including improved lighting and landscaping. While construction disruption will impact business volumes and operating results at Ameristar St. Charles during the fourth quarter of 2007, we believe this project will provide an important advantage for the property after opening the hotel, particularly in light of a competitor opening a new facility in downtown St. Louis in late 2007.

We organized a transportation development district ( TDD ) and a community improvement district in St. Charles, Missouri to acquire land and develop and construct improvements for the roadway improvement project. The approximate estimated cost of the project is \$17 million and is being funded by proceeds of \$3.9 million from tax-exempt bonds issued by the TDD and advances to the TDD by the Company, which will be repaid through an additional 2 percent sales tax on non-gaming revenues at Ameristar St. Charles over a period of 30 years.

We have also decided to add several enhanced amenities to the St. Charles property. A new nightclub will open in December 2007. Other enhancements will include a new casino circle bar and improved casino flow and layout. We believe this master plan build-out the hotel, spa, pool, road improvements, nightclub, casino circle bar and additional upgrades will further strengthen Ameristar St. Charles competitive position.

**Table of Contents**

The casino and parking expansion project at Ameristar Vicksburg is progressing. Both the 1,000-space parking garage and the expanded gaming facility, which will include 440 additional gaming positions, two new restaurants, a VIP club and retail space, are now expected to open in the second quarter of 2008. In addition, a \$12 million renovation to the 149-room hotel commenced in August 2007 and is expected to be completed in December 2007. When the expansion and renovation are complete, we expect this property to further strengthen its long-standing dominant position in the market, as reflected by its 46 percent market share during the third quarter of 2007.

In June 2007, we announced a \$100 million expansion plan for our Council Bluffs property. The project will add 60,000 square feet to the existing facility and double the current casino floor square footage. The project, which is in the design stage, is expected to be completed in mid-2009 and is subject to the receipt of all necessary approvals. By reducing capacity constraints during peak periods and providing an enhanced, more spacious casino experience, we expect this project will increase revenues at the property and grow the market overall.

Despite previously reported delays due to difficult geological site conditions, construction on the Ameristar Black Hawk 536-room, four-diamond-quality hotel is progressing on schedule. Extensive rock excavation and removal, which is making way for work to begin on the main portion of the 33-story hotel tower, is expected to be finished in early November 2007.

For the nine months ended September 30, 2007 and 2006, cash flows provided by financing activities were impacted by debt borrowings, principal payments on long-term debt, dividend payments, proceeds from employee stock option exercises and purchases of treasury stock. Additionally, financing cash flows during the first nine months of 2006 were impacted by the February 15, 2006 redemption of our senior subordinated notes with borrowings under our revolving loan facility.

During each of the initial three quarters of 2007 and 2006, our Board of Directors declared quarterly cash dividends in the amount of \$0.1025 per share and \$0.09375 per share, respectively.

On September 6, 2007, we amended our senior credit facility to increase the total amount of permitted incremental loan commitments from \$400.0 million to \$600.0 million. The amendment also increased the maximum permitted leverage ratio and senior leverage ratio (both as defined in the senior credit facility) for fiscal quarters ending on and after September 30, 2007, raised the interest rate add-on for our term loan by 50 basis points and permitted us to acquire Resorts East Chicago for an amount (including related transaction costs and expenses) not to exceed \$700.0 million, without reducing the amount we could spend for other permitted acquisitions. We paid one-time cash amendment fees totaling approximately \$3.1 million. The incremental loans are subject to the same interest rates and terms of payment as the existing revolving loans.

At September 30, 2007, our principal debt outstanding primarily consisted of \$1.2 billion under the revolving loan facility and \$393.0 million under the term loan facility. As of September 30, 2007, the amount of the revolving loan facility available for borrowing was \$187.7 million, after giving effect to \$5.3 million of outstanding letters of credit. All mandatory principal repayments have been made through September 30, 2007.

The agreement governing the senior credit facilities requires us to comply with various affirmative and negative financial and other covenants, including restrictions on the incurrence of additional indebtedness, restrictions on dividend payments and other restrictions and requirements to maintain certain financial ratios and tests. As of September 30, 2007 and December 31, 2006, we were in compliance with all applicable covenants.

On September 18, 2007, we acquired all of the outstanding membership interests of RIH Acquisitions IN, LLC ( RIH ) from Resorts International Holdings, LLC. RIH owns and operates Resorts East Chicago. Pursuant to the Purchase Agreement dated as of April 3, 2007, as subsequently amended, the purchase price is subject to a

## **Table of Contents**

post-closing working capital adjustment as provided in the Purchase Agreement. We paid \$671.4 million, net of cash acquired, for RIH. We financed the purchase of RIH by borrowing additional revolving loans under our senior credit facility as described above. We incurred approximately \$4.7 million in acquisition costs that were included in the purchase price and \$3.7 million in capitalized debt issuance costs, which will be amortized to interest expense over the remaining term of the revolving credit facility.

Historically, we have funded our daily operations through net cash provided by operating activities and our significant capital expenditures primarily through operating cash flows, bank debt and other debt financing. We believe that our cash flows from operations, cash and cash equivalents and availability under our amended senior credit facilities will be able to support our operations and liquidity requirements, including all of our currently planned capital expenditures and dividend payments on our Common Stock. However, if our existing sources of cash are insufficient to meet such needs, we will be required to seek additional financing or scale back our capital plans. Any loss from service of our riverboat and barge facilities for any reason could materially adversely affect us, including our ability to fund daily operations and to satisfy debt covenants. Our ability to borrow funds under the senior credit facilities at any time is primarily dependent upon the amount of our EBITDA, as defined for purposes of the senior credit facilities, for the preceding four fiscal quarters. As of September 30, 2007, in addition to the \$187.7 million available for borrowing under the current senior credit facilities, we had \$113.4 million of cash and cash equivalents, approximately \$65.0 million of which were required for daily operations.

### **Off-Balance Sheet Arrangements**

We do not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Securities and Exchange Commission Regulation S-K.

### **Critical Accounting Policies and Estimates**

We prepare our condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States. Certain of our accounting policies, including the estimated useful lives assigned to our assets, asset impairment, health benefit reserves, stock-based compensation expense, purchase price allocations made in connection with acquisitions, the determination of bad debt reserves and the calculation of our income tax liabilities, require that we apply significant judgment in defining the appropriate assumptions for calculating financial estimates. By their nature, these judgments are subject to an inherent degree of uncertainty. Our judgments are based in part on our historical experience, terms of existing contracts, observance of trends in the gaming industry and information obtained from independent valuation experts or other outside sources. We cannot assure you that our actual results will conform to our estimates. For additional information on critical accounting policies and estimates, see Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations and the notes to our audited consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2006.

### **Forward-Looking Statements**

This Quarterly Report contains certain forward-looking statements, including the plans and objectives of management for our business, operations and economic performance. These forward-looking statements generally can be identified by the context of the statement or the use of forward-looking terminology, such as believes, estimates, anticipates, intends, expects, plans, is confident that or words of similar meaning, with reference to us or our management. Similarly, statements that describe our future operating performance, financial results, financial position, plans, objectives, strategies or goals are forward-looking statements. Although management believes that the assumptions underlying the forward-looking statements are reasonable, these assumptions and the forward-looking statements are subject to various factors, risks and uncertainties, many of which are beyond our control, including but not limited to uncertainties concerning operating cash flow in future periods, our borrowing capacity under the senior credit facilities or any replacement

**Table of Contents**

financing, our properties' future operating performance, our ability to undertake and complete capital expenditure projects in accordance with established budgets and schedules, changes in competitive conditions, regulatory restrictions and changes in regulation or legislation (including gaming tax laws and restrictions on smoking at our facilities) that could affect us. Accordingly, actual results could differ materially from those contemplated by any forward-looking statement. In addition to the other risks and uncertainties mentioned in connection with certain forward-looking statements throughout this Quarterly Report, attention is directed to Item 1A. Risk Factors in this Quarterly Report and Item 1A. Risk Factors and Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2006 for a discussion of the factors, risks and uncertainties that could affect our future results.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

Market risk is the risk of loss arising from adverse changes in market rates and prices, such as interest rates, foreign currency exchange rates and commodity prices. Our primary exposure to market risk is interest rate risk associated with our senior credit facilities. As of September 30, 2007, we had \$1.6 billion outstanding under our senior credit facilities, bearing interest at variable rates. The senior credit facilities bear interest equal to LIBOR (in the case of Eurodollar loans) or the prime interest rate (in the case of base rate loans), plus an applicable margin, or add-on. At September 30, 2007, the average interest rate applicable to the senior credit facilities outstanding was 6.7%. An increase of one percentage point in the average interest rate applicable to the senior credit facilities outstanding at September 30, 2007 would increase our annual interest cost by approximately \$16.0 million.

Substantially all of our long-term debt is subject to variable interest rates. We continue to monitor interest rate markets and, in order to control interest rate risk, may enter into interest rate collar or swap agreements or other derivative instruments as market conditions warrant. We may also choose to refinance a portion of our variable rate debt through the issuance of long-term fixed-rate debt.

**Item 4. Controls and Procedures****(a) Evaluation of Disclosure Controls and Procedures**

As required by Rule 13a-15(b) under the Securities Exchange Act of 1934, as amended (the Exchange Act), the Company's management, including our Chief Executive Officer and President and our Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this Quarterly Report. Based on that evaluation, the Chief Executive Officer and President and the Chief Financial Officer have concluded that our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) were effective as of the end of the period covered by this Quarterly Report.

**(b) Changes in Internal Control over Financial Reporting**

As required by Rule 13a-15(d) under the Exchange Act, the Company's management, including our Chief Executive Officer and President and our Chief Financial Officer, has evaluated our internal control over financial reporting to determine whether any changes occurred during the third fiscal quarter of 2007 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Based on that evaluation, there has been no such change during the third fiscal quarter of 2007.

**Table of Contents****PART II. OTHER INFORMATION****Item 1A. Risk Factors**

Since the filing of our Quarterly Report on Form 10-Q for the quarter ended June 30, 2007, there have been certain developments that change or add to the uncertainties and risks that might materially adversely affect our business, financial position, results of operations or cash flows. These new risk factors or material changes to our previously disclosed risk factors are discussed below. You should also carefully consider all of the other risk factors that we discuss in Item 1A. Risk Factors of our Quarterly Report on Form 10-Q for the quarter ended March 31, 2007 and Item 1A. Risk Factors of our Annual Report on Form 10-K for the year ended December 31, 2006.

***The Estate of Craig H. Neilsen owns a majority of our common stock, controls our affairs and may have interests that differ from those of other holders of our common stock.***

Craig H. Neilsen, our founder and former Chairman of the Board and Chief Executive Officer, died on November 19, 2006. At the time of his death, Mr. Neilsen beneficially owned approximately 56% of our outstanding Common Stock. As a result of his death, these shares passed by operation of law to Mr. Neilsen's estate (the Estate). The co-executors of the Estate are Ray H. Neilsen, our Co-Chairman of the Board and Senior Vice President, and Gordon R. Kanofsky, our Co-Chairman of the Board and Executive Vice President. Craig H. Neilsen's estate plan provides that 25,000,000 shares of our Common Stock owned by the Estate (or approximately 44% of our shares currently outstanding) will ultimately pass to The Craig H. Neilsen Foundation, a private foundation primarily focused on funding spinal cord injury research and treatment (the Foundation). Messrs. Neilsen and Kanofsky serve as the co-trustees of the Foundation, and they also serve on the Foundation's five-person board of directors. As officers and directors of ACI, executors of the Estate and trustees and directors of the Foundation, Messrs. Neilsen and Kanofsky are subject to certain conflicts of interest.

Through their roles as directors and officers of ACI and in light of their control over a majority of our Common Stock, Messrs. Neilsen and Kanofsky jointly have the ability to control our operations and affairs, including the election of the entire Board of Directors and, except as otherwise provided by law, other matters that may be submitted to a vote of the stockholders, including a merger, consolidation or sale of our assets. As a result, actions that may be supported by a majority of the other stockholders, including the issuance of additional shares of Common Stock to finance acquisitions or other growth opportunities, could be blocked by Messrs. Neilsen and Kanofsky.

In addition, the Estate's ownership affects the liquidity in the market for our Common Stock and sales by the Estate could affect the price of our Common Stock. Messrs. Neilsen and Kanofsky, as co-executors of the Estate, disclosed in a Schedule 13D amendment filed with the Securities and Exchange Commission on October 22, 2007 that, on behalf of the Estate, they will continue to review the Estate's liquidity needs and other factors impacting the Estate's investment in our Common Stock and may evaluate strategic alternatives to the Estate's holdings in the Company, including possible sales of some or all of our Common Stock held by the Estate or one or more transactions that could influence or change control of the Company. Some of the factors influencing the Estate's investment decisions with respect to our Common Stock may not be relevant to other holders of our Common Stock.

***A change in control could result in the acceleration of our debt obligations.***

Certain changes in control could result in the acceleration of our senior credit facilities. This acceleration could be triggered in the event the Estate or its beneficiaries, including the Foundation, sell a substantial number of shares of our Common Stock, which they might have to do in order to pay estate tax liabilities or satisfy legal

**Table of Contents**

requirements applicable to Shareholdings by private foundations. We cannot assure you that we would be able to repay any indebtedness that is accelerated as a result of a change in control, and this would likely materially adversely affect our financial condition.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

(c) During the three months ended September 30, 2007, the Company purchased the following shares of our outstanding Common Stock.

<b>Period</b>	<b>Total Number of Shares Purchased</b>	<b>Average Price Paid per Share</b>	<b>Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs<sup>(1)</sup></b>	<b>Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs</b>
July 1, 2007 July 31, 2007	0	N/A	0	2,389,164
August 1, 2007 August 31, 2007	376,400	\$ 25.65	787,236	2,012,764
September 1, 2007 September 30, 2007	0	N/A	0	2,012,764
Total	376,400		787,236	

(1) On July 24, 2006, our Board of Directors approved a program for the Company to repurchase up to an aggregate of 2,800,000 shares of our outstanding Common Stock. The program was publicly announced on July 26, 2006. The shares may be repurchased from time to time during the three-year

period ending  
July 24, 2009 in  
open market  
transactions or  
privately  
negotiated  
transactions, at  
our discretion.

We did not  
previously have  
a stock  
repurchase  
program in  
effect. All  
shares  
repurchased by  
the Company  
during the  
quarter ended  
September 30,  
2007 were  
repurchased  
pursuant to the  
program in open  
market  
transactions.
