(e) Approval of 2009 Annual Incentive Compensation Targets

On February 19, 2009, the Compensation Committee of the Superior Energy Services, Inc. Board of Directors approved the incentive compensation targets for its 2009 incentive bonus program. The parameters of the program provide for minimum, target and maximum cash bonus award levels, as a percentage of salary, based upon the achievement of 90%, 100% and 110% of a pre-tax income target that aligns with the Company's financial goals.

Depending on the corporation's financial performance relative to the targets, the bonus payout levels, which vary depending on the executive's position, stated as a percentage of the officer's annual salary, are as follows:

Position	Minimum (90% of Target)	Target	Maximum (110% of Target)
CEO	45%	90%	180%
COO	37.5%	75%	150%
CFO	32.5%	65%	130%
Sr. EVPs	30%	60%	120%
EVPs	27.5%	55%	110%

If the financial performance occurs at a level in between these factors, a sliding scale is used to estimate the appropriate payout factor, with adjustments for safety performance as discussed below.

Assuming a particular officer qualifies for a bonus payout, the payout can either be reduced by a maximum of 25% if pre-determined base metrics are not met, or increased by a maximum of 12.5% for achieving stretch targets. The metric applicable to the Company's executive officers is safety performance, and Total Recordable Incident Rate (TRIR) will be used to measure safety performance.

Under the terms of the Company's incentive bonus program, any bonus amounts determined under the formulas described above may be adjusted in order to ensure that they are appropriate in light of the performance factors relevant to the particular officer, including discretionary adjustments based on other non-financial performance related metrics. All bonuses are approved by the Compensation Committee upon the recommendation of Company management.
