**NOTE 1 Nature of Operations, Accounting Policies of Consolidated Financial Statements**

The accompanying unaudited interim consolidated financial statements contain all adjustments (consisting of only normal recurring adjustments) necessary to present fairly the consolidated financial position as of November 30, 2006, in addition to the consolidated results of operations and consolidated cash flows for the three-month and six-month periods ended November 30, 2006 and 2005. Due to the seasonal nature of the Corporation's business, interim results are not necessarily indicative of results for the entire year.

The unaudited interim consolidated financial statements included herein have been prepared pursuant to the rules and regulations for reporting on Form 10-Q. Accordingly, certain information and footnote disclosures normally accompanying the annual consolidated financial statements have been omitted. The audited consolidated balance sheet as of May 31, 2006 and the unaudited interim consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Corporation's latest annual report on Form 10-K. Inventories are stated at cost, determined under the first-in, first-out method, which is not in excess of market. Finished goods consist primarily of homes on display at various manufacturing facilities. Physical inventory counts are taken at the end of each reporting quarter. Total inventories for the periods presented consisted of (dollars in thousands):

The Corporation provides the retail purchaser of its manufactured homes with a fifteen-month warranty against defects in design, materials and workmanship. Recreational vehicles are covered by a one-year warranty.

**NOTE 1 Nature of Operations, Accounting Policies of Consolidated Financial Statements (continued)**

The warranties are backed by service departments located at our manufacturing facilities and an extensive field service system. Estimated warranty costs are accrued at the time of sale based upon current sales, historical experience and management's judgment regarding anticipated rates of warranty claims. The adequacy of the recorded warranty liability is periodically assessed and the amount is adjusted as necessary. A reconciliation of accrued warranty and related expenses is as follows (dollars in thousands):

	Six Months Ended November 30,	
	2006	2005
Balance at the beginning of the period	\$ <b>12,111</b>	\$ 11,700
Accruals for warranties	<b>6,340</b>	5,892
Settlements made during the period	<b>(5,993)</b>	(5,792)
Balance at the end of the period	<b>12,458</b>	11,800
Non-current balance included in other deferred liabilities	<b>4,000</b>	4,000
Accrued warranty and related expenses	<b>\$ 8,458</b>	\$ 7,800

The Corporation was contingently liable at November 30, 2006 under repurchase agreements with certain financial institutions providing inventory financing for retailers of its products. Under these arrangements, which are customary in the manufactured housing and recreational vehicle industries, the Corporation agrees to repurchase units in the event of default by the retailer at declining prices over the term of the agreement, generally 12 months. The maximum repurchase liability is the total amount that would be paid upon the default of all the Corporation's independent dealers. The maximum potential repurchase liability, without reduction for the resale value of the repurchased units, was approximately \$108 million at November 30, 2006 and \$110 million at May 31, 2006. The risk of loss under these agreements is spread over many retailers and financial institutions. The loss, if any, under these agreements is the difference between the repurchase cost and the resale value of the units. The allowance for doubtful accounts includes a reserve for potential net losses on repurchased units.

The Corporation is a party to various pending legal proceedings in the normal course of business. Management believes that any losses resulting from such proceedings would not have a material adverse effect on the Corporation's results of operations or financial position.

Certain prior period amounts have been reclassified to conform with the current period presentation.

In June 2006, the Financial Accounting Standards Board (FASB), issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*, (FIN No. 48). This Interpretation clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with Statement of Financial Accounting Standards (SFAS) No. 109, *Accounting for Income Taxes*. FIN No. 48 is effective for fiscal years beginning after December 15, 2006. The Corporation is currently analyzing the impact of this Interpretation on its consolidated financial statements.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*. This statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and adoption is not expected to have a material impact on the Corporation's consolidated financial statements.

In September 2006, the Securities and Exchange Commission issued Staff Accounting Bulletin (SAB) No. 108, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements*. SAB 108 provides guidance on evaluating the materiality of prior periods' misstatements, quantifying the effects of correcting misstatements in the current period and criteria for restatement of prior periods. SAB 108 is effective for fiscal years ending after November 15, 2006. The Corporation does not expect its adoption to have a material impact on its consolidated financial statements.

**Table of Contents**

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.**

**Overview**

The Corporation sells manufactured housing and towable recreational vehicle products to independent dealers and manufactured housing communities located throughout the United States (U.S.). To better serve the needs of its dealers, the Corporation has twenty-one manufacturing facilities in eleven states. Manufactured housing and recreational vehicles are sold to dealers either through floor plan financing with various financial institutions or on a cash basis. While the Corporation maintains production of manufactured homes and recreational vehicles throughout the year, seasonal fluctuations in sales do occur. Sales and production of manufactured homes are affected by winter weather conditions at the Corporation's northern plants. Recreational vehicle sales are generally higher in the spring and summer months than in the fall and winter months.

Sales in both business segments are affected by the strength of the U.S. economy, interest rate levels, consumer confidence and the availability of wholesale and retail financing. The manufactured housing segment is currently affected by a protracted downturn. This downturn, caused primarily by restrictive retail financing and economic uncertainty, has resulted in industry sales which over the last four years have been the lowest in decades. The manufactured housing industry has been further negatively impacted by the recent decline in new housing starts in the U.S. In the recreational vehicle segment, the Corporation sells travel trailers, fifth wheels and park models. Industry sales of travel trailers and fifth wheels have seen steady growth in recent years. Demand for travel trailers, however, has softened in recent months when compared to last year. Travel trailer sales in the prior year included units sold as part of hurricane relief efforts in the Gulf coast region of the United States.

Demand remains strong for multi-section versus single-section homes. Multi-section homes are often sold as part of a land-home package and are financed with a conventional mortgage. Multi-section homes have an appearance similar to site-built homes and are notably less expensive. Nine of the Corporation's manufactured housing facilities have obtained approval from applicable state and local governmental entities to produce modular homes, which will help meet the demand for multi-section homes.

The recreational vehicle segment in which the Corporation operates is a very competitive ever-changing market. Similar to the trend in the non-motorized recreational vehicle industry, this segment is currently experiencing decreased demand for travel trailers.

**Table of Contents****Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued).  
Results of Operations Three-Month Period Ended November 30, 2006 Compared to the Three-Month Period Ended November 30, 2005 (Unaudited)****Sales and Unit Shipments**

(Dollars in thousands)	<b>2006</b>	<b>Percent</b>	2005	Percent	Change (Decrease)
Sales

Total Unit Shipments	<b>2,903</b>	<b>100.0</b>	4,621	100.0	(1,718)

Manufactured housing sales decreased due to an overall softening of demand. This decline is consistent with the experience of the manufactured housing industry as a whole.

Recreational vehicle sales decreased due to a softening in demand, particularly for travel trailers. The decline in travel trailer sales is consistent with the experience of that particular segment of the recreational vehicle industry. In addition, prior year sales included approximately 580 units related to hurricane relief sold to independent dealers for approximately \$5 million.

**Cost of Sales**

(Dollars in thousands)	<b>2006</b>	<b>Percent of Sales *</b>	2005	Percent of Sales *	Change (Decrease)
Manufactured Housing	<b>\$ 63,935</b>	<b>88.0</b>	\$ 88,432	85.5	\$ (24,497)
Recreational Vehicles	<b>20,542</b>	<b>92.7</b>	30,227	91.3	(9,685)
Consolidated	<b>\$ 84,477</b>	<b>89.1</b>	\$ 118,659	86.9	\$ (34,182)

\* The percentages for manufactured housing and recreational vehicles are based on segment sales. The percentage for consolidated cost of sales is based on total sales.

Manufactured housing cost of sales decreased due to declining sales. As a percentage of sales, however, cost of sales increased due primarily to a rise in warranty costs as a percentage of sales.

Recreational vehicles cost of sales decreased due to declining sales. As a percentage of sales, however, cost of sales increased due to warranty costs remaining constant despite a drop in sales. In addition, warranty and overhead costs were incurred relating to a recreational vehicle facility that was idled at the end of fiscal 2006.

Selling and Administrative Expenses	\$10,779	11.4	\$11,626	8.5	\$ (847)

Selling and administrative expenses decreased primarily due to decreased sales and efforts to control costs. As a percentage of sales, selling and administrative expenses increased due to certain costs being fixed despite lower sales.

**Operating Earnings (Loss)**

(Dollars in thousands)	2006	Percent of Sales *	2005	Percent of Sales *	Change in Operating Earnings (Decrease)

Total Operating (Loss) Earnings	\$ (470)	(0.5)	\$ 6,202	4.5	\$ (6,672)

\* The percentages for manufactured housing and recreational vehicles are based on segment sales. The percentage for general corporate expenses and total operating earnings (loss) are based on total sales.

Operating earnings for manufactured housing dropped primarily due to decreased sales. In addition, unit sales of single-section homes increased from 17 percent in 2005 to 22 percent in 2006. Single-section homes have lower margins as compared to multi-section homes.

The operating loss for recreational vehicles increased due to decreased sales.

General corporate expenses increased as a result of fluctuating discount rates which caused a change in valuation of the Corporation's liability for certain post-retirement benefits.

**Interest Income**

(Dollars in thousands)	2006	2005	Change Increase
Interest Income	\$ 1,476	\$ 1,199	\$ 277

Interest income is directly related to the amount available for investment and the prevailing yields of U.S. Government Securities.

**Cost of Sales**

(Dollars in thousands)	<b>2006</b>	<b>Percent of Sales*</b>	2005	Percent of Sales *	Change (Decrease)
Manufactured Housing	<b>\$ 138,422</b>	<b>88.1</b>	\$ 168,773	86.2	\$ (30,351)
Recreational Vehicles	<b>48,805</b>	<b>91.2</b>	54,528	92.4	(5,723)
Consolidated	<b>\$ 187,227</b>	<b>88.9</b>	\$ 223,301	87.6	\$ (36,074)

\* The percentages for manufactured housing and recreational vehicles are based on segment sales. The percentage for consolidated cost of sales is based on total sales.

Manufactured housing cost of sales decreased due to declining sales. As a percentage of sales, however, cost of sales increased due primarily to a rise in warranty costs as a percentage of sales.

Recreational vehicle cost of sales also decreased due to declining sales. As a percentage of sales, cost of sales decreased due to a change in product mix.

Results of Operations Six-Month Period Ended November 30, 2006 Compared to the Six-Month Period Ended  
November 30, 2005 (Unaudited) (continued)****Selling and Administrative Expenses**

(Dollars in thousands)	2006	Percent of Sales	2005	Percent of Sales	Change (Decrease)
Selling and Administrative Expenses	\$ 22,249	10.6	\$ 23,098	9.1	\$ (849)

Selling and administrative expenses decreased primarily due to decreased sales and efforts to control costs. As a percentage of sales, selling and administrative expenses increased due to certain costs being fixed despite lower sales.

**Operating Earnings (Loss)**

(Dollars in thousands)	2006	Percent of Sales *	2005	Percent of Sales *	Change in Operating Earnings Increase (Decrease)
Manufactured Housing	\$ 3,786	2.4	\$ 11,099	5.7	\$ (7,313)
Recreational Vehicles	(1,050)	(2.0)	(1,225)	(2.1)	175

Total Operating Earnings	\$ 1,116	(0.5)	\$ 8,434	3.3	\$ (7,318)

\* The percentages for manufactured housing and recreational vehicles are based on segment sales. The percentage for general corporate expenses and total operating earnings are based on total sales.

Operating earnings for the manufactured housing dropped primarily due to decreased sales. In addition, unit sales of single-section homes increased from 18 percent in 2005 to 21 percent in 2006. Single-section homes have lower margins as compared to multi-section homes.

The operating loss for recreational vehicles decreased as a result of slightly improved margins on units sold.

General corporate expenses increased as a result of fluctuating discount rates which caused a change in valuation of the Corporation's liability for certain post-retirement benefits.

(Dollars in thousands)	<b>2006</b>	2005	Change Increase
Interest Income	<b>\$2,936</b>	\$2,224	\$712

Interest income is directly related to the amount available for investment and the prevailing yields of U.S. Government Securities.

**Liquidity and Capital Resources**

(Dollars in thousands)	<b>November 30, 2006</b>	May 31, 2006	Change (Decrease)
Cash and U.S. Treasury Bills and Notes	<b>\$134,658</b>	\$152,771	\$(18,113)
Current assets, exclusive of cash and U.S. Treasury Bills and Notes	<b>\$ 41,185</b>	\$ 51,604	\$(10,419)
Current liabilities	<b>\$ 30,172</b>	\$ 40,150	\$( 9,978)
Working capital	<b>\$145,671</b>	\$164,225	\$(18,554)

The Corporation's policy is to invest its excess cash, which exceeds its operating needs, in U.S. Government Securities. Cash and U.S. Treasury Bills and Notes decreased due primarily to a \$16,782,000 special dividend paid on August 1, 2006. Current assets, exclusive of cash and U.S. Treasury Bills and Notes, decreased primarily due to a decline in accounts receivable of \$12,821,000. This decline is attributable to lower sales in November 2006 as compared to May 2006.

Current liabilities decreased due to declines in accounts payable, \$5,290,000, accrued salaries and wages, \$2,925,000, and income taxes payable, \$1,416,000. Accounts payable dropped because of lower sales in November 2006 as compared to May 2006. Accrued salaries and wages decreased due to annual payments of performance based compensation to employees and due to fewer employees in November 2006. Income taxes payable decreased due to the timing of tax payments at November 30, 2006 as compared to May 31, 2006, and the decline in pre-tax profits.

Capital expenditures totaled \$2,664,000 for the six months ended November 30, 2006 as compared to \$1,194,000 in the comparable period of the previous year. Building and land improvements increased approximately \$700,000.

Additional capital expenditures during this period were made primarily to replace or refurbish machinery and equipment in addition to improving manufacturing efficiencies.

The cash provided by operating activities, along with current cash and other short-term investments, is expected to be adequate to fund any capital expenditures and treasury stock purchases during the year. Historically, the Corporation's financing needs have been met through funds generated internally.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued). Other Matters**

The provision for federal income taxes in each year approximates the statutory rate and for state income taxes reflects current state rates effective for the period based upon activities within the taxable entities.

The consolidated financial statements included in this report reflect transactions in the dollar values in which they were incurred and, therefore, do not attempt to measure the impact of inflation. On a long-term basis, the Corporation has demonstrated an ability to adjust selling prices in reaction to changing costs due to inflation. The Corporation believes that inflation has not had a material effect on its operations during the first half of fiscal 2007.

**Forward Looking Information**

Certain statements in this report are considered forward looking as indicated by the Private Securities Litigation Reform Act of 1995. These statements involve uncertainties that may cause actual results to materially differ from expectations as of the report date. These uncertainties include but are not limited to:

Cyclical nature of the manufactured housing and recreational vehicle industries

General or seasonal weather conditions affecting sales

Potential impact of hurricanes and other natural disasters on sales and raw material costs

Potential periodic inventory adjustments by independent retailers

Availability of wholesale and retail financing

Interest rate levels

Impact of inflation

Impact of rising fuel costs

Cost of labor and raw materials

Competitive pressures on pricing and promotional costs

Catastrophic events impacting insurance costs

The availability of insurance coverage for various risks to the Corporation

Consumer confidence and economic uncertainty

The health of the U.S. housing market as a whole

Market demographics

Management's ability to attract and retain executive officers and key personnel

Increased global tensions, market disruption resulting from a terrorist or other attack and any armed conflict involving the United States.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk.**

The Corporation invests in United States Government Securities. These securities are typically held until maturity and are therefore classified as held-to-maturity and carried at amortized cost. Changes in interest rates do not have a

significant effect on the fair value of these investments.

**Item 4. Controls and Procedures.**

**Management's Conclusions Regarding Effectiveness of Disclosure Controls and Procedures**

As of November 30, 2006, the Corporation conducted an evaluation, under the supervision and participation of management including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Corporation's disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934).

Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Corporation's disclosure controls and procedures are effective as of November 30, 2006

**Changes in Internal Control over Financial Reporting**

No change in the Corporation's internal control over financial reporting (as such term is defined in Exchange Act Rule 13a-15(f)) occurred during the second quarter ended November 30, 2006 that materially affected, or is reasonably likely to materially affect, the Corporation's internal control over financial reporting.
