QUESTIONS & ANSWERS

-----  
Although we recommend that you read the complete Joint Proxy Statement/  
Prospectus, we have provided for your convenience a brief overview of the issues  
to be voted on.  
-----

Q WHY IS A SHAREHOLDER  
MEETING BEING HELD?

A Shareholders of  
Van Kampen Trust for Investment Grade Florida Municipals: You are being asked to  
vote on a reorganization (the "Reorganization") of Van Kampen Trust for  
Investment Grade Florida Municipals (the "Target Fund") into Van Kampen Trust  
for Investment Grade Municipals (the "Acquiring Fund"), a closed-end investment  
company that pursues the same investment objective and has similar investment  
policies as the Target Fund.

Shareholders of Van Kampen Trust for Investment Grade Municipals: You are being  
asked to vote on the issuance of common shares of beneficial interest by the  
Acquiring Fund in connection with the Reorganization.

Q WHY IS THE  
REORGANIZATION BEING RECOMMENDED?

A The Board of Trustees of  
each Fund has determined that the Reorganization will benefit common  
shareholders of the Target Fund and the Acquiring Fund. The Target Fund seeks to  
offer its shareholders the opportunity to own securities exempt from Florida  
intangible personal property taxes. As such, the Target Fund invests  
substantially all of its total assets in Florida municipal securities, which are  
exempt from such tax; however, effective January 1, 2007, the State of Florida  
repealed the intangible personal property tax, thereby eliminating the Florida-  
specific tax benefit to Florida taxpayers of investing in the Fund. Thus, the  
Board of Trustees of the Funds has determined that the

Reorganization of the Target Fund into the similar Acquiring Fund would benefit  
common shareholders. The Target Fund and the Acquiring Fund are similar. Each  
Fund's investment objective is to seek to provide shareholders with a high level  
of current income exempt from federal income taxes, consistent with preservation  
of capital. Each Fund invests substantially all of its total assets in municipal  
securities rated investment grade at the time of investment. Each Fund is  
managed by the same investment advisory personnel. After the Reorganization, it  
is anticipated that common shareholders of each Fund will experience a reduced  
overall operating expense ratio, as certain fixed administrative costs will be  
spread across the combined fund's larger asset base. In addition, it is  
anticipated that shareholders of the Target Fund will benefit from increased  
diversification as a result of the Reorganization. It is not anticipated that  
the Reorganization will directly benefit holders of preferred shares of the  
Funds; however, it is anticipated that preferred shareholders will not be  
adversely effected by the Reorganization, and none of the expenses of the  
Reorganization will be borne by preferred shareholders.

Q HOW WILL THE  
REORGANIZATION AFFECT ME?

A Assuming shareholders of  
the Target Fund approve the Reorganization and shareholders of the Acquiring  
Fund approve the issuance of common shares of beneficial interest by that Fund,  
the assets and liabilities of the Target Fund will be combined with those of the  
Acquiring Fund and the Target Fund will dissolve.

Shareholders of the Target Fund: You will become a shareholder of the Acquiring  
Fund. If you are a holder of common shares of the Target Fund, you will receive  
newly-issued common shares of the Acquiring Fund, and if you are a holder of  
preferred shares of the Target Fund, you will receive newly-issued preferred

shares of the Acquiring Fund. The aggregate net asset value of the common shares you receive in the Reorganization will equal the aggregate net asset value of the common shares you own immediately prior to the Reorganization less the costs of the Reorganization (though you may receive cash for fractional shares). The aggregate liquidation preference of the preferred shares you receive in the Reorganization will equal the aggregate liquidation preference of the preferred shares you own immediately prior to the Reorganization. No certificates for shares of the Acquiring Fund will be issued in connection with the Reorganization, although such certificates will be available upon request.

Shareholders of the Acquiring Fund: You will remain a shareholder of the Acquiring Fund.

Q WILL I HAVE TO PAY ANY SALES LOAD, COMMISSION OR OTHER SIMILAR FEE IN CONNECTION WITH THE REORGANIZATION?

A You will pay no sales loads or commissions in connection with the Reorganization. However, if the Reorganization is completed, the costs associated with the Reorganization, including the costs associated with the shareholder meeting, will be borne by the Target Fund and the Acquiring Fund in proportion to their projected declines in total operating expenses as a consequence of the Reorganization.

Q WILL I HAVE TO PAY ANY FEDERAL TAXES AS A RESULT OF THE REORGANIZATION?

A The Reorganization is intended to qualify as a "reorganization" within the meaning of Section 368(a)(1) of the Internal Revenue Code of 1986, as amended. If the Reorganization so qualifies, in general, a shareholder of the Target Fund will recognize no gain or loss upon the receipt of shares of the Acquiring Fund in connection with the Reorganization. Additionally, the Target Fund will not recognize any gain or loss as a result of the transfer of all of its assets and liabilities in exchange for the shares of the Acquiring Fund or as a result of its dissolution. Neither the Acquiring Fund nor its shareholders will recognize any gain or loss in connection with the Reorganization.

Q WHY IS THE VOTE OF COMMON SHAREHOLDERS OF THE ACQUIRING FUND BEING SOLICITED?

A Although the Acquiring Fund will continue its legal existence and operations after the Reorganization, the rules of the New York Stock Exchange and the Chicago Stock Exchange, on which the Acquiring Fund's common shares are listed, require the common shareholders of the Acquiring Fund to approve the issuance of additional common shares of beneficial interest by the Acquiring Fund in connection with the Reorganization. If the issuance of additional common shares of the Acquiring Fund is not approved, the Reorganization will not occur.

Q HOW DOES THE BOARD OF TRUSTEES OF MY FUND SUGGEST I VOTE?

A After careful consideration, the Board of Trustees of each Fund recommend that you vote "FOR" each of the items proposed.

Q HOW DO I VOTE MY PROXY?

JOINT SPECIAL MEETING OF SHAREHOLDERS

MAY 18, 2007

This Joint Proxy Statement/Prospectus is furnished to you as a shareholder of Van Kampen Trust for Investment Grade Florida Municipals (the "Target Fund") or Van Kampen Trust for Investment Grade Municipals (the "Acquiring Fund"). A joint special meeting of shareholders of the Funds (the "Special Meeting") will be held at the offices of Van Kampen Investments Inc., 1 Parkview Plaza, Oakbrook Terrace, Illinois 60181-5555 on May 18, 2007 at 10:00 a.m. to consider the items listed below and discussed in greater detail elsewhere in this Joint Proxy Statement/Prospectus. If you are unable to attend the Special Meeting or any adjournment thereof, the Board of Trustees of each Fund requests that you vote your shares by completing and returning the enclosed proxy card or by recording your voting instructions by telephone or via the internet. The approximate

## Edgar Filing: VAN KAMPEN TRUST FOR INVESTMENT GRADE MUNICIPALS - Form N-14 8C

mailing date of this Joint Proxy Statement/Prospectus and accompanying form of proxy is April 3, 2007.

The purposes of the Special Meeting are:

For shareholders of the Target Fund:

1. To approve an Agreement and Plan of Reorganization (the "Reorganization Agreement") between the Target Fund and the Acquiring Fund, the termination of the Target Fund's registration under the Investment Company Act of 1940, as amended (the "1940 Act"), and the dissolution of the Target Fund under applicable state law;

For common shareholders of the Acquiring Fund:

2. To approve the issuance of additional common shares of the Acquiring Fund in connection with the Reorganization Agreement; and

For shareholders of both funds:

3. To transact such other business as may properly be presented at the Special Meeting or any adjournment thereof.

The Reorganization Agreement that you are being asked to consider involves a transaction that will be referred to in this Joint Proxy Statement/Prospectus as the "Reorganization." The Reorganization seeks to combine two similar funds to achieve certain economies of scale and other operational efficiencies, and the Target Fund shareholders will benefit from increased diversification. Each Fund pursues the same investment objective to seek to provide shareholders with a high level of current income exempt from federal income taxes, consistent with preservation of capital. The Acquiring Fund invests substantially all of its total assets in municipal securities rated investment grade at the time of investment. The Target Fund invests substantially all of its total assets in Florida municipal securities rated investment grade at the time of investment. The Target Fund and the Acquiring Fund are sometimes referred to herein each as a "Fund" and collectively as the "Funds."

In the Reorganization, the Acquiring Fund will acquire substantially all of the assets and assume substantially all of the liabilities of the Target Fund in exchange for an equal aggregate value of newly issued common shares of beneficial interest, par value \$0.01 per share ("Acquiring Fund Common Shares") and newly-issued auction preferred shares of the Acquiring Fund with a par value of \$0.01 per share and a liquidation preference of \$25,000 per share ("Acquiring Fund APS"). The Target Fund will distribute Acquiring Fund Common Shares to holders of common shares of the Target Fund ("Target Fund Common Shares") and Acquiring Fund APS to holders of auction preferred shares of the Target Fund ("Target Fund APS") (the Target Fund APS and the Acquiring Fund APS are sometimes referred to herein collectively as "Preferred Shares" or as "APS"), and will then terminate its registration under the 1940 Act, and dissolve under applicable state law. The aggregate net asset value of Acquiring Fund Common Shares received in the Reorganization will equal the aggregate net asset value of Target Fund Common Shares held immediately prior to the Reorganization less the costs of the Reorganization (though common shareholders may receive cash for their fractional shares), and the aggregate liquidation preference of the Acquiring Fund APS received in the Reorganization will equal the aggregate liquidation preference of the Target Fund APS held immediately prior to the Reorganization. The Acquiring Fund will continue to operate after the Reorganization as a registered closed-end investment company with the investment objective and policies described in this Joint Proxy Statement/Prospectus.

In connection with the Reorganization, common shareholders of the Acquiring

## Edgar Filing: VAN KAMPEN TRUST FOR INVESTMENT GRADE MUNICIPALS - Form N-14 8C

Fund are being asked to approve the issuance of additional Acquiring Fund Common Shares.

The Board of Trustees of each Fund has determined that including both proposals in one Joint Proxy Statement/Prospectus will reduce costs and is in the best interests of each Funds' shareholders.

2

In the event that Target Fund shareholders do not approve the Reorganization or Acquiring Fund common shareholders do not approve the issuance of Acquiring Fund Common Shares, the Target Fund will continue to exist and the Board of Trustees of the Target Fund will consider what additional action, if any, to take.

This Joint Proxy Statement/Prospectus sets forth concisely the information shareholders of the Funds should know before voting on the proposals and constitutes an offering of Acquiring Fund Common Shares and Acquiring Fund APS. Please read it carefully and retain it for future reference. A Statement of Additional Information, dated March , 2007, relating to this Joint Proxy Statement/Prospectus (the "Reorganization Statement of Additional Information") has been filed with the Securities and Exchange Commission (the "SEC") and is incorporated herein by reference.  SUMMARY  
 -----

The following is a summary of certain information contained elsewhere in this Joint Proxy Statement/Prospectus and is qualified in its entirety by reference to the more complete information contained in this Joint Proxy Statement/Prospectus and in the Reorganization Statement of Additional Information. Shareholders should read the entire Joint Proxy Statement/Prospectus carefully.

PROPOSAL 1: REORGANIZATION OF THE TARGET FUND

THE PROPOSED REORGANIZATION. The Board of Trustees of each Fund, including the trustees who are not "interested persons," as defined in the 1940 Act, of each Fund, has unanimously approved the Reorganization Agreement. If the shareholders of the Target Fund approve the Reorganization Agreement and the shareholders of the Acquiring Fund approve the issuance of Acquiring Fund Common Shares (see "Proposal 2: Issuance of Additional Acquiring Fund Common Shares"), Acquiring Fund Common Shares and Acquiring Fund APS will be issued to holders of Target Fund Common Shares and Target Fund APS, respectively, in exchange for substantially all of the assets of the Target Fund and the assumption of substantially all of the liabilities of the Target Fund. The Target Fund will then terminate its registration under the 1940 Act and dissolve under applicable state law. The aggregate net asset value of Acquiring Fund Common Shares received in the Reorganization will equal the aggregate net asset value of Target Fund Common Shares held immediately prior to the Reorganization, less the costs of the Reorganization (though common shareholders may receive cash for

fractional shares). The aggregate liquidation preference of Acquiring Fund APS received in the Reorganization will equal the aggregate liquidation preference of Target Fund APS held immediately prior to the Reorganization.

BACKGROUND AND REASONS FOR THE PROPOSED REORGANIZATION. The Target Fund seeks to offer its shareholders the opportunity to own securities exempt from Florida intangible personal property taxes. As such, the Target Fund invests substantially all of its total assets in Florida municipal securities, which are exempt from such tax; however, effective January 1, 2007, the State of Florida repealed the intangible personal property tax, thereby eliminating the Florida-specific tax benefit to Florida taxpayers of investing in the Fund. Thus, the Board of Trustees of the Funds has determined that the Reorganization of the Target Fund into the similar Acquiring Fund would benefit common shareholders. The Reorganization seeks to combine two similar Funds to achieve certain economies of scale and other operational efficiencies, and the Target Fund shareholders will benefit from greater diversification.

Each Fund is registered as a diversified, closed-end management investment company under the 1940 Act. Each Fund invests primarily in investment grade

7

municipal securities. The investment objective of each Fund is to seek to provide shareholders with a high level of current income exempt from federal income taxes, consistent with preservation of capital. The Target Fund also seeks to offer its shareholders the opportunity to own securities exempt from Florida intangible personal property taxes. The Target Fund intends to achieve its investment objective primarily by investing in a portfolio of Florida municipal securities which the Target Fund's investment adviser believes does not involve undue risk to income or principal. Under normal market conditions, the Target Fund invests substantially all of its total assets in Florida municipal securities rated investment grade at the time of investment, but may invest up to 20% of its total assets in non-Florida securities, securities below investment grade (but not lower than B by Standard and Poor's ("S&P"), Moody's Investors Services, Inc. ("Moody's") or Fitch Ratings, Ltd. ("Fitch")) and/or in unrated securities (including securities deemed by the Funds' investment adviser to be investment grade or lower, but not lower than B). The Acquiring Fund seeks to achieve its investment objective primarily by investing in a diversified portfolio of municipal securities which the Acquiring Fund's investment adviser believes does not involve undue risk to income or principal. Under normal market conditions, the Acquiring Fund invests substantially all of its total assets in municipal securities rated investment grade at the time of investment, but may invest up to 20% of its total assets in securities below investment grade (but not lower than B by S&P, Moody's or Fitch) and/or in unrated securities (including securities deemed by the Funds' investment adviser to be investment grade or lower, but not lower than B). The Acquiring Fund generally will not invest more than 25% of its assets in issuers located in the same state. Each Fund may invest without limit in municipal securities subject to the alternative minimum tax provisions of federal tax law. The Funds are managed by the same investment advisory personnel.

The proposed Reorganization will combine the assets of these similar funds by reorganizing the Target Fund into the Acquiring Fund. The Board of Trustees of the Target Fund (the "Target Fund Board"), based upon its evaluation of all relevant information, anticipates that the Reorganization will benefit holders of Target Fund Common Shares. The Board of Trustees of the Acquiring Fund (the "Acquiring Fund Board"), based upon its evaluation of all relevant information, anticipates that the Reorganization will benefit holders of Acquiring Fund Common Shares. The Board of Trustees of each Fund believes, based on data presented by Van Kampen Asset Management, investment adviser to each of the Funds (the "Adviser"), that holders of common shares of each Fund will

experience a reduced annual operating expense ratio as a result of the Reorganization. The combined fund resulting from the Reorganization will have a larger asset base than either of the Funds has currently; certain fixed administrative costs, such as costs of printing shareholder reports and proxy statements, legal expenses, audit fees, mailing costs and other expenses, will be spread across this larger asset base, thereby lowering the

8

expense ratio for common shareholders of the combined fund. In addition, shareholders of the Target Fund are expected to benefit from increased diversification.

The table below illustrates the anticipated reduction in operating expenses experienced by holders of common shares of the Target Fund and the Acquiring Fund that are expected as a result of the Reorganization. The table sets forth (i) the fees, expenses and distributions to preferred shareholders paid by the Target Fund for the 12-month period ended October 31, 2006, (ii) the fees, expenses and distributions to preferred shareholders paid by the Acquiring Fund for the 12-month period ended October 31, 2006 and (iii) the pro forma fees, expenses and distributions to preferred shareholders for the Acquiring Fund for the 12-month period ended October 31, 2006, assuming the Reorganization had been completed at the beginning of such period. As shown below, the Reorganization is expected to result in decreased total annual expenses for shareholders of each Fund (although such savings will not be immediately realized (see footnote (c) to the table)).

- 
- (a) No expense information is presented with respect to preferred shares because holders of preferred shares do not bear any transaction or operating expenses of

9

any of the Funds and will not bear any of the Reorganization expenses or any transaction or operating expenses of the combined fund.

- (b) Common shares purchased in the secondary market may be subject to brokerage commissions or other charges. No sales load will be charged on the issuance of common shares in the Reorganization. Common shares are not available for purchase from the Funds but may be purchased through a broker-dealer subject to individually negotiated commission rates.
- (c) In connection with the Reorganization, there are certain other transaction expenses which include, but are not limited to: all costs related to the preparation, printing and distributing of this Joint Proxy Statement/Prospectus to shareholders; costs related to preparation and distribution of materials distributed to each Fund's Board; all expenses incurred in connection with the preparation of the Reorganization Agreement and registration statement on Form N-14; SEC and state securities commission filing fees; legal and audit fees; portfolio transfer taxes (if any); and any similar expenses incurred in connection with the Reorganization. In accordance with applicable SEC rules, the Board of Trustees of each Fund reviewed the fees and expenses that will be borne directly or indirectly by the Funds in connection with the Reorganization. After considering various alternatives for allocating these costs, the Board of Trustees of each Fund agreed that, in the event the Reorganization is approved and completed, the expenses of the Reorganization will be shared by the Target Fund and the Acquiring Fund in proportion to their projected declines in total annual operating expenses as a result of the Reorganization. The Board of Trustees of each Fund and management have agreed to limit the allocation of Reorganization expenses to each Fund based on a maximum payback period of two years. To the extent that the expenses of the Reorganization exceed such amount, the additional expenses of the Reorganization will be borne by the Adviser. The table below summarizes each Fund's net assets (common shares only) at October 31, 2006, projected annual savings to each Fund as a result of the Reorganization, allocation of Reorganization expenses among the Funds and the Adviser in dollars and percentages, an estimated pay-back period (in years) and the resulting effect on each Fund's net asset value per common share at October 31, 2006. The Acquiring Fund will benefit more from projected annual expense savings of the Reorganization than the Target Fund. The projected annual expense savings are generally not expected to be immediately realized. If a shareholder sells his or her common shares prior to the estimated pay-back period, then that shareholder may not realize any of the projected expense savings resulting from the reduced expense ratio of the combined fund. The net asset value per common share of each Fund will be reduced at the closing date of the Reorganization to reflect the allocation of Reorganization expenses to each Fund. The reduction in net asset value per common share resulting from the allocation of Reorganization expenses, when compared to the relative net asset sizes of the Funds involved in the Reorganization, will be

10

greater for the Acquiring Fund than the Target Fund. In the event the Reorganization is not completed, the Adviser will bear the costs associated with the Reorganization. The numbers presented in the table are estimates; actual results may differ.

(d) In seeking to enhance the income for its common shareholders, each of the Funds uses preferred shares as financial leverage. Leverage created by borrowing or other forms of indebtedness would create interest expenses which would, if used by the Funds, be charged to common shareholders (shown above as "Interest Payments on Borrowed Funds"). Leverage created by preferred shares creates dividend payments and/or capital gains distributions to preferred shareholders which are charged to common shareholders (shown above as "Distributions on Preferred Shares"). The dividend rates are based on periodic auctions as described herein and thus will differ based on varying market conditions at the times of such auctions. As of October 31, 2006, VTF had an outstanding preferred share leverage ratio (i.e., the liquidation preference of preferred shares relative to total assets of such Fund) of approximately 35% and VGM had an outstanding preferred share leverage ratio of approximately 37%. Assuming the Reorganization was completed as of October 31, 2006, the combined fund on a pro-forma basis would have had a preferred share leverage ratio of approximately 36%. Because the line "Distributions on Preferred Shares" shows preferred share distributions as a percentage of net assets attributable to common shares, the amount shown is affected not only by the applicable preferred share dividend rates and capital gain distribution rates but also by the applicable preferred share leverage ratio of each Fund. Funds with higher preferred share leverage ratios, all other things equal, would have higher "Distributions on Preferred Shares" than funds with lower leverage ratios; and, if the leverage is producing its intended results (i.e., providing more income for common shareholders than its costs), funds with higher preferred share leverage ratios, all other things equal, would have higher distributions on common shares than funds with lower leverage ratios. Thus, the increase in "Distributions on Preferred Shares" for VTF from the actual to the pro forma column is due in part to changes in the expected leverage ratio of the combined fund. The proposed Reorganization is intended to combine the Funds with their existing capital structures, which will result in a weighted combined leverage ratio that each Fund's Board and management believe is within an appropriate range

under current market conditions; the combined fund may consider changes to its leverage ratio based on varying market conditions in the future.

EXAMPLE. The following example is intended to help you compare the costs of investing in the Acquiring Fund pro forma after the Reorganization with the costs of investing in the Target Fund and the Acquiring Fund without the Reorganization. An investor would pay the following expenses on a \$1,000 investment, assuming (1) the operating expense ratio for each Fund (as a percentage of net assets attributable to common shares) set forth in the table

Edgar Filing: VAN KAMPEN TRUST FOR INVESTMENT GRADE MUNICIPALS - Form N-14 8C

above and (2) a 5% annual return throughout the period:

Pro Forma--Van Kampen Trust for Investment Grade Municipals.....	\$ 13	\$ 40	\$ 69	\$152

The example set forth above assumes Common Shares of each Fund were purchased in the initial offerings and the reinvestment of all dividends and distributions and uses a 5% annual rate of return as mandated by SEC regulations. The example should not be considered a representation of past or future expenses or annual rates of return. Actual expenses or annual rates of return may be more or less than those assumed for purposes of the example.

FURTHER INFORMATION REGARDING THE REORGANIZATION. The Target Fund Board has determined that the Reorganization is in the best interests of holders of Target Fund Common Shares and that the interests of such shareholders will not be diluted as a result of the Reorganization. Similarly, the Board of Trustees of the Acquiring Fund has determined that the Reorganization is in the best interests of holders of Acquiring Fund Common Shares and that the interests of such shareholders will not be diluted as a result of the Reorganization. It is not anticipated that the Reorganization will directly benefit the holders of Preferred Shares of either Fund; however, the Reorganization will not adversely affect the holders of Preferred Shares of either Fund and the expenses of the Reorganization will not be borne by the holders of Preferred Shares of either Fund. As a result of the Reorganization, however, a shareholder of either Fund will hold a reduced percentage of ownership in the larger combined fund than he or she did in either of the separate Funds.

The Reorganization is intended to qualify as a "reorganization" within the meaning of Section 368(a)(1) of the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code" or "Code"). If the Reorganization so qualifies, in general, a shareholder of the Target Fund will recognize no gain or loss upon the

receipt of shares of the Acquiring Fund in connection with the Reorganization. Additionally, the Target Fund will not recognize any gain or loss as a result of the transfer of all of its assets and liabilities in exchange for the shares of the Acquiring Fund or as a result of its dissolution. Neither the Acquiring Fund nor its shareholders will recognize any gain or loss in connection with the Reorganization.

The Target Fund Board requests that shareholders of the Target Fund approve the proposed Reorganization at the Special Meeting to be held on May 18, 2007. Shareholder approval of the Reorganization requires the affirmative vote of shareholders of the Target Fund representing more than 50% of the outstanding Target Fund Common Shares and 50% of the outstanding Target Fund APS, each voting separately as a class. Subject to the requisite approval of the shareholders of each Fund with regard to the Reorganization, it is expected that the closing date of the transaction (the "Closing Date") will be after the close of business on or about June 1, 2007, but it may be at a different time as

described herein.

The Target Fund Board recommends that you vote "FOR" the proposed Reorganization.

PROPOSAL 2: ISSUANCE OF ACQUIRING FUND COMMON SHARES

In connection with the proposed Reorganization described under "Proposal 1: Reorganization of the Target Fund," the Acquiring Fund will issue additional Acquiring Fund Common Shares and list such shares on the NYSE and CHX. The Acquiring Fund will acquire substantially all of the assets and assume substantially all of the liabilities of the Target Fund in exchange for the newly-issued Acquiring Fund Common Shares and newly-issued Acquiring Fund APS. The Reorganization will result in no reduction of net asset value of the Acquiring Fund Common Shares, other than the costs of the Reorganization. No gain or loss will be recognized by the Acquiring Fund or its shareholders in connection with the Reorganization. The Acquiring Fund Board, based upon its evaluation of all relevant information, anticipates that the Reorganization will benefit holders of Acquiring Fund Common Shares. In particular, the Acquiring Fund Board believes, based on data presented by the Adviser, that the Acquiring Fund will experience a reduced overall operating expense ratio as a result of the Reorganization.

The Acquiring Fund Board requests that shareholders of the Acquiring Fund approve the issuance of additional Acquiring Fund Common Shares at the Special Meeting to be held on May 18, 2007. Shareholder approval of the issuance of additional Acquiring Fund Common Shares requires the affirmative vote of a majority of the votes cast on the proposal, provided that the total votes cast on the proposal represents more than 50% in interest of all securities entitled to vote on the proposal. Subject to the requisite approval of the shareholders of each Fund with regard to the Reorganization, it is expected that the Closing Date will be after

13

the close of business on or about June 1, 2007, but it may be at a different time as described herein.

The Acquiring Fund Board recommends that you vote "FOR" the issuance of additional Acquiring Fund Common Shares in connection with the Reorganization.

-----  
PROPOSAL 1: REORGANIZATION OF THE TARGET FUND  
-----

The Reorganization seeks to combine two similar Funds to achieve certain economies of scale and other operational efficiencies and the Target Fund shareholders will benefit from greater diversification. The Target Fund seeks to offer its shareholders the opportunity to own securities exempt from Florida intangible personal property taxes. As such, the Target Fund invests substantially all of its total assets in Florida municipal securities, which are exempt from such tax; however, effective January 1, 2007, the State of Florida repealed the intangible personal property tax, thereby eliminating the Florida-specific tax benefit to Florida taxpayers of investing in the Fund. Thus, the Board of Trustees of the Funds has determined that the Reorganization of the Target Fund into the similar Acquiring Fund would benefit common shareholders.

Each Fund is registered as a diversified, closed-end management investment company under the 1940 Act. Each Fund pursues the same investment objective to seek to provide shareholders with a high level of current income exempt from

federal income taxes, consistent with preservation of capital. The Target Fund also seeks to offer its shareholders the opportunity to own securities exempt from Florida intangible personal property taxes. The Target Fund intends to achieve its investment objective primarily by investing in a portfolio of Florida municipal securities which the Target Fund's investment adviser believes does not involve undue risk to income or principal. Under normal market conditions, the Target Fund invests substantially all of its total assets in Florida municipal securities rated investment grade at the time of investment. The Acquiring Fund seeks to achieve its investment objective primarily by investing in a diversified portfolio of municipal securities which the Acquiring Fund's investment adviser believes does not involve undue risk to income or principal. Under normal market conditions, the Acquiring Fund invests substantially all of its total assets in municipal securities rated investment grade at the time of investment. The Acquiring Fund generally will not invest more than 25% of its assets in issuers located in the same state. The Funds are managed by the same investment advisory personnel.

In the Reorganization, the Acquiring Fund will acquire substantially all of the assets and assume substantially all of the liabilities of the Target Fund in exchange for an equal aggregate value of Acquiring Fund Common Shares and Acquiring Fund APS. The Target Fund will distribute Acquiring Fund Common Shares to

14

holders of Target Fund Common Shares and Acquiring Fund APS to holders of Target Fund APS, and will then terminate its registration under the 1940 Act and dissolve under applicable state law. The aggregate net asset value of Acquiring Fund Common Shares received in the Reorganization will equal the aggregate net asset value on the Target Fund Common Shares held immediately prior to the Reorganization less the costs of the Reorganization (though common shareholders may receive cash for fractional shares). The aggregate liquidation preference of Acquiring Fund APS received in the Reorganization will equal the aggregate liquidation preference of Target Fund APS held immediately prior to the Reorganization. The Acquiring Fund will continue to operate as a registered closed-end investment company with the investment objective and policies described in this Joint Proxy Statement/Prospectus.

The Target Fund Board, based upon its evaluation of all relevant information, anticipates that the common shareholders of the Target Fund will benefit from the Reorganization. In particular, the Target Fund Board believes, based on data presented by the Target Fund's investment adviser, that common shareholders of the Target Fund will experience a reduced annual operating expense ratio as a result of the Reorganization. The combined fund resulting from the Reorganizations will have a larger asset base than either Fund has currently; certain fixed administrative costs, such as costs of printing shareholder reports and proxy statements, legal expenses, audit fees, mailing costs and other expenses, will be spread across this larger asset base, thereby lowering the expense ratio for common shareholders of the combined fund. In addition, shareholders of the Target Fund are expected to benefit from improved diversification.

#### RISK FACTORS AND SPECIAL CONSIDERATIONS

Because each Fund, under normal market conditions, invests substantially all of its total assets in municipal securities rated investment grade at the time of investment, any risks inherent in such investments are equally applicable to both Funds and will apply to the combined fund after the Reorganization. As the Target Fund invests primarily in Florida municipal securities, it is subject to additional risks applicable to such investments. See "-- Florida Municipal Securities Risk." The Reorganization itself is not expected to adversely affect

the rights of holders of Common Shares or Preferred Shares of either Fund or to create additional risks.

#### MARKET RISK

Market risk is the possibility that the market values of securities owned by each Fund will decline. The prices of debt securities tend to fall as interest rates rise, and such declines tend to be greater among debt securities with longer maturities. Market risk is often greater among certain types of debt securities, such as zero coupon bonds which do not make regular interest payments but are instead bought

15

at a discount to their face values and paid in full upon maturity. As interest rates change, these securities often fluctuate more in price than securities that make regular interest payments and therefore subject the Funds to greater market risk than a fund that does not own these types of securities. When-issued and delayed delivery transactions are subject to changes in market conditions from the time of the commitment until settlement. This may adversely affect the prices or yields of the securities being purchased. The greater the Funds' outstanding commitments for these securities, the greater the Funds' exposure to market price fluctuations.

#### INTEREST RATE RISK

Interest rate risk is the risk that prices of municipal securities generally increase when interest rates decline and decrease when interest rates increase. Prices of longer-term securities generally change more in response to interest rate changes than prices of shorter-term securities.

#### CREDIT RISK

Credit risk refers to an issuer's ability to make timely payments of interest and principal. The degree of credit risk depends on both the financial condition of the issuer and the terms of the obligation. Each Fund invests substantially all of its total assets in municipal securities rated investment grade at the time of investment. Securities rated BBB by S&P or Baa by Moody's are in the lowest of the four investment grades and are considered by the rating agencies to be medium-grade obligations which possess speculative characteristics so that changes in economic conditions or other circumstances are more likely to lead to a weakened capacity of the issuer to make principal and interest payments than in the case of higher-rated securities. Each Fund may also invest up to 20% of its total assets in municipal securities that are rated, at the time of investment, BB/Ba or B by S&P, Moody's or Fitch or that are unrated, but determined to be of comparable quality by its investment adviser. To the extent that a Fund may hold securities rated below investment grade, it may be subject to a higher level of credit risk than a fund that holds solely investment grade securities. The credit quality of below-investment grade securities is considered speculative by recognized rating agencies with respect to the issuer's continuing ability to pay interest and principal. Lower-grade securities may have less liquidity and a higher incidence of default than higher-grade securities. The Funds may incur higher expenditures to protect its interests in such securities. The credit risks and market prices of lower-grade securities generally are more sensitive to negative issuer developments, such as reduced revenues or increased expenditures, or adverse economic conditions, such as a recession, than are higher-grade securities.

16

#### INCOME RISK

The income shareholders receive from a Fund is based primarily on interest rates, which can vary widely over the short- and long-term. If interest rates drop, your income from such Fund may drop as well.

NONPAYMENT RISK

Although substantially all of the municipal securities in which the Funds invest are rated investment grade at the time of investment, municipal securities, like other debt obligations, are subject to the risk of nonpayment. The ability of issuers of municipal securities to make timely payments of interest and principal may be adversely impacted in general economic downturns and as relative governmental cost burdens are allocated and reallocated among federal, state and local governmental units. Such nonpayment would result in a reduction of income to a Fund and could result in a reduction in the value of them municipal security experiencing nonpayment and a potential decrease in the net asset value of a Fund.

CALL RISK

If interest rates fall, it is possible that issuers of securities with high interest rates will prepay or "call" their securities before their maturity dates. In this event, the proceeds from the called securities would likely be reinvested by the Funds in securities bearing the new, lower interest rates, resulting in a possible decline in the Funds' income and distributions to shareholders.

MUNICIPAL SECURITIES RISK

Under normal market conditions, the Funds invest primarily in municipal securities. The yields of municipal securities may move differently and adversely compared to the yields of overall debt securities markets. Although the interest received from municipal securities generally is exempt from federal income tax, each Fund may invest an unlimited portion of its assets in municipal securities subject to the federal alternative minimum tax. In addition, there could be changes in applicable tax laws or tax treatments that reduce or eliminate the current federal income tax exemption on municipal securities or otherwise adversely affect the current federal or state tax status of municipal securities.

FLORIDA MUNICIPAL SECURITIES RISK

Since the Target Fund, under normal market conditions, invests substantially all of its total assets in Florida municipal securities, it is more exposed to risks affecting issuers of Florida municipal securities than the Acquiring Fund. Many different social, environmental and economic factors may affect the financial condition of Florida and its political subdivisions. The yields of Florida municipal securities may

17

move differently and adversely compared to the yields of overall debt securities markets. The Target Fund had faced the additional risk of investing in Florida Municipal securities that changes in applicable tax laws or tax treatments reduce or eliminate the certain Florida-specific tax benefits. On January 1, 2007, the State of Florida repealed the intangible personal property tax, thereby eliminating the Florida-specific tax benefits to Florida taxpayers of investing in the Fund.

RISKS OF USING STRATEGIC TRANSACTIONS

Each Fund may engage in certain transactions ("Strategic Transactions") designed to, among other things, reduce its exposure to interest rate movements. For example, each Fund may purchase and sell exchange-listed and over-the-counter put and call options on securities, financial futures and other financial instruments, purchase and sell financial futures contracts and enter into various interest rate transactions such as swaps, caps, floors or collars. If a Fund incorrectly forecasts market values, interest rates or other factors, that Fund's performance could suffer as a result of its Strategic Transactions. Each Fund also may suffer a loss if the other party to the Strategic Transaction fails to meet its obligations. The Funds are not required to use Strategic Transactions and may choose not to do so.

#### MANAGER RISK

As with any managed fund, the investment adviser to each Fund may not be successful in selecting the best-performing securities or investment techniques, and a Fund's performance may lag behind that of similar funds.

#### MARKET DISCOUNT RISK

Whether investors will realize gains or losses upon the sale of shares of a Fund will depend upon the market price of the shares at the time of original purchase and subsequent sale, which may be less or more than such Fund's net asset value per share. Since the market price of the shares will be affected by such factors as the relative demand for and supply of the shares in the market, general market and economic conditions and other factors beyond the control of the Funds, the Funds cannot predict whether shares of the Funds will trade at, below or above net asset value. Shares of closed-end funds often trade at a discount to their net asset values, and the Funds' shares may trade at such a discount.

In order to reduce or eliminate a market value discount from net asset value, the Board of Trustees of a Fund may, subject to the terms of its preferred shares, authorize such Fund from time to time to repurchase its common shares in the open market or to tender for its common shares at net asset value. The Board of Trustees of a Fund, in consultation with the Adviser, reviews on a quarterly basis the possibility of open-market repurchases and/or tender offers for such Fund's common shares. Subject to its borrowing restrictions, a Fund may incur debt to finance

18

such repurchases, which entails risks. The ability of a Fund to enter into tender offers and the common share repurchases may be limited by the 1940 Act asset coverage requirements and any additional asset coverage requirements which may be imposed by a rating agency in connection with any rating of the preferred shares. No assurance can be given that the Board of Trustees of a Fund will, in fact, authorize such Fund to undertake such repurchases and/or tender offers or that, if undertaken, such actions would result in such Fund's common shares trading at a price which is equal or close to net asset value.

#### LEVERAGE RISK

Use of leverage, through the issuance of Preferred Shares, involves certain risks to holders of Common Shares of the Funds. For example, each Fund's issuance of Preferred Shares may result in higher volatility of the net asset value of its Common Shares and potentially more volatility in the market value of its Common Shares. In addition, changes in the short-term and medium-term dividend rates on, and the amount of taxable income allocable to, the Preferred Shares of a Fund will affect the yield to holders of Common Shares of such Fund. In certain circumstances, when a Fund is required to allocate taxable income to holders of its Preferred Shares, such Fund may be required to make an additional

distribution to such holders in an amount approximately equal to the tax liability resulting from the allocation (an "Additional Dividend"). Leverage will allow holders of each Fund's Common Shares to realize a higher current rate of return than if a Fund were not leveraged as long as such Fund, while accounting for its costs and operating expenses, is able to realize a higher net return on its investment portfolio than the then-current dividend rate (and any Additional Dividend) paid on its Preferred Shares. Similarly, since a pro rata portion of each Fund's net realized capital gains is generally payable to holders of a Fund's Common Shares, the use of leverage will increase the amount of such gains distributed to holders of a Fund's Common Shares. However, short-term, medium-term and long-term interest rates change from time to time as do their relationships to each other (i.e., the slope of the yield curve) depending upon such factors as supply and demand forces, monetary and tax policies and investor expectations. Changes in any or all of such factors could cause the relationship between short-term, medium-term and long-term rates to change (i.e., to flatten or to invert the slope of the yield curve) so that short-term and medium-term rates may substantially increase relative to the long-term obligations in which each Fund may be invested. To the extent that the current dividend rate (and any Additional Dividend) on a Fund's Preferred Shares approaches the net return on such Fund's investment portfolio, the benefit of leverage to holders of Common Shares of such Fund will be decreased. If the current dividend rate (and any Additional Dividend) on the Preferred Shares of a Fund were to exceed the net return on such Fund's portfolio, holders of Common Shares of such Fund would receive a lower rate of return than if the Fund were not leveraged. Similarly, since

19

both the costs of issuing Preferred Shares and any decline in the value of a Fund's investments (including investments purchased with the proceeds from any Preferred Shares offering) will be borne entirely by holders of such Fund's Common Shares, the effect of leverage in a declining market would result in a greater decrease in net asset value to holders of Common Shares than if a Fund were not leveraged. If a Fund is liquidated, holders of that Fund's Preferred Shares will be entitled to receive liquidating distributions before any distribution is made to holders of Common Shares of such Fund.

In an extreme case, a decline in net asset value could affect a Fund's ability to pay dividends on its Common Shares. Failure to make such dividend payments could adversely affect a Fund's qualification as a regulated investment company under the federal tax laws. However, each Fund intends to take all measures necessary to make required Common Share dividend payments. If a Fund's current investment income is ever insufficient to meet dividend payments on either its Common Shares or its Preferred Shares, such Fund may have to liquidate certain of its investments. In addition, each Fund has the authority to redeem its Preferred Shares for any reason and may be required to redeem all or part of its Preferred Shares in the following circumstances:

- if the asset coverage for the Preferred Shares declines below 200%, either as a result of a decline in the value of a Fund's portfolio investments or as a result of the repurchase of Common Shares in tender offers or otherwise, or
- in order to maintain the asset coverage guidelines established by Moody's and S&P in rating the Preferred Shares.

Redemption of the Preferred Shares or insufficient investment income to make dividend payments, may reduce the net asset value of a Fund's Common Shares and require a Fund to liquidate a portion of its investments at a time when it may be disadvantageous to do so.

ANTI-TAKEOVER PROVISIONS

The Declaration of Trust of each Fund (in each case, the "Declaration of Trust") includes provisions that could limit the ability of other entities or persons to acquire control of that Fund or to change the composition of its Board of Trustees. Such provisions could limit the ability of common shareholders to sell their shares at a premium over prevailing market prices by discouraging a third party from seeking to obtain control of either Fund.

SPECIAL RISKS RELATED TO PREFERRED SHARES

AUCTION RISK. The dividend rate for the Preferred Shares of each Fund normally is set through an auction process. In the auction, holders of Preferred Shares may indicate the dividend rate at which they would be willing to hold or sell their shares

20

or purchase additional shares. An auction fails if there are more Preferred Shares offered for sale than there are buyers, in which case holders of Preferred Shares may not be able to sell their shares. Also, if holders of Preferred Shares place bids to retain shares at an auction only at a specified dividend rate and that rate exceeds the rate set at the auction, they will not retain their shares. Additionally, if holders of Preferred Shares buy shares or elect to retain shares without specifying a dividend rate below which they would not wish to buy or continue to hold those shares, they could receive a lower rate of return on their shares than the market rate. Finally, the dividend period for the Preferred Shares may be changed by a Fund, subject to certain conditions, including notice to preferred shareholders, which could also affect the liquidity of an investment in Preferred Shares.

SECONDARY MARKET RISK. Broker-dealers may maintain a secondary trading market in the Preferred Shares outside of auctions; however, they are not obligated to do so and there can be no assurance that such a secondary market will develop or, if it does develop, that it will provide holders of Preferred Shares with a liquid trading market. It may not be possible to sell Preferred Shares between auctions, or it may only be possible to sell them for a price less than their liquidation preference plus any accumulated dividends. An increase in the level of interest rates likely will have an adverse effect on the secondary market price of the Preferred Shares. Preferred Shares may only be transferred outside of auctions to or through broker-dealers or other persons as a Fund permits.

RATINGS AND ASSET COVERAGE RISKS. Although the Preferred Shares of each Fund have been rated "Aaa" by Moody's and "AAA" by S&P, such ratings do not eliminate or necessarily mitigate the risks of investing in Preferred Shares. Moody's or S&P could downgrade its rating of the Preferred Shares or withdraw its rating at any time, which may make the Preferred Shares less liquid at an auction or in the secondary market. If a Fund fails to satisfy its asset coverage ratios, it will be required to redeem a sufficient number of Preferred Shares in order to return to compliance with the asset coverage ratios. A Fund may voluntarily redeem preferred shares under certain circumstances in order to meet asset coverage tests.

COMPARISON OF THE FUNDS

INVESTMENT OBJECTIVE AND POLICIES

The Funds pursue the same investment objective and have similar investment policies. Each Fund's investment objective is to seek to provide shareholders with a high level of current income exempt from federal income taxes, consistent with preservation of capital. The Target Fund also seeks to offer its shareholders the opportunity to own securities exempt from Florida intangible

personal property taxes.

21

Each Fund seeks to achieve its investment objective primarily by investing in a portfolio of municipal securities which the its investment adviser believes does not involve undue risk to income or principal. Under normal market conditions, each Fund invests at least 80% of its total assets in municipal securities. The foregoing policy is a fundamental policy of each Fund and cannot be changed without shareholder approval. In normal market conditions, the Acquiring Fund invests substantially all of its total assets in municipal securities rated investment grade at the time of investment. In normal market conditions, the Target Fund invests substantially all of its total assets in Florida municipal securities rated investment grade at the time of investment. Each Fund considers securities rated BBB or higher by S&P or Baa or higher by Moody's and equivalent rated short-term obligations to be investment grade. Up to 20% of each Fund's total assets may be invested in securities below investment grade (but not lower than B by S&P, Moody's or Fitch) and/or in unrated municipal securities (including securities deemed by its investment adviser to be investment grade or lower, but not lower than B). Each Fund may be more dependent upon the investment adviser's investment analysis of such unrated municipal securities than is the case with respect to rated municipal securities.

The foregoing policies with respect to credit quality of portfolio investments apply only at the time of purchase of a security, and the Funds are not required to dispose of a security in the event that S&P or Moody's (or any other nationally recognized statistical rating organization) downgrades its assessment of the credit characteristics of a particular issuer or. In determining whether a Fund will retain or sell such a security, the investment adviser may consider such factors as the investment adviser's assessment of the credit quality of the issuer of such security, the price at which such security could be sold and the rating, if any, assigned to such security by other nationally recognized statistical rating organizations.

The most significant difference between the Funds is that the Target Fund invests substantially all of its total assets in Florida municipal securities, whereas the Acquiring Fund invests substantially all of its total assets in municipal securities and generally will not invest more than 25% of its assets in issuers located in the same state. As such, the Target Fund is more likely to be affected by adverse political, economic or regulatory developments affecting issuers of Florida municipal securities.

Each Fund may invest in municipal securities subject to the alternative minimum tax provisions of federal tax law. Neither Fund has established any limit on the percentage of its respective portfolio that may be invested in municipal securities that pay interest subject to the alternative minimum tax provisions of federal tax law, and a substantial portion of the income produced by either Fund may be taxable under the alternative minimum tax. The Funds may not be suitable investments for investors who are already subject to the federal alternative minimum tax or who would become

22

subject to the federal alternative minimum tax as a result of an investment in the Funds.

Each Fund may engage in certain hedging transactions and may purchase and sell put and call options on municipal securities and municipal securities indices. Such transactions are not treated as investments in municipal securities for the

purpose of each Fund's policy of investing 80% of its total assets in municipal securities.

MUNICIPAL SECURITIES. Municipal securities are obligations issued by or on behalf of states, certain territories and possessions of the United States and the District of Columbia and their political subdivisions, agencies and instrumentalities, the interest on which is, in the opinion of bond counsel or other counsel to the issuer of such securities, at the time of issuance, not includable in gross income for regular federal income tax purposes. Florida municipal securities are municipal securities the interest on which, in the opinion of bond counsel or other counsel to the issuer of such securities is, at the time of issuance, exempt from Florida intangible personal property taxes; however, as of January 1, 2007, the State of Florida repealed the intangible personal property tax, thereby eliminating the Florida-specific tax benefit to Florida investors of investing in Florida municipal securities.

The two principal classifications of municipal securities are "general obligation" securities and "revenue" securities. "General obligation" securities are secured by the issuer's pledge of its faith, credit and taxing power for the payment of principal and interest. "Revenue" securities are usually payable only from the revenues derived from a particular facility or class of facilities or, in some cases, from the proceeds of a special excise tax or other specific revenue source. Industrial development bonds are usually revenue securities, the credit quality of which is normally directly related to the credit standing of the industrial user involved.

Within these principal classifications of municipal securities, there are a variety of categories of municipal securities, including fixed and variable rate securities, municipal bonds, municipal notes, municipal leases, custodial receipts, participation certificates and municipal securities the terms of which include elements of, or are similar in effect to, certain Strategic Transactions in which the Funds may engage. Variable rate securities bear rates of interest that are adjusted periodically according to formulae intended to reflect market rates of interest and include securities whose rates vary inversely with changes in market rates of interest. Municipal notes include tax, revenue and bond anticipation notes of short maturity, generally less than three years, which are issued to obtain temporary funds for various public purposes. Municipal leases are obligations issued by state and local governments or authorities to finance the acquisition of equipment and facilities. Certain municipal lease obligations may include "nonappropriation" clauses which provide that the municipality has no obligation to make lease or installment purchase payments in future years unless money is appropriated for such purpose on a yearly basis.

23

Custodial receipts are underwritten by securities dealers or banks and evidence ownership of future interest payments, principal payments or both on certain municipal securities. Participation certificates are obligations issued by state and local governments or authorities to finance the acquisition of equipment and facilities. They may represent participations in a lease, an installment purchase contract, or a conditional sales contract. Municipal securities may not be backed by the faith, credit and taxing power of the issuer. The Funds may also invest in municipal securities backed by original issue insurance or secondary market insurance (collectively, "insurance").

The yields of municipal securities depend on, among other things, general money market conditions, general conditions of the municipal securities market, size of a particular offering, the maturity of the obligation and rating of the issue. The ratings of S&P and Moody's represent their opinions of the quality of the municipal securities they undertake to rate. It should be emphasized, however, that ratings are general and are not absolute standards of quality.

Consequently, municipal securities with the same maturity, coupon and rating may have different yields while municipal securities of the same maturity and coupon with different ratings may have the same yield.

Municipal securities include long-term obligations, often called municipal bonds, as well as short-term municipal notes, participation certificates, municipal leases, and tax-exempt commercial paper. Under normal market conditions, longer-term municipal securities generally provide a higher yield than short-term municipal securities of similar credit quality and therefore each Fund generally emphasizes investments in municipal securities with long-term maturities. There is no limitation as to the maturity of municipal securities in which each Fund may invest. The Adviser may adjust the average maturity of each Fund's portfolio from time to time, depending on its assessment of the relative yields available on securities of different maturities and its expectations of future changes in interest rates.

Each Fund may also invest in inverse floating rate investments. Inverse floating rate investments are variable rate debt instruments that pay interest at rates that move in the opposite direction of prevailing interest rates. Inverse floating rate investments tend to underperform the market for fixed rate bonds in a rising interest rate environment, but tend to outperform the market for fixed rate bonds when interest rates decline or remain relatively stable. Inverse floating rate investments have varying degrees of liquidity. Inverse floating rate investments in which each Fund may invest may include derivative instruments, such as residual interest bonds ("RIBs") or tender option bonds ("TOBs"). Such instruments are typically created by a special purpose trusts that hold long-term fixed rate bonds and sells two classes of beneficial interests: short-term floating rate interests, which are sold to third party investors, and the inverse floating residual interests, which are purchased by a Fund. The short-term floating rate interests have first priority on the cash flow from the bond held by the special purpose trust and a Fund is paid the

24

residual cash flow from the bond held by the special purpose trust. Each Fund generally invests in inverse floating rate investments that include embedded leverage, thus exposing the Fund to greater risks and increased costs. The market value of a "leveraged" inverse floating rate investment generally will fluctuate in response to changes in market rates of interest to a greater extent than the value of an unleveraged inverse floating rate investment. The extent of increases and decreases in the value of inverse floating rate investments generally will be larger than changes in an equal principal amount of a fixed rate securities having similar credit quality, redemption provisions and maturity, which may cause each Fund's net asset value to be more volatile than if it had not invested in inverse floating rate investments. Consistent with applicable SEC guidance, to the extent that a Fund has ongoing obligations to any party in connection with investments in inverse floating rate investments, any such obligations will not be senior securities for purposes of the 1940 Act or borrowings for purposes of a Fund's limitations on borrowings provided that the Fund segregates an amount of cash and/or liquid securities equal in value to its obligations in respect of such inverse floating rate investments. Each Fund will not invest more than 15% of its net assets in inverse floating rate investments.

Each Fund may invest more than 25% of its total assets in a particular segment of the municipal securities market if the Adviser determines that the yields available from obligations in a particular segment justify the additional risks of a larger investment in such segment.

Under normal market conditions, the Target Fund invests substantially all of its total assets in Florida municipal securities. Therefore it is more

susceptible to factors adversely affecting issuers of Florida municipal securities than the Acquiring Fund. The Acquiring Fund does not have a policy limiting its investments in municipal securities whose issuers are located in the same state. However, it is not the present intention of the Acquiring Fund to invest more than 25% of the value of its total assets in issuers located in the same state. If the Acquiring Fund were to invest more than 25% of its total assets in issuers located in the same state, it would be more susceptible to adverse economic, business or regulatory conditions in that state.

MUNICIPAL LEASES AND CERTIFICATES OF PARTICIPATION. Included within the general category of municipal securities are participations in lease obligations or installment purchase contract obligations (collectively called "lease obligations") of municipal authorities or entities. Although lease obligations do not constitute general obligations of the municipality for which the municipality's taxing power is pledged, a lease obligation is ordinarily backed by the municipality's covenant to budget for, appropriate and make the payments due under the lease obligation. However, certain lease obligations contain "non-appropriation" clauses which provide that the municipality has no obligation to make lease or installment purchase payments in

25

future years unless money is appropriated for such purpose on a yearly basis. Although non-appropriation lease obligations are often secured by the underlying property, disposition of the property in the event of foreclosure might prove difficult.

There is no limitation on the percentage of either Fund's assets that may be invested in lease obligations that contain non-appropriation clauses. In evaluating such lease obligations, the Adviser will consider such factors as it deems appropriate, which may include (1) whether the lease can be cancelled, (2) the ability of the lease obligee to direct the sale of the underlying assets, (3) the general creditworthiness of the lease obligor, (4) the likelihood that the municipality will discontinue appropriating funding for the leased property in the event such property is no longer considered essential by the municipality, (5) the legal recourse of the lease obligee in the event of such a failure to appropriate funding and (6) any limitations which are imposed on the lease obligor's ability to utilize substitute property or services than those covered by the lease obligation. The Funds invest in lease obligations which contain non-appropriation clauses only if such obligations are rated investment grade at the time of investment or if the Adviser believes, at the time of investment, such obligations have credit characteristics equivalent to, and to be of comparable quality as, securities that are rated investment grade.

Participation certificates are obligations issued by state and local governments or authorities to finance the acquisition of equipment and facilities. They may represent participations in a lease, an installment purchase contract, or a conditional sales contract. Some municipal leases and participation certificates may not be readily marketable.

TEMPORARY DEFENSIVE STRATEGIES. At times, the Adviser may judge that conditions in the markets for municipal securities make pursuing a Fund's basic investment strategy inconsistent with the best interests of its shareholders. At such times the Adviser may use alternative strategies, primarily designed to reduce fluctuations in the value of such Fund's assets. In implementing these "defensive" strategies, a Fund may invest to a substantial degree in other investment grade municipal securities, including liquid, high-quality, short-term municipal securities. If these other municipal securities are not available or, in the Adviser's judgment, do not afford sufficient protection against adverse market conditions, each Fund may invest in investment grade taxable securities. To the extent that a Fund invests in taxable securities for

temporary defensive purposes, that Fund will not be invested in a manner primarily designed to achieve its investment objective of seeking to provide common shareholders with a high level of current income exempt from federal income tax.

To the extent that the use of certain of these strategies produces taxable income, this taxable income will be distributed on a pro rata basis among the Preferred Shares and the Common Shares. It is impossible to predict whether, or for how long, a Fund will use any such defensive strategies. Further, the yields on such

26

securities may approach or be less than the then current dividend rate payable to preferred shareholders. In such event, the benefit of leverage to the common shareholders will diminish and such Fund's leveraged capital structure may work to the disadvantage of the common shareholders.

#### OTHER INVESTMENT PRACTICES AND POLICIES

In connection with the investment objective and policies described above, each Fund may, but is not required to, utilize various other investment strategies as described below to earn income, to facilitate portfolio management and to mitigate risk. Such strategies are generally accepted by modern portfolio managers and are regularly utilized by many investment companies and other institutional investors. These investment practices entail risks. Although the Adviser believes that these investment practices may further the Funds' respective investment objectives, no assurance can be given that these investment practices will achieve this result.

OPTIONS. Put options and call options typically have similar structural characteristics and operational mechanics regardless of the underlying instrument on which they are purchased or sold. Thus, the following general discussion relates to each of the particular types of options discussed in greater detail below. In general, each Fund may purchase and sell (write) options on up to 20% of its assets. In addition, many Strategic Transactions involving options require segregation of Fund assets in special accounts, as described below under "Use of Segregated and Other Special Accounts."

A put option gives the purchaser of the option, upon payment of a premium, the right to sell, and the writer the obligation to buy, the underlying security, commodity, index or other instrument at the exercise price. For instance, a Fund's purchase of a put option on a security might be designed to protect its holdings in the underlying instrument (or, in some cases, a similar instrument) against a substantial decline in the market value by giving that Fund the right to sell such instrument at the option exercise price. A call option, upon payment of a premium, gives the purchaser of the option the right to buy, and the seller the obligation to sell, the underlying instrument at the exercise price. A Fund's purchase of a call option on a security, financial future contract, index or other instrument might be intended to protect that Fund against an increase in the price of the underlying instrument that it intends to purchase in the future by fixing the price at which it may purchase such instrument. An American style put or call option may be exercised at any time during the option period while a European style put or call option may be exercised only upon expiration or during a fixed period prior thereto. Each Fund is authorized to purchase and sell exchange listed options and over-the-counter options ("OTC options"). Exchange listed options are issued by a regulated intermediary such as the Options Clearing Corporation ("OCC"), which guarantees the performance of

27

the obligations of the parties to such options. The discussion below uses the OCC as a paradigm, but is also applicable to other financial intermediaries.

With certain exceptions, OCC issued and exchange listed options generally settle by physical delivery of the underlying security or currency, although in the future cash settlement may become available. Index options and Eurodollar instruments are cash settled for the net amount, if any, by which the option is "in-the-money" (i.e., where the value of the underlying instrument exceeds, in the case of a call option, or is less than, in the case of a put option, the exercise price of the option) at the time the option is exercised. Frequently, rather than taking or making delivery of the underlying instrument through the process of exercising the option, listed options are closed by entering into offsetting purchase or sale transactions that do not result in ownership of the new option.

A Fund's ability to close out its position as a purchaser or seller of an OCC or exchange listed put or call option is dependent, in part, upon the liquidity of the option market. Among the possible reasons for the absence of a liquid option market on an exchange are: (i) insufficient trading interest in certain options; (ii) restrictions on transactions imposed by an exchange; (iii) trading halts, suspensions or other restrictions imposed with respect to particular classes or series of options or underlying securities including reaching daily price limits; (iv) interruption of the normal operations of the OCC or an exchange; (v) inadequacy of the facilities of an exchange or OCC to handle current trading volume; or (vi) a decision by one or more exchanges to discontinue the trading of options (or a particular class or series of options), in which event the relevant market for that option on that exchange would cease to exist, although outstanding options on that exchange would generally continue to be exercisable in accordance with their terms.

OTC options are purchased from or sold to securities dealers, financial institutions or other parties ("Counterparties") through direct bilateral agreement with the Counterparty. In contrast to exchange listed options, which generally have standardized terms and performance mechanics, all the terms of an OTC option, including such terms as method of settlement, term, exercise price, premium, guarantees and security, are set by negotiation of the parties. Each Fund will only enter into OTC options that have a buy-back provision permitting that Fund to require the Counterparty to close the option at a formula price within seven days. Each Fund expects generally to enter into OTC options that have cash settlement provisions, although it is not required to do so.

Unless the parties provide for it, there is no central clearing or guaranty function in an OTC option. As a result, if the Counterparty fails to make or take delivery of the security, or other instrument underlying an OTC option it has entered into with a Fund or fails to make a cash settlement payment due in accordance with the terms of that option, that Fund will lose any premium it paid for the option as well

28

as any anticipated benefit of the transaction. Accordingly, the Adviser must assess the creditworthiness of each such Counterparty or any guarantor or credit enhancement of the Counterparty's credit to determine the likelihood that the terms of the OTC option will be satisfied. Each Fund will engage in OTC option transactions only with U.S. government securities dealers recognized by the Federal Reserve Bank of New York as "primary dealers", or broker-dealers, domestic or foreign banks or other financial institutions which have received (or the guarantors of the obligation of which have received) a short-term credit rating of "A-1" from S&P or "P-1" from Moody's or an equivalent rating from any other nationally recognized statistical rating organization ("NRSRO").

If a Fund sells a call option, the premium that it receives may serve as a partial hedge, to the extent of the option premium, against a decrease in the value of the underlying securities or instruments in its portfolio or will increase that Fund's income. The sale of put options can also provide income.

Each Fund may purchase and sell call options on securities, including U.S. Treasury and agency securities, municipal obligations, mortgage-backed securities, corporate debt securities that are traded on securities exchanges and in the OTC markets and related futures contracts. All calls sold by a Fund must be "covered" (i.e., a Fund must own the securities or futures contract subject to the call) or must meet the asset segregation requirements described below as long as the call is outstanding. Even though the Fund will receive the option premium to help protect it against loss, a call sold by a Fund exposes that Fund during the term of the option to possible loss of opportunity to realize appreciation in the market price of the underlying security or instrument and may require the Fund to hold a security or instrument which it might otherwise have sold. In the event of exercise of a call option sold by a Fund with respect to securities not owned by that Fund, such Fund may be required to acquire the underlying security at a disadvantageous price to satisfy its obligation with respect to the call option.

Each Fund may purchase and sell put options on securities including U.S. Treasury and agency securities, municipal obligations, mortgage-backed securities and corporate debt securities (whether or not it holds the above securities in its portfolio.) In selling put options, there is a risk that a Fund may be required to buy the underlying security at a disadvantageous price above the market price.

FUTURES CONTRACTS. Each Fund may enter into financial futures contracts or purchase or sell put and call options on futures contracts as a hedge against anticipated interest rate or fixed-income market changes, for duration management and for risk management purposes. Futures contracts generally are bought and sold on the commodities exchanges where they are listed with payment of initial and variation margin as described below. The purchase of a futures contract creates a firm obligation by the Fund, as purchaser, to take delivery from the seller of the specific type of financial instrument called for in the contract at a specific future

29

time for a specified price (or, with respect to index futures contracts and Eurodollar instruments, the net cash amount). The sale of a futures contract creates a firm obligation by the Fund, as seller, to deliver to the buyer the specific type of financial instrument called for in the contract at a specific future time for a specified price (or, with respect to index futures and Eurodollar instruments, the net cash amount). Options on futures contracts are similar to options on securities except that an option on a futures contract gives the purchaser the right in return for the premium paid to assume a position in a futures contract and obligates the seller to deliver such option.

Each Fund's use of financial futures contracts and options on futures contracts will in all cases be consistent with applicable regulatory requirements and in particular the rules and regulations of the Commodity Futures Trading Commission and will be entered into only for bona fide hedging, risk management (including duration management) or other portfolio management purposes. Typically, maintaining a futures contract or selling an option on a futures contract requires a Fund to deposit with a financial intermediary as security for its obligations an amount of cash or other specified assets (initial margin) which initially is typically 1% to 10% of the face amount of the contract (but may be higher in some circumstances). Additional cash or assets (variation margin) may be required to be deposited thereafter on a daily basis as the mark to market value of the contract fluctuates. The purchase of

options on financial futures contracts involves payment of a premium for the option without any further obligation on the part of the Fund. If a Fund exercises an option on a futures contract it will be obligated to post initial margin (and potential subsequent variation margin) for the resulting futures contracts position just as it would for any position. Futures contracts and options on futures contracts are generally settled by entering into an offsetting transaction but there can be no assurance that the position can be offset prior to settlement at an advantageous price nor that delivery will occur.

Each Fund will not enter into a futures contract or an option on a futures contracts (except for closing transactions) for other than bona fide hedging purposes if, immediately thereafter, the sum of the amount of its initial margin and premiums on open futures contracts and options thereon would exceed 5% of a Fund's total assets (taken at current value); however, in the case of an option that is in-the-money at the time of the purchase, the in-the-money amount may be excluded in calculating the 5% limitation. The segregation requirements with respect to futures contracts and options thereon are described below.

OPTIONS ON SECURITIES INDICES AND OTHER FINANCIAL INDICES. Each Fund also may purchase and sell call and put options on securities indices and other financial indices and in so doing can achieve many of the same objectives it would achieve through the sale or purchase of options on individual securities or other instruments. Options on securities indices and other financial indices are similar to options on a

30

security or other instrument except that, rather than settling by physical delivery of the underlying instrument, they settle by cash settlement, i.e., an option on an index gives the holder the right to receive, upon exercise of the option, an amount of cash if the closing level of the index upon which the option is based exceeds, in the case of a call, or is less than, in the case of a put, the exercise price of the option (except if, in the case of an OTC option, physical delivery is specified). This amount of cash is equal to the excess of the closing price of the index over the exercise price of the option, which also may be multiplied by a formula value. The seller of the option is obligated, in return for the premium received, to make delivery of this amount. The gain or loss on an option on an index depends on price movements in the instruments making up the market, market segment, industry or other composite on which the underlying index is based, rather than price movements in individual securities, as is the case with respect to options on securities.

COMBINED TRANSACTIONS. Each Fund may enter into multiple transactions, including multiple options transactions, multiple futures contracts transactions and multiple interest rate transactions and any combination of futures contracts, options and interest rate transactions ("component" transactions), instead of a single Strategic Transaction, as part of a single or combined strategy when, in the opinion of the Adviser, it is in the best interests of a Fund to do so. A combined transaction will usually contain elements of risk that are present in each of its component transactions. Although combined transactions are normally entered into based on the Adviser's judgment that the combined strategies will reduce risk or otherwise more effectively achieve the desired portfolio management goal, it is possible that the combination will instead increase such risks or hinder achievement of the portfolio management objective.

SWAPS, CAPS, FLOORS AND COLLARS. Among the Strategic Transactions into which each Fund may enter are interest rate and index swaps and the purchase or sale of related caps, floors and collars. Each Fund expects to enter into these transactions primarily to preserve a return or spread on a particular investment

or portion of its portfolio, as a duration management technique or to protect against any increase in the price of securities a Fund anticipates purchasing at a later date. Each Fund intends to use these transactions as hedges and not as speculative investments and will not sell interest rate caps or floors where it does not own securities or other instruments providing the income stream a Fund may be obligated to pay. Interest rate swaps involve the exchange by a Fund with another party of their respective commitments to pay or receive interest, e.g., an exchange of floating rate payments for fixed rate payments with respect to a notional amount of principal. An index swap is an agreement to swap cash flows on a notional amount based on changes in the values of the reference indices. The purchase of a cap entitles the purchaser to receive payments on a notional principal amount from the party selling such cap to the extent that a specified index exceeds a predetermined interest rate or amount. The purchase of a floor entitles the purchaser to receive payments on a notional

31

principal amount from the party selling such floor to the extent that a specified index falls below a predetermined interest rate or amount. A collar is a combination of a cap and a floor that preserves a certain return within a predetermined range of interest rates or values.

USE OF SEGREGATED AND OTHER SPECIAL ACCOUNTS. Many Strategic Transactions, in addition to other requirements, require that the Funds segregate cash and/or liquid securities to the extent a Fund's obligations are not otherwise "covered" through ownership of the underlying security, financial instrument or currency. In general, either the full amount of any obligation by a Fund to pay or deliver securities or assets must be covered at all times by the securities, instruments or currency required to be delivered, or, subject to any regulatory restrictions, a Fund must segregate cash and/or liquid securities in an amount at least equal to the current amount of the obligation. The segregated assets cannot be sold or transferred unless equivalent assets are substituted in their place or it is no longer necessary to segregate. For example, a call option written by a Fund will require that Fund to hold the securities subject to the call (or securities convertible into the needed securities without additional consideration) or to segregate cash and/or liquid securities sufficient to purchase and deliver the securities if the call is exercised. A call option sold by a Fund on an index will require that Fund to own portfolio securities which correlate with the index or to segregate cash and/or liquid securities equal to the excess of the index value over the exercise price on a current basis. A put option written by a Fund requires that Fund to segregate cash and/or liquid securities equal to the exercise price.

OTC options entered into by a Fund, including those on securities, financial instruments or indices and OCC issued and exchange listed index options, will generally provide for cash settlement. As a result, when a Fund sells these instruments it will only segregate an amount of cash and/or liquid securities equal to its accrued net obligations, as there is no requirement for payment or delivery of amounts in excess of the net amount. These amounts will equal 100% of the exercise price in the case of a non cash-settled put, the same as an OCC guaranteed listed option sold by a Fund, or the in-the-money amount plus any sell-back formula amount in the case of a cash-settled put or call. In addition, when a Fund sells a call option on an index at a time when the in-the-money amount exceeds the exercise price, that Fund will segregate, until the option expires or is closed out, cash and/or liquid securities equal in value to such excess. OCC issued and exchange listed options sold by a Fund other than those above generally settle with physical delivery, and that Fund will segregate an amount of cash and/or liquid securities equal to the full value of the option. OTC options settling with physical delivery, or with an election of either physical delivery or cash settlement, will be treated the same as other options settling with physical delivery.

In the case of a futures contract or an option on a futures contract, a Fund must deposit initial margin and possible daily variation margin in addition to segregating cash and/or liquid securities sufficient to meet its obligation to purchase or provide securities or currencies, or to pay the amount owed at the expiration of an index-based futures contract.

With respect to swaps, each Fund will accrue the net amount of the excess, if any, of its obligations over its entitlements with respect to each swap on a daily basis and will segregate an amount of cash and/or liquid securities having a value equal to the accrued excess. Caps, floors and collars require segregation of cash and/or liquid securities with a value equal to a Fund's net obligation, if any.

Strategic Transactions may be covered by other means when consistent with applicable regulatory policies. Each Fund also may enter into offsetting transactions so that its combined position, coupled with any segregated cash and/or liquid securities, equals its net outstanding obligation in related options and Strategic Transactions. For example, a Fund could purchase a put option if the strike price of that option is the same or higher than the strike price of a put option sold by that Fund. Moreover, instead of segregating cash and/or liquid securities if a Fund held a futures contract or forward contract, it could purchase a put option on the same futures contract or forward contract with a strike price as high or higher than the price of the contract held. Other Strategic Transactions also may be offset in combinations. If the offsetting transaction terminates at the time of or after the primary transaction no segregation is required, but if it terminates prior to such time, cash and/or liquid securities equal to any remaining obligation could need to be segregated.

Each Fund's activities involving Strategic Transactions may be limited by the requirements of the Code for qualification as a regulated investment company. Losses resulting from the use of Strategic Transactions would reduce net asset value, and possibly income, and such losses can be greater than if the Strategic Transactions had not been utilized. Income earned or gains realized or deemed to be earned or realized, if any, by a Fund from engaging in Strategic Transactions generally will be taxable income of the Fund. Such income earned or realized by either Fund is allocated to the Fund Common Shares and the Fund APS on a pro rata basis.

"WHEN-ISSUED" AND "DELAYED DELIVERY" TRANSACTIONS. Each Fund may also purchase and sell municipal securities on a "when-issued" and "delayed delivery" basis. No income accrues to a Fund on municipal securities in connection with such transactions prior to the date such Fund actually takes delivery of such securities. These transactions are subject to market fluctuation; the value of the municipal securities at delivery may be more or less than their purchase price, and yields generally available on municipal securities when delivery occurs may be higher than yields on the municipal securities obtained pursuant to such transactions. Because

the Fund engaging in such transactions relies on the buyer or seller, as the case may be, to consummate the transaction, failure by the other party to complete the transaction may result in such Fund missing the opportunity of obtaining a price or yield considered to be advantageous. When a Fund is the buyer in such a transaction, however, it will maintain, in a segregated account with its custodian, cash or liquid portfolio securities having an aggregate value equal to the amount of such purchase commitments until payment is made. A Fund will make commitments to purchase municipal securities on such basis only with the intention of actually acquiring these securities, but a Fund may sell

such securities prior to the settlement date if such sale is considered to be advisable. To the extent a Fund engages in "when-issued" and "delayed delivery" transactions, it will do so for the purpose of acquiring securities for a Fund's portfolio consistent with that Fund's investment objective and policies and not for the purpose of investment leverage. No specific limitation exists as to the percentage of a Fund's assets which may be used to acquire securities on a "when-issued" or "delayed delivery" basis.

#### INVESTMENT RESTRICTIONS

Each Fund's investment objective, its investment policy with respect to investing at least 80% of its total assets in municipal securities and the following investment restrictions are fundamental and cannot be changed without the approval of the holders of a majority of a Fund's outstanding voting securities (defined in the 1940 Act as the lesser of (i) more than 50% of a Fund's outstanding Common Shares and of its outstanding Preferred Shares, voting by class, or (ii) 67% of such outstanding Common Shares and of its outstanding Preferred Shares, voting by class, present at a meeting at which the holders of more than 50% of the outstanding shares of each such class are present in person or by proxy). All other investment policies or practices are considered by the Funds not to be fundamental and accordingly may be changed without shareholder approval. If a percentage restriction on investment or use of assets set forth below is adhered to at the time a transaction is effected, later changes in percentage resulting from changing market values will not be considered a deviation from policy. With respect to the limitations on illiquid securities and borrowings, the percentage limitations apply at the time of purchase and on an ongoing basis. The investment restrictions of the Acquiring Fund are set forth below. Except as noted herein the investment restrictions of the Target Fund are similar. The Acquiring Fund may not:

1. Invest more than 25% of its assets in a single industry; however, as described in the Fund's prospectus, the Fund may from time to time invest more than 25% of its assets in a particular segment of the municipal securities market.
2. Issue senior securities, as defined in the 1940 Act, other than preferred shares of beneficial interest, except to the extent such issuance might be involved with borrowings described under subparagraph (3) below or with respect to

34

hedging and risk management transactions or the writing of options within limits described in the Fund's Prospectus.

3. Borrow money, except for temporary or emergency purposes from banks or for repurchase of the Fund's shares, and then only in an amount not exceeding one-third of the Fund's total assets, including the amount borrowed. The Fund will not mortgage, pledge or hypothecate any assets except in connection with a borrowing. The Fund will not purchase portfolio securities during any period that such borrowings exceed 5% of the total asset value of the Fund. Notwithstanding this investment restriction, the Fund may enter into "when issued" and "delayed delivery" transactions as described in the Fund's prospectus.
4. Make loans of money or property to any person, except to the extent the securities in which the Fund may invest are considered to be loans and except that the Fund may lend money or property in connection with maintenance of the value of or the Fund's interest with respect to the securities owned by the Fund.

5. Buy any securities "on margin." Neither the deposit of initial or variation margin in connection with hedging and risk management transactions nor short-term credits as may be necessary for the clearance of transactions is considered the purchase of a security on margin.
6. Sell any securities "short," write, purchase or sell puts, calls or combinations thereof, or purchase or sell financial futures or options, except as described in the Fund's prospectus.
7. Act as an underwriter of securities, except to the extent the Fund may be deemed to be an underwriter in connection with the sale of securities held in its portfolio.
8. Make investments for the purpose of exercising control or participation in management, except to the extent that exercise by the Fund of its rights under agreements related to municipal securities would be deemed to constitute such control or participation, and except that the Fund may purchase securities of other investment companies to the extent permitted by (i) the 1940 Act, as amended from time to time, (ii) the rules and regulations promulgated by the Securities and Exchange Commission under the 1940 Act, as amended from time to time, or (iii) an exemption or other relief from the provisions of the 1940 Act.
9. Invest in securities issued by other investment companies except as part of a merger, reorganization or other acquisition and except to the extent permitted by (i) the 1940 Act, as amended from time to time, (ii) the rules and regulations promulgated by the Securities and Exchange Commission under

35

the 1940 Act, as amended from time to time, or (iii) an exemption or other relief from the provisions of the 1940 Act.

10. Invest in equity interests in oil, gas or other mineral exploration or development programs except pursuant to the exercise by the Fund of its rights under agreements relating to municipal securities.
11. Purchase or sell real estate, commodities or commodity contracts, except to the extent the securities the Fund may invest in are considered to be interests in real estate, commodities or commodity contracts or to the extent the Fund exercises its rights under agreements relating to such municipal securities (in which case the Fund may liquidate real estate acquired as a result of a default on a mortgage), and except to the extent that financial futures and related options the Fund may invest in are considered to be commodities or commodities contracts.
12. With respect to 75% of its total assets, purchase any securities (other than tax-exempt obligations guaranteed by the United States Government or by its agencies or instrumentalities), if as a result more than 5% of the Fund's total assets would then be invested in securities of a single issuer or if as a result the Fund would hold more than 10% of the outstanding voting securities of any single issuer, except that the Fund may purchase securities of other investment companies to the extent permitted by (i) the 1940 Act, as amended from time to time, (ii) the rules and regulations promulgated by the Securities and Exchange Commission under the 1940 Act, as amended from time to time, or (iii) an exemption or other relief from the provisions of the 1940 Act.

As a matter of operating policy, each Fund will not invest 25% or more of its assets in a single industry; however, each Fund may from time to time invest 25%

or more of its assets in a particular segment of the municipal securities market.

#### MANAGEMENT OF THE FUNDS

THE BOARDS. The Board of each Fund is responsible for the overall supervision of the operations of its respective Fund and performs the various duties imposed on trustees of investment companies by the 1940 Act and under applicable state law.

THE ADVISER. The investment adviser for each Fund is Van Kampen Asset Management. The Adviser is a wholly owned subsidiary of Van Kampen Investments Inc. ("Van Kampen Investments"). Van Kampen Investments is a diversified asset management company that services more than three million retail investor accounts, has extensive capabilities for managing institutional portfolios and has more than \$116 billion under management or supervision as of December 31, 2006. Van Kampen Investments is an indirect wholly owned subsidiary of Morgan Stanley, a preeminent global financial services firm that maintains leading

36

market positions in each of its three primary businesses: securities, asset management and credit services. Morgan Stanley is a full service securities firm engaged in securities trading and brokerage activities, investment banking, research and analysis, financing and financial advisory services. The principal business address of the Adviser and Van Kampen Investments is 1221 Avenue of the Americas, New York, New York 10020.

Pursuant to separate investment advisory agreements between each Fund and the Adviser, each Fund pays the Adviser a monthly fee at the annual rate of 0.55% of such Fund's average daily net assets, including assets attributable to Preferred Shares. Because the fees paid to the Adviser are calculated on net assets, including assets attributable to Preferred Shares, the fees earned by the Adviser will be higher when preferred shares are outstanding.

The Adviser furnishes offices, necessary facilities and equipment and provides administrative services to both the Target Fund and the Acquiring Fund, in addition to providing investment advisory services to both the Target Fund and the Acquiring Fund. A discussion regarding the basis for the Board of Trustees' approval of the investment advisory agreement between the (i) Acquiring Fund and the Adviser is available in the Acquiring Fund's Annual Report for the period ended October 31, 2006 and (ii) the Target Fund and the Adviser is available in the Target Fund's Annual Report for the period ended October 31, 2006.

Under a separate accounting services and legal services agreement, the Adviser (or its affiliates) provides accounting and legal services to each Fund. The Adviser (or its affiliates) allocates the cost of such services to each Fund.

PORTFOLIO MANAGEMENT. Each Fund's portfolio is managed by members of the Adviser's Municipal Fixed Income team. The Municipal Fixed Income team is made up of established investment professionals. Current members of the team jointly and primarily responsible for the day-to-day management of each Fund's portfolio are Thomas Byron and Robert Wimmel, each a Vice President of the Adviser, and John Reynoldson, an Executive Director of the Adviser.

Thomas Byron has been associated with the Adviser in an investment management capacity since 1981 and joined the team that manages each Fund in 1997. Robert Wimmel has been associated with the Adviser in an investment management capacity since 1996 and joined the team that manages each Fund in 2001. John Reynoldson has been associated with the Adviser in an investment management capacity since 1987 and joined the team that manages each Fund in 2001.

Mr. Byron is the lead portfolio manager of each Fund. Messrs. Wimmel and Reynoldson are co-portfolio managers of each Fund. All team members are responsible for the day-to-day management of each Fund and for the execution of the overall strategy of each Fund.

37

The Reorganization Statement of Additional Information provides additional information about the portfolio managers' compensation, other accounts managed by the portfolio managers and the portfolio managers' ownership of securities in the Acquiring Fund.

PORTFOLIO TRANSACTIONS WITH AFFILIATES. The Adviser may place portfolio transactions, to the extent permitted by law, with brokerage firms affiliated with the Funds and the Adviser if it reasonably believes that the quality of execution and the commission are comparable to that available from other qualified firms.

LEGAL PROCEEDINGS INVOLVING THE ADVISER. The Adviser and certain affiliates of the Adviser are named as defendants in a derivative action which additionally names as defendants individual trustees of certain Van Kampen funds. The named investment companies are listed as nominal defendants. The complaint alleges that defendants caused the Van Kampen funds to pay economic incentives to a proprietary sales force to promote the sale of Van Kampen funds. The complaint also alleges that the Van Kampen funds paid excessive commissions to Morgan Stanley and its affiliates in connection with the sales of the funds. The complaint seeks, among other things, the removal of the current trustees of the funds, rescission of the management contracts for the funds, disgorgement of profits by Morgan Stanley and its affiliates and monetary damages. This derivative action was coordinated with a direct action alleging related violations of defendants' statutory disclosure obligations and fiduciary duties with respect to the payments described above. In addition, this derivative action was stayed by agreement of the parties pending rulings on the motions to dismiss the direct action and the motion to dismiss another derivative action, brought by the same plaintiff that brought this derivative action, alleging market timing and late trading in the Van Kampen funds. In April 2006, the court granted defendants' motion to dismiss the direct action. In June 2006, the court granted defendants' motion to dismiss the market timing action. Accordingly, the stay on this action was lifted. Plaintiff and defendants have agreed, subject to court approval, that this action should be dismissed in light of the rulings dismissing the two cases discussed above. The court has approved a notice to shareholders regarding the dismissal.

The Adviser and one of the investment companies advised by the Adviser are named as defendants in a class action complaint generally alleging that the defendants breached their duties of care to long-term shareholders of the investment company by valuing portfolio securities at the closing prices of the foreign exchanges on which they trade without accounting for significant market information that became available after the close of the foreign exchanges but before calculation of net asset value. As a result, the complaint alleges, short-term traders were able to exploit stale pricing information to capture arbitrage profits that diluted the value of shares held by long-term investors. The complaint seeks unspecified compensatory damages, punitive damages, fees and costs. On October 16, 2006,

38

pursuant to an order of the United States Supreme Court finding a lack of appellate jurisdiction, the federal court of appeals vacated a prior order of the district court dismissing the case with prejudice, and remanded the case to

Edgar Filing: VAN KAMPEN TRUST FOR INVESTMENT GRADE MUNICIPALS - Form N-14 8C

the Illinois state court where it had been filed. In November 2006, defendants again removed the case to the federal district court based on intervening authority. In December 2006, plaintiffs moved to remand the case back to Illinois state court. While defendants believe they have meritorious defenses, the ultimate outcome of this matter is not presently determinable at this stage of the litigation.

OTHER SERVICE PROVIDERS

CUSTODIAN, TRANSFER AGENT, AUCTION AGENT AND DIVIDEND PAYING AGENT. State Street Bank and Trust Company is the custodian for each Fund. Box 43011, Providence, Rhode Island, 02940-3011, is the transfer agent, dividend disbursing agent and registrar for the Common Shares of each Fund. Deutsche Bank Trust Company Americas ("Deutsche Bank"), 280 Park Avenue, New York, New York 10017, is the auction agent and dividend paying agent for each Fund's APS.

ADDITIONAL INFORMATION ABOUT COMMON SHARES OF THE FUNDS

GENERAL. Common shareholders of a Fund are entitled to share equally in dividends declared by the Fund's Board of Trustees payable to holders of the common shares and in the net assets of the Fund available for distribution to holders of the common shares after payment of the preferential amounts payable to preferred shareholders. Common shareholders do not have preemptive or conversion rights and a Fund's common shares are not redeemable. The outstanding common shares of each Fund are fully paid and nonassessable (except as described under "Governing Law" below). So long as any preferred shares of a Fund are outstanding, holders of the Fund's common shares will not be entitled to receive any dividends or other distributions from the Fund unless all accumulated dividends on the Fund's outstanding preferred shares have been paid, and unless asset coverage (as defined in the 1940 Act) with respect to such preferred shares would be at least 200% after giving effect to such distributions.

PURCHASE AND SALE. Purchase and sale procedures for the Common Shares of each of the Funds are identical. Investors typically purchase and sell Common Shares of the Funds through a registered broker-dealer on the NYSE or CHX, thereby incurring a brokerage commission set by the broker-dealer. Alternatively, investors may purchase or sell Common Shares of the Funds through privately negotiated transactions with existing shareholders.

As of [ ], 2007, (i) the net asset value per share for Target Fund Common Shares was \$[ ] and the market price per share was \$[ ], representing a discount to net asset value of [ ]), and (ii) the net asset value per share for Acquiring Fund Common Shares was \$[ ] and the market price per share was \$[ ], representing a discount to net asset value of [ ]).

Common Shares of the Target Fund have traded at both a discount and a premium to net asset value since the Target Fund's inception. Common Shares of the Acquiring Fund have historically traded at a discount to net asset value. In order to reduce or eliminate a market value discount from net asset value, the Board of Trustees of each Fund may, subject to the terms and conditions of its preferred shares, authorize that Fund from time to time to repurchase the common shares in the open market or to tender for the common shares at net asset value. The Board of Trustees of each Fund, in consultation with the Adviser, will review on a

quarterly basis the possibility of open market repurchases and/or tender offers for the common shares. Subject to its borrowing restrictions, each Fund may incur debt to finance such repurchases, which entails risks. The ability of a Fund to enter into tender offers and the common share repurchases may be limited by the 1940 Act asset coverage requirements and any additional asset coverage requirements which may be imposed by a rating agency in connection with any rating of the preferred shares. No assurance can be given that the Board of Trustees of either Fund will, in fact, authorize the Fund to undertake such repurchases and/or tender offers or that, if undertaken, such actions would result in the common shares trading at a price which is equal or close to net asset value.

**DIVIDENDS AND DISTRIBUTIONS.** The Funds' current policies with respect to dividends and distributions relating to their respective Common Shares are similar. It is each Fund's present policy, which may be changed by its Board of Trustees, to make monthly distributions to holders of its Common Shares of substantially all of such Fund's net investment income remaining after the payment of dividends on any outstanding Preferred Shares. Net income of each Fund consists of all interest income accrued on portfolio assets less all expenses of such Fund. Each Fund is required to allocate net capital gains and other taxable income, if any, received by the Fund among its Common Shares and Preferred Shares on a pro rata basis in the year for which such capital gains and other income is realized.

Expenses of each Fund are accrued each day. Net realized capital gains, if any, are expected to be distributed to shareholders at least once a year. While there are any Preferred Shares of a Fund outstanding, such Fund may declare any cash dividend or other distribution on its Common Shares, unless at the time of such declaration, (1) all accrued Preferred Shares dividends have been paid and (2) the value of the Fund's total assets (determined after deducting the amount of such dividend or other distribution), less all liabilities and indebtedness of the Fund, is at least 200% (as required by the 1940 Act) of the liquidation value of the outstanding Preferred Shares (expected to equal the aggregate original purchase price of the outstanding Preferred Shares plus any accrued and unpaid dividends thereon, whether or not earned or declared on a cumulative basis). In addition to the requirements of the 1940 Act, each Fund may be required to comply with other asset coverage requirements as a condition of a Fund obtaining a rating of its Preferred Shares from a nationally recognized rating service. These requirements may include an asset coverage test more stringent than under the 1940 Act. This limitation on a Fund's ability to make distributions on its Common Shares could in certain circumstances impair the ability of a Fund to maintain its qualification for taxation as a regulated investment company. Each Fund intends, however, to the extent possible, to purchase or redeem Preferred Shares from time to time to maintain compliance with such asset coverage requirements and may pay special dividends to the holders of the Preferred Shares in certain circumstances in connection with any such impairment of the Fund's status as a regulated investment company.

43

For information concerning the manner in which dividends and distributions to holders of a Fund's Common Shares may be reinvested automatically in such Fund's Common Shares, see "-- Dividend Reinvestment Plan" below.

**DIVIDEND REINVESTMENT PLAN.** Each Fund offers a Dividend Reinvestment Plan (each a "Plan," and collectively the "Plans") pursuant to which holders of Common Shares may elect to have all distributions of dividends and all capital gains automatically reinvested in Common Shares pursuant to such Plan. The Plans for the Target Fund and the Acquiring Fund are similar. Unless common shareholders elect to participate in a Plan, all common shareholders will

receive distributions of dividends and capital gains in cash. Computershare Trust Company, N.A., as plan agent (the "Plan Agent"), serves as agent for the holders of Common Shares of each Fund in administering the Plans.

After the Reorganization, a holder of shares of a Fund who currently receives dividends in cash will continue to receive dividends in cash; all holders who elect to participate in the Plan of a Fund will have their dividends automatically reinvested in shares of the combined fund. All correspondence concerning the Plan should be directed to the Plan Agent at P.O. Box 43010, Providence, Rhode Island 02940-3010. Telephone calls concerning the Plan may be directed to the Plan Agent between the hours of 7:30 a.m. and 5:00 p.m. Central Standard Time at (800) 341-2929.

#### ADDITIONAL INFORMATION ABOUT PREFERRED SHARES OF THE FUNDS

GENERAL. Both Target Fund APS and Acquiring Fund APS are preferred shares of beneficial interest which entitle their holders to receive dividends when, as and if declared by the Board of Trustees of such Fund out of funds legally available therefor, at a rate per annum that may vary for successive dividend periods. Both Funds' APS have a liquidation preference of \$25,000 per share. Neither Target Fund APS nor Acquiring Fund APS are traded on a stock exchange or over-the-counter. Holders of each Fund's APS do not have preemptive rights to purchase any shares of APS, or any other preferred shares that might be issued. The net asset value per share of a Fund's Preferred Shares equals its liquidation preference plus accumulated but unpaid dividends per share.

SERIES. Under the 1940 Act, each Fund is permitted to have outstanding more than one series of preferred shares so long as no single series has priority over another to the distribution of assets of the Fund or the payment of dividends. The Target Fund currently has two series of APS outstanding, Series A APS and Series B APS. Except as described in the Prospectus offering Target Fund APS, the terms of each series of Target Fund APS are the same. The Acquiring Fund currently has seven series of APS outstanding, Series A APS, Series B APS, Series C APS, Series D APS, Series E APS, Series F APS and Series G APS. Except as described in the Prospectus offering Acquiring Fund APS, the terms of each series of Acquiring Fund APS are the same. If the Reorganization is approved

44

and completed, the combined fund will have nine series of APS. The Acquiring Fund will issue Series H APS and Series I APS in exchange for Target Fund APS. The aggregate liquidation preference of each series will equal the aggregate liquidation preference of the existing shares that the respective series replaces. The number of days in the regular dividend period for each series, the number of shares in each series and the liquidation preference per share will be similar to the existing preferred shares.

PURCHASE AND SALE. APS of the Acquiring Fund and APS of the Target Fund are purchased or sold using similar procedures. Series A APS of the Target Fund and Series C APS and Series D APS of the Acquiring Fund generally are purchased and sold through auctions generally conducted on the first business day of each calendar month by Deutsche Bank, as the auction agent for the applicable Fund's APS (the "Auction Agent") unless the applicable Fund elects to declare a special dividend period. Series B APS of the Target Fund and Series A APS, Series B APS, Series E APS, Series F APS and Series G APS of the Acquiring Fund generally are purchased and sold through auctions generally conducted every 28 days by the Auction Agent unless the applicable Fund elects to declare a special dividend period. Unless otherwise permitted by the Funds, existing and potential holders of each Fund's APS only may participate in auctions through broker-dealers who have entered into agreements with the APS Auction Agent ("Broker-Dealers"). Broker-Dealers submit the orders of their respective customers who are existing and potential holders of APS to the Auction Agent. On or prior to each auction

date for the APS (the business day next preceding the first day of each dividend period), each holder may submit orders to buy, sell or hold APS to its Broker-Dealer. Outside of these auctions, shares of APS may be purchased or sold through Broker-Dealers for the APS in a secondary trading market maintained by the Broker-Dealers. However, there can be no assurance that a secondary market will develop or if it does develop, that it will provide holders with a liquid trading market for the APS of either Fund.

**DIVIDENDS AND DISTRIBUTIONS.** The holders of the APS are entitled to receive, when, as and if declared by the Board of Trustees of the Fund, out of funds legally available therefore, cumulative cash dividends on their shares. Dividends on a Fund's APS so declared and payable shall be paid in preference to and in priority over any dividends so declared and payable on such Fund's Common Shares.

Both Funds are required to allocate net capital gains and other taxable income, if any, proportionately among Common Shares and APS. The amount of taxable income allocated to the APS depends upon the amount of such income realized by each Fund, but is generally not expected to be significant.

In normal circumstances, whenever a Fund intends to include any net capital gains or other taxable income in any dividend on APS, such Fund will notify the Auction Agent of the amount to be so included prior to the Auction establishing the

applicable rate for such dividend. The Auction Agent will in turn notify each broker-dealer who will notify existing and potential holders of each Fund's APS. As a result, auction participants may, in response to such information, place bids which take account of the inclusion of net capital gains or other taxable income in the dividend. If a Fund retroactively allocates any net capital gains or other income taxable for federal income tax purposes to its APS without having given advance notice thereof, as described above, by reason of the fact that such allocation is made as a result of (i) the realization of net capital gains or other income taxable for federal income tax purposes, (ii) the redemption of all or a portion of the Fund's outstanding APS or (iii) the liquidation of the Fund, the Fund will make certain payments to holders of its APS to which such allocation was made to substantially offset the tax effect thereof. In no other instances will the relevant Fund be required to make payments to holders of APS to offset the tax effect of any reallocation of net capital gains or other taxable income.

While the Funds normally utilize the auction procedures described above, each Fund may utilize special dividend periods in certain circumstances to set the dividend rate.

**DIVIDEND RATES.** The following table provides information about the dividend rates for each Fund's Preferred Shares as of a recent auction.

The dividend rates in effect at the closing of the Reorganization will be the rates determined in the auction most recently proceeding such closing.

RATINGS. The Target Fund APS and the Acquiring Fund APS have each been assigned a rating of "AAA" from S&P and "Aaa" from Moody's. Each Fund intends that, so long as its Preferred Shares are outstanding, the composition of its portfolio will reflect guidelines established by S&P and Moody's in connection with each Fund's receipt of a rating for such shares of at least "AAA" from S&P and "Aaa" from Moody's. S&P and Moody's, which are nationally recognized statistical rating organizations, issue ratings for various securities reflecting the perceived creditworthiness of such securities. The guidelines for rating such preferred shares have been developed by S&P and Moody's in connection with issuances of

46

asset-backed and similar securities, including debt obligations and variable rate preferred stock, generally on a case-by-case basis through discussions with the issuers of these securities. The guidelines are designed to ensure that assets underlying outstanding debt or preferred stock will be varied sufficiently and will be of sufficient quality and amount to justify investment grade ratings. The guidelines do not have the force of law but have been adopted by each Fund in order to satisfy current requirements necessary for S&P and Moody's to issue the above-described ratings for Preferred Shares, which ratings generally are relied upon by institutional investors in purchasing such securities. The guidelines provide a set of tests for portfolio composition and asset coverage that supplement (and in some cases are more restrictive than) the applicable requirements under the 1940 Act.

Each Fund may, but is not required to, adopt any modifications to these guidelines that hereafter may be established by S&P or Moody's. Failure to adopt any such modifications, however, may result in a change in the ratings described above or a withdrawal of the ratings altogether. In addition, any rating agency providing a rating for a Fund's Preferred Shares, at any time, may change or withdraw any such rating. As set forth in the Certificate of Vote of Trustees Establishing Preferred Shares of each Fund (each a "Certificate of Vote"), the Board of Trustees of each Fund, without shareholder approval, may modify certain definitions or restrictions that have been adopted by the Fund pursuant to the rating agency guidelines, provided the Board of Trustees has obtained written confirmation from S&P and Moody's that any such change would not impair the ratings then assigned by S&P and Moody's to the Preferred Shares. For so long as any shares of the Target Fund APS or Acquiring Fund APS are rated by S&P or Moody's, as the case may be, a Fund's use of options and financial futures contracts and options thereon will be subject to certain limitations mandated by the rating agencies.

REDEMPTIONS. The redemption provisions pertaining to each Fund's Preferred Shares are similar. It is anticipated that shares of each Fund's Preferred Shares will generally be redeemable at the option of the Fund at a price equal to their liquidation preference plus accumulated but unpaid dividends (whether

or not earned or declared) to the date of redemption plus, in certain circumstances, a redemption premium. Each Fund's Preferred Shares are also subject to mandatory redemption at a price equal to their liquidation preference plus accumulated but unpaid dividends (whether or not earned or declared) to the date of redemption upon the occurrence of certain specified events, such as the failure of a Fund to maintain asset coverage requirements for the Preferred Shares specified by Moody's and S&P in connection with their issuance of ratings on the Preferred Shares. The liquidation preference per share of each Fund's APS is \$25,000.

LIQUIDATION RIGHTS. Upon any liquidation, dissolution or winding up of either Fund, whether voluntary or involuntary, the holders of each Fund's Preferred Shares will be entitled to receive, out of the assets of such Fund available for

47

distribution to shareholders, before any distribution or payment is made upon any of the Fund's Common Shares or any other capital shares of the Fund ranking junior in right of payment upon liquidation to the Preferred Shares, the liquidation preference of such Preferred Shares, together with the amount of any dividends accumulated but unpaid (whether or not earned or declared) thereon to the date of distribution, and after such payment the holders of Preferred Shares will be entitled to no other payments except for any Additional Dividends. The liquidation preference per share of each Fund's APS is \$25,000. If the assets of a Fund are insufficient to make the full liquidation payment on the Preferred Shares of such Fund and liquidation payments on any other outstanding class or series of preferred shares of such Fund ranking on a parity with the Preferred Shares as to payment upon liquidation, then such assets will be distributed among the holders of Preferred Shares and the holders of shares of such other class or series ratably in proportion to the respective preferential amounts to which they are entitled. After payment of the full amount of liquidation distribution to which they are entitled, the holders of a Fund's Preferred Shares will not be entitled to any further participation in any distribution of assets by the Fund except for any Additional Dividends. A consolidation, merger or share exchange of a Fund with or into any other entity or entities or a sale, whether for cash, shares of stock, securities or properties, of all or substantially all or any part of the assets of the Fund shall not be deemed or construed to be a liquidation, dissolution or winding up of the Fund for this purpose.

ADDITIONAL INFORMATION. For additional information, Target Fund shareholders should consult the Reorganization Statement of Additional Information, which contains a more complete summary of the terms of the Acquiring Fund APS, and the Certificate of Vote governing the Acquiring Fund APS, included as Appendix B to the Reorganization Statement of Additional Information. Acquiring Fund APS issued in connection with the Reorganization will be governed by the Certificate of Vote of the Acquiring Fund, which, upon completion of the Reorganization, will be amended to reflect the creation of new series and the issuance of additional Acquiring Fund APS.

#### GOVERNING LAW

Each Fund is organized as a business trust under the laws of The Commonwealth of Massachusetts. The Target Fund was organized on January 21, 1992 and commenced operations on March 27, 1992; the Acquiring Fund was organized on November 13, 1991 and commenced operations on January 24, 1992.

Under Massachusetts law, shareholders of a business trust may, under certain circumstances, be held personally liable as partners for its obligations. However, the Declaration of Trust of each Fund contains an express disclaimer of shareholder liability for acts or obligations of the Fund and provides for

indemnification and reimbursement of expenses out of the Fund's property for any shareholder held

48

personally liable for the obligations of that Fund. Thus, the risk of a shareholder incurring financial loss on account of shareholder liability is limited to circumstances in which the Fund itself would be unable to meet its obligations. Given the nature of each Fund's assets and operations, the possibility of a Fund being unable to meet its obligations is remote and, in the opinion of counsel to the Funds, the risk to the Funds' respective shareholders is remote.

Each Fund is also subject to federal securities laws, including the 1940 Act and the rules and regulations promulgated by SEC thereunder, and applicable state securities laws. Each Fund is registered as a diversified, closed-end management investment company under the 1940 Act.

#### CERTAIN PROVISIONS OF THE DECLARATIONS OF TRUST

Each Fund's Declaration of Trust includes provisions that could have the effect of limiting the ability of other entities or persons to acquire control of the Fund or to change the composition of its Board of Trustees, and could have the effect of depriving common shareholders of an opportunity to sell their Common Shares at a premium over prevailing market prices by discouraging a third party from seeking to obtain control of the Fund. The Board of Trustees of each Fund is divided into three classes, with the term of one class expiring at the annual meeting of shareholders. At each annual meeting, each class whose term is expiring will be elected to a three-year term. This provision could delay for up to two years the replacement of a majority of the Board of Trustees. A trustee may be removed from office only for cause by a written instrument signed by at least two-thirds of the remaining trustees or by a vote of the holders of at least two-thirds of the class of shares of the Fund that elected such trustee and entitled to vote on the matter.

In addition, each Fund's Declaration of Trust requires the favorable vote of the holders of at least 75% of the outstanding shares of each class of the Fund, voting as a class, then entitled to vote to approve, adopt or authorize certain transactions with 5%-or-greater holders of a class of shares and their associates, unless the Board of Trustees shall by resolution have approved a memorandum of understanding with such holders, in which case normal voting requirements would be in effect. For purposes of these provisions, a 5%-or-greater holder of a class of shares (a "Principal Shareholder") refers to any person who, whether directly or indirectly and whether alone or together with its affiliates and associates, beneficially owns 5% or more of the outstanding shares of any class of beneficial interest of the Fund. The transactions subject to these special approval requirements are: (i) the merger or consolidation of the Fund or any subsidiary of the Fund with or into any Principal Shareholder; (ii) the issuance of any securities of the Fund to any Principal Shareholder for cash (except pursuant to the Dividend Reinvestment Plan); (iii) the sale, lease or exchange of all or any substantial part of the assets of the Fund to any Principal Shareholder (except assets having an aggregate fair market

49

value of less than \$1,000,000, aggregating for the purpose of such computation all assets sold, leased or exchanged in any series of similar transactions within a twelve-month period); or (iv) the sale, lease or exchange to the Fund or any subsidiary thereof, in exchange for securities of the Fund, of any assets

of any Principal Shareholder (except assets having an aggregate fair market value of less than \$1,000,000, aggregating for purposes of such computation all assets sold, leased or exchanged in any series of similar transactions within a twelve-month period).

The Board of Trustees of each Fund has determined that the 75% voting requirements described above, which are greater than the minimum requirements under Massachusetts law or the 1940 Act, are in the best interest of shareholders of each respective Fund generally. Reference should be made to the Declaration of Trust of each Fund on file with the SEC for the full text of these provisions.

The Declaration of Trust of each Fund further provides that no trustee, officer, employee or agent of the Fund is liable to the Fund or to any shareholder, nor is any trustee, officer, employee or agent liable to any third persons in connection with the affairs of the Fund, except as such liability may arise from his or her own bad faith, willful misfeasance, gross negligence, or reckless disregard of their duties. It also provides that all third persons shall look solely to the Fund property for satisfaction of claims arising in connection with the affairs of the Fund. With the exceptions stated, the Declaration of Trust provides that a trustee or officer is entitled to be indemnified against all liability in connection with the affairs of the Fund.

#### CONVERSION TO OPEN-END FUND

Each Fund may be converted to an open-end investment company at any time by an amendment to its Declaration of Trust. Each Fund's Declaration of Trust provides that such an amendment would require the approval of (a) a majority of the Trustees, including the approval by a majority of the disinterested Trustees of the Fund, and (b) the lesser of (i) more than 50% of the Fund's outstanding common and preferred shares, each voting as a class or (ii) 67% of the common and preferred shares, each voting as a class, present at a meeting at which holders of more than 50% of the outstanding shares of each such class are present in person or by proxy. If approved in the foregoing manner, conversion of the Fund could not occur until 90 days after the shareholders' meeting at which such conversion was approved and would also require at least 30 days prior notice to all shareholders. Conversion of a Fund to an open-end investment company would require the redemption of all outstanding preferred shares, which would eliminate the leveraged capital structure of the Fund. In the event of conversion, the Common Shares would cease to be listed on the NYSE, AMEX, CHX, NASDAQ National Market System or other national securities exchange or national market system. Shareholders of an open-end investment company may require the company to redeem their shares at any time (except in certain circumstances as authorized by or under the 1940 Act) at their net asset

50

value, less such redemption charge, if any, as might be in effect at the time of a redemption. If a Fund were converted to an open-end fund, it is likely that new Common Shares would be sold at net asset value plus a sales load. Following any such conversion, it is also possible that certain of the Fund's investment policies and strategies would have to be modified to assure sufficient portfolio liquidity. In particular the Fund would be required to maintain its portfolio such that not more than 15% of its assets would be invested in illiquid securities. Such requirement could cause the Fund to dispose of portfolio securities or other assets at a time when it is not advantageous to do so, and could adversely affect the ability of the Fund to meet its investment objective.

#### VOTING RIGHTS

Voting rights are identical for the holders of each Fund's Common Shares.

Edgar Filing: VAN KAMPEN TRUST FOR INVESTMENT GRADE MUNICIPALS - Form N-14 8C

Holders of each Fund's Common Shares are entitled to one vote for each share held.

Holders of Preferred Shares of Fund, voting as a class, are entitled to elect two of each Fund's trustees. Under the 1940 Act, if at any time dividends on a Fund's Preferred Shares are unpaid in an amount equal to two full years dividends thereon, the holders of all outstanding Preferred Shares, voting as a class, are entitled to elect a majority of the Fund's Trustees until all dividends have been paid or declared and set apart for payment. Except as set forth above under "Certain Provisions of the Declarations of Trust" or "Conversion to Open-End Fund," or except as expressly required by applicable law or expressly set forth in the designation of rights and preferences with respect to a Fund's Preferred Shares, holders of Preferred Shares have no other voting rights. When holders of a Fund's Preferred Shares are entitled to vote, they are also entitled to cast one vote per share held.

The Certificate of Vote establishing the Preferred Shares of each Fund provides that such Fund shall not take certain actions relating to the preferences, rights or powers of holders of such Fund's Preferred Shares without the affirmative vote of the holders of a majority of the outstanding Preferred Shares. Additionally, an affirmative vote of a majority of the outstanding shares of each series of Preferred Shares, each voting separately as a class, is required with respect to any matter that materially affects the series in a manner different from that of other series of such Fund's Preferred Shares. For additional information with respect to the voting rights of holders of Acquiring Fund APS, Target Fund shareholders should consult the Certificate of Vote governing the Acquiring Fund APS, included as Appendix B to the Reorganization Statement of Additional Information.

INFORMATION ABOUT THE REORGANIZATION

GENERAL

Under the Reorganization Agreement (a form of which is attached as Appendix A to the Reorganization Statement of Additional Information), the Acquiring Fund will acquire substantially all of the assets, and will assume substantially all of the liabilities, of the Target Fund, in exchange for Acquiring Fund Common Shares and Acquiring Fund APS to be issued by the Acquiring Fund. The Acquiring Fund will issue and cause to be listed on the NYSE and the CHX additional Acquiring Fund Common Shares. The Acquiring Fund Common Shares issued to the Target Fund will have an aggregate net asset value equal to the aggregate net asset value of the Target Fund Common Shares less the costs of the Reorganization (though cash may be paid in lieu of any fractional shares). The Acquiring Fund APS issued to the Target Fund will have an aggregate liquidation preference equal to the aggregate liquidation preference of the Target Fund APS. Upon receipt by the Target Fund of such shares, the Target Fund will (i) distribute the Acquiring Fund Common Shares to the holders of Target Fund Common Shares and (ii) distribute the Acquiring Fund APS to the holders of Target Fund APS. As soon as practicable after the Closing Date for the Reorganization, the Target Fund will deregister as an investment company under the 1940 Act and dissolve under applicable state law.

The Target Fund will distribute the Acquiring Fund Common Shares and the Acquiring Fund APS received by it pro rata to its holders of record of Target Fund Common Shares and Target Fund APS, as applicable, in exchange for such

shareholders' shares in the Target Fund. Such distribution will be accomplished by opening new accounts on the books of the Acquiring Fund in the names of the common and preferred shareholders of the Target Fund and transferring to those shareholder accounts the Acquiring Fund Common Shares and the Acquiring Fund APS previously credited on those books to the accounts of the Target Fund. Each newly-opened account on the books of the Acquiring Fund for the former common shareholders of the Target Fund will represent the respective pro rata number of Acquiring Fund Common Shares (rounded down, in the case of fractional shares held in an account other than a Dividend Reinvestment Plan account, to the next largest number of whole shares) due such shareholder. No fractional Acquiring Fund Common Shares will be issued (except for shares held in a Dividend Reinvestment Plan account). In the event of fractional shares held in an account other than a Dividend Reinvestment Plan account, the Acquiring Fund's transfer agent will aggregate all such fractional Acquiring Fund Common Shares and sell the resulting whole shares on the NYSE for the account of all holders of such fractional interests, and each such holder will be entitled to the pro rata share of the proceeds from such sale upon surrender of the Target Fund Common Share certificates. Similarly, each newly-opened account on the books of the Acquiring

54

Fund for the former preferred shareholders of Target Fund APS would represent the respective pro rata number of Acquiring Fund APS due such shareholder. See "Terms of the Reorganization Agreement -- Surrender and Exchange of Share Certificates" below for a description of the procedures to be followed by Target Fund shareholders to obtain their Acquiring Fund Common Shares or Acquiring Fund APS (and cash in lieu of fractional shares, if any).

As a result of the Reorganization, every holder of Target Fund Common Shares would own Acquiring Fund Common Shares that (except for cash payments received in lieu of fractional shares) will have an aggregate net asset value immediately after the Closing Date equal to the aggregate net asset value of that shareholder's Target Fund Common Shares immediately prior to the Closing Date less the costs of the Reorganization. Since the Acquiring Fund Common Shares will be issued at net asset value in exchange for the net assets of the Target Fund having a value equal to the aggregate net asset value of those Acquiring Fund Common Shares, the net asset value per share of Acquiring Fund Common Shares should remain virtually unchanged by the Reorganization. Similarly, the aggregate liquidation preference of the Acquiring Fund APS to be issued to the Target Fund will equal the aggregate liquidation preference of the Target Fund APS. Each holder of Target Fund APS would receive Acquiring Fund APS that would have an aggregate liquidation preference immediately after the Closing Date equal to the aggregate liquidation preference of that shareholder's Target Fund APS immediately prior to the Closing Date. The liquidation preference per share of the Acquiring Fund APS will remain unchanged by the Reorganization. Thus, the Reorganization will result in no dilution of net asset value of the Target Fund Common Shares, other than to reflect the costs of the Reorganization, and will result in no dilution of the value per share of Acquiring Fund Common Shares, Acquiring Fund APS or Target Fund APS. However, as a result of the Reorganization, a shareholder of either Fund will hold a reduced percentage of ownership in the larger combined entity than he or she did in either of the separate Funds.

No sales charge or fee of any kind will be charged to shareholders of the Target Fund in connection with their receipt of Acquiring Fund Common Shares or Acquiring Fund APS in the Reorganization. Holders of Target Fund APS will find that the auction dates and dividend payment dates for the Acquiring Fund APS received in the Reorganization are ordinarily (i.e., except in the case of a special dividend period) on a 28 day schedule, similar to the schedule of dividend payment dates for Target Fund APS. The auction procedures for the

Acquiring Fund APS and the Target Fund APS are similar. As a result of the Reorganization, the last dividend period for the Target Fund APS prior to the Closing Date and the initial dividend period for the Acquiring Fund APS issued in connection with the Reorganization after the Closing Date may be shorter than the ordinary dividend period for such shares.

55

TERMS OF THE REORGANIZATION AGREEMENT

The following is a summary of the significant terms of the Reorganization Agreement. This summary is qualified in its entirety by reference to the Reorganization Agreement, attached as Appendix A to the Reorganization Statement of Additional Information.

VALUATION OF ASSETS AND LIABILITIES. The respective assets of each of the Funds will be valued after the close of business on the NYSE (generally, 4:00 p.m., Eastern time) on the Closing Date. For the purpose of determining the net asset value of a common share of each Fund, the value of the securities held by the Fund plus any cash or other assets (including interest accrued but not yet received) minus all liabilities (including accrued expenses) and the aggregate liquidation value of the outstanding Preferred Shares of the Fund is divided by the total number of common shares of the Fund outstanding at such time. Daily expenses, including the fees payable to the Adviser, will accrue on the Closing Date.

AMENDMENTS AND CONDITIONS. The Reorganization Agreement may be amended at any time prior to the Closing Date with respect to any of the terms therein. The obligations of each Fund pursuant to the Reorganization Agreement are subject to various conditions, including a registration statement on Form N-14 being declared effective by the SEC, approval by the shareholders of the Target Fund, approval of the issuance of additional Acquiring Fund Common Shares by Common Shareholders of the Acquiring Fund, receipt of an opinion of counsel as to U.S. federal income tax matters, receipt of an opinion of counsel as to corporate and securities matters and the continuing accuracy of various representations and warranties of the Funds being confirmed by the respective parties.

POSTPONEMENT; TERMINATION. Under the Reorganization Agreement, the Board of Trustees of either Fund may cause the Reorganization to be postponed or abandoned in certain circumstances should such Board determine that it is in the best interests of the shareholders of its respective Fund to do so.

The Reorganization Agreement may be terminated, and the Reorganization abandoned at any time (whether before or after adoption thereof by the shareholders of either of the Funds) prior to the Closing Date, or the Closing Date may be postponed: (i) by mutual consent of the Boards of Trustees of the Funds and (ii) by the Board of Trustees of either Fund if any condition to that Fund's obligations set forth in the Reorganization Agreement has not been fulfilled or waived by such Board.

SURRENDER AND EXCHANGE OF SHARE CERTIFICATES. After the Closing Date, each holder of an outstanding certificate or certificates formerly representing Target Fund Common Shares will be entitled to receive, upon surrender of his or her certificate or certificates, a certificate or certificates representing the number of Acquiring Fund Common Shares distributable with respect to such holder's Target

56

Fund Common Shares, together with cash in lieu of any fractional Acquiring Fund Common Shares held in an account other than a Dividend Reinvestment Plan

account. Promptly after the Closing Date, the transfer agent for the Acquiring Fund Common Shares will mail to each holder of certificates formerly representing Target Fund Common Shares a letter of transmittal for use in surrendering his or her certificates for certificates representing Acquiring Fund Common Shares and cash in lieu of any fractional shares held in an account other than a Dividend Reinvestment Plan account.

Please do not send in any share certificates at this time. Upon consummation of the Reorganization, holders of Target Fund Common Shares will be furnished with instructions for exchanging their share certificates for Acquiring Fund share certificates and, if applicable, cash in lieu of fractional shares.

From and after the Closing Date, certificates formerly representing Target Fund Common Shares will be deemed for all purposes to evidence ownership of the number of full Acquiring Fund Common Shares distributable with respect to the Target Fund Common Shares held before the Reorganization as described above and as shown in the table above, provided that, until such share certificates have been so surrendered, no dividends payable to the holders of record of Target Fund Common Shares as of any date subsequent to the Closing Date will be reinvested pursuant to the Acquiring Fund's Dividend Reinvestment Plan, but will instead be paid in cash. Once such Target Fund share certificates have been surrendered, participants in the Target Fund's Dividend Reinvestment Plan will automatically be enrolled in the Dividend Reinvestment Plan of the Acquiring Fund.

From and after the Closing Date, there will be no transfers on the share transfer books of the Target Fund. If, after the Closing Date, certificates representing Target Fund Common Shares are presented to the Acquiring Fund, they will be cancelled and exchanged for certificates representing Acquiring Fund Common Shares, as applicable, and cash in lieu of fractional shares, if any, distributable with respect to such Target Fund Common Shares in the Reorganization.

Preferred Shares are held in "street name" by the Depository Trust Company and all transfers will be accomplished by book entry.

EXPENSES OF THE REORGANIZATION. In the event the Reorganization is approved and completed, the expenses of the Reorganization will be shared by the Target Fund and the Acquiring Fund in proportion to their projected declines in total operating expenses as a result of the Reorganization. The Board of Trustees of each Fund and management have agreed to limit the allocation of Reorganization expenses to each Fund based on a maximum payback period of two years. To the extent that the expenses of the Reorganization exceed such amount, the additional expenses of the Reorganization will be borne by the Adviser. In the event the

Reorganization is not completed, the Adviser will bear the costs associated with the Reorganization.

Expenses incurred in connection with the Reorganization include, but are not limited to: all costs related to the preparation and distribution of materials distributed to each Fund's Board; all expenses incurred in connection with the preparation of the Reorganization Agreement and a registration statement on Form N-14; SEC and state securities commission filing fees and legal and audit fees in connection with the Reorganization; the costs of printing and distributing this Joint Proxy Statement/Prospectus; legal fees incurred preparing materials for the Board of each Fund, attending each Fund's Board meetings and preparing the minutes; auditing fees associated with each Fund's financial statements; portfolio transfer taxes (if any); and any similar expenses incurred in

connection with the Reorganization. Neither the Funds nor the Adviser will pay any expenses of shareholders arising out of or in connection with the Reorganization.

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES OF THE REORGANIZATION

The following is a general summary of the material anticipated U.S. federal income tax consequences of the Reorganization. The discussion is based upon the Internal Revenue Code, Treasury regulations, court decisions, published positions of the Internal Revenue Service ("IRS") and other applicable authorities, all as in effect on the date hereof and all of which are subject to change or differing interpretations (possibly with retroactive effect). The discussion is limited to U.S. persons who hold shares of the Target Fund as capital assets for U.S. federal income tax purposes (generally, assets held for investment). This summary does not address all of the U.S. federal income tax consequences that may be relevant to a particular shareholder or to shareholders who may be subject to special treatment under U.S. federal income tax laws. No ruling has been or will be obtained from the IRS regarding any matter relating to the Reorganization. No assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of the tax aspects described below. Prospective investors must consult their own tax advisers as to the federal income tax consequences of the Reorganization, as well as the effects of state, local and non-U.S. tax laws.

It is a condition to closing the Reorganization that each of the Target Fund and the Acquiring Fund receives an opinion from Skadden, Arps, Slate, Meagher & Flom LLP ("Skadden Arps"), dated as of the Closing Date, regarding the characterization of the Reorganization as a "reorganization" within the meaning of Section 368(a) of the Internal Revenue Code. As such a reorganization, the federal income tax consequences of the Reorganization can be summarized as follows:

- No gain or loss will be recognized by the Target Fund or the Acquiring Fund upon the transfer to the Acquiring Fund of substantially all of the assets of the Target Fund in exchange solely for Acquiring Fund Common Shares

58

and Acquiring Fund APS and the assumption by the Acquiring Fund of substantially all of the liabilities of the Target Fund and the subsequent liquidation of the Target Fund.

- No gain or loss will be recognized by a shareholder of the Target Fund who exchanges, as the case may be, all of his, her or its Target Fund Common Shares solely for Acquiring Fund Common Shares pursuant to the Reorganization or all of his, her or its Target Fund APS solely for Acquiring Fund APS pursuant to the Reorganization (except with respect to cash received in lieu of a fractional share of the Acquiring Fund, as discussed below).
- The aggregate tax basis of the Acquiring Fund Common Shares or Acquiring Fund APS, as the case may be, received by a shareholder of the Target Fund pursuant to the Reorganization will be the same as the aggregate tax basis of the shares of the Target Fund surrendered in exchange therefor (reduced by any amount of tax basis allocable to a fractional share for which cash is received).
- The holding period of the Acquiring Fund Common Shares or Acquiring Fund APS, as the case may be, received by a shareholder of the Target Fund pursuant to the Reorganization will include the holding period of the shares of the Target Fund surrendered in exchange therefor.

- A shareholder of the Target Fund that receives cash in lieu of a fractional share of the Acquiring Fund pursuant to the Reorganization will recognize capital gain or loss with respect to the fractional share in an amount equal to the difference between the amount of cash received for the fractional share and the portion of such shareholder's tax basis in its Target Fund shares that is allocable to the fractional share. The capital gain or loss will be long-term if the holding period for such Target Fund Common Shares is more than one year as of the date of the exchange.
- The Acquiring Fund's tax basis in the Target Fund's assets received by the Acquiring Fund pursuant to the Reorganization will equal the tax basis of such assets in the hands of the Target Fund immediately prior to the Reorganization, and the Acquiring Fund's holding period of such assets will include the period during which the assets were held by the Target Fund.

The Acquiring Fund intends to continue to be taxed under the rules applicable to regulated investment companies as defined in Section 851 of the Internal Revenue Code, which are the same rules currently applicable to the Target Fund and its shareholders.

The opinion of Skadden Arps will be based on federal income tax law in effect on the Closing Date. In rendering its opinion, Skadden Arps will also rely upon certain representations of the management of the Acquiring Fund and the Target Fund and

59

assume, among other things, that the Reorganization will be consummated in accordance with the Reorganization Agreement and as described herein. An opinion of counsel is not binding on the IRS or any court.

SHAREHOLDER APPROVAL

Under the Declaration of Trust of the Target Fund (as amended to date and including the Certificate of Vote of the Target Fund), relevant Massachusetts law and the rules of the NYSE and CHX, shareholder approval of the Reorganization Agreement requires the affirmative vote of shareholders of the Target Fund representing more than 50% of the outstanding Target Fund Common Shares and 50% of the outstanding Target Fund APS, each voting separately as a class.

60

-----  
PROPOSAL 2: ISSUANCE OF ADDITIONAL ACQUIRING FUND COMMON SHARES  
-----

Pursuant to the Reorganization Agreement, which is described more fully under "Proposal 1: Reorganization of the Target Fund" herein, the Acquiring Fund will acquire substantially all of the assets and assume substantially all of the liabilities of the Target Fund in exchange for Acquiring Fund Common Shares and Acquiring Fund APS. The Target Fund will distribute Acquiring Fund Common Shares to holders of Target Fund Common Shares and Acquiring Fund APS to holders of Target Fund APS, and will then terminate its registration under the 1940 Act and dissolve under applicable state law. The Acquiring Fund Board, based upon its evaluation of all relevant information, anticipates that the Reorganization will benefit holders of Acquiring Fund Common Shares.

The aggregate net asset value of Acquiring Fund Common Shares received in the Reorganization will equal the aggregate net asset value on the Target Fund Common Shares held immediately prior to the Reorganization, less the costs of the Reorganization (though Target Fund common shareholders may receive cash for fractional shares). The aggregate liquidation preference of Acquiring Fund APS received in the Reorganization will equal the aggregate liquidation preference Target Fund APS held immediately prior to the Reorganization. The Reorganization will result in no dilution of net asset value of the Acquiring Fund Common Shares. No gain or loss will be recognized by the Acquiring Fund or its shareholders in connection with the Reorganization. The Acquiring Fund will continue to operate as a registered closed-end investment company with the investment objective and policies described in this Joint Proxy Statement/Prospectus.

In connection with the Reorganization and as contemplated by the Reorganization Agreement, the Acquiring Fund will issue additional Acquiring Fund Common Shares and list such shares on the NYSE and the CHX. While applicable state and federal law does not require the shareholders of the Acquiring Fund to approve the Reorganization, applicable NYSE and CHX rules require the common shareholders of the Acquiring Fund to approve the issuance of additional Acquiring Fund Common Shares to be issued in connection with the Reorganization.

SHAREHOLDER APPROVAL

Shareholder approval of the issuance of additional Acquiring Fund Common Shares requires the affirmative vote of a majority of the votes cast on the proposal, provided that the total votes cast on the proposal represents more than 50% in interest of all securities entitled to vote on the proposal. For more information regarding voting requirements, see the section entitled "Other Information--Voting Information and Requirements" below.

OTHER INFORMATION

VOTING INFORMATION AND REQUIREMENTS

GENERAL. A list of shareholders of the each Fund entitled to be present and vote at the Special Meeting will be available at the offices of such Fund, 1 Parkview Plaza, Oakbrook Terrace, Illinois 60181-5555, for inspection by any shareholder during regular business hours for ten days prior to the date of the Special Meeting.

RECORD DATE. The Funds' Boards have fixed the close of business on March 23, 2007 as the record date (the "Record Date") for the determination of shareholders entitled to notice of, and to vote at, the Special Meeting or any adjournment thereof. Shareholders on the Record Date will be entitled to one vote for each share held, with no shares having cumulative voting rights. At the Record Date, the Target Fund had outstanding [ ] Target Fund Common Shares and [ ] Target Fund APS and the Acquiring Fund had outstanding [ ] Acquiring Fund Common Shares and [ ] Acquiring Fund APS.

PROXIES. Shareholders may vote by appearing in person at the Special Meeting, by returning the enclosed proxy card or by casting their vote via telephone or the internet using the instructions provided on the enclosed proxy card and more fully described below. Shareholders of each Fund have the opportunity to submit their voting instructions via the internet by utilizing a program provided by a third-party vendor hired by the Funds, or by "touch-tone" telephone voting. The

giving of such a proxy will not affect your right to vote in person should you decide to attend the Special Meeting. To use the internet, please access the internet address found on your proxy card. To record your voting instructions by automated telephone, please call the toll-free number listed on your proxy card. The internet and automated telephone voting instructions are designed to authenticate shareholder identities, to allow shareholders to give their voting instructions, and to confirm that shareholders' instructions have been recorded properly. Shareholders submitting their voting instructions via the internet should understand that there may be costs associated with internet access, such as usage charges from internet access providers and telephone companies, that must be borne by the shareholders. Any person giving a proxy may revoke it at any time prior to its exercise by giving written notice of the revocation to the Secretary of the Fund at the address indicated above, by delivering a duly executed proxy bearing a later date, by recording later-dated voting instructions via the internet or automated telephone, or by attending the Special Meeting and voting in person. The giving of a proxy will not affect your right to vote in person if you attend the Special Meeting and wish to do so.

All properly executed proxies received prior to the Special Meeting will be voted in accordance with the instructions marked thereon or otherwise as provided therein. Unless instructions to the contrary are marked, proxies will be voted

62

"FOR" the approval of each proposal. Abstentions and broker non-votes (i.e., where a nominee such as a broker, holding shares for beneficial owners, indicates that instructions have not been received from the beneficial owners, and the nominee does not exercise discretionary authority) are not treated as votes "FOR" a proposal.

With respect to Proposal 1, abstentions and broker non-votes have the same effect as votes "AGAINST" the proposals since their approvals are based on the affirmative vote of a majority of the total Target Fund Common Shares outstanding and a majority of the total Target Fund APS outstanding, each voting as a separate class. With respect to Proposal 2, abstentions will not be treated as votes "FOR" the proposal but will be counted as votes cast on the proposal and will therefore have the same effect as votes "AGAINST" the proposal. Broker non-votes will not be treated as votes "FOR" the proposal and will not be counted as votes cast on the proposal and will therefore have the effect of reducing the aggregate number of shares voting on the proposal and reducing the number of votes "FOR" required to approve the proposal.

With respect to each proposal, a majority of the outstanding shares entitled to vote on the proposal must be present in person or by proxy to have a quorum to conduct business at the Special Meeting. Abstentions and broker non-votes will be deemed present for quorum purposes.

CERTAIN VOTING INFORMATION REGARDING TARGET FUND APS. Pursuant to the rules of the NYSE, Target Fund APS held in "street name" may be voted under certain conditions by broker-dealer firms and counted for purposes of establishing a quorum of that Fund if no instructions are received one business day before the Special Meeting or, if adjourned, one business day before the day to which the Special Meeting is adjourned. These conditions include, among others, that (i) at least 30% of the Target Fund's preferred shares outstanding have voted on the Reorganization and (ii) less than 10% of the Target Fund's preferred shares outstanding have voted against the Reorganization. In such instance, the broker-dealer firm will vote such uninstructed Target Fund APS on the Reorganization in the same proportion as the votes cast by all holders of Target Fund APS who voted on the Reorganization. The Fund will include shares held of record by broker-dealers as to which such authority has been granted in its

tabulation of the total number of shares present for purposes of determining whether the necessary quorum of shareholders of the Fund exists.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 30(f) of the 1940 Act and Section 16(a) of the Securities Exchange Act of 1934, as amended, require the Funds' trustees, officers, investment adviser, affiliated persons of the investment adviser and persons who own more than 10% of a registered class of the Fund's equity securities to file forms with the SEC and the NYSE, as applicable, reporting their affiliation with the Fund and reports of ownership and changes in ownership of Fund shares. These persons and entities are required by SEC regulation to furnish the Fund with copies of all such forms they file. Based on a review of these forms furnished to each Fund, each Fund believes that during its last fiscal year, its trustees, officers, investment adviser and affiliated persons of the investment adviser complied with the applicable filing requirements.

SHAREHOLDER PROPOSALS

To be considered for presentation at a shareholder's meeting, rules promulgated by the SEC generally require that, among other things, a shareholder's proposal must be received at the offices of the relevant Fund a

reasonable time before solicitation is made. Timely submission of a proposal does not necessarily mean that

64

such proposal will be included. Any shareholder who wishes to submit a proposal for consideration at a meeting of such shareholder's Fund should send such proposal to the relevant Fund at the principal executive offices of the Fund at 1221 Avenue of the Americas, New York, New York 10020.

Information regarding the deadline for timely submission of proposals intended to be presented at the year 2008 Annual Meetings of the Funds will be provided in the proxy statement relating to the 2007 Annual Meetings of the Funds, which is expected to take place later this year. If the Reorganization of the Target Fund is approved and completed prior to its 2007 Annual Meeting, such Fund will cease to exist and will not hold its 2007 Annual Meeting.

#### SOLICITATION OF PROXIES

Solicitation of proxies on behalf of the Funds is being made primarily by the mailing of this Notice and Joint Proxy Statement/Prospectus with its enclosures on or about April 3, 2007. Shareholders whose shares are held by nominees such as brokers can vote their proxies by contacting their respective nominee. In addition to the solicitation of proxies by mail, employees of the Adviser and its affiliates as well as dealers or their representatives may, without additional compensation, solicit proxies in person or by mail, telephone, telegraph, facsimile or oral communication. The Funds have retained Computershare Fund Services ("CFS") to make telephone calls to shareholders of the Funds to remind them to vote. CFS will be paid a project management fee as well as fees charged on a per call basis and certain other expenses. Management estimates that the solicitation by CFS will cost approximately \$[ ] for the Target Fund, approximately \$[ ] for the Acquiring Fund and approximately \$[ ] for the Adviser. Proxy solicitation expenses are an expense of the Reorganization which will be borne by the Target Fund and the Acquiring Fund (in proportion to their projected declines in total operating expenses as a result of the Reorganization) and, to the extent Reorganization expenses exceed certain limits, the additional expenses will be borne by the Adviser.

#### LEGAL MATTERS

Certain legal matters concerning the federal income tax consequences of the Reorganization and the issuance of Acquiring Fund Common Shares and Acquiring Fund APS will be passed upon by Skadden Arps, which serves as counsel to the Target Funds and the Acquiring Fund. Wayne W. Whalen, a partner of Skadden Arps, is a trustee of both the Target Funds and the Acquiring Fund.

#### OTHER MATTERS TO COME BEFORE THE MEETING

The Board of Trustees of each Fund knows of no business other than that described in this Joint Proxy Statement/Prospectus which will be presented for consideration at the Special Meeting. If any other matters are properly presented, it

65

is the intention of the persons named on the enclosed proxy card to vote proxies in accordance with their best judgment.

Representatives of D&T will attend the Special Meeting, will have the opportunity to make a statement if they desire to do so and will be available to

answer appropriate questions.

In the event that a quorum is present at the Special Meeting but sufficient votes to approve any of the proposals are not received, proxies (including abstentions and broker non-votes) will be voted in favor of one or more adjournments of the Special Meeting to permit further solicitation of proxies on the such proposals, provided that the Board of Trustees of each Fund determines that such an adjournment and additional solicitation is reasonable and in the interest of shareholders based on a consideration of all relevant factors, including the percentage of votes then cast, the percentage of negative votes cast, the nature of the proposed solicitation activities and the nature of the reasons for such further solicitation. Any such adjournment will require the affirmative vote of the holders of a majority of the outstanding shares voted at the session of the Special Meeting to be adjourned.

If you cannot be present in person at the Special Meeting, please fill in, sign and return the enclosed proxy card promptly or please record your voting instructions by telephone or via the internet. No postage is necessary if the enclosed proxy card is mailed in the United States.

EXHIBIT I

DESCRIPTION OF SECURITIES RATINGS

STANDARD & POOR'S -- A brief description of the applicable Standard & Poor's (S&P) rating symbols and their meanings (as published by S&P) follows:

A S&P issue credit rating is a current opinion of the creditworthiness of an obligor with respect to a specific financial obligation, a specific class of financial obligations, or a specific financial program (including ratings on medium-term note programs and commercial paper programs). It takes into consideration the creditworthiness of guarantors, insurers, or other forms of credit enhancement on the obligation and takes into account the currency in which the obligation is denominated.

The issue credit rating is not a recommendation to purchase, sell, or hold a financial obligation, inasmuch as it does not comment as to market price or suitability for a particular investor.

Issue credit ratings are based on current information furnished by the obligors or obtained by S&P from other sources it considers reliable. S&P does not perform an audit in connection with any credit rating and may, on occasion, rely on unaudited financial information. Credit ratings may be changed, suspended, or withdrawn as a result of changes in, or unavailability of, such information, or based on other circumstances.

Issue credit ratings can be either long-term or short-term. Short-term ratings are generally assigned to those obligations considered short-term in the relevant market. In the U.S., for example, that means obligations with an original maturity of no more than 365 days-including commercial paper. Short-term ratings are also used to indicate the creditworthiness of an obligor

with respect to put features on long-term obligations. The result is a dual rating, in which the short-term ratings addresses the put feature, in addition to the usual long-term rating. Medium-term notes are assigned long-term ratings.

#### LONG-TERM ISSUE CREDIT RATINGS

Issue credit ratings are based, in varying degrees, on the following considerations:

- Likelihood of payment -- capacity and willingness of the obligor to meet its financial commitment on an obligation in accordance with the terms of the obligation;
- Nature of and provisions of the obligation;

I-1

- Protection afforded by, and relative position of, the obligation in the event of bankruptcy, reorganization, or other arrangement under the laws of bankruptcy and other laws affecting creditors' rights.

The issue rating definitions are expressed in terms of default risk. As such, they pertain to senior obligations of an entity. Junior obligations are typically rated lower than senior obligations, to reflect the lower priority in bankruptcy, as noted above. (Such differentiation applies when an entity has both senior and subordinated obligations, secured and unsecured obligations, or operating company and holding company obligations.) Accordingly, in the case of junior debt, the rating may not conform exactly with the category definition.

AAA: An obligation rated "AAA" has the highest rating assigned by S&P. The obligor's capacity to meet its financial commitment on the obligation is extremely strong.

AA: An obligation rated "AA" differs from the highest-rated obligations only to a small degree. The obligor's capacity to meet its financial commitment on the obligation is very strong.

A: An obligation rated "A" is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is still strong.

BBB: An obligation rated "BBB" exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

#### SPECULATIVE GRADE

BB, B, CCC, CC, C: Obligations rated "BB", "B", "CCC", "CC" and "C" are regarded as having significant speculative characteristics. "BB" indicates the least degree of speculation and "C" the highest. While such obligations will likely have some quality and protective characteristics, these may be outweighed by large uncertainties or major exposures to adverse conditions.

BB: An obligation rated "BB" is less vulnerable to nonpayment than other speculative issues. However, it faces major ongoing uncertainties or exposure to adverse business, financial, or economic conditions which could lead to the obligor's inadequate capacity to meet its financial commitment on the obligation.

B: An obligation rated "B" is more vulnerable to nonpayment than obligations rated "BB", but the obligor currently has the capacity to meet its financial commitment on the obligation. Adverse business, financial, or economic conditions

I-2

will likely impair the obligor's capacity or willingness to meet its financial commitment on the obligation.

CCC: An obligation rated "CCC" is currently vulnerable to nonpayment, and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitment on the obligation. In the event of adverse business, financial, or economic conditions, the obligor is not likely to have the capacity to meet its financial commitment on the obligation.

CC: An obligation rated "CC" is currently highly vulnerable to nonpayment.

C: A subordinated debt or preferred stock obligation rated "C" is currently highly vulnerable to nonpayment. The "C" rating may be used to cover a situation where a bankruptcy petition has been filed or similar action taken, but payments on this obligation are being continued. A "C" also will be assigned to a preferred stock issue in arrears on dividends or sinking fund payments, but that is currently paying.

D: An obligation rated "D" is in payment default. The "D" rating category is used when payments on an obligation are not made on the date due even if the applicable grace period has not expired, unless S&P believes that such payments will be made during such grace period. The "D" rating also will be used upon the filing of a bankruptcy petition or the taking of a similar action if payments on an obligation are jeopardized.

PLUS (+) OR MINUS (-): The ratings from "AA" to "CCC" may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories.

N.R.: This indicates that no rating has been requested, that there is insufficient information on which to base a rating, or that S&P does not rate a particular obligation as a matter of policy.

#### SHORT-TERM ISSUE CREDIT RATINGS

A S&P short-term rating is a current assessment of the likelihood of timely payment of debt considered short-term in the relevant market.

Ratings are graded into several categories, ranging from "A-1" for the highest quality obligations to "D" for the lowest. These categories are as follows:

A-1: A short-term obligation rated "A-1" is rated in the highest category by S&P. The obligor's capacity to meet its financial commitment on the obligation is strong. Within this category, certain obligations are designated with a plus sign (+). This indicates that the obligor's capacity to meet its financial commitment on these obligations is extremely strong.

I-3

A-2: A short-term obligation rated "A-2" is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rating categories. However, the obligor's capacity to meet its financial commitment on the obligation is satisfactory.

A-3: A short-term obligation rated "A-3" exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

B: A short-term obligation rated "B" is regarded as having significant speculative characteristics. Ratings of "B-1", "B-2" and "B-3" may be assigned to indicate finer distinctions within the "B" category. The obligor currently has the capacity to meet its financial commitment on the obligation; however, it faces major ongoing uncertainties which could lead to the obligor's inadequate capacity to meet its financial commitment on the obligation.

B-1: A short-term obligation rated "B-1" is regarded as having significant speculative characteristics, but the obligor has a relatively stronger capacity to meet its financial commitments over the short-term compared to other speculative-grade obligors.

B-2: A short-term obligation rated "B-2" is regarded as having significant speculative characteristics, and the obligor has an average speculative-grade capacity to meet its financial commitments over the short-term compared to other speculative-grade obligors.

B-3: A short-term obligation rated "B-3" is regarded as having significant speculative characteristics, and the obligor has a relatively weaker capacity to meet its financial commitments over the short-term compared to other speculative-grade obligors.

C: A short-term obligation rated "C" is currently vulnerable to nonpayment and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitment on the obligation.

D: A short-term obligation rated "D" is in payment default. The "D" rating category is used when payments on an obligation are not made on the date due even if the applicable grace period has not expired, unless S&P's believes that such payments will be made during such grace period. The "D" rating also will be used upon the filing of a bankruptcy petition or the taking of a similar action if payments on an obligation are jeopardized.

A short-term rating is not a recommendation to purchase, sell, or hold a financial obligation, inasmuch as it does not comment as to market price or suitability for a particular investor. Issue credit ratings are based on current information furnished by the obligors or obtained by S&P from other sources it considers reliable. S&P

I-4

does not perform an audit in connection with any credit rating and may, on occasion, rely on unaudited financial information. Credit ratings may be changed, suspended, or withdrawn as a result of changes in, or unavailability of, such information, or based on other circumstances.

#### DUAL RATINGS

S&P assigns "dual" ratings to all debt issues that have a put option or demand feature as part of their structure. The first rating addresses the likelihood of repayment of principal and interest as due, and the second rating addresses only the demand feature. The long-term debt rating symbols are used for bonds to denote the long-term maturity and the commercial paper rating symbols for the put option (for example, "AAA/A-1+"). With short-term demand debt, S&P note rating symbols are used with the commercial paper rating symbols (for example, "SP-1+/A-1+").

MOODY'S INVESTORS SERVICE INC. -- A brief description of the applicable Moody's Investors Service, Inc. (Moody's) rating symbols and their meanings (as published by Moody's) follows:

LONG-TERM OBLIGATION RATINGS

Moody's long-term obligation ratings are opinions of the relative credit risk of fixed-income obligations with an original maturity of one year or more. They address the possibility that a financial obligation will not be honored as promised. Such ratings reflect both the likelihood of default and any financial loss suffered in the event of default.

MOODY'S LONG-TERM RATING DEFINITIONS:

AAA: Obligations rated Aaa are judged to be of the highest quality, with minimal credit risk.

AA: Obligations rated Aa are judged to be of high quality and are subject to very low credit risk.

A: Obligations rated A are considered upper-medium grade and are subject to low credit risk.

BAA: Obligations rated Baa are subject to moderate credit risk. They are considered medium-grade and as such may possess certain speculative characteristics.

BA: Obligations rated Ba are judged to have speculative elements and are subject to substantial credit risk.

I-5

B: Obligations rated B are considered speculative and are subject to high credit risk.

CAA: Obligations rated Caa are judged to be of poor standing and are subject to very high credit risk.

CA: Obligations rated Ca are highly speculative and are likely in, or very near, default, with some prospect of recovery of principal and interest.

C: Obligations rated C are the lowest rated class of bonds and are typically in default, with little prospect for recovery of principal or interest.

NOTE: Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

MEDIUM-TERM NOTE RATINGS

Moody's assigns long-term ratings to individual debt securities issued from medium-term note (MTN) programs, in addition to indicating ratings to MTN programs themselves. Notes issued under MTN programs with such indicated ratings are rated at issuance at the rating applicable to all pari passu notes issued under the same program, at the program's relevant indicated rating, provided such notes do not exhibit any of the characteristics listed below:

- Notes containing features that link interest or principal to the

credit performance of any third party or parties (i.e., credit-linked notes);

- Notes allowing for negative coupons, or negative principal;
- Notes containing any provision that could obligate the investor to make any additional payments;
- Notes containing provisions that subordinate the claim.

For notes with any of these characteristics, the rating of the individual note may differ from the indicated rating of the program.

For credit-linked securities, Moody's policy is to "look through" to the credit risk of the underlying obligor. Moody's policy with respect to non-credit linked obligations is to rate the issuer's ability to meet the contract as stated, regardless of potential losses to investors as a result of non-credit developments. In other words, as long as the obligation has debt standing in the event of bankruptcy, we will assign the appropriate debt class level rating to the instrument.

I-6

Market participants must determine whether any particular note is rated, and if so, at what rating level. Moody's encourages market participants to contact Moody's Ratings Desks or visit [www.moody's.com](http://www.moody's.com) directly if they have questions regarding ratings for specific notes issued under a medium-term note program. Unrated notes issued under an MTN program may be assigned an NR (not rated) symbol.

SHORT-TERM RATINGS

Moody's short-term ratings are opinions of the ability of issuers to honor short-term financial obligations. Ratings may be assigned to issuers, short-term programs or to individual short-term debt instruments. Such obligations generally have an original maturity not exceeding thirteen months, unless explicitly noted.

Moody's employs the following designations to indicate the relative repayment ability of rated issuers:

P-1

Issuers (or supporting institutions) rated Prime-1 have a superior ability to repay short-term debt obligations.

P-2

Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

P-3

Issuers (or supporting institutions) rated Prime-3 have an acceptable ability to repay short-term debt obligations.

NP

Issuers (or supporting institutions) rated Not Prime do not fall within any of the Prime rating categories.

NOTE: Canadian issuers rated P-1 or P-2 have their short-term ratings enhanced by the senior-most long-term rating of the issuer, its guarantor or support-provider.

COMPENSATION

Each trustee/director/managing general partner (hereinafter referred to in this section as "trustee") who is not an affiliated person (as defined in the 1940 Act) of Van Kampen Investments, the Adviser or Van Kampen Funds Inc. (each a "Non-Affiliated Trustee") is compensated by an annual retainer and meeting fees for services to funds in the Fund Complex. Each fund in the Fund Complex (except Van Kampen Exchange Fund) provides a deferred compensation plan to its Non-Affiliated Trustees that allows such trustees to defer receipt of their compensation until retirement and earn a return on such deferred amounts. Amounts deferred are retained by the Funds and earn a rate of return determined by reference to the return on the common shares of the Funds or other funds in the Fund Complex as selected by the respective Non-Affiliated Trustee. To the extent permitted by the 1940 Act, the Funds may invest in securities of those funds selected by the Non-Affiliated Trustees in order to match the deferred compensation obligation. The deferred compensation plan is not funded and obligations thereunder represent general unsecured claims against the general assets of the Funds. Deferring compensation has the same economic effect as if the Non-Affiliated Trustee reinvested his or her compensation into the funds. Each fund in the Fund Complex (except Van Kampen Exchange Fund) provides a retirement plan to its Non-Affiliated Trustees that provides Non-Affiliated

Edgar Filing: VAN KAMPEN TRUST FOR INVESTMENT GRADE MUNICIPALS - Form N-14 8C

Trustees with compensation after retirement, provided that certain eligibility requirements are met. Under the retirement plan, a Non-Affiliated Trustee who is receiving compensation from the Funds prior to such Non-Affiliated Trustee's retirement, has at least 10 years of service (including years of service prior to adoption of the retirement plan) and retires at or after attaining the age of 60, is eligible to receive a retirement benefit per year for each of the 10 years following such retirement from the Funds. Non-Affiliated Trustees retiring prior to the age of 60 or with fewer than 10 years but more than 5 years of service may receive reduced retirement benefits from the Funds.

#### BOARD COMMITTEES

The Board of Trustees of each Fund has the same three standing committees (an audit committee, a brokerage and services committee and a governance committee). Each committee is comprised solely of "Independent Trustees", which is defined for purposes herein as trustees who: (1) are not "interested persons" of either Fund as defined by the 1940 Act and (2) are "independent" of each Fund as defined by the New York Stock Exchange, American Stock Exchange and Chicago Stock Exchange listing standards.

The Board's audit committee consists of Jerry D. Choate, Rod Dammeyer and R. Craig Kennedy. In addition to being Independent Trustees as defined above, each of these trustees also meets the additional independence requirements for audit committee members as defined by the New York Stock Exchange, American Stock Exchange and Chicago Stock Exchange listing standards. The audit committee makes recommendations to the Board of Trustees concerning the selection of each Fund's independent registered public accounting firm, reviews with such independent registered public accounting firm the scope and results of each Fund's annual audit and considers any comments which the independent registered public accounting firm may have regarding each Fund's financial statements, accounting records or internal controls. The Board of Trustees has adopted a formal written charter for the audit committee which sets forth the audit committee's responsibilities. The audit committee has reviewed and discussed the financial statements of each Fund with management as well as with the independent registered public accounting firm of each Fund, and discussed with

the independent registered public accounting firm the matters required to be discussed under the Statement of Auditing Standards No. 61. The audit committee has received the written disclosures and the letter from the independent registered public accounting firm required under Independence Standards Board Standard No. 1 and has discussed with the independent registered public accounting firm its independence. Based on this review, the audit committee recommended to the Board of Trustees of each Fund that each Fund's audited financial statements be included in each Fund's annual report to

S-11

shareholders for the most recent fiscal year for filing with the Securities and Exchange Commission (the "SEC").

The Board's brokerage and services committee consists of Linda Hutton Heagy, Hugo F. Sonnenschein and Suzanne H. Woolsey. The brokerage and services committee reviews each Fund's allocation of brokerage transactions and soft-dollar practices and reviews the transfer agency and shareholder servicing arrangements.

The Board's governance committee consists of David C. Arch, Howard J Kerr and Jack E. Nelson. In addition to being Independent Trustees as defined above, each of these trustees also meets the additional independence requirements for nominating committee members as defined by the New York Stock Exchange, American Stock Exchange and Chicago Stock Exchange listing standards. The governance committee identifies individuals qualified to serve as Independent Trustees on the Board and on committees of the Board, advises the Board with respect to Board composition, procedures and committees, develops and recommends to the Board a set of corporate governance principles applicable to each Fund, monitors corporate governance matters and makes recommendations to the Board, and acts as the administrative committee with respect to Board policies and procedures, committee policies and procedures and codes of ethics. The Independent Trustees of each Fund select and nominate any other nominee Independent Trustees for each Fund. While the Independent Trustees of each Fund expect to be able to continue to identify from their own resources an ample number of qualified candidates for the Board of Trustees as they deem appropriate, they will consider nominations from shareholders to the Board. Nominations from shareholders should be in writing and sent to the Independent Trustees as described below.

During each Fund's last fiscal year, its Board of Trustees held meetings. During each Fund's last fiscal year, its audit committee of the Board held meetings, the brokerage and services committee of the Board held meetings and the governance committee of the Board held meetings.

#### SHAREHOLDER COMMUNICATIONS

Shareholders may send communications to the Board of Trustees. Shareholders should send communications intended for the Board by addressing the communication directly to the Board (or individual Board members) and/or otherwise clearly indicating in the salutation that the communication is for the Board (or individual Board members) and by sending the communication to either the Fund's office or directly to such Board member(s) at the address specified for such trustee above. Other shareholder communications received by the Fund not directly addressed and sent to the Board will be reviewed and generally responded to by management, and will be forwarded to the Board only at management's discretion based on the matters contained therein.

INVESTMENT ADVISORY AGREEMENT

Each Fund and the Adviser are parties to an investment advisory agreement (each an "Advisory Agreement"). Under an Advisory Agreement, a Fund retains the Adviser to manage the investment of such Fund's assets, including the placing of orders for the purchase and sale of portfolio securities. The Adviser obtains and evaluates economic, statistical and financial information to formulate strategy and implement such Fund's investment objective. The Adviser also furnishes offices, necessary facilities and equipment, provides administrative

services to such Fund, renders periodic reports to such Fund's Board of Trustees and permits its officers and employees to serve without compensation as trustees or officers of such Fund if elected to such positions. A Fund, however, bears the costs of its day-to-day operations, including auction agent fees, fees for broker-dealers participating in auctions of such Fund's preferred shares, custodian fees, legal and independent registered public accounting firm fees, the costs of reports and proxies to shareholders, compensation of trustees of such Fund (other than those who are affiliated persons of Van Kampen Investments, the Adviser or Van Kampen Funds Inc.) and all other ordinary business expenses not specifically assumed by the Adviser. The Advisory Agreement also provides that the Adviser shall not be liable to a Fund for any error of judgment or of law, or for any loss suffered by a Fund in connection with the matters to which the Advisory Agreement relates, except a loss resulting from willful misfeasance, bad faith or gross negligence on the part of the Adviser in the performance of its obligations and duties, or by reason of its reckless disregard of its obligations and duties under the Advisory Agreement.

ADVISORY FEES

The Adviser received the approximate advisory fees from each Fund as follows:

OTHER AGREEMENTS

ACCOUNTING SERVICES AGREEMENT

Each Fund has entered into an accounting services agreement pursuant to which the Adviser provides accounting services to each Fund supplementary to those provided by the custodian. Such services are expected to enable each Fund to more closely monitor and

S-14

maintain its accounts and records. Each Fund pays all costs and expenses related to such services, including all salary and related benefits of accounting personnel, as well as the overhead and expenses of office space and the equipment necessary to render such services. Each Fund shares together with the other Van Kampen funds in the cost of providing such services with 25% of such costs shared proportionately based on the respective number of classes of securities issued per fund and the remaining 75% of such costs based proportionately on the respective net assets per fund.

LEGAL SERVICES AGREEMENT

Each Fund and certain other Van Kampen funds have entered into legal services agreements pursuant to which Van Kampen Investments provides legal services, including without limitation: accurate maintenance of each fund's minute books and records, preparation and oversight of each fund's regulatory reports and other information provided to shareholders, as well as responding to

day-to-day legal issues on behalf of the funds. Payment by the funds for such services is made on a cost basis for the salary and salary-related benefits, including but not limited to bonuses, group insurance and other regular wages for the employment of personnel. Other funds distributed by the Administrator also receive legal services from Van Kampen Investments. Of the total costs for legal services provided to the funds distributed by the Administrator, one half of such costs are allocated equally to each fund and the remaining one half of such costs are allocated to specific funds based on monthly time records.

CHIEF COMPLIANCE OFFICER EMPLOYMENT AGREEMENT

Each Fund has entered into an employment agreement with John Sullivan and Morgan Stanley pursuant to which Mr. Sullivan, an employee of Morgan Stanley, serves as Chief Compliance Officer of the Fund and other Van Kampen funds. Each Fund's Chief Compliance Officer and his staff are responsible for administering the compliance policies and procedures of the Fund and other Van Kampen funds. Each Fund reimburses Morgan Stanley for the costs and expenses of such services, including compensation and benefits, insurance, occupancy and equipment, information processing and communication, office services, conferences and travel, postage and shipping. Each Fund shares together with the other Van Kampen funds in the cost of providing such services with 25% of such costs shared proportionately based on the respective number of classes of securities issued per fund and the remaining 75% of such costs based proportionately on the respective net assets per fund.

FUND MANAGEMENT

OTHER ACCOUNTS MANAGED BY THE PORTFOLIO MANAGERS

As of December 31, 2006, Thomas Byron managed [ ] registered investment companies with a total of approximately \$[ ] billion in assets; 0 pooled investment vehicles other than registered investment companies; and 0 other accounts.

As of December 31, 2006, Robert Wimmel managed [ ] registered investment companies with a total of approximately \$[ ] billion in assets; 0 pooled investment vehicles other than registered investment companies; and 0 other accounts.

As of December 31, 2006, John Reynoldson managed [ ] registered investment companies with a total of approximately \$[ ] billion in assets; 0 pooled investment vehicles other than registered investment companies; and [ ] other accounts (which include separate accounts managed under certain "wrap fee programs") with a total of approximately \$[ ] million in assets.

Because the portfolio managers manage assets for other investment companies, pooled investment vehicles, and/or other accounts (including institutional clients, pension plans and certain high net worth individuals), there may be an incentive to favor one client over another resulting in conflicts of interest. For instance, the Adviser may receive fees from certain accounts that are higher than the fee it receives from the Funds, or it may receive a performance-based fee on certain accounts. In those instances, the portfolio managers may have an incentive to favor the higher and/or performance-based fee accounts over the Funds. The portfolio managers of the Funds do not currently manage assets for other investment companies, pooled investment vehicles or other accounts that charge a performance fee. In addition, a conflict of interest could exist to the extent the Adviser has proprietary investments in certain accounts, where portfolio managers have personal investments in certain accounts or when certain accounts are investment options in the Adviser's employee benefits and/or deferred compensation plans. The portfolio manager may have an incentive to favor these accounts over others. If the Adviser manages accounts that engage in short sales of securities of the type in which the Funds invest, the Adviser could be seen as harming the performance of the Funds for the benefit of the accounts engaging in short sales if the short sales cause the market value of the securities to fall. The Adviser has adopted trade allocation and other policies and procedures that it believes are reasonably designed to address these and other conflicts of interest.

#### PORTFOLIO MANAGER COMPENSATION STRUCTURE

Portfolio managers receive a combination of base compensation and discretionary compensation, comprised of a cash bonus and several deferred compensation programs described below. The methodology used to determine portfolio manager compensation is applied across all accounts managed by the portfolio manager.

**BASE SALARY COMPENSATION.** Generally, portfolio managers receive base salary compensation based on the level of their position with the Adviser.

**DISCRETIONARY COMPENSATION.** In addition to base compensation, portfolio managers may receive discretionary compensation.

S-16

Discretionary compensation can include:

- Cash Bonus;
- Morgan Stanley's Long-Term Incentive Compensation Program awards -- a mandatory program that defers a portion of discretionary year-end compensation into restricted stock units or other awards or other investments based on Morgan Stanley common stock that are subject to vesting and other conditions;
- Investment Management Alignment Plan (IMAP) awards -- a mandatory program that defers a portion of discretionary year-end compensation and notionally invests it in designated funds advised by the Adviser or its affiliates. The award is subject to vesting and other conditions. Portfolio managers must notionally invest a minimum of 25% to a maximum

of 100% of the IMAP deferral into a combination of the designated funds they manage that are included in the IMAP fund menu;

- Voluntary Deferred Compensation Plans -- voluntary programs that permit certain employees to elect to defer a portion of their discretionary year-end compensation and directly or notionally invest the deferred amount: (1) across a range of designated investment funds, including funds advised by the Adviser or its affiliates; and/or (2) in Morgan Stanley stock units.

Several factors determine discretionary compensation, which can vary by portfolio management team and circumstances. In order of relative importance, these factors include:

- Investment performance. A portfolio manager's compensation is linked to the pre-tax investment performance of the accounts managed by the portfolio manager. Investment performance is calculated for one-, three- and five-year periods measured against a fund's primary benchmark, indices and/or peer groups. The Target Fund's primary benchmark is the Lehman Brothers Florida Municipal Bond Index. The Acquiring Fund's primary benchmark is the Lehman Brothers Municipal Bond Index. Generally, the greatest weight is placed on the three- and five-year periods.
- Revenues generated by the investment companies, pooled investment vehicles and other accounts managed by the portfolio manager.
- Contribution to the business objectives of the Adviser.
- The dollar amount of assets managed by the portfolio manager.
- Market compensation survey research by independent third parties.
- Other qualitative factors, such as contributions to client objectives.
- Performance of Morgan Stanley and Morgan Stanley Investment Management Inc., and the overall performance of the investment team(s) of which the portfolio manager is a member.

S-17

#### SECURITIES OWNERSHIP OF PORTFOLIO MANAGERS

As of each Fund's fiscal year end, none of the portfolio managers owned equity securities of either Fund.

#### CODE OF ETHICS

The Funds and the Adviser have adopted a Code of Ethics (the "Code of Ethics") that sets forth general and specific standards relating to the securities trading activities of their employees. The Code of Ethics does not prohibit employees from acquiring securities that may be purchased or held by the Funds, but is intended to ensure that all employees conduct their personal transactions in a manner that does not interfere with the portfolio transactions of the Funds or other Van Kampen funds, or that such employees take unfair advantage of their relationship with the Funds. Among other things, the Code of Ethics prohibits certain types of transactions absent prior approval, imposes various trading restrictions (such as time periods during which personal transactions may or may not be made) and requires quarterly reporting of securities transactions and other reporting matters. All reportable securities transactions and other required reports are to be reviewed by appropriate personnel for compliance with the Code of Ethics. Additional restrictions apply

to portfolio managers, traders, research analysts and others who may have access to nonpublic information about the trading activities of the Funds or other Van Kampen funds or who otherwise are involved in the investment advisory process. Exceptions to these and other provisions of the Code of Ethics may be granted in particular circumstances after review by appropriate personnel.

The Code of Ethics for the Funds and the Adviser can be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling the SEC at 1-202-942-8090. The Code of Ethics are available on the EDGAR Database on the SEC's web site at <http://www.sec.gov> or you may obtain them, after paying a duplicating fee, by electronic request at [publicinfo@sec.gov](mailto:publicinfo@sec.gov), or by writing the SEC's Public Reference Section, Washington, D.C. 20549-0102.

#### PORTFOLIO TRANSACTIONS AND BROKERAGE ALLOCATION

The Adviser is responsible for decisions to buy and sell securities for the Funds, the selection of brokers and dealers to effect the transactions and the negotiation of prices and any brokerage commissions on such transactions. While the Adviser will be primarily responsible for the placement of each Fund's portfolio business, the policies and practices in this regard are subject to review by each Fund's Board of Trustees.

As most transactions made by a Fund are principal transactions at net prices, a Fund generally incurs little or no brokerage costs. The portfolio securities in which a Fund invests are normally purchased directly from the issuer or in the over-the-counter market from an underwriter or market maker for the securities. Purchases from underwriters of portfolio securities include a commission or concession paid by the issuer to the underwriter and purchases from dealers serving as market makers include a spread or markup to the dealer between the bid and asked price. Sales to dealers are effected at bid prices. A Fund may also purchase certain money market instruments directly from an

S-18

issuer, in which case no commissions or discounts are paid, or may purchase and sell listed securities on an exchange, which are effected through brokers who charge a commission for their services.

The Adviser is responsible for placing portfolio transactions and does so in a manner deemed fair and reasonable to each Fund and not according to any formula. The primary consideration in all portfolio transactions is prompt execution of orders in an effective manner at the most favorable price. In selecting broker-dealers and in negotiating prices and any brokerage commissions on such transactions, the Adviser considers the firm's reliability, integrity and financial condition and the firm's execution capability, the size and breadth of the market for the security, the size of and difficulty in executing the order, and the best net price. There are many instances when, in the judgment of the Adviser, more than one firm can offer comparable execution services. In selecting among such firms, consideration may be given to those firms which supply research and other services in addition to execution services. The Adviser is authorized to pay higher commissions to brokerage firms that provide it with investment and research information than to firms which do not provide such services if the Adviser determines that such commissions are reasonable in relation to the overall services provided. No specific value can be assigned to such research services which are furnished without cost to the Adviser. Since statistical and other research information is only supplementary to the research efforts of the Adviser and still must be analyzed and reviewed by its staff, the receipt of research information is not expected to reduce its expenses materially. The investment advisory fee is not reduced as a result of the Adviser's receipt of such research services. Services provided may include (a) furnishing advice as to the value of securities, the advisability of

investing in, purchasing or selling securities, and the availability of securities or purchasers or sellers of securities; (b) furnishing analyses and reports concerning issuers, industries, securities, economic factors and trends, portfolio strategy, and the performance of accounts; and (c) effecting securities transactions and performing functions incidental thereto (such as clearance, settlement and custody). Research services furnished by firms through which a Fund effects its securities transactions may be used by the Adviser in servicing all of its advisory accounts; not all of such services may be used by the Adviser in connection with a Fund.

The Adviser also may place portfolio transactions, to the extent permitted by law, with brokerage firms affiliated with a Fund and the Adviser if it reasonably believes that the quality of execution and the commission are comparable to that available from other qualified firms. Similarly, to the extent permitted by law and subject to the same considerations on quality of execution and comparable commission rates, the Adviser may direct an executing broker to pay a portion or all of any commissions, concessions or discounts to a firm supplying research or other services.

The Adviser may place portfolio transactions at or about the same time for other advisory accounts, including other investment companies. The Adviser seeks to allocate portfolio transactions equitably whenever concurrent decisions are made to purchase or sell securities for a Fund and another advisory account. In some cases, this procedure could have an adverse effect on the price or the amount of securities available to a Fund. In making such allocations among a Fund and other advisory accounts, the main factors considered by the Adviser are the respective sizes of such Fund and other advisory accounts, the respective investment objectives, the relative size of portfolio holdings of the

S-19

same or comparable securities, the availability of cash for investment, the size of investment commitments generally held and opinions of the persons responsible for recommending the investment.

Certain broker-dealers, through which a Fund may effect securities transactions, are affiliated persons (as defined in the 1940 Act) of a Fund or affiliated persons of such affiliates, including Morgan Stanley or its subsidiaries. Each Fund's Board of Trustees has adopted certain policies incorporating the standards of Rule 17e-1 issued by the SEC under the 1940 Act which require that the commissions paid to affiliates of the Fund must be reasonable and fair compared to the commissions, fees or other remuneration received or to be received by other brokers in connection with comparable transactions involving similar securities during a comparable period of time. The rule and procedures also contain review requirements and require the Adviser to furnish reports to the trustees and to maintain records in connection with such reviews. After consideration of all factors deemed relevant, the trustees will consider from time to time whether the advisory fee for each Fund will be reduced by all or a portion of the brokerage commission paid to affiliated brokers.

Unless otherwise disclosed below, a Fund paid no commissions to affiliated brokers during the last three fiscal years. Each Fund paid the following commissions to brokers during the fiscal years shown:

- (k) The Target Fund has filed, or intends to file, or has obtained extensions to file, all federal, state and local tax returns which are required to be filed by it, and has paid or has obtained extensions to pay, all federal, state and local taxes shown on said returns to be due and owing and all assessments received by it, up to and including the taxable year in which the Closing Date occurs. All tax liabilities of the Target Fund have been adequately provided for on its books, and no tax deficiency or liability of the Target Fund has been asserted and no question with respect thereto has been raised by the Internal Revenue Service or by any state or local tax authority for taxes in excess of those already paid, up to and including the taxable year in which the Closing Date occurs.
- (l) At both the Valuation Time and the Closing Date, the Target Fund will have full right, power and authority to sell, assign, transfer and deliver the Target Fund Investments. At the Closing Date, subject only to the obligation to deliver the Target Fund Investments as contemplated by this Agreement, the Target Fund will have good and marketable title to all of the Target Fund Investments, and the Acquiring Fund will acquire all of the Target Fund Investments free and clear of any encumbrances, liens or security interests and without any restrictions upon the transfer thereof (except those imposed by the federal or state securities laws and those imperfections of title or encumbrances as do not materially detract from the value or use of the Target Fund Investments or materially affect title thereto).
- (m) No consent, approval, authorization or order of any court or governmental authority is required for the consummation by the Target Fund of the Reorganization, except such as may be required under the 1933 Act, the 1934 Act, the 1940 Act or state securities laws.
- (n) The N-14 Registration Statement, on its effective date, at the time of the shareholders' meetings called to vote on this Agreement and on the Closing Date, insofar as it relates to the Target Fund (i) complied or will comply in all material respects with the provisions of the 1933 Act, the 1934 Act and the 1940 Act and the rules and regulations thereunder, and (ii) did not or will not contain any untrue statement of a material fact or omit to state any material fact required to

- (o) The Target Fund is authorized to issue an unlimited number of common shares of beneficial interest, par value \$.01 per share (the "Target Fund Common Shares"), and 100,000,000 preferred shares of beneficial interest, par value \$.01 per share. The Board of Trustees of the Acquiring Fund has designated 4,240 preferred shares as Auction Preferred Shares (the "Target Fund APS"). Each outstanding Target Fund Common Share and each of the outstanding Target Fund APS is fully paid and, except as provided in Section 5.1 of the Target Fund's Declaration of Trust, nonassessable, and has full voting rights.
- (p) All of the issued and outstanding Target Fund Common Shares and Target Fund APS were offered for sale and sold in conformity with all applicable federal and state securities laws.
- (q) The books and records of the Target Fund made available to the Acquiring Fund and/or its counsel are substantially true and correct and contain no material misstatements or omissions with respect to the operations of the Target Fund.
- (r) The Target Fund will not sell or otherwise dispose of any of the Acquiring Fund Common Shares or Acquiring Fund APS to be received in the Reorganization, except in distribution to the shareholders of the Target Fund, as provided in Section 3 of this Agreement.
- (s) The Target Fund has elected to qualify and has qualified as a "RIC" under the Code as of and since its inception; has been a RIC under the Code at all times since the end of its first taxable year when it so qualified; qualifies and will continue to qualify as a RIC under the Code for its taxable year ending upon its liquidation; and has satisfied the distribution requirements imposed by the Code for each of its taxable years.

3. The Reorganization.

- (a) Subject to receiving the requisite approvals of the shareholders of the Target Fund, and to the other terms and conditions contained herein, (i) the Target Fund agrees to convey, transfer and deliver to the Acquiring Fund and the Acquiring Fund agrees to acquire from the Target Fund, on the Closing Date, all of the Target Fund Investments (including interest accrued as of the Valuation Time on debt instruments), and assume substantially all of the liabilities

of the Target Fund, in exchange for that number of Target Fund Common Shares and Target Fund APS provided in Section 4 of this Agreement. Pursuant to this Agreement, as soon as practicable after the Closing Date, the Target Fund will distribute all Acquiring Fund Common Shares and Acquiring Fund APS received by it to its shareholders in exchange for their Target Fund Common Shares and Target Fund APS. Such distributions shall be accomplished by the opening of shareholder accounts on the share ledger records of the Acquiring Fund in the amounts due the shareholders of the Target Fund based on their respective holdings in the Target Fund as of the Valuation Time.

- (b) If it is determined that the portfolios of the Target Fund and the Acquiring Fund, when aggregated, would contain investments exceeding certain percentage limitations imposed upon the Acquiring Fund with respect to such investments, the Target Fund, if requested by the Acquiring Fund, will dispose of a sufficient amount of such investments as may be necessary to avoid violating such limitations as of the Closing Date. Notwithstanding the foregoing, (a) nothing herein will require the Target Fund to dispose of any portfolios, securities or other investments, if, in the reasonable judgment of the Target Fund's trustees or investment adviser, such disposition would adversely affect the tax-free nature of the Reorganization for federal income tax purposes or would otherwise not be in the best interests of the Target Fund, and (b) nothing will permit the Target Fund to dispose of any portfolio securities or other investments if, in the reasonable judgment of the Acquiring Fund's trustees or investment adviser, such disposition would adversely affect the tax-free nature of the Reorganization for federal income tax purposes or would otherwise not be in the best interests of the Acquiring Fund.
- (c) Prior to the Closing Date, the Target Fund shall declare a dividend or dividends which, together with all such previous dividends, shall have the effect of distributing to their respective shareholders all of their respective net investment company taxable income to and including the Closing Date, if any (computed without regard to any deduction for dividends paid), and all of its net capital gain, if any, realized to and including the Closing Date. In this regard and in connection with the Reorganization, the last dividend period for the Target Fund APS prior to the Closing Date may be shorter than the dividend period for such Target Fund APS determined as set forth in the applicable Certificate of Vote pertaining to such Target Fund APS.
- (d) The Target Fund will pay or cause to be paid to the Acquiring Fund any interest the Target Fund receives on or after the Closing Date with respect to any of the Target Fund Investments transferred to the Acquiring Fund hereunder.
- (e) The Valuation Time shall be 4:00 p.m., Eastern time, on XXXX, 2007, or such earlier or later day and time as may be mutually agreed upon in writing (the "Valuation Time").

- (f) Recourse for liabilities assumed from the Target Fund by the Acquiring Fund in the Reorganization will be limited to the net assets acquired by the Acquiring Fund. The known liabilities of the Target Fund, as of the Valuation Time, shall be confirmed to the Acquiring Fund pursuant to Section 2(j) of this Agreement.
- (g) The Target Fund will be terminated following the Closing Date by terminating its registration under the 1940 Act and its organization under Massachusetts law and will withdraw its authority to do business in any state where it is required to do so.
- (h) The Acquiring Fund will file with the Secretary of State of The Commonwealth of Massachusetts, as required, any amendment to its Certificate of Vote establishing the powers, rights and preferences of the Acquiring Fund APS prior to the closing of the Reorganization.

4. Issuance and Valuation of Acquiring Fund Common Shares and Acquiring Fund APS in the Reorganization.

Acquiring Fund Common Shares and Acquiring Fund APS of an aggregate net asset value or aggregate liquidation preference, as the case may be, equal to the value of the assets of the Target Fund acquired in the Reorganization determined as hereinafter provided, reduced by the amount of liabilities of the Target Fund assumed by the Acquiring Fund in the Reorganization, shall be issued by the Acquiring Fund to the Target Fund in exchange for such assets of the Target Fund. The Acquiring Fund will issue to the Target Fund (i) a number of Acquiring Fund Common Shares, the aggregate net asset value of which will equal the aggregate net asset value of the Target Fund Common Shares, determined as set forth below, and (ii) a number of Acquiring Fund APS, the aggregate liquidation preference and value of which will equal the aggregate liquidation preference and value of the Target Fund APS, determined as set forth below.

The net asset value of each of the Funds and the liquidation preference and value of each of the Target Fund APS and the Acquiring Fund APS shall be determined as of the Valuation Time in accordance with the regular procedures of the investment adviser, and no formula will be used to adjust the net asset value so determined of any Fund to take into account differences in realized and unrealized gains and losses. Values in all cases shall be determined as of the Valuation Time. The value of the Target Fund Investments to be transferred to the Acquiring Fund shall be determined pursuant to the regular procedures of the investment adviser.

Such valuation and determination shall be made by the Acquiring Fund in cooperation with the Target Fund and shall be confirmed in writing by the Acquiring Fund to the Target Fund. The net asset value per share of the Acquiring Fund Common Shares and the liquidation preference and value per share of the Acquiring Fund APS shall be determined in accordance with such procedures and the Acquiring Fund shall certify the computations involved. For purposes of determining the net asset value of each of a Target Fund Common Share and an Acquiring Fund Common Share, the value of the securities held by the applicable Fund plus any cash or other assets (including interest accrued but not yet received) minus all liabilities (including accrued expenses) and the aggregate liquidation value of the outstanding shares of Target Fund APS or Acquiring Fund APS, as the case may be, is divided by the total number of Target Fund Common Shares or Acquiring Fund Common Shares, as the case may be, outstanding at such time.

The Acquiring Fund shall issue to the Target Fund separate certificates or share deposit receipts for the Acquiring Fund Common Shares and the Acquiring Fund APS, each registered in the name of the Target Fund. The Target Fund shall then distribute the Acquiring Fund Common Shares and the Acquiring Fund APS to the holders of Target Fund Common Shares and Target Fund APS by redelivering the certificates or share deposit receipts evidencing ownership of (i) the Acquiring Fund Common Shares to Computershare Trust Company, N.A., as the transfer agent and registrar for the Acquiring Fund Common Shares, for distribution to the holders of Target Fund Common Shares on the basis of such holder's proportionate interest in the aggregate net asset value of the Target Fund Common Shares and (ii) the Acquiring Fund APS to Deutsche Bank Trust Company Americas, as the transfer agent and registrar for the Acquiring Fund APS, for distribution to the holders of Target Fund APS on the basis of such holder's proportionate interest in the aggregate liquidation preference and value of the Target Fund APS. With respect to any Target Fund shareholder holding certificates evidencing ownership of Target Fund Common Shares as of the Closing Date, and subject to the Acquiring Fund being informed thereof in writing by the Target Fund, the Acquiring Fund will not permit such shareholder to receive new certificates evidencing ownership of the Acquiring Fund Common Shares or Acquiring Fund APS, exchange Acquiring Fund Common Shares or Acquiring Fund APS credited to such shareholder's account for shares of other investment companies managed by the Adviser or any of its affiliates, or pledge or redeem such Acquiring Fund Common Shares or Acquiring Fund APS, in any case, until notified by the Target Fund or its agent that such shareholder has surrendered his or her outstanding certificates evidencing ownership of Target Fund Common Shares or Target Fund APS or, in the event of lost certificates, posted adequate bond. The Target Fund, at its own expense, will request its shareholders to surrender their outstanding certificates evidencing ownership of Target Fund Common Shares or Target Fund APS, as the case may be, or post adequate bond therefor.

No fractional shares of Acquiring Fund Common Shares will be issued to holders of Target Fund Common Shares unless such shares are held in a Dividend Reinvestment Plan account. In lieu thereof, the Acquiring Fund's transfer agent, Computershare Trust Company, N.A., will aggregate all fractional Acquiring Fund Common Shares to be issued in connection with the Reorganization (other than those issued to a Dividend Reinvestment Plan account) and sell the resulting full shares on the New York Stock Exchange at the current market price for Acquiring Fund Common Shares for the account of all holders of such fractional interests, and each such holder will receive such holder's pro rata share of the proceeds of such sale upon surrender of such holder's certificates representing Acquiring Fund Common Shares.

5. Payment of Expenses.

- (a) With respect to expenses incurred in connection with the Reorganization, the Target Fund and the Acquiring Fund will share, in proportion to their respective projected declines in total operating expenses, all expenses incurred in connection with the Reorganization, including, but not limited to, all costs related to the preparation and distribution of materials distributed to each Fund's Board of Trustees; expenses incurred in connection with the preparation of the Agreement and Plan of Reorganization and a registration statement on Form N-14; SEC and state securities commission filing fees and legal and audit fees in connection with the Reorganization; costs of printing and distributing the Joint Proxy Statement/ Prospectus; legal fees incurred preparing each Fund's board materials, attending each Fund's board meetings and preparing

the minutes; auditing fees associated with each Fund's financial statements; stock exchange fees, rating agency fees, portfolio transfer taxes (if any) and any similar expenses incurred in connection with the Reorganization.

- (b) If for any reason the Reorganization is not consummated, no party shall be liable to any other party for any damages resulting therefrom, including, without limitation, consequential damages, and the investment adviser shall pay all expenses incurred by each Fund in connection with the Reorganization.

6. Covenants of the Funds.

- (a) Each Fund covenants to operate its business as presently conducted between the date hereof and the Closing Date.
- (b) The Target Fund agrees that following the consummation of the Reorganization, it will terminate in accordance with the laws of The Commonwealth of Massachusetts and any other applicable law, it will not make any distributions of any Acquiring Fund Common Shares or Acquiring Fund APS other than to its respective shareholders and without first paying or adequately providing for the payment of all of its respective liabilities not assumed by the Acquiring Fund, if any, and on and after the Closing Date it shall not conduct any business except in connection with its termination.

Each Fund agrees to cooperate fully with the other, and each will furnish to the other the information relating to itself to be set forth in the N-14 Registration Statement as required by the 1933 Act, the 1934 Act the 1940 Act, and the rules and regulations thereunder and the state securities laws.
- (e) The Acquiring Fund has no plan or intention to sell or otherwise dispose of the Target Fund Investments, except for dispositions made in the ordinary course of business.
- (f) Each of the Funds agrees that by the Closing Date all of its federal and other tax returns and reports required to be filed on or before such date shall have been filed and all taxes shown as due on said returns either have been paid or adequate liability reserves have been provided for the payment of such taxes in accordance with generally accepted accounting principles.

The intention of the parties is that the transaction contemplated by this Agreement will qualify as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code. Neither the Acquiring Fund nor the Target Fund shall take any action or cause any action to be taken (including, without limitation, the filing of any tax return) that is inconsistent with such treatment or results in the failure of the transaction to qualify as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code. At or prior to the Closing Date, the Acquiring Fund and the Target Fund will take such action, or cause such action to be taken, as is reasonably necessary to enable Skadden, Arps, Slate, Meagher & Flom LLP ("Skadden"), special counsel to the Funds, to render the tax opinion required herein (including, without limitation, each party's execution of representations reasonably requested by and addressed to Skadden.

In connection with this covenant, the Funds agree to cooperate with each other in filing any tax return, amended return or claim for refund, determining a liability for taxes or a right to a refund of taxes or participating in or conducting any audit or other proceeding in respect of taxes. The Acquiring Fund agrees to retain for a period of ten (10) years following the Closing Date all returns, schedules and work papers and all material records or other documents relating to tax matters of the Target Fund for each of such Fund's taxable period first ending after the Closing Date and for all prior taxable periods.

After the Closing Date, the Target Fund shall prepare, or cause its agents to prepare, any federal, state or local tax returns required to be filed by such fund with respect to its final taxable year ending with its complete liquidation and for any prior periods or taxable years and further shall cause such tax returns to be duly filed with the appropriate taxing authorities. Notwithstanding the aforementioned provisions of this subsection, any expenses incurred by the Target Fund (other than for payment of taxes) in connection with the preparation and filing of said tax returns after the Closing Date shall be borne by such Fund to the extent such expenses have been accrued by such Fund in the ordinary course without regard to the Reorganization; any excess expenses shall be borne by the investment adviser or an affiliate thereof.

- (g) The Target Fund agrees to mail to its shareholders of record entitled to vote at the special meeting of shareholders at which action is to be considered regarding this Agreement, in sufficient time to comply with requirements as to notice thereof, a combined proxy statement and prospectus which complies in all material respects with the applicable provisions of Section 14(a) of the 1934 Act and Section 20(a) of the 1940 Act, and the rules and regulations, respectively, thereunder.
- (h) Following the consummation of the Reorganization, the Acquiring Fund will continue its business as a diversified,

closed-end management investment company registered under the 1940 Act.

7. Closing Date.

- (a) Each party (an "Indemnitor") shall indemnify and hold the other and its officers, trustees, agents and persons controlled by or controlling any of them (each an "Indemnified

A-15

Party") harmless from and against any and all losses, damages, liabilities, claims, demands, judgments, settlements, deficiencies, taxes, assessments, charges, costs and expenses of any nature whatsoever (including reasonable attorneys' fees) including amounts paid in satisfaction of judgments, in compromise or as fines and penalties, and counsel fees reasonably incurred by such Indemnified Party in connection with the defense or disposition of any claim, action, suit or other proceeding, whether civil or criminal, before any court or administrative or investigative body in which such Indemnified Party may be or may have been involved as a party or otherwise or with which such Indemnified Party may be or may have been threatened (collectively, the "Losses") arising out of or related to any claim of a breach of any representation, warranty or covenant made herein by the Indemnitor, provided, however, that no Indemnified Party shall be indemnified hereunder against any Losses arising directly from such Indemnified Party's (i) willful misfeasance, (ii) bad faith, (iii) gross negligence or (iv) reckless disregard of the duties involved in the conduct of such Indemnified Party's position.

- (b) The Indemnified Party shall use its best efforts to minimize any liabilities, damages, deficiencies, claims, judgments, assessments, costs and expenses in respect of which indemnity may be sought hereunder. The Indemnified Party shall give written notice to Indemnitor within the earlier of ten (10) days of receipt of written notice to Indemnified Party or thirty (30) days from discovery by Indemnified Party of any matters which may give rise to a claim for indemnification or reimbursement under this Agreement. The failure to give such notice shall not affect the right of Indemnified Party to indemnity hereunder unless such failure has materially and adversely affected the rights of the Indemnitor; provided that in any event such notice shall have been given prior to the expiration of the Survival Period. At any time after ten (10) days from the giving of such notice, Indemnified Party may, at its option, resist, settle or otherwise compromise, or pay such claim unless it shall have received notice from Indemnitor that Indemnitor intends, at Indemnitor's sole cost and expense, to assume the defense of any such matter, in which case Indemnified Party shall have the right, at no cost or expense to Indemnitor, to participate in such defense. If Indemnitor does not assume the defense of such matter, and in any event until Indemnitor states in writing that it will assume the defense, Indemnitor shall pay all costs of Indemnified Party arising out of the defense until the defense is assumed; provided, however, that Indemnified Party shall

consult with Indemnitor and obtain indemnitor's prior written consent to any payment or settlement of any such claim. Indemnitor shall keep Indemnified Party fully apprised at all times as to the status of the defense. If Indemnitor does not assume the defense, Indemnified Party shall keep Indemnitor apprised at all times as to the status of the defense. Following indemnification as provided for hereunder, Indemnitor shall be subrogated to all rights of Indemnified Party with respect to all third parties, firms or corporations relating to the matter for which indemnification has been made.

12. Other Matters.

A-16

- (a) All covenants, agreements, representations and warranties made under this Agreement and any certificates delivered pursuant to this Agreement shall be deemed to have been material and relied upon by each of the parties, notwithstanding any investigation made by them or on their behalf.

Any notice shall be deemed to have been served or given as of the date such notice is delivered personally or mailed.
- (c) This Agreement supersedes all previous correspondence and oral communications between the parties regarding the Reorganization, constitutes the only understanding with respect to the Reorganization, may not be changed except by a letter of agreement signed by each party and shall be governed by and construed in accordance with the laws of the State of Illinois applicable to agreements made and to be performed in said state.
- (d) It is expressly agreed that the obligations of the Funds hereunder shall not be binding upon any of their respective trustees, shareholders, nominees, officers, agents, or employees personally, but shall bind only the trust property of the respective Fund as provided in such Fund's Declaration of Trust. No. 36-3797841

THE COMMONWEALTH OF MASSACHUSETTS

Office of the Massachusetts Secretary of State  
Michael J. Connolly, Secretary

CERTIFICATE OF VOTE OF TRUSTEES ESTABLISHING  
FOUR SERIES OF PREFERRED SHARES

I, Ronald A. Nyberg, Secretary, of Van Kampen Merritt Trust For Investment Grade Municipals (the "Fund") located at One Parkview Plaza, Oakbrook Terrace, IL 60181, do hereby certify that at a meeting of the trustees of the Fund held on February 20, 1992, the following vote establishing and designating four series of preferred shares of beneficial interest and determining the relative rights and preferences thereof was duly adopted:

First: Pursuant to authority expressly vested in the Board of Trustees of the Fund by Article VI of its Declaration of Trust (which, as amended or restated from time to time is, together with this Certificate of Vote, herein called the "Declaration of Trust"), the Board of Trustees hereby authorizes the issuance of four series of 5,300 shares of its authorized preferred shares of beneficial interest, par value \$.01 per share ("Preferred Shares"), liquidation preference of \$50,000 per share, designated, respectively, Auction Preferred Shares, Series A ("APS Series A"), Auction Preferred Shares, Series B ("APS Series B"), Auction Preferred Shares, Series C ("APS Series C") and Auction Preferred Shares, Series D ("APS Series D") (collectively the APS Series A, APS Series B, APS Series C and APS Series D are referred to herein as "APS").

Second: The preferences, voting powers, qualifications, and special or relative rights or privileges of each such series of preferred shares of beneficial interest are as follows:

DESIGNATION

APS SERIES A: A series of 1,500 preferred shares of beneficial interest, \$.01 par value, liquidation preference \$50,000 per share, is hereby designated "Auction Preferred Shares, Series A" (hereinafter, "APS Series A"). Each share of APS Series A shall be issued on March 10, 1992; have an Applicable Rate for its Initial Dividend Period equal to 3.30% per annum; have an Initial Dividend Payment Date of Monday, April 6, 1992; and have such other preferences, limitations and relative voting rights, in addition to those required by applicable law or set forth in the Declaration of Trust applicable to preferred shares of beneficial interest of the Fund, as are set forth in Part I and Part II of this Certificate of

Vote. The APS Series A shall constitute a separate series of Preferred Shares of beneficial interest of the Fund, and each share of APS Series A shall be identical except as provided in Section 3 of Part I of this Certificate of Vote.

APS SERIES B: A series of 1,500 preferred shares of beneficial interest, par value \$.01 per share, liquidation preference \$50,000 per share, is hereby designated "Auction Preferred Shares, Series B" (hereinafter, "APS Series B"). Each share of APS Series B shall be issued on March 10, 1992; have an Applicable Rate for its Initial Dividend Period equal to 3.30% per annum; have an Initial Dividend Payment Date of Monday, April 13, 1992; and have such other preferences, limitations and relative voting rights, in addition to those required by applicable law or set forth in the Declaration of Trust applicable to preferred shares of beneficial interest of the Fund, as are set forth in Part I and Part II of this Certificate of Vote. The APS Series B shall constitute a separate series of Preferred Shares of the Fund, and each share of APS Series B shall be identical except as provided in Section 3 of Part I of this Certificate of Vote.

APS SERIES C: A series of 1,500 preferred shares of beneficial

interest, par value \$.01 per share, liquidation preference \$50,000 per share, is hereby designated "Auction Preferred Shares, Series C" (hereinafter, "APS Series C"). Each share of APS Series C shall be issued March 10, 1992; have an Applicable Rate for its Initial Dividend Period equal to 3.40% per annum; have an Initial Dividend Payment Date of Monday, July 6, 1992; and have such other preferences, limitations and relative voting rights, in addition to those required by applicable law or set forth in the Declaration of Trust applicable to preferred shares of beneficial interest of the Fund, as are set forth in Part I and Part II of this Certificate of Vote. The APS Series C shall constitute a separate series of Preferred Shares of the Fund, and each share of APS Series C shall be identical except as provided in Section 3 of Part I of this Certificate of Vote.

APS SERIES D: A series of 800 preferred shares of beneficial interest, par value \$.01 per share, liquidation preference \$50,000 per share, is hereby designated "Auction Preferred Shares, Series D." Each share of APS Series D shall be issued on March 10, 1992; have an Applicable Rate for its Initial Dividend Period equal to 3.40% per annum; have an Initial Dividend Payment Date of Monday, July 6, 1992; and have such other preferences, limitations and relative voting rights, in addition to those required by applicable law or set forth in the Declaration of Trust applicable to preferred shares of beneficial interest of the Fund, as are set forth in Part I and Part II of this Certificate of Vote. The APS Series D shall constitute a separate series of Preferred Shares of the Fund, and each share of APS Series D shall be identical except as provided in Section 3 of Part I of this Certificate of Vote.

No holder of any series of APS shall have, solely by reason of being such a holder of any series of APS, any right to acquire, purchase or subscribe for any APS, common shares of beneficial interest, par value \$.01 per share, of the Fund or other securities of the Fund which it may hereafter issue or sell (whether out of the number of shares authorized by the Declaration of Trust, or out of any shares acquired by the Fund after the issuance thereof, or otherwise).

PART I

1. Number of Shares; Ranking. (a) No fractional APS shall be issued.

(b) Any APS which at any time have been redeemed or purchased by the Fund shall, after such redemption or purchase, have the status of authorized but unissued Preferred Shares, without designation as to series.

(c) The shares of each series of APS shall rank on a parity with shares of any other series of Preferred Shares (including any other series of APS) as to the payment of

B-2

dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund.

2. Dividends. (a) The Holder of shares of any series of APS shall be entitled to receive, when, as and if declared by the Board of Trustees, out of funds legally available therefor, cumulative cash dividends at the Applicable Rate per annum thereof, determined as set forth in paragraph (c) of this Section 2, and no more (except to the extent set forth in Section 12 of this Part I), payable on the respective dates (each a "Dividend Payment Date") determined as set forth in paragraph (b) of this Section 2. Dividends on shares

Edgar Filing: VAN KAMPEN TRUST FOR INVESTMENT GRADE MUNICIPALS - Form N-14 8C

of any series of APS shall accumulate at the Applicable Rate per annum from the Date of Original Issue thereof.

(b) (i) Dividends shall be payable subject to subparagraph (b) (ii) of this Section 2, on shares of:

(A) APS Series A, on Monday, April 6, 1992, and on each fourth Monday thereafter,

(B) APS Series B, on Monday, April 13, 1992, and on each fourth Monday thereafter,

(C) APS Series C, on Monday, July 6, 1992 and the first Business Day of each calendar month thereafter, provided that in any calendar month in which an Auction Date for such series is scheduled to occur, dividends shall be payable on the first Business Day next succeeding such Auction Date, and

(D) APS Series D, on Monday, July 6, 1992, and the first Business Day of each calendar month thereafter, provided that in any calendar month in which an Auction Date for such series is scheduled to occur, dividends shall be payable on the first Business Day next succeeding such Auction Date,

provided that if the Fund, subject to the conditions set forth in Section 4 of this Part I, designates any Subsequent Dividend Period as a Special Dividend Period, dividends will be payable: (1) with respect to a Special Dividend Period of less than 181 days, the day after the last day thereof, (2) with respect to a Special Dividend Period of 181 days or more and fewer than 365 days, the 92nd day thereof, the 183rd day thereof, if any, the 247th day thereof, if any, and the day after the last day, thereof and (3) with respect to a Special Dividend Period of 365 or more days, on such date in each quarterly period after the commencement thereof as is determined by the Board of Trustees.

After any Special Dividend Period, dividends on shares of such series of APS shall be payable, subject to subparagraph (b)(ii) of this Section 2, on each fourth succeeding Monday if such series is APS Series A, each fourth succeeding Monday if such series is APS Series B, and the first Business Day of each calendar month thereafter, provided that in any calendar month in which an Auction Date for such series is scheduled to occur, dividends shall be payable on the first Business Day next succeeding such Auction Date if such series is APS Series C, and the first Business Day of each calendar month thereafter, provided that in any calendar month in which an Auction Date for such series is scheduled to occur, dividends shall be payable on the first Business Day next succeeding such Auction Date if such series is

B-3

APS Series D, subject in each case to the options of the Fund to further designate from time to time any Subsequent Dividend Period thereof as a Special Dividend Period.

(ii) In the case of dividends that would otherwise be payable on a Sunday, Monday, Tuesday, Wednesday, Thursday, Friday or Saturday as determined by subparagraph (b) (i) of this Section 2, including clause (1), (2) or (3) of the proviso thereto, if (i) the Sunday, Monday or Tuesday that would otherwise be the Dividend Payment Date is not a Business Day, then dividends shall be payable on the first Business Day that falls after such Sunday, Monday or Tuesday,

or (ii) the Wednesday, Thursday, Friday or Saturday that would otherwise be the Dividend Payment Date is not a Business Day, then dividends shall be payable on the first Business Day that falls prior to such Wednesday, Thursday, Friday or Saturday.

(iii) The Fund shall pay to the Auction Agent not later than 12:00 Noon, New York City time, on the Business Day next preceding each Dividend Payment Date for shares of such series, an aggregate amount of funds available on the next Business Day in The City of New York, New York, equal to the dividends to be paid to all Holders of shares of such series on such Dividend Payment Date.

(iv) All moneys paid to the Auction Agent for the payment of dividends (or for the payment of any late charges pursuant to subparagraph (c)(i) of this Section 2) shall be held in trust for the payment of such dividends (and any such late charge) by the Auction Agent for the benefit of the Holders specified in subparagraph (b)(v) of this Section 2. Any moneys paid to the Auction Agent in accordance with the foregoing but not applied by the Auction Agent to the payment of dividends (and any late charge) will, to the extent permitted by law, be repaid to the Fund at the end of 90 days from the date on which such moneys were so to have been applied.

(v) Each dividend on the APS shall be paid on the Dividend Payment Date therefor to the Holders as their names appear on the share books of the Fund on the Business Day next preceding such Dividend Payment Date. Dividends in arrears for any past Dividend Period may be declared and paid at any time, without reference to any regular Dividend Payment Date, to the Holders as their names appear on the share books of the Fund on such date, not exceeding 15 days preceding the payment date thereof, as may be fixed by the Board of Trustees.

(c) (i) The dividend rate on shares of any series of APS during the period from and after the Date of Original Issue thereof to and including the last day of the Initial Dividend Period therefor shall be equal to the rate per annum set forth with respect to such series under "Designation," above. For each Subsequent Dividend Period of any series of APS outstanding thereafter, the dividend rate on shares of such series shall be equal to the rate per annum that results from an Auction for such series on the Auction Date next preceding such Subsequent Dividend Period; provided, however, that if an Auction for any Subsequent Dividend

B-4

Period of any series of APS is not held for any reason or if a Failure to Deposit occurs and such failure has not been cured as set forth below prior to any succeeding Subsequent Dividend Period thereof, then, subject to the next succeeding provision, the dividend rate on the shares of such series for any such Subsequent Dividend Period shall be the Maximum Rate (as defined herein) for such series on the Auction Date for such Subsequent Dividend Period; provided, further, however, that if (A) any Failure to Deposit shall have occurred with respect to shares of any series of APS during any Rate Period thereof (other than any Special Dividend Period consisting of four or more Dividend Periods or any Rate Period succeeding any Special Dividend Period consisting of four or more Dividend Periods during which a Failure to Deposit occurred that has not been cured), and prior to 12:00 noon, New York City time, on the third Business Day next succeeding the date on which such Failure to Deposit occurred, such Failure to Deposit shall not have been cured in

accordance with the next succeeding sentence or the Fund shall not have paid to the Auction Agent a late charge equal to the sum of (1) if such Failure to Deposit consisted of the failure timely to pay to the Auction Agent the full amount of dividends with respect to any Dividend Period on the shares of such series, an amount computed by multiplying (x) 200% of the "AA" Composite Commercial Paper Rate for the Rate Period during which such Failure to Deposit occurs on the Dividend Payment Date for such Dividend Period by (y) a fraction, the numerator of which shall be the number of days for which such Failure to Deposit has not been cured in accordance with the next succeeding sentence (including the day such Failure to Deposit occurs and excluding the day such Failure to Deposit is cured) and the denominator of which shall be 365, and applying the rate obtained against the aggregate liquidation preference of the outstanding shares of such series of APS and (2) if such Failure to Deposit consisted of the failure timely to pay to the Auction Agent the Redemption Price of the shares of such series of APS, if any, for which Notice of Redemption has been given by the Fund pursuant to paragraph (b) of Section 3 of this Part I, an amount computed by multiplying (x) 200% of the "AA" Composite Commercial Paper Rate for the Rate Period during which such Failure to Deposit occurs on the redemption date by (y) a fraction, the numerator of which shall be the number of days for which such Failure to Deposit is not cured in accordance with the next succeeding sentence (including the day such Failure to Deposit occurs and excluding the day such Failure to Deposit is cured) and the denominator of which shall be 365, and applying the rate obtained against the aggregate liquidation preference of the outstanding shares of APS to be redeemed, or (B) any Failure to Deposit shall have occurred with respect to shares of any series of APS during a Special Dividend Period thereof consisting of four or more Dividend Periods, or during any Rate Period thereof succeeding any Special Dividend Period consisting of four or more Dividend Periods during which a Failure to Deposit occurred that has not been cured, and such Failure to Deposit shall not have been cured in accordance with the next succeeding sentence during such Special Dividend Period or such other Rate Period, then the dividend rate for shares of such series of APS for each Subsequent Dividend Period thereof commencing after such failure to and including the Subsequent Dividend Period, if any, during which such Failure to Deposit is so cured shall be a rate per annum equal to the Maximum Rate on the Auction Date for such Subsequent Dividend Period (but with the prevailing rating for such shares, for purposes of determining such Maximum Rate, being deemed to be "Below "ba3"/BB-") (the rate per annum at which dividends are payable on the APS for any Rate Period for such shares being herein referred to as the "Applicable Rate" for such shares). A Failure to Deposit with respect to shares of any series of APS shall have been cured (if such Failure to Deposit is not solely due to the willful failure of the Fund to make the required payment to the Auction Agent) with respect to

B-5

any Rate Period if, not later than 12:00 Noon, New York City time, on the fourth Business Day preceding the Auction Date for the Rate Period subsequent to such Rate Period the Fund shall have paid to the Auction Agent (A) all accumulated and unpaid dividends on the shares of such series of APS and (B) without duplication, the Redemption Price for the APS, if any, for which Notice of Redemption has been given by the Fund pursuant to paragraph (b) of Section 3 of this Part I.

(ii) The amount of dividends per share payable on shares of any series of APS on any date on which dividends shall be payable on shares of such series shall be computed by multiplying the respective Applicable Rate for such series in effect for such Dividend Period or Dividend Periods or part thereof for which dividends have not been paid by a fraction, the numerator of which

shall be the number of days in such Dividend Period or Dividend Periods or part thereof and the denominator of which shall be 365 if such Dividend Period is a Rate Period, or is contained in a Rate Period, of less than one year and 360 for all other Dividend Periods, and applying the rate obtained against \$50,000.

(d) Any dividend payment made on the APS shall first be credited against the earliest accumulated but unpaid dividends due with respect to such APS.

(e) Except as set forth in the next sentence, no dividends shall be declared or paid or set apart for payment on the shares of any class or series of shares ranking, as to the payment of dividends, on a parity with the APS for any period unless full cumulative dividends have been or contemporaneously are declared and paid on the shares of each series of APS through the most recent Dividend Payment Date for each such series. When dividends are not paid in full upon the APS through their most recent respective Dividend Payment Dates or upon the shares of any other class or series of shares ranking on a parity as to the payment of dividends with the APS through their most recent respective dividend payment dates, all dividends declared upon the APS and any other such class or series of shares ranking on a parity as to the payment of dividends with the APS shall be declared pro rata so that the amount of dividends declared per share on the APS and such other class or series of shares shall in all cases bear to each other the same ratio that accumulated dividends per share on the APS and such other class or series of shares bear to each other (for purposes of this sentence, the amount of dividends declared per share shall be based on the Applicable Rate for such shares for the Dividend Periods during which dividends were not paid in full). Holders of the APS shall not be entitled to any dividend, whether payable in cash, property or shares, in excess of full cumulative dividends, as herein provided, on the APS. No interest, or sum of money in lieu of interest, shall be payable in respect of any dividend payment or payments on the APS which may be in arrears, and, except to the extent set forth in subsection (c) (i) of this Section 2, no additional sum of money shall be payable in respect of any such arrearage.

(f) Dividends on the APS shall be designated as exempt-interest dividends up to the amount of tax-exempt income of the Fund, to the extent permitted by, and for purposes of, Section 852 of the Internal Revenue Code of 1986, as amended from time to time.

(g) The Board of Trustees shall not declare any dividend (except a dividend payable in Common Shares), or declare any other distribution, upon the Common

B-6

Shares, or purchase Common Shares, unless in every such case the APS have, at the time of any such declaration or purchase, an asset coverage (as defined in and determined pursuant to the 1940 Act) of at least 200% (or such other asset coverage as may in the future be specified in or under the 1940 Act as the minimum asset coverage for senior securities which are stock of a closed-end investment company as a condition of declaring dividends on its common stock) after deducting the amount of such dividend, distribution or purchase price, as the case may be.

3. Redemption. (a) (i) Upon giving a Notice of Redemption, as provided below, the Fund at its option may redeem shares of any series of APS, in whole or in part, on the Second Business Day next preceding any Dividend Payment Date applicable to those shares of APS called for redemption, out of

funds legally available therefor, at the Optional Redemption Price; provided that during a Special Dividend Period of 365 days or more no share of APS will be subject to optional redemption during any Non-Call Period; provided, that shares of any series of APS may not be redeemed in part if after such partial redemption fewer than 250 shares of such series remain outstanding.

(ii) If fewer than all of the outstanding shares of any series of APS are to be redeemed pursuant to subparagraph (a)(i) of this Section 3, the number of shares of such series to be redeemed shall be determined by the Board of Trustees, and such shares shall be redeemed pro rata from the Holders of such series in proportion to the number of such shares held by such Holders.

(iii) No APS shall be redeemed pursuant to subparagraphs (a)(i) or (a)(ii) of this Section 3 unless, on the date on which the Fund intends to give notice of such redemption pursuant to paragraph (b) of this Section 3, (a) the Fund has available Deposit Securities with maturity or tender dates not later than the day preceding the applicable redemption date and having a value not less than the amount (including the applicable premium, if any) due to Holders of the APS by reason of the redemption of such shares on such redemption date and (b) Moody's Eligible Assets (if Moody's is then rating the APS) and S&P Eligible Assets (if S&P is then rating the APS) each at least equal the APS Basic Maintenance Amount, and would at least equal the APS Basic Maintenance Amount immediately subsequent to such redemption, if such redemption were to occur on such date, and on the date of redemption.

(iv) The Fund shall redeem, at the Mandatory Redemption Price, certain of the APS to the extent permitted under the 1940 Act and Massachusetts law, if the Fund fails to maintain the APS Basic Maintenance Amount or 1940 Act APS Asset Coverage in accordance with the requirements of the rating agency or agencies then rating the APS and such failure is not cured on or before the APS Basic Maintenance Cure Date or the 1940 Act Cure Date, as the case may be. The number of APS to be redeemed shall be equal to the lesser of (i) the minimum number of APS the redemption of which, if deemed to have occurred immediately prior to the opening of business on the Cure Date, together with all other Preferred Shares subject to redemption or retirement, would result in the satisfaction of the APS Basic Maintenance Amount or the 1940 Act APS Asset Coverage, as the case may be, on such Cure Date (provided that, if there is

B-7

no such minimum number of APS and other Preferred Shares the redemption of which would have such result, all the APS and Preferred Shares then outstanding shall be redeemed), and (ii) the maximum number of APS, together with all other Preferred Shares subject to redemption or retirement, that can be redeemed out of funds expected to be legally available therefor. In determining the APS required to be redeemed in accordance with the foregoing, the Fund shall allocate the number required to be redeemed to satisfy the APS Basic Maintenance Amount or the 1940 Act APS Asset Coverage, as the case may be, pro rata among each series of APS and other Preferred Shares subject to redemption provisions similar to those contained in this subparagraph (a)(iv) of this Section 3. The Fund shall effect such redemption not earlier than 20 days and not later than 40 days after such Cure Date, except that if the Fund does not have funds legally available for the redemption of

all of the required number of APS and other Preferred Shares which are subject to redemption provisions similar to those contained in this subparagraph (a)(iv) of this Section 3 or the Fund otherwise is unable to effect such redemption on or prior to 40 days after such Cure Date, the Fund shall redeem those APS and other Preferred Shares which it was unable to redeem on the earliest practicable date on which it is able to effect such redemption. If fewer than all of the outstanding shares of any series of APS are to be redeemed pursuant to this Section 3(a)(iv), the number of shares of such series to be redeemed shall be redeemed pro rata from the Holders of such shares in proportion to the number of shares held by such Holders.

(b) The Fund is required to give 30 days Notice of Redemption. In the event the Fund obtains appropriate exemptive or no-action relief from the Securities and Exchange Commission, the number of days' notice required for a mandatory redemption may be reduced by the Board of Trustees of the Fund to as few as two Business Days if Moody's and S&P each has agreed in writing that the revised notice provision would not adversely affect its then-current ratings of the APS. The Auction Agent will use its reasonable efforts to provide telephonic notice to each holder of APS called for redemption not later than the close of business on the Business Day on which the Auction Agent determines the shares to be redeemed (as described above) (or, during the occurrence of a Failure to Deposit with respect to such shares, not later than the close of business on the Business Day immediately following the day on which the Auction Agent receives Notice of Redemption from the Fund). Such telephonic notice will be confirmed promptly in writing not later than the close of business on the third Business Day preceding the redemption date by notice sent by the Auction Agent to each holder of record of APS called for redemption, the Broker-Dealers and the Securities Depository. Every Notice of Redemption and other redemption notice with respect to APS will state: (1) the redemption date, (2) the number of APS to be redeemed, (3) the redemption price, (4) that dividends on the APS to be redeemed will cease to accumulate as of such redemption date and (5) the provision of the APS Provisions pursuant to which such shares are being redeemed. No defect in the Notice of Redemption or other redemption notice or in the transmittal or the mailing thereof will affect the validity of the redemption proceedings, except as required by applicable law. If fewer than all shares of any series held by any Holder are to be redeemed, the Notice of Redemption mailed to such Holder shall also specify the number of shares of such series to be redeemed from such Holder.

B-8

(c) Notwithstanding the provisions of paragraph (a) of this Section 3, if any dividends on shares of any series of APS are in arrears, no shares of such series of APS shall be redeemed unless all outstanding shares of such series of APS are simultaneously redeemed, and the Fund shall not purchase or otherwise acquire any shares of such series of APS; provided, however, that the foregoing shall not prevent the purchase or acquisition of all outstanding shares of such series of APS pursuant to the successful completion of an otherwise lawful purchase or exchange offer made on the same terms to, and accepted by, Holders of all outstanding shares of such series of APS.

(d) Upon the deposit of funds sufficient to redeem the APS with the Auction Agent and the giving of Notice of Redemption under Paragraph (b) of this Section 3, dividends on such shares shall cease to accumulate and such shares shall no longer be deemed to be outstanding for any purpose, and all rights of the Holders of the shares so called for redemption shall cease and terminate, except the right of such Holders to receive the

Optional Redemption Price or Mandatory Redemption Price, as the case may be, but without any interest or other additional amount, except as provided in Section 2(c)(i) and in Section 12. Upon surrender in accordance with the Notice of Redemption of the certificates for any shares so redeemed (properly endorsed or assigned for transfer, if the Board of Trustees shall so require and the Notice of Redemption shall so state), the Optional Redemption Price or Mandatory Redemption Price, as the case may be, shall be paid by the Auction Agent to the Holders of the APS subject to redemption. In the case that fewer than all of the shares represented by any such certificate are redeemed, a new certificate shall be issued, representing the unredeemed shares, without cost to the Holder thereof. The Fund shall be entitled to receive from the Auction Agent, promptly after the date fixed for redemption, any cash deposited with the Auction Agent in excess of (i) the aggregate Optional Redemption Price of the APS called for redemption on such date and (ii) all other amounts to which Holders of the APS called for redemption may be entitled. Any funds so deposited that are unclaimed at the end of 90 days from such redemption date shall, to the extent permitted by law, be repaid to the Fund, after which time the Holders of the APS so called for redemption may look only to the Fund for payment of the Optional Redemption Price or Mandatory Redemption Price, as the case may be, and all other amounts to which they may be entitled. The Fund shall be entitled to receive, from time to time after the date fixed for redemption, any interest on the funds so deposited.

(e) To the extent that any redemption for which Notice of Redemption has been given is not made by reason of the absence of legally available funds therefor, such redemption shall be made as soon as practicable to the extent such funds become available. Failure to redeem the APS shall be deemed to exist at any time after the date specified for redemption in a Notice of Redemption when the Fund shall have failed, for any reason whatsoever, to deposit in trust with the Auction Agent the Redemption Price with respect to any shares for which such Notice of Redemption has been given. Notwithstanding the fact that the Fund may not have redeemed the APS for which a Notice of Redemption has been given, dividends may be declared and paid on the APS and shall include those APS for which a Notice of Redemption has been given.

(f) All moneys paid to the Auction Agent for payment of the Optional Redemption Price or Mandatory Redemption Price, as the case may be, of the APS called for

B-9

redemption shall be held in trust by the Auction Agent for the benefit of Holders of shares so to be redeemed.

(g) In effecting any redemption pursuant to this Section 3, the Fund shall use its best efforts to comply with all applicable procedural conditions precedent to effecting such redemption under the 1940 Act and Massachusetts law, but shall effect no redemption except in accordance with the 1940 Act and Massachusetts law.

(h) In the case of any redemption pursuant to this Section 3, only whole APS shall be redeemed, and in the event that any provision of the Declaration of Trust would require redemption of a fractional share, the Auction Agent shall be authorized to round up so that only whole shares are redeemed.

4. Designation of Special Dividend Periods. (a) The Fund, at its option, may designate any succeeding Subsequent Dividend Period of any series of APS as a Special Dividend Period; provided, however, that such

designation shall be effective only if (A) notice thereof shall have been given in accordance with paragraph (b) and clause (i) of paragraph (c) of this Section 4, (B) any Failure to Deposit that shall have occurred with respect to shares of such series during any Dividend Period shall have been cured in accordance with the provisions of the third sentence of paragraph (c) (i) of Section 2 of this Part I, (C) Sufficient Clearing Bids (as defined in Section 1 of Part II hereof) for such series shall have existed in an Auction held on the Auction Date immediately preceding the first day of such proposed Special Dividend Period, (D) if any Notice of Redemption shall have been mailed by the Fund pursuant to paragraph (b) of Section 3 of this Part I with respect to any shares of such series of APS, the Redemption Price with respect to such shares shall have been deposited with the Auction Agent and (E) in the event the Fund wishes to designate any succeeding Subsequent Dividend Period for such series as a Special Dividend Period consisting of more than 28 Rate Period Days, the Fund has received written confirmation from S&P (if S&P is then rating the APS) and Moody's (if Moody's is then rating the APS) that such designation would not affect the rating then assigned by S&P and Moody's to such series.

(b) If the Fund proposes to designate any succeeding Subsequent Dividend Period of any series of APS as a Special Dividend Period of more than 28 Rate Period Days pursuant to paragraph (a) of this Section 4, not less than 20 nor more than 30 days prior to the date the Fund proposes to designate as the first day of such Special Dividend Period (which shall be such day that would otherwise be the first day of a Minimum Dividend Period), notice shall be (i) published or caused to be published by the Fund in a newspaper of general circulation to the financial community in The City of New York, New York, which carries financial news, and (ii) communicated by the Fund by telephonic or other means to the Auction Agent and confirmed in writing promptly thereafter. Each such notice shall state (A) that the Fund may exercise its option to designate a succeeding Subsequent Dividend Period of such series of APS as a Special Dividend Period, specifying the first day thereof and (B) that the Fund will by 11:00 A.M., New York City time, on the second Business Day next preceding such date notify the Auction Agent of either (x) its determination, subject to certain conditions, to exercise such option, in which case the Fund shall specify the Special Dividend Period designated and the terms of the Specific Redemption Provisions, if any, or (y) its determination not to exercise such option.

B-10

(c) No later than 11:00 A.M., New York City time, on the second Business Day next preceding the first day of any proposed Special Dividend Period the Fund shall deliver to the Auction Agent either:

(i) a notice stating (A) that the Fund has determined to designate the next succeeding Dividend Period of such series as a Special Dividend Period, specifying the same and the first day thereof, (B) the Auction Date immediately prior to the first day of such Special Dividend Period, (C) the terms of the Specific Redemption Provisions, if any, for such series, (D) that such Special Dividend Period shall not commence if (1) on such Auction Date Sufficient Clearing Bids for such series shall not exist (in which case the succeeding Rate Period shall be a Minimum Dividend Period) or (2) a Failure to Deposit shall have occurred prior to the first day of such Special Dividend Period with respect to shares of such series and (E) the scheduled Dividend Payment Dates for such series of APS during such Special Dividend Period; provided that, if such Special Dividend Period consists of more than 28 Rate Period Days, such notice will be accompanied by an APS Basic Maintenance Report showing that, as of the

third Business Day next preceding such proposed Special Dividend Period, (1) Moody's Eligible Assets, assuming for the purposes calculating Moody's Eligible Assets, in connection with an APS Basic Maintenance Report required to be prepared pursuant to this Section 4(c)(i), a Moody's Exposure Period of "eight weeks or less but greater than seven weeks" (if Moody's is then rating such series) and (2) S&P Eligible Assets (if S&P is then rating such series) each at least equal the APS Basic Maintenance Amount as of such Business Day (assuming for purposes of the foregoing calculation that the Maximum Rate is the Maximum Rate on such Business Day as if such Business Day were the Auction Date for the proposed Special Dividend Period); or

(ii) a notice stating that the Fund has determined not to exercise its option to designate a Special Dividend Period for such series of APS and that the next succeeding Dividend Period of such series shall be a Minimum Dividend Period.

If the Fund fails to deliver either such notice with respect to any designation of any proposed Special Dividend Period to the Auction Agent by 11:00 A.M., New York City time, on the second Business Day next preceding the first day of such proposed Special Dividend Period, the Fund shall be deemed to have delivered a notice to the Auction Agent with respect to such Special Dividend Period to the effect set forth in clause (ii) of the preceding sentence.

5. Voting Rights. (a) Except as otherwise provided in the Declaration of Trust or as otherwise required by law, (i) each Holder of APS shall be entitled to one vote for each of the APS held on each matter submitted to a vote of shareholders of the Fund, and (ii) the holders of outstanding Preferred Shares, including APS, and of Common Shares shall vote together as a single class; provided that, at a meeting of the shareholders of the Fund held for the election of the trustees, the holders of outstanding Preferred Shares, including APS, represented in person or by proxy at said meeting, shall elect two trustees of the Fund, each Preferred Share, including

B-11

each of the APS, entitling the holder thereof to one vote. Subject to paragraph (b) of this Section 5, the holders of outstanding Common Shares shall elect the balance of the trustees.

(b) During any period in which any one or more of the conditions described below shall exist (such period being referred to herein as a "Voting Period"), the number of trustees constituting the Board of Trustees shall be automatically increased by the smallest number that, when added to the two trustees elected exclusively by the holders of Preferred Shares, including APS, would constitute a majority of the Board of Trustees as so increased by such smallest number, and the holders of Preferred Shares, including APS, shall be entitled, voting as a class on a one-vote-per-share basis (to the exclusion of the holders of all other securities and class of capital shares of the Fund), to elect such smallest number of additional trustees, together with the two trustees that such holders are in any event entitled to elect. A Voting Period shall commence:

(i) if at the close of business on any Dividend Payment Date accumulated dividends (whether or not earned or declared) on any outstanding APS equal to at least two full years' dividends shall be due and unpaid and sufficient cash or specified securities shall not have been deposited with the Auction Agent for the payment of such accumulated dividends; or

(ii) if at any time holders of any other Preferred Shares are entitled under the 1940 Act to elect a majority of the trustees of the Fund.

Upon the termination of a Voting Period, the voting rights described in this paragraph (b) of Section 5 shall cease, subject always, however, to the revesting of such voting rights in the Holders upon the further occurrence of any of the events described in this paragraph (b) of Section 5.

(c) (i) As soon as practicable after the accrual of any right of the holders of Preferred Shares to elect additional trustees as described in paragraph (b) of this Section 5, the Fund shall notify the Auction Agent and the Auction Agent shall call a special meeting of such holders, by mailing a notice of such special meeting to such holders, such meeting to be held not less than 10 nor more than 20 days after the date of mailing of such notice. If the Fund fails to send such notice to the Auction Agent or if the Auction Agent does not call such a special meeting, it may be called by any such holder on like notice. The record date for determining the holders entitled to notice of and to vote at such special meeting shall be the close of business on the fifth Business Day preceding the day on which such notice is mailed. At any such special meeting and at each meeting of holders of Preferred Shares held during a Voting Period at which trustees are to be elected, such holders, voting together as a class (to the exclusion of the holders of all other securities and classes of capital shares of the Fund), shall be entitled to elect the number of trustees prescribed in paragraph (b) of this Section 5 on a one-vote-per-share basis.

(ii) For purposes of determining any rights of the Holders to vote on any matter, whether such right is created by this Certificate of Vote, by the other provisions of the Declaration of Trust, by statute or otherwise, no Holder shall be entitled to vote and no APS shall be deemed to be "outstanding" for the purpose of voting or determining the number of shares

B-12

required to constitute a quorum if, prior to or concurrently with the time of determination of shares entitled to vote or shares deemed outstanding for quorum purposes, as the case may be, the Redemption Price for the redemption of such shares has been deposited in trust with the Auction Agent for that purpose and the requisite Notice of Redemption with respect to such shares shall have been given as provided in Section 3 of this Part I. None of the APS held by the Fund or any affiliate of the Fund shall have any voting rights or be deemed to be outstanding for voting or other purposes.

(iii) The terms of office of all persons who are Trustees of the Fund at the time of a special meeting of Holders and holders of other Preferred Shares to elect trustees shall continue, notwithstanding the election at such meeting by the Holders and such other holders of the number of trustees that they are entitled to elect, and the persons so elected by the Holders and such other holders, together with the two incumbent trustees elected by the Holders and such other holders of Preferred Shares and the remaining incumbent trustees elected by the holders of the Common Shares, shall constitute the duly elected trustees of the Fund.

(iv) Simultaneously with the termination

of a Voting Period, the terms of office of the additional trustees elected by the Holders and holders of other Preferred Shares pursuant to paragraph (b) of this Section 5 shall terminate, the remaining trustees shall constitute the trustees of the Fund and the voting rights of the Holders and such other holders to elect additional trustees pursuant to paragraph (b) of this Section 5 shall cease, subject to the provisions of the last sentence of paragraph (b) of this Section 5.

(d) (i) So long as any of the APS are outstanding, the Fund shall not, without the affirmative vote of the Holders of the Outstanding APS determined with reference to a "majority of outstanding voting securities" as that term is defined in Section 2(a)(42) of the 1940 Act (voting separately as one class): (a) authorize, create or issue any class or series of shares of beneficial interest ranking prior to or on a parity with the APS with respect to the payment of dividends or the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund, or increase the authorized amount of any series of APS (except that, notwithstanding the foregoing, but subject to the provisions of Section 13, the Board of Trustees, without the vote or consent of the Holders of APS, may from time to time authorize and create, and the Fund may from time to time issue, classes or series of Preferred Shares, including APS, ranking on a parity with the APS with respect to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund, subject to continuing compliance by the Fund with 1940 Act APS Asset Coverage and APS Basic Maintenance Amount requirements, provided that the Fund obtains written confirmation from Moody's (if Moody's is then rating APS) and S&P (if S&P is then rating APS) that the issuance of such class or series would not impair the rating then assigned by such rating agency to the APS, (b) amend, alter or repeal the provisions of the Declaration of Trust, including this Certificate of Vote, whether by merger, consolidation or otherwise, so as to affect any preference, right or power of such APS or the Holders thereof; provided that (i) none of the actions permitted by the exception to (a) above will be deemed to affect such preferences, rights

B-13

or powers and (ii) the authorization, creation and issuance of classes or series of shares ranking junior to the APS with respect to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund, will be deemed to affect such preferences, rights or powers only if Moody's or S&P is then rating the APS and such issuance would, at the time thereof, cause the Fund not to satisfy the 1940 Act APS Asset Coverage or the APS Basic Maintenance Amount, or (c) file a voluntary application for relief under Federal bankruptcy law or any similar application under state law for so long as the Fund is solvent and does not foresee becoming insolvent.

(ii) The Board of Trustees, without the vote or consent of the Holders of APS, may from time to time amend, alter or repeal any or all of the definitions of the terms listed below, and any such amendment, alteration or repeal will not be deemed to affect the preferences, rights or powers of the APS or the Holders thereof, provided the Board of Trustees receives written confirmation from Moody's (such confirmation being required to be obtained only in the event Moody's is rating the APS and in no event being required to be obtained in the case of the definitions of Deposit Securities, Discounted Value and Receivables for Municipal Securities Sold as such terms apply to S&P Eligible Assets, Dividend Coverage Amount, Dividend Coverage Assets, Minimum Liquidity Level, S&P Discount Factor, S&P

Eligible Assets, S&P Exposure Period and Valuation Date as such term applies to the definitions of Dividend Coverage Amount, Dividend Coverage Assets and Minimum Liquidity Level) and S&P (such confirmation being required to be obtained only in the event S&P is rating the APS and in no event being required to be obtained in the case of the definitions of Discounted Value and Receivables for Municipal Securities Sold as such terms apply to Moody's Eligible Assets, Moody's Discount Factor, Moody's Eligible Asset and Moody's Exposure Period) that any such amendment, alteration or repeal would not impair the ratings then assigned by Moody's or S&P, as the case may be, to the APS:

(e) Unless otherwise required by law, the Holders of the APS shall not have any relative rights or preferences or other special rights other than those specifically set forth herein. The Holders of the APS shall have no preemptive rights or rights to cumulative voting. In the event that the Fund fails to pay any dividends on the APS, the exclusive remedy of the Holders shall be the right to vote for trustees pursuant to the provisions of this Section 5.

(f) Unless a higher percentage is provided for in the Declaration of Trust, the affirmative vote of the Holders of a majority of the outstanding APS, voting as a separate class, shall be required to approve any plan of reorganization (as such term is used in the 1940 Act) adversely affecting such shares or any action requiring a vote of security holders of the

Fund under Section 13(a) of the 1940 Act. In the event a vote of Holders of APS is required pursuant to the provisions of Section 13(a) of the 1940 Act, the Fund shall, not later than ten Business Days prior to the date on which such vote is to be taken, notify Moody's (if Moody's is then rating the APS) and S&P (if S&P is then rating the APS) that such vote is to be taken and the nature of the action with respect to which such vote is to be taken. In addition, the Fund shall notify Moody's (if Moody's is then rating the APS) and S&P (if S&P is then rating the APS) of the results of any vote described in the proceeding sentence.

B-15

(g) Right to Vote with Respect to Certain Other Matters. The affirmative vote of the holders of a majority (unless a higher percentage vote is required under the Declaration of Trust or under this Certificate of Vote) of the outstanding shares of each series of APS, each voting as a separate class, is required with respect to any matter that materially affects the series in a manner different from that of other series of classes of the Fund's shares, including without limitation any proposal to do the following: (1) increase or decrease the aggregate number of authorized shares of the series; (2) effect an exchange, reclassification, or cancellation of all or part of the shares of the series; (3) effect an exchange, or create a right of exchange, of all or any part of the shares of the series; (4) change the rights or preferences of the shares of the series; (5) change the shares of the series, whether with or without par value, into the same or a different number of shares, either with or without par value, of the same or another class or series; (6) create a new class or series of shares having rights and preferences prior and superior to the shares of the series, or increase the rights and preferences or the number of authorized shares of a series having rights and preferences prior or superior to the shares of the series; or (7) cancel or otherwise affect distributions on the shares of the series that have accrued but have not been declared. To the extent that the interests of a series of APS affected by a matter are substantially identical to the interests of another series of APS affected by such matter (e.g., a vote of shareholders required under Section 13(a) of the 1940 Act), each such series shall vote together collectively as one class. The vote of holders of APS described above will in each case be in addition to a separate vote of the requisite percentage of Common Shares and APS necessary to authorize the action in question.

6. Liquidation Rights. (a) Upon the dissolution, liquidation or winding up of the affairs of the Fund, whether voluntary or involuntary, the Holders of the APS then outstanding shall be entitled to receive and to be paid out of the assets of the Fund available for distribution to its shareholders, before any payment or distribution shall be made on the Common Shares or on any other class of shares of the Fund ranking junior to the APS upon dissolution, liquidation or winding up, an amount equal to the liquidation preference with respect to such shares. The liquidation preference for the APS shall be \$50,000 per share, plus an amount equal to all dividends thereon (whether or not earned or declared) accumulated but unpaid to the date of final distribution in same-day funds, together with any payments required to be made pursuant to Section 12 in connection with the liquidation of the Fund.

(b) Neither the sale of all or substantially all the property or business of the Fund, nor the merger or consolidation of the Fund into or with any other corporation nor the merger or consolidation of any other corporation into or with the Fund shall be a dissolution, liquidation or winding up, whether voluntary or involuntary, for the purposes of this Section 6.

(c) After the payment to the Holders of the APS of the full preferential amounts provided for in this Section 6, the Holders of the

APS as such shall have no right or claim to any of the remaining assets of the Fund.

(d) In the event the assets of the Fund available for distribution to the Holders of the APS upon any dissolution, liquidation or winding up of the affairs of the Fund, whether voluntary or involuntary, shall be insufficient to pay in full all amounts to which such Holders are entitled pursuant to paragraph (a) of this Section 6, no such distribution shall be made on account of any shares of any other class or series of Preferred Shares ranking on a parity

B-16

with the APS with respect to the distribution of assets upon such dissolution, liquidation or winding up unless proportionate distributive amounts shall be paid on account of the APS, ratably, in proportion to the full distributable amounts for which holders of all such parity shares are respectively entitled upon such dissolution, liquidation or winding up.

(e) Subject to the rights of the holders of shares of any series or class or classes of shares ranking on a parity with the APS with respect to the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund, after payment shall have been made in full to the Holders of the APS as provided in paragraph (a) of this Section 6, but not prior thereto, any other series or class or classes of shares ranking junior to the APS with respect to the distribution of assets upon dissolution, liquidation or winding up of the affairs of the Fund shall, subject to the respective terms and provisions (if any) applying thereto, be entitled to receive any and all assets remaining to be paid or distributed, and the Holders of the APS shall not be entitled to share therein.

7. Auction Agent. For so long as any of the APS is outstanding, the Auction Agent, duly appointed by the Fund to so act, shall be in each case a commercial bank, trust company or other financial institution independent of the Fund and its affiliates (which, however, may engage or have engaged in business transactions with the Fund or its affiliates) and at no time shall the Fund or any of its affiliates act as the Auction Agent in connection with the Auction Procedures. If the Auction Agent resigns or for any reason its appointment is terminated during any period that any of the APS is outstanding, the Board of Trustees shall use its best efforts promptly thereafter to appoint another qualified commercial bank, trust company or financial institution to act as the Auction Agent.

8. 1940 Act APS Asset Coverage. The Fund shall maintain, as of the last Business Day of each month in which any of the APS is outstanding, the 1940 Act APS Asset Coverage.

9. APS Basic Maintenance Amount. (a) So long as APS are Outstanding, the Fund shall maintain, on each Valuation Date, and shall verify to its satisfaction that it is maintaining on such Valuation Date, (i) S&P Eligible Assets having an aggregate Discounted Value equal to or greater than the APS Basic Maintenance Amount (if S&P is then rating the APS) and (ii) Moody's Eligible Assets having an aggregate Discounted Value equal to or greater than the APS Basic Maintenance Amount (if Moody's is then rating the APS).

(b) On or before 5:00 P.M., New York City time, on the third Business Day after a Valuation Date on which the Fund fails to satisfy the APS Basic Maintenance Amount, and on the third Business Day after the APS Basic Maintenance Cure Date with respect to such Valuation Date, the Fund shall

complete and deliver to S&P (if S&P is then rating the APS), Moody's (if Moody's is then rating the APS) and the Auction Agent (if either S&P or Moody's is then rating the APS) an APS Basic Maintenance Report as of the date of such failure or such APS Basic Maintenance Cure Date, as the case may be, which will be deemed to have been delivered to the Auction Agent if the Auction Agent receives a copy or teletype, telex or other electronic transcription thereof and on the same day the Fund mails to the Auction Agent for delivery on the next Business Day the full APS Basic Maintenance Report. The Fund shall also deliver an APS Basic Maintenance Report to S&P (if S&P is then rating the APS), and the

B-17

Auction Agent (if S&P is then rating the APS) as of (i) the fifteenth day of each month (or, if such day is not a Business Day, the next succeeding Business Day) and (ii) the last Business Day of each month, in each case on or before the third Business Day after such day. The Fund will also deliver an APS Basic Maintenance Report to Moody's on any Valuation Date that (i) the Discounted Value of Moody's Eligible Assets is greater than the APS Basic Maintenance Amount by 5% or less or (ii) on any date which the Fund redeems Common Shares. A failure by the Fund to deliver an APS Basic Maintenance Report under subparagraph (b) of this Section 9 shall be deemed to be delivery of an APS Basic Maintenance Report indicating the Discounted Value for all assets of the Fund is less than the APS Basic Maintenance Amount, as of the relevant Valuation Date.

(c) Within ten Business Days after the date of delivery of an APS Basic Maintenance Report in accordance with paragraph (b) of this Section 9 relating to a Quarterly Valuation Date, the Fund shall cause the Independent Accountant to confirm in writing to S&P (if S&P is then rating the APS), Moody's (if Moody's is then rating the APS) and the Auction Agent (if either S&P or Moody's is then rating the APS) (i) the mathematical accuracy of the calculations reflected in such Report (and in any other APS Basic Maintenance Report, randomly selected by the Independent Accountant, that was delivered by the Fund during the quarter ending on such Quarterly Valuation Date) and (ii) that, in such Report (and in such randomly selected Report), the Fund determined in accordance with this Certificate of Vote whether the Fund had, at such Quarterly Valuation Date (and at the Valuation Date addressed in such randomly-selected Report), S&P Eligible Assets (if S&P is then rating the APS) of an aggregate Discounted Value at least equal to the APS Basic Maintenance Amount and Moody's Eligible Assets (if Moody's is then rating the APS) of an aggregate Discounted Value at least equal to the APS Basic Maintenance Amount (such confirmation being herein called the "Accountant's Confirmation").

(d) Within ten Business Days after the date of delivery of an APS Basic Maintenance Report in accordance with paragraph (b) of this Section 9 relating to any Valuation Date on which the Fund failed to satisfy the APS Basic Maintenance Amount, and relating to the APS Basic Maintenance Cure Date with respect to such failure to satisfy the APS Basic Maintenance Amount, the Fund shall cause the Independent Accountant to provide to S&P (if S&P is then rating the APS), Moody's (if Moody's is then rating the APS) and the Auction Agent (if either S&P or Moody's is then rating the APS) an Accountant's Confirmation as to such APS Basic Maintenance Report.

(e) If any Accountant's Confirmation delivered pursuant to subparagraph (c) or (d) of this Section 9 shows that an error was made in the APS Basic Maintenance Report for a particular Valuation Date for which such Accountant's Confirmation was required to be delivered, or shows that a lower aggregate Discounted Value for the aggregate of all S&P Eligible Assets

(if S&P is then rating the APS) or Moody's Eligible Assets (if Moody's is then rating the APS), as the case may be, of the Fund was determined by the Independent Accountant, the calculation or determination made by such Independent Accountant shall be final and conclusive and shall be binding on the Fund, and the Fund shall accordingly amend and deliver the APS Basic Maintenance Report to S&P (if S&P is then rating the APS), Moody's (if Moody's is then rating the APS) and the Auction Agent (if either S&P or Moody's is then rating the APS) promptly following receipt by the Fund of such Accountant's Confirmation.

B-18

(f) On or before 5:00 p.m., New York City time, on the first Business Day after the Date of Original Issue of the APS, the Fund shall complete and deliver to S&P (if S&P is then rating the APS) and to Moody's (if Moody's is then rating the APS), an APS Basic Maintenance Report as of the close of business on such Date of Original Issue. Within five Business Days of such Date of Original Issue, the Fund shall cause the Independent Accountant to confirm in writing to S&P (if S&P is then rating the APS) and to Moody's (if Moody's is then rating the APS) (i) the mathematical accuracy of the calculations reflected in such Report and (ii) that the amount of S&P Eligible Assets reflected thereon equals or exceeds the APS Basic Maintenance Amount reflected thereon.

10. Minimum Liquidity Level. So long as S&P is rating the APS, the Fund shall have, as of each Valuation Date, Dividend Coverage Assets, with respect to each then Outstanding share of each series of APS, having a value not less than the Dividend Coverage Amount with respect to such share (the "Minimum Liquidity Level"). If, as of each Valuation Date, the Fund does not have the required Dividend Coverage Assets, the Fund shall, as soon as practicable, adjust its portfolio in order to meet the Minimum Liquidity Level, but only so long as S&P is rating the APS. So long as S&P is rating the APS, the Fund shall notify S&P on any Valuation Date which the Fund does not have the required Dividend Coverage Assets and does not adjust its portfolio as described in the immediately preceding sentence.

11. Restrictions on Certain Distributions. For so long as any of the APS is Outstanding, and except as set forth in Sections 2(e) and 6(d) of this Part I, (A) the Fund shall not declare, pay or set apart for payment any dividend or other distribution (other than a dividend or distribution paid in shares of, or options, warrants or rights to subscribe for or purchase, Common Shares or other shares, if any, ranking junior to the APS as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up) in respect of the Common Shares or any other shares of the Fund ranking junior to or on a parity with the APS as to the payment of dividends or the distribution of assets upon dissolution, liquidation or winding up, or call for redemption, redeem, purchase or otherwise acquire for consideration any Common Shares or any other such junior shares (except by conversion into or exchange for shares of the Fund ranking junior to the APS as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up), or any such parity shares (except by conversion into or exchange for shares of the Fund ranking junior to or on a parity with APS as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up), unless (i) full cumulative dividends on shares of each series of APS through its most recently ended Dividend Period shall have been paid or shall have been declared and sufficient funds for the payment thereof deposited with the Auction Agent and (ii) the Fund has redeemed the full number of shares of each series of APS required to be redeemed by any provision for mandatory redemption pertaining thereto, and (B) if either Moody's or S&P is

rating the APS, the Fund shall not declare, pay or set apart for payment any dividend or other distribution (other than a dividend or distribution paid in shares of, or options, warrants or rights to subscribe for or purchase, Common Shares or other shares, if any, ranking junior to the APS as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up) in respect of Common Shares or any other shares of the Fund ranking junior to the APS as to the payment of dividends or the distribution of assets upon dissolution, liquidation or winding up, or call for redemption, redeem, purchase or otherwise acquire for consideration any shares of Common Shares or any other such junior shares (except by conversion into or exchange for shares of the Fund ranking

B-19

junior to the APS as to the payment of dividends and the distribution of assets upon dissolution, liquidation or winding up), unless immediately after such transaction the Discounted Value of Moody's Eligible Assets and S&P Eligible Assets would each at least equal the APS Basic Maintenance Amount.

12. Additional Dividends. If the Fund retroactively allocates any net capital gains or other income taxable for federal income tax purposes to the APS without having given advance notice thereof to the Auction Agent as provided in Section 6 of Part II by reason of the fact that such allocation is made as a result of (i) the realization of net capital gains or other income taxable for federal income tax purposes, (ii) the redemption of all or a portion of the outstanding APS or (iii) the liquidation of the Fund (such allocation being referred to herein as a "Retroactive Taxable Allocation"), the Fund will simultaneously, if practicable, with such allocation but in no event later than 270 days after the end of the Fund's taxable year in which a Retroactive Taxable Allocation is made, provide notice thereof to the Auction Agent and to each Holder of such shares during such taxable year at such Holder's address as the same appears or last appeared on the share books of the Fund. Such Holders of such shares shall be entitled to receive, when, as and if declared by the Board of Trustees, out of funds legally available therefor, dividends in an amount equal to the aggregate Additional Dividends with respect to all Retroactive Taxable Allocations made to such shares during the taxable year in question, such dividends to be payable by the Fund to the Auction Agent, for distribution to such Holders, within 30 days after the notice described above is given to the Auction Agent.

13. Certain Other Restrictions. (a) For so long as any of the APS is outstanding and Moody's is then rating such shares, the Fund will not, unless it has received written confirmation from Moody's that any such action would not impair the ratings then assigned by Moody's to the APS, engage in any one or more of the following transactions:

(i) transactions in options on securities, futures contracts or options on futures contracts except that in connection with Moody's Hedging Transactions: (A) the Fund may buy call or put option contracts on securities; (B) the Fund may write covered call options on securities; (C) the Fund may write put options on securities; (D) the Fund may enter into positions in futures contracts based on the Municipal Index provided that the Fund shall not engage in any such transaction which would cause the Fund at the time of such transaction to own or have sold (1) outstanding futures contracts based on the Municipal Index exceeding in number 10% of the rolling average number of daily traded futures contracts based on the Municipal Index in the 30 calendar days prior to the time of effecting such transaction as reported by The Wall Street Journal or (2) outstanding futures contracts based on the Municipal Index and options

on such futures contracts having an aggregate fair market value (taking into account the fair market value of futures contracts based on Treasury Bonds) exceeding the fair market value of Moody's Eligible Assets owned by the Fund; (E) the Fund may enter into futures contracts on Treasury Bonds provided that the Fund shall not engage in any such transaction which would cause the Fund at the time of such transaction to own or have sold (1) outstanding futures contracts based on Treasury Bonds and options on such futures contracts having an aggregate fair market value (taking into account the fair market value of futures

B-20

contracts based on the Municipal Index) exceeding 40% of the aggregate fair market value of Moody's Eligible Assets owned by the Fund and rated Aa by Moody's (or, if not rated by Moody's but rated by S&P, rated AAA by S&P) or (2) outstanding futures contracts based on Treasury Bonds and options on such futures contracts having an aggregate fair market value (taking into account the fair market value of futures contracts based on the Municipal Index) exceeding 80% of the aggregate fair market value of Moody's Eligible Assets owned by the Fund and rated Baa or A by Moody's (or, if not rated by Moody's but rated by S&P, rated A or AA by S&P); for purposes of the foregoing clauses (D) and (E), the Fund shall be deemed to own the number of futures contracts that underlie any outstanding option written by the Fund; and (F) the Fund may buy call or put options on futures contracts on the Municipal Index or Treasury Bonds, may write put options on such futures contracts (provided, that if the contract would require delivery of a security, that security must be held by the Fund) and may write call options on such futures if it owns the futures contract subject to the option. For so long as the APS are rated by Moody's, the Fund will engage in Closing Transactions to close out any outstanding futures contract based on the Municipal Index if the open interest with respect to such futures contracts based on the Municipal Index as reported by The Wall Street Journal is less than 5,000. For so long as the APS are rated by Moody's, the Fund will engage in a Closing Transaction to close out any outstanding futures contract by no later than the fifth Business Day of the month in which such contract expires and will engage in a Closing Transaction to close out any outstanding option on a futures contract by no later than the first Business Day of the month in which such option expires. For so long as the APS are rated by Moody's, the Fund will engage in transactions with respect to futures contracts or options thereon having only the next settlement date or the settlement date immediately thereafter. For purposes of valuation of Moody's Eligible Assets: (A) if the Fund writes a call option, the underlying asset will be valued as follows: (1) if the option is exchange-traded and may be offset readily or if the option expires before the earliest possible redemption of the APS, at the Discounted Value of the underlying security of the option or (2) otherwise, it has no value; (B) if the Fund writes a put option, the underlying asset will be valued as follows: the lesser of (1) exercise price and (2) the Discounted Value of the underlying security; (C) if the Fund is a seller under a futures contract, the underlying security will be valued at the lower of (1) settlement price and (2) the Discounted Value of the underlying security; if a contract matures within the Moody's Exposure Period, the security may be valued at the settlement price; (D) if the Fund is the buyer under a futures contract, the underlying security will be valued at the lower of (1) the settlement price and (2) the Discounted Value of the underlying

security; if the contract matures within the Moody's Exposure Period, the security may be valued at its Discounted Value and (E) call or put option contracts which the Fund buys have no value. For so long as APS are rated by Moody's: (A) the Fund will not engage in options and futures transactions for leveraging or speculative purposes; (B) the Fund will not write or sell any anticipatory contracts pursuant to which the Fund hedges the anticipated purchase of an asset prior to completion of such purchase; (C) the Fund will not

B-21

enter into an option or futures transaction unless, after giving effect thereto, the Fund would continue to have Moody's Eligible Assets with an aggregate Discounted Value equal to or greater than the APS Basic Maintenance Amount; (D) the Fund will not enter into an option or futures transaction unless after giving effect to such transaction the Fund would continue to be in compliance with the provisions relating to the APS Basic Maintenance Amount; (E) for purposes of the APS Basic Maintenance Amount (1) assets in margin accounts are not Moody's Eligible Assets, (2) 10% of the settlement price of assets sold under a futures contract, the settlement price of assets purchased under a futures contract, the settlement price of an underlying futures contract if the Fund writes put options on futures contracts will constitute liabilities of the Fund and (3) if the Fund writes call options on futures contracts and does not own the underlying futures contract, 105% of the Market Value of the underlying futures contract will constitute a liability of the Fund; (F) the Fund shall enter into only exchange-traded futures and shall write only exchange-traded options on exchanges approved by Moody's; (G) where delivery may be made to the Fund with any of a class of securities, the Fund shall assume for purposes of the APS Basic Maintenance Amount that it takes delivery of that security which yields it the least value; (H) the Fund will not engage in forward contracts; (I) the Fund will enter into futures contracts as seller only if it owns the underlying security; and (J) there shall be a quarterly audit made of the Fund's futures and options transactions by the Fund's independent accountants to confirm that the Fund is in compliance with these standards; or

(ii) incur any indebtedness, without prior written approval of Moody's that such indebtedness would not adversely affect the then current rating by Moody's of the APS except that the Fund may, without obtaining the written confirmation described above, incur indebtedness for the purpose of clearing securities transactions if the APS Basic Maintenance Amount would continue to be satisfied after giving effect to such indebtedness; or

(iii) issue any class or series of shares ranking prior to or on a parity with the APS with respect to the payment of dividends or the distribution of assets upon dissolution, liquidation or winding up of the Fund, or reissue any APS previously purchased or redeemed by the Fund; or

(b) For so long as any of the APS is Outstanding and S&P is rating such shares, the Fund will not, unless the Fund has received written confirmation from S&P that any such action would not impair the rating then assigned by such rating agency to the APS, engage in any one or more of the following transactions:

(i) transactions in any reverse

repurchase agreements; or

(ii) lend portfolio securities; or

B-22

(iii) borrow money, except that the Fund may, without obtaining the written confirmation described above, borrow money for the purposes of clearing securities transactions if the APS Basic Maintenance Amount would continue to be satisfied after giving effect to such borrowing; or

(iv) issue any class or series of shares ranking prior to or on a parity with the APS with respect to the payment of dividends or the distribution of assets upon dissolution, liquidation or winding up of the Fund, or reissue any APS previously purchased or redeemed by the Fund, or merge or consolidate with any corporation; or

(v) engage in repurchase agreement transactions in which the term of such repurchase obligation is longer than 90 days, in which the underlying security is a security other than United States treasury securities (not inclusive of zero-coupon securities), demand deposits, certificates of deposits or bankers acceptance in which the counter-party or its affiliates have securities rated A1+ by S&P with respect to such underlying security; or

(vi) engage in short sale transactions;  
or

(vii) purchase or sell futures contracts or options thereon or write uncovered put or uncovered call options on portfolio securities except that (A) the Fund may engage in any S&P Hedging Transactions based on the Municipal Index, provided that the Fund shall not engage in any S&P Hedging Transaction based on the Municipal Index (other than Closing Transactions) which would cause the Fund at the time of such transaction to own or have sold the least of (1) more than 1,000 outstanding futures contracts based on the Municipal Index, (2) outstanding futures contracts based on the Municipal Index and on the Treasury Bonds exceeding in number 25% of the quotient of the fair market value of the Fund's total assets divided by 100,000 or (3) outstanding futures contract based on the Municipal Index exceeding in number 10% of the average number of daily traded futures contracts based on the Municipal Index in the month prior to the time of effecting such transaction as reported by The Wall Street Journal and (B) the Fund may engage in S&P Hedging Transactions based on Treasury Bonds, provided that the Fund shall not engage in any S&P Hedging Transaction based on Treasury Bonds (other than Closing Transactions) which would cause the Fund at the time of such transaction to own or have sold the lesser of (1) outstanding futures contracts based on Treasury Bonds and on the Municipal Index exceeding in number 25% of the quotient of the fair market value of the Fund's total assets divided by 100,000 or (2) outstanding futures contracts based on Treasury Bonds exceeding in number 10% of the average number of daily traded futures contracts based on Treasury Bonds in the month prior to the time of effecting such transaction as reported by The Wall Street Journal. For so long as the APS are rated by S&P, the Fund will engage in Closing Transactions to close out any outstanding futures contracts which the Fund owns or has sold or any outstanding option

thereon owned by the Fund in the event (A) the Fund does not have S&P Eligible Assets with an aggregate

B-23

Discounted Value equal to or greater than the APS Basic Maintenance Amount on two consecutive Valuation Dates and (B) the Fund is required to pay Variation Margin on the second such Valuation Date. For so long as the APS are rated by S&P, the Fund will engage in a Closing Transaction to close out any outstanding futures contract or option thereon in the month prior to the delivery month under the terms of such futures contract or option thereon unless the Fund holds securities deliverable under such terms. For purposes of determining S&P Eligible Assets to determine compliance with the APS Basic Maintenance Amount, no amounts on deposit with the Fund's custodian or broker representing Initial Margin or Variation Margin shall constitute S&P Eligible Assets. For so long as the APS are rated by S&P, when the Fund writes a futures contract or option thereon, it will maintain an amount of cash, cash equivalents or short-term, money market securities in a segregated account with the Fund's custodian, so that the amount so segregated plus the amount of Initial Margin and Variation Margin held in the account of the Fund's broker equals the fair market value of the futures contract, except that in the event the Fund writes a futures contract or option thereon which requires delivery of an underlying security, the Fund shall hold such underlying security.

All notices or communications, unless otherwise specified in the By-Laws of the Fund or this Certificate of Vote, shall be sufficiently given if in writing and delivered in person or mailed by first-class mail, postage prepaid. If any Commercial Paper Dealer does not quote a rate required to determine the "AA" Composite Commercial Paper Rate, the "AA" Composite Commercial Paper Rate shall be determined on the basis of the quotation or quotations furnished by the remaining Commercial Paper Dealer or Commercial Paper Dealers and any Substitute Commercial Paper Dealer or Substitute Commercial Paper Dealers selected by the

(3) California municipal securities rated MIG-1 or VMIG-1 or, if not rated by Moody's, rated SP-1+ by S&P which do not mature or have a demand feature at par exercisable within the Moody's Exposure Period and which do not have a long-term rating.

(4) For the purposes of the definition of Moody's Eligible Assets, these securities will have an assumed rating of "A" by Moody's.

Notwithstanding the foregoing, (i) the Moody's Discount Factor for short-term municipal securities will be 115%, so long as such municipal securities are rated at least MIG-1, VMIG-1 or P-1 by Moody's and mature or have

a demand feature at par exercisable within the Moody's Exposure Period or 125% as long as such municipal securities are rated at least A-1-/AA or SP-1+/AA by S&P and mature or have a demand feature at par exercisable within the Moody's Exposure Period and (ii) no Moody's Discount Factor will be applied to cash or to Receivables for Municipal Securities Sold.

Municipal securities issued by any one issuer and rated BBB by S&P may comprise no more than 4% of total Moody's Eligible Assets; such BBB-rated municipal securities, if any, together with any municipal securities issued by the same issuer and rated Baa by Moody's or A by S&P, may comprise no more than 6% of total Moody's Eligible Assets; such BBB, Baa and A-rated municipal securities, if any, together with any municipal securities issued by the same issuer and rated A by Moody's or AA by S&P, may comprise no more than 10% of total Moody's Eligible Assets; and such BBB, Baa, A and AA-rated municipal securities, if any, together with any municipal securities issued by the same issuer and rated Aa by Moody's or AAA by S&P, may comprise no more than 20% of total Moody's Eligible Assets. Where the Fund purchases an asset and agrees to sell it to a third party in the future, cash receivable by the Fund thereby will constitute a Moody's Eligible Asset if the long-term debt of such other party is rated at least A2 by Moody's and such

agreement has a term of 30 days or less; otherwise the Discounted Value of such asset will constitute a Moody's Eligible Asset. For the purposes of calculation of Moody's Eligible Assets, municipal securities which have been called for redemption by the issuer thereof shall be valued at the lower of Market Value or the call price of such municipal securities.

Notwithstanding the foregoing, an asset will not be considered a Moody's Eligible Asset to the extent that it has been deposited for the payment of (i) (A) through (i) (G) under the definition of APS Basic Maintenance Amount or it is subject to any material lien, mortgage, pledge, security interest or security agreement of any kind (collectively, "Liens"), except for (a) Liens which are being contested in good faith by appropriate proceedings and which Moody's has indicated to the Fund will not affect the status of such asset as a Moody's Eligible Asset, (b) Liens for taxes that are not then due and payable or that can be paid thereafter without penalty, (c) Liens to secure payment for services rendered or cash advanced to the Fund by Van Kampen Merritt Investment Advisory Corp., the Administrator, State Street Bank and Trust Company or the Auction Agent and (d) Liens by virtue of any repurchase agreement.

(C) subject to subclauses (A) and (B), if more than one Bid for shares of such series of APS with different rates is submitted on behalf of such Existing Holder, such Bids shall be considered valid in the ascending order of their respective rates up to and including the amount of such excess; and

B-41

(D) in any such event, the number, if any, of such Outstanding shares of such series of APS subject to any portion of Bids considered not valid in whole or in part under the clause (ii) shall be treated as the subject of a Bid for shares of such series of APS by a Potential Holder at the rate therein specified; and

(iii) all Sell Orders for shares of such series of APS shall be considered valid up to and including the excess of the number of Outstanding shares of such series of APS held by such Existing Holder over the sum of the APS subject to valid Hold Orders referred to in clause (i) above and valid Bids by such Existing Holder referred to in clause (ii) above.

(e) If more than one Bid for one or more shares of any series of APS is submitted on behalf of any Potential Holder, each such Bid submitted shall be a separate Bid with the rate and number of shares therein specified.

(f) An Order submitted by a Broker-Dealer to the Auction Agent prior to the Submission Deadline on any Auction Date shall be irrevocable.

4. Determination of Sufficient Clearing Bids, Winning Bid Rate and Applicable Rate. (a) Not earlier than the Submission Deadline on each Auction Date, the Auction Agent shall assemble all valid Orders submitted or deemed submitted to it by the Broker-Dealers (each such Order as submitted or deemed submitted by a Broker-Dealer being hereinafter referred to individually as a "Submitted Hold Order," a "Submitted Bid" or a "Submitted Sell Order," as the case may be, or as a "Submitted Order" and collectively as "Submitted Hold Orders," "Submitted Bids" or "Submitted Sell Orders," as the case may be, or as "Submitted Orders" and shall for each series of APS for which an Auction is being held determine:

(i) the excess of the number of

Outstanding shares of such series of APS over the number of Outstanding shares of such series of APS subject to Submitted Hold Orders (such excess being hereinafter referred to as the "Available APS" of such series);

(ii) from the Submitted Orders for such series whether:

(A) the number of Outstanding shares of such series of APS subject to Submitted Bids by Potential Holders specifying one or more rates equal to or lower than the Maximum Rate for such series

exceeds or is equal to the sum of

(B) the number of Outstanding shares of such series of APS subject to Submitted Bids by Existing Holders specifying one or more rates higher than the Maximum Rate for such series; and

(C) the number of Outstanding shares of such series of APS subject to Submitted Sell Orders

B-42

(in the event such excess or such equality exists (other than because the number of shares of such series of APS in subclauses (B) and (C) above is zero because all of the Outstanding shares of such series of APS are subject to Submitted Hold Orders), such Submitted Bids in subclause (A) above being hereinafter referred to collectively as "Sufficient Clearing Bids" for such series); and

(iii) if Sufficient Clearing Bids for such series exist, the lowest rate specified in such Submitted Bids (the "Winning Bid Rate" for such series) which if:

(A) (I) each such Submitted Bid from Existing Holders specifying such lowest rate and (II) all other such Submitted Bids from Existing Holders specifying lower rates were rejected, thus entitling such Existing Holders to continue to hold the shares of such series of APS that are subject to such Submitted Bids; and

(B) (I) each such Submitted Bid from Potential Holders specifying such lowest rate and (II) all other such Submitted Bids from Potential Holders specifying lower rates were accepted;

would result in such Existing Holders described in subclause (A) above continuing to hold an aggregate number of Outstanding shares of such series of APS which, when added to the number of Outstanding shares of such series of APS to be purchased by such Potential Holders described in subclause (B) above, would equal not less than the Available APS of such series.

(b) Promptly after the Auction Agent has made the determinations pursuant to paragraph (a) of this Section 4, the Auction Agent shall advise the Fund of the Maximum Rate for each series of APS for which an Auction is being held on the Auction Date and, based on such determination, the Applicable Rate for each such series for the next succeeding Rate Period thereof as follows:

(i) if Sufficient Clearing Bids for such series exist, that the Applicable Rate for such series for the next succeeding Rate Period thereof shall be equal to the Winning Bid Rate for such series to determined;

(ii) if Sufficient Clearing Bids for such series do not exist (other than because all of the Outstanding shares of such series of APS are subject to Submitted Hold Orders), that the Applicable Rate for such series for the next succeeding Rate Period, which shall be a Minimum Dividend Period, thereof shall be equal to the Maximum Rate for such series; or

(iii) if all of the Outstanding shares of such series of APS are subject to Submitted Hold Orders, that the Applicable Rate for such series for the next succeeding Rate Period thereof shall be equal to the product of (A) (I) the "AA" Composite Commercial Paper Rate on such Auction Date for such Rate Period, if such Rate Period consists of less than four Dividend Periods or (II) the Treasury Rate on such Auction Date for such Rate Period, if such Rate Period consists of four or more Dividend Periods and (B) 1 minus the maximum marginal regular federal individual income tax rate applicable to ordinary income

B-43

or the maximum marginal regular federal corporate income tax rate, whichever is greater; provided, however, that if the Fund has notified the Auction Agent of its intent to allocate to the APS in such Rate Period any net capital gains or other income taxable for Federal income tax purposes, the Applicable Rate in respect of that portion of the dividend on the APS for such Rate Period that represents the allocation of net capital gains or other income taxable for Federal income tax purposes shall be the rate described in the preceding clause (A) (I) or (II), as applicable, without being multiplied by the factor set forth in the preceding clause (B).

5. Acceptance and Rejection of Submitted Bids and Submitted Sell Orders and Allocation of Shares. Existing Holders shall continue to hold the APS that are subject to Submitted Hold Orders, and, based on the determinations made pursuant to paragraph (a) of Section 4 of this Part II, the Submitted Bids and Submitted Sell Orders shall be accepted or rejected and the Auction Agent shall take such other action as set forth below:

(a) If Sufficient Clearing Bids for any series of APS have been made, all Submitted Sell Orders shall be accepted and, subject to the provisions of paragraphs (d) and (e) of this Section 5, Submitted Bids shall be accepted or rejected as follows in the following order of priority and all other Submitted Bids for such series shall be rejected:

(i) Existing Holders' Submitted Bids for shares of such series of APS specifying any rate that is higher than the Winning Bid Rate for such series shall be accepted, thus requiring each such Existing Holder to sell the APS subject to such Submitted Bids;

(ii) Existing Holders' Submitted Bids for shares of such series of APS specifying any rate that is lower than the Winning Bid Rate for such series shall be rejected, thus entitling

each such Existing Holder to continue to hold the APS subject to such Submitted Bids;

(iii) Potential Holders' Submitted Bids for shares of such series of APS specifying any rate that is lower than the Winning Bid Rate shall be accepted;

(iv) each Existing Holder's Submitted Bid for shares of such series of APS specifying a rate that is equal to the Winning Bid Rate for such series shall be rejected, thus entitling such Existing Holder to continue to hold the APS subject to such Submitted Bid, unless the number of Outstanding shares of such series of APS subject to all such Submitted Bids shall be greater than the number of shares of such series of APS ("remaining shares") in the excess of the Available APS of such series over the number of the APS subject to Submitted Bids described in clauses (ii) and (iii) of this paragraph (a), in which event such Submitted Bid of such Existing Holder shall be rejected in part, and such Existing Holder shall be entitled to continue to hold the APS subject to such Submitted Bid, but only in an amount equal to the number of shares of such series of APS obtained by multiplying the number of remaining shares by a fraction, the numerator of which shall be the number of Outstanding shares of such series of APS held by such Existing Holder subject to such Submitted Bid and the denominator of which shall be the aggregate number of Outstanding shares of such series of APS subject to such Submitted Bids made by all such Existing Holders that specified a rate equal to the Winning Bid Rate for such series; and

(v) each Potential Holder's Submitted Bid for shares of such series of APS specifying a rate that is equal to the Winning Bid Rate for such series shall be accepted but only in an amount equal to the number of shares of such series of APS obtained by multiplying the number of shares in the excess of the Available APS of such series over the number of the APS subject to Submitted Bids described in clauses (ii) through (iv) of this paragraph (a) by a fraction, the

B-44

numerator of which shall be the number of Outstanding shares of such series of APS subject to such Submitted Bid and the denominator of which shall be the aggregate number of Outstanding shares of such series of APS subject to such Submitted Bids made by all such Potential Holders that specified a rate equal to the Winning Bid Rate for such series; and

(b) If Sufficient Clearing Bids for any series of APS have not been made (other than because all of the Outstanding shares of such series of APS are subject to Submitted Hold Orders), subject to the provisions of paragraph (d) of this Section 5, Submitted Orders for such series shall be accepted or rejected as follows in the following order of priority and all other Submitted Bids for such series shall be rejected:

(i) Existing Holders' Submitted Bids for shares of such series of APS specifying any rate that is equal to or lower than the Maximum Rate for such series shall be rejected, thus entitling such Existing Holders to continue to hold the APS subject to such Submitted Bids;

(ii) Potential Holders' Submitted Bids for shares of such series of APS specifying any rate that is equal to or lower than the Maximum Rate for such series shall be accepted; and

(iii) Each Existing Holder's Submitted Bid for shares of such series of APS specifying any rate that is higher than the Maximum Rate of such series and the Submitted Sell Orders for shares of such series of APS of each Existing Holder shall be accepted, thus entitling each Existing Holder that submitted any such Submitted Bid or Submitted Sell Order to sell the shares of such series of APS subject to such Submitted Bid or Submitted Sell Order, but in both cases only in an amount equal to the number of shares of such series of APS obtained by multiplying the number of shares of such series of APS subject to Submitted Bids described in clause (ii) of this paragraph (b) by a fraction, the numerator of which shall be the number of Outstanding shares of such series of APS held by such Existing Holder subject to such Submitted Bid or Submitted Sell Order and the denominator of which shall be the aggregate number of Outstanding shares of such series of APS subject to all such Submitted Bids and Submitted Sell Orders.

B-45

(c) If all of the Outstanding shares of any series of APS are subject to Submitted Hold Orders, all Submitted Bids for such series shall be rejected.

(d) If, as a result of the procedures described in clause (iv) or (v) of paragraph (a) or clause (iii) of paragraph (b) of this Section 5, any Existing Holder would be entitled or required to sell, or any Potential Holder would be entitled or required to purchase, a fraction of a share of APS of any series on any Auction Date, the Auction Agent shall, in such manner as it shall determine in its sole discretion, round up or down the number of shares of such series of APS to be purchased or sold by any Existing Holder or Potential Holder on such Auction Date as a result of such procedures so that the number of shares of such series so purchased or sold by each Existing Holder or Potential Holder on such Auction Date shall be whole shares of APS.

(e) If, as a result of the procedures described in clause (v) of paragraph (a) of this Section 5, any Potential Holder would be entitled or required to purchase less than a whole share of any series of APS on any Auction Date, the Auction Agent shall, in such manner as it shall determine in its sole discretion, allocate shares of such series of APS for purchase among Potential Holders so that only whole shares of such series of APS are purchased on such Auction Date as a result of such procedures by any Potential Holder, even if such allocation results in one or more Potential Holders not purchasing the APS on such Auction Date.

(f) Based on the results of each Auction for a series of APS, the Auction Agent shall determine the aggregate number of shares of such series of APS to be purchased and the aggregate number of shares of such series of APS to be sold by Potential Holders and Existing Holders on whose behalf each Broker-Dealer submitted Bids or Sell Orders and, with respect to each Broker-Dealer, to the extent that such aggregate number of shares to be purchased and such aggregate number of shares to be sold differ, determine to which other Broker-Dealer or Broker-Dealers acting for one or more purchasers of shares of such series of APS such Broker-Dealer shall deliver, or from which other Broker-Dealer or Broker-Dealers acting for one or more sellers of shares of such series of APS such Broker-Dealer shall receive, as the case may be,

shares of such series of APS.

6. Notification of Allocations. In normal circumstances, whenever the Fund intends to include any net capital gains or other income taxable for Federal income tax purposes in any dividend on the APS, the Fund will notify the Auction Agent of the amount to be so included 15 days prior to the Auction Date on which the Applicable Rate for such dividend is to be established. Whenever the Auction Agent receives such notice from the Fund, it will in turn notify each Broker-Dealer, who, on or prior to such Auction Date, in accordance with its Broker-Dealer Agreement, will notify its Existing Holders and Potential Holders believed by it to be interested in submitting an Order in the Auction to be held on such Auction Date.

7. Miscellaneous. (a) To the extent permitted by applicable law, the Board of Trustees may interpret or adjust the provisions of this Certificate of Vote to resolve any inconsistency or ambiguity or to remedy any formal defect, and may amend this Certificate of Vote with respect to any series of APS prior to the issuance of such series.

B-46

(b) An Existing Holder may sell, transfer or otherwise dispose of the APS only in whole shares and only pursuant to a Bid or Sell Order in accordance with the procedures described in this Part II or to or through a Broker-Dealer or to a Person that has delivered a signed copy of a Master Purchaser's Letter to the Auction Agent; provided, that in the case of all transfers other than pursuant to Auctions, such Existing Holder, its Broker-Dealer or its Agent Member advises the Auction Agent of such transfer.

(c) All of the shares of each series of APS outstanding from time to time shall be represented by one global certificate registered in the name of the Securities Depository or its nominee.

(d) Neither the Fund nor any affiliate thereof may submit an Order in any Auction, except that any Broker-Dealer that is an affiliate of the Fund may submit Orders in an Auction, but only if such Orders are not for its own account.

IN WITNESS WHEREOF, the undersigned has caused this Certificate of Vote to be executed as of March , 1992.

Section 2 (c) (ii) of Part I of the Certificate of Vote is hereby amended to replace such section with the following:

The amount of dividends per share payable on shares of any series of APS on any date on which dividends shall be payable on shares of such series shall be computed by multiplying the respective Applicable Rate in effect for such series in effect for such Dividend Period or Dividend Periods or part thereof for which dividends have not been paid by a fraction, the numerator of which shall be the number of days in such Dividend Period of Dividend Periods or part thereof and the denominator of which shall be 365 if such Dividend Period is a Rate Period, or is contained in a Rate Period, of less than one year and 360 for all other Dividend periods, and applying the rate obtained against \$25,000.

Section 3 (a) (i) of Part I of the Certificate of Vote is hereby amended to replace such section with the following:

Section 5 (g) of Part I of the Certificate of Vote is hereby amended to replace such section with the following:

B-50

Right to Vote with Respect to Certain Other Matters. If the Fund has more than one series of APS outstanding, the

affirmative vote of the holders of a majority (unless a higher percentage vote is required under the Declaration of Trust or under this Certificate of Vote) of the outstanding shares of each series of APS, each voting as a separate class, is required with respect to any matter that materially affects the series in a manner different from that of other series of classes of the Fund's shares, including without limitation any proposal to do the following: (1) increase or decrease the aggregate number of authorized shares of the series; (2) effect any exchange, reclassification, or cancellation of all or part of the shares of the series; (3) effect an exchange, or create a right of exchange, of all or any part of the shares of the series; (4) change the rights or preferences of the shares of the series; (5) change the shares of the series, whether with or without par value, of the same or another class or series; (6) create a new class or series of shares having rights and preferences prior and superior to the shares of the series, or increase the rights and preferences or the number of authorized shares of a series having rights and preferences prior or superior to the shares of the series; or (7) cancel or otherwise affect distributions on the shares of the series that have accrued but have not been declared. To the extent that the interest of a series of APS affected by a matter are substantially identical to the interests of another series of APS affected by such matter (e.g., a vote of shareholders required under Section 13(a) of the 1940 Act), each such series shall vote together collectively as one class. The vote of holders of each series of APS described above will in each case be in addition to a separate vote of the requisite percentage of Common Shares and APS necessary to authorize the action in question.

Section 6 (a) of Part I of the Certificate of Vote is hereby amended to replace such section with the following:

Upon the dissolution, liquidation or winding up of the affairs of the Fund, whether voluntary or involuntary, the Holders of the APS then outstanding shall be entitled to receive and to be paid out of the assets of the Fund available for distribution to its shareholders, before any payment or distribution shall be made on the Common Shares or on any other class of shares of the Fund ranking junior to the APS upon dissolution, liquidation or winding up, an amount equal to the liquidation preference with respect to such shares. The liquidation preference for the APS shall be \$25,000 per share, plus an amount equal to all dividends thereon (whether or not earned or declared) accumulated but unpaid to the date of final distribution in same-day funds, together with any payments required to be made pursuant to Section 12 in connection with the liquidation of the Fund.

Section 15(f) of Part I of the Certificate of Vote is hereby amended to replace such section with the following:

B-51

"APS Basic Maintenance Amount," as of any Valuation Date, shall mean the dollar amount equal to the sum of (i) (A) the product of the number of APS Outstanding on such date

multiplied by \$25,000; (B) the aggregate amount of dividends that will have accumulated at the Applicable Rate (whether or not earned or declared) to (but not including) the first respective Dividend Payment Dates for each of the APS Outstanding that follow such Valuation Date; (C) the amount equal to the Projected Dividend Amount (based on the number of APS Outstanding on such date); (D) the amount of anticipated expenses of the Fund for the 90 days subsequent to such Valuation Date; (E) the amount of the Fund's Maximum Potential Additional Dividend Liability as of such Valuation Date; (F) the amount of any premium payable pursuant to a Premium Call Period; and (G) any current liabilities as of such Valuation Date to the extent not reflected in any of (i) (A) through (i) (F) (including, without limitation, any amounts described in Section 13 of Part I as required to be treated as liabilities in connection with the Fund's transactions in futures and options and including any payables for municipal securities purchased as of such Valuation Date) less (ii) either (A) the face value of any of the Fund's assets irrevocably deposited by the Fund for the payment of any of (i) (A) thorough (i) (G) if such assets mature within the Moody's Exposure Period and are either securities issued or guaranteed by the United States Government or have a rating assigned by Moody's of P-1, VMIG-1 or MIG-1 (or, with respect to S&P, SP-1+ or A-1+) or (B) the Discounted Value of such assets. For purposes of the APS Basic Maintenance Amount in connection with S&P's ratings of the APS, with respect to any transactions by the Fund in futures contracts, the Fund shall include as liabilities (i) 30% of the aggregate settlement value, as marked to market, of any outstanding futures contracts based on the Municipal Index which are owned by the Fund plus (ii) 25% of the aggregate settlement value, as marked to market, of any outstanding futures contracts based on Treasury Bonds which contracts are owned by the Fund. For purposes of the APS Basic Maintenance Amount in connection with Moody's rating of the APS, with respect to any transactions by the Fund in securities options, the Fund shall include as liabilities (i) 10% of the exercise price of a call option written by the Fund and (ii) the exercise price of any written put option.

Section 15 (ii) of Part I of the Certificate of Vote is hereby amended to replace such section with the following:

"Mandatory Redemption Price" means \$25,000 per share of APS plus an amount equal to accumulated but unpaid dividends thereon to the date fixed for redemption (whether or not earned or declared).

Section 15 (yy) of Part I of the Certificate of Vote is hereby amended to replace such section with the following:

B-52

"Optional Redemption Price" shall mean (i) \$25,000 per share of APS in the case of a 28-day, three-month or a six month Dividend Period or a Special Dividend Period of less than 365 days or (ii) with respect to a Special Dividend Period of 365

days or more the Optional Redemption Price set forth in the Specific Redemption Provisions in connection therewith; in each case plus an amount equal to accumulated but unpaid dividends thereon to the date of redemption (whether or not earned or declared).

Section 15 (ppp) of Part I of the Certificate of Vote is hereby amended to replace such section with the following:

"Specific Redemption Provisions" means, with respect to any Special Dividend Period of 365 or more days, either, or any combination of, (i) a period (a "Non-Call Period") determined by the Board of Trustees, after consultation with the Broker-Dealers, during which the shares subject to such Special Dividend Period are not subject to redemption at the option of the Fund, and (ii) a period (a "Premium Call Period"), consisting of a number of whole years and determined by the Board of Trustees, after consultation with the Broker-Dealers, during each year of which the shares subject to such Special Dividend Period shall be redeemable at the Fund's option at a price per share equal to \$25,000 plus accumulated but unpaid dividends plus a premium expressed as a percentage of \$25,000 as determined by the Board of Trustees after consultation with the Broker-Dealers; provided, that during any Special Dividend Period of 365 or more days if, on the date of determination of the Applicable Rate for such Series, such Applicable Rate equaled or exceeded the Treasury Rate, the Fund may redeem APS without regard to any Non-Call Period or Premium Call Period at the Mandatory Redemption Price.

ARTICLES OF AMENDMENT TO  
THE CERTIFICATE OF VOTE OF TRUSTEES  
CHANGING THE TIMING OF CERTAIN REPORTS TO RATING  
AGENCIES

Van Kampen Trust for Investment Grade Municipals, a Massachusetts business trust (the "Fund"), certifies to the Secretary of State of the Commonwealth of Massachusetts as follows:

FIRST: On September 25, 2003, the Board of Trustees of the Fund, pursuant to the provisions of Article VI of the Amended and Restated Declaration of Trust (the "Declaration of Trust") of the Fund and Section 5 of Part I of the Certificate of Vote of Trustees Establishing a Class of Preferred Shares (the "Certificate of Vote") of the Fund, authorized an amendment to the Certificate of Vote to change the timing of filing certain reports with rating agencies from quarterly to annually and to make conforming changes to the Certificate of Vote.

SECOND: Pursuant to the provisions of Article VI of the Declaration of Trust and Section 5 of Part I of the Certificate of Vote of the Fund, the following amendments to the Certificate of Vote have been duly adopted and approved by a majority of the Trustees of the Fund.

a. Section 5 (d) (ii) of Part I of the Certificate of Vote is hereby amended to replace the term "Quarterly Valuation Date" with the term "Annual Valuation Date."

b. The second and third sentences of Section 9(b) of Part I of the Certificate of Vote are hereby amended to replace such sentences with the following:

The Fund shall also deliver to S&P (if S&P is then rating the APS), Moody's (if Moody's is then rating the APS) and the Auction Agent (if either S&P or Moody's is then rating the APS) an APS Basic Maintenance Report as of the last Valuation Date of each month on or before the third Business Day after such day. The Fund shall also deliver to S&P (if S&P is then rating the APS) and Moody's (if Moody's is then rating the APS) an APS Basic Maintenance Report whenever (i) the Fund shall have redeemed APS or Common Shares, (ii) the Fund shall fail to have S&P Eligible Assets or Moody's Eligible Assets with an aggregate Discounted Value at least equal to 105% of the APS Basic Maintenance Amount, or (iii) whenever requested by Moody's or S&P, in each case on or before the third Business Day after such day.

c. Section 9 (c) of Part I of the Certificate of Vote is hereby amended to replace such section with the following:

d. The final clause of Section 13 (a) (i) of Part I of the Certificate of Vote, which read "there shall be a quarterly audit made of the Fund's futures and options transactions by the Fund's independent accountants to confirm that the Fund is in compliance with these standards; or" is hereby amended to replace such clause with the following:

ARTICLES OF AMENDMENT TO  
THE CERTIFICATE OF VOTE OF TRUSTEES  
ESTABLISHING PREFERRED SHARES OF  
VAN KAMPEN TRUST FOR INVESTMENT GRADE MUNICIPALS

Pursuant to the provisions of the Declaration of Trust of Van Kampen Trust for Investment Grade Municipals (the "Fund") and pursuant to the provisions of the Certificate of Vote of Trustees Establishing Preferred Shares of the Fund (the "Certificate of Vote"), the following amendments to the

Certificate of Vote have been duly adopted and approved by a majority of the Trustees of the Fund.

- (a) The title, the first paragraph and the second paragraph of the Certificate of Vote are amended by replacing such title and paragraphs with the following:

CERTIFICATE OF VOTE OF TRUSTEES ESTABLISHING  
SEVEN SERIES OF PREFERRED SHARES

Ronald A. Nyberg, formerly Secretary, of Van Kampen Trust for Investment Grade Municipals (formerly known as Van Kampen Merritt Trust For Investment Grade Municipals) (the "Fund") located at One Parkview Plaza, Oakbrook Terrace, IL 60181, previously certified that at a meeting of the trustees of the Fund held on February 20, 1992, a vote establishing and designating four series of preferred shares of beneficial interest and determining the relative rights and preferences thereof was duly adopted (which vote has subsequently been amended). I, Stefanie V. Chang Yu, Vice President and Secretary of the Fund do hereby certify that at a meeting of the trustees of the Fund held on February 3, 2005, the trustees voted to establish and designate three additional series of preferred shares of beneficial interest ranking on parity with the existing preferred shares of beneficial interest and to amend the Fund's vote establishing and designating preferred shares of beneficial interest and determining the relative rights and preferences, which vote, as amended, is set forth below:

First: Pursuant to authority expressly vested in the Board of Trustees of the Fund by Article VI of its Declaration of Trust (which, as amended or restated from time to time is, together with this Certificate of Vote, herein called the "Declaration of Trust"), the Board of Trustees hereby authorizes the issuance of seven series of 17,200 shares of its authorized preferred shares of beneficial interest, par value \$.01 per share ("Preferred Shares"), liquidation preference of \$25,000 per share, designated, respectively, Auction Preferred Shares, Series A ("APS Series A"), Auction Preferred Shares, Series B ("APS Series B"), Auction Preferred Shares, Series C ("APS Series C"), Auction Preferred Shares, Series D ("APS Series D"), Auction Preferred Shares, Series E ("APS Series E"), Auction Preferred Shares, Series F ("APS Series F") and Auction Preferred Shares, Series G ("APS Series G") (collectively, the APS Series A, APS Series

B-57

B, APS Series C, APS Series D, APS Series E, APS Series F and APS Series G are referred to as "APS").

- (b) After the fourth paragraph under the heading "DESIGNATION," of the Certificate of Vote, a fifth through seventh paragraph are added as follows:

APS SERIES E: A class of 2,200 preferred shares of beneficial interest, \$.01 par value, liquidation preference \$25,000 per share, is hereby designated "Auction Preferred Shares, Series E" (hereinafter, "APS Series E"). Each share of APS Series E shall be issued on October 7, 2005; have an Applicable Rate for its Initial Dividend Period equal to 2.850% per annum, have an Initial Dividend Payment Date of Monday, October 31, 2005; and have such other preferences, limitations and relative voting rights, in addition to those required by applicable law or set forth in the Declaration of Trust applicable to preferred shares of beneficial interest of the Fund, as are set forth in Part I and Part II of this Certificate of Vote. The APS Series E shall constitute a separate

series of Preferred Shares of beneficial interest of the Fund, and each share of APS Series E shall be identical except as provided in Section 3 of Part I of this Certificate of Vote.

APS SERIES F: A class of 2,200 preferred shares of beneficial interest, \$.01 par value, liquidation preference \$25,000 per share, is hereby designated "Auction Preferred Shares, Series F" (hereinafter, "APS Series F"). (d) Section 5 (g) of Part I of the Certificate of Vote is hereby amended to replace such section with the following:

Right to Vote with Respect to Certain Other Matters. If the Fund has more than one series of APS outstanding, the affirmative vote of the holders of a majority (unless a higher percentage vote is required under the Declaration of Trust or under this Certificate of Vote) of the outstanding shares of each series of APS, each voting as a separate class, is required with respect to any matter that materially affects the series in a manner different from that of other series of classes of the Fund's shares, including without limitation any proposal to do the following: (1) increase or decrease the aggregate number of authorized shares of the series; (2) effect any exchange, reclassification, or cancellation of all or part of the shares of the series; (3) effect an exchange, or create a right of exchange, of all or any part of the shares of the series; (4) change the rights or preferences of the shares of the series; (5) change the shares of the series, whether with or without par value, into the same or a different number of shares, either with or without par value, of the same or another class or series; (6) create a new class or series of shares having rights and preferences prior and superior to the shares of the series, or increase the rights and preferences or the number of authorized shares of a series having rights and preferences prior or superior to the shares of the

series; or (7) cancel or otherwise affect distributions on the shares of the series that have accrued but have not been declared. To the extent that the interest of a series of APS affected by a matter are substantially identical to the interests of another series of APS affected by such matter (e.g., a vote of shareholders required under Section 13(a) of the 1940 Act), each such series shall vote together collectively as one class. The vote of holders of each series of APS described above will in each case be in addition to a separate vote of the requisite percentage of Common Shares and APS necessary to authorize the action in question.

(e) The definition of "Minimum Dividend Period" in Section 15 of Part I of the Certificate of Vote is amended by replacing such defined term with the following:

"Minimum Dividend Period" shall mean with respect to APS Series A, APS Series B, APS Series C, APS Series D, APS Series E, APS Series F and APS Series G, any Rate Period consisting of 28 Rate Period Days.

PERFORMANCE DATA QUOTED REPRESENTS PAST PERFORMANCE, WHICH IS NO GUARANTEE OF FUTURE RESULTS, AND CURRENT PERFORMANCE MAY BE LOWER OR HIGHER THAN THE FIGURES SHOWN. FOR THE MOST RECENT MONTH-END PERFORMANCE FIGURES, PLEASE VISIT VANKAMPEN.COM OR SPEAK WITH YOUR FINANCIAL ADVISOR. INVESTMENT RETURNS, NET ASSET VALUE (NAV) AND COMMON SHARE MARKET PRICE WILL FLUCTUATE AND TRUST SHARES, WHEN SOLD, MAY BE WORTH MORE OR LESS THAN THEIR ORIGINAL COST.

NAV per share is determined by dividing the value of the trust's portfolio securities, cash and other assets, less all liabilities and preferred shares, by the total number of common shares outstanding. The common share market price is the price the market is willing to pay for shares of the trust at a given time. Common share market price is influenced by a range of factors, including supply and demand and market conditions. Total return assumes an investment at the beginning of the period, reinvestment of all distributions for the period in accordance with the trust's dividend reinvestment plan, and sale of all shares at the end of the period.

The Lehman Brothers Municipal Bond Index is a broad-based statistical composite of municipal bonds. The index does not include any expenses, fees or sales charges, which would lower performance. The index is unmanaged and should not be considered an investment. It is not possible to invest directly in an index.

#### Trust Report

FOR THE 12-MONTH PERIOD ENDED OCTOBER 31, 2006

#### MARKET CONDITIONS

Against the backdrop of strong economic growth, good employment data and inflationary pressures stemming from rising oil prices, the Federal Open Market Committee (the "Fed") continued its tightening campaign during the first eight months of the reporting period, raising the fed funds target rate six times to 5.25 percent at the end of June. As the months progressed however, economic growth moderated as consumer spending and housing weakened while inflation concerns eased, prompting investors to speculate that the Fed would take a break from rate increases. In August the Fed did pause, ending a two-year run of 17 consecutive rate increases--the longest stretch of increases in 25 years. At its subsequent meetings, the Fed again kept its target rate unchanged, and indicated that any future rate increases would be driven by the weight of economic data.

As a result of the improved outlook for the fixed-income market, yields on longer-maturity municipal bonds fell dramatically in latter months of the reporting year, ultimately ending at the lowest level in decades and causing this segment of the market to earn the best returns. Shorter-maturity municipal bonds, however, posted the lowest returns as Fed rate hikes moved yields in this portion of the curve higher. Accordingly, the slope of the municipal yield curve flattened as the spread between short-term and long-term interest rates narrowed.

Demand for municipal bonds continued to be strong during the period. In fact, inflows into municipal bond funds were 55 percent higher year-to-date through October than for the same period last year, much of which went into high-yield funds. Because prevailing interest rates were still at relatively low levels, investors increasingly sought out lower-quality, higher-yielding bonds. The

increased demand for high-yield bonds led this segment of the market to considerably outperform high-grade issues.

Although municipal bond issuance remained brisk in the last quarter of 2005, volume declined throughout the remaining months of the period. As of the end of October, national municipal bond issuance was down 13 percent for 2006. The reduced supply, coupled with growing demand, further fueled municipal bond performance.

C-4

PERFORMANCE ANALYSIS

The trust's return can be calculated based upon either the market price or the net asset value (NAV) of its shares. NAV per share is determined by dividing the value of the trust's portfolio securities, cash and other assets, less all liabilities and preferred shares, by the total number of common shares outstanding, while market price reflects the supply and demand for the shares. As a result, the two returns can differ, as they did during the reporting period. On an NAV and market price basis, the trust outperformed its benchmark index, the Lehman Brothers Municipal Bond Index.

TOTAL RETURNS FOR THE 12-MONTH PERIOD ENDED OCTOBER 31, 2006

BASED ON NAV	BASED ON MARKET PRICE	LEHMAN BROTHERS MUNICIPAL BOND INDEX
8.52%	9.86%	5.75%

Performance data quoted represents past performance, which is no guarantee of future results, and current performance may be lower or higher than the figures shown. Investment return, net asset value and common share market price will fluctuate and trust shares, when sold, may be worth more or less than their original cost. See Performance Summary for additional performance information and index definition.

Throughout the reporting period, we sought opportunities to enhance the portfolio's yield, while still adhering to our quality-driven investment discipline. We did so primarily by implementing two general strategies. First, we increased the portfolio's exposure to lower-rated, higher-yielding securities. Specifically, we added to holdings in BBB rated credits while reducing holdings in AAA rated credits. This strategy proved beneficial to performance as credit spreads in the high-yield segment of the market tightened, leading high-yield bonds to considerably outperform higher-quality bonds. Second, we emphasized the long end of the yield curve, favoring bonds with maturities of 20 to 30 years. Given the flattening of the yield curve during the period, attractive yields were primarily found on the very long end of the curve and our focus here was additive to performance.

Reflecting our view that interest rates in the Treasury market would continue to rise, we kept the portfolio's duration (a measure of interest-rate sensitivity) shorter than that of the Lehman Brothers Municipal Bond Index for much of the period. In the latter months, when it appeared that the Fed was done raising rates, we increased the portfolio's duration to a more neutral stance. While

this positioning overall was beneficial, the trust could have benefited even more had we increased the duration earlier in the reporting period. In addition, rising interest rates made the trust's borrowing activity more expensive, thereby tempering the benefits of leverage for much of the period. The trust uses leverage to enhance its dividend to common shareholders. The trust borrows money at short-term rates through the issuance of preferred shares. The

C-5

proceeds are reinvested in longer-term securities, taking advantage of the difference between short- and longer-term rates.

In keeping with our focus on high-yielding credits, we increased the trust's holdings of tobacco revenue bonds, which are BBB rated. The litigation environment for tobacco companies has become quite favorable, demand for the bonds remains strong, and the industry continues to prosper. We also added to holdings in hospital bonds, which have benefited from spread tightening in the sector. Our decision to increase the trust's exposure to these sectors during the period was additive to performance as they performed strongly.

The trust remained well diversified among the major sectors of the municipal market. The largest sectors at the end of the period were hospital, general purpose and public education.

The Trustees have approved a procedure whereby the trust may, when appropriate, repurchase its shares in the open market or in privately negotiated transactions at a price not above market value or NAV, whichever is lower at the time of purchase. This may help support the market value of the trust's shares.

There is no guarantee that any sectors mentioned will continue to perform as discussed herein or that securities in such sectors will be held by the trust in the future.

#### CHANGES IN INVESTMENT POLICIES

The Board of Trustees of the trust recently approved the following non-fundamental investment policy for the trust: The trust may invest up to 20% of its assets in securities that are rated, at the time of investment, BB/Ba or B by Standard & Poor's Ratings Service ("S&P"), Moody's Investors Services, Inc. ("Moody's") or Fitch Ratings Ltd. ("Fitch") or that are unrated, but deemed to be of comparable quality by the Adviser. These securities are regarded as below investment grade and are commonly referred to as junk bonds, and involve greater risks than investments in higher-grade securities.

Securities that are in the lower-grade categories generally offer higher yields than are offered by higher-grade securities of similar maturities, but they also generally involve greater risks, such as greater credit risk, greater market risk and volatility, greater liquidity concerns and potentially greater manager risk. Rated lower-grade debt securities are regarded by S&P, Moody's and Fitch as predominately speculative with respect to the capacity to pay interest or repay principal or interest in accordance with their terms. Investors should carefully consider the risks of owning shares of a fund which invests in lower-grade securities before investing in the trust.

C-6

Lower-grade securities are more susceptible to nonpayment of interest and

principal or default than higher-grade securities. Increases in interest rates or changes in the economy may significantly affect the ability of lower-grade income securities to pay interest and to repay principal, to meet projected financial goals or to obtain additional financing. In the event that an issuer of securities held by the trust experiences difficulties in the timely payment of principal and interest and such issuer seeks to restructure the terms of its borrowings, the trust may incur additional expenses and may determine to invest additional assets with respect to such issuer or the project or projects to which the trust's securities relate. Further, the trust may incur additional expenses to the extent that it is required to seek recovery upon a default in the payment of interest or the repayment of principal on its portfolio holdings, and the trust may be unable to obtain full recovery on such amounts.

The secondary market prices of lower-grade securities generally are less sensitive to changes in interest rates and are more sensitive to real or perceived general adverse economic changes or specific developments with respect to the particular issuers than are the secondary market prices of higher-grade securities. A significant increase in interest rates or a general economic downturn could severely disrupt the market for lower-grade securities and adversely affect the market value of such securities. Such events also could lead to a higher incidence of default by issuers of lower-grade securities as compared with higher-grade securities. In addition, changes in credit risks, interest rates, the credit markets or periods of general economic uncertainty can be expected to result in increased volatility in the market price of lower-grade securities in the trust and thus in the net asset value of the trust. Adverse publicity and investor perceptions, whether or not based on rational analysis, may affect the value, volatility and liquidity of lower-grade securities.

The markets for lower-grade securities may be less liquid than the markets for higher-grade securities. To the extent that there is no established retail market for some of the lower-grade securities in which the trust may invest, trading in such securities may be relatively inactive. Prices of lower-grade securities may decline rapidly in the event a significant number of holders decide to sell. Changes in expectations regarding an individual issuer of lower-grade securities generally could reduce market liquidity for such securities and make their sale by the Trust more difficult, at least in the absence of price concessions. The effects of adverse publicity and investor perceptions may be more pronounced for securities for which no established retail market exists as compared with the effects on securities for which such a market does exist. An economic downturn or an increase in interest rates could severely disrupt the market for such securities and adversely affect the value of outstanding securities or the ability of the issuers to repay principal and interest. Further, the trust may have more difficulty selling such securities in a timely manner and at their stated value than would be the case for securities for which an established retail market does exist.

C-7

The market for lower grade securities may have less available information, further complicating evaluations and valuations of such securities and placing more emphasis on the Adviser's experience, judgment and analysis than other securities.

Investment Advisory Agreement Approval

Both the Investment Company Act of 1940 and the terms of the Fund's investment advisory agreement require that the investment advisory agreement between the Fund and its investment adviser be approved annually both by a majority of the Board of Trustees and by a majority of the independent trustees voting separately.

On May 22, 2006, the Board of Trustees, and the independent trustees voting separately, determined that the terms of the investment advisory agreement are fair and reasonable and approved the continuance of the investment advisory contract as being in the best interests of the Fund and its shareholders. In making its determination, the Board of Trustees considered materials that were specifically prepared by the investment adviser at the request of the Board and Fund counsel, and by an independent provider of investment company data contracted to assist the Board, relating to the contract review process. The Board also considered information received periodically about the portfolio, performance, the investment strategy, portfolio management team and fees and expenses of the Fund. Finally, the Board considered materials it had received in approving a reorganization of the Fund. The Board of Trustees considered the contract over a period of several months and the non-management trustees held sessions both with the investment adviser and separate from the investment adviser in reviewing and considering the contract.

In approving the investment advisory agreement, the Board of Trustees considered, among other things, the nature, extent and quality of the services provided by the investment adviser, the performance, fees and expenses of the Fund compared to other similar funds and other products, the investment adviser's expenses in providing the services and the profitability of the investment adviser and its affiliated companies. The Board of Trustees considered the extent to which any economies of scale experienced by the investment adviser are shared with the Fund's shareholders, and the propriety of breakpoints in the Fund's investment advisory fee schedule. The Board of

Trustees considered comparative advisory fees of the Fund and other investment companies and/or other products at different asset levels, and considered the trends in the industry. The Board of Trustees evaluated other benefits the investment adviser and its affiliates derive from their relationship with the Fund. The Board of Trustees reviewed information about the foregoing factors and considered changes, if any, in such information since its previous approval. The Board of Trustees discussed the financial strength of the investment adviser and its affiliated companies and the capability of the personnel of the investment adviser, and specifically the strength and background of its portfolio management personnel. The Board of Trustees reviewed the statutory and regulatory requirements for approval and disclosure of investment advisory agreements. The Board of Trustees, including the independent trustees, evaluated all of the foregoing and does not believe any single factor or group of factors control or dominate the review process, and, after considering all factors

C-13

together, has determined, in the exercise of its business judgment, that approval of the investment advisory agreement is in the best interests of the Fund and its shareholders. The following summary provides more detail on certain matters considered but does not detail all matters considered.

**Nature, Extent and Quality of the Services Provided.** On a regular basis, the Board of Trustees considers the roles and responsibilities of the investment adviser as a whole and for those specific portfolio management, support and trading functions servicing the Fund. The trustees discuss with the investment adviser the resources available and used in managing the Fund. The trustees also discuss certain other services which are provided on a cost-reimbursement basis by the investment adviser or its affiliates to the Van Kampen funds including certain accounting, administrative and legal services. The Board has determined that the nature, extent and quality of the services provided by the investment adviser support its decision to approve the investment advisory contract.

**Performance, Fees and Expenses of the Fund.** On a regular basis, the Board of Trustees reviews the performance, fees and expenses of the Fund compared to its peers and to appropriate benchmarks. In addition, the Board spends more focused time on the performance of the Fund and other funds in the Van Kampen complex, paying specific attention to underperforming funds. The trustees discuss with the investment adviser the performance goals and the actual results achieved in managing the Fund. When considering a fund's performance, the trustees and the investment adviser place emphasis on trends and longer-term returns (focusing on one-year, three-year and five-year performance with special attention to three-year performance) and, when a fund's weighted performance is under the fund's benchmark, they discuss the causes and where necessary seek to make specific changes to investment strategy or investment personnel. The Fund discloses more information about its performance elsewhere in this report. The trustees discuss with the investment adviser the level of advisory fees for this Fund relative to comparable funds and other products advised by the adviser and others in the marketplace. The trustees review not only the advisory fees but other fees and expenses (whether paid to the adviser, its affiliates or others) and the Fund's overall expense ratio. The Board has determined that the performance, fees and expenses of the Fund support its decision to approve the investment advisory contract.

**Investment Adviser's Expenses in Providing the Service and Profitability.** At least annually, the trustees review the investment adviser's expenses in providing services to the Fund and other funds advised by the investment adviser and the profitability of the investment adviser. These profitability reports are put together by the investment adviser with the oversight of the Board. The trustees discuss with the investment adviser its revenues and expenses,

Edgar Filing: VAN KAMPEN TRUST FOR INVESTMENT GRADE MUNICIPALS - Form N-14 8C

including among other things, revenues for advisory services, portfolio management-related expenses, revenue sharing arrangement costs and allocated expenses both on an aggregate basis and per fund. The Board has determined that the analysis of the

C-14

investment adviser's expenses and profitability support its decision to approve the investment advisory contract.

Economies of Scale. On a regular basis, the Board of Trustees considers the size of the Fund and how that relates to the Fund's expense ratio and particularly the Fund's advisory fee rate. In conjunction with its review of the investment adviser's profitability, the trustees discuss with the investment adviser how more (or less) assets can affect the efficiency or effectiveness of managing the Fund's portfolio and whether the advisory fee level is appropriate relative to current asset levels and/or whether the advisory fee structure reflects economies of scale as asset levels change. The Board has determined that its review of the actual and potential economies of scale of the Fund support its decision to approve the investment advisory contract.

Other Benefits of the Relationship. On a regular basis, the Board of Trustees considers other benefits to the investment adviser and its affiliates derived from its relationship with the Fund and other funds advised by the investment adviser. These benefits include, among other things, fees for transfer agency services provided to the funds, in certain cases research received by the adviser generated from commission dollars spent on funds' portfolio trading, and in certain cases distribution or service related fees related to funds' sales. The trustees review with the investment adviser each of these arrangements and the reasonableness of its costs relative to the services performed. The Board has determined that the other benefits received by the investment adviser or its affiliates support its decision to approve the investment advisory contract.

VAN KAMPEN TRUST FOR INVESTMENT GRADE MUNICIPALS

NOTES TO FINANCIAL STATEMENTS -- OCTOBER 31, 2006

1. SIGNIFICANT ACCOUNTING POLICIES

Van Kampen Trust for Investment Grade Municipals (the "Trust") is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940 (the "1940 Act"), as amended. The Trust's investment objective is to seek to provide a high level of current income exempt from federal income taxes, consistent with preservation of capital. The Trust will invest substantially all of its assets in municipal securities rated investment grade at the time of investment. The Trust commenced investment operations on January 24, 1992.

The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. SECURITY VALUATION Municipal bonds are valued by independent pricing services or dealers using the mean of the bid and asked prices or, in the absence of market quotations, at fair value based upon yield data relating to municipal bonds with similar characteristics and general market conditions. Securities which are not valued by independent pricing services or dealers are valued at fair value using procedures established in good faith by the Board of Trustees. Futures contracts are valued at the settlement price established each day on the exchange on which they are traded. Interest rate swaps are valued using market quotations from brokers. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value.

B. SECURITY TRANSACTIONS Security transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis. The Trust may purchase and sell securities on a "when-issued" or "delayed delivery" basis, with settlement to occur at a later date. The value of the security so purchased is subject to market fluctuations during this period. The Trust will segregate assets with the custodian having an aggregate value at least equal to the amount of the when-issued or delayed delivery purchase commitments until payment is made. At October 31, 2006, the Trust had \$43,863,647 of when-issued or delayed delivery purchase commitments.

C. INVESTMENT INCOME Interest income is recorded on an accrual basis. Bond premium is amortized and discount is accreted over the expected life of each applicable security.

D. FEDERAL INCOME TAXES It is the Trust's policy to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required.

VAN KAMPEN TRUST FOR INVESTMENT GRADE MUNICIPALS

NOTES TO FINANCIAL STATEMENTS -- OCTOBER 31, 2006 continued

At October 31, 2006, the cost and related gross unrealized appreciation and depreciation are as follows:

Cost of investments for tax purposes.....	\$1,095,174,331	
	=====	
Gross tax unrealized appreciation.....	\$ 77,027,727	
Gross tax unrealized depreciation.....	(622)	
	-----	
Net tax unrealized appreciation on investments.....	\$ 77,027,105	
	=====	

E. DISTRIBUTION OF INCOME AND GAINS The Trust declares and pays monthly dividends from net investment income to common shareholders. Net realized gains, if any, are distributed annually on a pro rata basis to common and preferred shareholders. Distributions from net realized gains for book purposes may include short-term capital gains and a portion of future gains, which are included as ordinary income for tax purposes.

The tax character of distributions paid during the years ended October 31, 2006 and 2005 was as follows:

	2006	2005
Distributions paid from:		
Ordinary income.....	\$ 105,360	\$ 96,040
Tax exempt income.....	48,205,641	32,252,093
Long-term capital gain.....	13,213,965	-0-
	-----	-----
	\$61,524,966	\$32,348,133
	=====	=====

Due to inherent differences in the recognition of income, expenses, and realized gains/losses under accounting principles generally accepted in the United States of America and federal income tax purposes, permanent differences between book and tax basis reporting for the 2006 fiscal year have been identified and appropriately reclassified on the Statement of Assets and Liabilities. Permanent book to tax differences relating to merger costs and excise taxes which were not deductible for tax purposes totaling \$54,608 and \$95,688, respectively, were reclassified from accumulated undistributed net investment income to paid in surplus. Additionally, a permanent difference relating to book to tax accretion differences totaling \$64,790 was reclassified from accumulated undistributed net investment income to accumulated net realized gain.

As of October 31, 2006, the components of distributable earnings on a tax basis was as follows:

Undistributed ordinary income.....	\$ 207,646
Undistributed tax exempt income.....	2,453,164
Undistributed long-term capital gain.....	1,092,071

Net realized gains or losses may differ for financial reporting and tax purposes as a result of the deferral of losses relating to wash sale transactions, gains or losses recognized on securities for tax purposes but not for book and gains or losses recognized for tax purposes on open futures transactions on October 31, 2006.

VAN KAMPEN TRUST FOR INVESTMENT GRADE MUNICIPALS

NOTES TO FINANCIAL STATEMENTS -- OCTOBER 31, 2006 continued

F. FLOATING RATE NOTE OBLIGATIONS RELATED TO SECURITIES HELD The Trust enters into transactions in which it transfers to dealer trusts fixed rate bonds in exchange for cash and residual interests in the dealer trusts' assets and cash flows, which are in the form of inverse floating rate investments. The dealer trusts fund the purchases of the fixed rate bonds by issuing floating rate notes to third parties and allowing the Trust to retain residual interests in the bonds. The Trust enters into shortfall agreements with the dealer trusts, which commit the Trust to pay the dealer trusts, in certain circumstances, the difference between the liquidation value of the fixed rate bonds held by the dealer trusts and the liquidation value of the floating rate notes held by third parties, as well as any shortfalls in interest cash flows. The residual interests held by the Trust (inverse floating rate investments) include the right of the Trust (1) to cause the holders of the floating rate notes to tender their notes at par at the next interest rate reset date, and (2) to transfer the municipal bond from the dealer trusts to the Trust, thereby collapsing the dealer trusts. The Trust accounts for the transfer of bonds to the dealer trusts as secured borrowings, with the securities transferred remaining in the Trust's investment assets, and the related floating rate notes reflected as Trust liabilities under the caption "Floating Rate Note Obligations" on the Statement of Assets and Liabilities. The Trust records the interest income from the fixed rate bonds under the caption "Interest" and records the expenses related to floating rate note obligations and any administrative expenses of the dealer trusts under the caption "Interest and Residual Trust Expenses" in the Trust's Statement of Operations. The notes issued by the dealer trusts have interest rates that reset weekly and the floating rate note holders have the option to tender their notes to the dealer trusts for redemption at par at each reset date. At October 31, 2006, Trust investments with a value of \$166,552,078 are held by the dealer trusts and serve as collateral for the \$113,880,000 in floating rate notes outstanding at that date. Contractual maturities of the floating rate notes and interest rates in effect at October 31, 2006 are presented on the Portfolio of Investments.

2. INVESTMENT ADVISORY AGREEMENT AND OTHER TRANSACTIONS WITH AFFILIATES

Under the terms of the Trust's Investment Advisory Agreement, Van Kampen Asset Management (the "Adviser") will provide investment advice and facilities to the Trust for an annual fee payable monthly of .55% of the average daily net assets including preferred shares of the Trust. Effective December 1, 2006, the Adviser has agreed to waive investment advisory fees equal to .10% of the average daily net assets including preferred shares of the Trust. This waiver is voluntary and can be discontinued at any time.

For the year ended October 31, 2006, the Trust recognized expenses of approximately \$75,800 representing legal services provided by Skadden, Arps, Slate, Meagher & Flom LLP, of which a trustee of the trust is a partner of such firm and he and his law firm provide legal services as legal counsel to the Trust.

Under separate Legal Services, Accounting Services and Chief Compliance Officer (CCO) Employment agreements, the Adviser provides accounting and legal services and the CCO provides compliance services to the Trust. The costs of these services are allocated to each trust. For the year ended October 31, 2006, the Trust recognized expenses of approximately \$110,300 representing Van Kampen Investments Inc.'s or its affiliates' (collectively "Van Kampen") cost of providing accounting and legal services to the Trust, as well as, the salary, benefits and related costs of the CCO and related support staff paid by Van Kampen. Services provided pursuant to the Legal Services agreement are reported as part of

"Professional Fees" on the Statement of Operations. Services provided pursuant to the Accounting Services and CCO Employment agreement are reported as part of "Accounting and Administrative Expenses" on the Statement of Operations.

Certain officers and trustees of the Trust are also officers and directors of Van Kampen. The Trust does not compensate its officers or trustees who are also officers of Van Kampen.

The Trust provides deferred compensation and retirement plans for its trustees who are not officers of Van Kampen. Under the deferred compensation plan, trustees may elect to defer all or a portion of their compensation to a later date. Benefits under the retirement plan are payable upon retirement for a ten-year period and are based upon each trustee's years of service to the Trust. The maximum annual benefit per trustee under the plan is \$2,500.

3. CAPITAL TRANSACTIONS

For the years ended October 31, 2006 and 2005, transactions in common shares were as follows:

	YEAR ENDED OCTOBER 31, 2006	YEAR ENDED OCTOBER 31, 2005
Beginning Shares.....	43,799,086	27,013,149
Shares Issued Through Merger.....	0	16,785,937
	-----	-----
Ending Shares.....	43,799,086	43,799,086
	=====	=====

On October 7, 2005, the Trust acquired all of the assets and liabilities of the Van Kampen Municipal Income Trust (ticker symbol VMT) through a tax free reorganization approved by VMT shareholders on September 23, 2005. The Trust issued 16,785,937 common shares with a net asset value of \$285,697,964 and 6,600

Auction Preferred Shares (APS) with a liquidation value of \$165,000,000, in exchange for VMT net assets. The shares of VMT were converted into Trust shares at a ratio of 0.585182 to 1 and 1 to 20, for common shares and APS, respectively. Net unrealized appreciation on VMT as of October 7, 2005 was \$20,734,270. The Trust assumed VMT's book to tax accretion differences, which resulted in a \$404,784 increase to accumulated undistributed net investment income and a corresponding decrease to net unrealized appreciation. Combined net assets applicable to common shares on the day of the reorganization were \$745,337,328 and combined net assets including preferred shares were \$1,175,337,328. Included in these net assets was a Trustees deferred compensation balance of \$255,898 and Trustees retirement plan balance of \$74,816 which are included in accumulated undistributed net investment income. Also, included in these net assets were losses recognized for tax purposes for open futures transactions at October 7, 2005 of \$561,213 which is included in accumulated net realized gain.

#### 4. INVESTMENT TRANSACTIONS

During the period, the cost of purchases and proceeds from sales of investments, excluding short-term investments, were \$421,663,089 and \$300,901,418, respectively.

#### 5. DERIVATIVE FINANCIAL INSTRUMENTS

A derivative financial instrument in very general terms refers to a security whose value is "derived" from the value of an underlying asset, reference rate or index.

C-46

VAN KAMPEN TRUST FOR INVESTMENT GRADE MUNICIPALS

NOTES TO FINANCIAL STATEMENTS -- OCTOBER 31, 2006 continued

In order to seek to manage the interest rate exposure of the Trust's portfolio in a changing interest rate environment, the Trust may purchase or sell financial futures contracts or engage in transactions involving interest rate swaps, caps, floors or collars. The Trust expects to enter into these transactions primarily as a hedge against anticipated interest rate or fixed-income market changes, for duration management or for risk management purposes, but may also enter into these transactions to generate additional income. All of the Trust's portfolio holdings, including derivative instruments, are marked to market each day with the change in value reflected in unrealized appreciation/depreciation. Upon disposition, a realized gain or loss is recognized accordingly, except when taking delivery of a security underlying a futures contract. In this instance, the recognition of gain or loss is postponed until the disposal of the security underlying the futures contract. Risks may arise as a result of the potential inability of the counterparties to meet the terms of their contracts.

Summarized below are the specific types of derivative financial instruments used by the Trust.

A. FUTURES CONTRACTS A futures contract is an agreement involving the delivery of a particular asset on a specified future date at an agreed upon price. The Trust generally invests in exchange traded futures contracts on U.S. Treasury Bonds and Notes and typically closes the contract prior to the delivery date. These contracts are generally used to manage the Trust's effective maturity and duration. Upon entering into futures contracts, the Trust maintains an amount of cash or liquid securities with a value equal to a percentage of the contract

amount with either a futures commission merchant pursuant to the rules and regulations promulgated under the 1940 Act, as amended, or with its custodian in an account in the broker's name. This amount is known as initial margin. During the period the futures contract is open, payments are received from or made to the broker based upon changes in the value of the contract (the variation margin). The risk of loss associated with a futures contract is in excess of the variation margin reflected on the Statement of Assets and Liabilities.

Transactions in futures contracts for the year ended October 31, 2006 were as follows:

	CONTRACTS
Outstanding at October 31, 2005.....	2,572
Futures Opened.....	7,573
Futures Closed.....	(9,024)
	-----
Outstanding at October 31, 2006.....	1,121
	=====

B. INVERSE FLOATING RATE INVESTMENTS The Trust may invest a portion of its assets in inverse floating rate instruments, either through outright purchases of inverse floating rate securities or through the transfer of bonds to a dealer trust in exchange for cash and residual interests in the dealer trust. These investments are typically used by the Trust in seeking to enhance the yield of the portfolio. These instruments typically involve greater risks than a fixed rate municipal bond. In particular, these instruments are acquired through leverage or may have leverage embedded in them and therefore involve many of the risks associated with leverage. Leverage is a speculative technique that may expose the Trust to greater risk and increased costs. Leverage may cause the Trust's net asset value to be more volatile than if it had not been leveraged because leverage tends to magnify the effect of any increases or decreases in

C-47

VAN KAMPEN TRUST FOR INVESTMENT GRADE MUNICIPALS

NOTES TO FINANCIAL STATEMENTS -- OCTOBER 31, 2006 continued

the value of the Trust's portfolio securities. The use of leverage may also cause the Trust to liquidate portfolio positions when it may not be advantageous to do so in order to satisfy its obligations with respect to inverse floating rate instruments.

C. INTEREST RATE SWAPS The Trust may enter into forward interest rate swap transactions intended to help the Trust manage its overall interest rate sensitivity, either shorter or longer, generally to more closely align the Trust's interest rate sensitivity with that of the broader municipal market. Forward interest rate swap transactions involve the Trust's agreement with a counterparty to pay, in the future, a fixed or variable rate payment in exchange for the counterparty paying the Trust a variable or fixed rate payment, the accruals for which would begin at a specified date in the future (the "effective date"). The amount of the payment obligation is based on the notional amount of the forward swap contract and the termination date of the swap (which is akin to a bond's maturity). The value of the Trust's swap commitment would increase or decrease based primarily on the extent to which long-term interest rates for

bonds having a maturity of the swap's termination date increases or decreases. The Trust may terminate a swap contract prior to the effective date, at which point a realized gain or loss is recognized. When a forward swap is terminated, it ordinarily does not involve the delivery of securities or other underlying assets or principal, but rather is settled in cash on a net basis. The Trust intends, but is not obligated, to terminate its forward swaps before the effective date. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the credit risk associated with a counterparty failing to honor its commitment to pay any realized gain to the Trust upon termination. To reduce such credit risk, all counterparties are required to pledge collateral daily (based on the daily valuation of each swap) on behalf of the Trust with a value approximately equal to the amount of any unrealized gain. Reciprocally, when the Trust has an unrealized loss on a swap contract, the Trust has instructed the custodian to pledge cash or liquid securities as collateral with a value approximately equal to the amount of the unrealized loss. Collateral pledges are monitored and subsequently adjusted if and when the swap valuations fluctuate. Restricted cash, if any, for segregating purposes is shown on the Statement of Assets and Liabilities.

#### 6. PREFERRED SHARES

The Trust has outstanding 17,200 APS in seven series. Series A, B, and C contain 3,000 shares each, Series D contains 1,600 shares and Series E, F and G contain 2,200 shares each. Dividends are cumulative and the dividend rates are generally reset every 28 days through an auction process. The average rate in effect on October 31, 2006 was 3.562%. During the year ended October 31, 2006, the rates ranged from 2.599% to 5.750%.

The Trust pays annual fees equivalent to .25% of the preferred share liquidation value for the remarketing efforts associated with the preferred auctions. These fees are included as a component of "Preferred Share Maintenance" expense on the Statement of Operations.

The APS are redeemable at the option of the Trust in whole or in part at the liquidation value of \$25,000 per share plus accumulated and unpaid dividends. The Trust is subject to certain asset coverage tests and the APS are subject to mandatory redemption if the tests are not met.

C-48

VAN KAMPEN TRUST FOR INVESTMENT GRADE MUNICIPALS

NOTES TO FINANCIAL STATEMENTS -- OCTOBER 31, 2006 continued

#### 7. INDEMNIFICATIONS

The Trust enters into contracts that contain a variety of indemnifications. The Trust's maximum exposure under these arrangements is unknown. However, the Trust has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

#### 8. ACCOUNTING PRONOUNCEMENTS

In July 2006, the Financial Accounting Standards Board (FASB) issued Interpretation 48, Accounting for Uncertainty in Income Taxes -- an interpretation of FASB Statement 109 (FIN 48). FIN 48 clarifies the accounting for income taxes by prescribing the minimum recognition threshold a tax position must meet before being recognized in the financial statements. FIN 48 is effective for the fiscal years beginning after December 15, 2006. The impact to

the Trust's financial statements, if any, is currently being assessed.

In addition, in September 2006, Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS 157), was issued and is effective for fiscal years beginning after November 15, 2007. SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Management is currently evaluating the impact the adoption of SFAS 157 will have on the Trust's financial statement disclosures.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees and Shareholders of  
Van Kampen Trust for Investment Grade Municipals

We have audited the accompanying statement of assets and liabilities of Van Kampen Trust for Investment Grade Municipals (the "Trust"), including the portfolio of investments, as of October 31, 2006, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Trust is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of October 31, 2006, by correspondence with the custodian and brokers; where replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Van Kampen Trust for Investment Grade Municipals as of October 31, 2006, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

VAN KAMPEN TRUST FOR INVESTMENT GRADE MUNICIPALS

DIVIDEND REINVESTMENT PLAN

The dividend reinvestment plan offers you a prompt and simple way to reinvest your dividends and capital gains distributions into additional shares of your trust. Under the plan, the money you earn from dividends and capital gains distributions will be reinvested automatically in more shares of your trust, allowing you to potentially increase your investment over time.

PLAN BENEFITS

- ADD TO YOUR ACCOUNT

You may increase your shares in your trust easily and automatically with the dividend reinvestment plan.

- LOW TRANSACTION COSTS

Shareholders who participate in the plan are able to buy shares at below-market prices when the trust is trading at a premium to its net asset value. In addition, transaction costs are low because when new shares are issued by the trust, there is no brokerage fee, and when shares are bought in blocks on the open market, the brokerage commission is shared among all participants.

- CONVENIENCE

You will receive a detailed account statement from Computershare Trust Company, N.A., which administers the plan, whenever shares are reinvested for you. The statement shows your total distributions, date of investment, shares acquired, and price per share, as well as the total number of shares in your reinvestment account.

- SAFEKEEPING

Computershare Trust Company, N.A. will hold the shares it has acquired for you in safekeeping, which provides added protection against loss, theft, or inadvertent destruction of certificates. However, you may request that a certificate representing your reinvested shares be issued to you.

HOW DOES THE PLAN WORK?

If you choose to participate in the plan, your dividends and capital gains distributions will be promptly reinvested for you, automatically increasing your shares. If your trust is trading at a share price that is equal to its net asset value (NAV), you'll pay that amount for your reinvested shares. However, if your trust is trading above or below its NAV, the price is determined by one of two ways:

1. PREMIUM If your trust is trading at a premium -- a market price that is higher than its NAV -- you'll pay either the NAV or 95 percent of the market price, whichever is greater. When your trust trades at a premium, you'll pay less for your reinvested shares than an ordinary investor purchasing shares on the stock exchange. Keep in mind, a portion of your price reduction may be taxable because you are receiving shares at less than market price.

C-51

VAN KAMPEN TRUST FOR INVESTMENT GRADE MUNICIPALS

DIVIDEND REINVESTMENT PLAN continued

2. DISCOUNT If your trust is trading at a discount -- a market price that is lower than its NAV -- you'll pay the market price for your reinvested shares.

HOW TO PARTICIPATE IN THE PLAN

If you own shares in your own name, you can participate directly in the plan. If your shares are held in "street name" -- in the name of your brokerage firm, bank, or other financial institution -- you must instruct that entity to participate on your behalf. If they are unable to participate on your behalf, you may request that they reregister your shares in your own name so that you may enroll in the plan.

If you choose to participate in the plan, whenever your trust declares a dividend or capital gains distribution, it will be invested in additional shares of your trust that are purchased on the open market.

HOW TO ENROLL

To enroll in the Dividend Reinvestment Plan please visit [vankampen.com](http://vankampen.com) or call (800) 341-2929 or notify us in writing at the address below.

P.O. Box 43011  
Providence, RI 02940-3011

Please include your trust name and account number and ensure that all shareholders listed on the account sign these written instructions. Your participation in the plan will begin with the next dividend or capital gains distribution payable after Computershare Trust Company, N.A. receives your authorization, as long as they receive it before the "record date," which is generally ten business days before the dividend is paid. If your authorization arrives after such record date, your participation in the plan will begin with the following dividend or distribution.

COSTS OF THE PLAN

There is no direct charge to you for reinvesting dividends and capital gains distributions because the plan's fees are paid by your trust. If your trust is trading at or above its NAV, your new shares are issued directly by the trust and there are no brokerage charges or commissions. However, if your trust is trading at a discount, the shares are purchased on the open market, and you will pay your portion of any brokerage commissions. These brokerage commissions are typically less than the standard brokerage charges for individual transactions because shares are purchased for all participants in

C-52

blocks, resulting in lower commissions for each individual participant. Any brokerage commissions or service fees are averaged into the purchase price.

Edgar Filing: VAN KAMPEN TRUST FOR INVESTMENT GRADE MUNICIPALS - Form N-14 8C

TAX IMPLICATIONS

The automatic reinvestment of dividends and capital gains distributions does not relieve you of any income tax that may be due on dividends or distributions. You will receive tax information annually to help you prepare your federal and state income tax returns.

HOW TO WITHDRAW FROM THE PLAN

To withdraw from the Dividend Reinvestment Plan please visit [vankampen.com](http://vankampen.com) or call (800) 341-2929 or notify us in writing at the address below.

Van Kampen Closed-End Funds  
Computershare Trust Company, N.A.  
P.O. Box 43011  
Providence, RI 02940-3011

All shareholders listed on the account must sign any written withdrawal instructions. If you withdraw, you have two choices for receiving your shares:

- CERTIFICATE

We will issue a certificate for the full shares and send you a check for any fractional shares without a charge.

- CHECK

We will sell all full and fractional shares and send the proceeds to your address of record after deducting brokerage commissions and a \$2.50 service fee.

The Trust and Computershare Trust Company, N.A. may amend or terminate the plan. Participants will receive written notice at least 30 days before the effective date of any amendment. In the case of termination, participants will receive written notice at least 30 days before the record date for the payment of any dividend or capital gains distribution by your trust.

NAV per share is determined by dividing the value of the trust's portfolio securities, cash and other assets, less all liabilities and preferred shares, by the total number of common shares outstanding. The common share market price is the price the market is willing to pay for shares of the trust at a given time. Common share market price is influenced by a range of factors, including supply and demand and market conditions. Total return assumes an investment at the beginning of the period, reinvestment of all distributions for the period in accordance with the trust's dividend reinvestment plan, and sale of all shares at the end of the period.

The Lehman Brothers Florida Municipal Bond Index is a broad-based statistical composite of Florida municipal bonds. The index does not include any expenses, fees or sales charges, which would lower performance. The index is unmanaged and should not be considered an investment. It is not possible to invest directly in an index.

Trust Report

FOR THE 12-MONTH PERIOD ENDED OCTOBER 31, 2006

MARKET CONDITIONS

Against the backdrop of strong economic growth, good employment data and inflationary pressures stemming from rising oil prices, the Federal Open Market Committee (the "Fed") continued its tightening campaign during the first eight months of the reporting period, raising the fed funds target rate six times to 5.25 percent at the end of June. As the months progressed however, economic growth moderated as consumer spending and housing weakened while inflation concerns eased, prompting investors to speculate that the Fed would take a break from rate increases. In August the Fed did pause, ending a two-year run of 17

consecutive rate increases--the longest stretch of increases in 25 years. At its subsequent meetings, the Fed again kept its target rate unchanged, and indicated that any future rate increases would be driven by the weight of economic data.

As a result of the improved outlook for the fixed-income market, yields on longer-maturity municipal bonds fell dramatically in latter months of the reporting year, ultimately ending at the lowest level in decades and causing this segment of the market to earn the best returns. Shorter-maturity municipal bonds, however, posted the lowest returns as Fed rate hikes moved yields in this portion of the curve higher. Accordingly, the slope of the municipal yield curve flattened as the spread between short-term and long-term interest rates narrowed.

Demand for municipal bonds continued to be strong during the period. In fact, inflows into municipal bond funds were 55 percent higher year-to-date through October than for the same period last year, much of which went into high-yield funds. Because prevailing interest rates were still at relatively low levels, investors increasingly sought out lower-quality, higher-yielding bonds. The increased demand for high-yield bonds led this segment of the market to considerably outperform high-grade issues.

Although municipal bond issuance remained brisk in the last quarter of 2005, volume declined throughout the remaining months of the period. As of the end of October, national municipal bond issuance was down 13 percent for 2006. The reduced supply, coupled with growing demand, further fueled municipal bond performance.

Florida continued to enjoy strong economic growth, which has led to growth in revenues. Job creation in the state remained the highest in the country, unemployment was low, and population growth was more than twice the rate of the national average. In addition, Florida maintains one of the strongest funded pension ratios in the country. Together, these factors, along with the state's history of prudent fiscal management and positive financial performance, create a very favorable outlook for the state.

PERFORMANCE ANALYSIS

The trust's return can be calculated based upon either the market price or the net asset value (NAV) of its shares. NAV per share is determined by dividing the value of the trust's portfolio securities, cash and other assets, less all liabilities and preferred shares, by the total number of common shares outstanding, while market price reflects the supply and demand for the shares. As a result, the two returns can differ, as they did during the reporting period. On both an NAV basis and a market price basis, the trust outperformed its benchmark index, the Lehman Brothers Florida Municipal Bond Index.

TOTAL RETURNS FOR THE 12-MONTH PERIOD ENDED OCTOBER 31, 2006

BASED ON NAV	BASED ON MARKET PRICE	LEHMAN BROTHERS FLORIDA MUNICIPAL BOND INDEX
7.00%	8.03%	5.71%

Performance data quoted represents past performance, which is no guarantee of future results, and current performance may be lower or higher than the figures shown. Investment return, net asset value and common share market price will fluctuate and trust shares, when sold, may be worth more or less than their original cost. See Performance Summary for additional performance information and index definition.

Throughout the reporting period, we sought opportunities to enhance the portfolio's yield, while still adhering to our quality-driven investment discipline. We did so primarily by implementing two general strategies. First, we increased the portfolio's exposure to lower-rated, higher-yielding securities. Specifically, we added to holdings in BBB rated credits while reducing holdings in AAA rated credits. This strategy proved beneficial to performance as credit spreads in the high-yield segment of the market tightened, leading high-yield bonds to considerably outperform higher-quality bonds. Second, we emphasized the long end of the yield curve, favoring bonds with maturities of 20 to 30 years. Given the flattening of the yield curve during the period, attractive yields were primarily found on the very long end of the curve and our focus here was additive to performance.

Reflecting our view that interest rates in the Treasury market would continue to rise, we kept the portfolio's duration (a measure of interest-rate sensitivity) shorter than that of the Lehman Brothers Florida Municipal Bond Index for much of the period. In the latter months, when it appeared that the Fed was done raising rates, we increased the portfolio's duration to a more neutral stance. While this positioning overall was beneficial, the trust could have benefited even more had we increased the duration earlier in the reporting period. In addition, rising interest rates made the trust's borrowing activity more expensive, thereby tempering the benefits of leverage for much of the period. The trust uses leverage to enhance its dividend to common shareholders. The trust borrows money at short-term rates through the issuance of

D-5

preferred shares. The proceeds are reinvested in longer-term securities, taking advantage of the difference between short-and longer-term rates.

In keeping with our focus on high-yielding credits, we added Puerto Rico tobacco revenue bonds to the portfolio, which are BBB rated. The litigation environment for tobacco companies has become quite favorable, demand for the bonds remains strong, and the industry continues to prosper. We also added to holdings in hospital bonds, which have benefited from spread tightening in the sector. Our decision to increase the trust's exposure to these sectors during the period was additive to performance as they performed strongly.

The trust remained well represented among the major sectors of the Florida municipal market. The largest sectors at the end of the period were hospitals, public education, and water & sewer.

The Trustees have approved a procedure whereby the trust may, when appropriate, repurchase its shares in the open market or in privately negotiated transactions at a price not above market value or NAV, whichever is lower at the time of purchase. This may help support the market value of the trust's shares.

There is no guarantee that any sectors mentioned will continue to perform as discussed herein or that securities in such sectors will be held by the trust in the future.

CHANGES IN INVESTMENT POLICIES

The Board of Trustees of the trust recently approved the following non-fundamental investment policy for the trust: The trust may invest up to 20% of its assets in securities that are rated, at the time of investment, BB/Ba or B by Standard & Poor's Ratings Service ("S&P"), Moody's Investors Services, Inc. ("Moody's") or Fitch Ratings Ltd. ("Fitch") or that are unrated, but deemed to be of comparable quality by the Adviser. These securities are regarded as below investment grade and are commonly referred to as junk bonds, and involve greater risks than investments in higher-grade securities.

Securities that are in the lower-grade categories generally offer higher yields than are offered by higher-grade securities of similar maturities, but they also generally involve greater risks, such as greater credit risk, greater market risk and volatility, greater liquidity concerns and potentially greater manager risk. Rated lower-grade debt securities are regarded by S&P, Moody's and Fitch as predominately speculative with respect to the capacity to pay interest or repay principal or interest in accordance with their terms. Investors should carefully consider the risks of owning shares of a fund which invests in lower-grade securities before investing in the trust.

Lower-grade securities are more susceptible to nonpayment of interest and principal or default than higher-grade securities. Increases in interest rates or changes in the economy may significantly affect the ability of lower-grade income securities to pay interest and to repay principal, to meet projected

D-6

financial goals or to obtain additional financing. In the event that an issuer of securities held by the trust experiences difficulties in the timely payment of principal and interest and such issuer seeks to restructure the terms of its borrowings, the trust may incur additional expenses and may determine to invest additional assets with respect to such issuer or the project or projects to which the trust's securities relate. Further, the trust may incur additional expenses to the extent that it is required to seek recovery upon a default in the payment of interest or the repayment of principal on its portfolio holdings, and the trust may be unable to obtain full recovery on such amounts.

The secondary market prices of lower-grade securities generally are less sensitive to changes in interest rates and are more sensitive to real or perceived general adverse economic changes or specific developments with respect to the particular issuers than are the secondary market prices of higher-grade securities. A significant increase in interest rates or a general economic downturn could severely disrupt the market for lower-grade securities and adversely affect the market value of such securities. Such events also could lead to a higher incidence of default by issuers of lower-grade securities as compared with higher-grade securities. In addition, changes in credit risks, interest rates, the credit markets or periods of general economic uncertainty can be expected to result in increased volatility in the market price of lower-grade securities in the trust and thus in the net asset value of the trust. Adverse publicity and investor perceptions, whether or not based on rational analysis, may affect the value, volatility and liquidity of lower-grade securities.

The markets for lower-grade securities may be less liquid than the markets for higher-grade securities. To the extent that there is no established retail market for some of the lower-grade securities in which the trust may invest, trading in such securities may be relatively inactive. Prices of lower-grade securities may decline rapidly in the event a significant number of holders decide to sell. Changes in expectations regarding an individual issuer of

## Edgar Filing: VAN KAMPEN TRUST FOR INVESTMENT GRADE MUNICIPALS - Form N-14 8C

lower-grade securities generally could reduce market liquidity for such securities and make their sale by the Trust more difficult, at least in the absence of price concessions. The effects of adverse publicity and investor perceptions may be more pronounced for securities for which no established retail market exists as compared with the effects on securities for which such a market does exist. An economic downturn or an increase in interest rates could severely disrupt the market for such securities and adversely affect the value of outstanding securities or the ability of the issuers to repay principal and interest. Further, the trust may have more difficulty selling such securities in a timely manner and at their stated value than would be the case for securities for which an established retail market does exist.

The market for lower grade securities may have less available information, further complicating evaluations and valuations of such securities and placing more emphasis on the Adviser's experience, judgment and analysis than other securities.

#### Investment Advisory Agreement Approval

Both the Investment Company Act of 1940 and the terms of the Fund's investment advisory agreement require that the investment advisory agreement between the Fund and its investment adviser be approved annually both by a majority of the Board of Trustees and by a majority of the independent trustees voting separately.

On May 25, 2005, the Board of Trustees, and the independent trustees voting separately, determined that the terms of the investment advisory agreement are fair and reasonable and approved the continuance of the investment advisory contract as being in the best interests of the Fund and its shareholders. In making its determination, the Board of Trustees considered materials that were specifically prepared by the investment adviser at the request of the Board and Fund counsel, and by an independent provider of investment company data contracted to assist the Board, relating to the contract review process. The Board also considered information received periodically about the portfolio, performance, the investment strategy, portfolio management team and fees and expenses of the Fund. Finally, the Board considered materials it had received in

approving changes to the Fund's investment policies and a reorganization of the Fund. The Board of Trustees considered the contract over a period of several months and the non-management trustees held sessions both with the investment adviser and separate from the investment adviser in reviewing and considering the contract.

In approving the investment advisory agreement, the Board of Trustees considered, among other things, the nature, extent and quality of the services provided by the investment adviser, the performance, fees and expenses of the Fund compared to other similar funds and other products, the investment adviser's expenses in providing the services and the profitability of the investment adviser and its affiliated companies. The Board of Trustees considered the extent to which any economies of scale experienced by the investment adviser are shared with the Fund's shareholders, and the propriety of breakpoints in the Fund's investment advisory fee schedule. The Board of Trustees considered comparative advisory fees of the Fund and other investment companies and/or other products at different asset levels, and considered the trends in the industry. The Board of Trustees evaluated other benefits the investment adviser and its affiliates derive from their relationship with the Fund. The Board of Trustees reviewed information about the foregoing factors and considered changes, if any, in such information since its previous approval. The Board of Trustees discussed the financial strength of the investment adviser and its affiliated companies and the capability of the personnel of the investment adviser, and specifically the strength and background of its portfolio management personnel. The Board of Trustees reviewed the statutory and regulatory requirements for approval and disclosure of investment advisory agreements. The Board of Trustees, including the independent trustees, evaluated all of the foregoing and does not believe any single factor or group of

D-11

factors control or dominate the review process, and, after considering all factors together, has determined, in the exercise of its business judgment, that approval of the investment advisory agreement is in the best interests of the Fund and its shareholders. The following summary provides more detail on certain matters considered but does not detail all matters considered.

**Nature, Extent and Quality of the Services Provided.** On a regular basis, the Board of Trustees considers the roles and responsibilities of the investment adviser as a whole and for those specific portfolio management, support and trading functions servicing the Fund. The trustees discuss with the investment adviser the resources available and used in managing the Fund. The trustees also discuss certain other services which are provided on a cost-reimbursement basis by the investment adviser or its affiliates to the Van Kampen funds including certain accounting, administrative and legal services. The Board has determined that the nature, extent and quality of the services provided by the investment adviser support its decision to approve the investment advisory contract.

**Performance, Fees and Expenses of the Fund.** On a regular basis, the Board of Trustees reviews the performance, fees and expenses of the Fund compared to its peers and to appropriate benchmarks. In addition, the Board spends more focused time on the performance of the Fund and other funds in the Van Kampen complex, paying specific attention to underperforming funds. The trustees discuss with the investment adviser the performance goals and the actual results achieved in managing the Fund. When considering a fund's performance, the trustees and the investment adviser place emphasis on trends and longer-term returns (focusing on one-year, three-year and five-year performance with special attention to three-year performance) and, when a fund's weighted performance is under the fund's benchmark, they discuss the causes and where necessary seek to make specific changes to investment strategy or investment personnel. The Fund

discloses more information about its performance elsewhere in this report. The trustees discuss with the investment adviser the level of advisory fees for this Fund relative to comparable funds and other products advised by the adviser and others in the marketplace. The trustees review not only the advisory fees but other fees and expenses (whether paid to the adviser, its affiliates or others) and the Fund's overall expense ratio. The Board has determined that the performance, fees and expenses of the Fund support its decision to approve the investment advisory contract.

Investment Adviser's Expenses in Providing the Service and Profitability. At least annually, the trustees review the investment adviser's expenses in providing services to the Fund and other funds advised by the investment adviser and the profitability of the investment adviser. These profitability reports are put together by the investment adviser with the oversight of the Board. The trustees discuss with the investment adviser its revenues and expenses, including among other things, revenues for advisory services, portfolio management-related expenses, revenue sharing arrangement costs and allocated expenses both on an

D-12

aggregate basis and per fund. The Board has determined that the analysis of the investment adviser's expenses and profitability support its decision to approve the investment advisory contract.

Economies of Scale. On a regular basis, the Board of Trustees considers the size of the Fund and how that relates to the Fund's expense ratio and particularly the Fund's advisory fee rate. In conjunction with its review of the investment adviser's profitability, the trustees discuss with the investment adviser how more (or less) assets can affect the efficiency or effectiveness of managing the Fund's portfolio and whether the advisory fee level is appropriate relative to current asset levels and/or whether the advisory fee structure reflects economies of scale as asset levels change. The Board has determined that its review of the actual and potential economies of scale of the Fund support its decision to approve the investment advisory contract.

Other Benefits of the Relationship. On a regular basis, the Board of Trustees considers other benefits to the investment adviser and its affiliates derived from its relationship with the Fund and other funds advised by the investment adviser. These benefits include, among other things, fees for transfer agency services provided to the funds, in certain cases research received by the adviser generated from commission dollars spent on funds' portfolio trading, and in certain cases distribution or service related fees related to funds' sales. The trustees review with the investment adviser each of these arrangements and the reasonableness of its costs relative to the services performed. The Board has determined that the other benefits received by the investment adviser or its affiliates support its decision to approve the investment advisory contract.

VAN KAMPEN TRUST FOR INVESTMENT GRADE FLORIDA MUNICIPALS

NOTES TO FINANCIAL STATEMENTS -- OCTOBER 31, 2006

1. SIGNIFICANT ACCOUNTING POLICIES

Van Kampen Trust for Investment Grade Florida Municipals (the "Trust") is registered as a non-diversified, closed-end management investment company under the Investment Company Act of 1940 (the "1940 Act"), as amended. The Trust's investment objective is to seek to provide a high level of current income exempt from federal income taxes and Florida state intangible taxes, consistent with preservation of capital. The Trust will invest in a portfolio consisting substantially of Florida municipal obligations rated investment grade at the time of investment, but may invest up to 20% of its assets in unrated securities which are believed to be of comparable quality to those rated investment grade. The Trust commenced investment operations on March 27, 1992.

The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. SECURITY VALUATION Municipal bonds are valued by independent pricing services or dealers using the mean of the bid and asked prices or, in the absence of market quotations, at fair value based upon yield data relating to municipal bonds with similar characteristics and general market conditions. Securities which are not valued by independent pricing services or dealers are valued at fair value using procedures established in good faith by the Board of Trustees. Futures contracts are valued at the settlement price established each day on the exchange on which they are traded. Interest rate swaps are valued using market quotations from brokers. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value.

B. SECURITY TRANSACTIONS Security transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis. The Trust may purchase and sell securities on a "when-issued" or "delayed delivery" basis, with settlement to occur at a later date. The value of the security so purchased is subject to market fluctuations during this period. The Trust will segregate assets with the custodian having an aggregate value at least equal to the amount of the when-issued or delayed delivery purchase commitments until payment is made. At October 31, 2006, the Trust had \$15,656,003 of when-issued or delayed delivery purchase commitments.

C. INVESTMENT INCOME Interest income is recorded on an accrual basis. Bond premium is amortized and discount is accreted over the expected life of each applicable security.

D. FEDERAL INCOME TAXES It is the Trust's policy to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required.

The Trust intends to utilize provisions of the federal income tax laws which allow it to carry a realized capital loss forward for eight years following the year of the loss and offset these losses against any future realized capital gains. At October 31, 2006, the Trust had an

NOTES TO FINANCIAL STATEMENTS -- OCTOBER 31, 2006 continued

accumulated capital loss carryforward for tax purposes of \$248,081, which will expire on October 31, 2014.

At October 31, 2006, the cost and related gross unrealized appreciation and depreciation are as follows:

Cost of investments for tax purposes.....	\$298,699,638
	=====
Gross tax unrealized appreciation.....	\$ 20,184,485
Gross tax unrealized depreciation.....	(12,462)
	-----
Net tax unrealized appreciation on investments.....	20,172,023
	=====

E. DISTRIBUTION OF INCOME AND GAINS The Trust declares and pays monthly dividends from net investment income to common shareholders. Net realized gains, if any, are distributed annually on a pro rata basis to common and preferred shareholders. Distributions from net realized gains for book purposes may include short-term capital gains and a portion of futures gains, which are included as ordinary income for tax purposes.

The tax character of distributions paid during the years ended October 31, 2006 and 2005 was as follows:

	2006	2005
Distributions paid from:		
Ordinary income.....	-0-	\$ 21,317
Tax exempt income.....	\$12,472,921	5,819,298
Long-term capital gain.....	543,346	-0-
	-----	-----
	\$13,016,267	\$5,840,615
	=====	=====

Due to inherent differences in the recognition of income, expenses and realized gains/losses under accounting principles generally accepted in the United States of America and federal income tax purposes, permanent differences between book and tax basis reporting for the 2006 fiscal year have been identified and appropriately reclassified on the Statement of Assets and Liabilities. Permanent book and tax differences of \$36,123 and \$2,654 relating to merger costs which are not deductible for tax purposes and excise tax, respectively, were reclassified from accumulated undistributed net investment income to paid in surplus. Additionally, a permanent book and tax difference of \$5,413 relating to book to tax accretion differences was reclassified from accumulated undistributed net investment income to accumulated net realized loss.

Edgar Filing: VAN KAMPEN TRUST FOR INVESTMENT GRADE MUNICIPALS - Form N-14 8C

As of October 31, 2006, the components of distributable earnings on a tax basis were as follows:

Undistributed ordinary income.....	-0-
Undistributed tax exempt income.....	\$735,456
Undistributed long-term capital gain.....	-0-

Net realized gains or losses may differ for financial reporting and tax purposes primarily as a result of gains recognized on securities for tax purposes but not for book purposes and gains and losses recognized for tax purposes on open futures transactions on October 31, 2006.

VAN KAMPEN TRUST FOR INVESTMENT GRADE FLORIDA MUNICIPALS

NOTES TO FINANCIAL STATEMENTS -- OCTOBER 31, 2006 continued

F. EXPENSE REDUCTION During the year ended October 31, 2006, the Trust's custody fee was reduced by \$159 as a result of credits earned on cash balances.

G. FLOATING RATE NOTE OBLIGATIONS RELATED TO SECURITIES HELD The Trust enters into transactions in which it transfers to dealer trusts fixed rate bonds in exchange for cash and residual interests in the dealer trusts' assets and cash flows, which are in the form of inverse floating rate securities. The dealer trusts fund the purchases of the fixed rate bonds by issuing floating rate notes to third parties. The Trust enters into shortfall agreements with the dealer trusts, which commit the Trust to pay the dealer trusts, in certain circumstances, the difference between the liquidation value of the fixed rate bonds held by the dealer trusts and the liquidation value of the floating rate notes held by third parties, as well as any shortfalls in interest cash flows. The residual interests held by the Trust (inverse floating rate investments) include the right of the Trust (1) to cause the holders of the floating rate notes to tender their notes at par at the next interest rate reset date, and (2) to transfer the municipal bond from the dealer trusts to the Trust, thereby collapsing the dealer trusts. The Trust accounts for the transfer of bonds to the dealer trusts as secured borrowings, with the securities transferred remaining in the Trust's investments assets, and the related floating rate notes reflected as Trust liabilities under the caption "Floating Rate Note Obligations" on the Statement of Assets and Liabilities. The Trust records the interest income from the fixed rate bonds under the caption "Interest" and records the expenses related to floating rate note obligations and any administrative expenses of the dealer trusts under the caption "Interest and Residual Trust Expenses" in the Trust's Statement of Operations. The notes issued by the dealer trusts have interest rates that reset weekly and the floating rate note holders have the option to tender their notes to the dealer trusts for redemption at par at each reset date. At October 31, 2006, Trust investments with a value of \$44,010,100 are held by the dealer trusts and serve as collateral for the \$31,590,000 in floating rate notes outstanding at that date. Contractual maturities of the floating rate notes and interest rates in effect at October 31, 2006 are presented on the Portfolio of Investments.

2. INVESTMENT ADVISORY AGREEMENT AND OTHER TRANSACTIONS WITH AFFILIATES

Under the terms of the Trust's Investment Advisory Agreement, Van Kampen Asset Management (the "Adviser") will provide investment advice and facilities to the Trust for an annual fee payable monthly of .55% of the average daily net assets

Edgar Filing: VAN KAMPEN TRUST FOR INVESTMENT GRADE MUNICIPALS - Form N-14 8C

including preferred shares of the Trust. Effective December 1, 2006, the Adviser has agreed to waive investment advisory fees equal to .10% of the average daily net assets including preferred shares of the Trust. This waiver is voluntary and can be discontinued at any time.

For the year ended October 31, 2006, the Trust recognized expenses of approximately \$17,600 representing legal services provided by Skadden, Arps, Slate, Meagher & Flom LLP, of which a Trustee of the Trust is a partner of such firm and he and his law firm provide legal services as legal counsel to the Trust.

Under separate Legal Services, Accounting Services and Chief Compliance Officer (CCO) Employment agreements, the Adviser provides accounting and legal services and the CCO provides compliance services to the Trust. The costs of these services are allocated to each trust. For the year ended October 31, 2006, the Trust recognized expenses of approximately \$50,200 representing Van Kampen Investments Inc.'s or its affiliates' (collectively "Van Kampen") cost of providing accounting and legal services to the Trust, as well as, the salary, benefits and related costs of the CCO and related support staff paid by

Van Kampen. Services provided pursuant to the Legal Services agreement are reported as part of "Professional Fees" on the Statement of Operations. Services provided pursuant to the Accounting Services and CCO Employment agreement are reported as part of "Accounting and Administrative Expenses" on the Statement of Operations.

Certain officers and trustees of the Trust are also officers and directors of Van Kampen. The Trust does not compensate its officers or trustees who are also officers of Van Kampen.

The Trust provides deferred compensation and retirement plans for its trustees who are not officers of Van Kampen. Under the deferred compensation plan, trustees may elect to defer all or a portion of their compensation to a later date. Benefits under the retirement plan are payable upon retirement for a ten-year period and are based upon each trustee's years of service to the Trust. The maximum annual benefit per trustee under the plan is \$2,500.

3. CAPITAL TRANSACTIONS

For the years ended October 31, 2006 and 2005, transactions in common shares were as follows:

	YEAR ENDED OCTOBER 31, 2006	YEAR ENDED OCTOBER 31, 2005
Beginning Shares.....	11,711,732	5,563,438

	=====	=====

On October 28, 2005, the Trust acquired all of the assets and liabilities of the Van Kampen Florida Quality Municipal Trust (ticker symbol VFM) through a tax free reorganization approved by VFM shareholders on October 21, 2005. The Trust issued 6,148,294 common shares with a net asset value of \$103,906,391 and 2,000 Auction Preferred Shares (APS) with a liquidation value of \$50,000,000 in exchange for VFM net assets. The shares of VFM were converted into Trust shares at a ratio of 0.943077 to 1 and 1 to 1, for common shares and APS, respectively. Included in these net assets was a deferred compensation balance of \$180,185 and a deferred pension balance of \$72,512. Net unrealized appreciation of VFM as of October 28, 2005 was \$7,666,315. The Trust assumed VFM's book to tax accretion differences, which resulted in a \$116,833 increase to accumulated undistributed net investment income and a corresponding decrease to net unrealized appreciation. Combined net assets applicable to common shares on the day of reorganization were \$197,913,241 and combined net assets including preferred shares were \$303,913,241. The Trust incurred merger expenses of \$244,440, which represent costs related to preparation, printing and distribution of the Proxy Statement/Prospectus, Reorganization Agreement and registration statements as well as legal, audit and filing fees.

#### 4. INVESTMENT TRANSACTIONS

During the period, the cost of purchases and proceeds from sales of investments, excluding short-term investments, were \$161,923,547 and \$119,752,433, respectively.

#### 5. DERIVATIVE FINANCIAL INSTRUMENTS

A derivative financial instrument in very general terms refers to a security whose value is "derived" from the value of an underlying asset, reference rate or index.

D-28

VAN KAMPEN TRUST FOR INVESTMENT GRADE FLORIDA MUNICIPALS

NOTES TO FINANCIAL STATEMENTS -- OCTOBER 31, 2006 continued

In order to seek to manage the interest rate exposure of the Trust's portfolio in a changing interest rate environment, the Trust may purchase or sell financial futures contracts or engage in transactions involving interest rate swaps, caps, floors or collars. The Trust expects to enter into these transactions primarily as a hedge against anticipated interest rate or fixed-income market changes, for duration management or for risk management purposes, but may also enter into these transactions to generate additional income. All of the Trust's portfolio holdings, including derivative instruments, are marked to market each day with the change in value reflected in unrealized appreciation/depreciation. Upon disposition, a realized gain or loss is recognized accordingly, except when taking delivery of a security underlying a futures contract. In this instance, the recognition of gain or loss is postponed until the disposal of the security underlying the futures contract. Risks may arise as a result of the potential inability of the counterparties to meet the terms of their contracts.

Summarized below are the specific types of derivative financial instruments used by the Trust.

A. FUTURES CONTRACTS A futures contract is an agreement involving the delivery of a particular asset on a specified future date at an agreed upon price. The Trust generally invests in exchange traded futures contracts on U.S. Treasury Bonds and Notes and typically closes the contract prior to the delivery date.

These contracts are generally used to manage the Trust's effective maturity and duration. Upon entering into futures contracts, the Trust maintains an amount of cash or liquid securities with a value equal to a percentage of the contract amount with either a futures commission merchant pursuant to the rules and regulations promulgated under the 1940 Act, as amended, or with its custodian in an account in the broker's name. This amount is known as initial margin. During the period the futures contract is open, payments are received from or made to the broker based upon changes in the value of the contract (the variation margin). The risk of loss associated with a futures contract is in excess of the variation margin reflected on the Statement of Assets and Liabilities.

Transactions in futures contracts for the year ended October 31, 2006 were as follow:

	CONTRACTS
Outstanding as of October 31, 2005.....	218
Futures Opened.....	1,934
Futures Closed.....	(1,708)
	-----
Outstanding as of October 31, 2006.....	444
	=====

B. INTEREST RATE SWAPS The Trust may enter into forward interest rate swap transactions intended to help the Trust manage its overall interest rate sensitivity, either shorter or longer, generally to more closely align the Trust's interest rate sensitivity with that of the broader municipal market. Forward interest rate swap transactions involve the Trust's agreement with a counterparty to pay, in the future, a fixed or variable rate payment in exchange for the counterparty paying the Trust a variable or fixed rate payment, the accruals for which would begin at a specified date in the future (the "effective date"). The amount of the payment obligation is based on the notional amount of the forward swap contract and the termination date of the swap (which is akin to a bond's maturity). The value of the Trust's swap commitment would increase or decrease based primarily on the extent to which long-term interest rates for bonds having a maturity of the swap's termination date increases or

VAN KAMPEN TRUST FOR INVESTMENT GRADE FLORIDA MUNICIPALS

NOTES TO FINANCIAL STATEMENTS -- OCTOBER 31, 2006 continued

decreases. The Trust may terminate a swap contract prior to the effective date, at which point a realized gain or loss is recognized. When a forward swap is terminated, it ordinarily does not involve the delivery of securities or other underlying assets or principal, but rather is settled in cash on a net basis. The Trust intends, but is not obligated, to terminate its forward swaps before the effective date. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the credit risk associated with a counterparty failing to honor its commitment to pay any realized gain to the Trust upon termination. To reduce such credit risk, all counterparties are required to pledge collateral daily (based on the daily valuation of each swap) on behalf of the Trust with a value approximately equal to the amount of any unrealized gain. Reciprocally, when the Trust has an unrealized loss on a swap contract, the Trust has instructed the custodian to pledge cash or liquid securities as collateral with a value approximately equal to the amount of the

unrealized loss. Collateral pledges are monitored and subsequently adjusted if and when the swap valuations fluctuate. Restricted cash, if any, for segregating purposes is shown on the Statement of Assets and Liabilities.

C. INVERSE FLOATING RATE INVESTMENTS The Trust may invest a portion of its assets in inverse floating rate instruments, either through outright purchases of inverse floating rate securities or through the transfer of bonds to a dealer trust in exchange for cash and residual interests in the dealer trust. These investments are typically used by the Trust in seeking to enhance the yield of the portfolio. These instruments typically involve greater risks than a fixed rate municipal bond. In particular, these instruments are acquired through leverage or may have leverage embedded in them and therefore involve many of the risks associated with leverage. Leverage is a speculative technique that may expose the Trust to greater risk and increased costs. Leverage may cause the Trust's net asset value to be more volatile than if it had not been leveraged because leverage tends to magnify the effect of any increases or decreases in the value of the Trust's portfolio securities. The use of leverage may also cause the Trust to liquidate portfolio positions when it may not be advantageous to do so in order to satisfy its obligations with respect to inverse floating rate instruments.

#### 6. PREFERRED SHARES

The Trust has outstanding 4,240 APS in two series. Series A contains 2,240 shares while Series B contains 2,000 shares. Dividends are cumulative and the dividend rate is reset every 28 days through an auction process. The average rate in effect on October 31, 2006 was 3.550%. During the year ended October 31, 2006, the rates ranged from 2.650% to 5.125%.

The Trust pays annual fees equivalent to .25% of the preferred share liquidation value for the remarketing efforts associated with the preferred auctions. These fees are included as a component of "Preferred Share Maintenance" expense on the Statement of Operations.

The APS are redeemable at the option of the Trust in whole or in part at the liquidation value of \$25,000 per share plus accumulated and unpaid dividends. The Trust is subject to certain asset coverage tests and the APS are subject to mandatory redemption if the tests are not met.

#### 7. INDEMNIFICATIONS

The Trust enters into contracts that contain a variety of indemnifications. The Trust's maximum exposure under these arrangements is unknown. However, the Trust has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

#### 8. ACCOUNTING PRONOUNCEMENTS

In July 2006, the Financial Accounting Standards Board (FASB) issued Interpretation 48, Accounting for Uncertainty in Income Taxes -- an interpretation of FASB Statement 109 (FIN 48). FIN 48 clarifies the accounting for income taxes by prescribing the minimum recognition threshold a tax position must meet before being recognized in the financial statements. FIN 48 is effective for fiscal years beginning after December 15, 2006. The impact to the

Trust's financial statements, if any, is currently being assessed.

In addition, in September 2006, Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS 157), was issued and is effective for fiscal years beginning after November 15, 2007. SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Management is currently evaluating the impact the adoption of SFAS 157 will have on the Trust's financial statement disclosures.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees and Shareholders of  
Van Kampen Trust for Investment Grade Florida Municipals

We have audited the accompanying statement of assets and liabilities of Van Kampen Trust for Investment Grade Florida Municipals (the "Trust"), including the portfolio of investments, as of October 31, 2006, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Trust is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of October 31, 2006, by correspondence with the custodian and brokers; where replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Van Kampen Trust for Investment Grade Florida Municipals as of October 31, 2006, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

DIVIDEND REINVESTMENT PLAN

The dividend reinvestment plan offers you a prompt and simple way to reinvest your dividends and capital gains distributions into additional shares of your trust. Under the plan, the money you earn from dividends and capital gains distributions will be reinvested automatically in more shares of your trust, allowing you to potentially increase your investment over time.

PLAN BENEFITS

- ADD TO YOUR ACCOUNT

You may increase your shares in your trust easily and automatically with the dividend reinvestment plan.

- LOW TRANSACTION COSTS

Shareholders who participate in the plan are able to buy shares at below-market prices when the trust is trading at a premium to its net asset value. In addition, transaction costs are low because when new shares are issued by the trust, there is no brokerage fee, and when shares are bought in blocks on the open market, the brokerage commission is shared among all participants.

- CONVENIENCE

You will receive a detailed account statement from Computershare Trust Company, N.A., which administers the plan, whenever shares are reinvested for you. The statement shows your total distributions, date of investment, shares acquired, and price per share, as well as the total number of shares in your reinvestment account.

- SAFEKEEPING

Computershare Trust Company, N.A. will hold the shares it has acquired for you in safekeeping, which provides added protection against loss, theft, or inadvertent destruction of certificates. However, you may request that a certificate representing your reinvested shares be issued to you.

HOW DOES THE PLAN WORK?

If you choose to participate in the plan, your dividends and capital gains distributions will be promptly reinvested for you, automatically increasing your shares. If your trust is trading at a share price that is equal to its net asset value (NAV), you'll pay that amount for your reinvested shares. However, if your trust is trading above or below its NAV, the price is determined by one of two ways:

1. PREMIUM If your trust is trading at a premium -- a market price that is higher than its NAV -- you'll pay either the NAV or 95 percent of the market price, whichever is greater. When your trust trades at a premium, you'll pay less for your reinvested shares than an ordinary investor purchasing shares on the stock exchange. Keep in mind, a portion of your price reduction may be taxable because you are receiving shares at less than market price.

VAN KAMPEN TRUST FOR INVESTMENT GRADE FLORIDA MUNICIPALS

DIVIDEND REINVESTMENT PLAN continued

2. DISCOUNT If your trust is trading at a discount -- a market price that is lower than its NAV -- you'll pay the market price for your reinvested shares.

HOW TO PARTICIPATE IN THE PLAN

If you own shares in your own name, you can participate directly in the plan. If your shares are held in "street name" -- in the name of your brokerage firm, bank, or other financial institution -- you must instruct that entity to participate on your behalf. If they are unable to participate on your behalf, you may request that they reregister your shares in your own name so that you may enroll in the plan.

If you choose to participate in the plan, whenever your trust declares a dividend or capital gains distribution, it will be invested in additional shares of your trust that are purchased on the open market.

HOW TO ENROLL

To enroll in the Dividend Reinvestment Plan please visit [vankampen.com](http://vankampen.com) or call (800) 341-2929 or notify us in writing at the address below.

Providence, RI 02940-3011

Please include your trust name and account number and ensure that all shareholders listed on the account sign these written instructions. Your participation in the plan will begin with the next dividend or capital gains distribution payable after Computershare Trust Company, N.A. receives your authorization, as long as they receive it before the "record date," which is generally ten business days before the dividend is paid. If your authorization arrives after such record date, your participation in the plan will begin with the following dividend or distribution.

COSTS OF THE PLAN

There is no direct charge to you for reinvesting dividends and capital gains distributions because the plan's fees are paid by your trust. If your trust is trading at or above its NAV, your new shares are issued directly by the trust and there are no brokerage charges or commissions. However, if your trust is trading at a discount, the shares are purchased on the open market, and you will pay your portion of any brokerage commissions. These brokerage commissions are typically less than the standard brokerage charges for individual transactions because shares are purchased for all participants in

D-34

blocks, resulting in lower commissions for each individual participant. Any brokerage commissions or service fees are averaged into the purchase price.

Edgar Filing: VAN KAMPEN TRUST FOR INVESTMENT GRADE MUNICIPALS - Form N-14 8C

TAX IMPLICATIONS

The automatic reinvestment of dividends and capital gains distributions does not relieve you of any income tax that may be due on dividends or distributions. You will receive tax information annually to help you prepare your federal and state income tax returns.

HOW TO WITHDRAW FROM THE PLAN

To withdraw from the Dividend Reinvestment Plan please visit [vankampen.com](http://vankampen.com) or call (800) 341-2929 or notify us in writing at the address below.

P.O. Box 43011  
Providence, RI 02940-3011

All shareholders listed on the account must sign any written withdrawal instructions. If you withdraw, you have two choices for receiving your shares:

- CERTIFICATE

We will issue a certificate for the full shares and send you a check for any fractional shares without a charge.

- CHECK

We will sell all full and fractional shares and send the proceeds to your address of record after deducting brokerage commissions and a \$2.50 service fee.

The Trust and Computershare Trust Company, N.A. may amend or terminate the plan. Participants will receive written notice at least 30 days before the effective date of any amendment. In the case of termination, participants will receive written notice at least 30 days before the record date for the payment of any dividend or capital gains distribution by your trust.

APPENDIX E  
MORGAN STANLEY INVESTMENT MANAGEMENT  
PROXY VOTING POLICY AND PROCEDURES

I. POLICY STATEMENT

Introduction - Morgan Stanley Investment Management's ("MSIM") policy and procedures for voting proxies ("Policy") with respect to securities held in the accounts of clients applies to those MSIM entities that provide discretionary investment management services and for which a MSIM entity has authority to vote proxies. The Policy will be reviewed and, updated, as necessary, to address new or revised proxy voting issues. The MSIM entities covered by the Policy currently include the following: Morgan Stanley Investment Advisors Inc., Morgan Stanley AIP GP LP, Morgan Stanley Investment Management Inc., Morgan Stanley Investment Management Limited, Morgan Stanley Investment Management Company, Morgan Stanley Asset & Investment Trust Management Co., Limited, Morgan Stanley Investment Management Private Limited, Morgan Stanley Hedge Fund Partners GP LP, Morgan Stanley Hedge Fund Partners LP, Van Kampen Asset Management, and Van Kampen Advisors Inc. (each an "MSIM Affiliate" and collectively referred to as the "MSIM Affiliates").

Each MSIM Affiliate will use its best efforts to vote proxies as part of its authority to manage, acquire and dispose of account assets. With respect to the MSIM registered management investment companies (Van Kampen, Institutional and Advisor Funds) (collectively referred to herein as the "MSIM Funds"), each MSIM Affiliate will vote proxies under this Policy (except for the Morgan Stanley KLD Social Index Fund, which votes proxies pursuant to the Institutional Shareholder Services' Social Investment Research Proxy Voting Guidelines) pursuant to authority granted under its applicable investment advisory agreement or, in the absence of such authority, as authorized by the Board of Directors or Trustees of the MSIM Funds. A MSIM Affiliate will not vote proxies if the "named fiduciary" for an ERISA account has reserved the authority for itself, or in the case of an account not governed by ERISA, the investment management or investment advisory agreement does not authorize the MSIM Affiliate to vote proxies. MSIM Affiliates will, in a prudent and diligent manner, vote proxies in the best interests of clients, including beneficiaries of and participants in a client's benefit plan(s) for which the MSIM Affiliates manage assets, consistent with the objective of maximizing long-term investment returns ("Client Proxy Standard"). In certain situations, a client or its fiduciary may provide a MSIM Affiliate with a proxy voting policy. In these situations, the MSIM Affiliate will comply with the client's policy.

Proxy Research Services - Institutional Shareholder Services ("ISS") and Glass Lewis (together with other proxy research providers as MSIM Affiliates may retain from time to time, the "Research Providers") are independent advisers that specialize in providing a variety of fiduciary-level proxy-related services to institutional investment managers, plan sponsors, custodians, consultants, and other institutional investors. The services provided include in-depth research, global issuer analysis, and voting recommendations. While the MSIM Affiliates may review and utilize the recommendations of the Research Providers in making proxy voting decisions, they are in no way obligated to follow such

E-1

recommendations. In addition to research, ISS provides vote execution, reporting, and recordkeeping. MSIM's Proxy Review Committee (see Section IV.A. below) will carefully monitor and supervise the services provided by the Research Providers.

Voting Proxies for Certain Non-U.S. Companies - While the proxy voting process is well established in the United States and other developed markets with a number of tools and services available to assist an investment manager, voting proxies of non-U.S. companies located in certain jurisdictions, particularly emerging markets, may involve a number of problems that may restrict or prevent a MSIM Affiliate's ability to vote such proxies. These problems include, but are not limited to: (i) proxy statements and ballots being written in a language other than English; (ii) untimely and/or inadequate notice of shareholder meetings; (iii) restrictions on the ability of holders outside the issuer's jurisdiction of organization to exercise votes; (iv) requirements to vote proxies in person, (v) the imposition of restrictions on the sale of the securities for a period of time in proximity to the shareholder meeting; and (vi) requirements to provide local agents with power of attorney to facilitate the MSIM Affiliate's voting instructions. As a result, clients' non-U.S. proxies will be voted on a best efforts basis only, after weighing the costs and benefits to MSIM's clients of voting such proxies, consistent with the Client Proxy Standard. ISS has been retained to provide assistance to the MSIM Affiliates in connection with voting their clients' non-U.S. proxies.

## II. GENERAL PROXY VOTING GUIDELINES

To ensure consistency in voting proxies on behalf of its clients, MSIM Affiliates will follow (subject to any exception set forth herein) this Policy, including the guidelines set forth below. These guidelines address a broad range of issues, including board size and composition, executive compensation, anti-takeover proposals, capital structure proposals and social responsibility issues and are meant to be general voting parameters on issues that arise most frequently. The MSIM Affiliates, however, may, pursuant to the procedures set forth in Section IV. below, vote in a manner that is not in accordance with the following general guidelines, provided the vote is approved by the Proxy Review Committee and is consistent with the Client Proxy Standard. Morgan Stanley AIP GP LP will follow the procedures as described in Appendix A. A MSIM Affiliate will not generally vote a proxy if it has sold the affected security between the record date and the meeting date.

## III. GUIDELINES

A. CORPORATE GOVERNANCE MATTERS. The following proposals will generally be voted as indicated below, unless otherwise determined by the Proxy Review Committee.

- i. General.
  1. Generally, routine management proposals will be supported. The following are examples of routine management proposals:

E-2

- Approval of financial statements, director and auditor reports.
- General updating/corrective amendments to the charter.
- Proposals related to the conduct of the annual meeting, except those proposals that relate to the "transaction of such other business which may come before the meeting."

2. Proposals to eliminate cumulative voting generally will be supported; proposals to establish cumulative voting in the election of directors will not be supported.
3. Proposals requiring confidential voting and independent tabulation of voting results will be supported.
4. Proposals requiring a U.S. company to have a separate Chairman and CEO will not be supported. Proposals requiring non-U.S. companies to have a separate Chairman and CEO will be supported.
5. Proposals by management of non-U.S. companies regarding items that are clearly related to the regular course of business will be supported.
6. Proposals to require the company to expense stock options will be supported.
7. Open-ended requests for adjournment generally will not be supported. However, where management specifically states the reason for requesting an adjournment and the requested adjournment is necessary to permit a proposal that would otherwise be supported under this Policy to be carried out (i.e. an uncontested corporate transaction), the adjournment request will be supported.
8. Proposals to declassify the Board of Directors (if management supports a classified board) generally will not be supported.
9. Proposal requiring that the company prepare reports that are costly to provide or that would require duplicative efforts or expenditures that are of a non-business nature or would provide no pertinent information from the perspective of institutional shareholders generally will not be supported.

ii. Election of Directors. In situations where no conflict exists and where no specific governance deficiency has been noted, unless otherwise determined by

E-3

the Proxy Review Committee, proxies will be voted in support of nominees of management.

1. The following proposals generally will be supported:

- Proposals requiring that a certain percentage (up to 66 2/3%) of the company's board members be independent directors.
- Proposals requiring that members of the company's compensation, nominating and audit committees be comprised of independent or unaffiliated directors.

2. Unless otherwise determined by the Proxy Review Committee, a withhold vote will be made in the following circumstances:

- (a) If a company's board is not comprised of a majority of disinterested directors, a withhold vote will be made for interested directors. A director nominee may be deemed to be interested if the nominee has, or any time during the previous five years had, a relationship with the issuer (e.g., investment banker, counsel or other professional service provider, or familial relationship with a senior officer of the issuer) that may impair his or her independence;

- (b) If a nominee who is interested is standing for election as a member of the company's compensation, nominating or audit committees;
- (c) A direct conflict exists between the interests of the nominee and the public shareholders;
- (d) Where the nominees standing for election have not taken action to implement generally accepted governance practices for which there is a "bright line" test. These would include elimination of dead hand or slow hand poison pills, requiring audit, compensation or nominating committees to be composed of independent directors and requiring a majority independent board;
- (e) A nominee has failed to attend at least 75% of board meetings within a given year without a reasonable excuse; or
- (f) A nominee serves on the board of directors for more than six companies (excluding investment companies).

iii. Auditors

E-4

- 1. Generally, management proposals for selection or ratification of auditors will be supported. However, such proposals may not be supported if the fees paid to auditors are excessive. Generally, to determine if such fees are excessive, a 50% test will be applied: i.e., non-audit fees should be less than 50% of the total fees paid to the auditor.
- 2. Proposals requiring auditors to attend the annual meeting of shareholders will be supported.
- 3. Proposals to indemnify auditors will not be supported.

iv. Anti-Takeover Matters

- 1. Proposals to modify or rescind existing supermajority vote requirements to amend the charter or bylaws will be supported; proposals to amend by-laws to require a supermajority shareholder vote to pass or repeal certain provisions will not be supported.
- 2. Proposals relating to the adoption of anti-greenmail provisions will be supported, provided that the proposal: (i) defines greenmail; (ii) prohibits buyback offers to large block holders (holders of at least 1% of the outstanding shares and in certain cases, a greater amount, as determined by the Proxy Review Committee) not made to all shareholders or not approved by disinterested shareholders; and (iii) contains no anti-takeover measures or other provisions restricting the rights of shareholders.
- 3. Proposals requiring shareholder approval or ratification of a shareholder rights plan or poison pill will be supported.

B. CAPITALIZATION CHANGES. The following proposals generally will be voted as indicated below, unless otherwise determined by the Proxy Review Committee.

- 1. The following proposals generally will be supported:
  - Proposals relating to capitalization changes that eliminate

other classes of stock and/or eliminate unequal voting rights.

- Proposals to increase the authorization of existing classes of common stock (or securities convertible into common stock) if: (i) a clear and legitimate business purpose is stated; (ii) the number of shares requested is reasonable in relation to the purpose for which authorization is requested; and (iii) the authorization does not exceed 100% of shares currently authorized and at least 30% of the new authorization will be outstanding.

E-5

- Proposals to create a new class of preferred stock or for issuances of preferred stock up to 50% of issued capital.
- Proposals for share repurchase plans.
- Proposals to reduce the number of authorized shares of common or preferred stock, or to eliminate classes of preferred stock.
- Proposals to effect stock splits.
- Proposals to effect reverse stock splits if management proportionately reduces the authorized share amount set forth in the corporate charter. Reverse stock splits that do not adjust proportionately to the authorized share amount generally will be approved if the resulting increase in authorized shares coincides with the proxy guidelines set forth above for common stock increases.

2. The following proposals generally will not be supported (notwithstanding management support).

- Proposals relating to capitalization changes that add classes of stock which substantially dilute the voting interests of existing shareholders.
- Proposals to increase the authorized number of shares of existing classes of stock that carry preemptive rights or supervoting rights.
- Proposals to create "blank check" preferred stock.
- Proposals relating to changes in capitalization by 100% or more.

C. COMPENSATION. The following proposals generally will be voted as indicated below, unless otherwise determined by the Proxy Review Committee.

1. The following proposals generally will be supported:

- Proposals relating to director fees, provided the amounts are not excessive relative to other companies in the country or industry.
- Proposals for employee stock purchase plans that permit discounts up to 15%, but only for grants that are part of a broad-based employee plan, including all non-executive employees.

- Proposals for the establishment of employee stock option plans and other employee ownership plans, provided that our research does not indicate that approval of the plan would be against shareholder interest.

E-6

- Proposals for the establishment of employee retirement and severance plans, provided that our research does not indicate that approval of the plan would be against shareholder interest.
2. Blanket proposals requiring shareholder approval of all severance agreements will not be supported, however, proposals that require shareholder approval for agreements in excess of three times the annual compensation (salary and bonus) generally will be supported.
  3. Blanket proposals requiring shareholder approval of executive compensation generally will not be supported.
  4. Proposals that request or require disclosure of executive compensation in addition to the disclosure required by the Securities and Exchange Commission ("SEC") regulations generally will not be supported.

D. OTHER RECURRING ITEMS. The following proposals generally will be voted as indicated below, unless otherwise determined by the Proxy Review Committee.

1. Proposals to add restrictions related to social, political, environmental or special interest issues that do not relate directly to the business of the company and which do not appear to be directed specifically to the business or financial interest of the company generally will not be supported.
2. Proposals requiring adherence to workplace standards that are not required or customary in market(s) to which the proposals relate will not be supported.

E. ITEMS TO BE REVIEWED BY THE PROXY REVIEW COMMITTEE

The following types of non-routine proposals, which potentially may have a substantive financial or best interest impact on an issuer, will be voted as determined by the Proxy Review Committee.

i. Corporate Transactions

- Proposals relating to mergers, acquisitions and other special corporate transactions (i.e., takeovers, spin-offs, sales of assets, reorganizations, restructurings and recapitalizations) will be examined on a case-by-case basis. In all cases, Research Providers' research and analysis will be used along with MSIM Affiliates' research and analysis, including, among other things, MSIM internal company-specific knowledge.

E-7

Proposals for mergers or other significant transactions that are friendly and approved by the Research Providers generally will be supported where there is no portfolio manager

objection and where there is no material conflict of interest and in those instances will not need to be reviewed by the Proxy Review Committee.

ii. Compensation

- Proposals relating to change-in-control provisions in non-salary compensation plans, employment contracts, and severance agreements that benefit management and would be costly to shareholders if triggered. With respect to proposals related to severance and change of control situations, MSIM Affiliates will support a maximum of three times salary and bonus.
- Proposals relating to Executive/Director stock option plans. Generally, stock option plans should be incentive based. The Proxy Review Committee will evaluate the quantitative criteria used by a Research Provider when considering such Research Provider's recommendation. If the Proxy Review Committee determines that the criteria used by the Research Provider is reasonable, the proposal will be supported if it falls within a 5% band above the Research Provider's threshold.
- Compensation proposals that allow for discounted stock options that have not been offered to employees in general.

iii. Other

- Proposals for higher dividend payouts.
- Proposals recommending set retirement ages or requiring specific levels of stock ownership by directors.
- Proposals for election of directors, where a director nominee is related to MSIM (i.e. on an MSIM Fund's Board of Directors/Trustees or part of MSIM senior management) must be considered by the Proxy Review Committee. If the proposal relates to a director nominee who is on a Van Kampen Fund's Board of Directors/Trustees, to the extent that the shares of the relevant company are held by a Van Kampen Fund, the Van Kampen Board shall vote the proxies with respect to those shares, to the extent practicable. In the event that the Committee cannot contact the Van Kampen Board in advance of the shareholder meeting, the Committee will vote such shares pursuant to the Proxy Voting Policy.

E-8

- Proposals requiring diversity of board membership relating to broad based social, religious or ethnic groups.
- Proposals to limit directors' liability and/or broaden indemnification of directors. Generally, the Proxy Review Committee will support such proposals provided that the officers and directors are eligible for indemnification and liability protection if they have acted in good faith on company business and were found innocent of any civil or criminal charges for duties performed on behalf of the company.

F. FUND OF FUNDS. Certain Funds advised by an MSIM Affiliate invest only in other MSIM funds. If an underlying fund has a shareholder meeting, in order to avoid any potential conflict of interest, such proposals will be voted in the same proportion as the votes of the other shareholders of the underlying fund, unless otherwise determined by the Proxy Review Committee.

IV. ADMINISTRATION OF POLICY

A. PROXY REVIEW COMMITTEE

1. The MSIM Proxy Review Committee ("Committee") is responsible for creating and implementing the Policy and, in this regard, has expressly adopted it.
  - (a) The Committee, which is appointed by MSIM's Chief Investment Officer ("CIO"), consists of senior investment professionals who represent the different investment disciplines and geographic locations of the firm. The Committee is responsible for establishing MSIM's Policy and determining how MSIM will vote proxies on an ongoing basis.
  - (b) The Committee will periodically review and have the authority to amend, as necessary, the Policy and establish and direct voting positions consistent with the Client Proxy Standard.
  - (c) The Committee will meet at least monthly to (among other matters): (1) address any outstanding issues relating to the Policy and (2) review proposals at upcoming shareholder meetings of MSIM portfolio companies in accordance with this Policy including, as appropriate, the voting results of prior shareholder meetings of the same issuer where a similar proposal was presented to shareholders. The Committee, or its designee, will timely communicate to ISS MSIM's Policy (and any amendments to them and/or any additional guidelines or procedures it may adopt).
  - (d) The Committee will meet on an ad hoc basis to (among other matters): (1) authorize "split voting" (i.e., allowing certain shares of the same issuer that are the subject of the same proxy solicitation and held by one or more MSIM portfolios to be voted differently than other shares) and/or "override voting" (i.e., voting all MSIM portfolio shares in a manner contrary to the Policy); (2) review and approve upcoming votes, as appropriate, for matters for which specific direction has been provided in this Policy; and (3) determine how to vote matters for which specific direction has not been provided in this Policy. Split votes generally will not be approved within a single Global Investor Group investment team. The Committee may take into account Research Providers' recommendations and research as well as any other relevant information they may request or receive, including portfolio manager and/or analyst research, as applicable. Generally, proxies related to securities held in accounts that are managed pursuant to quantitative, index or index-like strategies ("Index Strategies") will be voted in the same manner as those held in actively managed accounts. Because accounts managed using Index Strategies are passively managed accounts, research from portfolio managers and/or analysts related to securities held in these accounts may not be

available. If the affected securities are held only in accounts that are managed pursuant to Index Strategies, and the proxy relates to a matter that is not described in this Policy, the Committee will consider all available information from the Research Providers, and to the extent that the holdings are significant, from the portfolio managers and/or analysts.

- (e) In addition to the procedures discussed above, if the Committee determines that an issue raises a potential material conflict of interest, or gives rise to the appearance of a potential material conflict of interest, the Committee will request a special committee to review, and recommend a course of action with respect to, the conflict(s) in question ("Special Committee"). The Special Committee shall be comprised of the Chairperson of the Proxy Review Committee, the Compliance Director for the area of the firm involved or his/her designee, a senior portfolio manager (if practicable, one who is a member of the Proxy Review Committee) designated by the Proxy Review Committee, and MSIM's Chief Investment Officer or his/her designee. The Special Committee may request the assistance of MSIM's General Counsel or his/her designee and will have sole discretion to cast a vote. In addition to the research provided by Research Providers, the Special Committee may request analysis from MSIM Affiliate investment

E-10

professionals and outside sources to the extent it deems appropriate.

- (f) The Committee and the Special Committee, or their designee(s), will document in writing all of their decisions and actions, which documentation will be maintained by the Committee and the Special Committee, or their designee(s), for a period of at least 6 years. To the extent these decisions relate to a security held by a MSIM U.S. registered investment company, the Committee and Special Committee, or their designee(s), will report their decisions to each applicable Board of Trustees/Directors of those investment companies at each Board's next regularly scheduled Board meeting. The report will contain information concerning decisions made by the Committee and Special Committee during the most recently ended calendar quarter immediately preceding the Board meeting.
- (g) The Committee and Special Committee, or their designee(s), will timely communicate to applicable portfolio managers, the Compliance Departments and, as necessary, to ISS, decisions of the Committee and Special Committee so that, among other things, ISS will vote proxies consistent with their decisions.

#### B. IDENTIFICATION OF MATERIAL CONFLICTS OF INTEREST

1. If there is a possibility that a vote may involve a material conflict of interest, the vote must be decided by the Special Committee in consultation with MSIM's General Counsel or his/her designee.
2. A material conflict of interest could exist in the following situations, among others:

- (a) The issuer soliciting the vote is a client of MSIM or an affiliate of MSIM and the vote is on a material matter affecting the issuer;
- (b) The proxy relates to Morgan Stanley common stock or any other security issued by Morgan Stanley or its affiliates; or
- (c) Morgan Stanley has a material pecuniary interest in the matter submitted for a vote (e.g., acting as a financial advisor to a party to a merger or acquisition for which Morgan Stanley will be paid a success fee if completed).

C. PROXY VOTING REPORTS

E-11

- (a) MSIM will promptly provide a copy of this Policy to any client requesting them. MSIM will also, upon client request, promptly provide a report indicating how each proxy was voted with respect to securities held in that client's account.
- (b) MSIM's legal department is responsible for filing an annual Form N-PX on behalf of each registered management investment company for which such filing is required, indicating how all proxies were voted with respect to such investment company's holdings.

VAN KAMPEN TRUST FOR INVESTMENT GRADE FLORIDA MUNICIPALS -  
VAN KAMPEN TRUST FOR INVESTMENT GRADE MUNICIPALS  
NOTES TO PRO FORMA FINANCIAL STATEMENTS - OCTOBER 31, 2006 (UNAUDITED)

1. SIGNIFICANT ACCOUNTING POLICIES

The Acquiring Trust, Van Kampen Trust for Investment Grade Municipals (the "Acquiring Trust") is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940 (the "1940 Act"), as amended. The Acquiring Trust's investment objective is to provide a high level of current income exempt from federal income tax, consistent with preservation of capital. The Acquiring Trust will invest substantially all of its assets in municipal securities rated investment grade at the time of investment. The Acquiring Trust commenced investment operations on January 24, 1992.

The following is a summary of significant accounting policies consistently followed by the Acquiring Trust in the preparation of its financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported

amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. SECURITY VALUATION Municipal bonds are valued by independent pricing services or dealers using the mean of the bid and asked prices or, in the absence of market quotations, at fair value based upon yield data relating to municipal bonds with similar characteristics and general market conditions. Securities which are not valued by independent pricing services or dealers are valued at fair value using procedures established in good faith by the Board of Trustees. Futures contracts are valued at the settlement price established each day on the exchange on which they are traded. Interest rate swaps are valued using market quotations from brokers. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value.

B. SECURITY TRANSACTIONS Security transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis. The Acquiring Trust may purchase and sell securities on a "when-issued" or "delayed delivery" basis with settlement to occur at a later date. The value of the security so purchased is subject to market fluctuations during this period. The Acquiring Trust will segregate assets with the custodian having an aggregate value at least equal to the amount of the when-issued or delayed delivery purchase commitments until payment is made.

C. INVESTMENT INCOME Interest income is recorded on an accrual basis. Bond premium is amortized and discount is accreted over the expected life of each applicable security.

D. FEDERAL INCOME TAXES It is the Acquiring Trust's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required.

E. DISTRIBUTION OF INCOME AND GAINS The Acquiring Trust declares and pays monthly dividends from net investment income to common shareholders. Net realized gains, if any, are distributed annually on a pro rata basis to common and preferred shareholders. Distributions from net realized gains for book purposes may include short-term capital gains and a portion of futures gains, which are included as ordinary income for tax purposes.

F. FLOATING RATE NOTE OBLIGATIONS RELATED TO SECURITIES HELD The Acquiring Trust enters into transactions in which it transfers to dealer trusts fixed rate bonds in exchange for cash and residual interests in the dealer trusts' assets and cash flows, which are in the form of inverse floating rate investments. The dealer trusts fund the purchases of the fixed rate bonds by issuing floating rate notes to third parties and allowing the Acquiring Trust to retain residual interests in the bonds. The Acquiring Trust enters into shortfall and forbearance agreements with the dealer trusts, which commit the Acquiring Trust to pay the dealer trusts, in certain circumstances, the difference between the liquidation value of the fixed rate bonds held by the dealer trusts and the liquidation value of the floating rate notes held by third parties, as well as any shortfalls in interest cash flows. The residual interests held by the Acquiring Trust (inverse floating rate investments) include the right of the Acquiring Trust (1) to cause the holders of the floating rate notes to tender their notes at par at the next interest rate reset date, and (2) to transfer the municipal bond from the dealer trusts to the Acquiring Trust, thereby collapsing the dealer trusts. The Acquiring Trust accounts for the transfer of bonds to the dealer trusts as secured borrowings, with the securities transferred remaining in the Acquiring Trust's investment assets, and the related floating rate notes reflected as Acquiring Trust liabilities under the caption "Floating Rate Note Obligations" on the Statement of Assets and Liabilities. The notes issued by the

dealer trusts have interest rates that reset weekly and the floating rate note holders have the option to tender their notes to the dealer trusts for redemption at par at each reset date. Contractual maturities of the floating rate notes and interest rates in effect at October 31, 2006 are presented on the Portfolio of Investments.
