FORWARD-LOOKING STATEMENTS

This Form 10-Q and the documents incorporated by reference into this Form 10-Q may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. When used in this Form 10-Q, words such as anticipate, believe, estimate, expect, intend, predict, project, and similar expressions, as they relate to us or our management, identify forward-looking statements. Such forward-looking statements are based on the beliefs of our management as well as assumptions made by us and information currently available to us. These forward-looking statements are subject to certain risks, uncertainties and assumptions, including risks, uncertainties and assumptions related to the following:

Our failure to qualify as a REIT under the Internal Revenue Code of 1986, as amended;

Possible adverse changes in tax and environmental laws, as well as the impact of newly adopted accounting principles on our accounting policies and on period-to-period comparison of financial results;

Potential liability for uninsured losses and environmental contamination;

Our properties are illiquid assets;

Factors that could result in the poor operating performance of our properties including tenant defaults and increased costs such as taxes, insurance, utilities and casualty losses that exceed insurance limits;

Changes in market conditions including market interest rates and employment rates;

Our incurrence of debt and use of variable rate and derivative financial instruments;

Our real estate acquisition, redevelopment, development and construction activities;

The geographic concentration of our properties;

Changes in market conditions including capitalization rates applied in real estate acquisitions;

Competition in markets where we have properties;

Our dependence on key personnel whose continued service is not guaranteed;

Changes in our investment, financing and borrowing policies without shareholder approval;

The effect of shares available for future sale on the price of common shares;

Limited ability of shareholders to effect change of control;

Conflicts of interest with management, our board of trustees and joint venture partners could impact business decisions;

Our third-party property management, leasing, development and construction business and related services;

Risks associated with an increase in the frequency and scope of changes in state and local tax laws and increases in the number of state and local tax audits; and

Cost of compliance with the Americans with Disabilities Act and other similar laws related to our properties.

If one or more of these risks or uncertainties materialize, or if any underlying assumption proves incorrect, actual results may vary materially from those anticipated, expected or projected. Such forward-looking statements reflect our current views with respect to future events and are subject to these and other risks, uncertainties and assumptions relating to our operations, results of operations, growth strategy and liquidity. All subsequent written and oral forward-looking statements attributable to us or individuals acting on our behalf are expressly qualified in their entirety by this paragraph. A detailed discussion of risks is included, under the caption "Risk Factors" in our Form 10-K, filed on March 15, 2005. You are cautioned not to place undue reliance on our forward-looking statements, which speak only as of the date of this Form 10-Q or the date of any document incorporated by reference into this Form 10-Q. We do not undertake any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

PRENTISS PROPERTIES TRUST
NOTES TO CONSOLIDATED
FINANCIAL STATEMENTS
(Unaudited)

1. The Organization*Organization*

We are a self-administered and self-managed Maryland REIT that acquires, owns, manages, leases, develops and builds primarily office properties throughout the United States. We are self-administered in that we provide our own administrative services, such as accounting, tax and legal, through our own employees. We are self-managed in that we provide all the management and maintenance services that our properties require through our own employees, such as, property managers, leasing professionals and engineers. We operate principally through our operating partnership, Prentiss Properties Acquisition Partners, L.P., and its subsidiaries, and two management service companies, Prentiss Properties Resources, Inc. and its subsidiaries and Prentiss Properties Management, L.P. The ownership of the operating partnership was as follows at June 30, 2005:

(units in thousands)	Common		Series D Convertible Preferred	
	Units	%	Units	%
Prentiss Properties Trust	45,238 ⁽¹⁾	97.21%	3,774	100.00%
Third parties	1,297	2.79%		0.00%
Total	46,535	100.00%	3,774	100.00%

(1) Includes 63,439 common shares held by the company pursuant to a deferred compensation plan. The shares are accounted for as common shares in treasury on the consolidated balance sheet.

As of June 30, 2005, we owned interests in a diversified portfolio of 128 primarily suburban Class A office and suburban industrial properties, the accounts of which were consolidated with and into the operations of our operating partnership.

	Number of Buildings	Net Rentable Square Feet (in thousands)
Office properties	101	16,617

Industrial properties	27	2,203
Total	128	18,820

As of June 30, 2005, our properties were 90% leased to approximately 980 tenants. In addition to managing properties that are wholly owned, we manage approximately 8.9 million net rentable square feet in office, industrial and other properties for third parties.

We have determined that our reportable segments are those that are based on our method of internal reporting, which disaggregates our business by geographic region. As of June 30, 2005, our reportable segments include our five regions (1) Mid-Atlantic; (2) Midwest; (3) Southwest; (4) Northern California; and (5) Southern California.

At June 30, 2005, our properties were located in 10 markets, which were included in our reportable segments as follows:

Reportable Segment	Market
Mid-Atlantic	Metropolitan Washington D.C.
Midwest	Chicago, Suburban Detroit
Southwest	Dallas/Fort Worth, Austin, Denver
Northern California	Oakland, Silicon Valley
Southern California	San Diego, Los Angeles

NOTES TO CONSOLIDATED
FINANCIAL STATEMENTS
(Unaudited)

Real Estate Transactions

On May 2, 2005, using proceeds from our revolving credit facility, our operating partnership completed a transaction in which we effectively acquired for \$103.2 million the remaining 75% interest in Tysons International Partners, a joint venture that prior to the transaction was owned 25% by our operating partnership and 75% by an unrelated third party. The joint venture, through its two wholly-owned subsidiaries (subsidiaries) owned two office properties totaling approximately 456,000 net rentable square feet in Tyson s Corner, Virginia. Pursuant to the purchase agreement, our operating partnership acquired from Tysons International Partners 100% of the subsidiaries thereby giving us 100% ownership of the two office properties. Tysons International Partners distributed the proceeds from the sale and immediately thereafter redeemed the 75% partner s interest in the joint venture. As a result of the redemption, Tysons International Partners terminated as a joint venture.

In accordance with Statement of Financial Accounting Standards No. 141, Business Combinations, we allocated the purchase price of the properties acquired as follows:

(in thousands)	Three Months Ended June 30, 2005
Land	\$ 14,544
Buildings and improvements	\$ 70,784
Tenant improvements and leasing commissions	\$ 12,385
Above/(below) market lease value	\$ (3,614)
Other intangible assets	\$ 9,123

On May 2, 2005, Tysons International Partners caused both Prentiss Properties Greensboro Drive, L.P. and Prentiss Properties International Drive, L.P. to pay off the outstanding mortgage loan on each property prior to the closing of our operating partnership s acquisition of the remaining 75% interest in Tysons International Partners. The prepayment amount totaled \$67.6 million of which \$8.8 million represented a prepayment penalty. We recognized \$2.2 million, or 25% of the prepayment penalty in the line item equity in (loss)/income of unconsolidated joint ventures and subsidiaries in our consolidated statements of income for the three and six months ended June 30, 2005.

On June 6, 2005, using proceeds from our revolving credit facility, we acquired from an unrelated third party, a .65 acre tract of land in Oakland, California for gross consideration of \$1.9 million. The land, which can accommodate approximately 200,000 net rentable square feet of future development, is located adjacent to one of our existing office properties.

Other Transactions

On May 4, 2005, Prentiss Office Investors, L.P. completed a five-year \$30.9 million loan, collateralized by two office buildings located in Herndon, Virginia. We may borrow an additional \$1.9 million over the next 24 months if certain conditions are met. The interest rate on the loan is 115 basis points over 30-day LIBOR and the monthly payments are interest only, with the principal balance due at its maturity on May 4, 2010. Proceeds from the loan were used to fund a pro rata capital distribution to the joint venture partners based on their ownership interest in Prentiss Office Investors, L.P. Our operating partnership used proceeds from the capital distribution to repay a portion of the outstanding borrowings under our revolving credit facility.

During the second quarter 2005, we formed Prentiss Properties Capital Trust II, a Delaware statutory trust, established to issue \$25.0 million of trust preferred equity securities to Merrill Lynch International, in a private placement pursuant to an applicable exemption from registration. Prentiss Properties Limited, Inc., a wholly-owned affiliate of our operating partnership acquired for \$774,000 a residual interest (common securities), of Prentiss Properties Capital Trust II, representing 3% of the overall equity of the trust. The preferred equity securities will

mature on June 30, 2035, but may be redeemed by Prentiss Properties Capital Trust II beginning on June 30, 2010. The holders of both the preferred equity and common securities will receive quarterly distributions from Prentiss Properties Capital Trust II, at a variable rate equal to 90-day LIBOR plus 125 basis points. Distributions will be cumulative and will accrue from the date of original issuance but may be deferred for up to 20 consecutive quarterly periods.

Prentiss Properties Capital Trust II used the proceeds from the issuance of the preferred and common securities to acquire \$25.8 million of junior subordinated notes from our operating partnership pursuant to an indenture agreement.

Table of Contents

**PRENTISS PROPERTIES TRUST
NOTES TO CONSOLIDATED
FINANCIAL STATEMENTS
(Unaudited)**

The notes will mature on June 30, 2035, but may be redeemed at our option, in whole or in part, beginning on June 30, 2010 in accordance with the provisions of the indenture agreement. The notes bear interest at a variable rate equal to 90-day LIBOR plus 125 basis points. Interest is cumulative and will accrue from the date of original issuance but may be deferred by us for up to 20 consecutive quarterly periods.

The trust is a variable interest entity under paragraph 5(b)(1) of FIN 46, because the equity investors at risk hold no substantial decision-making rights. Prentiss Properties Limited, Inc.'s investment is financed directly by our operating partnership; and therefore, it is not considered at risk. Because Prentiss Properties Limited, Inc. lacks a significant variable interest in the trust and thus is not the primary beneficiary, the accounts of the trust are not consolidated with and into Prentiss Properties Limited, Inc. and therefore, are not consolidated with and into our operating partnership. Prentiss Properties Limited, Inc.'s investment in the trust is presented on our consolidated balance sheet as an investment in joint ventures and unconsolidated subsidiaries and is accounted for using the cost method of accounting, whereby distributions are recognized into income upon receipt.

The proceeds received by the operating partnership in exchange for the notes were used to repay a portion of the outstanding borrowings under our revolving credit facility. The notes are presented on our consolidated balance sheet in the line item mortgages and notes payable.

2. Basis of Presentation

The accompanying financial statements are unaudited; however, our financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the disclosures required by accounting principles generally accepted in the United States of America for complete financial statements. In our opinion, all adjustments (consisting solely of normal recurring matters) necessary for a fair presentation of the financial statements for these interim periods have been included. The December 31, 2004 comparative balance sheet information was derived from audited financial statements. The results for the three and six month periods ended June 30, 2005 are not necessarily indicative of the results to be obtained for the full fiscal year. These financial statements should be read in conjunction with our audited financial statements, and notes thereto, included in our annual report on Form 10-K for the fiscal year ended December 31, 2004.

3. Share-Based Compensation

In December 2002, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 148, Accounting for Stock-Based Compensation Transition and Disclosure. The statement amends Statement of Financial Accounting Standards No. 123, Accounting for Stock-Based Compensation, expanding disclosure requirements and providing alternative methods of transition for an entity that voluntarily changes to the fair value based method of accounting for stock or share-based employee compensation.

On January 1, 2003, we adopted the fair value based method of accounting as prescribed by Statement of Financial Accounting Standards No. 123 as amended for our share-based compensation plans, and we elected to apply this method on a prospective basis as prescribed in Statement of Financial Accounting Standards No. 148. The prospective basis requires that we apply the fair value based method of accounting to all awards granted, modified or settled after the beginning of the fiscal year in which we adopt the accounting method.

Historically, we applied the intrinsic value based method of accounting as prescribed by APB Opinion 25 and related Interpretations in accounting for our share-based awards. Had we fully adopted Statement of Financial Accounting Standards No. 123 for awards issued prior to January 1, 2003 it would have changed our method for recognizing the cost of our plans. Had the compensation cost for our share-based compensation plans been determined consistent with Statement of Financial Accounting Standards No. 123, our net income applicable to common shareholders and net income per common share for the three and six months ended June 30, 2005 and 2004 would approximate the pro forma amounts below:

The effects of applying Statement of Financial Accounting Standards No. 123 in this pro forma disclosure are not necessarily indicative of future amounts.

4. Earnings per Share

We calculate earnings per share in accordance with Statement of Financial Accounting Standards No. 128, Earnings per Share, which requires a dual presentation of basic and diluted earnings per share on the face of the income statement. Additionally, the statement requires a reconciliation of the numerator and denominator used in computing basic and diluted earnings per share. The table below presents a reconciliation of the numerator and denominator used to calculate basic and diluted earnings per share for the three and six month periods ended June 30, 2005 and 2004:

	\$ 287,405	\$ 260,283

Table of Contents

PRENTISS PROPERTIES TRUST
NOTES TO CONSOLIDATED
FINANCIAL STATEMENTS
(Unaudited)

We record the amortization related to deferred leasing costs and tenant improvements and in-place lease values in the line item depreciation and amortization. We record above market lease value amortization in the line item rental income. Amortization for deferred financing cost is recorded in the line item amortization of deferred financing costs, and the amortization for prepaid items is recorded in the line items property operating and maintenance and real estate taxes.

6. Notes Receivable

Our notes receivable balance of \$1.0 million at June 30, 2005 is the result of a real estate transaction that included a non-recourse promissory note totaling \$4.4 million, collateralized by a real estate property sold, maturing March 1, 2005, bearing interest at 7.95% per annum and requiring interest only payments until maturity. On December 22, 2004, we received correspondence from the borrower indicating an inability to fulfill its total obligation under the note. Due to the fact that our note receivable is subordinate to a first mortgage totaling approximately \$12.0 million, we initiated an evaluation of the underlying real estate. Our evaluation was to determine whether the fair value of the property, less cost to sell, would be sufficient to satisfy both the first mortgage and our note receivable. In our opinion, the fair value of the underlying real estate would not be sufficient to satisfy both the first mortgage and our note receivable and thus, in the preparation of our financial statements for the year ended December 31, 2004, we recognized a \$2.9 million write-down of the note. On April 4, 2005, the borrower sent notice notifying us that they were attempting to restructure the first mortgage. Subsequent to quarter end, we were made aware by the borrower of his intent to abandon the property. On August 2, 2005, we completed the sale of our note receivable to an unrelated party for total proceeds of \$1.0 million. In an effort to reflect the realizable value of the note in our June 30, 2005 consolidated balance sheet, effective June 30, 2005, we recognized a \$500,000 write-down to the note.

7. Accounts Receivable, Net

Accounts receivable consisted of the following at June 30, 2005 and December 31, 2004:

	(in thousands)	
	June 30,	December
	2005	31,
		2004
Rents and services	\$ 9,272	\$ 10,449

Total					\$(1,543)	\$ 596

Summary of Operations for the Six Months Ended June 30, 2005 and 2004: (in thousands)	Total Revenue		Net Income		Company's Share of Net Income/(Loss)	
	2005	2004	2005	2004	2005	2004
Broadmoor Austin Associates	\$11,292	\$10,035	\$ 2,742	\$2,474	\$ 1,371	\$1,237
Tysons International Partners ⁽²⁾	4,228	5,819	(8,864)	(250)	(2,216)	(63)
Total					\$ (845)	\$1,174

(1) We own a 50% non-controlling interest in Broadmoor Austin Associates, an entity, which owns a seven-building, 1.1 million net

rentable square
foot office
complex in
Austin, Texas.

- (2) At
December 31,
2004, we owned
a 25%
non-controlling
interest in
Tysons
International
Partners, an
entity, which
owns two office
properties
containing
456,000 net
rentable square
feet in the
Northern
Virginia area.
On May 2,
2005, we
acquired the
remaining 75%
interest in the
properties
owned by the
joint venture.
Prior to our
acquisition of
the remaining
75% for
\$103.2 million,
we contributed
to the joint
venture
\$14.7 million
representing our
pro rata share of
the outstanding
indebtedness on
the properties.
As a condition
of closing, out
of proceeds
from the sale
and our capital
contribution, the

joint venture prepaid the outstanding indebtedness collateralized by the properties. The prepayment amount totaled \$67.6 million of which \$8.8 million represented a prepayment penalty. Net income for Tysons International Partners includes the \$8.8 million loss from debt prepayment but excludes the gain on sale resulting from our acquisition of the remaining 75% interest in the joint venture.

- (3) Represents an interest in Prentiss Properties Capital Trust I and Prentiss Properties Capital Trust II that we account for using the cost method of accounting.
- (4) The mortgage debt, all of which is non-recourse, is collateralized by the individual real estate

property or
properties
within each
venture.

9. Mortgages and Notes Payable

At June 30, 2005, we had mortgages and notes payable of \$1.4 billion, excluding our proportionate share of debt from our unconsolidated joint ventures.

The following table sets forth our consolidated mortgages and notes payable as of June 30, 2005 and December 31, 2004:

Description	(in thousands)		Amortization	Interest Rate ⁽¹⁾	Maturity
	June 30, 2005	December 31, 2004			
Revolving credit facility	\$ 255,000	\$217,500	None	LIBOR+1.350%	February 19, 2007
PPREFI portfolio loan ⁽²⁾	180,100	180,100	None	7.58%	February 26, 2007
High Bluffs construction loan	19,019	8,929	None	LIBOR+1.400%	September 1, 2007
Collateralized term loan Union Bank of Calif. ⁽³⁾	30,000	30,000	None	LIBOR+1.150%	September 30, 2007
Unsecured term loan Eurohypo I	100,000	100,000	None	LIBOR+1.375%	May 22, 2008
Unsecured term loan Commerzbank	75,000	75,000	None	LIBOR+1.350%	March 15, 2009
Unsecured term loan Eurohypo II	13,620	13,760	30 yr	7.46%	July 15, 2009
Collateralized term loan Mass Mutual ⁽⁴⁾	85,000	85,000	None	LIBOR+0.850%	August 1, 2009
Prentiss Properties Capital Trust I Debenture	52,836		None	LIBOR+1.250%	March 30, 2035
Prentiss Properties Capital Trust II Debenture	25,774		None	LIBOR+1.250%	June 30, 2035
Variable rate mortgage notes payable ⁽⁵⁾	61,600	96,700	None	(6)	(6)
Fixed rate mortgage notes payable ⁽⁷⁾	495,151	384,922	(8)	(8)	(8)
	\$ 1,393,100	\$ 1,191,911			

(1) All of our variable rate loans are based on 30-day LIBOR with the exception of our Prentiss Properties Capital Trust I

& II Debentures which are based on 90-day LIBOR. 30-day and 90-day LIBOR were 3.34% and 3.52% at June 30, 2005, respectively.

- (2) The PPREFI portfolio loan is collateralized by 36 properties with an aggregate net book value of real estate of \$233.9 million.
- (3) The term loan is collateralized by two properties with an aggregate net book value of real estate of \$18.1 million.
- (4) The term loan is collateralized by 9 properties with an aggregate net book value of real estate of \$106.7 million.
- (5) The variable rate mortgage loans are collateralized by 5 buildings with an aggregate net book value of \$84.6 million.
- (6) Interest rates on our variable rate mortgages range from 30-day

LIBOR plus 110 basis points to 30-day LIBOR plus 130 basis points. Maturity dates range from July 2009 through May 2010.

- (7) The fixed rate mortgage loans are collateralized by 23 buildings with an aggregate net book value of \$553.7 million.
- (8) The payments on our fixed rate mortgages are based on amortization periods ranging between 18 and 30 years. The effective interest rates for our fixed rate mortgages range from 3.70% to 8.05% with a weighted average effective interest rate of 6.77% at June 30, 2005. Maturity dates range from November 2005 through April 2015 with a weighted average maturity of 6.0 years from June 30, 2005.

Our mortgages and notes payable at June 30, 2005 consisted of \$675.3 million of fixed rate, non-recourse, long-term mortgages, \$13.6 million of fixed rate, recourse debt and \$704.2 million of floating rate debt,

Edgar Filing: PRENTISS PROPERTIES TRUST/MD - Form 10-Q

\$415.0 million of which was hedged at June 30, 2005 with variable to fixed rate hedges.

Future scheduled principal repayments of our outstanding mortgages and notes payable are as follows:

	(in thousands)
2005	\$ 48,197
2006	9,704
2007	496,201
2008	107,094
2009	251,764
Thereafter	480,140
	\$1,393,100

**PRENTISS PROPERTIES TRUST
NOTES TO CONSOLIDATED
FINANCIAL STATEMENTS
(Unaudited)**

10. Interest Rate Hedges

In the normal course of business, we are exposed to the effect of interest rate changes. We limit our interest rate risk by following established risk management policies and procedures including the use of derivatives. For interest rate exposures, derivatives are used to hedge against rate movements on our related debt.

To manage interest rate risk, we may employ options, forwards, interest rate swaps, caps and floors or a combination thereof depending on the underlying exposure. We undertake a variety of borrowings from credit facilities, to medium- and long-term financings. To hedge against increases in interest cost, we use interest rate instruments, typically interest rate swaps, to convert a portion of our variable-rate debt to fixed-rate debt.

On the date we enter into a derivative contract, we designate the derivative as a hedge of (a) a forecasted transaction or (b) the variability of cash flows that are to be received or paid in connection with a recognized asset or liability (cash flow hedge). These agreements involve the exchange of amounts based on a variable interest rate for amounts based on fixed interest rates over the life of the agreement based upon a notional amount. The difference to be paid or received as the interest rates change is recognized as an adjustment to interest expense. The related amount payable to or receivable from counterparties is included in accounts payable and other liabilities. Changes in the fair value of a derivative that is highly effective and that is designated and qualifies as a cash flow hedge, to the extent that the hedge is effective, are recorded in other comprehensive income, until earnings are affected by the variability of cash flows of the hedged transaction (e.g. until periodic settlements of a variable-rate asset or liability are recorded in earnings). Any hedge ineffectiveness (which represents the amount by which the changes in the fair value of the derivative exceed the variability in the cash flows of the forecasted transaction) is recorded in current-period earnings. Changes in the fair value of non-hedging instruments are reported in current-period earnings.

We formally document all relationships between hedging instruments and hedged items, as well as our risk-management objective and strategy for undertaking various hedge transactions. This process includes linking all derivatives that are designated as cash flow hedges to (1) specific assets and liabilities on the balance sheet or (2) specific firm commitments or forecasted transactions. We also formally assess (both at the hedge's inception and on an ongoing basis) whether the derivatives that are used in hedging transactions have been highly effective in offsetting changes in the cash flows of hedged items and whether those derivatives may be expected to remain highly effective in future periods. When it is determined that a derivative is not (or has ceased to be) highly effective as a hedge, we discontinue hedge accounting prospectively, as discussed below.

We discontinue hedge accounting prospectively when (1) we determine that the derivative is no longer effective in offsetting changes in the cash flows of a hedged item (including hedged items such as firm commitments or forecasted transactions); (2) the derivative expires or is sold, terminated, or exercised; (3) it is no longer probable that the forecasted transaction will occur; (4) a hedged firm commitment no longer meets the definition of a firm commitment; or (5) management determines that designating the derivative as a hedging instrument is no longer appropriate.

When we discontinue hedge accounting because it is no longer probable that the forecasted transaction will occur in the originally expected period, the gain or loss on the derivative remains in accumulated other comprehensive income and is reclassified into earnings when the forecasted transaction affects earnings. However, if it is probable that a forecasted transaction will not occur by the end of the originally specified time period or within an additional two-month period of time thereafter, the gains and losses that were accumulated in other comprehensive income will be recognized immediately in earnings. In all situations in which hedge accounting is discontinued and the derivative remains outstanding, we will carry the derivative at its fair value on the balance sheet, recognizing changes in the fair value in current-period earnings.

To determine the fair value of derivative instruments, we use a variety of methods and assumptions that are based on market conditions and risks existing at each balance sheet date. For our derivatives, standard market conventions and techniques such as discounted cash flow analysis, option pricing models, replacement cost, and termination cost are used to determine fair value. All methods of assessing fair value result in a general approximation of value, and

such value may never actually be realized.

Over time, the unrealized gains and losses held in accumulated other comprehensive income will be reclassified to earnings. This reclassification is consistent with when the hedged items are recognized in earnings. Within the next twelve months, we expect to reclassify to earnings approximately \$1.4 million and \$709,000 of unrealized gains and unrealized losses, respectively.

Table of Contents

PRENTISS PROPERTIES TRUST
NOTES TO CONSOLIDATED
FINANCIAL STATEMENTS
(Unaudited)

The following table summarizes the notional values and fair values of our derivative financial instruments at June 30, 2005. The notional value provides an indication of the extent of our involvement in these instruments as of the balance sheet date, but does not represent exposure to credit, interest rate or market risks.

Notional Amount	Swap Rate Paid (Fixed)	Swap Rate Received (Variable) at June 30, 2005	Swap Maturity	Fair Value (in thousands)
\$25 million	4.345%	3.34%	July 2005	\$ (7)

\$30 million	3.819%	3.34%	October 2008	93
\$20 million	3.819%	3.34%	October 2008	62
\$50 million	3.935%	3.34%	May 2009	23
\$30 million	3.443%	3.34%	October 2009	625
\$20 million ⁽¹⁾	4.000%	3.34%	February 2010	(13)
Total				\$2,032

⁽¹⁾ The interest rate swap agreement was executed by Prentiss Office Investors, L.P., a partnership

which is 51%
owned by our
operating
partnership.

Cash payments made under our interest rate swap agreements exceeded cash receipts from our interest rate swap agreements by \$1.1 million and \$2.7 million for the three months ended June 30, 2005 and 2004, respectively and \$2.6 million and \$5.3 million for the six months ended June 30, 2005 and 2004, respectively.

11. Accounts Payable and Other Liabilities

Accounts payable and other liabilities consisted of the following at June 30, 2005 and December 31, 2004:

	(in thousands)	
	June 30, 2005	December 31, 2004
Accrued interest expense	\$ 6,454	\$ 5,685
Accrued real estate taxes	25,132	28,178
Advance rents and deposits	20,424	20,010
Deferred compensation liability	7,435	6,516
Below market lease values, net of amortization ⁽¹⁾	11,156	8,319
Other liabilities	29,794	36,596
	\$100,395	\$105,304

⁽¹⁾ Accumulated amortization for below market lease values as of June 30, 2005 and December 31, 2004 was \$3.0 million and \$2.0 million, respectively. We record below market lease value amortization in the line item rental income.

12. Distributions

On June 8, 2005, we declared a cash distribution for the second quarter of 2005 in the amount of \$0.56 per share, payable on July 8, 2005 to common shareholders of record on June 30, 2005. Additionally, we determined that a distribution of \$0.56 per common unit would be made to the partners of the operating partnership and the holders of our Series D Convertible Preferred Shares. The distributions totaling \$28.2 million were paid July 8, 2005.

Table of Contents

PRENTISS PROPERTIES TRUST
NOTES TO CONSOLIDATED
FINANCIAL STATEMENTS
(Unaudited)

13. Supplemental Disclosure of Non-Cash Activities

During the three months ended June 30, 2005, we declared cash distributions totaling \$28.2 million payable to holders of common shares, operating partnership units and Series D Convertible Preferred Shares. The distributions were paid July 8, 2005.

Pursuant to our long-term incentive plan, during the six months ended June 30, 2005, we issued 110,250 restricted common shares to various key employees. The shares, which had a market value of approximately \$3.8 million based upon the per share price on the date of grant, were classified as unearned compensation and recorded in the shareholders' equity section of the consolidated balance sheet. The unearned compensation is amortized quarterly as compensation expense over the three-year vesting period.

During the six months ended June 30, 2005, 37,733 common shares were issued pursuant to the conversion of 37,733 common units of our operating partnership. The common shares had a market value of approximately \$1.4 million on the conversion date.

We marked-to-market our investments in securities and our interest rate hedges. During the six months ended June 30, 2005, we recorded unrealized gains of \$613,000 and unrealized losses of \$18,000 on our interest rate hedges and investments in securities, respectively.

In connection with the acquisitions and the consolidation of the Tysons International joint venture during the six months ended June 30, 2005, we recorded and assumed liabilities of approximately \$2.3 million and receivables of approximately \$756,000.

14. Segment Information

The tables below present information about segment assets, our investments in equity method investees, expenditures for additions to long-lived assets and revenues and income from continuing operations used by our chief operating decision maker as of and for the three and six month periods ended June 30, 2005 and 2004:

For the Three Months Ended June 30, 2005**(in thousands)**

15. Recently Issued Accounting Pronouncements

In December 2004, the Financial Accounting Standards Board Issued Statement of Financial Accounting Standards No. 123(R), Share-Based Payment, a revision to Statement of Financial Accounting Standards No. 123, Accounting for Stock-Based Compensation. The Statement supersedes APB Opinion No. 25, Accounting for Stock Issued to Employees, and its related implementation guidance.

The Statement which focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions, establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods or services. It also addresses transactions in which an entity incurs liabilities in exchange for goods or services that are based on the fair value of the entity's equity instruments or that may be settled by the issuance of those equity instruments.

The Statement requires a public entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award (with limited exceptions). That cost will be recognized over the period during which an employee is required to provide service in exchange for the award the requisite service period (usually the vesting period). No compensation cost is recognized for equity instruments for which employees do not render the requisite service.

The Statement, which originally was to take effect the beginning of the first interim or annual reporting period that begins after June 15, 2005 for public entities that do not file as small business issuers, was amended on April 14, 2005. The Securities and Exchange Commission adopted a new rule to amend the compliance dates, which now allows companies to implement the statement at the beginning of their next fiscal year. The Statement will not have a material impact on our financial statements.

In May 2005, the Financial Accounting Standards Board issued FASB Statement No. 154, Accounting Changes and Error Corrections, a replacement of APB Opinion No. 20 and FASB Statement No. 3. The Statement provides guidance on the accounting for and reporting of accounting changes and error corrections. It establishes, unless impracticable, retrospective application as the required method for reporting a change in accounting principle in the absence of explicit transition requirements specific to the newly adopted accounting principle. This Statement is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005.

At the June 2005 EITF meeting, the Task Force reached a consensus on EITF 04-5, Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights. The consensus provides a framework for addressing when a general partner, or general partners as a group, controls a limited partnership or similar entity. The Task Force reached a consensus that for general partners of all new limited partnerships formed and for existing limited partnerships for which the partnership agreements are modified, the guidance in this issue is effective after June 29, 2005. For general partners in other limited partnerships, the guidance is effective no later than the beginning of the first reporting period in fiscal years beginning after December 15, 2005. The Task Force also amended EITF 96-16 to be consistent with the consensus reached in Issue No. 04-05. Additionally, the Financial Accounting Standards Board issued FSP SOP 78-9-1 which amends the guidance in SOP 78-9 to be consistent with the consensus in 04-5. We are currently evaluating the impact on our financial statements of this framework, the amendments to EITF 96-16 and FSP SOP 78-9-1.

Also at the June 2005 meeting, the Task Force reached a consensus on EITF 05-6, Determining the Amortization Period for Leasehold Improvements Purchased after Lease Inception or Acquired in a Business Combination. The consensus reached is that the leasehold improvements whether acquired in a business combination or that are placed in service significantly after and not contemplated at or near the beginning of the lease term should be amortized over the shorter of the useful life of the assets or a term that includes required lease periods and renewals that are deemed to be reasonably assured. The consensus in this issue which is to be applied to leasehold improvements that are purchased or acquired in reporting periods beginning after June 29, 2005 will not have a material impact on our financial

statements.

16. Pro Forma

The following unaudited pro forma consolidated statements of income are presented as if all of the properties acquired between January 1, 2005 and June 30, 2005 had occurred January 1, 2005 and 2004.

These pro forma consolidated statements of income should be read in conjunction with our historical consolidated financial statements and notes thereto for the three and six months ended June 30, 2005, included in this Form 10-Q. The pro forma

the three and six
months ended
June 30, 2005.

17. Subsequent Events

On July 14, 2005, Prentiss Office Investors, L.P., which is owned 51% by our operating partnership and its affiliates and 49% by Stichting Pensioenfond ABP, acquired, from an unrelated third party, an office building with approximately 238,000 net rentable square feet. The property is located in the City Center submarket of the Oakland, California CBD and was acquired for gross proceeds of \$39.4 million. Each partner contributed their pro rata share of the cash purchase price to Prentiss Office Investors, L.P. for the acquisition. Amounts contributed from the operating partnership were funded with proceeds from our revolving credit facility. As a part of the transaction, the venture assumed a \$25 million non-recourse mortgage with a 5.175% interest rate that amortizes on a 30-year amortization schedule and has a maturity date of June 1, 2010.

On July 14, 2005, we completed a \$100 million loan collateralized by two office buildings in Tyson's Corner, Virginia. The interest rate is fixed at 4.84% and the monthly payments are interest only until September 11, 2008 at which time it converts to amortizing, on a 30-year amortization schedule, until the maturity date of August 1, 2015. The proceeds were used to repay a portion of the outstanding borrowings under our revolving credit facility.

On July 26, 2005, we renewed our revolving credit facility, increased it from \$375 to \$400 million and obtained an expansion right to \$500 million. The facility also includes an extension right of the maturity date from July 26, 2008 to July 26, 2009. The interest rate on the facility will fluctuate based on our overall leverage with a range between LIBOR plus 85 basis points and LIBOR plus 135 basis points. The pricing on the renewed facility generally represents a 25 basis point to 30 basis point pricing reduction across the leverage grid and several covenant requirements were also modified to the company's benefit. Except as set forth above, the remaining terms of the revolving credit facility remain substantially unchanged. Banking participants in the revolving credit facility include JP Morgan Chase Bank as Administrative Agent; Bank of America as Syndication Agent; Commerzbank, EuroHypo, Societe General, PNC Bank, Sun Trust, Union Bank of California, Comerica Bank, Mellon Bank, Deutsche Bank, ING Real Estate Finance, US Bank and Wachovia Bank as Lenders.

On July 26, 2005, and August 3, 2005, we modified our \$75 million unsecured term loan with Commerzbank and our \$100 million unsecured term loan with EuroHypo, respectively. The modifications were basically the same pricing and covenant changes that were incorporated into our revolving credit facility renewal as discussed above, with the expiration dates remaining unchanged at March 15, 2009 and May 22, 2008, respectively.

Table of Contents

**PRENTISS PROPERTIES TRUST

FINANCIAL STATEMENTS
(Unaudited)**

On August 1, 2005, using proceeds from our revolving credit facility, we paid off a \$45.5 million loan collateralized by a property in Oakland, California scheduled to mature on November 1, 2005. In accordance with the terms of the loan, there was no prepayment penalty.

On August 2, 2005, we completed the sale of our mortgage note receivable to an unrelated party for total proceeds of \$1.0 million. The proceeds were used to repay a portion of the outstanding borrowings under our revolving credit facility.

At June 30, 2005, we had 3,773,585 shares outstanding of Participating Cumulative Redeemable Preferred Shares of Beneficial Interest, Series D (the Series D Preferred Shares) held by Security Capital Preferred Growth, Incorporated. Subsequent to quarter end, pursuant to their rights under the agreement which allows Security Capital Preferred Growth, Incorporated to convert any or all of the Series D Preferred Shares into common shares on a one for one basis, Security Capital Preferred Growth, Incorporated converted 950,000 Series D Preferred Shares into 950,000 common shares. As a result, we have 2,823,585 Series D Preferred Shares outstanding at August 4, 2005.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The following discussion and analysis of financial condition and results of operations should be read in conjunction with our consolidated financial statements and related notes thereto presented in this Form 10-Q. Historical results set forth in our consolidated financial statements should not be taken as an indication of our future operations.

Overview

We are a self-administered and self-managed Maryland REIT. We acquire, own, manage, lease, develop and build primarily office properties throughout the United States. We are self-administered in that we provide our own administrative services, such as accounting, tax and legal, internally through our own employees. We are self-managed in that we internally provide all the management and maintenance services that our properties require through employees, such as property managers, leasing professionals and engineers. We operate principally through our operating partnership, Prentiss Properties Acquisition Partners, L.P. and its subsidiaries, and two management service companies, Prentiss Properties Resources, Inc. and its subsidiaries and Prentiss Properties Management, L.P.

As of June 30, 2005, we owned interests in a diversified portfolio of 135 primarily suburban Class A office and suburban industrial properties as follows:

	Number of Buildings⁽¹⁾	Net Rentable Square Feet ⁽²⁾ (in thousands)
Office properties	108	17,729
Industrial properties	27	2,203
Total	135	19,932

(1) Includes 7 buildings owned through a joint venture, the operations of which are accounted for using the equity method of accounting and 14 buildings which are owned through a joint venture, the operations of which are consolidated.

(2) Includes 1.1 million square feet in the 7 buildings owned by our unconsolidated

joint venture of
which we own a
50%
non-controlling
interest and 1.2
million square
feet in the 14
buildings owned
by our
consolidated
joint venture of
which we own a
51% controlling
interest.

As an owner of real estate, the majority of our income and cash flow is derived from rental income received pursuant to tenant leases for space at our properties; and thus, our earnings would be negatively impacted by a deterioration of our rental income. One or more factors could result in a deterioration of rental income including (1) our failure to renew or execute new leases as current leases expire, (2) our failure to renew or execute new leases with rental terms at or above the terms of in-place leases, and (3) tenant defaults.

Our failure to renew or execute new leases as current leases expire or to execute new leases with rental terms at or above the terms of in-place leases is dependent on factors such as (1) the local economic climate, which may be adversely impacted by business layoffs or downsizing, industry slowdowns, changing demographics and other factors and (2) local real estate conditions, such as oversupply of office and industrial space or competition within the market.

On April 22, 2004, we acquired from 7-Eleven, Inc., an unrelated third party, the Cityplace Center property, a 42-story, 1.3 million net rentable square foot class AA office building in Dallas, Texas. Under the terms of the purchase, 7-Eleven, Inc. executed a 504,351 square-foot lease at the property for a term of three years from the date of closing. 7-Eleven, Inc. has the option to extend the term of its lease an additional seven years by notifying us no later than October 21, 2005. The acquisition price of the building totaled approximately \$124 million. In determining the amount we were willing to pay for property, we projected 7-Eleven's departure from the building at the end of the initial 3-year term. The operating partnership is obligated to fund an additional \$14.5 million if 7-Eleven, Inc. exercises its extension option.

Although 7-Eleven, Inc. announced to the public on April 20, 2005, their intention to enter into a lease at a property to be constructed, they have not provided us formal notification and as a result retain their rights under the purchase agreement to extend the lease in accordance with the conditions included therein. We anticipate that 7-Eleven, Inc. will vacate our property upon completion of the new property.

Our industry's performance is generally predicated on a sustained pattern of job growth. In 2004, while the overall United States economy began to demonstrate economic growth, there were few indications that the economy was creating jobs at a pace sufficient to generate significant increases in demand for our office space.

Table of Contents

As a result of the recent weak economic climate, the office real estate markets have been materially impacted by higher vacancy rates. In 2003, vacancy rates appeared to peak in many of our markets and some positive net absorption of space started to occur. During 2004, all of our markets, with the exception of Downtown Chicago, experienced positive net absorption of space. In addition, the overall vacancy rates were down as compared to 2003. With the exception of Denver and Downtown Chicago, our markets have continued to experience positive net absorption in 2005. Although there are signs of improvement in the economic climate, we anticipate that leasing efforts will remain tough for the remainder of 2005. In the face of challenging market conditions, we have followed a disciplined approach to managing our operations. We are constantly reviewing our portfolio and the markets in which we operate to identify potential asset acquisitions, opportunities for development and where we believe significant value can be found, asset dispositions.

At the direction of our board of trustees, during the first quarter of 2005, we initiated an analysis of our business strategy in our Midwest region. Our Midwest Region includes properties located within the Chicago and Detroit markets. Our Chicago portfolio consists of 16 office properties containing 2.2 million square feet and 4 industrial properties containing 700,000 square feet. We have one office property in Detroit, Michigan containing 242,000 square feet. As part of our analysis, Holliday Fenoglio Fowler, L.P. has been retained as broker and is marketing our Chicago and Detroit properties for sale. Subsequent to quarter end, we received purchase offers for the properties. During the next 30 to 60 days, we will be evaluating the offers to determine which properties will be retained, the properties to be sold and the extent of any future involvement with the properties. We anticipate that on or before September 30, 2005, we will commit to a plan to sell some or all of the properties within our Midwest region and pursuant to this plan, the properties selected for sale will qualify as held for sale in accordance with Statement of Financial Accounting Standards No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets.

The occupancy in our portfolio of operating properties slightly increased in the second quarter of 2005 to 90% at June 30, 2005 compared to 88% at December 31, 2004. Market rental rates have declined in each of our markets from peak levels and there may be additional declines throughout the remainder of 2005. Rental rates on our office space that were re-leased during the first and second quarters of 2005 decreased an average of 3%, and 9%, respectively, in comparison to rates that were in effect under expiring leases.

Our organization consists of a corporate office located in Dallas, Texas and five regional offices each of which operates under the guidance of a member of our senior management team. The following table presents second quarter 2005 regional revenues and the 10 markets in which our properties are located, with the first market being the location of each regional office:

Region	Revenues (in thousands)	Market
Mid-Atlantic	\$ 28,064	Metropolitan Washington D.C.
Midwest	16,681	Chicago, Suburban Detroit
Southwest	32,053	Dallas/Fort Worth, Austin, Denver
Northern California	12,287	Oakland, Silicon Valley
Southern California	10,338	San Diego, Los Angeles
Total	\$ 99,423	

In addition to the \$99.4 million of regional revenues, during the three months ended June 30, 2005, we recognized \$790,000 of revenue consisting of reimbursements from employees for their share of health care related costs of \$146,000, interest income of \$37,000 representing the portion not allocated to our regions and the balance of \$607,000 relates primarily to income derived from services performed for third parties not allocated to our regions.

Edgar Filing: PRENTISS PROPERTIES TRUST/MD - Form 10-Q

At June 30, 2005, we had 17.9 million square feet of in-place leases representing 90% of the 19.9 million net rentable square feet of both our consolidated and unconsolidated properties. Our leases generally range in term from 1 month to 15 years with an average term of 5 to 7 years. The following table presents, by region, the expiration of our 17.9 million square feet of in-place leases.

Square Feet (in thousands)	Mid-Atlantic	Midwest	Southwest	Northern California	Southern California	Total	
2005	165	48	203	74	383	873	4.9%
2006	672	435	781	95	264	2,247	12.5%
2007	485	166	862	235	606	2,354	13.1%
2008	320	568	482	206	325	1,901	10.6%
2009	600	226	856	188	417	2,287	12.8%
Thereafter	1,895	1,445	3,619	874	437	8,270	46.1%
	4,137	2,888	6,803	1,672	2,432	17,932	100.0%

Table of Contents

If one or more tenants fail to pay their rent due to bankruptcy, weakened financial condition or otherwise, our income, cash flow and ability to make distributions would be negatively impacted. At any time, a tenant may seek the protection of the bankruptcy laws, which could result in delays in rental payments or in the rejection and termination of such tenant leases.

Second Quarter 2005 Transactions*Real Estate Transactions*

On May 2, 2005, using proceeds from our revolving credit facility, our operating partnership completed a transaction in which we effectively acquired for \$103.2 million the remaining 75% interest in Tysons International Partners, a joint venture that prior to the transaction was owned 25% by our operating partnership and 75% by an unrelated third party. The joint venture, through its two wholly-owned subsidiaries (subsidiaries) owned two office properties totaling approximately 456,000 net rentable square feet in Tyson s Corner, Virginia. Pursuant to the purchase agreement, our operating partnership acquired from Tysons International Partners 100% of the subsidiaries thereby giving us 100% ownership of the two office properties. Tysons International Partners distributed the proceeds from the sale and immediately thereafter redeemed the 75% partner s interest in the joint venture. As a result of the redemption, Tysons International Partners terminated as a joint venture.

In accordance with Statement of Financial Accounting Standards No. 141, Business Combinations, we allocated the purchase price of the properties acquired as follows:

(in thousands)	Three Months Ended June 30, 2005
Land	\$ 14,544
Buildings and improvements	\$ 70,784
Tenant improvements and leasing commissions	\$ 12,385
Above/(below) market lease value	\$ (3,614)
Other intangible assets	\$ 9,123

On May 2, 2005, Tysons International Partners caused both Prentiss Properties Greensboro Drive, LP and Prentiss Properties International Drive, LP to pay off the outstanding mortgage loan on each property prior to the closing of our operating partnership s acquisition of the remaining 75% interest in Tyson s International Partners. The repayment amount totaled \$67.6 million of which \$8.8 million represented a prepayment penalty. We recognized \$2.2 million, or 25% of the prepayment penalty in the line item equity in income of unconsolidated joint ventures and subsidiaries in our consolidated statements of income for the three and six months ended June 30, 2005.

On June 6, 2005, using proceeds from our revolving credit facility, we acquired from an unrelated third party, a .65 acre tract of land in Oakland, California for gross consideration of \$1.9 million. The land which can accommodate approximately 200,000 net rentable square feet of future development is located adjacent to an existing office property wholly-owned by our operating partnership.

Other Transactions

On May 4, 2005, Prentiss Office Investors, L.P. completed a five-year \$30.9 million loan, collateralized by two office buildings located in Herndon, Virginia. We may borrow an additional \$1.9 million over the next 24 months if certain conditions are met. The interest rate on the loan is 115 basis points over 30-day LIBOR and the monthly payments are interest only, with the principal balance due at its maturity on May 4, 2010. Proceeds from the loan were used to fund a pro rata capital distribution to the joint venture partners based on their ownership interest in Prentiss Office Investors, L.P. Our operating partnership used proceeds from the capital distribution to repay a portion of the outstanding borrowings under our revolving credit facility.

During the second quarter 2005, we formed Prentiss Properties Capital Trust II, a Delaware statutory trust, established to issue \$25 million of trust preferred equity securities to Merrill Lynch International, in a private placement pursuant to an applicable exemption from registration. Prentiss Properties Limited, Inc., a wholly-owned affiliate of our operating partnership acquired for \$774,000 a residual interest (common securities), of Prentiss

Properties Capital Trust II, representing 3% of the overall equity of the trust. The preferred equity securities will mature on June 30, 2035, but may be redeemed by Prentiss Properties Capital Trust II beginning on June 30, 2010. The holders of both the preferred equity and common securities will receive quarterly distributions from Prentiss Properties Capital Trust II, at a variable rate equal to 90-day LIBOR plus 125 basis points. Distributions will be cumulative and will accrue from the date of original issuance but may be deferred for up to 20 consecutive quarterly periods.

Prentiss Properties Capital Trust II used the proceeds from the issuance of the preferred and common securities to acquire \$25.8 million of junior subordinated notes from our operating partnership pursuant to an indenture agreement.

Table of Contents

The notes will mature on June 30, 2035, but may be redeemed at our option, in whole or in part, beginning on June 30, 2010 in accordance with the provisions of the indenture agreement. The notes bear interest at a variable rate equal to 90-day LIBOR plus 125 basis points. Interest is cumulative and will accrue from the date of original issuance but may be deferred by us for up to 20 consecutive quarterly periods.

The trust is a variable interest entity under paragraph 5(b)(1) of FIN 46, because the equity investors at risk hold no substantial decision-making rights. Prentiss Properties Limited, Inc.'s investment is financed directly by our operating partnership; and therefore, it is not considered at risk. Because Prentiss Properties Limited, Inc. lacks a significant variable interest in the trust and thus is not the primary beneficiary, the accounts of the trust are not consolidated with and into Prentiss Properties Limited, Inc. and therefore are not consolidated with and into our operating partnership. Prentiss Properties Limited, Inc.'s investment in the trust is presented on our consolidated balance sheet as an investment in joint ventures and unconsolidated subsidiaries and is accounted for using the cost method of accounting, whereby distributions are recognized into income upon receipt.

The proceeds received by the operating partnership in exchange for the notes were used to repay a portion of the outstanding borrowings under our revolving credit facility. The notes are presented on our consolidated balance sheet in the line item mortgages and notes payable.

Critical Accounting Policies and Estimates

Our discussion and analysis of financial condition and results of operations is based upon our consolidated financial statements. Our consolidated financial statements include the accounts of Prentiss Properties Trust, our operating partnership and our other consolidated subsidiaries. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses for the reporting period. Actual results could differ from our estimates.

The significant accounting policies used in the preparation of our consolidated financial statements are fully described in Note (2) to our audited consolidated financial statements for the year ended December 31, 2004, included in our Form 10-K filed on March 15, 2005. However, some of our significant accounting estimates are considered critical accounting estimates because the estimate requires our management to make assumptions about matters that are highly uncertain at the time the estimate is made and different estimates that reasonably could have been used in the current period, or changes in the estimates that are reasonably likely to occur from period to period, would have a material impact on our financial condition, changes in financial condition or results of operations. We consider our critical accounting policies and estimates to be those used in the determination of the reported amounts and disclosure related to the following:

- (1) Impairment of long-lived assets and the long-lived assets to be disposed of;
- (2) Allowance for doubtful accounts;
- (3) Depreciable lives applied to real estate assets and improvements to real estate assets;
- (4) Initial recognition, measurement and allocation of the cost of real estate acquired; and
- (5) Fair value of derivative instruments.

Impairment of long-lived assets and long-lived assets to be disposed of

Real estate, leasehold improvements and land holdings are classified as long-lived assets held for sale or long-lived assets to be held and used. In accordance with Statement of Financial Accounting Standards No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, we record assets held for sale at the lower of the carrying amount or fair value, less cost to sell. With respect to assets classified as held and used, we periodically review these assets to determine whether our carrying amount will be recovered. All of our long-lived assets were classified as held and used at June 30, 2005. Our operating real estate, which comprises the majority of our long-lived assets, had a carrying amount of \$2.0 billion at June 30, 2005. A long-lived asset is considered impaired if its carrying amount exceeds the

sum of the undiscounted cash flows expected to result from the use and eventual disposition of the asset. Upon impairment, we would recognize an impairment loss to reduce the carrying amount of the long-lived asset to our estimate of its fair value. Our estimate of fair value and cash flows to be generated from our properties requires us to make assumptions related to future occupancy of our properties, future rental rates, tenant concessions, operating expenditures, property taxes, capital improvements, the ability of our tenants to perform pursuant to their lease obligations, the holding period of our properties and the proceeds to be generated from the eventual sale of our properties. If one or more of our assumptions proves incorrect or if our assumptions change, the recognition of an impairment loss on one or more properties may be necessary in the future. The recognition of an impairment loss would negatively impact earnings. We did not recognize any impairment losses during the six months ended June 30, 2005.

Table of Contents*Allowance for doubtful accounts*

Accounts receivable are reduced by an allowance for amounts that we estimate to be uncollectible. Our receivable balance is comprised primarily of accrued rental rate increases to be received over the life of in-place leases as well as rents and operating cost recoveries due from tenants. We regularly evaluate the adequacy of our allowance for doubtful accounts considering such factors as credit quality of our tenants, delinquency of payment, historical trends and current economic conditions. At June 30, 2005, we had total receivables of \$65.9 million and an allowance for doubtful accounts of \$4.6 million, resulting in a net receivable balance of \$61.3 million. Of the \$65.9 million in total receivables, \$56.1 million represents accrued rental rate increases to be received over the life of in-place leases. It is our policy to reserve all outstanding receivables that are 90-days past due along with a portion of the remaining receivable balance that we feel is uncollectible based on our evaluation of the outstanding receivable balance. In addition, we increase our allowance for doubtful accounts for accrued rental rate increases, if we determine such future rent is uncollectible. Actual results may differ from these estimates under different assumptions or conditions. If our assumptions, regarding the collectibility of accounts receivable, prove incorrect, we may experience write-offs in excess of our allowance for doubtful accounts which would negatively impact earnings. The table below presents the net decrease to our allowance for doubtful accounts during the periods, amounts written-off as uncollectible during the periods and our allowance for doubtful accounts at June 30, 2005 and 2004.

(in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2005	2004	2005	2004
Decrease in allowance for doubtful accounts	\$ (1,702)	\$ (2,119)	\$ (1,558)	\$ (3,147)
Amounts written off during the period	\$ (1,446) ⁽¹⁾	\$ (2,163)	\$ (1,829) ⁽¹⁾	\$ (4,078)
Allowance for doubtful accounts at period end	\$ 4,649	\$ 6,839	\$ 4,649	\$ 6,839

⁽¹⁾ Includes a \$500,000 loss from impairment of mortgage loan recognized effective June 30, 2005.

Depreciable lives applied to real estate assets and improvements to real estate assets

Depreciation on buildings and improvements is provided under the straight-line method over an estimated useful life of 30 to 40 years for office buildings and 25 to 30 years for industrial buildings. Significant betterments made to our real estate assets are capitalized and depreciated over the estimated useful life of the betterment. If our estimate of useful lives proves to be materially incorrect, the depreciation and amortization expense that we currently recognize would also prove to be materially incorrect. A change in our estimate of useful lives would therefore result in either an increase or decrease in depreciation and amortization expense and thus, a decrease or increase in earnings. The table below presents real estate related depreciation and amortization expense, including real estate depreciation and amortization expense included in income from continuing operations as well as discontinued operations, for the three and six months ended June 30, 2005 and 2004:

(in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2005	2004	2005	2004

Real estate depreciation and amortization from continuing operations	\$26,045	\$22,344	\$50,452	\$43,499
Real estate depreciation and amortization from discontinued operations	\$	\$ 1,441	\$	\$ 3,268

Initial recognition, measurement and allocation of the cost of real estate acquired

We allocate the purchase price of properties acquired to tangible assets consisting of land and building and improvements, and identified intangible assets and liabilities generally consisting of (i) above- and below-market leases, (ii) in-place leases and (iii) tenant relationships. We allocate the purchase price to the assets acquired and liabilities assumed based on their fair values in accordance with Statement of Financial Accounting Standards No. 141, Business Combinations. These fair values are derived as follows:

Amounts allocated to land are derived from (1) comparable sales of raw land, (2) floor area ratio (FAR) specifics of the land as compared to other developed properties (average land cost per FAR) and (3) our other local market knowledge.

Amounts allocated to buildings and improvements are calculated and recorded as if the building was vacant upon purchase. We use estimated cash flow projections and apply discount and capitalization rates based on market knowledge. Depreciation is computed using the straight-line method over the estimated life of 30 to 40 years for office buildings and 25 to 30 years for industrial buildings.

Table of Contents

We record above-market and below-market in-place lease values for acquired properties based on the present value (using a market interest rate which reflects the risks associated with the leases acquired) of the difference between (1) the contractual amounts to be received pursuant to the in-place leases and (2) management's estimate of fair market lease rates for the corresponding in-place leases, measured over a period equal to the remaining non-cancelable term of the lease for above-market leases and the initial term plus the term of the fixed rate renewal option, if any for below-market leases. We perform this analysis on a lease (tenant) by lease (tenant) basis. The capitalized above-market lease values are amortized as a reduction to rental income over the remaining non-cancelable terms of the respective leases. The capitalized below-market lease values are amortized as an increase to rental income over the initial term plus the term of the fixed rate renewal option, if any, of the respective leases.

Other intangible assets, in-place leases and tenant relationships, are calculated based on an evaluation of specific characteristics of each tenant's lease. Our estimates of fair value for other intangibles includes an estimate of carrying costs during the expected lease-up periods for the respective spaces considering current market conditions and the costs to execute similar leases. In estimating the carrying costs that would have otherwise been incurred had the leases not been in place, we include such items as real estate taxes, insurance and other operating expenses as well as lost rental revenue during the expected lease-up period based on current market conditions. Costs to execute similar leases include leasing commissions, legal and other related costs. The value of in-place leases is amortized to expense over the remaining non-cancelable term of the respective leases. Should a tenant terminate its lease, the unamortized portion of the in-place lease value would be charged to expense in current period earnings. The in-place lease value ascribed to tenant relationships is amortized to expense over the weighted average lease term of the in-place leases.

Based on our estimates of the fair value of the components of each real estate property acquired between January 1, 2005 and June 30, 2005, we allocated the purchase price as follows:

(in thousands)	Six Months Ended June 30, 2005
Land	\$ 24,884
Buildings and improvements	\$ 107,011
Tenant improvements and leasing commissions	\$ 15,922
Above/(below) market lease value	\$ (3,883)
Other intangible assets	\$ 12,991
<i>Fair value of derivative instruments</i>	

In accordance with Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities, as amended and interpreted, beginning January 1, 2001, we record all derivatives on the balance sheet at fair value. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative and the resulting designation. Derivatives used to hedge the exposure to changes in the fair value of an asset, liability, or firm commitment attributable to a particular risk, such as interest rate risk, are considered fair value hedges. Derivatives used to hedge the exposure to variability of expected future cash flows, or other types of forecasted transactions, are considered cash flow hedges.

For derivatives designated as fair value hedges, changes in the fair value of the derivative and the hedged item related to the hedged risk are recognized in earnings. For derivatives designated as cash flow hedges, the effective portion of changes in the fair value of the derivative is initially reported in other comprehensive income and subsequently reclassified to earnings when the hedged transaction affects earnings, and the ineffective portion of changes in the fair value of the derivative is recognized currently in earnings. We assess the effectiveness of each hedging relationship by comparing the changes in fair value or cash flows of the derivative hedging instrument with the changes in fair value or cash flows of the designated hedged item or transaction. For derivatives not designated as hedges, changes in fair value are recognized in earnings.

Our objective in using derivatives is to add stability to interest expense and to manage our exposure to interest rate movements. To accomplish this objective, we use interest rate swaps as part of our cash flow hedging strategy.

Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts in exchange for fixed-rate payments over the life of the agreements without the exchange of the underlying principal amount. During the three months ended June 30, 2005, such derivatives were used to hedge the variable cash flows associated with a portion of our variable-rate debt.

As of June 30, 2005, we did not have any derivatives designated as fair value hedges. Additionally, we do not use derivatives for trading or speculative purposes, and currently, we do not have any derivatives that are not designated as hedges.

Table of Contents

To determine the fair value of our derivative instruments, we use a variety of methods and assumptions that are based on market conditions and risks existing at each balance sheet date. For the majority of financial instruments including most derivatives, standard market conventions and techniques such as discounted cash flow analysis, option pricing models, replacement cost, and termination cost are used to determine fair value. All methods of assessing fair value result in a general approximation of value, and such value may never actually be realized. Future cash inflows or outflows from our derivative instruments depend upon future borrowing rates. If assumptions about future borrowing rates prove to be materially incorrect, the recorded value of these agreements could also prove to be materially incorrect. Because we use the derivative instruments to hedge our exposure to variable interest rates, thus effectively fixing a portion of our variable interest rates, changes in future borrowing rates could result in our interest expense being either higher or lower than might otherwise have been incurred on our variable-rate borrowings had the rates not been fixed. The table below presents the amount by which cash payments made under our interest rate swap agreements exceeded cash receipts from our agreements during the three and six month periods ended June 30, 2005 and 2004. The table also presents the estimated fair value of our in-place swap agreements as of June 30, 2005 and 2004.

(in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2005	2004	2005	2004
Net cash paid under our interest rate swap agreements	\$1,087	\$2,742	\$2,573	\$5,321
Fair value of interest rate swaps at period end	\$2,032	\$ (178)	\$2,032	\$ (178)

Table of Contents**Results of Operations**

Comparison of the three months ended June 30, 2005 to the three months ended June 30, 2004.

The table below presents our consolidated statements of income for the three months ended June 30, 2005 and 2004:

Consolidated Statements of Income (in thousands)	Three Months Ended June 30,	
	2005	2004
Revenues:		
Rental income	\$ 96,707	\$87,622
Service business and other income	3,506	2,928
	100,213	90,550
Operating expenses:		
Property operating and maintenance	25,230	22,015
Real estate taxes	10,856	9,780
General and administrative and personnel costs	3,689	2,785
Expenses of service business	2,892	2,466
Depreciation and amortization	26,223	22,467
	68,890	59,513
Other expenses:		
Interest expense	19,720	16,825
Amortization of deferred financing costs	572	568
Income from continuing operations before equity in (loss)/income of unconsolidated joint ventures and subsidiaries, loss on investment in securities, loss from impairment of mortgage loan and minority interests	11,031	13,644
Equity in (loss)/income of unconsolidated joint ventures and subsidiaries	(1,543)	596
Loss on investment in securities		(420)
Loss from impairment of mortgage loan	(500)	
Minority interests	(172)	(563)
Income from continuing operations	8,816	13,257
Discontinued operations:		
Income from discontinued operations		942
Gain from disposition of discontinued operations	2	10,185
Loss from debt defeasance related to sale of real estate		(5,316)
Minority interests related to discontinued operations		(182)
	2	5,629
Income before loss on sale	8,818	18,886
Loss on sale		(94)

Net income	\$ 8,818	\$18,792
Preferred dividends	(2,113)	(2,113)
Net income applicable to common shareholders	\$ 6,705	\$16,679

Included below is a discussion of the significant events or transactions that have impacted our results of operations when comparing the three months ended June 30, 2005 to the three months ended June 30, 2004.

Acquisition of Real Estate. Acquisitions are a key component of our external growth strategy. We selectively pursue acquisitions in our core markets when long-term yields make acquisitions attractive. Between April 1, 2004 and June 30, 2005, we acquired twelve office properties containing in the aggregate approximately 3.0 million net rentable square feet as presented below:

Table of Contents

Acquired Properties	Segment	Market	Month of Acquisition	Number of Buildings	Net Rentable Acquisition	
					Square Feet (1) (in thousands)	Price (in millions)
Cityplace Center	Southwest	Dallas/Ft. Worth	April 2004	1	1,296	\$ 123.3
The Bluffs ⁽²⁾	Southern Calif.	San Diego	May 2004	1	69	17.7
5500 Great America Parkway	Northern Calif.	Silicon Valley	May 2004	3	306	34.8
Lakeside Point I & II ⁽²⁾	Midwest	Chicago	Oct. 2004	2	198	32.6
2101 Webster	Northern Calif.	Oakland	Oct. 2004	1	459	65.7
President s Plaza ⁽²⁾	Mid-Atlantic	Metro Wash., DC	Feb. 2005	2	197	51.8
1676 International Drive ⁽³⁾	Mid-Atlantic	Metro Wash., DC	May 2005	1	295	83.8
8260 Greensboro Drive ⁽³⁾	Mid-Atlantic	Metro Wash., DC	May 2005	1	161	19.4
				12	2,981	\$ 429.1

(1) Net rentable square feet defines the area of a property for which a tenant is required to pay rent, which includes the actual rentable area plus a portion of the common areas of the property allocated to a tenant.

(2) Acquisitions were acquired by Prentiss Office Investors, L.P. which is owned 51% by our operating partnership and its affiliates and 49% by Stichting Pensioenfond ABP. The net

rentable square feet and acquisition price is presented at 100%. Each partner contributed their pro rata share of the purchase price of each property to Prentiss Office Investors, L.P. prior to acquisition.

- (3) Our operating partnership held a 25% interest in the 1676 International Drive and 8260 Greensboro Drive properties prior to our acquisition of the remaining interest in May 2005. Purchase price represents amount paid for the 75% interest not previously owned.

Real Estate Dispositions. During the period April 1, 2004 through June 30, 2005, we disposed of eight office properties containing approximately 1.2 million net rentable square feet and four industrial properties containing approximately 91,000 net rentable square feet. Six properties, containing 566,000 net rentable square feet, representing our only properties in the Sacramento area, a market within our Northern California region, were sold on May 20, 2004. Four industrial properties, containing 91,000 net rentable square feet in San Diego, were sold on July 23, 2004. One office property, containing 466,000 net rentable square feet, representing our only property in the Houston area, a market within our Southwest region, was sold on August 23, 2004. One office property, containing 136,000 net rentable square feet in the Chicago area, was sold on November 19, 2004.

The following is a discussion of the material changes in our consolidated statements of income and a discussion of the impact that the significant events or transactions, as described above, had on one or more line items of our consolidated statements of income when comparing the three months ended June 30, 2005 to the three months ended June 30, 2004.

Rental Income. Rental income increased \$9.1 million, or 10.4%. The real estate acquisitions resulted in increases of \$10.5 million. Our other properties experienced a decrease of \$1.5 million primarily due to a decrease in rental income relating primarily to decreased occupancy and rental rate declines for newly executed leases compared to expiring leases.

Service Business and Other Income. Service business and other income increased by \$578,000, or 19.7%, primarily due to increases in fee income, offset by a decrease in interest resulting from the repayment of a note receivable on February 4, 2004.

Property Operating and Maintenance. Property operating and maintenance cost increased by \$3.2 million, or 14.6%. The real estate acquisitions resulted in increases of \$3.1 million. Property operating and maintenance expenses related to our other properties increased by \$164,000.

Real Estate Taxes. Real estate taxes increased \$1.1 million, or 11.0%. The increase is primarily related to real estate acquisitions.

General and Administrative and Personnel Costs. General and administrative and personnel cost increased by \$904,000, or 32.5%. The increase in general and administrative and personnel costs was primarily due to an increase in compensation expense under our long term incentive plans and in amounts due participants under our deferred compensation plans.

Expense of Service Business. Expenses of service business increased \$426,000 or 17.3%, primarily due to an increase in compensation and employee benefit related expenses.

Depreciation and Amortization. Depreciation and amortization increased \$3.8 million, or 16.7%. The real estate acquisitions coming on-line resulted in increases of \$4.1 million. Other properties decreased by \$348,000 which is attributable to increased amortization in the three months ended June 30, 2004 compared to June 30, 2005, which was the result of the acceleration of depreciation and amortization of certain tenant related improvements and deferred leasing charges due to early lease terminations.

Table of Contents

Interest Expense. Interest expense increased by \$2.9 million, or 17.2%, primarily as a result of an increase in weighted average borrowings outstanding for the three months ended June 30, 2005 compared with the three months ended June 30, 2004. The increase was partially offset by a decrease in the weighted average interest rate paid on outstanding borrowings from 6.15% for the three months ended June 30, 2004 to 5.96% for the three months ended June 30, 2005, and an increase of \$346,000 in capitalized interest resulting from an increase in development activity.

Equity in (loss)/income of unconsolidated joint ventures and subsidiaries. Equity in (loss)/income of unconsolidated joint ventures and subsidiaries decreased by \$2.1 million, primarily due to our pro rata share of the penalty for early debt extinguishment related to the prepayment of the outstanding borrowings of Tysons International Partners prior to our acquisition of the remaining 75% interest in May 2005.

Loss on Investment in Securities. Loss on Investment in Securities decreased by \$420,000, or 100% during the three months ended June 30, 2005 compared to the three months ended June 30, 2004. In August 2000, we invested \$423,000 in Narrowcast Communications Corporation, a provider of an electronic tenant information service known as Elevator News Network. During the three months ended June 30, 2004, we received a return of our investment of approximately \$3,000 and recorded a loss on investment of approximately \$420,000.

Loss from impairment of mortgage loan. Loss on impairment of mortgage loan of \$500,000 relates to a \$4.4 million note receivable associated with a real estate sales transaction completed in 2001. In fourth quarter of 2004, we wrote the note down to \$1.5 million and recognized an impairment loss of \$2.9 million. Subsequent to quarter end, we were made aware by the borrower of his intent to abandon the property. On August 2, 2005, we completed the sale of our note receivable to an unrelated party for total proceeds of \$1.0 million. In an effort to reflect the realizable value of the note at June 30, 2005, we recognized a \$500,000 write-down to the note effective June 30, 2005.

Minority Interests. Minority interests decreased by \$391,000, or 69.4%, primarily due to the minority interest holders proportionate share of the decrease in net income.

Discontinued Operations. Discontinued operations decreased by \$5.6 million, or 100% due to the disposition of properties recorded as discontinued operations during the three months ended June 30, 2004. The properties included are the properties discussed in the real estate dispositions section above. No properties were sold during the three months ended June 30, 2005.

Table of Contents**Results of Operations**

Comparison of the six months ended June 30, 2005 to the six months ended June 30, 2004.

The table below presents our consolidated statements of income for the six months ended June 30, 2005 and 2004:

Consolidated Statements of Income (in thousands)	Six Months Ended	
	2005	June 30, 2004
Revenues:		
Rental income	\$ 191,746	\$ 171,920
Service business and other income	6,556	6,416

(1) Net rentable square feet defines the area of a property for which a tenant is required to pay rent, which includes the actual rentable area plus a portion of the common areas of the property allocated to a tenant.

(2) Acquisitions were acquired by Prentiss Office Investors, L.P. which is owned 51% by our operating partnership and its affiliates and 49% by Stichting Pensioenfond ABP. The net rentable square feet and

acquisition price is presented at 100%. Each partner contributed their pro rata share of the purchase price of each property to Prentiss Office Investors, L.P. prior to acquisition.

- (3) Our operating partnership held a 25% interest in the 1676 International Drive and 8260 Greensboro Drive properties prior to our acquisition of the remaining interest in May 2005. Purchase price represents amount paid for the 75% interest not previously owned.

Real Estate Dispositions. During the period January 1, 2004 through June 30, 2005, we disposed of eight office properties containing approximately 1.2 million net rentable square feet and four industrial properties containing approximately 91,000 net rentable square feet. Six properties, containing 566,000 net rentable square feet, representing our only properties in the Sacramento area, a market within our Northern California region, were sold on May 20, 2004. Four industrial properties, containing 91,000 net rentable square feet in San Diego, were sold on July 23, 2004. One office property, containing 466,000 net rentable square feet, representing our only property in the Houston area, a market within our Southwest region, was sold on August 23, 2004. One office property, containing 136,000 net rentable square feet in the Chicago area, was sold on November 19, 2004.

Other Significant Real Estate Transactions. On January 22, 2004, Prentiss Office Investors, L.P. was established to acquire office properties in our core markets of Washington D.C./Northern Virginia, Chicago, Dallas/Ft. Worth, Northern California and San Diego/Orange County. The partnership was initially wholly owned by the operating partnership and its affiliates and was seeded by the transfer of several properties the company acquired in 2003.

Pursuant to a joint venture agreement, effective February 1, 2004, Stichting Pensioenfond ABP, a Netherlands based pension fund and unrelated third party, acquired a 49% limited partnership interest in Prentiss Office Investors, L.P. for proceeds totaling \$68.9 million. As a result of the transaction, we recorded a gain on sale of \$1.3 million. The joint venture is consolidated with and into the accounts of the operating partnership. Proceeds from the transaction were used to repay a portion of the outstanding borrowings under our revolving credit facility.

The following is a discussion of the material changes in our consolidated statements of income and a discussion of the impact that the significant events or transactions, as described above, had on one or more line items of our

consolidated statements of income when comparing the six months ended June 30, 2005 to the six months ended June 30, 2004.

Rental Income. Rental income increased \$19.8 million, or 11.5%. The real estate acquisitions resulted in increases of \$22.4 million. Our other properties experienced a decrease of \$2.6 million primarily due to a decrease in termination fee income of \$991,000 and a decrease in rental income relating primarily to decreased occupancy and rental rate declines for newly executed leases compared to expiring leases. Termination fees for the six months ended June 30, 2005 were \$2.9 million compared to \$3.9 million for the six months ended June 30, 2004.

Service Business and Other Income. Service business and other income increased by \$140,000, or 2.2%, primarily due to increases in fee income offset by a decrease in interest resulting from the repayment of a note receivable on February 4, 2004.

Property Operating and Maintenance. Property operating and maintenance cost increased by \$7.9 million, or 18.2%. The real estate acquisitions resulted in increases of \$7.3 million. Property operating and maintenance expenses related to our other properties increased by \$601,000. This increase was due to increased operating costs, offset by a decrease in bad debt expense.

Real Estate Taxes. Real estate taxes increased \$2.6 million, or 13.6%. The increase is primarily related to real estate acquisitions.

Table of Contents

General and Administrative and Personnel Costs. General and administrative and personnel cost increased by \$1.2 million, or 22.4%. The increase in general and administrative and personnel costs was primarily due to compensation expense under our long term incentive plans offset by a decrease in amounts due participants under our deferred compensation plans. Additional professional fees and staff expenses contributed to the increase.

Expense of Service Business. Expenses of service business increased \$1.4 million or 34.8%, primarily due to an increase in compensation and employee benefit related expenses.

Depreciation and Amortization. Depreciation and amortization increased \$7.0 million, or 16.1%. The real estate acquisitions coming on-line resulted in increases of \$8.2 million. Other properties decreased by \$1.2 million which is attributable to increased amortization in the six months ended June 30, 2004 compared to June 30, 2005, which was the result of the acceleration of depreciation and amortization of certain tenant related improvements and deferred leasing charges due to early lease terminations.

Interest Expense. Interest expense increased by \$4.6 million, or 13.8%, primarily as a result of an increase in weighted average borrowings outstanding for the six months ended June 30, 2005 compared with the six months ended June 30, 2004. The increase was partially offset by a decrease in the weighted average interest rate paid on outstanding borrowings from 6.32% for the six months ended June 30, 2004 to 5.96% for the six months ended June 30, 2005, and an increase of \$680,000 in capitalized interest resulting from an increase in development activity.

Equity in (loss)/income of unconsolidated joint ventures and subsidiaries. Equity in (loss)/income of unconsolidated joint ventures and subsidiaries decreased by \$2.0 million, primarily due to our pro rata share of the penalty for early debt extinguishment related to the prepayment of the outstanding borrowings of Tysons International Partners prior to our acquisition of the remaining 75% interest in May 2005.

Loss on Investment in Securities. Loss on Investment in Securities decreased by \$420,000, or 100% during the six months ended June 30, 2005 compared to the six months ended June 30, 2004. In August 2000, we invested \$423,000 in Narrowcast Communications Corporation, a provider of an electronic tenant information service known as Elevator News Network. During the three months ended June 30, 2004, we received a return of investment of approximately \$3,000 and recorded a loss on investment of approximately \$420,000.

Loss from impairment of mortgage loan. Loss on impairment of mortgage loan of \$500,000, relates to a \$4.4 million note receivable associated with a real estate sales transaction completed in 2001. In fourth quarter of 2004, we wrote the note down to \$1.5 million and recognized an impairment loss of \$2.9 million. Subsequent to quarter end, we were made aware by the borrower of his intent to abandon the property. On August 2, 2005, we completed the sale of our note receivable to an unrelated party for total proceeds of \$1.0 million. In an effort to reflect the realizable value of the note at June 30, 2005, we recognized a \$500,000 write-down to the note effective June 30, 2005.

Minority Interests. Minority interests decreased by \$1.5 million, or 68.7%, primarily due to the minority interest holders proportionate share of the decrease in net income and a decrease in the proportionate share of net income attributable to the Series B Cumulative Redeemable Perpetual Preferred unitholders as a result of the repurchase of these units on February 24, 2004.

Discontinued Operations. Discontinued operations decreased by \$7.5 million, or 100% due to the disposition of properties recorded as discontinued operations during the six months ended June 30, 2004. The properties included are the properties discussed in the real estate dispositions section above. No properties were sold during the six months ended June 30, 2005.

Gain on sale of a Partnership Interest. Gain on sale of a partnership interest decreased by \$1.2 million. During the six months ended June 30, 2004, we recognized a gain due to selling an interest in a real estate partnership. No properties were sold during the six months ended June 30, 2005.

Liquidity and Capital Resources

Cash and cash equivalents were \$10.6 million and \$8.6 million at June 30, 2005 and December 31, 2004, respectively. The increase in cash and cash equivalents is a result of net cash provided by operating and financing activities exceeding net cash used in investing activities for the six months ended June 30, 2005.

Cash flows provided by operating activities totaled \$63.9 million for the six months ended June 30, 2005 compared to \$66.2 million for the six months ended June 30, 2004. The change in cash flows from operating activities is attributable to (1) the factors discussed in our analysis of results of operations for the six months ended June 30, 2005

compared to the six months ended June 30, 2004 and (2) the timing of receipt of revenues and payment of expenses which is evidenced by cash outflows of \$14.6 million for the

36

Table of Contents

six months ended June 30, 2005 compared to \$12.3 million for the six months ended June 30, 2004 related to the changes in assets and liabilities.

Net cash used in investing activities totaled \$214.8 million for the six months ended June 30, 2005 compared to \$40.1 million for the six months ended June 30, 2004. The increase in cash used in investing activities of \$174.7 million is due primarily to decreases of \$69.3 million of cash generated from the sale of a 49% interest in Prentiss Office Investors, L.P., \$9.9 million in cash generated from the repayments of certain notes receivable, and \$79.0 million of cash generated from the sale of real estate, and increases of \$11.6 million in cash used in development and redevelopment of real estate, \$8.4 million in cash used for capital expenditures related to in-service properties, and \$17.1 million in cash used to fund an investment in an unconsolidated subsidiary, offset by a decrease of \$20.3 million of cash used to acquire real estate assets.

Net cash generated from financing activities totaled \$152.9 million for the six months ended June 30, 2005 compared to net cash used of \$22.1 million for the six months ended June 30, 2004. The increase in net cash generated from financing activities of \$175.0 million is due primarily to a decrease of \$105.0 million in cash used for the redemption of preferred units, a decrease of \$891,000 for the repurchase of operating partnership units, an increase in net borrowings of \$129.3 million, an increase in capital contributions from minority interest partners in consolidated joint ventures of \$15.8 million, offset by a decrease in cash generated from the sale of common shares of \$62.9 million and an increase in distributions of \$13.8 million.

Net cash flow from operations represents the primary source of liquidity to fund distributions, debt service, capital improvements and non-revenue enhancing tenant improvements. We expect that our revolving credit facility will provide for funding of working capital and revenue enhancing tenant improvements, unanticipated cash needs as well as acquisitions and development costs. Our principal short-term liquidity needs are to fund normal recurring expenses, debt service requirements and the minimum distributions required to maintain our REIT qualification under the Internal Revenue Code.

Our net cash flow from operations is generally derived from rental revenues and operating expense reimbursements from tenants and, to a limited extent, from fees generated by our office and industrial real estate management service business. Our net cash flow from operations is therefore dependent upon the occupancy level of our properties, the collectibility of rent from our tenants, the level of operating and other expenses, and other factors. Material changes in these factors may adversely affect our net cash flow from operations. Such changes, in turn, would adversely affect our ability to fund distributions, debt service, capital improvements and non-revenue enhancing tenant improvements. In addition, a material adverse change in our net cash flow from operations may affect the financial performance covenants under our revolving credit facility. If we fail to meet any of our financial performance covenants, our revolving credit facility may become unavailable to us, or the interest charged on the revolving credit facility may increase. Either of these circumstances could adversely affect our ability to fund working capital and revenue enhancing tenant improvements, unanticipated cash needs, acquisitions and development costs.

In order to qualify as a REIT for federal income tax purposes, we must distribute at least 90% of our taxable income, excluding capital gains. We expect to make distributions to our shareholders primarily based on our cash flow from operations distributed by our operating partnership. We anticipate that our short-term liquidity needs will be fully funded from cash flows provided by operating activities and, when necessary to fund shortfalls resulting from the timing of collections of accounts receivable in the ordinary course of business, from our revolving credit facility. In the event that our cash flow needs exceed cash flows provided by operating activities, we may be forced to incur additional debt or sell real estate properties to fund such cash flow needs.

We expect to meet our long-term liquidity requirements for the funding of activities, such as development, real estate acquisitions, scheduled debt maturities, major renovations, expansions and other revenue enhancing capital improvements through long-term secured and unsecured indebtedness and through the issuance of additional debt and equity securities. We also intend to use proceeds from our revolving credit facility to fund real estate acquisitions, development, redevelopment, expansions and capital improvements on an interim basis.

Debt Financing

As of June 30, 2005, we had consolidated outstanding total indebtedness, of approximately \$1.39 billion. The amount of indebtedness that we may incur, and the policies with respect thereto, are not limited by our declaration of

trust and bylaws, and are solely within the discretion of our board of trustees, limited only by various financial covenants in our credit agreements.

Approximately \$688.9 million, or 49.5% of our outstanding consolidated debt was subject to fixed rates with a weighted average interest rate of 7.04% at June 30, 2005. Of the remaining \$704.2 million, or 50.5%, representing our variable rate debt, \$415.0 million was effectively locked at June 30, 2005 at an interest rate (before the spread over LIBOR) of 3.86% through our interest rate swap agreements. At June 30, 2005, we had variable rate debt of \$289.2 million, which was not fixed through interest rate swap agreements.

Table of Contents

The following table sets forth our mortgages and notes payable, including our unconsolidated joint venture debt as of June 30, 2005:

Borrower/Description Consolidated Entities	Current Balance (000 s)	Amortization	Interest Rate	Maturity

Table of Contents

- (3) Our operating partnership owns a 51% interest in Prentiss Office Investors, L.P. The accounts of Prentiss Office Investors, L.P. are consolidated with and into the accounts of the operating partnership. The amounts shown reflect 100% of the debt balance.
- (4) The Term Loan is collateralized by the following 9 properties: Camino West Corporate Park, Carlsbad Airport Plaza, La Place Court (2 properties), Pacific Ridge Corporate Centre (2 properties), Pacific View Plaza, Corporate Lakes III, and 2291 Wood Oak Drive.
- (5) Our operating partnership and its affiliates own a 70% interest in Prentiss/Collins Del Mar Heights, LLC. The accounts of Prentiss/Collins

Del Mar Heights, LLC are consolidated with and into the accounts of the operating partnership. The amount shown reflects 100% of the debt balance.

- (6) We own a 50% non-controlling interest in the entity that owns the Broadmoor Austin properties, which interest is accounted for using the equity method of accounting. The amount shown reflects 100% of the non-recourse mortgage indebtedness collateralized by the properties.

The majority of our fixed rate secured debt contains prepayment provisions based on the greater of a yield maintenance penalty or 1.0% of the outstanding loan amount. The yield maintenance penalty essentially compensates the lender for the difference between the fixed rate under the loan and the yield that the lender would receive if the lender reinvested the prepaid loan balance in U.S. Treasury Securities with a similar maturity as the loan.

Under our loan agreements, we are required to satisfy various affirmative and negative covenants, including limitations on total indebtedness, total collateralized indebtedness and cash distributions, as well as obligations to maintain certain minimum tangible net worth and certain minimum interest coverage ratios. Our credit agreements limit total indebtedness to 55% of total assets and require a debt service coverage ratio of at least 2 to 1. Our credit agreements provide for a 30-day period to cure a default caused by our failure to punctually and properly perform, observe and comply with the covenants contained therein. The agreements also provide for an additional 75-day period if such failure is not capable of being cured within 30-days and we are diligently pursuing the cure thereof. We were in compliance with these covenants at June 30, 2005.

On July 26, 2005, we renewed our revolving credit facility, including an increase from \$375 to \$400 million and an extension of the maturity date from February 19, 2007 to July 26, 2008 with a one year extension option. The interest rate on the facility will fluctuate based on our overall leverage with a range between 30-day LIBOR plus 85 basis points and 30-day LIBOR plus 135 basis points. The pricing on the renewed facility generally represents a 25 basis point to 30 basis point pricing reduction across the leverage grid. Banking participants in the revolving credit facility include JP Morgan Chase Bank as Administrative Agent; Bank of America as Syndication Agent; Commerzbank, EuroHypo, Societe General, PNC Bank, Sun Trust, Union Bank of California, Comerica Bank, Mellon Bank, Deutsche Bank, ING Real Estate Finance, US Bank and Wachovia Bank as Lenders.

On July 26, 2005, and August 3, 2005, we modified our \$75 million unsecured term loan with Commerzbank and our \$100 million unsecured term loan with EuroHypo, respectively. The modifications were basically the same pricing and covenant changes that were incorporated into our revolving credit facility renewal as discussed above, with the expiration dates remaining unchanged at March 15, 2009 and May 22, 2008, respectively.

On August 1, 2005, using proceeds from our revolving credit facility, we paid off a \$45.5 million loan collateralized by a property in Oakland, California scheduled to mature on November 1, 2005. In accordance with the terms of the loan, there was no prepayment penalty.

Hedging Activities

To manage interest rate risk, we may employ options, forwards, interest rate swaps, caps and floors or a combination thereof depending on the underlying interest rate exposure. We undertake a variety of borrowings: from revolving credit facilities, to medium- and long-term financings. To manage overall interest rate exposure, we use interest rate instruments, typically interest rate swaps, to convert a portion of our variable rate debt to fixed rate debt. Interest rate differentials that arise under these swap contracts are recognized as interest expense over the life of the contracts.

We may employ forwards or purchased options to hedge qualifying anticipated transactions. Gains and losses are deferred and recognized in net income in the same period that the anticipated transaction occurs, expires or is otherwise terminated. The following table summarizes the notional amounts and fair values of our derivative financial instruments at June 30, 2005. The notional amount provides an indication of the extent of our involvement in these instruments as of the balance sheet date, but does not represent exposure to credit, interest rate or market risks.

Table of Contents

Notional Amount	Swap Rate Paid (Fixed)	Swap Rate Received (Variable) at June 30, 2005	Swap Maturity	Fair Value (in thousands)
\$25 million	4.345%	3.34%	July 2005	\$ (7)
\$15 million	4.345%	3.34%	July 2005	(4)
\$20 million	5.985%	3.34%	March 2006	(304)
\$30 million	5.990%	3.34%	March 2006	(456)
\$50 million	2.270%	3.34%	August 2007	1,619
\$25 million	2.277%	3.34%	August 2007	806
\$70 million ⁽¹⁾	4.139%	3.34%	August 2008	(470)
\$30 million	3.857%	3.34%	September 2008	58
\$30 million	3.819%	3.34%	October 2008	93
\$20 million	3.819%	3.34%	October 2008	62

\$30 million	3.443%	3.34%	October 2009	625
\$20 million ⁽¹⁾	4.000%	3.34%	February 2010	(13)
Total				\$ 2,032

(1) The interest rate swap agreement was executed by Prentiss Office Investors, L.P., a partnership which is 51% owned by our operating partnership.

The interest rate swaps effectively lock in our cost of funds at the swap rate paid (before the spread over LIBOR) on variable rate borrowings for principal amounts equal to the respective notional amounts above.

Capital Improvements

Our properties require periodic investments of capital for tenant-related capital expenditures and for general capital improvements. The majority of capital required relates to tenant-related capital expenditures and is dependent upon

our leasing activity. Our leasing activity is a function of the percentage of our in-place leases expiring in current and future periods accompanied by our exposure to tenant defaults and our ability to increase the average occupancy of our portfolio. For the six months ended June 30, 2005, capital expenditures related to our in-service properties totaled \$29.6 million. We classify capital expenditures for in-service properties as non-incremental and incremental revenue-enhancing capital expenditures representing our estimate of recurring versus non-recurring capital requirements, respectively. Our non-incremental and incremental capital expenditures for the six months ended June 30, 2005 totaled approximately \$22.6 million and \$7.0 million, respectively.

Equity Financing

During the three months ended June 30, 2005, we issued 49,178 common shares of beneficial interest, par value \$.01. The table below details the common shares issued during the period, common shares in treasury activity during the period and the common shares outstanding at June 30, 2005:

Common shares outstanding at March 31, 2005	45,125,125
Common shares issued:	
Conversion of operating partnership units	32,250
Dividend Reinvestment and Share Purchase Plan	15,518
Trustees Share Incentive Plan	910
Share options exercised	500
	49,178
Common shares placed in treasury/issued from treasury:	
Common shares placed in treasury in connection with our Key Employee Share Option Plan	(1,036)
Common shares issued from treasury in connection with our Key Employee Share Option Plan	1,338
Common shares outstanding at June 30, 2005	45,174,605

Table of Contents**Off-Balance Sheet Arrangements**

At June 30, 2005 we held a non-controlling 50% interest in Broadmoor Austin Associates.

Our investment in Broadmoor Austin Associates represents less than .2% of our total assets as of June 30, 2005 and contributes 2.1% of our cash flow from operations for the six months ended June 30, 2005. Our investment, however, does provide us with several benefits including increased market share, improved commitment to the property from the tenant/partner and management fee income.

Broadmoor Austin Associates represents a real estate joint venture which owns and operates office properties in Austin, Texas. We act as managing venture partner and have the authority to conduct the business affairs of each joint venture, subject to approval and veto rights of the other venture partner. We account for our interest in this joint venture using the equity method of accounting. In addition to our real estate related investment, at June 30, 2005, we held \$1.6 million of common securities issued by Prentiss Properties Capital Trust I and \$774,000 of common securities issued by Prentiss Properties Trust II which we account for using the cost method of accounting.

The following information summarizes the financial position at June 30, 2005 for the investments in which we held an unconsolidated interest at June 30, 2005:

Summary of Financial Position:

(in thousands)	Total Assets	Total Debt⁽¹⁾	Total Equity	Company's Investment
Broadmoor Austin Associates	\$96,570	\$128,487	\$(34,030)	\$4,482
Other Investments				2,360
				\$6,842

The following information summarizes the results of operations for the unconsolidated investments which impacted our results of operations for the three and six months ended June 30, 2005.

Summary of Operations for the Three Months Ended June 30, 2005: (in thousands)	Total Revenue	Net Income	Company's Share of Net Income
Broadmoor Austin Associates	\$5,645	\$ 1,369	\$ 685
Tyson's International Partners ⁽²⁾	1,070	(8,912)	(2,228)
			\$(1,543)

Summary of Operations for the Six Months Ended June 30, 2005: (in thousands)	Total Revenue	Net Income	Company's Share of Net Income
Broadmoor Austin Associates	\$11,292	\$ 2,742	\$ 1,371
Tyson's International Partners ⁽²⁾	4,228	(8,864)	(2,216)
			\$ (845)

(1) The mortgage debt, which is non-recourse, is

collateralized by the individual real estate properties within the venture. Our proportionate share of the non-recourse mortgage debt totaled \$64.2 million at June 30, 2005.

- (2) At December 31, 2004, we owned a 25% non-controlling interest in Tysons International Partners, an entity, which owns two office properties containing 456,000 net rentable square feet in the Northern Virginia area. On May 2, 2005, we acquired the remaining 75% interest in the properties owned by the joint venture. Prior to our acquisition of the remaining 75% for \$103.2 million, we contributed to the joint venture \$14.7 million representing our pro rata share of

the outstanding indebtedness on the properties.

As a condition of closing, out of proceeds from the sale and our capital contribution, the joint venture prepaid the outstanding indebtedness collateralized by the properties.

The prepayment amount totaled \$67.6 million of which \$8.8 million represented a prepayment penalty. Net income for Tysons International Partners includes the \$8.8 million loss from debt prepayment but excludes the gain on sale resulting from our acquisition of the remaining 75% interest in the joint venture.

In connection with the disposition of a real estate property in May 2001, we entered into a financial guarantee with a maximum future potential payment of \$1.4 million. The financial guarantee, provided to the third party purchaser, guaranteed payment of an amount not to exceed the \$1.4 million potential maximum if certain tenants, as defined in the purchase and sale agreement, fail to extend their leases beyond the maturities of their current in-place leases. An amount totaling \$1.0 million representing consideration to be paid in the event a certain tenant failed to extend its in-place lease was considered probable at the date of disposition and therefore, accrued during the year ended December 31, 2001. During the year ended December 31, 2003, we paid an amount totaling \$1.0 million to the third party purchaser as a result of the failure of the tenant to extend its in-place lease. See further discussion and table presented under the Contractual Obligations and Commercial Commitments section below.

Table of Contents**Contractual Obligations and Commercial Commitments**

We have contractual obligations including mortgages and notes payable and ground lease obligations. The table below presents, as of June 30, 2005, our future scheduled principal repayments of our consolidated mortgages and notes payable and ground lease obligations of our consolidated properties:

Contractual Obligations (in thousands)	Total	Payments Due by Period			Thereafter
		2005	2006/2007	2008/2009	
Mortgages and notes payable	\$ 1,393,100	\$ 48,197	\$ 505,905	\$ 358,858	\$ 480,140
Capital lease obligations					
Ground leases	30,243	211	841	848	28,343
Unconditional purchase obligations					
Other long-term obligations					
Total contractual cash obligations	\$ 1,423,343	\$ 48,408	\$ 506,746	\$ 359,706	\$ 508,483

Our mortgages and notes payable consists of \$688.9 million and \$704.2 million of fixed rate and variable rate debt obligations, respectively. At June 30, 2005, our fixed rate debt obligations were subject to a weighted average interest rate of 7.04% and our variable rate debt obligations were subject to interest rates that range from 30-day LIBOR plus 85 basis points to 30-day LIBOR plus 140 basis points. \$415.0 million of our variable rate debt was effectively locked at an interest rate before the spread over LIBOR of 3.86% through our interest rate swap agreements. Interest payable under our mortgages and notes payable outstanding at June 30, 2005 are as follows:

(in thousands)	Total	Payments Due by Period			Thereafter
		2005	2006/2007	2008/2009	
Interest payable ⁽¹⁾	\$ 403,503	\$ 39,674	\$ 131,995	\$ 80,821	\$ 151,013

(1) Interest payable under our variable rate loans is calculated using our variable interest rate at June 30, 2005 which is equal to 30-day LIBOR of 3.34% plus our spread over LIBOR which ranges between 85 basis points and 140 basis points.

As a condition of the purchase and sale and as security for our guarantee, as discussed under the Off-Balance Sheet Arrangements section above, we provided to the title company at closing, irrevocable letters of credit, totaling \$1.4 million, drawn on a financial institution and identifying the purchaser as beneficiary. One letter of credit totaling \$1.0 million expired in 2003. The balance of the remaining letter of credit totaled \$189,000 at June 30, 2005 and expires as follows:

Commitment Expiration by Period

Other Commercial Commitments (in thousands)	Total				
	Amounts Committed	2005	2006/2007	2008/2009	Thereafter
Standby letters of credit	\$ 189	\$ 63	\$ 126	\$	\$

In June 2004, we began construction on High Bluff Ridge at Del Mar, an office development project with approximately 158,000 net rentable square feet located in Del Mar, California. The anticipated investment for this project totals \$48.1 million of which \$35.0 million has been incurred as of June 30, 2005. We have signed leases for approximately 102,000 square feet, or 65.0% of the project. We expect that the building will be complete and available for occupancy during the third quarter of 2005.

Funds from Operations

Funds from operations is a widely recognized measure of REIT operating performance. Funds from operations is a non-GAAP financial measure and, as defined by the National Association of Real Estate Investment Trusts, means net income, computed in accordance with GAAP excluding extraordinary items, as defined by GAAP, and gains (or losses) from sales of property, plus depreciation and amortization on real estate assets, and after adjustments for unconsolidated partnerships, joint ventures and subsidiaries. We believe that funds from operations is helpful to investors and our management as a measure of our operating performance because it excludes depreciation and amortization, gains and losses from property dispositions, and extraordinary items, and, as a result, when compared period over period, reflects the impact on operations from trends in occupancy rates, rental rates, operating costs, development activities, general and administrative expenses, and interest costs, providing perspective not immediately apparent from net income. In addition, our management believes that funds from operations provides useful information to the investment community about our financial performance when compared to other REITs since funds from operations is generally recognized as the industry standard for reporting the operating performance of REITs. However, our funds from operations may not be

Table of Contents

comparable to funds from operations reported by other REITs that do not define funds from operations exactly as we do. We believe that in order to facilitate a clear understanding of our operating results, funds from operations should be examined in conjunction with net income as presented in our consolidated financial statements and notes thereto included in this Form 10-Q. We believe that net income is the most directly comparable GAAP financial measure to funds from operations. Funds from operations does not represent cash generated from operating activities in accordance with GAAP and should not be considered as an alternative to net income as an indication of our performance or to cash flows as a measure of liquidity or ability to make distributions. Funds from operations does not reflect either depreciation and amortization costs or the level of capital expenditures and leasing costs necessary to maintain the operating performance of our properties, which are significant economic costs that could materially impact our results of operations.

The following is a reconciliation of net income to funds from operations:

Funds from operations (in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2005	2004	2005	2004
Net income	\$ 8,818	\$ 18,792	\$21,521	\$ 35,791
Adjustments:				
Real estate depreciation and amortization ⁽¹⁾	26,045	23,785	50,452	46,767
Minority interests ⁽²⁾	195	538	507	1,034
Minority interests share of depreciation and amortization	(1,578)	(1,303)	(3,009)	(2,124)
Pro rata share of joint venture depreciation and amortization	603	744	1,350	1,480
Gain on sale of real estate and interests in real estate partnerships	(2)	(10,091)	(17)	(11,407)
Funds from operations ⁽³⁾	\$34,081	\$ 32,465	\$70,804	\$ 71,541

(1) Includes real estate depreciation and amortization included in continuing operations and real estate depreciation and amortization included in discontinued operations.

(2) Represents the minority interests applicable to the common unit holders of the

operating
partnership.

- (3) Impairment losses and debt defeasance related to real estate are not added back in our reconciliation of net income to funds from operations; therefore, for periods in which impairment losses or debt defeasance are recognized, funds from operations is negatively impacted. We recognized an impairment loss on a mortgage loan of \$500,000 and a loss on debt prepayment of \$2.2 million during the three and six months ended June 30, 2005. We recognized debt defeasance of \$5.3 million during the three and six months ended June 30, 2004.

Funds from operations increased by \$1.6 million for the three months ended June 30, 2005 from the three months ended June 30, 2004, and decreased \$737,000 for the six months ended June 30, 2005 from the six months ended June 30, 2004 as a result of factors discussed in the analysis of operating results.

Recently Issued Accounting Pronouncements

In December 2004, the Financial Accounting Standards Board Issued Statement of Financial Accounting Standards No. 123(R), Share-Based Payment, a revision to Statement of Financial Accounting Standards No. 123, Accounting for Stock-Based Compensation. The Statement supersedes APB Opinion No. 25, Accounting for Stock Issued to Employees, and its related implementation guidance.

The Statement which focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions, establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods or services. It also addresses transactions in which an entity incurs liabilities in exchange for goods or services that are based on the fair value of the entity's equity instruments or that may be settled by the issuance of those equity instruments.

The Statement requires a public entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award (with limited exceptions). That cost will be recognized over the period during which an employee is required to provide service in exchange for the award the requisite service period (usually the vesting period). No compensation cost is recognized for equity instruments for which employees do not render the requisite service.

Table of Contents

The Statement, which originally was to take effect the beginning of the first interim or annual reporting period that begins after June 15, 2005 for public entities that do not file as small business issuers, was amended on April 14, 2005. The Securities and Exchange Commission adopted a new rule to amend the compliance dates, which now allows companies to implement the statement at the beginning of their next fiscal year. The Statement will not have a material impact on our financial statements.

In May 2005, the Financial Accounting Standards Board issued FASB Statement No. 154, Accounting Changes and Error Corrections, a replacement of APB Opinion No. 20 and FASB Statement No. 3. The Statement provides guidance on the accounting for and reporting of accounting changes and error corrections. It establishes, unless impracticable, retrospective application as the required method for reporting a change in accounting principle in the absence of explicit transition requirements specific to the newly adopted accounting principle. This Statement is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005.

At the June 2005 EITF meeting, the Task Force reached a consensus on EITF 04-5, Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights. The consensus provides a framework for addressing when a general partner, or general partners as a group, controls a limited partnership or similar entity. The Task Force reached a consensus that for general partners of all new limited partnerships formed and for existing limited partnerships for which the partnership agreements are modified, the guidance in this issue is effective after June 29, 2005. For general partners in other limited partnerships, the guidance is effective no later than the beginning of the first reporting period in fiscal years beginning after December 15, 2005. The Task Force also amended EITF 96-16 to be consistent with the consensus reached in Issue No. 04-05. Additionally, the Financial Accounting Standards Board issued FSP SOP 78-9-1 which amends the guidance in SOP 78-9 to be consistent with the consensus in 04-5. We are currently evaluating the impact on our financial statements of this framework, the amendments to EITF 96-16 and FSP SOP 78-9-1.

Also at the June 2005 meeting, the Task Force reached a consensus on EITF 05-6, Determining the Amortization Period for Leasehold Improvements Purchased after Lease Inception or Acquired in a Business Combination. The consensus reached is that the leasehold improvements, whether acquired in a business combination or that are placed in service significantly after and not contemplated at or near the beginning of the lease term, should be amortized over the shorter of the useful life of the assets or a term that includes required lease periods and renewals that are deemed to be reasonably assured. The consensus in this issue which is to be applied to leasehold improvements that are purchased or acquired in reporting periods beginning after June 29, 2005 will not have a material impact on our financial statements.

Table of Contents**Item 3. Quantitative and Qualitative Disclosures about Market Risk**

Our primary market risk is exposure to changes in interest rates as a result of our revolving credit facility and long-term debt. At June 30, 2005, we had total consolidated indebtedness outstanding of approximately \$1.39 billion. Our interest rate risk objective is to limit the impact of interest rate fluctuations on earnings and cash flows and to lower our overall borrowing costs. To achieve this objective, we manage our exposure to fluctuations in market interest rates for our borrowings through the use of fixed rate debt instruments to the extent that reasonably favorable rates are obtainable with such arrangements. In addition, we may enter into derivative financial instruments such as options, forwards, interest rate swaps, caps and floors to mitigate our interest rate risk on a related financial instrument or to effectively lock the interest rate on a portion of our variable rate debt. We do not enter into derivative or interest rate transactions for speculative purposes. Approximately 49.5% of our outstanding consolidated debt was subject to fixed rates with a weighted average interest rate of 7.04% at June 30, 2005. Of the remaining \$704.2 million, or 50.5%, representing our variable rate debt, \$415.0 million was effectively locked at June 30, 2005 at an interest rate (before the spread over LIBOR) of 3.86% through our interest rate swap agreements. We regularly review interest rate exposure on our outstanding borrowings in an effort to minimize the risk of interest rate fluctuations.

The following table provides information about our financial instruments that are sensitive to changes in interest rates, including interest rate swaps and debt obligations. For debt obligations outstanding at June 30, 2005, the table presents principal cash flows and related weighted average interest rates for consolidated debt outstanding during the periods. For interest rate swaps, the table presents notional amounts expiring and weighted average interest rates for in-place swaps during the period. Notional amounts are used to calculate the contractual payments to be exchanged under the contract. Weighted average variable rates are based on 30-day LIBOR as of June 30, 2005. The fair value of our fixed rate debt indicates the estimated principal amount of debt having similar debt service requirements, which could have been borrowed by us at June 30, 2005. The rate assumed in the fair value calculation of fixed rate debt is between 4.66% and 5.22%, representing our estimated borrowing rate for fixed rate debt instruments similar in term to those outstanding at June 30, 2005 (using U.S. Treasury Securities at June 30, 2005 plus a spread between 100 and 150 basis points). The fair value of our variable to fixed interest rate swaps indicates the estimated amount that we would receive had they been terminated at June 30, 2005. Exclusive of our interest rate swaps, if 30-day LIBOR increased 100 basis points, total interest expense would increase \$7.0 million.

(dollars in thousands)	2005	2006	2007	2008	2009	Thereafter	Total	Fair Value

Item 4. Controls and Procedures

As of June 30, 2005, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Securities Exchange Act Rules 13a-15 and 15d-15. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded as of June 30, 2005 that our disclosure controls and procedures are effective to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified

in the Securities and Exchange Commission's rules and forms.

There have been no changes in our internal control over financial reporting that occurred during the three months ended June 30, 2005 that have materially affected, or are reasonably likely to materially affect, such internal control over financial reporting.

Table of Contents**PART II
OTHER INFORMATION****Item 1. Legal Proceedings**

We are not presently subject to any material litigation, other than ordinary routine litigation incidental to the business.

Item 2. Changes in Securities and Use of Proceeds

Period		Total Number of Shares Purchased ⁽¹⁾	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs ⁽²⁾
April 1, 2005	April 30, 2005	1,036	\$ 34.45		997,200
May 1, 2005	May 31, 2005		\$		
June 1, 2005	June 30, 2005		\$		
Total		1,036	\$ 34.45		997,200

(1) During April 2005, we purchased 1,036 of our common shares pursuant to our Key Employee Share Option Plan.

(2) During 1998, our board of trustees authorized the repurchase of up to 2.0 million common shares in the open market or negotiated private transactions. On January 4, 2000, the board of trustees

authorized a 1.5 million-share increase in the share repurchase program bringing the total authorization to 3.5 million common shares. On May 9, 2001, the board of trustees authorized an additional 1.0 million-share increase in the share repurchase program bringing the total authorization to 4.5 million shares. Since inception of the repurchase program, through June 30, 2005, we have purchased 3,502,800 common shares and pursuant to current authorization, we have the ability to repurchase an additional 997,200 in the future.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Submission of Matters to a Vote of Security Holders

On May 11, 2005, we held our Annual Meeting of Shareholders. At the meeting, three Class III trustees, Michael V. Prentiss, Thomas J. Hynes, Jr. and Barry J.C. Parker, were elected to serve as trustees until the 2008 Annual Meeting of the shareholders, and until the respective successor of each is duly elected and qualified. Each of Thomas F. August, Dr. Leonard M. Riggs, Jr., Ronald G. Steinhart and Lawrence A. Wilson continue their terms of office as members of our board of trustees.

The votes cast for the trustees were:

Michael V. Prentiss	
Votes for:	41,135,954
