**Item 7.01. Regulation FD Disclosure.**

The following information is furnished pursuant to Regulation FD.

**Emerson GAAP Underlying Orders – 3 Month Summary**

**(Percent change. Trailing 3-month average versus prior year.)**

	<u>July '09</u>	<u>August '09</u>	<u>September '09</u>

Appliance and Tools	-25	-25	-25 to -20
Total Emerson	-25	-25 to -20	-20 to -15

**September 2009 Order Comments:**

Emerson’s trailing three-month order rate was down 15 to 20 percent, with currency exchange rates positively impacting orders by approximately 3 percentage points. The trailing three-month underlying order rate trend lines for September have flattened out for Process Management and have shown modest improvement across the rest of the business segments versus the August trailing three-month period.

Process Management order rates were down 10 to 15 percent in the trailing three-month period. Currency exchange rates positively impacted the order growth rate by approximately 9 percentage points. The trailing three-month underlying order rates for July, August and September, excluding currency, were at similar levels. Order rates remain mixed among end-markets.

Edgar Filing: EMERSON ELECTRIC CO - Form 8-K

While order rates across the Industrial Automation business segment remained very weak, they have stabilized at low levels in the trailing three-month period.

## Edgar Filing: EMERSON ELECTRIC CO - Form 8-K

Infrastructure spending in China, including renewable energy projects, continued to positively impact the China network power business. This growth was more than offset by broad weakness across the balance of the businesses in the Network Power segment.

Climate Technologies trailing three-month order rates improved with continued strength driven by China.

Challenging U.S. residential, non-residential and consumer end market conditions continued to negatively impact the Appliance and Tools order trends.
