Table of Contents**PROXY STATEMENT/PROSPECTUS****MERGER PROPOSED YOUR VOTE IS VERY IMPORTANT**

The Boards of Directors of BancorpSouth, Inc. and American State Bank Corporation have approved a merger agreement to merge our two companies. If American State Bank Corporation shareholders vote to approve the merger agreement and the merger is completed, American State Bank Corporation will merge with and into BancorpSouth, American State Bank Corporation's subsidiary bank, American State Bank, will merge with and into BancorpSouth Bank, a subsidiary of BancorpSouth, and American State Bank Corporation shareholders, other than American State Bank Corporation shareholders who properly exercise their rights to dissent from the merger, will have the opportunity to elect to receive in exchange for shares of American State Bank Corporation common stock they own (i) a cash payment of \$93.9226, (ii) between 4.3537 and 3.7462 shares of BancorpSouth common stock, depending on the average closing price of BancorpSouth common stock reported on the New York Stock Exchange for the 10 trading days ending on the fifth trading day before the date that shareholders of American State Bank Corporation meet to approve the merger agreement, or (iii) a combination of cash and shares of BancorpSouth common stock. With respect to an election to receive stock consideration, for each share of American State Bank Corporation common stock you own, you may elect to receive 4.3537 shares of BancorpSouth common stock if the trailing average closing price is \$21.5729 or less, or 3.7462 shares of BancorpSouth common stock if the trailing average closing price is \$25.0712 or greater. Between these two trailing average closing prices, the exchange ratio will be proportionately adjusted between 4.3537 and 3.7462 based on the trailing average closing price of BancorpSouth common stock computed as described above. This will result in the issuance of up to 1,158,854 shares of BancorpSouth common stock. If you hold more than one share of American State Bank Corporation common stock, you may elect a combination of stock and cash consideration. In the merger, the percentage of shares of American State Bank Corporation common stock that will be exchangeable into the right to receive shares of BancorpSouth common stock is fixed at 50%. In order to ensure that the merger qualifies as a reorganization under the provisions of Section 368(a) of the Internal Revenue Code of 1986, as amended, and as a result of the 50% limitation for stock consideration, regardless of your election, you may receive a combination of cash and shares of BancorpSouth common stock that is different than what you may have elected, depending on the elections made by other American State Bank Corporation shareholders.

The number of shares of BancorpSouth common stock that American State Bank Corporation shareholders may receive in the merger is not fixed. The dollar value of the stock consideration that American State Bank Corporation shareholders may receive will also change depending on fluctuations in the market price of BancorpSouth common stock and might not be known at the time American State Bank Corporation's shareholders vote on the merger. The following table shows the average closing price of BancorpSouth common stock reported on the New York Stock Exchange for the 10 trading days ending on the fifth trading day before August 9, 2005, the last trading day before we announced the merger, and before [], 2005, the last practicable trading day before the distribution of this Proxy Statement/Prospectus. This table also shows the implied value of the stock consideration proposed for each share of American State Bank Corporation common stock, which we calculated by multiplying the appropriate trailing average closing price of BancorpSouth common stock for those dates by the corresponding exchange ratio. You should obtain current market quotations for BancorpSouth common stock from a newspaper, the Internet or your broker. BancorpSouth common stock is listed on the New York Stock Exchange under the symbol BXS.

**QUESTIONS AND ANSWERS
ABOUT THE MERGER**

Q: What is the proposed transaction?

A: A merger in which American State Bank Corporation will merge with and into BancorpSouth, Inc. and American State Bank Corporation's subsidiary bank, American State Bank, will merge with and into BancorpSouth Bank, a subsidiary of BancorpSouth. After the merger, you will no longer own shares of American State Bank Corporation common stock and will receive either cash or shares of BancorpSouth common stock or a combination of both.

Q: What do I need to do now?

A: After you carefully read this Proxy Statement/Prospectus, please vote your proxy promptly by indicating on the enclosed proxy card how you want to vote, and by signing and mailing the proxy card in the enclosed white postage paid business reply envelope as soon as possible so that your shares may be represented at the special meeting of shareholders. Also, please fill out your election form and letter of transmittal according to their instructions and mail the election form and the letter of transmittal, along with all of your American State Bank Corporation stock certificates, in the enclosed brown envelope to SunTrust Bank, Atlanta, N.A. as soon as possible so that we may know the amount of each type of consideration you wish to receive.

Regardless of whether you plan to attend the special meeting in person, we encourage you to vote your proxy promptly. This will help to ensure that a quorum is present at the special meeting and will help reduce the costs associated with the solicitation of proxies.

The Board of Directors of American State Bank Corporation unanimously recommends that shareholders vote FOR approval of the merger agreement.

Q: Why is my vote important?

A: Under the Arkansas Business Corporation Act of 1987, the merger agreement must be approved by a majority of all the votes entitled to be cast by shareholders of American State Bank Corporation. Accordingly, if you abstain, it will have the same effect as a vote against approval of the merger agreement.

Q: Can I change my vote after I have delivered my proxy card?

A: You may change your vote at any time before your proxy is voted at the special meeting of shareholders. You can do this in any of the following three ways:

by sending a written notice to the chief executive officer of American State Bank Corporation in time to be received before the special meeting stating that you would like to revoke your proxy;

by completing, signing and dating another proxy card and returning it by mail in time to be received before the special meeting, in which case your later-submitted proxy will be recorded and your earlier proxy revoked; or

if you are a holder of record, by attending the special meeting and voting in person, although attendance by itself will not revoke a previously granted proxy.

If your shares are held in an account at a broker, you should contact your broker to change your vote.

Q: If my shares are held in street name by my broker, will my broker vote my shares for me?

A: You should instruct your broker to vote your shares, following the directions your broker provides. Your broker will generally not have the discretion to vote your shares without your instructions.

Table of Contents

Q: Will I be able to sell the shares of BancorpSouth common stock I receive in the merger?

A: Yes. The BancorpSouth common stock issued pursuant to the merger will be registered under the Securities Act of 1933 and will be listed on the New York Stock Exchange under the symbol BXS. All shares of BancorpSouth common stock that you receive in the merger will be freely transferable unless you are deemed an affiliate of American State Bank Corporation prior to the merger. Persons who are considered affiliates of American State Bank Corporation (generally directors, officers and holders of 10% or more of American State Bank Corporation common stock) must comply with Rule 145 under the Securities Act of 1933 if they wish to sell or otherwise transfer any of the shares of BancorpSouth common stock they receive in the merger.

Q: What will I receive in connection with the merger?

A: You may elect to receive cash, shares of BancorpSouth common stock or a combination of cash and shares of BancorpSouth common stock by indicating your preference on the enclosed election form. The Proxy Statement/Prospectus explains in more detail what amount of cash and/or BancorpSouth common stock each shareholder of American State Bank Corporation is entitled to receive. The percentage of shares of American State Bank Corporation common stock that will be exchangeable for the right to receive shares of BancorpSouth common stock is fixed at 50%. In the event that more or less than 50% of the outstanding shares of American State Bank Corporation common stock elect to receive common stock consideration, the amount of BancorpSouth common stock that you will have the right to receive upon exchange of your shares of American State Bank Corporation common stock will be adjusted so that, in the aggregate, 50% of the shares of American State Bank Corporation common stock will be exchanged for the right to receive shares of BancorpSouth common stock and the remaining shares of American State Bank Corporation common stock will be exchanged for the right to receive cash. As a result, you may receive a different combination of consideration than you elected, based on the choices made by other American State Bank Corporation shareholders and a tax-related adjustment, if necessary.

Q: What are the U.S. federal income tax consequences of the merger to the shareholders?

A: If you exchange your shares of American State Bank Corporation common stock solely for BancorpSouth common stock, you should not recognize any gain or loss (except with respect to the cash you receive instead of a fractional share) for U.S. federal income tax purposes. If you exchange your shares of American State Bank Corporation common stock solely for cash, you should recognize gain or loss on the exchange. If you exchange your shares of American State Bank Corporation common stock for a combination of BancorpSouth common stock and cash, you should recognize gain, but not loss, on the exchange to the extent of the lesser of cash received or gain realized in the exchange. If you have shares of American State Bank Corporation common stock allocated to you in the American State Bank 401(k) Employee Stock Ownership Plan, the tax treatment of this transaction will be different with respect to those shares in some ways. You will receive additional information from the administrator of the American State Bank 401(k) Employee Stock Ownership Plan.

This tax treatment may not apply to all American State Bank Corporation shareholders. You should consult your own tax advisor for a full understanding of the merger's tax consequences that are particular to you.

Q: What is the purpose of this Proxy Statement/Prospectus?

A: This document serves as American State Bank Corporation's proxy statement and as BancorpSouth's prospectus. As a proxy statement, this document is being provided to American State Bank Corporation shareholders because American State Bank Corporation's Board of Directors is soliciting proxies to vote to approve the merger

agreement. As a prospectus, this document is being provided to American State Bank Corporation shareholders by BancorpSouth because BancorpSouth is offering them shares of BancorpSouth common stock in exchange for their shares of American State Bank Corporation common stock if the merger is completed.

A: Yes. Much of the business and financial information about BancorpSouth that may be important to you is not included directly in this document. This means that BancorpSouth may satisfy its disclosure obligations to you by referring you to one or more documents separately filed by it with the SEC. The documents are available to you without charge.

Q: What if I choose not to read the documents incorporated by reference?

A: Information that is incorporated from another document is considered to have been disclosed to you whether or not you choose to read the document. Information contained in a document that is incorporated into this Proxy Statement/Prospectus by reference is part of this Proxy Statement/Prospectus, unless it is superseded by information contained directly in this Proxy Statement/Prospectus or in documents filed by BancorpSouth with the SEC after the date of this Proxy Statement/Prospectus.

Q: Why have I been sent an election form?

A: If the merger agreement is approved and the merger is completed, unless you exercise your right to dissent from the merger, each share of American State Bank Corporation common stock held by you will be converted into the right to receive, at your election, \$93.9226 in cash, between 3.7462 and 4.3537 shares of BancorpSouth common stock as determined by the exchange ratio or a combination of cash and shares of BancorpSouth common stock, with cash to be paid in lieu of any remaining fractional share interest. The election form is the document provided to you to select the amount of each type of consideration you wish to receive.

Q: What happens if I do not send in my election form?

A: If you do not make an election, you will be deemed to have made an election to receive the merger consideration in such form of cash and/or shares of BancorpSouth common stock as BancorpSouth shall determine consistent with the terms of the merger agreement.

Q: Should I send in my American State Bank Corporation stock certificates now?

A: Yes. After you carefully read this Proxy Statement/Prospectus, please choose which form(s) of consideration you would like to receive if the merger is consummated by indicating your choice on the enclosed election form, signing the enclosed letter of transmittal and mailing both, along with all stock certificates representing shares of American State Bank Corporation common stock that you own, in the enclosed brown envelope to SunTrust Bank, Atlanta, N.A., the exchange agent. To be properly completed, your election form together with the appropriate stock certificate(s) and letter of transmittal must be received by the transfer agent by [], 2005, two business days before the date of the special meeting.

American State Bank Corporation shareholders, other than American State Bank Corporation shareholders who properly exercise their rights to dissent from the merger, will have the opportunity to elect to receive in exchange for shares of American State Bank Corporation common stock they own:

a cash payment of \$93.9226;

between 4.3537 and 3.7462 shares of BancorpSouth common stock (which is referred to as the exchange ratio), depending on the average closing price of BancorpSouth common stock for the 10 trading days ending on the fifth trading day before the date that shareholders of American State Bank Corporation meet to approve the merger agreement; or

Table of Contents

a combination of cash and shares of BancorpSouth common stock if the merger is completed.

With respect to an election to receive stock consideration, for each share of American State Bank Corporation common stock you own, you may elect to receive 4.3537 shares of BancorpSouth common stock if the trailing average closing price is \$21.5729 or less, or 3.7462 shares of BancorpSouth common stock if the trailing average closing price is \$25.0712 or greater. If the trailing average closing price is between \$21.5729 and \$25.0712, the exchange ratio will be proportionately adjusted between 4.3537 and 3.7462 based on the trailing average closing price of BancorpSouth common stock computed as described above. If you hold more than one share of American State Bank Corporation common stock, you may elect a combination of stock and cash consideration. Regardless of your election, you may receive a combination of cash and shares of BancorpSouth common stock that is different than what you may have elected, depending on the elections made by other American State Bank Corporation shareholders and a tax-related adjustment, if necessary.

BancorpSouth will not issue any fractional shares of BancorpSouth common stock. Instead, an American State Bank Corporation shareholder who receives any shares of BancorpSouth common stock as consideration in the merger will receive cash equal to the product of (i) the closing price per share of BancorpSouth common stock for the trading day immediately prior to the effective time of the merger, times (ii) the fraction of a share of BancorpSouth common stock to which the shareholder otherwise would be entitled.

Immediately prior to the effective time of the merger, each outstanding option to purchase shares of American State Bank Corporation common stock will be converted into the appropriate number of shares of American State Bank Corporation common stock through a cashless exercise arrangement. The resultant shares of American State Bank Corporation common stock will be entitled to conversion into cash, shares of BancorpSouth common stock or a combination of both on the terms described above.

At the effective time of the merger, persons who are BancorpSouth shareholders immediately prior to the merger would own more than 98.5% of the outstanding shares of common stock of the combined company and persons who are American State Bank Corporation shareholders immediately prior to the merger would own less than 1.5% of the outstanding shares of common stock of the combined company.

BancorpSouth's Stock Price Will Fluctuate (Page 60)

BancorpSouth expects the market price of its common stock to fluctuate as a result of market factors beyond its control before and after the merger. Because both the market price of BancorpSouth common stock and the exchange ratio may fluctuate, the value of the shares of BancorpSouth common stock that American State Bank Corporation shareholders may receive in the merger might increase or decrease prior to completion of the merger. BancorpSouth cannot assure American State Bank Corporation shareholders that the market price of BancorpSouth common stock will not decrease before or after completion of the merger. The following table shows the average closing price of BancorpSouth common stock reported on the New York Stock Exchange for the 10 trading days ending on the fifth trading day before August 9, 2005, the last trading day before we announced the merger, and before [], 2005, the last practicable trading day before the distribution of this Proxy Statement/Prospectus. This table also shows the implied value of the stock consideration proposed for each share of American State Bank Corporation common stock, which we calculated by multiplying the appropriate trailing average closing price of BancorpSouth common stock for those dates by the corresponding exchange ratio. You should obtain current market quotations for BancorpSouth common stock from a newspaper, the Internet or your broker. BancorpSouth common stock is listed on the New York Stock Exchange under the symbol BXS.

The Board of Directors of American State Bank Corporation Recommends that its Shareholders Approve the Merger Agreement (Page 29)

The Board of Directors of American State Bank Corporation unanimously approved the merger agreement, believes that the merger between American State Bank Corporation and BancorpSouth is in the best interests of American State Bank Corporation shareholders and recommends that American State Bank Corporation shareholders vote FOR the proposal to approve the merger agreement. This belief is based on a number of factors described in this Proxy Statement/Prospectus.

Vote Required to Complete the Merger (Page 28)

Under Arkansas law, the merger agreement must be approved by a majority of all the votes entitled to be cast by shareholders of American State Bank Corporation. American State Bank Corporation expects that its executive officers and directors will vote all of their shares of American State Bank Corporation common stock in favor of the merger agreement.

The following chart describes the American State Bank Corporation shareholder vote required to approve the merger agreement:

Background of the Merger (Page 31)

On July 16, 2004, management of American State Bank Corporation began initial discussions with representatives of Stephens Inc., an investment banking firm, regarding the alternatives available to American State Bank Corporation. On August 17, 2004, the Board of Directors of American State Bank Corporation met with representatives of Stephens to discuss alternatives available to American State Bank Corporation to maximize shareholder value. At this meeting, Stephens made a presentation to the Board of Directors on the company's strategic options, including a discussion of potential merger partners and other options. After further deliberation, American State Bank Corporation's Board of Directors retained Stephens on September 16, 2004 to assist the Board in soliciting expressions of interest from publicly traded companies regarding a potential business combination and in considering any such expressions of interest compared with the potential value of American State Bank Corporation as a stand-alone enterprise.

After discussions with management and preparation of a descriptive memorandum, Stephens began contacting 20 banking institutions on October 4, 2004 that were likely to have an interest in a business combination with American State Bank Corporation. Five institutions signed confidentially agreements with American State Bank Corporation and two of those institutions, including BancorpSouth, submitted written preliminary indications of interest based on information provided by American State Bank Corporation. One institution that had signed a confidentially agreement provided an oral indication of interest.

On or about May 10, 2005, BancorpSouth orally revised its indication of interest for American State Bank Corporation. On May 16, 2005, the American State Bank Corporation Board of Directors met to consider this revised indication of interest from BancorpSouth. The Board of Directors decided that the proposal from BancorpSouth was clearly superior to the other indications of interest and determined to enter into discussions with BancorpSouth.

American State Bank Corporation's Board of Directors met on August 9, 2005 to discuss and consider the proposed transaction with BancorpSouth. Stephens made a presentation regarding the financial rationale supporting the transaction, which included a detailed financial analysis concerning American State Bank Corporation and BancorpSouth. Although Stephens did not render a fairness opinion, it indicated to the Board that, as a result of its analysis and discussions with several potential acquirors, it believed it was unlikely that another publicly traded merger candidate would be willing to propose a transaction that was financially superior to the transaction proposed by BancorpSouth and that, if requested, it was prepared to render an opinion as to the fairness of the transaction from a financial point of view.

On May 25, 2005, BancorpSouth's Board of Directors approved the merger and authorized management to negotiate and execute the merger agreement. After a review of all aspects of the proposed transaction, American State Bank Corporation's Board of Directors approved the merger agreement with BancorpSouth on August 9, 2005. The merger agreement was executed by the parties as of August 9, 2005.

Why BancorpSouth and American State Bank Corporation are Seeking to Merge (Page 32)

The merger will combine the strengths of BancorpSouth and American State Bank Corporation and their subsidiary banks. The combined company resulting from the merger should be able to provide greater services than each company could provide independently. By merging with BancorpSouth, American State Bank Corporation will provide its current and potential customers with access to a substantially larger capital base and lending limits, as well as a broader array of financial products. The combined company also expects to reduce costs by eliminating overlap of the companies' operations and by applying BancorpSouth's technology to American State Bank Corporation's operations. The competitiveness of the financial services industry is increasing continually, and the greater strength realized through combining the companies is expected to enable them to provide superior products and services to their customers and benefits to their shareholders.

Analysis of Financial Advisor to American State Bank Corporation (Page 33)

Stephens Inc. acted as a financial advisor to American State Bank Corporation in connection with the proposed merger with and into BancorpSouth. As part of its investment banking business, Stephens regularly engages in the valuation of securities in connection with mergers and acquisitions and valuations for corporate, estate tax and other purposes. American State Bank Corporation retained Stephens based on its experience as a financial advisor in mergers and acquisitions of financial institutions and its knowledge of the financial institutions industry. As part of this engagement, Stephens agreed to provide analysis and advice to American State Bank Corporation's Board of Directors on the financial implications of any merger proposals received. At the August 9, 2005 meeting of American State Bank Corporation's Board of Directors, Stephens discussed its analysis of the BancorpSouth proposal and whether a superior offer could likely be obtained from another publicly traded potential acquiror. Stephens also presented a summary of its financial analysis to the Board of Directors. As part of this analysis, Stephens examined values of selected bank and thrift merger transactions, the potential merger valuation range that certain publicly traded potential acquirors might offer, a stand-alone valuation based on discounted cash flow analysis and a comparison to selected publicly traded companies. Stephens indicated that it had, during the course of its engagement, contacted 20 potential acquirors and received two other indications of interest, only one of which was considered viable, and that the expected transaction value from the proposed merger with BancorpSouth was clearly superior to the other competing indication of interest. American State Bank Corporation did not ask for and Stephens did not express an opinion as to the fairness of the transaction from a financial perspective.

Management and Board of Directors of BancorpSouth Following the Merger (Page 59)

The officers and directors of each of BancorpSouth and BancorpSouth Bank immediately prior to the effective time of the merger will continue to be the officers and directors of BancorpSouth and BancorpSouth Bank, respectively, following the merger. Certain of the executive officers of American State Bank Corporation will be retained by BancorpSouth and may serve as officers of BancorpSouth Bank but will not serve as executive officers of BancorpSouth.

Federal Income Tax Consequences (Page 38)

Your U.S. federal income tax consequences will depend primarily on whether you exchange your shares of American State Bank Corporation common stock solely for BancorpSouth common stock, solely for cash or for a combination of BancorpSouth common stock and cash. If you exchange your shares of American State Bank Corporation common stock solely for BancorpSouth common stock, you should not recognize any gain or loss (except with respect to the cash you receive instead of a fractional share) for U.S. federal income tax purposes. If you exchange your shares of American State Bank Corporation common stock solely for cash, you should recognize gain or loss on the exchange. If you exchange your shares of American State Bank Corporation common stock for a combination of BancorpSouth common stock and cash, you should recognize a gain, but not any loss, on the exchange to the extent of the lesser of cash received or gain realized in the exchange. The actual U.S. federal income tax consequences to you of electing to receive cash, BancorpSouth common stock or a combination of both will not be ascertainable at the time you make your election because we will not know at that time if, or to what extent, the allocation and proration procedures will apply. If you have shares of American State Bank Corporation common stock allocated to you in the American State Bank 401(k) Employee Stock Ownership Plan, the tax treatment of this transaction will be different with respect to those shares in some ways. You will receive additional information from the administrator of the American State Bank 401(k) Employee Stock Ownership Plan.

This tax treatment may not apply to all shareholders of American State Bank Corporation. Determining the actual tax consequences of the merger to you can be complicated. You should consult your own tax advisor for a full understanding of the merger's tax consequences that are particular to you.

BancorpSouth and American State Bank Corporation will not be obligated to complete the merger unless they each receive an opinion from their respective legal counsel, dated the closing date, that the merger will be treated for U.S. federal income tax purposes as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code and that BancorpSouth and American State Bank Corporation will each be a party to that reorganization. If such opinions are rendered, the U.S. federal income tax treatment of the merger should be as

Table of Contents

described above. The opinions of the parties' respective counsel, however, do not bind the Internal Revenue Service and do not preclude the IRS or the courts from adopting a contrary position.

Accounting Treatment (Page 38)

BancorpSouth will account for the merger under the purchase method of accounting for business combinations under United States generally accepted accounting principles.

Interests of American State Bank Corporation Executive Officers and Directors in the Merger (Page 46)

Executive officers and directors of American State Bank Corporation will be issued shares of BancorpSouth common stock in the merger on the same basis as other shareholders of American State Bank Corporation. The following chart shows the number of shares of BancorpSouth common stock that may be issued to affiliates of American State Bank Corporation in the merger (including shares reserved for issuance upon the cashless exercise of stock options immediately prior to the effective time of the merger):

Shares of common stock of American State Bank Corporation beneficially owned by its executive officers, directors and holders of more than 5% of American State Bank Corporation common stock on [], 2005	153,074
Maximum number of shares of BancorpSouth common stock that may be received in the merger by executive officers, directors and holders of more than 5% of American State Bank Corporation common stock based upon their beneficial ownership	666,438

Four of American State Bank Corporation's executive officers will receive bonuses as part of the merger and in consideration for terminating their existing employment agreements with American State Bank Corporation and will also enter into employment agreements with BancorpSouth.

American State Bank Corporation Shareholders May Dissent from the Merger (Page 42)

Arkansas law permits American State Bank Corporation shareholders to dissent from the merger and to receive the fair value of their shares of American State Bank Corporation common stock in cash. To dissent, an American State Bank Corporation shareholder must follow certain procedures, including filing certain notices with American State Bank Corporation and not voting his or her shares in favor of the merger agreement. The shares of American State Bank Corporation common stock held by a dissenter will not be exchanged for stock consideration or cash consideration in the merger and a dissenter's only right will be to receive the fair value of his or her shares of American State Bank Corporation common stock in cash. A copy of the Arkansas statute describing these dissenters' rights and the procedures for exercising them is attached as Annex B to this Proxy Statement/Prospectus. American State Bank Corporation shareholders who perfect their dissenters' rights and receive cash in exchange for their shares of American State Bank Corporation common stock may recognize gain or loss for U.S. federal income tax purposes.

We Must Obtain Regulatory Approvals to Complete the Merger (Page 37)

We cannot complete the merger unless we obtain the approval of the Federal Deposit Insurance Corporation. The U.S. Department of Justice has input into the FDIC's approval process. Once the FDIC has approved the merger, federal law requires that we wait up to 30 calendar days to complete the merger in order to give the Department of Justice the opportunity to review and object to the merger. BancorpSouth expects to obtain approval of the merger from the FDIC on or about October 17, 2005 and expects the waiting period to expire on or about November 1, 2005.

In addition, the merger is subject to the approval of the Mississippi Department of Banking and Consumer Finance and the Arkansas State Bank Department. BancorpSouth and American State Bank Corporation have filed all of the required notices and applications, as appropriate, with these state regulatory authorities, and approval of the merger is expected to be received prior to approval of

Table of Contents

the merger agreement by the shareholders of American State Bank Corporation.

We also intend to make all required filings with the Securities and Exchange Commission under the Securities Act of 1933 and the Securities Exchange Act of 1934 relating to the merger.

While we believe that we will obtain the remaining regulatory approvals in a timely manner, we cannot be certain if or when we will obtain them.

Conditions to Complete the Merger (Page 57)

The completion of the merger depends on a number of conditions being met, including the following:
shareholders of American State Bank Corporation approving the merger;

the New York Stock Exchange authorizing for listing the shares of BancorpSouth common stock to be issued to American State Bank Corporation shareholders;

receipt of all required regulatory approvals, including that of the FDIC, and the expiration of any regulatory waiting periods;

BancorpSouth's registration statement on Form S-4 becoming effective under the Securities Act of 1933;

the holders of less than 5% of the total outstanding shares of American State Bank Corporation common stock exercising dissenters' rights with respect to the merger;

receipt of opinions of legal counsel to each company that the U.S. federal income tax treatment of the merger will generally be as described in this Proxy Statement/Prospectus; and

BancorpSouth shall have received executed employment agreements which include non-competition and non-solicitation provisions in form and substance satisfactory to BancorpSouth from Messrs. Oldham, Dudley and Gramling and Ms. Dacus.

In cases where the law permits, a party to the merger agreement could elect to waive a condition that has not been satisfied and complete the merger although the party is entitled not to complete the merger. We cannot be certain whether or when any of these conditions will be satisfied (or waived, where permissible) or that the merger will be completed.

Termination of the Merger Agreement (Page 57)

The merger agreement may be terminated at any time prior to the effective time of the merger, whether before or after approval of the merger by American State Bank Corporation shareholders, as set forth in the merger agreement, including by mutual consent of BancorpSouth and American State Bank Corporation. In addition, the merger agreement may generally be terminated by either party if:

a governmental entity denies or withdraws a request or application for a required regulatory approval (subject to a 60-day waiting period) or issues a final nonappealable order enjoining or otherwise prohibiting the merger;

the merger is not completed on or before January 31, 2006; or

any of the representations or warranties provided by the other party set forth in the merger agreement become untrue or incorrect or the other party materially breaches its covenants set forth in the merger agreement, and the representation or material breach is not cured within the prescribed time limit.

BancorpSouth may terminate the merger agreement if:

American State Bank Corporation shareholders fail to approve the merger agreement;

Table of Contents

American State Bank Corporation's Board of Directors has withdrawn, modified or changed, in a manner adverse to BancorpSouth, its approval and recommendation of the merger agreement; or

American State Bank Corporation enters into a letter of intent or agreement related or with respect to any tender or exchange offer, proposal for a merger, consolidation or other business combination involving American State Bank Corporation or any offer to acquire all or a substantial portion of the assets of American State Bank Corporation.

Generally, a party can only terminate the merger agreement in one of these situations if that party is not in violation of the merger agreement or if its violations of the merger agreement are not the cause of the event permitting termination.

You should obtain current market quotations for BancorpSouth common stock from a newspaper, the Internet or your broker.

RECENT DEVELOPMENTS

BancorpSouth continues to assess the status of its Mississippi Gulf Coast banking assets damaged and operations disrupted by Hurricane Katrina. The aggregate impact of this hurricane on BancorpSouth's financial condition and results of operations may not be known for some time and must be measured by the extent of the damage to BancorpSouth's properties, the extent of the damage to the properties of its customers (including property pledged to the bank as collateral) and the short- and long-term impact on the economy of the region affected by Hurricane Katrina. As of September 30, 2005, BancorpSouth had not completed its assessment primarily because of the difficulty in gaining access to certain properties that serve as collateral for its loans and the difficulty in locating some of its loan customers in the Gulf Coast area who were displaced by this natural disaster. As of September 30, 2005, management of BancorpSouth had estimated that, based on information available to it at the time, the effects of Hurricane Katrina could decrease earnings by approximately \$9 million after tax, or \$0.115 per diluted share, for the quarter ended September 30, 2005 and could result in a provision for credit losses of approximately \$11.6 million. There can be no assurance, however, that the decrease in earnings and the provision for credit losses will not exceed these estimates. Management's estimates are subject to change as BancorpSouth continues its assessment and obtains additional reliable information.

Table of Contents**RISK FACTORS**

The merger involves a number of risks. In addition to the risks described below, the combined companies will continue to be subject to the risks described in the documents that BancorpSouth has filed with the Securities and Exchange Commission that are incorporated by reference into this Proxy Statement/Prospectus, including without limitation, BancorpSouth's Annual Report on Form 10-K for the fiscal year ended December 31, 2004. If any of the risks described below or in the documents incorporated by reference into this Proxy Statement/Prospectus actually occur, the business, financial condition, results of operations or cash flows of the combined companies could be materially adversely affected. The risks below should be considered along with the other information included or incorporated by reference into this Proxy Statement/Prospectus.

You Might Not Receive the Form of Merger Consideration that You Elect.

The merger agreement contains provisions that are generally designed to ensure that 50% of the outstanding shares of American State Bank Corporation common stock are exchanged for shares of BancorpSouth common stock and the other 50% of the shares are exchanged for cash consideration, subject to a tax-related adjustment. If elections are made by American State Bank Corporation shareholders that would otherwise result in more or less than 50% of such shares being converted into BancorpSouth common stock, the shareholders will have the consideration of the type they selected modified by a pro rata amount and will receive a portion of their consideration in the form that they did not elect to receive. Accordingly, there is a risk that you will not receive a portion of the merger consideration in the form that you elect, which could result in, among other things, tax consequences that differ from those that would have resulted had you received the form of consideration you elected (including the recognition of gain for federal income tax purposes with respect to the cash received). If you do not make an election, you will be deemed to have made an election to receive the merger consideration in such combination of cash and/or shares of BancorpSouth common stock as BancorpSouth shall determine.

You Might Not Know the Exchange Ratio When You Send Your Election Form to the Exchange Agent.

You are required to send to SunTrust Bank, Atlanta, N.A., the exchange agent, the election form and stock certificates representing shares of American State Bank Corporation common stock that you own so that they are received no later than the second business day immediately preceding the special meeting of the American State Bank Corporation shareholders. Because the exchange ratio will not be determinable until the end of business on the fifth day immediately preceding the special meeting, you might not know the exchange ratio when you send your election form to the exchange agent. Similarly, if you mail or otherwise submit your proxy prior to the fifth day immediately preceding the special meeting, you will not know the exchange ratio when you submit your proxy voting on the merger agreement, unless you subsequently revoke your proxy as described in this Proxy Statement/Prospectus or plan to attend the special meeting in person in lieu of submitting a proxy. As a result, you might not know the number of shares of BancorpSouth common stock you would receive as stock consideration when you vote on the merger agreement and elect the form of merger consideration you want to receive.

The Market Price of the Shares of BancorpSouth Common Stock You Receive in the Merger Will Fluctuate and the Precise Exchange Ratio Cannot be Presently Determined.

The merger agreement provides for an exchange ratio that is based on the average closing price of BancorpSouth common stock for the 10 trading day period ending on the fifth trading day prior to the date the shareholders of American State Bank Corporation meet to approve the merger agreement. The merger agreement provides for adjustment of the exchange ratio if the trailing average closing price is between \$21.5729 and \$25.0712 per share, but it does not provide any adjustment if the trailing average closing price is below \$21.5729 per share or above \$25.0712 per share. Consequently, the market price of the stock consideration per share of American State Bank Corporation common stock may be more or less than the cash consideration upon completion of the merger. The merger agreement does not provide for rights of termination by either party based on fluctuations of the market price of BancorpSouth common stock before closing of the proposed transaction. Because the exchange ratio is based on the average closing price of BancorpSouth common stock for a period of time prior to the shareholder meeting, the precise exchange ratio cannot be presently determined. Stock price changes may result from a variety

Table of Contents

of factors, including general market and economic conditions, changes in our respective businesses, operations and prospects, and regulatory considerations. Many of these factors are beyond our control.

Shareholders of American State Bank Corporation are urged to obtain current market quotations for BancorpSouth common stock. The historical prices of BancorpSouth common stock included in this Proxy Statement/Prospectus are not necessarily indicative of the prices that will be used to calculate the exchange ratio. The future market price of BancorpSouth common stock cannot be guaranteed or predicted.

The Valuation of the Merger is Subjective and a Fairness Opinion Was Not Provided.

The exchange ratio may not necessarily reflect the market value of American State Bank Corporation common stock. No fairness opinion has been obtained with respect to the merger, although American State Bank Corporation retained Stephens Inc., an investment banking firm, to provide a financial analysis with respect to the merger. The exchange ratio and other terms of the merger were determined by an arm's length negotiation between BancorpSouth and American State Bank Corporation's respective management and Board of Directors and based on input from Stephens. Although we believe that the transaction is fair from a financial point of view, Stephens did not express an opinion as to the fairness of the transaction from a financial perspective. Therefore, the determination of the exchange ratio is subjective and our determination of the fairness thereof has been made without reliance upon an opinion of any financial advisor.

We May Fail to Achieve the Anticipated Benefits of the Merger.

BancorpSouth and American State Bank Corporation have operated and, until the completion of the merger, will continue to operate, independently. It is possible that the integration process could result in the loss of key employees, the disruption of each company's ongoing businesses or inconsistencies in standards, controls, procedures and policies that adversely affect our ability to maintain relationships with clients, customers, depositors and employees or to achieve the anticipated benefits of the merger.

The Market Price of Shares of BancorpSouth Common Stock after the Merger May Be Affected by Factors Different from those Affecting Shares of American State Bank Corporation or BancorpSouth Currently.

The businesses of BancorpSouth and American State Bank Corporation differ in some respects and, accordingly, the results of operations of the combined company and the market price of the combined company's shares of common stock may be affected by factors different from those currently affecting the independent financial condition and results of operations of each of BancorpSouth and American State Bank Corporation. For a discussion of the businesses of BancorpSouth and American State Bank Corporation and of certain factors to consider in connection with those businesses, see INFORMATION ABOUT BANCORPSOUTH on page 61 and INFORMATION ABOUT AMERICAN STATE BANK CORPORATION beginning on page 62.

The Merger Agreement Limits the Ability of American State Bank Corporation to Pursue Alternative Transactions to the Merger and Requires American State Bank Corporation to Pay a Termination Fee if it Does.

The merger agreement prohibits American State Bank Corporation and its directors, officers, representatives and agents from soliciting, authorizing the solicitation of or, subject to very narrow exceptions, entering into discussions with any third party regarding alternative acquisition proposals. The prohibition limits the ability of American State Bank Corporation to pursue offers that may be superior from a financial point of view from other possible acquirors. If the merger agreement is terminated for certain reasons and American State Bank Corporation receives an unsolicited proposal from a third party within nine months after such termination and actions are taken by the Board of Directors of American State Bank Corporation to pursue further discussions or negotiations, American State Bank Corporation will be required to pay \$1,500,000 in cash to BancorpSouth upon demand. This fee makes it less likely that a third party will make an alternative acquisition proposal.

Table of Contents

The Executive Officers and Directors of American State Bank Corporation Have Interests Different from Typical American State Bank Corporation Shareholders.

The executive officers and directors of American State Bank Corporation have certain interests in the merger and participate in certain arrangements that are different from, or are in addition to, those of American State Bank Corporation shareholders generally. See THE MERGER Interests of Certain Persons in the Merger. As a result, these executive officers and directors could be more likely to approve the merger agreement than if they did not hold these interests.

Former Shareholders of American State Bank Corporation Will Be Limited in their Ability to Influence BancorpSouth's Actions and Decisions Following the Merger.

Following the merger, former shareholders of American State Bank Corporation will hold less than 1.5% of the outstanding shares of BancorpSouth common stock. As a result, former American State Bank Corporation shareholders will have only a limited ability to influence BancorpSouth's business. Former American State Bank Corporation shareholders will not have separate approval rights with respect to any actions or decisions of BancorpSouth or have separate representation on BancorpSouth's Board of Directors.

The Merger May Result in a Loss of Current American State Bank Corporation Employees.

Despite BancorpSouth's efforts to retain quality employees, BancorpSouth might lose some of American State Bank Corporation's current employees following the merger. Current American State Bank Corporation employees may not want to work for a larger, publicly traded company instead of a smaller, privately-held company or may not want to assume different duties, positions and compensation that BancorpSouth offers to the American State Bank Corporation employees. Competitors may recruit employees prior to the merger and during the integration process after the merger. As a result, current employees of American State Bank Corporation could leave with little or no prior notice. BancorpSouth cannot assure you that the combined companies will be able to attract, retain and integrate employees following the merger.

Table of Contents**COMPARATIVE HISTORICAL AND PRO FORMA PER SHARE DATA**

The following table sets forth for BancorpSouth common stock and American State Bank Corporation common stock certain historical, pro forma and pro forma-equivalent per share financial information. The pro forma and pro forma-equivalent per share information gives effect to the merger as if the merger had been effective on the dates presented, in the case of the book value data, and as if the merger had become effective on January 1, 2004, in the case of the income from continuing operations and cash dividends paid data for the 12 months ended December 31, 2004, and as if the merger had become effective on January 1, 2005, in the case of the income from continuing operations and cash dividends paid data for the six months ended June 30, 2005. The pro forma data in the tables represents a current estimate based on available information of the combined company's results of operations and is based on an exchange ratio of 3.9381 shares of BancorpSouth common stock for each share of American State Bank Corporation common stock, which would have been the exchange ratio as of August 9, 2005, the last trading day before we announced the merger, and assuming that 100% of the outstanding common stock of American State Bank Corporation is converted into BancorpSouth common stock with no regard given to the effects of shares of American State Bank Corporation common stock that are exchanged for cash, as if these shares were outstanding for each period presented. The information in the following table is based on, and should be read together with, the historical financial information that BancorpSouth has presented in filings with the Securities and Exchange Commission. See **WHERE YOU CAN FIND MORE INFORMATION** beginning on page 89.

The pro forma information, while helpful in illustrating the financial characteristics of the combined company under one set of assumptions, does not reflect the impact of possible revenue enhancements, expense efficiencies, asset dispositions and share repurchases, among other factors, that may result as a consequence of the merger and, accordingly, does not attempt to predict or suggest future results. It also does not necessarily reflect what the historical results of the combined company would have been had the companies been combined during these periods. Upon completion of the merger, the operating results of American State Bank Corporation will be reflected in the consolidated financial statements of BancorpSouth on a prospective basis.

An American State Bank Corporation shareholder may revoke any proxy given in connection with this solicitation by:

Corporation common stock represented by valid proxies received through this solicitation and not revoked before they are exercised in the manner described above.

American State Bank Corporation is currently unaware of any other matters that may be presented for action at the American State Bank Corporation special meeting. If other matters do properly come before the American State Bank Corporation special meeting, then shares of American State Bank Corporation common stock represented by proxies will be voted (or not voted) by the persons named in the proxies in their discretion.

Please do not forward your American State Bank Corporation stock certificates, election form and letter of transmittal with your proxy card. Stock certificates, the election form and the letter of transmittal should be returned to the exchange agent in accordance with the instructions contained in the election form.

Solicitation of Proxies

American State Bank Corporation will bear the costs of printing and mailing this Proxy Statement/Prospectus and BancorpSouth will bear the costs of filing BancorpSouth's registration statement on Form S-4 with the Securities and Exchange Commission.

If necessary, American State Bank Corporation may use several of its regular employees, who will not be specially compensated, to solicit proxies from American State Bank Corporation shareholders, either personally or by telephone, facsimile or mail.

Record Date and Voting Rights

American State Bank Corporation's Board of Directors has fixed [], 2005 as the record date for the determination of American State Bank Corporation shareholders entitled to receive notice of and to vote at American State Bank Corporation's special meeting of shareholders. Accordingly, only American State Bank Corporation shareholders of record at the close of business on [], 2005 will be entitled to notice of and to vote at the American State Bank Corporation special meeting. At the close of business on American State Bank Corporation's record date, there were 472,266 shares of American State Bank Corporation common stock entitled to vote at the American State Bank Corporation special meeting held by 228 holders of record. The executive officers and directors of American State Bank Corporation beneficially owned 19.69% of the outstanding shares of American State Bank Corporation common stock as of that date.

The presence, in person or by proxy, of a majority of the votes entitled to be cast by the holders of American State Bank Corporation common stock is necessary to constitute a quorum at the special meeting. Each share of American State Bank Corporation common stock outstanding on American State Bank Corporation's record date entitles its holder to one vote as to the approval of the merger agreement or any other proposal that may properly come before American State Bank Corporation's special meeting.

For purposes of determining the presence or absence of a quorum for the transaction of business, American State Bank Corporation will count shares of American State Bank Corporation common stock present in person at the special meeting but not voting as present at the special meeting. Abstentions and broker non-votes will also be counted as present at the American State Bank Corporation special meeting for purposes of determining whether a quorum exists.

Under the Arkansas Business Corporation Act of 1987, the merger agreement must be approved by a majority of all the votes entitled to be cast by shareholders of American State Bank Corporation. Because approval of the merger agreement requires approval based on the votes entitled to be cast, an abstention or a broker non-vote will have the same effect as a vote against approval of the merger agreement. Accordingly, American State Bank Corporation's Board of Directors urges American State Bank Corporation shareholders to complete, date and sign the accompanying proxy card and return it promptly in the enclosed white postage paid business reply envelope.

Table of Contents

Recommendation of Board of Directors

American State Bank Corporation's Board of Directors has unanimously approved the merger agreement. American State Bank Corporation's Board of Directors believes that the merger is in the best interests of American State Bank Corporation and American State Bank Corporation shareholders and recommends that American State Bank Corporation shareholders vote FOR approval of the merger agreement. The conclusion of American State Bank Corporation's Board of Directors with respect to the merger is based on a number of factors, as described in this Proxy Statement/Prospectus. See THE MERGER Reasons for the Merger; Recommendation of the Board of Directors.

Shareholders Dissenters Rights

Shareholders of American State Bank Corporation who do not wish to accept BancorpSouth common stock in the merger will be entitled under the Arkansas Business Corporation Act of 1987 to receive the fair value of their shares. This right to dissent is subject to a number of restrictions and technical requirements. Generally, in order to exercise dissenters' rights, you must:

deliver to American State Bank Corporation, before the vote on the merger agreement is taken, written notice of your intent to demand payment for your shares if the merger agreement is approved and the merger is completed; and

not vote such shares of American State Bank Corporation common stock in favor of the merger agreement.

Any American State Bank Corporation shareholder who wishes to exercise dissenters' rights, or who wishes to preserve his or her right to do so, should carefully review Sections 4-27-1301 *et seq.* of the Arkansas Business Corporation Act of 1987, a copy of which is attached as Annex B to this Proxy Statement/Prospectus, and the section entitled THE MERGER Shareholders Dissenters Rights.

Certain Matters Relating to Proxy Materials

The rules regarding delivery of proxy statements may be satisfied by delivering a single proxy statement to an address shared by two or more shareholders. This method of delivery is referred to as "householding" and can result in meaningful cost savings. In order to take advantage of this opportunity, we may deliver only one proxy statement to certain multiple shareholders who share an address, unless we have received contrary instructions from one or more of such shareholders. We undertake to deliver promptly upon request a separate copy of the proxy statement, as requested, to a shareholder at a shared address to which a single copy of this document was delivered. If you hold American State Bank Corporation common stock as a registered shareholder and prefer to receive separate copies of a proxy statement, please call (870) 972-9800 or send a written request to:

American State Bank Corporation
2201 Fair Park Boulevard
Jonesboro, Arkansas 72401

Attention: Frank Oldham, Chairman and Chief Executive Officer

If your American State Bank Corporation common stock is held through a broker or a bank and you prefer to receive separate copies of a proxy statement, please contact such broker or bank.

THE MERGER

The discussion in this Proxy Statement/Prospectus of the merger of American State Bank Corporation into BancorpSouth does not purport to be complete and is qualified by reference to the full text of the merger agreement and the other annexes attached to, and incorporated by reference into, this Proxy Statement/Prospectus.

Description of the Merger

If the merger is completed, American State Bank Corporation will merge with and into BancorpSouth and American State Bank Corporation's subsidiary bank will merge with and into BancorpSouth Bank, a subsidiary of BancorpSouth. American State Bank Corporation shareholders, other than American State Bank Corporation shareholders who properly exercise their rights to dissent from the merger, will have the opportunity to elect to receive in exchange for shares of American State Bank Corporation common stock they own:

a cash payment of \$93.9226;

between 4.3537 and 3.7462 shares of BancorpSouth common stock (which is referred to as the exchange ratio), depending on the average closing price of BancorpSouth common stock for the 10 trading days ending on the fifth trading day before the date that shareholders of American State Bank Corporation meet to approve the merger agreement; or

a combination of cash and shares of BancorpSouth common stock if the merger is completed.

With respect to an election to receive stock consideration, for each share of American State Bank Corporation common stock, American State Bank Corporation shareholders may receive 4.3537 shares of BancorpSouth common stock if the trailing average closing price is \$21.5729 or less, or 3.7462 shares of BancorpSouth common stock if the trailing average closing price is \$25.0712 or greater. If the trailing average closing price is between \$21.5729 and \$25.0712, the exchange ratio will be proportionately adjusted between 4.3537 and 3.7462 based on the trailing average closing price of BancorpSouth common stock computed as described above. See THE MERGER AGREEMENT Terms of the Merger.

Holders of more than one share of American State Bank Corporation common stock may elect a combination of stock and cash consideration. In the merger, 50% of the outstanding shares of American State Bank Corporation common stock shall be exchanged for BancorpSouth common stock. In order to ensure that the merger qualifies as a reorganization under the provisions of Section 368(a) of the Internal Revenue Code of 1986, and as a result of the 50% limitation for stock consideration, regardless of your election, you may receive a combination of cash and shares of BancorpSouth common stock that is different than what you may have elected, depending on the elections made by other American State Bank Corporation shareholders. See THE MERGER AGREEMENT Cash or Stock Election.

BancorpSouth will not issue any fractional shares of BancorpSouth common stock. Instead, an American State Bank Corporation shareholder who receives any shares of BancorpSouth common stock as consideration in the merger will receive cash equal to the product of (i) the closing price per share of BancorpSouth common stock for the trading day immediately prior to the effective time of the merger, times (ii) the fraction of a share of BancorpSouth common stock to which the shareholder otherwise would be entitled.

Arkansas law permits American State Bank Corporation shareholders to dissent from the merger and to receive the fair value of their shares of American State Bank Corporation common stock in cash. To dissent, an American State Bank Corporation shareholder must follow certain procedures, including filing certain notices with American State Bank Corporation and not voting his or her shares in favor of the merger agreement. The shares of American State Bank Corporation common stock held by a dissenter will not be exchanged for stock consideration or cash consideration in the merger and a dissenter's only right will be to receive the appraised fair value of his or her shares of American State Bank Corporation common stock in cash. For a discussion of the procedures that dissenting shareholders must follow to properly exercise their rights, please see THE MERGER Shareholders Dissenters Rights.

Background of the Merger

The management of American State Bank Corporation periodically has explored, assessed and discussed with the American State Bank Corporation Board of Directors strategic options potentially available to American State Bank Corporation. These strategic discussions have included the possibility of business combinations involving American State Bank Corporation and other financial institutions, particularly in view of the increasing competition and continuing consolidation in the financial services industry, as well as maximizing its performance as an independent company.

On July 16, 2004, management of American State Bank Corporation began initial discussions with representatives of Stephens Inc., an investment banking firm, regarding the alternatives available to American State Bank Corporation. On August 17, 2004, the Board of Directors of American State Bank Corporation met with representatives of Stephens to discuss alternatives available to American State Bank Corporation to maximize shareholder value. At this meeting, Stephens made a presentation to the Board of Directors on the company's strategic options, including a discussion of potential merger partners and other options. After further deliberation, American State Bank Corporation's Board of Directors retained Stephens on September 16, 2004 to assist the Board in soliciting expressions of interest from publicly traded companies regarding a potential business combination and in considering any such expressions of interest compared with the potential value of American State Bank Corporation as a stand-alone enterprise.

After discussions with management and preparation of a descriptive memorandum, Stephens began contacting 20 banking institutions on October 4, 2004 that were likely to have an interest in a business combination with American State Bank Corporation. Five institutions signed confidentially agreements with American State Bank Corporation and two of those institutions, including BancorpSouth, submitted written preliminary indications of interest based on information provided by American State Bank Corporation. One institution that had signed a confidentially agreement provided an oral indication of interest.

On December 14, 2004, the American State Bank Corporation Board of Directors met to consider the two preliminary written proposals and the one preliminary oral proposal. After discussion with Stephens, the Board of Directors determined that the proposal from BancorpSouth and the preliminary oral proposal were the superior proposals, but none of the initial indications of interest were adequate in the judgment of the Board of Directors of American State Bank Corporation. The Board of Directors authorized Stephens to continue discussions with the two potential merger candidates, while continuing to study the option of remaining independent.

On February 15, 2005, the American State Bank Corporation Board of Directors met again to discuss the two proposals under consideration. Stephens updated the Board of Directors on the discussions with the two potential merger candidates. The Board of Directors instructed Stephens to continue valuation discussions with both potential merger candidates and to ask for final indications of interest from both interested institutions.

On or about May 10, 2005, BancorpSouth orally revised its indication of interest for American State Bank Corporation. On May 16, 2005, the American State Bank Corporation Board of Directors met to consider this revised indication of interest from BancorpSouth. The Board of Directors decided that the proposal from BancorpSouth was clearly superior to the other indications of interest and determined to enter into discussions with BancorpSouth.

Management of American State Bank Corporation and BancorpSouth met in Memphis, Tennessee on July 7, 2005 to continue discussions of the terms of a merger and to begin due diligence discussions. Following this meeting, work began on a draft merger agreement while the due diligence process continued.

American State Bank Corporation's Board of Directors met on August 9, 2005 to discuss and consider the proposed transaction with BancorpSouth. Stephens made a presentation regarding the financial rationale supporting the transaction, which included a detailed financial analysis concerning American State Bank Corporation and BancorpSouth. Although Stephens did not render a fairness opinion, it indicated to the American State Bank Corporation Board of Directors that, as a result of its analysis and discussions with several potential acquirors, it believed it was unlikely that another publicly traded merger candidate would be willing to propose a transaction that

Table of Contents

was financially superior to the transaction proposed by BancorpSouth and that, if requested, it was prepared to render an opinion as to the fairness of the transaction from a financial point of view.

On May 25, 2005, BancorpSouth's Board of Directors approved the merger and authorized management to negotiate and execute the merger agreement. After a review of all aspects of the proposed transaction, American State Bank Corporation's Board of Directors approved the merger agreement with BancorpSouth on August 9, 2005. The merger agreement was executed by the parties as of August 9, 2005.

Reasons for the Merger; Recommendation of the Board of Directors

The merger will combine the strengths of BancorpSouth and American State Bank Corporation and their subsidiary banks. The combined company resulting from the merger should be able to provide greater services than each company could provide independently. By merging with BancorpSouth, American State Bank Corporation will provide its current and potential customers with access to a substantially larger capital base and lending limits, as well as a broader array of financial products. The combined company also expects to reduce costs by eliminating overlap of the companies' operations and by applying BancorpSouth's technology to American State Bank Corporation's operations. The competitiveness of the financial services industry is increasing continually, and the greater strength realized through combining the companies is expected to enable them to provide superior products and services to their customers and benefits to their shareholders.

In approving the merger agreement at its meeting on August 9, 2005, the American State Bank Corporation Board of Directors considered the following material factors based in part on the presentation by Stephens:

the dividends, financial condition and earnings of BancorpSouth;

the resulting relative interests of American State Bank Corporation shareholders in the common stock of the combined companies following the merger;

the terms of the merger agreement, including the amount and form of consideration to be received by American State Bank Corporation shareholders in the merger and the expectation that the merger will be a partially tax-free transaction;

the anticipated cost savings, operating efficiencies and opportunities for revenue enhancement available to the combined companies from the merger, and the likelihood that these would be achieved following the merger;

the advice of Stephens that it believed it was unlikely that another publicly traded merger candidate would be willing to propose a transaction that was financially superior to the transaction proposed by BancorpSouth;

the nature of, and likelihood of obtaining, the regulatory approvals that would be required for the merger;

the liquidity provided by shares of BancorpSouth common stock compared to shares of American State Bank Corporation common stock; and

the historical market prices of BancorpSouth common stock and the fact that the proposed per-share merger consideration represented a premium over the book value of American State Bank Corporation's common stock on the business day before the merger was announced.

Based on a thorough evaluation of these factors, American State Bank Corporation's Board of Directors believes the merger is in the best interests of American State Bank Corporation and American State Bank Corporation shareholders. American State Bank Corporation's Board of Directors recommends that American State Bank Corporation shareholders vote FOR approval of the merger agreement.

Table of Contents**Analysis of Financial Advisor to American State Bank Corporation**

Stephens Inc. acted as a financial advisor to American State Bank Corporation in connection with the proposed merger with and into BancorpSouth. As part of its investment banking business, Stephens regularly engages in the valuation of securities in connection with mergers and acquisitions and valuations for corporate, estate tax and other purposes. American State Bank Corporation retained Stephens based on its experience as a financial advisor in mergers and acquisitions of financial institutions and its knowledge of the financial institutions industry. As part of this engagement, Stephens agreed to provide analysis and advice to American State Bank Corporation's Board of Directors on the financial implications of any merger proposals received. At the August 9, 2005 meeting of American State Bank Corporation's Board of Directors, Stephens discussed its analysis of the BancorpSouth proposal and whether a superior offer could likely be obtained from another publicly traded potential acquiror. Stephens also presented a summary of its financial analysis to the Board of Directors. As part of this analysis, Stephens examined values of selected bank and thrift merger transactions, the potential merger valuation range that certain publicly traded potential acquirors might offer, a stand-alone valuation based on discounted cash flow analysis and a comparison to selected publicly traded companies. Stephens also indicated that it had, during the course of its engagement, contacted 20 potential acquirors and received two other indications of interest, only one of which was considered viable, and that the expected transaction value from the proposed merger with BancorpSouth was clearly superior to the other competing indications of interest. American State Bank Corporation did not ask for and Stephens did not express an opinion as to the fairness of the transaction from a financial perspective. American State Bank Corporation provided information to Stephens about its past financial performance, its then-current financial condition and results of operations and its managements' expectations and projections of its future performance. For purposes of its analyses, Stephens relied on the information provided by American State Bank Corporation and did not independently verify such information.

Set forth below is a summary of the material analyses presented by Stephens on August 9, 2005 to the Board of Directors of American State Bank Corporation. Representatives from Stephens were present to discuss the reasonableness of the financial terms of the proposed merger agreement.

Offer Valuation

Stephens reviewed the financial terms of the proposed merger, including the consideration (with a then-current value per share of approximately \$93.9226) and the estimated aggregate transaction value offered in the BancorpSouth proposal of approximately \$50 million (subject to market fluctuations of the value of the BancorpSouth common stock as consideration in the merger), including the estimated \$5.6 million value of American State Bank Corporation stock options. Stephens calculated the ratio of the estimated transaction value per diluted share to American State Bank Corporation's earnings per share for the 12 months ended June 30, 2005 and to book value per share and tangible book value per share as of June 30, 2005, which were 25.1:1, 2.26:1 and 2.26:1, respectively. Stephens also calculated the tangible core deposit premium to be 12.6%.

Pricing Structure

American State Bank Corporation shareholders, other than American State Bank Corporation shareholders who properly exercise their rights to dissent from the merger, will have the opportunity to elect to receive in exchange for shares of American State Bank Corporation common stock they own:

a cash payment of \$93.9226;

between 4.3537 and 3.7462 shares of BancorpSouth common stock (which is referred to as the exchange ratio), depending on the average closing price of BancorpSouth common stock for the 10 trading days ending on the fifth trading day before the date that shareholders of American State Bank Corporation meet to approve the merger agreement; or

a combination of cash and shares of BancorpSouth common stock if the merger is completed.

With respect to an election to receive stock consideration, for each share of American State Bank Corporation common stock, shareholders may elect to receive 4.3537 shares of BancorpSouth common stock if the trailing average closing price is \$21.5729 or less, and 3.7462 shares of BancorpSouth common stock if the trailing

Table of Contents

average closing price is \$25.0712 or greater. If the trailing average closing price is between \$21.5729 and \$25.0712, the exchange ratio will be proportionately adjusted between 4.3537 and 3.7462 based on the trailing average closing price of BancorpSouth common stock computed as described above. If shareholders hold more than one share of American State Bank Corporation common stock, they may elect a combination of stock and cash consideration. Regardless of their election, they may receive a combination of cash and shares of BancorpSouth common stock that is different than what they may have elected, depending on the elections made by other American State Bank Corporation shareholders and a tax-related adjustment, if necessary.

The chart below represents estimates of the aggregate number of shares of BancorpSouth common stock to be issued in connection with the transaction, the aggregate value of BancorpSouth common stock to be issued in connection with the transaction, the aggregate transaction value, the aggregate transaction value per share of American State Bank Corporation common stock and transaction value ratios based upon a range of trailing average closing prices of BancorpSouth common stock. The chart reflects that all of these parameters will vary based on the 10-day average closing price of BancorpSouth common stock ending on the fifth trading day before the shareholders of American State Bank Corporation meet to approve the merger agreement.

Analysis of Selected Recent Regional Bank and Thrift Merger Transactions

Stephens reviewed the consideration paid in nine Arkansas transactions announced between August 1, 2003 and August 8, 2005 with transaction values between \$10 million and \$100 million for bank and thrift targets and ten regional transactions announced between August 1, 2004 and August 8, 2005 with transaction values between \$15 million and \$100 million for bank and thrift targets located in Arkansas, Louisiana, Missouri and Tennessee. There were no such transactions in Alabama, Mississippi or Oklahoma. For each company merged in such transactions, Stephens compiled data comparing the transaction value at announcement to the most recent 12 months earnings, the transaction value to book value, the transaction value to tangible book value and the tangible core deposit premium paid.

The characteristics of the Arkansas transactions considered were as follows:

a median ratio of the transaction value to the most recent 12 months earnings per share of 20.5:1;

a median ratio of the transaction value to book value of 2.0:1;

a median ratio of the transaction value to tangible book value of 2.0:1; and

a median tangible core deposit premium paid of 16.4%.

The median ratios for these selected transactions when applied to American State Bank Corporation resulted in implied aggregate merger values ranging from \$40.9 million to \$58.3 million, or per diluted share values of \$78.15 to \$108.30.

Table of Contents

The characteristics of the regional transactions considered were as follows:

a median ratio of the transaction value to the most recent 12 months earnings per share of 19.7:1;

a median ratio of the transaction value to book value of 2.3:1;

a median ratio of the transaction value to tangible book value of 2.4:1; and

a median tangible core deposit premium paid of 18.9%.

The median ratios for these selected transactions when applied to American State Bank Corporation resulted in implied aggregate merger values of \$39.2 million to \$63.8 million, or per diluted share values of \$75.33 to \$117.76.

No other company or transaction used in the above analysis as a comparison was identical to American State Bank Corporation or the proposed merger. Accordingly, Stephens analysis of the foregoing results was not solely mathematical; rather, it involved complex considerations and judgments concerning differences in financial and operating characteristics of the companies included and other factors that could affect the acquisition of the companies to which American State Bank Corporation was being compared.

Potential Merger Valuation Range

Stephens prepared an analysis that provided an estimate of the potential transaction value that selected potential acquirors which are publicly traded, including BancorpSouth, might hypothetically offer to acquire American State Bank Corporation. The analysis showed that, based on closing stock market prices on August 5, 2005 and the assumption of potential cost savings of 0% to 16% of non-interest expense, the selected acquirors might offer between \$33.45 million and \$57.5 million, or per diluted share values between \$65.37 and \$106.86 in a merger transaction. The analysis was predicated on the assumption that each potential acquiror would be willing to offer the transaction value that results from applying the potential acquiror's price-to-earnings multiple to the estimated earnings of American State Bank Corporation, adjusted to include the after-tax benefit of potential cost savings and giving effect to the after-tax estimated amortization of intangibles. This analysis also assumed a 50% stock and 50% cash transaction structure, with a 6% pre-tax interest cost on cash consideration, and a 39% marginal corporate income tax rate. This analysis was based on analysts' consensus estimates of 2006 earnings per share for the potential acquirors and management's estimate of American State Bank Corporation's 2006 earnings.

Discounted Cash Flow Analysis

Stephens performed a discounted cash flow analysis on American State Bank Corporation to determine the implied present value per share of American State Bank Corporation's common stock assuming American State Bank Corporation continued to operate on a stand-alone basis. A discounted cash flow analysis is a traditional method of evaluating an asset by estimating the future cash flows of the asset and taking into consideration the time value of money with respect to those future cash flows by calculating the present value of the estimated future cash flows of the assets. Present value refers to the current value of one or more future cash payments (or cash flows) from the asset and is obtained by discounting those future cash flows or amounts by a discount rate that takes into account macro-economic assumptions and estimates of risk, the opportunity cost of capital, expected returns and other appropriate factors. Terminal value refers to the value of all future cash flows from an asset at a particular time.

With respect to American State Bank Corporation, Stephens estimated the implied present value of American State Bank Corporation as of September 30, 2005 based upon a discounted cash flow analysis by calculating the present value of the estimated annual dividends to be paid by American State Bank Corporation in March 2006 and 2007 plus the present value of the estimated terminal value of American State Bank Corporation's common stock as of December 31, 2007.

Table of Contents

Stephens estimated the implied present value of American State Bank Corporation's common stock on a stand-alone basis based on management's projected earnings and dividends estimates for the years ending December 31, 2005 through 2007 and a terminal value of American State Bank Corporation common stock at December 31, 2007 based on price to earnings ratios of 15.0:1 to 20.0:1.

The estimated dividends and terminal value resulting from these calculations were then discounted to present value using discount rates of 10% to 14%, which Stephens viewed as appropriate for companies of American State Bank Corporation's risk characteristics.

The implied value of American State Bank Corporation resulting from this analysis ranged from \$37.9 million to \$54.6 million, or per diluted share values of \$72.98 to \$101.79.

Comparison of Selected Companies for American State Bank Corporation

Stephens reviewed and compared certain public market ratios relating American State Bank Corporation to the publicly available corresponding data for a group of 14 selected banks and thrifts which Stephens deemed to be relevant. The selected banks consisted of Pulaski Financial Corp., Cass Information Systems, Inc., Pocahontas Bancorp, Inc., Teche Holding Company, Peoples Financial Corporation, MidSouth Bancorp, Inc., Cavalry Bancorp, Inc., United Security Bancshares, Inc., Auburn National Bancorporation, Inc., Citizens Holding Company, Guaranty Bancshares, Inc., Guaranty Federal Bancshares, Inc., Britton & Koontz Capital Corporation and Southern Missouri Bancorp, Inc. Based on a review of the selected bank and thrift data, Stephens determined (in each case, based on closing stock prices as of August 5, 2005) that:

with respect to the ratio of price to earnings per share for the most recent 12-month period ended June 30, 2005, the selected banks and thrifts had a median ratio of 15.5:1;

with respect to the ratio of stock price to book value per share, the selected banks had a median ratio of 1.8:1; and

with respect to the ratio of stock price to tangible book value per share, the selected banks and thrifts had a median ratio of 1.9:1.

The median ratios on these selected transactions when applied to American State Bank Corporation resulted in implied aggregate merger values of \$30.9 million to \$42.9 million, or per diluted share values of \$60.82 to \$81.60.

Comparison of Selected Companies for BancorpSouth

Stephens reviewed and compared certain public market ratios relating BancorpSouth to the publicly available corresponding data for a group of seven selected banks which Stephens deemed to be relevant. The selected banks consisted of Alabama National Bancorporation, BancFirst Corporation, BOK Financial Corporation, Colonial BancGroup, Inc., Hancock Holding Company, Trustmark Corporation and Whitney Holding Corporation. Based on a review of the selected bank data, Stephens determined (in each case, based on closing stock prices as of August 5, 2005) that:

with respect to the ratio of price to earnings per share for the most recent 12-month period ended June 30, 2005, the selected banks had a median ratio of 16.0:1 compared to 15.9:1 for BancorpSouth;

Table of Contents

with respect to the ratio of price to estimated earnings per share for 2005, the selected banks (based on estimated earnings per share for 2005 as reported by First Call) had a median ratio of 15.5:1 compared to 14.9:1 for BancorpSouth;

with respect to the ratio of stock price to estimated earnings per share for 2006, the selected banks (based on estimated earnings per share for 2006 as reported by First Call) had a median ratio of 14.4:1 compared to 14.0:1 for BancorpSouth;

with respect to the ratio of stock price to book value per share, the selected banks had a median ratio of 2.1:1 compared to 1.9:1 for BancorpSouth; and

with respect to the ratio of stock price to tangible book value per share, the selected banks had a median ratio of 2.8:1 compared to 2.2:1 for BancorpSouth.

A market price of \$22.38 per share of BancorpSouth common stock, which was the last reported trade during regular market hours on August 5, 2005, was used for this analysis.

In summary, although no fairness opinion was rendered by Stephens, Stephens indicated to the American State Bank Corporation Board of Directors that, as a result of these analyses and its discussions with potential acquirors, it believed it was unlikely that another potential merger candidate would be willing to propose a transaction that was financially superior to the transaction proposed by BancorpSouth and that, if requested, it was prepared to render an opinion as to the fairness of the transaction from a financial point of view.

In performing its analyses, Stephens made numerous assumptions with respect to industry performance, regulatory, general business and economic conditions and other matters, many of which are beyond the control of American State Bank Corporation and BancorpSouth. The analyses performed by Stephens are not necessarily indicative of actual values or actual future results, which may be significantly more or less favorable than those suggested by such analyses. Such analyses were prepared solely as part of Stephens' analysis of the consideration to be received from a financial point of view. The analyses do not purport to be appraisals or to reflect the prices at which a company might actually be sold or the prices at which any securities may trade at the present time or at any time in the future. Stephens expressed no opinion or recommendation as to how American State Bank Corporation shareholders should vote on the proposed transaction and Stephens did not present an analysis of the merits of the decision by American State Bank Corporation to pursue the transaction.

Compensation and Interests of Stephens

Pursuant to the terms of Stephens' engagement as financial advisor, American State Bank Corporation has agreed to pay Stephens a fee, which is contingent upon the completion of the merger transaction, of an amount equal to 1.0% of the transaction value at closing, which amounts to an estimated fee of approximately \$500,000.

American State Bank Corporation also agreed to reimburse Stephens for its out-of-pocket expenses, including reasonable fees and disbursements of its outside legal counsel, incurred in connection with its engagement and agreed to indemnify Stephens, its affiliates and their respective partners, directors, officers, agents, consultants, employees and controlling persons against certain liabilities, including liabilities under federal securities laws.

In the ordinary course of its business, Stephens and its affiliates at any time may hold long or short positions and may trade or otherwise effect transactions, as principal or for the accounts of customers, in the equity securities of American State Bank Corporation and/or BancorpSouth. As of August 9, 2005, the date of the presentation to American State Bank Corporation's Board of Directors, affiliates of Stephens held ownership positions in shares of American State Bank Corporation and in shares of BancorpSouth.

Regulatory Approval

Completion of the merger is conditioned on, among other things, the receipt of approvals by the Federal Deposit Insurance Corporation, the Mississippi Department of Banking and Consumer Finance and the Arkansas

Table of Contents

State Bank Department. BancorpSouth Bank must notify the Board of Governors of the Federal Reserve System within 30 days after consummation of the merger.

As a Mississippi state non-member bank, BancorpSouth Bank must file an application with the FDIC for approval of the merger under Sections 18(c) and 18(d) of the Federal Deposit Insurance Act. The FDIC may disapprove the application if it finds that the merger tends to create or result in a monopoly, substantially lessens competition or would result in a restraint of trade. BancorpSouth Bank filed this application with the FDIC on September 16, 2005. Following approval of the application by the FDIC, the United States Department of Justice has up to 30 calendar days to submit any adverse comments relating to competitive factors resulting from the merger. BancorpSouth expects to obtain approval of the merger from the FDIC on or about October 17, 2005, and expects the waiting period to expire on or about November 1, 2005.

BancorpSouth notified the Mississippi Department of Banking and Consumer Finance on September 16, 2005 of the pending merger of American State Bank Corporation's bank subsidiary into BancorpSouth Bank and submitted the necessary documents required for its approval. Approval of this bank merger by the Mississippi Department of Banking and Consumer Finance is expected to be received prior to approval of the merger agreement by American State Bank Corporation shareholders. Also, in connection with this merger, BancorpSouth filed with the Commissioner of the Arkansas State Bank Department on September 16, 2005 a Change in Control application, provided a copy of all applications filed with any federal agency in connection with the merger and paid the appropriate fee as prescribed by regulation. Approval of the merger by the Commissioner of the Arkansas State Bank Department is expected to be received on or about October 17, 2005.

Accounting Treatment

The merger will be accounted for as a purchase, as that term is used under GAAP, for accounting and financial reporting purposes. American State Bank Corporation will be treated as the acquired corporation for accounting and financial reporting purposes. American State Bank Corporation's assets, liabilities and other items will be adjusted to their estimated fair value on the closing date of the merger and combined with the historical book values of the assets and liabilities of BancorpSouth. Applicable income tax effects of these adjustments will be included as a component of the combined company's deferred tax asset or liability. The difference between the estimated fair value of the assets (including separately identifiable intangible assets, such as core deposit intangibles), liabilities and other items (adjusted as discussed above) and the purchase price will be recorded as goodwill. Financial statements of BancorpSouth issued after the merger will reflect the values and will not be restated retroactively to reflect the historical financial position or results of operations of American State Bank Corporation.

Material United States Federal Income Tax Consequences

The following discussion summarizes the material anticipated United States federal income tax consequences of the merger to American State Bank Corporation shareholders who hold their shares of American State Bank Corporation common stock as capital assets. This discussion does not address the tax consequences of transactions effectuated prior or subsequent to, or concurrently with, the merger (whether or not such transactions are undertaken in connection with the merger). In addition, this discussion does not address all of the federal income tax consequences that may be important to each taxpayer in light of its particular circumstances, nor does this discussion address the federal income tax consequences that may be applicable to taxpayers subject to special treatment under the Internal Revenue Code, such as:

tax-exempt organizations;

financial institutions, insurance companies and broker-dealers or persons who have elected to use the mark-to-market method of accounting with respect to their securities holdings;

shareholders who hold their shares of American State Bank Corporation common stock as part of a hedge, straddle, wash sale, synthetic security, conversion transaction or other integrated investment

comprised of shares of American State Bank Corporation common stock and one or more other investments;

persons who acquired their shares of American State Bank Corporation common stock through the exercise of employee stock options, through a benefit plan or otherwise in a compensatory transaction;

shareholders who are not U.S. persons within the meaning of the Internal Revenue Code or that have a functional currency other than the U.S. dollar;

pass-through entities and investors in such entities; or

shareholders who exercise their dissenters' rights.

No information is provided in this document or the tax opinions referred to below with respect to the tax consequences, if any, of the merger under applicable foreign, state, local and other tax laws. This discussion and the tax opinions are based upon the provisions of the Internal Revenue Code, applicable Treasury regulations, administrative rulings and judicial decisions, all as in effect as of the date of this Proxy Statement/Prospectus. There can be no assurance that future legislative, administrative or judicial changes or interpretations, which changes could apply retroactively, will not affect the accuracy of this discussion or the statements or conclusions set forth in the tax opinions referred to below.

In connection with the filing of the registration statement of which this Proxy Statement/Prospectus is a part, BancorpSouth has received an opinion of Waller Lansden Dortch & Davis, PLLC and American State Bank Corporation has received an opinion of Dover Dixon Horne PLLC that, as of the respective dates of such opinions, if certain factual circumstances exist, the merger will be treated for federal income tax purposes as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code and that BancorpSouth and American State Bank Corporation will each be a party to that reorganization. The parties will not be required to consummate the merger unless they receive additional opinions of their respective counsel, dated the closing date of the merger, confirming that the merger will be treated for federal income tax purposes as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code and that BancorpSouth and American State Bank Corporation will each be a party to that reorganization.

The opinions of the parties' respective counsel regarding the merger have relied, and the opinions regarding the merger as of the closing date will each rely, on the following:

representations and covenants made by BancorpSouth and American State Bank Corporation, including those contained in certificates of officers of BancorpSouth and American State Bank Corporation; and

specified assumptions, including an assumption regarding the completion of the merger in the manner contemplated by the merger agreement.

In addition, the opinions of the parties' respective counsel have assumed, and such counsel's ability to provide the opinions at the closing of the merger will depend on, the absence of changes to the anticipated facts or changes in law between the date of this Proxy Statement/Prospectus and the closing date. If any of those representations, covenants or assumptions is inaccurate, the parties' respective counsel may not be able to provide one or more of the required opinions to be delivered at the closing of the merger and/or the tax consequences of the merger could differ from those described in the opinions that counsel have delivered.

The opinions of the parties' respective counsel do not bind the Internal Revenue Service and do not preclude the IRS or the courts from adopting a contrary position. BancorpSouth and American State Bank Corporation do not intend to obtain a ruling from the IRS on the tax consequences of the merger. If the IRS were to assert successfully that the merger is not a reorganization within the meaning of Section 368(a) of the Internal Revenue Code, then each American State Bank Corporation shareholder would be required to recognize gain or loss equal to the difference between (i) the sum of the fair market value of the BancorpSouth common stock and the

Table of Contents

amount of cash received in the exchange and (ii) the shareholder's adjusted tax basis in the American State Bank Corporation common stock surrendered for such consideration. Such gain or loss would be a capital gain or loss, provided that such shares of American State Bank Corporation common stock were held as capital assets by the shareholder at the effective time of the merger. Such capital gain or loss recognized would be long-term capital gain or loss if the American State Bank Corporation shareholder's holding period for the American State Bank Corporation common stock was more than one year. In such event, an American State Bank Corporation shareholder's total initial tax basis in the BancorpSouth common stock received would be equal to its fair market value at the effective time of the merger, and the shareholder's holding period for the BancorpSouth common stock would begin on the day after the merger.

Assuming that the merger qualifies as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code, neither BancorpSouth nor American State Bank Corporation will recognize any gain or loss as a result of the merger. The federal income tax consequences of the merger qualifying as a reorganization to a particular American State Bank Corporation shareholder will vary depending primarily on whether the shareholder exchanges his or her American State Bank Corporation common stock solely for BancorpSouth common stock (except for cash received instead of a fractional share of BancorpSouth common stock), solely for cash or for a combination of BancorpSouth common stock and cash. At the time that an American State Bank Corporation shareholder makes an election as to the form of consideration to be received in the merger and at the time of the vote on the merger, such shareholder will not know the extent to which the shareholder's elected form of merger consideration will be given effect. Regardless of whether an American State Bank Corporation shareholder elects to receive BancorpSouth common stock, cash or a combination of BancorpSouth common stock and cash, the federal income tax consequences to the shareholder will depend on the actual merger consideration received by the shareholder.

American State Bank Corporation Shareholders Receiving Only BancorpSouth Common Stock

No gain or loss will be recognized by a holder of American State Bank Corporation common stock as a result of the surrender of shares of American State Bank Corporation common stock solely in exchange for shares of BancorpSouth common stock pursuant to the merger (except with respect to cash received instead of fractional shares of BancorpSouth common stock, as discussed below). The aggregate tax basis of the shares of BancorpSouth common stock received in the merger (including any fractional shares of BancorpSouth common stock deemed received) will be the same as the aggregate tax basis of the shares of American State Bank Corporation common stock surrendered in exchange for the BancorpSouth common stock. The holding period of the shares of BancorpSouth common stock received (including any fractional shares of BancorpSouth common stock deemed received) will include the holding period of shares of American State Bank Corporation common stock surrendered in exchange for the BancorpSouth common stock, provided that such shares of American State Bank Corporation common stock were held as capital assets of the shareholder at the effective time of the merger.

American State Bank Corporation Shareholders Receiving Only Cash

A holder of American State Bank Corporation common stock that does not receive any shares of BancorpSouth common stock pursuant to the merger (and is not treated as constructively owning, after the merger, BancorpSouth common stock held by certain family members and entities affiliated with the holder under the Internal Revenue Code) will generally recognize gain or loss equal to the difference between the amount of cash received and the holder's adjusted tax basis in the shares of American State Bank Corporation common stock exchanged in the merger. Such gain or loss will be a capital gain or loss, provided that such shares of American State Bank Corporation common stock were held as capital assets by the shareholder at the effective time of the merger. Such capital gain or loss will be a long-term capital gain or loss to the extent that, at the effective time of the merger, the holder has a holding period in such American State Bank Corporation common stock of more than one year. The Internal Revenue Code contains limitations on the extent to which a taxpayer may deduct capital losses from ordinary income.

Table of Contents

American State Bank Corporation Shareholders Receiving Both Cash and BancorpSouth Common Stock

If a holder of American State Bank Corporation common stock receives both BancorpSouth common stock and cash (other than cash in lieu of a fractional interest in BancorpSouth common stock) in the merger, that holder will recognize gain, if any, equal to the lesser of:

the amount of cash received; or

the amount by which the sum of the amount of cash received and the fair market value, at the effective time of the merger, of the BancorpSouth common stock received exceeds the holder's adjusted tax basis in the shares of American State Bank Corporation common stock exchanged in the merger.

Any recognized gain could be taxed as a capital gain or a dividend. Such gain will generally be capital gain (provided that such shares of American State Bank Corporation common stock were held as capital assets by the shareholder at the effective time of the merger), unless the holder's exchange of American State Bank Corporation common stock for cash and BancorpSouth common stock has the effect of the distribution of a dividend after giving effect to the constructive ownership rules of the Internal Revenue Code, in which case such gain might be treated as ordinary income. Any capital gain recognized generally will be long-term capital gain to the extent that, at the effective time of the merger, the holder has a holding period in the American State Bank Corporation common stock exchanged in the merger of more than one year. Because the determination of whether a cash payment will be treated as having the effect of a dividend depends primarily upon the facts and circumstances of each American State Bank Corporation shareholder, American State Bank Corporation shareholders are urged to consult their own tax advisors regarding the tax treatment of any cash received in the merger.

The aggregate tax basis of the shares of BancorpSouth common stock received in the merger (including any fractional shares of BancorpSouth common stock deemed received) will be the same as the aggregate tax basis of the shares of American State Bank Corporation common stock surrendered in the merger, increased by the amount of gain recognized in the exchange (whether characterized as capital gain or a dividend, but excluding any gain recognized with respect to any cash received instead of a fractional share of BancorpSouth common stock) and reduced by the amount of cash received in the exchange (excluding any cash received instead of a fractional share of BancorpSouth common stock). The holding period of the shares of BancorpSouth common stock received (including any fractional share of BancorpSouth common stock deemed received) will include the holding period of shares of American State Bank Corporation common stock surrendered in exchange for the BancorpSouth common stock, provided that such shares of American State Bank Corporation common stock were held as capital assets of the shareholder at the effective time of the merger. An American State Bank Corporation shareholder who receives a combination of BancorpSouth common stock and cash in exchange for his or her American State Bank Corporation common stock will not be permitted to recognize any loss for federal income tax purposes.

An American State Bank Corporation shareholder's federal income tax consequences will also depend on whether his or her shares of American State Bank Corporation common stock were purchased at different times at different prices. If they were, the American State Bank Corporation shareholder could realize gain with respect to some of the shares of American State Bank Corporation common stock and loss with respect to other shares. Such American State Bank Corporation shareholder would have to recognize such gain to the extent such shareholder receives cash with respect to those shares of American State Bank Corporation common stock in which the shareholder's adjusted tax basis is less than the amount of cash plus the fair market value at the effective time of the merger of the BancorpSouth common stock received, but could not recognize loss with respect to those shares of American State Bank Corporation common stock in which the American State Bank Corporation shareholder's adjusted tax basis is greater than the amount of cash plus the fair market value at the effective time of the merger of the BancorpSouth common stock received. Any disallowed loss would be included in the adjusted basis of the BancorpSouth common stock. Such an American State Bank Corporation shareholder is urged to consult his or her own tax advisor respecting the tax consequences of the merger to that shareholder.

Table of Contents

Cash Instead of Fractional Shares of BancorpSouth Common Stock

Holders of American State Bank Corporation common stock who receive cash instead of a fractional share of BancorpSouth common stock will be treated as having received the fractional share in the merger and then as having the fractional share redeemed by BancorpSouth in exchange for the cash actually distributed instead of the fractional share, with such redemption qualifying as an exchange under Section 302 of the Internal Revenue Code. Accordingly, such holders will generally recognize gain or loss equal to the difference between the tax basis of the holder's American State Bank Corporation common stock allocable to that fractional share and the amount of cash received. The gain or loss generally will be capital gain or loss and long-term capital gain or loss if the American State Bank Corporation common stock exchanged has been held for more than one year.

Backup Withholding

A holder of American State Bank Corporation common stock may be subject, under certain circumstances, to backup withholding at a rate of 28% with respect to the amount of cash, if any, received in the merger, including cash received instead of fractional shares of BancorpSouth common stock, unless the holder provides proof of an applicable exemption satisfactory to BancorpSouth and the exchange agent or furnishes its correct taxpayer identification number and otherwise complies with applicable requirements of the backup withholding rules. Any amount withheld under the backup withholding rules is not additional tax and may be refunded or credited against the holder's federal income tax liability, so long as the required information is furnished to the IRS.

The preceding summary does not purport to be a complete analysis or discussion of all potential tax effects relevant to the merger. Accordingly, American State Bank Corporation shareholders are urged to consult their own tax advisors as to the specific tax consequences to them of the merger, including tax return reporting requirements, the applicability and effect of federal, state, local, foreign and other tax laws and the effect of any proposed changes in the tax laws.

Retirement Plan

The American State Bank 401(k) Employee Stock Ownership Plan currently owns 6,315 shares of American State Bank Corporation common stock. Plan participants will have the ability to direct the vote on the merger agreement with respect to the shares allocated to their accounts.

It is anticipated that American State Bank Corporation will terminate the American State Bank 401(k) Employee Stock Ownership Plan immediately prior to the merger. Upon termination of the plan, the retirement accounts of the plan participants will be, at the direction of each participant, either distributed directly to the participant or rolled over to another retirement plan or an individual retirement account. These distributions upon termination of the plan will have specific tax consequences to the plan participants. Accordingly, American State Bank Corporation will provide separate disclosure to the plan participants describing these tax consequences.

Shareholders Dissenters' Rights

American State Bank Corporation is a corporation organized under the laws of the State of Arkansas and its principal place of business is in the State of Arkansas. Each record holder of American State Bank Corporation common stock will be entitled to dissenters' rights as a result of the merger pursuant to Sections 4-27-1301 *et seq.* of the Arkansas Business Corporation Act of 1987. If you have a beneficial interest in shares of American State Bank Corporation common stock that are held of record in the name of another person, such as a broker or nominee, you must submit to American State Bank Corporation the record shareholder's written consent to the dissent not later than the time you assert dissenters' rights and must do so with respect to all shares that you beneficially own.

The following discussion is not a complete statement of the law pertaining to dissenters' rights under the Arkansas Business Corporation Act of 1987. If you wish to exercise such dissenters' rights, or wish to preserve your right to do so, you should review Sections 4-27-1301 *et seq.* of the Arkansas Business Corporation Act of 1987, a copy of which is attached as Annex B to this Proxy Statement/Prospectus, and the following discussion carefully.

Table of Contents

The availability of dissenters' rights is conditioned upon full compliance with a complicated procedure set forth in the Arkansas Business Corporation Act of 1987. Failure to timely and properly comply with the procedures specified will result in the complete loss of dissenters' rights. Accordingly, if you wish to dissent from the merger and demand the fair value of your American State Bank Corporation common stock in cash, you should consult with your own legal counsel.

Your vote not in favor of the merger agreement will not be deemed to satisfy all of the notice requirements under the Arkansas Business Corporation Act of 1987 with respect to appraisal rights.

Procedure for the Exercise of Dissenters' Rights

In order to be eligible to exercise the right to dissent, you must:

deliver to American State Bank Corporation, before the vote on the merger agreement is taken, written notice of your intent to demand payment for your shares of American State Bank Corporation common stock if the merger agreement is approved and the merger is completed; and

not vote such shares of American State Bank Corporation common stock in favor of the merger agreement.

Any written notice of intent to dissent with respect to the merger should be sent to: American State Bank Corporation, 2201 Fair Park Boulevard, Jonesboro, Arkansas 72401, Attention: Frank Oldham, Chairman and Chief Executive Officer. A vote against the merger agreement alone will not satisfy the requirements for compliance with Sections 4-27-1301 *et seq.* of the Arkansas Business Corporation Act of 1987. A shareholder of American State Bank Corporation who wishes to dissent from the merger must, as an initial matter, comply with all of the conditions listed above.

If the merger agreement is approved at the American State Bank Corporation special meeting, American State Bank Corporation must deliver a written dissenters' notice to all dissenting American State Bank Corporation shareholders who satisfied the requirements referred to above. The dissenter's notice must be sent no later than ten days after the merger agreement was approved by the shareholders and must:

state where the payment demand must be sent and where and when certificates for certificated shares must be deposited;

inform holders of uncertificated shares of American State Bank Corporation common stock to what extent transfer of the shares will be restricted after the payment demand is received;

supply a form for demanding payment that specifies that the date of the first announcement to news media or to shareholders of the principal terms of the merger was August 10, 2005 and requires that the person asserting dissenters' rights certify whether or not he or she acquired beneficial ownership of the shares before August 10, 2005;

set a date by which American State Bank Corporation must receive the payment demand, which date may not be fewer than 30 days nor more than 60 days after the date the written dissenters' notice is delivered; and

be accompanied by a copy of Sections 4-27-1301 *et seq.* of the Arkansas Business Corporation Act of 1987.

If you are sent a written notice from American State Bank Corporation, you must demand payment, certify whether you acquired beneficial ownership of the shares of American State Bank Corporation common stock before August 10, 2005 and deposit your certificates in accordance with the terms of the notice from American State Bank Corporation. If you do not demand payment or deposit your share certificates where required, each by the date set in American State Bank Corporation's notice, you will not be entitled to payment for your shares of American State

Bank Corporation common stock under Sections 4-27-1301 *et seq.* of the Arkansas Business Corporation Act of 1987.

American State Bank Corporation may restrict the transfer of uncertificated shares of American State Bank Corporation common stock from the date the demand for payment is received until the date the merger is consummated or American State Bank Corporation releases this restriction in accordance with the Arkansas Business Corporation Act of 1987.

If you demand payment and deposit your share certificates in accordance with the notice from American State Bank Corporation, you will retain all other rights of a shareholder until those rights are canceled or modified by the consummation of the merger.

American State Bank Corporation's Payment or Offer of Payment

As soon as the merger is completed, American State Bank Corporation will pay each dissenter who complied with the requirements set forth in the notice from American State Bank Corporation the amount that American State Bank Corporation estimates to be the fair value of each dissenter's shares of American State Bank Corporation common stock (which shall exclude any appreciation or depreciation in anticipation of the merger), plus accrued interest. The payment must be accompanied by:

American State Bank Corporation's balance sheet as of December 31, 2004, an income statement for the year ended December 31, 2004, a statement of changes in shareholders' equity for the year ended December 31, 2004 and the latest available interim financial statements, if any;

a statement of American State Bank Corporation's estimate of the fair value of the shares of American State Bank Corporation common stock;

an explanation of how the interest was calculated;

a statement of the dissenter's right to demand payment of a different amount under Section 4-27-1328 of the Arkansas Business Corporation Act of 1987; and

a copy of Sections 4-27-1301 *et seq.* of the Arkansas Business Corporation Act of 1987.

If American State Bank Corporation does not complete the merger within 60 days after the date set for demanding payment and depositing share certificates, American State Bank Corporation must return the deposited certificates and release the transfer restrictions imposed on uncertificated shares. If American State Bank Corporation completes the merger after returning deposited certificates and releasing transfer restrictions, American State Bank Corporation must send a new dissenter's notice and repeat the payment demand procedure.

American State Bank Corporation may elect to withhold payment required by the Arkansas Business Corporation Act of 1987 from a dissenter unless the dissenter was the beneficial owner of the shares of American State Bank Corporation common stock before August 10, 2005, the date of the first announcement to news media of the principal terms of the proposed merger. If American State Bank Corporation properly elects to withhold payment from a dissenter for this reason, American State Bank Corporation must estimate the fair value of the shares, plus accrued interest, and pay this amount to each dissenter who agrees to accept it in full satisfaction of the dissenter's demand. American State Bank Corporation must send with its offer a statement of its estimate of the fair value of the shares, an explanation of how the interest was calculated and a statement of the dissenter's right to demand payment under Section 4-27-1328 of the Arkansas Business Corporation Act of 1987.

Procedure if Dissatisfied with Payment or Offer

A dissenter may notify American State Bank Corporation in writing of his or her own estimate of the fair value of his or her shares of American State Bank Corporation common stock and the amount of interest due, and demand payment of his or her estimate (less any payment already made by American State Bank Corporation) or

Table of Contents

reject American State Bank Corporation's offer and demand payment of the fair value of his or her shares and interest due, if:

the dissenter believes that the amount paid or offered by American State Bank Corporation is less than the fair value of his or her shares or that the interest due is incorrectly calculated;

American State Bank Corporation fails to make payment within 60 days after the date set for demanding payment; or

American State Bank Corporation, having failed to complete the merger, does not return the deposited certificates or release the transfer restrictions imposed on uncertificated shares within 60 days after the date set for demanding payment.

A dissenter waives his or her right to demand payment unless the dissenter notifies American State Bank Corporation of his or her demand in writing as set forth above within 30 days after American State Bank Corporation made or offered payment for the dissenter's shares of American State Bank Corporation common stock.

Judicial Appraisal of Shares

If a demand for payment by a dissenter remains unsettled, American State Bank Corporation must commence a proceeding in the circuit court of Craighead County, Arkansas within 60 days after receiving the payment demand and petition the court to determine the fair value of the shares of American State Bank Corporation common stock and accrued interest. If American State Bank Corporation does not commence the proceeding within the 60-day period, it must pay each dissenter whose demand remains unsettled the amount demanded. American State Bank Corporation must make all dissenters (whether or not residents of Arkansas) whose demands remain unsettled parties to the proceeding as in an action against their shares of American State Bank Corporation common stock and all parties must be served with a copy of the petition. Dissenters who are not residents of Arkansas may be served by registered or certified mail or by publication as provided by law. The court in which the proceeding is commenced may appoint one or more persons as appraisers to receive evidence and recommend decision on the question of fair value. The dissenters will be entitled to the same discovery rights as parties in other civil proceedings. Each dissenter made a party to the proceeding is entitled to judgment:

for the amount, if any, by which the court finds the fair value of the dissenter's shares of American State Bank Corporation common stock, plus accrued interest, exceeds the amount paid by American State Bank Corporation; or

for the fair value, plus accrued interest, of the dissenter's shares of American State Bank Corporation common stock acquired after August 10, 2005 for which American State Bank Corporation elected to withhold payment.

The court in an appraisal proceeding will determine all costs of the proceeding, including the reasonable compensation and expenses of appraisers appointed by the court. The court will assess the costs against American State Bank Corporation, except that the court may assess costs against all or some of the dissenters, in amounts the court finds equitable, to the extent the court finds the dissenters acted arbitrarily, vexatiously or not in good faith in demanding payment. The court may also assess the fees and expenses of counsel and experts for the respective parties in amounts the court finds equitable as follows:

against American State Bank Corporation and in favor of any or all dissenters if the court finds American State Bank Corporation did not substantially comply with the requirements of Sections 4-27-1320 to 4-27-1328 of the Arkansas Business Corporation Act of 1987; or

against either American State Bank Corporation or a dissenter, in favor of any other party, if the court finds that the party against whom the fees and expenses are assessed acted arbitrarily, vexatiously or not in good faith with respect to the rights provided by Sections 4-27-1301 *et seq.* of the Arkansas Business Corporation Act of 1987.

Table of Contents

If the court finds that the services of counsel for any dissenter were of substantial benefit to other dissenters similarly situated and that the fees for those services should not be assessed against American State Bank Corporation, the court may award to these counsel reasonable fees to be paid out of the amounts awarded to the dissenters who were benefited.

Interests of Certain Persons in the Merger

Certain members of management and the Board of Directors of American State Bank Corporation may be deemed to have interests in the merger that are in addition to their interests as American State Bank Corporation shareholders generally. American State Bank Corporation's Board of Directors was aware of these interests and considered them, among other matters, in approving the merger agreement.

The executive officers and directors of American State Bank Corporation hold approximately 1,547 shares of American State Bank Corporation common stock in the American State Bank 401(k) Employee Stock Ownership Plan.

In connection with the merger and in consideration for their willingness to (i) enter into amended and restated employment agreements, (ii) apply their existing experience, skills and knowledge in continued employment with BancorpSouth and (iii) abide by the noncompetition and nonsolicitation covenants set forth in the amended and restated employment agreements, each of Messrs. Oldham, Dudley and Gramling and Ms. Dacus will receive a bonus ranging from \$75,000 to \$300,000 upon the consummation of the merger. In addition, if each of Messrs. Oldham, Dudley and Gramling and Ms. Dacus remains employed with BancorpSouth for a year following consummation of the merger, he or she will receive a bonus ranging from \$78,165 to \$312,660 on the first anniversary of the consummation of the merger, provided that certain conditions are met. Each of Messrs. Oldham, Dudley and Gramling and Ms. Dacus has entered into an employment agreement with BancorpSouth for a term of two years with salaries ranging from \$75,542 to \$210,000 and non-competition and non-solicitation provisions for two years following termination of employment with BancorpSouth. In addition, each of Messrs. Wessell and Williams, county presidents with American State Bank, are entitled to deferred compensation immediately prior to the consummation of the merger equivalent to the amount of growth in accounting-based book value of American State Bank Corporation common stock determined for 1,000 shares of stock for each full year each was employed, commencing with the first year ending December 31, 1999 through the date of the consummation of the merger.

Executive officers and directors of American State Bank Corporation will receive shares of BancorpSouth common stock in the merger on the same basis as other American State Bank Corporation shareholders. The following chart shows the number and percentage of shares of BancorpSouth common stock that may be issued to executive officers, directors and holders of more than 5% of American State Bank Corporation common stock in the merger:

Beneficial ownership by executive officers, directors and holders of more than 5% of American State Bank Corporation common stock, and their affiliates, as of [], 2005 (including shares reserved for issuance upon the cashless exercise of stock options immediately prior to the effective time of the merger)	153,074

Comparison of Rights of Shareholders

At the effective time of the merger, American State Bank Corporation shareholders who receive shares of BancorpSouth common stock will automatically become BancorpSouth shareholders. BancorpSouth is a Mississippi corporation governed by provisions of the Mississippi Business Corporation Act and BancorpSouth's restated articles of incorporation, as amended, and amended and restated bylaws, as amended. American State Bank Corporation is an Arkansas corporation governed by provisions of the Arkansas Business Corporation Act of 1987, and American State Bank Corporation's articles of incorporation and bylaws. See COMPARISON OF RIGHTS OF SHAREHOLDERS.

Restrictions on Resales by Affiliates

The shares of BancorpSouth common stock issuable to American State Bank Corporation shareholders upon completion of the merger have been registered under the Securities Act of 1933. These shares may be traded freely without restriction by those shareholders who are not deemed to be affiliates of American State Bank Corporation or BancorpSouth, as that term is defined in SEC rules under the Securities Act. An affiliate of a company generally includes its executive officers and directors and holders of 10% or more of the company's voting stock.

Shares of BancorpSouth common stock received by those American State Bank Corporation shareholders who are deemed to be affiliates of American State Bank Corporation at the time of the American State Bank Corporation special meeting may be resold without registration under the Securities Act only as permitted by Rule 145 under the Securities Act. Under Rule 145, during the one-year period following completion of the merger, affiliates of American State Bank Corporation may sell shares of BancorpSouth common stock received by them in the merger subject to limitations on the number of shares that may be sold during any three-month period and the manner in which the shares may be sold, including the use of a broker and non-solicitation of a buyer. Affiliates of American State Bank Corporation at the time of the American State Bank Corporation special meeting who are not affiliates of BancorpSouth may sell their shares of BancorpSouth common stock acquired in connection with the merger without registration under the Securities Act after one year following completion of the merger so long as BancorpSouth maintains current public information and after two years following completion of the merger without any restrictions under Rule 145.

American State Bank Corporation has agreed in the merger agreement to use its reasonable best efforts to cause each person who is an affiliate of American State Bank Corporation, for purposes of Rule 145 under the Securities Act, to deliver to BancorpSouth a written agreement intended to ensure compliance with the Securities Act.

Source of Funds for Cash Portion of Merger Consideration

BancorpSouth intends to pay the cash portion of the merger consideration to the American State Bank Corporation shareholders from funds available to BancorpSouth at closing. BancorpSouth currently intends these funds to be comprised of available cash that will be distributed from BancorpSouth Bank to BancorpSouth in accordance with a previously declared dividend.

THE MERGER AGREEMENT

The following summary of certain terms and provisions of the merger agreement is qualified in its entirety by reference to the merger agreement, which is incorporated into this Proxy Statement/Prospectus by reference and, with the exception of exhibits and schedules to the merger agreement, is attached as Annex A to this Proxy Statement/Prospectus.

The merger agreement contains representations and warranties BancorpSouth and American State Bank Corporation made to each other. The assertions embodied in those representations and warranties are qualified by information in confidential disclosure schedules that BancorpSouth and American State Bank have exchanged in connection with signing the merger agreement. The disclosure schedules contain information that modifies, qualifies and creates exceptions to the representations and warranties set forth in the attached merger agreement. Accordingly, you should keep in mind that the representations and warranties are modified in important part by the underlying disclosure schedules. Neither BancorpSouth nor American State Bank Corporation believes that the disclosure schedules contain information that the securities laws require either or both of them to publicly disclose except as discussed in this Proxy Statement/Prospectus. Moreover, information concerning the subject matter of the representations and warranties may have changed since the date of the merger agreement, and this information may or may not be fully reflected in the companies' public disclosures.

Terms of the Merger

Upon completion of the merger, American State Bank Corporation will merge with and into BancorpSouth, the separate corporate existence of American State Bank Corporation will cease and BancorpSouth will be the surviving corporation. BancorpSouth will continue to exist as a Mississippi corporation. In addition, American State Bank Corporation's wholly-owned subsidiary, American State Bank, will merge with and into BancorpSouth Bank, a Mississippi state banking corporation and a wholly-owned subsidiary of BancorpSouth, and BancorpSouth Bank will be the surviving bank. BancorpSouth Bank will continue its existence under the laws of Mississippi. Subject to the satisfaction or waiver of certain conditions set forth in the merger agreement, the merger will become effective upon the filing of a certificate of merger in the offices of the Secretary of State of the State of Arkansas and the offices of the Secretary of State of the State of Mississippi in accordance with the Arkansas Business Corporation Act of 1987 and the Mississippi Business Corporation Act. See THE MERGER AGREEMENT Conditions to the Merger.

The merger will have the effects set forth in Section 79-4-11.07 of the Mississippi Business Corporation Act, Section 81-5-85 of the Mississippi Banking Act, Section 4-27-1106 of the Arkansas Business Corporation Act of 1987 and Section 23-48-505 of the Arkansas Banking Act.

BancorpSouth's restated articles of incorporation, as amended, and amended and restated bylaws, as amended, as in effect upon completion of the merger will be those of the surviving corporation, and BancorpSouth Bank's articles of incorporation and bylaws as in effect upon completion of the merger will be those of the surviving bank.

At the effective time of the merger, automatically by virtue of the merger and without any action on the part of any party or shareholder, shares of American State Bank Corporation common stock outstanding immediately prior to the effective time (other than dissenting shares and shares held by American State Bank Corporation and BancorpSouth) will become and be converted into the right to receive, at the election of the holder of such share and subject to a tax-related adjustment, either:

\$93.9226 in cash (without interest), assuming payment solely of cash in exchange for American State Bank Corporation common stock;

between 4.3537 and 3.7462 shares of BancorpSouth common stock (the exchange ratio), assuming payment solely of BancorpSouth common stock in exchange for a share of American State Bank Corporation common stock; or

a combination of cash and shares of BancorpSouth common stock if the merger is completed.

Table of Contents

Holders of more than one share of American State Bank Corporation common stock may elect a combination of stock and cash consideration. The exchange ratio for stock consideration depends on the average closing price of BancorpSouth common stock on the New York Stock Exchange at the end of the regular session as reported on the Consolidated Tape, Network A, for the 10 consecutive trading days ending on the fifth trading day immediately preceding the date that shareholders of American State Bank Corporation meet to approve the merger agreement. If that average price is \$21.5729 or less, the exchange ratio will be 4.3537, and if that average price is \$25.0712 or greater, the exchange ratio will be 3.7462. If the trailing average closing price is between \$21.5729 and \$25.0712, the exchange ratio will be obtained by dividing \$93.9226 by the trailing average closing price.

No fractional shares of BancorpSouth common stock will be issued in connection with the merger. Instead, American State Bank Corporation shareholders will receive, without interest, a cash payment from BancorpSouth equal to the product of (i) the closing price per share of BancorpSouth common stock for the trading day immediately prior to the effective time of the merger, times (ii) the fraction of a share of BancorpSouth common stock to which the shareholder otherwise would be entitled.

BancorpSouth expects the market price of BancorpSouth common stock to fluctuate as a result of market factors beyond its control between the date of this Proxy Statement/Prospectus and the date on which the merger is completed and thereafter. Because the market price of BancorpSouth common stock is expected to fluctuate and may decrease and the exchange ratio may also fluctuate, the implied market value of BancorpSouth common stock that American State Bank Corporation shareholders may receive in the merger may increase or decrease prior to completion of the merger. For further information concerning the historical market prices of BancorpSouth common stock and American State Bank Corporation common stock, see **PRICE RANGE OF COMMON STOCK AND DIVIDENDS**. BancorpSouth cannot assure you that the market price of BancorpSouth common stock will not decrease before or after the merger.

The following table shows the implied value of the stock consideration into which one share of American State Bank Corporation common stock would be converted in the merger at various hypothetical reference trailing average closing prices of BancorpSouth common stock:

At the effective time of the merger, all shares of American State Bank Corporation common stock held by American State Bank Corporation or its subsidiary bank, other than shares held in a fiduciary capacity or in connection with a debt previously contracted, will be canceled and will cease to exist, and no BancorpSouth common stock or other consideration will be delivered in exchange for such shares. Also at the effective time of the merger, all shares of BancorpSouth common stock held by American State Bank Corporation or its subsidiary bank,

Table of Contents

other than shares held in a fiduciary capacity or in connection with a debt previously contracted, will become treasury stock and all other shares of BancorpSouth common stock outstanding as of the effective time will remain outstanding.

At the effective time of the merger, American State Bank Corporation shareholders, other than those who perfect dissenters' rights, will have no further rights as American State Bank Corporation shareholders, other than to receive the consideration to be issued to them in the merger. After the effective time of the merger, there will be no transfers on American State Bank Corporation's stock transfer books of shares of American State Bank Corporation common stock. If, after the effective time, stock certificates representing shares of American State Bank Corporation common stock are presented for transfer to SunTrust Bank, Atlanta, N.A., the exchange agent for the merger, they will be canceled and exchanged for either cash or certificates representing shares of BancorpSouth common stock as provided in the merger agreement.

If, prior to the merger, shares of BancorpSouth common stock are changed into a different number or class of shares as a result of any reclassification, recapitalization, split-up, combination, exchange of shares or readjustment, or if a stock dividend is declared on the shares of BancorpSouth common stock with a record date prior to the merger, the exchange ratio will be adjusted accordingly.

At the effective time of the merger, persons who are BancorpSouth shareholders immediately prior to the merger would own more than 98.5% of the outstanding shares of common stock of the combined company and persons who are American State Bank Corporation shareholders immediately prior to the merger would own less than 1.5% of the outstanding shares of common stock of the combined company, assuming 50% of the outstanding shares of American State Bank Corporation common stock are converted into shares of BancorpSouth common stock in connection with the merger.

Cash or Stock Election

Each shareholder of American State Bank Corporation has the opportunity to elect the type of consideration to be received for such shareholder's shares of American State Bank Corporation common stock in the merger—cash, shares of BancorpSouth common stock or a combination of both. All elections by American State Bank Corporation shareholders are subject to the allocation and proration procedures described in the merger agreement. These procedures are intended to ensure that, subject to a tax-related adjustment, 50% of the outstanding shares of American State Bank Corporation common stock will be converted into the right to receive BancorpSouth common stock and the remaining shares of American State Bank Corporation common stock will be converted into the right to receive cash.

It is unlikely that elections will be made in the exact proportions provided for in the merger agreement. As a result, the merger agreement describes procedures to be followed if American State Bank Corporation shareholders in the aggregate elect to receive more or less of BancorpSouth common stock than BancorpSouth has agreed to issue. These procedures are summarized below.

If BancorpSouth Common Stock is Oversubscribed: If American State Bank Corporation shareholders elect to receive more shares of BancorpSouth common stock than the maximum number that BancorpSouth has agreed to issue in the merger, then all American State Bank Corporation shareholders who have elected to receive cash or who have made no election will receive cash for their shares of American State Bank Corporation common stock and all shareholders who elected to receive BancorpSouth common stock will receive a pro rata portion of the available shares of BancorpSouth common stock plus cash for those shares not converted into shares of BancorpSouth common stock.

If BancorpSouth Common Stock is Undersubscribed: If American State Bank Corporation shareholders elect to receive fewer shares of BancorpSouth common stock than the minimum number that BancorpSouth has agreed to issue in the merger, and

- (1) this shortfall is less than or equal to the number of shares as to which American State Bank Corporation shareholders have made no election, then all American State Bank Corporation

Table of Contents

shareholders who have elected to receive BancorpSouth common stock will receive BancorpSouth common stock, all American State Bank Corporation shareholders who have elected to receive cash will receive cash and all American State Bank Corporation shareholders who made no election will receive a pro rata portion of the minimum remaining shares of BancorpSouth common stock to be issued in the merger plus cash for those shares not converted into shares of BancorpSouth common stock; or

- (2) this shortfall is greater than the number of shares as to which American State Bank Corporation shareholders have made no election, then all American State Bank Corporation shareholders who have elected to receive BancorpSouth common stock or who have made no election will receive BancorpSouth common stock and all American State Bank Corporation shareholders who have elected to receive cash will receive a pro rata portion of the minimum remaining shares of BancorpSouth common stock to be issued in the merger plus cash consideration for those shares not converted into shares of BancorpSouth common stock.

BancorpSouth and American State Bank Corporation have structured the merger to qualify as a reorganization for U.S. federal income tax purposes. The merger might not qualify as a reorganization, however, if, on the closing date of the merger, the total value of the BancorpSouth shares that American State Bank Corporation shareholders receive is less than a certain percentage of the value of the total consideration including BancorpSouth common stock, cash and any other amounts treated as consideration in connection with the merger for federal income tax purposes that American State Bank Corporation shareholders (including shareholders who exercise dissenters' rights) receive in connection with the merger. To prevent this from happening, if the value of the shares of BancorpSouth common stock received would otherwise be less than 45% of the value of the total consideration, the BancorpSouth common stock consideration may be increased and the cash consideration may be correspondingly decreased. If this tax-related adjustment is necessary, the amount of cash you would have received, after taking into account your election and any proration, will be reduced and you will receive additional shares of BancorpSouth common stock. Whether the tax-related adjustment will be made and the magnitude of the tax-related adjustment, if made, will be based on a number of factors, including the trading price of shares of BancorpSouth common stock on the date the merger is completed and the number of shares of American State Bank Corporation common stock for which dissenters' rights are exercised. In no event, however, will BancorpSouth be obligated to issue more than 1,158,854 shares of its common stock as merger consideration.

Neither American State Bank Corporation nor BancorpSouth is making any recommendation as to whether American State Bank Corporation shareholders should elect to receive cash or BancorpSouth common stock in the merger. Each American State Bank Corporation shareholder must make his or her own decision with respect to such election.

No guarantee can be made that you will receive the amounts of cash or stock you elect. As a result of the allocation procedures and other limitations outlined in this document and in the merger agreement, you may receive BancorpSouth common stock or cash in amounts that vary from the amounts you elect to receive.

Election Procedures; Surrender of Stock Certificates

If you are a record holder of American State Bank Corporation common stock, an election form and letter of transmittal should have been provided to you with this Proxy Statement/Prospectus. The election form will entitle you to elect to receive cash, BancorpSouth common stock or a combination of cash and BancorpSouth common stock, or to make no election with respect to the merger consideration that you wish to receive.

To make a valid election, you must submit a properly completed election form to SunTrust Bank, Atlanta, N.A., which will be acting as the exchange agent, on or before 5:00 p.m., Eastern Time, on [], 2005. SunTrust Bank will act as exchange agent in the merger and in that role will process the exchange of American State Bank Corporation common stock certificates for cash and/or BancorpSouth common stock. Shortly after [], 2005, the exchange agent will allocate cash and shares of BancorpSouth common stock among American State Bank Corporation shareholders, consistent with their elections, the allocation and proration procedures and the tax-related adjustment. **Please do not forward your American State Bank Corporation stock certificates, election form**

and letter of transmittal with your proxy card. Stock certificates, election forms and letters of transmittal should be returned to the exchange agent in accordance with the instructions contained in the election form.

An election form will be deemed properly completed only if accompanied by stock certificates representing all shares of American State Bank Corporation common stock covered by the election form (or an appropriate guarantee of delivery) together with duly executed transmittal materials included with the election form. You may change your election at any time prior to the election deadline by written notice accompanied by a properly completed and signed, revised election form received by the exchange agent prior to the election deadline. You may revoke your election by written notice received by the exchange agent prior to the election deadline. All elections will be revoked, and share certificates returned, automatically if the merger agreement is terminated. If you have a preference for receiving either BancorpSouth common stock and/or cash for your American State Bank Corporation common stock, you should complete and return the election form. If you do not make an election, you will be allocated BancorpSouth common stock and/or cash depending on the elections made by other American State Bank Corporation shareholders.

American State Bank Corporation shareholders who do not submit a properly completed election form or revoke their election form prior to the election deadline will have their shares of American State Bank Corporation common stock designated as shares for which no election has been made.

American State Bank Corporation shareholders who hold their shares of common stock in street name through a bank, broker or other financial institution, and who wish to make an election, should seek instructions from the institution holding their shares concerning how to make the election.

BancorpSouth will deposit with the exchange agent the shares representing BancorpSouth's common stock and cash to be issued to American State Bank Corporation shareholders in exchange for their shares of American State Bank Corporation common stock. Upon surrendering his or her certificate(s) representing shares of American State Bank Corporation common stock, together with the signed letter of transmittal, the American State Bank Corporation shareholder will be entitled to receive on closing of the merger, as applicable:

certificate(s) representing a number of whole shares of BancorpSouth common stock (if any) determined in accordance with the exchange ratio;

a check representing the amount of cash (if any) to which such holder will have become entitled to; and

a check representing the amount of cash in lieu of fractional shares, if any.

Until you surrender your American State Bank Corporation stock certificates for exchange, you will not be paid dividends or other distributions declared after the merger with respect to any BancorpSouth common stock into which your shares have been exchanged. No interest will be paid or accrued to American State Bank Corporation shareholders on the cash consideration, cash in lieu of fractional shares or unpaid dividends and distributions, if any. After the completion of the merger, there will be no further transfers of American State Bank Corporation common stock. American State Bank Corporation stock certificates presented for transfer will be canceled and exchanged for the merger consideration.

If any of your stock certificates representing American State Bank Corporation common stock have been lost, stolen or destroyed, BancorpSouth can require you to give an affidavit and/or post a bond in an amount that is customarily required by BancorpSouth and the exchange agent as indemnity against any claim that may be made with respect to your American State Bank Corporation certificate(s). Upon making such affidavit and/or posting such bond, the exchange agent will issue the consideration due under the merger agreement.

If any certificate representing shares of BancorpSouth's common stock is to be issued in a name other than that in which the certificate for shares surrendered in exchange is registered, it will be a condition of issuance or payment that the certificate so surrendered be properly endorsed or otherwise be in proper form for transfer and that the person requesting the exchange either:

pay to the exchange agent in advance any transfer or other taxes required by reason of the issuance of a certificate representing shares of BancorpSouth common stock in any name other than the registered holder of the certificate surrendered; or

establish to the satisfaction of the exchange agent that the tax has been paid or is not payable.

Any portion of the cash or shares of BancorpSouth common stock made available to the exchange agent that remains unclaimed by American State Bank Corporation shareholders for 12 months after the effective time of the merger will be returned to BancorpSouth. Following the period of 12 months after the effective time, any American State Bank Corporation shareholder who has not exchanged shares of American State Bank Corporation common stock for the merger consideration in accordance with the merger agreement may look only to BancorpSouth for payment of the merger consideration for these shares and any unpaid dividends or distributions. Nonetheless, BancorpSouth, American State Bank Corporation, the exchange agent or any other person will not be liable to any American State Bank Corporation shareholder for any amount properly delivered to a public official under applicable abandoned property, escheat or similar laws.

Treatment of Stock Options

Immediately prior to the effective time of the merger, each outstanding and unexercised option to purchase shares of American State Bank Corporation common stock granted by American State Bank Corporation will be automatically exercised through a cashless exercise arrangement. As a result, each holder of an option to purchase shares of American State Bank Corporation common stock will receive a number of whole and fractional shares of American State Bank Corporation common stock equal to the quotient of (i) the difference of \$93.9226 minus the exercise price of the options, divided by (ii) \$93.9226. The shares of American State Bank Corporation common stock resulting from the cashless exercise will be entitled to conversion into cash, shares of BancorpSouth common stock or a combination of both as described in the Proxy Statement/Prospectus.

this discussion will be on the years 2004 and 2003; however, financial information for prior years will also be discussed where appropriate. This discussion should be read in conjunction with the consolidated financial statements and the notes to consolidated financial statements attached as Annex C to this Proxy Statement/Prospectus.

Critical Accounting Policies and Estimates

The accounting principles followed by American State Bank Corporation and its principal wholly-owned subsidiary, American State Bank, are those which are generally practiced within the banking industry. The methods of applying such principles conform to generally accepted accounting principles and have been applied on a consistent basis. The principles which significantly affect the determination of financial position, results of operations, changes in shareholders' equity and cash flows are summarized below.

Principles of Consolidation

The consolidated financial statements include the accounts of American State Bank Corporation and its wholly-owned subsidiaries, American State Bank and American State Trust and Financial Services, Inc. All significant intercompany accounts and transactions are eliminated. Certain reclassifications to previously published financial statements are made to comply with current reporting requirements where appropriate.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The determination of the adequacy of the allowance for loan losses is based on estimates that are particularly susceptible to significant changes in the economic environment and market conditions. In connection with management's determination of the estimated losses on loans, management obtains independent appraisals for collateral that it deems significant.

Securities

Securities classified as available-for-sale are those debt securities and equity securities with readily determinable fair values that American State Bank intends to hold for an indefinite period of time but not necessarily until maturity. Any decision to sell a security classified as available-for-sale is based on various factors, including significant movements in interest rates, changes in the maturity mix of American State Bank assets and liabilities, liquidity needs, regulatory capital considerations and other similar factors. Securities available-for-sale are recorded at fair value. Unrealized gains or losses are reported as a component of comprehensive income in shareholders' equity, net of the related deferred tax effect.

Securities classified as held-to-maturity are those debt securities and equity securities that American State Bank has the positive intent and ability to hold until maturity. Securities held-to-maturity are recorded at historical cost adjusted for amortization of premiums and accretion of discounts.

Purchased premiums and discounts are recognized in interest income using the interest method over the terms of the securities. Realized gains or losses on the sale of securities are recorded in earnings and are determined using the specific identification method.

Loans Held for Sale

Loans originated and intended for sale in the secondary market are carried at the lower of cost or estimated fair value in the aggregate. Net unrealized losses, if any, are recognized through a valuation allowance by charges to income.

Table of Contents

Loans

Loans are stated at their outstanding unpaid principal balances adjusted for the allowance for loan losses. Interest on commercial and individual loans is accrued daily based on the outstanding principal. Loan origination fees, net of certain direct origination costs, are deferred and recognized as an adjustment of the related loan yield over the life of the loan, which approximates the interest method.

Generally, American State Bank discontinues the accrual of interest when a loan becomes 90 days past due as to principal or interest. When a loan is placed on non-accrual status, previously recognized but uncollected interest is reversed to income or charged to the allowance for loan losses. Subsequent cash receipts on non-accrual loans are accounted for on the cost recovery method until the loans qualify for return to accrual status.

American State Bank classifies loans as impaired if, based on current information and events, it is probable that American State Bank will be unable to collect the scheduled payments of principal and interest when due according to the contractual terms of the loan agreement. The measurement of the impaired loan is based on the present value of the expected future cash flows discounted at the loan's effective interest rate or the loan's observable market price, or based on the fair value of the collateral if the loan is collateral dependent.

Allowance for Loan Losses

The allowance for loan losses is maintained at a level that, in management's judgment, is adequate to absorb credit losses inherent in American State Bank's loan portfolio and is based upon management's review and evaluation of the loan portfolio.

Bank Premises and Equipment

Bank premises and equipment are stated at cost less accumulated depreciation. Depreciation is provided at rates based upon estimated useful service lives using the straight-line method for financial reporting purposes and accelerated methods for income tax reporting purposes.

The cost of assets retired or otherwise disposed of and the related accumulated depreciation are eliminated from the accounts in the year of disposal and the resulting gains or losses are included in current operations.

Expenditures for maintenance and repairs are charged to operations as incurred. Costs of major additions and improvements are capitalized.

Securities Sold under Agreements to Repurchase

Securities sold under agreements to repurchase are a form of secured borrowing where an institution (American State Bank) sells a security to a counterparty (customer) and agrees to repurchase the security at a specified date, generally within one to four days. Securities sold under agreements to repurchase are reflected at the amount of cash received in connection with the transaction. American State Bank may be required to provide additional collateral based on the fair value of the underlying securities.

Income Taxes

Income taxes are provided for the tax effects of the transactions reported in the financial statements and consist of taxes currently due plus deferred taxes in recognition of the timing differences of certain transactions.

Deferred taxes are provided utilizing a liability method pursuant to which deferred tax assets are recognized for deductible temporary differences, and operating loss, tax credit carryforwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be

Table of Contents

realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

American State Bank Corporation and its subsidiaries file a consolidated federal income tax return. In addition, state income tax returns are filed in accordance with state statutes.

Earnings Per Share

Basic earnings per share is computed by dividing income applicable to common shares by the weighted average number of shares outstanding. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that, consequently, share in the earnings of American State Bank Corporation.

Comprehensive Income

Accounting principles generally require that recognized revenue, expenses, gains and losses be included in net income. Although certain changes in assets and liabilities, such as unrealized gains and losses on available-for-sale securities, are reported as a separate component of the equity section of the balance sheet, such items, along with net income, are components of comprehensive income.

Junior Subordinated Debt Securities

On February 5, 2004, American State Bank Corporation issued \$6,702,000 in floating rate (LIBOR + 2.8%) junior subordinated debt securities to American State Capital Trust I, a Delaware statutory trust. The trust used the proceeds from the issuance of these floating rate (LIBOR + 2.8%) trust preferred securities to acquire the junior subordinated debt securities. Both the junior subordinated debt securities and the trust preferred securities mature on April 7, 2034, and are callable at the option of American State Bank Corporation after April 7, 2009. The net proceeds to American State Bank Corporation from the issuance of its junior subordinated debt securities were allocated to expansion opportunities for American State Bank Corporation. American State Bank Corporation accounts for the special-purpose trust entity under FASB Interpretation No. 46, Consolidation of Variable Interest Entities.

Changes in Critical Accounting Policies

During the six months ended June 30, 2005, there was no significant change in American State Bank Corporation's critical accounting policies and no significant change in the application of critical accounting policies for the year ended December 31, 2004.

Results of Operations for Six Months Ended June 30, 2005 Compared to Six Months Ended June 30, 2004**Net Interest Revenue**

Net interest revenue, the difference between interest revenue earned on assets and interest expense paid on liabilities, generates American State Bank Corporation's largest revenue source. Net interest revenue was \$4.8 million for the six months ended June 30, 2005, compared to \$4.6 million for the same period of 2004, representing an increase of \$163,000 or 3.6%. The improvement in net interest revenue primarily reflects the increase in the volume of earning assets, offset by the increase in the volume of earning liabilities and higher cost of funds.

Interest revenue increased \$1.3 million or 19.1% while average earning assets increased \$53.6 million or 20.7% for the six months ended June 30, 2005 compared to the six months ended June 30, 2004.

Interest expense increased \$1.1 million or 51.9% while average interest-bearing liabilities increased \$48.4 million or 20.0% for the six months ended June 30, 2005 compared to the six months ended June 30, 2004.

Table of Contents

Net interest margin, which is calculated by dividing net interest revenue by average earning assets, measures American State Bank Corporation's lending and fund-raising functions. The net interest margin for the first six months of 2005 and the first six months of 2004 was 3.31% and 3.71%, respectively, representing a decrease of 40 basis points. The decrease in net interest margin was primarily a result of higher cost of funds from the prior period.

Provision for Credit Losses and Allowance for Credit Losses

American State Bank's loans are generally secured by specific items of collateral, including real property, consumer assets and business assets. Although American State Bank has a diversified loan portfolio, a substantial portion of its debtors' ability to honor their contracts is dependent on economic conditions in the area. While management uses available information to recognize losses on loans, further reductions in the carrying amounts of loans may be necessary based on changes in local economic conditions. In addition, regulatory agencies, as an integral part of their examination process, periodically review the estimated losses on loans. Such agencies may require American State Bank to recognize additional losses based on their judgments about information available at the time of their examination. Because of these factors, it is reasonably possible that the estimated losses on loans may change materially in the near term.

In determining the amount of the allowance for loan losses, management of American State Bank uses information from relationship managers, the loan committee of American State Bank's Board of Directors and ongoing loan review efforts to stratify the portfolio into asset risk classifications and assign a general or specific reserve allocation. The foundation for the allowance is a detailed review of the overall loan portfolio. The portfolio is analyzed based on risk factors, current and historical performance and specific loan reviews. General reserve estimated loss percentages are based on the current and historical loss experience of each loan, regulatory guidelines for losses, the status of past due payments and management's judgment of economic conditions and the related level of risk assumed. Specific reserves are determined on a loan-by-loan basis on management's evaluation of loss exposure for each credit, given current payment status of the loan and the value of any underlying collateral. Additionally, an unallocated reserve for the total loan portfolio is established to address the risks inherent in the calculations of general and specific reserves and as management's evaluation of various conditions that are not directly measured by any other component of the allowance. Such components may include current general economic conditions affecting key lending areas, credit qualifying trends, collateral values, loan volumes and concentrations, seasoning of the loan portfolio and the findings of internal credit administration.

The following table provides an analysis of the allowance for credit losses for the periods indicated:

Liquidity and Capital Resources

The main focus of American State Bank Corporation's liquidity is to match the cash inflows and outflows within American State Bank Corporation's market for loans and deposits. Short-term investments and short-term borrowings are used as American State Bank Corporation's chief cash management tool. Liquidity is primarily achieved through unpledged marketable securities with maturities one year or less, federal funds sold, securities purchased with resale agreements and other money market instruments or equivalents. While scheduled cash flows from the amortization and maturities of loans and securities are relatively predictable sources of funds, deposit flows and prepayments of loan and investment securities are greatly influenced by general interest rates, economic conditions and competition.

On February 5, 2004, American State Bank Corporation issued 6,702,000 in floating rate (LIBOR + 2.8%) junior subordinated debt securities to American State Capital Trust I, a Delaware statutory trust. The trust used the proceeds from the issuance of these floating rate (LIBOR + 2.8%) trust preferred securities to acquire the junior subordinated debt securities. The trust preferred securities are considered equity for regulatory purposes and debt for tax purposes. The trust preferred securities qualify as regulatory capital for American State Bank Corporation (under current Federal Reserve guidelines, the trust preferred securities qualify as Tier 1 Capital up to a maximum of 25% of American State Bank Corporation's total Tier 1 Capital and any remainder qualifies as Tier 2 Capital). Under United States generally accepted accounting principles, the subordinated debentures are shown on American State Bank Corporation's consolidated balance sheet as long-term debt.

American State Bank Corporation has been able to generate sufficient cash through deposits as well as borrowings and anticipates that it will continue to have sufficient funds to meet its liquidity requirements.

The management of American State Bank Corporation is not aware of any trends, demands, commitments, events or uncertainties likely to result in material changes in liquidity. American State Bank Corporation has no outstanding commitments for capital expenditures or commitments for material uses of capital resources.

Off-Balance Sheet Arrangements

American State Bank is a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and letters of credit. These instruments involve, to varying degrees, elements of credit risk in excess of the amount recognized in the balance sheet.

American State Bank's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to extend credit and letters of credit is represented by the contractual amount of those instruments. American State Bank uses the same credit policies in making commitments and conditional obligations as they do for instruments that are included in the consolidated balance sheets.

Table of Contents

In the normal course of business, American State Bank has made various off-balance sheet commitments to extend credit of \$22.1 million and \$22.7 million at June 30, 2005 and June 30, 2004, respectively. Commitments included unfunded loan commitments of \$21.5 million and standby letters of credit of \$622,000 at June 30, 2005. Of the total unfunded commitments, \$2.5 million had maturities that exceed one year in duration. While American State Bank faces risks associated with potential deterioration of credit quality of borrowers to whom a commitment to extend credit has been made, no significant credit losses are expected from these commitments and arrangements. American State Bank has no contracts accounted for as derivatives.

Quantitative and Qualitative Disclosures about Market Risk

Market risk is the risk to American State Bank Corporation's financial condition resulting from adverse changes in the value of American State Bank's holdings arising from movements in interest rates, foreign exchange rates, equity prices or other similar factors. American State Bank Corporation's exposure to market risk can be measured by assessing the effect of changing rates and prices on either the earnings or economic value of an individual instrument, a portfolio or the entire institution.

It is a principal objective of American State Bank's asset and liability management function to evaluate the interest rate risk included in certain balance sheet accounts, determine the appropriate level of risk given American State Bank's business objectives, operating environment, capital and liquidity requirements and performance objectives, establish prudent asset concentration guidelines and manage the risk consistent with guidelines approved by the Board of Directors of American State Bank. Through this process, management seeks to reduce the vulnerability of its operations to changes in interest rates and reviews liquidity, cash flow needs, maturities of investments, deposits, borrowings and capital position.

Interest rate risk management has as its objective to control the effects that interest rate fluctuations have on net interest income and on the net present value American State Bank's earning assets and interest-bearing liabilities. Risk management policies are employed to monitor and limit this exposure. Interest rate risk is measured using net interest income simulation and asset/liability net present value sensitivity analyses. American State Bank uses financial modeling to measure the impact of changes in interest rates on the net interest margin and predict market risk. Estimates are based upon a number of assumptions including the nature and timing of interest rate levels including yield curve shape, prepayments on loans and securities, deposit decay rates, pricing decisions on loans and deposits, reinvestment of asset and liability cash flows. These analyses provide a range of potential impacts on net interest income and portfolio equity caused by interest rate movements.

The rate environment is a function of the monetary policy of the Board of Governors of the Federal Reserve System. The Federal Reserve has continued to increase the targeted level for the federal funds rate since June 2004.

Upon the occurrence of certain events, including the acquisition of, or tender offer for, 20% or more of the outstanding shares of BancorpSouth common stock by any person or entity, then the holders of each such purchase right (except those held by the person acquiring the shares or making the tender offer) will be entitled to purchase one share of BancorpSouth common stock at a price equal to 50% of the then current market price.

*Control Share
Acquisitions*

Pursuant to the Mississippi Control Share Act, control shares that are the subject of a control share acquisition only have voting rights as determined by the Mississippi Control Share Act. The Arkansas Business Corporation Act of 1987 does not have a provision involving control shares.

In general, the voting rights of control shares are restored if, by reason of subsequent issuance of shares or other transactions by the issuing public corporation, the voting power of those control shares is reduced to a range of voting power for which approval has been granted or is not required, upon transfer of such shares to certain other persons or upon the expiration of three years

after the date that the shareholders failed to approve a resolution according voting rights to those control shares.

The Mississippi Control Share Act does not apply to BancorpSouth because BancorpSouth is not an issuing public corporation and has not elected to be subject to the Mississippi Control Share Act in its restated articles of incorporation.

(ii) for each share of ASB Bancorp Common Stock with respect to which an election to receive common stock, par value \$2.50 per share, of BancorpSouth (the BancorpSouth Common Stock) together with the number of BancorpSouth Rights (as defined in Section 5.2 hereof) associated therewith, has been made (a Stock Election), the right to receive from BancorpSouth the number of shares of BancorpSouth Common Stock as is equal to the Exchange Ratio (as defined in Section 1.4(b)) (the Stock Consideration , and collectively, the Stock Election Shares);

Table of Contents

(iii) Holders of more than one share of ASB Bancorp Common Stock may elect a combination of both cash and shares of BancorpSouth Common Stock (with such election referred to as a Mixed Election). For purposes of this Agreement, Cash Consideration, Stock Consideration and any combination thereof shall be collectively referred to herein as Merger Consideration ; and

(iv) for each share of ASB Bancorp Common Stock other than ASB Bancorp Dissenters Shares and shares as to which a Cash Election or a Stock Election has been effectively made (collectively, Non-Election Shares), the right to receive from BancorpSouth such Stock Consideration and/or Cash Consideration as is determined in accordance with Section 1.4(d).

(b) Certain Definitions. For purposes of this Agreement, the following terms shall have the following meanings:

(i) Aggregate BancorpSouth Share Amount shall be a number of shares of BancorpSouth Common Stock calculated by multiplying (x) 0.50 by (y) the product of the total number of then outstanding shares of ASB Common Stock multiplied by the Exchange Ratio.

(ii) Aggregate Cash Election Amount means the amount calculated by multiplying the Cash Consideration by the sum of (x) the aggregate number of Cash Election Shares and (y) the aggregate number of Non-Election Shares being converted into the right to receive the Cash Consideration.

(iii) Average BancorpSouth Common Stock Price means the average of the closing price per share of BancorpSouth Common Stock on the New York Stock Exchange (the NYSE) at the end of the regular session as reported on the Consolidated Tape, Network A, for the ten consecutive trading days ending on the fifth trading day immediately preceding the day upon which the Shareholders of ASB Common Stock shall meet to approve the transactions herein.

(iv) Exchange Ratio shall be equal (rounded to the nearest ten-thousandth) to (x) 2.1769, if the Average BancorpSouth Common Stock Price is less than or equal to \$21.5729, (y) 1.8731, if the Average BancorpSouth Common Stock Price is greater than or equal to \$25.0712, or (z) if the Average BancorpSouth Common Stock Price is between \$21.5729 and \$25.0712, the result obtained by dividing \$46.96 by the Average BancorpSouth Common Stock Price.

(c) Subject to Section 1.6, the total number of shares of ASB Bancorp Common Stock to be converted into Stock Consideration (the Stock Conversion Number) shall be equal to the quotient obtained by dividing (x) the Aggregate BancorpSouth Share Amount by (y) the Exchange Ratio. All of the other shares of ASB Bancorp Common Stock shall be converted into Cash Consideration (in each case, excluding shares of ASB Bancorp Common Stock to be cancelled pursuant to Subsection (e) below).

(d) As promptly as possible after the Election Deadline (as defined below), BancorpSouth shall cause the Exchange Agent (as defined in Section 2.1) to effect the allocation among holders of ASB Bancorp Common Stock of rights to receive the Cash Consideration and the Stock Consideration as follows:

(i) If the aggregate number of shares of ASB Bancorp Common Stock with respect to which Stock Elections shall have been made (the Stock Election Number) exceeds the Stock Conversion Number, then all Cash Election Shares and all Non-Election Shares of each holder thereof shall be converted into the right to receive the Cash Consideration, and Stock Election Shares of each holder thereof will be converted into the right to receive the Stock Consideration in respect of that number of Stock Election Shares equal to the product obtained by multiplying (x) the number of Stock Election Shares held by such holder by (y) a fraction, the numerator of which is the Stock Conversion Number and

Table of Contents

the denominator of which is the Stock Election Number, with the remaining number of such holder's Stock Election Shares being converted into the right to receive the Cash Consideration; and

(ii) If the Stock Election Number is less than the Stock Conversion Number (the amount by which the Stock Conversion Number exceeds the Stock Election Number being referred to herein as the Shortfall Number), then all Stock Election Shares shall be converted into the right to receive the Stock Consideration and the Non-Election Shares and Cash Election Shares shall be treated in the following manner:

(A) If the Shortfall Number is less than or equal to the number of Non-Election Shares, then all Cash Election Shares shall be converted into the right to receive the Cash Consideration and the Non-Election Shares of each holder thereof shall convert into the right to receive the Stock Consideration in respect of that number of Non-Election Shares equal to the product obtained by multiplying (x) the number of Non-Election Shares held by such holder by (y) a fraction, the numerator of which is the Shortfall Number and the denominator of which is the total number of Non-Election Shares, with the remaining number of such holder's Non-Election Shares being converted into the right to receive the Cash Consideration; or

(B) If the Shortfall Number exceeds the number of Non-Election Shares, then all Non-Election Shares shall be converted into the right to receive the Stock Consideration and Cash Election Shares of each holder thereof shall convert into the right to receive the Stock Consideration in respect of that number of Cash Election Shares equal to the product obtained by multiplying (x) the number of Cash Election Shares held by such holder by (y) a fraction, the numerator of which is the amount by which (1) the Shortfall Number exceeds (2) the total number of Non-Election Shares and the denominator of which is the total number of Cash Election Shares, with the remaining number of such holder's Cash Election Shares being converted into the right to receive the Cash Consideration.

(e) At the Effective Time, all shares of ASB Bancorp Common Stock that are owned directly or indirectly by BancorpSouth or ASB Bancorp or any of their respective Subsidiaries, other than shares of ASB Bancorp Common Stock (i) held directly or indirectly in trust accounts, managed accounts and the like or otherwise held in a fiduciary capacity for the benefit of third parties (any such shares, and shares of BancorpSouth Common Stock which are similarly held, whether held directly or indirectly by BancorpSouth or ASB Bancorp, as the case may be, being referred to herein as Trust Account Shares) and (ii) held by BancorpSouth or ASB Bancorp or any of their respective Subsidiaries in respect of a debt previously contracted (any such shares of ASB Bancorp Common Stock, and shares of BancorpSouth Common Stock which are similarly held, whether held directly or indirectly by BancorpSouth or ASB Bancorp, being referred to herein as DPC Shares), shall be canceled and shall cease to exist, and no stock of BancorpSouth or other consideration shall be delivered in exchange therefor. All shares of BancorpSouth Common Stock that are owned by ASB Bancorp or any of its Subsidiaries (other than Trust Account Shares and DPC Shares) shall become treasury stock of BancorpSouth.

(f) Each share of ASB Bancorp Common Stock converted into BancorpSouth Common Stock pursuant to this Article I shall no longer be outstanding and shall automatically be canceled and shall cease to exist, and each certificate (each a Certificate) previously representing any such shares of ASB Bancorp Common Stock shall thereafter only represent the right to receive (i) the number of whole shares of BancorpSouth Common Stock into which such share is convertible pursuant to Section 1.4(a) and (ii) the cash in lieu of fractional shares into which the shares of ASB Bancorp Common Stock represented by such Certificate have been converted pursuant to Section 1.4(a) and Section 2.2(e) hereof, and (iii) Cash Consideration pursuant to Section 1.4(a) hereof. Certificates previously representing shares of ASB Bancorp Common Stock shall be exchanged for certificates representing whole shares of BancorpSouth Common Stock and cash in lieu of fractional shares issued in consideration therefor and

Cash Consideration upon the surrender of such Certificates in accordance with Section 2.2 hereof, without any interest thereon. If, between the date of this Agreement and the Effective Time, the shares of BancorpSouth Common Stock shall be changed into a different number or class of shares by reason of any reclassification, recapitalization, split-up, combination, exchange of shares or readjustment, or a stock dividend thereon shall be declared with a record date within said period (any such event, an Anti-Dilution Event), the Exchange Ratio and the Merger Consideration shall be adjusted to result in the same aggregate consideration being delivered to ASB Bancorp's shareholders as would have been received had such Anti-Dilution Event not occurred.

(g) Notwithstanding anything in this Agreement to the contrary, shares of ASB Bancorp Common Stock which are outstanding immediately prior to the Effective Time and with respect to which dissenters' rights shall have been properly demanded in accordance with Sections 4-27-1323, et. seq. of the ABCA (ASB Bancorp Dissenting Shares) shall not be converted into the right to receive, or be exchangeable for, Merger Consideration or cash in lieu of fractional shares but, instead, the holders thereof shall be entitled to payment of the appraised value of such ASB Bancorp Dissenting Shares in accordance with the provisions of Sections of the ABCA; provided, however, that (i) if any holder of ASB Bancorp Dissenting Shares shall subsequently deliver a written withdrawal of his demand for appraisal of such shares, or (ii) if any holder fails to establish his entitlement to dissenters' rights as provided in Sections 4-27-1323, et. sec. of the ABCA, such holder or holders (as the case may be) shall forfeit the right to appraisal of such shares of ASB Bancorp Common Stock and each of such shares shall thereupon be deemed to have been converted into the right to receive, and to have become exchangeable for, as of the Effective Time, Stock Consideration and/or cash in lieu of fractional shares and/or Cash Consideration, without any interest thereon, as provided in Sections 1.4(a) and 1.4(c) and Article II hereof.

(h) At the Effective Time, all shares of ASB Bank common stock shall be canceled and shall cease to exist and no stock of BancorpSouth or BancorpSouth Bank or other consideration shall be delivered in exchange therefor.

1.5 Stock Options. Immediately prior to the Effective Time, each option to purchase shares of ASB Bancorp Common Stock (the ASB Options) granted to any person (each an Option Holder) outstanding and unexercised immediately prior thereto, including those options granted under the Amended and Restated Stock Option Agreements by and between ASB Bancorp and Frank Oldham, Steve Gramling, David Dudley and Judy Dacus dated December 30, 2002 and referenced in the employment agreements for such executives, shall be automatically exercised through the cashless exercise arrangement described in this Section 1.5. Upon exercise of the ASB Options, each Option Holder will receive a number of whole and fractional shares of ASB Bancorp Common Stock equal to the aggregate spread value (i.e., the excess of the Cash Consideration over the exercise price) of such Option Holder's options divided by the Cash Consideration. Following such cashless exercise, the Option Holders shall be entitled to the conversion rights described in Section 1.4 with respect to the shares of ASB Bancorp Common Stock received upon such option exercise. Upon the Effective Time, any unexercised ASB Options shall not be exchanged for options to purchase BXS Common Stock or any other right to receive BXS Common Stock.

1.6 Tax Matters. Notwithstanding any other provision contained in this Agreement, it is intended that the Holding Company Merger shall qualify as a reorganization within the meaning of Section 368(a) of the Code and that this Agreement shall constitute a plan of reorganization for purposes of Sections 354 and 361 of the Code.

(a) In order that the Holding Company Merger will not fail to satisfy the continuity of interest requirements under applicable federal income tax principles relating to reorganizations under Section 368(a) of the Code, if the aggregate value of the shares of BancorpSouth Common Stock to be

issued in connection with the Holding Company Merger, based upon the closing price per share of BancorpSouth Common Stock on NYSE at the end of the regular session as reported on the Consolidated Tape, Network A, for the trading day immediately prior to the Effective Time (the Aggregate BancorpSouth Share Value Consideration), would be less than 45% of the sum of (i) the Aggregate BancorpSouth Share Value Consideration and (ii) the Aggregate Cash Value Consideration (as defined below), then BancorpSouth may, in its sole discretion, increase the Stock Consideration and decrease the Cash Consideration so that, after such adjustment, the aggregate value of the shares of BancorpSouth Common Stock to be issued to the holders of ASB Bancorp Common Stock in connection with the Holding Company Merger, as determined based upon the closing price per share of BancorpSouth Common Stock on NYSE at the end of the regular session as reported on the Consolidated Tape, Network A, for the trading day immediately prior to the Effective Time, is at least 45% of the sum of (i) the aggregate value of the shares of BancorpSouth Common Stock to be issued to the holders of ASB Bancorp Common Stock in connection with the Holding Company Merger, as determined based upon the closing price per share of BancorpSouth Common Stock on NYSE at the end of the regular session as reported on the Consolidated Tape, Network A, for the trading day immediately prior to the Effective Time, and (ii) the Aggregate Cash Value Consideration. In the event that the Stock Consideration and Cash Consideration are adjusted as provided for in this Section 1.6(a), all references in this Agreement to the Stock Consideration and the Cash Consideration shall refer to the Stock Consideration and Cash Consideration as adjusted in this Section 1.6(a). For purposes of this Agreement, the Aggregate Cash Value Consideration shall be an amount, as determined by BancorpSouth, equal to the sum of (A) Aggregate Cash Election Amount, (B) the product of the number of ASB Bancorp Dissenting Shares (except to the extent that the holder of such ASB Bancorp Dissenting Shares, as of the Closing Date, has effectively withdrawn or lost his right to dissent from the Merger under the ABCA) and the Cash Consideration, (C) the amount of cash to be issued to holders of ASB Bancorp Common Stock in lieu of fractional shares of BancorpSouth Common Stock and (D) any other amounts received by a holder of ASB Bancorp Common Stock prior to the Merger, either in a redemption of ASB Bancorp stock or in a distribution with respect to ASB Bancorp stock (but only to the extent such amount is treated as other property or money received in the exchange for purposes of Section 356 of the Code, or would be so treated if the ASB Bancorp shareholder also had received stock of BancorpSouth in exchange for stock owned by the shareholder in ASB Bancorp).

(b) The parties agree that BancorpSouth may at any time change the method of effecting the combination of BancorpSouth and ASB Bancorp or the Bank Merger, including, without limitation, by merging ASB Bancorp with a direct wholly-owned subsidiary of BancorpSouth, and ASB Bancorp shall cooperate in such efforts, including by entering into an appropriate amendment to this Agreement (to the extent such amendment only changes the method of effecting the business combination and does not substantively affect this Agreement or the rights and obligations of the parties or their respective shareholders hereunder); provided, however, that any such subsidiary shall become a party to, and shall agree to be bound by, the terms of this Agreement, and that any such change shall not (i) alter or change the kind or amount of Merger Consideration to be provided to holders of ASB Bancorp Common Stock as provided for in this Agreement, (ii) adversely affect the rights of holders of ASB Bancorp Options (hereinafter defined) or (iii) materially impede or delay consummation of the transactions contemplated by this Agreement.

1.7 BancorpSouth Common Stock. Except for shares of BancorpSouth Common Stock owned by ASB Bancorp or any of its Subsidiaries (other than Trust Account Shares and DPC Shares), which shall be converted into authorized but unissued stock of BancorpSouth as contemplated by Section 1.4 hereof, the shares of BancorpSouth Common Stock issued and outstanding immediately prior to the Effective Time shall be unaffected by the Merger and such shares shall remain issued and outstanding.

1.8 Articles of Incorporation. At the Effective Time, the Amended and Restated Articles of Incorporation of BancorpSouth, as in effect at the Effective Time, shall be the articles of incorporation of

the Surviving Corporation. At the Effective Time, the Amended and Restated Articles of Association of BancorpSouth Bank, as in effect at the Effective Time, shall be the articles of association of the Surviving Bank.

At the Effective Time, the Bylaws of BancorpSouth Bank, as in effect immediately prior to the Effective Time, shall be the bylaws of the Surviving Bank until thereafter amended in accordance with applicable law and the articles of association of the Surviving Bank.

1.10 Directors and Officers. The directors and officers of BancorpSouth immediately prior to the Effective Time shall be the directors and officers of the Surviving Corporation, each to hold office in accordance with the articles of incorporation and bylaws of the Surviving Corporation until their respective successors are duly elected or appointed and qualified. The directors and officers of BancorpSouth Bank immediately prior to the Effective Time shall be the directors and officers of the Surviving Bank, each to hold office in accordance with the articles of association and bylaws of the Surviving Bank until their respective successors are duly elected or appointed and qualified.

ARTICLE II. EXCHANGE OF SHARES

2.1 BancorpSouth to Make Shares and Cash Available. At or prior to the Effective Time, BancorpSouth shall deposit, or shall cause to be deposited, with SunTrust Bank, Atlanta, N.A. or another bank or trust company (the Exchange Agent) selected by BancorpSouth and reasonably satisfactory to ASB Bancorp, for the benefit of the holders of Certificates, for exchange in accordance with this Article II, the Cash Consideration, certificates representing the shares of BancorpSouth Common Stock constituting the Stock Consideration and the cash in lieu of fractional shares (such cash and certificates for shares of BancorpSouth Common Stock, together with any dividends or distributions with respect thereto, being hereinafter referred to as the Exchange Fund) to be issued pursuant to Section 1.4 and paid pursuant to Section 2.2(a) in exchange for outstanding shares of ASB Bancorp Common Stock.

2.2 Exchange of Shares; Payment of Cash Consideration.

(a) At the time of the mailing of the Proxy Statement and Prospectus described in Section 7.1 hereof, BancorpSouth will cause the Exchange Agent to send to each holder of record of shares of ASB Bancorp Common Stock on the record date for the meeting of the shareholders of ASB Bancorp a letter of transmittal and cash election form (collectively, the Election Form) and other appropriate materials providing for such holder, subject to the provisions of Section 1.4 hereof, to make a Stock Election, Cash Election, Mixed Election, or No Election. As of the Election Deadline (as defined below), any shares of ASB Bancorp Common Stock with respect to which there shall not have been such election by submission to the Exchange Agent of an effective, properly completed Election Form shall be deemed to be No Election Shares.

(i) Any Cash Election, Stock Election or Mixed Election shall have been validly made only if the Exchange Agent shall have received an Election Form properly completed by 5:00 p.m., Central Time, on the second business day immediately preceding the meeting of shareholders of ASB Bancorp described in Section 7.1 hereof (the Election Deadline). An election by a holder of shares of ASB Bancorp Common Stock shall be validly made only if the Exchange Agent shall have received an Election Form properly completed and executed (with the signature or signatures thereon guaranteed if required by the Election Form) by such holder of shares of ASB Bancorp Common Stock. An Election Form shall be deemed properly completed only if accompanied by one or more Certificates (or customary affidavits and, if required by BancorpSouth, indemnification regarding the loss or destruction of such

Certificates or the guaranteed delivery of such Certificates) representing all shares of ASB Bancorp Common Stock covered by such Election Form, together with duly executed transmittal materials included with the Election Form. BancorpSouth shall have the right to make reasonable determinations and to establish reasonable procedures (not inconsistent with the terms of this Agreement) in guiding the Exchange Agent in its determination as to the validity of Election Forms and of any revision, revocation or withdrawal thereof.

(ii) Two or more holders of shares of ASB Bancorp Common Stock who are determined to constructively own shares owned by each other by virtue of Section 318(a) of the Code and who so certify to BancorpSouth's satisfaction, and any single holder of shares of ASB Bancorp Common Stock who holds such shares in two or more different names and who so certifies to BancorpSouth's satisfaction, may submit a joint Election Form covering the aggregate shares of ASB Bancorp Common Stock owned by all such holders or by such single holder, as the case may be. For all purposes of this Agreement, each such group of holders which, and each such single holder who, submits a joint Election Form shall be treated as a single holder of shares of ASB Bancorp Common Stock.

(iii) Each holder of record of shares of ASB Bancorp Common Stock who holds such shares as nominee, trustee or in other representative capacities (each, a Representative) may submit multiple Election Forms, provided that such Representative certifies that each such Election Form covers all shares of ASB Bancorp Common Stock held by that Representative for a particular beneficial owner.

(iv) Any holder of shares of ASB Bancorp Common Stock who has made an election by submitting an Election Form to the Exchange Agent may at any time prior to the Election Deadline change such holder's election by submitting a revised Election Form, properly completed and signed, that is received by the Exchange Agent prior to the Election Deadline. Any holder of shares of ASB Bancorp Common Stock may at any time prior to the Election Deadline revoke such holder's election by written notice to the Exchange Agent received at any time prior to the Election Deadline.

(b) As soon as practicable after the Election Deadline (the Allocation Date), the Exchange Agent shall effectuate the allocation among the holders of shares of ASB Bancorp Common Stock of rights to receive the Stock Consideration, the Cash Consideration or a combination of both the Stock Consideration and the Cash Consideration in the Merger in accordance with the terms of this Section. As more fully set forth in Section 1.4 above, the aggregate number of shares of ASB Bancorp Common Stock to be converted in the Merger into the right to receive Cash Consideration may not exceed 50.0% of the outstanding shares of ASB Bancorp Common Stock, and the aggregate number of shares of ASB Bancorp Common Stock to be converted in the Merger into the right to receive Stock Consideration may not exceed 50.0% of the total number of outstanding shares of ASB Bancorp Common Stock.

(c) No dividends or other distributions declared after the Effective Time with respect to BancorpSouth Common Stock and payable to the holders of record thereof shall be paid to the holder of any unsurrendered Certificate until the holder thereof shall surrender such Certificate in accordance with this Article II. After the surrender of a Certificate in accordance with this Article II, the record holder thereof shall be entitled to receive any such dividends or other distributions, without any interest thereon, which theretofore had become payable with respect to shares of BancorpSouth Common Stock represented by such Certificate.

(d) If any certificate representing shares of BancorpSouth Common Stock is to be issued in a name other than that in which the Certificate surrendered in exchange therefor is registered, it shall be a condition of the issuance thereof that the Certificate so surrendered shall be properly endorsed (or accompanied by an appropriate instrument of transfer) and otherwise in proper form for transfer, and that the person requesting such exchange shall pay to the Exchange Agent in advance any transfer or other taxes required by reason of the issuance of a certificate representing shares of BancorpSouth Common

Stock in any name other than that of the registered holder of the Certificate surrendered, or required for any other reason, or shall establish to the satisfaction of the Exchange Agent that such tax has been paid or is not payable.

(e) After the Effective Time, there shall be no transfers on the stock transfer books of ASB Bancorp of the shares of ASB Bancorp Common Stock which were issued and outstanding immediately prior to the Effective Time. If, after the Effective Time, Certificates representing such shares are presented for transfer to the Exchange Agent, they shall be canceled and exchanged for certificates representing shares of BancorpSouth Common Stock as provided in this Article II.

(f) Notwithstanding anything to the contrary contained herein, no certificates or scrip representing fractional shares of BancorpSouth Common Stock shall be issued upon the surrender for exchange of Certificates, no dividend or distribution with respect to BancorpSouth Common Stock shall be payable on or with respect to any fractional share, and such fractional share interests shall not entitle the owner thereof to vote or to any other rights of a shareholder of BancorpSouth. In lieu of the issuance of any such fractional share, BancorpSouth shall pay to each former shareholder of ASB Bancorp who otherwise would be entitled to receive a fractional share of BancorpSouth Common Stock an amount in cash equal to the product of (x) the closing price per share of BancorpSouth Common Stock on NYSE at the end of the regular session as reported on the Consolidated Tape, Network A, for the trading day immediately prior to the Effective Time and (y) the fraction of a share of BancorpSouth Common Stock which such holder would otherwise be entitled to receive pursuant to Article I hereof.

(g) Any portion of the Exchange Fund that remains unclaimed by the shareholders of ASB Bancorp for 12 months after the Effective Time shall be paid to BancorpSouth. Any shareholders of ASB Bancorp who have not theretofore complied with this Article II shall thereafter look only to BancorpSouth for payment of their portion of the Cash Consideration and their shares of BancorpSouth Common Stock, cash in lieu of fractional shares and unpaid dividends and distributions on BancorpSouth Common Stock deliverable in respect of each share of ASB Bancorp Common Stock such shareholder holds as determined pursuant to this Agreement, in each case, without any interest thereon. Notwithstanding the foregoing, none of BancorpSouth, ASB Bancorp, the Exchange Agent or any other person shall be liable to any former holder of shares of ASB Bancorp Common Stock for any amount properly delivered to a public official pursuant to applicable abandoned property, escheat or similar laws.

(h) In the event any Certificate shall have been lost, stolen or destroyed, upon the making of an affidavit of that fact by the person claiming such Certificate to be lost, stolen or destroyed and, if required by BancorpSouth, the posting by such person of a bond in such amount as is customarily required by BancorpSouth and Exchange Agent for other shareholders of BancorpSouth as indemnity against any claim that may be made against it with respect to such Certificate, the Exchange Agent will issue in exchange for such lost, stolen or destroyed Certificate the shares of BancorpSouth Common Stock and cash in lieu of fractional shares deliverable in respect thereof pursuant to this Agreement.

ARTICLE III. DISCLOSURE SCHEDULES; STANDARDS FOR REPRESENTATIONS AND WARRANTIES

3.1 Disclosure Schedules. On or prior to the date hereof, each of BancorpSouth and ASB Bancorp has delivered to the other party a schedule (in the case of ASB Bancorp, the ASB Bancorp Disclosure Schedule, and in the case of BancorpSouth, the BancorpSouth Disclosure Schedule, and, generally, a Disclosure Schedule) setting forth, among other things, items the disclosure of which is necessary or appropriate either in response to an express disclosure requirement contained in a provision hereof or as an exception to one or more of such party's representations or warranties contained in Article IV, in the case of ASB Bancorp, or Article V, in the case of BancorpSouth, or to one or more of such party's covenants contained in Article VI; provided, however, that the mere inclusion of an item in a Disclosure

Table of Contents

Schedule as an exception to a representation or warranty shall not be deemed an admission by a party that such item represents a material exception or material fact, event or circumstance or that such item has had or could be reasonably expected to have a Material Adverse Effect (as defined in Section 3.2 below) with respect to either ASB Bancorp or BancorpSouth, respectively.

3.2 Standards.

(a) As used in this Agreement, the term Material Adverse Effect means, with respect to ASB Bancorp, an event affecting or a change with respect to ASB Bancorp or its Subsidiaries which, (i) individually or in the aggregate has resulted or is reasonably expected by BancorpSouth, to result in losses, damages, liabilities, costs, expenses, judgments or fines in an amount of \$750,000 or greater; or (ii) is materially adverse to (A) the business, condition, assets, properties, rights, prospects or results of operations of ASB Bancorp and its Subsidiaries or (B) the ability of ASB Bancorp and its Subsidiaries to consummate the transactions contemplated hereby; provided that, for purposes of clauses (i) and (ii), Material Adverse Effect shall specifically exclude any adverse effect attributable to or resulting from (1) any change in banking laws, rules or regulations of general applicability or interpretations thereof by courts or governmental authorities, (2) any change in generally accepted accounting principles (GAAP) or regulatory accounting principles applicable to banks or their holding companies generally, (3) any action or omission of ASB Bancorp or any Subsidiary of ASB Bancorp taken with the express prior written consent of BancorpSouth, (4) any out of pocket expenses incurred by ASB Bancorp where such expenses are contemplated by or reasonably incurred in connection with this Agreement or the transactions contemplated hereby, or (5) any changes in general economic conditions or changes affecting the banking industry generally, including adverse changes in the banking or financial markets (provided such changes do not affect ASB Bancorp in a disproportionate manner).

(b) As used in this Agreement, the term Material Adverse Effect means, with respect to BancorpSouth, a material adverse effect on (i) the business, condition, assets, properties, rights, prospects or results of operations of BancorpSouth and its Subsidiaries taken as a whole or (ii) the ability of BancorpSouth and its Subsidiaries to consummate the transactions contemplated hereby; provided that Material Adverse Effect shall specifically exclude any adverse effect attributable to or resulting from (A) any change in banking laws, rules or regulations of general applicability, (B) any change in GAAP or regulatory accounting principles applicable to banks or their holding companies generally or interpretations thereof by courts or governmental authorities, (C) any action or omission of BancorpSouth or any Subsidiary of BancorpSouth taken with the express prior written consent of ASB Bancorp, (D) any expenses incurred by BancorpSouth where such expenses are contemplated by or reasonably incurred in connection with this Agreement or the transactions contemplated hereby, or (E) any changes in general economic conditions or changes affecting the banking industry generally, including adverse changes in the banking or financial markets (provided such changes do not affect BancorpSouth in a disproportionate manner). Changes in the market price of BancorpSouth Common Stock shall not be considered Material Adverse Effects or otherwise considered a material change or circumstance for any purpose.

(c) As used in this Agreement, the word Subsidiary when used with respect to any party means any corporation, partnership, limited liability company or other person, entity or organization, whether incorporated or unincorporated, with respect to which such party owns, directly or indirectly, 50% or more of the equity or ownership interests, or an amount of voting securities or ownership interests sufficient to elect at least a majority of its board of directors or other governing body.

Such service also shall apply for purposes of satisfying any waiting periods, evidence of insurability requirements, or the application of any preexisting condition limitations. 7.11 Tax-Free Qualification. Each of BancorpSouth and ASB Bancorp shall use its reasonable best efforts not to, and shall use its reasonable best efforts not to permit any of its Subsidiaries to, take any action that would reasonably be expected to prevent the Merger from qualifying as a reorganization within the meaning of Section 368(a) of the Code.

part on, or arising in whole or in part out of, or pertaining to (i) the fact that he or she is or was a director or officer of ASB Bancorp, any of the Subsidiaries of ASB Bancorp or any of their respective predecessors or affiliates or (ii) this Agreement or any of the transactions contemplated hereby, whether in any case asserted or arising before or after the Effective Time, the parties hereto agree to cooperate and use their best efforts to defend against and respond thereto. It is understood and agreed that, after the Effective Time, BancorpSouth shall indemnify and hold harmless, subject in all respects to any limitations imposed by any statute, rule, regulation, administrative interpretation, or other law, including any procedural requirements or other conditions, each such Indemnified Party against any losses, claims, damages, liabilities, costs, expenses (including reasonable attorney's fees and expenses in advance of the final disposition of any claim, suit, proceeding or investigation to each Indemnified Party), judgments, fines and amounts paid in settlement in connection with any such threatened or actual claim, action, suit, proceeding or investigation. In the event of any such threatened or actual claim, action, suit, proceeding or investigation (whether asserted or arising before or after the Effective Time), the Indemnified Parties may retain counsel reasonably satisfactory to them after consultation with BancorpSouth; provided, however, that (1) BancorpSouth shall have the right to assume the defense thereof and, upon such assumption, BancorpSouth shall not be liable to any Indemnified Party for any legal expenses of other counsel or any other expenses subsequently incurred by any Indemnified Party in connection with the defense thereof, except that if BancorpSouth elects not to assume such defense or if counsel for the Indemnified Parties reasonably advises that there are issues which raise conflicts of interest between BancorpSouth and the Indemnified Parties, the Indemnified Parties may retain counsel reasonably satisfactory to them after consultation with BancorpSouth, and BancorpSouth shall pay the reasonable fees and expenses of such counsel for the Indemnified Parties, (2) BancorpSouth shall in all cases be obligated pursuant to this paragraph to pay for only one firm of counsel for all Indemnified Parties (unless an ethical conflict of interest arises for such firm of counsel in representing all Indemnified Parties), (3) BancorpSouth shall not be liable for any settlement effected without its prior written consent (which consent shall not be unreasonably withheld) and (4) BancorpSouth shall have no obligation hereunder to any Indemnified Party if that indemnification of such Indemnified Party in the manner contemplated hereby is prohibited by any statute, rule, regulation or administrative interpretation. Any Indemnified Party wishing to claim Indemnification under this Section 7.13, upon learning of any such claim, action, suit, proceeding or investigation, shall promptly notify BancorpSouth thereof; provided that the failure to so notify shall not affect the obligations of BancorpSouth under this Section 7.13 except to the extent such failure to notify materially prejudices BancorpSouth. BancorpSouth's obligations under this Section 7.13 shall continue in full force and effect without time limit from and after the Effective Time.

(b) In the event BancorpSouth or any of its successors or assigns (i) consolidates with or merges into any other person and shall not be the continuing or surviving corporation or entity of such consolidation or merger, or (ii) transfers or conveys all or substantially all of its properties and assets to any person, then, and in each such case, to the extent necessary, proper provision shall be made so that the successors and assigns of BancorpSouth assume the obligations set forth in this Section.

ANNEX B

Part A: Right to Dissent and Obtain Payment for Shares

§ 4-27-1301. Definitions

In this subchapter:

- (1) Corporation means the issuer of the shares held by a dissenter before the corporate action, or the surviving or acquiring corporation by merger or share exchange of that issuer.
- (2) Dissenter means a shareholder who is entitled to dissent from corporate action under § 4-27-1302 and who exercises that right when and in the manner required by §§ 4-27-1320 4-27-1328.
- (3) Fair value, with respect to a dissenter's shares, means the value of the shares immediately before the effectuation of the corporate action to which the dissenter objects, excluding any appreciation or depreciation in anticipation of the corporate action unless exclusion would be inequitable.
- (4) Interest means interest from the effective date of the corporate action until the date of payment, at the average rate currently paid by the corporation on its principal bank loans or, if none, at a rate that is fair and equitable under all the circumstances.
- (5) Record shareholder means the person in whose name shares are registered in the records of a corporation or the beneficial owner of shares to the extent of the rights granted by a nominee certificate on file with a corporation.
- (6) Beneficial shareholder means the person who is a beneficial owner of shares held in a voting trust or by a nominee as the record shareholder.
- (7) Shareholder means the record shareholder or the beneficial shareholder.

§ 4-27-1302. Right of dissent

A. A shareholder is entitled to dissent from and obtain payment of the fair value of his shares in the event of any of the following corporate actions:

- (1) consummation of a plan of merger to which the corporation is a party (i) if shareholder approval is required for the merger by § 4-27-1103 or the articles of incorporation and the shareholder is entitled to vote on the merger or (ii) if the corporation is a subsidiary that is merged with its parent under § 4-27-1104;
- (2) consummation of a plan of share exchange to which the corporation is a party as the corporation whose shares will be acquired, if the shareholder is entitled to vote on the plan;
- (3) consummation of a sale or exchange of all, or substantially all, of the property of the corporation other than in the usual and regular course of business, if the shareholder is entitled to vote on the sale or exchange, including a sale in dissolution, but not including a sale pursuant to court order or a sale for cash pursuant to a plan by which all or substantially all of the net proceeds of the sale will be distributed to the shareholders within one (1) year after the date of sale;
- (4) an amendment of the articles of incorporation that materially and adversely affects rights in respect of a dissenter's shares because it:
 - (i) alters or abolishes a preferential right of the shares;

B-1

Table of Contents

(ii) creates, alters, or abolishes a right in respect of redemption, including a provision respecting a sinking fund for the redemption or repurchase, of the shares;

(iii) alters or abolishes a preemptive right of the holder of the shares to acquire shares or other securities;

(iv) excludes or limits the right of the shares to vote on any matter, or to cumulate votes, other than a limitation by dilution through issuance of shares or other securities with similar voting rights; or

(v) reduces the number of shares owned by the shareholder to a fraction of a share if the fractional share so created is to be acquired for cash under § 4-27-604; or

(5) any corporate action taken pursuant to a shareholder vote to the extent the articles of incorporation, bylaws, or a resolution of the Board of Directors provides that voting or nonvoting shareholders are entitled to dissent and obtain payment for their shares.

B. A shareholder entitled to dissent and obtain payment for his shares under this subchapter may not challenge the corporate action creating his entitlement unless the action is unlawful or fraudulent with respect to the shareholder or the corporation.

§ 4-27-1303. Dissent by nominees and beneficial owners

A. A record shareholder may assert dissenters' rights as to fewer than all the shares registered in his name only if he dissents with respect to all shares beneficially owned by any one (1) person and notifies the corporation in writing of the name and address of each person on whose behalf he asserts dissenters' rights. The rights of a partial dissenter under this subsection are determined as if the shares as to which he dissents and his other shares were registered in the names of different shareholders.

B. A beneficial shareholder may assert dissenters' rights as to shares held on his behalf only if:

(1) he submits to the corporation the record shareholder's written consent to the dissent not later than the time the beneficial shareholder asserts dissenters' rights; and

(2) he does so with respect to all shares of which he is the beneficial shareholder or over which he has power to direct the vote.

Part B: Procedure for Exercise of Dissenters' Rights.

§ 4-27-1320. Notice of dissenters' rights

A. If proposed corporate action creating dissenters' rights under § 4-27-1302 is submitted to a vote at a shareholders meeting, the meeting notice must state that shareholders are or may be entitled to assert dissenters' rights under this chapter and be accompanied by a copy of this chapter.

B. If corporate action creating dissenters' rights under § 4-27-1302 is taken without a vote of shareholders, the corporation shall notify in writing all shareholders entitled to assert dissenters' rights that the action was taken and send them the dissenters' notice described in § 4-27-1322.

§ 4-27-1321. Notice of intent to demand payment

A. If proposed corporate action creating dissenters' rights under § 4-27-1302 is submitted to a vote at a shareholders meeting, a shareholder who wishes to assert dissenters' rights (1) must deliver to the corporation before the vote is taken written notice of his intent to demand payment for his shares if the proposed action is effectuated and (2) must not vote his shares in favor of the proposed action.

Table of Contents

B. A shareholder who does not satisfy the requirements of subsection (a) of this section is not entitled to payment for his shares under this subchapter.

§ 4-27-1322. Dissenters' notice

A. If proposed corporate action creating dissenters' rights under § 4-27-1302 is authorized at a shareholders meeting, the corporation shall deliver a written dissenters' notice to all shareholders who satisfied the requirements of § 4-27-1321.

B. The dissenters' notice must be sent no later than ten (10) days after the corporate action was taken, and must:

(1) state where the payment demand must be sent and where and when certificates for certificated shares must be deposited;

(2) inform holders of uncertificated shares to what extent transfer of the shares will be restricted after the payment demand is received;

(3) supply a form for demanding payment that includes the date of the first announcement to news media or to shareholders of the terms of the proposed corporate action and requires that the person asserting dissenters' rights certify whether or not he acquired beneficial ownership of the shares before that date;

(4) set a date by which the corporation must receive the payment demand, which date may not be fewer than thirty (30) nor more than sixty (60) days after the date subsection (a) the notice is delivered; and

(5) be accompanied by a copy of this subchapter.

§ 4-27-1323. Duty to demand payment

A. A shareholder sent a dissenters' notice described in § 4-27-1322 must demand payment, certify whether he acquired beneficial ownership of the shares before the date required to be set forth in the dissenters' notice pursuant to § 4-27-1322(b)(3), and deposit his certificates in accordance with the terms of the notice.

B. The shareholder who demands payment and deposits his share certificates under subsection (a) of this section retains all other rights of a shareholder until these rights are cancelled or modified by the taking of the proposed corporate action.

C. A shareholder who does not demand payment or deposit his share certificates where required, each by the date set in the dissenters' notice, is not entitled to payment for his shares under this subchapter.

§ 4-27-1324. Share restrictions

A. The corporation may restrict the transfer of uncertificated shares from the date the demand for their payment is received until the proposed corporate action is taken or the restrictions released under § 4-27-1326.

B. The person for whom dissenters' rights are asserted as to uncertificated shares retains all other rights of a shareholder until these rights are cancelled or modified by the taking of the proposed corporate action.

§ 4-27-1325. Payment

A. Except as provided in § 4-27-1327, as soon as the proposed corporate action is taken, or upon receipt of a payment demand, the corporation shall pay each dissenter who complied with § 4-27-1323 the amount the corporation estimates to be the fair value of his shares, plus accrued interest.

Table of Contents

B. The payment must be accompanied by:

(1) the corporation's balance sheet as of the end of a fiscal year ending not more than sixteen (16) months before the date of payment, an income statement for that year, a statement of changes in shareholders' equity for that year, and the latest available interim financial statements, if any;

(2) a statement of the corporation's estimate of the fair value of the shares;

(3) an explanation of how the interest was calculated;

(4) a statement of the dissenter's right to demand payment under § 4-27-1328; and

(5) a copy of this subchapter.

§ 4-27-1326. Failure to take action

A. If the corporation does not take the proposed action within sixty (60) days after the date set for demanding payment and depositing share certificates, the corporation shall return the deposited certificates and release the transfer restrictions imposed on uncertificated shares.

B. If after returning deposited certificates and releasing transfer restrictions, the corporation takes the proposed action, it must send a new dissenter's notice under § 4-27-1322 and repeat the payment demand procedure.

§ 4-27-1327. After-acquired shares

A. A corporation may elect to withhold payment required by § 4-27-1325 from a dissenter unless he was the beneficial owner of the shares before the date set forth in the dissenter's notice as the date of the first announcement to news media or to shareholders of the terms of the proposed corporate action.

B. To the extent the corporation elects to withhold payment under subsection (a) of this section, after taking the proposed corporate action, it shall estimate the fair value of the shares, plus accrued interest, and shall pay this amount to each dissenter who agrees to accept it in full satisfaction of his demand. The corporation shall send with its offer a statement of its estimate of the fair value of the shares, an explanation of how the interest was calculated, and a statement of the dissenter's right to demand payment under § 4-27-1328.

§ 4-27-1328. Procedure if shareholder dissatisfied with payment or offer

A. A dissenter may notify the corporation in writing of his own estimate of the fair value of his shares and amount of interest due, and demand payment of his estimate (less any payment under § 4-27-1325), or reject the corporation's offer under § 4-27-1327 and demand payment of the fair value of his shares and interest due, if:

(1) the dissenter believes that the amount paid under § 4-27-1325 or offered under § 4-27-1327 is less than the fair value of his shares or that the interest due is incorrectly calculated;

(2) the corporation fails to make payment under § 4-27-1325 within sixty (60) days after the date set for demanding payment; or

(3) the corporation, having failed to take the proposed action, does not return the deposited certificates or release the transfer restrictions imposed on uncertificated shares within sixty (60) days after the date set for demanding payment.

B. A dissenter waives his right to demand payment under this section unless he notifies the corporation of his demand in writing under subsection (a) of this section within thirty (30) days after the corporation made or offered payment for his shares.

Part C: Judicial Appraisal of Shares

§ 4-27-1330. Court action

A. If a demand for payment under § 4-27-1328 remains unsettled, the corporation shall commence a proceeding within sixty (60) days after receiving the payment demand and petition the court to determine the fair value of the shares and accrued interest. If the corporation does not commence the proceeding within the sixty-day period, it shall pay each dissenter whose demand remains unsettled the amount demanded.

B. The corporation shall commence the proceeding in the circuit court of the county where the corporation's principal office (or, if none in this state, its registered office) is located. If the corporation is a foreign corporation without a registered office in this state, it shall commence the proceeding in the county in this state where the registered office of the domestic corporation merged with or whose shares were acquired by the foreign corporation was located.

C. The corporation shall make all dissenters (whether or not residents of this state) whose demands remain unsettled parties to the proceeding as in an action against their shares and all parties must be served with a copy of the petition. Nonresidents may be served by registered or certified mail or by publication as provided by law.

D. The jurisdiction of the court in which the proceeding is commenced under subsection (b) of this section is plenary and exclusive. The court may appoint one (1) or more persons as appraisers to receive evidence and recommend decision on the question of fair value. The appraisers have the powers described in the order appointing them, or in any amendment to it. The dissenters are entitled to the same discovery rights as parties in other civil proceedings.

E. Each dissenter made a party to the proceeding is entitled to judgment (1) for the amount, if any, by which the court finds the fair value of his shares, plus interest, exceeds the amount paid by the corporation or (2) for the fair value, plus accrued interest, of his after-acquired shares for which the corporation elected to withhold payment under § 4-27-1327.

4-27-1331. Court costs and counsel fees

A. The court in an appraisal proceeding commenced under § 4-27-1330 shall determine all costs of the proceeding, including the reasonable compensation and expenses of appraisers appointed by the court. The court shall assess the costs against the corporation, except that the court may assess costs against all or some of the dissenters, in amounts the court finds equitable, to the extent the court finds the dissenters acted arbitrarily, vexatiously, or not in good faith in demanding payment under § 4-27-1328.

B. The court may also assess the fees and expenses of counsel and experts for the respective parties, in amounts the court finds equitable:

(1) against the corporation and in favor of any or all dissenters if the court finds the corporation did not substantially comply with the requirements of §§ 4-27-1320 - 4-27-1328; or

(2) against either the corporation or a dissenter, in favor of any other party, if the court finds that the party against whom the fees and expenses are assessed acted arbitrarily, vexatiously, or not in good faith with respect to the rights provided by this chapter.

C. If the court finds that the services of counsel for any dissenter were of substantial benefit to other dissenters similarly situated, and that the fees for those services should not be assessed against the corporation, the court may award to these counsel reasonable fees to be paid out of the amounts awarded the dissenters who were benefited.

Jonesboro, Arkansas

We have audited the accompanying consolidated balance sheets of American State Bank Corporation as of December 31, 2004 and 2003, and the related consolidated statements of income, stockholders' equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Note 1: Nature of Operations and Summary of Significant Accounting Policies

Nature of Operations

American State Bank Corporation (Company) is a bank holding company whose principal activity is the ownership and management of its wholly-owned subsidiaries, American State Bank (Bank) and American State Trust and Financial Services, Inc. The Bank is primarily engaged in providing a full range of banking and financial services to individual and corporate customers in Mississippi, Craighead, Greene and Randolph counties in Arkansas. The Bank is subject to competition from other financial institutions. The Bank is subject to the regulation of certain federal and state agencies and undergoes periodic examinations by those regulatory authorities.

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change relate to the determination of the allowance for loan losses and the valuation of real estate acquired in connection with foreclosures or in satisfaction of loans. In connection with the determination of the allowance for loan losses and the valuation of foreclosed assets held for sale, management obtains independent appraisals for significant properties.

Securities

Available-for-sale securities, which include any security for which the Company has no immediate plan to sell but which may be sold in the future, are carried at fair value. Unrealized gains and losses are recorded, net of related income tax effects, in other comprehensive income.

Held-to-maturity securities, which include any security for which the Company has the positive intent and ability to hold until maturity, are carried at historical cost adjusted for amortization of premiums and accretion of discounts. Amortization of premiums and accretion of discounts are recorded as interest income from securities. Realized gains and losses are recorded as net security gains (losses). Gains and losses on sales of securities are determined on the specific-identification method.

Loans

Loans that management has the intent and ability to hold for the foreseeable future or until maturity or pay-offs are reported at their outstanding principal balances adjusted for any charge-offs, the

allowance for loan losses, any deferred fees or costs on originated loans and unamortized premiums or discounts on purchased loans. Interest income is reported on the interest method and includes amortization of net deferred loan fees and costs over the loan term. Generally, loans are placed on non-accrual status at ninety days past due and interest is considered a loss, unless the loan is well-secured and in the process of collection.

Allowance for Loan Losses

The allowance for loan losses is established as losses are estimated to have occurred through a provision for loan losses charged to income. Loan losses are charged against the allowance when management believes the uncollectibility of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance.

The allowance for loan losses is evaluated on a regular basis by management and is based upon management's periodic review of the collectibility of the loans in light of historical experience, the nature and volume of the loan portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral and prevailing economic conditions. This evaluation is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available.

A loan is considered impaired when, based on current information and events, it is probable that the Company will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement. Factors considered by management in determining impairment include payment status, collateral value and the probability of collecting scheduled principal and interest payments when due. Loans that experience insignificant payment delays and payment shortfalls generally are not classified as impaired. Management determines the significance of payment delays and payment shortfalls on a case-by-case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including the length of the delay, the reasons for the delay, the borrower's prior payment record and the amount of the shortfall in relation to the principal and interest owed.

Impairment is measured on a loan-by-loan basis for commercial and construction loans by either the present value of expected future cash flows discounted at the loan's effective interest rate, the loan's obtainable market price or the fair value of the collateral if the loan is collateral dependent.

Large groups of smaller balance homogenous loans are collectively evaluated for impairment. Accordingly, the Company does not separately identify individual consumer and residential loans for impairment measurements.

Premises and Equipment

Depreciable assets are stated at cost less accumulated depreciation. Depreciation is charged to expense using the straight-line method over the estimated useful lives of the assets.

Federal Home Loan Bank Stock

Federal Home Loan Bank stock is a required investment for institutions that are members of the Federal Home Loan Bank system. The required investment in the common stock is based on a predetermined formula.

Foreclosed Assets Held for Sale

Assets acquired through, or in lieu of, loan foreclosure are held for sale and are initially recorded at fair value at the date of foreclosure, establishing a new cost basis. Subsequent to foreclosure, valuations are periodically performed by management and the assets are carried at the lower of carrying amount or fair value less cost to sell. Revenue and expenses from operations and changes in the valuation allowance are included in net income or expense from foreclosed assets.

Stock Options

At December 31, 2004, the Company has a stock-based employee compensation plan, which is described more fully in *Note 13*. The Company accounts for this plan under the recognition and measurement principles of APB Opinion No. 25, *Accounting for Stock Issued to Employees*, and related Interpretations. No stock-based employee compensation cost is reflected in net income, as all options granted under this plan had an exercise price equal to the market value of the underlying common stock on the grant date. The following table illustrates the effect on net income and earnings per share if the Company had applied the fair value provisions of FASB Statement No. 123, *Accounting for Stock-Based Compensation*, to stock-based employee compensation.

Income Taxes

Deferred tax assets and liabilities are recognized for the tax effects of differences between the financial statement and tax bases of assets and liabilities. A valuation allowance is established to reduce deferred tax assets if it is more likely than not that a deferred tax asset will not be realized. The Company files consolidated income tax returns with its subsidiaries.

Earnings Per Share

Earnings per share have been computed based upon the weighted-average common shares outstanding during each year. Diluted earnings per share is computed using the weighted-average common shares and all potentially dilutive common shares outstanding during the period.

Reclassifications

Certain reclassifications have been made to the 2003 financial statements to conform to the 2004 financial statement presentation. These reclassifications had no effect on net income.

The carrying value of securities pledged as collateral, to secure public deposits and for other purposes, was \$62,834,634 at December 31, 2004 and \$29,961,136 at December 31, 2003.

The book value of securities sold under agreements to repurchase amounted to \$1,044,145 and \$1,108,647 at December 31, 2004 and 2003, respectively.

Gross gains of \$111,267 and \$136,672 resulting from sales of available-for-sale securities were realized for 2004 and 2003, respectively. In addition, gross losses of \$119,223 and \$47,936 resulting from sales of available-for-sale securities were realized for 2004 and 2003, respectively.

Certain investments in debt securities are reported in the financial statements at an amount less than their historical cost. Total fair value of these investments at December 31, 2004, is \$78,479,486, which is approximately 79% of the Company's available-for-sale and held-to-maturity investment portfolio. Total fair value of these investments at December 31, 2003, is \$26,635,554, which is approximately 43% of the Company's available-for-sale and held-to-maturity investment portfolio. These declines primarily resulted from recent increases in market interest rates. Based on evaluation of available evidence, including recent changes in market interest rates, credit rating information and information obtained from regulatory filings, management believes the declines in fair value for these securities are temporary.

Should the impairment of any of these securities become other than temporary, the cost basis of the investment will be reduced and the resulting loss recognized in net income in the period the other-than-temporary impairment is identified.

The following table shows the investments' gross unrealized losses and fair value, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position at December 31, 2004 and 2003:

preferred beneficial interests in the assets of the trust and are subject to mandatory redemption upon payment of the junior subordinated debentures held by the trust. The common securities of the trust are wholly-owned by the Company. The trust's ability to pay amounts due on the trust preferred securities is solely dependent upon the Company making payment on the related junior subordinated debentures. The Company's obligations under the junior subordinated securities and other relevant trust agreements, in aggregate, constitute a full and unconditional guarantee by the Company of the trust's obligations under the trust securities issued by the trust.

Note 10: Regulatory Matters

The Company and the subsidiary bank are subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Company's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Company and subsidiary bank must meet specific capital guidelines that involve quantitative measures of assets, liabilities, and certain off-balance-sheet items as calculated under regulatory accounting practices. The capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Company and subsidiary bank to maintain minimum amounts and ratios (set forth in the table below) of total and Tier I capital (as defined in the regulations) to risk-weighted assets (as defined), and of Tier I capital (as defined) to average assets (as defined). Management believes, as of December 31, 2004, that the Company and subsidiary bank meet all capital adequacy requirements to which they are subject.

As of December 31, 2004, the most recent notification from the Federal Deposit Insurance Corporation categorized the Company as well capitalized under the regulatory framework for prompt corrective action. To be categorized as well capitalized, the Company and subsidiary bank must maintain capital ratios as set forth in the table. There are no conditions or events since that notification that management believes have changed the Company's or subsidiary bank's category.

The Company and subsidiary bank's actual capital amounts and ratios are also presented in the table.

Note 11: Related Party Transactions

At December 31, 2004 and 2003, the Company had loans outstanding to executive officers, directors, significant shareholders and their affiliates (related parties), in the amount of \$2,448,310 and \$1,575,426, respectively. In management's opinion, such loans and other extensions of credit and deposits were made in the ordinary course of business and were made on substantially the same terms (including interest rates and collateral) as those prevailing at the time for comparable transactions with other persons.

American State Bank Corporation
Notes to Consolidated Financial Statements
December 31, 2004 and 2003

Further, in management's opinion, these loans did not involve more than normal risk of collectibility or present other unfavorable features.

Deposits from related parties held by the Company at December 31, 2004 and 2003, totaled \$2,022,822 and \$3,144,675, respectively.

Note 12: Employee Benefit Plans

The Company has a 401(k) ESOP covering substantially all employees. The Company's contributions to the plan are determined annually by the Board of Directors. Employer contributions charged to expense for 2004 and 2003 were \$100,000 and \$48,000, respectively.

Note 13: Stock Option Plan

The Company has a fixed stock option plan under which the Company may grant options that vest immediately to selected employees for up to 22.5% of the outstanding shares of common stock. The exercise price of each option is intended to equal the fair value of the Company's stock on the date of grant. An option's maximum term is 20 years. A summary of the status of the plan at December 31, 2004 and 2003, and changes during the years then ended is presented below:

	2004		2003	
	Shares	Weighted-Average Exercise Price	Shares	Weighted-Average Exercise Price
Outstanding, beginning of year	63,317	\$ 37.15	52,634	\$ 36.03

Options exercisable, end of year	74,060	\$ 38.46	63,317	\$ 37.15

The fair value of options granted is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions:

Note 15: Disclosures About Fair Value of Financial Instruments

The following table presents estimated fair values of the Company's financial instruments. The fair values of certain of these instruments were calculated by discounting expected cash flows, which involves significant judgments by management and uncertainties. Fair value is the estimated amount at which financial assets or liabilities could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. Because no market exists for certain of these financial instruments and because management does not intend to sell these financial instruments, the Company does not know whether the fair values shown below represent values at which the respective financial instruments could be sold individually or in the aggregate.

The following methods and assumptions were used to estimate the fair value of each class of financial instruments.

Cash and Cash Equivalents, Interest-bearing Deposits, Federal Home Loan Bank Stock and Interest Receivable

The carrying amount approximates fair value.

Securities

Fair values equal quoted market prices, if available. If quoted market prices are not available, fair values are estimated based on quoted market prices of similar securities.

Loans

The fair value of loans is estimated by discounting the future cash flows using the current rates at which similar loans would be made to borrowers with similar credit ratings and for the same remaining maturities. Loans with similar characteristics were aggregated for purposes of the calculations.

Deposits

Deposits include demand deposits, savings accounts, NOW accounts and certain money market deposits. The carrying amount approximates fair value. The fair value of fixed-maturity time deposits is estimated using a discounted cash flow calculation that applies the rates currently offered for deposits of similar remaining maturities.

Federal Funds Purchased, Securities Sold Under Agreement to Repurchase, Federal Home Loan Bank Advances, Subordinated Debentures and Interest Payable

The carrying amount approximates fair value.

Note 16: Significant Estimates and Concentrations

Accounting principles generally accepted in the United States of America require disclosure of certain significant estimates and current vulnerabilities due to certain concentrations. Estimates related to the allowance for loan losses are reflected in the footnote regarding loans. Current vulnerabilities due to certain concentrations of credit risk are discussed in the footnote on commitments and credit risk.

Note 17: Commitments and Credit Risk

The Company grants agribusiness, commercial, residential and consumer loans to customers in Mississippi, Craighead and Greene counties in Arkansas. Although the Company has a diversified loan portfolio, residential real estate related loans in these counties comprised approximately 37% and 44% of the loan portfolio, as of December 31, 2004 and 2003, respectively. In addition, agriculture related loans in these counties comprised approximately 15% and 11% of the loan portfolio as of December 31, 2004 and 2003, respectively.

Commitments to Originate Loans

Commitments to originate loans are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since a portion of the commitments may expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. Each customer's creditworthiness is evaluated on a case-by-case basis. The amount of collateral obtained, if deemed necessary, is based on management's credit evaluation of the counterparty. Collateral held varies, but may include accounts receivable, inventory, property, plant and equipment, commercial real estate and residential real estate.

At December 31, 2004 and 2003, the Company had outstanding commitments to originate loans aggregating approximately \$8,687,588 and \$13,037,482, respectively. At December 31, 2004 and 2003, the Company had outstanding mortgage loan commitments of \$684,597 and \$642,750, respectively. The commitments extended over varying periods of time with the majority being disbursed within a one-year period. All loan commitments were at fixed rates of interest.

Letters of Credit

Letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. These guarantees are primarily issued to support public and private borrowing arrangements, including commercial paper, bond financing and similar transactions. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loans to customers.

The Company had total outstanding letters of credit amounting to \$307,520 and \$297,520, at December 31, 2004 and 2003, respectively, with terms of one year.

Lines of Credit

Lines of credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Lines of credit generally have fixed expiration dates. Since a portion of the line may expire without being drawn upon, the total unused lines do not necessarily represent future cash requirements. Each customer's creditworthiness is evaluated on a case-by-case basis. The amount of collateral obtained, if deemed necessary, is based on management's credit evaluation of the counterparty. Collateral held varies but may include accounts receivable, inventory, property, plant and equipment, commercial real estate and residential real estate. Management uses the same credit policies in granting lines of credit as it does for on-balance-sheet instruments.

At December 31, 2004, the Company had granted unused lines of credit to borrowers aggregating approximately \$18,307,542 for commercial and open-end consumer lines. At December 31, 2003, unused lines of credit to borrowers aggregated approximately \$13,037,482 for commercial and open-end consumer lines.

PART II
INFORMATION NOT REQUIRED IN PROSPECTUS

Item 20. Indemnification of Directors and Officers.

A. Restated Articles of Incorporation and Amended and Restated Bylaws.

BancorpSouth's restated articles of incorporation provide that it will indemnify, and upon request advance expenses to, any person (or his estate) who was or is a party to, or is threatened to be made a party to, any legal proceeding because he is or was a director, officer, employee or agent of BancorpSouth, or is or was serving at the request of BancorpSouth as a director, officer, partner, trustee, employee or agent of another corporation, partnership or other entity, against any liability incurred in that proceeding (a) to the full extent permitted by Section 79-4-8.51 of the Mississippi Business Corporation Act, and (b) despite the fact that such person did not meet the standard of conduct set forth in Section 79-4-8.51(a) of the Mississippi Business Corporation Act or would be disqualified for indemnification under Section 79-4-8.51(d) of the Mississippi Business Corporation Act, if a determination is made by a person or persons enumerated in Section 79-4-8.55(b) of the Mississippi Business Corporation Act that (i) the person seeking indemnity is fairly and reasonably entitled to indemnification in view of all of the relevant circumstances, and (ii) his acts or omissions did not constitute gross negligence or willful misconduct. A request for reimbursement or advancement of expenses prior to final disposition of the proceeding must be accompanied by an undertaking to repay the advances if it is ultimately determined that he is not entitled to indemnification and he did not meet the requisite standard of conduct, but it need not be accompanied by an affirmation that the person seeking indemnity believed he has met the standard of conduct. BancorpSouth may, to the full extent permitted by law, purchase and maintain insurance on behalf of any such person against any liability which may be asserted against him or her.

BancorpSouth's amended and restated bylaws provide that it will indemnify any person who was or is a party or is threatened to be made a party to any legal proceeding (other than a derivative action for which indemnification is described below) because he is or was a director, officer, employee or agent of BancorpSouth, or is or was serving at the request of BancorpSouth as a director, officer, partner, trustee, employee or agent of another corporation, partnership or other entity, against any expenses or awards actually and reasonably incurred by such person in connection therewith to the fullest extent provided in BancorpSouth's restated articles of incorporation and by law. BancorpSouth also will indemnify any person who was or is or is threatened to be made a party to any derivative suit with respect to BancorpSouth because that person is or was a director, officer, employee or agent of BancorpSouth, or is or was serving at the request of BancorpSouth as a director, officer, partner, trustee, employee or agent of another corporation, partnership or other entity, against expenses actually and reasonably incurred by such person in connection with the defense or settlement of such action unless he is found to have breached his duty to BancorpSouth to discharge his duties in good faith and with the care which an ordinarily prudent person in a like position would exercise under similar circumstances, and in a manner he reasonably believes to be in the best interests of BancorpSouth, unless, despite such finding of liability, the court determines that he is entitled to indemnity. BancorpSouth's amended and restated bylaws also provide that BancorpSouth may (i) advance to the person seeking indemnity the expenses incurred in defending a proceeding upon receipt of an undertaking that he will repay amounts advanced unless it ultimately is determined that he is entitled to be indemnified, and (ii) purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of BancorpSouth, or is or was serving at the request of BancorpSouth as a director, officer, partner, trustee, employee or agent of another corporation, partnership or other entity, against any liability arising out of his acting as such, whether or not BancorpSouth would have the power to indemnify him against such liability under BancorpSouth's amended and restated bylaws.

B. Mississippi Business Corporation Act.

In addition to the foregoing provisions of BancorpSouth's restated articles of incorporation and amended and restated bylaws, officers and directors of BancorpSouth and its subsidiaries may be indemnified by BancorpSouth pursuant to Sections 79-4-8.50 through 79-4-8.59 of the Mississippi Business Corporation Act.

Table of Contents

C. Insurance.

BancorpSouth maintains and pays premiums on an insurance policy on behalf of its officers and directors against liability asserted against or incurred by such persons in or arising from their capacity as such.

D. SEC Policy on Indemnification.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling BancorpSouth pursuant to the foregoing provisions, BancorpSouth has been informed that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

Item 22. Undertakings.

The undersigned Registrant hereby undertakes to file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement: (i) to include any prospectus required by section 10(a)(3) of

the Securities Act of 1933; (ii) to reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20 percent change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement; (iii) to include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.

The undersigned Registrant hereby undertakes that, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

The undersigned Registrant hereby undertakes to remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

The undersigned Registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the Registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the Registration Statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

The undersigned Registrant hereby undertakes as follows: that prior to any public reoffering of the securities registered hereunder through use of a prospectus which is a part of this Registration Statement, by any person or party who is deemed to be an underwriter within the meaning of Rule 145(c), the issuer undertakes that such reoffering prospectus will contain the information called for by the applicable registration form with respect to reofferings by persons who may be deemed underwriters, in addition to the information called for by the other items of the applicable form.

Table of Contents

The Registrant undertakes that every prospectus: (i) that is filed pursuant to the paragraph immediately preceding, or (ii) that purports to meet the requirements of Section 10(a)(3) of the Securities Act of 1933 and is used in connection with an offering of securities subject to Rule 415, will be filed as part of an amendment to the Registration Statement and will not be used until such amendment is effective, and that, for purposes of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

The undersigned Registrant hereby undertakes to respond to requests for information that is incorporated by reference into the Prospectus pursuant to Items 4, 10(b), 11, or 13 of this Form, within one business day of receipt of such request, and to send the incorporated documents by first class mail or other equally prompt means. This includes information contained in documents filed subsequent to the effective date of the Registration Statement through the date of responding to the request.

The undersigned Registrant hereby undertakes to supply by means of a post-effective amendment all information concerning a transaction, and the company being acquired involved therein, that was not the subject of and included in the Registration Statement when it became effective.
