INFORMATION ABOUT THE MEETING

What is the purpose of the meeting?

At the meeting, the Company's stockholders will vote on the following proposals to:

1. Elect eight directors to serve on the Board of Directors of the Company for a term of one year;
2. Approve the amendment of the Company's certificate of incorporation to change the Company's authorized shares of common stock from 70,000,000 shares of voting common stock and 30,000,000 shares of non-voting common stock to 100,000,000 shares of common stock (all of which have voting rights), without any increase in the overall number of authorized shares of common stock; and
3. Ratify the selection of KPMG LLP as the Company's independent auditor for 2004.

In addition, the Company's management will report on the performance of the Company during 2003 and will respond to appropriate questions from stockholders.

Who is entitled to vote?

The record date for the meeting is March 22, 2004. Only stockholders of record at the close of business on March 22, 2004, are entitled to receive notice of the meeting and to vote at the meeting the shares of the Company's common stock that they held on that date. Each outstanding share of common stock entitles its holder to one vote on each matter voted on at the meeting. At the close of business on March 22, 2004, there were 33,102,225 outstanding shares of common stock.

Am I entitled to vote if my shares are held in street name ?

If you are the beneficial owner of shares held in street name by a brokerage firm, bank, or other nominee, such entity, as the record holder of the shares, is required to vote the shares in accordance with your instructions. If you do not give instructions to your nominee, it will nevertheless be entitled to vote your shares on discretionary items but will not be permitted to do so on non-discretionary items. In the case of non-discretionary items, any shares not voted by your nominee will be considered as broker non-votes. However, there will not be any broker non-votes in connection with the meeting, because the Company has been informed that all the matters to be acted upon by the stockholders at the meeting are discretionary items on which your nominee will be entitled to vote your shares even in the absence of instructions from you.

How many shares must be present to conduct business at the meeting?

A quorum must be present at the meeting in order for any business to be conducted. The presence at the meeting, in person or by proxy, of the holders of a majority of the shares of the Company's common stock outstanding on the record date of March 22, 2004, will constitute a quorum. Abstentions will be included in the number of shares considered present at the meeting for the purpose of determining whether there is a quorum.

What happens if a quorum is not present at the meeting?

If a quorum is not present at the scheduled time of the meeting, the holders of a majority of the shares present in person or represented by proxy at the meeting may adjourn the meeting to another place, date, or time until a quorum is present. The place, date, and time of the adjourned meeting will be announced when the adjournment is taken, and no other notice will be given.

How do I vote my shares?

Edgar Filing: WRIGHT MEDICAL GROUP INC - Form PRE 14A

If you are a registered stockholder, you may vote by telephone. If you are a registered stockholder (*i.e.*, your shares are held in your own name), you may vote by telephone by following the instructions included on the proxy card. You do not need to return your proxy card if you vote by telephone.

Table of Contents

If your shares are held in street name, you may be eligible to provide voting instructions to your nominee by telephone or on the Internet. If you are a beneficial owner of shares held in street name (*i.e.*, your shares are held in the name of a brokerage firm, bank, or other nominee), you may be eligible to provide voting instructions to your nominee by telephone or on the Internet. A large number of brokerage firms, banks, and other nominees participate in a program provided through ADP Investor Communications Services (ADP) that offers telephone and Internet voting options. If your shares are held in street name by a brokerage firm, bank, or other nominee that participates in the ADP program, you may provide voting instructions to your nominee by telephone or on the Internet by following the instructions set forth on the voting instruction form provided to you. You do not need to return your proxy card if you provide voting instructions to your nominee by telephone or on the Internet.

You may vote by mail. If you are a registered stockholder, you may vote by properly completing, signing, dating, and returning the accompanying proxy card. The enclosed postage-paid envelope requires no additional postage if it is mailed in the United States or Canada. If you are a beneficial owner of shares held in street name, you may provide voting instructions to the brokerage firm, bank, or other nominee that holds your shares by properly completing, signing, dating, and returning the voting instruction form provided to you by your nominee.

You may vote in person at the meeting. If you are a registered stockholder and attend the meeting, you may deliver your completed proxy card in person. In addition, the Company will pass out written ballots to registered stockholders who wish to vote in person at the meeting. If you are a beneficial owner of shares held in street name and wish to vote at the meeting, you will need to obtain a proxy form from the brokerage firm, bank, or other nominee that holds your shares.

Can I change my vote after I submit my proxy?

Yes, you may revoke your proxy and change your vote at any time before the polls close at the meeting in any of the following ways: (1) by voting again by telephone, because only your latest telephone vote will be counted; (2) by properly completing, signing, dating, and returning another proxy card with a later date; (3) if you are a registered stockholder, by voting in person at the meeting; (4) if you are a registered stockholder, by giving written notice of such revocation to the Secretary of the Company prior to or at the meeting; or (5) if you are a beneficial owner of shares held in street name, by following the instructions given by the brokerage firm, bank, or other nominee that holds your shares. Your attendance at the meeting itself will not revoke your proxy unless you give written notice of revocation to the Secretary of the Company before the polls are closed.

Who will count the votes?

American Stock Transfer & Trust Company (AST), the registrar and transfer agent for the Company's common stock, will tabulate and certify the stockholder votes submitted by proxy. A representative of AST will serve as the inspector of election at the meeting.

How does the Board of Directors recommend that I vote on the proposals?

Your Board of Directors recommends that you vote:

1. FOR the election of the eight director nominees to serve on the Board of Directors of the Company for a term of one year;
2. FOR the approval of the amendment of the Company's certificate of incorporation to change the Company's authorized shares of common stock from 70,000,000 shares of voting common stock and 30,000,000 shares of non-voting common stock to 100,000,000 shares of common stock (all of which have voting rights), without any increase in the overall number of authorized shares of common stock; and
3. FOR the ratification of the selection of KPMG LLP as the Company's independent auditor for 2004.

Table of Contents

What happens if I do not specify how my shares are to be voted?

If you submit a proxy but do not indicate any voting instructions, your shares will be voted FOR each of the proposals.

Will any other business be conducted at the meeting?

As of the date hereof, the Board of Directors knows of no business that will be presented at the meeting other than the proposals described in this Proxy Statement. However, if any other proposal properly comes before the stockholders for a vote at the meeting, the proxy holders will vote your shares in accordance with their best judgment.

How many votes are required for action to be taken on each proposal?

Election of Directors. The eight director nominees will be elected to serve on the Board of Directors for a term of one year if they receive a plurality of the votes of the shares present in person or represented by proxy at the meeting and entitled to vote on the subject matter. This means that the eight director nominees will be elected if they receive more votes than any other person at the meeting. If you vote to **Withhold Authority** with respect to the election of one or more director nominees, your shares will not be voted with respect to the person or persons indicated, although they will be counted for the purpose of determining whether there is a quorum at the meeting.

Approval of Amendment of Certificate of Incorporation. The proposed amendment of the Company's certificate of incorporation to change the Company's authorized shares of common stock from 70,000,000 shares of voting common stock and 30,000,000 shares of non-voting common stock to 100,000,000 shares of common stock (all of which have voting rights), without any increase in the overall number of authorized shares of common stock, will be approved if a majority of the outstanding shares of common stock entitled to vote on the subject matter are voted in favor of the proposal.

Ratification of Selection of Independent Auditor. The selection of KPMG LLP as the Company's independent auditor for 2004 will be ratified if a majority of the shares present in person or represented by proxy at the meeting and entitled to vote on the subject matter are voted in favor of the proposal.

How will abstentions be treated?

You do not have the option of abstaining from voting on Proposal 1 (election of directors), but you may abstain from voting on Proposal 2 (approval of the amendment of the Company's certificate of incorporation) and Proposal 3 (ratification of the selection of the independent auditor). With respect to Proposal 1, because the directors are elected by a plurality vote, an abstention will have no effect on the outcome of the vote and, therefore, is not offered as a voting option on the proposal. In the case of an abstention on Proposal 2 or 3, your shares would be included in the number of shares considered present at the meeting for the purpose of determining whether there is a quorum. Because your shares would be voted but not in favor of Proposal 2 or 3, your abstention would have the same effect as a negative vote in determining the outcome of the vote on the proposal.

How will broker non-votes be treated?

A **broker non-vote** occurs when a brokerage firm, bank, or other nominee does not vote shares that it holds in **street name** on behalf of a beneficial owner, because the beneficial owner has not provided voting instructions to the nominee with respect to a non-discretionary item. The Company has been informed that none of the proposals described in this Proxy Statement is a non-discretionary item on which a nominee will not have discretion to vote in the absence of voting instructions from the beneficial owner. To the contrary, all such proposals are discretionary items on which a nominee will have discretion to vote even without voting instructions from the beneficial owner. Therefore, there will not be any broker non-votes in connection with the meeting.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires that the Company's directors and executive officers and the beneficial owners of more than 10% of the Company's registered equity securities (the reporting persons) file with the SEC initial reports of, and subsequent reports of changes in, their beneficial ownership of the Company's equity securities. The reporting persons are required to furnish the Company with copies of all such Section 16(a) reports. Based solely on the Company's review of the copies of such Section 16(a) reports and written representations from certain reporting persons furnished to the Company, the Company believes that the reporting persons complied with all applicable Section 16(a) filing requirements during 2003 and prior years, except as described below.

James T. Treace understated three holdings and did not report one holding as of July 12, 2001, and he did not timely report two transactions on September 24, 2003. F. Barry Bays understated two holdings and did not report one holding as of July 12, 2001. John K. Bakewell understated one holding and did not report one holding as of July 12, 2001. Brian T. Ennis did not report one holding as of October 4, 2001. Jack E. Parr, Ph.D., understated two holdings and did not report one holding as of July 12, 2001. Robert W.

Table of Contents

Churinetz did not report one holding as of July 12, 2001. James E. Thomas understated two holdings as of July 12, 2001. Thomas E. Timbie understated two holdings and did not report one holding as of July 12, 2001. R. Glen Coleman understated one holding and did not report two holdings as of July 12, 2001, and he did not timely report one transaction on November 17, 2003. Jeffrey G. Roberts did not file a Form 3 and, as a consequence, did not report four holdings as of July 12, 2001. John R. Treace, who no longer is an executive officer, understated two holdings and did not report one holding as of July 12, 2001.

The deficiencies in the foregoing Section 16(a) reports relate primarily to the shares of common stock and stock options that the reporting persons beneficially owned as of the dates that they became reporting persons. In most instances, the deficient reports were attributable to inadvertent miscommunications between the Company and its previous legal counsel who prepared the reports on behalf of the reporting persons. All of the reporting persons' initial holdings and subsequent transactions have now been accurately reported.

The directors are elected at each annual meeting of stockholders and serve for a term of one year until the next annual meeting of stockholders and until their respective successors are elected and qualified, subject to their prior death, resignation, retirement, disqualification, or removal from office.

Director Independence

It is the policy of the Board of Directors that a majority of the directors be independent as defined in the listing standards of the National Association of Securities Dealers (the "NASD"). The Board of Directors has determined that six directors—Richard B. Emmitt, Laurence Y. Fairey, David D. Stevens, James E. Thomas, Thomas E. Timbie, and Elizabeth H. Weatherman—are independent under the NASD's listing standards.

Meetings Attended by Directors

The Board of Directors holds meetings on a quarterly basis and on other occasions as necessary or appropriate. The Board of Directors met six times in 2003. The Board of Directors has four standing committees—the Executive Committee, the Audit Committee, the Compensation Committee, and the Nominating and Corporate Governance Committee. The Audit Committee and the Compensation Committee met seven and four times, respectively, in 2003. The Executive Committee and the Nominating and Corporate Governance Committee did not meet in 2003. Average attendance at Board of Directors and committee meetings in 2003 was in excess of 98%. Each director attended at least 90% of the total number of meetings of the Board of Directors and its committees on which he or she served in 2003.

Beginning in 2004, the independent directors of the Company will have regularly scheduled meetings at which only they are present. The meetings of the independent directors typically will take place in connection with the regularly scheduled meetings of the full Board of Directors. The independent directors may meet at such other times as they deem necessary or appropriate.

Effective as of 2004, the directors of the Company are encouraged to attend the Company's annual meeting of stockholders absent exceptional cause. In 2003, two of the Company's then six directors attended the annual meeting of stockholders.

Board of Directors Committees

The Board of Directors delegates certain of its functions to its standing Executive Committee, Audit Committee, Compensation Committee, and Nominating and Corporate Governance Committee. Information regarding the responsibilities of these committees and their members is provided below.

Executive Committee. The Executive Committee exercises all the powers of the Board of Directors in the management of the business and affairs of the Company during the intervals between meetings of the Board of Directors, subject to such restrictions or limitations as the Board of Directors may specify from time to time or as otherwise limited by Delaware law. The Executive Committee is composed of four directors who are appointed by the Board of Directors. The members of the Executive Committee are James T. Treace (chairman), F. Barry Bays, Richard B. Emmitt, and Elizabeth H. Weatherman.

Audit Committee. The Audit Committee oversees the Company's accounting and financial reporting processes and the audits of its financial statements. In this role, the Audit Committee monitors and oversees the integrity of the Company's financial statements and related disclosures, the qualifications, independence, and performance of the Company's independent auditor, the performance of the Company's internal auditing function, and the Company's compliance with applicable legal requirements and its business conduct policies.

Table of Contents

The Audit Committee has a written charter which was last amended and restated by the Board of Directors on February 11, 2004. A copy of the charter is attached as Appendix A to this Proxy Statement. The Audit Committee is composed of three directors who are appointed by the Board of Directors. The members of the Audit Committee are Thomas E. Timbie (chairman), Richard B. Emmitt, and James E. Thomas, all of whom are independent as defined in the NASD's listing standards and meet the independence criteria set forth in the rules of the Securities and Exchange Commission (the "SEC"). The Board of Directors has determined that one member of the Audit Committee, Thomas E. Timbie, is an audit committee financial expert as defined in the SEC's regulations. The report of the Audit Committee appears beginning on page 11 of this Proxy Statement.

Compensation Committee. The Compensation Committee oversees the Company's general programs of compensation and benefits for all employees and determines the compensation of the Company's executive officers and directors. The Compensation Committee is composed of three directors who are appointed by the Board of Directors. The members of the Compensation Committee are David D. Stevens (chairman), James E. Thomas, and Elizabeth H. Weatherman, all of whom are independent as defined in the NASD's listing standards. James T. Treace was a member of the Compensation Committee and served as its chairman during 2003 and the beginning of 2004, but due to his lack of independence he resigned and was replaced by Mr. Stevens on February 11, 2004. The report of the Compensation Committee appears beginning on page 12 of this Proxy Statement.

Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee, which was established by the Board of Directors on February 11, 2004, oversees the corporate governance processes of the Company. In this role, the Nominating and Corporate Governance Committee identifies and recommends individuals qualified to become members of the Board of Directors, makes recommendations regarding the establishment and membership of the Board of Directors' committees, develops and reviews corporate governance principles applicable to the Company, and leads the annual review of the performance of the Board of Directors and its committees. The Nominating and Corporate Governance Committee has a written charter which was adopted by the Board of Directors on February 11, 2004. A copy of the charter is attached as Appendix B to this Proxy Statement. The Nominating and Corporate Governance Committee is composed of three directors who are appointed by the Board of Directors. The members of the Nominating and Corporate Governance Committee are Elizabeth H. Weatherman (chairwoman), Laurence Y. Fairey, and Thomas E. Timbie, all of whom are independent as defined in the NASD's listing standards.

Director Nominations

The Board of Directors will consider all potential candidates for nomination by the Board of Directors for election as directors who are recommended by the Company's stockholders, directors, officers, and employees. All director recommendations must be made in accordance with the provisions of Article II, Section 5 of the Company's bylaws, which sets forth requirements concerning the information about the candidate to be provided and the timing for the submission of the recommendations. All director recommendations should be sent to the Nominating and Corporate Governance Committee, c/o Corporate Secretary, Wright Medical Group, Inc., 5677 Airline Road, Arlington, Tennessee 38002. The Nominating and Corporate Governance Committee will screen all potential director candidates in the same manner, regardless of the source of their recommendation. The Nominating and Corporate Governance Committee's review will typically be based on the written materials provided with respect to a potential director candidate. The Nominating and Corporate Governance Committee will evaluate and determine whether a potential candidate meets the Company's minimum qualifications and specific qualities and skills for directors and whether requesting additional information or an interview is appropriate.

The Board of Directors has adopted the following series of minimum qualifications and specific qualities and skills for the Company's directors, which will serve as the basis upon which potential director candidates are evaluated by the Nominating and Corporate Governance Committee:

Table of Contents

Directors should possess the highest personal and professional ethics, integrity, and values.

Directors should have an inquisitive and objective perspective, practical wisdom, and mature judgment.

Directors should have expertise and experience at policy-making levels in areas that are relevant to the Company's business.

Directors should have, or demonstrate an ability and willingness to acquire in short order, a clear understanding of the fundamental aspects of the Company's business.

Directors should be committed to representing the long-term interests of the Company's stockholders.

Directors should be willing to devote sufficient time to carry out their duties and responsibilities effectively and should be committed to serving on the Board of Directors for an extended period of time.

Directors, in the event of any significant change in their personal circumstances (including a change in their principal job responsibilities), should consider whether the change materially diminishes their ability to fulfill their obligations as a director and, if so, should offer their resignation as a director to the Board of Directors.

Directors who also serve as the chief executive officer, chief operating officer, or chief financial officer of another enterprise should not serve on more than two boards of public companies in addition to the Company's Board of Directors, and other directors should not serve on more than four boards of public companies in addition to the Company's Board of Directors.

In making its determinations regarding director nominees, the Board of Directors will consider whether a potential candidate has previously served as a director of the Company. The Board of Directors does not believe, however, that directors should expect to be automatically renominated on an annual basis. Instead, the annual self-assessment of the performance of the Board of Directors and its committees will be an important determinant of director tenure. The Board of Directors will initiate its self-assessment in 2005.

Apart from the normal director nomination process, the Company is a party to a stockholders agreement that gives Warburg, Pincus Equity Partners, L.P. (WPEP) the right to designate one or two individuals to serve as directors of the Company. If WPEP beneficially owns at least 10% of the outstanding shares of the Company's capital stock, WPEP is allowed to designate one individual for election to the Board of Directors. If WPEP beneficially owns at least 20% of the outstanding shares of the Company's capital stock, WPEP is allowed to designate two individuals for election to the Board of Directors. The Company is obligated to nominate and use its best efforts to have the individual(s) designated by WPEP elected to the Board of Directors. As of March 31, 2004, WPEP beneficially owned 4,842,629 shares of common stock representing [14.5]% of the outstanding shares, thus giving it the right under the stockholders agreement to designate one individual to serve as a director of the Company. Elizabeth H. Weatherman currently serves as a director of the Company and has been nominated for re-election at the meeting pursuant to WPEP's designation.

Director Compensation

The Company compensates its directors for their services with a combination of annual retainers, committee meeting fees, and discretionary equity-based awards. Except for the directors of the Company who are employees of the Company (F. Barry Bays) or who represent one of the Company's stockholders (Richard B. Emmitt and Elizabeth H. Weatherman), all directors are eligible for such compensation. The Chairman of the Board is paid an annual retainer of \$50,000, and the other eligible directors receive an annual retainer of \$15,000. Eligible directors who are members of the Audit Committee are paid supplemental annual retainers of \$20,000 for the chairman and \$8,000 for the other members. Eligible directors who are members of the Compensation Committee or the Nominating and Corporate Governance Committee receive a meeting fee of \$500 for their attendance at each committee meeting that is not associated with a regularly scheduled meeting of the Board of Directors. Eligible directors who serve on the Executive Committee are not paid any separate

Table of Contents

compensation in such capacity. Directors are reimbursed for their out-of-pocket expenses incurred in connection with attending meetings of the Board of Directors and its committees. Directors may receive discretionary grants of equity-based awards under the Company's Second Amended and Restated 1999 Equity Incentive Plan. No such awards were granted to the directors in 2003, although Mr. Bays, in his capacity as the Company's President and Chief Executive Officer, received a stock option for the purchase of 50,000 shares of common stock as more fully described in Executive Officers and Executive Compensation Stock Option Grants in 2003. Laurence Y. Fairey and David D. Stevens each received a stock option for the purchase of 20,000 shares of common stock upon their election as directors of the Company on January 26, 2004.

Stockholder Communications

Stockholders may communicate with the Board of Directors or any individual director regarding any matter relating to the Company that is within the responsibilities of the Board of Directors. Stockholders, when acting solely in such capacity, should send their communications to the Board of Directors or an individual director c/o Corporate Secretary, Wright Medical Group, Inc., 5677 Airline Road, Arlington, Tennessee 38002. The Corporate Secretary will discuss with the Chairman of the Board or the individual director whether the subject matter of a stockholder communication is within the responsibilities of the Board of Directors. The Corporate Secretary will forward a stockholder communication to the Chairman of the Board or the individual director if such person determines that the communication meets this standard.

Audit Committee Report

Management is responsible for the Company's accounting and financial reporting processes and for preparing the Company's consolidated financial statements. KPMG LLP (KPMG), the Company's independent auditor, is responsible for performing an audit of the Company's consolidated financial statements in accordance with auditing standards generally accepted in the United States of America and for expressing an opinion on the conformity of the Company's audited consolidated financial statements to accounting principles generally accepted in the United States of America. In this context, the responsibility of the Audit Committee of the Board of Directors is to oversee the Company's accounting and financial reporting processes and the audits of its consolidated financial statements.

In the performance of its oversight function, the Audit Committee reviewed and discussed the Company's audited consolidated financial statements as of and for the year ended December 31, 2003, with management and KPMG. Management and KPMG represented to the Audit Committee that the Company's audited consolidated financial statements as of and for the year ended December 31, 2003, were prepared in accordance with accounting principles generally accepted in the United States of America. The Audit Committee also discussed with KPMG the matters required to be discussed by Statement on Auditing Standards (SAS) Nos. 61, 89 and 90 issued by the Auditing Standards Board of the American Institute of Certified Public Accountants. SAS Nos. 61, 89 and 90 set forth requirements pertaining to the independent auditor's communications with the Audit Committee regarding the conduct of the audit.

The Audit Committee received the written disclosures and the letter from KPMG required by Independence Standards Board (ISB) Standard No. 1, *Independence Discussions with Audit Committees*, as amended. ISB Standard No. 1 requires the independent auditor to disclose in writing to the Audit Committee all relationships between the auditor and the Company that, in the auditor's judgment, reasonably may be thought to bear on independence and to discuss the auditor's independence with the Audit Committee. The Audit Committee discussed with KPMG its independence and considered in advance whether the provision of any non-audit services by KPMG is compatible with maintaining their independence.

The members of the Audit Committee are not professionally engaged in the practice of accounting or auditing and, as such, rely without independent verification on the information provided to them and on the representations made by management and KPMG. Accordingly, the Audit Committee's oversight does not provide an independent basis to determine that management has maintained appropriate accounting and financial reporting processes or appropriate internal controls and procedures designed to assure compliance

with the accounting standards and applicable laws and regulations. Furthermore, the Audit Committee's reviews and discussions referred to above do not assure that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards, that the Company's audited consolidated financial statements are presented in accordance with generally accepted accounting principles, or that KPMG is in fact independent.

Based on the reviews and discussions of the Audit Committee described above, in reliance on the unqualified opinion of KPMG dated February 11, 2004, regarding the Company's audited consolidated financial statements as of and for the year ended December 31, 2003, and subject to the limitations on the responsibilities of the Audit Committee discussed above and in the Audit Committee's charter (a copy of which is attached as Appendix A), the Audit Committee recommended to the Board of Directors, and the Board of Directors approved, that such financial statements be included in the Company's annual report on Form 10-K for the year ended December 31, 2003, to be filed with the Securities and Exchange Commission.

The foregoing report is provided by the undersigned members of the Audit Committee of the Board of Directors.

Compensation Committee Report

Overview. The Compensation Committee of the Board of Directors oversees the Company's general programs of compensation and benefits for all employees and determines the compensation of the Company's executive officers and directors. In making its determinations regarding executive compensation, the Compensation Committee has attempted to implement a policy that serves the financial interests of the Company's stockholders while providing appropriate incentives to its executive officers.

Compensation Philosophy. The Company's executive compensation program is designed to attract and retain high caliber executives and motivate them to achieve superior performance for the benefit of the Company's stockholders. The Compensation Committee believes that a significant portion of executive officers' compensation potential on an annual basis should be at risk based on the Company's performance. If the Company's performance does not meet the criteria established by the Compensation Committee, incentive compensation will be adjusted accordingly.

Compensation Program. The compensation for executive officers of the Company consists primarily of a base salary, an incentive bonus opportunity, and long-term incentive awards tied directly to the performance of the Company's common stock. The total cash compensation (*i.e.*, base salary plus incentive bonus) paid to the Company's executive officers is intended to be competitive with the total cash compensation paid to executive officers in similar positions at companies primarily in the medical device industry with revenues similar to those of the Company. These components of executive compensation are discussed more fully below.

Base Salary. The Compensation Committee determines the base salaries of the Chief Executive Officer and all other executive officers of the Company. The Compensation Committee considers the input of the Chief Executive Officer with respect to the base salaries of the other executive officers of the Company. In establishing the base salaries, the Compensation Committee seeks relevant compensation information but does not rely on a specific list of companies to compare salaries. Salaries are reviewed annually, and increases are based primarily on merit according to each executive officer's achievement of performance objectives.

Incentive Bonus. The Company implemented a management incentive plan for its executive officers and other management-level employees in 2003. The incentive plan provided for the discretionary payment by the Company of an incentive bonus in the event, and to the extent, that the Company achieved certain quarterly and annual performance objectives, including those relating to the Company's financial results, inventory position, and manufacturing efficiency. Under the plan, the incentive bonuses were calculated as a

Table of Contents

percentage of the executive officer's base salary, with the maximum percentage being 68-75% of base salary depending on the executive's job classification. As a result of the Company's performance in 2003 relative to the incentive plan's objectives, the executive officers received incentive bonuses in the approximate range of 63-75% of their base salaries.

Long-Term Incentive Awards. The Company may grant long-term, equity-based incentive awards to its executive officers under the Company's Second Amended and Restated 1999 Equity Incentive Plan (the "Equity Incentive Plan"). Under the Equity Incentive Plan, which is administered by the Compensation Committee, the Company may grant long-term, equity-based awards in the form of incentive stock options, nonqualified stock options, stock appreciation rights, restricted stock, phantom stock units, performance share units, and stock bonuses. Based on an assessment of competitive factors, the Compensation Committee determines an award that is suitable for providing an adequate incentive for the performance and retention of each executive officer. It is not intended that such awards be granted on the basis of past corporate performance or the size or amount of awards previously granted.

The Compensation Committee's practice has been to award stock options in order to closely align the interests of the executive officers with those of the Company's stockholders. In 2003, the Company granted stock options to purchase a total of 227,500 shares of common stock to nine executive officers. To encourage retention, the stock options generally are granted with a vesting period over several years. The stock options granted to the executive officers in 2003 vest ratably over four years. The Compensation Committee has taken the position that stock options should be granted with an exercise price that is equal to the fair market value of the common stock on the date of grant, which is calculated as the average of the high and low reported sale prices on the trading day immediately prior to the grant date. The actual value of stock option compensation, therefore, depends on the market value of the common stock increasing after the date of grant.

Compensation of Chief Executive Officer. F. Barry Bays was the President and Chief Executive Officer of the Company in 2003. Mr. Bays has an employment agreement with the Company, which is discussed in more detail elsewhere in this Proxy Statement. Pursuant to the agreement, the Company paid Mr. Bays a base salary of \$270,000 in 2003. Mr. Bays also was eligible under the Company's management incentive plan for 2003 to receive an incentive bonus calculated as a percentage of his base salary in the event that the Company achieved certain quarterly and annual performance objectives in 2003. While his targeted bonus percentage was 50% of his base salary, Mr. Bays actually received an incentive bonus for 2003 of \$202,500, or 75% of his base salary, due to the overachievement with respect to certain of the performance criteria. On March 25, 2003, the Company granted an option to purchase 50,000 shares of common stock to Mr. Bays under the Equity Incentive Plan. The exercise price of the option is \$16.59 per share, which is equal to the market value of the common stock on the date of grant. The option vests ratably over four years and has a ten-year term. The Compensation Committee considers the total compensation received by Mr. Bays for 2003 to be reasonable and appropriate under the circumstances.

**PROPOSAL 2 APPROVAL OF AMENDMENT OF CERTIFICATE OF
INCORPORATION TO CHANGE AUTHORIZED SHARES OF COMMON STOCK**

Introduction

The Board of Directors has adopted a resolution proposing an amendment of the Company's Fourth Amended and Restated Certificate of Incorporation (the "certificate of incorporation") to change the Company's authorized shares of common stock from 70,000,000 shares of voting common stock and 30,000,000 shares of non-voting common stock to 100,000,000 shares of common stock (all of which have voting rights). The amendment does not increase the total number of authorized shares of common stock, rather it simply confers voting rights on all the authorized shares of common stock. The Company also has 5,000,000 authorized shares of preferred stock, which will not be affected by the amendment.

Background of Non-Voting Common Stock

In December 1999, Warburg, Pincus Equity Partners, L.P. ("WPEP") led a group of private investors in effecting a recapitalization of the Company. In connection with the recapitalization, the Company issued common stock, preferred stock, and warrants, which together represented 83% of the Company's equity ownership, as well as subordinated notes to WPEP and three affiliated funds ("Warburg Pincus").

In July 2001, the Company issued 7,500,000 shares of voting common stock to investors in its initial public offering (the "IPO"). In connection with the IPO, the Company issued 9,926,006 shares of voting common stock and 7,123,344 shares of non-voting common stock to Warburg Pincus upon the conversion of the shares of preferred stock, accrued dividends thereon, and subordinated notes held by Warburg Pincus. The Company issued the shares of non-voting common stock to Warburg Pincus in accordance with a provision in the certificate of incorporation that prohibited WPEP and its affiliates from beneficially owning more than 49% of the outstanding shares of voting common stock. By virtue of its stockholdings, Warburg Pincus beneficially owned 61% of all the outstanding shares of common stock (voting and non-voting) upon the conclusion of the IPO.

In March 2002, the Company, along with certain selling stockholders, completed a secondary offering of 6,900,000 shares of voting common stock, which included 3,450,000 shares issued by the Company. Upon the completion of the secondary offering, Warburg Pincus beneficial ownership decreased to 46% of all the outstanding shares of common stock (voting and non-voting). Warburg Pincus thereafter converted all its shares of non-voting common stock into shares of voting common stock and, as a consequence, there no longer were any outstanding shares of non-voting common stock.

Outstanding, Committed, Reserved, and Available Shares of Common Stock

At March 31, 2004, the Company had [33,105,748] outstanding shares of voting common stock, [4,597,724] shares of voting common stock committed to be issued upon the exercise of outstanding options and warrants, and [1,719,575] shares of voting common stock reserved for future issuance under the Company's equity compensation plans. At such date, there remained [30,576,953] authorized shares of voting common stock available for future issuance by the Company.

At March 31, 2004, the Company had no outstanding shares of non-voting common stock, and all 30,000,000 authorized shares of non-voting common stock were available for future issuance. The Company does not have any present plan or intention of issuing any shares of non-voting common stock in the future.

Text of Amendment

If the proposed amendment is approved by the stockholders, Article IV of the certificate of incorporation will be amended to read as follows:

ARTICLE IV

The total authorized capital stock of the Corporation shall be 105,000,000 shares consisting of 100,000,000 shares of Common Stock, \$.01 par value per share (Common Stock), and 5,000,000 shares of Preferred Stock, \$.01 par value per share (Preferred Stock).

The Preferred Stock may be issued from time to time in one or more series, each of which series shall have such distinctive designation or title and such number of shares as shall be fixed by the Board of Directors prior to the issuance of any shares thereof. Each such series of Preferred Stock shall have such voting powers, full or limited, or no voting powers, and such preferences and relative, participating, optional or other special rights and such qualifications, limitations or restrictions thereof, as shall be stated and expressed in the resolution or resolutions providing for the issue of such series of Preferred Stock as may be adopted from time to time by the Board of Directors prior to the issuance of any shares thereof pursuant to the authority hereby expressly vested in it. The Board of Directors is further authorized to increase or decrease (but not below the number of shares outstanding) the number of shares of any series of Preferred Stock subsequent to the issuance of shares of that series. In case the number of shares of any series shall be so decreased, the shares constituting such decrease shall resume the status of which they had prior to the adoption of the resolution originally fixing the number of shares of such series. Except as provided in the resolution or resolutions of the Board of Directors creating any series of Preferred Stock or as otherwise provided herein, the shares of Common Stock shall have the exclusive right to vote for the election and removal of directors and for all other purposes.

Effects of Amendment

If the proposed amendment is approved by the stockholders, the Company will continue to have the same number of authorized shares of common stock. The only difference in the Company's equity capital structure will be that all 100,000,000, rather than only 70,000,000, of the authorized shares of common stock will have voting rights.

The additional authorized shares of common stock with voting rights will be available to the Company for issuance from time to time for various corporate purposes, including private or public sales, acquisitions, stock splits and dividends, and equity compensation plans. The Company does not have any present understanding, arrangement or agreement to issue any additional shares of common stock for any purpose other than pursuant to its outstanding options and warrants and its existing equity compensation plans. Nonetheless, the Company from time to time will continue to consider transactions that would result in the issuance of additional shares of common stock.

The additional authorized shares of common stock with voting rights could have the effect of making it more difficult, and therefore less likely, for a party to gain control of the Company on an unfriendly basis, because the Company could issue such additional shares to a third party that is supportive of the incumbent Board of Directors and management. The Company does not know of any party that is intent on gaining control of the Company and, as a consequence, the Company has no present plan or intention to issue any additional shares of common stock in connection with such a situation.

The proposed amendment does not alter the rights and privileges of the Company's outstanding shares of common stock or the manner in which the Board of Directors may authorize the issuance of additional shares of common stock or preferred stock. The Company's stockholders do not have preemptive rights or any other preferential right to purchase any additional shares of common stock.

The Board of Directors believes that the proposed amendment is in the best interests of the Company and its stockholders, insofar as it will provide the Board of Directors with flexibility and will enhance its ability to

respond to corporate opportunities that may arise in the future without the delay of seeking stockholder approval at such time. The Board of Directors will continue to seek stockholder approval for transactions that require such approval under Delaware corporate law, the Company's certificate of incorporation and bylaws, and the NASD's listing standards.

Effective Date of Amendment

If the proposed amendment is approved by the stockholders, the Company intends shortly thereafter to file a certificate of amendment to the certificate of incorporation with the office of the Secretary of State of the State of Delaware. The certificate of amendment will become effective upon its filing. The only changes to the certificate of incorporation will be those made to Article IV as shown above.

Board of Directors Recommendation

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE *FOR* THE APPROVAL OF THE AMENDMENT OF THE COMPANY'S CERTIFICATE OF INCORPORATION TO CHANGE THE COMPANY'S AUTHORIZED SHARES OF COMMON STOCK FROM 70,000,000 SHARES OF VOTING COMMON STOCK AND 30,000,000 SHARES OF NON-VOTING COMMON STOCK TO 100,000,000 SHARES OF COMMON STOCK (ALL OF WHICH HAVE VOTING RIGHTS), WITHOUT ANY INCREASE IN THE OVERALL NUMBER OF AUTHORIZED SHARES OF COMMON STOCK. Each proxy solicited on behalf of the Board of Directors will be voted *FOR* the approval of the amendment of the certificate of incorporation unless the stockholder instructs otherwise in the proxy.

PROPOSAL 3 RATIFICATION OF SELECTION OF INDEPENDENT AUDITOR

General

The Audit Committee of the Board of Directors has selected KPMG LLP (KPMG) as the independent auditor to perform the audit of the Company's consolidated financial statements for 2004. KPMG audited the Company's consolidated financial statements for 2003 and 2002. KPMG is a registered public accounting firm.

The Board of Directors is asking the stockholders to ratify the selection of KPMG as the Company's independent auditor for 2004. Although not required by law, the NASD's listing standards, or the Company's bylaws, the Board of Directors is submitting the selection of KPMG to the stockholders for ratification as a matter of good corporate practice. Even if the selection is ratified, the Audit Committee in its discretion may select a different registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of the Company and its stockholders.

Representatives of KPMG are expected to be present at the meeting. They will have an opportunity to make a statement if they desire to do so and will be available to respond to appropriate questions from the Company's stockholders.

Board of Directors Recommendation

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE *FOR* THE RATIFICATION OF THE SELECTION OF KPMG AS THE COMPANY'S INDEPENDENT AUDITOR FOR 2004. Each proxy solicited on behalf of the Board of Directors will be voted *FOR* the ratification of the selection of KPMG as the Company's independent auditor for 2004 unless the stockholder instructs otherwise in the proxy. If the stockholders do not ratify the selection, the matter will be reconsidered by the Audit Committee and the Board of Directors.

Audit and Non-Audit Services

The Audit Committee is directly responsible for the appointment, compensation, and oversight of the Company's independent auditor. In addition to retaining KPMG to audit the Company's consolidated financial statements for 2003, the Audit Committee retained KPMG to provide other auditing and advisory services in 2003. The Audit Committee understands the need for KPMG to maintain objectivity and independence in its audits of the Company's financial statements. The Audit Committee has reviewed all non-audit services provided by KPMG in 2003 and has concluded that the provision of such services was compatible with maintaining KPMG's independence in the conduct of its auditing functions.

To help ensure the independence of the independent auditor, the Audit Committee has adopted a policy for the pre-approval of all audit and non-audit services to be performed for the Company by its independent auditor. Pursuant to this policy, all audit and non-audit services to be performed by the independent auditor must be approved in advance by the Audit Committee. The Audit Committee may delegate to one or more of its members the authority to grant the required approvals, provided that any exercise of such authority is presented to the full Audit Committee at its next regularly scheduled meeting.

Table of Contents

The aggregate fees billed by KPMG for audit and non-audit services provided to the Company in 2003 and 2002 were as follows:

Fees	2003	2002
Audit Fees	\$582,000	\$499,732
Audit-Related Fees	103,000	8,000
Tax Fees:		
Tax Compliance Fees	31,050	35,000
All Other Tax Fees	177,732	37,769
Total Tax Fees	208,782	72,769
All Other Fees		
Total	\$893,782	\$580,501

In the above table, in accordance with the SEC's definitions and rules, audit fees are fees for professional services for the audit of a company's financial statements included in the annual report on Form 10-K, for the review of a company's financial statements included in the quarterly reports on Form 10-Q, and for services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements; audit-related fees are fees for assurance and related services that are reasonably related to the performance of the audit or review of a company's financial statements; tax fees are fees for tax compliance, tax advice and tax planning; and all other fees are fees for any services not included in the first three categories. The Company has adjusted the audit fees billed by KPMG in 2002, compared to the figures reported in last year's proxy statement, to increase the audit fees by \$5,700 and to shift \$8,000 related to the audit of an employee benefit plan to the audit-related fees category.

Other Independence Measures

The Company has taken additional steps to ensure the independence of its independent auditor. The Audit Committee requires that the lead and concurring partners assigned to the audit of the Company's consolidated financial statements are rotated off the independent auditor's audit engagement at least every five years. The Board of Directors, upon the recommendation of the Audit Committee, also has adopted a policy restricting the hiring of employees or former employees of the independent auditor who participated in any capacity in the audit of the Company's consolidated financial statements.

Prior Independent Auditor

As previously disclosed, on May 10, 2002, the Board of Directors, upon the recommendation of the Audit Committee, decided to no longer engage Arthur Andersen LLP (Andersen) as the Company's independent auditor, and engaged KPMG to serve as the Company's independent auditor for 2002.

Andersen's reports on the Company's consolidated financial statements for each of the years ended December 31, 2001 and 2000, did not contain an adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope, or accounting principles. Andersen's unqualified report on the Company's audited consolidated financial statements as of and for the year ended December 31, 2001, was issued in conjunction with the publication of the Company's 2001 Annual Report and the filing with the SEC of the Company's annual report on Form 10-K for the year ended December 31, 2001.

During the years ended December 31, 2001 and 2000, and the subsequent interim period through May 10, 2002, there were no disagreements with Andersen on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure which, if not resolved to Andersen's satisfaction, would have caused it to make reference to the subject matter of the disagreement in connection with its reports on the Company's consolidated financial statements for such years.

None of the reportable events described under Item 304(a)(1)(v) of Regulation S-K occurred within the years ended December 31, 2001 and 2000, or the subsequent interim period through May 10, 2002.

Table of Contents

The Company provided Andersen with a copy of the foregoing disclosures and attached a copy of Andersen's letter to the SEC dated May 10, 2002, stating Andersen's agreement with such statements as Exhibit 16.1 to the current report on Form 8-K that the Company filed with the SEC on May 13, 2002.

During the years ended December 31, 2001 and 2000, and the subsequent interim period through May 10, 2002, the Company did not consult KPMG regarding (a) either the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Company's consolidated financial statements, or (b) any matter that was either the subject of a disagreement (as defined in Item 304(a)(1)(iv) of Regulation S-K and the related instructions) or a reportable event (as described in Item 304(a)(1)(v) of Regulation S-K).

- (1) The exercise price per share of each stock option granted to the named executive officers is equal to the market value of the common stock on the date of grant.
- (2) In accordance with the SEC's regulations, these dollar figures represent hypothetical gains that could be achieved for the respective stock options if they were exercised at the end of the option term. The gains are based on assumed annual rates of stock price appreciation of 5% and 10% compounded annually from the date that the respective stock options were granted to their expiration date. They do not reflect the Company's estimates or projections of future prices of the common stock. The gains are net of the stock option exercise price, but do not include deductions for taxes or other expenses associated with the exercise. The actual gains, if any, realized upon stock option exercises will depend upon the future performance of the common stock, the executive's continued employment with the Company or its subsidiaries, and the dates on which the stock options are exercised. The hypothetical gains shown in the table might not be achieved.

All the stock options granted to the named executive officers were granted under the Company's Second Amended and Restated 1999 Equity Incentive Plan (the Equity Incentive Plan). The Compensation Committee, which administers the Equity Incentive Plan and the Company's other incentive plans, has general authority to accelerate, extend, or otherwise modify the benefits under the stock options in certain circumstances within overall plan and other limitations. The Compensation Committee has no present intention to exercise that authority with respect to these stock options.

* In accordance with the SEC's regulations, an option is in-the-money if the fair market value of the underlying security exceeds the exercise price of the option. In the table, the values of the unexercised in-the-money stock options are calculated by multiplying the number of underlying shares of the Company's common stock by the difference between the fair market value of the shares and the exercise prices of the stock options. For the purposes of the table, the fair market value of the Company's common stock on December 31, 2003, is deemed to have been \$30.40 per share, which is the closing sale price of the common stock reported for transactions effected on the Nasdaq National Market on such date.
