Form 10-Q Part I

Cincinnati Bell Inc.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Description of Business and Accounting Policies

Description of Business Cincinnati Bell Inc. (the Company), provides diversified telecommunications services through businesses in five segments: Local, Wireless, Hardware and Managed Services, Other and Broadband.

On February 22, 2003, the Company entered into a definitive agreement to sell substantially all of its broadband assets. In accordance with Statement of Financial Accounting Standards No. 144 (SFAS 144), the Company ceased depreciating the assets to be sold upon entering into the definitive agreement. On June 13, 2003, the first (and most significant) stage closing was consummated. At the first stage closing, the Company had received regulatory approval in states where approximately 75% of 2002 broadband revenue was generated and effectively transferred control of the broadband business to the buyer. During the third quarter ended September 30, 2003, the second and third (final) stage closings were consummated as all remaining regulatory approvals had been received.

Basis of Presentation The Condensed Consolidated Financial Statements of the Company have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC) and, in the opinion of management, include all adjustments necessary for a fair presentation of the results of operations, financial position and cash flows for each period presented.

The adjustments referred to above are of a normal and recurring nature except for those outlined in Notes 2 and 5. Certain prior year amounts have been reclassified to conform to the current classifications with no effect on results of operations. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to SEC rules and regulations.

The Condensed Consolidated Balance Sheet as of December 31, 2003 was derived from audited financial statements, but does not include all disclosures required by generally accepted accounting principles. It is suggested that these Condensed Consolidated Financial Statements be read in conjunction with the notes thereto included in the Company's 2003 Annual Report on Form 10-K.

The Company realigned its business segments during the first quarter of 2004. Cincinnati Bell Technology Solutions Inc. (CBTS), a data equipment and managed services subsidiary, was previously reported in the Broadband segment and is now reported in the Hardware and Managed Services segment. Additionally, the telephony equipment and associated installation and maintenance business of Cincinnati Bell Telephone (CBT), previously reported in the Local segment, is now included in the Hardware and Managed Services segment. Accordingly, the historical results of operations of the Local segment, Hardware and Managed Services segment and Broadband segment have been recast to reflect the current segment reporting (refer to Note 7).

Basis of Consolidation The Condensed Consolidated Financial Statements include the consolidated accounts of Cincinnati Bell Inc. and its majority-owned subsidiaries over which it exercises control. Significant intercompany accounts and transactions have been eliminated in the consolidated financial statements.

Use of Estimates Preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported. Actual results could differ from those estimates.

Asset Retirement Obligations The Company adopted Statement of Financial Accounting Standards No. 143, Accounting for Asset Retirement Obligations (SFAS 143) as of January 1, 2003. This statement requires entities to record the fair value of a legal liability for an asset retirement obligation in the period it is incurred. The removal cost is initially capitalized and depreciated over the remaining life of the underlying

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

asset. The associated liability is accreted over the life of the underlying asset. Once the obligation is ultimately settled, any difference between the final cost and the recorded liability is recognized as income or loss on disposition. The Company determined the Local segment did not have a liability under SFAS 143, while the Wireless segment and Other segment did have a liability. The Company recorded a non-recurring increase to net income as a cumulative effect of change in accounting principle as of January 1, 2003 of \$85.9 million, net of tax. The Local segment recorded \$86.3 million of income related to depreciation previously recorded for asset removal costs, offset by \$0.4 million of expense recorded in the Wireless segment. Additionally, the Company recorded a liability for removal costs at fair value of approximately \$2.6 million and an asset of approximately \$2.3 million in the first quarter of 2003 related to the Wireless and Other segments.

Stock-Based Compensation The Company accounts for stock-based compensation plans under the recognition and measurement principles of Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees (APB 25), and related interpretations. Compensation cost is measured under the intrinsic value method. Stock-based employee compensation cost is not reflected in net income, as all options granted under these plans had an exercise price equal to the market value of the underlying common stock on the date of grant. If the Company had applied the fair value recognition provisions of Statement of Financial Accounting Standards No. 123, Accounting for Stock-Based Compensation (SFAS 123), the difference between actual and pro forma expense, net of tax, that would have been recognized totaled \$2.1 million and \$8.8 million in the first three months of 2004 and 2003, respectively. The following table illustrates the effect on net income and basic and diluted earnings per share if the Company had applied the fair value recognition provisions of SFAS 123, to stock-based employee compensation in all periods presented.

(dollars in millions except per share amounts)	Three Months Ended March 31,	
	2004	2003
Net income		
As reported	\$ 10.9	\$ 123.8
Pro forma determined under fair value, net of related taxes	\$ 8.8	\$ 115.0
Basic earnings per common share:		
As reported	\$ 0.03	\$ 0.55
Pro forma determined under fair value, net of related taxes	\$ 0.03	\$ 0.51
Diluted earnings per share:		
As reported	\$ 0.03	\$ 0.55
Pro forma determined under fair value, net of related taxes	\$ 0.02	\$ 0.51

The Company granted 318,800 and 94,650 options to purchase Cincinnati Bell stock during the three months ended March 31, 2004 and 2003, respectively. The weighted average fair values at the date of grant for the Company options granted to employees were \$1.48 and \$1.02 for the three months ended March 31, 2004 and 2003, respectively.

The Company granted 140,000 shares of restricted stock during the first three months of 2004, which vest completely over two years. The fair value at the date of grant was \$5.43 per share. The Company granted no restricted stock in the first three months of 2003. The Company recognized \$0.1 million in expense in the first three months of 2004 and 2003 related to restricted stock compensation.

Income Taxes The income tax provision consists of an amount for taxes currently payable and an amount for tax consequences deferred to future periods. The ultimate realization of the deferred income tax assets depends upon the Company's ability to generate future taxable income during the periods in which basis differences and other deductions become deductible and prior to the expiration of its net operating loss carryforwards.

In the fourth quarter of 2003, the Company reversed \$823.0 million of deferred tax asset valuation allowance previously established primarily due to the uncertainties surrounding BRCOM's liquidity that were substantially mitigated.

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

As of March 31, 2004, the Company had net deferred tax assets of \$728.6 million, which included a valuation allowance of \$262.4 million related to certain state and local net operating loss carryforwards. The Company concluded, due to the sale of the broadband business and the historical and future projected earnings of the remaining businesses, that it will utilize future deductions and available net operating loss carryforwards prior to their expiration. The Company also concluded that it was more likely than not that certain state tax net operating loss carryforwards would not be realized based upon the analysis described above and therefore provided a valuation allowance. The effective income tax rate for 2004 is estimated to be 50%, which differs from the federal statutory rate due to state income taxes and certain non-deductible interest expense.

Recently Issued Accounting Standards In January 2004, the Financial Accounting Standards Board (FASB) issued FASB Staff Position (FSP) No. 106-1, Accounting and Disclosure Requirements Related to the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (FSP 106-1). FSP 106-1 permits employers that sponsor postretirement benefit plans that provide prescription drug benefits to retirees to make a one-time election to defer accounting for any effects of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (the Act). The Company has elected to defer the accounting effects of the Act until the FASB issues guidance on how to account for the federal subsidy. The Company expects the Act will reduce its annual non-cash postretirement health expense by approximately \$1 million and reduce its postretirement health liability by up to \$12 million, assuming no plan design changes.

Refer to the Company's 2003 Annual Report on Form 10-K for a more detailed presentation of the Company's accounting policies.

2. Restructuring Charges**December 2003 Restructuring Charge**

In December 2003, the Company initiated a restructuring intended to reduce future operating expenses by approximately \$9.1 million annually compared to 2003. The restructuring charge of \$4.6 million related to employee separation benefits, all of which will be paid in cash. The plan included initiatives to reduce the workforce by 106 positions. The Local segment and the Hardware and Managed Services segment recorded expense of \$4.5 million and \$0.1 million, respectively. During the first quarter of 2004, the Local segment recorded an additional restructuring charge of \$0.2 million. Total cash expenditures during the first three months of 2004 amounted to \$1.9 million. The Company expects the restructuring to be complete during the second quarter of 2004.

The following table illustrates the activity in this reserve since inception:

Type of costs (dollars in millions)	Initial Charge	Utilizations	Balance	Utilizations	Adjustments	Balance
			December 31, 2003			March 31, 2004
Employee separations	\$ 4.6	\$(2.7)	\$ 1.9	\$(1.9)	\$ 0.2	\$ 0.2

Total	\$ 4.6	\$(2.7)	\$ 1.9	\$(1.9)	\$ 0.2	\$ 0.2
	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>

November 2001 Restructuring Plan

In November 2001, the Company adopted a restructuring plan which included initiatives to consolidate data centers, reduce the Company's expense structure, exit the network construction business, eliminate other nonstrategic operations and merge the digital subscriber line (DSL) and certain dial-up Internet operations into the Company's other operations. Total restructuring and impairment costs of \$232.3 million were recorded in 2001 related to these initiatives. The \$232.3 million consisted of restructuring liabilities in the

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

amount of \$84.2 million and related non-cash asset impairments in the amount of \$148.1 million. The restructuring charge comprised \$21.4 million related to involuntary employee separation benefits, \$62.5 million related to lease and other contractual terminations and \$0.3 million relating to other exit costs. During the first quarter of 2002, the Company recorded additional restructuring charges of \$16.5 million resulting from employee separation benefits of \$1.0 million and costs to terminate contractual obligations of \$15.5 million, which were actions contemplated in the original plan for which an amount could not be reasonably estimated at that time. During the fourth quarter of 2002, a \$1.0 million reversal was made to the restructuring reserve due to a change in estimate related to the termination of contractual obligations. During the third quarter of 2003, a \$1.2 million reversal was made to the restructuring reserve to reduce contractual obligations as a result of the sale of the broadband business and was recorded as a component of the gain on sale of broadband assets. During the fourth quarter of 2003, a \$4.1 million reversal was made to the restructuring reserve due to the settlement of certain obligations and a change in estimate related to the termination of contractual obligations. In total, the Company expects this restructuring plan to result in cash outlays of \$89.4 million and non-cash items of \$153.1 million. The Company completed the plan as of December 31, 2002, except for certain lease obligations, which are expected to continue through December 31, 2015.

The restructuring costs include the cost of involuntary employee separation benefits, including severance, medical and other benefits, related to 863 employees across all areas of the Company. As of December 31, 2002, all employee separations had been completed which utilized reserves of \$22.4 million, \$17.6 million of which was paid in cash. Cash expenditures for termination of contractual obligations in the first three months of 2004 amounted to \$1.7 million.

In connection with the restructuring plan, the Company performed a review of its long-lived assets to identify any potential impairments in accordance with Statement of Financial Accounting Standard No. 121, Accounting for Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of (SFAS 121). As a result, the Company recorded a \$148.1 million asset impairment charge related to the closing of data centers, consolidation of office space and curtailment of other Company operations.

The following table illustrates the activity in this reserve from November of 2001 through December 31, 2002:

Type of costs (\$ in millions):	Initial Charge	Utilizations	Balance December 31,	Utilizations	Adjustments	Balance December 31,
			2001			2002
Employee separations	\$ 21.4	\$ (7.8)	\$ 13.6	\$(14.6)	\$ 1.0	\$

Less unamortized discount	(40.1)	(42.1)
Total long-term debt, less current portion and net of unamortized discount	\$2,184.5	\$2,274.5

Credit Facilities

The credit facilities as of March 31, 2004 consist of \$396.8 million in revolving credit maturing on March 1, 2006, and having four equal quarterly scheduled commitment reductions during 2005 in an aggregate amount equal to \$123.3 million, and \$522.4 million in term loans, maturing on June 30, 2008. As of March 31, 2004, the Company had drawn approximately \$556.4 million from its credit facilities, and had outstanding letters of credit totaling \$11.4 million, leaving \$351.4 million in additional borrowing availability under its revolving credit facility. During the first three months of 2004, the Company reduced the credit facilities balance by \$52.1 million with cash flows from

operations.

Borrowings under the credit facilities are required to be prepaid in an amount equal to 75% of excess cash flow (as defined in the credit facility agreement) for each fiscal year commencing with the fiscal year ended December 31, 2003. Excess cash flow is calculated on an annual basis, and 75% of the excess cash flow is payable to the credit facility lenders on the 90th day following the end of each fiscal year. As of March 31, 2004, the Company estimated the excess cash flow amount to be prepaid in the first quarter of 2005 to be \$43.3 million and included this amount in the current portion of long-term debt.

16% Senior Subordinated Discount Notes

On May 5, 2004, the 16% Senior Subordinated Discount Notes Purchase Agreement was amended to extend the due date of certain required annual financial statements.

Refer to the Company's 2003 Annual Report on Form 10-K for a more detailed description of the debt instruments listed above.

Debt Maturity Schedule

The following table summarizes the Company's maturities of debt and minimum payments under capital leases for the five years subsequent to March 31, 2004, and thereafter:

(dollars in millions)	Long-Term Debt	Capital Leases	Total Debt
For the twelve months ended March 31,			
2005	\$ 50.2	\$ 5.5	\$ 55.7
2006	25.3	3.1	28.4
2007	39.3	1.4	40.7
2008	336.9	0.6	337.5
2009	126.3	0.7	127.0
Thereafter	1,684.2	6.8	1,691.0
Total debt	2,262.2	18.1	2,280.3
Less unamortized discount	(40.1)		(40.1)
Total debt, net of discount	\$2,222.1	\$18.1	\$2,240.2

4. Earnings Per Common Share from Continuing Operations

Basic earnings per common share from continuing operations (EPS) is based upon the weighted average number of common shares outstanding during the period. Diluted EPS reflects the potential dilution that would occur if common stock equivalents were exercised or converted to common stock, but only to the extent that they are considered dilutive to the Company's earnings. The following table is a reconciliation of the numerators and denominators of the basic and diluted EPS computations for earnings from continuing operations for the following periods:

	Three-months Ended March 31,	
(dollars and shares in millions, except per common share amounts)	2004	2003
Numerator:		
	\$ 10.9	\$ 37.9

Income from continuing operations before cumulative effect of change in accounting principle		
Preferred stock dividends	2.6	2.6
	<u> </u>	<u> </u>
Numerator for EPS and EPS assuming dilution - income applicable to common shareowners	\$ 8.3	\$ 35.3
	<u> </u>	<u> </u>
Denominator:		
Denominator for basic EPS weighted average common shares outstanding	245.0	218.9
Potential dilution:		
Stock options and warrants	8.4	0.8
Stock-based compensation arrangements	0.2	0.2
	<u> </u>	<u> </u>
Denominator for diluted EPS per common share	253.6	219.9
	<u> </u>	<u> </u>
Basic EPS from continuing operations	\$ 0.03	\$ 0.16
	<u> </u>	<u> </u>
Diluted EPS from continuing operations	\$ 0.03	\$ 0.16
	<u> </u>	<u> </u>

The total number of potential additional shares outstanding related to stock options, restricted stock and the assumed conversion of the Company's 6 3/4% cumulative convertible preferred stock was approximately 50

million and 52 million at March 31, 2004 and December 31, 2003, respectively, if all stock options and warrants outstanding were exercised and all convertible securities were to convert.

5. Commitments and Contingencies

Commitments

In 1998, the Company entered into a ten-year contract with Convergys Corporation (Convergys), a provider of billing, customer service and other services, which remains in effect until June 30, 2008. The contract states that Convergys will be the primary provider of certain data processing, professional and consulting, technical support and customer support services for the Company. In return, the Company will be the exclusive provider of local telecommunications services to Convergys. In 2003, the Company signed a letter of intent to revise the contract, which would extend the contract through December 31, 2010 and reduce the Company's annual commitment in 2004 and 2005 to \$35.0 million from \$45.0 million. Beginning in 2006, the minimum commitment would be reduced 5% annually. The Company expects to finalize this agreement in the second quarter of 2004. If the Company does not execute the final agreement, the Company could be obligated to make a payment to Convergys of 40% of the difference between the commitment and actual amount of services purchased, or approximately \$1.6 million in 2004 based on a projected shortfall of \$4.0 million.

AT&T Wireless Services Inc. (AWE) maintains a 19.9% ownership in the Company's Cincinnati Bell Wireless subsidiary, CBW, LLC. The Cincinnati Bell Wireless (CBW) operating agreement provides that a five member committee govern CBW, with AWE having the right to appoint two representatives and the Company having the right to appoint three representatives. On or after December 31, 2006, or if at any time the member committee shall call for additional capital contributions (unless such capital calls have been approved by the representatives of AWE), and upon written demand from AWE, the Company is required to purchase at fair market value all of the interest of AWE in CBW for cash. Such sale shall be consummated not less than 30 and no more than 60 days following the determination of the fair market value of the AWE interest. The operating agreement includes other provisions including non-competition clauses between CBW, LLC and AWE.

On February 17, 2004, Cingular announced its intent to acquire AWE. Cingular presently competes with CBW, LLC. The Company is currently in discussions with AWE and Cingular regarding Cingular's proposed acquisition of AWE. Should AWE or Cingular decide to sell the 19.9% ownership interest to a third party, the Company has a right of first refusal to purchase the interest.

Contingencies

In the normal course of business, the Company is subject to various regulatory proceedings, lawsuits, claims and other matters. Such matters are subject to many uncertainties and outcomes that are not predictable with assurance.

In re Broadwing Inc. Securities Class Action Lawsuits, (Gallow v. Broadwing Inc., et al), U.S. District Court, Southern District of Ohio, Western Division, Case No. C-1-02-795.

Between October and December 2002, five virtually identical class action lawsuits were filed against Broadwing Inc. and two of its former Chief Executive Officers in U.S. District Court for the Southern District of Ohio.

These complaints were filed on behalf of purchasers of the Company's securities between January 17, 2001 and May 20, 2002, inclusive, and alleged violations of Section 10(b) and 20(a) of the Securities and Exchange Act of 1934 by, inter alia, (1) improperly recognizing revenue associated with Indefeasible Right of Use

Form 10-Q Part I

Cincinnati Bell Inc.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(IRU) agreements; and (2) failing to write-down goodwill associated with the Company's 1999 acquisition of IXC Communications, Inc. The plaintiffs seek unspecified compensatory damages, attorney's fees, and expert expenses.

On December 30, 2002, the Local 144 Group filed a motion seeking consolidation of the complaints and appointment as lead plaintiff. By order dated October 29, 2003, Local 144 Nursing Home Pension Fund, Paul J. Brunner and Joseph Lask were named lead plaintiffs in a putative consolidated class action.

On December 1, 2003, lead plaintiffs filed their amended consolidated complaint on behalf of purchasers of the Company's securities between January 17, 2001 and May 21, 2002, inclusive. This amended complaint contained a number of new allegations. Cincinnati Bell Inc. was added as a defendant in the amended filing. The Company's motion to dismiss was filed on February 6, 2004. Plaintiffs filed their opposition to dismiss on April 15, 2004, and the Company is required to file its reply by June 1, 2004. The Company is vigorously defending these matters. The timing and outcome of these matters are not currently predictable. An unfavorable outcome could have a material effect on the financial condition, results of operations and cash flows of the Company.

In re Broadwing Inc. Derivative Complaint, (Garlich v. Broadwing Inc., et al.), Hamilton County Court of Common Pleas, Case No. A0302720.

This derivative complaint was filed against Broadwing Inc. and ten of its current and former directors on April 9, 2003 alleging breaches of fiduciary duty arising out of the same allegations discussed in *In re Broadwing Inc. Securities Class Action Lawsuits* above. Pursuant to a stipulation between the parties, defendants are not required, absent further order by the Court, to answer, move, or otherwise respond to this complaint until 30 days after the federal court renders a ruling on defendants' motion to dismiss in *In re Broadwing Inc. Securities Class Action Lawsuits*. The Company is vigorously defending these matters. The timing and outcome of these matters are not currently predictable. An unfavorable outcome could have a material effect on the financial condition, results of operations and cash flows of the Company.

In re Broadwing Inc. ERISA Class Action Lawsuits, (Kurtz v. Broadwing Inc., et al), U.S District Court, Southern District of Ohio, Western Division, Case No. C-1-02-857.

Between November 18, 2002 and January 10, 2003, four putative class action lawsuits were filed against Broadwing Inc. and certain of its current and former officers and directors in the United States District Court for the Southern District of Ohio. Fidelity Management Investment Trust Company was also named as a defendant in these actions.

These cases, which purport to be brought on behalf of the Cincinnati Bell Inc. Savings and Security Plan, the Broadwing Retirement Savings Plan, and a class of participants in the Plans, generally allege that the defendants breached their fiduciary duties under the Employee Retirement Income Security Act of 1974 (ERISA) by improperly encouraging the Plan participant-plaintiffs to elect to invest in the Company stock fund within the relevant Plan and by improperly continuing to make employer contributions to the Company stock fund within the relevant Plan.

On October 22, 2003, a putative consolidated class action complaint was filed in the U.S. District Court for the Southern District of Ohio. The Company filed its motion to dismiss on February 6, 2004. Plaintiffs filed their opposition on April 2, 2004, and the Company is required to file its reply by May 17, 2004. The Company is vigorously defending these matters. The timing and outcome of these matters are not currently predictable. An unfavorable outcome could have a material effect on the financial condition, results of operations and cash flows of

the Company.

Off-Balance Sheet Arrangements

The Company does not participate in transactions that generate relationships with unconsolidated entities or financial partnerships, such as special purpose entities (SPEs) or variable interest entities (VIEs), which would have been established for the purpose of facilitating off-balance sheet arrangements or other limited purposes. As of March 31, 2004 the Company was not involved in any unconsolidated SPEs or VIEs.

6. Pension and Postretirement Plans

The Company sponsors three noncontributory defined benefit pension plans: (1) a cash balance plan for eligible management employees, (2) a cash balance plan for non-management employees and (3) a supplemental, nonqualified, unfunded plan for certain senior executives.

The management pension plan is a cash balance plan in which the pension benefit is determined by a combination of compensation-based credits and annual fixed interest credits. The non-management pension plan is also a cash balance plan in which the pension benefit is determined by a combination of service and job-classification-based credits and annual interest credits. Benefits for the supplemental plan are based on eligible pay, adjusted for age and service upon retirement. Funding of the management and non-management plans is achieved through contributions to an irrevocable trust fund. The contributions are determined using the aggregate cost method. The Company uses the traditional unit credit cost method for determining pension cost for financial reporting purposes and uses a December 31 measurement date for all of its plans.

The Company also provides health care and group life insurance benefits for eligible retirees. The Company funds certain group life insurance benefits through Retirement Funding Accounts and funds health care benefits using Voluntary Employee Benefit Association (VEBA) trusts. It is the Company's practice to fund amounts as deemed appropriate from time to time. Contributions are subject to IRS limitations developed using the aggregate cost method.

The actuarial expense calculation for the postretirement health plan is based on numerous assumptions, estimates and judgments including health care cost trend rates and cap-related cost sharing. Certain of the Company's non-management labor contracts contain an annual dollar value cap for the purpose of determining postretirement health care contributions required from retirees. The Company has waived cost sharing in excess of the cap during the current contract period, but began collecting certain cost sharing payments from certain non-management employees in 2004. The caps for certain contracts are set during each bargaining cycle in connection with the negotiation of the overall contract. In accordance with the provisions of Statement of Financial Accounting Standards No. 106, Employers' Accounting for Postretirement Benefits Other Than Pensions (SFAS 106), the Company accounts for non-management retiree health benefits in accordance with the terms of the current contract.

7. Business Segment Information

The Company is organized on the basis of products and services. The Company's segments are strategic business units that offer distinct products and services and are aligned with specific subsidiaries of the Company. The Company operates in the five business segments, Local, Wireless, Hardware and Managed Services, Other and Broadband, as described below.

The Company realigned its business segments during the first quarter of 2004. CBTS, a data equipment and managed services subsidiary, was previously reported in the Broadband segment and is now reported in the Hardware and Managed Services segment. Additionally, the telephony equipment and associated installation and maintenance business of CBT, previously reported in the Local segment, is now included in the Hardware and Managed Services segment. Accordingly, the historical results of operations of the Local segment, Hardware and Managed Services segment and Broadband segment have been recast to reflect the current segment reporting.

The Local segment provides local voice telephone service and data services, which include network access, data transport (including DSL), high-speed and dial-up Internet access, to customers in southwestern Ohio, northern Kentucky and southeastern Indiana. This market consists of approximately 2,400 square miles located within an approximate 25-mile radius of Cincinnati, Ohio. These services are provided through the Company's CBT subsidiary.

The Wireless segment includes the operations of the CBW subsidiary, a venture in which the Company owns 80.1% and AWE owns the remaining 19.9%. This segment provides advanced digital personal communications and sales of

related communications equipment to customers in the Greater Cincinnati and Dayton, Ohio operating areas.

The Hardware and Managed Services segment comprises the operations of CBTS, a data equipment and managed services subsidiary which provides data collocation and managed services, telecommunications equipment, installation and maintenance to customers in southwestern Ohio, northern Kentucky and southeastern Indiana. In March 2004, CBTS sold certain of its assets generally consisting of operating assets outside of the Greater Cincinnati, Ohio operating area for approximately \$3.2 million in cash. The buyer also assumed approximately \$2.1 million in liabilities.

The Other segment combines the operations of Cincinnati Bell Any Distance (CBAD), Cincinnati Bell Complete Protection (CBCP) and Cincinnati Bell Public Communications Inc. (Public). CBAD resells

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

voice long distance service, CBCP provides security hardware and monitoring for consumers and businesses, and Public provides public payphone services.

The Broadband segment previously provided data and voice communication services nationwide over approximately 18,700 route miles of fiber-optic transmission facilities. Broadband segment revenue was generated by broadband transport through private line and IRU agreements, Internet services utilizing technology based on Internet protocol (IP), and switched voice services provided to both wholesale and retail customers. During the second and third quarters of 2003, the Company sold substantially all of its broadband assets, which were reported in the Broadband segment.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**8. Supplemental Guarantor Information****CBT Notes**

CBT, a wholly owned subsidiary of the Parent Company, has registered debt outstanding that is guaranteed by the Parent Company but not by other subsidiaries of the Parent Company. The guarantee is full and unconditional and is joint and several. Substantially all of the Parent Company's income and cash flow is generated by its subsidiaries. Generally, funds necessary to meet the Parent Company's debt service obligations are provided by distributions or advances from its subsidiaries.

The following information sets forth the consolidating balance sheets of the Company as of March 31, 2004 and December 31, 2003, and the consolidating statements of operations and cash flows for the quarters ended March 31, 2004 and 2003 of (1) Cincinnati Bell Inc., the Parent Company and guarantor (2) CBT, the issuer and (3) the non-guarantor subsidiaries on a combined basis:

7¼% Senior Notes Due 2013 and 8 3/8% Senior Subordinated Notes

The Parent Company issued debt that is guaranteed by the following subsidiaries of the Parent Company: Cincinnati Bell Public Communications Inc., ZoomTown.com Inc., Cincinnati Bell Complete Protection Inc., BRFS LLC, BRHI Inc., Cincinnati Bell Any Distance Inc., Cincinnati Bell Telecommunications Services Inc., Cincinnati Bell Wireless Company and Cincinnati Bell Wireless Holdings Inc. The debt is not guaranteed by other subsidiaries of the Parent Company. Each subsidiary guarantor is 100% owned by the Parent Company. The guarantees are full and unconditional and are joint and several. Substantially all of the Parent Company's income and cash flow is generated by its subsidiaries. Generally, funds necessary to meet the Parent Company's debt service obligations are provided by distributions or advances from its subsidiaries.

The following information sets forth the consolidating balance sheets of the Company as of March 31, 2004 and December 31, 2003, and the consolidating statements of operations and cash flows for the quarters ended

Form 10-Q Part II

Cincinnati Bell Inc.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Information included in this Quarterly Report on Form 10-Q contains certain forward-looking statements that involve potential risks and uncertainties. The Company's future results could differ materially from those discussed herein. Factors that could cause or contribute to such differences include, but are not limited to, those discussed herein, and those discussed in the Form 10-K for the year ended December 31, 2003. Readers are cautioned not to place undue reliance on these forward-looking statements that speak only as of the date thereof.

The Company was initially incorporated under the laws of Ohio in 1983 and remains incorporated under the laws of Ohio. It has its principal executive offices at 201 East Fourth Street, Cincinnati, Ohio 45202 (telephone number (513) 397-9900 and website address <http://www.cincinnati-bell.com>). The Company makes available on its website at the investor relations tab its reports on Form 10-K, 10-Q, and 8-K (as well as all amendments to these reports) as soon as practicable after they have been electronically filed.

The Company files annual, quarterly and special reports, proxy statements and other information with the Securities and Exchange Commission (the SEC) under the Exchange Act. These reports and other information filed by the Company may be read and copied at the Public Reference Room of the SEC, 450 Fifth Street, N.W., Room 1024, Washington, D.C. 20549. Information may be obtained about the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC also maintains an Internet site that contains reports, proxy statements and other information about issuers, like the Company, which file electronically with the SEC. The address of this site is <http://www.sec.gov>.

Critical Accounting Policies and Estimates

The preparation of consolidated financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses. The Company continually evaluates its estimates, including but not limited to, those related to revenue recognition, cost of providing service, bad debts, income taxes, fixed assets, goodwill, intangible assets, depreciation, restructuring, pensions, other postretirement benefits and contingencies. The Company bases its estimates on historical experience and on various other assumptions believed to be reasonable under the facts and circumstances. Actual results may differ from these estimates under different assumptions or conditions.

The Company believes its critical accounting policies impact the more significant judgments and estimates used in the preparation of its consolidated financial statements. Additionally, the Company's senior management has discussed the critical accounting policies and estimates with the Audit and Finance Committee. For a more detailed discussion of the application of these and other accounting policies, refer to Note 1 of the Notes to Consolidated Financial Statements in the 2003 Annual Report on Form 10-K.

Revenue Recognition The Company recognizes revenue as services are provided. Local access fees are billed monthly, in advance, while revenue is recognized as the services are provided. Postpaid wireless, switched voice and data and Internet product services are billed monthly in arrears, while the revenue is recognized as the services are provided. Equipment revenue is generally recognized upon performance of contractual obligations, such as shipment, delivery, installation or customer acceptance.

Prior to the sale of the broadband assets in the second and third quarter of 2003, broadband transport services were billed monthly, in advance, while revenue was recognized as the services were provided. In addition, the Company had entered into indefeasible right-of-use (IRU) agreements, which represent the lease of network capacity or dark

fiber, recording unearned revenue at the earlier of the acceptance of the applicable portion of the network by the customer or the receipt of cash. The buyer of IRU services typically paid cash or other consideration upon execution of the contract, and the associated IRU revenue was recognized over the life of the agreement as services were provided, beginning on the date of customer acceptance. In the event the

Table of Contents

Form 10-Q Part II

Cincinnati Bell Inc.

buyer of an IRU terminated a contract prior to the contract expiration and released the Company from the obligation to provide future services, the remaining unamortized unearned revenue was recognized in the period in which the contract was terminated. Concurrent with the broadband asset sale, substantially all of the remaining IRU obligations were assumed by the buyer.

Cost of Providing Service Prior to the sale of the broadband assets, the Company maintained an accrued liability related to the broadband business for the cost of circuits leased from other carriers and access minutes of use not yet invoiced in order to appropriately record such costs in the period incurred. The Company determined the estimate of the accrued cost of service liability based on a variety of factors including circuits added or disconnected during the period, expected recovery of disputed amounts and the mix of domestic and international access minutes of use. If the actual amounts recovered from disputes were less than expected or other charges were greater than expected, an additional accrual and related expense was recorded. Concurrent with the broadband asset sale, the accrued liability for cost of providing service was assumed by the buyer.

Income Taxes The income tax provision consists of an amount for taxes currently payable and an amount for tax consequences deferred to future periods. The ultimate realization of the deferred income tax assets depends upon the Company's ability to generate future taxable income during the periods in which basis differences and other deductions become deductible and prior to the expiration of its net operating loss carryforwards.

Allowances for Uncollectible Accounts Receivable The Company establishes the allowances for uncollectible accounts using both percentages of aged accounts receivable balances to reflect the historical average of credit losses and specific provisions for certain large, potentially uncollectible balances. The Company believes its allowance for uncollectible accounts is adequate based on the methods previously described. However, if one or more of the Company's larger customers were to default on its accounts receivable obligations, or general economic conditions in the Company's operating area deteriorated, the Company could be exposed to potentially significant losses in excess of the provisions established.

Depreciation of Property, Plant and Equipment The Company's provision for depreciation of telephone plant is determined on a straight-line basis using the whole life and remaining life methods. Provision for depreciation of other property is based on the straight-line method over the estimated economic useful life. Repairs and maintenance expense items are charged to expense as incurred. Beginning in 2003, in connection with the adoption of Statement of Financial Accounting Standards No. 143, Accounting for Asset Retirement Obligations (SFAS 143), the cost of removal for telephone plant was included in costs of products and services as incurred. In connection with this accounting change, on January 1, 2003, the Company recorded a benefit of \$85.9 million as a cumulative effect of a change in accounting principle, net of taxes, related to the adoption of SFAS 143. Refer to Note 1 of the Notes to Condensed Consolidated Financial Statements.

During the fourth quarter of 2003, the Company revised the estimated economic useful life of its wireless TDMA network due to the implementation of and expected migration to its GSM/GPRS network. The Company shortened its estimate of the economic useful life of its TDMA network to December 31, 2006. If the migration to GSM/GPRS technology occurs more rapidly than the Company's current estimates, the Company may be required to revise its estimate further or record an impairment charge related to its TDMA network.

Goodwill and Indefinite-Lived Intangible Assets Goodwill represents the excess of the purchase price consideration over the fair value of assets acquired recorded in connection with purchase business combinations. Indefinite-lived intangible assets consist primarily of Federal Communications Commission (FCC) licenses for spectrum of the Wireless segment. The Company determined that its wireless licenses met the definition of

indefinite-lived intangible assets under Statement of Financial Accounting Standards No. 142, Goodwill and Other Intangible Assets (SFAS 142) as the Company believes the need for wireless spectrum will continue independent of technology and the Company may renew the wireless licenses in a

Table of Contents

Form 10-Q Part II

Cincinnati Bell Inc.

routine manner every ten years for a nominal fee, provided the Company continues to meet the service and geographic coverage provisions required by the FCC. Upon the adoption of SFAS 142 on January 1, 2002, the Company ceased amortization of remaining goodwill and indefinite-lived intangible assets.

Pursuant to SFAS 142, goodwill and intangible assets not subject to amortization are tested for impairment annually, or when events or changes in circumstances indicate that the asset might be impaired. For goodwill, a two-step impairment test is performed. The first step compares the fair value of a reporting unit with its carrying amount, including goodwill. If the carrying value of a reporting unit exceeds its fair value, the second step of the impairment test is performed to measure the amount of impairment loss. The second step compares the implied fair value of the reporting unit goodwill with the carrying amount of that goodwill. The implied fair value is determined by allocating the fair value of a reporting unit to all of the assets and liabilities of that unit as if the reporting unit had been acquired in a business combination. The excess of the fair value of a reporting unit over the amounts assigned to its assets and liabilities is the implied fair value of goodwill. If the carrying amount of the reporting unit goodwill is in excess of the implied fair value of that goodwill, then an impairment loss is recognized equal to that excess. For indefinite-lived intangible assets, the impairment test consists of a comparison of the fair value of the intangible asset with its carrying value. If the carrying value of an indefinite-lived intangible asset exceeds its fair value, an impairment loss is recognized in an amount equal to that excess.

Impairment of Long-lived Assets, Other than Goodwill and Indefinite-Lived Intangibles The Company reviews the carrying value of long-lived assets, other than goodwill and indefinite-lived intangible assets discussed above, when events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. An impairment loss is recognized when the estimated future undiscounted cash flows expected to result from the use of an asset (or group of assets) and its eventual disposition are less than its carrying amount. An impairment loss is measured as the amount by which the asset's carrying value exceeds its estimated fair value.

Pension and Postretirement Benefits The Company calculates net periodic pension and postretirement expenses and liabilities on an actuarial basis under the provisions of Statement of Financial Accounting Standards No. 87, *Employers' Accounting for Pensions* (SFAS 87), Statement of Financial Accounting Standards No. 106, *Employers' Accounting for Postretirement Benefits Other Than Pensions* (SFAS 106) and Statement of Financial Accounting Standards No. 112, *Employers' Accounting for Postretirement Benefits* (SFAS 112). The key assumptions used in determining these calculations are disclosed in Note 15 of the Notes to Consolidated Financial Statements in the 2003 Annual Report on Form 10-K. The actuarial assumptions attempt to anticipate future events and are used in calculating the expenses and liabilities related to these plans.

The most significant of these numerous assumptions, which are reviewed annually, include the discount rate, expected long-term rate of return on plan assets and health care cost trend rates. The discount rate is selected based on current market interest rates on high-quality, fixed-income investments at December 31 of each year. The health care cost trend rate is based on actual claims experience and future projections of medical cost trends. The actuarial assumptions used may differ materially from actual results due to the changing market and economic conditions and other changes. Revisions to and variations from these estimates would impact assets, liabilities, costs of services and products and selling, general and administrative expenses.

Expected return on assets	+/-1%		\$ 5.0/(5.0)		\$ 0.8/(0.8)
Health care cost trend rate	+/-1%	n/a	n/a	\$ 11.9/(10.7)	\$ 0.7/(0.7)

The expected long-term rate of return on plan assets, developed using the building block approach, is based on the following: the participant's benefit horizons; the mix of investments held directly by the plans, which is generally 60% equities and 40% bonds; and, the current view of expected future returns, which is influenced by historical averages. The required use of an expected versus actual long-term rate of return on plan assets may result in recognized pension expense or income that is greater or less than the actual returns of those plan assets in any given year. Over time, however, the expected long-term returns are designed to approximate the actual long-term returns. To the extent the Company changed its estimate of the expected long-term rate of return on plan assets, there would be an impact on pension expense or income and the associated net liability or asset.

In its pension calculations, the Company utilizes the market-related value of plan assets, which is a calculated asset value that recognizes changes in asset fair values in a systematic and rational manner. Differences between actual and expected returns are recognized in the market related value of plan assets over five years.

Changes in actual asset return experience and discount rate assumptions can impact the Company's operating results, financial position and cash flows. Actual asset return experience results in an increase or decrease in the asset base and this effect, in conjunction with a decrease in the pension discount rate, may result in a plan's assets being less than a plan's accumulated benefit obligation (ABO). The ABO is the present value of benefits earned to date and is based on past compensation levels. The Company is required to show in its consolidated balance sheet a net liability that is at least equal to the ABO less the market value of plan assets. This liability is referred to as an additional minimum pension liability (AML). An AML, which is recorded and updated on December 31 each year, is reflected as a long-term pension liability with the offset recorded as an intangible asset, to the extent the Company has unrecognized prior service costs, with the remainder recorded in accumulated other comprehensive income (loss) in the equity section of the consolidated balance sheet, net of tax.

The actuarial expense calculation for the postretirement health plan is based on numerous assumptions, estimates and judgments including health care cost trend rates and cap-related cost sharing. Certain of the Company's non-management labor contracts contain an annual dollar value cap for the purpose of determining postretirement health care contributions required from retirees. The Company has waived cost sharing in excess of the cap during the current contract period, but will begin collecting certain cost sharing payments from certain non-management employees beginning in 2004. The caps for certain contracts are set during each bargaining cycle in connection with the negotiation of the overall contract. In accordance with the provisions of SFAS 106, the Company accounts for non-management retiree health benefits in accordance with the terms of each individual contract.

The Company made the one-time election under Financial Accounting Standards Board Staff Position (FSP) No. 106-1, Accounting and Disclosure Requirements Related to the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (FSP 106-1) to defer accounting for any effects of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003. The Company has elected to defer the accounting effects of the Act until the FASB issues guidance on how to account for the federal subsidy. The Company expects the Act to reduce its annual non-cash postretirement health expense by approximately \$1 million and reduce its postretirement health liability by up to \$12 million, assuming no plan design changes are implemented.

Form 10-Q Part II
Results of Operations

Cincinnati Bell Inc.

The financial results for the three months ended March 31, 2004 and 2003 referred to in this discussion should be read in conjunction with the Condensed Consolidated Statements of Operations and Comprehensive Income on page 1 of this quarterly Report on Form 10-Q. Results for interim periods may not be indicative of the results for the full years.

CONSOLIDATED OVERVIEW

Revenue

Consolidated revenue totaled \$302.4 million in the first three months of 2004, which was \$178.3 million, or 37%, less than the first three months of 2003. The primary reason for the revenue decline was the sale of substantially all the broadband assets on June 13, 2003. As a result of the sale, the Broadband segment no longer generated revenue, which represented a decrease of \$185.3 in the first three months of 2004 compared to the first three months of 2003.

Refer to Discussion of Operating Segment Results on page 27 of this Report on Form 10-Q for detailed discussion of revenue by segment.

Costs and Expenses

Cost of services and products totaled \$125.7 million in the first three months of 2004 compared to \$219.0 million in the first three months of 2003, a decrease of \$93.3 million, or 43%. The majority of the decrease, or \$92.8 million, was the result of the sale of substantially all of the broadband assets.

Selling, general and administrative (SG&A) expenses of \$57.9 million in the first three months of 2003 decreased \$62.8 million, or 52%, compared to the first three months of 2003. The decrease was primarily due to the sale of substantially all the broadband assets in the second quarter of 2003. The SG&A decrease associated with the broadband assets sold was \$64.8 million. The decrease was partially offset by an increase in other expenses.

Depreciation expense increased by 9%, or \$3.8 million, to \$45.2 million in the first three months of 2004 compared to \$41.4 million in the first three months of 2003. The increase was primarily driven by additional depreciation related to the change in estimated economic useful life of the TDMA network to December 31, 2006 and depreciation related to the GSM/GPRS network launched in the fourth quarter of 2003.

Amortization expense of \$0.5 million in the first three months of 2004 relates to roaming and trade name agreements of the Wireless segment. Amortization expense increased by \$0.4 million compared to the first three months of 2003, as the amortization of the TDMA roaming agreement was accelerated in conjunction with the change in the estimated useful life of the TDMA network noted above.

As a result of above, operating income decreased by \$26.4 million to \$72.8 million in the first three months of 2004 compared to \$99.2 million in the first three months of 2003.

Minority interest expense of \$0.1 million in the first three months of 2004 relates to the 19.9% minority interest of AT&T Wireless Services Inc. (AWE) in the net income of Cincinnati Bell Wireless (CBW). Minority interest expense decreased \$14.0 million compared to the first three months of 2003 as a result of the exchange of the 12½% Junior Exchangeable Preferred Stock of BRCOM (the 12½% Preferreds) and a decline in the net income of CBW. The first three months of 2003 include \$11.6 million related to the accrual of dividends and accretion on the 12½% Preferreds.

Table of Contents

Form 10-Q Part II

Cincinnati Bell Inc.

Interest expense and other financing costs of \$50.8 million in the first three months of 2004 increased \$5.5 million, or 12%, compared to \$45.3 million in the first three months of 2003. The increase is due to the refinancing of the Company's credit facility borrowings with proceeds from the issuances of the higher rate 16% Senior Subordinated Discount Notes Due 2009 (the 16% notes) and the 7¼% Senior notes due 2013 in July 2003. These increases were partially offset by a decline in interest expense resulting from a 12% reduction in outstanding indebtedness and a 1% interest rate decrease compared to March 31, 2003.

The Company had income tax expense of \$11.0 million in the first three months of 2004 compared to \$2.0 million recorded in the first three months of 2003. The increase is primarily the result of the fourth quarter 2003 reversal of the Company's deferred income tax valuation allowance. The effective income tax rate for 2004 is estimated to be 50%, which differs from the federal statutory rate primarily due to certain non-deductible interest expense and state income taxes.

As a result of the items previously discussed, income from continuing operations before cumulative effect of change in accounting principle decreased \$18.0 million in the first three months of 2004 from \$39.9 million in the first three months of 2003 to \$21.9 million in the first quarter of 2003. In addition, the corresponding diluted earnings per share from continuing operations totaled \$0.03 in the first three months of 2004 compared to the earnings per share from continuing operations of \$0.16 in the first three months of 2003.

Effective January 1, 2003, the Company recorded a benefit of \$85.9 million as a cumulative effect of a change in accounting principle, net of taxes, related to the adoption of SFAS 143. The benefit principally related to the estimated telephone plant removal costs previously included in accumulated depreciation, which were reversed. Refer to Note 1 of the Notes to Condensed Consolidated Financial Statements for a detailed discussion of the adoption of SFAS 143.

Discussion of Operating Segment Results

The Company realigned its business segments during the first quarter of 2004. Cincinnati Bell Technology Solutions Inc. (CBTS), a data equipment and managed services subsidiary, was previously reported in the Broadband segment and is now reported in the Hardware and Managed Services segment. Additionally, the telephony equipment and associated installation and maintenance business of Cincinnati Bell Telephone (CBT), previously reported in the Local segment, is now included in the Hardware and Managed Services segment. Accordingly, the historical results of operations of the Local segment, Hardware and Managed Services segment and Broadband segment have been recast to reflect the current segment reporting.

Table of Contents

Form 10-Q Part II

Cincinnati Bell Inc.

Local

The Local segment provides local voice telephone service and data services, which include network access, data transport (including DSL), high-speed and dial-up Internet access, to customers in southwestern Ohio, northern Kentucky and southeastern Indiana. This market consists of approximately 2,400 square miles located within an approximately 25-mile radius of Cincinnati, Ohio. These services are provided through the Company's CBT subsidiary.

Revenue

Local segment revenue decreased \$3.8 million, or 2%, in the first three months of 2004 compared to the first three months of 2003. Revenue declines from access line losses were greater than revenue growth from value-added services, DSL transport and dial-up Internet access.

Voice revenue of \$130.5 million during the first three months of 2004 decreased 4%, or \$5.4 million, compared to the first three months of 2003. Revenue decreased due to fewer access lines in service, which declined 2.8% from 1,009,000 at March 31, 2003 to 981,000 as of March 31, 2004, lower regulatory fee charges and lower switched access charges.

The Company's Complete Connections® bundled services offering increased by 11,400 subscribers during the first three months of 2004, bringing total subscribership to 324,000 and penetration of residential access lines to 43%. The increase was due to increased Super bundle penetration, which added 22,200 subscribers in the first quarter of 2004, bringing total Super-bundle subscribers to 94,000. The Company's Super-bundle, named Custom ConnectionsSM, offers local, long distance, wireless, DSL and the Company's value-added service package, Complete Connections®, on a single bill at a reduced price lower than at which the customer could buy all of the services individually. An aggressive marketing campaign and the favorable bundled pricing associated with Custom ConnectionsSM has driven increased demand for the Company's ZoomTown DSL offering, which added 10,900 customers in the first quarter of 2004, growing 33% compared to March 31, 2003, to 110,400 subscribers. As a result of this growth, total lines to the customer (defined as access lines plus DSL subscribers) as of March 31, 2004 decreased slightly compared to March 31, 2003.

Table of Contents

Form 10-Q Part II

Cincinnati Bell Inc.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Data revenue consists of data transport, high-speed Internet access (including DSL), dial-up Internet access and Local Area Network (LAN) interconnection services. Revenue in the first three months of 2004 was \$50.3 million, representing a \$1.7 million, or 3%, increase compared to the first three months of 2003 due to an increase in DSL subscribers. This increase helped to increase Local segment revenue per household to \$46.87 in the first three months of 2004 compared to \$46.09 in the first three months of 2003. As of March 31, 2004, 87% of CBT s access lines were loop-enabled for DSL transport with a penetration of approximately 11.3% of these access lines, up from 8.2% at March 31, 2003.

Other services revenue of \$10.1 million during the first three months of 2004 decreased \$0.1 million, or 1%, compared to the first three months of 2003. Other services revenue declines were substantially due to a decrease in wiring service revenue.

Costs and Expenses

Cost of services and products decreased \$4.2 million, or 7%, to \$56.3 million in the first quarter of 2004 compared to the first quarter of 2003. The decrease was primarily due to a decline in cost of goods sold and material costs of approximately \$3.0 million related to lower DSL modem costs and efficiencies gained as a result of purchasing cost-saving initiatives. Additionally, payroll and related expenses decreased by \$0.8 million due a 6% reduction in headcount and associated benefit costs, partially offset by normal wage increases.

SG&A expenses decreased 3%, or \$1.1 million, compared to the first three months of 2003, substantially related to a decrease in bad debt of \$3.8 million due primarily to a large account which was written off in the first quarter of 2003. This decrease was offset by higher advertising and contract services expenses as a result of a more aggressive effort to acquire DSL and bundled subscribers.

Depreciation expense of \$29.9 million decreased \$1.3 million, or 4%, in the first three months of 2004 compared to the first three months of 2003. A decrease in depreciable assets, reduced capital spending and revisions to depreciation rates contributed to the reduction in depreciation expense.

Operating Income

As a result of the above, operating income increased by \$2.9 million, or 4%, to \$71.1 million in the first three months of 2004 compared to \$68.2 million in the first three months of 2003. Operating margin showed similar improvements, increasing two points from a margin of 35.0% in the first three months of 2003 to a margin of 37.2% in the first three months of 2004.

Form 10-Q Part II

Cincinnati Bell Inc.

WIRELESS

The Wireless segment consists of the operations of CBW, a venture in which the Company owns 80.1% and AWE owns the remaining 19.9%. The Wireless segment provides advanced digital personal communications services and related communications equipment to customers in the Greater Cincinnati and Dayton, Ohio operating areas. Services are provided primarily over CBW's regional wireless network and AWE's national wireless network.

Prepaid CPGA**	\$ 89.0	\$ 50.0	\$ 39.0	78%

*The Company has presented certain information regarding monthly average revenue per user (ARPU) because the Company believes ARPU provides a useful measure of the operational performance of the wireless business. ARPU is calculated by dividing service revenue by the average subscriber base for the period.

**The Company has presented certain information regarding cost per gross addition (CPGA) because the Company believes CPGA provides a useful measure of the initial cost to add a wireless subscriber. CPGA is calculated by dividing the sum of selling and marketing expenses, handset subsidy included in cost of services and products (the amount by which handset costs exceed related revenue), less bad debt expense, by total gross subscriber acquisitions during the period.

Revenue

Wireless segment revenue was flat during the first three months of 2004 compared to the first three months of 2003 as an increase in equipment and prepaid service revenue offset declines in postpaid service revenue. Postpaid service revenue declined \$1.1 million, or 2% to \$49.8 million due to customer migrations to lower

Table of Contents

Form 10-Q Part II

Cincinnati Bell Inc.

priced service plans more than offsetting a 2% increase in average subscribers. Postpaid ARPU decreased from \$54.79 in the first three months of 2003 to \$52.59 in the first three months of 2004. Postpaid subscribers increased by 11,600 compared to March 31, 2003 to approximately 319,000. Prepaid service revenue increased 4% primarily a result of a 2% increase in average subscribers. Due to increases in revenue from voice services, text messaging and other data services, prepaid ARPU increased to \$21.07 in the first three months of 2004 compared to \$20.80 in the first three months of 2003. Prepaid subscribers increased by 4,000 compared to March 31, 2003 to approximately 167,000. Wireless subscribers totaled approximately 486,000, or 14%, of the population in CBW's licensed operating territory.

As mandated by the FCC, wireless local number portability (WLNP) became effective November 24, 2003 and allows a customer to retain the same phone number when the customer changes service providers within the same local area. Despite WLNP, average monthly customer churn remained low at 1.84% for postpaid subscribers in the first three months of 2004 compared to 1.83% in the first three months of 2003.

Costs and Expenses

Cost of services and products consists largely of network operation costs, incollect expense (whereby CBW incurs costs associated with its subscribers using their handsets while in the territories of other wireless service providers), interconnection expenses and cost of handset and accessories sold. These cost and expenses increased \$7.6 million, or 30%, to \$33.3 million during first three months of 2004 compared to the first three months of 2003 due primarily to a \$5.8 million increase in the cost of handsets and accessories sold. The increase was driven by a 3% increase in subscribers and an increase in handsets sold to existing subscribers due to the launch of the GSM network. In addition, operating taxes increased by \$0.7 million and other network operations costs increased by a net \$1.0 million, driven by the launch of the GSM network.

SG&A expenses include certain customer acquisition expenses, including advertising, distribution and promotional expenses. These expenses increased by \$1.0 million in the first three months 2004 compared to the first three months of 2003 due to an increase in advertising of \$1.3 million offset by \$0.3 million decrease in other expenses including bad debt expense.

CPGA, a measure of the Company's cost to acquire new customers, was \$412 for the postpaid product for the first three months of 2004, a \$62, or 18%, increase over the first three months of 2003. Prepaid CPGA was \$89 in 2004, a \$39, or 78%, increase over the first three months of 2003. The increases in both prepaid and postpaid CPGA are due primarily to higher handset subsidies cost and advertising in the first three months of 2004 compared to the first three months of 2003. The increase in handset subsidies per gross addition was driven by an increase in handset upgrades by existing subscribers due to customer migrations to GSM handsets from TDMA handsets. These equipment sales increased handset subsidy costs, without a corresponding activation, driving CPGA higher.

Depreciation expense of \$14.6 million increased \$7.1 million, or 95%, in the first three months of 2004 compared to the first three months of 2003 as a result of \$5.3 million in additional depreciation related to the change in estimated economic useful life of the TDMA network to December 31, 2006 and increased depreciation related to the GSM/GPRS network.

Wireless incurred a \$2.4 million charge in the first three months of 2004 to write-down certain intangible assets.

Table of ContentsForm 10-Q Part II
Operating Income

Cincinnati Bell Inc.

As a result of the above, operating income decreased \$18.2 million, or 94%, to \$1.2 million and operating margin decreased 28 points to 1.7% in the first three months of 2004 compared to the first three months of 2003.

HARDWARE AND MANAGED SERVICES

The Hardware and Managed Services segment is comprised of the operations within CBTS, a data equipment and managed services subsidiary which provides data collocation and managed services, telecommunications equipment, installation and maintenance to customers in southwestern Ohio, northern Kentucky and southeastern Indiana. In March 2004, CBTS sold certain operating assets generally consisting of operating assets outside of the Greater Cincinnati, Ohio operating area for approximately \$3.2 million in cash. The buyer also assumed approximately \$2.1 million in liabilities. The Company expects revenue for the segment to decline by approximately \$15.0 million per quarter compared to the first three months of 2004 due to the sale of out of territory assets.

(dollars in millions)	Three Months Ended March 31,			
	2004	2003	\$ Change	% Change
Revenue				
Hardware	\$18.2	\$20.1	\$ (1.9)	(9%)

Total operating costs and expenses	31.4	34.0	(2.6)	(8%)
Operating income	\$ 3.0	\$ 3.9	\$ (0.9)	(23%)
Operating margin	8.7%	10.3%		2 pts

Revenue

Hardware revenue in the first three months of 2004 decreased \$1.9 million, or 9%, compared to the first three months of 2003 primarily due to competitive pricing pressure and a decrease in order volumes as customers delayed capital projects.

Managed services decreased \$1.6 million, or 9%, in the first three months of 2004 compared to the first three months of 2003 primarily due to customer hardware lease expiration, as well as increased market pressure on bandwidth pricing.

Costs and Expenses

Cost of services and products totaled \$26.9 million in the first three months of 2004, a \$1.1 million, or 4%, decrease compared to the first three months of 2003. The decrease in cost of services was primarily associated with the decrease in revenue discussed above.

Table of Contents

Form 10-Q Part II

Cincinnati Bell Inc.

SG&A expenses decreased \$0.5 million, or 8%, in the first three months of 2004 compared to the first three months of 2003. The decrease was due to the lower payroll and related expenses of \$0.9 million driven by lower headcount, partially offset by an increase in bad debt expense.

In conjunction with the sale of certain operating assets discussed above, the Hardware and Managed Services segment recorded a gain of \$1.1 million during the first three months of 2004.

Operating Income

The Hardware and Managed Services segment reported operating income of \$3.0 million in the first three months of 2004, a \$0.9 million decrease compared to the operating income reported in the first three months of 2003. Operating margin decreased from 10.3% in the first three months of 2003 to 8.7% in the first three months of 2004, a two point decrease.

OTHER

The Other segment combines the operations of Cincinnati Bell Any Distance (CBAD), Cincinnati Bell Complete Protection (CBCP) and Cincinnati Bell Public Communications Inc. (Public). CBAD resells voice long distance service, CBCP provides security hardware and monitoring for consumers and businesses, and Public provides public payphone services.

	(Unaudited) Three Months Ended March 31,

2003 Compared to 2002**Revenue**

Other segment revenue of \$18.8 million in the first three months of 2004 decreased \$1.2 million, or 6%, compared to 2003.

CBAD's revenue declined \$1.4 million, or 8%, in the first three months of 2004 compared to the first three months of 2003 due to a 15% decline in minutes of use, which the Company believes is the result of further penetration of wireless plans that include free long distance. Price increases initiated in 2003 partially offset this decrease in usage. CBAD had 539,000 subscribed access lines as of March 31, 2004 in the Cincinnati and Dayton, Ohio operating areas, representing a decrease of 15,500 lines, or 3%, versus March 31, 2003, which the Company believes is primarily related to its access line loss in its local businesses. In spite of subscriber line decreases, the Company's market share has increased as a function of the Local segment's lines in service for which a long distance carrier has been chosen for residential and business access lines. CBAD's

Table of Contents

Form 10-Q Part II

Cincinnati Bell Inc.

residential and business market share increased in the first three months of 2004 to approximately 72% and 46%, respectively, from 70% and 44%, respectively compared to March 31, 2003. CBCP's revenue decreased \$0.1 million to \$0.7 million and Public revenue increased \$0.2 million, or 9%, in the first three months of 2004 compared to the first three months of 2003 as revenue from the sales associated with payphones used in prisons increased.

Costs and Expenses

Cost of services and products totaled \$13.1 million in the first three months of 2004, representing a decrease of 11% compared to the first three months 2003. The decrease in cost of services was due primarily to decreased access charges at CBAD of \$1.8 million as minutes of use declined 15%. Public and CBCP also contributed a combined decrease of \$0.3 million in the first three months of 2004, as a result of lower revenue.

SG&A expenses decreased \$0.8 million, or 21%, in the first three months of 2004 compared to the first three months of 2003. These decreases were primarily due to decreased bad debt expense at CBAD.

Operating Income

As a result of the above, the Other segment reported operating income of \$2.3 million in the first three months of 2003, an increase of \$1.3 million compared to the first three months of 2003. Operating margin showed similar improvements, increasing seven points from a margin of 5.0% in the first three months of 2003 to 12.2% in the first three months of 2004.

BROADBAND

On February 22, 2003, the Company entered into a definitive agreement to sell substantially all of its broadband assets. In accordance with SFAS 144, the Company ceased depreciating the assets to be sold upon entering into the definitive agreement. On June 13, 2003, the first (and most significant) stage closing was consummated. At the first stage closing, the Company had received regulatory approval in states where approximately 75% of 2002 broadband revenue was generated and effectively transferred control of the broadband business to the buyer. During the third quarter ended September 30, 2003, the second and third (final) stage closings were consummated as all remaining regulatory approvals had been received.

Subsequent to the closing of the asset sale, the Broadband segment consists of certain liabilities not transferred to the buyers. Prior to the sale of the broadband assets, revenue for the Broadband segment was generated from broadband transport (which included revenue from IRU's), switched voice services, data and Internet services (including data collocation and managed services) and other services. These transport and switched voice services were generally provided over the Broadband segment's national optical network, which comprised approximately 18,700 route miles of fiber-optic transmission facilities.

Revenue

Broadband segment revenue decreased 100% in the first three months of 2004 compared to the first three months of 2003 due to the sale of substantially all of the Company's broadband assets on June 13, 2003. Prior to the aforementioned sale of the broadband assets, the Broadband segment had revenue from broadband transport, voice long distance and other data and Internet products and service such as ATM/frame relay and dedicated and dial-up IP.

Costs and Expenses

Cost of services and products primarily reflects access charges paid to local exchange carriers and other providers, transmission lease payments to other carriers and costs incurred for network construction projects. In the first quarter of 2004, cost of services and products amounted to zero, a 100% decrease from the \$106.6 million incurred during 2003 due to the sale of substantially all of the Company's broadband assets on June 13, 2003.

SG&A expenses decreased 100% to in the first three months of 2004 from \$67.7 million in the first three months of 2003 due to the sale of substantially all of the Company's broadband assets on June 13, 2003.

During the first three months of 2004, the Broadband segment recorded \$1.3 million of adjustments related to the reversal of previously recorded liabilities and proceeds from the sale of assets previously written off.

Financial Condition, Liquidity, and Capital Resources

Capital Investment, Resources and Liquidity

As the Company's businesses mature, investments in its local, wireless, and DSL networks will be focused on maintenance, strategic expansion, incremental revenue-generating penetration of these services with the bundle, cost and productivity improvements and technology enhancement initiatives undertaken to add and retain customers on the Company's networks.

Form 10-Q Part II
Broadband Asset Sale

Cincinnati Bell Inc.

On February 22, 2003, the Company entered into a definitive agreement to sell substantially all of its broadband assets. On June 13, 2003, the first (and most significant) stage closing was consummated. At the first stage closing, the Company had received regulatory approval in states where approximately 75% of 2002 broadband revenue was generated and effectively transferred control of the broadband business to the buyer. The buyer paid the initial cash purchase price of \$91.5 million, of which \$29.3 million was placed into escrow to support certain potential purchase price adjustments and the portion of the purchase price payable upon the consummation of the second and third stage closings.

During the third quarter of 2003, the second and third (final) stage closings were consummated as all remaining regulatory approvals were received. In connection with these closings, the Company received \$20.5 million of the \$29.3 million escrowed funds. Subsequently, the Company returned \$0.5 million of the purchase price and released the remaining escrowed funds of \$8.8 million to the buyer in satisfaction of the working capital and receivables post closing purchase price adjustments pursuant to the purchase agreement between the Company and the buyer.

Not more than 30 days after July 1, 2004, the buyer will provide the BRCOM selling subsidiaries with a calculation of cash EBITDA (as defined in the asset purchase agreement) minus capital expenditures for the broadband business for the period from July 1, 2003 to July 1, 2004. If annual cash EBITDA minus capital expenditures for such period is negative \$48 million or less, the BRCOM selling subsidiaries will pay to the buyers an amount equal to 35% of the difference between negative \$48 million and the amount of annual cash EBITDA minus capital expenditures, provided that the obligation for such reimbursement will not exceed \$10 million. The Company has recorded a \$10 million liability related to this purchase price adjustment. The BRCOM selling subsidiaries will have no obligation to make the foregoing payment if the buyers sell 51% or more of the equity or voting control of the acquiring entity or the assets acquired in the broadband sale.

Credit Facilities

The Company believes that its borrowing availability under the credit facilities and cash generated from operations will provide sufficient liquidity for the foreseeable future. As a result of the issuance of the 16% notes, the 7 1/4% Senior notes due 2013 and scheduled repayments, the credit facilities were reduced from \$1,825.0 million as of December 31, 2002 to \$919.2 million as of March 31, 2004. The remaining credit facilities as of March 31, 2004 consist of \$396.8 million in revolving credit maturing on March 1, 2006, and having four equal quarterly scheduled commitment reductions during 2005 in an aggregate amount equal to \$123.3 million, and \$522.4 million in term loans, maturing on June 30, 2008. As of March 31, 2004, the Company had drawn approximately \$556.4 million from its credit facilities, and had outstanding letters of credit totaling \$11.4 million, leaving \$351.4 million in additional borrowing availability under its revolving credit facility. In April 2004, the Company permanently prepaid \$40.0 million on its term loans.

The terms of the 16% notes, the 7 1/4% Senior notes due 2013, the 8 3/8% notes and the credit facilities limit the Company's ability to make future investments in or fund the operations of BRCOM and its subsidiaries. Specifically, the Company and its other subsidiaries may not make investments in or fund the operations of BRCOM and its subsidiaries beyond an aggregate amount of \$118.0 million after October 1, 2002. As of March 31, 2004, the Company had the ability to invest an additional \$72.8 million in BRCOM and its subsidiaries based on these provisions. The Company believes that BRCOM's available liquidity is sufficient to meet its remaining obligations.

Interest rates charged on borrowings under the revolving and term credit facilities were 425 and 250 basis points above the London Interbank Offered Rate (LIBOR), respectively, or 5.36% and 3.61%, respectively, based on the LIBOR rate as of March 31, 2004. Based on the Company's variable rate indebtedness as of March 31, 2004, if the Company's credit facilities were fully drawn, a 1% increase in the average borrowing

Table of Contents

Form 10-Q Part II

Cincinnati Bell Inc.

rate would result in approximately \$9.2 million in annual incremental interest expense. The commitment fees applied to the unused amount of revolving credit facility borrowings are 62.5 basis points.

The Company is subject to financial covenants in association with the credit facilities. These financial covenants require that the Company maintain certain debt to EBITDA (as defined in the credit facility agreement), senior secured debt to EBITDA and interest coverage ratios as well as limit its capital expenditures. The facilities also contain certain covenants which, among other things, may restrict the Company's ability to incur additional debt or liens, pay dividends, repurchase Company common stock, sell, transfer, lease, or dispose of assets and make investments or merge with another company. If the Company were to violate any of its covenants and was unable to obtain a waiver, it would be considered a default. If the Company were in default under its credit facilities, no additional borrowings under the credit facilities would be available until the default was waived or cured. The Company was in compliance with all financial covenants set forth in its credit facilities and the indentures governing its other debt as of March 31, 2004.

Subject to certain limited exceptions, borrowings under the credit facilities are required to be prepaid:

- (1) in an amount equal to 75% of excess cash flow (as defined in the credit facility agreement) for each fiscal year commencing with the fiscal year ended December 31, 2003. Excess cash flow is calculated on an annual basis, and 75% of the excess cash flow is payable to the credit facility lenders on the 90th day following the end of each fiscal year. As of March 31, 2004, the Company estimated the excess cash flow amount to be prepaid in the first quarter of 2005 to be \$43.3 million and included this amount in current portion of long-term debt;
- (2) in an amount equal to 100% of net cash proceeds of certain sales, leases, transfers or other dispositions of assets by the Company or its subsidiaries subject to reinvestment rights in certain cases;
- (3) in an amount equal to 100% of net cash proceeds from the issuance of certain debt obligations by the Company or any Subsidiary Guarantor (as defined in the credit facilities); and
- (4) in an amount equal to 50% of the net cash proceeds in excess of \$50 million from issuances of Cincinnati Bell common stock or preferred stock.

Voluntary prepayments of borrowings under the credit facilities and voluntary reductions of the unutilized parts of the credit facilities' commitments are, subject to proper notice, permitted at any time. The Company expects to use any cash flows generated by its operations and in excess of investing activities, to reduce outstanding indebtedness.

Form 10-Q Part II

Cincinnati Bell Inc.

Contractual Obligations

The following table summarizes the Company's contractual obligations as of March 31, 2004:

(dollars in millions)	Debt (excluding discount)	Capital Leases (excluding interest)	Noncancelable Unconditional		Total
			operating lease obligations	purchase obligations*	
For the twelve months ended March 31,					
2005	\$ 50.2	\$ 5.5	\$ 9.0	\$ 62.0	\$ 126.7
2006	25.3	3.1	6.8	45.0	80.2
2007	39.3	1.4	6.8	45.0	92.5
2008	336.9	0.6	7.0	45.0	389.5
2009	126.3	0.7	7.3	11.3	145.6
Thereafter	1,684.2	6.8	133.5		1,824.5
	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>
Total	\$ 2,262.2	\$ 18.1	\$ 170.4	\$ 208.3	\$ 2,659.0
	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>

* Amount includes \$3.3 million and \$8.4 million of expected cash funding contributions to the pension trust and postretirement trust, respectively. These amounts are included in 2004 as the Company is obligated to make these cash funding contributions. The Company has not included obligations beyond 2004, as the amounts are not estimable.

Current maturities of long-term debt of \$55.7 million at March 31, 2004 consisted of approximately \$48.6 million of principal payments on long-term debt related to the credit facilities, \$5.5 million related to the current portion of capital leases and \$1.6 million related to other current debt. The Company expects to have the ability to meet its current obligations through borrowings from its revolving credit facility and cash flows generated by its operations.

AWE maintains a 19.9% ownership in the Company's CBW subsidiary. Under the terms of the related operating agreement, AWE has the right to require CBW to purchase its 19.9% ownership interest for a cash price equal to fair market value. Such right is exercisable beginning on December 31, 2006 and at any time thereafter, or if at any time there is a call for additional capital contributions that has not been approved by AWE.

Other

As of the date of this filing, the Company maintains the following credit ratings:

Entity	Description	Standard and Poor's	Fitch Rating Service	Moody's Investor Service

Edgar Filing: CINCINNATI BELL INC - Form 10-Q/A

CBB	Corporate Credit Rating	B+	BB-	B1
CBT	Corporate Credit Rating	B+	BB+	Ba2
CBB	Outlook	negative	stable	positive

The Company does not have any downgrade triggers that would accelerate the maturity dates of its debt or increase the interest rate on its debt.

Cincinnati Bell Inc.

Commitments and Contingencies

Commitments

In 1998, the Company entered into a ten-year contract with Convergys Corporation (Convergys), a provider of billing, customer service and other services, which remains in effect until June 30, 2008. The contract states that Convergys will be the primary provider of certain data processing, professional and consulting, technical support and customer support services for the Company. In return, the Company will be the exclusive provider of local telecommunications services to Convergys. In 2003, the Company signed a letter of intent to revise the contract, which would extend the contract through December 31, 2010 and reduce the Company's annual commitment in 2004 and 2005 to \$35.0 million from \$45.0 million. Beginning in 2006, the minimum commitment would be reduced 5% annually. The Company expects to finalize this agreement in the second quarter of 2004. If the Company does not execute the final agreement, the Company could be obligated to make a payment to Convergys of 40% of the difference between the commitment and actual amount of services purchased, or approximately \$1.6 million in 2004 based on a projected shortfall of \$4.0 million.

AWE maintains a 19.9% ownership in the Company's CBW subsidiary. The CBW operating agreement provides that a five member committee govern CBW, with AWE having the right to appoint two representatives and the Company having the right to appoint three representatives. On or after December 31, 2006, or if at any time the member committee shall call for additional capital contributions (unless such capital calls have been approved by the representatives of AWE), and upon written demand from AWE, the Company is required to purchase at fair market value all of the interest of AWE in CBW for cash. Such sale shall be consummated not less than 30 and no more than 60 days following the determination of the fair market value of the AWE interest. The operating agreement includes other provisions including non-competition clauses between CBW, LLC and AWE.

On February 17, 2004, Cingular announced its intent to acquire AWE. Cingular presently competes with CBW, LLC. The Company is currently in discussions with AWE and Cingular regarding Cingular's proposed acquisition of AWE. Should AWE or Cingular decide to sell the 19.9% ownership interest to a third party, the Company has a right of first refusal to purchase the interest.

Contingencies

In the normal course of business, the Company is subject to various regulatory proceedings, lawsuits, claims and other matters. Such matters are subject to many uncertainties and outcomes that are not predictable with assurance.

In re Broadwing Inc. Securities Class Action Lawsuits, (Gallow v. Broadwing Inc., et al), U.S. District Court, Southern District of Ohio, Western Division, Case No. C-1-02-795.

Between October and December 2002, five virtually identical class action lawsuits were filed against Broadwing Inc. and two of its former Chief Executive Officers in U.S. District Court for the Southern District of Ohio.

These complaints were filed on behalf of purchasers of the Company's securities between January 17, 2001 and May 20, 2002, inclusive, and alleged violations of Section 10(b) and 20(a) of the Securities and Exchange Act of 1934 by, inter alia, (1) improperly recognizing revenue associated with Indefeasible Right of Use (IRU) agreements; and (2) failing to write-down goodwill associated with the Company's 1999 acquisition of IXC Communications, Inc. The plaintiffs seek unspecified compensatory damages, attorney's fees, and expert expenses.

Table of Contents

Form 10-Q Part II

Cincinnati Bell Inc.

On December 30, 2002, the Local 144 Group filed a motion seeking consolidation of the complaints and appointment as lead plaintiff. By order dated October 29, 2003, Local 144 Nursing Home Pension Fund, Paul J. Brunner and Joseph Lask were named lead plaintiffs in a putative consolidated class action.

On December 1, 2003, lead plaintiffs filed their amended consolidated complaint on behalf of purchasers of the Company's securities between January 17, 2001 and May 21, 2002, inclusive. This amended complaint contained a number of new allegations. Cincinnati Bell Inc. was added as defendant in this amended filing. The Company's motion to dismiss was filed on February 6, 2004. Plaintiffs filed their opposition to dismiss on April 15, 2004, and the Company is required to file its reply by June 1, 2004. The Company is vigorously defending these matters. The timing and outcome of these matters are not currently predictable. An unfavorable outcome could have a material effect on the financial condition, results of operations and cash flows of the Company.

In re Broadwing Inc. Derivative Complaint, (Garlich v. Broadwing Inc., et al.), Hamilton County Court of Common Pleas, Case No. A0302720.

This derivative complaint was filed against Broadwing Inc. and ten of its current and former directors on April 9, 2003 alleging breaches of fiduciary duty arising out of the same allegations discussed in *In re Broadwing Inc. Securities Class Action Lawsuits* above. Pursuant to a stipulation between the parties, defendants are not required, absent further order by the Court, to answer, move, or otherwise respond to this complaint until 30 days after the federal court renders a ruling on defendants' motion to dismiss in *In re Broadwing Inc. Securities Class Action Lawsuits*. The Company is vigorously defending these matters. The timing and outcome of these matters are not currently predictable. An unfavorable outcome could have a material effect on the financial condition, results of operations and cash flows of the Company.

In re Broadwing Inc. ERISA Class Action Lawsuits, (Kurtz v. Broadwing Inc., et al), U.S District Court, Southern District of Ohio, Western Division, Case No. C-1-02-857.

Between November 18, 2002 and January 10, 2003, four putative class action lawsuits were filed against Broadwing Inc. and certain of its current and former officers and directors in the United States District Court for the Southern District of Ohio. Fidelity Management Investment Trust Company was also named as a defendant in these actions.

These cases, which purport to be brought on behalf of the Cincinnati Bell Inc. Savings and Security Plan, the Broadwing Retirement Savings Plan, and a class of participants in the Plans, generally allege that the defendants breached their fiduciary duties under the Employee Retirement Income Security Act of 1974 (ERISA) by improperly encouraging the Plan participant-plaintiffs to elect to invest in the Company stock fund within the relevant Plan and by improperly continuing to make employer contributions to the Company stock fund within the relevant Plan.

On October 22, 2003, a putative consolidated class action complaint was filed in the U.S. District Court for the Southern District of Ohio. The Company filed its motion to dismiss on February 6, 2004. Plaintiffs filed their opposition on April 2, 2004, and the Company is required to file its reply by May 17, 2004. The Company is vigorously defending these matters. The timing and outcome of these matters are not currently predictable. An unfavorable outcome could have a material effect on the financial condition, results of operations and cash flows of the Company.

Off-Balance Sheet Arrangements

The Company does not participate in transactions that generate relationships with unconsolidated entities or financial partnerships, such as special purpose entities (SPEs) or variable interest entities (VIEs), which

Table of Contents

Form 10-Q Part II

Cincinnati Bell Inc.

would have been established for the purpose of facilitating off-balance sheet arrangements or other limited purposes.

As of March 31, 2004 the Company was not involved in any unconsolidated SPEs or VIEs.

Balance Sheet

The following comparisons are relative to December 31, 2003.

The change in cash and cash equivalents is explained in the preceding discussion of capital investment, resources and liquidity or in the cash flow discussion below. The decrease in accounts receivable \$19.9 million was primarily the result of a decrease in revenue and improved collections. The decrease of \$23.1 million in net property, plant and equipment was primarily due to the sale of certain assets and depreciation expense of \$45.2 million, offset by capital expenditures of only \$23.3 million.

The decrease in long-term debt of \$90.0 million was partially offset by an increase in short-term debt of \$42.4 million, the remainder was repaid, utilizing cash generated by operations. Accounts payable decreased \$12.3 million, or 19%, primarily due a decrease in capital spending and timing of vendor payments.

Cash Flow

For the first three months of 2004, cash provided by operating activities totaled \$69.8 million, \$37.1 million more than the \$32.7 million provided by operating activities during the first three months of 2003. This increase is largely due to a reduction in cash used in operations and working capital needs resulting from the sale of substantially all of the broadband assets.

The Company's investing activities included outflows for capital expenditures and inflows from the sale of equity investments and assets. Capital expenditures during the first three months of 2004 totaled \$23.3 million, \$1.3 million higher than the \$22.0 million incurred during the first three months of 2003. In 2003, the Company received \$3.8 million from the sale of an investment. In 2004, the Company received \$3.2 million from the sale of certain assets of CBTs generally consisting of operating assets outside its current operating area.

During the first three months of 2004, the Company reduced its borrowings under its credit facilities by \$52.1 million with cash provided by operating activities. During the first three months of 2003, the Company received \$350 million of gross cash proceeds from the issuance of the 16% notes borrowed \$30.0 million directly from the revolving credit facility. The Company permanently prepaid \$220 million in borrowings under its term and revolving credit facilities and made a \$90 million payment under its revolving credit facility with the net cash proceeds from the 16% notes. Debt issuance costs totaled zero and \$44.6 million in the first three months of 2004 and 2003, respectively, as no capital structure transaction took place in 2004.

Approximately \$2.6 million in preferred stock dividends were paid during the first quarter of 2004 and 2003.

As of March 31, 2004, the Company held \$22.8 million in cash and cash equivalents. The Company's primary sources of cash will be cash generated by operations and borrowings from the Company's revolving credit facility. The primary uses of cash will be for funding the maintenance and strategic expansion of the local and wireless networks; interest and principal payments on the Company's credit facilities, 16% notes, 7¼% Senior notes due 2013, 7¼% Senior notes due 2023, 8 3/8% notes, and CBT notes; dividends on the 6¾% cumulative convertible preferred stock; working capital; and liability management associated with BRCOM up to the maximum amount permitted under the terms of the 16% notes, and Credit Agreement.

Table of Contents

Form 10-Q Part II

Cincinnati Bell Inc.

Regulatory Matters and Competitive Trends

Federal The Telecommunications Act of 1996 (the "1996 Act"), including the rules subsequently adopted by the FCC to implement the 1996 Act, can be expected to impact CBT's in-territory local exchange operations in the form of greater competition. The FCC's rules have changed from time to time as a result of judicial review and further actions by the FCC and are expected to continue to change in the future. These changes can be expected to affect both CBT's in-territory local exchange operations and its out of territory operations.

State At the state level, CBT conducts local exchange operations in portions of Ohio, Kentucky and Indiana and, consequently, is subject to regulation by the Public Utilities Commissions ("PUC") in those states. In Ohio, the PUC has concluded a proceeding to establish permanent rates that CBT can charge to competitive local exchange carriers for unbundled network elements, although some elements will remain subject to interim rates indefinitely. The Kentucky commission has authorized CBT to use the same rates established by the Ohio PUC for unbundled network elements in Kentucky. The establishment of these rates is intended to facilitate market entry by competitive local exchange carriers.

The Ohio PUC has required SBC Communications Inc. ("SBC") and Verizon Communications Inc. ("Verizon") to offer competitive local exchange services in several Ohio markets, including the Cincinnati market, as a condition to the approval of their respective mergers involving Ameritech Corp. and GTE Corp. Both SBC and Verizon have entered into interconnection agreements with CBT.

CBT is currently subject to an Alternative Regulation Plan ("Alt Reg Plan") in Ohio. The current Alt Reg Plan gives CBT pricing flexibility in several competitive service categories in exchange for CBT's commitment to freeze certain basic residential service rates during the term of the Alt Reg Plan. The term of the current Alt Reg Plan will remain in effect through June 30, 2004. Prior to June 30, 2004, CBT will be required to seek an extension of its existing Plan, initiate a proceeding to establish a new Alt Reg Plan or adopt a generic Alt Reg Plan developed by the Ohio PUC.

BUSINESS OUTLOOK

There is substantial competition in the telecommunications industry. Competition may intensify due to the efforts of existing competitors to address difficult market conditions through reduced pricing, bundled offerings or otherwise, as well as a result of the entrance of new competitors and the development of new technologies, products and services. If the Company cannot offer reliable, value-added services on a price competitive basis in any of its markets, it could be adversely impacted by competitive forces. In addition, if the Company does not keep pace with technological advances or fails to respond timely to changes in competitive factors in the industry, the Company could lose market share or experience a decline in revenue and profit margins.

The Company intends to protect and grow its market position through incremental wireless and DSL customer acquisitions, particularly into service bundles that include an access line. In support of these expectations, in February 2004 the Company launched an aggressive marketing campaign titled "You Add, We Subtract", designed to promote further bundled suites of communications services on a single bill for a reduced flat monthly fee. The Company also expects greater depreciation expense related to shortening the estimated depreciable life of its TDMA network assets to the end of 2006.

The Company has substantial state and federal operating loss tax carryforwards. As a result, the Company expects cash payments of less than \$5 million related to income taxes in 2004. The Company expects its effective tax rate to be approximately 50%.

CBT faces competition from other local exchange carriers, wireless service providers, interexchange carriers, cable and satellite providers and Internet service providers. The Company believes CBT will face greater

Table of Contents

Form 10-Q Part II

Cincinnati Bell Inc.

competition as more competitors emerge and focus resources on the Greater Cincinnati metropolitan area. In November 2003, Time Warner Cable filed an application with the Public Utilities Commission of Ohio to provide local and interexchange voice service in several market areas in Ohio, including Cincinnati, and expects to begin offering residential service in 2004. In March 2004, the local gas and electric supplier announced that it would begin offering high-speed Internet access over electrical lines to customers in CBT's operating area. Also, the emerging voice over internet protocol (VoIP) providers offering service in other areas of the country may begin offering service in CBT's operating territory.

CBW is one of six active wireless service providers in the Cincinnati and Dayton, Ohio metropolitan market areas, including Cingular, Sprint PCS, T-Mobile, Verizon and Nextel, all of which are nationally known and well funded. The Company anticipates that continued competition will likely continue to cause the market prices for wireless products and services to decline in the future. CBW's ability to compete will depend, in part, on its ability to anticipate and respond to various competitive factors affecting the telecommunications industry. Furthermore, as evidenced by AWE's announcement that it has agreed to be acquired by Cingular, there has been a trend in the wireless communications industry towards consolidation through joint ventures, reorganizations and acquisitions. The Company expects this consolidation to lead to larger competitors with greater resources and more service offerings than CBW. Although the Company is currently in discussions with AWE and Cingular regarding Cingular's proposed acquisition of AWE, it is not completely clear what impact the acquisition will have on the operations of CBW or on Cingular's/AWE's desire to remain in the CBW venture. In addition, should AWE or Cingular decide to sell its 19.9% ownership interest to a third party, the Company has a right of first refusal to purchase the interest. However, CBW's implementation of GSM/GPRS should improve the Company's ability to compete by selling new products such as advanced data services, lower incremental capital expenditures per subscriber, and minimize additional investment in the legacy TDMA network.

The Company's other subsidiaries operate in a largely local or regional area, and each of these subsidiaries faces significant competition. CBAD's competitors include resellers, competitive local exchange providers and large national long distance carriers such as AT&T Corp., MCI and Sprint Corporation, in addition to emerging VoIP providers. Public competes with several other public payphone providers, some of which are national in scope and offer lower prices for coin-based local calling services. Public payphone usage has also continued to be adversely impacted by the growing penetration of wireless communications.

The CBTS subsidiary competes against numerous other information technology consulting, computer system integration and managed-service providers, many of which are larger, national in scope and better financed.

The Company intends to continue to utilize its investment in its local wireline communications network and its regional wireless network to provide new and incremental product and service offerings to its customers in the Greater Cincinnati and Dayton, Ohio markets and utilize its well-regarded brand name to enter new markets near its current operating territory.

Item 3. Qualitative and Quantitative Disclosures about Market Risk

The Company is exposed to the impact of interest rate fluctuations. To manage its exposure to interest rate fluctuations, the Company uses a combination of variable rate short-term and fixed rate long-term financial instruments. The Company has historically employed derivative financial instruments to manage its exposure to fluctuations in interest rates. The Company does not hold or issue derivative financial instruments for trading purposes or enter into interest rate transactions for speculative purposes.

Table of Contents

Form 10-Q Part II

Cincinnati Bell Inc.

Swap agreements involve the exchange of fixed and variable rate interest payments and do not represent an actual exchange of the notional amounts between the parties. Because the notional amounts are not exchanged, the notional amounts of these agreements are not indicative of the Company's exposure resulting from these derivatives. The amounts to be exchanged between the parties are primarily the result of the swap's notional amount and the fixed and floating rate percentages to be charged on the swap. In accordance with Statement of Financial Accounting Standard SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities (SFAS 133), interest rate differentials associated with the Company's interest rate swaps are recorded as an adjustment to interest payable or receivable with the offset to interest expense over the life of the swap. The Company had interest rate swap agreements, which expired throughout 2003. During the first three months of 2003, the fair value of the interest rate swaps increased resulting in a year-to-date, after-tax net gain of \$1.7 million, which was recognized in Other Comprehensive Income.

Potential nonperformance by counterparties to the swap agreements exposes the Company to a certain amount of credit risk due to the possibility of counterparty default. Because the Company's only counterparties in these transactions are financial institutions that are at least investment grade, it believes the risk of counterparty default is minimal.

Interest Rate Risk Management The Company's objective in managing its exposure to interest rate changes is to limit the impact of interest rate changes on earnings and cash flows and to lower its overall borrowing costs.

Item 4. Controls and Procedures

As of March 31, 2004, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's President and Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rules 13a-15(e) and Rule 15d-15(e). Based upon that evaluation, the President and Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective as of March 31, 2004 in timely alerting them to material information relating to the Company (including its consolidated subsidiaries) required to be included in the Company's periodic Securities and Exchange Commission filings. No significant deficiencies or material weaknesses were identified in the evaluation and therefore, no corrective actions were taken. There were no significant changes in the Company's internal control over financial reporting that occurred during the quarter ended March 31, 2004 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Subsequent to the May 10, 2004 original filing date of the Form 10-Q and in connection with the corrected amounts disclosed in Note 1 of the Notes to Condensed Consolidated Financial Statements, the Company identified a deficiency in the manner in which a modification was made to a footnote disclosure after final approval and sign-offs had been obtained from senior management. In response, the Company has strengthened the review and approval process, the timely communication of reporting issues identified and the adherence to existing policies and procedures.

(b) Reports on Form 8-K

Form 8-K, date of report January 7, 2004, reporting the Company announced plaintiffs' counsel in a number of putative class action lawsuits filed against the Company in late 2002 filed an amended consolidated complaint that contains additional allegations, including allegations relating to the recognition of revenue from network construction agreements in 2000 and 2001.

Form 8-K, date of report January 12, 2004, reporting the Company announced the election of Brian Ross as Chief Financial Officer to the Company effective immediately.

Form 8-K, date of report February 12, 2004, reporting the Company issued a press release announcing that it has reached a settlement of an arbitration proceeding with El Paso Global Networks regarding a broadband network construction contract entered into in 2000. The company previously disclosed that a tentative settlement of the arbitration had been reached. As part of the settlement, both parties have agreed to drop their respective claims for monetary damages. The company recorded a \$5 million charge in the fourth quarter of 2003 as a result of this settlement.

Form 8-K, date of report February 25, 2004, reporting the Company announced the Board of Directors named Gary A. Cornett as Vice President, Controller of the Company effective February 24, 2004.

Form 8-K, date of report March 15, 2004, reporting the Company issued a press release announcing the delay of the filing of the Registrant's Annual Report on Form 10-K for the year ended December 31, 2003 and the Registrant's intent to restate prior financial statements.

Form 8-K, date of report March 19, 2004, reporting the Company issued a press release announcing that it has received a waiver from its lenders under its credit facility and intends to release earnings for fourth quarter and full

year 2003 on March 22, 2004.

Form 8-K, date of report March 23, 2004, reporting the Company issued a press release its financial results for the fourth quarter and full year 2003 and confirmed the effects of the previously announced restatement of prior financial statements.
