Item 5. Other Information	52
Item 6. Exhibits	52-54
SIGNATURES	54

EXPLANATORY NOTE

We have filed Amendment No. 1 on Form 10-K/A to our Annual Report on Form 10-K for the fiscal year ended December 31, 2006 filed on March 1, 2007 (the "Form 10-K") (1) to restate our financial statements as of December 31, 2006, 2005 and 2004 and for the years then ended and to amend other Items contained in the Form 10-K to reflect such restatement, and (2) to correct a typographical error in the description of the Second Amended and Restated Revolving Loan Agreement of the Company referenced as Exhibit 10.32 to the Form 10-K. In addition we have restated our financial statements for the three months ended March 31, 2006. This restatement is reported in this Quarterly Report on Form 10-Q for the quarter ended March 31, 2007. We have not amended and do not anticipate amending our Annual Reports on Form 10-K for any years prior to fiscal year 2006, nor will we be amending any of our previously filed Quarterly Reports on Form 10-Q. The financial statements and other information that have been previously filed or otherwise reported for these periods should no longer be relied upon; all such prior information is superseded by the information in our Form 10-K/A and this Quarterly Report on Form 10-Q for the quarter ended March 31, 2007.

As discussed in Amendment No. 1 on our Form 10-K/A filed on May 10, 2007, this restatement revises our accounting for long-term land leases. We revised the accounting for leases with fixed, or minimum, escalations, recognizing as rental expense on a straight-line basis, the aggregate undiscounted payments required over the non-cancelable portion of the lease term, as opposed to our expected holding period of our interest in the related asset. This change primarily impacts the land lease accounting related to one consolidated asset with a 90-year lease that became effective in 1999, in which the land lessor is also our partner in the venture holding the asset. In addition, we recognized as a component of minority interest, the value associated with a provision allowing our partner in that same venture to put their interest in the venture to us based on the fair market value of the underlying real estate as a component of minority interest, with the offset to stockholders' equity.

CONDENSED CONSOLIDATED STATEMENTS OF CASH FLOWS (continued)

Supplemental disclosures of non-cash investing and financing activities (dollars in thousands):

During the three months ended March 31, 2007:

As described in Note 4, Stockholders' Equity, 69,576 shares of common stock valued at \$10,279 were issued in connection with stock grants, 534 shares valued at \$73 were issued through the Company's dividend reinvestment plan, 38,692 shares valued at \$4,329 were withheld to satisfy employees' tax withholding and other liabilities and 1,904 shares valued at \$70 were forfeited, for a net value of \$5,953. In addition, the Company granted 335,856 options for common stock, net of forfeitures, at a value of \$7,417.

15,173 units of limited partnership, valued at \$737, were presented for redemption to the DownREIT partnerships that issued such units and were acquired by the Company in exchange for an equal number of shares of the Company's common stock.

The Company recorded a decrease to other liabilities of \$194 and a gain to other comprehensive income of \$172 to adjust the Company's Hedging Derivatives (as defined in Note 5, Derivative Instruments and Hedging Activities) to their fair value.

Common and preferred dividends declared but not paid totaled \$69,871.

During the three months ended March 31, 2006:

118,191 shares of common stock valued at \$11,960 were issued in connection with stock grants, 233 shares valued at \$22 were issued through the Company's dividend reinvestment plan, and 40,577 shares valued at \$3,216 were withheld to satisfy employees' tax withholding and other liabilities, for a net value of \$8,766. In addition, the Company granted 859,613 options for common stock, net of forfeitures, at a value of \$9,816.

301,298 units of limited partnership, valued at \$13,953, were presented for redemption to the DownREIT partnerships that issued such units and were acquired by the Company in exchange for an equal number of shares of the Company's common stock.

The Company recorded a decrease to other liabilities and a corresponding gain to other comprehensive income of \$541 to adjust the Company's Hedging Derivatives to their fair value.

Common and preferred dividends declared but not paid totaled \$60,161.

AVALONBAY COMMUNITIES, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
(Dollars in thousands, except per share data)

1. Organization and Significant Accounting Policies

Organization

AvalonBay Communities, Inc. (the Company, which term, unless the context otherwise requires, refers to AvalonBay Communities, Inc. together with its subsidiaries) is a Maryland corporation that has elected to be taxed as a real estate investment trust (REIT) under the Internal Revenue Code of 1986 (the Code), as amended. The Company focuses on the ownership and operation of apartment communities in high barrier-to-entry markets of the United States. These markets are located in the Northeast, Mid-Atlantic, Midwest, Pacific Northwest, and Northern and Southern California regions of the country. The Company is the surviving corporation from the merger (the Merger) of Bay Apartment Communities, Inc., and Avalon Properties, Inc. on June 4, 1998.

At March 31, 2007, the Company owned or held a direct or indirect ownership interest in 155 operating apartment communities containing 44,353 apartment homes in ten states and the District of Columbia, of which six communities containing 2,054 apartment homes were under reconstruction. In addition, the Company owned or held a direct or indirect ownership interest in 16 communities under construction that are expected to contain an aggregate of 5,049 apartment homes when completed. The Company also owned or held a direct or indirect ownership interest in rights to develop an additional 56 communities that, if developed in the manner expected, will contain an estimated 14,809 apartment homes.

During the three months ended March 31, 2007:

The Company completed the development of two communities, Avalon at Chestnut Hill and Avalon at Decoverly II. Avalon at Chestnut Hill, located in Chestnut Hill, Massachusetts, is a mid-rise community containing 204 homes and was completed for a total capitalized cost of \$61,200. Avalon at Decoverly II, the second phase of a two-phase community located in Rockville, Maryland, is a garden-style community containing 196 homes and was completed for a total capitalized cost of \$30,800.

The Company commenced construction of Avalon Morningside Park, located in New York, New York. Avalon Morningside Park is expected to have 296 apartment homes when completed for a total projected capitalized cost of \$125,500.

The Company completed the redevelopment of Avalon Arlington Heights, located in Arlington Heights, Illinois. Avalon Arlington Heights is a high-rise community with 409 apartment homes and redevelopment was completed for a total capitalized cost of \$6,700, excluding costs incurred prior to redevelopment.

The interim unaudited financial statements have been prepared in accordance with GAAP for interim financial information and in conjunction with the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and footnote disclosures normally included in financial statements required by GAAP have been condensed or omitted pursuant to such rules and regulations. These unaudited financial statements should be read in conjunction with the financial statements and notes included in the Company's Annual Report on Form 10-K/A for the year ended December 31, 2006. The results of operations for the three months ended March 31, 2007 are not necessarily indicative of the operating results for the full year. Management believes the disclosures are adequate to

ensure the information presented is not misleading. In the opinion of management, all adjustments and eliminations, consisting only of normal, recurring adjustments necessary for a fair presentation of the financial statements for the interim periods, have been included.

Principles of Consolidation

The accompanying Condensed Consolidated Financial Statements include the accounts of the Company and its wholly-owned partnerships, certain joint venture partnerships, subsidiary partnerships structured as DownREITs and any variable interest entities consolidated under FASB Interpretation No. 46 (FIN 46(R)), Consolidation of Variable Interest Entities, an Interpretation of ARB No. 51, as revised in December 2003. All significant intercompany balances and transactions have been eliminated in consolidation.

The Company assesses consolidation of variable interest entities under the guidance of FIN 46(R). The Company accounts for joint venture entities and subsidiary partnerships, including those structured as DownREITs, that are not variable interest entities, in accordance with EITF Issue No. 04-5, Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights, Statement of Position (SOP) 78-9, Accounting for Investments in Real Estate Ventures, Accounting Principles Board (APB) Opinion No. 18, The Equity Method of Accounting for Investments in Common Stock and EITF Topic D-46, Accounting for Limited Partnership Investments. The Company uses EITF Issue No. 04-5 to evaluate the partnership of each joint venture entity and determine whether control over the partnership, as defined by the EITF, lies with the general partner, or the limited partners, when the limited partners have certain rights. The general partner in a limited partnership is presumed to control that limited partnership, unless that presumption is overcome by the limited partners having either: (i) the substantive ability, either by a single limited partner or through a simple majority vote, to dissolve the limited partnership or otherwise remove the general partner without cause; or (ii) substantive participating rights. If the Company is the general partner and has control over the partnership, or if the Company's limited partnership ownership includes the ability to dissolve the partnership, or has substantive participating rights, as discussed above, the Company consolidates the investments. If the Company is not the general partner, or the Company's partnership interest does not contain either of the above terms which overcome the presumption of control in a limited partnership residing with the general partner, the Company then looks to the guidance in SOP 78-9, APB 18 and EITF D-46 to determine the accounting framework to apply. The Company generally uses the equity method to account for these investments unless its ownership interest is so minor that it has virtually no influence over the partnership operating and financial policies. Investments in which the Company has little or no influence are accounted for using the cost method.

In each of the partnerships structured as DownREITs, either the Company or one of the Company's wholly owned subsidiaries is the general partner, and there are one or more limited partners whose interest in the partnership is represented by units of limited partnership interest. For each DownREIT partnership, limited partners are entitled to receive an initial distribution before any distribution is made to the general partner. Although the partnership agreements for each of the DownREITs are different, generally the distributions per unit paid to the holders of units of limited partnership interests have approximated the Company's current common stock dividend per share. The holders of units of limited partnership interest have the right to present all or some of their units for redemption for a cash amount as determined by the applicable partnership agreement and based on the fair value of the Company's common stock. In lieu of cash redemption, the Company may elect to exchange such units for an equal number of shares of the Company's common stock.

In conjunction with the acquisition and development of investments in unconsolidated entities, the Company may incur costs in excess of its equity in the underlying assets. These costs are capitalized and depreciated over the life of the underlying assets to the extent that the Company expects to recover the costs.

Revenue and Gain Recognition

Rental income related to leases is recognized on an accrual basis when due from residents in accordance with SEC Staff Accounting Bulletin No. 104, Revenue Recognition, and Statement of Financial Accounting Standards (SFAS) No. 13, Accounting for Leases. In accordance with the Company's standard lease terms, rental payments are generally due on a monthly basis. Any cash concessions given at the inception of the lease are amortized over the approximate life of the lease, which is generally one year.

The Company accounts for sales of real estate assets and the related gain recognition in accordance with SFAS No. 66, *Accounting for Sales of Real Estate*.

Real Estate

Operating real estate assets are stated at cost and consist of land, buildings and improvements, furniture, fixtures and equipment, and other costs incurred during their development, redevelopment and acquisition. Significant expenditures which improve or extend the life of an asset are capitalized. Expenditures for maintenance and repairs are charged to operations as incurred.

The Company's policy with respect to capital expenditures is generally to capitalize only non-recurring expenditures. Improvements and upgrades are capitalized only if the item exceeds \$15, extends the useful life of the asset and is not related to making an apartment home ready for the next resident. Purchases of personal property, such as computers and furniture, are capitalized only if the item is a new addition and exceeds \$2.5. The Company generally expenses purchases of personal property made for replacement purposes.

The capitalization of costs during the development of assets (including interest and related loan fees, property taxes and other direct and indirect costs) begins when the Company has determined that development of the future asset is probable and ends when the asset, or a portion of an asset, is delivered and is ready for its intended use. Cost capitalization during redevelopment of apartment homes (including interest and related loan fees, property taxes and other direct and indirect costs) begins when an apartment home is taken out-of-service for redevelopment and ends when the apartment home redevelopment is completed and the apartment home is available for a new resident. Rental income and operating costs incurred during the initial lease-up or post-redevelopment lease-up period are recognized as they accrue.

In accordance with SFAS No. 67, *Accounting for Costs and Initial Rental Operations of Real Estate Projects*, the Company capitalizes pre-development costs incurred in pursuit of new development opportunities for which the Company currently believes future development is probable (*Development Rights*). Future development of these Development Rights is dependent upon various factors, including zoning and regulatory approval, rental market conditions, construction costs and availability of capital. Pre-development costs incurred in the pursuit of Development Rights for which future development is not yet considered probable are expensed as incurred. In addition, if the status of a Development Right changes, making future development by the Company no longer probable, any capitalized pre-development costs are written-off with a charge to expense. The Company expensed costs related to abandoned pursuits, which includes the abandonment or impairment of Development Rights, acquisition pursuits and disposition pursuits, in the amounts of \$787 and \$322 for the three months ended March 31, 2007 and 2006, respectively. These costs are included in operating expenses, excluding property taxes on the accompanying Condensed Consolidated Statements of Operations and Other Comprehensive Income. Abandoned pursuit costs can vary greatly, and the costs incurred in any given period may be significantly different in future years. The Company owns land improved with office buildings and industrial space occupied by unrelated third parties in connection with five Development Rights. The Company intends to manage the current improvements until such time as all tenant obligations have been satisfied or eliminated through negotiation, and construction of new apartment communities is ready to begin. As provided under the guidance of SFAS No. 67, the revenue from incidental operations received from the current improvements in excess of any incremental costs are being recorded as a reduction of total capitalized costs of the Development Right and not as part of net income.

In connection with the acquisition of an operating community, the Company performs a valuation and allocation to each asset and liability acquired in such transaction, based on their estimated fair values at the date of acquisition in accordance with SFAS No. 141, *Business Combinations*. The purchase price allocations to tangible assets, such as land, buildings and improvements, and furniture, fixtures and equipment, are reflected in real estate assets and depreciated over their estimated useful lives. Any purchase price allocation to intangible assets, such as in-place leases, is included in prepaid expenses and other assets on the accompanying Condensed Consolidated Balance Sheets and amortized over the average remaining lease term of the acquired leases. The fair value of acquired in-place leases is determined based on the estimated cost to replace such leases, including foregone rents during an assumed re-lease period, as well as the impact on projected cash flow of acquired leases with leased rents above or below current market rents.

Depreciation is calculated on buildings and improvements using the straight-line method over their estimated useful lives, which range from seven to thirty years. Furniture, fixtures and equipment are generally depreciated using the straight-line method over their estimated useful lives, which range from three years (primarily computer-related equipment) to seven years.

It is the Company's policy to perform a quarterly qualitative analysis to determine if there are changes in circumstances that suggest the carrying value of a long-lived asset may not be recoverable. If there is an event or change in circumstance that indicates an impairment in the value of an operating community, the Company compares the current and projected operating cash flow of the community over its remaining useful life, on an undiscounted basis, to the carrying amount of the community. If the carrying amount is in excess of the estimated projected operating cash flow of the community, the Company would recognize an impairment loss equivalent to an amount required to adjust the carrying amount to its estimated fair market value. The Company did not recognize an impairment loss on any of its operating communities during the three months ended March 31, 2007 or 2006.

Deferred Financing Costs

Deferred financing costs include fees and other expenditures necessary to obtain debt financing and are amortized on a straight-line basis, which approximates the effective interest method, over the shorter of the term of the loan or the related credit enhancement facility, if applicable. Unamortized financing costs are written-off when debt is retired before the maturity date. Accumulated amortization of deferred financing costs was \$17,284 at March 31, 2007 and was \$16,179 at December 31, 2006.

Cash, Cash Equivalents and Cash in Escrow

Cash and cash equivalents include all cash and liquid investments with an original maturity of three months or less from the date acquired. Cash in escrow consists primarily of construction financing proceeds that is restricted for use in the construction of a specific community. The majority of the Company's cash, cash equivalents and cash in escrows are held at major commercial banks.

Interest Rate Contracts

The Company utilizes derivative financial instruments to manage interest rate risk and has designated these financial instruments as cash flow hedges under the guidance of SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, and SFAS No. 138, *Accounting for Certain Instruments and Certain Hedging Activities*, an Amendment of Statement No. 133. This statement requires that every derivative instrument be recorded on the balance sheet as either an asset or liability measured at its fair value, with changes in fair value recognized currently in earnings unless specific hedge accounting criteria are met. For cash flow hedge relationships, changes in the fair value of the derivative instrument that are deemed effective at offsetting the risk being hedged are reported in other comprehensive income. For cash flow hedges where the cumulative changes in the fair value of the derivative exceed the cumulative changes in fair value of the hedged item, the ineffective portion is recognized in current period earnings. As of March 31, 2007 and December 31, 2006, the Company had approximately \$234,000 and \$277,000, respectively, in variable rate debt subject to cash flow hedges. As of March 31, 2007, the Company had an additional \$33,100 in variable rate debt which is subject to an interest rate cap for which hedge accounting was not applied. See Note 5, *Derivative Instruments and Hedging Activities*, for further discussion of derivative financial instruments.

Comprehensive Income

Comprehensive income, as reflected on the Condensed Consolidated Statements of Operations and Other Comprehensive Income, is defined as all changes in equity during each period except for those resulting from investments by or distributions to shareholders. Accumulated other comprehensive loss as reflected in Note 4, *Stockholders' Equity*, reflects the effective portion of the cumulative changes in the fair value of derivatives in qualifying cash flow hedge relationships.

Earnings per Common Share

In accordance with the provisions of SFAS No. 128, *Earnings per Share*, basic earnings per share is computed by

dividing earnings available to common stockholders by the weighted average number of shares outstanding during the period. Other potentially dilutive common shares, and the related impact to earnings, are considered when calculating earnings per share on a diluted basis. The Company's earnings per common share are determined as follows:

	For the three months ended 3-31-07	3-31-06 (restated)
Basic and diluted shares outstanding		
Weighted average common shares - basic	78,431,936	73,808,643
Weighted average DownREIT units outstanding	144,586	237,575
Effect of dilutive securities	1,354,226	1,243,906
Weighted average common shares - diluted	79,930,748	75,290,124
Calculation of Earnings per Share - basic		
Net income available to common stockholders	\$ 44,345	\$ 108,939
Weighted average common shares - basic	78,431,936	73,808,643
Earnings per common share - basic	\$ 0.57	\$ 1.48
Calculation of Earnings per Share - diluted		
Net income available to common stockholders	\$ 44,345	\$ 108,939
Add: Minority interest of DownREIT unitholders in consolidated partnerships, including discontinued operations	88	99
Adjusted net income available to common stockholders	\$ 44,433	\$ 109,038
Weighted average common shares - diluted	79,930,748	75,290,124
Earnings per common share - diluted	\$ 0.56	\$ 1.45

Certain options to purchase shares of common stock in the amounts of 335,856 and 3,000 were outstanding during the three months ended March 31, 2007 and 2006, respectively but were not included in the computation of diluted earnings per share because in applying the treasury stock method under the provisions of SFAS No. 123(R), such options are anti-dilutive.

Stock-Based Compensation

The Company adopted the provisions of SFAS No. 123(R), Share Based Payment, using the modified prospective transition method on January 1, 2006. The adoption of SFAS No. 123(R) did not have a material impact on the Company's financial position or results of operations. However, the adoption of SFAS No. 123(R) changed the service period for, and timing of, the recognition of compensation cost related to retirement eligibility, which will generally result in accelerated expense recognition by the Company for its stock-based compensation programs. Under the provisions of SFAS No. 123(R), the Company is required to estimate the forfeiture of stock options and recognize compensation cost net of the estimated forfeitures. The estimated forfeitures included in compensation cost are adjusted to reflect actual forfeitures at the end of the vesting period. Prior to the adoption of SFAS No. 123(R), option forfeitures were recognized as they occurred. The forfeiture rate at March 31, 2007 was 2.5%. The application of estimated forfeitures did not materially impact compensation expense for the three months ended March 31, 2007 and 2006.

Legal and Other Contingencies

The Company is currently involved in litigation alleging that 100 communities owned by the Company, at the time of the suit, violate the accessibility requirements of the Fair Housing Act and the Americans with Disabilities Act. The lawsuit, Equal Rights Center v. AvalonBay Communities, Inc, was filed on September 23, 2005 in the federal district court in Maryland. The plaintiff seeks compensatory and punitive damages in unspecified amounts as well as injunctive relief (such as modification of existing assets), an award of attorneys' fees, expenses and costs of suit. The Company has

filed a motion to dismiss all or parts of the suit, which has not been ruled on yet by the court. We cannot predict or determine the outcome of this lawsuit, nor is it reasonably possible to estimate the amount of loss, if any, that would be associated with an adverse decision.

During 2006, the Company determined that contaminated soil from imported fill was delivered to its Avalon Lyndhurst development site by third parties. The contaminants exceeded allowable levels for residential use under New Jersey state and local regulations. The remediation effort is substantially complete. The Company has estimated that the net cost associated with this remediation effort after considering insurance proceeds received to date, including costs associated with construction delays, necessary to complete construction and commence operations, is expected to be approximately \$6,000. The Company is pursuing the recovery of these additional net costs through its insurance as well as from the third parties involved, but no assurance can be given as to the amount or timing of additional reimbursements to the Company. The Company is recording these incremental costs as they are incurred, and potential recoveries as they become certain or are received. Although the estimated costs to complete construction of this community exceed the original construction budget, the Company does not expect that, upon completion, there will be an impairment in value of this asset which would require a write down in the carrying value. The Company will continue to review this assessment based on changes in circumstances or market conditions.

In addition, the Company is subject to various legal proceedings and claims that arise in the ordinary course of business. These matters are frequently covered by insurance. If it has been determined that a loss is probable to occur, the estimated amount of the loss is expensed in the financial statements. While the resolution of these matters cannot be predicted with certainty, management currently believes the final outcome of such matters will not have a material adverse effect on the financial position or results of operations of the Company. However, if these matters are resolved unfavorably, they may have a material adverse effect on the Company's financial position and results of operations.

Assets Held for Sale & Discontinued Operations

The Company follows SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets* (SFAS 144) which requires that the assets and liabilities of any communities which have been sold, or otherwise qualify as held for sale, be presented separately in the Condensed Consolidated Balance Sheets. In addition, the results of operations for those assets that meet the definition of discontinued operations are presented as such in the Company's Condensed Consolidated Statements of Operations and Other Comprehensive Income. Held for sale and discontinued operations classifications are provided in both the current and prior periods presented. Real estate assets held for sale are measured at the lower of the carrying amount or the fair value less the cost to sell. Both the real estate assets and corresponding liabilities are presented separately in the accompanying Condensed Consolidated Balance Sheets. Subsequent to classification of a community as held for sale, no further depreciation is recorded. For those assets qualifying for classification as discontinued operations, the community specific components of net income presented as discontinued operations include net operating income, minority interest expense, depreciation expense and interest expense, net. For periods prior to the asset qualifying for discontinued operations under SFAS 144, the Company reclassified the results of operations to discontinued operations in accordance with SFAS 144. Subsequent to the reclassification to discontinued operations, the impact of assets classified as discontinued operations on the statements of operations and other comprehensive income will include depreciation. In addition, the net gain or loss (including any impairment loss) on the eventual disposal of communities held for sale will be presented as discontinued operations when recognized. A change in presentation for held for sale or discontinued operations will not have any impact on the Company's financial condition or results of operations. The Company combines the operating, investing and financing portions of cash flows attributable to discontinued operations with the respective cash flows from continuing operations on the accompanying Condensed Consolidated Statements of Cash Flows.

Recently Issued Accounting Standards

The Company adopted the provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* and Interpretation of FASB Statement No. 109, *FIN 48*, on January 1, 2007. The Company did not have any unrecognized tax benefits and there was no material effect on either the financial condition or results of operations of the Company as a result of implementing FIN 48. We do not believe that there will be any material changes in our unrecognized tax positions over the next 12 months. The Company is subject to examination by the respective taxing authorities for the tax years 2003 through 2005.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make certain estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenue and expenses

during the reporting periods. Actual results could differ from those estimates.

Reclassifications

Certain reclassifications have been made to amounts in prior periods' financial statements to conform to current year presentations.

2. Interest Capitalized

The Company capitalized interest during the development and redevelopment of real estate assets in accordance with SFAS No. 34, Capitalization of Interest Cost. Capitalized interest associated with communities under development or redevelopment totaled \$15,433 for the three months ended March 31, 2007 and \$8,364 for the three months ended March 31, 2006.

3. Notes Payable, Unsecured Notes and Credit Facility

The Company's mortgage notes payable, unsecured notes and variable rate unsecured credit facility as of March 31, 2007 and December 31, 2006 are summarized below. The following amounts and discussion do not include the construction loan payable related to a community classified as held for sale as of March 31, 2007 (see Note 7, Real Estate Disposition Activities).

	3-31-07	12-31-06
Fixed rate unsecured notes ⁽¹⁾	\$ 2,153,184	\$ 2,153,078
Fixed rate mortgage notes payable - conventional and tax-exempt	217,160	234,272
Variable rate mortgage notes payable - conventional and tax-exempt	437,563	438,236
Total notes payable and unsecured notes	2,807,907	2,825,586
Variable rate unsecured credit facility		
Total mortgage notes payable, unsecured notes and unsecured credit facility	\$ 2,807,907	\$ 2,825,586

(1) Balances at March 31, 2007 and December 31, 2006 include \$2,816 and \$2,922 of debt discount, respectively.

During the three months ended March 31, 2007, the Company repaid an outstanding mortgage note in the amount of \$15,980, secured by the operating assets of a community.

In the aggregate, secured notes payable mature at various dates from October 2008 through April 2043 and are secured by certain apartment communities and improved land parcels (with a net carrying value of \$964,730 as of March 31, 2007). As of March 31, 2007, the Company has guaranteed approximately \$67,316 of mortgage notes payable held by wholly-owned subsidiaries; all such mortgage notes payable are consolidated for financial reporting purposes. The weighted average interest rate of the Company's fixed rate mortgage notes payable (conventional and tax-exempt) was 6.8% at March 31, 2007 and December 31, 2006. The weighted average interest rate of the Company's variable rate mortgage notes payable and its unsecured credit facility (as discussed on the following page), including the effect of certain financing related fees, was 5.1% at March 31, 2007 and 5.8% at December 31, 2006.

Scheduled payments and maturities of mortgage notes payable and unsecured notes outstanding at March 31, 2007 are as follows:

Year	Secured notes payments	Secured notes maturities	Unsecured notes maturities	Stated interest rate of unsecured notes
2007	\$ 6,202	\$	\$ 110,000	6.875%
			150,000	5.000%
2008	8,163	4,368	50,000	6.625%
			146,000	8.250%
2009	7,236	73,793	150,000	7.500%
2010	5,719	28,989	200,000	7.500%
2011	4,623	35,910	300,000	6.625%
			50,000	6.625%
2012	3,873	12,166	250,000	6.125%
			250,000	5.500%
2013	3,950		100,000	4.950%
2014	2,915	34,450	150,000	5.375%
2015	4,606			
2016	4,968		250,000	5.750%
Thereafter	135,553	277,239		
	\$ 187,808	\$ 466,915	\$ 2,156,000	

The Company's unsecured notes contain a number of financial and other covenants with which the Company must comply, including, but not limited to, limits on the aggregate amount of total and secured indebtedness the Company may have on a consolidated basis and limits on the Company's required debt service payments.

The Company has a \$650,000 revolving variable rate unsecured credit facility with a syndicate of commercial banks. There were no amounts outstanding under the current facility and \$37,443 outstanding in letters of credit on March 31, 2007. The Company did not have any amounts outstanding under the current credit facility and \$38,713 outstanding in letters of credit on December 31, 2006. Under the terms of the credit facility, the Company may elect to increase the facility up to \$1,000,000, provided that one or more banks (from the syndicate or otherwise) voluntarily agree to provide the additional commitment. No member of the syndicate of banks can prohibit such increase; such an increase in the facility will only be effective to the extent banks (from the syndicate or otherwise) choose to commit to lend additional funds. The Company pays participating banks, in the aggregate, an annual facility fee of approximately \$813, which is subject to increase in the event that the amount available on the facility is increased. The unsecured credit facility bears interest at varying levels based on the London Interbank Offered Rate (LIBOR), rating levels achieved on the Company's unsecured notes and on a maturity schedule selected by the Company. The current stated pricing is LIBOR plus 0.40% per annum. The stated spread over LIBOR can vary from LIBOR plus 0.325% to LIBOR plus 1.00% based on the Company's credit rating. In addition, the unsecured credit facility includes a competitive bid option, which allows banks that are part of the lender consortium to bid to make loans to the Company at a rate that is lower than the stated rate provided by the unsecured credit facility for up to \$422,500. The competitive bid option may result in lower pricing than the stated rate if market conditions allow. The Company had no amounts outstanding under this competitive bid option as of March 31, 2007. The Company is subject to certain customary covenants under the unsecured credit facility, including, but not limited to, maintaining certain maximum leverage ratios, a minimum fixed charges coverage ratio and minimum unencumbered assets and equity levels. The credit facility matures in November 2011, assuming exercise of a one-year renewal option by the Company.

4. Stockholders' Equity

The following summarizes the changes in stockholders' equity for the three months ended March 31, 2007:

	Preferred stock	Common stock	Additional paid-in capital	Accumulated earnings less dividends	Accumulated other comprehensive loss	Stockholders' equity
Balance at December 31, 2006 (restated)	\$ 40	\$ 747	\$ 2,482,516	\$ 93,430	\$ (3,579)	\$ 2,573,154
Net income				46,520		46,520
Unrealized gain on cash flow hedges					172	172
Change in redemption value of minority interest				(4,376)		(4,376)
Dividends declared to common and preferred stockholders				(69,869)		(69,869)
Issuance of common stock, net of withholdings		49	610,846	(1,740)		609,155
Amortization of deferred compensation			6,451			6,451
Balance at March 31, 2007	\$ 40	\$ 796	\$ 3,099,813	\$ 63,965	\$ (3,407)	\$ 3,161,207

During the three months ended March 31, 2007, the Company:

- (i) Issued 4,600,000 shares of common stock in connection with an equity offering;
- (ii) issued 326,542 shares of common stock in connection with stock options exercised;
- (iii) issued 15,173 shares of common stock to acquire an equal number of DownREIT limited partnership units;
- (iv) issued 534 shares through the Company's dividend reinvestment plan;
- (v) issued 69,576 common shares in connection with stock grants;
- (vi) had 1,904 shares of restricted stock forfeited; and
- (vii) withheld 38,692 shares to satisfy employees' tax withholding and other liabilities.

In addition, the Company granted 339,429 options for common stock to employees. As required under SFAS No. 123(R), any deferred compensation related to the Company's stock option and restricted stock grants during the three months ended March 31, 2007 is not reflected on the Company's Condensed Consolidated Balance Sheet as of March 31, 2007 or above, and will not be reflected until earned as compensation cost.

Dividends per common share were \$0.85 for the three months ended March 31, 2007 and \$0.78 for the three months ended March 31, 2006. The average dividend for all non-redeemed preferred shares for the three months ended March 31, 2007 and 2006 was \$0.54 per share.

In 2004, the Company resumed its Dividend Reinvestment and Stock Purchase Plan (the "DRIP"). The DRIP allows for holders of the Company's common stock or preferred stock to purchase shares of common stock through either reinvested dividends or optional cash payments. The purchase price per share for newly issued shares of common stock under the DRIP will be equal to the last reported sale price for a share of the Company's common stock as reported by the New York Stock Exchange ("NYSE") on the applicable investment date.

5. Derivative Instruments and Hedging Activities

The Company enters into interest rate swap and interest rate cap agreements (collectively, the Hedging Derivatives) to reduce the impact of interest rate fluctuations on its variable rate, tax-exempt bonds and its variable rate conventional secured debt (collectively, the Hedged Debt). The Company has not entered into any interest rate hedge agreements for its conventional unsecured debt and does not enter into derivative transactions for trading or other speculative purposes. The following table summarizes the consolidated Hedging Derivatives at March 31, 2007 (dollars in thousands):

	Interest Rate Caps	Interest Rate Swaps
Notional balance	\$201,787	\$65,343
Weighted average interest rate ⁽¹⁾	5.5%	6.3%
Weighted average capped interest rate	7.8%	n/a
Earliest maturity date	Sep-07	Aug-07
Latest maturity date	Mar-14	Jun-10
Estimated derivative fair value	\$ 96	\$ (2,838)

(1) For interest rate caps, this represents the weighted average interest rate on the debt.

At March 31, 2007, the Company had 11 derivatives designated as cash flow hedges and one derivative not designated as a hedge. For the derivative positions that the Company has determined qualify as effective cash flow hedges under SFAS No. 133, the Company has recorded the effective portion of cumulative changes in the fair value of the Hedging Derivatives in other comprehensive income. Amounts recorded in other comprehensive income will be reclassified into earnings in the periods in which earnings are affected by the hedged cash flow. To adjust the Hedging Derivatives to their fair value, the Company recorded unrealized gains in other comprehensive income of \$172 and \$541 during the three months ended March 31, 2007 and 2006, respectively. These amounts will be reclassified into earnings in conjunction with the periodic adjustment of the floating rates on the Hedged Debt, in interest expense, net. The amount reclassified into earnings for the three months ended March 31, 2007, as well as the estimated amount included in accumulated other comprehensive income as of March 31, 2007, expected to be reclassified into earnings within the next twelve months to offset the variability of cash flows of the hedged items during this period are not material.

The Company assesses both at inception and on an on-going basis, the effectiveness of qualifying cash flow hedges. Hedge ineffectiveness, reported as a component of general and administrative expenses, did not have a material impact on earnings of the Company for any prior period, and the Company does not anticipate that it will have a material effect in the future. The fair values of the Hedging Derivatives are included in accrued expenses and other liabilities on the accompanying Condensed Consolidated Balance Sheets.

Derivative financial instruments expose the Company to credit risk in the event of nonperformance by the counterparties under the terms of the Hedging Derivatives. The Company minimizes its credit risk on these transactions by dealing with major, creditworthy financial institutions which have an A+ or better credit rating by the Standard & Poor's Ratings Group. As part of its on-going control procedures, the Company monitors the credit ratings of counterparties and the exposure of the Company to any single entity, thus minimizing credit risk concentration. The Company believes the likelihood of realizing losses from counterparty non-performance is remote.

6. Investments in Unconsolidated Entities

Investments in Unconsolidated Real Estate Entities

The Company accounts for its investments in unconsolidated real estate entities that are not considered variable interest entities under FIN 46(R) in accordance with EITF Issue No. 04-5. As of March 31, 2007, the Company's investments in unconsolidated real estate entities accounted for under the equity method of accounting consisted of:

15

a 50% limited liability company membership interest in a limited liability company that owns the Avalon Grove community, in which after the limited liability company makes certain distributions to the third-party partner, the Company will generally be entitled to receive 50% of all distributions;

a 20% limited liability company membership interest in the limited liability company that owns the Avalon Chrystie Place I community, in which after the limited liability company makes certain distributions equaling a certain threshold return, to both the Company and its third-party partner, the Company will generally be entitled to receive 50% of all distributions;

a 25% limited liability company membership interest (with a right to 45% of distributions after achievement of a threshold return) in the limited liability company that developed and owns the Avalon at Mission Bay North II community;

a 15.2% combined general partner and indirect limited partner equity interest in the Fund, which owns the following communities: Avalon at Redondo Beach, Avalon Lakeside, Avalon Columbia, Avalon Redmond, Avalon at Poplar Creek, Fuller Martel, Civic Center Place, Paseo Park, Aurora at Yerba Buena, Avalon at Aberdeen Station, The Springs, Cedar Valley and The Covington. During the three months ended March 31, 2007, the Fund acquired the following three communities.

Centerpoint, located within a single downtown city block of Baltimore, Maryland, contains a total of 392 apartment homes and approximately 33,000 square feet of retail space, and was acquired for a purchase price of \$78,500.

Crystal Hill Apartments, a garden-style community consisting of 168 apartment homes located in Pomona, New York, was acquired for a purchase price of \$37,800, and

Middlesex Crossing Apartments, located in Billerica, Massachusetts, was acquired for a purchase price of \$37,100. Middlesex Crossing Apartments is a garden-style community consisting of 252 apartment homes. In addition, as part of the formation of the Fund, the Company provided a guarantee to one of the limited partners. The guarantee provides that, if, upon final liquidation of the Fund, the total amount of all distributions to that partner during the life of the Fund (whether from operating cash flow or property sales) does not equal the total capital contributions made by that partner, then the Company will pay the partner an amount equal to the shortfall, but in no event more than 10% of the total capital contributions made by the partner (maximum of approximately \$3,400 as of March 31, 2007). As of March 31, 2007, the fair value of the real estate assets owned by the Fund is considered adequate to cover such potential payment under a liquidation scenario. The estimated fair value of and the Company's obligation under this guarantee, both at inception and as of March 31, 2007 was not significant and therefore the Company has not recorded any obligation for this guarantee as of March 31, 2007.

The following is a combined summary of the financial position of the entities accounted for using the equity method, as of the dates presented:

	3-31-07 (unaudited)	12-31-06
Assets:		
Real estate, net	\$ 876,208	\$ 707,227
Other assets	33,212	55,716
Total assets	\$ 909,420	\$ 762,943
Liabilities and partners' equity:		
Mortgage notes payable and credit facility	\$ 660,017	\$ 510,784
Other liabilities	40,153	33,505
Partners' equity	209,250	218,654
Total liabilities and partners' equity	\$ 909,420	\$ 762,943

The following is a combined summary of the operating results of the entities accounted for using the equity method, for the periods presented:

	For the three months ended (unaudited)	
	3-31-07	3-31-06
Rental income	\$ 19,214	\$ 14,505
Operating and other expenses	(8,775)	(6,747)
Interest expense, net	(8,526)	(4,908)
Depreciation expense	(5,877)	(3,758)
Net income	\$ (3,964)	\$ (908)

In addition, the Company is subject to the following arrangements related to entities that are not accounted for under the equity method of accounting:

The Company holds a 30% limited liability company membership interest in a limited liability company that owns the Avalon Del Rey community. In conjunction with the construction management services that the Company provided to Avalon Del Rey, the Company provided a construction completion guarantee to the construction loan lender in order to fulfill their standard financing requirements related to construction financing. The obligation of the Company under this guarantee will terminate following satisfaction of the lender's standard completion requirements, which the Company expects to occur in 2007.

The Company provided an operating guarantee to the third-party investor in the limited liability company that owns Avalon Del Rey. This guarantee, which extends until December 2007, provides that if the one-year return for the initial year of the joint venture partner's investment is less than a threshold return of 7% on its initial equity investment, then the Company will pay the joint venture partner an amount equal to the shortfall, up to the 7% threshold return required. As of March 31, 2007, the cash flows and return on investment for Avalon Del Rey are expected to meet and exceed the initial year threshold return required by our joint venture partner. As a result, the Company's obligation under this guarantee is insignificant, and the Company has therefore not recorded any liability associated with this guarantee as of March 31, 2007.

The sale of the 70% ownership interest in 2006 is being accounted for under the deposit method of accounting pursuant to SFAS 66, with the recognition of the sale deferred until the Company is relieved of its obligation under the operating guarantee. Accordingly, the Company continues to consolidate this community for financial reporting purposes, reporting the joint venture partner's interest in the net assets of the limited liability company as a component of accrued expenses and other liabilities, and recognizing the

joint venture partner's interest in the operating results of the limited liability company as a component of minority interest in consolidated partnerships.

The Company holds an option to make a capital contribution to an entity in connection with the pursuit of a Development Right in Pleasant Hill, California. The Company currently does not have any equity or economic interest in this entity. However, due to the nature of the Company's option to make a capital contribution, this entity is considered a variable interest entity under FIN 46(R), where the Company is the primary beneficiary. This entity does not have any operations and has minimal assets and equity, and is therefore not considered a significant variable interest entity.

7. Real Estate Disposition Activities

During the three months ended March 31, 2007, the Company did not sell any communities. During the three months ended March 31, 2006, the Company sold two communities, Avalon Estates, located in the Boston, Massachusetts area, and Avalon Cupertino, located in San Jose, California. These two communities, which contained a total of 473 apartment homes, were sold for an aggregate sales price of \$122,550. The sale of these two communities resulted in a gain as reported in accordance with GAAP of approximately \$65,419.

As of March 31, 2007, the Company had one community, Avalon Del Rey, which qualified as held for sale under the provisions of SFAS No. 144. In 2006, the Company admitted a third-party partner into the joint venture entity that owns Avalon Del Rey (see Note 6, Investments in Unconsolidated Entities). However, due to the operating guarantee provided to the joint venture partner, the Company will account for its investment under the deposit method as required by SFAS No. 66, Accounting for Sales of Real Estate. As a result, the Company has classified the real estate assets (which are net of an impairment charge taken on the land in 2002, as well as accumulated depreciation recorded through December 31, 2006) and the related liabilities for Avalon Del Rey as held for sale, as separate captions in the accompanying Condensed Consolidated Balance Sheets. However, due to the continuing involvement of the Company through its 30% ownership interest and its role as the managing member in the venture, Avalon Del Rey has been and will continue to be reported as a component of continuing operations on the accompanying Condensed Consolidated Financial Statements.

Also, in accordance with the requirements of SFAS No. 144, the operations for any communities sold from January 1, 2006 through March 31, 2007 have been presented as discontinued operations in the accompanying Condensed Consolidated Financial Statements. Accordingly, certain reclassifications have been made in prior periods to reflect discontinued operations consistent with current period presentation.

The following is a summary of income from discontinued operations for the periods presented:

	For the three months ended	
	3-31-07	3-31-06
Rental income	\$	\$ 1,630
Operating and other expenses		(555)
Interest expense, net		
Depreciation expense		
Income from discontinued operations	\$	\$ 1,075

The Company's Condensed Consolidated Balance Sheets include other assets (excluding net real estate) of \$1,941 and \$1,558 as of March 31, 2007 and December 31, 2006, respectively and other liabilities of \$42,792 as of March 31, 2007 and \$42,985 as of December 31, 2006, relating to real estate assets sold or held for sale.

During the three months ended March 31, 2007, the Company sold one parcel of land through a taxable REIT subsidiary, located in the Mid Atlantic, for a sales price of \$5,800, resulting in a GAAP gain of \$545.

8. Segment Reporting

The Company's reportable operating segments include Established Communities, Other Stabilized Communities, and Development/Redevelopment Communities. Annually as of January 1st, the Company determines which of its communities fall into each of these categories and maintains that classification, unless disposition plans regarding a community change, throughout the year for the purpose of reporting segment operations.

Established Communities (also known as Same Store Communities) are communities where a comparison of operating results from the prior year to the current year is meaningful, as these communities were owned and had stabilized occupancy and operating expenses as of the beginning of the prior year. For the year 2007, the Established Communities are communities that are consolidated for financial reporting purposes, had stabilized occupancy and operating expenses as of January 1, 2006, are not conducting or planning to conduct substantial redevelopment activities and are not held for sale or planned for disposition within the current year. A community is considered to have stabilized occupancy at the earlier of (i) attainment of 95% physical occupancy or (ii) the one-year anniversary of completion of development or redevelopment.

Other Stabilized Communities includes all other completed communities that have stabilized occupancy, as defined above. Other Stabilized Communities do not include communities that are conducting or planning to conduct substantial redevelopment activities within the current year.

Development/Redevelopment Communities consists of communities that are under construction and have not received a final certificate of occupancy, communities where substantial redevelopment is in progress or is planned to begin during the current year and communities under lease-up, that had not reached stabilized occupancy, as defined above, as of January 1, 2007.

In addition, the Company owns land held for future development and has other corporate assets that are not allocated to an operating segment.

SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information, requires that segment disclosures present the measure(s) used by the chief operating decision maker for purposes of assessing such segments performance. The Company's chief operating decision maker is comprised of several members of its executive management team who use net operating income (NOI) as the primary financial measure for Established Communities and Other Stabilized Communities. NOI is defined by the Company as total revenue less direct property operating expenses. Although the Company considers NOI a useful measure of a community's or communities' operating performance, NOI should not be considered an alternative to net income or net cash flow from operating activities, as determined in accordance with GAAP. NOI excludes a number of income and expense categories as detailed in the reconciliation of NOI to net income.

A reconciliation of NOI to net income for the three months ended March 31, 2007 and 2006 is as follows:

	For the three months ended	
	3-31-07	3-31-06 (restated)
Net income	\$ 46,520	\$ 111,114
Indirect operating expenses, net of corporate income	6,996	7,435
Investments and investment management	2,024	1,471
Interest expense, net	23,878	28,664
General and administrative expense	6,780	6,283
Equity in income of unconsolidated entities	86	(227)
Minority interest in consolidated partnerships	449	132
Depreciation expense	44,094	40,225
Gain on sale of land	(545)	(13,166)
Gain on sale of communities		(65,419)
Income from discontinued operations		(1,075)

Net operating income	\$ 130,282	\$ 115,437
----------------------	------------	------------

20

The primary performance measure for communities under development or redevelopment depends on the stage of completion. While under development, management monitors actual construction costs against budgeted costs as well as lease-up pace and rent levels compared to budget.

The table below provides details of the Company's segment information as of the dates specified. The segments are classified based on the individual community's status as of the beginning of the given calendar year. Therefore, each year the composition of communities within each business segment is adjusted. Accordingly, the amounts between years are not directly comparable. The accounting policies applicable to the operating segments described above are the same as those described in Note 1, Organization and Significant Accounting Policies. Segment information for the three months ended March 31, 2007 and 2006 has been adjusted for the communities that were sold from January 1, 2006 through March 31, 2007 as described in Note 7, Real Estate Disposition Activities.

		For the three months ended		
	Total		% NOI	
	revenue	NOI	change	Gross
			from prior	real
			year	estate(1)
For the period ended March 31, 2007

Total	\$ 175,159	\$ 115,437	9.6%	\$ 5,818,352

(1) Does not include gross real estate assets held for sale of \$65,405 and \$92,847 as of March 31, 2007 and 2006 respectively.

(2) Revenue represents third-party management, accounting and developer fees and miscellaneous income which are not allocated to a reportable segment.

9. Stock-Based Compensation Plans

The Company has a stock incentive plan (the 1994 Plan), which was amended and restated on December 8, 2004, and amended on February 9, 2006 and December 6, 2006. Individuals who are eligible to participate in the 1994 Plan include officers, other associates, outside directors and other key persons of the Company and its subsidiaries who are responsible for or contribute to the management, growth or profitability of the Company and its subsidiaries. The 1994 Plan authorizes (i) the grant of stock options that qualify as incentive stock options (ISOs) under Section 422 of the Internal Revenue Code, (ii) the grant of stock options that do not so qualify, (iii) grants of shares of restricted and unrestricted common stock, (iv) grants of deferred stock awards, (v) performance share awards entitling the recipient to acquire shares of common stock and (vi) dividend equivalent rights.

Shares of common stock of 2,143,629 and 1,791,861 were available for future option or restricted stock grant awards under the 1994 Plan as of March 31, 2007 and December 31, 2006, respectively. Annually on January 1st, the maximum number available for issuance under the 1994 Plan is increased by between 0.48% and 1.00% of the total number of shares of common stock and DownREIT units actually outstanding on such date. Notwithstanding the foregoing, the maximum number of shares of stock for which ISOs may be issued under the 1994 Plan shall not exceed 2,500,000 and no awards shall be granted under the 1994 Plan after May 11, 2011. Options and restricted stock granted under the 1994 Plan vest and expire over varying periods, as determined by the Compensation Committee of the Board of Directors.

Before the Merger, Avalon had adopted its 1995 Equity Incentive Plan (the Avalon 1995 Incentive Plan). Under the Avalon 1995 Incentive Plan, a maximum number of 3,315,054 shares (or 2,546,956 shares as adjusted for the Merger) of common stock were issuable, plus any shares of common stock represented by awards under Avalon s 1993 Stock Option and Incentive Plan (the Avalon 1993 Plan) that were forfeited, canceled, reacquired by Avalon, satisfied without the issuance of common stock or otherwise terminated (other than by exercise). Options granted to officers, non-employee directors and associates under the Avalon 1995 Incentive Plan generally vested over a three-year term, expire ten years from the date of grant and are exercisable at the market price on the date of grant.

In connection with the Merger, the exercise prices and the number of options under the Avalon 1995 Incentive Plan and the Avalon 1993 Plan were adjusted to reflect the equivalent Bay shares and exercise prices based on the 0.7683 share conversion ratio used in the Merger. Officers, non-employee directors and associates with Avalon 1995 Incentive Plan or Avalon 1993 Plan options may exercise their adjusted number of options for the Company s common stock at the adjusted exercise price. As of June 4, 1998, the date of the Merger, options and other awards ceased to be granted under the Avalon 1993 Plan or the Avalon 1995 Incentive Plan. Accordingly, there were no options to purchase shares of common stock available for grant under the Avalon 1995 Incentive Plan or the Avalon 1993 Plan at March 31, 2007 or 2006.

Information with respect to stock options granted under the 1994 Plan, the Avalon 1995 Incentive Plan and the Avalon 1993 Plan is as follows:

	1994 Plan shares	Weighted average exercise price per share	Avalon 1995 Incentive Plan and Avalon 1993 Plan shares	Weighted average exercise price per share
Options Outstanding, December 31, 2006	2,487,239	\$ 69.65	4,240	\$ 36.81
Exercised	(326,542)	58.78		
Granted	339,429	147.75		
Forfeited	(11,974)	106.09		
Options Outstanding, March 31, 2007	2,488,152	\$ 81.55	4,240	\$ 36.81
Options Exercisable: March 31, 2007	1,369,274	\$ 59.71	4,240	\$ 36.81

For options outstanding at March 31, 2007 under the 1994 Plan, 298,243 options had exercise prices ranging between \$31.50 and \$39.99 and a weighted average remaining contractual life of 3.06 years, 222,274 options had exercise prices ranging between \$40.00 and \$49.99 and a weighted average remaining contractual life of 4.69 years, 254,895 options had exercise prices between \$50.00 and \$59.99 and a weighted average remaining contractual life of 6.88 years, 571,680 options had exercise prices ranging between \$69.93 and \$79.99 and a weighted average remaining contractual life of 7.88 years, 794,704 options had exercise prices ranging between \$81.42 and \$99.99 and a weighted average remaining contractual life of 8.87 years, 10,500 options had exercise prices between \$103.00 and \$123.03 and a weighted average remaining contractual life of 9.25 years, and 335,856 options had exercise prices of \$147.75 and a weighted average remaining contractual life of 9.87 years. Options outstanding and exercisable at March 31, 2007 for the Avalon 1993 and Avalon 1995 Plans had exercise prices ranging from \$35.31 to \$37.66 and a weighted average contractual life of less than one year and an intrinsic value of \$395. Options outstanding under the 1994 Plan at March 31, 2007, had an intrinsic value of \$150,160. Options exercisable at March 31, 2007 under the 1994 plan had a weighted average contractual life of 6.29 years and an intrinsic value of \$96,249. The intrinsic value of options exercised during the three months ended March 31, 2007 and 2006 was \$23,256 and \$17,954, respectively. The weighted average fair value of the options granted during the three months ended March 31, 2007 is estimated at \$21.85 per share on the date of grant using the Black-Scholes option pricing model with the following weighted average assumptions: dividend yield of 4.0% over the expected life of the option, volatility of 17.30%, risk-free interest rates of 4.73% and an expected life of approximately seven years.

The Company issued restricted stock as part of its stock-based compensation plan during the three months ended March 31, 2007. Compensation cost is recognized over the requisite service period, which varies, but does not exceed five years. The fair value of restricted stock is the closing stock price on the date of the grant. Provisions of SFAS 123(R) require the Company to recognize compensation cost taking into consideration retirement eligibility. The cost related to stock-based compensation for restricted stock included in the determination of net income is based on actual forfeitures for the given year. Restricted stock awards typically vest over a five-year period with the exception of accelerated vesting provisions. Restricted stock vesting during the three months ended March 31, 2007 had fair values ranging from \$36.33 to \$147.75 per share. The total fair value of shares vested was \$8,091 for the period ended March 31, 2007.

Total compensation cost recognized in income relating to deferred compensation for the three months ended March 31, 2007 was \$5,539 and total capitalized compensation cost relating to deferred compensation for the three months ended March 31, 2007 was \$912. At March 31, 2007, there was a total of \$14,097 and \$17,003 in unrecognized compensation cost for unvested stock options and unvested restricted stock, respectively. The unrecognized compensation cost for stock options does not take into account estimated forfeitures. The unrecognized compensation cost for unvested stock options and restricted stock is expected to be recognized over a weighted average period of 2.25 years and 2.87 years, respectively.

10. Related Party Arrangements

Unconsolidated Entities

The Company manages unconsolidated real estate entities for which it receives asset management, property management, development and redevelopment fee revenue. From these entities, the Company received fees of \$1,444 and \$1,207 in the three months ended March 31, 2007 and 2006, respectively. These fees are included in management, development and other fees on the accompanying Condensed Consolidated Statements of Operations and Other Comprehensive Income.

In addition, in connection with the construction management services that the Company provided to MVP I, LLC, the entity that owns and developed Avalon at Mission Bay North II, the Company funds certain construction costs that are expected to be reimbursed through construction financing within 30 to 60 days. Construction was completed in 2006, and depending on the timing of such funding, the accompanying Condensed Consolidated Balance Sheets may reflect a corresponding receivable in prepaid expenses and other assets or a corresponding liability in accrued expenses and other liabilities. The Company has recorded receivables in the amounts of \$5,368 as of March 31, 2007 and \$5,654 as of December 31, 2006, from MVP I, LLC.

Director Compensation

The 1994 Plan provides that directors of the Company who are also employees receive no additional compensation for their services as a director. On May 14, 2003, the Company's Board of Directors approved an amendment to the 1994 Plan and certain cash compensation arrangements pursuant to which each non-employee director would receive, following the 2004 Annual Meeting of Stockholders and each annual meeting thereafter, (i) a number of shares of restricted stock (or deferred stock awards) having a value of \$100 based on the last reported sale price of the common stock on the New York Stock Exchange (NYSE) on the fifth business day following the prior year's annual meeting and (ii) \$30 cash, payable in quarterly installments of \$7.5. A non-employee director may elect to receive all or a portion of such cash payment in the form of a deferred stock award. In addition, the Lead Independent Director receives an annual fee of \$30 payable in equal monthly installments of \$2.5. In February 2006, the Company's Board of Directors approved another amendment to the 1994 Plan and modified the cash compensation arrangements under which (i) following the 2006 Annual Meeting of Stockholders the cash payment was adjusted to \$40, payable in quarterly installments of \$10 and (ii) following the 2007 Annual Meeting of Stockholders, the number of shares of restricted stock (or deferred stock awards) will be calculated based on the closing price on the day of the award (rather than the closing price on the award date of the prior year). The Company recorded non-employee director compensation expense relating to the restricted stock grants, deferred stock awards and stock options in the amount of \$90 in the three months ended March 31, 2007 as a component of general and administrative expense. Deferred compensation relating to these restricted stock grants, deferred stock awards and stock options was \$688 and \$778 on March 31, 2007 and December 31, 2006, respectively.

11. Subsequent Events

In April 2007, in connection with a parcel of land owned by the Company in Brooklyn, New York, the Company purchased additional development rights for \$10,500.

In April 2007, a fire at Avalon Danvers, a development community located in Danvers, Massachusetts, damaged 147 of the planned 433 apartment homes. The impacted apartment homes were under construction and unoccupied. The fire did not damage the structures housing the current leasing operations or occupied apartment homes. The Company expects that insurance proceeds will substantially cover the cost to reconstruct all damaged assets as well as provide for a reimbursement of lost net operating income due to schedule delays, resulting in no material net economic loss to the Company.

12. Restatement of Previously Issued Financial Statements

The Company has restated its Condensed Consolidated Balance Sheet as of December 31, 2006 in its Form 10-K/A as filed with the SEC. In addition, the Company has restated its unaudited Condensed Consolidated Statements of Operations and Other Comprehensive Income for the three months ended March 31, 2006, as presented in the table below. The restatement adjustments reflected in the following tables relate to the Company's accounting for long-term land leases, changing the straight-line recognition of lease payments with fixed, or minimum, escalations over the period equal to the non-cancelable portion of the lease term as opposed to the Company's expected holding period of its interest in the asset. This change primarily impacts the land lease accounting related to one consolidated asset with a 90 year lease in which the land lessor is also the partner in the venture holding the asset. The change resulted in an additional non-cash increase to operating expenses of approximately \$2,625, per quarter in excess of the current quarterly cash payments, as well as additional depreciation expense. The effects of the restatement did not impact the total operating, investing or financing cash flows. The cumulative effect of the restatement on the Condensed Consolidated Statements of Operations for the periods affected is as follows:

25

For the three months ended March 31, 2006			
	As Previously		As Restated
Revenue:	Reported	Adjustments	
Rental and other income	\$ 173,952	\$	\$ 173,952

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Management's Discussion and Analysis of Financial Condition and Results of Operations as set forth in this Item 2 contains financial information as of December 31, 2006 and for the three months ended March 31, 2006, that has been revised to reflect the restatement of the Consolidated Financial Statements contained in our Annual Report on Form 10-K for the period ended December 31, 2006, and in our Quarterly Report on Form 10-Q for the period ended March 31, 2006. See Note 12, Restatement of Previously Issued Financial Statements to the Condensed Consolidated Financial Statements included in Item 1 of this report.

Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to help provide an understanding of our business and results of operations. This MD&A should be read in conjunction with our Condensed Consolidated Financial Statements and the accompanying Notes to Condensed Consolidated Financial Statements included elsewhere in this report. This report, including the following MD&A, contains forward-looking statements regarding future events or trends as described more fully under Forward-Looking Statements on page 51 of this report. Actual results or developments could differ materially from those projected in such statements as a result of the risk factors described in Item 1a, Risk Factors, of our Form 10-K/A for the year ended December 31, 2006.

Executive Overview

Business Description

We are primarily engaged in developing, acquiring, owning and operating apartment communities in high barrier-to-entry markets of the United States. We believe that apartment communities present an attractive long-term investment opportunity compared to other real estate investments because a broad potential resident base should help reduce demand volatility over a real estate cycle. However, throughout the real estate cycle, apartment market fundamentals, and therefore operating cash flows, are affected by overall economic conditions. We seek to create long-term shareholder value by accessing capital on cost effective terms; deploying that capital to develop, redevelop and acquire apartment communities in high barrier-to-entry markets; operating apartment communities; and selling communities when they no longer meet our long-term investment strategy or when pricing is attractive.

Barriers-to-entry in our markets generally include a difficult and lengthy entitlement process with local jurisdictions and dense urban or suburban areas where zoned and entitled land is in limited supply.

Our individual markets are located in the Northeast, Mid-Atlantic, Midwest, Pacific Northwest, and Northern and Southern California regions of the United States. Our strategy is to more deeply penetrate these markets with a broad range of products and services and an intense focus on our customer. A substantial majority of our communities are upscale, which generally command among the highest rents in their markets. However, we also pursue the ownership and operation of apartment communities that target a variety of customer segments and price points, consistent with our goal of offering a broad range of products and services.

First Quarter 2007 Highlights

Strong apartment fundamentals continued in the first quarter of 2007, though at a moderating pace from the strong performance experienced in 2006. This is supported by the performance of our Established Community Portfolio (as defined later in this report). Net operating income (NOI) for Established Communities increased 8.5%, driven by an increase in rental revenue of 6.6% partially offset by moderate growth in operating expenses of 2.7%. The revenue growth over the comparable period in 2006 is comprised of an increase in rental rates of 7.0% and a decrease in occupancy of 0.4%.

We continued to focus on creating value through our development activities and pipeline. In the first quarter of 2007, we completed the development of two communities containing 400 apartment homes and the redevelopment of one community containing 409 apartment homes. In addition we began the construction of a wholly-owned apartment community that, upon completion is expected to contain 296 apartment homes for a total capitalized cost of \$125,500,000.

We strengthened our balance sheet through a common stock offering. In conjunction with the inclusion of our common stock in the S&P 500 Index, we issued 4,600,000 shares of our common stock at \$129.30 per share. At March 31, 2007 we have approximately \$356,400,000 in unrestricted cash available.

We obtained an investment interest in three additional communities containing an aggregate of 813 apartment homes and 33,000 of retail space through acquisitions by the Fund (as defined later in this report).

Financial Outlook

We expect continued revenue and net operating income growth from Established Communities for the remainder of 2007, but at a more moderate rate than recent levels. The combination of low home affordability and continued but moderating job growth is expected to support continued favorable apartment fundamentals. The single-family housing market continues to moderate, such that the increase in home prices is flat or down, and for-sale inventory has increased. In addition, the weak for-sale market and concerns about price declines have served to increase the attractiveness of renting versus owning. As a result, the current gap between the cost to rent and the cost to own continues to make rental apartments an economically attractive housing alternative in our markets. These recent trends increase the likelihood that potential homebuyers will extend the period they rent a home. We expect that job growth will continue in our markets, but at a more modest rate in 2007. After two years of low levels of net new apartment supply, the supply of new apartment homes is expected to return to historical levels. Overall, we expect apartment market fundamentals to remain healthy in our markets such that apartment rental demand will outpace new supply. Given these key fundamentals, our current financial outlook provides for rental revenue growth of 5.0% to 6.5% in our Established Community portfolio in 2007, and projected NOI growth of 5.5% to 7.5%.

We expect that our development activity will continue to create value. In positioning for future growth, we have increased our development activity and our investments in Development Rights. We currently have approximately \$1,400,000,000 under construction (measured by total projected capitalized cost of the communities at completion, including the portions in which joint venture partners hold an equity or economic interest). We anticipate our construction activity will remain at or be slightly higher than this level throughout 2007. For new development, the slowing for-sale market has resulted in increased investment opportunities. We are being selective in pursuing these opportunities, given continued high land prices and construction costs. We continue to secure new Development Rights, including the acquisition of land for future development. In the first quarter of 2007, we added Development Rights for construction of new apartment communities that, based on total projected capitalized cost, increased Development Rights by \$400,000,000 to \$4,000,000,000 at March 31, 2007.

Through our investment in and management of AvalonBay Value Added Fund, L.P., a discretionary investment fund (the Fund) in which we hold an interest of approximately 15%, we expect to continue to gain investment interests in existing communities. During its investment period (which will end on or before March 16, 2008), the Fund will be our principal vehicle for acquiring apartment communities, subject to certain exceptions. As of March 31, 2007, the total amount invested by the Fund is \$609,250,000. We expect the Fund to continue to focus on acquisition opportunities where value can be created, generally through redevelopment, repositioning and market cycle timing opportunities.

Real estate capital flows remain strong, with income investors seeking to acquire existing apartment communities. As a result, opportunities to realize value upon disposition have continued to be available. We expect asset sales of approximately \$150,000,000 to \$200,000,000 in 2007.

Community Information Overview

Our real estate investments consist primarily of current operating apartment communities, communities in various stages of development (Development Communities) and Development Rights as defined below. Our current operating communities and our Development Communities include communities in which we hold a direct and indirect ownership interest.

Our current operating communities are further distinguished as follows:

Established Communities (also known as Same Store Communities) are consolidated communities that have stabilized occupancy and operating expenses as of January 1, 2006, and are not Redevelopment Communities, as defined below. A community has stabilized occupancy at the earlier of (i) attainment of 95% physical occupancy or (ii) the one-year anniversary of completion of development or redevelopment.

Other Stabilized Communities are all other completed communities with stabilized occupancy, as defined above, other than Redevelopment Communities as defined below.

Lease-Up Communities are communities where construction has been complete for less than one year and where physical occupancy has not reached 95%.

Redevelopment Communities are communities where substantial redevelopment is in progress or is planned to begin during the current year. For wholly owned communities, redevelopment is considered substantial when capital invested during the reconstruction effort is expected to exceed the lesser of \$5,000,000 or 10% of the community's acquisition cost. The definition of substantial redevelopment may differ for communities that are not wholly owned.

Development Communities are communities that are under construction and for which a final certificate of occupancy has not been received. These communities may be partially complete and operating.

Development Rights are development opportunities in the early phase of the development process for which we have an option to either acquire land or enter into a leasehold interest, for which we are the buyer under a long-term conditional contract to purchase land or where we own land to develop a new community.

We generally evaluate overall operating, industry and market trends based on the operating results of Established Communities, for which a detailed discussion can be found in *Results of Operations* as part of our discussion of overall operating results. We focus on the net operating income of our current operating communities, as defined later in this report, as one of the financial measures to evaluate community performance. We evaluate our current and future cash needs and future operating potential based on acquisition, disposition, development, redevelopment and financing activities within Other Stabilized, Redevelopment and Development Communities, and discussions related to these segments of our business can be found in *Liquidity and Capital Resources*.

As of March 31, 2007, the composition of our current direct and indirect ownership interests in apartment communities and Development Rights is as follows:

	Number of communities	Number of apartment homes
Current Communities		
Established Communities:		
Northeast	42	11,348
Mid-Atlantic	18	5,933
Midwest	3	887
Pacific Northwest	9	2,278
Northern California	26	7,855
Southern California	9	2,424
Total Established	107	30,725
Other Stabilized Communities:		
Northeast	14	3,834
Mid-Atlantic	5	1,269
Midwest	3	869
Pacific Northwest	2	433
Northern California	6	1,198
Southern California	8	3,052
Total Other Stabilized	38	10,655
Lease-Up Communities	4	919
Redevelopment Communities	6	2,054
Total Current Communities	155	44,353
Development Communities	16	5,049
Development Rights	56	14,809

Results of Operation

Our year-over-year operating performance is primarily affected by changes in net operating income of our current operating apartment communities due to market conditions; net operating income derived from acquisitions and development completions; the loss of net operating income related to disposed communities; and capital market, disposition and financing activity. A comparison of our operating results for the three months ended March 31, 2007 and 2006 follows (dollars in thousands):

Edgar Filing: AVALONBAY COMMUNITIES INC - Form 10-Q

		For the three months ended 3-31-06		
	3-31-07	(restated)	\$ Change	% Change
Revenue:				
Rental and other income	\$ 195,262	\$ 173,952	\$ 21,310	12.3%
Management, development and other fees	1,444	1,207	237	19.6%
Total revenue	196,706	175,159	21,547	12.3%
Expenses:				
Direct property operating expenses, excluding property taxes	47,255	41,622	5,633	13.5%
Property taxes	17,726	16,904	822	4.9%
Total community operating expenses	64,981	58,526	6,455	11.0%
Corporate-level property management and other indirect operating expenses	8,439	8,631	(192)	(2.2%)
Investments and investment management	2,024	1,471	553	37.6%
Interest expense, net	23,878	28,664	(4,786)	(16.7%)
Depreciation expense	44,094	40,225	3,869	9.6%
General and administrative expense	6,780	6,283	497	7.9%
Total other expenses	85,215	85,274	(59)	(0.1%)
Gain on sale of land	545	13,166	(12,621)	(95.9%)
Equity in income of unconsolidated entities	(86)	227	(313)	(137.9%)
Minority interest in consolidated partnerships	(449)	(132)	(317)	240.2%
Income from continuing operations	46,520	44,620	1,900	4.3%
Discontinued operations:				
Income from discontinued operations		1,075	(1,075)	(100.0%)
Gain on sale of communities		65,419	(65,419)	(100.0%)
Total discontinued operations		66,494	(66,494)	(100.0%)
Net Income	46,520	111,114	(64,594)	(58.1%)
Dividends attributable to preferred stock	(2,175)	(2,175)		0.0%
Net income available to common stockholders	\$ 44,345	\$ 108,939	\$ (64,594)	(59.3%)

Net income available to common stockholders decreased \$64,594,000 or 59.3%, to \$44,345,000 for the three months ended March 31, 2007. This decrease is primarily attributable to asset sales and related gains occurring in the first quarter of 2006, partially offset by growth in net operating income from Established Communities and contributions to net operating income from newly developed communities in 2007.

Net operating income (NOI) is considered by management to be an important and appropriate supplemental performance measure to net income because it helps both investors and management to understand the core operations of a community or communities prior to the allocation of any corporate-level or financing-related costs. NOI reflects the operating performance of a community and allows for an easy comparison of the operating performance of individual assets or groups of assets. In addition, because prospective buyers of real estate have different financing and overhead structures, with varying marginal impacts to overhead by acquiring real estate, NOI is considered by many in the real estate industry to be a useful measure for determining the value of a real estate asset or group of assets. We define NOI as total property revenue less direct property operating expenses, including property taxes. NOI does not represent cash generated from operating activities in accordance with GAAP. Therefore, NOI should not be considered an alternative to net income as an indication of our performance. NOI should also not be considered an alternative to net cash flow from operating activities, as determined by GAAP, as a measure of liquidity, nor is NOI necessarily indicative of cash available to fund cash needs. A calculation of NOI for the three months ended March 31, 2007 and 2006, along with reconciliation to net income for each year, is as follows (dollars in thousands):

	For the three months ended	
	3-31-07	3-31-06 (restated)
Net income	\$ 46,520	\$ 111,114
Indirect operating expenses, net of corporate income	6,996	7,435
Investments and investment management	2,024	1,471
Interest expense, net	23,878	28,664
General and administrative expense	6,780	6,283
Equity in income of unconsolidated entities	86	(227)
Minority interest in consolidated partnerships	449	132
Depreciation expense	44,094	40,225
Gain on sale of real estate assets	(545)	(78,585)
Income from discontinued operations		(1,075)
Net operating income	\$ 130,282	\$ 115,437

The NOI increase of \$14,845,000 during the three months ended March 31, 2007, as compared to the prior year period, consists of changes in the following categories (dollars in thousands):

	3-31-07
Established Communities	\$ 8,550
Other Stabilized Communities	4,230
Development and Redevelopment Communities	2,065
Total	\$ 14,845

The NOI increase in Established Communities in 2007 was largely due to the continued strong apartment market fundamentals. For the three months ended March 31, 2007, we continued to focus on rental rate growth, while maintaining occupancy of at least 95% in all regions. We anticipate that increases in rental rates and overall rental revenue growth will moderate during the remainder of 2007, as we expect continued but moderating job growth (demand) and increased net supply as compared to recent periods. We expect revenue growth from our Established Communities of 5.0% to 6.5% in 2007 as compared to 2006. There is upward pressure on operating expenses from increasing utility, labor, and property tax expenses.

Rental and other income increased in the three months ended March 31, 2007 as compared to the prior year period due to increased rental rates for our Established Communities, coupled with additional rental income generated from newly developed communities.

Overall Portfolio The weighted average number of occupied apartment homes increased to 38,047 apartment homes for the three months ended March 31, 2007 as compared to 36,121 for the prior year period. This change is primarily the result of increased homes available from newly developed and acquired communities, partially offset by communities sold in 2006 as well as a slight decline in occupied apartment homes for our Established Communities. The weighted average monthly revenue per occupied apartment home increased to \$1,709 for the three months ended March 31, 2007 as compared to \$1,591 in the prior year period.

Established Communities Rental revenue increased \$9,879,000, or 6.6%, for the three months ended March 31, 2007 over the prior year period. This increase is due to an increase in average rental rates, partially offset by a decrease in economic occupancy. For the three months ended March 31, 2007, the weighted average monthly revenue per occupied apartment home increased 7.0% to \$1,760 compared to

\$1,645 in the prior year period, primarily due to increased market rents and the decrease in the amortization of concessions. The higher amortization recognized in the first quarter of 2006 was due to the higher levels of concessions granted in prior periods. The average economic occupancy decreased from 96.5% for the three months ended March 31, 2006 to 96.1% for the three months ended March 31, 2007. Economic occupancy takes into account the fact that apartment homes of different sizes and locations within a community have different economic impacts on a community's gross revenue. Economic occupancy is defined as gross potential revenue less vacancy loss, as a percentage of gross potential revenue. Gross potential revenue is determined by valuing occupied homes at leased rates and vacant homes at market rents.

We experienced increases in Established Communities' rental revenue in all six of our regions for the three months ended March 31, 2007 as compared to the prior year period. The largest increases in rental revenue were in the Pacific Northwest, the Midwest and Northern California, with increases of 12.7%, 9.5% and 9.1%, respectively, between years. The Northeast and Northern California regions comprise the majority of our Established Community revenue, and therefore are discussed in more detail below.

Northern California, which represented approximately 24.4% of Established Community rental revenue during the three months ended March 31, 2007, experienced an increase in rental revenue of 9.1% as compared to the prior year period. Average rental rates increased by 9.4% to \$1,649, and economic occupancy decreased 0.3% to 96.9% for the three months ended March 31, 2007. Apartment fundamentals remain strong in Northern California and we expect Northern California to see continued but moderating revenue growth during the remainder of 2007.

The Northeast region, which accounted for approximately 42.5% of Established Community rental revenue for the three months ended March 31, 2007, experienced an increase in rental revenue of 4.0% for the three months ended March 31, 2007 as compared to the prior year period. Average rental rates increased 4.4% to \$2,100, and economic occupancy decreased 0.4% to 95.9% for the three months ended March 31, 2007. We expect job growth in 2007 to increase slightly over the growth levels experienced in 2006 in the Northeast and net supply to increase. However, we expect overall apartment fundamentals will remain favorable, resulting in moderate rental rate growth in the Northeast during the remainder of 2007. We expect that Northern New Jersey will lead the region in revenue growth as a result of the strong apartment fundamentals in neighboring New York City. However, we expect Boston, Massachusetts will lag the region in revenue growth, as the positive impact of improving regional job growth will be largely offset by new apartment deliveries.

In accordance with GAAP, cash concessions are amortized as an offset to rental revenue over the approximate lease term, which is generally one year. As a supplemental measure, we also present rental revenue with concessions stated on a cash basis to help investors evaluate the impact of both current and historical concessions on GAAP based rental revenue and to more readily enable comparisons to revenue as reported by other companies. Rental revenue with concessions stated on a cash basis also allows investors to understand historical trends in cash concessions, as well as current rental market conditions.

The following table reconciles total rental revenue in conformity with GAAP to total rental revenue adjusted to state concessions on a cash basis for our Established Communities for the three months ended March 31, 2007 and 2006 (dollars in thousands).

	For the three months ended	
	3-31-07	3-31-06
Rental revenue (GAAP basis)	\$ 159,507	\$ 149,628
Concessions amortized	1,491	4,485
Concessions granted	(1,424)	(1,692)
Rental revenue adjusted to state concessions on a cash basis	\$ 159,574	\$ 152,421

Year-over-year % change	GAAP revenue	6.6%	n/a
-------------------------	--------------	------	-----

Year-over-year % change	cash concession based revenue	4.7%	n/a
-------------------------	-------------------------------	------	-----

Management, development and other fees increased for the three months ended March 31, 2007 due to increased asset management, property management and redevelopment fees earned from the Fund, which was formed in March 2005, and continues to grow through purchases, acquiring three more communities in the three months ended March 31, 2007. In addition, construction and development fees earned from unconsolidated entities for the three months ended March 31, 2007, contributed to increased fee income.

Direct property operating expenses, excluding property taxes increased in the three months ended March 31, 2007 as compared to the same period of 2006, primarily due to the addition of recently developed and acquired apartment homes coupled with expense growth in our Established Communities.

For Established Communities, direct property operating expenses, excluding property taxes, increased \$1,708,000, or 4.9%, to \$36,854,000 for the three months ended March 31, 2007 due primarily to increases in payroll, utilities, marketing and other maintenance expenses. We expect to see continued pressure on payroll and utilities in 2007, primarily as a result of continued higher utility and payroll costs.

Property taxes increased for the three months ended March 31, 2007 over the prior year period due to overall higher assessments and the addition of newly developed and redeveloped apartment homes, and are impacted by the size and timing of successful tax appeals in both years.

For Established Communities, property taxes decreased by \$375,000, or 2.6%, for the three months ended March 31, 2007, due to the timing of successful tax appeals, partially offset by overall higher assessments throughout all regions. Period over period changes are impacted by the size and timing of successful tax appeals. We expect property taxes to increase in 2007 as compared to 2006 to reflect increased valuations. However, property tax increases are mitigated for communities in California, where increases in property taxes are limited by law (Proposition 13). We evaluate property tax increases internally, as well as engage third-party consultants, and appeal increases when appropriate.

Corporate-level property management and other indirect operating expenses decreased for the three months ended March 31, 2007 over the prior year period due primarily to vacant staff positions and decreased costs relating to corporate initiatives focused on increasing efficiency and enhancing controls at our operating communities.

Investments and investment management reflects the costs incurred related to investment acquisitions, investment management and abandoned pursuit costs, which include costs incurred on development pursuits not yet considered probable for development, as well as the abandonment or impairment of development pursuits, acquisition pursuits and disposition pursuits. Investments and investment management increased for the three months ended March 31, 2007 as compared to the prior year period due primarily to increased abandoned pursuit costs, as well as increased compensation costs and increased staffing related to management of the Fund redevelopment activity. Abandoned pursuit costs were \$787,000 for the three months ended March 31, 2007 and \$322,000 for the three months ended March 31, 2006. Abandoned pursuit costs can be volatile, and the costs incurred in any given period may vary significantly in future periods.

Interest expense, net decreased for the three months ended March 31, 2007 as compared to the prior year period due primarily to higher levels of capitalized interest in connection with our increased development activity, lower average outstanding balances on our unsecured credit facility and increased interest income. Interest income increased for the three months ended March 31, 2007 due to higher invested cash balances as well as increases in the interest rate earned on cash deposits, offset partially by interest income in 2006 from an escrow funded from a disposition in 2005 that was used in a tax-deferred exchange.

Depreciation expense increased for the three months ended March 31, 2007 as compared to the prior year period primarily due to the completion of development and redevelopment activities.

General and administrative expense (G&A) increased for the three months ended March 31, 2007 relative to the prior year periods primarily due to the incurrence in 2007 of professional and legal fees related to various litigation matters of approximately \$450,000. We expect expensed overhead costs, including G&A, corporate-level property management and investments and investment management, to increase approximately 6.0% to 7.5% in 2007 as compared to 2006 in support of the Company's continued growth.

Gain on sale of land in the three months ended March 31, 2007 represents the gain on sale of one land parcel located in Kensington, Maryland. During the three months ended March 31, 2006, we sold one land parcel located in the Northern New Jersey area.

Equity in income of unconsolidated entities for the three months ended March 31, 2007 decreased from the prior year period due primarily to losses associated with two unconsolidated investments, the consolidation in 2007 of a community that was not consolidated as of March 31, 2006, coupled with the disposition of an investment in an unconsolidated entity in the fourth quarter of 2006.

Minority interest in consolidated partnerships decreased for the three months ended March 31, 2007 as compared to the prior year period due to the conversion of limited partnership units, thereby reducing outside ownership interests and the allocation of net income to outside ownership interests.

Income from discontinued operations represents the net income generated by communities sold during the period from January 1, 2006 through March 31, 2007. See Note 7, Real Estate Disposition Activities, of our Consolidated Financial Statements.

Gain on sale of real estate assets decreased for the three months ended March 31, 2007 as compared to the prior year period as there were no dispositions in the first quarter of 2007, as compared to the disposition of two communities in the prior year period. The amount of gain realized in any given reporting period depends on many factors, including the number of communities sold, the size and carrying value of those communities and the sales prices, which are driven by local and national market conditions.

Funds from Operations Attributable to Common Stockholders (FFO)

FFO is considered by management to be an appropriate supplemental measure of our operating and financial performance. In calculating FFO, we exclude gains or losses related to dispositions of previously depreciated property and exclude real estate depreciation. These amounts are generally excluded in the industry definition of FFO as amounts can vary among owners of identical assets in similar condition based on historical cost accounting and useful life estimates. FFO can help one compare the operating performance of a real estate company between

periods or as compared to different companies. We believe that in order to understand our operating results, FFO should be examined with net income as presented in our Consolidated Financial Statements included elsewhere in this report.

Consistent with the definition adopted by the Board of Governors of the National Association of Real Estate Investment Trusts^â (NAREIT), we calculate FFO as net income or loss computed in accordance with GAAP, adjusted for:

gains or losses on sales of previously depreciated operating communities;

extraordinary gains or losses (as defined by GAAP);

depreciation of real estate assets; and

adjustments for unconsolidated partnerships and joint ventures.

FFO does not represent net income in accordance with GAAP, and therefore it should not be considered an alternative to net income, which remains the primary measure, as an indication of our performance. In addition, FFO as calculated by other REITs may not be comparable to our calculation of FFO.

The following is a reconciliation of net income to FFO (dollars in thousands, except per share data):

	For the three months ended	
	3-31-07	3-31-06 (restated)
Net income	\$ 46,520	\$ 111,114
Dividends attributable to preferred stock	(2,175)	(2,175)
Depreciation real estate assets, including discontinued operations and joint venture adjustments	44,685	40,570
Minority interest expense, including discontinued operations	88	99
Gain on sale of operating communities		(65,419)
Funds from operations attributable to common stockholders	\$ 89,118	\$ 84,189
Weighted average common shares outstanding diluted	79,930,748	75,290,124
EPS per common share diluted	\$ 0.56	\$ 1.45
FFO per common share diluted	\$ 1.11	\$ 1.12

FFO also does not represent cash generated from operating activities in accordance with GAAP, and therefore should not be considered an alternative to net cash flows from operating activities, as determined by GAAP, as a measure of liquidity. Additionally, it is not necessarily indicative of cash available to fund cash needs.

A presentation of GAAP based cash flow metrics is as follows (dollars in thousands) and a discussion of Liquidity and Capital Resources can be found below.

	For the three months ended	
	3-31-07	3-31-06 (restated)
Net cash provided by operating activities	\$ 99,188	\$ 73,912
Net cash (used)/provided by investing activities	\$ (285,266)	\$ 85,133

Net cash provided by/(used) in financing activities	\$ 533,946	\$ (109,282)
---	------------	--------------

Liquidity and Capital Resources

Factors affecting our liquidity and capital resources are our cash flows from operations, financing activities and investing activities, as well as general economic and market conditions. Operating cash flow has historically been determined by: (i) the number of apartment homes currently owned, (ii) rental rates, (iii) occupancy levels and (iv) operating expenses with respect to apartment homes. The timing, source and amount of cash flows provided by financing activities and used in investing activities are sensitive to the capital markets environment, particularly to changes in interest rates. The timing and type of capital markets activity in which we engage, as well as our plans for development, redevelopment, acquisition and disposition activity, are affected by changes in the capital markets environment, such as changes in interest rates or the availability of cost-effective capital.

We regularly review our liquidity needs, the adequacy of cash flows from operations, and other expected liquidity sources to meet these needs. We believe our principal short-term liquidity needs are to fund:

- normal recurring operating expenses;

- debt service and maturity payments;

- preferred stock dividends and DownREIT partnership unit distributions;

- the minimum dividend payments on our common stock required to maintain our REIT qualification under the Internal Revenue Code of 1986;

- development and redevelopment activity in which we are currently engaged; and

- capital calls for the Fund, as required.

We anticipate that we can fully satisfy these needs from a combination of cash flow provided by operating activities, proceeds from asset dispositions and borrowing capacity under our variable rate unsecured credit facility, as well as other public or private sources of liquidity.

Cash and cash equivalents totaled \$356,435,000 at March 31, 2007, an increase of \$347,868,000 from \$8,567,000 at December 31, 2006. The following discussion relates to changes in cash due to operating, investing and financing activities, which are presented in our Condensed Consolidated Statements of Cash Flows included elsewhere in this report.

Operating Activities Net cash provided by operating activities increased to \$99,188,000 in the three months ended March 31, 2007 from \$73,912,000 in the three months ended March 31, 2006. The increase was driven primarily by the additional NOI from our Established Communities operations, as well as NOI from recently developed communities, partially offset by the loss of NOI from the two communities sold in the first quarter of 2006, as discussed elsewhere in this report.

Investing Activities Net cash used in investing activities of \$285,266,000 in the three months ended March 31, 2007 related to investments in assets through the development and redevelopment of apartment communities and the acquisition of a land parcel, partially offset by proceeds from the disposition of a land parcel. During the three months ended March 31, 2007, we invested \$292,005,000 in the purchase and development of the following real estate and capital expenditures:

- We completed the development of two communities containing a total of 400 apartment homes for a total capitalized cost, including land acquisition cost, of \$92,000,000.

- We completed the redevelopment of one consolidated community containing 409 apartment homes for a total capitalized cost of \$6,700,000, excluding costs incurred prior to redevelopment.

- We acquired one parcel of land in connection with Development Rights, for an aggregate purchase price of \$70,000,000.

We had capital expenditures relating to current communities' real estate assets of \$355,000 and non-real estate capital expenditures of \$568,000.

Financing Activities Net cash provided by financing activities totaled \$533,946,000 in the three months ended March 31, 2007. The net cash inflow is due primarily to the proceeds from the issuance of 4,600,000 shares of the Company's common stock at \$129.30 per share.

This issuance was in conjunction with the inclusion of our common stock in the S&P 500 Index. In addition, net cash provided by financing activities includes the issuance of common stock for option exercises partially offset by the repayment of a secured mortgage loan, and dividends paid. See Note 3, Notes Payable, Unsecured Notes and Credit Facility, and Note 4, Stockholders Equity, of our Consolidated Financial Statements, for additional information.

Variable Rate Unsecured Credit Facility

We currently have a \$650,000,000 revolving variable rate unsecured credit facility with a syndicate of commercial banks. Under the terms of the credit facility, we may elect to increase the facility up to \$1,000,000,000, provided that one or more banks (from the syndicate or otherwise) voluntarily agree to provide the additional commitment. No member of the syndicate of banks can prohibit such an increase; such an increase in the facility will only be effective to the extent banks (from the syndicate or otherwise) choose to commit to lend additional funds. We pay participating banks, in the aggregate, an annual facility fee of approximately \$813,000. The unsecured credit facility bears interest at varying levels based on the London Interbank Offered Rate (LIBOR), our credit rating and on a maturity schedule selected by us. The current stated pricing is LIBOR plus 0.40% per annum (5.72% on April 30, 2007). The spread over LIBOR can vary from LIBOR plus 0.325% to LIBOR plus 1.00% based on our credit rating. In addition, a competitive bid option is available for borrowings of up to \$422,500,000. This option allows banks that are part of the lender consortium to bid to provide us loans at a rate that is lower than the stated pricing provided by the unsecured credit facility. The competitive bid option may result in lower pricing if market conditions allow. We had no outstanding balance under this competitive bid option at April 30, 2007. We are subject to certain customary covenants under the unsecured credit facility, including, but not limited to, maintaining certain maximum leverage ratios, a minimum fixed charges coverage ratio and minimum unencumbered assets and equity levels. The credit facility matures in November 2011, assuming our exercise of a one-year renewal option. At April 30, 2007, no amounts were outstanding on the credit facility, \$37,443,000 was used to provide letters of credit and \$612,557,000 was available for borrowing under the unsecured credit facility.

Future Financing and Capital Needs Debt Maturities

One of our principal long-term liquidity needs is the repayment of long-term debt at the time that such debt matures. For unsecured notes, we anticipate that no significant portion of the principal of these notes will be repaid prior to maturity. If we do not have funds on hand sufficient to repay our indebtedness as it becomes due, it will be necessary for us to refinance the debt. This refinancing may be accomplished by uncollateralized private or public debt offerings, additional debt financing that is collateralized by mortgages on individual communities or groups of communities, draws on our unsecured credit facility or by additional equity offerings. Although we believe we will have the capacity to meet our long-term liquidity needs, we cannot assure you that additional debt financing or debt or equity offerings will be available or, if available, that they will be on terms we consider satisfactory.

Edgar Filing: AVALONBAY COMMUNITIES INC - Form 10-Q

The table below details debt maturities for the next five years, excluding our unsecured credit facility, for debt outstanding at March 31, 2007 (dollars in thousands).

Community	Principal interest rate(1)	Maturity date	Balance outstanding		2007	2008	Scheduled maturities				Thereafter	
			12-31-06	3-31-07			2009	2010	2011

Future Financing and Capital Needs Portfolio and Other Activity

As of March 31, 2007, we had 16 new communities under construction, for which a total estimated cost of \$603,945,000 remained to be invested. In addition, we had six communities which we own, or in which we have a direct or indirect interest, under reconstruction, for which a total estimated cost of \$10,784,000 remained to be invested. Substantially all of the capital expenditures necessary to complete the communities currently under construction and reconstruction, as well as development costs related to pursuing Development Rights, will be funded from:

cash currently on hand invested in highly liquid overnight money market funds and repurchase agreements, and short term investment vehicles;

the remaining capacity under our current \$650,000,000 unsecured credit facility;

the net proceeds from sales of existing communities;

retained operating cash;

the issuance of debt or equity securities (including proceeds from the recent stock offering); and/or

private equity funding.

Before planned reconstruction activity, including reconstruction activity related to communities acquired by the Fund as discussed below, or the construction of a Development Right begins, we intend to arrange adequate financing to complete these undertakings, although we cannot assure you that we will be able to obtain such financing. In the event that financing cannot be obtained, we may have to abandon Development Rights, write-off associated pre-development costs that were capitalized and/or forego reconstruction activity. In such instances, we will not realize the increased revenues and earnings that we expected from such Development Rights or reconstruction activity and significant losses could be incurred.

We have invested in the Fund, a private, discretionary investment vehicle that acquires and operates apartment communities in our markets. The Fund will serve, until March 16, 2008 or until all of its capital commitments have been invested or committed for investment, as the principal vehicle through which we will invest in the acquisition of apartment communities, subject to certain exceptions. These exceptions include significant individual asset and portfolio acquisitions, properties acquired in tax-deferred transactions and acquisitions that are inadvisable or inappropriate for the Fund. The Fund will not restrict our development activities, and will terminate after a term of eight years, subject to two one-year extensions. The Fund has nine institutional investors, including us, with a combined capital equity commitment of \$330,000,000. A significant portion of the investments made in the Fund by its investors are being made through AvalonBay Value Added Fund, Inc., a Maryland corporation that qualifies as a REIT under the Internal Revenue Code (the Fund REIT). A wholly owned subsidiary of the Company is the general partner of the Fund and has committed \$50,000,000 to the Fund and the Fund REIT (of which approximately \$22,944,000 has been invested as of April 30, 2007) representing a 15.2% combined general partner and limited partner equity interest. As of April 30, 2007, the Fund has committed to invest approximately \$650,000,000, and has remaining capacity to invest approximately \$225,000,000. Based on our prior experience, our acquisition pipeline and current market conditions, we expect that the Fund will be fully invested or committed to invest by 2008. We are exploring various potential sources for funding future acquisitions after the Fund is fully invested, including a vehicle which, like the Fund, would serve during its term as the exclusive vehicle through which we would acquire apartment communities, subject to certain exceptions.

From time to time we use joint ventures to hold or develop individual real estate assets. We generally employ joint ventures primarily to mitigate asset concentration or market risk or secondarily as a source of liquidity. We may also use joint ventures related to mixed-use land development opportunities where our partners bring development and operational expertise to the venture. Each joint venture or partnership agreement has been and will continue to be individually negotiated, and our ability to operate and/or dispose of a community in our sole discretion may be limited

to varying degrees depending on the terms of the joint venture or partnership agreement. However, we cannot assure you that we will achieve our objectives through joint ventures.

In evaluating our allocation of capital within our markets, we sell assets that do not meet our long-term investment criteria or when capital and real estate markets allow us to realize a portion of the value created over the past business cycle and redeploy the proceeds from those sales to develop and redevelop communities. Because the proceeds from the sale of communities may not be immediately redeployed into revenue generating assets, the immediate effect of a sale of a community for a gain is to increase net income, but reduce future total revenues, total expenses and NOI. However, we believe that the absence of future cash flows from communities sold will have a minimal impact on our ability to fund future liquidity and capital resource needs.

Off Balance Sheet Arrangements

In addition to the investment interests in consolidated and unconsolidated real estate entities, we have certain off-balance sheet arrangements with the entities in which we invest. Additional discussion of these entities can be found in Note 6, Investments in Unconsolidated Entities, and Note 8, Commitments and Contingencies, of our Condensed Consolidated Financial Statements located elsewhere in this report.

CVP I, LLC has outstanding tax-exempt, variable rate bonds maturing in November 2036 in the amount of \$117,000,000, which have permanent credit enhancement. We have agreed to guarantee, under limited circumstances, the repayment to the credit enhancer of any advances it may make in fulfillment of CVP I, LLC's repayment obligations under the bonds. We have also guaranteed to the credit enhancer that CVP I, LLC will obtain a final certificate of occupancy for the project (Chrystie Place in New York City) overall once tenant improvements related to a retail tenant are complete, which is expected in 2007. Our 80% partner in this venture has agreed that it will reimburse us its pro rata share of any amounts paid relative to these guaranteed obligations. The estimated fair value of, and our obligation under these guarantees, both at inception and as of March 31, 2007 were not significant. As a result we have not recorded any obligation associated with these guarantees at March 31, 2007.

MVP I, LLC has a construction loan in the amount of \$94,400,000 (of which \$83,916,000 is outstanding as of March 31, 2007), which matures in September 2010, assuming exercise of two one-year renewal options, and is payable by the unconsolidated real estate entity. In connection with the construction management services that we provided to MVP I, LLC, the entity that owns and developed Avalon at Mission Bay North II in San Francisco, we have provided a construction completion guarantee to the lender in order to fulfill their standard financing requirements related to the construction financing. Construction was completed in 2006, and our obligations under this guarantee will terminate once all of the lender's standard completion requirements have been satisfied, which we currently expect to occur in 2007. The estimated fair value of and our obligation under this guarantee, both at inception and as of March 31, 2007 was not significant and therefore no liability has been recorded related to this construction completion guarantee as of March 31, 2007.

The Fund has 13 mortgage loans with amounts outstanding in the aggregate of \$271,701,000. These mortgage loans have varying maturity dates (or dates after which the loans can be prepaid), ranging from October 2011 to October 2014. These mortgage loans are secured by the underlying real estate. In addition, the Fund had amounts outstanding of \$187,400,000 as of March 31, 2007 under its credit facilities. These borrowings include \$139,400,000 in borrowings under the Fund's credit facility secured by uncalled capital commitments maturing in January 2008 and \$48,000,000 in borrowings under a separate unsecured credit facility maturing in December 2008. The mortgage loans and the credit facility are payable by the Fund with operating cash flow from the underlying real estate, and the credit facility is secured by capital commitments. We have not guaranteed the debt of the Fund, nor do we have any obligation to fund this debt should the Fund be unable to do so.

In addition, as part of the formation of the Fund, we have provided to one of the limited partners a guarantee. The guarantee provides that if, upon final liquidation of the Fund, the total amount of all distributions to that partner during the life of the Fund (whether from operating cash flow or property sales) does not equal a minimum of the total capital contributions made by that partner, then we will pay the partner an amount equal to the shortfall, but in no event more than 10% of the total capital contributions made by the partner (maximum of approximately \$3,400,000 as of March 31, 2007). As of March 31, 2007, the fair value of the real estate assets owned by the Fund is considered adequate to cover such potential payment to that partner under a liquidation scenario. The estimated fair value of, and our obligation under this guarantee, both at inception and as of March 31, 2007 was not significant and therefore we have not recorded any obligation for this guarantee as of March 31, 2007.

In connection with the pursuit of a Development Right in Pleasant Hill, California, \$125,000,000 in bond financing was issued by the Contra Costa County Redevelopment Agency (the Agency) in connection with the possible future construction of a multifamily rental community by PHVP I, LLC. The bond proceeds were immediately invested in their entirety in a guaranteed investment contract (GIC) administered by a trustee. This Development Right is planned as a mixed-use development, with residential, for-sale, retail and office components. The bond proceeds will remain in the GIC until at least June 1, 2007, but no later than December 5, 2007, at which time a loan will be made to PHVP I, LLC to fund construction of the multifamily portion of the development, or the bonds will be redeemed by the Agency. Although we do not have any equity or economic interest in PHVP I, LLC at this time, we do have an option to make a capital contribution to PHVP I, LLC in exchange for a 99% general partner interest in the entity. Should we decide not to exercise this option, the bonds will be redeemed, and a loan will not be made to PHVP I, LLC. The bonds are payable from the proceeds of the GIC and are non-recourse to both PHVP I, LLC and to us. There is no loan payable outstanding by PHVP I, LLC as of March 31, 2007.

In addition, as part of providing construction management services to PHVP I, LLC for the construction of a public garage, we have provided a construction completion guarantee to the related lender in order to fulfill their standard financing requirements related to the garage construction financing. Our obligations under this guarantee will terminate following construction completion of the garage once all of the lender's standard completion requirements have been satisfied, which we currently expect to occur in 2008. In the third quarter of 2006, significant modifications were requested by the local transit authority to change the garage structure design. We do not believe that the requested design changes impact the construction schedule. However, it is expected that these changes will increase the original budget by an amount up to \$5,000,000. We believe that substantially all potential additional amounts are reimbursable from unrelated third parties. At this time we do not believe that it is probable that we will incur any additional costs. The estimated fair value of, and our obligation under this guarantee, both at inception and as of March 31, 2007 was not significant and therefore we have not recorded any obligation for this guarantee as of March 31, 2007.

In the fourth quarter of 2006, we admitted a 70% venture partner to the Avalon Del Rey Apartments, LLC for an investment of \$49,000,000, including the assumption of debt. In conjunction with this investment, we provided an operating guarantee to the joint venture partner. This guarantee provides that if the initial year return earned by the joint venture partner is less than a threshold return of 7% on its initial equity investment, we will pay the joint venture partner an amount equal to the shortfall, up to the 7% threshold return required. As of March 31, 2007, the cash flows and expected return on investment of the community are expected to meet and exceed the initial year threshold return required by our joint venture partner. Therefore we have not recorded any liability associated with this guarantee as of March 31, 2007.

There are no other lines of credit, side agreements, financial guarantees or any other derivative financial instruments related to or between our unconsolidated real estate entities and us. In evaluating our capital structure and overall leverage, management takes into consideration our proportionate share of this unconsolidated debt.

Contractual Obligations

We currently have contractual obligations consisting primarily of long-term debt obligations and lease obligations for certain land parcels and regional and administrative office space. There have not been any material changes outside the ordinary course of business to our contractual obligations during the three months ended March 31, 2007.

Development Communities

As of March 31, 2007, we had 16 Development Communities under construction. We expect these Development Communities, when completed, to add a total of 5,049 apartment homes to our portfolio for a total projected capitalized cost, including land acquisition costs and portions owned by joint venture partners, of approximately \$1,358,500,000. We anticipate the expected total capital cost of Development Communities under construction will be between \$1,500,000,000 and \$2,000,000,000 by the end of 2007. You should carefully review the discussion under Item 1a., Risk Factors, of our Form 10-K for the year ended December 31, 2006 for a discussion of the risks associated with development activity.

The following table presents a summary of the Development Communities. We hold a direct or indirect fee simple ownership interest in these communities except where noted.

	Number of apartment homes	Total capitalized cost(1) (\$ millions)	Construction start	Initial occupancy(2)	Estimated completion	Estimated stabilization(3)

Total	5,049	\$ 1,358.5				

(1) Total capitalized cost includes all capitalized costs projected to be or actually incurred to develop the respective Development Community, determined in accordance with GAAP, including land acquisition costs, construction costs, real estate taxes, capitalized

interest and loan
fees, permits,
professional
fees, allocated
development
overhead and
other regulatory
fees. Total
capitalized cost
for

communities identified as having joint venture ownership, either during construction or upon construction completion, represents the total projected joint venture contribution amount.

- (2) Future initial occupancy dates are estimates.
- (3) Stabilized operations are defined as the earlier of
 - (i) attainment of 95% or greater physical occupancy or
 - (ii) the one-year anniversary of completion of development.
- (4) The remediation of the Company's Avalon Lyndhurst development site, as discussed in the Company's second quarter 2006 Earnings Release, is substantially complete. The net cost associated with

this remediation effort after considering insurance proceeds received to date, including costs associated with construction delays, is expected to total approximately \$6.0 million,. The Company is pursuing the recovery of these additional costs through insurance as well as from the third parties involved, but any additional recoverable amounts are not currently estimable. The total capitalized cost and yield cited above do not reflect the potential impact of these additional net costs.

- (5) This community is being financed in part by third-party tax-exempt debt.

Redevelopment Communities

As of March 31, 2007, we had two consolidated communities under redevelopment. We expect the total capitalized cost to redevelop these communities to be approximately \$18,900,000, excluding costs prior to redevelopment. In addition, the Fund has four communities under redevelopment. We have found that the cost to redevelop an existing apartment community is more difficult to budget and estimate than the cost to develop a new community. Accordingly, we expect that actual costs may vary from our budget by a wider range than for a new development community. We cannot assure you that we will meet our schedule for reconstruction completion or restabilized operations, or that we will meet our budgeted costs, either individually or in the aggregate. We anticipate increasing our redevelopment activity related to Fund-owned communities, as well as communities in our current operating

Edgar Filing: AVALONBAY COMMUNITIES INC - Form 10-Q

portfolio. You should carefully review the discussion under Item 1a., Risk Factors, of our Form 10-K for the year ended December 31, 2006 for a discussion of risks associated with redevelopment activity.

The following presents a summary of Redevelopment Communities which also includes redevelopment activity of the Fund:

	Number of apartment homes	Pre-redevelopment cost	Total cost (\$ millions) Total capitalized cost(1)	Reconstruction start	Estimated reconstruction completion	Estimated restabilized operations(2)
1. Avalon Walk I and II (3)						
<i>Hamden, CT</i>	764	59.4	71.2	Q1 2006	Q4 2007	Q2 2008
2. Avalon at AutumnWoods						
<i>Fairfax, VA</i>	420	31.2	38.3	Q3 2006	Q3 2008	Q1 2009
3. Avalon Redmond (4)						
<i>Redmond, WA</i>	400	49.2	56.7	Q2 2006	Q4 2007	Q2 2008
4. Civic Center Place						
<i>Norwalk, CA</i>	192	38.1	43.5	Q4 2006	Q2 2008	Q4 2008
5. Avalon at Poplar Creek						
<i>Schaumburg, IL</i>	196	25.2	28.6	Q4 2006	Q1 2008	Q3 2008
6. Fuller Martel						
<i>Los Angeles, CA</i>	82	17.9	21.3	Q1 2007	Q1 2008	Q3 2008
Total	2,054	\$ 221.0	\$ 259.6			

(1) Total capitalized cost includes all capitalized costs projected to be incurred to redevelop the respective Redevelopment Community, including costs to acquire the community, reconstruction costs, real estate taxes, capitalized

interest and loan
fees, permits,
professional
fees, allocated
redevelopment
overhead and
other regulatory
fees determined
in accordance
with GAAP.

- (2) Restabilized operations are defined as the earlier of
 - (i) attainment of 95% or greater physical occupancy or
 - (ii) the one-year anniversary of completion of redevelopment.
- (3) This community was developed by a predecessor of the Company. Phase I was completed in Q3 1992 and Phase II was completed in Q3 1994.

- (4) This community, formerly known as Ravenswood at the Park, was acquired in Q4 2004 and was transferred to a subsidiary of the Company's Investment Management Fund (the Fund) in Q1 2005, reducing the Company's indirect equity interest in the community to 15%.

Development Rights

As of March 31, 2007, we were evaluating the future development of 56 new apartment communities on land that is either owned by us, under contract, subject to a leasehold interest or for which we hold a purchase option. We prefer to hold Development Rights through options to acquire land, although for 21 of the Development Rights we currently own the land on which a community would be built if we proceeded with development. The Development Rights range from those beginning design and architectural planning to those that have completed site plans and drawings and can begin construction almost immediately. We estimate that the successful completion of all of these communities would ultimately add 14,809 apartment homes to our portfolio. Substantially all of these apartment homes will offer features like those offered by the communities we currently own. At March 31, 2007, there were cumulative capitalized costs (including legal fees, design fees and related overhead costs, but excluding land costs) of \$38,932,000 relating to Development Rights that we consider probable for future development. In addition, land costs related to the pursuit of Development Rights (consisting of original land and additional carrying costs) of \$315,241,000 are reflected as land held for development on the accompanying Condensed Consolidated Balance Sheet as of March 31, 2007.

The properties comprising the Development Rights are in different stages of the due diligence and regulatory approval process. The decisions as to which of the Development Rights to invest in, if any, or to continue to pursue once an investment in a Development Right is made, are business judgments that we make after we perform financial, demographic and other analyses. In the event that we do not proceed with a Development Right, we generally would not recover capitalized costs incurred in the pursuit of those communities, unless we were to recover amounts in connection with the sale of land; however, we cannot guarantee a recovery. Pre-development costs incurred in the pursuit of Development Rights for which future development is not yet considered probable are expensed as incurred. In addition, if the status of a Development Right changes, deeming future development no longer probable, any capitalized pre-development costs are written-off with a charge to expense.

You should carefully review the discussion under Item 1a., Risk Factors, of our Form 10-K/A for the year ended December 31, 2006 for a discussion of risks associated with Development Rights we are currently pursuing.

			Estimated number of homes	Total capitalized cost (\$ millions)(1)
1.	White Plains, NY	(2)	393	\$ 155

			14,809	3,963

- (1) Total capitalized cost includes all capitalized costs incurred to date (if any) and projected to be incurred to develop the respective community, determined in accordance with GAAP, including land acquisition costs, construction costs, real estate taxes, capitalized interest and loan fees, permits, professional fees, allocated development overhead and other regulatory fees.
- (2) We own the land parcel, but construction has not yet begun.
- (3) This community will be subject to a joint venture ownership structure.
- (4) This Development Right is subject to a joint venture arrangement. In connection with

the pursuit of this Development Right, \$125 million in bond financing was issued and immediately invested in a guaranteed investment contract (GIC) administered by a trustee. The Company does not have any equity or economic interest in the joint venture entity at this time, but has an option to make a capital contribution to the joint venture entity for a 99% general partner interest. Should the Company exercise this option, the bond proceeds will be released from the GIC and used for future construction of the Development Right. Should the Company decide not to exercise this option, the bond proceeds will be redeemed to the issuer.

Insurance and Risk of Uninsured Losses

We carry commercial general liability insurance and property insurance with respect to all of our communities. These policies, and other insurance policies we carry, have policy specifications, insured limits and deductibles that we consider commercially reasonable. There are, however, certain types of losses (such as losses arising from acts of war)

that are not insured, in full or in part, because they are either uninsurable or the cost of insurance makes it, in management's view, economically impractical. You should carefully review the discussion under Item 1a., Risk Factors, of our Form 10-K for the year ended December 31, 2006 for a discussion of risks associated with an uninsured property or liability loss.

Many of our West Coast communities are located in the general vicinity of active earthquake faults. A large concentration of our communities lie near, and thus are susceptible to, the major fault lines in California, including the San Andreas Fault and the Hayward fault. We cannot assure you that an earthquake would not cause damage or losses greater than insured levels. We have in place with respect to communities located in California, for any single occurrence and in the aggregate, \$75,000,000 of coverage with a deductible per building equal to five percent of the insured value of that building. The five percent deductible is subject to a minimum of \$100,000 per occurrence. Earthquake coverage outside of California is subject to a \$100,000,000 limit, except with respect to the state of Washington, for which the limit is \$65,000,000. Our earthquake insurance outside of California provides for a \$100,000 deductible per occurrence. In addition, up to a policy aggregate of \$2,000,000, the next \$400,000 of loss per occurrence outside California will be treated as an additional deductible.

We renewed our property insurance policy on May 1, 2007 and the insurance coverage provided for in these renewal policies and related premiums did not materially change from the preceding year. Our annual general liability policy and workman's compensation coverage renewed on August 1, 2006. We expect to complete our negotiations with the incumbent carrier in July of this year, and cannot currently estimate the level of the premium change or coverage. Just as with office buildings, transportation systems and government buildings, there have been reports that apartment communities could become targets of terrorism. In December 2005, Congress passed the Terrorism Risk Insurance Extension Act (TRIEA) which is designed to make terrorism insurance available. In connection with this legislation, we have purchased insurance for property damage due to terrorism up to \$200,000,000. Additionally, we have purchased insurance for certain terrorist acts, not covered under TRIEA, such as domestic-based terrorism. This insurance, often referred to as non-certified terrorism insurance, is subject to deductibles, limits and exclusions. Our general liability policy provides TRIEA coverage (subject to deductibles and insured limits) for liability to third parties that result from terrorist acts at our communities. TRIEA is scheduled to expire on December 31, 2007. It is uncertain if Congress will extend this act and continue to provide federal support for terrorism insurance. If Congress does not extend TRIEA, the cost and availability of terrorism insurance may be in question.

Mold growth may occur when excessive moisture accumulates in buildings or on building materials, particularly if the moisture problem remains undiscovered or is not addressed over a period of time. Although the occurrence of mold at multifamily and other structures, and the need to remediate such mold, is not a new phenomenon, there has been increased awareness in recent years that certain molds may in some instances lead to adverse health effects,

including allergic or other reactions. To help limit mold growth, we educate residents about the importance of adequate ventilation and request or require that they notify us when they see mold or excessive moisture. We have established procedures for promptly addressing and remediating mold or excessive moisture from apartment homes when we become aware of its presence regardless of whether we or the resident believe a health risk is present. However, we cannot assure that mold or excessive moisture will be detected and remediated in a timely manner. If a significant mold problem arises at one of our communities, we could be required to undertake a costly remediation program to contain or remove the mold from the affected community and could be exposed to other liabilities. We cannot assure that we will have coverage under our existing policies for property damage or liability to third parties arising as a result of exposure to mold or a claim of exposure to mold at one of our communities.

Inflation and Deflation

Substantially all of our apartment leases are for a term of one year or less. In an inflationary environment, this may allow us to realize increased rents upon renewal of existing leases or the beginning of new leases. Short-term leases generally minimize our risk from the adverse effects of inflation, although these leases generally permit residents to leave at the end of the lease term and therefore expose us to the effect of a decline in market rents. In a deflationary rent environment, we may be exposed to declining rents more quickly under these shorter-term leases.

Forward-Looking Statements

This Form 10-Q contains forward-looking statements as that term is defined under the Private Securities Litigation Reform Act of 1995. You can identify forward-looking statements by our use of the words believe, expect, anticipate, intend, estimate, assume, project, plan, may, shall, will and other similar expressions in this Form 10-Q indicate future events and trends and that do not report historical matters. These statements include, among other things, statements regarding our intent, belief or expectations with respect to:

- our potential development, redevelopment, acquisition or disposition of communities;

- the timing and cost of completion of apartment communities under construction, reconstruction, development or redevelopment;

- the timing of lease-up, occupancy and stabilization of apartment communities;

- the pursuit of land on which we are considering future development;

- the anticipated operating performance of our communities;

- cost, yield and earnings estimates;

- our declaration or payment of distributions;

- our joint venture and discretionary fund activities;

- our policies regarding investments, indebtedness, acquisitions, dispositions, financings and other matters;

- our qualification as a REIT under the Internal Revenue Code;

- the real estate markets in Northern and Southern California and markets in selected states in the Mid-Atlantic, Northeast, Midwest and Pacific Northwest regions of the United States and in general;

- the availability of debt and equity financing;

- interest rates;

general economic conditions; and

trends affecting our financial condition or results of operations.

We cannot assure the future results or outcome of the matters described in these statements; rather, these statements merely reflect our current expectations of the approximate outcomes of the matters discussed. You should not rely on forward-looking statements because they involve known and unknown risks, uncertainties and other factors, some of which are beyond our control. These risks, uncertainties and other factors may cause our actual results, performance or achievements to differ materially from the anticipated future results, performance or achievements expressed or implied by these forward-looking statements. You should carefully review the discussion under Item 1a, Risk Factors, of our Form 10-K for the year ended December 31, 2006 for a discussion of risks associated with forward-looking statements.

In addition, these forward-looking statements represent our estimates and assumptions only as of the date of this report. We do not undertake a duty to update these forward-looking statements, and therefore they may not represent our estimates and assumptions after the date of this report.

Some of the factors that could cause our actual results, performance or achievements to differ materially from those expressed or implied by these forward-looking statements include, but are not limited to, the following:

we may fail to secure development opportunities due to an inability to reach agreements with third parties to obtain land at attractive prices or to obtain desired zoning and other local approvals;

we may abandon or defer development opportunities for a number of reasons, including changes in local market conditions which make development less desirable, increases in costs of development and increases in the cost of capital, resulting in losses;

construction costs of a community may exceed our original estimates;

we may not complete construction and lease-up of communities under development or redevelopment on schedule, resulting in increased interest costs and construction costs and a decrease in our expected rental revenues;

occupancy rates and market rents may be adversely affected by competition and local economic and market conditions which are beyond our control;

financing may not be available on favorable terms or at all, and our cash flows from operations and access to cost effective capital may be insufficient for the development of our pipeline which could limit our pursuit of opportunities;

our cash flows may be insufficient to meet required payments of principal and interest, and we may be unable to refinance existing indebtedness or the terms of such refinancing may not be as favorable as the terms of existing indebtedness;

we may be unsuccessful in our management of the Fund and the Fund REIT; and

we may be unsuccessful in managing changes in our portfolio composition.

Critical Accounting Policies

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to use judgment in the application of accounting policies, including making estimates and assumptions. If our judgment or interpretation of the facts and circumstances relating to various transactions had been different, or different estimates or assumptions had been made, it is possible that different accounting policies would have been applied, resulting in different financial results or a different presentation of our financial statements. Below is a discussion of a number of accounting policies that we consider critical to an understanding of our financial condition and operating results that may require complex judgment in their application or require estimates about matters which are inherently uncertain. A discussion of our significant accounting policies, including further discussion of the accounting policies described below, can be found in Note 1, Organization and Significant Accounting Policies of our Consolidated Financial Statements.

Revenue Recognition

Rental income related to leases is recognized on an accrual basis when due from residents in accordance with SEC Staff Accounting Bulletin No. 104, Revenue Recognition and Statement of Financial Accounting Standards No. 13, Accounting for Leases. In accordance with our standard lease terms, rental payments are generally due on a monthly basis. Any cash concessions given at the inception of the lease are amortized over the approximate life of the lease,

which is generally one year. A discussion regarding the impact of cash concessions on rental revenue for Established Communities can be found in Results of Operations.

Cost Capitalization

We capitalize costs during the development of assets (including interest and related loan fees, property taxes and other direct and indirect costs) beginning when development efforts commence until the asset, or a portion of the asset, is delivered and is ready for its intended use, which is generally indicated by the issuance of a certificate of occupancy. We capitalize costs during redevelopment of apartment homes (including interest and related loan fees, property taxes and other direct and indirect costs) beginning when an apartment home is taken out-of-service for redevelopment until the apartment home redevelopment is completed and the apartment home is available for a new resident. Rental income and operating expenses incurred during the initial lease-up or post-redevelopment lease-up period are fully recognized as they accrue.

We capitalize pre-development costs incurred in pursuit of Development Rights for which we currently believe future development is probable. These costs include legal fees, design fees and related overhead costs. Future development of these Development Rights is dependent upon various factors, including zoning and regulatory approval, rental market conditions, construction costs and availability of capital. Pre-development costs incurred in the pursuit of Development Rights for which future development is not yet considered probable are expensed as incurred. In addition, if the status of a Development Right changes, making future development no longer probable, any capitalized pre-development costs are written-off with a charge to expense.

We generally capitalize only non-recurring expenditures. We capitalize improvements and upgrades only if the item: (i) exceeds \$15,000; (ii) extends the useful life of the asset; and (iii) is not related to making an apartment home ready for the next resident. Under this policy, a significant portion of our capitalized costs is non-recurring, as recurring make-ready costs are expensed as incurred. Because we expense recurring make-ready costs, such as (i) carpet and appliance replacements; (ii) floor coverings; (iii) interior painting; and (iv) other redecorating costs, our expense levels and volatility are greatest in the third quarter of each year as this is when we experience our greatest amount of turnover. We generally expense replacements of personal property.

For Established and Other Stabilized Communities, we recorded non-revenue generating capital expenditures of \$9 per apartment home and \$38 per apartment home in the three months ended March 31, 2007 and 2006, respectively. The average maintenance costs charged to expense per apartment home, including carpet and appliance replacements, related to these communities was \$354 and \$332 in the three months ended March 31, 2007 and 2006, respectively. Historically, we have experienced a gradual increase in capitalized costs and expensed maintenance costs per apartment home as the average age of our communities has increased. We expect to return to the trend of gradual increases in maintenance costs in future years.

Asset Impairment Evaluation

We assess the impairment of our investments and long-lived assets whenever events or changes in circumstances indicate that the carrying value may not be recoverable. For both our consolidated and unconsolidated entities, factors that could trigger an assessment for impairment include, but are not limited to: i) underperformance of the asset relative to historical or expected future operating results, ii) significant change in legal and economic factors, iii) incurrence of costs significantly in excess of amounts originally forecasted for construction or acquisition of an asset, or iv) an expectation that a long-lived asset will be disposed of at an amount below the current carrying value. We evaluate the key factors necessary in the assessment of asset impairment on a quarterly basis. For the three months ended March 31, 2007, we did not recognize any impairment in value associated with our investments or long-lived assets. We cannot predict the occurrence of future events that may cause an impairment assessment to be performed.

REIT Status

We are a Maryland corporation that has elected to be treated, for federal income tax purposes, as a REIT. We elected to be taxed as a REIT under the Internal Revenue Code of 1986 (the Code), as amended, for the year ended December 31, 1994 and have not revoked such election. A corporate REIT is a legal entity which holds real estate interests and must meet a number of organizational and operational requirements, including a requirement that it currently distribute at least 90% of its adjusted taxable income to stockholders. As a REIT, we generally will not be subject to corporate level federal income tax on taxable income if we distribute 100% of taxable income over time periods allowed under the Code to our stockholders. If we fail to qualify as a REIT in any taxable year, we will be subject to federal income taxes at regular corporate rates (subject to any applicable alternative minimum tax) and may

not be able to elect to qualify as a REIT for four subsequent taxable years.

Part I. FINANCIAL INFORMATION

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes to our exposures to market risk since December 31, 2006.

Item 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures.

In connection with the filing of this report on Form 10-Q, we evaluated, with the participation of management including our Chief Executive Officer and Chief Financial Officer, the effectiveness of our disclosure controls and procedures through the end of the period covered by this report on Form 10-Q. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of the end of such period, our disclosure controls and procedures were functioning effectively to ensure that the information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms.

We continue to review and document our disclosure controls and procedures, including our internal controls and procedures for financial reporting, and may from time to time make changes aimed at enhancing their effectiveness and to ensure that our systems evolve with our business.

(b) Changes in internal controls over financial reporting.

None.

Part II. OTHER INFORMATION

Item 1. Legal Proceedings

None.

Item 1a. Risk Factors

In addition to the other information set forth in this report, you should carefully consider the factors which could materially affect our business, financial condition or future results discussed in our Annual Report on Form 10-K for the year ended December 31, 2006 in Part I, Item 1a. Risk Factors. The risks described in our Annual Report on Form 10-K are not the only risks that could affect the Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results in the future.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the three months ended March 31, 2007, the Company issued 1,673 shares of common stock in exchange for 1,673 units of limited partnership held by limited partners of Avalon DownREIT V, L.P. and Avalon Upper Falls Limited Partnership. The shares were

issued in reliance on an exemption from registration under Section 4(2) of the Securities Act of 1933. AvalonBay is relying on the exemption based on factual representations received from the limited partners who received these shares.

Issuer Purchases of Equity Securities

Period	(a) Total Number of Shares Purchased (1)	(b) Average Price Paid per Share (2)	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Dollar Amount that May Yet be Purchased Under the Plans or Programs (in thousands)
Month Ended January 31, 2007		\$		\$ 100,000
Month Ended February 28, 2007	6,405	\$ 142.18		\$ 100,000
Month Ended March 31, 2007	32,287	\$ 134.07		\$ 100,000

(1) Includes shares surrendered to the Company in connection with employee stock option exercises or vesting of restricted stock as payment of exercise price or as payment of taxes.

(2) As disclosed for the first time in our Form 10-K for the year ended December 31, 2005, our Board of Directors has adopted a Stock Repurchase Program under which we may acquire, from time to time, shares of common stock

in the open market with an aggregate purchase price of up to \$100,000,000. No purchases were made under this program in 2006 or in 2007 to date. In determining whether to repurchase shares, we consider a variety of factors, including our liquidity needs, the then current market price of our shares and the effect of the share repurchases on our per share earnings and FFO. There is no scheduled expiration date to this program.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Submission of Matters to a Vote of Security Holders

None.

Item 5. Other Information

None.

Item 6. Exhibits

Edgar Filing: AVALONBAY COMMUNITIES INC - Form 10-Q

Exhibit No.	Description
3(i).1	Articles of Amendment and Restatement of Articles of Incorporation of AvalonBay Communities (the Company), dated as of June 4, 1998. (Incorporated by reference to Exhibit 3(i).1 to Form 10-K of the Company filed on March 1, 2007.)
3(i).2	Articles of Amendment, dated as of October 2, 1998. (Incorporated by reference to Exhibit 3.1(ii) to Form 10-K of the Company filed on March 1, 2007.)
3(i).3	Articles Supplementary, dated as of October 13, 1998, relating to the 8.70% Series H Cumulative Redeemable Preferred Stock. (Incorporated by reference to Exhibit 3(i).3 to Form 10-K of the Company filed on March 1, 2007.)
3(ii).1	Amended and Restated Bylaws of the Company, as adopted by the Board of Directors on February 13, 2003. (Incorporated by reference to Exhibit 3(ii) to Form 10-K of the Company filed March 11, 2003.)
4.1	Second Supplemental Indenture of Avalon Properties, Inc. (hereinafter referred to as Avalon Properties) dated as of December 16, 1997. (Incorporated by reference to Exhibit 4.3 to Form 10-K of the Company filed March 11, 2003.)
4.2	Indenture for Senior Debt Securities, dated as of January 16, 1998, between the Company and State Street Bank and Trust Company, as Trustee. (Incorporated by reference to Exhibit 4.1 to Registration Statement on form S-3 of the Company (File No. 333-139839), filed January 8, 2007.)
4.3	First Supplemental Indenture, dated as of January 20, 1998, between the Company and the State Street Bank and Trust Company as Trustee. (Incorporated by reference to Exhibit 4.2 to Registration Statement on Form S-3 of the Company (File No. 333-139839), filed January 8, 2007.)
4.4	Second Supplemental Indenture, dated as of July 7, 1998, between the Company and State Street Bank and Trust Company as Trustee. (Incorporated by reference to Exhibit 4.3 to Registration Statement on Form S-3 of the Company (File No. 333-139839), filed January 8, 2007.)
4.5	Amended and Restated Third Supplemental Indenture, dated as of July 10, 2000 between the Company and State Street Bank and Trust Company as Trustee. (Incorporated by reference to Exhibit 4.4 to Registration Statement on Form S-3 of the Company (File No. 333-139839), filed January 8, 2007.)
4.6	Fourth Supplemental Indenture, dated as of September 18, 2006 between the Company and U.S. Bank National Association as Trustee. (Incorporated by reference to Exhibit 4.5 to Registration Statement on Form S-3 of the Company (File No. 333-139839), filed January 8, 2007.)
4.7	Dividend Reinvestment and Stock Purchase Plan of the Company. (Incorporated by reference to Exhibit 8.1 to Registration Statement on Form S-3 of the Company (File No. 333-87063), filed September 14, 1999.)

4.8

Amendment to the Company's Dividend Reinvestment and Stock Purchase Plan filed on December 17, 1999. (Incorporated by reference to the Prospectus Supplement filed pursuant to Rule 424(b)(2) of the Securities Act of 1933 on December 17, 1999.)
