**PROXY STATEMENT
For
ANNUAL MEETING OF STOCKHOLDERS
To Be Held on May 9, 2005**

This Proxy Statement is being mailed on or about April 8, 2005 to the stockholders of Trinity Industries, Inc. (Trinity or the Company) in connection with the solicitation of proxies by the Board of Directors of the Company to be voted at the Annual Meeting of Stockholders of the Company to be held at the offices of the Company, 2525 Stemmons Freeway, Dallas, Texas, on Monday, May 9, 2005, at 9:00 a.m., Central Daylight Saving Time (the Annual Meeting), or at any adjournment thereof, for the purposes set forth in the accompanying Notice of Annual Meeting of Stockholders. The Company s mailing address is 2525 Stemmons Freeway, Dallas, Texas, 75207.

Shares represented by the enclosed proxy, if properly executed and returned to the Company prior to the meeting, will be voted at the Annual Meeting and at any adjournment thereof in the manner specified, or if not specified, the proxy will be voted FOR the election of the eight nominees for Directors as listed below, and FOR the approval of Ernst & Young LLP as independent registered public accounting firm of the Company for the fiscal year ending December 31, 2005. The proxy may be revoked at any time before it is exercised by filing with the Company a written revocation, by executing a proxy bearing a later date or by attending the Annual Meeting and voting in person.

The outstanding voting securities of the Company consist of shares of Common Stock, \$1.00 par value per share and shares of Series B Redeemable Convertible Preferred Stock. The record date for the determination of the stockholders entitled to notice of and to vote at the Annual Meeting, or any adjournment thereof, has been established by the Board of Directors as of the close of business on March 25, 2005. At that date, there were outstanding and entitled to vote 47,823,633 shares of Common Stock and 600 shares of Series B Redeemable Convertible Preferred Stock having 2,671,415 votes. The Common Stock and Series B Redeemable Convertible Preferred Stock will vote together as a single class on all matters to be presented to the Annual Meeting.

The presence, in person or by proxy, of the holders of record of a majority of the outstanding shares entitled to vote is necessary to constitute a quorum for the transaction of business at the Annual Meeting, but if a quorum should not be present, the meeting may be adjourned from time to time until a quorum is obtained. A holder of Common Stock will be entitled to one vote per share on each matter properly brought before the meeting. Cumulative voting is not permitted in the election of directors.

The proxy card provides space for a stockholder to withhold voting for any or all nominees for the Board of Directors. The election of directors requires a plurality of the votes cast at the meeting. The ratification of the independent auditors requires the affirmative vote of a majority of the shares present in person or represented by proxy and entitled to vote at the meeting. Shares of a stockholder who abstains from voting on any or all proposals will be included for the purpose of determining the presence of a quorum. However, an abstention with respect to the election of the Company s directors will not be counted either in favor of or against the election of the nominees. In the case of the other proposal which is being submitted for stockholder approval, an abstention will effectively count as a vote cast against such proposal. Broker non-votes on any matter, as to which the broker has indicated on the proxy that it does not have discretionary authority to vote, will be treated as shares not entitled to vote with respect to that matter. However, such shares will be considered present and entitled to vote for quorum purposes so long as they

are entitled to vote on other matters.

CORPORATE GOVERNANCE

The business affairs of Trinity are managed under the direction of the Board of Directors in accordance with the General Corporation Law of the State of Delaware and the Company's Articles of Incorporation and Bylaws. The role of the Board of Directors is to oversee the management of the Company for the benefit of the stockholders. This responsibility includes monitoring the senior management's conduct of the Company's business operations and affairs; reviewing and approving the Company's financial objectives, strategies and plans; evaluating the performance of the chief executive officer and other executive officers; and overseeing the Company's policies and procedures regarding corporate governance, legal compliance, ethical conduct and maintenance of financial and accounting controls. The Board of Directors first adopted Corporate Governance Principles in 1998, which are reviewed annually by the Corporate Governance and Directors Nominating Committee and were last amended in December 2004. The Company has a long-standing Code of Business Conduct and Ethics, which is applicable to all employees of the Company, including the principal executive officer, the principal financial officer, the principal accounting officer and the Board of Directors. The Company intends to post amendments to or waivers from its Code of Business Conduct and Ethics on the Company's website to the extent applicable to the Company's chief executive officer, principal financial officer, principal accounting officer or a director. The Corporate Governance Principles and the Code of Business Conduct and Ethics are available on the Company's web site at www.trin.net under the heading Investor Relations/Governance.

The directors hold regular and special meetings, and spend such time on the affairs of the Company as their duties require. During 2004, the Board of Directors held nine meetings. The Board also meets regularly in non-management executive sessions and has selected Mr. David W. Biegler as presiding director for the non-management executive sessions. In 2004, all directors of the Company attended at least seventy-five percent of the meetings of the Board of Directors and the committees on which they served. It is Company policy that each of our directors is expected to attend the Annual Meeting. All of our directors were in attendance at the 2004 Annual Meeting.

In late 2003, the Board retained a consultant to assist it in an evaluation of the Board's effectiveness. The consultant conducted individual interviews with each director covering a broad range of governance issues and has attended Board meetings from time to time. The Board is using the information gained from the consultant to continue to develop corporate governance and enhance the effectiveness of the Board and its committees.

Table of Contents

Independence of Directors

The Board has determined that all of the members of the Board of Directors are independent under the listing standards of the New York Stock Exchange, except Mr. Timothy Wallace, Chairman, President and Chief Executive Officer of the Company. In making its determination of independence, the Board applied its Categorical Standards for Director Independence attached as Appendix A to this Proxy Statement. Mr. Craig Duchossois is the only non-management director having relationships with the Company not covered by the Categorical Standards. In making its decision regarding the independence of Mr. Duchossois, the Board considered the following relationships:

In October 2001, Trinity acquired Thrall Car Manufacturing Company pursuant to a merger transaction with Thrall's sole stockholder, Thrall Car Management Company, Inc. (TCMC) for approximately \$165.5 million (subject to certain adjustments) and 7.15 million shares of Trinity common stock. Mr. Duchossois was an executive officer and a director of Thrall, and was an executive officer and a director, as well as an equity owner, of TCMC. Mr. Duchossois continues to be an executive officer, director and equity owner of TCMC.

Subsequent to the merger and pursuant to the terms of the merger agreement, Trinity has made various payments to TCMC as working capital adjustments and for reimbursement of expenses, and TCMC has made payments to Trinity for indemnification of warranty and workers compensation claims, all of which have been described in this proxy statement or in the Company's proxy statements in 2002, 2003 and 2004. Additional claims by Trinity are pending and others are likely to be made in the future. See Compensation Committee Interlocks and Insider Participation. Under the terms of the merger agreement, TCMC is entitled to receive a payment of up to \$45 million if certain industry related delivery targets are met over a period of five years (Potential Earnout Payment).

Entities for which Mr. Duchossois serves as a director and executive officer and in which he has a pecuniary interest attributed to him own 8.9% of the Company's common stock. See Security Ownership of Certain Beneficial Owners and Management.

TCMC and Trinity are parties to a stockholders agreement and a registration rights agreement, each of which was entered into in connection with the merger. In 2004, TCMC exercised its rights under the registration rights agreement and caused Trinity to register 4,000,000 shares of common stock of the Company.

After receiving the advice of counsel, reviewing published commentary and interpretations from the New York Stock Exchange, and obtaining through counsel clarification of certain matters from the New York Stock Exchange, the Board determined that none of the above stated relationships constitute a *per se* bar to independence. The Board also considered the materiality of the relationships between the Company and Mr. Duchossois outlined above. The Board believes that the payments in connection with the merger and the related adjustments and indemnity claims discussed above, or the prospect of similar payments in the future, would not impair Mr. Duchossois' ability to act independently. The Board believes that any amount payable under the Potential Earnout Payment will not be determinable until late 2006 or later, and that the possibility of such payment would not impair Mr. Duchossois' independence. The Board also believes that the stock ownership and other relationships described above would not impair Mr. Duchossois' independence. After considering such relationships, the Board determined that none of the relationships alone or in the aggregate are material and that Mr. Duchossois is independent of management.

Board Committees

The standing committees of the Board of Directors are the Audit Committee, Human Resources Committee, Corporate Governance and Directors Nominating Committee, and Finance and Risk Management Committee. The name of the stockholder, evidence of the person's ownership of Company stock, including the number of shares owned and the length of time of ownership, and a description of all arrangements or understandings regarding the submittal between the stockholder and the recommended candidate; and

The name, age, business and residence address of the candidate, the candidate's resume or a listing of his or her qualifications to be a director of the Company, and the person's consent to be a director if selected by the Corporate Governance and Directors Nominating Committee, nominated by the Board and elected by the stockholders.

The stockholder recommendation and information described above must be sent to the Corporate Secretary at 2525 Stemmons Freeway, Dallas, TX 75207 and must be received by the Corporate Secretary not less than 120 days prior to the anniversary date of the date the Company's proxy statement was released in connection with the previous year's Annual Meeting of Stockholders.

The Corporate Governance and Directors Nominating Committee believes that the minimum qualifications for serving as a director of the Company are that a nominee demonstrate depth of experience at the policy making level in business, government or education, possess the ability to make a meaningful contribution to the Board's oversight of the business and affairs of the Company and a willingness to exercise independent judgment, and have an impeccable

reputation for honest and ethical conduct in both his or her professional and personal activities. In addition, the Corporate Governance and Directors Nominating Committee examines a candidate's time availability, the candidate's ability to make analytical and probing inquiries, and financial independence to ensure he or she will not be financially dependent on director compensation.

The Corporate Governance and Directors Nominating Committee identifies potential nominees by asking,

from time to time, current directors and executive officers for their recommendation of persons meeting the criteria described above who might be available to serve on the Board. The Corporate Governance and Directors Nominating Committee also may engage firms that specialize in identifying director candidates. As described above, the Committee will also consider candidates recommended by stockholders.

Once a person has been identified by the Corporate Governance and Directors Nominating Committee as a potential candidate, the Committee makes an initial determination regarding the need for additional Board members to fill vacancies or expand the size of the Board. If the Committee determines that additional consideration is warranted, the Committee will review such information and conduct interviews as it deems necessary in order to fully evaluate each director candidate. In addition to the qualifications of a candidate, the Committee will consider such relevant factors as it deems appropriate, including the current composition of the Board, the evaluations of other prospective nominees, and the need for any required expertise on the Board or one of its committees. The Corporate Governance and Directors Nominating Committee also seeks for the Board to be balanced as to its diversity, experience, skills and expertise. The Committee's evaluation process will not vary based on whether or not a candidate is recommended by a stockholder.

In the case of communications to the Board or any group or committee of directors, the Corporate Secretary will make sufficient copies of the contents to send to each director who is a member of the group or committee to which the envelope is addressed.

COMPENSATION OF DIRECTORS

Directors are compensated at the rate of \$1,250 for each board meeting attended and \$1,350 for each committee meeting attended plus reimbursement for reasonable out-of-pocket expenses. In addition, each director who is not a compensated officer or employee of the Company or its subsidiaries receives a fee of \$40,000 per year for serving as a director. The Chairman of the Audit Committee receives an additional \$10,000 per year and the Chairman of each of the other committees receives an additional \$5,000 per year. The Presiding Director is paid an additional annual retainer of \$5,000 per year. Directors may elect, pursuant to a Deferred Plan for Director Fees, to defer the receipt of all or a specified portion of the fees to be paid to him or her. Deferred amounts are credited to an account on the books of the Company and treated as if invested either at the annual LIBOR rate plus 6 points or, at the director's prior election, in units of the Company's Common Stock at the closing price on the New York Stock Exchange on the first trading day of the quarter following the date that a payment is credited to the director's account. Such stock units are credited with amounts equivalent to dividends paid on the Company's Common Stock. Upon ceasing to serve as a director, the value of the account will be paid to the director in annual installments not exceeding ten years according to the director's prior election.

Annually, each director who is not also an executive officer of the Company is granted an option to purchase 2,500 shares of the Company's Common Stock at the fair market value of the Company's Common Stock on the date of grant and 1,000 restricted stock units, with dividend equivalents, that are convertible into 1,000 shares of common stock upon termination from the Board.

The Company has a Directors' Retirement Plan that is an unfunded arrangement whereby members of the Board of Directors who are not employees of the Company will receive monthly payments for a ten year period upon retirement, disability or death. The monthly payment will be equal to a percentage of the monthly payment of the annual retainer in effect at the time of retirement, disability or death while serving as a director. The applicable percentage is based upon the number of years of service on the Board of Directors. If the director has less than five years of service, the applicable percentage is zero. After five years of service, the applicable percentage is fifty percent with increases of ten percent for each year of service thereafter up to one hundred percent after ten years. However, notwithstanding the number of years of service, a director's applicable percentage will be one hundred percent in the event of a change in control of the Company (as defined).

Retirement Plans

The Trinity Industries, Inc. Standard Pension Plan is a noncontributory defined benefit retirement and death benefit plan which, during 2004, was available to all eligible employees who had completed specified periods of employment. Funds are contributed periodically to a trust that invests the Company's contributions and earnings thereon in order to pay the benefits to the employees. The plan provides for the payment of monthly retirement benefits determined under a calculation based on credited years of service and a participant's highest compensation over five consecutive years in the last ten years of employment. Retirement benefits are paid to participants upon normal retirement at the age of 65 or later, or upon early retirement. The plan also provides for the payment of certain disability and death benefits. Covered compensation includes salary and bonus as shown in the Summary Compensation Table. Other elements of compensation in the Summary Compensation Table are not included in covered compensation.

The Company has also adopted a Supplemental Retirement Plan that permits the payment of supplemental benefits to certain employees who have been determined by the Supplemental Retirement Plan Committee to be participants and whose annual benefits under the foregoing retirement plan would exceed those permitted by the Internal Revenue Code of 1986, as amended (the Code). The Supplemental Retirement Plan provides that if at any time the amount of the annual retirement benefit which would otherwise be payable under the Company's pension plan is or becomes limited by reason of compliance with the Code, such person shall be entitled to receive a supplemental pension benefit equal to the difference between the benefit that such person receives under the Company's pension plan and the benefit that such person would have received if such limitation had not been in effect. The benefits are payable from the general assets of the Company. Timothy R. Wallace is the only named executive officer who is a participant in the Supplemental Retirement Plan.

Beginning January 1, 2005 new employees will not participate in the Trinity Industries Standard Pension Plan. New employees after January 1, 2005 and employees as of December 31, 2004 who chose to do so will participate in an enhanced 401(k) employer contribution plan. All of the named executive officers remain in the Trinity Standard

Pension Plan.

The following table reflects the estimated aggregate annual benefits, computed on the basis of a monthly benefit payable for ten years certain and life thereafter, payable under such plans to a fully vested participant of the Company upon retirement at age 65 after 10, 20, 30 and 40 credited years of service at the annual remuneration levels set forth in the table and without regard to any limitations on the amount of benefits by the Code. The annual compensation limit under the Code in 2004 was \$205,000.

The annual benefits shown are not subject to any deduction for Social Security benefits or other offset amounts. At December 31, 2004, Mr. Timothy R. Wallace has 29 credited years of service under the plans under which he is covered; Messrs. Adams, Stiles, Ivy, and Menzies have 6 years, 13 years, 7 years, and 3 years, respectively.

The Company maintains a Section 401(k) plan that permits employees to elect to set aside up to fourteen percent of their compensation (subject to the maximum limit on the amount of compensation permitted by the Code to be deferred for this purpose) in a trust to pay future retirement benefits. Depending upon years of service, the Company may match from twenty-five to fifty percent of up to six percent of the employee's compensation set aside for this purpose.

The Company also maintains a Supplemental Profit Sharing Plan (Supplemental Plan) for certain of its highly compensated employees, as defined in the Code. The highly compensated employees are not limited as to the percentage of their compensation which may be contributed to the Supplemental Plan. The first six percent of a Participant's base salary and bonus contributed to the Supplemental Plan, less any compensation matched under the 401(k) plan, may be matched from twenty-five percent to fifty percent by the Company based on years of service. The Company's match vests 20% for each year of service up to 100% after five years. For plan years prior to January 1, 2004, an additional seventeen and one-half percent match was made on up to twenty-five percent of a Participant's base salary and bonus if the deferrals were directed into stock units. The additional match for stock units vests two plan years after the end of the plan year for which the match was made. The additional match did not apply to stock units acquired by transfer from existing account balances. For plan years prior to January 1, 2004, all matches in the Supplemental Plan were made in stock units. Stock units may not be transferred into other investment accounts and may only be paid out in Common Stock. Beginning with the January 1, 2004 plan year, no additional match will be made on deferrals directed into stock units and the Company's basic match will be made in cash.

Change in Control Agreements

Each named executive officer has executed a change in control agreement with the Company that provides certain benefits in the event his or her employment is terminated subsequent to a change in control of the Company (as defined in the agreements). The agreements are for continuous two-year terms until terminated by the Company upon specified notice and continue for two years following a change in control. The agreements provide that if there is a change in control of the Company and if the Company terminates the executive's employment other than as a result of the executive's death, disability or retirement, or for cause (as defined in the agreements), or if the executive terminates his or her employment for good reason (as defined in the agreements),

Table of Contents

then the Company will pay to such executive a lump sum equal to three times the amount of the executive's base salary and the higher of the average bonus earned over the previous three years or the target bonus for the fiscal year in which the change in control occurs.

The severance benefits provided by the agreements also include certain fringe benefits to which each executive would have been entitled if the executive had continued in the employment of the Company for thirty-six months after the executive's termination, a supplemental benefit based on the Company's retirement plan, and the right to surrender unexercised stock options and receive cash for the net realizable value of the options based on the highest price of the Common Stock within 180 days prior to the date of termination.

The agreements further provide that if any payment to which the executive is entitled would be subject to the excise tax imposed by Section 4999 of the Code, then the Company will pay to the executive an additional amount so that the net amount retained by the executive is equal to the amount that otherwise would be payable to the executive if no such excise tax had been imposed.

Transition Agreements

In connection with the announcement on December 14, 2004 by the Company of the gradual transition towards retirement of John L. Adams, executive vice president, and Jim S. Ivy, senior vice president and chief financial officer, the following transitioning agreements have been entered into: (i) Mr. Adams will continue in his present position at 80% of 2003 base compensation through the second quarter of 2005 and thereafter continue as an employee of the Company in the position of vice chairman of the Company reporting to the CEO with a declining amount of time devoted to the Company generally proportionate to the following reduced amount of compensation: 60% of 2003 base compensation for the third quarter of 2005, 40% of 2003 base compensation for the fourth quarter of 2005; 20% of 2003 base compensation for 2006; 10% of 2003 base compensation for 2007; and 5% of 2003 base compensation for 2008 until retirement; and (ii) Mr. Ivy continued as senior vice president and chief financial officer until March of 2005 at his 2004 base compensation through April of 2005 and now serves as an employee of the Company in the position of assistant to the chief executive officer with a declining amount of time devoted to the Company generally proportionate to the following reduced amount of compensation: 60% of 2004 base compensation from May through September 2005; 40% of 2004 base compensation for the fourth quarter of 2005; 20% of 2004 base compensation for 2006; 10% of 2004 base compensation for 2007; and 5% of 2004 base compensation through 2008 until retirement. Mr. Adams and Mr. Ivy will participate in the Company's short-term incentive plan, deferred compensation plan, perquisite plan, health and pension plans through 2005. Beginning in 2006 they will only participate in the health and pension plans of the Company. Outstanding stock options, Restricted Stock and Restricted Stock Units will continue to be governed by their own terms throughout the transition period.

Report of the Human Resources Committee on Executive Compensation

The Company's executive compensation program is overseen by the Human Resources Committee (the Committee) of the Board of Directors. The Committee, which is composed entirely of independent directors, is responsible for establishing the policies that govern the compensation of the executives of the Company and its subsidiaries. The Committee retains independent consultants to advise on matters related to executive compensation. Three members of the Committee, Ronald J. Gafford, Jess T. Hay, and Diana S. Natalicio, serve on a subcommittee designated as the Plan Committee, which has been authorized to make awards under the Company's stock option and incentive plan.

It is the Committee's policy to provide a competitive and comprehensive compensation program to attract, motivate, reward and retain the key executives needed to enhance the profitability of the Company and to create value

for its stockholders. The Committee believes that the Company's executive compensation should consist of competitive base salaries and incentive compensation programs that reward both short and long-term performance. The key components of the Company's short-term executive compensation program in the last fiscal year were base salary and incentive compensation. The long-term program consisted of restricted stock awards, stock options, and in some cases deferred compensation. The Committee periodically reviews each component of the Company's executive compensation program to ensure that pay levels and incentive opportunities are competitive, directly linked to performance and aligned with the interest of stockholders. The Committee determines each executive's compensation based upon past and expected future performance towards

specific financial, strategic and operating objectives, the executive's responsibilities within the Company, and the executive's value to the Company. The Committee employs outside independent consultants to assist it in assessing and determining appropriate compensation for the Company's executives.

Base Salary

The Committee annually reviews the performance of the twenty-five highest paid executives of the Company and its subsidiaries. The Committee establishes executive base salary based upon past and expected future performance and the executive's responsibilities. In fixing base salaries, the Committee also considers salaries of senior executives of other comparable companies as reflected in a survey provided by an independent outside consultant. The base salaries for the Chief Executive Officer and the next four highest compensated executive officers can be found in the Summary Compensation Table.

Annual Incentive Compensation

Annual incentive bonuses for the Company's named executive officers are tied to certain operational objectives and financial goals set each year by the Committee at the beginning of the year. Specific targets are tied to short-term goals applicable to the executive's job assignment. The 2004 financial goals were targets for working capital and either corporate earnings per share or business group operating profits. The operational objectives for 2004 included various qualitative and quantitative measures intended to improve the longer-term capabilities of the Company. Based on the Committee's assessment of 2004 performance, each of the named executive officers earned an annual incentive bonus for 2004 as set forth in the Summary Compensation Table.

Restricted Stock Grants, Stock Options, and Deferred Compensation

Long-Term incentive awards provided by the stockholder-approved stock option and incentive plans are designed to develop and retain strong management through stock ownership and stock options. The Committee believes that a significant portion of senior executives' compensation should be dependent on value created for stockholders. Awards of restricted stock and stock options are an excellent vehicle to accomplish this by tying the executives' interests directly to the stockholders' interests. Long-term incentive awards are determined based on market data using comparator companies compiled by the Committee's outside consultant and initiatives designed to create long-term value for the Company. The Committee is implementing a performance measurement program for the named executive officers that will increase the link between a participant's performance in adding value to the organization and the size of any long-term incentive awards.

The Committee considers the award of restricted stock to executive officers to be an important incentive for long-term performance. During 2004, the Committee reduced the number of stock options granted to key executives as long-term incentives and increased the number of restricted shares. An executive who is awarded restricted stock will be entitled to vote such shares and to receive dividend equivalents on such shares during the restricted period. Vesting will be accelerated upon death, disability or retirement, or after three years upon the consent of the Committee. During 2004, the named executive officers were awarded restricted stock as a long-term incentive that vest one-third after the fourth, sixth and eighth year after grant, including awards to Messrs. Adams, Stiles, Ivy and Menzies of 18,500, 28,500, 25,000 and 24,700 shares, respectively. In addition, Mr. Stiles was granted a special award of 3,300 shares based upon performance that vests upon his retirement.

During 2004, executive officers, business group presidents and key employees were granted options to purchase a total of 425,450 shares. Options are granted at the fair market value of the Company's Common Stock on the date of grant. The options granted in 2004 vest in annual increments over five years provided the optionee is still employed on the vesting date.

The number of options and shares of restricted stock executive officers are granted is based on individual performance and level of responsibility. The number of options or shares of restricted stock currently held by an executive is not a factor in determining individual grants.

To encourage the retention of certain key and strategically important executives focused on continuous improvement and growth of the Company, the Company has established a Deferred Compensation Plan for Messrs. Wallace, Adams, Stiles, Ivy and Menzies. Under the Deferred Compensation Plan, an amount equal to

Table of Contents

ten percent (10%) of each participant's annual base salary and annual incentive compensation is accrued to a deferred account on the books of the Company. All such deferrals bore interest during 2004 at the annual LIBOR rate plus 6 points.

Executive Perquisite Allowance

The Company has an Executive Perquisite Program that in 2004 provided to top executives an allowance of 7 1/2% of base pay in order to provide a consistent and competitive level of perquisites and benefits to top executives. The perquisite allowance is to be used at the discretion of the executive for (i) expenses related to the use of executive's personal automobile for business purposes and for the first 10,000 business miles, (ii) country club, health club, dinner or luncheon club, and airport club dues and fees, and (iii) other perquisite type expenses such as financial planning, income tax preparation and home security. It is intended that the perquisite allowance will eliminate charges to the Company of personal benefits for the executives that are not provided to Company employees generally other than occasional *de minimis* items such as the use of Company tickets to entertainment events. The perquisite allowance is not intended to cover personal use of the Company's aircraft.

Chief Executive Officer Compensation

Compensation of the Chief Executive Officer is determined by the non-management members of the Board of Directors after recommendation by the Committee. The Chief Executive Officer's base salary, incentive compensation, stock option grants and restricted stock awards are set within the philosophy and policies enunciated above for all other executives of the Company. In recommending the compensation of the Chief Executive Officer, the Committee reviews the performance of the Company, considers the positioning of the Company for future years, assesses his past and ongoing personal performance in the position of Chief Executive Officer, and considers the report of a nationally recognized consulting firm employed to survey the compensation of chief executive officers of other companies, with particular emphasis on companies comparable to the Company. The Chief Executive Officer's base salary was not changed for 2004 and, based on his request, was not changed for 2005. In determining the Chief Executive Officer's annual incentive, the Committee measured Mr. Wallace's performance against previously established financial goals and operational objectives intended to improve the longer term capabilities of the Company and awarded him \$526,500.

Mr. Wallace was awarded long-term incentive compensation in 2004 of 104,000 shares of restricted stock that vest one third after the fourth, sixth and eighth year after grant and options to purchase 68,500 shares that vest in annual increments over five years. The Committee considers the award of restricted stock and stock options to be an important incentive for long-term performance and an important means to align the long-term interest of the executives with the stockholders. In determining the award of long-term incentive compensation to Mr. Wallace, the Committee considered market data using comparator companies compiled by the Committee's outside consultant and performance of the Company along with initiatives being implemented that are designed to create long-term value for the Company.

The Chief Executive Officer also participated in the Deferred Compensation Plan and Executive Perquisite Program as discussed above.

Limitation on Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code denies a publicly held corporation a federal income tax deduction for the compensation of certain executive officers exceeding \$1 million per year. Performance based compensation is not subject to the limitation on deductibility and the Committee strives to structure compensation so as to qualify for deductibility. The Committee will continue to monitor future deductibility options. However, the Committee will

authorize compensation that may not be deductible when it deems it to be in the best interest of the Company and its stockholders.

Conclusion

The Committee believes that the Company's compensation policies and practices are appropriately designed to attract, retain and motivate key executives to guide the Company in the future and to produce results which will enhance the Company's long-term prospects, thereby enriching shareholder values.

Report of the Audit Committee

The Audit Committee of the Board of Directors (the "Committee") is a standing committee comprised of three independent directors as independence is currently defined by SEC regulations and the applicable listing standards of the New York Stock Exchange. The Board of Directors has determined that each of the members of the Committee are audit committee financial experts as defined by applicable SEC rules. The Committee operates under a written charter adopted by the Board of Directors which was amended in 2003 in light of the Sarbanes-Oxley Act of 2002, rules and regulations adopted by the Securities and Exchange Commission and changes to New York Stock Exchange listing requirements. A copy of the Charter is available free of charge on our website under the heading "Investor Relations/Governance" or by writing to Trinity Industries, 2525 Stemmons Freeway, Dallas, TX 75207 c/o Vice President and Corporate Secretary.

The Committee has reviewed and discussed the consolidated financial statements with management and the independent registered public accounting firm and discussed with the independent registered public accounting firm matters required to be discussed by Statement on Auditing Standards No. 61, *Communication with Audit Committees*.

The Company's independent registered public accounting firm has also provided to the Committee the written disclosures required by Independence Standards Board Standard No. 1 *Independence Discussions with Audit Committees*, and the Committee discussed with the independent registered public accounting firm that firm's independence. The Audit Committee has also considered whether the provision of non-audit services is compatible with maintaining the independent registered public accounting firm's independence and concluded that such services have not impaired the independent registered public accounting firm's independence.

Based upon the Committee's discussion with management and the independent registered public accounting firm and the Committee's review of the representation of management and the report of the independent registered public accounting firm to the Committee, the Committee recommended that the Board of Directors include the audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2004 filed with the Securities and Exchange Commission.
