On March 3, 2006, Input/Output, Inc. (the Company) announced that it would delay the public announcement of its results of operations for the year and three months ended December 31, 2005 and the filing of its Annual Report on Form 10-K for the year ended December 31, 2005 (the 2005 Form 10-K). The decision to delay the announcement and the filing of the 2005 Form 10-K resulted from delays in the completion of the Company's consolidated financial statements as of and for its fiscal year ended December 31, 2005, and the audit of the financial statements. The delays were principally related to reviews and discussions among the Company, its current independent registered public accounting firm and the independent registered public accounting firm that audited the Company's consolidated financial statements as of and for the year ended December 31, 2004, related to accounting policies and practices applicable to the recognition of revenues generated from licenses of multi-client seismic data libraries by the Company's wholly-owned subsidiary, GX Technology Corporation. As a result of these discussions, the Company announced on March 16, 2006 its preliminary results of operations for the fourth quarter of 2005 and the full year ended December 31, 2005, and that it would be restating its consolidated financial statements for 2004 and the first, second and third quarters of 2005. The Company intends to furnish to the Securities and Exchange Commission (the Commission) on or before March 20, 2006, a Current Report on Form 8-K disclosing in more detail the circumstances regarding the proposed restatements.

The Company intends to report restated financial results for fiscal 2004 and the first, second and third quarters of 2005. The Company and its current independent registered accounting firm have been working diligently to complete the consolidated financial statements and necessary audit procedures in order that the 2005 Form 10-K can be timely filed. However, under the current circumstances, the 2005 Form 10-K cannot be completed and timely filed without unreasonable effort or expense, and in sufficient time for the Company and its current independent registered public accounting firm to complete their respective audit and review procedures with respect to the filing to ensure that disclosures of the information required in the filing is full and complete. The Company expects to file its 2005 Form 10-K as soon as practicable after the date of this Form 12b-25, but in any event by no later than March 31, 2006.

Yes No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

See Part III Narrative above for a description of the Company's proposed restatement of financial results for fiscal 2004 and the first, second and third quarters of 2005. The estimated impact of the financial restatement of 2004's results of operations reduces revenues for 2004 by approximately \$6.7 million, or approximately \$0.07 earnings per basic share, and increases the fiscal 2005 results by approximately the same amounts. The estimated combined impact of the 2005 quarterly restatements reduces the combined revenues and net income of the first three quarters of 2005 by an estimated \$9.2 million and \$5.0 million, respectively, or \$0.06 earnings per share, and subsequently increases fourth quarter 2005 results by approximately the same estimated amounts.
